IS COLLECTOR-GENERAL

RICHARD IVERS, OF OOKALA, IS APPOINTED.

Brother of Mrs. Wm. G. Irwin, and is an Old Resident of Islands—Recognized as Expert Accountant.

Richard Ivers, brother of Mrs. Wm. G. Irwin, was today appointed collector general of customs.

The place was first offered to Port Surveyor George Stratemeyer, who has been in the service since 1893, but was declined by that gentleman. Mr. Stratemeyer was called before the Cabinet this morning, but refused flatly to consider the place at all. Mr. Damon then submitted the name of Mr. Ivers and he was elected.

Mr. Ivers needs no introduction to the people of the Islands. Since his arrival here some nine years ago he has served with credit as accountant on several plantations. For a long time he was at Ookala and was also connected with Hakalua.

The commission of the new man is being made out today and he will take charge of his office at once. He is at present in the city. His official duties will begin tomorrow. With Mr. Ivers as collector and Mr. Stackable as deputy it is felt that the gulf occasioned by the unexpected departure of Mr. McStocker and Mr. Cline has been satisfactorily bridged.

KAMEHAMEHA DAY RACES

GREAT SPORTING EVENTS AT THE PARK.

Was Clean Sport—Show of Jockeying Sat Down on Firmly by Judges—Most of the Favorites Won.

The Kamehameha Day races formed a most pleasant and satisfactory program. It is the common remark that, save for some slight digressions, the sport was clean in the extreme. One jockey, found in a trick, was summarily dealt with and will not appear on the Hawaiian track again.

The crowd Saturday afternoon was small, but the races were excellent. Yesterday there were fully as many people out as in former years. The band played yesterday, and lunch was served beneath the grand stand. Both the Jockey Club and grand stands were crowded all day.

Following is a summary of Saturday's events: Bicycle race, one mile, won easily by John Manoa. Time, 2:46. Half mile dash, Kamehameha cup, won by Cunningham's Permalito. Time, 51. One half dash, Kapiolani cup, won by Venus in 48 1-5.

Five-eighths mile dash for the Kalakaua cup was won by Amarino over Royalist in 1:04 1-5. There was but one heat in the best two in three trotting race between Morocco and Lady Wentworth, the latter giving it up after the first mile. This was something of a "walking" event at best, the time being 3:01 1-5.

In the mile dash for the Rosita cup Venus, Sympathetic's Last and Ajidote finished in a bunch. Venus ran under the wire a neck ahead. Time, 1:47 1-5. The three-fourths mile dash was taken by Amarino in 1:20 1-5. Royalist was the competitor. Monday's racing began promptly at 10 a. m. Following is a summary of the events. Two-mile bicycle race, won by John Manoa in 5:32. The half-mile dash for the Union Feed Company's cup resulted in a dead heat. The tie was between Frank S. and Venus. Cunningham was dissatisfied with the result and declined to enter his animal, Frank S., for the run-off. The time was 49 1-5.

In the five-eighths-mile dash for the Mana cup Gartelme came under the wire in 1:03 1-5. The mile dash for the Irwin cup resulted first in a foul. Seabreeze crowding Amarino to the fence. A protest was made and allowed. The rider of Seabreeze was ruled from the track for life and fined \$25. In the run-off Amarino won in 1:47 with Antidote a close second.

Two of the three heats in the fifth event, the best two in three trotting race for the Stock Exchange cup and \$250 added, were won by Loupe. The entries were Loupe, Violin, Irish Lassie and Our Boy. There was a great deal of betting and the race was one of the most exciting of the day. Our Boy won the second heat. The time of the three heats was 2:13 2-5, 2:15 1-5 and 2:18. The three-fourths mile dash for the Waikapu cup was won by Venus in 1:18. Royalist was the only entry, Amarino having been withdrawn during the day.

The race for the Criterion cup was an exciting event and resulted in a fine finish. It was one and one-eighth miles and was won by Amarino by a neck. Antidote was second and Sympathetic's Last was the third horse in the bunch. The time was 2:16 1-5. The last event of the day was the gentlemen's driving race, one mile, for the Jockey cup. The owners drove their own horses. These were the entries: Prince David's Morocco, Prince Cupid's Silver King, Dr. Humphris' Gussie B. and Wm. Wolters' Flora G. The last named won easily in 2:38 with Morocco second.

Yesterday was a fine one for racing. The dust was the only bad feature. On Saturday there was considerable wind.

The officers of the day were: Theo. Hoffman, Edgar Halstead and Sam. Parker, judges; T. V. King, clerk; Albert Horner and Lionel Hart, starters; W. F. Love, James L. Torbert and Louis Marks, timekeepers; W. Lumahel and Thomas P. Cummins, clerks of the course; Horace Crabbe, in charge of saddling paddock.

MR. CECIL RHODES TAKES WATER. During the speech to the shareholders of the Chartered Company, Mr. Rhodes' voice was affected by his cold. One of his brother directors handed him a glass of water. "Is it Apollinaris?" inquired the speaker, and on receiving an affirmative reply, took a draught, said emphatically, "Good," and resumed his speech.—London Daily Mail, April 22, 1898.

FIVE IN A SKIFF AT SEA

FEARS THAT THEY HAVE BEEN LOST.

Crew of the Mokulele Left Hanalei in a Small Boat and Have Not Been Heard of Since.

HANALEI, June 10.—It is believed that five men who left here in a small skiff have been drowned somewhere between here and Waimea. They were the captain and crew of the wrecked schooner Mokulele, and a carpenter named W. Wyman of Nawiliwili.

Captain Harry Evans paid the crew of several days ago and from that time on some of the crew spent their time in drinking and disorder. Finally their conduct became so bad that the deputy sheriff on Wednesday told them if they did not leave Hanalei by dark he would arrest them. About 5 o'clock five got into a small skiff owned by W. Wyman and put out to sea saying they were going to Waimea. The five were Joe Irving late captain of the Mokulele, Wyman, two sailors from some deep water vessel in Honolulu who had shipped on the Mokulele and a native whose home is in Nawiliwili. They passed out to sea in the direction of Kalalau, and since that time have not been seen or heard of. Inquiries all along the coast and by telephone and other means, but could not find any trace of them. Their skiff was so heavily loaded that in the rough sea that prevailed it would be very likely to capsize.

Captain Nelson of the schooner Ala fully confirms the foregoing dispatch. "As they left Hanalei," he says, "they called out to me 'we've got plenty of pokehala and we're going to Kalalau.' That was practically the last seen of them. I made inquiries all down the coast by telephone and other means, but could not find any trace of them. Their skiff was so heavily loaded that in the rough sea that prevailed it would be very likely to capsize."

THE NEW RAILWAY MATTER

CABINET WILL CONSIDER IT ON FRIDAY.

Attorney W. O. Smith to Present Petition for Charter—Mr. Thurston Against—Minister King at Work.

Captain James A. King today resumed his duties as Minister of the Interior. He was present at the Cabinet conference this morning. The Minister states that he is in fair health though is still a bit weak. He feels that the next few days will pull him together in good shape. Since leaving for Hawaii he has allowed his beard to crop out on the sides of his face. The extra hirsute decoration being quite gray makes the head of the Interior office look older than a man of thirty or forty.

The matter of a charter for the proposed Hilo and Honolulu Railway was considered by the Cabinet, Friday. Attorney W. O. Smith presented the petition at today's session, but President Dole preferred postponing consideration until the Hilo Railway Company, which is much interested in the matter, could have a representative present. It is understood that Mr. Thurston will attend the meeting with Mr. Smith on Friday. The attorney-general recommended that a board be appointed to investigate the merits of a petition of the Honolulu Sugar Company to have the road at Aiea, through its plantation, changed. It is desired to move the driveway further makai so as to run directly through the cane estate. There has been some objection to the project, and an official inquiry into it deemed advisable. Recommendation adopted and the commission will be appointed by the President.

TRIAL OF WADE.

The trial of George Wade in the Circuit court for the murder of William Gillespie on the steamship Australia will come up in August before the regular term. This has been definitely settled. It is now certain that all of the witnesses for the Government who are employed on the steamer will be here.

SHAKESPEAREAN READING.

Mrs. Hannibal Williams will read "A Midsummer Night's Dream" at the Y. M. C. A. this evening, beginning at 8 o'clock sharp. Mendelson's special music will be presented under the supervision of Miss Patch. Tickets will be on sale at the door.

FULLY SATISFIED.

The Orpheum was packed again last night, a small audience now is the exception. Those who attend come away fully satisfied, they get their money's worth.

This evening the same farce-comedy "Duffy's Daughter Kate" will be given, a full change tomorrow night.

If you want a new carriage or your old one repaired call on W. W. Wright.

MORE OF THEM USED.

There are probably more Singer sewing machines used in the United States than of any other one make. This is a very excellent guarantee that they are one of the very best machines. The points of merit are strength, durability, easy running and simple construction. Very little mechanism to get out of order makes repair bills small.

When in need of a new sewing machine examine the Singer before purchasing any other make. B. Berger, agent, Bethel street.

Stop at the Owl Lichen Wagon and take home a hot Chicken Tamale.

HOLUALOA LAND DIVISION

EVERY SHAREHOLDER TO GET A SLICE.

Judge Perry Decides Upon the Partition and Appoints a Commissioner to Make It—Sugar Plantation.

A decree was signed today by Judge Perry in the matter entitled M. F. Scott vs. E. N. Pilipo and over a hundred others, bill for partition of the Holualoa homesteads in South Kona. There has not hitherto been a division between the many claimants to this property and no land lines are established. The vast homestead tract is a part of that now held in view as a suitable cane estate. In its decree the court orders that the portion of the land lying directly along the beach shall be divided into, one for each owner of shares in the haul of Holualoa.

Second, the land between this slip and the 700 feet level shall be divided into suitable tracts and sold at public auction for the benefit of the haul.

Third, that the land lying above the 700 feet level and up to the government road shall be divided into lots, one for each owner of shares in Holualoa.

Fourth, the land lying above the government road, approximately 1000 acres, shall be divided into lots, one for each shareholder in the haul.

Fifth, that all remaining land, lying mauka of the last named portion, shall be sold at public auction for the benefit of all the shareholders in Holualoa.

Wm. A. Wall is appointed commissioner to make the division of the lands, to make the sales of the lots and to complete the transfers.

A CHARMING RECEPTION.

Many Guests Meet Mr. and Mrs. S. E. Damon.

Mr. and Mrs. S. E. Damon were most charmingly introduced to the people of Honolulu at a reception given in their honor at Moanalua Saturday afternoon.

S. E. Damon is a son of Hawaii who has been abroad for several years and now returns with his bride a charming young woman from Edinburgh. Mr. and Mrs. S. E. Damon are proud of their son and his wife as they well may be, and nothing was left undone to make the reception in their honor a delightful affair. And such it was as the hundreds who accepted the invitation to be present all know.

Moanalua is an ideal place for such a gathering. Its charms never fade. Mr. and Mrs. S. E. Damon are delightful hosts. Special trains were provided to take the guests thither and back. The American flag floated from the tall staff on the lawn. Professor Berger and his band played throughout the afternoon, while the quintette club furnished music for the dancing in the pavilion. This dancing pavilion though only one of the features of Moanalua is one that is remembered on such an occasion. On Saturday it was especially happy in the decoration is displayed. Both in design and execution the decoration was the work of Mrs. Amy L. King. Above American and Hawaiian flags were draped to give the suggestion of an immense tent. To carry out this idea the supporting columns were hidden with banners and bunting by a Moore giving an air of lightness to the effect.

REMAINS SENT HOME.

Early this afternoon the body of William Gillespie, the young man shot on the Australia a month ago, was taken from Nuuanu cemetery and transferred to the steamer to be sent to San Francisco. The relatives of deceased wrote by the last mail for the remains.

KAMS DEFEAT ARTILLERY.

Stars and Kamehamehas to Play Next Saturday.

The Kamehamehas defeated the Battery baseball team on the grounds at Makiki yesterday morning by a score of 22 to 7. A fairly good game was put up but they finally broke and the game became awfully lopsided.

It has been arranged for the Kamehamehas and Stars to play next Saturday afternoon in place of the Stars and Battery I. This is in order that the soldiers may have more time to practice.

ONE APPLICATION RELIEVES THE PAIN.

Mr. P. Ketchum of Pike City, Cal., says: "During my brother's late sickness, I used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave him any relief." Many others have testified to the prompt relief from pain which this liniment affords. For sale by all dealers and druggists. Benson, Smith & Company, general agent, Hawaiian Islands.

FOR CAMARINOS' REFRIGERATOR.

Australia—Cherries, Grapes, Oranges, Lemons, Limes, Celery, Cauliflower, Cabbage, Rhubarb, Asparagus, Fresh Salmon, Flour, Raisins, Halibut, Crabs, Eastern and California Oysters (in Tin and Shell), all Game in Season, Turkeys, Chickens, New crop of Nuts and Dried Fruits, Onions, Burbank Potatoes, Swiss, Parmesan, Rochefort, New Zealand and California Cream Cheese, Olives, All kinds of Dried Fruits.

IMMENSE QUANTITIES.

Kerr, the Queen street merchant, has just received from London an immense shipment of dry goods. They were purchased by his London agent at the lowest possible rates for cash, and will be sold accordingly.

MATTERS OF HISTORY.

How many "great gods" had the ancient Hawaiians? Who first discovered the Hawaiian Islands? Alexander's Hawaiian History answers all such questions. For sale only at Golden Rule Bazaar.

PHILIPPINES FOR CHRIST

A MAGNIFICENT MISSIONARY MOVEMENT.

Hawaiian Board Heads the Cry From Mindanao "Come Over and Help Us" Over \$10,000 Raised.

One of the most important steps ever taken by the Hawaiian Board is its determination just entered upon, to undertake the evangelization of Mindanao, the second largest of the Philippine groups. When this proposal was submitted to the Foreign Mission rally at Central Union church Sunday morning it was received with the greatest enthusiasm, and over \$10,000 was raised instantly to carry it out.

The subject was presented by Rev. Dr. Hiram Bingham, chairman of the committee on Foreign Missions of the Hawaiian Board. So rapidly and successfully, he said, are Gilbertese teachers being prepared for their work that there would seem to be little occasion for Hawaiian missionaries. There is no call at all from the Marshall Islands. In the Caroline Islands, Ponape is already well evangelized. The Mortlocks are supplied. A few are needed within the largest at Bué. And so we may regard Micronesia as virtually taken for Christ. But are there no other lands that have a special claim on us? Is there not a Macedonian cry from Mindanao the southeasternmost of the Philippines and bounding Micronesia as it were on the west? The Hawaiian Board thinks so and asks your support.

The resolution by which the board took this onward step and which was so heartily approved by the congregation of Central Union church is as follows:

"Resolved, That whereas, in the wonderful providence of God, there has been opened just now a door for centuries shut; a door to a very large island of 35,000 square miles, Mindanao, of the Philippines, bounding Micronesia on the west, and so comparatively our near neighbor, and now under the American flag, inhabited by 1,000,000 people, among whom there cannot be found a single Protestant missionary or a Bible translated into any of the various languages of the island, save one, and that spoken but by a small Malay tribe, this board would make known to its constituency its great desire to enter this door at the earliest possible date, and to co-operate, if feasible, with the American Board in the immediate evangelization of Mindanao."

NEW SCHEME THIS.

Government Contractors Will Dredge up the Coral.

The contractors who are digging the new United States berths at the foot of Richards street are going to try a new scheme for removing the coral rocks in their road. There will be no blasting. The dredger will be depended upon to dislodge the coral and take it upon a platform, where the contractors expect to break it up before it passes into the twelve-inch discharge pipes. Water from solons via the prospect with doubtful shrugs. They are at a loss to know whether they could not have profited by this simple contrivance in the past; at the same time they fear the new contractors have not heard that the Richards street coral is about as hard as marble with steel rods through it.

THE PHILADELPHIA.

Soon after reaching San Francisco the Ph 141 Iphia will go into dry dock at Port Orchard. And it will be some time before she will come out again, from all accounts. On the voyage from Samoa, with all her engines working, she was able to make but eleven knots an hour. Volunteer coal passers came down from the deck to keep her boilers up. It is said that the ship's bottom is in the worst sort of condition and, besides, there is something serious the trouble with her machinery.

HE BELIEVES IN COFFEE
PROSPECTS OF THE BERRY NOT SO BLACK AS PAINTED.
Review of Coffee Statistics of the Whole World—What Causes Brazil to Make so Great a Success.

EDITOR STAR:—I notice your comments on the coffee trade, and beg to say that I do not agree with the conclusions that you have arrived at; and I think it a question yet to be proven, whether the Olan coffee planters were wise to give up coffee for sugar securities. From a casual view it may look as if there is likely to be an overproduction of coffee, but while the output of the world is increasing enormously, the consumption is also increasing enormously.
The consumption of coffee in the United States has increased wonderfully, and now amounts to 11.45 pounds per capita. It took \$70,000,000 pounds or fifty-eight per cent of the world's output to supply the United States with coffee last year. If there is any danger at all, it will come from Brazil, which last year, produced 651,000,000 pounds of coffee; 200,000,000 more than any previous year, excepting 1897, and 120,000,000 pounds more than that year. But this coffee is grossly adulterated and thought by many people, hardly fit for use. Besides, there will undoubtedly soon be a duty put on it. The value of the Brazilian coffee crop for 1898, imported into the United States, amounted to \$41,000,000, and exceeded in amount the total "free" import of every sort from every country in the world, and being so great it is now thought that a duty will have to be put on it in the near future.
Of the other great coffee producing countries the Dutch East Indies produces 120,000,000 pounds to 170,000,000 pounds; Venezuela 62,000,000 pounds; Colombia 26,000,000 pounds; Costa Rica 23,000,000 pounds; Guatemala 12,000,000 pounds; Mexico 34,000,000 pounds, and the thirty odd smaller coffee producing countries, we have not so much to fear. Under these circumstances it would seem advisable to find out the secret of the Brazilians' success, even if a commissioner had to be sent there for the purpose, for it is very evident that they have some method, in advance of us, whereby they can produce coffee and sell it for 6 cents per pound.
The Hawaiian coffee industry has increased 250 fold since 1897, and there is every sign that this progress will continue, particularly as there are but few countries that can get a higher price than we do for our coffee. It must be borne in mind that this industry is only in its infancy; yet notwithstanding this, some of our most progressive coffee planters claim to have made 100 per cent above expenses. With a good climate, good soil, good coffee and by taking advantage of the market value of what is being made in other countries, in the coffee industry, the Hawaiian industry will be alright.

COFFEE PLANTER.
Kukai'au, Hawaii, June 7, 1899.
NEW FIBER.
Pineapple May Prove a Substitute for Silk.
The fiber of pineapple is being seriously considered as a material of industrial value in certain branches of manufacture, possessing a quality, when spun, which is said to surpass the ideal flax in strength, fineness, and luster. An illustration of this fact is furnished in the case of a certain quantity of such fiber prepared at Singapore, which when tested against an equal quantity of flax, sustained 250 pounds, while the latter could not bear more than 260 pounds.
As to the characteristics that render it readily adaptable for textile purposes it is stated that the mere process of bleaching suffices to destroy the adhesion between the bundles of fibers, and so renders it fit for spinning in the same way as flax. The isolated filaments are described as very fine, of a tolerably regular diameter from end to end, but of different size, and of remarkable flexibility, curling and crisping readily under mechanical treatment.
It is confidently asserted that such fiber can be employed as a substitute for silk, and as a material for mixing with wool and cotton, as silk is now so extensively employed. Its particular qualities seem to render it specially adapted in this line.

HIS COMPLEXION.
"De lady of de house insulted me by de offer o' a piece of soap," said Meandering Mike. "She's one o' dese pre-judiced people. She took a dislike to me simply because me complexion was sandy."
"Go 'way," exclaimed Plodding Pete. "You ain't no blond."
"I know it. But I step' in a gravel bank last night."

TUESDAY, JUNE 13, 1899.

Honolulu made general holiday yesterday and spread out into numerous amusements. The races attracted their usual crowd, but that was by no means the sole attraction. Sunday school picnics took crowds down the railway, while numerous small picnic parties made the valleys around Honolulu ring with merry voices. Farther afield went those who were fond of shooting, and had the muscles and energy to climb the mountain scarp after the elusive goat. While out to sea the white wings of many a pretty yacht flecked the blue waters of the Pacific. Each went after his own particular form of amusement, and fortunate are we that there is so much to be done and at such moderate rates. As time goes on and wealth increases, Honolulu will become one of the merriest spots on the face of the globe.

"Coffee planter" writes that the wisdom of the men who have changed over from coffee to sugar in Olan, has yet to be shown. It was pointed out in The Star of last week, that there were many places besides Olan devoted to coffee, and that there were people even in Olan who retained their faith in its future. The causes for the change in Olan were also pointed out. These were the apparently quick returns which sugar promised, and the fact that many had gone into the Olan coffee lands without experience and with insufficient capital. Olan also suffered from over confidence. The people who first took up land there, got it into their heads that there was no such country as Olan in the group, and talked in an exaggerated way of its prospects. This led the poorly equipped investor to rush in, with the result of a counter depression. There are plenty of coffee plantations in Kona, Hamakua and North Hilo, which are doing well, and which will prove a good permanent investment to their owners. The bottom of coffee has by no means dropped out.

The analysis of well water which was prepared for the water works bureau by chemist E. C. Shorey, shows the value of scientific investigation. Had the bureau gone ahead sinking well for a water supply for the northwest end of the city, without making this investigation, there would have been a pretty howl about the unsatisfactory quality of the water. Investigation showed that the further towards Kailih the wells were sunk, the better the water became, and the bureau is now able to sink wells with the absolute certainty of obtaining a perfectly satisfactory supply. But there was a time when it had been practically decided, upon that the wells should be sunk in the vicinity of the present Simon Kaai well. What a mistake this would have been is shown by the quantity of salt it contained. This well gave 23.5 grains of salt per gallon, while the Gulick well, further towards Kailih, gave only 8.89 grains of salt per gallon, an enormous difference.

THE COMING FOURTH.

The Fourth of July should be celebrated with especial fervor this year. It is the first time that the event will be celebrated under the Stars and Stripes, and it should be more than ordinarily brilliant. Last year the day passed without any great public observance, but for that there was reason. The city of Honolulu had been entertaining the volunteer soldiery, that had been passing through to Manila, with a lavish hand. Upwards of \$30,000 had been raised by public subscription for these entertainments, and a sum amounting to considerably more had been disbursed privately for the same object. Again, though we were assured that we were annexed, the flag had not been raised. The men who usually take prominent part in the organization of the Fourth of July celebration were wearied out with their whole-souled efforts in entertaining the soldiers. It was no wonder that the day passed off quietly.

But now all is changed. The Stars and Stripes float over the Islands, and we only await the action of Congress to know exactly our political status. But though that is not settled, our material prosperity is settled, and we have been enjoying a year of marvelous commercial and agricultural growth. Never in the history of the Islands has there been a period of such activity and success. Never in our wildest dreams did we venture to think that benefits of annexation would come so swiftly or be so wide spread.

The tangible advantages of annexation have not been confined to one party, which has come to be dominant. They have come to every one no matter what the opinions held before annexation might have been. The dyed-in-the-wool royalist who worked tooth and nail against annexation, and who daily reviled those who were striving to bring it about, shares in the general prosperity, as much as and in many cases more

than those who gave both time and money in the furtherance of the cause. It has been no case of "to the victors belong the spoils." The advantages, which annexation has brought, are universal on the Islands, and the signs of that universal prosperity are plain to every eye.

Take a glance around the group, and consider how every Island has awakened from lethargy. Look at Molokai. A year or so ago, it was out of the line of travel. Around Kaunakakai there were a few tumble down houses and forest of algaroba. Today there are cane fields and villages, and the hum of a busy plantation. At Kamalo there was the skeleton of a mill, burned years ago. Today the place is springing into life.

Look at Lanai, with its busy plantation at Maunaloa and its landing at Kahalepala, where less than a year ago all that was there was a roofless church, and a few scattered huts. Look at Oahu plantation on this Island, at Waiialua, also on this Island, at Kihel of Maui, at Nahiku, where the postman, the Roman Catholic priest and the school inspector were the rare visitors. Kauai has joined the march of progress, throwing open new lands and putting to practical use its magnificent water power. Puna of Hawaii promises the largest enterprise yet dreamed of.

Then consider the growth of the capital city. The extension of its buildings, the increase in its school accommodations, the bustle of its streets, and the push and hurry of its business methods. Look at the harbor filled with ocean going freighters, and count the funnels of the ocean liners which tie up at our wharves. All this has come from annexation, for annexation gave confidence, and confidence enabled enterprise to push forward undeterred by fears of revolution and confiscation and all the ills to which a petty government is exposed. We are reaping the advantage which we never had before, the guardianship of an absolutely stable government, which we never could have had as long as we remained either a petty monarchy or a petty republic.

Is it not right that we should make a special effort to celebrate the Fourth of July, our national day, with more than the usual eclat and brilliancy. It is a great day for us. The Independence of the United States of America means the independence of the territory of Hawaii. But for the growth of that great nation, what might not the fate of Hawaii have been. It might have been no better than Tahiti, or the Marquesas, or the unfortunate Samoa. But instead it has risen to a higher destiny, with the bright prospect of becoming a sovereign state along a galaxy of sovereign states. Then let every effort be made to make this coming Fourth of July, one that we, and those that come after us, can look back to as an historic day. One which the men of the present so honored and marked out, that the men of the future may say "Our ancestors appreciated the boon which they received, and did their very best to show that they appreciated it. The birthright which we enjoy, they were the first to show their appreciation of." Let this coming celebration be worthy of the day and of the new era.

GOOD WILL EXPRESSED.

Customs Bureau Employees Present Testimonials to Retiring Chiefs.

F. B. McStocker and J. F. Clay on their retirement from the customs service were the recipients today of something they prize very highly. Each was presented with a handsome engrossed testimonial signed by everyone of the fifty-nine employees of the customs bureau. It was the intention to make the presentation in the presence of all the employees. But the rush of work following the holiday made this impracticable. The presentation was made this morning by Warren Chamberlain the employe who has been longest in service in the department, on behalf of all his fellow employes. Mr. McStocker responding both for himself and Mr. Clay, said that he could not realize until he was actually leaving the position he occupied what it meant to have the good will and friendship of all those associated with him. He should prize this expression of that good will very highly. The testimonial to Mr. McStocker is as follows:

HONOLULU, H. I., June 10, 1899.
Mr. F. B. McStocker, Esq.

Dear Sir:—It was with the deepest regret that we, the employees of the customs bureau of the Hawaiian Government, learned of the resignation from the important position held by you in this department.

In your new line of business pursuits we will always remember the ever cheerful and friendly help and encouragement extended to us in the performance of our respective duties, and hope for your success in the great enterprise you have undertaken.

The testimonial to Mr. Clay is worded in the same way. Both are signed by all the employes of the department in the order of their seniority, the names of the pilots, Captain Fuller and Port Surveyor George Stratemeyer being among the first.

WANT A COOKING SCHOOL

LADIES PROPOSE TRAINING THE CITY'S SERVANTS.

All the Arts of the Kitchen to be Taught—Only Graduates of the School to be Employed Here.

Announcement was made some days ago of the intention of the ladies of Honolulu to establish a cooking school for the training and graduating of cooks. While this movement had a small beginning, it now has enlisted in it nearly all the housekeepers of the city and must eventually meet the hearty endorsement of support of everyone. Mrs. Dele, who is temporary chairman of the committee, has sent to this office the following self-explanatory notes of the project, which will prove of great interest.

The ladies of Honolulu are requested to attend a meeting at the Y. M. C. A. hall on Friday morning, the 16th inst., at half past 9.

First—To discuss the advisability or feasibility of forming a society or league of the housekeepers of Honolulu, for the purpose of raising funds to establish a cooking school, and employ a competent, professional cook for the training of Chinese and Japanese.

Second—Such Chinese and Japanese to pay a certain fee for the privilege of receiving instruction at said school.

Third—Said cooking school to issue certificates to servants after they have gone through a certain period of training.

Fourth—Such certificates to be of different grades, for instance, first, second and third, according to competence, and rates of wages to be regulated by the grade of certificate held by servant.

Fifth—All housekeepers, or those belonging to the society, to unite in refusing to employ cooks who do not carry certificates from said cooking school.

Sixth—Cooks who have been in the employ of persons for a number of years, and are satisfactory and competent, to be granted certificates upon examination by professional cook, employed by the Honolulu School of Cookery.

BISHOP THOMPSON. In the monthly meeting of the church defence and extension association to be held on Thursday evening, the desirability of inviting Bishop Thompson to visit these islands will be discussed. Bishop Thompson is the chairman of a committee of three bishops appointed by the last general convention to make enquiries of the condition of the church in Hawaii.

It is deemed expedient by many persons that Bishop Thompson should be enabled to make personal inquiry which should add greatly to the value of his report. The funds to meet the expense of such a visit have been generously donated.

Cure Liver Ills Pills

Hood's Pills are as peculiar and as pleasant, in comparison with all others, as is Hood's Sarsaparilla.

To compound a pill which shall be pleasant to take, shall not be water with what by age becomes insipid, and which shall be just that mild stimulant to the liver and bowels which shall help Nature to restore her disordered functions—that is the problem for the pharmacist.

It is easy to surge out that is not what is wanted. Come out sure and un-

disturbing calarttic will set Nature to going, and relieve the head, the stomach, the liver and all the organs of the body from the evils of a clogged drainage.

The Liver is the gateway between the stomach and the organs which the stomach purveys for. Stop up the gate and death quickly ensues. Burden it with obstructions and a thousand ills result.

Hood's Pills CURE Liver ills, sick headache, biliousness, indigestion, nausea, constipation, without purging, without pain, without violence.

Everybody at sometime needs them. Everybody should keep them on hand at all times for emergencies.

The cleanest, brightest, safest and really a long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night's lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks." This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

All Bushmen Use it,

For Cleansing the Blood it has no Equal.

We give below the portrait and testimonial of Mr. Granger Ward of Brisbane, Queensland

"Some years ago while in America I had fever and Ague. It left me in a very weak state and quite done up. I took some of Dr. Ayer's Sarsaparilla and it soon put me to rights and my strength returned. I can safely recommend

AYER'S Sarsaparilla

to others. While in the bush of this country I had an attack of scurvy but I soon got free of this complaint by using the same remedy. For cleansing the blood and for eruptions of the skin I do not think it can be beat. All the bushmen use it."

For Constipation take Dr. Ayer's Pills. They promptly relieve and surely cure. Take them with Dr. Ayer's Sarsaparilla; one aids the other.

This brew is from the "Capital Brewing Co." of Olympia, the capital of the State of Washington, and was received by the "Garmon," Mr. Schmidt, the leading spirit of this corporation, is a practical Chemist and Brewer, and after years of search and investigation located his plant at Olympia, on account of the peculiar virtues of the water of the Tum Falls, a stream that is noted for its distinctive qualities of clearness, coldness and lack of mineral and decaying vegetable impurities. Pure beer can only be made with pure water, and Tum water is traditional in Washington with the Indians and original white settlers. The "Olympia Draught" is under the special control and agency of Mr. Dee and he invites his patrons and friends to a personal test and is willing to abide by their judgment on the merits of his latest venture.

CURRENCY REFORM PLANS

PRACTICABLE SCHEME AT LAST PROPOSED.

President Favors It in Preference to the More Complicated Schemes Which Have Been Put Forward.

WASHINGTON, (D. C.), May 30.—The scheme of currency reform which has been announced, came from the Republican caucus committee of the House and the report as agreed upon is now in the hands of the President. The following are the chief recommendations embodied in the report:

The redemption of all obligations of the Government in gold on demand. Greenbacks, when once redeemed for gold, to be reissued only for gold. Permitting national banks to issue notes to the par value of their government bonds deposited in the treasury, instead of ninety per cent, as at present. Permitting the minimum capital of national banks to be \$25,000, instead of \$50,000, as at present.

It is needless to say that this meets with the hearty approval of the President, who considers it much more practicable than any of the complicated schemes of currency reform that have been suggested. He has already endorsed, either in his public addresses or in his messages to Congress, every one of the several propositions, and therefore there is no doubt that they will receive his official approval.

Secretary Gage remarked that the report of the caucus committee as above given "was pretty good for a starter," but that what all he would allow himself to say, because sooner or later he will be required to discuss the subject officially.

LAWTON IN COMMAND.

New Assignment of Troops in the Philippines.

MANILA, June 1.—General Lawton has been given command of the defenses of the city and troops are forming lines around Manila, which are forming division. General MacArthur commands the outlying garrisons and troops are holding the railroad and rivers.

WASHINGTON, June 1.—The War Department received the following today: Manila, June 1.—S. M. reports from Negros that he has punished the insurgents who murdered Captain Tiley, that the eastern coast of the island is now under the American flag and that the inhabitants ask protection against robber bands. The rebels, pursued into the mountains by United States and native troops, were severely punished.

WASHINGTON, June 1.—Replying to inquiries of the Secretary of War, General Otis telegraphs that he is still of the opinion that 30,000 troops will be necessary for effective control of the Philippines.

BOARD OF AGRICULTURE.

At the meeting of the Board of Agriculture Saturday morning it was decided to allow the Omaha commissioners use of the rooms of the board for arranging the exhibit.

Secretary Haughton was instructed to provide protection for the trees on the beach board.

As Mr. Rice did not reach the meeting in time, nothing was done with the proposal to allow Professor Koebele to go to California.

PERMITS ISSUED.

At a special meeting of the Board of Immigration permits were issued for 348 Italian laborers, to be brought from the northern part of Italy. Minister Damon presided at the meeting.

WORK PROGRESSING.

NAHIKU, June 9.—Work at Nahiku plantation is progressing rapidly. President Hocking is here looking after matters. A large quantity of material is already on hand for building the landing and the laborers' quarters. J. A. Griffin has just been awarded a contract for clearing fifty acres of land.

SUNDAY SCHOOL PICNICS.

Yesterday was a great day for Sunday School picnics. Central Union Church Sunday School picnicked on the grounds of Oahu College, the Methodist Sunday School at Remond Grove and the Portuguese Sunday School at the Peninsula. The day was ideal and the attendance at all of them excellent, and the enjoyment thorough.

BABIES AND ELEPHANTS.

Siamese women intrust their babies to the care of elephants and it is said that the trust is never betrayed. The babies play about the huge feet of the elephants, who are ever careful never to hurt the little creatures. And if danger threatens, the sagacious animal will curl the child gently up in its trunk and swing it out of harm's way upon its own broad back.

DANGEROUS.

A steel handle makes a nasty umbrella, but it also makes a first rate lightning rod. A New York girl who was carrying one in the street was struck by lightning and burned from head to foot. Luckily, so Nicola Tesla says, she was standing in a puddle of water at the time, else she would have been killed.—Republican Standard.

IT CURED HER COUGH.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor wretch, gave it to me. I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had a good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, MRS. MARY A. BEARD, Claremore, Ark. OTHELLO AND DESDEMONA

McVAY'S COMPANY AT THE OPERA HOUSE.

Performance of Shakespeare's Tragedy.
New Scenery and Dresses—New Comedy Promised for Next Saturday.

On Saturday evening W. McVay opened the theater for a season of legitimate drama and comedy, commencing with "Othello." Considerable pains had been taken to mount the play well, and two new scenes had been specially painted. The dresses were also handsome and historically accurate.
As the Moor Mr. McVay gave a careful and accurate rendering of the part. The earlier passages were given with dignity and clear enunciation. In the third act, when Iago begins to pour the venom of jealousy into his ear, the tragic power began to be developed, and gradually increased in power till the climax was reached at the end of the fifth. By physical advantages of form and voice and by excellent training, Mr. McVay is well fitted for the part of Othello and he played with care, avoiding the pitfall of rant into which so many are so apt to fall.
Mr. Boggs portrayed Iago well. Iago is the most subtle and most deeply dyed villain of Shakespeare's creation. He has not a redeeming quality in him. And then he is such a scheming and plausible scoundrel, masquerading under the guise of a soldierly honesty. He makes no bold charge, but builds up his fabric of mischief and ill doing by innuendo—a word dropped here, and action there, all tending to his purpose of destroying Cassio, and caring nothing for the injury he does Desdemona, or the ruin he brings upon his trusting general, the Moor. As for Rodrigo, he is but a puppet in his hands, to be broken with a dagger thrust when Iago has done with him. No character, among the older dramatists approaches that of Iago in pure villainy, except perhaps Marlowe's "Jaw of Malta."

Iago is no easy part to play and to Mr. Boggs must be given high credit for his interpretation. Twice the curtain fell upon him as he held the stage by himself, and the excellence of his elocution and his dramatic power called forth applause which sent it up again. Of the support, Miss Boyer made a satisfactory Desdemona, especially in the scene where she pleaded for the restoration of Cassio to favor. In this she was very winning, and she showed to advantage in the scene of the handkerchief, and again in the long dialogue with Othello, while Emilia's waiting at the door which ends with that deep insult from Othello "We have done our course. There's money for your pains."
The play was repeated on Monday evening, but the audience, as on Saturday, was small. On Saturday next Mr. McVay and his company will put forward the comedy "The Late Mr. Jones," which is very amusing and will cater to a more popular taste than Othello does.

A TEXAS HOTEL.

It is run by the "Seven Sanctified Sisters."
They say that the best hotel in Texas is to be found at Belton, says an exchange, a town on the Santa Fe road, and it is kept by "seven sanctified sisters," as the proprietors are popularly called. Several years ago a woman in that place and her husband quarreled over the best way of expounding the Scriptures to a Sunday school class, and were so stubborn that they separated and were finally divorced. This family controversy was taken up by the town, which was soon distinctly divided between the adherents of the husband and the adherents of the wife. The result was a large crop of divorces, and seven husbandless women, including the original cause of the commotion, joined together and rented the town hotel. One of them did the cooking, another was parlor maid, a third made up the beds, and so they divided the work up among them and ran the establishment upon the co-operative plan. They would not employ a man about the place, although the most of their patrons were men of course. People say that women travelers preferred to stop elsewhere, and that would be a woman's way. One of the "seven sanctified sisters" used to drive a big carry-all down to the railway station three or four times a day to meet the trains, but she let the regular transfer company handle the baggage. The hotel prospered from the beginning, and there was no reason why it should not be everything new and homelike and the cooking was the best in Texas, which is a good reason why it was appreciated. Every Sunday it was crowded. The drummers used to swarm there from all the northern central part of the State, and every passing train on the Santa Fe trains was an advertising agent. The "sanctified sisters" made money, as they deserved to do; they enlarged their establishment, and started a big laundry in connection with it, where the drummers left their soiled clothes to be done up when they were out during the week. Then the "sisters" bought a hotel at Waco and started a laundry there, with equal success, and now they are talking of starting one in New York.

AIRSHIP.
Count von Zepplin, a retired Wurtemberg cavalry general, who has been for years experimenting with an airship, after a series of successful experiments with small models in the presence of the king of Wurtemberg and experts, has succeeded in forming a company with a capital of 4,500,000 marks, for the purpose of exploiting his invention. A huge airship is now being built according to his plans at Manzell, and the first public ascent is promised for July 3. This will be on the Boden sea, 500 meters from the shore, as it is supposed that the airship will make a better exhibition of its floating and steering qualities above water.

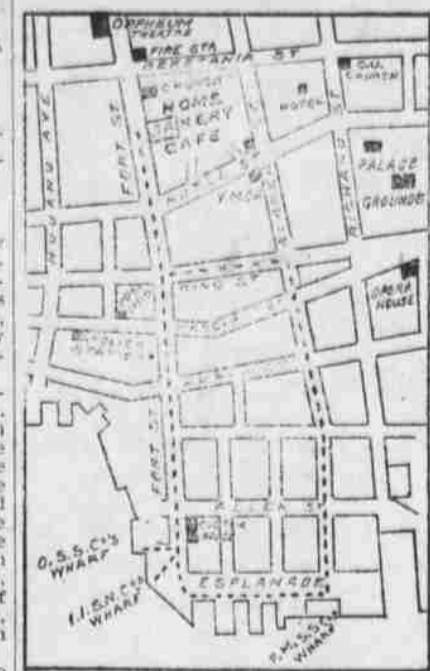

BURRITT'S BOOKS.
Elihu Burritt gave all his library including many manuscripts, to the school in New Britain, Conn., which was named in honor of him. No care was taken of the collection and it has now been discovered that all the manuscript volumes have disappeared, as also have many other books.

KODAKS.
 You are told that "there is no Kodak but the Eastman Kodak." We handle only Eastman Kodaks. Their goods are a guarantee of quality. We have them from \$5 to \$35, and whether you buy the lowest priced instrument or the highest, they will be found just as representative. Kodaks make the best of Holiday Presents, acceptable to either sex.
FILMS.
 Eastman Films are good Films. That is the reason we handle them exclusively. You will always find our Films fresh, and fresh Films insure the best work.
Developing and Printing.
 Many amateurs enjoy the work of developing and printing. There are others who have not the time or inclination to do the work themselves. We make a specialty of this branch of the Kodak business. Our customers are kind enough to say we turn out better work than they get elsewhere. We take pride in this department of our business. Every Film developed carefully. If our photographer finds you are making mistakes he will correct you. That's a very important advantage. Let us show you what we can do.

It Must Be

remembered that our stock represents the finest ready-to-wear Clothing made in the United States—stylish, serviceable, becoming Clothes that have nothing in common with ordinary "ready made" garments, nor with the kind of goods turned out by the average custom tailor.
 We have recently added to our stock the lines made by Hart, Schaffner & Marx of Chicago, in addition to our Stein-Bloch goods.
 Do not pay out money for awkward, old fashioned ready made Clothing when you can have the H. S. & M. goods for the same cost. Do not pay the tailor's price when you can get as good, and probably better, satisfaction, for less than half the money.
