Fire Destroys Family Home In Chalan Kiya

by Patty Jacobs

Fire broke out in a sleeping baby's bedroom and quickly engulfed the Jack Duenas home in Chalan Kiya Thursday morning, according to Maria Duenas. The call came in at 9:44 a.m., according to Fire Inspector Jack Camacho. Mrs. Duenas said her daughter called her from a neighbor's house and said the house was on fire. She said she told people in the Commonwealth Utilities Corporation (CUC) office where she works to call the Fire Department. She immediately went home then, she said.

While the cause of the fire is unknown and is under investigation, faulty wiring may be the cause, Camacho said.

The family maid discovered smoke coming from under the door to Joanie Duenas' bedroom, where she was taking a nap. Joanie, 16 months old is the youngest of the Duenas children. Both her brother Ernesto, 6, and sister Jill, 15, as well as the maid and Joanie escaped the fire without injury.

Camacho said there were no firefighters injured in the incident. The house was a total loss, according to Camacho. He said

the fire spread quickly and may have engulfed the house in only 10 minutes because it was constructed with wood ceilings.

"When the ceilings are made of non-fire retardant material, the superheated air gets trapped above the ceiling and the fire races throughout the whole house very rapidly," he said.

Camacho said two fire suppression units responded with 20 fire fighting personnel involved. According to Camacho, the dwelling was about 15 years old.

Jack Duenas had only left the residence about 10 minutes when the fire broke out, according to Mrs. Duenas. They own a farm

in Talafofo and are building a house on the property.

According to Mrs. Duenas, the new house is unfinished and not ready for occupancy. She said, "I don't know what we're going to do now. Everything we owned was burned up."

Camacho- Second Escapee Surrenders To DPS Yesterday

by Fermin Meriang

The search for a second escaped convict who had remained at large since late Sunday afternoon was called off after the prisoner surrendered to police yesterday afternoon.

According to Department of Public Safety Public (DPS) Information Officer Captain Tony Reyes, Herbert Mendiola

Camacho, who had eluded police since Sunday afternoon, was taken to custody at about 12:45 p.m. yesterday.

Reyes said Camacho, at 12:02 p.m. Thursday, turned himself in to his sister's house in Navy Hill. The sister, Remedio Bowie, contacted the police shortly thereafter.

Congressman Discusses Issues Facing Belau

by Fermin Meriang

The following is a summary of a recent interview with Belau Congressman Hideo Tell about some of the major problems affecting his government. Tell was recently re-elected to his second term in the House of Delegates, representing his home state of Airai.

Tell was on Saipan as a representative of his government to the Inaugural ceremony of Air Mike Express and its maiden flight to Rota.

The recent drug busts in Palau involving former government officials and a son of a prominent businessman by Drug Enforcement Agency (DEA) agents are far from settled.

According to Tell, the investigation is still continuing in an effort to bring to justice even higher officials and leaders of the alleged drug ring. "The people who were arrested and brought to Guam were not necessarily the king pins of the operation and DEA officials believe that some of those arrested and jailed will be able to provide the necessary information for the agency to arrest the real leaders of the operation," Tell said.

Tell said that DEA had known for some time that Palau was a "haven" for drugs from Southeast Asia. The drugs would enter Palau on its way to distribution points in Guam, Hawaii and finally the U. S. Mainland.

Tell further said that in 1986, the government of Palau had requested an investigation by the United States into the drug prob-

lems of the Republic. "Large quantities of contraband were being transported through Palau and the government believed that some businessmen and government officials were involved. That prompted the request for the investigation," Tell added.

The negotiations were conducted at the same time the government asked Ron DeLugo of the Subcommittee on Regional Affairs from the Department of Interior and Insular Affairs of the House of Representatives to have the General Accounting Office (GAO) perform an audit on government finances. While the negotiations were underway, DeLugo's office became convinced that there was enough evidence to make arrests regarding drug trafficking in Palau.

"When the arrests were made, it was with the intention that those arrests be used as 'step-

ping stones' to get to the 'bigger fish' in the organization," Tell explained.

On another subject, Tell said that the President of Palau and the Palau Congress (Olbiil Era Kelulau), is currently working on plans to hold another Compact approval plebiscite sometime before June 30, 1990.

Tell said the President Ngiratkel Etpison initially wanted to hold elections on the proposed Compact of Free Association with the United States of America on September 25 of this year but relented on the advise of the Congress.

According to Tell, the reasons for the delay are to give the members of the Political Status Commission sufficient time to educate the voters of Palau about the pros and cons of the proposed Compact.

Tell also said that government

leaders and the general electorate need time to work out their differences before another election is possible.

"Because it has only been seven months since the last general election, there are still differences in opinions among the voters and the leaders need time to be more unified before the next plebiscite," Tell said.

"Palau cannot afford to reject another plebiscite on the proposed Compact. We are running out of time and resources," he said.

He said that if the voters reject the next plebiscite, which must receive a 75% approval as required by the Constitution, it would open the door for further negotiations with the United States but then it would take

CUC Is In Business, At Last

When the Commonwealth Utilities Corporation (CUC) began placing ads in the Variety warning its customers that it was going to disconnect customers who refused to pay their delinquent bills, they began to act like a business.

No business can stay alive very long unless it makes a profit. New businesses struggle to get the right balance of cash flow to support their operating expenses and have money to invest in capital improvements. CUC has had the same struggle.

Although it went from being an arm of the government to private enterprise, the transition has not been smooth. From lost records, to non-existent records, to falsified records, the CUC has barely been able to keep afloat.

The management has been criticized for not being decisive enough or being too hasty in its decisions. Personnel from the executive director down to the men working in the power plant have been brought to task for jobs not done or done wrong, or for rude and incompetent office workers.

Yet CUC has not given up. The press has kept the spotlight on CUC so that every blemish is magnified for all to see. CUC has made horrible mistakes and everyone knows about them, because of the press coverage. But CUC continues to improve and it continues to monitor itself.

The members of the Board of Directors have taken a lot of criticism for their seeming "lack of action" from both the press and the government. But they have consistently looked for ways to improve CUC and have not hidden behind excuses for the gross mismanagement which has characterized the corporation sometimes.

They have survived all the criticism, the allegations of graft, the apparent criminal embezzling of thousands of dollars, the unknown or disappearing inventory and CUC has begun to correct these things.

By deciding to collect on their past due accounts, CUC has made a declaration to make money - or at least stop losing the vast sums they have in the past.

LMA, Synergy and the Guerrero Brothers and other subcontractors to CUC may have hindered the utility as much as they have helped, but they have been available and they have worked with CUC to improve the overall picture.

Last month, CUC announced that it was finally able to pay its workers out of its own collections. Maybe this is the light at the end of the tunnel.

Certainly there is no other more exasperating entity as far as the general public is concerned. They are headed in the right direction, though. Gaining fiscal responsibility and showing that the bills are being paid is proof that CUC is working on becoming self-sufficient.

The Public School System will open its doors on the 28th of this month. I am not worried about traffic congestion as much as an alarming phenomenon that 85 per cent of our high school graduates (private and public) have not been able to pass the Army entrance tests. It's actually a computational and English literacy test.

This issue is everybody's business. Our success in self-government depends, to a large degree, on the professional development of our people. This development begins at home and our educational institutions. Perhaps the Board of Education ought to spend more time addressing substantive issues such as this one rather than school uniforms.

In short, the board and management ought to work jointly on upgrading the quality of education in our public schools. Such inconsequential issues as school uniforms should be deleted from the board's agenda. Perhaps clarity of understanding relative to the essence of quality and relevant education need to be turned into the daily bread of educational policymakers and management. Be that as it may, I am optimistic that something is being done to resolve this matter.

Most of us, especially local commercial farmers, were look-

JR's Agenda

By John DelRosario

The opinion expressed in this column are the personal opinions of the author and may or may not express the opinions of the newspaper.

ing forward to what we call in Chamorro "primet agia" or the first rainfall of the rainy season. I am afraid that our exasperation has been dampened by three weeks of wet weather. It's been too wet for basically anything except repeating a dreadful necessity of eat and sleep or watching some lousy program on the tube.

When the weather didn't allow your humble scribe to chase that little white ball that spoils everything with a single error in one hole, I headed for the grocery store and bought some soup bones because rainy days simply call for soup of some sort. I suppose the geographical location of our islands leaves us with too little or too much of everything. Crazy, huh? Whatever the case may be, it still a very beautiful isle in the Pacific.

My childhood impression of my dark pigmentation is simply one of being born quite unlucky. After all, with dark skin you're in for a treat either end of the stick. If it's too cold you're the first one to absorb it. If it's too hot, again,

you're the first one to receive sun radiation. It's a dilemma every which way you turn!

But as I was growing up, I saw a group of tourists at the old Royal Taga Hotel sun bathing. I said to myself: "Glad I didn't have to cook myself to get a prestigious tan." I suppose being dark has its own merits, too, huh? Well, it's kid stuff and I have outgrown my constantly bruised ego.

Congratulations are in order for the newly confirmed Director of the Department of Public Safety, Greg M. Camacho, and Associate Judge Marty Taylor. I kidded Greg that as soon as he gets confirmed I will start being a trouble maker. I also kidded Associate Judge Taylor that he will be into some very serious stuff and that we won't be able to kid around anymore. But both gentlemen are people too and an even more important consideration is that they are both qualified for the posts to which they have recently been appointed. Congratulations!

Letters to the Editor

This is a letter to Sen. Juan N. Babaua from Rep. Gabriel Babaua.

Dear Chairman Babaua: I have just learned that the Senate in its most recent session held last week amended House Bill No. 6-183 which would have required the passing of a teachers competency test for all prospective non-resident teachers before they can teach in the CNMI Public School System.

I regret that your committee and members of the Senate failed to see the merit of a competency testing requirement as a prerequisite for teaching in the CNMI. Mr. Chairman, as an educator yourself, you should be fully aware of the significance of such a test in helping our Public School System as well as the College to screen out prospective candidates who don't have the necessary skills to teach. The Senate's action in striking out the competency testing requirement would not only encourage the recruitment of unqualified teachers but would also take away the only means available to our school system in screening out candidates who would likely to become problem teachers or sim-

ply don't have the necessary skills to teach.

The testing requirement is not a new concept. Many individual states in the United States now mandate the use of a competency test as a prerequisite to teacher certification or qualification. The tests may vary in scope, but their basic purpose is the same to screen out candidates who would become problem teachers.

We (the house committee on HEW) selected the "BESTE" test development by DOE Guam specifically because it was designed mainly for teachers in the Pacific area and is available to the PSS for the asking. Accordingly, the use of the "BESTE" test would save the PSS money in not having to develop a similar test as substitute.

Another unfortunate change by the Senate was to exclude the Northern Marianas College from the requirements of PL 6-28 and the alternative of the "BESTE" test. The College is the institution charged with the responsibility of providing thorough instruction in advanced courses in order to prepare our youth for life. It is therefore imperative

Air Mike Express Debuts New Service To Rota, Guam

by Patty Jacobs

The Commonwealth Port Authority (CPA), the Marianas Visitors Bureau (MVB), the CNMI government and the government of Guam, along with a new subsidiary of Continental Air Micronesia (CAM) named "Air Mike Express" initiated a historic airline service to Rota and Guam Tuesday.

Through the efforts of many people in the Continental organization and the Pacific Basin Development Council (PBDC), with subsidy from the Essential Air Service (EAS), Air Mike Express debuted with three ribbon cutting ceremonies.

Early Tuesday morning dignitaries met at the Saipan Commuter Terminal which has just been opened last week. James Nelson, the Master of Ceremonies for the day and CAM One Pass Marketing Manager, introduced Bishop Tomas Camacho, Gov. Pedro P. Tenorio, Jose Tenorio and President of CAM Paul Casey.

Gov. Tenorio said, "We, here in the CNMI, asked for essential air service to Rota. I have a message from Gov. Waihee of Hawaii, who is the President of the Pacific Basin Development Council."

Tenorio then read the message from Waihee which stated that it has been a lot of hard work to get the U.S. government subsidy necessary for the EAS to support the Saipan-Rota-Guam air route. He stated that the EAS law had

to be changed in order to be adapted for the Pacific.

Carolyn Imamura, Director of Planning and Programs for PBDC, explained, "The EAS law was written in such a way that it was not possible for Pacific island communities to comply. For instance, the law read that it was necessary to provide limousine service between airports. That just isn't realistic for Pacific islands."

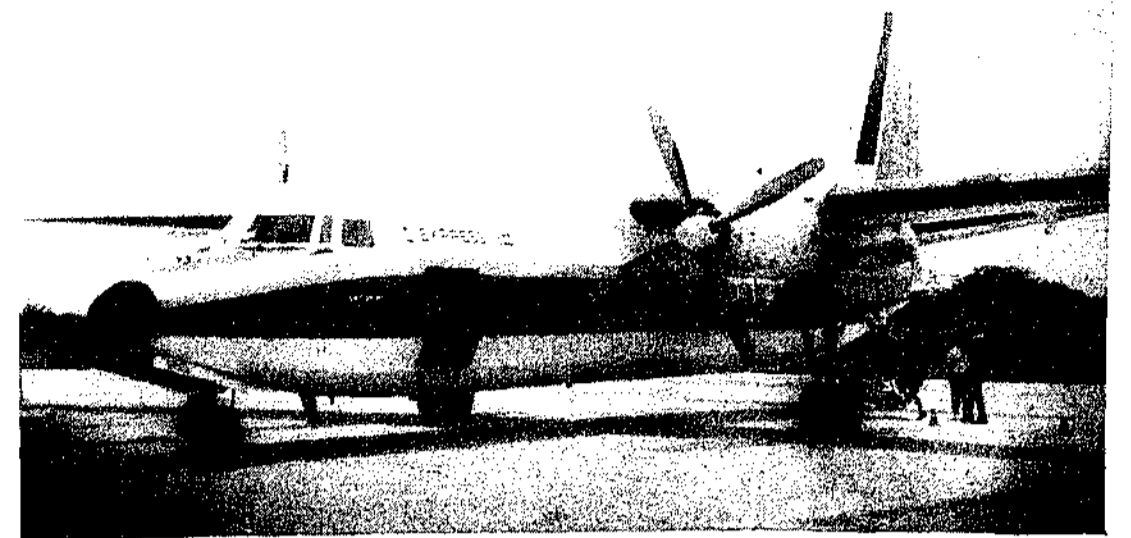

Waihee's message said that the EAS law also made it virtually impossible for a subsidy proposal to be selected over a non-subsidy proposal.

Senate President Benjamin T. Manglona said, "This new air service will give the island the opportunity to develop now. Over the years our economy has suffered due to unreliable air transportation."

"Thanks to various federal officials Air Mike express has been fortunate enough to receive a federal subsidy to guarantee essential air service to Rota," he added.

Jose Tenorio (Joeten) said, "This joint venture is very significant. The failure of air service to Rota has been the cause of the lack of growth. Rota's only source of life is air service. Now Rota will have air service three times a day to Guam and twice a day to Saipan." Joeten is a partner in a joint venture with CAM.

CAM President Casey said, "Air Mike Express is the result of two years of hard work by Don Beck, the Pacific region

The new Fairchild F-27 turboprop Air Mike Express plane which goes to Rota and Guam every day.

manager for CAM. He's the one person who has steered me around the political minefield of Micronesia.

"We chose the affectionate name of Air Mike Express because it expresses the roots of the airline. We painted the

Bloomington, Indiana to Los Angeles. Their exteriors were repainted and they were flown on to Juneau, Alaska. From there they were flown out to the Aleutian Islands, then to Wake Island on to Kwajalein and finally to Guam.

for the jet age, the runway at the airport was too short to accommodate Continental's new planes.

The Mayor said the people of Rota embarked on a vigorous remodeling and lengthening of the runway so Continental would return. By the time the refurbishing was finished Continental no longer had the flight franchise for Rota.

He said Rota went through a series of airlines and always, they were left with no reliable service. He said they were really happy to have Air Mike Express come to Rota.

After speeches by Gov. Tenorio, Senate President Manglona, Joeten, Casey and the Mayor, the ribbon cutting ceremony was held, refreshments were served and the guests embarked on the next leg of the inaugural flight.

The flight, again was bumpy as the plane came into Guam in the middle of a rain storm. Each passenger was given an umbrella to carry from the airplane cabin to the airport.

The reception took place in the Hafa Adai Lounge, where lunch was served. At the boarding gate, Casey and Guam Gov. Joseph Ada greeted the travelers and welcomed the new airline. After the ribbon cutting ceremony, the CNMI delegation boarded the plane for the flight back to Saipan.

Later that evening, the inaugural dinner was held in the departure lounge of the Saipan International Airport. Once again, Casey, Gov. Tenorio and Joeten addressed the group, each one thanking all those who helped put together the new airline and service for Rota.

Governor Joseph Ada greets Governor Pedro P. Tenorio at Guam International Airport.

plane blue to represent the ocean and we have named this first airplane Jose C. Tenorio to honor a man who has done a lot for the CNMI."

The airplane is a twin turboprop Fairchild F-27. The engines are manufactured by Rolls Royce; it seats 35 passengers, has a galley and lap trays and has a pressurized cabin, according to Continental Airlines Marketing and Government Affairs Manager Tom Goresch. The planes are about 20 years old. Another F-27 exactly like the first arrived the next day.

Joe Barnes, CAM Regional Director for Guam and Micronesia said the planes came from the Continental commuter subsidiary Britt Airways. Britt serves the Cleveland hub. The planes, because of their limited fuel capacity were flown from

Barnes said the interiors of the planes were refurbished in Guam and new seats were put in the planes there.

After the ribbon cutting ceremony in Saipan, and refreshments, the dignitaries went aboard the plane, just as the rain came down in torrents. The flight to Rota was bumpy, due to the weather but a smooth landing in Rota and sunshine in the skies greeted the passengers.

Rota Mayor Prudencio Manglona greeted the guests and said that air service had always been touch-and-go. "We're so glad now we have Air Mike Express who say they will touch-and-stay," he said.

He explained that in 1968 Continental had started service to Rota and was reliable when they were there. However, as Rota had never really geared up

Jose C. Tenorio, Continental President Paul Casey and Governor Pedro P. Tenorio cut the ribbon at Saipan International Airport.

Congressman Tell...

Continued from page 1

even longer to resolve Palau's future political status.

"Failure to accept the terms of the Compact will not enhance negotiations," Tell said.

And finally Tell said that there is a realization within the Congress that the government needs to be reduced. Some departments will be merged with others and powers consolidated to decrease government expenditures.

"The Senate has passed a reorganization bill that is currently being heard in a public hearing that will reorganize and restructure the government," Tell reported.

He also said that a U.S. study firm has received a grant to study the restructuring of the government. A report is expected at the end of the month which will recommend alternatives for the best possible government for the people of Palau, according to Tell.

Belau Congressman Hideo Tell was on Saipan as a representative of his government to the Inaugural Flight of the Air Mike Express.

MVB Helps Tank In War Against Time

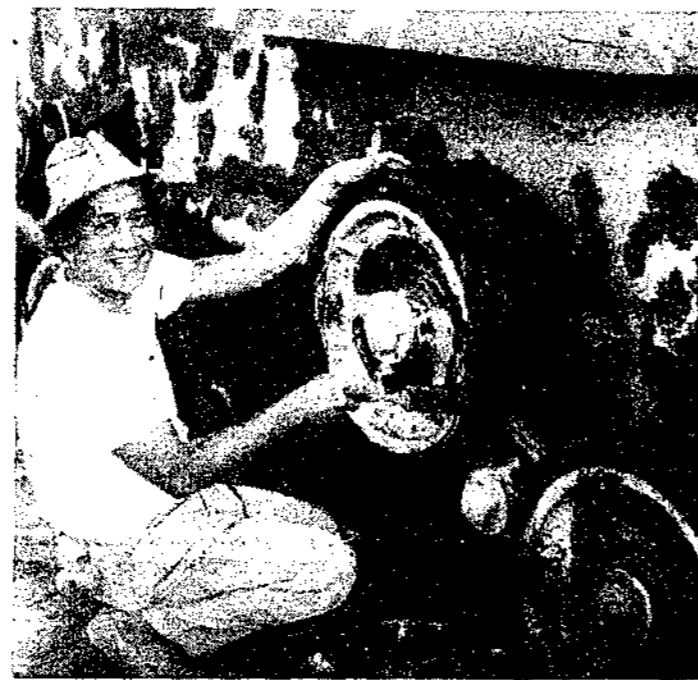

by Dan Phillips

The old Japanese tank along Beach Road is getting a restorative facelift, thanks to the efforts of the Marianas Visitor's Bureau (MVB).

Today, the tank takes a beating not from enemy fire but from the elements of nature. It is this beating that prompts the MVB to have the tank restored about every three years, according to Delfin San Juan, who has been hired by MVB to restore the tank.

San Juan, who has painted tanks and other war equipment for many years now, says this tank is a 1935 model. He will be painting it in the traditional Japanese colors, instead of in U.S. camouflage style.

The tank is cleaned up, and then a red rust-proof coating is applied before the painting is done. This work is done every year, according to the MVB. This tank is not the only monument to receive annual maintenance, as relics in

Marpi, San Jose, and on Suicide Cliff also receive attention.

Adrian Teregeyo, a MVB staff member, is being trained by San Juan to paint the tank

and other old equipment. Also helping out are some students from MVB's summer beautification program, which offers students training and employment while they are out of school. The students present earlier this week at the project were Herman Sablan, Ray Salas, Norman Sablan and Mike Acosta.

The work, which started Tuesday, will last about a week, San Juan said.

U.S. Protests

Soviet Union Tests Missiles Anyway

HONOLULU (AP) - The Soviet Union has canceled further missile tests near Hawaii at least for now, the U.S. Pacific Command confirmed Tuesday.

The Soviets cut short their announced 10-day test by five days after firing one missile last week.

The test prompted two direct U.S. appeals to the Soviet Union and an outcry from State leaders, including Gov. John Waihee.

Waihee said he would continue working with Congress and the White House to stop the Soviets from using the ocean around Hawaii as a target area.

The Soviet Union launched a single, unarmed missile Friday that flew high above the channel between the Northern Hawaiian Islands of Nicker and Nihor on its way to the target zone about 1,200 miles south of Hawaii, U.S. officials said.

According to the Defense Department, the test missile flew 8,000 miles from Tyuratam the southeastern Soviet Union.

"Apparently the Soviet Union has decided to cease further testing of its missiles near the Hawaiian Islands at least for now and for now that is good news," Waihee said.

"The tests should never have been conducted in the first place and it is disturbing that the Soviets went ahead despite protests from the United States," Waihee said.

Pokers Petitioners Need 565 Signatures in 5 Days

by Dan Phillips

The "Basta I Poker" petitions that Rep. David Sablan and a group of dedicated volunteers have been trying so hard to put on the ballot in November have come up 565 signatures short after a review by the Attorney General's Office.

Attorney General Ed Manibusan made the announcement in a letter Wednesday evening, saying that the petitioners have fulfilled the requirement of obtaining signatures from 25 percent of the registered voters in each of the three Senatorial Districts (Saipan, Rota, Tinian), but that there were not enough signatures to fulfill the requirement that there must at least 50 percent of the registered voters Commonwealth-wide.

Copies of the letter were sent to Sablan, Vice-Speaker Benigno M. Sablan, Bishop Tomas A. Camacho and Gov. Pedro P. Tenorio.

The petitioners now have until Monday at 4:30 p.m. to gather enough signatures to make up the shortage. Sablan said that his group, anticipating that a shortage was possible, continued to gather signatures while the AG was putting the already-submitted

petitions through the certification process.

Manibusan said that the petitions had well over the number of signatures needed to fulfill the requirement of 50 percent of the Commonwealth's registered voters, but that his office certified approximately 800 signatures.

The AG's Office had been reviewing the petitions since they were submitted on July 27. The long counting process revealed that the petitioners had gathered 20 more signatures than they needed in Tinian and Aguihan, where most of the island's leaders are pro-gambling. The AG's Office determined that a total of 142 signatures were needed, and certified 162.

In Rota, a total of 226 signatures were certified, 26 more than required. There were 3,212 signatures certified from Saipan and the Northern Islands, well over the required 1,742.

However, the total of 3,601 certified signatures from the entire CNMI fell short of the 4,166 figure set by the AG's Office as being 50 percent of the registered voters in the CNMI. The AG's Office *Continues on page 39*

Audit Says Palau's Power Plant Losing Millions of Dollars

By Howard Graves

HONOLULU (AP) - The Palau government has taken nearly \$2.5 million from 175 meager treasury to keep a controversial power plant operating for about 2,000 customers, according to a U.S. Department of Interior Audit.

The government also has failed to utilize a 6-million-gallon fuel storage facility which a British contractor promised could bring upward of \$1 million from the resale of fuel.

In a July 31 report, Harold Bloom, DOI Assistant Inspector General, attributed the shortfall between operating revenues and operating costs to unrealistically low electricity rates, failure to enforce bill payment, meter and bill for all power consumed and failure to sell fuel from the storage facility.

His report to Palau President Ngiratkel Etpison, who took office last January, also blamed the shortfall between operating revenues and operating costs to the borrowing of \$32.5 million from a group of British banks to build the power plant and fuel storage facility.

A year ago, a U.S. District Court in New York City found Palau in default on the loans, with accrued interest, Palau owes more than \$44 million.

Bloom said Palau's *Continues on page 39*

government had been warned in 1983 by the DOI Inspector General's office not to obtain the loans without conducting an economic feasibility study to ensure sufficient revenues could be generated to cover construction costs and repayment of the loans.

Bloom said the government had failed to respond to the audit's conclusions and recommendations. He gave the Etpison administration until Oct. 6 to respond.

He said that as of June 1988, the 16-megawatt plant provided electricity for almost 2,000 customers, mostly in Koror State. The government and business center and where more than one-half of Palau's estimated 15,000 residents live.

For fiscal year 1987, the power plant and fuel storage facility had \$1 million in net losses and in fiscal 1988 losses of at least \$1.4 million.

Bloom said the losses might be even higher because expense reports didn't include all power plant expenses.

He said the audit was performed between May 1987 and January 1989.

He said the actual demand for electricity and fuel was far below levels projected by the British contractor, IPSECO. IPSECO declared bankruptcy a year ago. *Continues on page 39*

MR. EMPLOYER

Do you have questions about the NEW CNMI WORKERS' COMPENSATION LAW?

What it means is that you are now required by law to carry Workers' Compensation Insurance. No matter how many people you employ, one or one hundred, you must have this insurance.

If any of your workers are injured on the job, you may be faced with a claim for large sums of money.

Moylan's has the policy that will fit your needs and your pocketbook, and the insurance professionals at Moylan's will be happy to explain to you how you can best comply with this law.

See the Good Guys and Gals at Moylan's today.

Chamber Plans Include Development Seminar

by Dan Phillips
The Saipan Chamber of Commerce announced plans for an Economic Development Seminar at its monthly meeting Monday.
Chamber member John Romisher said that the workshop, scheduled to be held at the Saipan Beach Hotel on September 7 or 8 from 8 a.m. - 2 p.m., will focus on five major industries that are identified in an economic census report on the Northern Mariana Islands, prepared by the U.S. Department of Commerce.
The five industries that are targeted are construction, manufacturing, wholesale trade, retail

trade and service industries. The report will provide a "conceptual base" for the seminar, Romisher said.
He said that the Chamber is trying to land a local engineer, probably either Efraim Camacho or Henry Pangelinan, to speak on the construction industry.
Romisher, the Chairman of the Chamber's Economic Development Committee, will be discussing and finalizing the agenda with Gabriel Boyer, Executive Director of the Chamber.
Likely to be the guest speaker for the manufacturing industry is Richard A. Pierce, President of the Saipan Garment Associa-

tion. Terry Short, the General Manager of Pacific Islands Club, is scheduled to be the speaker for the tourism industry, said Romisher.
Mike Naholwaa, manager at Bank of Guam, should represent the service industry, and either Annie Tenorio or Roman Palacios of J.C. Tenorio, Ent. will likely speak on behalf of the retail and wholesale trade industries, Romisher said.
He said that Senate Counsel Tim Bruce will be at the seminar to talk about local legislation that affects development in the Commonwealth, as well as legislation that may be upcoming

and how it will affect developers.
Jack Torres and Lydia Romisher of the Department of Commerce and Labor will be on hand to offer data analysis of each kind of development in the CNMI, including the number of business licenses issued, number of establishments, kinds of businesses, manpower needs, and problems that the department has with certifying business licenses.
There will be a noon luncheon, with a lunch keynote speaker yet to be determined. Romisher said that he is seriously considering Assistant Attorney Gen-

eral Eric Smith. He is also thinking of asking Governor Pedro P. Tenorio.
Originally scheduled for August 31, the seminar is being rescheduled because that is when Stella Guerra, the new Assistant Secretary for the U.S. Department of Interior's Office of Territorial and International Affairs, makes her visit to Saipan.
Also during Mohday's meeting, Chamber President Joe Camacho recognized that three members of the Chamber were among the Governor's nominees for the Saipan Zoning Board. The three are Camacho, Cindy B. Camacho and Eddie Tenorio.

DPS Director Outlines Major Goals For Next Year

by Fermin Meriang
The newly appointed Department of Public Safety Director, Greg M. Camacho, said one of his major goals is to alleviate the overcrowding at the present Department of Corrections prison as soon as possible.
According to statistics, DPS is currently holding 27 non-Saipanese prisoners in their facilities and they are a major reason for the overcrowding.
"We are currently exploring possibilities on deporting them to their countries because they

are costing our government money as well as taking up space in our facilities," Camacho said.
Camacho said the facility was built to house a maximum of 32 inmates and yet there are 69 people in the prison.
The breakdown of the prisoners by nationalities has six prisoners from Palau, five from Truk, one from Yap, seven from the Philippines, three from Japan and one from Guam.
"If all these people were sent home, it would greatly alleviate the overcrowding situation we are presently facing," he said.
The new director explained that high on the list for deportation include imprisoned citizens of Japan and the Philippines. He said that as

DPS Director Greg M. Camacho

soon as those prisoners are sentenced, he will seek their deportation. "We are presently talking with the Legislature, the Attorney General's Office about deporting them. We have

also initiated talks with their employers about taking care of their expenses home once their trials are over," Camacho said.
"We are not prejudiced but we cannot continue to bring people in from other countries who continue to flagrantly disobey the laws of the Commonwealth at our expense," he stressed.
Also high on Camacho's priorities in upgrading his department is to have better trained officers. "We are looking in areas where the department is lacking expertise and looking to send qualified officers overseas for better training," he said.
The department intends to hire more officers for the growing needs of the Commonwealth, according to Camacho.

He said that the department has submitted a request of \$6 million for its next year's budget because "we want to build another substation in the Tanapag area, among other things," he said.
Some of the money will go toward better and more equipment for the Police and Fire Departments. "We have purchased a new fire truck and a new tanker truck which will arrive shortly," he added.
Camacho concluded by saying that architectural and engineering plans are getting started on the proposed new prison facility to be built in Kagman. "We are hoping the Legislature approves our requests because this facility is badly needed to properly take care of the overcrowding at our present facility," he said.

Aldan Gets New Attorney

by Dan Phillips
Vicente M. Aldan, the Mayor of the Northern Islands, has changed attorneys, causing postponement of a status conference in his case.
Aldan, who was scheduled to appear at the Commonwealth Superior Court Tuesday, was given time to consult with his new counsel, David Wiseman, when the status conference was continued until August 29.
Wiseman is replacing Bob O'Connor. The case also has a new judge, as it was assigned to Judge Marty Taylor.
The Attorney General's Office filed a charge of food stamp fraud on July 12. The Information filed by Assistant Attorney General Stephen Nutting said that Aldan allegedly illegally obtained over \$20,000 worth of food stamps in a period between February, 1986 - March, 1989.
The allegations against Aldan surfaced as a result of a review done by the Public Auditor's Office, which matched up Social Security numbers of government employees receiving food stamps with records from the files of the Nutritional Assistance Program.

Alanon Meetings Held Every Tuesday

Alanon Family Groups hold their weekly meetings every Tuesday morning from 11:30 a.m. to 12:30 p.m. The group meets in the Conference Room next to the Cafeteria at the Commonwealth Health Center (CHC).
Alanon is a program, based on the 12th Step program of Alcoholics Anonymous, for the relatives and friends of alcoholics. Alcoholism is considered to be a family disease, according to Alanon literature, which requires a recovery program for the family members as well as the alcoholics.
Anyone interested in attending the Alanon meeting is welcome; those on their lunch hour are invited to eat during the meeting.

UPS Air Express Is Coming To Saipan

by Dan Phillips
United Parcel Service (UPS), an express mailing company that serves 175 different countries, will begin full service on Saipan on August, through a contract with Pacific Postal Plus.
Pacific Postal Plus, owned and operated by Heidi Yelin and her husband, tennis pro Jeff Race, was chosen as the local representative for UPS after UPS representatives from Hong Kong and the U.S. visited here in March.
Local businesses and individuals will be able to use UPS, which has a worldwide reputation for good service, to send and to receive letters and packages. One of the advantages of UPS is that it offers door-to-door delivery and pick up, Yelin said.
UPS actually started operation in Saipan on April 24, but that service was only to the U.S., according to Yelin. She said UPS has expressed a strong interest in expanding in the Pacific.
UPS representatives from the U.S. will be coming next Monday to help Yelin set up the company's service here. They will be able to provide specific plans, standards and recommendations, she said.
As to whether Saipan residents will be seeing what to many communities in the U.S. is a familiar sight -- a dark brown truck with the UPS logo -- Yelin said that it will not happen right away, but could happen when the demand for UPS service increases.
Yelin says that UPS will provide the service until the package or letter reaches Saipan, then it becomes her company's job to pick up the package, take it through Customs, locate the customer and make the delivery.
On the average, letters sent via UPS have been received in about three days from the U.S., Yelin said. "This is a good jump forward not only for my business, but for the island," she said. "UPS rates are as good or better than those of the competition."
The competition includes DHL, the island's primary courier service.

PRIZES INCLUDE:
GRAND PRIZE

MIHA Starts Plans To Develop Garapan Land

by Dan Phillips

The Mariana Islands Housing Authority (MIHA), with legislative approval in hand, takes the first step today in seeking commercial development for a valuable piece of property in Garapan.

MIHA Executive Director John M. Sablan announced yesterday that MIHA would start to publicly seek bids through a Request for Proposal today. MIHA has put together a comprehensive bid package that includes a copy of Public Law 6-34, which gives MIHA the clearance, with certain conditions, to lease the land to commercial developer in order to help the financially-troubled agency bail itself out of financial obligations that Sablan estimates to be \$15-20 million.

MIHA's primary creditor is the Commonwealth Development Authority (CDA), to whom MIHA owes about \$10 million, Sablan said. He said that most of the other obligations are to banks, including Bank of Guam.

Sablan says residents of the 45 low-income housing units currently on the property will not be displaced, and that no development on the property will be started until all of the residents are relocated.

He said that a new location, in the Koblerville area, for 45

new Section-8 housing units has tentatively been agreed upon with the Marianas Public Land Corporation (MPLC). According to Sablan, some of the older residents will likely be relocated to an area closer to the hospital.

the development opportunity throughout the CNMI, as well as in Japan and maybe Hong Kong.

An informational meeting for prospective developers is scheduled to be held at the MIHA office on August 29 at

quality of the development as well. "We want a first-class development, a resort or tourist-related establishment that is aesthetically beautiful," he said.

He said that income generated from the development should not only allow MIHA to take care of its financial obligations, but also to help provide infrastructure needs to other housing projects.

An appraiser from Hawaii has already arrived at an estimated value for the property, known as North Garapan Annex No. 2 Subdivision, but Sablan said MIHA will not disclose that figure because doing so would "jeopardize MIHA's negotiating position." Sablan did say, however, that he would like to get \$30-50 million for the property.

MIHA will enter into a 55-year lease with the developer. Public Law 6-34 requires that the lease payment be made in cash up-front to MIHA.

In addition, the law requires that the developer will provide continued payments to MIHA, computed as "a percentage of the gross revenues derived from the subject property by the developer, any subleases, or any successor in interest."

The law also requires the developer to provide for the

project's infrastructure or pay an impact fee to the "appropriate agency or department of the CNMI government."

Whichever developer is chosen will also be responsible for providing MIHA with 5,000 feet of office space and a parking lot for the duration of the lease. The office would be a little bigger than the current one, and the parking lot would include 24 parking stalls.

MIHA, as provided for by Public Law 6-34, will incur no financial obligation "other than normal and necessary costs of administering the lease."

San Roque Fiesta Held Sunday

Representative Gabriel Babauta invites the people of Saipan to attend the fiesta in San Roque this Sunday at 5:00 p.m.

The fiesta in honor of the Patron, San Roque is preceded by a Novena at 4:00 p.m. followed by a mass and procession, at San Roque Church.

The fiesta dinner follows the church service.

MIHA Executive Director John Sablan

He said that the Koblerville housing project, which will probably cost at least \$2 million, could be under construction by the end of the year.

Sablan said that he plans to disseminate information about

9 a.m.

Although the commercial development of the Garapan property should ensure that MIHA can fulfill its financial obligations, and then some, Sablan says MIHA is very much concerned about the

CLIP & KEEP

US Navy Holds DEIS Public Hearing On Tinian Radar Station

by Patty Jacobs
Commander E.C. (Chuck) Rushing, Jr., Pacific Division, Naval Facilities Engineering Command led two public meetings held on Saipan Wednesday. The first was held at the Governor's Conference Room at 2 p.m. and the second at the Garapan School at 7 p.m.
Rushing explained that the purpose of the meeting was to obtain comments from the public on the Navy/Air Force Draft Environmental Impact Statement (DEIS) for the proposed electronic installations on Relocatable Over-The-Horizon Radar (ROTHR) program which includes Tinian and Guam. 200 acres for the receiver in Guam.
However, he pointed out that the actual acreage used would be 58 acres on Tinian and 172 on Guam. Five locations are being considered on Tinian as well as five on Guam.
The U.S. military owns occupies property for four of the five possible locations on both islands. No site has been selected yet for Tinian or Guam, according to Sakaguchi, but the Mayor of Tinian has requested that only the north field location be considered.
The report will address environmental considerations and look at endangered species of plant and wildlife on Tinian and Guam. One of the concerns

CDR. Chuck Rushing, Jr. Pacific Division, Naval Facilities Engineering Command holds hearings on the ROTHR project.

The Air Force is involved because land that they occupy may be involved in the project. Rushing assured the audience that all oral and written comments made by the public will be included in the final Environmental Impact Statement (EIS).
The proposed DEIS is a document three inches thick which is comprised of three sections. Section I addresses the overall program which is the potential installation of three ROTHR systems in the Western Pacific.
The second section deals with the environmental impacts of the first ROTHR project P-223, in detail and the third section has to do with the work necessary to start preliminary design work for P-225, the second ROTHR project.

The ROTHR presentation was made by Lt. Cdr. Paul W. Bobowicz, with the aid of an overhead projector and slides. He showed similar installations in the American South and East Coast. He said that project P-223 has already been approved and funded by the U.S. Congress. They are now in the engineering survey stage, he added.
The DEIS presentation was made by John Sakaguchi, of Wilson, Okamoto and Associates, Inc. of Honolulu. He said the first project potentially could use 100 acres for the transmitter, which would be located in Tinian and is the spread of the brown tree snake to Tinian. He said great care is being taken to eliminate the accidental introduction of this predator.
He said both sites will be providing their own power with onsite generators.
Other considerations which must be viewed are the air quality impact, the electromagnetic radiation factor, the disturbance of national historic landmarks and the land use of 12,500 acres which will be deeded back to the CNMI.

The proposed project addressed in the DEIS is the construction and operation of antenna arrays, ground screens, and support facilities for radar operations.
The ROTHR installations would detect, track and estimate the composition of groups of aircraft or ships coming from beyond the horizon towards Guam. Each system would provide coverage of or the ability to watch a fixed section of the horizon of about 60 degrees in width. Three systems would provide early warning information in the directions of Russia, China and Vietnam.

The first project, P-223, covers the direction toward China, Korea and Japan. The second project, P-225, would pick up Vietnam, the Philippines and China. The third project, P-002, would view Russia.

Come and Enjoy Our Special Treat

Eye On L.A. Zooms In On Saipan

by Fermin Meriang
The popular TV magazine "Eye On L.A." and its host Chuck Henry were recently on island working on two shows which will include the Northern Marianas.
One of the features will be a reenactment of the mystery surrounding the disappearance of the famous aviatrix, Amelia Earhart. The other, which will be called, "Mystic Islands", will focus on the unique traditions and customs of Saipan. The feature will also include segments depicting the traditions of Fiji, Hawaii and Bali.
According to Henry, there have been prevailing rumors in tabloids and television in the United States that Earhart was held captive on Saipan before World War II. "We are not saying that those rumors are true but we are interviewing people who were around during the period in question and

comparing their stories with other interviews and published accounts," said Henry.
Henry said that the show brought with them to Saipan an actress who closely resembles Earhart and "tried to reenact the stories that we heard. We have done some shooting at the old Japanese hospital and jail and some other locations that she was supposedly kept," he said.
Some local people were hired to play the roles of Earhart's captives and other characters who played a key role in her stay on Saipan, during the filming.
"There are some good actors on this island," said Stacy Ryono, associate director of the show.
Henry, who has been with the popular travel/adventure show for the last six years, was making his third trip to the islands and said the show helps promote not just Saipan but

the other Micronesian islands as well. "There are tourists who see the show in the states and call the station for information about the islands," he said.
He said the two features his crew were working on will air this November in the states, Guam, Saipan, and other places

around the world.
Without giving away the content of the Earhart story, Henry said, "It should be an interesting show."
The "Eye On L.A." crew plans to return to the Commonwealth in December to work on another project, according to Henry.

"Eye on L.A." host Chuck Henry poses in front of the Pacific Islands Club.

Governor Lists Topics For Pac. Conference In Honolulu, Ha.

by Dan Phillips
Gov. Pedro P. Tenorio has sent a letter to U.S. Secretary of the Interior Manuel Lujan that lists the topics he and other Commonwealth representatives would like to address during the Pacific Policy Conference.
The conference, being conducted through the U.S. Department of Interior, is scheduled to be held in Honolulu, Hawaii, on September 19 and 20. Gov. Tenorio will join governors and leaders from all over the Pacific.

Foreign policy topics listed in the letter include "exploitation of the tuna fishery" and "drift-net fishing in the Pacific," as well as Nuclear Free Zone treaties and nuclear waste disposal.
Also listed under foreign policy is the "role of non-contiguous areas in international relations when they are particularly affected." The letter gives as an example international aviation agreements and relations with the freely associated states of Micronesia.

Another topic listed in the letter is "federal law applicability". Specifically, it mentions the "concept of mutual consent in the application of federal laws," and "limitation of federal law applicability to subjects of compelling national interest."
Federal executive organizational agreements are also specified by the letter. The two agreements named are the "role of the Federal Departments" (such as the Department of the Interior) and the Covenant Section 902 Consultations.

Two items are listed under "economic and social health and development." They are "movement of peoples to the CNMI," and "control of the resources of the 13-mile territorial sea and the exclusive economic zone."
Assistant Attorney General Eric Smith and Finance Director Eloy Inos will also be going on behalf of the CNMI, as well as other "technical and policy advisors" yet to be named.
Smith said that several high-ranking U.S. officials, which may include members of President George Bush's cabinet, will be present at the conference in addition to officials from the Department of Interior.

NMC Upward Bound Program Graduates 10

by Fermin Meriang
The Northern Marianas College (NMC) Upward Bound Program held its sixth commencement ceremony Sunday, graduating ten students and recognizing 28 underclassmen, at the Saipan Cultural Center.
With approximately 130 parents, families and friends of the graduates gathered, NMC President Agnes McPhetres, addressed the graduates by telling them of the importance of the Upward Bound Program.
The program enables the participants to discover what goals and careers are available and the opportunities those careers might offer if a student decides to pursue them. It further teaches them to be aggressive and stick with their choices once they have been made.
McPhetres explained that college preparation for students is necessary in fulfilling the promise of access to higher education for some talented Pacific Territories students.

the hope that once students transfer to post secondary institutions, they can cope with the drastic changes thus enabling more of them to complete their education and be less likely to drop out.
Supreme Court Chief Justice Dela Cruz addressed the 1989 graduating class by reminding them of their future role in the Commonwealth.
"Without people like you, who early on in life, have made a sincere effort through self motivation and encouragement from families and friends to make something of your life, we would encounter greater difficulties meeting the ever increasing need for skilled and professional people in the Northern Marianas," Dela Cruz said.
"You are to be saluted for taking the extra time, and expending that extra energy and devotion through the Upward Bound Program, to be able to withstand the rigors and challenges of college life," the

Chief Justice added.
Dela Cruz also praised the college for its efforts in encouraging students by providing services which will help them tackle post secondary challenges.
"Our human resources must be tapped with greater intensity. Our students must early on in life be given encouragement, more assistance in developing good study skills, more guidance in helping them decide what career best suits them. Such, as I understand, has been the aim and objective of the Upward Bound Program," Dela Cruz said.
The Upward Bound Program has chapters in Palau, Guam, American Samoa and the CNMI. They are funded every three years out of its Guam headquarters through the United States Department of Education.

Delinquent Customers Get Disconnect Notices From CUC

(CUC) - Billing and Accounting Office has mailed out 50 disconnect notices within the last two weeks in accordance with disconnect procedures it has been publicly advertising since last month, according to a CUC press release.

Handpicked to receive the first batch of notices were those customers whose electric bills were both overdue the longest, and owned the largest amounts. All 50 were commercial customers.

Of the first 32 to receive the notice, 13 had no record of having made any payments for

power since October 1, 1988, more than nine months ago.

The 50 notices were sent through the mail, with a second copy hand-delivered to each customer site.

Five of the overdue bills show an amount due of more than \$10,000. Another twelve, or 24%, each show a balance due of between \$5,000 and \$10,000. The largest group, some 26%, show amounts due between \$3,000 and \$5,000, with six more shown as owing between \$1,000 and \$3,000, and only one below the \$1,000 mark.

"We may have a problem on

the old accounts, the ones dating past 1986. We know there were times when customers paid bills which were not credited on their accounts," acknowledges Paul Swanson, Administration Manager for Management and Operations.

"I hope we are no longer making this mistake, but we have had many customers complain about this. If this is the problem the only way we will know is for the customer to come to the office and show us the paid bill or cancelled check," he adds.

The customers who received the disconnect notices now have 15 calendar days from the day the notices were delivered to settle their bill or to request a Customer Conference. If they have not contacted CUC within those 15 days CUC will issue a second "courtesy" disconnect notice, and 24 hours later, disconnect the customers from the power lines.

They will be charged a \$130.00 re-connect fee, and will have to pay a security deposit in addition to paying off the balance due on their accounts before CUC will re-connect their power.

"We expect there will be some cases where there are errors in customer identification, or in the amounts due," Swanson repeated, "but we don't have any way of finding out where the problems are unless the people come in to tell us so. These customers have been sent bill after bill, and have

simply not responded."

Non-payment of bills is no small problem for CUC. In the month of June alone, actual collection fell short by nearly \$500,000 of what had been billed.

"In order to collect for what we deliver, we see no other way than to warn customers that we will disconnect if they don't come in to settle their bill, and then to actually disconnect them from the power grid if they don't," said Swanson.

L-R: Maggie Olopai, D.Y.S. Administrator; Governor Pedro P. Tenorio; Herbert Rosario, CCAC Board Member; Chris Kaipat (partially hidden) CCAC Board Member; Ana S. Teregyo, Executive Director, CCAC; Lino Fritz, CCAC Board Member. Teregyo was named recently for inclusion in the 1990 editions of "World Who's Who of Women" and the "Dictionary of International Biographies."

Famous Chef Conducts Classes

With a history of more than 50 years, the popular Egami Cooking School out of Japan will be conducting cooking sessions here in the CNMI on September 4th in Rota, September 5th in Tinian, and September 6th in Saipan.

Shigenori (Chico) Hiraga, of CDC Japan, Ltd. has arranged for the Egami Cooking School to provide special cooking sessions with cooperative efforts by the Women's Affairs Office; Land Grant Office of the Northern Marianas College and the Northern Marianas Japanese Association. Hiraga has always had a fondness for Saipan and felt that by arranging this event, it will further enhance the relationship of our islands with Japan.

Last year, 11 women from the CNMI went on a "Cook Your Way to Better Health" tour to Japan and attended classes at the Egami and Tsujii Cooking Schools. Rita B. Reyes, wife of Congressman John Reyes, was one of the participants and said, "It was well worth the trip. We learned techniques on food preparation; how to prepare scrumptious shrimp dishes and other tasty Japanese food."

Another participant, Cecilia Tan, echoed the same assessment adding that the school enriched her cooking ability and that she was fortunate enough to have had the opportunity to learn another culture's cooking methods.

Through the efforts of Hiraga, cooking lessons will be given by Egami-Sensci and

her other professional assistants. The Women's Affairs Office is requesting that those

wishing to attend, to contact the Land Grant Office in Rota and Tinian or the Women's Affairs Office at 322-5090.

These women went to Japan for cooking lessons from Egami. Kneeling (l. to r.) Cecilia Tan, Bertha Phillips, Ursula Altan and Mary Ann Tudela. Standing (l. to r.) Diane Inos, Shinko Kusunoki, Severino Ogo, Sensei's Asst. Rita Reyes, Sensei's Asst. Magdalena Manglona, Margarita Palacios and Winnie Sablan.

Visitors Continue To Come To CNMI

Visitor arrivals to the Commonwealth of the Northern Mariana Islands for the first seven months in 1989 showed an increase of 28% over the same period last year. For the period January 1 to July 31, 1989, 184,596 visitors traveled to the islands, while total arrivals for the month of July, were 31,370, an increase of 23% for the same period in 1988, according to a Marianas Visitors Bureau (MVB) press release.

The steady increase in visitors is due in part to the continued strength of the yen and the diverse marketing campaigns conducted by the membership of the Marianas

Visitors Bureau. Since Continental Airlines began direct air service to Guam from Sydney and Brisbane, visitor arrivals from Australia have been phenomenal, totalling more than 1,439 visitors for the first seven months in 1989, a 1007% increase for the same period last year.

The optimistic outlook of the tourism industry in the CNMI has been given another boost through the arrivals of more charter flights from Korea. For the period January 1 to July 31, 1989, more than 7,274 visitors from Korea visited the islands, an increase of 22% for the same period last year.

Leaky Toilets Cost Money, CUC Shows How To Fix Them

by Ruth Tighe

CUC - Leaking toilets can waste as much as 10,000 to 20,000 gallons of water a month, and can cost consumers almost \$10.00 to nearly \$25.00 a month in added water costs.

Most toilet leaks are caused by a problem in either the flush valve, which controls the flow of water from the toilet water storage tank to the toilet itself, or with the float valve mechanism, which controls the flow of water into the toilet water storage tank.

When the problem is in the flush valve, the storage tank does not refill, and more water constantly flows into the storage tank to try and fill it. It may be that the flush valve didn't return to its proper position, and therefore didn't seal the tank. Sometimes all that is needed is to jiggle the handle to get the valve to seat properly. Other times, it may be necessary to untangle the chain that hooks to the valve.

If the flush valve is worn or broken, a replacement can be purchased for less than \$2.50 in local hardware stores. Removing the old flush valve and replacing it with a new one just requires un-hooking the chain, and attaching the new valve to it. Replacing a broken chain is also inexpensive and simple to do.

If the problem is in the float valve, water will continue to flow into the overflow pipe, even after the storage tank is full. Usually this problem can be corrected by bending the rod to which the float is attached a little bit more. That will lower the float and shut off the water sooner.

If the float doesn't come up to float on top of the water, the shut-off valve may be stuck. Sometimes this can be solved

by gently lifting the float up and down. If that doesn't solve the problem, the float valve shut-off mechanism will probably need to be replaced.

The replacement is not difficult, nor is it expensive. Most hardware stores have toilet repair kits, including replacements for the float valve mechanism, for less than \$11.00.

The first step is to turn off the water to the toilet water

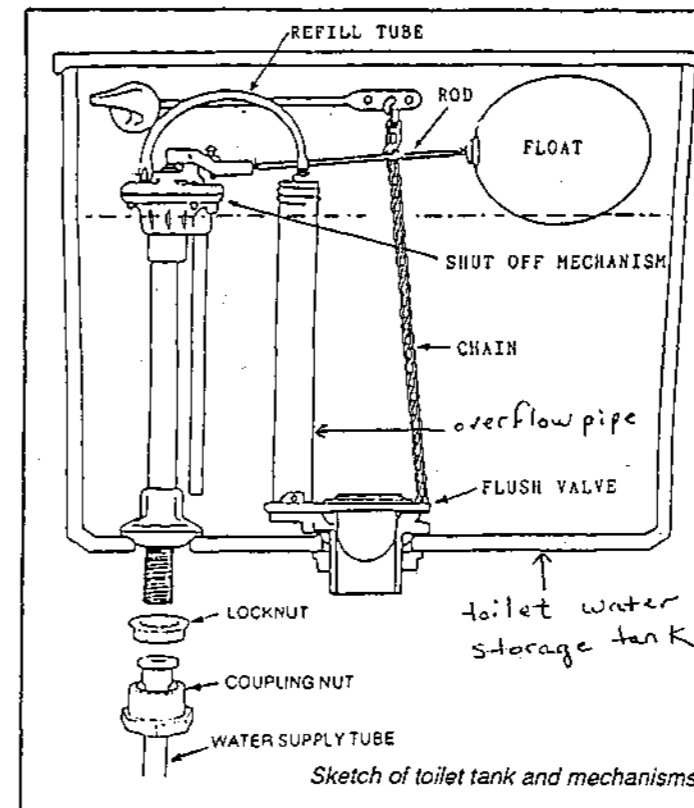

storage tank, which is usually controlled by a shut off valve located underneath the tank.

The only tool required to do the replacement is an adjustable wrench, or a pair of pliers that open wide enough to fit around the nuts that hold the

mechanism in place.

The coupling nut and the locknut should be removed first. Now the entire float assembly can be removed from the tank. Before putting the replacement in place, it is

House Session Yields Passage of Building Code, Short Exchange Bill, Alien Workers Amendment

by Patty Jacobs

In a House session Wednesday, the legislators amended slightly the building code bill (H.B. 6-26 Supp. 6-1) and passed the measure unanimously.

The Committee on Natural Resources, headed by Rep. Juan Reyes, presented the bill after receiving input from the various sectors of the public who expressed interest in the bill. Reyes said, "This is the most important bill to face the legislature now."

Recently, the Federal Emergency Management Agency (FEMA) told members of the CNMI legislature that they could not assist the CNMI with emergency measure unless a code was in place.

The Board of Professional Licensing Chairman Dick Cody said, "I've been holding my breath waiting for this bill to pass. We need it so much in the CNMI."

Cody had been consulted for his opinion on the proposed bill by the House subcommittee.

The CNMI Contractors had also been approached by the subcommittee and former Contractors Association President John Wilson headed an ad hoc committee which reviewed the code and made written comments to Reyes and the subcommittee with their recommendations.

The version presented to the members of the House contained most of the suggestions of the reviewers.

The floor amendment concerned the section of the proposed code dealing with the issuance of free building permits

for owner built, owner occupied dwellings.

The code language was vague, according to several representatives, about who would be eligible to receive a free building permit when the restriction stated in the code referred to "no more than one free permit may be issued to the same person or the same family...."

The concern was that adult children living under the same roof as the parents could not qualify for a free permit because they were members of the same family, for instance who may have already been issued a free permit.

The amendment stated that "individual children who no longer reside (or no longer intend to reside) with the original family shall be eligible for their own owner-builder permit."

Rep. Mariano Bermudes was concerned that the building inspector might impose the use of construction materials that are not available on Saipan.

Rep. David Sablan replied, "We must make sure safety is first. I want to know that the materials that are being used in my house will not be inferior, to protect my family."

The amendment was unani-

mously adopted and the amended building code was passed by the House. The bill now goes to the Senate.

In other action, the House passed House Joint Resolution 6-16 which is entitled, "A House Joint Resolution to create a special committee to review labor and immigration laws and to recommend necessary revisions to the Legislature."

The "short exchange" House Senate Joint Resolution 6-23 was brought to the floor. Lively debate ensued with Bermudes abstaining on the vote because of "conflict of interest." However, the measure received a passing vote by the members of the House.

The Alien Workers Amendment concerning the formation of a task force to look at all labor laws concerning alien workers was discussed. However, the only section of the measure officially considered by the House was the Senate amendment requiring one member of the task force be selected from Rota and one from Tinian and that the task force bring back its recommendations within 120 days of formation. The measure easily passed in the House.

JUAN T. GUERRERO
President
Democratic Party
P.O. Box 265
Saipan, MP 96950

Dear Mr. President:

Pursuant to Section VII (a) of the Democratic Party's By-Laws on Schedule on Transitional Matters, I hereby submit my declaration of intent to run as a candidate for the office of the House of Representatives in Election Precinct II (Chalan Kanoa and Susupe). Further, I hereby state that I have met all the requirements and qualifications prescribed under Sections 3(c) and (d) of Article II of the CNMI Constitution for a candidate for the office of representative.

I believe my candidacy would offer the commonwealth a competent and hard working representative. I further believe that my experience as Airport/Seaport Management Intern; Instructor, CNMI College; Superintendent, Mobil Oil Micronesia Inc.; Public School Teacher; and service in the United States Marine Corps, have prepared me for responsible position in government. As a representative, I would be able to implement my ideas on issues and solutions to problems affecting our Commonwealth. The CNMI must align its priorities with the needs of the people of the Commonwealth. We must identify what is important, what is less important and what we should not be doing at all. I think if we can identify the last point first, the other objectives should fall in line relatively easy. I do not believe that with \$82,900,100.00 budget, the Commonwealth cannot at least fix its roads, and deliver uninterrupted services for power and water if priorities are put in perspective. \$82,900,100.00 is a lot of money. If we laid end-to-end this amount in \$1.00 bills it would reach from one end of the island and back 562 times.

The Commonwealth desperately needs to regain its sense of priorities if we are to achieve any kind of progress. It is beyond my comprehension how our government with \$82,900,100.00 budget accomplishes so little at an ever-increasing cost to the people.

Sincerely,

Juan T. Guerrero

PEDRO SABLAN ARRIOLA (Pete Ninai)

Sr. Remedios Pre-School Plans For Future

According to Board of Directors Chairman Roque Santos the Sr. Remedios Pre-school is gearing up for the new school year with new plans for upgrading and improving CNMI's largest private pre-school.

The school located in Chalan Kanoa and housed in the former Catholic Convent Building, anticipates enrolling more than 200 children from all ethnic background for the upcoming school year.

"There is a new attitude among parents of pre-schoolers who are now demanding the best for their children. We want

to implement new ideas and concepts being tried in the Stateside pre-schools," said Santos.

The school is now looking for a new principal with management and teaching experience to implement the new plans for the school. Santos said the principal's salary will be based on management and teaching experiences.

According to Santos, the Board wants to:

- adopt the HBJ pre-school curriculum to facilitate the entry of its graduates to the various schools in the CNMI,

most of which have already adopted the HJB school curriculum;

- establish an improve management and financial plan for the school;

- implement a personnel system that would provide incentives, including training and higher salaries, for teachers and other staff;

- adopt a plan for the renovation of the school;

- prepare an implementation plan in anticipation of the new pre-school program being considered by the US Congress which may become law during the upcoming school year.

Filipino Community Donates To Blood Bank

by Fermin Meriang

The most successful blood drive conducted by the Commonwealth Health Center was on Sunday, due largely to Saipan's Filipino Community.

According to Dr. Steve Weinstein, blood expert at CHC, 19 units of blood were collected for the blood bank at the hospital. "This is simply the largest single drawing we have had since efforts to establish a permanent blood bank began," Weinstein said.

Weinstein added that 40 donors had registered for future drawings. "We at CHC are grateful to the Philippines Consul Julius Torres for organizing this event and letting us use the Consulate for the drawing. Members of the Filipino Community also provided refreshment for the event. "Most of the donors were from the Fidelity Construction Company and they came in when the Consul appealed to them," added Weinstein.

The blood will be tested for various diseases before being stored for hospital use. The blood quality must meet requirements set by the American Association of Blood Banks.

Weinstein explained that people who are most likely to benefit from the new supply will be accident patients, new mothers, surgery patients and others.

AAUW Members Formalize By-Laws

American Association of University Women (AAUW) members will meet next Saturday at the Pacific Gardenia to formalize their charter and by-laws, according to Vice-President Maggie Wonanberg.

The breakfast meeting will take place from 9 a.m. to 11 a.m. on August 26th.

AAUW is a non-profit organization founded in the United States more than 50 years ago for women who have attained their bachelor's degree or above.

Reservations may be made by calling Wonanberg at 234-9453 or 234-1806.

The minimum storage at the Blood Bank has to always be at least 20 units, 10 units of which must be type O, with the other being types A and B.

The life of donor blood is 35 days and that is why it is

important that donors are registered and be able to donate on a monthly basis. Donors are closely monitored to make sure that their own health is not jeopardized, according to Weinstein.

Members of the Filipino community donate blood in last Sunday's Blood Bank effort at the Philippine Consul headquarters in Susupe

SECOND ANNIVERSARY ROSARY

I, Jose S.M. Ichihara and my children would like to invite all of our relatives and friends for the Second Anniversary Rosary of my beloved wife/mother Teresa Aldan Ichihara. Nightly rosary will begin on August 15, 1989 at 8:00 p.m. at the residence of Mr. Jose S.M. Ichihara in Chalan Kanoa Dist. #3. The final rosary will end on Wednesday, August 23, 1989, and Mass will be offered at 6:00 p.m. at the Mt. Carmel Cathedral. Dinner will be served thereafter at the above address. Your prayers and presence is greatly appreciated. Si Yuus Maase.
The Family

MESSAGE OF APPRECIATION

We the family of our beloved "JUAN CANICIO MARCIANO LIMES" wish to convey our most profound gratitude and appreciation to our friends and relatives who in countless ways expressed care and concern, consoled with us, sent messages of sympathy, gave financial contributions, offered personal help, offered mass and prayers for the eternal repose of the soul of our loved one after his passing. Also many thanks to our friends and relatives who were with us in prayers, the wake and the funeral rites and who in many ways gave us strength and courage during our moments of bereavement.

Special Thanks to Bishop Camacho, Father Isidro Ogomuro, Father Roque, Minister Satai Roby, Deacon Slisson, L.M.C. Choir, Rockucho Billy, Oleai School Principal, Teachers, and Staffs, Jess and Ann T. Sablan, Paduna, Jack Agnon and Children, Jack R. Sablan, Henry Pialur, Benigno Fitial, Josepha and Kiriwo, George Pelican, Jack Elamento (Godson) and Mr. & Mrs. Ben Ada, Funeral Homes of Guam John P. Tenorio (Morgen); Sam marianas Inc. and the Mayor and his staff of Saipan Municipal Office.

May the Lord continue to richly bless you all. Thank you, Ghilisu, and Si Yu'us Maase.

NOTICE TO VENDORS

The Director for Department of Community & Cultural Affairs, Mr. Jess B. Panglinan, would like to remind all vendors doing business with the Nutrition Assistance Program (NAP) that funds budgeted for Fiscal year 1989 will expire on September 30, 1989. This means that if you have a NAP account receivable, you will be required to submit your invoices to the Department of Finance, Accounts Payable Section in order to get paid.

You run the risk of not getting paid out of NAP's FY '89 funds by not submitting your invoices on or before September 30, 1989.

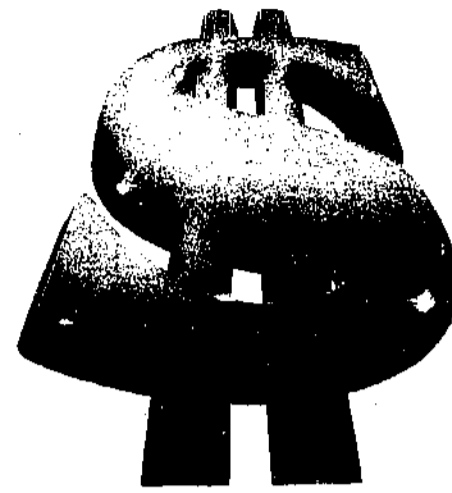

Please call Pat de-Beer at 322-9890/9201 if you have any question.

REQUEST FOR PROPOSAL

The Department of Public Health and Environmental Services (DPH&ES) is soliciting proposals for contracted laundry services for the Commonwealth Health Center (CHC). All proposals must be submitted no later than 3:00 p.m., September 5, 1989, to Director of Public Health and Environmental Services, Commonwealth Health Center, Saipan, MP 96950. Envelopes must be sealed and marked "LAUNDRY PROPOSAL P90-003".

Scope of work includes using CHC equipment to laundry all linens used at the CHC. Proposer to provide labor, compounds, maintenance of equipment and complete required reports. Detailed requirements and information may be requested at the Director's Office during normal working hours beginning August 11, 1989.

Any company/person submitting a proposal should be available for negotiation shortly after the opening of the proposals and will be contacted by the DPH&ES, therefore each proposal should contain telephone number and name of responsible party who can negotiate their proposal. Further, a current local business license which specified laundry must be attached to the proposal. Length of contract will be from October 1, 1989 thru September 30, 1990.

/s/Dr. Jose T. Villagomez, Director
Department of Public Health and Environmental Services

REQUEST FOR PROPOSALS

RFP NO. 8902
JULY 31, 1989

The Commonwealth Utilities Corporation (CUC) is requesting proposals from qualified firm to review and evaluate two (2) proposals that were submitted for the data processing system (a completely integrated utility billing, accounting, and word processing system), Request for Proposal (RFP) 8812.

Generally, the proposer is required to conduct hardware, software and cost evaluation and comparisons, selection of a contractor for RFP 8812, assist in contract negotiation leading to final contract execution and support during installation of the system.

Selection of firm will be made on the basis of direct previous experience on hardware and software evaluation for utility billing and accounting application, cost of services and the time frame for the work. The proposer is advised that CUC has a maximum of 30 days to select and contract for the project in RFP 8812.

Individual or firm submitting proposals for RFP 8812 will not be considered for this RFP.

Proposal shall be submitted to the Office of Procurement and Supply, Government of the Northern Mariana Islands, Lower Base, Saipan, MP 96950 at 2:00 p.m. local time, on August 21, 1989.

CUC reserve the right to reject any and all proposals for any reason and to waive any defect in said proposals, or any of them, if in its sole opinion to do so would be in its interest. All proposals shall become the property of CUC.

All inquiries shall be directed to Mr. Pedro Sasamoto, Executive Director of CUC at telephone numbers (670) 322-4313/4314.

INVITATION TO REBID CUC-ITB-89-W018

The Commonwealth Utilities Corporation (CUC) is soliciting competitive sealed bids from qualified companies for the construction of the WATERLINE TO THE AIRPORT INDUSTRIAL PARK on the Island of Rota. This is a rebid of CUC-ITB-89-W009 for which the bids were opened March 17, 1989 and subsequently rejected.

Sealed bids shall be marked CUC-ITB89-W018 and submitted in duplicate to the Office of the Chief of Procurement and Supply, Lower Base, Saipan, MP 96950 no later than 2:00 p.m. local time, August 30, 1989.

Drawings and specifications for this project are available from the Water Branch for \$300.00 per set. Bidders who purchased drawings and specs for the previous bid need not purchase another set. Prospective bidders shall make payment to the CUC Utilities Business Office, Lower Base and indicate on the payment to credit account number P83083011.

The project consists of the following general items:

- Improvements at the Main Water Cave and Onan Water Cave.
- Construction of approximately 18,000 feet of above ground and approximately 21,000 feet of buried 8" ductile iron pipe with appropriate appurtenances.
- Construction of a one-half million gallon gals fused to steel water reservoir.
- Connection to the existing water distribution system at Sinapalo.

Time allotted to complete this project is 360 calendar days after the Notice-to-Proceed is issued. Liquidated damages in the amount of \$1000 per day will be assessed for completion delayed beyond 360 days. A pre-bid conference will be held August 17, 1989 beginning at 10:00 a.m. at the CUC conference room. The conference will discuss the site location and the scope of the project. Due to the difficulty of the terrain, attendance at this conference is required for all potential bidders.

The contract shall be awarded to the bidder submitting the lowest responsible, responsive bid after a thorough review of the contract documents. All bids must be accompanied by a Bid Bond of 15% of the bid amount. Company checks are not acceptable bid security.

This project is funded in part by a grant from the Economic Development Administration, U.S. Department of commerce. A statutory restriction enacted December 22, 1987, as Section 109 of P.L. 100-102, prohibits the use of construction related products and service contracts with any contractor or subcontractor of a foreign country while that country is listed by the United States Trade Representative as denying fair and equitable market opportunities for products or services of the United States in procurement or bidding. As of the date of the Grant Award for this project, the only country so listed was Japan.

CUC may make such investigations as deemed necessary to determine the ability of the bidder to perform the work, and the bidder shall furnish to CUC all such information and data for this purpose as CUC may request. CUC reserves the right to reject any bid if the evidence submitted by, or the investigation of, such bidder fails to satisfy CUC that such bidder is properly qualified to carry out the obligations of the contract and to complete the work contemplated therein. Conditional bids will not be accepted. All bids become the property of the CUC.

All inquiries shall be directed to Harley Winer, Project Engineer, at the CUC Water Division, telephone number (670) 322-9383 or fax number (670) 322-9382.

INVITATION TO BID

The Mariana Islands Housing Authority Board of Directors is soliciting competitive bids for office space for MIHA branch office in Rota.

The building must be conducive for office, concrete structure (wall and ceiling) with a minimum office space of 1,000 square feet with ample parking area. The building must be well accessible to public road and situated in Songsong Village, Rota. The building should have adequate lighting fixtures. Maximum amount of monthly rental payment should not exceed \$800 excluding utility charges. Owner should provide and maintain public liability insurance for not less than \$100,000 per accident and not less than \$300,000 total coverage for one time aggregate claim. The term of lease is for one (1) year renewable with an option to renew provision by the lessee (MIHA). MIHA can also provide 30 day's notice to terminate the lease at any time without the consent of the lessor. MIHA reserves the right to assign or sublease the premises without the consent from lessor. Owner must have clear title to the premises and existing encumbrances must be acceptable to MIHA. The office space should be ready for occupancy no later than five (5) days after notification of award. Interested lessor should submit their written bid in a sealed marked "MIHA'S BRANCH OFFICE, ROTA" no later than 2:00 p.m., September 4, 1989 to:

MIHA, Rota
P.O. Box 527
Songsong Village
Rota, MP 96951

The Executive Director for MIHA or his designee shall make a site inspection of the office space available for rent submitted by the owner or lessor to ensure it meets the requirement for MIHA branch office in Rota before award is given. MIHA reserves the right to reject any and all bids.

HYATT REGENCY SAIPAN

INVITATION TO BID

No. CUC-ITB-89-W017

The Executive Director's Office is soliciting sealed bids from Prequalified Contractors for the Construction of the Tasa/Marpi Waterline Replacement Project, Saipan, Commonwealth of the Northern Mariana Islands. The sealed bid shall be identified on the outside of the envelope by the invitation to bid number of "CUC-ITB-89-W017." Bids in duplicate will be accepted in the Office of the Chief of Procurement and Supply at Lower Base, Saipan no later than 2:00 p.m., local time on August 18, 1989 at which time and place the bids will be publicly opened and read aloud.

A bond of 15% of the total bid price must accompany the bid. This security may be in cash, a certified check, cashier's check, or other form, acceptable to the Government made payable to the Commonwealth Utilities Corporation, with the notation on the face of the check: "Credit Account No. WD9301010."

The bidder is required to submit with his proposal, a copy of his Business Permit in compliance with the Contractor's Registration and Licensing Laws of the Commonwealth of the Northern Mariana Islands.

Tasa/Marpi Waterline Replacement Project is funded by a grant from Economic Development Administration (EDA) in the amount of \$1,200,000.00 or 50% of the actual project cost whichever is less and by matching funds from the CNMI.

The project consists in general, of constructing approximately 14,500 feet of 12-inch diameter water transmission main, 8,900 feet of 8-inch and 500 feet of 6-inch water distribution mains with appurtenant valves and fittings including 24 fire hydrants.

A non-refundable payment of \$300.00 is required for each set of Plans, Specifications and Proposal Forms, available on or after July 14, 1989 at the Water Branch Office, Commonwealth Utilities Corporation, Saipan. A pre-bid conference for this project is scheduled at 2:00 p.m., local time, July 20, 1989 at the Water Branch Office, Commonwealth Utilities Corporation, Saipan.

Attention is called to the Labor Standard Provisions for Wage Rate Determination of the CNMI Classification and Salary Structure Plans, and that payment of not less than the minimum salaries and wages as set forth in the Specifications must be paid on this project.

The CUC reserves the right to reject any or all bids and to waive any imperfection in the bid proposal in the interest of the Government. All bids shall become the property of the CUC.

/s/PEDRO SASAMOTO
 Executive Director, CUC

NOTICE TO PUBLIC OF NO SIGNIFICANT IMPACT ON THE ENVIRONMENT AND NOTICE TO PUBLIC OF REQUEST FOR RELEASE OF FUNDS

Government of the Commonwealth of the Northern Mariana Islands
 Office of the Governor
 Saipan, MP 96950 Tel.: 322-5091

TO ALL INTERESTED AGENCIES, GROUPS AND PERSONS:

On or about September 4, 1989, the Government of the Commonwealth of the Northern Mariana Islands will request the U.S. Department of Housing and Urban Development (HUD) to release Federal funds under Title 1 of the Housing and Community Development Act of 1974 (PL 93-383) for the following project:

Project :	Dandan Water Improvement Project
Purpose :	Construction of approximately 7,000 linear feet of 12-inch diameter water main
Location :	Dandan, Saipan Island, CNMI Census E.D. No. 23
Federal Funds:	Federal Community Development Block Grant will finance approximately 33 percent of \$500,000 of the total cost of the project.

It has been determined that such request for release of funds will not constitute an action significantly affecting the quality of the human environment and, accordingly, the above-named jurisdiction has decided not to prepare an Environmental Impact Statement under the National Environmental Policy Act of 1969 (PL 91-190).

The reasons for such decision not to prepare such Statement are as follows: (1) the scale of the proposed project is not considered a major Federal action that would require an assessment in accordance with NEPA, and (b) the activity is consistent with all applicable Federal and local environmental regulations.

An Environmental Review Record respecting the within project has been made by the above-named jurisdiction which documents the environmental review of the project and more fully sets forth the reasons why such Statement is not required. This Environmental Review Record is on file at the Mariana Islands Housing Authority Central Office in

REQUEST FOR PROPOSALS

The Marianas JTPA is soliciting sealed proposals from competent firms, institutions and organizations to plan and develop a comprehensive participating career counseling services for one hundred twenty (120) planned enrollment under the program. Specifications and other proposal requirements are available from the Office of the Chief, Procurement and Supply Division, Lower Base, Saipan. The proposals are to be marked RFP89-153 and are to be submitted in duplicate copies to the Office of the Chief, Procurement & Supply, Lower Base, Saipan no later than 4:00 p.m., September 12, 1989. The CNMI Government reserves the right to reject any or all proposals for any reason and to waive any defects in said proposals, if in its sole opinion to do so would be in its best interest. All proposals shall become the property of the CNMI government. All inquiries to this request for proposal shall be directed to the JTPA Executive Director at telephone numbers 322-9310/9511.

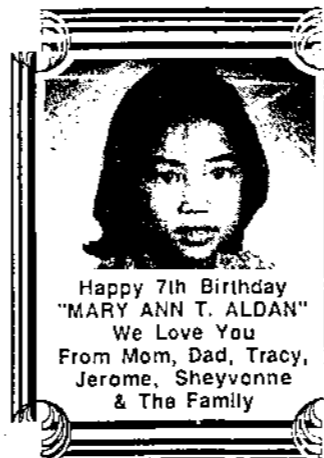

/s/DAVID M. APATANG

Garapan, Saipan, and is available for public examination and copying upon request between the hours of 7:30 a.m. and 4:30 p.m. on weekdays.

No further environmental review of such project is proposed to be conducted prior to the request for release of Federal funds.

All interested agencies, groups and persons disagreeing with this decision are invited to submit written comments for consideration by the Government of the Commonwealth of the Northern Mariana Islands to the Mariana Islands Housing Authority, P.O. Box 514, Saipan, MP 96950. Such written comments should be received at the address specified in the preceding sentence on or before September 2, 1989. All such comments so received will be considered and the Government of the Commonwealth of the Northern Mariana Islands will not request the release of Federal funds or take any administrative action on the within project prior to the date specified in the preceding sentence.

The Government of the Commonwealth of the Northern Mariana Islands will undertake the project described above with Block Grant funds from HUD under Title 1 of the Housing and Community Development Act of 1974. The Government of the Commonwealth of the Northern Mariana Islands is certifying to HUD that the Government of the Commonwealth of the Northern Mariana Islands and the Governor, Pedro P. Tenorio, in his official capacity as Governor of the Commonwealth of the Northern Mariana Islands, consent to accept the jurisdiction of the Federal Courts if an action is brought to enforce responsibilities in relation to environmental reviews, decision making and action; and that these responsibilities have been satisfied. The legal effect of the certification is that upon its approval the Government of the Commonwealth of the Northern Mariana Islands may use the Block Grant funds and HUD will have satisfied its responsibilities under the National Environmental Protection Act of 1969. HUD will accept an objection to its approval of the release of funds and acceptance of the certification only if it is on one of the following bases: (a) that the certification was not in fact executed by the certifying officer or other officer of the applicant approved by HUD; or (b) that applicant's Environmental Review Record for the project indicates omission of a required decision, finding or step applicable to the project in the environmental review process. Objections must be prepared and submitted in accordance with the required procedure (24 CFR Part 58) and may be addressed to HUD at the Department of Housing and Urban Development, Honolulu Area Office, 300 Ala Moana Boulevard, Honolulu, Hawaii 96850.

PUBLIC NOTICE

In the Superior Court of the Commonwealth of the Northern Mariana Islands

Civil Action No. 89-810
Notice of Hearing and Notice to Creditors

In the Matter of the Estate of ELIAS MASGA ATALIG, Deceased.

To: All Persons and Creditors having any interest or claims against the Estate of Elias M. Atalig.

You are hereby notified that Eusebio A. Hocog, of Rota, Commonwealth of the Northern Mariana Islands, has filed a petition in the Superior Court seeking to be appointed the administrator of the estate of Elias Masga Atalig, deceased. Petitioner's attorney of record is Antonio M. Atalig, Attorney at Law, P.O. Box 1638, Saipan, MP 96950. The hearing on said petition for letters of administration has been set for September 14, 1989, at 1:30 p.m. All interested parties should appear at the hearing.

Persons having any claims against the estate of said decedent are hereby notified that any and all claims against the estate must be filed with the Clerk of Court within sixty (60) days of this publication, or the claim will be barred.

/s/Charlene C. Tergeyo
Clerk of Court

PUBLIC NOTICE

Superior Court of the Commonwealth of the Northern Mariana Islands

Civil Action No. 89-811
NOTICE OF HEARING

In the Matter of the Estate of ANTONIO K. ROMOLOR, Deceased.

To: The Heirs, General Public and Creditors of the decedent or his estate, Angela M. Romolor, Francisco M. Romolor, Benedicto M. Romolor, Augustine M. Romolor, Fernando M. Romolor and Ivan John M. Romolor.

You are hereby notified that Francisco M. Romolor of Saipan, Northern Mariana Islands, has petitioned the Superior Court to be appointed administrator of the estate of Antonio K. Romolor, deceased. The attorney of record is Joe Hill, P.O. Box 917, Saipan, MP 96950. The hearing on this petition of Francisco M. Romolor is set for August 31, 1989 at the Superior Court at 1:30 p.m. or as soon thereafter as the matter can be heard. All interested parties should appear at this hearing.

All persons having claims against the decedent, or his estate, are hereby required to file their claims with the Clerk of Court within 60 days of the first publication of this notice, or the claim will be barred.

/s/Bernadita A. Sablan
Deputy Clerk of Court.

INVITATION TO BID

The Mayor of Rota is soliciting sealed bids for the construction of Rota Round House/Social Hall Building. Bids must be submitted in a sealed envelope marked IFB89-0127 to the Chief, Procurement and Supply Office, Lower Base, no later than August 11, 1989 at 2:00 p.m., at which time and place the bids will be publicly opened and read.

A bond of 15% of the total bid price must accompany the bid. This security may be a certified check, cashier's check, bid bond or other form acceptable to the government made payable to the Treasurer, Commonwealth of the Northern Mariana Islands.

The bidder is required to submit with his proposal, a copy of his business permit as a compliance with the contractor's registration and licensing laws of the Commonwealth of the Northern Mariana Islands.

Plans and specifications are available at the Mayor's Office in Rota and at the Commonwealth Planning Associates, Suite 10, second floor, Joeten Building II, Susupe, Saipan beginning July 14, 1989. A non-refundable payment of \$150 per set is required. A pre-bid conference will be held on August 18, 1989 at 2:00 p.m., at the Mayor's Office in Rota.

All bid documents received shall be the sole property of the CNMI Government with the exception of bid bonds, certified checks or cashier's checks which be returned to the bidder's in accordance with section "Instruction to Bidders" Page 1-2, Paragraph No. 5, Bid Guarantee.

The CNMI Government reserves the right to reject any or all bids and to waive any imperfection in the bid proposal in its interest.

PRUDENCIO MANGLONA
MAYOR OF ROTA

REQUEST FOR PROPOSAL

The Chief, Procurement & Supply, is soliciting sealed proposals from qualified companies for Computer Hardware and Software. Specifications may be picked up at the Office of the Chief, Procurement & Supply, Lower Base, during working hours. All proposals must be in sealed envelope, marked RFP89-152 and submitted in duplicate copies to the Chief, Procurement & Supply, Lower Base, Saipan, no later than 2:00 p.m., September 12, 1989. The CNMI government reserves the right to reject any or all proposals for any reason and to waive any defects in said proposals, if in its sole opinion to do so would be in its best interest. All proposals shall become the property of the CNMI government.

/s/DAVID M. APATANG

VACANCY ANNOUNCEMENT

LOCAL HIRES ONLY

2 FEMALE FRONT OFFICE CLERKS

The SAIPAN DIAMOND HOTEL is looking for a bright and friendly person to join our Front Office team.

Ideally, the successful applicant will be well presented and have at least 3 mos. experience in Front Office operation

This is a full-time position involving shift & weekend work

If you can see yourself offering our guests a high standard of service, apply in person at:

Personnel Department
SAIPAN DIAMOND HOTEL
Susupe, Saipan

REQUEST FOR PROPOSAL

DPW89-RFP-00096

The Department of Public Works is soliciting proposals from qualified Contractors for the Proposed Waterproofing of Roof of the Legislature Building, Capitol Hill, Saipan.

Sealed proposals in duplicate will be accepted at the Office of the Chief of Procurement & Supply at Lower Base, Saipan, no later than 4:00 p.m., local time, September 08, 1989.

Scope of Work:

a. Roof surface preparation - Complete removal of dust, littance, grease, curing compound, roof cement, asphalt, foreign materials and disintegrated materials. Approximate roof area = 25,560 S.F.

b. Initial application of primer coating over roof area using stucco seal or equal.

c. Sealing and Coating of all roof joints including the surface at one (1) foot along each side of the roof joints, with high strength epoxy sealer. Approximate total length of joints = 2,310 L.F.

d. Application of elastomeric finish paint (2 coat) over the roof area.

The prospective proposers are requested to inspect the roof of the Legislature Building at Capitol Hill and take note of any concrete cracks or dents requiring repairs to ensure a properly waterproofed roof before they submit their proposals and costs.

A pre-proposal conference will be held on September 01, 1989 at 2:00 p.m., local time, at the Technical Services Division to discuss in detail the requirements of the scope of work.

Proposals shall include the following:

1. Total cost of proposal.
2. Number of days to complete.
3. Methodology.
 - a. Surface preparation procedure.
 - b. Types of materials to be used.
 - c. Brochure of each type of material to be used.
4. Previous experience in similar work.
5. Number of years that proposer will guarantee the work.

The selection of the winning firm will be based on the above submissions. The Government reserves the right to reject any or all proposals and to waive any imperfection in said proposals in the interest of the Commonwealth of the Northern Mariana Islands.

/s/JOHN C. PANGELINAN
Director of Public Works

NHTSA Investigates Complaints Of Nissan Defects

By JOHN FLESHER
The Associated Press
WASHINGTON — Federal engineers have stepped up their investigation of complaints that up to 1.5 million Nissan cars manufactured between 1982 and 1984 have a dangerous seating defect, the government said Tuesday.

The National Highway Traffic Safety Administration said it had received 96 complaints of the cars' seat backs shifting backward suddenly and without warning.

The agency considers the allegations serious enough to upgrade a preliminary evaluation into an engineering analysis, said spokesman Tim Hurd. The change means engineers will study actual seat backs to determine whether

they are defective, as opposed to just paperwork analysis.

The Nissan action was among several announced by the agency that included new or upgraded investigations of models sold under the nameplates of Ford, Mercury, Peugeot, Toyota, Hyundai, BMW, Buick, Oldsmobile and Pontiac.

"We've had large recalls of other cars for seat-back failures," Hurd said of the Nissan action. "It's a hazard. You can lose control of your car if the seat back suddenly fails."

Complaints to NHTSA have blamed 22 accidents and 13 injuries on the alleged defect, he said.

The agency's engineers are examining these Nissan models manufactured during the 1982, 1983 and 1984 model

years: Maxima, Pulsar, Sentra, Stanza, 200SX, 300ZX, 510 and 720.

Nissan spokesman Don Spetner said in Los Angeles the company was reviewing the agency decision and would have no immediate comment.

NHTSA also launched an investigation of 1987 and 1988 Ford Escorts and Mercury Lynxes following 13 complaints that their safety belts had failed.

Also, NHTSA granted a petition requesting an engineering analysis of the 1989 Peugeot Model 405. Six complaints have been filed about malfunctions of the passive restraint system in 2,200 cars, Hurd said.

The agency also reported opening preliminary investigations of:

- Stabilizer bar breakage in 400,000

Toyota Tercels from model years 1982 through 1988.

- Passive restraint system problems in the 1987 Hyundai Excel.
- Rear-belt failure in the 1989 Ford Festiva.

- Brake dragging and locking in 30,000 BMW models — the 325, 524TD, 528E and 535i from the-1985 through 1987 model years.

- Parking cable wearing in several 1985-1987 General Motors cars — the Chevrolet Monte Carlo, the Pontiac Grand Prix, the Oldsmobile Cutlass and the Buick Regal.
- Front wheel drive steering column locking in 500,000 Chrysler cars with tilt steering wheels sold under Chrysler, Plymouth and Dodge nameplates

Escapee

continued from page 1

ADPS 12 member Task Force which had been assembled to conduct the search went to Bowie's residence and Camacho was taken without resistance.

Camacho, along with Diego Sablan Cabrera, had scaled a backyard fence at the Department of Corrections prison late Sunday afternoon and made their escape.

Cabrera remained at large until Monday night when he also turned himself in to his sister's residence in Garapan. He was subsequently taken in to custody.

Both men are serving long sentences for murders.

Reyes said that the Task Force has been dismantled since the recapture of the escapees.

Reyes declined to provide further details on the escapees, saying that everything is still under investigation.

Poker

continued from page 5

determined that there were officially 8,332 registered voters in the CNMI when the petitions were submitted.

The initiative proposes an amendment to Amendment 42 of the CNMI Constitution, which prohibits gambling in the CNMI "except as provided by Commonwealth law or established through initiative in the Commonwealth or in any senatorial district."

The proposed amendment would ban all forms of gambling in the CNMI except raffles, bingo, batu and cockfighting.

A petition that would allow casino gambling in Tinian has already been approved, meaning that the initiative proposing a local law will be placed on the ballot in the General Election. That petition only required signatures from 20 percent of the registered voters in Tinian.

Should both initiatives appear on the ballot in November, it sets up a possible constitutional contradiction, because although casino gambling could be allowed in Tinian, the proposed amendment to the CNMI Constitution would prohibit casino-type gambling.

Letters

continued from page 2

that our college students are taught by qualified instructors. The practical effect of House Bill 6-183, as amended by the Senate, is to require greater qualifications for teachers in our elementary and high schools than for instructors at the College. I cannot believe that this was the intended result of the Senate amendments.

This is an elective year Mr. Chairman and I hope that your action and the actions of the other members of the Senate is not politically motivated. I would rather see that the school delay its opening for two or three months and get the satisfaction of knowing that our children get the best possible teachers they can obtain, than to be re-elected and compromise the educational welfare of our children.

I couldn't agree more with last Friday's editorial in the Marianas Variety that our STUDENTS DESERVE EDUCATION TAUGHT BY QUALIFIED TEACHERS. If we really believe that our children are our most important resource, we cannot deprive them of the source that would make them better people.

Mr. Chairman, in light of the educational needs of our children, I invite you to reconsider your action and those of your colleagues and recall the bill.

Sincerely,

/s/Rep. Gabriel B. Babauta
Chairman, House HEW

CUC

continued from page 25

important to make sure that the fitting for the rod that connects to the float is pointed in the right direction.

The replacement unit should then be put in place, and the coupling nut and locknut put in place and tightened.

The next step is to reinsert the rod and float.

Before turning the water back on, the small refill tube from the float valve mechanism should be inserted back into the overflow pipe.

The last step is to adjust the float so that the float valve

shuts off when the tank is full. Consumers can save money, and save water, by paying attention to the water that runs into their toilet storage tanks, and making sure no more flows than is necessary to do the job properly.

Palau

continued from page 5

Bloom said the contractor told Palau's government it would realize net profits of \$2.9 million during the first year of operations and \$15 million by the eighth year from combined sales of power and fuel.

"The Republic did not verify the contractor's projections or conduct its own economic feasibility study," Bloom said in his report.

He also said Palau "has little potential for increasing electricity sales within the near future."

As of June 30, 1988, Bloom said 1,574 electricity customers including the government owed \$554,300 in unpaid bills.

Bloom said at least 4.5 million gallons of capacity at the fuel storage facility either is empty or is being used to store water.

"As of November 1988, no fuel had been sold," he said. "The contractor estimated that annual profits for the first and eighth years would amount to \$1.6 million and \$7.8 million respectively."

Bloom suggested Palau "Should relinquish the idea of selling fuel" and sell three of its four 750,000-gallon storage tanks. He also said Palau should sell excess power plant equipment.

The power plant and fuel storage tanks are located in Aimeliik State on Babelthup Island where an estimated 3,500 people live.

Taitano Enlists In U.S. Army

Tricia T. Taitano has enlisted in the United States Army according to Sgt. Augustin F. Tudela Army Recruiter.

Tricia T. Taitano is the daughter of Juan L. and Carmen T. Taitano of Koblerville and class graduate of "89" Marianas High School. Tricia is scheduled to report to Ft. Dix, New Jersey on Nov. 1 for Basic Training. Upon completion of training she will report to Ft. Sam, Houston, Texas for Advance Individual Training as a Medical Specialist.

Help Protect Our Fragile Coral Colonies!

It is difficult for many snorkelers and scuba divers to resist breaking off a piece of "souvenir" coral. Unfortunately, many do not realize that corals are animals; they are surprised when corals, once taken from the ocean, begin to smell from the decay of internal tissues. Divers often assume broken pieces of coral on the ocean floor are dead; however, if left undisturbed, these pieces can rejuvenate, forming new colonies. In a study conducted in Honolulu, Hawaii, 65% of all tourists surveyed at the airport left with a piece of coral. The findings supported legislation that was first introduced in Hawaii in 1977 (and last amended in 1989) to prohibit the taking of live coral.

In the CNMI, under Public Law 2-51 and supporting Fish and Wildlife Regulations, "collection and removal" of corals from CNMI waters is unlawful. The only exception is for the gathering of dead coral as authorized by the Chief of DEQ. These regulations are actively enforced, with severe penalties for violators.

Many concerned individuals have noticed the decline of coral colony populations throughout the Commonwealth. Protecting coral colonies is the responsibility of residents and tourists alike. DEQ encourages everyone to leave shells and coral pieces where they find them, in the water and on the beach, where they contribute to the formation of the very beach itself. Why? Ask anyone who remembers the beauty of walking our beaches years ago.

PLEASE DON'T TAKE CORAL!

Values of Corals .

The International Union for Conservation of Nature and Natural Resources (IUCN), has identified coral reefs as "one of the essential ecological processes and life-support systems, necessary for food production, health and other aspects of human survival and sustainable development." In short, coral reefs provide us with the following:

- 1) Fish Nurseries: habitat for juvenile fish, molluscs and crustaceans;
- 2) Coastline Protection: against storm surges and tsunamis;
- 3) Erosion Prevention: through the formation of sandy beaches, sheltered harbors;
- 4) Resource Material: as coral sand used in building and road construction;
- 5) Medicinal Components: used to produce anti-microbial, anti-leukemic, and anti-tumor bio-compounds;
- 6) Economic Opportunities: in places disposed to fostering economic development through tourism;
- 7) Recreation: the value of aesthetic appeal, and activities such as scuba diving and underwater photography.

From DEQ News.

Troop 913 Members Participate In National Jamboree

by **Fermin Merlang**

Five members of Saipan's Troop 913 returned last Friday from Virginia where they took part in the 34th Annual National Boys Scout Jamboree.

The members of the Chalan Lau Troop spent one week with 34,000 other scouts from the U.S. Mainland and other territories, engaged in activities ranging from sightseeing tours to athletic competition.

Cal Reyes, CNMI Scouting Coordinator, said that the boys stopped in Honolulu on the way to Virginia to take part in a pre-camp involving scouts from Hawaii in preparing for the National Jamboree.

From Hawaii, the boys had stops in New York, Philadelphia and Washington, D.C. before arriving at Ft. APhill, the site of the annual jamboree.

The boys were treated to sight-

seeing tours of the Madison Square Garden, the Statue of Liberty, and even took in a Mets game in New York. In Philadelphia, they were guests at the Liberty Bell, Independence Hall and spent a day in colonial Williamsburg. And finally, the Saipan delegation spent two days in the nation's capitol where they took in the sights as well.

During the week at the site of

the jamboree, the boys were addressed by President George Bush.

Aaron Ellis, one of the members, said that the president urged them to say no to drugs and to continue to use their influence to persuade friends to stay away from drugs and alcohol.

And finally the five local boys teamed up with a member of the Japanese delegation and came in

third in the regional volleyball tournament, beating a powerhouse Hawaii.

The five member delegation was: William Hunter, Weynold Pangelinan, Jonathan Esteves, Glen Hunter, and Ellis.

They were chosen because of their excellence in local scouting activities.

Volleyball Playoffs Start Monday

by **Dan Phillips**

The playoffs start Monday night for the Saipan Volleyball Association (SAVA), with the leagues top six teams participating.

The Marlins took the regular season title with an undefeated 12-0 record. The other teams are the Lemat Boys (2nd, 9-2), the AD-IXers (3rd, 9-2), the Spikers (4th, 8-3), the Beach Boys (5th, 8-3), and the Zappers (6th, 6-5).

Monday's action will start at 6:30. Two games will be played, one pitting the AD-IXers against the Zappers and the other featuring the Spikers taking on the Beach Boys. The top two teams have a bye.

A pair of make-up games that have no bearing on the standings

are scheduled for tonight at the gym. The Ambassadors are scheduled to play a rare double-header, playing the Rascals in the first game and then the play-off-bound Lemat Boys in the second game. Wednesday's make-up games were both cancelled.

Plans for a visit by a team of all-stars from Inarajan Village in Guam were also announced. The team will play exhibitions against two all-star teams from Saipan, the first being on August 25 (next Friday) at 8 p.m. and the second being the following day at 6:30 p.m.

The Guam team, made up exclusively of students, is taking the trip during the students' final week of summer.

Volleyball Standings (through Thursday, August 17)

	W	L
Marlins	12	0
Lemat Boys	9	2
Spikers	9	2
AD-IXers	8	3
Beach Boys	8	3
Zappers	6	5
Hot Tuna	6	6
O'Acres	6	6
Ambassadors	3	7
Heavy Load	2	10
Rascals	1	9
Mixturers	2	11
NMC	0	10

Monday's Results
Spikers d. Ambassadors, 15-4, 15-3

Sponsors Renew Contract With Bud Light Ironman Triathlon World Championship

American and Hawaiian Airlines, Coca-Cola Enterprises, Inc., exceed Sports Nutritionals, Shimano American Corporation and Timex Corporation have renewed sponsorship contracts with the Bud Light Ironman Triathlon World Championship, according to Race Chairman Valerie Silk in a press release.

American Airlines is in its second year of sponsorship of the Bud Light Ironman. Hawaiian Airlines has supported the race since 1981.

Coca-Cola Enterprises, Inc., will supply Coke, bike bottles and sponges on race day, and will offer their beverages at various functions throughout race week. Coca-Cola has been a

sponsor of the Bud Light Ironman Triathlon World Championship since 1986.

For the fifth consecutive year, EXCEED Sports Nutritionals will offer EXCEED Fluid Replacement and Energy Drink to 1,250 triathletes along the 112-mile bike course and the 26.2-mile run.

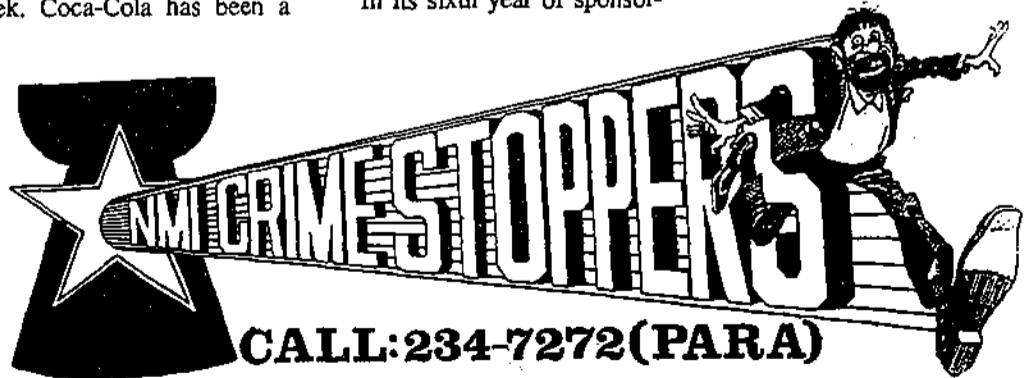

Shimano American Corporation, a subsidiary of Shimano Industrial Company, Ltd., has provided technical support for the Bud Light Ironman since 1986. Participants with malfunctioning bikes will receive support from Shimano vans roaming the 112-mile bike course.

In its sixth year of sponsor-

ship of the Bud Light Ironman, the Timex Corporation will act as official timekeeper of the World Championship by supplying the timing system and monitoring elapsed hours, minutes, seconds, and hundredths of seconds through-out race day.

Commenting on the renewed sponsorship, Silk stated, "We appreciate the fine services and products these companies have offered year after year. Their support has contributed immensely to the success of the Bud Light Ironman."

The 11th Anniversary Bud Light Ironman Triathlon World Championship will be held in October in Kona, Hawaii
