### HAWAII SUGAR MEN ON TRUST JUGGLERY

The stock report of the Chronicle of the 17th gives the following report on market conditions and the reason for the recent slump in sugar:

Business was fairly active, but sales of stocks were largely confined to small parcels. Values, however, were with few exceptions, well sustained and the market, while quiet, was not devoid of interest.

Sugar stocks were represented in the sales to a moderate extent only, holders generally refraining from offering and having ideas of values considerably above the present quoted rates.

Probably the most interesting feature was the refusal of the owners of the cargo of raw sugar which arrived on the steamer Nebraska on Tuesday to deliver to the purchasers here on the ground that the quotation was a fake figure, juggled intentionally by the sugar trust for the express purpose of making the price on this particular cargo 47-8c. per pound. The owners promptly ordered the steamer to make ready to sail for New York and make delivery there. In order to show how completely the sugar trust is manipulating prices it may be stated that yesterday the price on raw sugar was advanced at 5c. in New York and as that market rate is the governing element in paying for the cargoes arriving at this port it is probable that the Nebraska's cargo of about 7,000 tons will now be delivered here.

It is also worthy of note that the sugar trust did not want the Nebraska to sail for New York. The voyage would require quite a long time and the trust is well aware of the fact that raw sugar is almost sure to be considerably higher about the middle of the year. Hence the sudden advance to 5c. yesterday. The day's advices from New York stated that refined sugar was unchanged and in good demand while raw sugar was also steady. Beet sugar was advanced 3-4d. in London for spot cash sales, while April delivery was steady.

### SECRET INVESTIGATION OF IWILEI IS NOT CARRIED OUT

At 1:20 o'clock the Iwilei investigation committee of the Senate convened. Former High Sheriff A. M. Brown was the first witness. The press arrived in time but were refused admittance. After Brown had finished Officer Paul Smith was called. At this time the reporters present had dug up the section of the Senate rules stating that all committee meetings must be public unless otherwise ordered, and signing their names to the section sent it to the secret chamber. This acted as an "open sesame" and the reporters were instantly admitted.

Smith said that the High Sheriff had ordered that within sixty days the women should all live makai the lane by the rice mill, but a month ago he countermanded this order. He could not say who owned the stockade on the Ewa side. Esee, a Japanese storekeeper, collected the rent. Smith thought the property was under a lease. Possibly to the Waterhouse Trust Co. They paid \$5 a month for rooms. At first they wanted to charge \$8 and \$10, but the Sheriff said that was exorbitant and that a uniform rate of \$6 should be charged. At the Waikiki stockade \$2.50 a month was charged, the witness thought.

No other doctor ever asked Smith for the right to practice. He would recognize any certificate signed by any doctor licensed to practice. Practically all the makai part of Iwilei was devoted to the social evil. Limiting the places for such business would interfere with the property rights of those on whose places such business was not allowed. The women were free to get their certificates from any doctor they liked. It was a convenience for the women to go to Cooper who had his office there, and he also instructed them how to keep themselves healthy. Whenever a woman wanted to enter this business Smith told her to get a certificate, but did not specify any physician. If the women were not confined in the stockade, but scattered all over Iwilei, it would be impossible for the police to keep order. When the women were diseased Smith saw to it that they sought medical attendance and did his business.

Editor Shiozawa was the next witness. He had printed in his paper an article stating that the women living in the Ewa stockade would not be arrested, while those living at other places would be arrested. This was the report of an interview he had had with the High Sheriff. This was what Henry had told him. Shiozawa could not give

### Searchlight Ready Judd About To Quit To Be Turned Off PREPARED TO REPORT TO CARTER

Judd's investigation of the School Department's administration is about closed.

As far as anything radically wrong is concerned, Mr. A. F. Judd, selected by the Governor to look into matters stirred up by the Expenditures Committee of the House, will probably report "not guilty." He intimated as much at this afternoon's session. Mr. Judd may have some recommendations to make, but no accusations are likely.

He practically says the Expenditures Committee was away off the track as to irregularities. The Auditor is now on the stand. Mr. Judd expects, of his own initiative, to call no more witnesses. The investigation is to all intents and purposes closed.

The examination of School Agent Rose Davison continued this afternoon.

"Miss Davison, I'd like to ask you further in regard to this Aki contract. Was the change in the contract from \$120 to \$200 made before the work began?"

"We didn't begin work until we had decided on the \$200 contract."

"Have you ever had any differences of opinion with the Auditor's Department over bills?"

"Well, they have frequently called me over to explain certain matters connected with bills."

"Why was it in the Aki case that you had the \$200 warrant made out to Aki, instead of paying \$100 to Aki and making out a bill for \$100 for your men?"

"My men were working for Aki and their agreement was with him. They were my men during Government hours; on this job they were Aki's men out of government hours, for he was employing them."

"How do you know that during the government hours your men were not working on the Aki job?"

"I know that if it had not been for

### Park Bill Referred To Special Committee

THIRTY-SECOND DAY. The resurrection of Senator Bishop's public park bill was the most interesting feature of the Senate's proceedings this morning. The bill was, on a motion made yesterday, taken from the table, to which it had been ignominiously relegated and was placed on the order of the day for today.

The report of the special committee of the Research Club favoring the bill in its recommendation of a public park on Tantalus, was submitted to the Senate and filed. Bishop, the father of the bill, fought strenuously for it. Dickey wanted it referred to a committee of Oahu members, but Bishop quickly calculated that with Dowsett and Mc-

Candless of the Oahu delegation being against the measure, there were slim chances of a favorable committee report, should the committee be composed of Oahu members only. Dowsett is especially strong against the bill as he holds the proposed park is far too large. Also that it will be practically only a rich man's park and is too far distant from the center of the city and lacking transportation facilities to become popular with the great masses of the community. Bishop therefore wanted the bill referred to a committee of outside members and this carried. Although some of the other island members are opposed to the park

**AFTERNOON HOUSE**

Chairman Fernandez, of the Health Committee, received and had read to the House this afternoon a communication from President Pinkham of the Board of Health, in which Pinkham suggests that the Health Committee look up its legal status in the matter or leper examination, gives a list of Honolulu doctors qualified to conduct such an examination, and speaks of the care to be exercised in conducting the examinations. According to the communication, the Board of Health has no power to delegate its legal authority to the Legislature. President Pinkham takes the ground that the Board of Health alone is responsible for leper examinations, but is ready to confer with the Health Committee.

and upon consultation with Mr. Potter received such an account of Gray's devotion to business and ability that he at once employed the assistant manager. Gray is 31 years of age.

**BILL TO COVER LEPROSY NEEDS**

THIRTY-SECOND DAY. A bill covering a bunch of proposed measures and several petitions concerning leprosy and its treatment was today introduced in the House as a committee measure, Rep. Holstein being chairman of the committee.

A hospital for persons in the first stages of leprosy is provided for, thus preventing incipient lepers being sent directly to the Molokai Settlement. The report of the committee was unanimously adopted and the bill passed first reading by title.

The committee considers the leprosy question one of the most vital.

Says the report: Report Leprosy Bill. "Your House Committee to whom were referred various bills touching on the segregation and treatment of leprosy recommends that the bills be tabled in order that a substitute measure may be introduced, covering the various subjects.

"We are not going to discuss in this report whether leprosy is curable or incurable, but we believe that something should be done by this Legislature to show the people that there is some hope, and while the law is not clear as to the manner and time of the treatment of the disease, we have embodied in the substitute act to be introduced sections relating to the establishment of a hospital for the treatment of leprosy in its incipient stages, so that the unfortunates may not be

taken directly to Molokai whereby hope is abandoned entirely. Dr. Rice's Experiment. "We beg to report upon the resolution introduced by Rep. Lewis enquiring of the Board of Health whether a continuation should be allowed Dr. Milton Rice to treat the four leprosy patients now in his charge, that the same has been answered by the President of the Board of Health in his verbal statement before the House that Dr. Rice shall continue the treatment for another year. In order to do so, we recommend that a sufficient appropriation should be made for such purpose."

For Official Wireless. Rep. Sheldon introduced an Act to authorize the Public Works to enter into a contract with the Inter-Island Telegraph Co. for the transmission of telegrams pertaining to government and official business and to appropriate money to carry out such contract. The bill was referred to the Printing Committee.

House Is Quiet. The House was very quiet today, routine business, for the most part being attended to in order to make up for time occupied with the Board of Health controversy. Finance and Public Lands Committees made reports, as did also the Printing Committee.

From the White House. The House of Representatives this morning received a communication (Continued on Page 5.)

### NO DECISION YET BY GOVERNOR ON SUNDAY LAW

Governor Carter has not as yet made up his mind as to whether he will sign or veto the new Sunday law.

"I am at present having a compilation made of the various Sunday laws on the mainland. I want to see whether the new law brings us nearer to or further from American ideas. Before I have studied this I shall not decide on the question. By the way, I notice that our old law is not a blue law. Some of the Sunday laws in the South are much stricter, forbidding even fishing and hunting.

"I wish that the people who are interested in the subject would study both the old and the new law. I find that many misunderstandings have arisen on account of a thorough study of the subject."

**Young's New Manager**

Noah W. Gray, the new manager of the Young Hotel, is expected to arrive in the next Sonoma. He will take charge of the popular hostelry as soon as he arrives. The following dispatch published in the Examiner tells who Gray is. The information was given by Mr. Potter, who has been Mr. Gray's employer:

Santa Barbara, March 7.—Congratulations from many quarters have showered upon Noah W. Gray of this city, a young man who has just received an appointment as manager of the Alexander Young Hotel in Honolulu, one of the most conspicuous of the world's great hostelries. He is at present the assistant manager of the Potter and will take his new position with a salary of \$8000 a year shortly after April 1st.

Mr. Gray is an example of what the thorough study of a business in all of its branches will do for a man of brains. He began his hotel career at the Van Nuys in Los Angeles as a cashier. Determining to see the business through he entered several of the departments, pantry, store and wine rooms, the kitchen and the steward's rooms. He came here when the Potter opened as steward and for over a year has held the assistant management.

The present management of the Alexander Young, the finest hotel at Honolulu, has failed to make as much money as was desired by Mr. Young and recently he came to California in search of a manager. He found Gray

WITNESSES TESTIFY TO COMMITTEE OF SENATE

EVIDENCE SHOWED THAT THE LEGISLATORS MADE NO EFFORT TO STOP THE PEOPLE.

The Senate committee on the Achi resolution regarding Pinkham met last night and examined numerous witnesses. Police Lieutenant Luahwa said that he had been ordered by High Sheriff Henry to go on the Molokai trip and to report to Pinkham for orders. Pinkham had told him all was in the hands of the House committee. Fernandez gave orders for the people to go ashore. Luahwa did not tell him that Pinkham had referred him to him, as chairman of the committee. People went ashore but were not ordered to go into the corral. Luahwa did not tell them to go there as he had no orders to do so.

Manuua, a Hawaiian, said he had gone to McVeigh's house, an officer having told him to go right along. Nobody told him to stay in the corral.

J. F. D. Freeman met some relatives who were inmates of the settlement and embraced them all. He thought the corral proviso in his permit was a farce and would have fought against going into the corral, but no one told him to do so. He did not see Pinkham ashore.

Geo. Sea corroborated Luahwa's statement that Pinkham had said the House and Senate committees were in charge. McVeigh told him to send the visitors to his house.

Representatives Cox and Mahelona saw healthy people and lepers mingling, no attempt of segregation being made. Broad saw healthy people visit the lepers in their homes and saw them kissing and embracing.

Pinkham, who had been following the examination carefully, at times putting questions to the witnesses, stated that it was not necessary to prove that the people did not enter the corral. He did not deny that. As far as he knew, no instructions were given the people to go into the corral.

Several other witnesses were examined but their testimony in the main corroborated that above. The committee adjourned until 7:30 p. m. Saturday.

J. F. D. Freeman met some relatives who were inmates of the settlement and embraced them all. He thought the corral proviso in his permit was a farce and would have fought against going into the corral, but no one told him to do so. He did not see Pinkham ashore.

Geo. Sea corroborated Luahwa's statement that Pinkham had said the House and Senate committees were in charge. McVeigh told him to send the visitors to his house.

Representatives Cox and Mahelona saw healthy people and lepers mingling, no attempt of segregation being made. Broad saw healthy people visit the lepers in their homes and saw them kissing and embracing.

Pinkham, who had been following the examination carefully, at times putting questions to the witnesses, stated that it was not necessary to prove that the people did not enter the corral. He did not deny that. As far as he knew, no instructions were given the people to go into the corral.

Several other witnesses were examined but their testimony in the main corroborated that above. The committee adjourned until 7:30 p. m. Saturday.

# Miss Davison Gives Her Testimony Before Inquisition

## LIGHT ON EDUCATION BUREAU AFFAIRS

Judd's investigation of the Education Department is bringing out facts full of interest, laying bare the machinery of a department of the government in which the most perfect system is expected.

Continuing the report of the proceedings where they were left by the Bulletin's story of yesterday, with Judd questioning Mr. Atkinson:—

**Public School Lands.**  
"Is the Make Sugar Co. occupying any school lands?"

"We claim that it does—Mr. Prosser."

"Did the Legislature of 1901, which knocked out a school inspector general, provide for three school inspectors?"

"It did."

"Has there been any difference of opinion in the last year between the department and the Auditor in regard to the purchasing of supplies? I refer particularly to the Waiata school."

"I supposed you did. In the building of this school there was a difference between the Auditor and myself. The matter went to the 1903 extra session of the Legislature and the money was provided."

"So that is a closed incident?"

"Yes, but I'm perfectly willing to give you all information."

"State it briefly, please."

"The Auditor objected because an order had been given for lumber in May and we asked for payment in June. It never occurred to me that there was anything wrong in the transaction. The lumber was used there, the work was done by our boys. The Governor was satisfied, but he said he was going to have the greatest regularity and I was responsible for some \$700 until the Legislature made good."

"To whom do the school agents, other than in Honolulu, report?"

"To me—almost every week they report to me—they all have things that they want done. They usually want repairs exceeding the money I have in my jurisdiction."

Mr. Dunne, asked by Judd, said he had no further questions to suggest.

**Former Teacher Listens.**  
Miss Anne Marie Prescott, formerly a school teacher, was for some twenty minutes an interested listener at this afternoon's proceedings.

**To Prepare Testimony.**  
Judd said he had copies of certain bills, which he believed to be true, to which were attached certain questions. He wanted Mr. Dunne to look over them that Miss Davison might be given the opportunity, in the interest of fair play, to refresh her memory, that she might be prepared to give information as sought by questions to be asked. He would like to take up this business tomorrow. Dunne appears as attorney for the Superintendent and Miss Davison.

Continuing to question Atkinson, Mr. Judd said:

"Has it been your custom at any stated time to report to the Governor?"

**Reports to Carter.**  
"It has. Up to recently I was in the habit of giving a weekly detailed report. The Governor said he was satisfied with the work of the department and that I need only report the main facts. When he became Governor he asked for a weekly written report from the heads of all departments. I suppose he finally realized that a great deal of work attended these weekly written reports and so did not insist on the full written reports." Mr. Atkinson read a sample report by way of illustration.

Stenographer Creedon stated, when asked, that these weekly written reports ceased last October.

**School Agents Know.**  
"I show you this bill, for clearing lot at Manoa school. Do you know by whom the work was done?"

"No. I can tell no more than when I hear by report from Oiaa that a certain lot is being cleared. Generally the school agents send down and let me know what money is required."

"Nor do you know how well the work was performed?"

"No."

"You don't remember the circumstances of this particular contract?"

"There are so many all over the islands—if it was a big contract I might remember."

Judd asked the witness in reference to another item.

"I know that Miss Davison arranged for the work to be done and consulted me before the work was commenced."

"Do you know whether the work was performed?"

**Took Her Word for It.**  
"I take her word for it."

"What was the nature of the work done?"

"I suppose there were some general repairs. There may have been some desks to put in. I don't know."

Asked further as to work arranged for by the Honolulu school agent, Mr. Atkinson said: "If I found that Miss Davison was not doing her work properly it would be my duty to discharge her."

The witness said verbal agreements on contracts were permitted by law where amounts under \$500 were involved.

"Do you know if this contract (re-

ferred to a bill) for \$250 was ever paid for?"

"I cannot remember."

"Then you don't know?"

"The warrants don't pass through my hands."

"All you would know, then, would be by discussion, before the work was done, with the school agent?"

"Yes."

"And you would take her word for the work having been done?"

"Yes. I think the great object is to get the work done and not to rush around from pillar to post to see if the work is being done."

**Verbal Agreements.**

"In regard to these verbal agreements as to work to be done—the contractor would be one party—who would be the other, representing the department?"

"The school agent."

Judd asked as to putting in six sinks at the High School.

Atkinson did not remember the contract.

"I never considered it my duty to—

In regard to the \$200 for the work, I want to put it clearly. I was asked to allow the \$200, as I would be asked to allow any other item."

"Then the only information that the Territory would be able to get in regard to these verbal agreements would lie with the school agent?"

"Yes."

"I think that is all I have to ask you now, Mr. Atkinson."

A five-minute recess was taken at the suggestion of Attorney Dunne.

**Miss Davison Called.**

At the conclusion of Dr. Rodgers' testimony, Miss Rose Davison was called to the stand. Replying to Mr. Judd's questions, she said: "I am the school agent and assistant secretary in Honolulu, in the Department of Public Instruction. I was at one time principal of Manoa school. I was appointed to my present position in 1898."

"What are your duties as school agent?"

"Caring for all the school buildings, yards and looking after the janitors and truant officers in this district."

"What are your duties in relation to teachers?"

"If they require supplies or repairs they report to me; if there is any trouble between parents and teachers, they report to me. Sometimes there is trouble between pupils and teachers—a child plays truant—they report to me."

"To whom do you report?"

"I report to Superintendent Atkinson."

"What are your duties as related to those of Inspector Davis?"

"Davis looks after all the buildings; their sanitary condition; their repairs; he reports conditions to me, and also to the Superintendent. In some cases if things are required, in the schools, say a clock or a couple of chairs, he tells me, and I look after it."

**Check on Agent.**

"In these particulars he is a sort of a check on you?"

"Yes, he is."

"What are your duties as Assistant Secretary?"

"To do whatever the secretary, that is Dr. Rodgers, requires of me."

"What general class of work? Illustrate."

"If he is overburdened with his letters, I help him. Then I check the vouchers or the payrolls, if he requires it of me."

"How is your time divided?"

"That is hard to tell. We, the Superintendent and I, talk over each day's work the first thing in the morning. Some teacher may have a complaint to send in, and I am sent out to investigate it. I may be a half, one or one-and-a-half hours investigating. While I am at the office again I may have to check bills. Then a note may come in about some children not attending school, or some trouble between parent and teacher, and I must attend to the matter. I am in and out all day."

**Office Overburdened.**

"If your duties were divided, Miss Davison, and the work of the school agent was given to somebody else, would that other person have more work to do than you would have to do as Assistant Secretary?"

"There is enough work to keep the school agent busy all day. I often have to go around after my working hours to keep up with these things. To tell you the truth, we are overburdened with our work in the office. There are not many people in our office."

"It is your province as school agent to keep a record of improvements?"

"I am nearly always in touch with the Superintendent and all these things are talked over."

"Suppose there were two schools in different parts of the city being painted, by what method would you keep track of the work done on them?"

"I have never kept a time book; the greater part of the work is done by contract; and then I generally visit any work that is going on each day."

"Do you keep the contracts?"

"Mr. Atkinson makes a circuit of the schools each year, sometimes twice, so when I speak to him of repairs to be made he knows what is to be done."

Mr. Atkinson here interrupted to say

(Continued on Page 6.)

# HOUSE INVESTIGATION

## WANTS TO KNOW WHY SEGREGATION FAILED

### PINKHAM BLAMES NO ONE—SAYS COMBINED CIRCUMSTANCES WERE CAUSE OF FAILURE.

The examination of President Pinkham by the House continued yesterday afternoon. No one in the settlement asked how he could communicate with those on board the Kinau. He did not tell the people on Molokai that it lay with the Health Committee of the House to land the people on the Kinau. With regard to permits, Pinkham said he was not aware of the fact that twenty-five permits were issued from his office. He did not know where the permits were; he presumed they were at the settlement. No special directions were given by Pinkham to gather up the permits.

At this point the sergeant-at-arms was kept busy bringing questions from various members to Rep. Smith, who was conducting the examination. Pinkham stated that he did not know what became of the permits of those who were not landed. Some passes gave admittance to the Settlement; others to the corral only. It was the duty of settlement officers to look after the passes. He supposed the Superintendent was in charge of the matter.

**Issuing Permits.**  
Some of those who landed at the settlement still had their permits, said Smith. Could these permits be used again? Pinkham said he could not answer this question. He had not issued any orders regarding the permits which had not been used.

Andrade now took the questioning in hand. Regarding the police attendance at the Molokai trip, Pinkham said he had been glad to have some of the police along. High Sheriff Henry had given him a list of the officers who went. Two officers came ashore. Pinkham told them that McVeigh had said he could handle the crowd with his own men and that the Kalaupapa people would feel sensitive if handled by outsiders.

**Combined Circumstances.**  
After Pinkham left the landing McVeigh was in charge of it. Pinkham asked McVeigh if he could establish segregation. This proved a failure. He laid the blame on a general combination of circumstances and blamed no one person. He did not blame the House committee and never made any statement to that effect. Beckley was at the head of the gangplank. He could not say if the police inspected the passes or not. Regarding the question of responsibility Pinkham did not know how that was arranged on the steamer. While at Kalaupapa Pinkham in several instances tried to segregate lepers from healthy people. He saw few instances of mingling.

He said that segregation could be better effected if the Legislature would give the Board enough money to fix up Kalaupapa better. The crowd was too large to be handled by means of the corral under the existing conditions. Andrade also was anxious to know all about Meyer.

With regard to segregation Pinkham further said that it was a mistake to take so large a crowd at one time to Kalaupapa. A proper building should be made where friends could meet at the settlement.

**Refusal at Kalih.**  
Pinkham was then asked if he had refused the House committee permission to visit the Kalih station and have those confined there examined by three physicians. He said he had refused the examination by physicians, basing his refusal on the rules of the Board of Health. He claimed under this that he could refuse Dr. Rice and Dr. Augur permission to review the examination of the Examining Board.

With regard to the correspondence which Chairman Holstein of the Leper Committee had asked for concerning Dr. Rice's experiment with four lepers in Hilo, Pinkham stated that copies of all the reports and the correspondence in the matter was being made ready to be submitted to the committee.

At 5 o'clock the House adjourned, Smith thanking the Board members for their attendance.

on the market to-day that will positively stop and cure falling hair and make

**HAIR GROW**

Average growth 1 1/2 in. per month for twenty consecutive months.

By permission we herewith reproduce photograph of Miss Sarah MacComb, a lady who has lived in Chicago all her life and is well known in the city, especially on the South Side. Her hair before she commenced the use of Danderine would not reach below her waist, while now it touches the floor when she stands erect. This remarkable growth is the result of using Danderine, the grandest of all hair and scalp tonics, regularly as a dressing.

**It Gave Her Hair New Life**

and will do the same for you if you give it a fair trial. Danderine puts new life and vigor in both the hair and scalp. It makes the hair fluffy, silky, and there seems to be no limit to the growth it will produce. There is no other that can be compared to it, as it is founded on new ideas altogether.

## SHE IS WILLING TO SWEAR TO IT.

By request of Miss MacComb we reproduce the following letter:

KNOWLTON DANDERINE CO., Chicago, Ill.

Gentlemen:—I am having so many inquiries regarding the ad. that you are now running showing my picture, that I am sending you this letter for the benefit of the public that you may reproduce it, and I will state under oath if you so desire that I used Danderine for twenty consecutive months and the average growth of my hair was one and one-fourth inches per month, making a total of twenty-five inches in twenty months. You are at liberty to use this letter under oath, but please, and try so doing will save me the trouble of answering the large number of inquiries which I am receiving daily. Sincerely,

**SENATE.**  
(Continued from Page 1.)  
measure on the grounds that they do not want the general taxes to be applied on a measure which will solely benefit Honolulu, the bill probably has better chances of a favorable report now than it would have had with the other committee. The special committee appointed by the President will have submitted to it all the documents and petitions which have been received by the Senate in regard to the measure.

A letter was read from the President of the Board of Health inviting an investigation of himself and his department by the Senate. The letter was identical with that received in the House yesterday.

McCandless moved that the communication be referred to the special committee on the Achi resolution. Carried.

A communication from the House showed that the House had adopted the report of the joint committee on House Bill No. 7.

**Favor Park Bill.**  
A copy of the report of the special committee of the Research Club favoring the Tantalus park, was received and filed.

The Miscellaneous Committee reported on the livery bill, stating that it was loosely drawn and recommended several changes with which it recommended the passage of the bill.

The Ways and Means Committee reported on the Act to amend Section 1195 of the Revised Laws, relating to the compensation of tax assessors, recommending that it be tabled. The same committee reported on the Act to repeal Section 1406 of the Revised Laws, repealing a section of the present license laws, recommending that the bill be tabled to be taken up with the general license law. The Ways and Means Committee also reported on the Act relating to the taxation of social clubs, recommending that it pass with some amendments.

**Emigrant Agent License.**  
The Senate bill relating to internal taxation came up for third reading. Achi said that it was a waste of time to pass this Act now. He moved that consideration of the bill be deferred until the tax bill come up. This motion was lost by a vote of 3 to 8. McCandless wanted the interest on taxes reduced from 10 to 6 per cent and made a motion to that effect. Lost. The bill passed third reading by a vote of 11 to 4, the latter by Achi, Brown, McCandless and Lana.

The emigrant agent license law passed third reading, Achi having been excused from voting, because, he said, he did not understand the bill.

**Park Bill Deferred.**  
The Park bill came up for third reading, having been taken from the table yesterday. Dickey moved to have it referred to a committee of three Oahu members. Woods said it should not consist of Oahu members only. Bishop said he was the father of the bill and he knew that Dowsett and McCandless had their axes out. He therefore moved to have the committee consist of five members not from Oahu. Dowsett did not see why the bill should be referred to a committee. Bishop's motion was lost. Paris moved to have the bill go to a special committee appointed by the chair. This carried and the chair appointed Dickey, Woods and Lane.

House bills 95, 126, 129, 132 and 151 all passed first reading by title. Will come up for second reading tomorrow.

**DANCING GIRLS AT HAWAIIAN HOTEL TONIGHT**

Over eighty seats have already been engaged at the Royal Hawaiian Hotel for the luau and Kamehameha IV. dance tonight and from present indications there will be considerably over one hundred who will partake of the delicious Hawaiian dishes and witness the graceful native dances. Four of the best kanaka girls on the Island of Oahu have been engaged, with the requisite number of gourd beaters. Manager Church requests all who purpose coming to telephone reservations, as otherwise it will be difficult to properly look after the tardy ones. After a lula dance there will be a general dance on the lanais of the hotel.

Rice & Perkins will make a flash-light of the tables, with the dancing girls in the background; this should make an exceedingly effective picture. Tickets can be obtained at Trent & Co., the Hawaiian Promotion Committee or at the hotel office, and no one will be admitted without card. The management suggests that all those who expect to be at the luau supply themselves with leis and thus add greatly to the effect. The luau begins at 7 o'clock sharp.

**PORTUGUESE CHARITY**

The Portuguese Charitable Society of Hawaii held its annual meeting last evening at their hall on Lusitana street. The treasurer's report which was read and approved showed that the society spent about \$50 per month in aiding the needy Portuguese of this city. The following officers were elected to serve for the ensuing year: President J. P. Rodrigues, Vice President J. Madeira, Secretary, A. H. R. Vieira; treasurer, J. A. R. Vieira; visiting committee, J. D. Marques and J. Madeira.

Owing to a pressure of business, J. D. Marques, who has been the president of the society for the past five years or since its organization, declined a re-election. The society is doing much good among the needy of the Portuguese colony and an appeal is being made for financial help.

**MGR. LAKE LEAVING**

Mr. H. Wingate Lake has resigned the management of the Alexander Young Hotel, and expects to leave Honolulu in the Ventura on April 11th, to engage in business in one of the cities on the Pacific Coast.

Mr. and Mrs. Lake, during their stay in Honolulu, have made many friends who regret their departure, and who wish them prosperity wherever they go.

Mr. Lake's knowledge of the Islands and aloha for the people will make him a good friend of Hawaii among the people of the mainland.

**HOUSE.**  
(Continued from Page 1.)  
from Secretary to the President Loeb informing the House that the Senate-House joint resolution urging the President and Congress to favor an appropriation of \$150,000 for the study of leprosy had been received by Mr. Roosevelt. This information comes as a matter of official form and comes after the bill providing the \$150,000 has passed Congress.

**Note from Pinkham.**  
The following was received from President Pinkham of the Board of Health and read and filed:  
"As per resolution of the Board of Health, copies of correspondence between the Board of Health and Dr. Milton Rice are being made as rapidly as two typewriters can copy them. Also copies of reports. As the matter of voluminous, time is required. The request of the House will be complied with immediately on completion."  
"L. E. PINKHAM,  
"President, Board of Health."

Albert McGurn's appointment as Deputy Warden of Oahu Prison was announced by High Sheriff Henry last night. Mr. McGurn has been connected with the Police Department in various capacities for a long time, and is well fitted for the position.

The livery bill passed second reading as amended by the committee. Will have third reading tomorrow.

The bill relating to the pay of tax assessors came up for second reading and was tabled.

The bill to repeal Section 1406 of the Revised Laws, relating to licenses, was tabled.

The bill relating to the taxation of social clubs, providing a tax of \$200 annually for clubs selling meals and liquor, came up for second reading. Paris wanted the tax raised to \$250 and made a motion to that effect. Dowsett and Bishop disagreed with Paris. Paris' motion was lost. After considerable discussion the bill was finally referred back to the Ways and Means Committee.

The Judiciary Committee reported on the letter from Secretary Atkinson regarding the amendment of the Organic Act, stating that if the amendment had passed, the Legislature had no power to override the Governor's veto in the matter of the County Act. Achi alone had signed the report. Lane and Dickey disagreed.

The Iwilei Committee will meet at 1:30 p. m.

There being no further business before the Senate an adjournment was taken until tomorrow.

**LABOR MAN INVESTIGATING LOCAL SHIPPING**

Victor S. Clark, of the Bureau of Commerce and Labor at Washington, is in Honolulu, arriving in the Sierra last night, and his visit here is likely to stir up things along the waterfront and in shipping circles. He comes to make a thorough investigation of shipping conditions, relating especially to the efficiency of crews and manning of vessels.

Mr. Clark's visit is the result of a crusade carried on by Andrew Furuseth of the International Sailors' Union, who opposes the manning of vessels by incompetent crews. As related by the Bulletin several days ago, Furuseth laid before President Roosevelt, Secretary of Commerce and Labor Metcalf, and a number of supervising inspectors, facts showing the inefficiency of crews in several ports, among them San Francisco and Honolulu. The facts are especially directed against Chinese crews, it being alleged that Chinese sailors become help less in a crisis, cannot understand nor carry out orders. This representation has also been made to every member of the House and Senate, and Mr. Clark will go deeply into conditions here, preparing a report on the subject.

He lost no time about getting down to work. In fact, he started his investigations last night, it is said, and met several of those in touch with the shipping of crews. Mr. Clark will probably make a prolonged stay here, perhaps for four or five weeks.

If his report should be drastic enough to cause a general shaking up of incompetent crews, and sufficient manning of undermanned vessels, accidents like the Slocum disaster or that of the Rio de Janeiro will be reduced to a minimum.

**PROMOTION BUREAU PASSES RESOLUTION ON PARK MATTERS**

The Hawaii Promotion Committee at a meeting yesterday afternoon passed resolutions endorsing the proposed parking system of the sea-beach and Punchbowl.

It refused to endorse the proposed park system on Tantalus. On this point the committee was divided. It was maintained by some that the prospective Tantalus park was so large that it could not be successfully kept up. "Better a small park well kept than a large park ill kept," said the committee in effect. Several members of the committee are in favor of some plan to preserve ten or twenty acres for park purposes in the best spot, and to either lease or sell the remaining ground for funds to keep up the smaller plot.

Three members of the committee were also against the sea-beach park idea, but it was finally decided to endorse this.

The resolution was proposed by F. C. Smith, seconded by W. W. Hall. It was carried unanimously.

The resolution, as contained in a letter to Mr. Bryan of the Research Club, is as follows:  
"Resolved: That it is the sense of this body that the plans of parks at the Sea Beach and Punchbowl, now before the Legislature, should receive happy endorsement."

# Tumors Conquered Without Operations

### Unqualified Success of Lydia E. Pinkham's Vegetable Compound in Cases of Mrs. Fox and Miss Adams.

Fannie Fox

Miss Luella Adams

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by excessive menstruation accompanied by unusual pain extending from the ovaries down the groin and thighs. If you have mysterious pains, if there are indications of inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound right away and begin its use and write Mrs. Pinkham of Lynn, Mass., for advice.

Read these strong letters from grateful women who have been cured:

Dear Mrs. Pinkham—(First Letter.) "In looking over your book I see that your medicine cures Tumor of the Uterus. I have been to a doctor and he tells me I have a tumor. I will be more than grateful if you can help me, as I do so dread an operation."—Fannie D. Fox, 7 Chestnut St., Bradford, Pa.

Dear Mrs. Pinkham—(Second Letter.) "I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eighteen months ago my monthly stopped. Shortly after I felt so badly I submitted to a thorough examination by a physician, and was told that I had a tumor on the uterus and would have to undergo an operation."

"I soon after read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed, the tumor is entirely gone. I have again been examined by the physician and he says I have no signs of a tumor now. It has also brought my monthly around once more; and I am entirely well. I shall never be without a bottle of Lydia E. Pinkham's Vegetable Compound in the house."—Fannie D. Fox, Bradford, Pa.

### Another Case of Tumor Cured by Lydia E. Pinkham's Vegetable Compound.

Dear Mrs. Pinkham— "About three years ago I had intense pain in my stomach, with cramps and raging headaches. The doctor prescribed for me, but finding that I did not get any better he examined me and, to my surprise, declared I had a tumor in the uterus. "I felt sure that it meant my death warrant, and was very disheartened. I spent hundreds of dollars in doctoring, but the tumor kept growing, till the doctor said that nothing but an operation would save me. Fortunately I corresponded with my aunt in the New England States, who advised me to try Lydia E. Pinkham's Vegetable Compound before submitting to an operation, and I at once started taking a regular treatment. Feeling to my great relief that my general health began to improve, and after three months I noticed that the tumor had reduced in size. I kept on taking the Compound, and in ten months it had entirely disappeared without an operation, and using no medicine but Lydia E. Pinkham's Vegetable Compound, and would 'sell' it as a express how grateful I am for the good it has done me."—Miss Luella Adams, Colonnade Hotel, Seattle, Wash.

Such unquestionable testimony proves the value of Lydia E. Pinkham's Vegetable Compound, and should give confidence and hope to every sick woman.

Mrs. Pinkham invites all ailing women to write to her at Lynn, Mass., for advice.

### MISS DAVISON GIVES HER TESTIMONY BEFORE INQUISSION.

(Continued from Page 3.) That it must be understood that in visiting the schools they did not necessarily go in school hours.

Continuing to speak on the subject of contracts Miss Davison said: "I have men to look at buildings to be repaired and to estimate the cost, and then I consult Mr. Atkinson."

### Makes Out the Bills.

"Who makes out the vouchers?" "I generally help them to make out their bills; they are not capable of making out any vouchers. I make them for them."

"How are these contracts made?" "They are generally made verbally. I never made a verbal contract in writing." (This remark of Miss Davison occasioned considerable amusement. She corrected herself to say that of course a verbal contract could not be made in writing.)

Mr. Atkinson interrupted to say that no written contract was required where any sum less than \$500 was required.

Mr. Judd asked in regard to a contract with one Mr. Aki, for putting in sinks at the High School.

"Originally five sinks were required," said Miss Davison, "then Mr. Richmond wanted six. Seventy dollars was wanted for material and \$50 for labor."

"What was the total amount to be paid?"

"Two hundred dollars."

"Who was to furnish the material?"

"The department."

"How much did you say the material cost?"

"The material cost \$70—I am sure of it."

"Have you preserved Aki's proposal to do the work?"

"I think I returned it."

"I take it that he is a Chinese, by his name."

"I think he is part-Hawaiian."

The Sink Contract.

"Was there any change made in the arrangement?"

"I wanted five sinks; the work on these sinks was not to include carpentry; the plumbing alone was to be \$120. Then Richmond wanted six sinks. Then in order to rush the work Aki was to pay \$100 for the extra time of my men and he was to get \$100 for his laborers. This \$70 for material was outside of the \$200 for labor."

"What were your men doing at the High School?"

"They were preparing the building for the opening of the school session; general repairs and overhauling. Benches had been prepared for resting the sinks on."

"When you say 'my men,' whom do you mean?"

"I mean the men employed in overhauling the school house. They were doing the necessary carpentering to get ready for the plumbing. I got Aki to do the work through one of my men who had worked for Aki. I went to the building several times while Aki was working."

"Have you any data to which you can refer?"

"Yes, I have the statement of the men who were working for me."

Dunne Has Affidavit.

Attorney Dunne—"I have their affidavit here, Mr. Judd, if you want to refer to it."

Miss Davison—"I think you might as well see it now, Mr. Judd."

"How were these men paid?"

"The warrant was endorsed to me, and the money due my men was paid to my men."

"Was the voucher for \$200 made to Aki?"

"Yes, as I had agreed for my men to work for so much a day on contract and that Aki should pay my men for extra time."

"When that agreement was made with Aki, how could you tell what that extra time would be?"

"One of the older men whom I could trust told me that the extra time for my men would cost about a \$100."

"On what work were your men employed during the regular hours?"

"Repairing the steps of the High School, the verandas and the floors."

"How were they paid for this work?"

"I don't remember—it may have been by the day or by the contract."

"Who employs the janitors?"

"I do."

"Can you tell me how many janitors are now employed?"

"Ten."

"Have you the list?"

"Yes, sir." Miss Davison handed Mr. Judd the list.

"How are they paid?"

"From the 'Support of Schools'—not from the 'Labor' or 'Payrolla.'"

"Who fixes the amount of their compensation?"

"I talk it over with the Superintendent."

"Who directs their work?"

"I do. During school hours they are under the principal's supervision."

Keeps No Books.

"Have you anything to do as School Agent with the school agents of other districts?"

"Only as I write to them in regard to supplies, etc."

"Do you keep any books at all as School agent or Secretary?"

"I keep no books at all."

"You rely entirely upon your memory?"

"Yes."

Mr. Atkinson interrupted to say that the Department was not supposed to keep any books.

"This morning while I was in the Education office, I noticed four native clerks. What do they do?"

"I think you only saw three, the other must have been a transient officer."

"One was working on the detail book, was he not?"

"Yes, entering duplicate bills."

"Who has charge of these men?"

"They are supposed to be under my charge as School Agent."

"What are they paid?"

"Shaw gets \$75, Kaahu gets \$60, and Kaehe, I think, gets \$50."

"What do they do?"

"They do anything they are told. George Shaw looks after general shipping; Kabele handles orders and sup-

plies."

"Do the janitors report to you regularly?"

"They come to the office quite frequently; the janitors are very often sent there with notes from the teachers, when there is a complaint or something wanted, when they want hoes or rakes, for example."

"I noticed several natives on the steps of the Educational office this morning, were they janitors?"

Janitors Examined.

"Yes, the joint committee of the Legislature asked that I have all my janitors there this morning, as they wanted to examine them."

"I don't want to trespass on the legislative work," said Judd, smiling at the faces around the table.

"No, that would be an unpardonable sin," said Attorney J. J. Dunne.

"You say you have often assisted in making out the bills?"

"Yes, a great many of them were Hawaiians who could not write a bill in shape to suit the Auditor. You could get ahead of them, however; they could always read the amount."

"Who collected the money?"

"I assisted them in collection."

"For what reason?"

Miss Davison Lent Money.

"They would often come to me during the month and draw, say \$2, \$5, \$10, or maybe \$20, which I furnished to them out of my private funds. Then the warrant was made out in my name. Sometimes a janitor would assign his salary to me. I would take their I. O. U.'s."

"Have you any of those I. O. U.'s now?"

"Yes, I hesitated to let them have any large amounts."

"Have you kept any track of these loans?"

"No, I would simply keep their I. O. U.'s. When the time for payment came we would go over these I. O. U.'s together."

"Have you any of these I. O. U.'s now in your possession?"

"Today I received two, one for a \$1 and one for \$2, I think."

"Will you look the matter up and give me an account of what you have?"

Something Might Happen.

"Yes, I will. I have refused loans recently; under present conditions I think it would be unwise to make any advances, because I do not know what might happen."

"Do you charge any interest?"

Charged No Interest.

"I don't charge any interest. One of the reasons I would advance money was because I found out that some of my transient officers had been arranging with Peterson for loans, paying ten per cent. I considered this robbery so I told them I would let them have the money."

"Which Peterson is that?"

"I think it is Will Peterson."

"That is ten per cent per month," remarked Deputy Attorney General Prosser.

"When you cashed these warrants for them, when they were registered warrants, how about the discount?"

"I never charged them any discount."

"Then you lost on the transaction?"

Lost on Loans.

"Yes, I personally lost by cashing them at a discount. The other day I sent a janitor to the bank to cash a warrant for himself. He did not like the idea of a discount."

"Then this arrangement which you had, resulted in no profit to yourself?"

"No, I lost on the discount."

"What was the maximum sum you lent?"

"I can't remember. I have never advanced them the full amount. I did not want them to overdraw."

"You have means of your own, Miss Davison?"

"Yes, a little."

"You are not dependent upon your salary?"

"Not quite."

"This custom of helping these men, as I understand it, the reason the Auditor is asked to draw the warrant in your name?"

"Yes, it is drawn this way, because I take no security, and to protect them, for they might sell their warrant."

"You said it was not the custom to keep such proposals as that of Aki's. I find here (referring to papers) the proposal of Otto Oss—I will ask you more about this later—in relation to work in Moiliili. I'll ask you to look up any other proposals that you may have."

"If there are any proposals preserved they are attached to the bills like that one. I asked for that proposal because it had to do with material and labor."

"Why?"

"Sometimes if Mr. Atkinson does not feel satisfied in regard to my statement of work to be done, I insist upon a written proposal; I get him all the information he requires."

"We have spoken of the Oss and Aki cases. Did these proposals ever occur in any other cases?"

"I don't remember. If I have any written proposals they are attached to the vouchers."

Shortly after four o'clock recess was taken until 10:30 o'clock this morning. The question of evening session was discussed, and there may be a session tonight.

Science Destroys Rats and Mice. Many readers of this paper have been greatly annoyed the last month or so with an unusual number of rats and mice, or both. Traps have been of no avail in ridding them of these pests. We are glad to tell them that science has discovered a means of driving rats and mice from the house to die. This is Stearns' Electric Rat and Roach Paste. Its sale has been remarkable, and it never fails. If you cannot get the Paste of your dealer, write direct to the Stearns' Electric Paste Co., Tribune Building, Chicago, Ill., and it will be sent to you prepaid on receipt of price. It is easy to use, and rids the house of rats, mice, cockroaches, etc. Small size, 35c; Hotel size, eight times the quantity, \$1.00.
