SUMMER SCHOOL.
Two Hundred Teachers Are in Attendance—Lecture This Evening.

"Two hundred teachers in the Summer School," says Mr. Townsend. This is more than twice the number expected. This morning everything was in excellent shape. All the classes are in running order.

At 7:30 this evening the first regular course lecture will be given. It will be on the subject of physical geography. Dr. A. B. Lyons is the speaker selected. The public is cordially invited to be present.

TRAVELERS.
Mrs. Carroll and the Misses Carroll, of San Francisco, who are guests at Sans Souci seaside resort will leave for the volcano by the Kinau tomorrow. Mr. W. F. Whittier will accompany them. The San Francisco News Letter reports a probable engagement between one of the Misses Carroll and Mr. Whittier.

SEEKING COMPROMISE.
The Tramways Company has received a demand from a man named Boyen, a young visitor who claims to be a lawyer, for the sum of \$350 to "call it square." Boyen represents that he has four cases against the Tramways Company for overcharge in fare.

MAKEE AND CARGO.
The steamer James Makee arrived today with paddy and rice from Kauai. She will leave at 4 o'clock this afternoon for Lahaina.

REMINGTON BICYCLES.
In a recent voting contest held in New York City 1696 votes were cast for the Remington Bicycle, making them very close to the head. The Remington Arms Company have a world-wide reputation for the thoroughness and honesty of their goods and the same principles have been carried out in the manufacture of the Remington Bicycles.

H. Hackfeld & Co. have secured the agency for the above bicycle and today are opening a large consignment comprising the different models.

TUGS IN M. GELLAN.
It is reported that a company of Chilean capitalists propose putting in service in the straits of Magellan a line of tug boats for the purpose of towing sailing vessels through the straits. Commenting upon this venture, a correspondent from Valparaiso says it is believed it will prove a financial success and be of great service to commerce.

NEWS OF THE WORLD

COMPLETE SUMMARY OF THE LATEST ADVICES.

Politics in the United States—Cuba and Spain—Europe—Items from All Quarters.

HOW IT ALL STANDS.
ST. LOUIS, July 29.—The upshot of the twin conventions is: Silverites unanimously endorse Bryan and Sewall.

The Populists endorse Bryan, but name Tom Watson, the Georgia congressman for vice president instead of Sewall. There was much confusion in the Populist convention from beginning to end, but sentiment for Bryan was overwhelming. Bryan was named in spite of his own protest grounded on the fact that the convention rejected or refused to endorse Mr. Sewall. The Populists use Bryan's name without his consent, but are satisfied. Sewall declares he will not resign, and Watson says the same. The most intelligent men among the Populists and in other parties say the matter of the difference in vice-presidential nominees amounts to very little.

The prospects are that the gold Democrats will place a third ticket in the field with Secretary Morton, a Nebraskan in the Cleveland Cabinet, at its head. This tack will be calculated to capture a large body of Democratic votes that would otherwise certainly go to Bryan.

Manager Hanna and the McKinley forces realize that they have a hard fight on hand and have opened the battle all over the country, with headquarters at New York.

PLENTY MONEY.
PARIS, July 29.—The Russian loan of 1,000,000,000 francs (\$200,000,000) issued by the Rothschilds, has been covered twenty-five times over.

IRISH LAND BILL.
LONDON, July 29.—The Irish land bill passed the third reading in the House of Commons today.

SOCIALISTS.
LONDON, July 29.—The sessions of the International Socialist and Trade Union Congress were resumed this afternoon in St. Martin's Hall, with Chairman Hyndman presiding. In his opening address, the chairman begged the delegates to maintain order, pointing out that their enemies were deriving considerable satisfaction from the apparent inability of the congress to conduct its business.

94 MILES AN HOUR.
CAPE TOWN, N. J., July 29.—Another test of the new friction locomotive was made this afternoon on the tracks of the South Jersey Railroad. On a level stretch between Cape May and Cape May Courthouse a speed of ninety-four miles an hour was reached at one time, and the run between the two places, a distance of eleven and one-eighths miles, was accomplished in ten minutes.

PAYMASTER WEBSTER'S CASE.
WASHINGTON, July 29.—The Secretary of the Navy has disapproved of the proceedings, findings and sentence of dismissal proposed by the court-martial held at Mare Island recently upon Past Assistant Paymaster Webster, lately attached to the Yorktown on the China station. The officer was accused of having retained a bond exacted from his pay clerk, W. J. Tobin, after having dismissed the clerk.

SPAIN'S FRENZY.
NEW YORK, July 29.—Correspondence to the Sun from Madrid, dated July 15th, says: Premier Canovas, in his last speech in the Chamber of Deputies, said: "Spain must conquer the Cuban insurgents. For this we must make the gravest strife. As long as the Spanish people may wish the war to continue I will not abandon my post. How far our sacrifices shall go is for the national conscience to decide."

ROBERT GARRETT.
BALTIMORE, July 29.—Robert Garrett, ex-president of the Baltimore and Ohio Railroad, died at Deer Park, Md., at 3 o'clock this morning. He had been a hopeless mental invalid for a number of years.

CUBAN SCHEMERS.
LONDON, July 29.—A dispatch to the Central News from Lisbon says

private advices received from Madrid say that the existence of a secret Cuban committee has been discovered there, and that certain Cuban exiles who were in Madrid have vanished. It has also been discovered that separatist schemes relative to the Philippine islands are on foot.

AFRAID OF HER SOLDIERS.
MADRID, July 29.—As a result of certain acts of insubordination among the last 600 men embarked for Cuba and the discovery that secret proclamations were being circulated among the soldiers, and in view of the notorious reluctance of troops to go to Cuba the reinforcements, 4000 strong, who will be embarked at the end of August, will be shipped without arms, through fear of mutiny among them. Their arms will be forwarded by other vessels.

SUNSTROKES.
ST. LOUIS, July 29.—The terrors of the heat today found their full climax at the City Hospital, where the physicians and attendants were kept busy all day and until midnight receiving and attending to patients. The number of cases of heat prostrations sent to the hospital as serious were sixteen. Of these one died, and two others are expected to die at any moment.

OVERCOME BY THE SUN.
CINCINNATI, O., July 29.—The sweltering heat continues today. Two men were overcome by the heat, the first, Martin Taylor, a street cleaner, died in a short time.

HISTORIAN CHOSEN.
BRAZIL, Ind., July 29.—John Clark Ridpath of Greenacastle, the historian, was today nominated for congress by the Democrats of the Fifth Indiana Congressional district by acclamation.

WASHINGTON HEAT.
WASHINGTON, July 29.—The thermometer at the Weather Bureau today registered a maximum temperature of 92 degrees. The heat for the past two days has been intense, and today resulted in two deaths.

GENERAL DEPRESSION.
PHILADELPHIA, July 29.—Because of the general depression in business the Pennsylvania Railroad Company today decided to stop all work on its line wherever possible, in order to reduce expenses.

PRIZE FIGHTER KILLED.
SALT LAKE, Utah, July 29.—Thos. Carter of Tucson, A. T., who was knocked out in a twelve round contest with Bob Thompson last night by a terrific blow on the chin, never recovered consciousness and died at 9 o'clock this morning. Thompson is under arrest. Both colored.

WHEELMAN KILLED.
LIMA, O., July 29.—Joe Griebler, the Minneapolis bicyclist, was killed here today in a race. He ran his wheel into the fence of the track and died in less than an hour. Nobody was very close to him when the accident happened, and nobody can satisfactorily account for the affair.

RECEIVER WANTED.
DENVER, July 29.—This afternoon before Judge Hallett in the United States Circuit Court, application was made for a receiver for the Denver, Lake Wood and Golden Railway Company.

HOUSE TO HOUSE.
NEW YORK, July 29.—In the doubtful middle States the Republicans, in addition to circulating great quantities of literature and holding a great many meetings, will conduct a house to house canvass. The voters are to be reasoned with at the home in a neighborly way.

FLYING LEGIONS.
CHICAGO, July 29.—Among the many novel campaign suggestions, one that is looked on as likely to prove effective was offered today at Republican headquarters here. The proposition is to press the bicycle into the service of McKinley and the Republican party this fall. The plan is to organize Republican clubs on wheels, to be known as "flying legions."

FOR ARBITRATION.
BERNE, Switzerland, July 28.—The Grindewald conference opened here today by a long address by Rev. Lyman Abbott of Brooklyn upon the subject of Anglo-American arbitration. It was for the Anglo-Saxons, he said, to set

the example of substituting law for war and reason for brute force, and the time for this was ripe.

ACAPULCO YELLOW FEVER.
WASHINGTON, July 28.—The Surgeon General of the United States Marine Hospital Service is advised by telegraph by the United States Consuls at Vera Cruz and Acapulco, Mexico, of the prevalence of yellow fever at those points.

PAPER MONEY.
CONSTANTINOPLE, July 28.—It is rumored that the Turkish Government contemplates the issue of paper money.

CRUISER LOST.
CHEEFOO, July 28.—The German third-class cruiser Itis was lost in a typhoon on July 23d, ten miles northward of the Shan Tung promontory, which is about seventy-five miles south-east of here.

Ten of the men were saved. All of the others, including the officers, perished. The Itis was a small cruiser of 480 tons displacement, with two ten-and-one-half centimeter guns and two light guns. She was launched in 1878, having cost about \$188,000. There were eighty-three men aboard.

HOPES FOR ACQUITTAL.
NEW YORK, July 28.—Mrs. George P. Knapp, wife of the missionary of the American Board of Commissioners for Foreign Missions, Rev. George P. Knapp, who was arrested at Bitlis, Eastern Turkey, not long ago, on a charge of conspiring against the Turkish government, has arrived in this city. Mrs. Knapp left her husband in Constantinople preparing to stand trial, and she hopes for a speedy acquittal.

RAIDERS SENTENCED.
LONDON, July 28.—Before Lord Chief Justice Baron Russell of Killoway, Baron Pollock and Justice Hawkins, in the Queen's Bench division of the High Court of Justice, today, the trial of Dr. Jameson, Major St. John Willoughby, Colonel R. Grey, Colonel H. F. White, Major R. White and Captain Henry F. Coventry, charged with violation of the neutrality laws in invading the territory of the South African Republic, was concluded. The jury found all the defendants guilty of violating the foreign enlistment act.

Jameson was sentenced to fifteen months' imprisonment without labor, Major John Willoughby to ten months, Major White to seven months, and Captain Henry F. Coventry, Colonel R. Grey and Colonel H. F. White to five months each.

EIGHT DROWNED.
PITTSBURG, July 28.—Eight persons were drowned in the flood last night. Seven of these met death at Cecil, a mining and oil hamlet in Washington county, and the eighth victim going down at Carnegie.

U. S. FINANCES.
WASHINGTON, July 28.—Today's statement of the condition of the treasury shows: Available cash balance, \$262,703,742; gold reserve \$104,707,678.

WASHINGTON, July 28.—The Boston banks again came forward today with an offer of a million dollars in gold coin to the treasury, and Philadelphia offered \$300,000. If the department gets all in sight the balance will be raised to \$112,000,000. The withdrawals today were \$209,300 in gold coin and \$25,044 in bars, leaving the balance about \$104,832,673.

IRISH PRISONERS.
LONDON, July 28.—The Westminster Gazette says that during the debate on the Home Office vote Friday next the Home Secretary, Sir Matthew White Ridley, will probably announce the mitigation of the sentences of Irish political prisoners.

A GUESS ABOUT HILL.
CHICAGO, July 28.—A special to the Record from New York says: Senator Hill is now in favor of a third ticket. This information comes direct from a personal friend of the Senator, who is a prominent Democrat. The action of the Populist Convention at St. Louis is what seems to have caused Hill to come to a decision as to his course.

CHINO BEET SUGAR.
PONOMA, Cal., July 28.—For two days the Chino sugar beet growers have been harvesting their crop, and tomorrow the great factory and refinery there will start on its annual season of sugar making. Because of the

very dry weather last March and April the production of beets has been decreased by at least 3000 acres.

HARVEST FAILURE.
LONDON, July 28.—An Odessa dispatch to the Times announces that official reports are to the effect that the harvest has been a failure throughout the most fertile grain producing districts in the south of Russia.

AN AMERICAN SCOUT.
LONDON, July 28.—The Chronicle publishes a letter from Buluwayo this morning giving a characteristic description of Burnham, the American scout who has done such excellent service against the Matabele by his shooting of Mlomo, the Matabele god, in a cave in the Matoppo hills while he was in the very act of performing some of the religious mummeries by which he has maintained his hold on the superstitious natives.

MILLIONS OF "DOCS."
WASHINGTON, July 28.—The Congressional committees of both parties have inaugurated a campaign of education through the medium of speeches, pamphlets and other printed literature that is unprecedented in the history of political campaigns. Both committees will send out printed documents literally by millions.

MONEY FOR WAR.
LONDON, July 28.—One of the Chartered South Africa Company's subsidiary committees yesterday voted £5000 to assist the Chartered South Africa Company in suppressing the Matabele revolt. This subsidiary company also resolved to ask the other companies to join in raising £150,000 for that purpose.

BUYING WARSHIPS.
LONDON, July 27.—The Times has this dispatch from Madrid: It is stated that the Government has paid the enormous price of £700,000 each for the two war ships recently bought at Genoa while a contract has just been given for two torpedo-boat destroyers at £60,000, which was dearer than the tender of a first class English firm on the ground that quicker delivery would be secured. Nothing short of a panic can explain such extravagance.

A GREAT STRIKE.
NEW YORK, July 27.—The latest acquisition to the ranks of the striking coatmakers are 5000 overcoat and sack makers who quit work today. This force will be augmented on Wednesday by an assembly of 6000 jacket-makers, and will, in all probability, be followed by 4000 knee-pants makers.

BULUWAYO IN DANGER.
LONDON, July 27.—A dispatch from Cape Town reports that intelligence received from Buluwayo is that the Matabele are again massing around the place. The situation seems no better than it was last April when Buluwayo was practically besieged for weeks.

WEYLER'S LATEST.
HAVANA, July 27.—Strenuous efforts are being made by General Lee on behalf of the United States Government against the order of General Weyler prohibiting the export of fruit. This prohibition is causing immense damage to American commerce and business. The principal reason for the prohibition at certain seaport towns is that they are virtually under the control of the insurgents.

RACE WAR.
JASPER, Fla., July 27.—It is reported that a race war has occurred about fifteen miles east of here, in which six men were killed and seven seriously wounded.

SEWALL SPEAKS.
NEW YORK, July 26.—A dispatch to the World from Bath, Me., says: In reply to a question as to his attitude and plans in the new situation caused by the Populist nomination of Bryan and Watson, Sewall said, after a pause: "Well, the only statement I have to make in regard to that is, that the action of the St. Louis convention does not change my attitude or plans the least particle."

THIRD TICKET.
NEW YORK, July 23.—William C. Whitney was asked today if, in his judgment, there would be a third ticket nominated by the gold standard Democrats. He replied: "I think events and the course of the Republican leaders are making it inevitable."

Hawaiian Electric Company.

The cleanest, brightest, safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."
This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.
Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.
We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

THE BENEFITS OF SOLITUDE.

I hold the theory that the child exerts on the adult, as the friction of life on man, the greatest educational influence, while our most valuable acquisition in the time of our development through nature, art and circumstance is the fruit of hours spent in quietude, desirable for our growing youth and absolutely essential for our future philosopher, poet and artist. Personally, I am indebted for my full fruition, rounded out by a mother's influence, to the solitary contemplations which marked the saddest period of my life.—George Ebers in Forum.

TWO BUREAU MEETINGS

SCHOOL COMMISSION AND THE BOARD OF HEALTH.

Certificates of Teachers—Changes Made—Offers—No Theater Restaurant—Lepers Now in Samon.

The Board of School Commissioners held a meeting at 5 o'clock Wednesday afternoon, President Cooper in the chair. The full board was present.

Mary F. Dole of Riverside was given the offer of principal at Makaweli; Miss A. C. Sloane was offered a position as assistant in the Beretania street school; Mary Lofquists first grade certificate was extended in conformity with the new law.

It was decided to release Moses Victor from the Reformatory school on parole. He was sent there when 12 years of age for the larceny of money and has already served five years.

Arthur Lindsay was appointed school agent at Hamakua to succeed Wm. Hooper, resigned.

Adjourned.
The Board of Health met at 3 p. m. Wednesday, President Smith in the chair. Present were Drs. Wood and Emerson and Messrs Lansing and Keliipio. In the visitors gallery were Drs. Alvarez and Monsarrat.

The Board of Medical Examiners reported that Drs. Brown and Burgess had successfully passed examinations and would be given certificates to practice. Dr. Eleanor Beattie was granted a temporary license to relieve Dr. Le Blond at Hilo. Application of Dr. Sloggett for a license was referred to the Board of Examiners.

A request for permission to open a restaurant in the Chinese theater was denied.

Mr. Keliipio reported having examined 42,251 fish during the week.

President Smith brought up the matter of the lepers in the Samon Islands which the Samoan Government claims are Hawaiians and desires to place on Molokai. At one time this Government felt very favorable toward taking them, especially as they were Hawaiians. But some investigation had been made and it was now feared that the case was not altogether as represented. A letter from Dr. Ashburton Thompson, in which he stated that leprosy had existed for years in Samon, was read.

Adjourned.

AN EYE TO BUSINESS.

The Cyclists, the Advertiser and the Light That Failed.

"Hey, there! Stop!"
The man who uttered these words in a quick, excited manner stepped out in front of a party of wheelmen taking a spin down Michigan avenue.

The cyclists instantly dismounted. "What's the matter?" asked one of the party.

"You are riding without lanterns," he replied.

"Is that what ails you? We don't have to carry lanterns in the daytime."

"Can't you see the sun is nearly down? It will be dark in less than an hour."

"Say, are you an officer? Where is your uniform? Show us your star."

"I beg your pardon, gentlemen. I am not trying to persecute an officer. If you took me for a park policeman, you owe me an apology. I was never mistaken for one before. But that is neither here nor there. I took the liberty of stopping you for the purpose of calling your attention to the fact that it is growing late and some of you may get into trouble with the authorities by riding without lanterns. I ride a wheel myself, and I don't want to see any other wheelman run his nose against a city ordinance and have to pay a fine on account of a moment's forgetfulness. By the way, gentlemen, I am handling a new and improved bicycle lantern, warranted not to go out in the stiffest wind or over the roughest road. Throws a brilliant light many feet ahead of the rider, and—"

"Is that what you stopped us for?"

"Certainly, I can give you testimonials to show that some of the very best people of the city are using my improved—"

"Say, you're a good one. If I had your gull and some other man's face, I'd set up for a beauty show on my own hook."

The party prepared to mount again. "One moment, gentlemen!"

"You're occupying a portion of the atmosphere we are going to ride through. You'd better scatter. Tra-a-ack!"

"That's all right!" he called after them. "In addition to my bicycle lantern I am also manufacturing and selling the best artificial limbs in the market. When you need any corklegs, gentlemen," he continued, raising his voice till it woke the echoes, "if you will send your orders to 797 Gwaynor street I shall take great pleasure in fitting you out, and I hope you'll need 'em inside of the next 40 minutes, you crook backed, spider legged, gum chewing, rubber necked, lean, dyspeptic, cheap, gang of skates! Satisfaction guaranteed or money refunded, you blamed monkey stoopers! Tell your friends."—Chicago Tribune.

A Winning Scheme.

"Yes, at one time the marriage was almost off, and if he had not bought her a present it would have been."

"What was the present?"

"Nobody knows except himself. That's the way he won her back. He won't tell her what it is till after the wedding, and, of course, she is bound to find out, even if she has to marry him."—Cincinnati Enquirer.

Extending It.

Workmen were engaged in laying new tracks for the trolley cars on an up town street last week, when an inquisitive stranger bothered one of the men very much by questioning.

"Are you working for the contractor of this road?" was the final query.

"No, sir," replied the Irishman petulantly. "I'm working for the extender as it is."—Philadelphia Call.

Slow About It.

Eastern Editor—I came out here in search of William Jones, but I am told that he died suddenly not long since.

Landlord of the Cowboys' Rest—"W'y, no; he died mighty slow, considerin'. Most every other feller we've strung up hereabouts has croaked in less'n 10 minutes, but it took him over 20."—Cincinnati Enquirer.

Answered.

A wealthy gentleman, somewhat hard of hearing, had on his parlor floor a fur rug of a little known animal.

A guest, noticing it, said to his host: "What kind of an animal does that skin belong to?"

"Eh? Belongs to me!" answered the wealthy man.—Youth's Companion.

Used Him Up.

"What is the matter with Jorkins? He seems to be a financial wreck."

"Yes, poor fellow. He has met the fate of ancient malefactors."

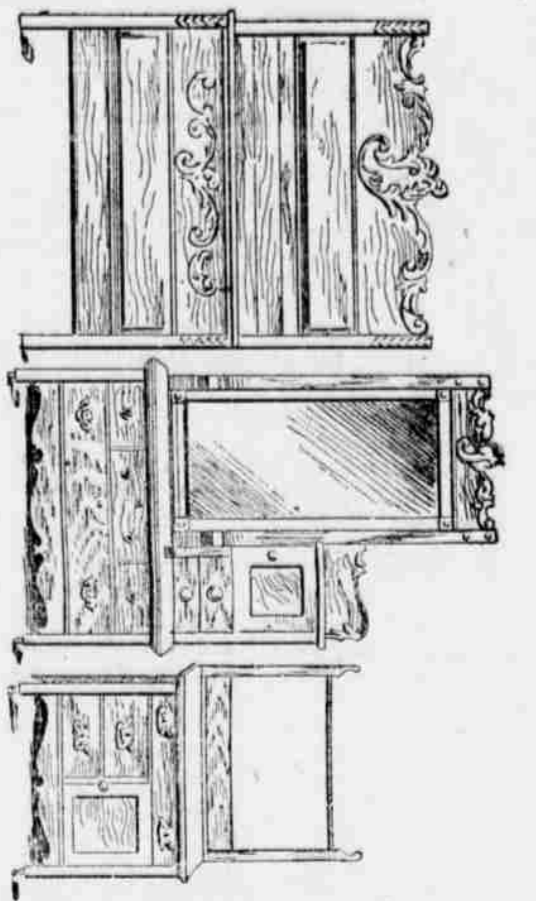

"In what way?"

"Been broken on the wheel."—Detroit Free Press.

"Style" in Furniture

It is equally as poor taste to buy "out-of-date" Furniture as an "out-of-date" Bonnet or Wrap. We have the advantage of all others in having the only absolutely new and "up-to-date" stock of Furniture exhibited in Honolulu—and yet we cost less than you pay for the old elsewhere.

In Oak or Birch are selected by people whose tastes run to the refined or elegant. For room decoration as well as for service there is a certain elegance and richness about these woods, not found in any other, and yet the prices are not what you would imagine them to be. Birch sets, with dressing cases having cheerful pale mirrors, are preferred by ladies, because the long glass allows them a view of the full figure. The old fashioned large, square glass is quite as fashionable and as much in demand because the bureau to which they are attached give large space for clothing.

Bedroom Suits.

In these days when the ladies require many changes of clothing, there is a demand for space in which to put things away. The bureau drawers are crowded. A Chiffonier is necessary in every house where a store room is scarce. These are made nowadays for gentlemen as well as ladies; some have a drop lid which unfolds to the gaze a regular receptacle for pens, ink, paper and other articles of stationery.

China Closets.

There is scarcely a family in Honolulu, or anywhere else on the Islands, who has not a few choice bits of china stowed away in out of the way places. Give them light—let your friends see them.

China Closets in oak are the proper thing, and a dining room is not complete without one—the price has been an obstacle in the past, but over-production by a leading furniture maker in the States has helped us to offer them to you at ridiculously low prices. See those with the oval glass. Prices range from \$20 to \$45.

Secretary Book Cases.

Wall pockets and shelves for books are out of date; fashion demands something more modern and more artistic in design.

Side Boards.

Nothing sets off a dining room to more advantage, or adds to its convenience more than a Side Board. A dining room is complete without one. We have them to suit all tastes and purses.

No sunstroke in Hawaii.

Maj. Pangborn's glasses were not colored when he was sizing up the situation here.

A bicycle for fifteen is being built. Next there will be designed one machine for an entire company of soldiers.

Dr. "Jim" will not suffer physically, financially or socially while in prison. He is one of the best men ever put behind the bars.

The talk or threat of a suit against the Government by Dudley, the departed printer, is really too silly to be called even a hoax.

The Matabele is much worse than the North American Indian. As a warrior he is developing in the direction of the standard of the Abyssinian.

Minister Willis is received back in Honolulu with the warm welcome due his station and with the aloha gained by his kindly utterances on Hawaii nei while abroad.

Spain is to be pitied. She presents the spectacle of a nation in panic. The question of her own preservation will soon be united with that of the retention of Cuba and other colonial possessions.

It is to be noticed that they are actually getting down to the real campaign issue in the United States now. The effort to force tariff discussion has failed miserably and the talkers on silver and gold have the floor.

To save another bond issue, the Cleveland financial management has secured the aid of the bankers of the United States to hold up the gold reserve. The ready response of the men of money rather discounts the stories of lack of confidence.

The San Francisco Call has a telling cartoon none the less pat because it is from an aged idea. Bryan is shown with Sewall and Watson on either arm and the lines below are: "How happy I could be with either, were t'other dear charmer away."

The Socialists in convention at London are a worse lot of disorderlies than were the Populists at St. Louis. With their utter inability to confer in peace they are picturing themselves a fine lot to undertake control of the destinies of countries and peoples.

The latest file of San Francisco Chronicle shows a marked change of tune as to Hawaii. There is an excellent interview on annexation with Jas. B. Castle and fair and intelligent editorial comment on the same. Further is courteous mention of Capt. W. G. Ashley, Jas. A. Kennedy and Jas. S. McCandless. This personal to a trio of prominent Islanders is embellished with a picture of the Great Seal of the Republic and a description of the same. The Chronicle, most likely for political and personal reasons that will be well understood here, has its snarl at Minister Willis and Consul General Mills. This file, however, has very little—nothing really substantial—about hindrances to annexation or alleged injustice to or discrimination against San Francisco merchants.

SUPPOSED TO BE FUNNY.

Doctor—You are suffering from a complication of diseases, my dear sir—about six.
Humorous Invalid—How much discount do you give on half a dozen doctor?

MR. J. B. CASTLE'S STATEMENT.

(S. F. Chronicle Interview.)
"It is not true that the planters are united against annexation and in favor of a protectorate," said Collector General Castle. "Many planters recognize the fact that a protectorate means uncertainty. Nothing will give us permanent stability except annexation

by such a power as the United States. "All the experiences of the past twenty-five years in Hawaiian political history show that stability is our greatest political need. A lack of stability inheres in our geographical situation in any attempt to maintain independence nationally.

"If it were a question of annexation to any other power than the United States a large part of the support to the present Government would undoubtedly fall away. The desire for annexation is what cements the support of the present Government. For all practical emergencies, as in the insurrection of January, 1895, those upon whom the Government must depend for support give their support, in the vast majority of cases, purely and simply as annexationists and for the attainment of that result.

"The annexationists are in the vast majority among those on whom the Government depends. The feeling has increased and strengthened since 1893. Nothing less than unmistakable final rebuff by the United States could change this feeling. So far as I am able to judge of the future, in case the United States steadily and finally refrained from considering the subject of annexation, there would be an inevitable growth of foreign influence. In the necessity for the stability that she must have there might be a return to a monarchical form of government with Kaulani as Queen. This is a theoretical possibility. Its significance would be that British influence would predominate, and a British ship of war in the port of Honolulu would easily see its way to guarantee law and order. I believe this to be a possibility if the United States finally refuses to annex Hawaii. It would follow if the hope of annexation were destroyed. The door would be opened wide to any succession that promised stability.

"So far as the planters are concerned their position in the matter is by no means as influential as their wealth might seem to indicate. Political conditions focus in Honolulu, and any Government lives or dies by the active, ready support which it enlists or lacks in the capital city. And of the 1000 or 1500 who there stand ready to give the Government instant and forcible support an overwhelming majority are annexationists.

"At least a goodly minority of the planters are of the same mind. The longer their residence the more clearly do they see the necessity for annexation as the only way to guarantee political—and hence commercial—stability.

"Those who were born there and have lived through reign after reign especially realize the hopelessness of securing stability by any other means. The labor problem complicates it, but many here in favor of annexation are willing to face the labor difficulties that may ensue as the lesser evil."

HORSE ON CLARENCE.

The Poultry Fancier Dallying With a Hard Boiled Egg.

(San Francisco Chronicle.)
As usual, the Australia's jovial chief steward, Tom James, had a good story to tell: "Clarence Macfarlane, brother of Col. Macfarlane of Honolulu, wants to introduce game chickens over there," he said, "and every trip for the last four or five months he has requested me to bring a setting of eggs of a good fighting breed. Well, I've either forgotten the eggs or neglected looking for them until it was too late each trip, and the trip before this one he told me that if I came to Honolulu again without them he would break my skull—I believe that was his threat. As luck would have it, I forgot them again, and didn't think of the matter until we were entering Honolulu. I knew Clarence would board the steamer on a search for his eggs the moment she touched the dock. I didn't dare to tell him I had none for him again, so I rushed down to the cook and told him to boil six ordinary eggs, and boil them hard. He did so. Then he fixed them up in cotton and placed them in a little basket. Sure enough Macfarlane was the first man to board the steamer, and he rushed down to my office ready, he said, to carry out his threat if I hadn't brought his eggs. I handed him the basket and he thanked and thanked me, and said he'd forgive me all the disappointment I'd caused him.

"When we left Honolulu Macfarlane had the eggs under an old hen that was holding them down twenty-four hours a day. I expect to be killed when I return to Honolulu. However, he may let me go if I take a dozen good eggs."

MAJOR PANGBORN.

The Well Known Editor Talks of the Hawaiian Islands.

(San Francisco Chronicle.)
"These rumors of political upheavals and revolutions in the islands," said Major Pangborn yesterday, "are without foundation, except in the brains of sensation-seeking corres-

pondents. During my brief stay in Honolulu I met many of the leaders of the new government, and their supporters, and was also entertained by some of the most prominent Royalists. I made a close study of the situation, and am prepared to say that everything is as quiet and orderly as could be desired, and there are no indications of a new revolution.

"The annexation sentiment is still as strong as ever, but the people have made up their minds that they must wait until our Government is ready, and so long as they are unmolested by other powers are content to do so. My own judgment is that we should annex the islands and give them a territorial form of government, but only with the understanding that its officers shall be chosen from residents from the islands. They would not tolerate carpet-baggers down there."

CHOLERA DECREASING.
CAIRO, July 26.—Cholera is decreasing and there were only 130 new cases and 100 deaths throughout Egypt on Saturday.

Timely Topics.

August 3, 1896.

Bicycles can well be compared to watches. Good ones cost a high price, notwithstanding the fact that Waterburys can be had for a dollar. They are not all alike, neither are bicycles.

The Zimmy cycles are free from imperfections in materials or manufacture and the makers agree to make good, by repair or replacement, at their factory, at any time within one year from date of purchase, any defects caused by misuse or neglect. The tires and saddles used on the Zimmy wheels are covered by the guarantees of their respective makers. The fact that President of the company, A. A. Zimmerman, has acquired valuable knowledge as a racing cyclist and the experience of the associate manager has taught them the needs of the cycling public and that careful attention to details, strict performance to our agreements make the wheel invaluable to the buyers

We have a few of these wheels that we are offering to the public at \$70 in order to introduce them. If you want a first class high grade wheel that will stay with you in sunshine or in rain get a Zimmy.

W.W. DIMOND'S

We've sold refrigerators and stoves until we are tired, other things as well, but the rush has been for refrigerators. People appreciate a good thing when the points are explained to them. Let's talk hoes, good hoes.

The Kretsinger Cut Easy is as new to you as lots of other things we have introduced in Honolulu. The Cut Easy is made on the same plan as the Clauss Bread Knife and looks like one broadened out. The American grass hook is another good thing. It is built on new lines and cuts back and front. A planter from Kauai took a dozen the other day, because he recognized the merit there is in it; one will last a life time.

Everyone suffers from the ignorance of servants when it comes to sharpening lawn mowers. We have a home sharpener that protects the blade and yet puts it in condition to cut a hair. These are garden implements we have mentioned—sprinklers belong in the same category.

The latest is one that makes a beautiful spray and is built so as to be easily cleaned—there's a place on the end of your garden hose for one of them.

A one cup coffee or tea maker is a jewel you cannot afford to be without—cheap too.

W.W. Dimond
VON HOLT BLOCK.

J. T. WATERHOUSE.

You haven't been coming to us for your regular weekly stock of groceries, because you didn't know we were loaded from floor to ceiling with the finest lines of food delicacies. But we are and we deliver goods with greater promptness than any other store in Honolulu. We have no time limit—its a sort of go-as-you-order plan that pleases the people and makes room for other goods.

We are up to date on lines, with prices entirely out of proportion to values. You know what that means. Plum Pudding is yours at 25 per cent. less than you ever thought of getting one for. New Zealand butter, as fresh as if it was just from the farm. For a second course at a dinner, nothing equals tinned brook trout. You're not used to them here, but in the United States the demand is greater than the supply. Cereals of all kinds. Royal Yacht Club Salad Dressing, superior to Durkeas; Potted Auchovies, for sauce; Morton's Potted Meats of every description are with us in larger varieties and at lower prices than they may be obtained anywhere in Honolulu.

Have you ever tried Whitman's Instantaneous Chocolate? It's good!

First

Last and all the time Hood's Sarsaparilla has been advertised as a blood purifier. The great cures by Hood's Sarsaparilla have been accomplished through purified blood. Scrofula, salt rheum, eczema, rheumatism, neuralgia, yield to Hood's Sarsaparilla, because it eradicates the

Last

Vestige of those impurities which have been developing, perhaps for years, in the blood. Hood's Sarsaparilla cures nervousness by feeding the nerves upon pure, rich blood. It absolutely and permanently cures when all other medicines fail, because Hood's Sarsaparilla

Always

Strikes at the root of the disease, which is in the blood. Thousands testify that they have been absolutely cured of blood diseases by Hood's Sarsaparilla, although they had become discouraged by the failure of other medicines to give any relief. No other medicine has such a record of cures as Hood's Sarsaparilla, because

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Hood's Pills are the only Pills to take with Hood's Sarsaparilla. **Hobron Drug Company** WHOLESALE AGENTS.

THEATRICAL.

The Elsie Adair Company Here for an Engagement of Some Weeks.

The Elsie Adair Company arrived by the China Wednesday afternoon and is quartered at the Hawaiian Hotel. The company consists of six persons, as follows: W. B. Vanderlip, manager; Elsie Adair, Tillie Jardine, Hugh Emmett, Elmer Russell and Harry V. Arnold.

It is the intention of the Company to remain from two to four weeks in Honolulu, and give at least six performances. From here they will go to Japan, China, Manila, India, Africa and Europe, and will return to America in about two years. It is likely Independence Park pavilion will be used for the entertainments here. No other place is at present available. Miss Adair is a famous skirt dancer.

FAST WHEELMAN.

Harry V. Arnold of the Elsie Adair Company is a champion cyclist and wishes to get some races in Honolulu. He rides a "Liberty," a wheel unknown here, but which, he states, has met with favor in America. Manager Vanderlip of the company rides the "Imperial." Mr. Arnold has met most of the wheelmen of the city and is already in their good graces.

AROUND OAHU.

George Ross of the Interior Office and George Harris of the Pacific Hardware Co., left with Capt. E. H. Parker on the Kaena at 10 o'clock this morning for a trip around Oahu. They will stop off at several points and arrive back Saturday afternoon. Ross took a line along and will fish for plank salmon.

AN OLD TIMER GONE.

Death of Pioneer F. Horn After Lingering Illness of Two Years.

F. Horn, proprietor of Horn's Bakery on Hotel street, German, aged 79, died about 10 o'clock Wednesday night after an illness of over two years.

Mr. Horn was a real Kamaaina. He has been for more than a half century a resident of Honolulu, having arrived here when a mere youth. In 1850 he started the business on Hotel street, which he has carried on successfully ever since. In the old days Horn's was the fashionable resort of the city.

The funeral will take place from St. Andrew's Cathedral at 4 o'clock this afternoon. Bishop Willis will officiate. The funeral will be in charge of Oahu Lodge, K. of P., deceased being a member of this lodge and a Past Chancellor. Oahu had looked after Mr. Horn during his illness.

HIS EXCELLENCY RETURNS.

U. S. Minister Albert S. Willis, wife and son returned by the S. S. China Wednesday afternoon. The Minister looks rather thin from his recent illness and is a trifle grayer than when he left Honolulu three months ago. Since away the party have visited principally in Kentucky. The Minister went from here straight to Washington and thence South.

CAPTAIN'S WIFE DEAD.

The schooner Ka Moi arrived from Hawaii at 4:30 o'clock yesterday afternoon. Capt. Sam Mana learned on coming ashore of the death of his wife, a very popular woman. Mrs. Mana died at 1:30 p. m. the same day. She has been ailing for a year. Deceased was 63 years of age. Capt. Sam, who is well and favorably known to water front people and nearly all skippers on the San Francisco packets, has their sympathy.

JUROR FINED \$10.

Douglas K. Brown, a member of the Hawaiian jury of the present circuit court term, was fined \$10 by Judge Carter this morning for absenting himself from the jury yesterday evening. The jury was sitting on a civil suit until 5:15 when adjournment was taken to 7 o'clock. Brown went away thinking, he says, it was to next morning. The court and jury waited until 8 o'clock when adjournment was taken to today. On reassembling this morning Brown was promptly fined.

Mr. C. G. Strong, principal of the public schools at Anderson, Cal., says: "I have used Chamberlain's Pain Balm and have found it an excellent remedy for lameness and slight wounds."

Lameness usually results from a sprain, or other injury, or from rheumatism, for which Chamberlain's Pain Balm is especially intended and unequalled. It affords almost instant relief and in a short time effects a permanent cure. For sale by all druggists and dealers. Benson, Smith & Co., agents for H. I.

JOSE MACEO WAS KILLED.

NEW YORK, July 25.—General Calixto Garcia, commander of the patriot forces in Eastern Cuba, writes to a Cuban in this city under date of July 13th, that General Jose Maceo of the First Army Corps was killed July 5th in an encounter at Loma del Gate. This engagement was a bloody one.

TWELVE THOUSAND MASSACRED.

LONDON, July 25.—The news of the destruction of forty prosperous villages in the vicinity of Van and the massacre of at least 12,000 Armenians was contained in the dispatches from Constantinople to the Chronicle.

BRITISH RIFLE FAILS.

LONDON, July 25.—The question of the "stopping" capacity of a bullet fired from the Lee-Netford rifle, which is now the standard arm of the British infantry, has reached a somewhat acute stage. Wherever the rifle has been used against a savage foe it has proved comparatively ineffective. The Matabele, for instance, seem rather to like it. Unless the bullet strikes a vital organ it no more stops a wounded man's charge than would a popgun.

Ripans Tabules

Mr. L. A. Rocher is a farmer residing about three miles out of Colon, N. C. His home is somewhat in the back woods. In an interview with Mr. S. T. Godfrey, a correspondent of the Telegram and Sunday Times, Mr. Rocher on the 17th of June, 1895, said: "I am 61 years of age, and until I was high onto fifty years old, I was always well and peart, then for a long while and until last February, I suffered with indigestion and could not eat anything hardly at all. My daughter, who lives in the city, sent me some of Ripans Tabules, told me how to take them, and and they have completely cured me. My wife is now troubled with the same complaint, and has written daughter to send some more of Mr. Ripan's medicine. I want you to tell everybody how I got cured, for it is a blessing to humanity."
(Signed) L. A. ROCHER.

Ripans Tabules are sold by druggists, or by mail if the price (50 cents a box) is sent to the Ripans Chemical Company, No. 10 Spruce St., New York. Sample vial 10 cents.

EVERY MAN COVETS THE "SHARPE" COVERT COAT.

This is an exclusive Covert, something that has all the earmarks of merchant tailordom, except the big price. It is an up-to-date, smart looking top coat, that cleverly combines neliage and dress, and gives to the wearer that prestige which is invariably associated with good clothes. It is a ready-to-wear creation, a Garment made by the clever tailors of New York, and made better, trimmed better, and we will wager it will fit better than any Covert your crack merchant tailor can make for you even if you do pay him \$20 more for a top coat than we'll ask you to pay us.

NOTES ON DOINGS IN THE VARIOUS COMMANDS.

G Hard at Work—A This Evening—D Invitations Out—C's Squad—The B Amateur Actors.

Company G turned out about forty men Wednesday evening. Sergt. Ferry took charge of all the privates and drilled them in the manual and simple movements. After this the company was drilled as a whole by Capt. Kea.

Company C had a fair turnout last evening and was drilled by squads. Capt. Camara was present, but took no part in the drill. C will have squad drill in front of the armory again this evening, and will have Company drill tomorrow evening.

Company A will meet at the old barracks at 7:30 this evening and drill on Armory Square. The drill shed will be given over to the Company B dramatic troupe.

Special "invitations" have been issued by Capt. McCarthy to members of D Company for drill tomorrow evening.

The board for the examination of non-coms. will meet at headquarters at 7:30 this evening. It is expected that a dozen candidates will be out.

The press rehearsal of "Under Two Flags" by the Company B troupe will take place from 7:30 this evening. All newspaper men are invited to be present.

The rupture between the B show people and Mrs. Gonzales is not yet settled. Both tell about the same story of the trouble, differing only in minor details. Mrs. Gonzales will not appear in the play. She says she will sue the troupe for the expense of her time and trouble in the matter of the play.

W. E. Wall is doing the surveying for the new range at Kukaako.

Company B has been given the privilege of shooting over the Sharpshooters' range on the evenings of Tuesday and Friday of each week.

On July 22 Lieut. Wolters, of Company H, was at Portland, after having visited all the Coast cities. He reports a pleasant trip and fine health. The Lieutenant has changed his plans and will likely return by the Australia on Monday. The Seattle Times publishes an interview with Lieut. Wolters in which the following is said of Company H and the N. G. H.:

"The lieutenant says his company fills a post of honor to the President and it is composed of some of the best men over there. They stand ready to be called out at any time occasion demands. The Government likes to have the most prominent men at the head of the guard."

Jane Jones keeps a whipperin' to me all the time. An says: "Why don't you make it a rule to study your lessons, an work hard an learn. An never be absent from school? Remember the story of Elihu Burritt. How he climbed up to the top— Got all the knowledge 'at he ever had Down in the blacksmithin' shop." Jane Jones she honestly said it was so. Mebbe he did—I dunno. Course what's a-keepin' me 'way from the top is not never havin' no blacksmithin' shop.

She said 'at Ben Franklin was awfully poor. 'At full of ambition an brains. An studied philosophy all his huilt life— An see what he got for his pains. He brought electricity out of the sky With a kite an the lightning an key. So we're owin him more'n any one else Fer all 'at bright lights 'at we see. Jane Jones she actually said it was so. Mebbe he did—I dunno. Course who's allers been hinderin' me It not havin' any kite, lightning or key.

Jane Jones said Columbus was out at the knee— When he first thought up his big scheme. An all of the Spaniards an Italians, too. They laughed an just said 'twas a dream. But Queen Isabella she listened to him An paved all her jewels of worth An bought him the Santa Marier an said, "Go hunt up the rest of the earth." Jane Jones she honestly said it was so. Mebbe he did—I dunno. Course that may all be, but you must allow They ain't any land to discover just now. —Southern Magazine.

At Her Loom. While the water crosses slumber, While the birds are few in number, Spring is busy at her loom, Weaving for the time of bloom; For the trees, a bright green awning, For the time of vernal dawning; With a wring of living green, And the yellow buttercup— When the days are soft an hazy— Smile beside the nodding daisy, And her shuttle she will ply 'Neath a sunny, azure sky, Till her web and warp she closes With the blooming of the roses. —Boston Globe.

"It is the best patent medicine in the world" is what Mr. E. M. Hartman, of Marquam, Oregon, says of Chamberlain's Colic, Cholera and Diarrhoea Remedy. "What leads me to make this assertion is from the fact that dysentery in its worst form was prevalent around here last summer and it never took over two or three doses of that remedy to effect a complete cure." An Object Of Admiration.

Is a pretty room neatly papered and with a bright new floor covering of matting. We don't carry all the different designs, but what we do have is made by our special order and we are the best judges of what the people of Hawaii want. Prices run all the way from \$6.50 to \$15 per roll. Give us the size of the room and we will tell you the cost of new matting. We can surprise you.

SELLING AT COST

No, we are not. You would not believe us if we told you we were. We endeavor to make a profit on everything we sell. The profit is small, of course, but still a profit. Fifteen years have taught us when and where to get the lowest cash prices. Then another reason why we sell good goods cheap is because our bills are paid promptly, which gets us right prices when we buy.

RIDE A RAMBLER, RIDE A WINNER.

How do we know? Well, look at the records at the track on the 27th of June. 3 firsts 5 seconds and 3 thirds for the Rambler, 3 firsts, no seconds and 1 third for the Cleveland. 1 first, 3 seconds, no thirds for the Tribune.

Then how about the great Relay Race on the 4th of July.

You read in "The Star" that the 5 miles was made in 13 minutes and 23 seconds by a Tribune, but we are inclined to think this is an error. To be sure this time was made by a Tribune rider, but to do it he had to have a Rambler, and every one knows that Geo. Martin, who holds the record for fastest time in the Relay Race, rode a Rambler Wheel and thus got there. The wheels we handle did not get their reputation in a day, but after a year of hard work on the part of the makers, and now the average racing man knows just about what to get for speed and wear. This is the reason that out of the 15 wheels ridden in the Relay Race 9 came from us.

Ladies Wheels for 1896 are pretty wheels, and judging from the way ours sell we are sure that the ladies are fast finding it out.

Don't forget the price, \$100 on easy terms, and cheaper for CASH. This is for 1896 Wheels, first grade, fully guaranteed, don't pay ten or fifteen dollars less for a low grade wheel, and wish you had your money back inside of a month.

If you want to ride the BEST, paste Rambler in your hat and start for

JOHN BULL'S MEANNESS TOWARD A FOREMOST INVENTOR.

All Things British Tried Hard to Crush the Discoverer of the "Bessemer Process"—The Great Change Wrought by the Invention—Bessemer's Safety Stamp.

The inventor of the celebrated "Bessemer process" is the most modest of men, shunning rather than courting observation. A few years since he was sometimes to be seen taking a "constitutional" in the neighborhood of his unpretentious abode at Denmark Hill, in England, but the venerable gentleman with the benevolent face, in the old fashioned frock coat and voluminous, many folded choker neckcloth, is now rarely seen even by his immediate neighbors.

The British public, the British government and British manufacturers did their very best at one time to crush one of the most useful men ever born in Britain, and failed ignominiously. Sheffield laughed at him, and Woolwich gave him the official cold shoulder, but Sheffield and Woolwich would be crippled indeed at the present time were it not for "Bessemer steel." Yet, even now, although foreign potentates have showered crosses and stars upon him, the English government has not conferred upon him any honor more important than an ordinary knighthood, and this in spite of the fact that he has created one of the largest and most important industries in the world.

Some fascinating calculations, made by Sir Henry himself, prove that one year's production of Bessemer steel might be represented by a solid column 16 1/2 times the height of St. Paul's cathedral, and as thick through as an ordinary gasometer—about 100 feet.

Henry Bessemer, son of the late Mr. Anthony Bessemer, was born in Hertfordshire in the year 1813. His earlier years were devoted to art, and we find that he was an exhibitor at the Royal Academy at the age of 20. At this early age he had discovered a means by which impressions of the designs on coins, medals and other reliefs could be reproduced in any numbers on cardboard. Some of his work in this line is still extant, and when specimens came into the market they bring high prices.

This led him indirectly to a more important invention. He discovered that the government of the time was robbed to the tune of £100,000 per annum by unscrupulous persons, who were in the habit of removing the embossed duty stamps on legal and other documents and using the same again. Young Bessemer invented the useful little contrivance by which the stamp is embossed on the paper or parchment of the document itself, and submitted it to the then chief of the stamp department at Somerset House.

The potentate in question saw the advantage of this system at a glance, and soon afterward the authorities expressed their willingness to make use of it. A pretty little story is connected with this invention. When his model was completed, Bessemer showed it to the young lady to whom he was then engaged. Her first comment upon it showed that she was well fitted to become the wife of an inventor. She said:

"Yes, I understand this, but surely, if all stamps had a date put upon them, they could not at a future time be used again without detection."

This proved a very valuable suggestion, for Bessemer soon hit upon the idea of a steel die with a space for a movable date, and in that form his invention was adopted by the authorities. Will it be credited that he never received a solitary farthing from the government for his services or the use of his invention? Such is nevertheless the fact, and when he hinted mildly at legal remedies he was told by the solicitor to the stamp department that he was entitled to no compensation, inasmuch as he had presented his invention to the government gratis! This was at a time, too, when he was by no means well off, when indeed he lacked the necessary money to set up housekeeping with the clever young lady whose brilliant suggestion had resulted in a perfect stamping machine! He received many generous promises from various ministers, of course, but one government went out of power after another, and to this day he has never been compensated in any shape or form.

A man of vast wealth now, Sir Henry Bessemer can afford to regard the troubles of that period of his life with comparative indifference, though he has since had more ample reason to cherish a dislike for all British governments and politicians. But his disappointment in this instance taught him a very salutary lesson. When he made the great discovery of his life—that by which it is possible to convert pig iron into steel by a simple and inexpensive process—he kept his discovery a secret. To some extent it is a secret to this day. The importance of the discovery can hardly be overestimated.

Before the Bessemer process came into use steel could not be bought under £20 a ton, and its price prohibited its use in numberless departments of industry where it is now considered essential. At that time, too, only 51,000 tons of cast steel were produced in Sheffield in a year. In 1892, 25,546 tons of steel were manufactured in the world every day according to the Bessemer process, the selling price per ton averaging £8 perhaps. It is chiefly due to Sir Henry Bessemer that one is almost as safe on a modern ocean steamship as on land, and that the modern structure of steel is nearly as imperishable as the Pyramids. Such a discovery, it might be supposed, would be hailed with enthusiasm by those interested in the iron trade of Great Britain. Not a bit of it. Bessemer met with every possible discouragement. The steel manufacturers of Sheffield were dead against him from the first, and the government ignored him.—Boston Commercial Bulletin.

THE MERCHANT'S DAUGHTER.

Her father was a merchant bold Who o'er the wild Biscay water Still brought back the good red gold To richly dower his only daughter. Radiant she as rose on tree; But, through full many a gallant sought her, No, no, no! on all their woo Frowned back the merchant's daughter. Until, effulgent from the fight That shook the shores from France to Flanders, Shone upon her patriot sight The blindest of our sea commanders, Looked her through, and from her view Vanished smiling, on the morrow. Ah! but she her laughing glee Forsook for sighing sorrow.

"Fair blows the wind; the skies are blue. Wilt sail with me, my winsome daughter?" "That will I! Dear friends, adieu!" And o'er the wave her sire has caught her. Southward far, by sun and star, His good ship fleets the ocean over, When, aloft! across her track Thro' strikes a Salee rover. But as the pirate pressed them sore, And deck and hold ran red with slaughter, Sudden round the headland hoar A noble ship sweeps the water. Heavens above! 'tis her true love That hath this great deliverance wrought her. Grief, farewell! wake, marriage bell, For our best merchant's daughter! —Alfred Percival Graves in Athenaeum.

AN ELEPHANT'S TENDER CARE.

When Left to Watch Children He Will Faithfully Protect Them.

The whole family of the mahout become, as it were, parasites to the elephant, by whom they earn their living. I have seen a baby placed by its mother systematically under the elephant's care and within reach of its trunk, while the mother went to fetch water or to get wood or material to cook the family dinner. No jackal or wolf would be likely to pick up and carry off a baby who was thus confided to the care of an elephant, but most people who have lived a life in the jungle know how very possible it is for a jackal or wolf to carry off a baby when lying in a hut when the mother's back is turned.

The children thus brought up in the companionship of an elephant become familiar with him and take all kinds of liberties with him, which the elephant seems to endure on the principle that it does not hurt him, while it amuses the child. You see a little naked black child about 2 feet high standing on the elephant's bare back and taking it down to the water to bathe, shouting all the time in the most unbecoming terms of native abusive language.

On arriving at the water the elephant, ostensibly in obedience to the child's command, lies down and enjoys himself, just leaving a part of his body, like a small island, above the water, on which the small child stands and yells and yells all the more if he has several companions of his own age, also in charge of their elephants, all wallowing in the water around him. If the child slips off his island, the elephant's trunk promptly replaces him in safety. The little urchins as they grow up become first mates to mahouts and eventually arrive at the dignity of being mahouts themselves.—Omaha World-Herald.

An Electro-Magnetic Cannon.

This recent invention is dependent for its action upon the principle of the force of attraction and repulsion as caused by magnetism. A brass tube, 5 feet long, 2 1/2 inches in diameter and 1 inch bore, was wrapped with insulated wire along its entire length, the current flowing through different sections of the windings in such a manner as to cause the bullets to become temporary magnets, which were attracted by the magnetic lines of force ahead of them and repelled by those behind them, thus giving the projectiles an increasing impetus as they pass along the gun. The bullets are thrown forward in much the same manner as the armature of an electric motor is turned on its axis. The cannon is light, inexpensive, and its capacity for throwing projectiles depends on the rapidity of loading the same. It is estimated that a five foot gun, requiring 500 volts and 100 amperes, will throw a one pound ball 1,900 feet, with a striking velocity of 100 pounds.—Boston Journal of Commerce.

Got What She Asked For.

She was buying a trunk. "I want one," she said, "that cannot be opened by the regulation trunk key that everybody uses." "All right," said the dealer. "I will see that you have one." The next day the trunk was sent home, and a few hours later the purchaser appeared at the trunk store. "I told you," she said, "that I wanted a trunk that could not be opened by the regulation trunk key." "That's what I sent you." "Why, any trunk key in the house will unlock that trunk." "You said the regulation trunk key. Have you tried a hairpin?" Then she went home and wept when she found that she couldn't unlock that trunk with a hairpin.—Detroit Free Press.

William Morris.

William Morris, the English poet, rejoices in the possession of a prodigious memory. Given a fair start on any sentence in Dickens' works, he will complete that sentence with very little deviation from textual accuracy. Were every copy of "Pickwick Papers" destroyed today William Morris could write the book almost word for word as it now stands.

Greenland was so called because in summer its hills were covered with a beautiful green moss.

Paganini looked like a caricature of a man, so thin was he, with every feature exaggerated.

Haydn had a long nose, an almost invariable peculiarity of genius.

DESIRABLE

Residence Sites

Situated on the Ewa side of Nuuanu Valley and above the junction of Liliha and Wylie streets.

The location of these lots is the most desirable in the suburbs of the city.

The site commands an extended view of the city and the surrounding country.

As a residence location for those who wish to escape the malarial atmosphere of the low lands of the city, the situation of these lots cannot be equalled.

As a safe and paying investment parties will bear in mind the wonderful appreciation in values of lands adjacent to the city in the past few years.

The Government water main is laid to the lots.

That these lots may be within the reach of all, we offer the following unparalleled terms:

First—Cash, with a discount of 10 per cent.

Second—\$25 cash, balance at \$5 per month.

Third—\$10 cash, balance at \$7.50 per month.

DEEDS FREE.
