You can't lift a retail business out of a small-neighborhood orbit unless you advertise. Publicity is the only means of expansion. When the masses are informed that you actually exist, that you have goods to sell, that you offer inducements to the purchaser, then your trade grows. This lesson has been learned by every merchant who advertises in the

KAUAI LIGHTHOUSE --- KUHIO EXPLAINS PEARL HARBOR APPROPRIATION

MILLIONS FOR HAWAII

Following is the Pearl Harbor appropriation bill passed by the House:

A Bill to Establish a Naval Station at Pearl Harbor, Hawaii.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Navy is hereby authorized and directed to establish a naval station at Pearl Harbor, Hawaii, on the site heretofore acquired for that purpose; and to erect thereon all the necessary machine shops, storehouses, coal sheds, and other necessary buildings, at an aggregate cost of not to exceed five hundred thousand dollars; and to build thereon one graving dock capable of receiving the largest war vessels of the Navy, at a cost not to exceed two million dollars.

Sec. 2. That the sums here-

WIRELESS PLANS NOW COMPLETED

Station At Kahuku To Be Immediately Built

The plans for the extension of the local wireless system which have been discussed for some time past, were this morning definitely decided on at a meeting of the Wireless Telegraph Company.

"We passed a resolution authorizing the building of the new station at Kahuku," said C. J. Hutchins after the meeting. "It will be a ten-kilowatt power station, and will furnish its own energy by means of a 20-horsepower gasoline engine. The work of construction will proceed immediately, and it is expected that it will be finished not later than July 15, when it will be in operation. In every case the station should be able to get messages from the fleet when it is on its way here, but whether it will be able to send messages depends on whether the power will be installed by that time or not.

"We also decided to build a powerful station at Hilo, and to strengthen the station at Lahaina from a half-kilowatt to a five-kilowatt station. We will also strengthen the station at Nawiliwili, which is now less than a half-kilowatt station, to have a power of about five kilowatts. The Lahaina station will probably get its power from the Pioneer Mill Co. We expect to abandon the station at Paikou and to use that at Hilo in its place. The work on the station at Hilo will probably be started immediately after that at Kahuku has been completed.

"By means of our new stations we will be able to work for a distance of at least a thousand miles, our work being with vessels. I have been negotiating with the various steamship companies about this matter. We are having a Pericon receiver sent to us, which we may use in place of the Sillon which are now using. The manufacturers say that if we had this now we would be able to get the fleet at Magdalena Bay.

"The money for these improvements has all been raised. There will be no bond issue, and the company expects to continue to pay its 1-2 per cent. a month dividend. Isbell has been made superintendent of construction and will later on be superintendent of operation."

DEMOCRATS AFTER ALOHA AINA PAPER

The "Ke Aloha Aina," of which Mrs. Nawahi is the proprietor, is once more being sought by intending purchasers. It was reported yesterday that Admiral Beckley would be one of the purchasers, but when that gentleman was interviewed, he contradicted the story.

The story came from a prominent Democrat, who stated that it is the idea to put up Beckley as a candidate for Mayor on the Democratic ticket, and in order to strengthen his position, it was considered necessary that

SUPERVISORS MAY REIGN 4 YEARS

This Will Happen In Case Municipal Act Is Killed

If the Municipal Act is knocked out the present Board of Supervisors will be in power until Jan. 1, 1911.

This was the conclusion arrived at by one of the bright political geniuses who is a member of the Central Committee. This gentleman during the present dullness in things political occupied his active brain with a study of the future, and this was the result he arrived at after a careful study of the law on the subject.

He communicated his discovery to his friends in the political arena and they agreed with him that he was right in his conclusion. The discovery created considerable consternation among the enemies of Charlie Huxtable, who prides that two years' sway of his iron scepter will be quite enough. On the other hand the friends of the genial Chairman rejoice at the possibility that the crown may stay so long on his noble brow that it will wear a bald spot.

It appears that if the Municipal Act should be knocked out after the election of a Mayor and other officials under it has been held, the government of the County must be carried out under the present County Act, and as there is nothing in the

Hawaii Benefited By New Land Lease Law

President Roosevelt recently endorsed a new land lease bill which has special significance to the Territory of Hawaii. It extends the optional maximum term of lease for Government agricultural lands to fifteen years. These lands formerly were only allowed to be leased for a term of five years at the most, thus cutting out a great deal of property belonging to the Government on which the wild growth was so rank, or the nature of the country so primitive that it would take almost all of the five years to get it cleared up and in condition for agricultural purposes. Consequently there has been a great deal of land which under some circumstances would prove a source of revenue to the government as well as helping to open new country that has lain rank and idle.

Under the new Land Lease Law, which went into effect about a week ago, all of this land may be leased for a term of years up to fifteen, though it is doubtful, according to Land Commissioner Pratt, if any tracts will be let out for the full term.

"The new law should be the means of starting a fresh stimulus in the settling of Government lands," said Land Commissioner Pratt this morning to a Bulletin reporter. "It will have the effect of opening up lands that under the old system were always passed up by the settler or homestead man as impracticable on which to locate, on account of the length of time it would take to place the land in proper condition for farming or other agricultural purposes. There is one phase of the new bill which has a special significance to this island at the present time in view of the fact that negotiations are being made with Mr. Castle for the release of a large part of the lands which he holds under lease to Kaneohe."

"In the terms of the new lease, the Government has the right and privilege of terminating the lease at any time of years up to fifteen, though

KUHIO EXPLAINS BILL

April 6, 1908.

Editor Evening Bulletin: Speaker Cannon gave recognition to the Pearl Harbor bill today, under suspension of the rules, and the House passed the measure by a well-nigh unanimous vote. As the leading members of the Senate Committee on Naval Affairs are already favorably committed to the bill, its passage by the House practically assures its enactment into law.

As stated in my previous letter, advances were made toward securing a special rule for the Pearl Harbor bill.

Owing to the fact that the Committee on Rules are having to bring in a number of special rules at this

The fact that the arrival of the steamer Hilonian was announced by the Diamond Head lookout, Captain Nelson, only after the vessel was close to the Head, caused some comment along the waterfront. It was learned, however, from some visitors who were with him at the time he first sighted the steamer that Nelson had to bombard "central" for just half an hour before he could get a connection. The fault for the late announcement thus properly lies with the 'phone operators and not with Nelson.

BAKER'S STORY OF SEWALL WRECK

Further Detail of Mystery Solved By the Appearance of Baker.

Philadelphia, April 9.—One of the greatest mysteries of the sea of modern times was cleared up today when first tidings were received of the missing American ship Arthur Sewall, which was burned in the South Pacific ocean. Of the crew of twenty-seven men only three were saved so far as known, and the news of the tragedy was brought from the Antipodes by one of those three, a Hawaiian, who came half way round the world to notify the relatives of the lost officers and sailors.

The vessel sailed from Philadelphia April 9, 1907, for Seattle with coal, and burned during the following September. The only survivors are Second Mate Weinberg, Charles Dixon and George Baker. Baker arrived here today.

Soon after the vessel rounded Cape Horn fire was discovered. Captain Gaffery ordered the boats lowered. While the starboard boat was being lowered by Second Mate Weinberg, assisted by Baker and Dixon, the fastenings broke and the boat, with three occupants drifted to the southwest in the darkness. The three men could see the fire grow brighter and there is little doubt that the vessel was destroyed and the remainder of the crew lost.

For two days the boat drifted. On the third day the Norwegian bark Sydenham picked up the three men. She went to Newcastle, N. S. W., thence to Kiel, Germany. Baker left her there and took passage to this port.

Baker was taken before United States Shipping Commissioner Smith, who confirmed his statements by documentary evidence in the possession of the office. He will be identified by shipping masters and others, and his statements fully confirmed. His native name is Keoki Keikoa.

The Sewall hailed from Bath, Me., and was a modern steel vessel, built at the port from which she hailed. There is but slight hope that the crew of the burning vessel reached some of the islands in the South Pacific ocean, as the distance to be covered was too great for the small boats.

The Sewall was well known on the Pacific Coast and in the Hawaiian Islands, where she went often in the sugar trade.

HOPES IMMIGRATION BILL WILL PASS

In a letter to Secretary Wood Immigration Commissioner Sargent speaks on immigration matters in part as follows:

"If in the best degree I can serve the interests of the Territory in the matter of adding to its population any self-respecting, industrious working people, who after they have found a domicile in the islands, will become progressive and influential citizens, and aid in the growth and development of the varied industries that are now being hereafter work so advantageously to the Territory and to the National Government, I am gratified.

"The Immigration Bill has not presented itself with that prominence that would indicate what would be its fate, however, I am in hopes that before the time of adjournment that portion of it which is especially urged for the benefit of the islands will be enacted into a law, and your people have the full benefit thereof."

THE HILONIAN which has discharged her cargo at Brewer's wharf, has moved over to the Railroad wharf today. She is taking on a large quantity of refined sugar from the Honolulu plantation.

THE BRITISH steamship Adato, which has been discharging Newcastle coal at Elele since March 29, sailed last Sunday for Newcastle.

sand-acre tract," said Kellogg, "any proposition will go through whether the railroad is extended or not. I will build a cannery on the site of the old plantation mill, and from there I can ship my product by steamer as cheaply as it can be done by railroad on a hundred-mile haul. The main trouble is that it is proposed to open the lands in small tracts of from twenty to twenty-five acres each. I don't see why the Government is so afraid that the settlers shall make a little money. At the present prices a man holding such a tract can just make a living wage, but if the price of pine should fall, and there is no guarantee that it will not, the settler who only has such a small tract will be unable to make a living from it. I favor giving a man about eighty acres. If he sells part of it there is no harm done, as he will probably use the money he makes out of it on improvements on the land he retains. My colonization plan is to open the land in good-sized tracts and let the settlers do the rest of the colonization and pick their own neighbors. In this way the land is settled much quicker than the Government can do it."

THE MAUNA LOA, Captain Simerson, with passengers and general freight for Maui and Hawaii, left at noon today.

A high personage in Rome is authority for the statement that the Abruzzi-Etikins' wedding will take place in the fall.

Get News Of Fleet

From the tenor of the letter from Capt. Pillsbury, Chief of the Bureau of Navigation, it is evident that the fleet coming here will probably stay longer than ten days.

George W. Smith, president of the Merchants' Association, who is on the Fleet Reception Committee, thinks that it will take three days to coal three ships, at an average of 500 tons of coal a day. In addition to the battleships will come the repair ship Panther, the Colgo and the Glacier, supply ships, and probably the hospital ship Relief.

In a letter from Capt. Pillsbury it is stated that Captains Walwright and Schroeder will be promoted to take the places of Admirals Evans and Thomas, who will be relieved. A portion of Pillsbury's letter reads: "It is expected that the Atlantic fleet will leave for Honolulu the first week in July or possibly a little earlier, but of the exact date you will hear later. It can not be fixed positively at the present time, as we do not know how long it would be required for docking the ships before sailing."

COAST EXCURSION

"An excursion to Honolulu and Hilo is now being planned by the Chamber of Commerce," says the Los Angeles Examiner, April 3. "It is proposed to charter the steamship Sierra of the Oceanic Steamship Line, a vessel of 6000 tons, and to take only two passengers to a stateroom, so far as this is practicable, the trip to occupy twenty-six days. The fare will be \$185 and \$240, according to location of stateroom, and this will include all the necessary expenses for the entire trip."

"It is planned to leave Redondo May 25, taking six days by the fast ship to Hilo, where a stop of four days will be made. From there the voyagers will proceed to Honolulu, 200 miles, and will remain there eight days. There will be a number of side-trips from each of these places, for which there will be an extra charge to those who take them."

THE ARMY TRANSPORT DIX,
 Capt. Ankers, sailed at noon today for Seattle. She has completed discharging at the Alaska street wharf and took no island products on her outward trip.

Republicans To Roosevelt

WASHINGTON, D. C., April 16.—The leaders of Congress have notified President Roosevelt that the only measures recommended by him likely to pass at this session are the bill providing for a more elastic currency and the bill providing for the payment of compensation for persons injured while in the employment of the Government.

Notice was also given that there must be full hearings of all those interested before there would be any revision of the tariff.

FOR EIGHT SUBMARINES

WASHINGTON, D. C., April 16.—The House has passed a bill authorizing the purchase of eight submarine boats, leaving the style to be brought to the choice of the Secretary of the Navy.

ELEPHANTS ON RAMPAGE

RIVERSIDE, Cal., April 16.—Following a fire at the Standard Oil works and the explosion of one of the tanks, a herd of elephants, frightened by the noise, escaped from the tents of the Sells-Floto circus, showing here, and stampeded through the crowd. One woman was killed through being trampled on by one of the maddened brutes and two men were injured.

BAND WILL PLAY TO HONOR ADMIRAL

In order to extend his compliments to Admiral Very, Captain Berger has notified his boys to be present at the Naval Station tomorrow afternoon and play several appropriate selections to the Commandant. Admiral Very will retire from active service in the Navy on April 23, when he expects to leave shortly for his home at Newton Center, Mass. Captain Ross, who succeeds Admiral Very, is due to arrive on the Mongolia on Monday. Admiral Very's biography is as follows:

Admiral Very was born in Liverpool, England, April 23, 1846. He was educated in private schools in Salem, Cambridge, and Havre, France, and in public schools in Melrose, Malden and Chelsea, Mass., and San Francisco. He was a cadet at the Naval Academy at Annapolis from 1863-6.

Besides serving in numerous vessels of the navy and at numerous naval stations, he was engaged in magnetic investigations on the part of the Coast Survey in 1880-1. He had charge of the expedition to Patagonia in 1882-3 to observe the transit of Venus. He commanded the steamer Saturn and Cassius in 1888 in the operations around Cuba, and the gunboat Castine in 1899-1900 in Philippine and Chinese waters. While commanding the Castine he conquered and received the surrender of Zamboanga, Mindanao, with results that were highly commended in the report of Rear Admiral J. C. Watson. He commanded the U. S. S. San Francisco in the Mediterranean and the Asiatic stations in 1903-4. He has been in command of the Naval Station at Honolulu for the past year and a half. Admiral Very, besides high scientific attainments, has linguistic acquisitions of no mean order. Besides French, he has an intimate acquaintance with Russian. During his stay here Admiral Very has made many friends and is highly esteemed.

GOVERNOR FREAR WIRES THE DELEGATE

Governor Frear yesterday sent a cablegram to the Delegate admonishing him to get a great big hurry in doing something about the Coastwise Shipping Laws. The situation here has been, is, and will be, until more ships flying the Stars and Stripes are put on, or travellers are allowed to take passage on foreign vessels, very bad. The Governor urged Kuhlto take the matter up immediately with the Government. The tourist trade will be severely hurt, it is said, unless some change in transportation facilities is made soon.

CONGRESS OF SONG.

The Congress of Song, commencing May 14, will probably take place at the old fishmarket. On the opening day Cowen's cantata, "The Rose Maid," will be given, under the conductorship of Stanley Livingston. There will be a chorus of 400 voices, recruited from Kamehameha Boys' School, Kamehameha Girls' School, High School, Normal School, and Mills Institute. Mrs. Mackall will be the soprano soloist. On May 15 a chorus of a thousand children will render a miscellaneous program at the fishmarket.

ALAMEDA HAD PLEASANT TRIP

With nineteen passengers in the cabin and seventeen in the steerage from San Francisco, the steamship Alameda, Captain Dowell, docked at the Oceanic wharf this morning at 8 o'clock.

The voyage was very pleasant and the old reliable had to slow down for two days in order not to arrive last night. She made Honolulu after a passage of five days and nine hours. During the voyage she shelled two vessels.

The Alameda brought 500 tons of freight for the local business firms and 156 bags of mail.

Among the kamaainas who returned today are J. O. Luttet, of the New England Bakery, who has been on the mainland on business; M. A. Gonzales, a prominent merchant and liquor dealer, and D. W. Crowley, coachman for W. G. Irwin.

C. A. Bruns, a well known business man came down on business. He comes here once a year. Mr. and Mrs. R. L. Lilly and E. Fraser were among the arrivals.

The only horse brought down on the Alameda belongs to W. G. Irwin. The animal, a product of Modoc county, was purchased by Mr. Irwin and sent down here in charge of Mr. Crowley. The horse, which is a stallion, will be sent to the Kilauea plantation.

BECKLEY WANTS NO JOB

Editor Evening Bulletin: Allow me to correct a wrong impression created by an article in your issue of yesterday, Thursday, April 16, 1908, under the head of "Would Oust McVeigh," wherein you state "that some said that it was Mrs. Nakulua's plan to secure the job for Fred Beckley, the former Speaker of the House."

In reply to this I will say that I have never contemplated asking for McVeigh's "job," nor would I accept such a position under the Board of Health were I offered the same, for self-respect would prevent me from even considering it for a moment, in view of the stand I took against his late superior officer.

I have never sought public office at the expense of another man's "job," nor have I as yet made any charge against "my friend" Jack McVeigh, your peanut political wire puller to the contrary.

I suppose the information was a result of another "wireless from Honolulu."

(Signed) FRED W. BECKLEY, Honolulu, April 17, 1908.

KILOHANA LEAGUE GETS FISHMARKET

At the meeting of the Civic Improvement Club last evening, it was decided that the Kilohana Art League could have the use of the old fishmarket and could make improvements, if they satisfied the taste of Superintendent of Public Works Campbell. Mrs. Graham thought that she could raise \$2500 towards improvements, which she would put in, providing they would be allowed to remain.

But Marston Campbell had a different idea about the matter. He said that he would allow nothing that indicated bad taste to remain as permanent in the building, and finally a compromise was effected, whereby Mrs. Graham will go ahead with improvements and if they are acceptable to Campbell they will be allowed to remain. The Board of Supervisors wrote to Mrs. Graham to find out what they could do in the way of assistance.

FRIDAY APRIL 17, 1908

Men with money are never speculators. They buy for investment and hold until the price gets so hot that they really have to let go.

Democratic papers are already talking of what they would like to do with the sugar tariff when it is revised. There is nothing in their conversation to make Hawaii class them as friends.

It is fair to predict that Dr. Coker will report himself a year hence as a changed man, he having thought he had run the gamut of experience before he became President of the Hawaiian Board of Health.

Jim Hill says the hard times have been slow in reaching the West but are likely to arrive. Any abundant crops stop the wave of depression before it reaches the border. That is what held it back last year.

The Fleet Entertainment Committee should begin work at the earliest possible day. There is so much to be done that procrastination may be disastrous to the comfort of the people and the excellence of the program.

If Maine will send Harold M. Sewall to Congress and William Kent to the United States Senate, Hawaii will have high-class indirect representation, and at least one earnest worker for the American merchant marine.

Commercial bodies are not wasting breath when asking for permanent assignment of the Fleet to the Pacific. The American Nation is governed by its people, and even a petition from the business bodies of the Territory of Hawaii will have much influence if presented to the President and the Congress of the United States.

ACTS BETTER THAN WORDS.

There is no royal or unusual road to political harmony. It is the easiest thing in the world to reach. It requires only honesty and common decency for guidance in dealing with public men and public affairs.

It cannot be brought about by a criminal press acting the part of the criminal and assailing honest and generally respected men with studied dishonest misrepresentation and vile slander.

The citizens of Honolulu who are honestly in favor of Republican harmony and wish to gain Republican success in the elections next fall will begin now to take an interest in the status of the party within their individual precincts and strive to secure fair representation in the party ranks and the presentation of high-grade men for public office.

Such a course will not only produce harmony. It will establish harmony so firmly that it will not be necessary to waste valuable time talking about harmonizing when everyone ought to have his coat off and be at work.

Acts by self-respecting citizens are better than wordy ways.

PEARL HARBOR BENEFITS.

If the Pearl Harbor bill that was passed by the House is accepted in detail by the Senate, the city of Honolulu and the Territory of Hawaii will get all the direct and immediate benefits that could possibly be derived from the development of the harbor and its naval station.

One of the all-important factors in this bill is the designation of a graving dock. Delegate Kuhio in his earlier letters gave the impression that the dry dock for the Harbor would be a floating dock, in which case the contract for its construction would be let to some mainland corporation and the money from the labor payrolls would be expended elsewhere than Honolulu. Our people could not and would not raise an objection to this, if the naval authorities deemed the floating dock best.

It is very gratifying indeed to find that Congress has adopted the plan which will call for the expenditure of funds for labor in this city or its immediate vicinity. The graving dock means that all the work will be done by mechanics and others who

make their homes here. This will be the case regardless of whether the contract is secured by a local or outside concern, or the work carried on by the Government department direct. This labor will be citizen labor and should bring to the city a very desirable class of people from the mainland.

Honolulu will experience the full force of the direct and indirect benefits of the development of the harbor, and as the two millions and more appropriated is made immediately available there seems no reason to doubt that the construction will be started in the immediate future. The spirit of the bill as interpreted by comparison with the usual appropriation bills seems to be that Congress expects the naval station to be established and ready to receive ships at the earliest possible moment.

With such a spur behind the engineers, it ought to be within the range of probabilities that the dredging and the construction of the docks and of the shops and the forwarding of fortifications will all be going on at the same time, and that "right soon."

All Pearl Harbor needs now is sanction by the Senate. The President's signature is ready and waiting.

GOOD FRIDAY

By CHRISTINA ROSSETTI

Alas, a stone, and not a sheep,
That I can stand, O Christ, beneath Thy cross,
To number drop by drop Thy blood's slow loss,
And yet not weep?

Not so those women loved
Who with exceeding grief lamented Thee;
Not so fallen Peter, weeping bitterly;
Not so the thief was moved;

Not so the Sun and Moon
Which hid their faces in a starless sky,
A horror of great darkness at broad noon—
I, only I.

Yet give not o'er,
But seek Thy sheep, true Shepherd of the flock;
Greater than Moses, turn and look once more
And smite a rock.

up the hills that it now does. It is a well known fact that nearly twice the length of time is needed to get a crop of the lands in higher altitude than along the coast, and on account of this the high lands are not touched by the growers. With the extended lease, planters will see the advantage of taking up this land, for they will be able to get the same results, that is, the same number of crops, from this higher land, though it takes them just twice the time.

All in all, the new bill will tend to keep almost all the Government land working and bringing in revenue, and will be the means of getting lots of new lands opened up.

SUPERVISORS MAY

(Continued from Page 1) law to provide for a special election in such a case the old Board of Supervisors will simply hold on for another two years.

All the Republican leading lights who have looked into the matter are convinced that this is what will happen, and even Charlie Achi, who has been doing some investigating on his own hook, agrees that this is correct. The only thing which can be done to prevent such a contingency, says Achi, is to have the coming Legislature pass an act providing for a special election for County officers should the Municipal bill fail, and he hopes that this will be done. That the Municipal Act may be found to be a pretty rotten reed to lean on has been the conclusion which A. P. Judd has suggested.

KAPAA LANDS ARE UNDER DISCUSSION

Governor Freat this morning was in consultation with Land Commissioner Pratt and other interested parties with regards the Kapaia land appraisal. The report of the committee appointed to appraise the value of the lands was returned to the Governor last Monday, and he has carefully examined it, though nothing definite has been done.

George Fairchild of the Makee Sugar Company was in the executive building with regards to the matter. The Governor stated that something would probably be done towards making exchanges with the Makee Sugar Company in the near future. Secretary Mot-Smith and Fairchild studied the location of the different lands on the map and discussed the situation, although they had nothing definite to give out.

DEMOCRATS AFTER

(Continued from Page 1) asked him to buy the Aloha Aina. Admiral Beckley said that he does not care to go into any controversy by owning a newspaper; that he believes in staying still and making no noise. He may in the future travel abroad.

Late yesterday afternoon Mrs. Nawahi was seen in her newspaper office on Smith street. She said that neither Admiral Beckley nor any of his representatives had called on her with a proposition for buying the newspaper.

It is certain, however, regardless of all these rumors that the Democrats will assume the management of the Ke Aloha Aina. A prominent Democrat said yesterday that a committee, consisting of Joe Fern, J. Emmeluth and "Shanks" Moaman, called on Mrs. Nawahi some time last week and made inquiry as to the number of shares Mrs. Nawahi held. Mrs. Nawahi at that time told the committee that she would sell a large portion of her shares to the Democratic party for a reasonable price. She stated further that she was ready to present to the party a certain number of her shares for the benefit of the party. The above committee will meet to-night with the executive committee of the party and discuss the matter.

The leading Democrats realize the fact that the Ke Aloha Aina in the past did its best in helping the Democratic party in the campaign, and to this end they intend to arrive at a final conclusion as to the purchase of the newspaper. The Democratic party needs a paper to help it in the coming campaign. It is admitted that after the purchase of the paper has been perfected, Mrs. Nawahi will be retained as managing editor.

At any rate everything will be settled tonight at the executive meeting of the Democratic party.

The committee members will probably sail from San Francisco in July, arriving here July 23, and will spend two or three weeks on this island, especially at Pearl Harbor, with which they wish to familiarize themselves thoroughly.

The Hawaiian Woman's Club will meet at the Kamehameha School for Girls this Friday evening at 7:30 o'clock. As this is the regular annual meeting a very good attendance is hoped for by the president.

Stein-Bloch Styles Spring and Summer

THE NEW STEIN-BLOCH styles are being shown.

Where did they come from? Styles—as this house presents them—represent no one man's ideas.

Stein-Bloch advertising presents to you photographs of the current Spring and Summer models according to the world's best usage. They are genuine composites. They bring together into one suit or overcoat the various points included in reports received from Stein-Bloch outfits in the acknowledged fashion capitals.

Stein-Bloch commissions go at reasonable intervals to all those places on both sides of the Atlantic where advance fashion ideas are brought together into one procession by the limited trains and the ocean grey hounds. The observations of these men meet in the Stein-Bloch designing and cutting rooms.

At one time it is a new fabric from exclusive foreign looms, to be accurately reproduced for Stein-Bloch use. At another time it is a trim top-coat idea from the box of a tallyho at a race meet in England. Again an afternoon coat worn on Fifth Avenue by a man who has time and means to indulge his clothes whims. Or it may be a smart suit idea from the floor of the Stock Exchange—or a hot weather-suit from Palm Beach.

Whichever it is, it is authentic, and shaped out to present to you as the most economical and sensible solution of a serious modern problem.

Directors Authorize Continuance of Dividend and Look Forward to Very Prosperous Year.

SAN FRANCISCO, April 9.—Raw sugar is expected to rise to \$72 per ton during the marketing of the crop of 1908, according to the prediction made yesterday by the stockholders of the Hawaiian Commercial and Sugar Company at the annual meeting of the corporation held in the rooms of the Stock and Bond Exchange, Merchants' Exchange building. This means a rise of nearly \$9. The 1907 crop was marketed at \$63.21 per ton. The 1906 crop brought \$60.13.

The corporation will continue to pay a monthly dividend of 65 cents a share, aggregating \$780,000 annually. This rise in sugar, according to Emil Tschumi, secretary of the corporation, is due to the failure of the crop in Cuba, where a shortage of 500,000 tons is predicted. In other parts of the world production of the saccharine staple is light, except in Hawaii, where there is promise of a good crop.

At the meeting yesterday 78,079 shares of the company's stock were represented. The annual report of

IN THE CIRCUIT COURT OF THE First Circuit, Territory of Hawaii, At Chambers, in Probate. In the Matter of the Estate of Mary K. Brown, Deceased. Order of Notice of Hearing Petition for Administration. On reading and filing the petition of Cecil Brown of Honolulu, alleging that Mary K. Brown of Honolulu, Oahu, died intestate at said Honolulu on the 12th day of September, A. D. 1907, leaving property in the Territory of Hawaii necessary to be administered upon, and praying that letters of administration issue to him, it is ordered that Thursday, the 25th day of May, A. D. 1908, at 9 o'clock a. m., he and hereby is appointed for hearing said petition in the court room of this court at Honolulu aforesaid, at which time and place all persons concerned may appear and show cause, if any they have, why said petition should not be granted, and that notice of this order shall be published once a week for three successive weeks in the Evening Bulletin newspaper published in Honolulu.

Dated at Honolulu, Oahu, April 15th, 1908. Sgd. ALEXANDER LINDSAY, Jr., 2nd Judge of the Circuit Court of the First Circuit. Attest:—JOB BATCHELOR, Clerk of the Circuit Court of the First Circuit. 3979—Apr. 17, 24; May 1, 8.

the corporation was filed. The board of directors was re-elected for the new term and afterward the stockholders' meeting was called to order and re-elected the officers of the corporation. The following are the officers: H. P. Baldwin, president; Albert Meyer, vice president; Emil Tschumi, secretary; Daniel Meyer, treasurer; F. F. Baldwin, manager; directors, H. P. Baldwin, W. M. Alexander, E. M. Walsh, Albert Meyer, Edward Pollitz, F. B. Anderson and R. T. Rolph.

EASTER FLOWERS

Mrs. E. M. Taylor has taken the trouble and time to decorate her window with the flowers that she has for sale for Easter and a pretty display she has made of it. A miniature house and garden is shown with a grass lawn, small palms and flowers placed here and there, backed by Easter lilies as a background. The result is really a pleasure to look upon, and shoppers should not fail to see this beautiful assemblage of greens and flowers.

COMMITTEE INVITES MOUNTAINEER MUIR

Promotionists Present Mark Twain With a Mantelpiece of Koa.

At the meeting of the Promotion Committee yesterday afternoon, at which Messrs. Waldron, W. E. Brown, W. T. Lucas, J. A. McCandless and J. L. McLean were present, it was decided that John Muir, the famous mountaineer and scenic writer of California, should be invited to come to the islands as the guest and at the expense of the Promotion Committee. This step was taken at the suggestion of Mr. A. Gartley, who returned recently from Kauai, where he saw the beautiful scenery of the Garden Island.

In his letter to the Promotion Committee Mr. Gartley said that he had traveled through the mountain districts of South America, North America and Canada, also through the Lehigh valley and the Adirondacks, and with one exception, the mountains in Peru, he had seen more magnificent scenery anywhere than that of the mountains on Kauai.

Mr. Muir is a forceful writer on mountains. He is well known, not only in America, but in the world, and his coming here would add materially in making Hawaii better known on the mainland and the outside world. In this same letter Mr. Gartley wrote of hotel facilities on Kauai and the steamer accommodations. He told of many points of interest to visitors, such as the barbed sands, the Russian fort and the lagoon of Potebele at Waimea, where Mr. Baker can comfortably sleep for guests. The Waimea Stables would do their part to meet the demands of the guests.

Copies of Mr. Gartley's letters were prepared to be presented to the Inter-Island Steam Navigation Co. with a view of informing it of the steamship suggestions made therein.

Another matter of interest was that Samuel Clemens, universally known as "Mark Twain," has accepted the offer of the Hawaii Promotion Committee to furnish him with a koa mantelpiece for his new home in Connecticut. This was in response to a letter written him by the Promotion Committee some time ago.

Delegate Kuhio wrote, asking that the Promotion Committee send him pictures of the Pall, Pearl Harbor and Waikiki beach. This also came about as a result of the letter that was sent to him some time ago.

Another matter discussed, though not acted upon at the meeting, was that a steamer be secured with ample accommodations for excursionists to accompany the fleet on its way down here from San Francisco.

EVERYTHING READY FOR THE MASCOT

On Tuesday night last the entire first act of "The Mascot" was rehearsed at the Opera House, and the way in which it was carried was more than gratifying.

There is a smoothness and regularity noticed at all the rehearsals of the "Mascot," which has never before, perhaps, been so noticeable in previous amateur productions. Of course this is due, to some extent, to most of the principals and chorus being old hands at the game, and that natural shyness of those first facing an audience has long since worn off.

There are many among those taking part in "The Mascot" who have been in every amateur comic opera produced in Honolulu for the past six years and many of the principals have a large number of successes to their credit, gained on those occasions. The "Mascot" abounds with opportunities, both in song and action, for these same principals to win fresh honors, and there is no doubt that they will certainly win them.

Jas. D. Dougherty is bound to score a success. He has two or three beautiful solos to account for besides some extras which he will present. Both Jimmy's singing and acting are justly popular and in "The Mascot" he will have many opportunities to show his art in both. Too much cannot be said of the splendid portrayal of "Pippo" by Hugo Herzog. Mr. Herzog's acting is splendid and he puts such vivacity and vim into his part, that it is a pleasure for the others who are on the stage with him. His vivacity seems to be infectious and he infuses life and action into all.

"Poory Old Master Rocco" (Sonny Conha) will keep the audience in good humor from start to finish. "Sonny" has certainly found his mark in Rocco, and he certainly lives up to his reputation of being a comedian of the first class. The funny business between "Sonny" and Marshall Webb is simply great, and it is probable that on the night of the performance, the audience will go home with aching sides. However, a good laugh is well worth having and we feel better for it afterwards. Certainly after "The Mascot" Honolulu will feel in good humor for some little time.

There is great enthusiasm and interest being shown in the forthcoming production of "The Mascot," and all those desiring good seats are advised to book early, as there promises to be a great rush for tickets. The box office and plan will open on Monday morning at Wall, Nichols Co., Ltd.

YACHTING AND BOATING

There is hope that the regatta portion of the events, in the proposed entertainment of the coming fleet, will be placed in proper hands. The Hawaiian Rowing Association, given funds and a free hand, would fill the bill.

The Kalaheha club, like the Kunaia, a ladies club, will shortly give an entertainment from the proceeds of which and the donations of friends, they hope to obtain funds enough to purchase a four-oared sloop.

Captain S. J. Harris, who will navigate the Hawaii, is a thoroughly competent officer and a capable and worthy sailor. Captain Lyle, who will command, is lucky to have so good and competent an associate.

The Hawaii is being well rigged but some necessary delay ensues by reason of the holding back, by accident, of a box containing spreaders, bolts and other appliances fitted for her gear.

The Hawaiian Rowing Association is at a standstill, waiting for the coming forward of delegates from the Heanani boat club. The Myrtle club delegates have already been elected.

The "Outrigger Club" to be has received an excellent newspaper send-off. If the project fails of success it will be due to lack of energy on the part of the promoters.

The Kunaia club has lately received from boat-builder Walker, a beautifully finished and serviceable four-oared stationary-seat sloop.

The Ring Dove and the Pakoona may try their relative merits in a run to Diamond Head and return, in the near future.

The Pearl Harbor fleet is being washed, scrubbed and painted, preparatory to lining up for the opening review.

The Gladys and the Kamehameha will both go on a cruise Sunday.

MARINES AND SAILORS MIX

There was a great mix-up between marines and sailors at a baseball game held at Mare Island on the 6th inst. The report says:

The game was between a team composed of sailors from the Pensacola and one consisting of marines stationed at Mare Island. There were over 2000 sailors and marines from the various battleships stationed at present in the harbor, who were interested, enthusiastic spectators.

The clash occurred when Menick of the Pensacola team was sliding from third base to home. A marine struck him in the face and immediately one of his companions, grasping a bat, rushed up to him and would have felled the marine with a blow, but before he could do so there was a general scramble and the marines with loud shouts "declared war." Immediately the marines and the bluejackets jumped into the fight and there was a free-for-all battle.

At this juncture the marines who were on duty and had been prepared for trouble charged at the mob with fixed bayonets. This had the effect of scattering the crowd and further trouble was prevented by the speedy arrival of some of the officers.

BASEBALL NOTES

The "Brewster" League is said to be "aborning." It is expected that the newspaper men will join the club and fill the bases. Prizes are said to have been already donated to the coming club. The initial meeting, which will give authentic birth to the new league, is set for Monday evening next, at the Young hotel.

The Examiner of late date says that "Jimmie Hampton, who played with the Honolulu team last April, against the All Stars, is in town and will try to sign on with Red Dog Devoreaux as a Santa Cruz." This could only apply to our "Bill" Hampton and he is happy here in Hawaii.

At a late meeting of the trustees of the Baseball League it was decided that the Bulletin's plea for a 15-cent rate for children, was proper, and that will be admittance money for "d kids" this season.

The application of Eber Low for the use of the League grounds for a "Wild West" show has been turned down by the League trustees.

Season tickets for the first half of the coming ball season, at \$5 per. will be issued and on sale next week.

Energetic John Soper will continue in office as the executive officer of the League.

THE MAT ARTISTS

"Hans" Froelcher, the 12-stone champion of the world, as he is announced, and Frank Kanae, the aspirant for the title of champion of the Hawaiian Isles, will meet tomorrow night in their projected wrestling bout at the Orpheum. Both men are in excellent condition and either, bar accident, can stand the strain of contest without injury. Pete Barron will deliver "Hans" and Will Prestidge pass over Kanae to their backers fit for the wrestle of their lives. The odds, on account of experience and knowledge of the game, should be on Hans, at 5 to 1, although Kanae is the heavier man. Cobb is chosen as referee, and each man will receive instructions from him this afternoon with regard to the rules which will govern the contest.

WANT THE SANTA CLARAS

At the meeting of the members of the baseball league composed of the managers and captains of the Kama, St. Louis, Panahou and Diamond Head teams, held in the rooms of Secretary Frank E. Thompson yesterday afternoon, the subject of the coming year's representative college teams from Tokio, Japan, and Santa Clara, Calif., came up. After some little discussion, John Wise of the Kamehameha team clinched the subject, apparently to the satisfaction of all present, by declaring: "If we are in doubt about getting the Japanese team and have an opportunity to get the Santa Clara team for the Kama, I say, arrangements should at once be made to get the Santa Claras anyway."

THE KAPOLANI LEAGUE

The Kapiolani League of baseball players, consisting of the Twilights, Reliance, Leahi and Highland clubs, are making things lively in the baseball line out Waikiki way. The clubs meet at Kapiolani Park every Sunday afternoon and put up a very interesting sort of ball; the games are very well attended. On next Sunday the Twilights and Y. I. W.'s meet in the first game, and the Reliance and Leahi in the second.

WRESTLERS NOW

SAVEY RULES

A meeting of the wrestlers, Frank Kanae and Hans Froelcher, was held this morning at which Referee Harry Cobb presided.

Holds were discussed and it was agreed to bar hammerlock, tying mare, strangle-hold, leg-up-the-back, and full Nelson.

Cobb urged both men to play fair and made it plain that he would tolerate no unnecessarily rough work. Froelcher will be seconded by Prof. Barron and August Reinecke. Will Prestidge and Jim Spencer will be behind Kanae.

Roberts and Amosa Kauahi will start the program with a wrestling bout at 8:30 p. m.

Next on the program will be the exhibition spar between George Foster and Wablan.

The main event will follow. Fifteen minutes' rest will be allowed between falls.

The betting still favors Froelcher, although there has been considerable wagering at even money that Kanae gets at least one fall.

A match is in sight for May between the winner of tomorrow night's big bout and Mitsuka, the giant Jap.

FORT SHAFTER BOXERS
WILL DELAY ACTION

Fort Shafter, H., April 16th, 1908.

Sporting Editor Bulletin:—I beg to announce that the boxing contests which were to take place the 19th or 20th will not be held until the last day of this month, the 30th. The main go is a ten-round bout between Bird of Company E and Richardson of Company G. Bird holds the 124-pound championship of the Fort.

The six-round go is between Murphy and Pool, welters. Respectfully yours,
FORT SHAFTER ATHLETIC ASSN.

Board of Education finds that senior class of San Francisco Commercial high school was inefficient and that Principal Murphy was deficient in resourcefulness.

THE HAWAIIAN GUN CLUB

Irwin Spalding, the president of the Hawaiian Gun Club, announces that the directors of the club have decided that the semi-annual prize shoot, which has hitherto taken place on May 30th of each year, will now occur on June 10th; the latter date being more appropriate. The directors of the club have also decided that the contest for the club championship will take place on June 10th. On June 11th, the handicap matches will take place, as also the tournament for visitors. The shooting at unknown angles will follow. It is planned that the weekly challenge cup shoots will commence in the near future. The House Committee will arrange all matches.

MASTER OF WRESTLERS

George Haekenschmidt, the "Russian Lion," so called, who defeated by Frank Gotch in the wrestling contest for the championship of the world, believes Gotch to be invincible. He says: "There is no man in all England who has a chance with your man Gotch. He is king of his class, the greatest man by far that I ever have met. After going nearly two hours with him, my muscles became stale. My feet also gave way on me. I had trained so constantly against the toe hold that I had strained the muscles of my legs. When I found myself weakening, I knew there was no use continuing. I had no chance to win. That was the reason I conceded the championship to him. I have no desire to wrestle him again. A return match would not win back my title."

LIM WANTS TO KNOW

Captain George Lim of the Alohas wants to know why his team is scheduled to play a championship game on Sunday in the Riverside Junior League. He says there is a postponed game of the first series yet to be played, and the Chinese Alohas have two protested games to play, one with the Japanese team and the other with the Sweet Violets. Captain Lim does not see how he can be forced to play on Sunday, and it is quite probable that his men will not show up.
