TRIUMPHAL ENTRY INTO CITY OF PEKIN

NOTHING AMISS IN SALARIES OF TEACHERS

"If people who write to the papers about the salary schedule of the education department only knew all the facts they would moderate their language," said Superintendent Pope this morning, when asked what he had to say in reply to an article in the Garden Island.

"In the particular case that is written in the Kanai papers, it is a fact that one of the teachers gets more salary than the principal.

"It happens this way: For ten years the assistant has taught school. She has attained the maximum salary of \$53.33 per month. She is in her own district, and does not want to transfer to another school from her home.

"Not being eligible to become a principal, the assistant has stayed on

Lord & Young Lose Pearl Harbor Job

(Special Cablegram to the Star.)

WASHINGTON, D. C., Nov. 11.—The Sound Construction Engineering Company of Seattle is the lowest bidder on the naval storehouse and administration building at Pearl Harbor. The bid is \$74,810 for the storehouse and \$65,357 for the administration building.

(As reported in the Star last Saturday, but one local bid was submitted for the construction of the administration building and the storehouse at Pearl Harbor. This was by the Lord & Young Engineering Company. For the administration building their figures were \$65,500 and for the storehouse \$82,500, a total of \$148,000 for the two buildings. From the above special cable it appears that the Sound Construction & Engineering Company underbid the local concern by \$82,500.)

YUAN AT THE HEAD OF ARMY OF 2000 MEN

The morning reports from China say that there is a prospect that the powers having interests in China may intervene for peace. Mukden, the capital of Manchuria, is said to have revolted. Pekin is in anarchy. The Regent has given Yuan Shih Kai audience and the latter again refused to become premier. The rebels are preparing to take charge of city government of Amoy. The fighting at Nanking continues. All is quiet around Canton.

Pekin Crowd Orderly

(Associated Press Cables to the Star.)

PEKIN, NOVEMBER 13.—YUAN MADE A TRIUMPHAL ENTRY OF THE CAPITAL TODAY AT THE HEAD OF 2000 TROOPS. HE WAS RECEIVED BY A VAST AND ORDERLY CROWD.

IT IS REPORTED THAT YUAN'S PEACE TERMS HAVE BEEN REJECTED BY THE REBELS.

Hongkong Taken

SAN FRANCISCO, NOVEMBER 13.—IT IS REPORTED THAT THE REBELS HAVE POSSESSION OF HONGKONG AND THAT CHI TI PROVINCE HAS PROCLAIMED ITS INDEPENDENCE.

Chefoo Taken

CHEEFOO, NOVEMBER 13.—THE CITY OF CHEEFOO, IN SHANTUNG PROVINCE, HAS BEEN PEACEFULLY OCCUPIED BY THE REBELS.

Canton Independent

(Special Cable to Liberty News)

SAN FRANCISCO, NOV. 11.—CANTON HAS DECLARED INDEPENDENCE OF THE CROWN. THE DISTRICTS OF CHEW CHOW, SWATOW, SUN MING, KUNG YIK AND KONG MUN RAISE REVOLUTIONARY ARMIES TO REINFORCE THE CANTON GOVERNMENT. COMMANDER-IN-CHIEF WU HAN MIN SENT OUT REPRESENTATIVES TO SEE THE GOVERNOR OF HONGKONG IN REGARD TO DIPLOMATIC AFFAIRS.

SAN FRANCISCO, NOV. 11.—THE NEW MINISTER OF FOREIGN AFFAIRS, WU TING FANG AND WUNG CHUNG WAI AND WUNG CHUNG YU, DOCTORS OF INTERNATIONAL LAW, HELD A MEETING WITH THE FOREIGN CONSULS IN SHANGHAI FOR THE PURPOSE OF SECURING RECOGNITION OF THE REPUBLIC.

Foreigners Going

NANKING, NOV. 13.—FOREIGNERS WILL MOVE FROM THIS CITY IMMEDIATELY.

AMOY, NOV. 13.—A JAPANESE CRUISER HAS ARRIVED HERE.

More Anti-Trust

WASHINGTON, Nov. 13.—President Taft and Attorney General Wickersham will discuss further anti-trust laws including a federal incorporation law.

Steamship Wrecked

ASTORIA, Nov. 13.—The steamer Washington is doomed. She is waterlogged and drifting ashore. Two of her crew are drowned.

ASTORIA, Nov. 13.—The tug Tatoosh has got a line on the Washington preparing to rescue those on board.

Beattie's Fate Sealed

RICHMOND, Va., Nov. 13.—The Appellate Court has refused Beattie's appeal. The news was broken to the condemned man by his father.

Mrs. Tarkington Freed

INDIANAPOLIS, Nov. 13.—Mrs. Booth Tarkington, wife of the novelist, has secured her divorce.

Fowler East-Bound

EL PASO, Nov. 13.—Fowler, the aviator, has continued his flight east.

Schooner Lost

NEW HAVEN, Nov. 13.—The schooner Witch Hazel has been lost in the Sound. The captain and three men perished.

Rodgers' Brain Concussion

PASADENA, Nov. 13.—Aviator Rodgers is suffering from concussion of the brain.

BIRMINGHAM, Nov. 13.—The police magistrate has ruled that the Moran-Driscoll contest will be a prize-fight. This decision will, perhaps, sound the death-knell of boxing in England.

Morning Cable Report on Page Seven.

OUR SAN FRANCISCO LETTER Sick Man Quarantined

A Jamaican negro was discovered at Kalaheo this morning suffering from an ailment which is thought to be dengue. Dr. Ramsay examined him and later Doctors Blue and Corrie. They are not positive that the disease is the dengue on account of the absence of a rash, which characterizes the dengue sometime during the first six days of the disease. An examination was made to determine whether he showed any of the symptoms of the yellow fever, but none appeared.

The examining physicians feel fair.

Overdoing the Recall--Are the People Able to Govern Themselves? Anti-Women's, Suffrage Clubs.

By ERNEST N. SMITH.

(Special Correspondence of The Star.)

SAN FRANCISCO, November 7.—To the great number of crops for which California is famous will probably be added another according to the way things look at present. "Elections" should constitute one of the largest crops of various things California has reaped for many a day.

These new laws, though not fully in force yet, are beginning to make themselves felt, and it is going to be a poor politician or a pretty lazy defeated candidate who can't get up a recall petition against the men who defeated him for office. More and more are men who take an active part in the political affairs of the day going to ask themselves whether any office is really worth while when any Tom, Dick, or Harry who doesn't happen to like you can spring the recall petition on you at most any inopportune moment.

For example witness the town fathers of a small town in Northern California and what happened to them. Elected to office on a progressive ticket they started in to improve the town and make it more than a blot on the map. Their plans were well laid out, but they reached the hidden mine when they tried to decide whether an asphalt or a macadamized pavement would be the best for the main street in their town.

(Continued on page two.)

Mills Bananas Injunction Passed up to Whitney

Evasive, scandalous, impertinent and insufficient is Harry T. Mills' characterization of the answer of the defendants Currie, Pratt, Dillingham and Buchbee to the bill for an injunction brought by Mills to save his banana trees from the axe of the spoliators. Mills' adjectives are contained in exceptions which he has filed to the defendants' answer, and in which he insists that "the said eva-

Child Crushed To Death In Young Hotel Elevator

A ghastly accident crushed the life out of little five-year-old Lewie Ah Kawai, a half-Hawaiian half-Chinese boy, in the rickety elevator of the Young Hotel at 10-20 a. m. today.

Ah Kawai, the father, carrying a year-and-a-half-old baby in his arms, came in from Kapahulu to consult Dr. McDonald who has an office in the hotel building.

They got into the elevator together and, according to Mary Gonsalves, a

Great Tide of Tourists Flowing Into Honolulu

The Lurline, now on the way to Honolulu, is bringing sixty passengers, and these will be enough, in the opinion of Secretary Wood of the promotion committee, to fill up the hotels and boarding houses of the city. The Mongolia, which arrived this morning, brought about a hundred passengers for Honolulu, most of whom, Mr. Wood says, are tourists.

Mr. Wood still looks forward to the most prosperous tourist season Honolulu has ever had. Yellow fever reports on the Coast do not seem to have been exaggerated enough to make any appreciable difference in the volume of travel this way, and the city is filling up rapidly. About

CHIEF JUSTICE ON THE DIRECT PRIMARY

Chief Justice A. G. M. Robertson will deliver an address under the auspices of the Church Club in the Davies Memorial Hall, St. Andrew's cathedral grounds, this evening, at eight o'clock, taking as his subject, "The Direct Primary Law." Men interested in this real live subject are cordially invited to attend.

Canal Control Bill Of the Administration

By J. A. BRECKONS.

(Special Correspondence of The Star.)

WASHINGTON, Nov. 2.—It has been practically settled that the Mann bill for the operation of the Panama canal and the government of the canal zone, introduced at the last session, will be the measure favored by the administration this winter. The bill has been found satisfactory by the War Department and the President, and with the approval of these officials it is understood the entire strength of the administration will go behind the measure and attempt to have it passed early in the session.

The Mann bill provides for a one-man control of the zone, and emphasizes the military aspect of the canal.

Promotion Secretary Wood Suggests Panama Excursion

San Francisco Chronicle, November 5.—A suggestion to enhance the success of the Panama-Pacific International Exposition and make it more popular with the dwellers of people on the islands of the Pacific and Central America comes from Hawaii and will receive the earnest consideration of the directors of the exposition.

H. P. Wood, chairman of the Exposition Commission for the Territory of Hawaii, writes to Frank L. Brown, chairman, making the following suggestion:

"The two fine steamships, the Sonoma and Ventura, belonging to the Oceanic Steamship Company, are now

Geo. Carter Is Appointed

Ex-Governor George R. Carter was today appointed a member of the Board of Health, vice James F. Morgan, resigned. Governor Frear announced the fact this morning, and the news of the appointment was well received by everybody.

Governor Carter, who is chairman of the sanitary commission, has just returned from a trip to the mainland, where he made a study of health conditions. He is deeply interested in the scheme to educate the people by means of lantern slides that will depict healthy and unhealthy conditions of life.

The new member of the health board will be on hand at the regular meeting of the board which is to be held next Thursday afternoon.

GEO. COOPER IS KILLED

Geo. Cooper was injured in an auto accident at Sacramento, Cal., October 29, his skull being fractured, and he died on November 3. The body was cremated and buried on the 5th. Mr. Cooper was at one time connected with First National Bank in Honolulu. At the time of his death he was president of a bank in Oak Park, a suburb lately annexed to Sacramento.

Moving Day For Dr. Clark

No further word of the immigrant steamer Willerden is expected till the vessel is off port. That may not be till the end of the month, as the ship is considered to be slower than the Oteric, which took over twenty days to come from the most southern point of South America to the Hawaiian Islands.

The headquarters of the Immigration Bureau are being shifted to the old fishmarket site, and today the office furniture is being removed on wagons.

Market Superintendent Starrett is also removing his effects to the new office, and in future the farm department will be conducted there.

PUT THAT IN YOUR PIPE.

The Garden Island: Mr. Kinney, in saying that W. O. Smith (meaning the Inter-Island Steamship Company) was hostile to the extension of railroads, even to those on Kauai, forgot to give a plausible reason for delay in further construction of the Kauai railway system.

Facts About Canal Zone

The report of the Isthmian Canal Commission just received under release by the Associated Press, contains the following under the head of sanitation. It incidentally disposes of the morning paper's statements that the jurisdiction of the United States in sanitary matters does not extend to the banana-shaded cities of Colon and Panama. The Star reprints the matter in full:

Department of Sanitation.

The work of this department embraces sanitary work in the cities of Colon and Panama, and, except office, it designates the sanitary work to be done in the Canal Zone in order to accomplish the desired ends, exercising such supervision as is necessary to see that the work is satisfactorily performed. In addition, the department has charge of hospitals and quarantine. The department is in charge of Col. W. C. Gorgas, United States army, as chief sanitary officer.

The work in the terminal cities consists of cutting grass and brush, oiling pools, and constructing and maintaining ditches for drainage purposes, removal of garbage and night soil, fumigation, and street cleaning. On account of the juxtaposition of Cristobal and Mount Hope to Colon, these are included in the Colon area, and for the same reason Ancon Hospital grounds are incorporated with Panama.

In the Canal Zone the quartermaster's department expended under the direction of the sanitary department in and about commission settlements \$114,725.98 for grass and brush cutting, and \$42,184.35 for the removal of night soil and garbage. The amount expended for the removal of garbage and night soil in native settlements was \$22,615.3. In the maintenance of existing ditches and the construction of new ones for drainage purposes the construction divisions expended a total of \$8,147.93, the new work was done in accordance with plans prepared by the sanitary department. The sanitary department expended \$11,708.08 for oil and \$16,756.17 for its distribution, and \$16,711.85 for larvacide and \$13,489.74 for its distribution, or a total of \$58,665.84; in addition \$99,241.19 were expended for sanitary work in the terminal cities.

In reporting on the health condition on the Isthmus, the chief sanitary officer states that the total admissions to hospitals and sick camps, including those sick in quarters, netted for the year 53,534; that the daily average of sick was 24.77 out of every 1000 employed as against 23.01 for 1909-10, and 23.49 for 1908-9, on the basis that the total number employed during the years mentioned were 49,129, 50,535, and 44,2616 respectively; that the total number of deaths among employees was 557, of which 33 were Americans, 96 were white employees of other nationalities, and 428 were blacks; that the number of deaths from violence among all employees was 178 as against 174 for the preceding year; and that in addition to the number of deaths reported 134 deportations were made, 104 for disease and 30 for injuries.

OUR FRISCO LETTER

(Continued from page one.)

Back and forth the argument raged, stirred up no doubt by the contractors on both sides. Everybody denounced everybody else for just thinking what they would like the most, but finally the city fathers selected the pavement which was the best in their estimation. And, lo, before they had hardly started work there blossomed forth the recall, sanctioned by the men who had lost. And our progressive trustees, instead of going ahead and beautifying their town with a solid backing of the town citizens, are instead forced to drop whatever they are doing and fight for their political lives.

Only yesterday I heard that a prominent suffragette had stated that she didn't like Ralph Hathorn, the Rolph candidate for district attorney, and that as he had made so many promises that he probably couldn't live up to, she intended to circulate a petition for his recall the moment she discovered that some of these promises had been broken. It was her way to getting even.

Governor Johnson's earnestness in the matter of reform can not be gainsaid. One must have respect for the strenuous and successful campaign he waged. Indeed any man is open to some congratulation and admiration who can boot the Southern Pacific out of California politics. But beyond all that there is a growing suspicion that all this reform may not be ultimately to the benefit of all the people, and to that political slogan used so often during the last campaign, "Aren't the people able to govern themselves?" comes a rapidly swelling chorus. "Not by a sight."

We are in a fair way to have some

Prepare For Thanksgiving

There's no place like "HOPP'S" for Dining Room Furniture.

We have anticipated the usual demand for DINING SETS at Thanksgiving time, having assembled here the largest collection ever exhibited in Honolulu.

Here you will find complete sets in MISSION, COLONIAL, FLANDERS, and MODERN DESIGNS, IN MAHOGANY, GOLDEN OAK, EARLY ENGLISH, AND FUMED OAK.

A glance at prices quoted below illustrates the range of our assortment, making Hopp & Co.'s the most satisfactory place for furniture buying.

DINING ROOM SETS	DINING TABLES	BUFFETS	CHINA CLOSETS.	DINING CHAIRS
\$50.00 to \$500.00.	\$7.50 to \$125.00.	\$25.00 to \$135.00.	\$20.00 to \$100.00.	\$1.50 to \$15.00.

Watch Our Windows

Today we have on display an Empire Colonial Dining Room set, in solid Mahogany, comprising one 10-ft. Extension Table, one 5-ft. Buffet, one China Closet, and six Leather Seat Chairs. This is the finest set we have ever shown. The price for complete set, \$450.00.

It came from "Hopps" means good Furniture.

J. Hopp & Co.
LIMITED

Satisfaction or money refund.

interesting problems worked out in California during these next few years, we are so loaded down with new laws and reform movements.

And just because we have a lot of new laws is no sign we are going to keep them permanently. Oh no, not at all. The suffragettes who have spent themselves in their fight for equal suffrage have just learned this. For hardly have the congratulations at the splendid woman's victory died away than there comes the startling news that the anti-woman suffrage clubs of California are better organized, better financed than ever, and that they are already starting a campaign for the repeal of woman's suffrage at the next election. A pretty peck of trouble we have got into. So now it looks as though the good ladies who had planned to make the California political situation over again, and make the men stand around and take orders, have to prepare to put up a better political fight than they have been in before to preserve their political freedom.

And in this connection the stand of the women in the Los Angeles mayoral campaign will have much to do. It is admitted that the 40,000 women voters of Los Angeles have the whip

hand in the situation down there, and it is generally thought that the great majority of the women who will vote there will be the working classes who will march solidly behind the Socialist candidate, Job Harriman. Wherefore Los Angeles is stirred to its very depths, the papers forgetting former animosities are a unit in crying for the salvation of the city and denouncing Harriman and his Socialistic tendencies. And the Alexander forces have started an organized campaign to get out every society woman and all of the non-workers and drone bees in an effort to stave off what appears to be a landslide for Socialism.

Whichever way it turns out the defeated side is going to be furious at the women. They are bound to be. And right after the heat of a terrific campaign, the anti-suffragettes will undoubtedly get thousands of converts to their cause, who will be only too glad to see the women eliminated from political consideration as a penalty for their activity.

All of which brings me back to my first remark. California is likely to be famous for the harvesting of a new crop.

Fine Job Printing, Star Office.

LARGEST OAK IN THE WORLD.

So far as is known, the largest oak tree in the world, or at least in this country, is the Sir Joseph Hooker Oak at Chico, in the Sacramento Valley, California. It is 105 feet high and its trunk has a circumference of 23 feet 1 inch. It is the California white or valley oak (Quercus lobata) that is peculiar to California, though it bears a close resemblance to the English oak.

The tree formerly belonged to General John Bidwell, a California pioneer, and was presented to the town of Chico by his widow. In 1877 Sir Joseph Dalton Hooker, the distinguished English botanist, who was the director of the Kew Gardens near London, visited Chico as a guest of the Bidwells, and pronounced the oak the largest in the world. Shortly after Sir Joseph Hooker had made the fact known, Dr. C. C. Parry, an American dendrologist, referred to the tree under the title of the "Sir Joseph Hooker oak;" and Dr. C. S. Sargent, Harvard professor of arboriculture, called it by the same name, which was appropriate, since Sir Joseph Hooker had made the tree known to the world; though General and Mrs. Bidwell, had they named it, would have called it after a friend, Dr. Asa Gray, one of the most noted

botanists of America.—Country Life in America.

WHERE TWINES THE PATH.

The roads in the Haleiwa locality are as good as will be found anywhere so that there is always a chance for an enjoyable hike when amusement or other form lags. The beach surpasses that in Honolulu, for there is an entire absence of coral and "the water's fine." Haleiwa presents many attractions to the tourist and for that reason it is the Mecca for many who are visiting the islands for the first time. The golf links are favorably spoken of by those who enjoy that form of sport and the tennis court is always in good condition for a set. Trains on the O. R. & L. go to the door, and a ride on the limited is always enjoyable.

GOOD REASON.

"Why do you suspect him?"
"He promises to make me rich in a year, and yet he's worn the same collar for a week."—Detroit Free Press.

Lady—I am surprised, little boy, to see you smoking that cigar.

Boy—I'm s'prised myself, lady; I thought the man would never drop it. —Philadelphia Telegram.

Makes The Hair Grow

We are talking about Ayer's Hair Vigor. Just note that word "Ayer's." You are perfectly safe with it. No harm to you or to your hair. Makes the hair grow? It certainly does. Stops falling hair, too. Remember, it's "Ayer's" we are talking about. Ask your doctor about your hair and about Ayer's Hair Vigor. Get his approval. Your own doctor and "Ayer's" make a strong combination. It means faith, confidence, satisfaction.

SPORT NEWS

By H. M. AYRES.

PORTUGUESE DROP FIRST GAME OF OAHU LEAGUE PENNANT SERIES

The first game of the Portuguese-Hawaii pennant series for the championship of the Oahu Senior Baseball League, was played at the Athletic Park yesterday afternoon and resulted in the Hawaiians defeating the P. A. C. by the score of 5 to 1.

The Portuguese failed to play up to form and have evidently not recovered yet from the effects of their trip to Maui.

Freitas was hit for three runs in the third inning and gave place to Pedro who did well until the eighth when he availed and let two tallies be scored off him.

Score by innings:

P. A. C.: Runs...0 0 0 0 0 0 1 0—1
B. H.: 0 0 0 1 0 0 1 2 0—4

Hawaii: Runs...0 0 0 0 0 0 2 5—5
B. H.: 0 2 1 1 0 0 0 2 5—6

Summary—Two-base hits, D. Desha, Ornelas; left on bases, P. A. C. 4, Hawaii 4; first base on errors, P. A. C. 3, Hawaii 2; struck out by A. Desha 8, Freitas 9, Pedro 7, bases on called balls, off A. Desha 4, Freitas 1, Pedro 4; hits, off Freitas 4, Pedro 2. Umpires, Chillingworth and Williams. Scorer, W. T. Raposo. Time of game, 1 hour and 29 minutes.

Next Sunday the teams will meet again, the series being the best three games out of five.

Asahis vs. Aals.

The curtain-raiser to the big games was furnished by the Asahis and Aals. The Japanese nine won in a walk by the score of 10 to 2.

Score by innings:

Asahis: Runs...0 2 1 0 2 0 3 1 1—10
B. H.: 0 1 0 1 2 0 3 2 2—11

Aals: Runs...0 1 0 0 0 0 0 1 0—2
B. H.: 0 1 1 0 1 0 1 3 1—8

Summary—Two-base hits, Parker, T. Moriama; sacrifice hits, Muralami, Hayashi; left on bases, Asahis 7, Aals 10; first base on errors, Asahis 5, Aals 4; double plays, Kojima to Noda to Hayashi, T. Moriama to Sukaino to Noda; first base on called balls, off T. Moriama 5, off Brito 9; struck out, by T. Moriama 2, Brito 9; pass balls, Malmpehu 2, Ozaki 2; wild pitch, T. Moriama 1, Brito 1. Time of game, one hour 48 minutes. Umpire, H. Chillingworth. Scorer, N. Jackson.

The Morning Game.

In the morning a Junior League game was played between the C. A. U. and Muhoeks, the latter winning by the score of 13 to 4.

C. A. U.: Runs...0 0 0 2 0 1 0 1 0—4
B. H.: 0 4 0 1 1 1 0 1 0—4

Muhoek: Runs...1 0 0 2 5 0 0 5 5—13
B. H.: 0 0 0 2 2 0 1 4 5—9

Summary—Two-base hits, G. Leong, Tin Yen; sacrifice hits, Ho Sein; left on bases, C. A. U. 8, Muhoeks 10; double play, G. Leong, Ah Hook, to Akeo; hit by pitcher, M. Akeo, Kan Yen, Smith; first base on errors, C. A. U. 4, Muhoeks 9; first base on called balls, off Luck Yee 7, Hoon Kih, Xavier 4; struck out, by Luck Yee 4, Hoon Kih 1, Xavier 8, Kahalewai 2; wild

itches, Luck Lee 1, Hoon Kih 1, Xavier 2; pass balls, Hoon Kih 2, Kan Yen 2, Flores 2; innings pitched by Luck Yee 4, Hoon Kih 4, Xavier 8, Kahalewai 1; hits, off Luck 2 in 4 innings, off Hoon Kih 7 in 4 innings, off Xavier 4 in 8 innings, off Kahalewai none in 1 inning; charge defeat to Luck Yee. Time of the game, 1 hour 10 minutes. Umpire, H. Chillingworth. Scorer, N. Jackson.

DESERT RACE TOUGH GRIND

The Los Angeles-Phoenix "Desert Race," which started at midnight Saturday, November 4, and which was won by a National car driven by Harvey Herrick, was won in 21 hours 5 minutes 33 seconds.

The course lay southward from Los Angeles to San Diego and thence over the desert to the Colorado river.

There the competing cars passed in to control and were ferried across, remaining in control until Monday morning, when the racers went on and finished at the track on the Phoenix Fair grounds.

The distance is 542 miles. Previously, being from Los Angeles directly westward, it was nearly 100 miles shorter.

Cable news of the result of the great race was received here.

SPORTDRIFT

A game of baseball played at the Y. M. C. A. on Saturday morning resulted in the juniors defeating the students' team by the score of 18 to 8.

The teams were as follows:

Juniors—Willard Ables, c.; David Bent, Jr., p.; M. Rosa, lb.; Frank Winters, 2b.; Leon Ebersole, 3b.; Nelson Robinson, ss.; Cliff Milen, cf.; Henry Bent, cf.; Kendall Shepley, lf. Students—Robert Horne, Arthur Brown, c.; Rodger Thompson, p.; E. Tuttle, H. Seville, lb.; Marston Campbell, 2b.; W. Harns, 3b.; Albert Bush, ss.; M. Tuttle, cf.; Platt Cooke, cf.; Bernard Damon, lf.

There are faint indications of a revival in the wrestling game. They are very faint, however; that's one good thing. Fat grapplers looking for easy money at the public's expense have about had their day in this neck o' woods.

Hawaii and Oahu soccer teams may play in Hilo on December 31.

The following players are doing good work for the St. Louis soccer team: Malterre, Hughes, Hanapi, Poepee, Frendo, Marcel, Cathcart, Rose, Werry, Marcel, Jr., Costa.

The Y. M. C. A. Intercollegiate football players will meet at the Y. M. C. A. at 5:15 p. m. today for practice.

Fort Ruger defeated Port Shafter in a game of baseball played at Kaimuki Park yesterday afternoon, the score being 5 to 4.

The teams lined up as follows: Fort Ruger—Camiska, 3b.; Gongal, cf.; Lamere, p.; Lawrence, rf.; Dobski, 2b.; Denton ss.; Ryan, lb.; Troner, lf.; Terry, c.

Port Shafter—Trimmer, 2b.; Holt, cf.; Kibbey, p.; Yarish, rf.; Rigley, 2b.; Burns, ss.; Candee, lb.; Thomas, lf.; Whitaker, c.

The score by innings:

R. H. E.
Shafter...0 0 3 0 0 1 0 0—4 7 4
Ruger...2 1 1 0 0 0 1 0—5 5 3

Soldier King ran to the Pali and back yesterday.

Seven members of the Hawaiian Rifle Association tried out their new guns at Fort Shafter yesterday. There will probably be a turkey shoot on the Sunday before Thanksgiving.

Sacramento News: There is a strong probability that a majority of the Sacramento baseball team will winter in Honolulu, at least such is the present intent of Danzig and Williams who are attempting to provide a schedule of games to be played in that tropical island during the coming winter. Danzig passed last winter in the islands and is in love with the climate. He hopes to take twelve of his teammates to enjoy the same pleasures he experienced during his stay there.

OAHU WINS FROM HAWAII

Oahu College defeated the College of Hawaii on Saturday by the score of 17 to 9.

There was a good crowd present and an interesting game was witnessed.

Punahou had much the best of the play and should have won by a larger margin than they did. They had their opponents on the defensive all the time.

The first half was devoid of scoring. In the third period Conney made the first touchdown of the game, but Hoogs failed at goal. The score at the end of this period was 5 to 9 in favor of Oahu.

In the final period Hoogs went over the line for a touchdown and also converted successfully. Murray repeated and Hoogs kicked goal, the game ending as stated.

The teams:

Punahou—W. Hitchcock, lc; Poejoe, Jr. Renton, lg; Moir, c; Inman, rc; Paty (capt.), rt; Hoogs, re; Schuman, q; R. Hitchcock, lb; Coney, rh; Murray, c.

Hawaii—Yamashiro, lc; Pratt, lg; Turner, lg; Paaluh, c; Holl, rc; Clark, rt; Fraser, re; Marvillino (capt.), q; Rice, lb; Kuwamoto, rh; Cousins, f.

W. Desha refereed, F. M. Friesell umpired and George Dyson officiated as field judge.

Next Saturday the Panabous and the High School will meet and it will be interesting to note what Rader's coaching has done for the latter team.

PAUOAS TAKE ANOTHER GAME

At Kapiolani Park yesterday the Pauoas defeated the Waialea Wonders (not such mighty wonders now) by the score of 5 to 4.

The victors lined up as follows:

H. Lani, c; W. Kaha, p; M. Freitas, lb; Ornelas, 2b; D. Lemon, 3b; Wilkoll, ss; J. Poohing, lf; S. Souza, cf; J. Dias, rf.

The Pauoas are open to receive challenges from teams with something of a reputation.

There was no fishing in the lagoon or outside the reef yesterday, the big surf preventing angling operations.

Fine Job Printing, Star Office.

FINAL ROUNDS PLAYED TONIGHT

Tonight will ring down on the very successful night tournament of the Maunaloa Tennis Club.

On Saturday night Nickelsen and Gibbs beat Hemenway and C. H. Cooke, 10-8; Barnes beat Guard, 10-5, and Sinclair beat Steere, 10-7.

The handicap champion doubles were played off in the afternoon and resulted in E. Ross and Singlehurst beating Greenwell and Andrews, 7-5, 1-6, 2-6, 6-1, 6-2.

Tonight the finals in the singles, doubles and mixed doubles will be played.

The program is as follows:

At 7:—Robert Sinclair vs. J. H. Barnes.

At 7:45—Mrs. Coulter and Clarence H. Cooke vs. Miss Lucy Ward and D. W. Anderson.

At 8:30—Jack Guard and Robert Sinclair vs. Nickelsen and Gibbs. The latter two players are from Aiea.

At the conclusion of the three matches the trophies in the different classes will be presented by Vice-President C. H. Olson.

Announcement of a special handicap tournament will be made in the near future.

THE THEATERS

Three Big Programs Tonight.

Honolulu's great white way will be alive with attractions tonight, no less than three shows running in full blast. The greatest offering, however, will be at the Bijou where the Hughes Musical Comedy Company will be seen in "College Days," a snappy one-act musical comedy. This much-heralded aggregation, 15 strong, is determined to live up to its reputation, and promises the best in good, clean, comedy. During their engagement the opening hour at the Bijou has been set for 7:15 in view of the fact that two big shows are to be given nightly, the second show starting at 8:45. This company is a well balanced one and will surely have a long run of popularity.

Director Hughes will lead his company from the orchestra pit, which is a guarantee that things will run smoothly. Interspersed in the play will be the following musical selections:

Opening Chorus, nursery rhymes by Messrs. La Blanc, Stanhope and Lydston; Filtration sextet, Miss Gay and Chorus; solo, selected, Mr. Lydston; Honey Come Down, Miss Edward and Chorus; Romeo and Juliet, Miss Edwards, Mr. Lydston; Bonnie Lassie and Chorus; Flo Sherlock, and dancing specialty by Albert Leonard.

The Empire will have as vaudeville attractions, Madame Lloyd and Clair and Clinton, while the Savoy will reopen with Violetta and Old and May Taylor as the drawing cards.

Madame Lloyd, the operatic soprano, will no doubt have the elite of Honolulu with her, as her singing is far above the average and the class of songs she sings is in harmony with her beautiful voice. Miss Clinton will give imitations tonight of Miss Vesta Tilles, the famous London actress, while Harry Clair will take off Albert Chevalier, the center comedian.

The Savoy's bill is strong enough to fill the house nightly. Violetta, or the woman of mystery as she is now generally called, will introduce a new figure test in which she will have the audience write out their own figures and will call them correctly. This should be a wonderful act. Miss Taylor, who has been having a phenomenal run of popularity will appear in new and popular songs.

The film service at all three theaters will be greatly improved, as General Manager Magoon while away made arrangements, at a large additional expense, for the best pictures made, the first allotment of which arrived by the Sierra.

The popular 10c, 20c and 30c prices will prevail.

CAUSE FOR ALARM.

That backing cough may appear to be of no consequence, but you may be certain that it indicates some derangement of the pulmonary system. This fact in itself is enough to cause alarm. Do not wait until it causes you annoyance, it may be too late then, but get rid of it now. Chamberlain's Cough Remedy is famous for its cures of coughs and colds and one bottle costing but a trifle may save you any amount of trouble and expense later on. For sale by all dealers. Benson, Smith & Co., agents for Hawaii.

There was no fishing in the lagoon or outside the reef yesterday, the big surf preventing angling operations.

Attell and Kilbane fight in Los Angeles for the championship on January 1.

THE HAWAIIAN STAR

Published every afternoon (except Sunday) by The Hawaiian Star Newspaper Association, Ltd., McCandless Building, Bethel Street, Honolulu.

WALTER G. SMITH, EDITOR
MONDAY, NOVEMBER 13, 1911.

ANY MAN WHO OVERLOOKS THE LITTLE INTERVIEW WITH JUDGE HUMPHREYS IN TODAY'S ISSUE WILL MISS DATA WHICH PRACTICALLY SETTLES THE QUESTION OF THE ATTITUDE OF COLONEL GORGAS TOWARDS BANANA GROWING IN THE CANAL ZONE.

TO ATTACK SWAMP AGRICULTURE.

Dr. Blue, whose conservative views on the banana question are appreciated, now turns to a matter which is the real cause of the mosquito pest—swamp farming. For a long time this community, spurred to interest by the Star and by its own sense of danger, has regarded swamp farming with apprehension. It did not particularly relish the jest of a visitor that this was "the largest agricultural city in the United States," but it saw the truth of the statement; and, except for those who profit by marsh agriculture, it will sustain the authorities in any effort they may make to save Honolulu from its insanitary menace—that is to say, any effort within its means.

The Star assumes that the forthcoming sanitary report will cover this ground. In advance, the plan to abolish swamp agriculture has brought out some practical ideas of procedure, one of which is to issue bonds for the purchase of all the rice and taro patches, the money to be returned through the sale of the drained sites for building lots—some of which would be highly desirable from that point of view. Another idea is to increase the taxes, to buy the land outright and resell it—buy at agriculture prices and sell at townsites values. Still another is to gridiron the swamp farms with streets as was done on the salt marsh flats of old South Brooklyn, N. Y., and so raise the tax values that the owners could not afford to hold them for farm purposes. Still another is to proceed against the swamps under the nuisance regulation of the Board of Health. Whether this last measure could be worked may need a court to decide, but to a layman it would seem that the Board has power enough especially under Section 2, which reads:

"Section 2. It shall be unlawful to have, keep, maintain or permit on any such area any cistern, tank or well or other receptacle of similar character containing water, or any pond, pool, spring, fountain or other body of water of similar character, unless the same shall be kept constantly treated with a solution of copper or other chemical agent or constantly covered with kerosene or petroleum oil or other substance so as effectually to prevent the breeding of mosquito larvae in the water therein or thereof or constantly kept free of vegetable growth and other obstructions and stocked with mosquito-destroying fish, or constantly so screened with wire netting of at least eighteen wires to the inch each way or otherwise so covered as to prevent the ingress or egress of mosquitoes to and from the water therein or thereof."

Under a strict construction of that regulation could there be any rice or taro farming within city limits? At certain periods a rice or taro patch is certainly "a body of water" and if that water is "kept constantly treated with a solution of copper or other chemical agent or constantly covered with kerosene or petroleum oil" neither rice nor taro will grow in it.

But whatever the method taken it is good that swamp agriculture within city limits must go. We have long since outgrown the need. Rapid transit has made it possible to handle the business far out in the country and yet live in town. Besides, the time is not far distant when a greater Honolulu will need all the mountain water which now supplies the swamps and will have to conserve it for household, lawn and garden.

NATIONAL PARK BUREAU.

The creation of a National Park bureau is one of the probable results of the coming session, of particular interest to the people of the west. Secretary Fisher, who has made personal observations during his short time in office, is known to be enthusiastic over the idea, and is expected to urge the formation of this new branch of the Interior Department, in his report. At present, all national park matters are handled by various bureaus of the Interior Department, and the results are not entirely satisfactory. The secretary's plan is to have all these national parks placed under the direct management and control of a central head.

One result of such a bureau would undoubtedly be an increased appropriation for the improvement of the parks, with a far greater degree of efficiency in their management. Bills creating this new bureau have already been introduced, and will be pushed during the coming session. There is pending another for the creation of the Kilanua National Park, but what measures Delegate Kihio has taken or may take to advance it against the opposition of the Bishop Estate and in line with the recommendation of the Governor and Legislature, we are not advised.

THE POWERS AND CHINA.

The powers have been singularly patient in regard to China, considering what they did to suppress the Boxers, but there are signs of coming activity. Tokio predicts early intervention. And why not? The interests of trade and commerce are the main concerns of the political and business world, and when these are disturbed by a civil war which produces anarchy and gives no prospect of anything better in the long run, there is nothing for commercial states to do, if strong enough, but to restore order. Europe and America have enormous import and export interests at stake in China, and they cannot yield these to the caprice of hordes of bandits and professional disturbers of the peace who want to run the Chinese government—or some one of the five rebel governments now engaged in the congenial pastime of slaughter and pillage. No doubt the patience of the civilized world would prove long-suffering if there were any chance of the Chinese getting together under a stable government but no close observer of China expects that any more than he would of India. The vision of a self-governing democracy in China, a system which requires, for its success, the highest type of political conscience and adaptability, and which Anglo-Saxons haven't yet lived up to, is as iridescent as any other pipe dream.

MAINE AND PROHIBITION.

It is pleasing to know that Maine, after all, went dry and we say this irrespective of any question of whether prohibition prohibits. No law of any sort prohibits, but, if it gets the support of even a convinced minority it hinders, mitigates or curbs the evil. And that is worth while. The chance to get liquor secretly and by devious courses is much less a social danger than the chance to get it openly and freely. It is not the blind pigs that work the ruin, for only sots and bums go to them and the most of these folk are not worth saving. The blind pig has no social enticements. Sociability is the drawing feature of the saloon and beer hall and the occasion of the greatest ruin that strong drink does. No place of this dangerous kind is found in a prohibition state, and the law which stands in the way cannot be condemned because the total consumption of liquor, in blind pigs and especially in private houses of the same state, may continue to be large.

In reply to an inquiry about a cablegram from the Star's Washington correspondent a few days ago concerning a plan to send one regiment of infantry and one of field artillery here, in view of possible complications in the Far East, this journal would say that it has no further data. Its correspondent, Mr. Breckons, is clerk of the Senate military committee and has unusual facilities for knowing what is on foot in War Department circles. But the wording of the original dispatch leaves us somewhat in doubt as to whether two regiments were meant or an aggregation of infantry and field artillery amounting in strength to one regiment. The skeleton dispatch reads: "Regiment infantry and field artillery may be ordered Hawaii next few weeks to live in tents, pending buildings, etc."

Uncle Walt The Poet Philosopher

He used to take a drink of whisky when he was feeling gay and frisky; and when his health was out of plumb, he tried to heat himself with rum. In fiery days of mid-July, he tried to cool himself with rye; when winter storms began to toot, he warmed himself with tanglefoot. When children came, to cheer his home, from tankards tall he blew the foam, and when friends died he tried to drown his grief by pouring bugjuice down. Whatever the crisis or event, it called for Spiritus Frument. And when this pickled guy was dead in that old town he painted red; his poor, sad, weary heart sick frau must put a mortgage on the cow to buy a misfit box of pine in which her old man might recline. And while they laid the stiff away out in the churchyard, cold and gray, the men who kept the grog saloons, with diamonds on their in festoons, were selling booze to other clumps, who took it for the doleful dumps, to keep them cool, to keep them warm, to shield them from the wintry storm, for any reason or excuse a foolish mortal can produce.

Copyright, 1910, by Geo. Matthew Adams.

WALT MASON.

The tourists are crowding in without regard to the yellow fever talk on the coast and as they go about they will find that no one here is frightened or has occasion to be. The two cases of fever, one in town and one on a boat, have borne the light relation to the Yellow Jack of history and fable that varioloid has to smallpox. Both cases are practically if not fully cured. Their importance, as our tourists will learn for themselves, lies in their inspiration of the movement to make a fairly clean town cleaner and to remove insanitary conditions wherever they may exist.

It may be that all the Sunday paper's Small Talks about bananas and wrigglers were as cleverly "embellished" as the purported one with the editor of this paper.

When Dr. Gorgas plants bananas about the Canal Zone hospital and the schoolhouses, isn't he exposing himself to a severe reprimand from Dr. Currie?

The supervisors are having a long rest. But when there are no other fights they will catch it, as usual.

If we get rid of swamp agriculture there won't be mosquitoes enough left to feed the dragonflies.

If Manchuria revolts, Japan and Russia may choose to act under their powers of attorney.

We repeat the query: Has anybody found the larvae of the daylight mosquito in banana stalks?

Yuan Shih Kai is willing to take a good job but not from a firm that is about to fail.

That Eastern coldsnap ought to hustle some more tourists to the tropics.

The President ought to have won the travelling man's vote by this time.

Will Chinese tea go up now or continue to go down?

LITTLE INTERVIEWS

KIRK PORTER—We have been kept very busy arranging for supplies for the mosquito fighters. Everything is running along smoothly in that respect, however, and we have everything that we need.

FRED TURRILL—I sang "Woodman Spare that Tree" when the game came to cut my bananas, but it didn't do any good. How can you expect such men to have any appreciation for music?

GEORGE McKINLAY—The soccer players are doing great work nowadays, and yesterday there was a big turnout for practice. The Healanis are keen on the game, and the way the men take to the sport is good to see.

DR. PRATT—The moving picture apparatus will demonstrate very clearly the evils of overcrowding in connection with tuberculosis. During the progress of the exhibition, an electric light will flicker in and out every two minutes and thirty-five seconds. That period will represent a human life wiped out by consumption.

W. O. SMITH—It would be well for the health officers and experts, while

carrying on the mosquito campaign, to give attention to conditions which cause or promote other diseases, notably tuberculosis. There are too many dwelling houses in Honolulu so surrounded with dense foliage that the conditions are not conducive to good health, even though there may not be plants or trees which hold water long enough to breed mosquitoes. More sunshine is needed directly about dwelling houses.

JUDGE A. S. HUMPHREYS—In a report by Colonel Gorgas in the Canal Record on the Flora of the Grounds of the Government Hospital at Ancon, C. Z., volume 3, page 390, to be had in the library of the Commercial Club, among the plants and trees enumerated are bananas, traveler's palms and papayas. In the Canal Record, page 306, it is stated that "Banana trees have been set out in the experimental gardens, established in connection with the Canal Zone schools for colored children at Empire. These will bear in the early months of 1911. The object of these gardens is to discover the horticultural possibilities of the Canal Zone soil."

LOOTER OF WICHMAN'S STORE IS SENTENCED

Lau Kit, the young Chinese who systematically robbed the Wichman jewelry store for years until his total pilferings amounted to a value of more than \$5000, came before Judge Cooper this morning on a charge of larceny in the first degree. Having been caught with the goods, he apparently recognized the hopelessness of making any attempt to fight the case, and accordingly pleaded guilty.

The city attorney urged that a substantial sentence be imposed. Judge Cooper sentenced Lau Kit to the pen-

itentiary at hard labor for an indeterminate period, from four to ten years. Tun Moon, charged with selling opium without a license, got off easier. In fact, he did get off, for, on motion of the city attorney, after the Chinese had pleaded guilty, the judge suspended sentence for the usual time of thirteen months.

Tun Moon was caught dispensing Hebl-nut half shells of dope to those who wished to seek temporary Nirvana through the medium of the White Smoke.

STARTLING DISCOVERY.

Doctor Currie and Entomologist D. T. Fullaway, in charge of the mosquito survey, examined twenty-three trees of a commercial plantation Saturday afternoon and found water in five or six of them, "a percentage," says Doctor Currie, "which was larger than I expected. We found no wrigglers in any of them. The trees were a considerable distance from a house."—Advertiser.

Fine Job Printing, Star Office.

BATHTUB MOSQUITO INCUBATOR

Editor Star: I should like to let housekeepers of Honolulu know how I found the last breeding place of day mosquitoes at our home. We had followed every possible clue, in trees, gutters, yard under house and neighbor's yard. Still we discovered day mosquitoes in the bathroom. We overhauled the plumbing, put in a cement floor, and still the evil continued. We carefully drained all water

(Continued on page five.)

McCandless Does Not Own The Water He Roars About

In answer to a question this morning, Governor Frear stated that the Waterhole water license that is to be offered at public auction in the near future, only covers water owned by the government.

"None of the water belongs to Mr. McCandless. Why he should become indignant is not apparent. He tried to sell government water without consulting the government. When the boot is on the other foot, it sometimes pinches, McCandless claimed the right to sell water and to go on to the government land to get it. We propose to sell government water on government land."

"Mr. McCandless was trying to sell water that was not his. He was trying to sell government water. He has his remedy if he feels aggrieved. He tried to appropriate government water by filing claims in the record of-

ASSIGNED TO CALIFORNIA.

SACRAMENTO, Nov. 2.—First Lieutenant A. B. Dockery of the Fifth United States Cavalry, stationed at Honolulu, has been assigned to instruct the troops of the National Guard of California. Adjutant General Forbes received the information from the War Department today.

rice. That was an admission that it was government water."

The Governor once more denied the rumor that he is going to Washington soon. "I may go East in January to meet my family. I have made no plans so far. It is possible that I may go to Washington while on the mainland," concluded the governor.

GOODALE HAS HIS PROOFS

Manager Goodale stands to his guns in relation to the banana policy of Panama Zone authorities.

Today he brought the Star a copy of the National Geographic Magazine for February, 1911, containing a picture of the country along the railroad in which bananas show and accompanied by one of the Hotel Tivoli in front of which bananas are massed. "These bananas are much larger now," says Mr. Goodale, "than they were when the picture was taken."

Pearl Harbor Peninsula

THE GIBRALTAR OF THE PACIFIC. So says the Executive Departments of the Federal Government.

We have for sale a valuable estate fronting on the East Loch of Pearl Harbor, having a frontage of 209 feet and a depth of 250 feet. The lot is set with large trees and with flowering shrubs. The main house, a bungalow, has an entrance 40x40 feet, a living room 28x40 feet, eight sleeping-rooms, diningroom, and pass-pantry; a semi-detached kitchen and two bath-rooms. A commodious guest-cottage with bathroom and servants' quarters is in the same enclosure.

Adjoining this there is another large lot on which there are a large stable, a garage and servants' house; there is also a water lot 209x400 feet, which assures a permanent access to deep water, the whole comprising a most complete establishment.

The East Loch has recently been selected as the fleet anchorage ground by the Navy Department.

CALIFORNIA FINANCIAL LETTER FOR THE MONTH OF OCTOBER

The following is the financial letter for October of the American National Bank of San Francisco.

Remarkable activity in marketing the products of California has been the feature of the past month. High prices have caused very general selling, and as the fine weather has encouraged deliveries, packing houses are taxed to the limit. It is estimated that fully 95 per cent of the dried fruit output has passed from the hands of growers, and as cash payments are the rule, the fruit-growing sections are well supplied with money. In the Santa Clara Valley alone the money value of the fruit crop is variously placed at from eight to twelve million dollars.

Similar conditions prevail in grain. Most of the barley has been sold for export, at high figures, and the past few weeks have witnessed sensational prices for the product. While in former years the greater part of the California export crop went to Europe, this year it is being taken in large quantities by American brewers. So heavy have been the shipments that it is believed California will be obliged later to import grain for local use.

The Minor Crops.

In minor crops, also, the most gratifying reports are received. The olive crop is believed to be the largest in the history of the state, and English walnuts will run from 10 to 20 per cent higher than last year, the nuts being of exceptionally good quality. As the result of a triple combination of big crops, high prices and willingness to sell, agricultural districts of the state are now short on products and long on cash, and interior banks are well supplied with money. This condition, naturally, is reflected in San Francisco, Los Angeles and other centers, where bank deposits are steadily rising, and loaning funds are abundant. Normally, there should be a decline in deposits during the next two months.

As the crops of northern and central California disappear from view, by steamer or by rail, through the Golden Gate or over the crest of the Sierras, the South begins its annual

movement of citrus fruits. From about Lindsay and Porterville a few cars of lemons and grape fruit already have gone forward to Eastern markets, and by the first of November orange picking will be in full swing. From Oroville, in the northern end of the Sacramento Valley, down across the Tehachapi to San Diego, all the orange sections give promise of large crops, of fine quality.

Output of Mines.

That ranching is only one of California's wealth-producing industries, however, is emphasized by the report of mine production for 1910, recently issued by the U. S. Geological Survey. The total value of gold, silver, copper and lead ore produced in that year was \$27,020,405, of which \$12,715,400 was in gold. Of the gold output, \$7,550,254 was produced by dredging. This process during the past eleven years has taken no less than \$40,318,775 gold out of California's gravel beds. Nevada was only slightly behind California as a gold producer in 1910, scoring a total of \$18,878,864. Copper, silver, lead and zinc brought the total 1910 mine production of Nevada to \$34,152,148, a considerable increase over the production of 1909. It will be observed from this exhibit that the Golden West is still fairly well gilded, even though the Argonauts long since went their way into history.

Panama Canal Prospects.

An event of more than local importance during the month was the formal inauguration of construction work on the Panama-Pacific International Exposition, by which in 1915 San Francisco and the whole Pacific Coast are to celebrate the opening of the Panama Canal to traffic. The first spadeful of earth was turned by that active and efficient workman, President Taft, who took the occasion to felicitate the city on its extraordinary progress during the five years since the big conflagration. From now on, the utmost efforts will be put forth to have the exposition in readiness. That this city and its environs will benefit greatly from the Panama Canal, through the influx of population and the development of natural resources, no one can doubt, and there is a general feeling of confidence and cheerfulness.

The process of development, in fact, has been under way for several years, to an extent that few people appreciate. In Merced County, by way of example, the shipments of farm products in August were 100 per cent larger than in August, 1910, and a good share of the increase is attributed to the fact that large areas of raw land have been brought under cultivation during the past year. The utilization of water power and the creation of electrical energy all along the western slope of the Sierras is one of the remarkable facts of the past few years, and must inevitably result in a great expansion of manufacturing enterprise.

Pest of Politics.

Turning from our selfish concerns to the broader interests of the country. (Continued on page six.)

SHIPPING

Buyo Maru for South America.

The Japanese steamer Buyo Maru arrived this forenoon en route to South American ports from Yokohama. The Buyo Maru will not come to the dock, but will sail direct for South America either this evening or tomorrow morning.

Hilsonian Due Tomorrow.

The American-Hawaiian steamer Hilsonian, chartered by the Matson Navigation Co., will arrive from Seattle tomorrow morning.

Lurline On Wednesday.

The Lurline, with cargo for the American-Hawaiian Company, will arrive on Wednesday morning from San Francisco. She has 5800 tons for Honolulu and 400 ton for Kahului. The Lurline is bringing 133 head of live stock, comprising 63 miles, 19 bulls, 44 cows, 2 jacks and 5 horses. She has a passenger list of 58, and 117 sacks of mail, and will dock at the Railroad wharf.

Thomas Due Tomorrow.

The transport Thomas is expected to arrive from San Francisco tomorrow morning. She will dock at Naval Dock No. 2 and leave for Manila at five o'clock Wednesday.

Another Shipment From Telegraph Hill.

The bark Andrew Welch brought another shipment of molding sand from Telegraph hill. One hundred and

BELT ROAD LITIGATION

An open meeting of the Loan Fund Commission was held in the mayor's office at noon, when an amended answer to John H. Wilson's petition in equity for an injunction was approved on roll call, the ayes being Andrew Adams, Marston Campbell, S. C. Dwight and T. H. Petrie, J. J. Fern voting a solitary no.

The document relates all the familiar details of the awarding of the contract for the Heeia section of the Oahu belt road, and specifies the evidence on which the majority of the commission decided that Wilson was not the lowest "responsible bidder."

Mayor Fern's minority answer filed in court is expressly repudiated and his allegations of unfairness in awarding the contract to the Lord-Young Engineering Company denied.

The reasons why Wilson was not deemed responsible were found in his Kauai contract, his Honolulu sewer outfall contract and Supervisor Dwight's evidence that Wilson was incompetent as road supervisor of Honolulu.

A letter from Thompson, Wilder, Watson & Lymer, attorneys for Libby, McNeill & Libby, offered on behalf of the latter corporation to bear 75 per cent of the cost of material for removing its fence. The total cost of removal is \$137.44, of which \$108.15 is for labor. The chairman was authorized "to make such arrangements in this regard as seems fit," on motion of Campbell, seconded by Dwight.

Passengers for Coast.

The Sierra will leave for San Francisco tomorrow at ten o'clock, sailing from the Oceanic dock. So far but 49 passengers have been booked, demonstrating that people are not alarmed over the sanitary condition of Honolulu.

"Made in Hawaii."

Twenty-five packages of household furniture "Made in Hawaii" are among the list of articles shipped by the Mongolia to the Orient today. The Mongolia also carries 613 bags of coffee and 50 cases of Hawaiian-made soap.

PASSENGERS ARRIVED.

Per bark Andrew Welch from San Francisco, November 12—Geo. Goepfert, Jr., Miss Bessie Beach, Mrs. C. Voelckel, Mrs. L. F. Sterneman and four children, Mrs. A. O. Moran.

PASSENGERS BOOKED.

Per Mauna Kea for Hilo and ports, November 14—M. Imatagi, Mrs. B. Wickers, Mrs. Geo. Desha, Mrs. C. Robinson, A. W. Dunn, Mrs. H. H. Renton, D. E. Metzger and wife, L. A. Thurston and wife, Major Willis, P. G. H. Deverill, Miss Hart, J. Ordensstein, Rev. S. Desha, Mr. Odell, Mrs. Hart, R. McGraw, Mr. Blair and wife, Mrs. Edmunds, Miss Edmunds, J. F. Rannack and wife, Miss Gibson, Mrs. J. W. McGuire, W. F. Crane, V. Hurd, T. Osaki, Mrs. Riggs, H. Bouch, J. G. Byron, General C. B. Wilson, Miss Wilson, Geo. R. Lyon and wife, A. T. Foster, D. P. Foster, Mrs. C. J. Beggs, C. S. Jones, M. Olmstead, Rev. G. L. Kopa, Mrs. J. C. Hattie, Mrs. L. F. Steinemann and three children, Mrs. Chol Chee and two children.

PASSENGERS BOOKED.

Per Kinau for Kauai ports, November 14—F. A. Alexander, Francis Gay, K. Roendahl, Mrs. L. Waiaman, J. D. Dougherty, H. M. Gittel, H. Ehlers, A. Cropp, Miss Purvis, R. P. Spalding and party and A. Anisam.

Per Mongolia for the Orient, November 13—Taro Hodeum, Tan Aliza-wa, Rev. John Osborne and wife, H. Holmes and wife, John C. Curran and wife, R. H. Rath, John M. Dyer, H. H. yama, K. Hamano, Frank A. Barrett, Mrs. B. W. McIntosh, Mr. Maana and A. W. T. Bottomley.

Latest Telegraphic News.

(Per Merchants' Exchange.) SEATTLE, Nov. 12.—S. S. Alaskan arrived from Salina Cruz.

PORT SAN LUIS, Nov. 12.—S. S. Santa Rita arrived, from Hilo November 2.

PORT SAN LUIS, Nov. 13.—Schr. S. C. Holmes arrived, from Hilo October 20.

PORT SAN LUIS, Nov. 11.—S. S. W. F. Herrin arrived, from Honolulu November 2.

HILO, Nov. 11.—S. S. Honolulu sailed for Seattle. (By Wireless.) U. S. A. T. THOMAS, Nov. 13.—Dock at naval wharf tomorrow at day-light.

FINE ART EXHIBIT OPEN

Some forty-odd large and small paintings are now being exhibited to the public in the parlors of the Young Hotel by the artist, Miss Evelyn Almond Withrow of San Francisco. Miss Withrow has studied for many years in Munich and in Paris and later had a studio in London.

The paintings should be seen by all who love or have the least interest in art, as they are characterized by remarkable coloring and delicacy of technique.

The painting occupying the place of honor is a full length picture entitled "Life." It can be no better described than by this stanza, composed by the artist:

"Life is a Spiral—now warm, now cold,
Unstable as filmy gauze.

The golden Moment like Hair that floats
With never a Moment's pause.

Ambition, a Bubble of radiant hue
Enmeshed in the Future's veil,
Fire—Experience and Mystery's
Smoke.

Halos Life's wondrous Pale,
The Mirror a Symbol of Acts unknown
Imprinted on the World as it swings.

Our Hearts' reflections in Word and Deed,
With their Gold or Leaden wings."

An especially fine portrait of the artist's friend, the famous jurist of San Francisco, Judge William P. Lawler, is on exhibition.

For those who like beautifully blended colors there are pictures of flowers and fruit, and the painting of "Life" referred to is rich in purples and glowing reds.

One who views the paintings need have no hesitation in saying that Miss Withrow has a deep interest in the mystic and in the unfathomable. He who knows his Omar does not need the stanza attached to one of the pictures to tell him that it is descriptive of the quatrains beginning, "And fear not lest Existence closing your account and mine." * * * Another picture of a study of the psychic is entitled "Dharana" (concentration) and depicts a crystal gazer in a very striking manner.

Much could be written on these paintings, but, suffice it to say, that they should be seen, as they are doubtless the most noteworthy ever exhibited in Honolulu and would attract attention in any metropolitan exhibit.

Expert Leaves Naval Station

G. S. Burrell, for three years and a half assistant civil engineer at the naval station, has been ordered to report to the Bureau of Yards and Docks, Washington, D. C. He will leave in the transport Sherman about the 4th of December.

Engineer Burrell has made himself almost indispensable to those in charge of the construction work at Pearl Harbor, and his place will be difficult to fill. At present it is not known who will succeed him.

Chief Boatwain and Captain of the Yard B. H. Shepley will be detached from the naval station on December 13. He has been captain of the yard for a year and a half. He has been ordered to report to the department at Washington for assignment.

Mr. Shepley will be succeeded for the present by Chief Boatwain P. J. Kenney, who recently returned to this station after a few years' absence.

Chief Boatwain F. W. Metters, now in the station ship Pensacola at San Francisco, will come to this station in the December transport.

Work at Pearl Harbor is proceeding satisfactorily. On the Andrew Welch, which arrived yesterday from the Coast, there are fifty-three granite blocks for the drydock. The bark will go to the railroad wharf to unload them on cars to be shipped to the work at Pearl Harbor.

DR. BLUE TO SPEAK.

Dr. Blue will address the Chamber of Commerce at the rooms of that organization at 3:30 next Wednesday afternoon. The chamber invites all who wish to hear the speaker to be present.

A regular business meeting of the Chamber of Commerce will be held at 3 o'clock, preceding Dr. Blue's address.

REAL ESTATE IS LOOKING UP

The real estate business is looking up, according to reports made by most of the land sellers of the city. Although there have been no phenomenally large sales recently, there is a fairly steady sale of lots, especially in the newer residence districts of the city. All the real estate men express themselves as being confident of a prosperous season this winter.

Charles A. Stanton, manager of the Kaimuki Land Company, states that, while the sales made by his company last week did not reach the high water mark of the previous week, business has been very fair and everything points to a heavy volume during the months to come.

R. H. Trent likewise stated that business had been very good and that prospects for a busy season were more than fair.

The other real estate men of the city talk in the same vein and all are confident that no serious harm has been done to the tourist business by yellow fever reports.

In fact, since it has been ascertained that there never was any yellow fever, the general tone of business has greatly improved, and everybody appears to be feeling confident of a prosperous year to come.

Health Board Is Kept Busy

There is a slight outbreak of diphtheria at Kekaha, Kauai, from which three cultures from children's throats have been forwarded to the Board of Health by Doctor Sandow.

The Waimea cases have increased to three, but there is not thought to be any necessity of closing the school. The new cases at Kekaha are thought to have been caused by the children from one school visiting the other.

There is no cause for alarm, according to the health authorities. Antitoxin has been forwarded to Doctor Sandow and it has been administered to the children attending the schools.

There will be a meeting of the Board of Health on Thursday afternoon. It will be a regular affair, although the proposed scheme for educating the people in sanitation by aid of lantern slides will be discussed. It was first thought that moving pictures would be better, but now difficulties in the way of providing the necessary light to project the films have cropped up. In small villages, where electric light is not available, it is thought that moving pictures would not show up well.

Lantern slides will, however, be used and all the other features of the campaign against the scourge of tuberculosis will be seen.

MILLS' FIGHT

(Continued from Page One)

as he expected to go away on December 5, it would be impossible for him to hear the case. He therefore transferred it to Judge Whitney. It is understood, however, that the latter is very averse to trying the case and it may devolve upon Judge Cooper to handle it.

Mills suggested that he was in no hurry, that the judge would probably be back by Washington's birthday and that in the meantime "the hired Hessians" of the Board of Health would have enough to occupy them in destroying all the prosperous banana plantations of Honolulu. Judge Robinson, however, said he could not take judicial notice of the fact that the Board of Health had brought in hired Hessians to do its work. He thought it would be better to hand the matter over to Judge Whitney for hearing.

If the court sustains Mills' exceptions, it will virtually knock out all the important part of the respondents' answer.

The respondents, in their answer, deny that Mills' banana plants are in a clean, healthy and sanitary condition, free from insects, and they aver that all banana plants within the city of Honolulu are dangerous to public health and to the health of persons residing within 150 feet of such plants, for the reason that such plants hold water long enough to form a breeding place for mosquitoes, and do breed the stegomyia or day mosquito. They tell of the Ahupoko incident, claiming therefrom that unless the stegomyia be exterminated there may be a yellow fever epidemic that will

BIG SALE OF O. R. & L. BONDS

The sale of \$40,000 worth of O. R. & L. bonds at \$3.50 above par, to one of the big estates, which transaction was negotiated Saturday afternoon by the Waterhouse Trust Company, apparently marks a renewal of business activity along the Street and presages increasing stock and bond sales in the future.

The sale mentioned is the biggest bond sale that has been recorded for a long time, while the price, \$3.50, would seem to indicate greater confidence in Hawaiian securities. It is understood that other big bond deals are being negotiated and that the long dull period is about at an end.

While there was almost no trading at the Exchange this morning, the tone of the market was considerably stronger, especially considering the fact that this is Monday, usually a weak day on 'change. The only session sale was that of a block of twenty Honolulu Brewing and Malting at \$20.75, a very respectable advance over the last previous quotation.

One of the strongest stocks at present is Pioneer. No sales of this stock were recorded today, but 204 was bid, with no takers. The last sale was at \$202.50; \$210 is asked.

Wai'alea remains firm at \$114, with little in sight. Honokaa is in demand at \$11, but there is little of the commodity coming out. Two sales of Honokaa were made between boards, one of thirty-five shares, the other of five. A block of twenty-five Wai'alea sold at the prevailing figure, \$114. The only other sale of stock recorded was that of ten shares of Ewa at \$30, which marks an advance of a quarter over the last selling price.

Altogether, the market is starting off better this week than last and there is a general feeling of confidence that better prices and greater activity will prevail.

STOCK SALES

Honolulu Stock Exchange: Sales between boards—\$10,000 O. R. & L. 58, 103.50; 10 Ewa, 20; 35 Honokaa, 11; 5 do., 11; 25 Wai'alea, 114.

Session sales—20 Hon. B. & M. Co., 20.75.

Sugar Quotations—96 deg. centrifugals, 5.12; 88 deg. analysis beets, 165 7/16; parity, 5.57.

They state that they are informed and believe that the Board of Health on November 9 passed a resolution concerning Mills' banana plants; likewise that a copy of this resolution was delivered to Mills on November 10, and he was ordered to abate his bananas; in the event of his failure to do so, the Board of Health would do it for him.

Respondents deny that by such action on their part Mills would suffer irreparable loss, and that the acts of the respondents or their agents will be detrimental to the property and property rights of the plaintiff.

Wherefore, they pray that the temporary injunction may be dissolved.

Mills' exceptions to their answer are based on the ground that information and belief do not, according to the law, constitute a sufficient answer, and that where they are used the source of such information and belief must be cited.

The case promises to be in the courts a long time before it reaches any final determination.

BATHTUB MOSQUITO INCUBATOR.

(Continued from page four.)

from the flush of the lavatory every day, and every morning found about fifteen new mosquitoes, which were promptly killed.

We knew they must breed in the bathroom, and I experimented with a thin piece of paper and found what scores of housekeepers may find if they will look. In the overflow pipe of the bathtub is a small depression not half an inch deep.

This depression is in the connection between the tub proper and the pipe, and as we use the shower most of the time and the overflow pipe is seldom used, this small quantity of water is full of mosquito larvae. For a few days after flushing this pipe no mosquitoes are about, but they come from this place, I am sure. Roll a small quantity of paper into a stiff probe and put it into the overflow. You will find water, even in the best plumbing, and may find the condition as described.

TURNING GRAY DAYS TO GOLD.

A young girl writes rather bitterly of the grayness of her existence. She has to work to earn her living, and she earns barely enough for necessities. So her life is monotonous. She has little pleasure. And she doesn't see much use in living, when life is lived this way.

She is not alone in her experience. There are thousands and thousands of women in the country who are living just such a gray, monotonous life. Some are living even harder lives than this girl's. One woman who entered a department store as a girl of twenty, for thirty years cared for an invalid father in addition to her store duties. Night and morning she ministered to him, and when he passed on to the other life, she was a silver-haired woman. All her youth went in this grinding toil. Her days, from the point of view of work, were the grayness of the gray; for her salary was slender, and care and anxiety to do her work so as to hold her position, and to make ends meet were her companions day and night.

What is the purpose of such lives? Is it intended that these, or any other life, shall be gray? I think not. I think these lives are gray, because those who live them do not know of the sun that is shining, of the light that is ready to irradiate them if they will open the windows of their soul and let it in.

There seems no purpose in such a life, because there is no understanding of life. This girl and other girls like her often do not think. They rebel. Their mind is filled with rebellion against the monotony and grayness of their existence, instead of their probing deeply to see if there is not a reason for it, a reason which, if understood, would flood their days with gold.

One of the purposes of life is surely development, not getting ahead solely in material things, but getting ahead in soul things. We must find ourselves, for real self, and we can only do this by recognizing the lower and leaving it behind. And to come to know ourselves as a spiritual being with the heritage of immortality and perfection is to know a joy whose keenness is beyond anything the world can offer.

And this joy, this knowledge is the light which is ready to enter our lives and dispense forever its grayness, if we will let it in. No girl will have gray days if she will come to this glorious understanding of life. For when she once knows herself as a perfect spiritual being, a manifestation and a reflection of the infinite and divine, life becomes a joyous thing. Gray turns to gold.

And sometimes it is in this very grayness and monotony that we come to this knowledge. The humdrum duties that prick and annoy show us the unworthiness of letting selfishness and indifference rule us, and the beauty of rising above them, of finding the better self that is above them, of letting this better self develop, or really of letting ourselves come into our own—the kingdom of understanding and of enjoyment of all that is ours.

And the one who will diligently seek will find. No longer should one's mind and time be filled with rebellion. Rather set the mind upon discovering the purpose. Seek the light. For the light is there ready to turn gray days to gold.

SOCIAL NEWS OF THE DAY.

Rev. J. W. Wadman is expected on the next Wilhelmina.

Mrs. Alonzo Gattley will entertain with a tea tomorrow afternoon.

General and Mrs. Murray, U. S. A., are expected today on the Mongolia.

Miss Ermine Cross is giving a tea tomorrow in honor of Miss Haviland of New York.

The Commercial Club will have Hon. Neil Neilson as its luncheon guest tomorrow.

Mr. and Mrs. J. A. Gamble entertained Captain and Mrs. Shuttleworth of Lilehua on Friday and Saturday of last week.

Mr. and Mrs. A. J. Gignoux are living in the Patten house in Manoa prior to the completion of their new home.

The picture exhibition at the Young Hotel will occupy the attention of society people today and throughout the week.

Quite a number of town people en-

joyed Waikiki yesterday at the various beaches.

Miss Kathryn Stephens is hostess for the Service Bridge Club, which meets at the Colonial today.

Mr. Percy Deverill is leaving for the Volcano House tomorrow for a short vacation.

Epiphany Guild of Kaimuki are meeting with Mrs. Albion Clark this afternoon.

Mrs. W. C. Wilder is so much improved that some hope is held for her recovery.

Mr. and Mrs. Charles Wilder are moving into their new home, which was formerly occupied by Mr. and Mrs. Klebahn.

Lieutenant and Mrs. Ray Francis Smith are guests of Lieutenant Salm of the navy aboard the U. S. light-house tender Kukul for a ten days' cruise around the islands.

Miss Lydia McStocker entertained a bevy of young girls at tea on Thursday. Among those present were Miss

OVER THE TEACUPS. By Meg Negley.

CALLING DAYS FOR HONO. LULU.
Mondays: Punahou, College Hills, Manoa, Makiki.
Tuesdays: Waikiki, Kaplan, Park, Kaimuki, Palolo.
Wednesdays: Nuuanu, Punalu, Pacific Heights, First and Third Wednesdays above Nuuanu Bridge, Second and Fourth Wednesdays below Bridge.
Fourth Wednesday, Pacific Heights.
Thursdays: The Plains.
Fridays: Hotels and town. First and Second Fridays, Fort Shafter.
First Tuesday, Fort Ruger.
Saturdays: Kailih, Third and Fourth Saturdays, Kanehameha Schools.

Edith Cowles, Helen Rockwell, Helen North, Yasabel Cooper, Kathryn Stephens, Ethel Spalding, Irene Cooper and Mrs. Gerald Johnson.

Mr. and Mrs. Guy Gere entertained a few friends informally on Thursday evening, it being their twelfth wedding anniversary. The evening was pleasantly spent with cards and a rarebit served later in the evening.

Mrs. Montgomery Macomb, Mrs. Walter Dillingham, Mrs. Francis Swanzy, Mrs. H. Focke, Mrs. E. Stackable, Mrs. Noonan, Miss Agnes Walker and Miss Cordelia Walker were luncheon guests of Mrs. Frederick Klebahn on Thursday. Bridge occupied the afternoon.

Mrs. E. B. Blanchard was hostess for a pretty dinner given at the Colonial last night. Mrs. Blanchard had a big green basket of yellow chrysanthemums on the table, tied with a yellow sash bow. Sprays of asparagus ferns and yellow bows were scattered over the table.

The place cards were engraved with gold and the favors were big yellow chrysanthemums.

The guests of Mr. and Mrs. Blanchard were Mr. and Mrs. Harold Hayselden, Mr. A. L. C. Atkinson, Mr. Frank Howes and Lieutenant Price of Fort Ruger.

A pleasant dinner party was given last night at Shady Nook when guests and a few invited friends enjoyed a well-cooked dinner. Among those present were Sir Neil Neilson and wife from Australia, Mr. and Mrs. J. W. West, Mr. and Mrs. Green, Mrs. Sadie A. Sterrett, Mr. and Mrs. James Sterrett, Miss Hamilton and Miss Drummond.

Mr. Lyall gave an elegant surprise dinner to Mr. Percy Deverill at the Colonial last night. The table was decorated in Punahou colors. A large cut glass vase of yellow chrysanthemums was tied with blue and yellow ribbons, and loose bunches of violets were scattered over the table. The favors were bunches of violets. At each place was a beautiful illma lei and a place card with hand-painted violets. Those present were Percy Deverill, Edward Deverill, Jack Guard, Herbert Dowsett, Robert Sinclair, William Coney, Ted Cooper and Mr. Lyall.

ROYAL BAKING POWDER
Absolutely Pure
The only baking powder made from Royal Grape Cream of Tartar
No Alum, No Lime Phosphate

Tonight will be the last tennis game in the series that is being played at Manoa courts. Interest is great as to who will be champion. Mr. Barnes is ahead at present.

Mr. and Mrs. Milton Eisenberg and Miss Maybelle Eisenberg arrived from New York the early part of the week and sailed for Honolulu on Wednesday, where they will spend one month. —San Francisco Bulletin, October 27.

CALIFORNIA FINANCIAL LETTER.

(Continued from page five.)
try at large, it is evident that something is very wrong, and no one seems to know exactly the cause of the trouble. Industrial unrest and political meddling with business seem to have the most votes in the contest for leadership. Uncertainty as to whether the business of the country is to proceed under the present system of combination or co-operation, or whether a paternal government, bordering on the socialistic, is to impose further restrictions and hindrances under the guise of regulation, has greatly retarded commercial activity. The President's

constant (and, as many believe, needless and mischievous) reiteration of the administration's purpose to continue assaults on the trusts, and the unmistakable popularity of his utterances, are not reassuring, and the logical consequence is a movement on the part of investors to get rid of their holdings in railroad and industrial securities. The possibility of far-reaching effects from this antagonism to corporations may be judged by the fact that the number of corporations reporting to the Internal Revenue Bureau, according to a recent official publication, is 262,499, with a total capital stock of 52,371 million dollars, and bonds and other debts amounting to 31,333 million dollars.

Unquestionably, some of the law-defying "big interests" are reaping the whirlwind of their own sowing, but the distressing feature of it is that the little interests suffer equally, and all the commercial fabric is shaken and disturbed. The prospect of an approaching presidential campaign, with rival parties vying with each other in seeking popular favor by threatening to "burst the trusts," does not lend encouragement or hope for a general revival of confidence within the next year.

The high cost of living and the necessity of liquidation in labor are economic subjects of frequent comment. How the one can take place while the other continues, however, is difficult to answer. It is very doubtful if any general decline in wages will ensue, but there should be, and probably will be, as the result of present conditions, enhancement of the efficiency of labor, which will answer all the purposes of lessening wages. The man who has a job, and knows that five other men covet the same, is apt to value his place and maintain it by doing a full day's work.

Exchange in October.
The revolution in China has been the cause, or perhaps the excuse for, boosting the price of silver and exchange nearly two points within a week. A further rise may give the Indian speculators the long-looked-for opportunity to liquidate their immense holdings. Experts are reluctant to go on record with an opinion as to what effect such liquidation would have on future prices, as on the one hand the support given by the speculators to the market would then no longer be necessary, while on the other hand the menace of their large stock would be removed, and it is doubtful which

The NOISELESS TYPEWRITER

An Unqualified Success

Comes with a record of perfect performance among many of the most prominent business institutions in the United States.

READ THESE CREDENTIALS:

American Locomotive Company—

The Noiseless Typewriter installed in this office some months ago has rendered eminent satisfaction.

In fact, the Machine has surpassed our expectations. It is substantially built, turns out exceptional work and is an innovation in typewriter service.

(Signed) M. K. Jones.

William A. Rogers, Limited—

I am pleased to say that the Noiseless Typewriter we have in use is behaving admirably and giving the very best satisfaction. Our stenographer is delighted with it.

(Signed) W. A. Jameson,
General Supt.

The H.-O. Company says—

Pleased to state that the Noiseless Typewriter is giving entire satisfaction. It is pleasing to get rid of the usual noise of the typewriter.

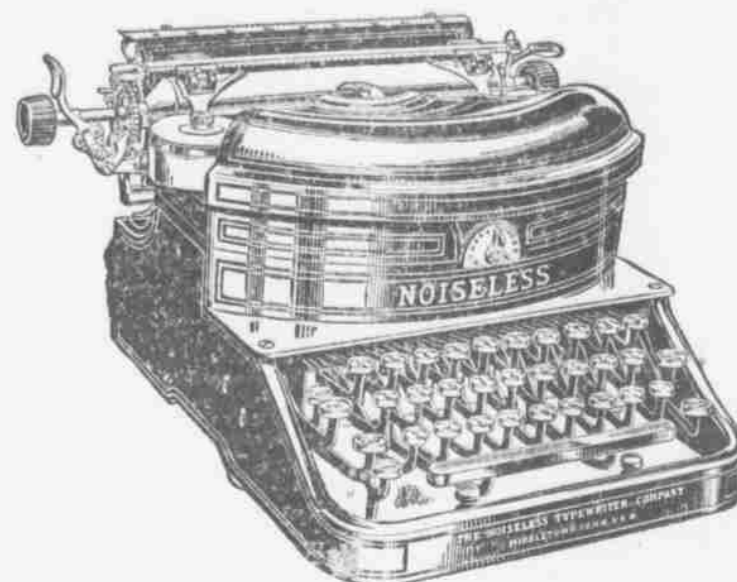

(Signed) W. C. Houck,
Asst. to Vice-President.

Francis Manufacturing Company—

We have been using the Noiseless Typewriter for the past six months. The noise of our old machine was a great annoyance in our office. The action of the Noiseless Typewriter is such an improvement, it is so beautifully made and works so well that we would not use the old kind of machine even though they were furnished us for nothing.

(Signed) H. A. Francis, President.

STAR CONTESTANTS MAKING PROGRESS

The mails from the other islands on Saturday and Sunday brought in very definite evidence that The Star's prize contestants outside of Oahu are going to make a strong fight for some of the highest prizes. Several hustlers on Kauai have already secured a surprising number of votes, as have also a number on Hawaii. Maui has not shown up so well, but three or four contestants have made a very creditable showing. The fact that the candidates on the outside islands are fewer in number counts in their favor, besides some of them are not confining their efforts to their own islands, but by writing letters have secured a good many votes right in Honolulu, and some even on the Coast.

On next Saturday, November 18, all the subscriptions taken up to that time must be sent in, and as soon as those from the other islands are received the first standing of the contestants will be announced in this column. This does not close the contest, but is only the first leg of the race, as it were. The contest will not end until sometime after the first of the year, the exact date not having yet been determined upon, but will be announced later.

It is not yet too late to make a start. In fact several new candidates entered their names last week, and have already made more progress than many who were in from the first. There are always a lot of persons in any kind of enterprise who keep putting off. It is because of this fact that new workers who get right to work are able to make the progress they do.

The candidates who are going to get the big prizes are the ones who are going at the work in a systematic and business-like manner. A good way to go about this is to sit down and make out a list of all the people you know. Then go to directory or telephone list and pick all the names of persons you think ought to take The Star. With such a list made out the contestant can see or write to one person after the other and in a

great many cases will get subscriptions which would otherwise be sent direct to the office. The easiest subscriptions to get are renewals from persons already taking The Star. Of course these do not count as much as new ones, but if a man has been taking The Star he doesn't often stop it, and if you get him in time you are certain to get his renewal through you, and thus give you the votes it counts.

The business office is receiving subscriptions almost every day from persons living in the same neighborhood that some contestant does. The fact that the subscription was not given to the nearest contestant is evidence that the contestant had not made himself or herself known. Everyone is anxious to help an earnest worker, especially when in so doing they get something they want themselves. The fact that The Star has grown into the biggest and newest and best edited paper in the islands makes everybody want it, so it is easy to get subscribers.

Just another word about the prizes. There has never been such a valuable list of prizes offered in Hawaii in a similar object as The Star is now offering in order to extend its circulation into every home possible in the Territory. In all, over \$2000 is to be given to workers. Most of this is in cash, or something that can be turned into cash. The first prize, which will go to the one getting the most votes, is \$750 in gold. Then there is a splendid building lot in Kaimuki as second prize, which can be sold easily, if desired. The third prize is \$300 in the form of a savings bank account, which, of course, is the same as cash. And so on down the list of fourteen prizes in all. The last four are solely for contestants outside of Oahu, although the workers all over the Territory have a chance at the first ten. One year's subscription to The Daily Star gives 3000, and every subscription for whatever time, counts something.

If you cannot take part as a contestant, do what you can to help a friend who is working for a big prize.

Morning Cable Report

(Continued from Page One.)

WASHINGTON, Nov. 12.—President Taft returned to the White House yesterday from his tour through Kentucky and Tennessee. His message to congress is still unwritten, but he will now devote his time to this important matter to the exclusion of everything else.

CHICAGO, Nov. 13.—The criminal prosecution of ten of the principal packers connected with the alleged meat trust will begin today in the federal court upon charges of violation of the Sherman anti-trust law. Among those who face prison sentences are the Swifts and J. Ogden Armour.

ASTORIA, Oregon, Nov. 13.—The steamship Washington is in a perilous position off the rocky coast at the mouth of the Columbia and is drifting shoreward on Pigeon Spit in a crippled condition.

All efforts by the life saving crews here have so far proved fruitless in effecting a rescue of the passengers and crew. There are twenty-five passengers on board, two of them women, while the crew number twenty-four.

PASADENA, Nov. 13.—After travelling over three thousand miles from New York to this coast in his biplane in an effort to win a prize of \$50,000, C. P. Rodgers, the aviator, started on his last lap from this city to the coast, thirty miles away.

Upon reaching the town of Compton, within six miles of the shoreline at Redondo, Rodgers and his machine fell from a height of 125 feet. The aviator, who was so near his goal and fortune, is unconscious, but it is declared that no bones are broken and that he may recover. The machine is a total wreck.

JANESVILLE, Illinois, Nov. 13.—This city was struck by a tornado yesterday, which cut a swath through this section of Cumberland county twenty miles long and a quarter of a mile wide and causing an enormous loss in property. Eight persons are dead as a result of the storm and a number injured. The tornado was followed by a drop in temperature to below zero and the suffering in consequence is intense.

CHICAGO, Nov. 13.—As a result of the storm yesterday two persons are dead and seven are missing and it is feared for their safety. There is much suffering from the extreme cold.

BERLIN, Nov. 12.—The report that Emperor Wilhelm has reprimanded his son, the Crown Prince, for approving of the attack in the Reichstag on the Moroccan policy of the government has been confirmed.

SACRAMENTO, Nov. 12.—According to the report of the State board of health, just issued, there was a total of 4872 deaths in the State of California, during the year 1910, from tuberculosis alone.

YOUR LIFE

DEALERS, PLAN TO FIGHT HIGH PRICE OF COFFEE

NEW YORK, October 28.—Prompted by the high and still advancing cost of coffee, representatives of nearly thirty leading tea and coffee concerns of the East met here and formed a permanent organization to be known as the National Tea and Coffee Trade Association. To arouse public sentiment for a Congressional investigation into the high price is one of the objects sought.

Mrs. Bocker—No, but I understand William's remark to the umpire; it's the same thing he says at breakfast.—Puck.

Relief From Headache Is Yours if You Want It

You have only to get a box of Stearns' Headache Wafers at your druggist's and take one. They are little and tasteless. This is the most popular headache cure in the world and has been sold for more than twenty years; the only reason that so many people buy it over and over is that it does what it should—cures headache promptly, safely, pleasantly.

No one needs to suffer from headache when

Stearns' Headache Wafers

are at hand. It is well to keep a box in the house all the time, for headaches always come without warning. This will drive them away as quickly as they came.

Stearns' Headache Wafers are so much better than others that it will pay you to insist on having STEARNS' and no other.

Irish Heart

"I couldn't stand it," said Sergeant
O'Keefe to Mr. Desky the other day,
"and had to cry in spite of myself.
We went to the house of an old Portu-
guese woman in the Kalia valley to
cut her bananas, and when she saw
what we were after she threw herself
on her knees and begged. She im-
plored us for 'Christus' sake to leave
her the bananas, which were all the
food and all the support she had. She
said she had brought them up with
water she carried from the creek in a
crock and could not raise any more.
Then she broke down and cried. So
did I cut down her bananas?"
Somebody else may have that job."

SICK MAN QUARANTINED.

(Continued from page one.)
It is certain that he does not have the
yellow fever, but in order to be on
the safe side the patient was at once
removed to the quarantine detention
station. The man is a sailor and came
here on the last trip of the R. P.
Hithet.

The Canal Record, page 14, Vol. III.
—In addition to the fresh fruits im-
ported, two carloads of bananas are
purchased on the isthmus each week,
and small quantities of papayas are
also purchased.

Federal Court
Is Glutted

Twenty-four cases were set for dis-
position before Federal Judge Clemons
Saturday morning, but on account
of the uncertainty as to the length of
time it would take to try some of the
more important ones, only a few of
them were definitely set for trial.
Some were continued for the term
others until next March, and a large
number were put over until December
14 for definite disposition, at which
time the court will be better able to
tell when they can be set for trial.

The first case to be tried will be
that of Lee Hoy, who is charged with
having committed bigamy. This case
will be tried tomorrow, and is to be
followed, the next day, by the McMa-
hon murder case, which is the most
important on the court calendar.
The Curtis case, one of the long list
of opium cases, is set for trial on No-
vember 28, and will be followed by
the Norman Smith cases, of which
there is a large number.

The court is going to be very busy
this term, and judges, lawyers and
jurymen are not going to have much
time to themselves until the big en-
d-of-the-year is disposed of.

Volcanologist
Is Thanked

The following copy of a testimonial
to Dr. Perret fully explains itself:
November 13, 1911.

Dr. Frank A. Perret, Honolulu:
Dear Sir—The local committee on
volcanic research takes this occasion
to express its thanks and appreciation
for the work you have done at Kil-
auea, for your able and clear presen-
tation of the activities of the volcano,
and the importance of the continuance
of the investigations there.

The committee believes that it also
voices the sentiments of this commu-
nity in its expressions of appreciation
of your work and especially for the
public-spirited manner that you have
manifested in answering questions
and inquiries and in supplying the
public with first-hand information. We
all hope that your work in Europe
and other parts will be crowned with
success and also that some day you
may visit us again. Our hearty aloha
will always be with you.

We enclose herewith the net pro-
ceeds of your lecture as an expression
of good will and appreciation of this
community for your work. Very re-
spectfully,

LORRIN A. THURSTON,
A. E. JUDD,
C. H. COOKE,
J. A. KENNEDY,
JOHN W. GILMORE,
Committee.

Water Pipes
Are Coming

Marston Campbell superintendent of
public works, has received advices to
the effect that a shipment of castiron
water pipe has left the East for Ho-
nolulu. Some two thousand tons in
all are to be shipped and, at intervals
of twelve days—the first ship-
ment arrives—the pipe will be coming
along.

"The mains of the city are in a
deplorable condition," said the super-
intendent this morning. "In many
places a leak is patched up and then,
a few feet farther on, another break
occurs. The pipes are worn out, and
that is all there is to it. I saw what
was coming years ago, and there is no
doubt that the mains will have to be
nearly all replaced soon."

Pipe for the Metcalf street sewer
arrived on the bark Andrew Welch,
yesterday. The pipe will be hauled
out to the site of the work, and then
Lord & Young, who secured the con-
tract to lay the pipes, will start in
on the work.

The Hanapepe, Kauai, school is re-
ceiving the attention of the superin-
tendent, the architect being on the
ground now. The money available for
the building only came to hand on
September 18.

The seawall work is progressing
well, and the superintendent is very
pleased with the way the undertaking
is progressing.

The department is waiting on the
board of health with reference to the
condemnation of the Kewalo indus-
trial. Marston Campbell wants to get the
sewers in as soon as possible, as that
work must be done before the filling in
is started.

There will be a rehearsal of the
minstrel boys of the Healan! Boat
Club at the Opera House at half-past
seven tomorrow evening under the
direction of Mr. Cunha. All members
of the club who are to go into the
show are earnestly requested to be
present.

Dr. Blue Will Handle
The Wet Land Problem

Governor Frear reported this morn-
ing that there was nothing new in
the yellow fever situation.

"Dr. Blue has taken hold, in place
of Dr. Currie, and everything is going
on all right. The scope of campaign
may be enlarged in the future, and
the Hilo reclamation work will be
looked into. It is proposed that Sec-
retary Mot-Smith, and Superintendent
Marston Campbell postpone their
visit to Hilo until Dr. Blue will be
able to go along with them and look
over the situation. Dr. Blue's judg-
ment would be of great assistance. It
is hoped that the party will leave for
Hilo within two or three weeks.

"Certain work can be gone ahead
with here, and that will expedite mat-
ters a lot."

There were a number of men around
the headquarters of the mosquito
campaigners this morning. Some
twenty-two laborers were taken on to
fill vacancies at the various apanas.
Two non-commissioned officers re-
signed on Saturday. They gave no
reason for throwing up the jobs. Their
places have been filled by other men
from Leilehua.

Today there are 704 men at work
in the different districts. Forty-eight
teams are caring the bananas and
brushing away. The work is going on
smoothly, and tomorrow will be pay-
day for the laborers. The payrolls
are being made up today and will be

sent out to be signed this afternoon.
Dr. McCoy did not arrive, as ex-
pected, in the Mongolia this morning.
He is now expected to come along in
the Lurline. Dr. Currie will, in all
probability, hand over his work at the
leprosy investigation station to his as-
sistant, M. T. Clegg. The doctor
hopes to leave for the Coast in the
Lurline.

Dr. Blue was seen this morning
with reference to the yellow fever
campaign, of which he had just as-
sumed charge. He is making himself
familiar with the local conditions, and
besides traveling over the ground, is
studying the city maps.

"Honolulu should be a city. Not
half plantation and half town. The
swamps should be filled in, and the
breeding places for mosquitoes should
be traced up and destroyed. There
are other big things to be done later
on, and 'wet farming' will be one of
the propositions."

The "one-mile mark," as regards ba-
nanas and mosquitoes, reaches up
through the densely populated part of
the city and, while Hanchaiting road
marks the Ewa side of the district, it
touches Bates street at the extreme
manka, goes close to Prospect street
at Punchbowl, and runs down through
Thomas Square and the Old Planta-
tion to the sea.

The five-mile limit extends from
Eukaki hill to Waiwale and covers a
large tract of country.

ever steps they deem necessary to
prevent a single ship from dropping
anchor within three miles of our
shores. The fever mosquito abounds
here as well as in Honolulu, and
since "an ounce of prevention is bet-
ter than a pound of cure" it be-
hooves us to make every effort to
keep our island free from any possi-
bility of placing ourselves in the same
predicament which now faces Hono-
lulu.

Day Mosquito
Eggs Scarce

A reporter of the Star, hearing from
two or three parties on the street
that O. H. Swezey, acting entomolo-
gist at the Experiment Station, was
offering a reward for the larvae of
stegomyia calopus, rang up the sta-
tion this morning but Mr. Swezey was
out.

G. H. Tuttle, the cashier, stated that
he had heard Mr. Swezey say last
week that he would give a reward to
anyone who would bring him some
larvae of the yellow fever mosquito,
as he had only one pair available for
scientific purposes.

Mr. Tuttle stated that up to this
morning Mr. Swezey had been unable
to obtain the larvae in question.

PERSONS IN THE NEWS

BOXER MONEY USED TO PAY CLAIM OF \$358,236 FORTY YEARS OLD

WASHINGTON, Oct. 31.—The connection of former Secretary of State John W. Foster and the late E. H. Conger, minister to China, with the payment of \$358,236 out of the Boxer indemnity fund to the heirs of General F. T. Ward, killed in the Chinese rebellion of 1902, was the subject of an inquiry started today by the House sub-committee on State Department expenditures.

Foster, who acted as attorney for the Ward heirs, and who, with Robert Lansing, secured half of the sum as attorney fees, testified that John Hay, Secretary of State, had expressly approved a change in the protocol of November 7, 1901, under which China had guaranteed an indemnity fund to be divided among the nations whose subjects were injured.

This change in the protocol, said Foster, gave Secretary Hay authority to pay the Ward claim out of the Boxer fund, although the claim originated nearly forty years before the Boxer rebellion. He admitted that as attorney for Mrs. G. M. Amidon, one of the Ward heirs, he had used every resource at his command to influence the Chinese government to agree to this settlement of the old claim, and

he read a confidential letter from Minister Conger in which the latter said he had to stretch his instructions and had great difficulty in bringing Prince Ching, the Chinese premier, to approve of the plan.

Through the efforts of Minister Conger and former Secretary Foster, the latter stated, the Chinese government was induced to ask the American government to sanction the payment of the claim from the Boxer funds. Chairman Hamlin and Representative Dent of the investigating committee were unable to understand what authority Secretary Hay could have diverted the Boxer funds except by an act of Congress.

"It required an act of Congress, apparently, to authorize the repayment of part of the indemnity fund to China," said Representative Dent, "and I cannot see by what authority Secretary Hay could have used the funds to pay the Ward claim."

The committee will hold no further meetings until additional facts have been secured relative to the payment of the Ward claim. The investigation is likely to go into the question of former Secretary Hay's authority to make the additional agreement with China.

THE MERITS OF JUDGE KINGSBURY

The Friend for the current month has the following deserved tribute to Judge Kingsbury of Maui:

"The Maui News of October 21 contains the address of Judge Selden B. Kingsbury of the Second Circuit Court to the grand jury at the opening of the fall term. Judge Kingsbury, from the first, took his position and worked seriously, and realized that in a country like Hawaii a single man with high ideals in a post of dignity, honor and power wields a large influence and, if wise, may be able to modify profoundly his environment. He threw himself with singular fervor into the responsibilities and duties of his office. The lawyers who were wont to use the court as a football soon found they had a master and their fooling ceased. They growled and threatened to do things, but the judge maintained his composure, held on his course unswervingly and won his fight. His court is a model of the gravity and orderly procedure that should always be associated with the administration of true justice. Conscious of the immense importance with which our modern legal system invests the office of jurymen, Judge Kingsbury revolutionized jury methods in Maui county. It has been his custom to address his grand juries publicly in order to set forth the high conception of their responsibility consonant with present day civilization. These addresses have been models. Mean-

time his court has inspired law-breakers with the conviction that even-headed justice is administered therein. It should occasion no surprise then, and be a matter for sincere congratulation to all lovers of good government that at the recent opening of term Judge Kingsbury could say, 'As far as I am judge, your present service will be comparatively easy and will require but little of your time, so that your term of employment will be short. I know of no cases demanding your investigation. To me, it seems to be a time when your county is, and for months has been, untroubled by flagrant crime.' Doubtless many causes have combined to bring about such a happy condition, but one of the most determining of these causes has been the fine public service of the Second Circuit Court Judge.

EDWIN MORGAN
United States Minister to Portugal.

TAFT NEVER KNEW HE WAS GUILTY OF BLACKEST ACT OF TYRANNY

CHICAGO, Oct. 28.—President Taft spent a busy day in Chicago. He spoke to the American Mining Congress in the morning, endorsing the speech made by Secretary of the Interior Fisher here last night; told the members of the Chicago Bar Association that he was, and expects always to be, opposed to the recall of the judiciary; rode sixty miles by special train to dedicate the new naval train station at North Chicago, and tonight addressed the Chicago Association of Commerce on peace and arbitration. Tonight he was the guest of the city at a local hotel, and tomorrow and Monday he will try to keep up with a fairly strenuous programme.

Chicago today made the President think of Washington in the midst of a session of Congress. With him most of the day were Secretary of the Navy Meyer, Secretary of the Interior Fisher, several members of the Illinois Congressional delegation and several Army and navy officers. The President came near discussing politics once when he spoke to the Chicago Bar Association. Without using his name, Taft referred to the remarks of United States Senator Clapp of Minnesota in this city recently in which the President's veto of the Arizona-New Mexico statehood bill was called "the blackest act of tyranny ever committed on a free people."

What He Did Not Know. "I knew I was guilty of a good deal," said the President, "but I never knew I was guilty of conduct that could be described by such lurid terms. I was determined that when a new State entered the Union it should start with a knowledge of some things. I was convinced that it should start with a proper appreciation of the independence of the judiciary. The people of the State may not be convinced yet, but at least they know what I think. Congress has approved my action for once and has gone further, it has passed a law directing—and this is really more like an act of blackest tyranny—the people to take back their ideas about the judiciary."

"When the territory is a State it may change its constitution to conform to its own ideas about judges, but when it obtains the results its people can't say we did not give them the warning."

"My friends are trying to gain credit

for me for my act. They have said it must have taken rare courage to veto the statehood bill. I deprecate this kind of talk. I am a lawyer and a judge, and if I had acted differently from the way I did I would have been worthy of neither title. I couldn't have done anything else but what I did."

"I wrote my veto out of my heart, and I am proud and glad I wrote it."

The President told the lawyers that he did not think criticism of the country's judges and the judicial system was justified.

Healthy Navy Timber.

At the naval training station the President watched for half an hour a drill by several hundred student sailors. The day was almost perfect. In the wig-wag drill each student pulled a red or white or yellow flag from somewhere, and when they began waving them in unison to make the letters of the alphabet the crowd of several thousand people burst into a lively cheer.

Taft dedicated the station, after Secretary of the Navy Meyer, Congressman Foss of Illinois and others had spoken.

"We are on the banks of the Great Lakes with this training school for the purpose of fitting our sailors for war," said Taft, "but I am glad to know that though this be on the border, so to speak, and within water distance of our northern neighbor, Canada, it is still for war purposes entirely in the interior. We have no forts, no forces, no navy, because we know there is no danger in that direction, and we offer that undefended border on both sides to illustrate the possibility of neighbors living in permanent amity and peace."

The President declared that the training station showed the growth of the American Navy, which no longer was recruited from the "old tars" of the city water fronts, "but from the youth, and the sterling youth of the country."

INTER-ISLAND HAPPENINGS

HILO, Nov. 9.—While there was no great showing of uproarious enthusiasm at the meeting called by the Board of Trade Monday afternoon, to consider ways and means of cleaning up the city in order to minimize the danger from yellow fever, there was a unanimous support promised the health authorities, active, by committees taking up the work, as well as moral support, both of which are absolutely necessary to make the work of ridding Hilo of the fever-carrying mosquito.

"Our friends in Honolulu are in a serious situation," said Dr. Elliot, president, in opening the meeting. "It is serious, though not alarming, owing to the strenuous measures which are being taken. These measures which the people of Honolulu have taken after the event, we ought to take before the event. The community must come to the assistance of the Board of Health, the work of which will be absolutely useless unless it does so."

Sanitary Inspector Bowman was then called on to give an outline of the measures which he proposed be taken. This he did in detail. He advised that banana trees be cut down.

Remarks of approval were made by several citizens, including Drs. Irwin and Troutman, and committees were appointed as follows: To have charge of house to house inspection, a separate district to each member, J. D. Easton, Levi Lyman, Carl Smith, R. W. Filler and C. E. Wright. On reclamation and legislation, E. N. Holmes, Judge Wise, W. H. Beers, E. F. Nichols and D. E. Metzger.

Not Exclusive Test. Deputy Attorney General Smith came to Hilo yesterday to take up the Kaiwili homesteaders' cases before Judge Parsons. He states that even if these should not be granted titles, this does not mean that all settlers elsewhere will be governed by this decision. Smith will also take up the Cabrinha ejectment case.

South Sea Trip. Sam Parker, Jr., who has been spending some little time in Honolulu, returned to this island yesterday by the Mauna Kea. He has a trip planned for next year which will take him to Tahiti and the South Seas, and he expects among others to be accompanied by John T. McCrosson and former Governor Baker.

Public Land Deals. John A. Scott returned yesterday from Honolulu, where he completed a deal with the government, selling his lot on Waiuanue street, which is needed for the Union School yard, for \$2880, or 15 cents a square foot, the valuation of the appraisers. The Mason lot will be obtained by condemnation, although it is believed there will be no opposition to the price offered, \$6500 for land and building.

The governor states that he anticipates having but little difficulty in opening the Waiakea plantation is favorable to the proposition, a representative thereof having said the land in question is worth nothing to it.

The governor has sent to Hilo for a plan of proposed streets, etc.

Land Reclamation. In all probability Hilo is due for another visitation of government officials within the next few days, as Superintendent of Public Works Marston Campbell and Territorial Secretary E. A. Mott-Smith expect to take the Mauna Kea next week for this city. They are coming up to go over the matter of filling in the low lands mauka of Front street and to settle upon a definite scheme under which this work may proceed under the provisions of the \$250,000 revolving fund act of the last legislature.

According to the reading of the revolving fund act the money may not be expended to reclaim government land. As part of the land to be filled in this city belongs to the Territorial government, a special mode of action will be taken, and it is likely that all the government land which comes under this description will be placed on sale in the near future, the purchaser agreeing to fill within a reasonable time after he has obtained title.

The Street Railway. Among the bills which will be introduced upon the opening day of the coming session of Congress, and which Delegate Kubie carried to Washington with him when he left by the Wilhelmina yesterday, was that granting a street car franchise for this city. The bill will be introduced in the form in which it passed the Territorial Legislature and is expected to go through with little difficulty, as there has been practically no opposition, save that of the Beers bill, which was killed shortly after it was brought into the Legislature. L. S. Connors expects to leave for Washington to represent his associates in the committee hearings on the street railway bill, departing from here about the first of next month and to be gone till about March 1.

The plans for the local street railway have gone ahead in good shape and as soon as the bill is passed by Congress a corporation will be organized to take over the franchise and hurry the work ahead. The fact that the first opportunity to get the bill through Congress is being taken instead of waiting for four years, the limit set by the local Legislature, is taken to mean that an early start on construction will be made. After the approval by Congress the bill requires that a bond of \$5000, to guarantee the construction of at least two miles of road within two years, shall be given the County of Hawaii.

Carnegie Library Branch. The Board of Trade delegation which visited Honolulu recently secured a promise that a branch of the Carnegie Library in Honolulu will be established here, so that Hiloites will be able to secure catalogues from which they can order books from the Honolulu institution. The same committee made tentative arrangements with Admiral Cowles to receive the fleet. It is planned to send four large vessels here, one at a time, and each to be accompanied by two torpedo boats.

(Continued on page twelve.)

HAS THE RECORD FOR HARD LUCK

TACOMA, Nov. 1.—John Deadman, an Everett veterinary, who has just been sued for divorce by his present wife, a niece of his former spouse, has, according to his friends, the hardest luck record of the Northwest.

His parents and his first wife died in quick succession. Then his brother died, and to fill his bitter cup, his little girl drank carbolic acid and also passed away.

Another child rubbed corrosive sublimate in her eyes and almost lost her sight and three weeks ago was killed by a street car. While hunting Deadman was taken for a deer by a companion and lost an eye as a result. Again on another trip he was mistaken for a deer and wounded, necessitating the amputation of a leg at the thigh.

SLIGHT IMPROVEMENT IN CONDITION OF FORBES.

WASHINGTON, Oct. 31.—A cablegram from Manila today reports a slight improvement in the condition of Governor General Cameron Forbes, who is seriously ill of complications resulting from an attack of fever.

THE WORLD'S NEWS CONDENSED

Hugh, the second son of Secretary of State Knox, is engaged to marry Miss Catherine M. Cook, the only daughter of General Anson G. Cook.

Tom Shevlin, Yale's famous football coach and captain, has been

THE FRIEND ON THE RACE ISSUE

The newspaper debate following the now famous Bystander article in the Advertiser of October 15, is one of the most hopeful indications of the new civic revival here that has yet appeared above the surface of our island life. It took bravery for the Advertiser editor to speak out boldly as he did, but he rendered a signal public service. The Star of course took the high ground everybody expected.

A lie is never right, though in moments of temptation the best of us shave the facts slightly, especially when the interests of others seem to demand it. Such momentary departures from the truth have always had justifiers. But a deliberate policy of lying can have no defenders. Now, to tell a child that he is a man and consistently therewith to put upon him a man's responsibilities is a lying policy that will ruin the nature of the child. Yet that is exactly what the United States Government has been doing with the Hawaiians ever since the passage of the Organic act. The Hawaiian was never so happy, so free, so prosperous and so healthy as under the Republic of Hawaii. He was dealt with then as a prospective man, a lad under kind, wise treatment for full

manhood honors. The Federal Government upset all this and the result is politically and socially what we see today in this Territory. The Hawaiian has lost ground. He is dying out at an alarmingly faster rate. The local government that he dominates is rotten and insufficient. It is time to call a halt.

What can be done? The best possible thing would be a return to the qualified franchise under the Republic, but the American people do not love a property qualification for voters and would probably be very loath to consent to one. It is difficult, however, with the educational test. Not a few states require of voters the ability to read and write English, and have established a fair test to determine this ability. For more than ten years Hawaiian has been an alternative language in our suffrage qualification. Is it not time now to agitate for an Organic Act amendment that shall make a good reading knowledge of English a test for the exercise of the franchise here?

The effect of this would be to tone up our public school system wonderfully and to concentrate its attention upon the acquisition not only of the English tongue, but also of a love of reading which is woefully needed in Hawaii. It would foster the opening of night schools for adult Hawaiians who cannot read English, and would stimulate their ambitions for something else than sinecure positions under the government. It would cut down the preponderant Hawaiian vote which is the cruellest weapon for self-destruction the native people now possess.

The experiment in self-government for the Hawaiian, begun eleven years ago, is a failure. Let us frankly acknowledge it. It deserves a place beside the bitter carpet-bag era in the South as one of the sad warnings of history in the realm of the voting franchise. It is not too late for the remaining Hawaiians to retrieve the blunder. Why not then organize here an English Language League whose definite purpose it shall be to induce Congress to amend the organic act so as to require under adequate safeguards—knowledge of English as a qualification for all voters? Let this not be a radical movement. Every lover of the Hawaiian people should be urged to join it. All English-speaking Hawaiians should be drawn into it. Its purpose should be to save the Hawaiian to better living, to give this Territory as clean and efficient government as the Republic had, and to prevent its becoming a mere pocket borough of powerful interests at Washington. In the name of the liberties of all as well as for the development of manhood here, let us get together and make a move for better things. The present conditions are intolerable.—The Friend for November.

POWERS PRESSED FOR REFORMS CALL THE MOB TO MURDER

Dr. David Starr Jordan, on arrival in San Francisco, uttered a few sentiments regarding his Oriental tour and his cherished peace cause which were not contained in the signed interview he kindly gave The Star. From the Chronicle's interview the following is quoted:

"The revolution in China did not start until after I was on the way home," he said. "But the Manchus will have to go. From what I have heard the rebellion is spreading like wildfire to every part of the empire. I took a run over to Korea from Japan but did not go into China, so know nothing of the local conditions there."

The Turko-Italian embroglio Dr. Jordan characterized as "the other kind of war." Having only scant knowledge of that conflict on account of spending his time studying the Japanese situation, the apostle of world-wide peace intimated that he was not surprised that the Italians had gone into Tripoli.

Reforms Forgotten in Melee. He repeated what he has often said:

"When the powers of the earth find themselves hard pressed by the people for reforms there is a call to the mob to go off somewhere to plunder and murder, for the mob is always willing to join in the hunt. And they fight until they forget what they wanted."

In regard to an episode cabled over as having happened at his lecture at Karuizawa, President Jordan made an explanation.

"My remarks about the Czar," he said, "were misinterpreted by the secretary of the Russian Embassy, who was present, and he left the hall. No crowd waited outside to hoot me or anything of that sort. The Russian came to a realization that he had misunderstood before I left the building and came to me and extended an apology."

Dr. Jordan declared his study of conditions was along economic lines and in no way political. His whole object was to discover the temper of the people in regard to war.

Restoring War Damages.

"Great strides are being made in Japan in restoring the country's agriculture, manufactures, commerce and everything that goes to make a nation contented and happy," he continued. "While I was there 3,000,000 pine trees were set out. The country had been totally deforested. In many ways the Government is helping in bringing back the prosperity that was blighted by the late war."

"I found the opinions of intelligent people in Japan in regard to war very much the same as with the same classes in the United States. There is very little of the spirit of war for war's sake in any civilized country today, and less of it in Japan than in most nations."

MANCHUS DISCARD ROBES.

AMOI, China, Oct. 28.—Revolutionary sympathy has developed to such an alarming extent here that Taotai Ching, the only high Manchus official in Amoy, today sent his family to Su-chow, the capital of the province, for protection. As a precaution, all the members of the household on their voyage northward wore the clothing of the native Chinese, discarding their Manchus robes.

IT IS A WONDER.

Chamberlain's Pain Falm is one of the most remarkable preparations yet produced for the relief of rheumatic pains and for lame back, sprains and bruises. The quick relief from pain which it affords is alone worth many times its cost. For sale by all dealers. Benson, Smith & Co., agents for Hawaii.

Purser Not Intelligence Officer.
H. A. Jerome is making his first trip as purser in the service of the Pacific Mail for five or six years, in the place of Mr. Ludvigsen, who is on leave. Those having business with the purser's office on the Mongolia, arriving from San Francisco at 8:30 this morning, found Purser Jerome anything but an intelligence officer, and the office everything but an information bureau. A trifle greater disposition to accommodate the press and the public would not be amiss in a purser who is said to have been in the service of the Pacific Mail almost since it started.

The Mongolia brought a total of 240 cabin passengers. Eight of these were for Honolulu, together with eleven through passengers stopping over here. The through passengers

number 147. For this port there are thirteen tons of cargo and 199 bags of mail.

The Mongolia will leave for the Orient at five o'clock this afternoon.

Schooner Repeat Arrives.
The schooner Repeat arrived yesterday morning from Port Ludlow. She brought about 550,000 feet of lumber for Lewers & Cooke, docking at the Bishop wharf. A pleasant and uneventful voyage is reported.

Beckenham Pays First Visit.

The collier Beckenham, twenty-three days from Newcastle, arrived early this morning and docked at the Bishop wharf. She has 6020 tons of coal for the Inter-Island. This is the first visit of the Beckenham to this port. She is owned by Watts, Watts & Co., the owners of the steamship Willenden that is now en route from Europe with a load of emigrants.

The captain of the Beckenham reports rainy and disagreeable weather all the way up from Australia. It is expected that the collier will be unloaded in about ten days.

Andrew Welch Arrives Sunday.
The bark Andrew Welch arrived yesterday with nine passengers and about two thousand tons of cargo. A pleasant voyage was experienced.

Helene and Norea Leave Today.
Today at five o'clock the Helene leaves for Papeete via other ports, and the Norea sails at the same hour on her regular run.

New Officers on Thomas.
SAN FRANCISCO, Nov. 6.—After having been laid up for a year, undergoing a complete overhauling, the United States transport Thomas will sail at noon today for the Philippine Islands, via Honolulu and Guam.

The Thomas will have as navigating officer Captain Stinson, and the army quartermaster will be Captain Campbell E. Babcock, who for the last two years has been stationed at one of the Eastern army posts.

She will carry the Fifteenth Infantry and band and a big cargo of commissary stores for the island ports, in addition to machinery and material for the fortifications on Corregidor Island and other points in the islands.

The Thomas will be the last transport to sail from the Folsom street wharf. When the next transport sails in December it will make its departure from the new transport docks at Fort Mason, at the foot of Franklin street, which have just been completed.

Latest Telegraphic News.
(Per Merchants' Exchange.)
PORT HARBOR, Nov. 10.—S. S. Santa Maria sailed for Honolulu.

SAN FRANCISCO, Nov. 11.—U. S. A. T. Logan arrived, hence November 3.

KAHULUI, Nov. 11.—Schr. M. Turner arrived, 22 days from Gray's Harbor.

HILO, Nov. 9.—Schr. Camano sailed for Puget Sound.

(By Wireless.)
S. S. MONGOLIA, Nov. 10.—Will dock at Alakea wharf at 8:30 Monday morning from San Francisco. Sail for Yokohama about 5 p. m.

S. S. LURLINE, Nov. 11.—Will dock at Matson wharf Wednesday morning early.

Thomas Perfect Ship.
San Francisco Examiner, Nov. 7.—Overhauled and practically reconstructed in nearly every detail, the transport Thomas sailed promptly at noon yesterday for the Philippines.

The Thomas has conveniences and improvements not seen either on merchant or naval vessels. One feature not included on any other ship is the installation of electric baking ovens. The accommodations for passengers and crew, the ventilating systems, the hospital and sanitary arrangements, are the best that money can afford. Taken all around, the Thomas is about as near perfect as a ship can be made. The contract with Moore & Scott for her overhauling was approximately \$600,000 and over a year has been required in her reconstruction.

Passengers Arrived.

Per Kinau from Kauai ports, November 12.—R. S. Young, J. Noble, Mrs. Ogawa, C. Hannah and nurse, F. Ventura, J. S. Marques, S. Mitsui, Mary Jacinth, Mrs. Man Sang Hong, F. Weber and wife, Miss Lulu Weber, F. A. Alexander, S. A. Keystone, C. A. Bruns, W. S. Crane, Miss E. Bishop, K. Roendahl, F. H. Hayselden, K. C. Hopper, C. B. Hall, B. H. Atwood, Miss Trumpler, F. Labenz and wife, K. Hamano, G. Shimada, Miss R. P. Kaloi, Ed. Woodward, E. G. K. Dexerill and G. H. Pang.

Per Mongolia from San Francisco, November 13.—A. Akana, Mrs. B. M. Allen, Ernest E. Behr, Mrs. J. B. Bennett, L. Blessing and wife, Miss Cecelia Blessing, W. I. Bly and wife, H. S. Callahan and wife, Miss Thelma Callahan, W. N. Campbell and wife, W. H. Chamberlin and wife, Miss Gertrude Courtright, T. H. Dowsett, A. P. Dunnebacke, John Fleming, Miss B. boats. The fleet is thus split up to prevent the overtaxing of the hoist and transportation facilities, when the officers and men go to visit the volcano.

Items.

Two small Hawaiian children were poisoned last Sunday by eating poison which had been placed under their house for rats. Yesterday the condition of the youngest, a two-year-old child, was reported to be quite serious.

Dr. Elliott, during his visit to Honolulu last week, attended a meeting of the Board of Agriculture and Forestry, at which he secured an appropriation of \$4000 for an animal quarantine station, to be built at Waikeke along the most modern lines.

Among the shipments which arrived by the American-Hawaiian steamer Isthmian, which spent one day in port last week, was a number of miles of fence wire for the Shipman ranch and a large quantity of wire rope for use at the Paloa Lumber Mill.

The Hilo Teachers' Union held a very successful annual meeting last Friday morning, at which the following officers were elected for the ensuing year: President, L. C. Lyman, vice-president, P. F. Jernigan; secretary and treasurer, A. L. Case, auditor, E. S. Capellas.

Hawaiian translations in pamphlet form, of the delegate's charges against Governor Frear and of a recent editorial published in The Star are being scattered broadcast among the natives in Kau.

Mauli Is Awakened.

WAILUKU, Nov. 10.—At the meeting of the Board of Supervisors Wednesday Dr. McConkey in a report suggested that they make all the public schools and outhouses fly proof and mosquito proof and pointed out the danger of the schools remaining in their present condition.

The supervisors through the committee on sanitation will take up the matter of a mosquito campaign for Maui with the Board of Health.

Bids were opened for building a ward at the county farm and sanitarium. Mr. Ahoe's bid of \$4113 being the only one was accepted.

Owing to lack of funds the contract for building a doctor's cottage at the sanitarium was not given out. The bid of Mr. Ahoe of \$3595 for this work was the only one received.

Puunene Starts Grinding.
Last Monday morning at about nine o'clock, in the presence of a goodly number of friends, Mr. Arthur Baldwin started the Puunene mill on its long season of grinding. Everything went off with its usual smoothness, thanks to the foresight and thoroughness of Mr. Searby, the superintendent of the mill, and his corps of efficient assistants. Only one mill was started this week. The other mill will not start until next month.

WORLD'S NEWS

called to take charge of the team for the remainder of the season.

(Correspondence of Nov. 5th and 6th)
The University of California defeated the Olympic Rugby football team 60-0. Stanford was defeated by British Columbia 6-5.

Princeton defeated Harvard in a hotly contested football game by a score of 8 to 6. This was the first time in fifteen years these two universities had met on the gridiron.

The University of Chicago was defeated by the University of Minnesota football team 30-0. Yale won from New York University 28-3.

A strange Connecticut man wrote Taft asking him to endorse a three-year promissory note, because he wanted Taft's name, because he needed the money, and because he thought it was more manly to get help that way.

A revolutionary outbreak occurred at Mazatlan, Mexico, which was started by small boys attacking Chinese. The whole city administration was demoralized until troops arrived and restored order.

There has been a tremendous influx of crooks into San Francisco and the police are taking unusual precautions to guard the town.

Colonel Alfred Reynolds, Twenty-second Infantry, will retire from active service on March next, after more than forty-one year's service.

The State of California having been bitten by a cement trust has brought suit for damages. The plot against the state was discovered when a supposed "independent" repudiated his contract.

Governor Hay of Washington announces that he is opposed to a special session of the legislature to enact a law providing for the direct election of delegates to national conventions.

A memorial to cost \$600,000 is to be erected at Put-in-Bay, Ohio, to commemorate Perry's victory on the Great Lakes. The memorial will be a lofty monument, with a museum at the base, standing in a 14-acre reservation. French race courses are introducing a new way of judging close finish-

es of horse races. Photographs are taken, the first horse crossing the line breaking a cord that operates the camera.

A spy has caused a sensation in the tinetmost German army circles by stealing a secret recently perfected carbine, which had been successfully used in several trials.

Signora Marconi, the Irish wife of the Italian wireless inventor, has been honored at the Italian court by being appointed lady-in-waiting to Queen Helena. It is reported that Marconi will be given a title.

German statistics show that there are over 7000 persons in Europe who have passed the century mark. Bulgaria has nearly 3000 centenarians, and Roumania 1000.

Pressure has been brought to bear on King George and Queen Mary to abandon the Indian Durbar on account of the danger of death at the hands of fanatics. The King and Queen have decided to proceed, however.

C. P. Rodgers, aviator, swept into Pasadena yesterday, finishing his flight from the Atlantic to the Pacific Ocean. He was greeted by 20,000 people. He flew 4231 miles in 4921 minutes actual sailing time.

Mrs. Charles M. Schwab, wife of the steel magnate, ran down and killed a small boy with her auto. The accident occurred at Mauchelunk, Pa., and Mrs. Schwab is prostrated.

Dr. F. A. Cook, the "pole discoverer," has decided to become a farmer and will raise wheat in Washington. He has decided to make his future home near Walla Walla.

The British steamship Coltie King arrived in San Francisco yesterday after a four days' battle with fire in her hold, a result of spontaneous combustion in her cargo of coal.

A "land magnate" who swindled people in San Jose, Cal., has been discovered to be one of the famous Mah-ran gang of confidence men, whom the police have searched every state in the Union to find.

Sir William Winslow, the British admiral in Chinese waters, has urged that the powers send more troops to Hankow and surrounding territory in order to properly protect foreign rights and persons.

The Porte has asked the United States to intervene in the strife with Italy in Tripoli. The Turkish ambassador has been instructed to lay the matter before Secretary Knox and President Taft.

A violent hurricane raging off the British Isles has done considerable damage to shipping and caused many wrecks.

The Young Chinese of San Francisco held a great banquet and celebration yesterday to acclaim the new republic of Chung Hwa. Many Americans attended the ceremonies.

The Canadian Collieries, a very large and powerful Canadian coal concern, headed by Sir William Mackenzie, is to enter the San Francisco field this winter.

General William Henry Pratt, a famous Californian and forty-niner, has just died in San Francisco. He was on the first steamer that came through the Golden Gate, bringing adventurers to the newly discovered gold fields.

The steamer Clyde of the Reid Newfoundland line, is reported ashore at the entrance to Little Bay on the Newfoundland coast. A British cruiser has been sent to her assistance.

John Waldorf Astor, Jr., and other Englishmen have received the most severe condemnation by the London press for the alleged mismanagement of Guy's Hospital in London.

The Moroccan treaty has had a pacific effect on French and German conditions as well as on general European politics.

One hundred workmen in Pennsylvania railroad shops at Indianapolis have joined together to form a co-operative buying club in an endeavor to reduce the cost of living.

A flock of wild geese ten miles in length recently flew through Southern California headed south. Los Angeles has generally claimed that only those were "geese" who headed north—from Los Angeles.

It is said that the present court of King George and Queen Mary is the most English one ever known. The waster, the prodigal and the plutocrat are conspicuous by their absence.

Melvin Vaniman, formerly a Honolulu photographer, made a trial flight at Atlantic City, of his dirigible balloon Akron in which he expects to sail across the Atlantic. A fall ended a spectacular flight. No one was injured and the dirigible was not seriously injured.

James M. Schley Jr., nephew of the late Admiral Schley, was recently married at New Haven, Conn. He eloped with a widow.

A California league of women has been formed which will start work at once for the recall of the suffrage amendment. Petitions are being prepared and an active campaign started. Leaders are confident that the equal rights amendment can be repealed.

Negotiations have been entered into looking toward the purchase of the Home Telephone Company of California by the Bell Telephone Company, the "trust." The Home phone is the automatic, no-central phone. The company is strongly entrenched in Southern California and in San Francisco. Newspaper correspondents with the

Italian army in Tripoli have handed in their resignations as a result of the unpalatable and barbarous treatment of non-combatant Arabs by the Italian army. The latter is conducting a war of extermination, which includes cruelties, women and children.

A small boy tried to steal an aeroplane from a factory near Vallejo, Cal. No one saw him go up, but quite a crowd saw him come down. He dropped fifty feet, was unharmed, no shedded for home.

Nine of San Francisco's leading plumbing jobbing firms are being investigated by the government. These firms are accused of restraining trade in violation of the Sherman anti-trust act.

The president of Boston University has statistics based on the history of 15,000 eminent Americans that the high school youth has 500 per cent. advantage over the boy who quits with a grammar school education, and that the college graduate has 700 chances to one against the youth of the common schools.

Twenty men were buried in the wreck of an enormous concrete bridge being constructed over the American River in California. The largest concrete span collapsed.

IN THE UNITED STATES DISTRICT COURT FOR THE TERRITORY OF HAWAII.
THE UNITED STATES, Plaintiff, vs THE BOARD OF THE HAWAIIAN EVANGELICAL ASSOCIATION, et al., Defendants.

Action brought in said District Court, and the Petition filed in the office of the Clerk of said District Court, in Honolulu.

THE PRESIDENT OF THE UNITED STATES, GREETING:

THE BOARD OF THE HAWAIIAN EVANGELICAL ASSOCIATION, a corporation existing and doing business under and by virtue of the laws of the Territory of Hawaii; J. K. PINANE, L. L. JOSEPH, JONAH KAWIAEA, S. K. PUPUHI and H. K. KAALAKEA, as Trustees of the KIPAHUAT PROTESTANT CHURCH; THE KIPAHUAT SUGAR COMPANY, a corporation existing and doing business under and by virtue of the laws of the Territory of Hawaii; KAMELE OPIO; SAM KAKAU; MALIA PALAPALA, widow of KANAKAAUKAI, deceased; SAM PALAPALA; KANAKAAUKAI, KAHONAHOLE, KEALOHA NUI ANNE, whose full name is unknown and MARY KUPIHEA, heirs at law of KANAKAAUKAI, deceased; DAVID BROWN, HENRY SMITH, JANE BLACK and MARTHA GREEN, unknown heirs at law of KANAKAAUKAI, deceased; DAVID KUPIHEA; J. HACKFELD and COMPANY, LIMITED, a corporation existing and doing business under and by virtue of the laws of the Territory of Hawaii; ISAAC T. HARBOTTLE; MARY K. HARBOTTLE; WILLIAM HARBOTTLE; DAVID H. HARBOTTLE; JAMES HARBOTTLE; FREDERICK KLAMP; AGNES G. KLAMP, wife of FREDERICK KLAMP; JOSEPH WHITE, WILLIAM DAVIS, HELEN JOHNSON and JULIA ROBERTS, unknown heirs at law of HUALALANI, deceased; THE TERRITORY OF HAWAII; and JAMES THOMPSON, JOHN GRAY, HENRY STONE, ELIZABETH STONE, MARY STILES and MARTHA STILES, unknown owners and claimants;

You are hereby directed to appear and answer the Petition in an action entitled as above, brought against you in the United States District Court, for the Territory of Hawaii, within twenty days from and after service upon you of a certified copy of Plaintiff's Petition herein, together with a certified copy of this Summons.

And you are hereby notified that unless you appear and answer as above required, the said Plaintiff will take judgment of condemnation of the lands described in the Petition herein and for any other relief demanded in the Petition.

WITNESS THE HONORABLE SANFORD B. DOLE and THE HONORABLE CHARLES F. CUMMINS, Judges of said District Court, this 30th day of June, in the year of our Lord one thousand nine hundred and eleven and of the independence of the United States the one hundred and thirty-fifth.

(Sgd.) A. E. MURPHY, Clerk.

(Seal) (Endorsed)

No. 77. UNITED STATES DISTRICT COURT, for the Territory of Hawaii, THE UNITED STATES OF AMERICA vs. THE BOARD OF THE HAWAIIAN EVANGELICAL ASSOCIATION, et al. SUMMONS. ROBERT W. BRECKONS, United States Attorney.

THE UNITED STATES OF AMERICA, Territory of Hawaii, City of Honolulu, ss.

I, A. E. MURPHY, Clerk of the United States District Court for the Territory and District of Hawaii, do hereby certify the foregoing to be a full, true and correct copy of the original Summons in the case of THE UNITED STATES OF AMERICA vs. THE BOARD OF THE HAWAIIAN EVANGELICAL ASSOCIATION, et al., as the same remains of record and on file in the office of the Clerk of said Court.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of said District Court this 29th day of June, A. D. 1911.

A. E. MURPHY, Clerk of United States District Court, Territory of Hawaii.
