AT SEA AS TO LEGISLATION.

(Special Correspondence of THE INDE-
PENDENT, by Charles A. Edwards.)

WASHINGTON, D. C., Sept. 12:

The republican leaders are all at sea and absolutely unable to agree on what legislation is necessary by the coming Congress. President Roosevelt demands that the Cuban reciprocity treaty must first be attended to, and says he will call an extra session of Congress for that purpose. The republican leaders in the Senate are all opposed to reciprocity legislation, and Senators Aldrich, Platt, Depew, Hanna, Quay and Spooner have all advised him not to call an extra session this fall, and they all opposed to his policy. There is a like division of sentiment on the necessity for financial legislation, and even those who desire a change in the law are hopelessly divided on the scope of the alterations that should be made. On the trust question the President has declared for publicity, but he is powerful slow in putting it into operation, and a majority of the republican leaders are letting well enough alone, so anti-trust legislation will be at a standstill. There are a respectable minority of the party in power who believe in some sort of tariff changes, and who are being pressed by their constituents to that end, but they will not meet with any success, unless they work in harmony with the Democrats, which they will not do, and the most of them are talking only to fool the voters of the country. The republican politicians are also at loggerheads over the Panama canal question. Many of the leaders are controlled by the transcontinental railroads of the country, and really do not want any canal, while others favor the Nicaragua route, and in consequence there has been nothing done, and won't be during the next session.

One thing they always unite upon, and that is "the old flag and an appropriation," official graft and plenty of loot for themselves and their political strikers.

The Republican leaders pretend to be unanimous for the nomination of Roosevelt, yet more than half of them are opposed to him. The cohesive power of public plunder holds them together, but long-headed men like Root and Quay know that the end is near and are leaving the rat-infested ship. There is a universal unrest, and even the chief of the prophets, if in the flesh, could not predict what the present Republican president or the coming Republican congress will do. The Democratic troubles are infinitesimal compared to the Republican factional disagreements.

Every Democrat is united upon opposition to trusts, upon tariff reform, upon equal taxation and upon equal rights to all and special privileges to none, and that is the winning platform.

It has been the opinion of the majority of mankind that there was very little difference between tweedledum and tweedledee, but it seems there is considerable difference so far as this Republican administration is concerned. For instance: Several months ago divers military and naval officers stationed in Porto Rico were charged with smuggling—not only charged with it, but caught "with the goods," to use the slang of the day. The officers themselves did not deny it. The United States district attorney of Porto Rico, at the request of the collector of customs, instituted prosecutions against the official smugglers. The case was perfectly plain and the re-

STAY AND FIGHT.

Taking the present political status into consideration, the outlook seems brighter, to our conception, for the Democratic party to wedge in. THE INDEPENDENT is of the opinion that the party ought not to recede one step backwards, providing it sees a clear way, from its present attitude of taking part in the arena of our county politics, particularly with regard to this island of Oahu.

There is no mistaking the position of the Democratic party—that it holds the balance of power. It is also a well-known fact that it is at the present time in the minority, and being in that position, it rightly earns the above distinction claimed by us. It further has in its ranks men of well-known probity and integrity in all the different walks of life and it can produce good material from which to make choices for places. But before making any undue haste, it must weigh well the proposition that we are about to take before making any rash movement of active participation; yet we would advise to "take time by the forelock" with regard to the ways and means of going into the field. And when it has so weighed the proposition well, then it will be time to "strike the iron while it is hot."

Since the more stronger parties have both nominated full tickets and that much dissatisfaction has appeared over the horizon in consequence, we think there is yet some chance left with the minority to enter the battle field and make a fight. When the Republicans made their nominations, many of the rank and file became disgruntled over the

nominees. Then hope was centered in the Hawaiian party that it would do better, either by affiliation with or endorsement of nominees of the Democratic party; but this hope has been forever blasted and thrown to the winds by its taking up with flaked recruits from either of the National parties and it still remains today a nondescript, mongrel non-entity, a monstrosity and a preposterous misfit. The majority of the Home Rule nominees are incompetents, although they are of our own people, none of whom can command the assistance of any self-respecting elector. Democrats can and do command the respect and confidence of a large section of the people, be they Home Rulers or Republicans, and it is up to them to consider the demands of having good and competent men rule the future destiny of this county, i. e., men tried and true, and are moreover capable and trustworthy.

Now to our proposition, which is, that we propose and suggest to the Democratic party to make a decided stand for political preferment. The opportunity has been thrown at them, which is one in its existence here, and it is for it to grasp at such an opportunity. It is well known that there is no probable chance for it to gain the victory, but a possibility may occur by some "hook or crook" which may give it the full victory or partially. There is no telling what may happen, provided good material is put forward. The rumbling from those who are disgruntled indicates such a probable occurrence, leading towards such a possible victory. No harm will be done if an attempt is made.

Having now made our proposition and given the main reason why the suggestion should be received and, if need be, adopted, we are more than confident that not one Democrat will be returned, and it is well for them to count defeat as being already assured as a foregone conclusion; but there is a likelihood, aye, a possibility as well as a probability of gaining one or more of the now elective offices. Why? Because Democrats have the material.

We may not be taken seriously, but we are nevertheless earnest in the suggestion. An attempt should be made, if it is only an attempt,—and then finally—make a fight for it.

TOPICS OF THE DAY.

What has become of Immigration Commissioner Lansing? If he don't get around and have a few boom articles published in the Advertiser, as in E. M. Boyd, we will be forced to surmise that he is doing his work properly.

The despatches have it that Captain Richmond P. Hobson contemplates running for Congress in his native State. Has he not had enough? He sunk the Merrimac, which was all right; but when he begins to show designs on the Alabama it is about time for the police whistles to blow.

If Joe Millett wins over Ruhlin in the big fight at San Francisco on October 22 he will be the second pugilist to get his start in Honolulu. Tom Sharkey was an unknown until he cleaned up Rough Thompson and everything else here. When he got to the Coast, however, the gates to the ring were ajar to him. It has

been much the same with Millett, although Millett is a more promising man than Sharkey ever aspired, with any good reason, to be.

The Star was mistaken in its report that the Democrats would meet Monday evening for the purpose of requesting their candidates to retire from the field. In the first place, there will be no meeting of Democrats at the time stated, and in the second place, it is the intention of the candidates to remain in the field. It is also the intention, as far as we can gather, of the party to back them up to the limit.

It appears after all that the Geo. R. Carter resolution was before the Republican Convention on Kauai but encountered a death-dealing blizzard at the very outset. And Kauai probably the banner missionary county, too! The miserable failure of this gubernatorial resolution in all the counties save west Hawaii is certainly not a cause for jubilation in the Carter camp. In fact the summary squelching of so small a thing as a complimentary endorsement should convince the Republicans of the Islands that Mr. Carter is not a popular man.

Secretary Carter's cablegram, published elsewhere, indicates that money is not as easy in the east as had been represented. However, when it is known that only about half of the bonds are to be issued in the next few months, competition of a useful sort may spring up. If the bonds are to be issued at all, no effort should be spared to place them away from home, and despite the dull times, New York and the other big cities in that locality present the most promising field of which we are acquainted. No great trouble should be encountered in placing the first issue at 98 or more, if Mr. Carter will let go on football and boat-racing long enough to attend to the business.

BY AUTHORITY.

Do Your Joints Pain You?

A slight indefinite pain in the joints is the first sign of Rheumatism. Then come the aching pains and tenderness, the agonizing cramps, the fever and restlessness that characterize this disease.

When you feel the first slight pain, begin to take Dr. Williams' Pink Pills for Pale People, and the progress of the disease will be arrested. Neglect this and you will regret it.

Dr. Williams' Pink Pills for Pale People are a Positive and Permanent Cure for Rheumatism.

This remedy expels impurities from the blood, and supplies the material for rapidly rebuilding wasted nerve tissues. It has performed hundreds of almost miraculous cures in severe cases of Rheumatism, many times after doctors had given up hope. Read this sworn statement:

"In 1890 I was taken with rheumatism, which began in my hips and gradually spread throughout my body. For two years and a half I was confined to my bed; employed nine of the best physicians in Albany, and two specialists from New York city. They all declared my case hopeless, and finally told me that I had but six weeks to live. I told them to take their medicine away; that if I were to die I should take no more of the stuff.

My niece, who through her friends knew of the good results attending the use of Dr. Williams' Pink Pills for Pale People, strongly recommended them. She procured the pills and by the time I had used the first box I felt hungry. Having had no appetite for a long time, I knew that the pills were doing me good. I continued their use, and after taking several boxes was able to leave my bed and go about with the use of crutches. I weighed but 139 pounds. As my normal weight is about 250 pounds, you can see how run down I had become during my sickness. After taking thirteen boxes of the pills I was weighed again, and although less than a year had passed I weighed 207 pounds. I continued the use of the pills and finally was able to abandon the crutches altogether, and am now as well as ever."

Strike at Honolulu.
The strike of Japanese at Honolulu plantation yesterday was due to a refusal of the management to accede to a demand for the guarantee of a flat wage of \$20 a month. It seems that the men had been working on a profit-sharing plan, but their returns had proved greatly less than they had expected. When Manager Low refused to sanction the guarantee about 500 men quit work, and these tried to get the salary men to do likewise but without success. In the afternoon mounted police were despatched to the scene to prevent disorder. Subsequently the Japanese vice consul arrived and a conference, to which the case was referred for arbitration, was formed. The matter is now being sifted by this council.

sult would have been in no doubt had the case gone to trial. It did not go to trial, however. Paremp-tory orders came from the Depart-ment of Justice at Washington to discontinue the prosecution, and when the federal judge at San Juan undertook to appoint a special prosecutor to take charge of the cases he too was warned off and told it would be better for his official scalp not to get too busy. The whole affair was dropped. But things seem to be different over in our Philippine possessions. At least, the cable brings the intelligence that Captain Henry B Chamberlain has been tried by the court of custom and sentenced to pay a fine of \$5000 for smuggling, though the articles smuggled were addressed to "prominent military officers and their families," resident at Manila. There was no hulabaloo at Washing-ton. No orders went out to "smother" the case against Captain Cham-berlain. He takes his medicine. It would be interesting to know why this difference 'twixt Porto Rican tweedledum and Philippine tweedledee. At a venture it might be surmised that there are no senatorial sons-in-law in the smuggling business at Manila.
