MORMON CHURCH DEFIED

SENATOR CANNON EXCORIATES APOSTLES.

Accuses Smith, Grant and Others of the Hierarchy of Polygamy—A Sensational Speech.

SALT LAKE, February 9.—The most notable, as well as the most sensational address ever delivered by a Utah orator, interested in the fact that Senator Cannon at the Salt Lake theater tonight. His subject was "Senatorial Candidates and Polygamy." The big Mormon church and both of whom are espousing the senatorial aspirations of A. W. McCune.

The address of Senator Cannon was provoked by the action of the Woman's Republican club in adopting resolutions demanding his resignation on account of alleged immorality. Mr. Cannon charges, and it is publicly believed, that Ex-Senator Brown, whose wife is prominent in the Woman's Republican club, and Apostles Smith and Grant, instigated the resolutions.

In his address, Senator Cannon charged Senatorial Candidates A. W. McCune with having purchased the influence of Smith and Grant. In support of his assertion he read a letter written by Grant to a member of the church, in which the election of McCune was urged, upon the ground that McCune's alleged wife, strengthened him (Grant) financially. Cannon also charged Smith and Grant with being polygamists and anxious to restore old conditions in the state.

In the same connection Senator Cannon declared that he cared nothing for re-election, but that he was flying into the face of powerful churchmen had killed his chances. He was determined, however, to warn the people of the danger that confronted them. Continuing, he said that Apostle Grant had pursued him for ten years, and he therefore proposed to expose the apostle's villainy in attempting to sell a United States senatorship and bring disgrace upon the state.

"If I fall," said Senator Cannon, "I will take others with me." Apostles Smith and Grant were both present. Senator Cannon picked them out and directed his most scathing denunciations to them personally.

As Senator Cannon concluded, the band struck up America, and Apostle Heber J. Grant arose in the rear of the house to reply. People began to hiss and cry "sit down." Senator Cannon then advanced to footlights, and after waiting until order was restored said:

"Herber J. Grant, you cannot speak in this house tonight. You can speak in the holy tabernacles of the state, to which you have access, and I will answer you; but you cannot speak here. For ten long years you have hounded me within the sacred precincts of an organization in which I should have had something to say, but tonight I have been forced to own the theater in order that I might fling your iniquities into your own teeth."

Such a scene as followed this declaration was never before witnessed in this city. After Grant, abject and overwhelmed, had been hissed down, quiet was restored and the senator dismissed the meeting.

It is generally predicted that Senator Cannon's arraignment of Smith and Grant will cause serious trouble in the Mormon church. As to the effect upon the senatorial situation, that is, of course, problematical.

VICTORIES AT CALOOCAN

UNITED STATES TROOPS DRIVE BACK FILIPINOS.

Aguinaldo Once More Gives Battle and Suffers Defeat—Brilliant Work Both by Fleet and Army.

NEW YORK, February 10.—A cable to the Sun from Manila, dated February 10, 7:25 p. m., says: Victory has once more rested on American arms and the town of Calococan, which was undoubtedly the strongest rebel position in the island of Luzon, is ours. The place was not won without a struggle. For the past few days Aguinaldo, the rebel leader, has been doing everything in his power to draw supporters to his banner in order that he might attempt to retrieve the disaster which befell his followers when they opened the attack on the Americans, and to regain the prestige that he has lost through defeat. The rebels had regained some of their courage and for three hours they held their position. Then they could no longer stand the American fire and abandoned their fortifications.

NAVY OPENS BATTLE.

The plan for the attack on the place provided that the war ships should open the ball. At 2:30 o'clock, therefore, the monitor Monadnock and the gunboat Concord, which had been ordered to the bay by Admiral Dewey, opened fire on the town. Their shells did much damage, in addition to making the rebels very uncomfortable. At the time that the war ships began shelling the Sixth Artillery and Utah Battery opened fire on the rebel intrenchments on the inland sides of the town.

THE TROOPS ADVANCE.

The artillery and war ships pounded away until 4 o'clock, when orders were given for General Harrison Otis to lead the Pennsylvania regiment, which was held in reserve, to move on the enemy's works. The men had been impatiently waiting orders, and as the word passed down the line they responded with cheers. The movement was made in the following order: First, the Twenty-third Kansas, Third Artillery, the Twenty-second Kansas and First Montana being supported by the First Idaho Infantry and the Third Artillery by the Fourth Cavalry.

Not a single rebel was made until they reached the intrenchments, from which most of the natives had hastily scrambled as the Americans drew near. The former were attempting to make way with all speed to the shelter afforded by the town, but scores of them failed to reach their goal, being stopped by American bullets.

BRILLIANT FLANK MOVEMENT.

Just at this time the enemy was thrown into worse confusion by the discovery that they had been flanked. A company of the First Montana Infantry, which was ordered to move from left to right, Twenty-third Kansas, Third Artillery, the Twenty-second Kansas and First Montana being supported by the First Idaho Infantry and the Third Artillery by the Fourth Cavalry.

Not a single rebel was made until they reached the intrenchments, from which most of the natives had hastily scrambled as the Americans drew near. The former were attempting to make way with all speed to the shelter afforded by the town, but scores of them failed to reach their goal, being stopped by American bullets.

TOWN CAPTURED.

After the capture of the town it was found that the warships had made the place too hot for the natives and they had abandoned this position without a struggle.

The losses of the Americans were slight, but the enemy lost heavily in killed and wounded. Most of the casualties to the Filipinos were caused by shrapnel and the screaming and awful effect of which caused terror among the natives.

Among the Americans wounded is Colonel Bruce Walker of the First Montana Infantry.

After the Americans were in possession of the town it was found that there was only one house in town that had a flagstaff. This belonged to Mr. Higgins, an Englishman, who is president of the Dagupan railway. He loaned the staff to General Otis, and at 5:30 o'clock the American flag was waving over the town. Its appearance was greeted with enthusiastic cheering by the troops.

The insurgent troops were massing to the support of Aguinaldo's forces at Calococan and Malabon when the fighting began. It was reported this morning that there were 6,000 rebels at the two places, among them being the famous Seventy-third Filipino regiment, which, in the last rebellion, killed their Spanish officers and then deserted to Aguinaldo.

Aguinaldo himself is at Maricao, making desperate attempts to reorganize his demoralized forces.

He cannot go to Malabon, as by so doing he would again expose his army to attack from the war ships, which could easily get within range of that place. It is likely that he will move up the valley in the direction of Malolos, which constituted the capital of the so-called Philippine republic.

ALWAYS THE BEST.

On every steamer Camarinos receives fresh goods from the Coast. His facilities at the Coast for securing the best on the market cannot be excelled. As for Hawaiian fruits and vegetables, he is fortunate in having a plantation of his own. Inter Collegiate Baseball Series to Begin This Afternoon—Cricket—Sail Around Oahu.

The first game of baseball in the inter-collegiate league will be played on the grounds at Makiki this afternoon, beginning at 3:30 sharp. Kamehameha school and Punahou college will cross bats at that time. Both teams are in the very best of shape. There will be five games in the series.

This afternoon there will be a match game of cricket on the old baseball grounds between the officers of the cricket club and the members of the same. Friends are invited to be present. If there is a holiday next Wednesday, then H. Davies & Co.'s team will play the Honolulu at the same place. It now appears that all of Wednesday will be taken by the government, pro forma, and that business houses will close at noon, at least.

All of the city ball teams will begin practice in earnest next week. With the Engineers four teams are in this year. A meeting will be held during the week to arrange for the schedule. It will not be possible now to begin the season until well along in April, perhaps about the 15th.

It is feared that the attempt of the Engineers to put in a baseball team is a mistake. Of course all are anxious for them to play ball, but the doubt about the corps remaining here until next September would seem to throw a damper on the project. If the soldiers should run down the weather, it would be a sad disappointment to their friends and admirers to have them pull out before the finish.

Yachtsmen are just now waiting for the weather to settle to begin the new season. One of the schemes planned for the first cruise of the weather is to sail around the Island of Oahu by a fleet of as many yachts as will go in. Most of the principal yacht owners have signified their willingness to enter. The sail will interest not only the sportsmen but the city generally.

Medal shooting in Company D, N. G. H. is going on a close. The prizes are gold, silver and bronze, of handsome design and finish, the backs of which are made from a piece of one of the old N. G. H. cannon. It will be several days before the victors can be announced. Company B, N. G. H., will have a series of medal shooting with this week.

The announcement yesterday that the tennis tournament would begin on May 10th has awakened new interest in this popular sport. Practice will begin at once on all the courts and will be kept up with zeal. An incentive will be the splendid opportunity this year to win laurels. There are several places at the top to be occupied by some of the players.

HOW TO PREVENT PNEUMONIA.

In a recent letter from Washington, D. C., to an old friend, Major G. A. Studer, for twenty years United States Consul at Singapore, says: "While at Des Moines I became acquainted with a liniment known as Chamberlain's Pain Balm, which I found excellent against rheumatism as well as against soreness of the throat and chest (giving me much easier breathing). I had a touch of pneumonia early this week, and two applications freely applied to the throat and chest relieved me of it at once. I would not be without it for anything." MID-OCEAN MAIL TRANSFER

HONOLULU AT THE CROSS ROADS OF THE PACIFIC.

Postal Changes Which Shortens Mail Time Between the States and the Australian Colonies.

Honolulu is the only mid-ocean mail transfer point in the world. The San Francisco Examiner of February 16th tells of a postal change which shortens the mail time between San Francisco and Australia four days.

This important change, says the Examiner, which was suggested to the department by Postmaster Montague, is authorized by a letter received from R. M. Brooke, superintendent of foreign mails of the department. The first mail to be accelerated by the new change will be carried from this city on the steamer Australia.

The change, although so important in its results, was of very easy accomplishment. It consisted simply in authorizing and arranging for the transfer of mails at Honolulu. It makes of Honolulu the only mid-ocean transfer point in the world.

T. J. Ford, the superintendent of the mails in the city, talked very freely of the change.

The gain in time is easily explained. The two steamship lines, which carry the mails between Australia and New Zealand and the Canadian-Australian, San Francisco is a terminus of the former and Vancouver of the latter, and both are subsidized by the New Zealand government.

Those two companies have alternated in carrying the mails from this coast. If, for instance, an Oceanic steamer carrying mail started from here today the next mail would be carried two days from now from Vancouver by a Canadian-Australian boat.

When the mail started from here the people of San Francisco and vicinity were all right; when it started from Vancouver they were four or five days wrong. As it takes four days to carry the mail from here to Vancouver, letters from here were necessarily four days more in reaching their destination than they would have been could they have gone direct. If a boat were leaving Vancouver on the 20th for instance, no mail for it could be received here for it after the 16th. After that it would have to wait for the next mail steamer leaving here.

Now, the change is simply this. We are authorized to send mail from here by any outgoing steamer up to any date when it can catch the Vancouver steamer at Honolulu. There we are authorized to transfer the mails to the mail steamer to Australia or New Zealand by sending his letters this way.

It is believed that the government may secure a dock for mail transfer purposes at Honolulu.

LECTURE POSTPONED.

On account of a mishap to the stereopticon the illustrated lecture of Colonel Whyte on the Klondike, appointed for the Y. M. C. A. this evening, has been postponed to a date to be later announced.

EVANGELIST YATMAN.

Rev. C. H. Yatman, who will be remembered as having held a series of meetings here in the Y. M. C. A. hall, about two years ago, will again visit Honolulu, and will reach here on the 26th of this month. Services will be held daily in the First Methodist church, corner of Beretania and Miller streets, until March 16th. Mr. Yatman has a world wide reputation as an evangelist and his many friends here will be glad to welcome him again.

RESEARCH CLUB.

There was a fair attendance last evening of members at the meeting of the Young Men's Research club, held at the residence of Mr. G. H. H. Kincaid in Nuuanu valley. Percy Pond delivered the address of the evening, taking for his subject, "Vocations and Avocations." Other speakers were Rev. V. H. Morgan and H. S. Townsend.

THE ORPHEUM.

The Dead Witness will be staged at the Orpheum theater this evening. This play has enjoyed popularity and a long run in America and Europe and there is no reason why it should not please. It will bring out all the factors of a life study of perfecting the Singer sewing machine. The curtain will rise at 8:15 sharp.

POINTS OF MERIT.

Strong, durable, easy running, simple attachments, all the result of constant study for many years, of men who have made a life study of perfecting the Singer sewing machine. With few equals, it has no superior, and is so well as low as any other first class sewing machine. Buy a Singer and you take no chances. If you doubt our word, ask your neighbor who has been using a Singer for the past ten or twenty years. For sale by B. Bergerson, agent, Bethel street.

ELEGANT EMBROIDERIES.

The embroideries to be placed on sale at the N. S. Sachs Dry Goods Co.'s on Monday and following days will create a furor. No such values have ever been offered before. The prices range from 5 cents per yard up.

One of the chief advantages of the PERFECTION PRESERVING PAINT is its FIREPROOF qualities.

REAL FACTS.

The prices L. B. Kerr has placed upon the balance of his bankrupt stock are not profit prices, but cost, and below. He has determined to close out this importation in the next thirty days regardless of cost. By calling at his Queen street store his customers will find this to be a real fact.

THREE DECISIONS FILED

SUPREME COURT DECIDES OLD CIVIL MATTERS.

Macfarlane Suit Against Wilder in Favor of Defendant—Harry Saylor Labeled Defendant.

The supreme court today handed down a decision in the matter of Emile Macfarlane vs. Elizabeth K. Wilder and C. L. Wight, ejectment, overruling the exceptions of plaintiff, thus supporting the verdict of the circuit judge.

Another decision filed was Theo. Hoffman vs. J. S. Bailey, assumption of office, overruling the exceptions of plaintiff and finding for defendant, sustaining the decision of the circuit judge. This is a suit for \$22.50.

In the case of Harry R. Saylor vs. the Hawaiian Star Newspaper Association, Limited, damages, the supreme court today filed a decision overruling exceptions of defendant corporation, on the ground that it was moved before the trial judge that the objectionable testimony be stricken out. In concluding the court professes a claim to the effect that the verdict was within the province of the jury with this remark: "We wish to remark that the verdict for \$500 damages seems large to us, considering the prompt correction made and the fact that the obnoxious item was a pure mistake of fact." This morning defendant preferred a writ of error, which contains this clause:

"That only ten of the twelve jurors in said case gave their assent to said verdict."

Which, it is claimed, is contrary to the constitution of the United States. The papers are now out for service. In the circuit court this morning the motion of Malda, sentenced to imprisonment for life for a crime committed at Ewa, motion for a new trial was overruled. Exceptions and appeal.

NEW ENTERPRISE.

CLEARED.

Am. brig. W. G. Irwin, E. A. Williams, 9:74 Bagg sugar, valued at \$41,784.

POLLITZ AND ONOMEA.

On the Basis of \$20 Shares \$42 Per Share is Bid.

Advices from the coast are that Edward Pollitz has not yet disposed of the Onomea shares purchased while here a short time ago. He is waiting until permission is given by the government to the company to reduce the par value of its shares from \$100 to \$20 and the number of shares from 10,000 to 50,000. The cabinet will consider the matter on Monday. Representatives of Brewer & Co., and Castle & Cooke, who own a majority of the stock will present the matter to the cabinet.

MILITARY ELECTIONS.

Captain J. M. Camara, Jr., First Lieutenant J. Costa and Second Lieutenant J. A. Gonsalves were elected last evening to succeed themselves as officers of Company G, N. G. H. Captain John Schaefer conducted the election.

At 7:30 Monday evening Company H will elect a first lieutenant to succeed Lieutenant Carlisle, resigned.

ARRIVED BY THE COPTIC.

Charles A. Pimental, a first class artist, arrived by the Coptic, and will take one of the chairs in the Union Barber shop. Mr. Pimental has the reputation of being one of the best workmen on the coast and comes to Honolulu very highly recommended. The proprietor of the Union knows that in addition to fine furniture it is necessary to have the best workmen to make a popular shop, and he is sparing no expense in order to secure workmen who will give satisfaction.

Mr. Pimental is a brother of L. H. Pimental, who has been in Mr. Pacheco's employ for some time, and who has given entire satisfaction.

NEW LAWS FOR HAWAII.
Report on Extending the Contract Labor Laws to the Islands.

WASHINGTON, February 10.—Senator Kyle of the Senate Committee on Education and Labor has decided to report favorably at once the House bill providing for the extension of the contract labor laws of this country to Hawaii. This measure was rushed through the lower body and will be brought before the Senate immediately. At the same time Senator Fairbanks, chairman of the Immigration Committee, has ready for report Perkins' bill extending the Chinese exclusion and contract labor laws, and both bills will reach the Senate tomorrow or Monday.

NOTICE.

In the Circuit Court of the First Judicial Circuit, Republic of Hawaii. In Admiralty.
W. Smith, et al. vs. The Steamship "City of Columbia," her boats, boilers, engines, tackle, apparel and furniture.

To A. M. Brown, Esq., Marshal of the Republic of Hawaii.
Greeting: Whereas under a venditioni exponas, issued by this Court on the 17th day of January, A. D. 1899, you were directed and commanded to sell at public auction on the 16th day of January, A. D. 1899, the steamship "City of Columbia," her boats, boilers, engines, apparel and furniture, at the upset price of \$23,465.62. And whereas your return and report of your proceedings had under said venditioni exponas, shows that on the 16th day of January, A. D. 1899, at the hour of 12 o'clock noon of said day, you did offer said "City of Columbia," her boats, boilers, engines, tackle, apparel and furniture, for sale at public auction at the upset price of \$23,465.62. And whereas said report shows that there were no bidders and no sale of said steamship "City of Columbia," her boats, boilers, engines, tackle, apparel and furniture at that time.

Now therefore, by order of said Court, you are further commanded and directed to sell said steamship "City of Columbia," her boats, boilers, engines, tackle, apparel and furniture, at public auction, at the Station House, Kalaikaua Hale, in the District of Honolulu, Island of Oahu, Hawaiian Islands, on the 21st day of February, A. D. 1899, at the hour of 12 o'clock noon of said day, without reserve, to the highest bidder for cash, after having first given ten days notice of such sale by advertising in the Pacific Commercial Advertiser and Hawaiian Star, newspapers published daily (except Sundays) in the District of Honolulu. And further you are commanded before making sale of said vessel as aforesaid to advertise the sale thereof in the cities of San Francisco, California; Portland, Oregon; Seattle, Washington; and any other cities of the United States on or near the Pacific Coast, as in your judgment seems to be proper, said advertisements to be so timed as to allow bidders from said cities of the United States to appear and be at said auction as aforesaid. And you are further ordered and commanded that immediately after the said sale as aforesaid, you have and pay the money arising from the same pursuant to this order, to Henry Smith, Clerk of the Judiciary Department of the Hawaiian Islands, with an account of your charges and expenses, and have you then and there this writ, with your return thereon.

Witness, the Honorable A. Perry, First Judge of the Circuit Court of the First Judicial Circuit of the Republic of Hawaii, this 24th day of January, A. D. 1899.
(Sig.) A. PERRY,
First Judge of the Circuit Court of the First Judicial Circuit.
Attest:
(Seal.) P. D. KELLETT, Clerk.

By virtue of the above writ to me issued on the 24th day of January, A. D. 1899, I will sell at Public Auction, at the Station House, Kalaikaua Hale, in the District of Honolulu, Island of Oahu, Hawaiian Islands, to the highest bidder, at 12 o'clock noon of Tuesday, the 21st day of February, A. D. 1899, the steamship "City of Columbia," her boats, boilers, engines, tackle, apparel and furniture.
A. M. BROWN,
Marshal Hawaiian Islands.

HONOLULU WILL BE THE NEXT
ORDERED TO SURRENDER ON THE 10TH OF FEBRUARY.
Ample Force to Occupy the Town—The Baltimore, Boston and Petrel Will Take a Hand.

NEW YORK, February 9.—A Sun's Washington special says: The scene of official interest in the Philippines has changed from Manila to Iloilo, nearly 300 miles distant, where instructions sent by Major General Otis to Brigadier General Miller, the American commander there, are carried out, the town and its defenses will be in the possession of the United States forces or else be undergoing a bombardment from two or three warships and a battery of artillery before this dispatch is published. It is said in the Sun this morning that General Otis has sent some important news concerning Iloilo, and that it was regarded as certain that he had instructed General Miller to demand the surrender of the place and if the demands were refused to take it by force. The confirmation of this understanding was obtained today. In a dispatch received by the war department from General Otis yesterday, he said that he had sent directions to General Miller to make a demand on the leaders of the Panay insurgents, now in possession of the town and forts to surrender that place to the American forces by 9 o'clock on Friday, February 10th. If the demand had not been complied with by that time the bombardment of the town and forts was to begin immediately. There is no wire communication between Iloilo and Manila or any other place, and it will be several days before news of the outcome of General Miller's demand can be received by General Otis, who will, of course, immediately telegraph his advice to the war department. The First Tennessee regiment has been dispatched on a transport to Iloilo to reinforce General Miller, who, when they arrive will have a land force of 2,500 men. No apprehensions as to the result of a conflict with the rebels is apprehended, as the warships alone have a complete command of the Filipino entrenchments. The troops at Iloilo are the Eighteenth regulars, First Tennessee and Sixth regular artillery. The ships are the Baltimore, Boston and Petrel.

NO MESSAGE FROM HIM.

Otis Sends a Reply to Aguinaldo About Peace.

MANILA, February 9.—A number of Filipino leaders have visited General Otis under flags of truce for the purpose of making overtures for a settlement of the present trouble. They were received by the general but his manner was chilling. The deputations were talkative and dwelt upon the situation from a Filipino point of view but had absolutely nothing to offer as a basis for settlement. They pressed General Otis for a declaration of some kind as to what the Filipinos must concede in order to secure peace, but his answer dashed their hopes of abating any terms that would prove beneficial to the enemy. "Tell Aguinaldo," said General Otis, "that I have no message for him," which ended the interview. Those who know General Otis say that his meaning is that if Aguinaldo wishes to end the trouble, he will have to treat personally for it and make a complete submission.

TRANS PACIFIC CABLE.
President Sends Message to Congress and Suggests Two Plans.
WASHINGTON, February 10.—President McKinley has addressed a special message to congress urging immediate action on some means of securing cable communication between the United States, Hawaii, Guam and the Philippines. It is pointed out that the cable must either be laid by private capital or by the government of the United States. The President does not advise congress as to which plan it should adopt, but insists that the paramount interests of the country are all on the side of action at the present session, which ends March 4th. The message points out that a route to Honolulu has already been surveyed, but that time will have to be taken to survey the route of the cable from the Hawaiian Islands to Guam and the Philippine Islands. The result of the message cannot be other than that the matter will be taken up at once, and that some cable scheme will be the result is equally certain.

SATURDAY, FEBRUARY 18, 1899.

General Egan is said to be on his way here. It is safe to say that his progress across the mainland will not be accompanied by bands of music, nor will be the stations be filled with admiring crowds.

The fate of Andree and his companions may after all find solution, before Prince Luigi of Savoy reaches Franz Josef Land for the purpose of attacking the north pole. According to report Andree has slept his last sleep on those bleak and inhospitable shores of Northern Siberia, where the Jeanette crew also found their graves. The Russian government will investigate the matter thoroughly, and if this proves to be Andree it will carefully bring back all relics of the unfortunate scientist, no matter what the cost may be.

In the Samoan matter nothing will be done until the conduct of the various officials, representing the three powers, has been thoroughly investigated. Each side has its own version of the affair, and added to this there has been considerable ex parte statement published from correspondents. All the flying rumors of a little port have been caught and forwarded to the press, and it is very difficult to know what is the truth and what is not. There will have to be considerable sifting when Admiral Kautz reaches the islands.

General Otis has had an excellent opportunity in the Philippines and has proved himself an able commander and a skillful diplomat. It is curious what chances the Philippines have given to both sea and land forces. The forcing of Manila bay and the destruction of Montojo's fleet was the most brilliant affair of the early part of the war, not even being eclipsed by the marvelous destruction of the Spanish fleet off Santiago, which in itself will go down as almost unique in history. The fall of Manila, the repulse of the night attack by Aguinaldo's troops, and their ultimate defeat and rout, add laurels to the land forces. The Philippines have tested the skill of the officers and the morale of the troops better than any other portion of the campaign.

Now that the President has put the absolute necessity of a trans-Pacific cable before Congress, we may look for a speedy inception of that great undertaking, and may feel assured that Hawaii will soon be linked to the mainland by the electric current. Though Congress is no subservient body simply to do the will of the President, the arguments in favor of trans-Pacific communication under the absolute control of the United States are unanswerable, and the indicated policy of the President is sure to be backed by almost the full strength of the party vote, and there will be found some Democrats who, on a question of policy of this kind, will support the executive in a policy necessary to the safety of the outposts of the republic.

CIVILIZED VENEER.

The true nature of semi-civilized men like Aguinaldo is being thoroughly learned by the Americans in the Philippines. Men of his stamp acquire the veneer of civilization, they have none of the solidity of true civilization, it is merely skin deep. Such men, and we have known cases here, make a good appearance, have a smattering of books and science and can talk volubly and, to those who do not see through them, convincingly.

The lack of balance soon shows itself when responsibility is called forth. Such men miscalculate their own strength and their own ability, and when they find themselves beaten at their own game they are ready to sue in the most abject manner from the people they have defied. As long as things go smoothly such men may hold important positions and never be found out, but once let the ship of state get into the breakers and they are all adrift.

The trouble with Aguinaldo has been what is commonly called big head. He displayed polish and intelligence, he had the trickiness of both races, intensified by the cross in blood, and was taken by a large number of people at his own value. He certainly imposed upon Consul Pratt at Singapore and he did upon others. Equally is it certain that he never imposed upon Admiral Dewey. That veteran treated him civilly, but made no recognition of him, and was feared in consequence.

During the debate upon the peace treaty in Congress and during the peace negotiations in Paris he was sharp enough to see that there was a difference of opinion about the fate of the Philippines. He wanted things to come his way, and that was to get rid of any control and enter upon a period of crime and revenge. He kept up an

uneasy feeling and issued theatrical manifestoes in order to try and win sympathy for his supposed cause. When the vote for ratifying the treaty was near at hand he thought that a show of fighting might win him sympathizers in Congress. As it turned out, it lost him sympathizers.

His action was an act of crass folly because he made an attack upon the Americans in their own territory. There was no doubt about the right of the Americans to Manila, whatever might be their right to Iloilo or other parts of the Philippines, until the peace treaty was signed. Once that treaty of peace was signed the rights of Spain passed to the United States and the latter would be at liberty to make whatever arrangements it pleased about the government of the Islands even to the extent of recognizing Aguinaldo's so called government, and giving it protection.

In stead of waiting, where he had everything to gain and nothing to lose, he deliberately put himself in the wrong by attacking, treacherously, the Americans in their own intrincments. His act has politically killed him, and he never can hope for recognition in any form. He has sacrificed the lives of many of his countrymen to his over-estimate of his own ambition and greatness.

The real object of that night attack was to get a chance to murder the inhabitants of Manila and to loot the town. The looting of Manila and the accompanying reign of blood and lust is what Aguinaldo and his ragged troops have been aching for for many months. They have not succeeded and they never will. Aguinaldo will always keep a mugwump following in the United States, but the common sense of the nation will value him at what he is, and that is a weak, semi-civilized and worthless mestizo, puffed up with pride like a frog.

ON CREMATION.

The subject of a crematory is receiving considerable attention from a large number of people. It is surprising how many people approve of the use of this method of disposing of the dead. Naturally there are those who feel strongly prejudiced, but their number is by no means as large or as influential as one would at first suppose. Two of the city newspapers favor the plan of establishing a crematory, and with the strong feeling expressed by the citizens who are in favor of it, something may be done. One gentleman, speaking of the matter yesterday, said he was ready to put up a thousand dollars towards it.

Without going into details it is understood that a good, up-to-date crematory can be put up for fifteen thousand dollars. This of course would not include the cost of the land. But for a building of this character no very great extent of land is needed. Another advantage is that such a building could be erected within easy reach of town, and the expense, which is a matter of considerable moment would be by no means as great as the cost of funerals by the present method.

There are advantages, as is true, but the main advantage lies in the sanitary one. Burial has caused thousands, nay millions of deaths. We are ever seeking to minimize the danger from the presence of cemeteries in our midst. At the present moment this is one of the considerations occupying the minds of the executive, of the Board of Health and of a large number of our citizens. At the risk of great inconvenience to the public, the effort is being made, and with justice from a sanitary point of view, to put the location as far away as possible. As things are now a cemetery is regarded very much as a plague spot. There are no such fears about a crematory. It is absolutely without danger to the health of the living, and it is the most cleanly and satisfactory way of disposing of the dead.

YOU AND YOUR WORK.

We are all the time hearing men, and women, too, talk like this. "My work is too much for me; it worries me and wears me out; it upsets me so I can hardly eat, drink or sleep;" and so on. Once in a while, no doubt, that is so; but, commonly, it is not, their work that is too much for them, but their poor health, their weakness. They are out of sorts in any one or more of a hundred ways. Condensed, the idea is this: Bad Digestion, Thin Blood, Loss of Strength and, perhaps, Flesh, Tendency to fret and worry over small things, Lack of Courage to attend to details and face risks, etc. In two words, *low vitality*. What is needed is a short course of

WAMPOLE'S

PREPARATION,

of the nutritive properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and Extracts of Malt and Wild Cherry Bark. Palatable as honey, it drives out disease germs and makes the blood rich, red and full of constant elements. You grow warm, strong and elastic; and soon find you are enough, and to spare, for any business. Unlike worthless relics of a dead medicinal past, the preparation does not boast of its age; but of its excellence. The sick who use it keep step with the march of progress, and get well. You cannot be out pointed in it. Sold by chemists.

The Saddles made by the old natives of the Hawaiian Islands were considered the best and most comfortable ever made. They have been eagerly sought after and there are very few now in existence. It is claimed that there are only two old natives now living who have the ability to make a perfectly comfortable saddle tree. One of these is on the island of Hawaii and the other on Kauai. Unfortunately they are too far advanced in years to do much work.

For a long time we have been making efforts to find a saddle that would nearly compare with the old Hawaiian Saddle, and we have struck it in an importation of

Mexican Saddles

They are almost an exact reproduction of the Hawaiian Saddle and are very handsomely stamped. The prices vary from \$25 to \$40 each and they are made to last a lifetime with proper care.

Every saddle has Box Stirrups and are complete in every particular.

Attention is also called to a line of

Tie Ropes

in Cotton and Manila. They have very handy snaps on the ends and are reasonable in price.

This week thus far I have sold six of the Pawaa Tract Lots. It will not be long before they are all sold. The exceptional terms at which I offer them certainly justifies their purchase by those who do not own their own homes.

Think for a moment. Is there any land you can purchase at any price near the amount asked for these Lots—in such close proximity to the car lines, being on King street and also facing on Beretania street? Size: 75x140; within a district built up with fine residences and within a few months the new Electric Car Lines will be surrounding the property on all sides.

The Resident Locality must move this way.

The terms are \$250 Cash. Balance on time to suit purchasers. Don't lose further time. GO TO-DAY and see the Lots. If you can't go send your wife. You must have a home of your own some time.

HARRIS TELLS HIS STORY

KNOWS NOTHING OF MATTIE WYCKOFF'S DISAPPEARANCE.

Has Been Acquainted With the Family for Years—Told the Brothers All He Knew.

The San Francisco papers of February 11, contain articles charging the disappearance of Mattie Wyckoff, and Louise Garcia, aged 14 and 15 years respectively, to Boatwain Harris of the Australia.

The girls left their homes on the evening of February 6th, and had not returned at the time of the publication of the matter.

Harris was seen aboard the Australia this morning and gives a very straightforward account of his connection with the matter. He says he has long known the Wyckoff family and has frequently called on them and taken members of the family, Mattie among others, to the theater. He had called on the family Monday evening, as is stated in the San Francisco papers. There was another caller there at the same time. In the course of the general conversation, Mattie said she had a date for the evening. This statement was heard by her mother and other members of the family. A little later Harris asked Mattie if she would like to go to the theater. She said she would, and with her mother's permission they started. Half a block from Mattie's home they met the Garcia girl, whom Harris did not know. Then Mattie said she was not going to the theater, but was going to keep her date, and that she and the Garcia girl were going to the Steeplechase, near Eighth and Market streets, but asked Harris to tell any members of her family if they asked that they had gone to the Chutes.

The next day Mattie's brother asked him where he went with Mattie, and complying with her request he told him to the Chutes. But when he learned that she had not returned home he told her brother all the circumstances. These he repeated to her father and other brother when they inquired. The contradictions as to places upon which so much stress is laid by the San Francisco papers, are only apparent contradictions.

HANSEN AND KALAUOKA. Nolle Prosequi Entered in Cases of the Two Men.

In the police court this morning Attorney General Smith entered a nolle prosequi in the case of J. Hansen and John Kalauoka, the two men arrested in connection with the big haul of opium near Diamond Head and charged with importing the same.

This action was unexpected by some of the court spectators. The explanation, however, is plain: Hansen and Kalauoka were arrested on the bosom of the emerald sea, that the poets whistle about. In the middle distance were some floaters, beneath which was a quantity of opium. Hansen and Kalauoka were not hanging on to the floaters nor the opium, and in fact, were not close enough to touch or, in legal terms, "possess" it.

There are the facts in the nutshell. One old native, D. K. Kahaoka by name, was ready to swear that he had been told that the opium belonged to Hansen and Kalauoka. Against his testimony was that of the two men themselves—or two for one. The result was plain to the Attorney General and the course stated was adopted.

PRIMITIVE HORSESHOES. Curious Methods for Saving the Hoofs of the Equines.

In Japan most of the horses are shod with straw. Even the clumsiest of the cart horses wear straw shoes, which, in their cases, are tied around the ankles with straw rope, and are made of the ordinary rice straw, braided as form a sole for the foot about half an inch thick. These soles cost about one cent a pair.

In Iceland horses are shod with the sheep's horn. In the valleys of Upper Oxus the antlers of the mountain deer are used for the same purpose, the shoes being fastened with horn pins.

In the Sudan the horses are shod with socks made of camel's skin. In Australia horseshoes are often made out of cowhide.

A German not long ago invented a horseshoe of paper, made by saturating with oil, turpentine and other ingredients. Thin layers of such paper are glued on the hoof till the requisite thickness is obtained, and the shoes thus made are durable and impenetrable to moisture.

Facts About Health

It is Easy to Keep Well If We Know How

Some of the Conditions Necessary to Perfect Health.

The importance of maintaining good health is easily understood, and it is really a simple matter if we take a correct view of the conditions required. In perfect health the stomach promptly digests food, and thus prepares nourishment. The blood is employed to carry this nourishment to the organs, nerves, muscles and tissues which need it. The first great essential for good health, therefore, is pure, rich blood. Now it is certainly a fact that no medicine has such

A Record of Cures

as Hood's Sarsaparilla. It is literally true that there are hundreds of people alive and well today who would have been in their graves had they not taken Hood's Sarsaparilla. It is depended upon as a family medicine and general regulator of the system by tens of thousands of people. This is because Hood's Sarsaparilla makes the blood pure. This is the secret of its great success. Keep your system in good health by keeping your blood pure with Hood's Sarsaparilla, which absolutely cures when other medicines fail.

"I had pimples on my face and a large boil on one hand. I began taking Hood's Sarsaparilla and after using three bottles I was cured." J. W. JOHNSON, 3 South Broderick St., San Francisco, Cal.

IS THIS ANDREE'S FATE?

REMAINS BELIEVED TO BE HIS
FOUND IN SIBERIA.

Story of the Daring Expedition in
Search of the North Pole—The La-
test Information.

KRASNOEARSK, Siberia, February
10.—A gold mine owner named Mon-
astyrskhin has received a letter say-
ing that a Timur peninsula, North Si-
beria, recently informed the Russian
chief of police of the district that on
January 7 last, between Komo and Pit,
in the province of Yeniseisk, they
found a cabin constructed of cloth and
cordage, apparently belonging to a
balloon. Close by were the bodies of
three men, the head of one badly
crushed. Around them were a num-
ber of instruments, the uses of which
were not understood by the Turgesos.
The police chief has started for the
spot to investigate. It is believed that
the bodies are those of the aeronaut,
Herr Andree, and his companions.

The balloon Eagle, with Professor
Andree and Frankel in the car, left
Danee Island, of the Spitzbergen
group, on July 11, 1897, in an attempt
to cross the north polar point. No
definite news of the aeronauts has
been received beyond the message, at-
tributed to a carrier pigeon, found by
the whaling ship Falken, which ar-
rived at Copenhagen on September 2,
the message read: "July 13, 12:30 p.
m., latitude 82.02 north, longitude
12.05 east. Good voyage eastward. All
well."

The balloon in which Professor An-
dree sailed away was built much after
the fashion of other balloons. It had
one distinctive feature. That was a
strong guide rope which served two
essential purposes. It held the bal-
loon at a uniform height and so pre-
vented the gas from being diminished
by expansion and overflow. It also
served as a keel to the floating vessel,
which was equipped with three large
and easily worked sails.

With the aid of the keel the balloon
could drift before the wind at an angle
to the general direction. This gave
the explorer the advantage of not be-
ing at the complete mercy of every
shift in the upper current and enable
him to hold his course or an approxi-
mate course. Andree counted upon a
speed of from twelve to fifteen miles
an hour. At this rate he should have
reached the Pole in about one week,
the only necessity being a constant
and favorable wind.

If the report of the finding of the
dead bodies and the remains of a bal-
loon on Timor peninsula be correct,
the balloon moved only a little north
and then took a course northeast to
the extreme northern point of Siberia.

SAMOAN MATTER.
British Intimation that Mataafa May
Yet Be Recognized.

WASHINGTON, February 10.—The
Samoaian trouble is assuming a some-
what new phase, according to the view
of leading diplomatic authorities, and
one likely to bring about an adjust-
ment on lines heretofore not contem-
plated. This is, in part, foreshadowed
in the official statement of the Parlia-
mentary Secretary in the House of
Commons yesterday to the effect that
further information would be awaited
before considering the recognition of
Mataafa as King of Samoa.

Mataafa is not the claimant who has
thus far received the support of the
British and American authorities, as
they upheld Malietoa Tanu, who had
been declared by Chief Justice Cham-
bers, an American, as rightfully en-
titled to the throne. While the an-
nouncement in the House of Commons
is open to various interpretations, yet
it seemed to indicate clearly that the
recognition of Mataafa, who was up-
held by the Germans, may be taken
into consideration.

NICARAGUA CANAL.

Hepburn of the Commerce Committee

ment to the sundry civil bill before
that measure is passed by the House,
his bill providing for the construction
of the Nicaragua canal by the Govern-
ment. He gave notice of his intention
today.

SIGNED THE PEACE TREATY.
President McKinley Performs the Last
Act in Ratification.

WASHINGTON, February 10.—The
treaty of peace, as ratified by the
Senate, was signed by the President
and Secretary Hay at 3:35 o'clock this
afternoon in the library of the execu-
tive mansion.

There was little formality observed,
although a number of persons were
present by invitation of the Presi-
dent. While signing the document the
President sat at the round table in
the center of the library. The cere-
mony occupied only a few minutes,
and at its conclusion Secretary Hay
replaced the document in its emson
safety case and took it to the State De-
partment for transmission to Madrid.

Permanency of Shape.

Is an important item in the sum that goes to make up good clothes. Loss of original shape is responsible for many a customer lost.

The feature of the clothes bearing this label

is Permanency of Shape, which lasts as long as the clothes will wear.

The lapels and front of coat are "hand welded" so thoroughly as to make facing and outside wear like one thickness.

Examine STRIN-BLOCH clothes for this feature.

A SMALL FIRE.
An alarm about 10 o'clock this morning took the fire department to the corner of King and Kekaulike streets, in Chinatown. Smoke was issuing from the roof of a small house in rear of the Armstrong building. The blaze was extinguished without trouble and before any considerable damage had been done.
The fire was in the midst of a cluster of small wooden houses, and had it really gotten started there may have been a great deal of damage.

KODAKS.
You are told that "there is no Kodak but the Eastman Kodak." We handle only Eastman Kodaks. Their goods are a guarantee of quality. We have them from \$5 to \$35, and whether you buy the lowest priced instrument or the highest, they will be found just as representative. Kodaks make the best of Holiday Presents, acceptable to either sex.

FILMS.
Eastman Films are good Films. That is the reason we handle them exclusively. You will always find our Films fresh, and fresh Films insure the best work.

Developing and Printing.
Many amateurs enjoy the work of developing and printing. There are others who have not the time or inclination to do the work themselves. We make a specialty of this branch of the Kodak business. Our customers are kind enough to say we turn out better work than they get elsewhere. We take pride in this department of our business. Every Film developed carefully. If our photographer finds you are making mistakes he will correct you. That's a very important advantage. Let us show you what we can do.
