BREAKWATER BIDS HUNG UP FOREMOST LEPPER EXPERT TO WORK

Kahului R. R. Is Under Fire

Contractors Refuse To Bid On Breakwater And Score Baldwin Road

"We therefore make this our protest against awarding a contract for breakwater construction at Kahului, Maui, T. H., on the ground that the Kahului Railroad Company which will be most benefited by the construction of the breakwater, has declined to place the bidding for the work on a competitive basis and seeks to obtain the advertised work for itself at its own price.

"On the further ground that the Kahului Railroad Company is a railway corporation and can not within the U. S. interstate commerce act bid upon Federal work which involves carrying stone used in the work over its own line."—Extract from Lord-Young company's letter of protest.

"I would further say that the Kahului Railroad Company will be a bidder for the entire work of the breakwater construction at Kahului under Federal appropriation therefor, and consequently we are not disposed to make bids for part of the work to third parties at this time."—Extract from H. P. Baldwin's letter to Lord-Young Engineering Company.

Prominent contractors of the Territory figure in a sensation that was sprung this morning at the office of Maj. E. E. Winslow, of the U. S. Engineer's office. When bids were opened at 11 o'clock for breakwater construction at Kahului and Hilo, the usual routine was broken by protests from the Lord-Young Engineering Company and the Morgan Dredging Company, both of this city, against the Kahului Railroad.

The protests, formally set forth in typewritten communications to Maj. Winslow, declare that the Kahului construction work should not be awarded under the circumstances, that the Kahului Railroad has practically forced the other firms out of the competition, and that the road is not in a position to bid anyway.

Both the Hilo and Kahului breakwater bids were opened, and it was the latter that is under protest. There were three bids for the Hilo work but it is significant, as bearing on the claims of the protesting parties, that there was only one bid for the

breakwater construction at Kahului, and that was from the Kahului Railroad Company itself.

The Lord-Young Engineering Company submitted with its communication a copy of a letter from the railroad company signed by H. P. Baldwin, of Maui, president and general manager, who refused to give competitors a rate for hauling rock to the breakwater site, as well as a previous letter from the engineering company to Mr. Baldwin, which had brought forth the unfavorable answer.

The Morgan Dredging Company's letter of protest was signed by John Beiser, and in a general way similar to that of the Lord-Young Company. The letters submitted by the Lord-Young Company are given below. J. N. Williams, superintendent of the Kahului Railroad represented his company at the meeting.

The Hilo Bids.

The three bids for the Hilo work were from the Lord-Young Company, Delbert E. Metzger, the well-known

U. S. COMMISSIONER JUDD DECIDES THAT CHINESE ACTRESS IS NOT LABORER

An actress is not a laborer in the opinion of United States Commissioner Albert Judd and, accordingly, Mok Soey Ying, will not be deported as an alien laborer not entitled to remain within the jurisdiction of the United States.

Commissioner Judd rendered a decision this morning and it disposes of rather a fine legal point involving the construction of the immigration law that is enforced against subjects of the Celestial Empire not within a specified exempted class.

In the course of his decision Judd holds that Mok Soey Ying has shown

affirmately that she has been a resident of the United States for a period of ten years. The question at issue was whether the defendant having also established the fact of being an actress, was sufficient to save her from deportation.

In the course of his decision Judd says: "The United States contends that as a matter of law in deportation cases the defendant to entitle her to remain in the United States has to show not only that she is not a person of Chinese descent, and not a laborer, but

STRAIGHT TICKET TALKS

GOVERNOR FREAR—I have expressed my views on the Republican ticket already in a letter to A. L. C. Atkinson, chairman of the Republican Territorial central committee. The ticket is a good one and entitled to full support for every candidate on it.

ATTORNEY-GENERAL LINDSAY—I will vote the straight Republican ticket. It stands for everything that is progressive and a benefit to the country, and will receive my undivided support at the polls.

COLONEL J. H. SOPER—The straight Republican ticket deserves the heartiest support this year. It is a good ticket, carefully selected, and ought to appeal to the business man.

FRENCH STRIKE CLARK FACES ALLEGED BRIBER APPARENTLY BROKEN CHARGE OF CONTEMPT INDICTED IN NEW YORK

(Associated Press Cable.)

PARIS, France, Oct. 14.—The backbone of the strike that has tied up practically the whole of France is apparently broken. The strikers still continue a little guerrilla warfare, but the prompt action of the authorities in arresting five of the leaders yesterday seems to have disheartened them, and it is anticipated that there will shortly be a cessation of actual hostilities.

A bomb was exploded in the street last night and another was found today before it went off. Apparently attempts were made to destroy railway property.

ROOSEVELT OPENS THE CAMPAIGN

(Associated Press Cable.)
DUNKIRK, N. Y., Oct. 14.—Colonel Roosevelt today opened the Republican campaign in this State. There was a large gathering from the surrounding districts to hear the first political shot fired in the coming struggle.

STEAMERS COLLIDE; MANY DROWNED

(Associated Press Cable.)
STNAZARE, Oct. 14.—The steamship Ville De Rocheford was sunk today in a collision with the steamer Peveril. Twenty-three persons were drowned.

BOY GAMBLERS ARE ARRESTED

Chief of Detectives McDuffie has had several complaints made to him about the way some of the youngsters at the schools have become addicted to gambling. The alluring game of "7-11" seems to attract the kids more than anything else, and as the practice is spreading, the teachers decided to get the chief to visit the schools and scare the boys.

Accordingly McDuffie and Kellett went through the rooms at one school and, pausing in front of several of the culprits, stared very hard at them. The boys looked very frightened, and it was thought that the lesson would be sufficient.

However, this morning one of the teachers visited McDuffie and told him that several of the boys were worse than ever. This made the chief mad and he at once sent an officer to the school and had the ringleader arrested.

The boy has already been admitted to probation by Judge Whitney, and unless he very quickly turns over a new leaf it will be his fate to be sent to the Reform School. The lad is well connected, and his brother was this morning told to give the lad a lecture and to put the fear of the law into him.

No man or woman with something the public wants can afford to pass by just such an opportunity. The cost is too low and the possibilities too great to let the chance go by default. Be among the increased number that will tomorrow exploit the unusual things that characterize Honolulu's desires and endeavor. No columns have been watched with more genuine interest than these—and that is to your advantage. It costs but one cent a word to use the classified ad. columns.

Grand Jury Asks Cooper To Make Accused Clerk Answer Questions.

PETITION MADE TO JUDGE THIS AFTERNOON

Refuses to Throw Light On Police Court Transactions and Inquisitors Seek Aid of Court.

Application by the Territorial grand jury for a citation for contempt against Henry Clark was made this afternoon to Circuit Judge Cooper, it being stated that Clark had refused to answer questions in the grand jury room bearing upon the checks that figure in the police court fund charges.

It is stated that Clark has refused repeatedly to make reply to queries propounded to him by City and County Attorney Cathcart in connection with the Andrade checks, and the power of the court will be asked to compel him to throw some light on the transactions which form the basis of the charge that has been lodged against him.

It will be for Judge Cooper to decide whether the questions asked could be answered by Clark without incriminating himself. If Judge Cooper decides that he must answer, Clark will make reply to the queries or go to jail.

It now seems certain that no legal proceedings will be instituted against Andrade, the probability being that the grand jury will simply decide on a vote of censure.

TWO VACANCIES NOW EXISTING

One Man Doing All Police Court Office Work— Crawford Busy.

Now that two men of the police court office—Henry Clark and Ben Zablan—are under suspension, the one man left is having a hard time to keep up with the work. Ed Crawford is doing three men's work at present, and, besides acting as record clerk, has to be cashier and bookkeeper as well.

Crawford is also Hawaiian interpreter, and at times he has to act in that capacity and keep a record of the depositions as the evidence is given in the court.

Deputy Auditor James Lloyd is now going through the books of the sheriff's office, and he was this morning busily engaged in counting cash and ticking off entries.

Just who will be appointed to hold down the positions vacated by Clark and Zablan is not at present known. Some appointments will have to be made very soon, as Crawford has more to do than one man can cope with. It is probable that in the general shake-up Crawford will be promoted a step or two.

SECRETARY MEYER INSPECTS NAVY YARD

(Associated Press Cable.)
VALLEJO, Cal., Oct. 14.—Secretary of the Navy Meyer today inspected the navy yard at Mare Island. He departed later for San Francisco, where he will attend a grand banquet to be given in his honor.

ALASKA VOLCANO IN VIOLENT ERUPTION

(Special Bulletin Cable.)
SEWARD, Alaska, Oct. 14.—News has been received here that the volcano of Bogoslov, on the island of Bogoslov, is in violent eruption. Bogoslov is one of the many volcanic islands off the Alaska coast.

NORTH COAST OF EUROPE STORM SWEEPED

(Associated Press Cable.)
ST. PETERSBURG, Russia, Oct. 14.—A great hurricane broke over the Baltic Sea and North Atlantic Ocean last night, and the result is scores of wrecks of large and small boats and the loss of hundreds of lives.

It is the worst storm of years and the sea is still exacting its toll of men and vessels. Almost hourly reports are coming in of the awful effects of the hurricane.

ENGLISH SHIPPING IS SUFFERING ALSO

(Associated Press Cable.)
LONDON, Oct. 14.—Great loss is reported here from the storm which has swept Great Britain and the northern coast of Europe. The big shipping firms will sustain an immense loss, and the number of lives lost so far has not even been estimated.

SMALL GIRL IS RUN DOWN BY WAGON

Chinese Is Arrested For Heedless Driving—Girl In Hospital.

This afternoon at 2 o'clock a small Hawaiian girl who was returning home from school was run down by a Chinese who was driving a wagon. The accident happened at the corner of Punchbowl and King streets, and the girl sustained an injury to her leg.

As soon as the telephone message announcing the affair reached the police station, Chief McDuffie jumped into the police auto and went to the scene of the accident, where he found the Chinaman and the parents of the child. The girl was at once taken to the Queen's Hospital and was treated for the injury. The Chinese was arrested and taken to the police station and charged with heedless driving. He will have to appear in court tomorrow morning.

Yesterday afternoon an automobile ran down a soldier cyclist at the corner of Hotel and Fort street. The wheel was broken up, but the rider escaped injury. No report was turned into the police station, and it is presumed that the chauffeur paid for the damage done to the bicycle.

books for sale at the Bulletin office, 50c each.

Moses T. Clegg To Study Leper

Man Who First Propagated Disease Bacillus On Great Mission

The first man in the world who propagated successfully the bacillus of leprosy, Moses T. Clegg, arrived in Honolulu this morning from Manila on the Tenyo Maru and will begin at once assisting Dr. Donald Currie in his work.

Mr. Clegg made his first success in growing the bacillus in the laboratory of the Bureau of Science in Manila after four years of continuous effort, and he is the man to whom the medical profession pays homage in succeeding where others have failed for so many years.

The man who has thus succeeded is slight, of a retiring disposition and far from ready to talk about his great success to strangers.

He has been in the Philippines for nearly ten years, as a bacteriologist. He first went to the islands with the military, attached to the medical department of the United States Army, and after leaving the army medical service was appointed to the civil service in the Bureau of Science, and for nearly a decade has worked in the well-equipped laboratory of the bureau on Calle Heran, in the city of Manila.

PRINCE KUHIO BACK FROM SUCCESSFUL CAMPAIGNING ON BIG ISLAND AND MAUI

Prince Kuhio, candidate for reelection as Delegate to Congress on the Republican ticket, arrived in Honolulu this morning on the Mauna Loa from a successful campaigning tour of Maui and Hawaii. His political mission was encouraging in every respect.

The Delegate encountered one difficulty in his campaign, and that was a tendency to regard the administration of the land laws as adverse to the interests of the Hawaiians. He says that it looks to him as if the blame for the laws and their administration has been laid at his door instead of at the doors of the Governor and Superintendent Campbell. He was obliged to defend the Governor and the Land Commissioner repeatedly.

In many instances the Delegate was shown numerous letters, signed officially by J. W. Pratt, as land commissioner, and by Marston Campbell, the present chief of the land office. These letters, the Delegate said, contained phrases which nettled the Hawaiian applicants.

Next Monday or Tuesday the Delegate will go to Kaula. He will be accompanied by able campaigners such as Stephen Desha and a few others. W. C. Achi will in all probability go along with the prince.

MR. DAMON TALKS HAWAII HISTORY

Tells New York Sun Reporter a Few Facts About These Islands.

Hon. S. M. Damon was interviewed by a New York Sun reporter while he was in New York, and what was published in the Sun follows:

Some of us do not get a chance to play so many parts as Samuel M. Damon, who arrived at the Manhattan yesterday. Mr. Damon is a banker who was once minister of finance in the cabinet of a king; then he got mixed up in a revolution and was vice-president of a provisional government and next secretary of the treasury in a republic. All of which happened in Hawaii.

There Mr. Damon was born some sixty-five years ago and there he has lived most of his life. When Minis-

ter Stevens butted into Hawaiian affairs and helped the settlers to give the "23" sign to Queen Lili, Mr. Damon took an active part in the proceedings and was the spokesman of the committee that rolled over to the palace to inform her Majesty that her lease was up. Then when they formed a government to last until the United States took Hawaii in, Mr. Damon got on the band wagon alongside of President Dole, and finally when the well-known citizens of the country decided to go it alone President Doig decided that Mr. Damon

TO ARRIVE ON MARAMA

The fourteen members of the George B. Howard Company, who will open Monday night at New Orpheum theater, presenting the latest dramas and comedies, will arrive in Honolulu tonight on the S. S. Marama. The company will first present William H. Crane's latest and greatest success "Father and the Boys." The George B. Howard company has a repertoire of more than twenty-five plays, all of which will be presented during the season at the New Orpheum. Seats for the opening piece are now on sale.

LARGEST CARGO ON TENYO MARU SINCE INITIAL TRIP

T. K. K. LINER ARRIVES THIS MORNING AND SAILS TOMORROW FOR SAN FRANCISCO — CHANGE OF OFFICERS BEFORE SHIP COMES TO HONOLULU AGAIN — WILL MAKE FAST TIME TO COAST.

Bringing the largest cargo from the Orient since the initial trip, the T. K. K. liner Tenyo Maru arrived off port before 7 this morning and was fast to the Alakea wharf shortly after 9, after hitting it twice in coming alongside.

The total through cargo amounts to 47,198 packages, which makes a total of 5056, exclusive of 1232 tons for Honolulu.

Included in the big cargo of the liner are 2688 bales of raw silk and 145 cases of silk goods. Tea amounting to 22,494 packages is in the hold of the steamer, and there is a shipment of 498 tons of coal from Shanghai to San Francisco, this coal being contained in 4000 sacks.

The remainder of the cargo is made up principally of gunnles and curios.

There are eighteen passengers on the Tenyo for Honolulu, in the cabin, these including Messrs T. Clegg, the bacteriologist, and P. G. E. Walker, returning from a business trip to the Orient.

In the second class for this port there are nine Chinese and Japanese.

Steerage passengers for this port consist of ninety-seven Japanese, seventeen Chinese and fifty-one Filipinos, and eleven Hindus who will leave the ship here and probably go to San Francisco by a later vessel.

Seventy-nine cabin passengers are on the Tenyo for San Francisco, and there are several layover passengers here who will leave on the vessel for the Coast.

In the second cabin there are fifty-nine passengers, and in the steerage bound for the Coast the Hindus number forty-six, Japanese seventy-one, and Chinese twenty-eight.

The trip of the Tenyo from the Far East was uneventful. The officers, however, complain of the hot weather found both in Hongkong and Shanghai, especially in the former port, where they lay over for a week.

Yesterday the Tenyo lost a long, saving coal, and might have made port last night as well as not. However, the loading was done so that good time could be made on the run from this port to San Francisco, and the coal saved will be used in driving the steamer to the Coast port in five days after leaving here.

When the Tenyo comes back from the Coast, outward bound, there will be several changes in the officers. Captain Bent being back in command after a lay-off of one trip for vacation, during which time his command was taken by Captain Filmer.

Purser Lacey Goodrich leaves the vessel upon arrival in San Francisco, and will act as general passenger agent for the T. K. K. and Western Pacific in the States.

Freight Clerk W. H. Reid will move up one deck to the purser's office after being in the service of the T. K. K. two and one-half years. He was for several years with the O. & O. as storekeeper and freight clerk of the Doric long before that vessel went under the direct supervision of the Pacific Mail company.

Both Goodrich and Reid are popular with the traveling public, as well as having hosts of friends on both sides of the Pacific, who are congratulating them on their promotions.

Hackfeld & Co. will dispatch the Tenyo for San Francisco tomorrow morning at 10 o'clock, the vessel taking fourteen layover passengers for the Coast from Honolulu.

Mauna Kea Duo. Early tomorrow morning the Inter-Island steamer Mauna Kea is due on her weekly trip from ports of Maui and Hawaii. The vessel is bringing the usual cargo from ports of call.

Sherman Off. This morning the army transport Sherman sailed from Matson wharf bound for Manila via Guam and is

PASSENGERS ARRIVED

Per S. S. Tenyo Maru, Oct. 14.—For Honolulu: M. T. Clegg, W. H. Lambert, F. G. E. Walker, Dr. H. W. Coe, Mrs. S. Fujimura, A. Imachi, T. Kono, Master J. Miyagi, Y. Mori, Mrs. T. Murakami and maid, W. M. Olds, Mrs. W. M. Olds, H. Setai, T. Shimamura, T. Sudo, Mrs. T. Sudo and 3 children, M. Tanikawa and servant, D. Yonekura, From Hongkong, Shanghai, Nagasaki and Kobe: Captain W. A. Burbank, James W. Banbury, Mrs. James W. Banbury and infant, W. Bollman, P. H. Burnett, Mrs. P. H. Burnett, Robert Clary, Dr. S. S.

Table with columns: ARRIVED, DEPARTED. Friday, Oct. 14. Arrived: Stmr. Tenyo Maru, Filmer, from Yokohama, 7 a. m. Departed: Stmr. Tenyo Maru, for San Francisco, 10 a. m. tomorrow. Stmr. Marama, for Sydney, tomorrow. Stmr. Maui, for Hilo via ports, 5 p. m. today.

Table with columns: TO ARRIVE. Stmr. Marama, from Vancouver, 8 p. m. today. Stmr. Mauna Kea, from Hilo and ports, tomorrow morning. Stmr. Hyades, from Seattle tomorrow morning. Stmr. Hilonian, from San Francisco, Sunday morning.

Table with columns: PASSENGERS DEPARTED. Per U. S. A. T. Sherman for Manila, Oct. 14.—First Cabin: Lieut. Col. W. D. Beach and wife, Major T. S. Bradford, wife and son, Major James E. Furlow and wife, Major H. W. Schell wife and two children, Captain J. B. Bennet, Captain W. S. Guignard, Captain R. M. Brambila, Captain J. L. DeWitt, wife and son, Captain J. A. Moore and wife, Captain A. M. Shipp, Captain J. A. Neff and wife, Lieut. W. F. Jones, Lieut. W. J. Enders and wife, Lieut. F. M. Wall and wife, Lieut. G. N. Cecil and wife, Lieut. H. Evans, Lieut. J. H. Greely, Lieut. F. W. Teague, Lieut. Edgar W. Taulbee, Lieut. H. R. Odell, Lieut. E. J. Dawley, Lieut. Daniel H. Torrey and wife, Lieut. P. G. Kailoch, Jr., Lieut. E. D. Welby and wife, Lieut. J. MR. DAMON TALKS HAWAII HISTORY

(Continued from Page 1)
was a good man to look after the finances of the new republic and handed over the keys of the strong box to him.

Mr. Damon said he didn't feel resentful yesterday. He is busy attending to a little business before sailing on the Lusitania tomorrow to see his son, who is studying in Scotland to be a chartered accountant. But he said that conditions are changing fast in Hawaii, that old elements are passing out and new ones coming in.

"The United States is of course the prime factor out there now," said Mr. Damon, "and the building of the drydock and the fortifying that is going on are the talk of the day, and we have felt flattered since the government ceased to fortify Manila and started to increase the fortifications of Honolulu. Pretty soon we shall be a strongly fortified town, with increased garrisons of every branch of the military.

"I had twelve years' experience in all as a government officer. I can't say much about the old court. It was a small affair but well conducted, respectable in every sense, and there was no foolishness about it. In a moderate way we had to keep up the ceremonies of a European establishment. In my younger days Englishmen and Germans and Americans predominated among the whites there, but now the Americans are beginning to outclass all the other whites.

"There is not the slightest dissatisfaction nowadays over government, al conditions, and what would be the use if there were Sugar predominates in the industries out there, and then come pineapples, and then rice and coffee, and then tourists. We've got over 500 automobiles out there and the tourists give them something to do. As for the native Hawaiians, they are all politicians. They have got control of the vote, and they work it for all they know how.

"Financial conditions are very satisfactory. There is so much money out there that they have to send a lot of it here for investment, and a good deal of it has been put into lands and oil. For interest we are generally satisfied with 6 per cent., but when anybody buys sugar stock he wants all he can get."

CHINESE ACTRESS IS NOT LABORER

(Continued from Page 1)
that she is a member of the exempt class set forth in Article II of the treaty between the United States and China of November 17, 1880. Counsel for the Government also contends that the law applicable to the case at bar is the law applicable to the case of an alien Chinese seeking to enter the United States, and that there is no difference between the law governing Chinese seeking to establish their right to land, and Chinese seeking to establish their right to remain in the United States.

To my mind there is a difference between the right of a Chinese alien endeavoring to enter the United States, and the right of a Chinese alien domiciled in the United States defending her right to remain here.

"I cannot adopt the contention made by the Government in the case at bar. I believe it is not necessary for the Chinese person sought to be deported to establish by affirmative proof to the Commissioner's satisfaction that she is not only not a laborer, but that she is a member of the exempt class specifically named in the treaty as permitted to enter the United States, before she establishes her right to remain in the United States. In this case I am satisfied that the defendant is a member of the historic profession and therefore not a laborer in the purview of Section 2 of the act of November 2, 1893. I find that the defendant not being a laborer has a right of domicile in this country under the existing treaties and laws and therefore order her discharge."

THE WINNER

Down in the broad Pacific, There is a group of Isles Whose mission is to sweeten up the States;

But at the present writing The factions are a fighting About a bunch of would-be delegates.

There's Nottley, he's not in it, Not for a single minute, That is, it seems to look that way to me.

His backing is all right, But in numbers rather light; His total will be small, now you will see.

McCandleless is another Who will sustain a smother About 10:30 on November 8; He tried it once before, Now he's come back for more; Well, he'll get it in the count for Delegate.

Kalaniana'ole is the boy Who fills our hearts with joy, —He gets there every time for he's a hummer, He'll beat McC. a mile Or I'm a crocodile, Asleep behind a rotten log all summer.

Now, there's but one word more To say upon this score, If you want Hawaii to stay upon the map; Vote Republican ticket straight Including Delegate And keep the sugar cane choek full of sap. —F. M. C.

OLD FASHIONED BUT STYLISH

Old fashioned, but stylish; and not just "stylish" alone, but something a great deal better—popular. They are popular on their merits alone—and that's the popularity that lasts. If you want to understand the why of it, have them mix you an "Old Fashioned" cocktail at "The Fashion" Hotel street off Fort.

COMMISSIONER'S SALE OF VALUABLE LEASEHOLDS.

Pursuant to a Decree made by the Honorable W. J. Robinson, Third Judge of the Circuit Court of the First Circuit of the Territory of Hawaii, at Chambers, in Equity, on the 8th day of October, A. D. 1910, in an action entitled, "A. J. Campbell, petitioner, vs. Tam Pong, respondent, Bill for Foreclosure of Mortgage" (Equity Division, No. 1729), the undersigned, as Commissioner, duly appointed and constituted as such by said Decree, will sell at Public Auction, to the highest and best bidder for cash, subject to the confirmation of the Court, on

SATURDAY, THE 12TH DAY OF NOVEMBER, A. D. 1910.
At 12 o'clock Noon of Said Day.

at the front (mauka) entrance of the Judiciary Building, in Honolulu, City and County of Honolulu, Territory of Hawaii, all and singular the property described in that certain Indenture of Mortgage, dated the 3rd day of May, A. D. 1906, made and executed by the respondent, Tam Pong, to A. J. Campbell, petitioner herein, and recorded in the Office of the Registrar of Conveyances in Honolulu in Liber 279, on pages 238-240; said property being situate at Waikiki, Honolulu, Oahu, and being more particularly described as follows:

1. That certain Indenture of Lease given to said Tam Pong by Lizzie K. Puahi and Moses Puahi on the 26th day of September, A. D. 1902, of two certain pieces of land situate at Waikiki, Honolulu, Oahu, for the term of 20 years from the 1st day of January, A. D. 1903, at an annual rental of Three Hundred and Sixty Dollars (\$360.00), which annual rental was, by an instrument in writing dated the 20th day of April, A. D. 1904, executed by and between the said Lizzie K. Puahi and said Tam Pong, reduced to Three Hundred Dollars (\$300.00), which said Indenture of Lease is recorded in the Office of the Registrar of Conveyances in Honolulu, in Liber 283 on pages 182 to 186.

2. That certain Indenture of Lease given to said Tam Pong by P. Kemohe on the 11th day of January, A. D. 1905, for the term of 20 years from the 1st day of February, A. D. 1905, at an annual rental of Sixty Dollars (\$60.00); of certain lands situate at Waikiki aforesaid, more particularly described as Royal Patent No. 3928, Kuleana No. 2539, and Royal Patent No. 2826, Kuleana No.

2845, which said Indenture of Lease is recorded in said Registry Office in Liber 283, on pages 186-187.

Together with all rights, privileges and appurtenances thereunto belonging and all buildings or other improvements, growing crops, farming implements and tools, three (3) horses, three (3) wagons, and everything appertaining to or connected with the banana plantation operated and conducted by said Tam Pong at Waikiki, Honolulu, Oahu.

Said Leaseholds to be sold separately. Deeds and Assignment of Leases to be at expense of purchasers.

Terms of Sale: Cash in United States Gold Coin; ten per cent. (10%) of the purchase price to be paid on the fall of the hammer; balance upon confirmation of sale by the Court and execution and delivery of Deeds and Assignments of Leases by the Commissioner.

For further particulars apply to Messrs. Smith, Warren & Hemenway, attorneys for petitioner, at their offices, Judd Building, Honolulu, or to the undersigned, at his office in the Judiciary Building, in Honolulu aforesaid.

M. T. SIMONTON, Commissioner.

We think our fathers fools, so wise we grow;

Our wiser sons, no doubt, will think us so. —Pope.

Republican progress prevents degeneration.

If you have any doubt about voting read Faxon Bishop's straight ticket talk a second time.

Down with Bossism. Vote the straight Republican ticket.

The solicitation for a straight Republican ticket is an appeal to reason and logic.

We trust that the inhabitants of Hawaii contemplate the news of tornado devastation in Cuba, with proper Christian resignation.

Since Presidents are getting the habit of going out of sight of land, there is no reason why Honolulu should not aspire to a visit.

If Delegate Kuhio is weighted with explanations for Campbell and Frear, it is also true that Boss McCandless is carrying a horrible load of untruth.

It is a dirty bird that fouls the community in which it lives with deliberate misrepresentation of the character of our citizenship and the methods of industrial leaders.

With the Democratic party under the absolute sway of a Boss, the question for the people to decide at the polls is whether they want to be bossed by the Boss for two years.

An extra dividend declared in the midst of the sugar stock slump carries its own argument of how serious the experts in the sugar business consider the drop in the price of raw sugar.

It is that which is left unsaid by Boss McCandless that impresses the intelligent voter and causes him to turn away with a tilt of the nose which might be given when passing a glue factory.

From now on to the 8th of next month is the opportunity for progressive citizens to demonstrate their patriotism and ability to keep Hawaii on the move—upward and onward—not backward.

A Republican Delegate in Washington is vitally essential to the continued success of Hawaii. We are "on our way" to Statehood and this is no time to monkey with experiments.

When a public officer asks "How much is there in it for me, if I boost his thing?" where would you naturally class him as a man to be trusted with the responsibility of giving a fair deal to every citizen and taxpayer?

Having in mind breakwaters, Federal buildings and other contracts, it sometimes appears as if the people of Honolulu, Hawaii and Maui were the only ones interfering with the speedy expenditure of Federal money in this Territory.

From the wording of the protest and the general public understanding of the people's rights in dealing with transportation lines, the question to be decided by the Government in the Kahului Breakwater contract is, whether in this land of the free and home of the brave it is possible to establish with government sanction an absolute monarchical rule, in business.

FOR AMERICAN SHIPS.

America's merchant marine is clearly the principal subject to be considered at the Congress called by Governor Gillett of California.

The navy figures in the call, and the demand for a battleship fleet in the Pacific is an excellent feature for stirring the selfish interest of men and communities which are asleep to the need of effort to put American merchant ships on all oceans.

In a Congress of this character Hawaii should be represented and be found in the front rank of aggressive campaigners.

LATEST MISREPRESENTATION OF HAWAII'S POPULATION AND INDUSTRIES.

Vilification and misrepresentation of Hawaii continues to be carried on through the medium of the Pacific Monthly and under the authorship of E. P. Irwin, an employee of the Pacific Commercial Advertiser, which Lorrin A. Thurston declares is "my paper."

Some months ago the same writer published an article in the same magazine. That article was reeking with crude misrepresentation and the usual amount of deliberate untruths. The excuse made in the Advertiser editorial columns was that possibly the editor of the magazine had changed the wording of the article. "Possibly" is good and it seemed entirely satisfactory to Thurston.

Now comes another article entitled "Importing a Population for Hawaii," the most vicious portions of which have been handed to the Bulletin in the form of clippings from the Fort Worth "Star-Telegram" of Texas, and

The "Concord Patriot" of New Hampshire. These newspapers like others throughout the country have published the extracts of the Pacific Monthly article sent them in the advance sheets that are sent to all editors.

This same document is also being used by the bossed Democratic party of this Territory, and the Bulletin is informed is being translated for use among the Hawaiians.

The clipping that is going the rounds of the mainland follows: **IMPORTING A POPULATION FOR HAWAII.**

It was long ago demonstrated conclusively by experiment that no good can result from an attempt to fuse the blood of the white man with that of the yellow and the brown. Yet the sugar planters of Hawaii, while talking enthusiastically about the Americanization of the Territory, have filled it up with Chinese and Japanese, Porto Ricans, Portuguese, Spaniards, Filipinos and Russians, and would have the rest of the community believe that from this mixture of incompatibles they can concoct an American citizenship worthy to rank with the citizenship of other communities.

It may even be true that the majority of the immigrants brought to Hawaii turn out to be peaceably, law-abiding home-builders who really desire and work for the prosperity of the country. But they are not American in color, ideas, ideals or customs. For the most part they remain Portuguese, Spaniards, Filipinos, Porto Ricans, Japanese—whatever they were when their passages to Hawaii were paid by a beneficent government or charitable sugar-planters' association. And the fact that there is comparatively little intermarriage among the various races, though a disproof of the beautiful theory of those idealists who believe that all men are brothers and should marry with their brothers' sisters of whatever race, color or previous conditions of servitude, is probably the chief redeeming feature of Hawaii's assisted immigration work as now carried on. Miscegenation is not looked upon with favor in other

—Ketten in New York World.

American communities and there appears no good reason why it should be considered good for Hawaii.

Yet, if the various races do not coalesce, how is it possible to make one people of them? The Territory of Hawaii, therefore, is impaled on the horns of a dilemma—a most uncomfortable situation, to put it mildly.

For decades the planters have been paying a labor wage upon which a white man would starve, and it goes sadly against the grain with capital to raise wages. The planters cannot afford to pay lower wages than they now pay yet Ewa plantation in 1909 netted approximately \$1,000,000. The plantation could have paid every one of its field and mill hands double the wages that were paid and still would have cleared many hundreds of thousands of dollars. The Hawaiian Commercial and Sugar Company cleared during the year 1909 a million and a half dollars—yet could not afford to pay its laborers a fair wage. The plantations of the island of Kaula netted over a million and three quarters dollars—but when the question of increasing wages was brought up the planters held up their hands in horror and had terrible visions of imminent bankruptcy.—Edward P. Irwin in the October Pacific Monthly.

For intensified insult to many of the best and most patriotic citizens of this Territory, and absolute misrepresentation of the wage question on the plantations of these islands, the clipping from the Pacific Monthly is probably the most perfect thing in its line that has recently issued from the city of Honolulu.

If the Democrats feel that they can make any political capital by quoting from the writings of a man who declares that the Chinese-Americans and the Portuguese-Americans—it should be remembered that these are the only nationalities of those mentioned that have been in the islands long enough to establish their status as Americans—are a mixture of incompatibles who are unworthy to rank with the citizenship of other communities, if the Democrats believe that this gratuitous insult is timely political material, let them make the most of it.

And then the plantations. It is a favorite habit of those who wish to injure Hawaii, to point to the remarkable dividends paid by Ewa plantation, Hawaiian Commercial and other exceptional properties of the Territory.

In order to apparently prove their case against the sugar men they point to what these particular plantations might do toward paying more wages.

They do not tell the whole truth, which is that if these plantations were to raise the wages of their employees it would mean that less fortunate properties would be run out of business. The rate of wages paid on the plantations represents an average that the sugar plantations as a whole are

able to pay, and live through seasons of low as well as high priced sugar.

Thurston, for instance, who employs E. P. Irwin, is heavily interested in Olua plantation. If the Ewa plantation should advance wages to a figure satisfactory to Irwin, Olua would elude twelve months, perhaps.

These facts regarding the population of the islands and the rate of wages on the plantations are so patent that the publication of statements made by Irwin and scattered throughout the mainland, evidence a vicious and studied intention to injure the Territory, satisfy a grudge, or play his part as a natural born fool.

The clippings handed the Bulletin came from the clipping bureau patronized by the Hawaii Promotion Committee.

How much do you figure that the community will have to spend in promotion work to offset the evil done at home and abroad by such an effusion as the latest attack upon Hawaii published by Irwin in the Pacific Monthly?

VANDERBILT BUYS BLERIOT MONOPLANE

X-RAY SHOWS THE WORK OF CONSUMPTION

NEW YORK, Sept. 23.—William K. Vanderbilt, Jr., has just received from France a Bleriot monoplane which has been driven at a rate of eighty-two miles an hour. It is a novelty in that it is equipped with an auxiliary motor. The main power is derived from a sixty-horsepower Gnome motor, and the smaller motor will develop fifteen horsepower. Both engines can be used at the same time. It is expected that the monoplane will be able to develop a speed of 120 miles an hour. It was built under the

HORSE RACE IS ARRANGED

Lizzie Moore and Mary Winkelfield Will Run Half Mile Tomorrow.

There will be a horse race tomorrow afternoon at Kapiolani Park and the distance will be half a mile. Lizzie Moore and Mary Winkelfield are again to try conclusions, and if the race is anything like the first one between the two mares, there will be a great contest.

Several weeks ago the mares met over a half-mile course, and after getting away at the same instant, finished within a half length of one another. The loser did not have any kind of a decent jockey on that occasion, and most people thought that that was the reason she lost.

Two good jockeys have been engaged for tomorrow, and Opolio will ride Lizzie Moore, while Carl Leonard, who steered several winners at the Maui races, will have the mount on Mary Winkelfield. The race will start at 4 o'clock and the stakes amount to \$500.

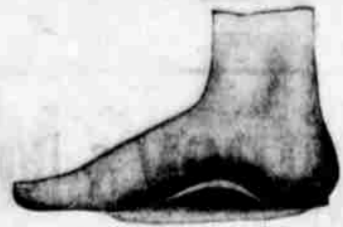

RADIOGRAPHS PROVE GREAT AID IN THE DIAGNOSIS OF THE DISEASE.

BALTIMORE, September 22.—Important discoveries have been made by the aid of X-rays at the Phipps Institute. It is being demonstrated that it is possible to diagnose tuberculosis and to identify the disease in its early stages before it has developed sufficiently to generally demonstrate itself. The discovery of the utility of the X-ray in tubercular diagnosis was made by Dr. Kenon Dunham of Cincinnati, who has been at Phipps Institute since June making a study of the disease.

In deference to Professor Welch, who is now making an examination, Dr. Dunham will not discuss his work in detail, save to say that he believes that what has been accomplished by radiography will be an invaluable aid.

"For Rent" cards on sale at the Bulletin office.

direction of Bleriot at Neuilly; and cost approximately \$1000. Edouard Dupre made flights in the monoplane during his stay in Paris. In a flight at Neuilly he drove the machine at a rate of seventy-five miles an hour and in another twelve minute flight traveled at a rate of eighty-two miles. The monoplane is believed to be one of the most powerful ever constructed and capable of developing a higher speed than any other machine of its type. Upon arrival the monoplane was taken direct to the aviation grounds at Hempstead, where Dupre will give it further trials. Mr. Vanderbilt has sent to France for a mechanic.

SUPREME COURT WILL BE BUSY

Session To Be Filled With Cases of Much Public Interest.

STANDARD OIL AND TOBACCO HEARINGS

Charles E. Hughes May Be Named for Chief Justice in Place of Fuller—Three New Men on Bench.

(Associated Press Correspondence.)
WASHINGTON, D. C., Oct. 6.—The Supreme Court of the United States will convene next Monday at noon for one of the most important sessions in its history. During the coming eight months it will have to pass upon cases profoundly involving the industrial and business life of the nation, and this fact adds importance to the pending changes in the personnel of the great court occasioned by the death of Chief Justice Fuller and Associate Justice Brewer and the expected retirement of Associate Justice Moody. Governor Charles E. Hughes of New York has been confirmed in the place of Justice Brewer, and there appears excellent reason to expect that he will be named in place of the chief justice, although Associate Justice Harlan, the senior surviving member of the court, has been much spoken of for promotion to the chiefship. In any event, including Justice Hughes, there will be three new men on this bench during the coming session. President Taft has said that he will make no recess appointments to the court. This means that the chief-justiceship and the place of

Justice Moody probably will remain vacant until the regular session of Congress begins in December. Three Great Cases Up.

It also means undoubtedly that the three great corporation cases upon which the expectancy of the business world is centered will not come up for re-argument at least until after the Christmas recess of the court. Of these cases, two, the Standard Oil case and the so-called Tobacco Trust case, will be set for January 2. The series of corporation tax cases were merely restored to the calendar for re-argument. In ordinary circumstances, this would throw them over for a year or more. The general expectation is that none of the three cases will be taken up until all the vacancies in the court have been filled, and that then the corporation tax cases will be advanced, and with the other two cases mentioned, will be set for dates relatively early in 1911.

Aside from these celebrated causes, a tremendous amount of work awaits the court at the beginning of its session. Upwards of forty cases, many of large importance, have been assigned for argument next Tuesday, or as soon thereafter as possible. Ordinarily, each justice delivers about thirty opinions during a year; hence if one member were to undertake to cover all of next Tuesday's docket, he would not be through with it until far into 1912.

First Day for Ceremony.
Unbroken custom reserves the first day, Monday, theoretically at least, to paying the respects of the court to the President of the United States. Before the time of Cleveland, it is said, the court had practically never failed to adjourn immediately upon convening on the second Monday in October, to go in a body to the White House. Once or twice Cleveland was away from the city, and Roosevelt even more frequently. Nevertheless, the call of the docket of cases to be argued has never been taken up on the opening day. Even if the President is not in town, the court adjourns, after receiving motions, until the following day. This year, President Taft will be at Beverly; the fact will be announced by Justice Harlan, presiding, and the court will adjourn.

Largely on account of there not being a full bench last term, many important cases were set for argument, out of their turn, for Tuesday. The continuing vacancies may cause the further postponement of several of them. The death of Solicitor-General Bowers may also result in the postponement of a number of government cases.

Big Virginia Case On.
The first big case set for argument is the dispute between the State of West Virginia and the Commonwealth of Virginia as to the amount of money the former owes the latter by reason of the formation of separate governments. Charles E. Littlefield, special master of the court, last spring reported that the amount varied from about \$3,000,000 to about \$9,000,000, according to the basis that might be accepted for a settlement. Some of the most important lawyers in the country will appear before the court to argue on exceptions to the report, which will be preparatory to final judgment in the case.

Immediately following the Virginia case, the court will hear the famous peonage cases from Florida. Only the favorable action of the Supreme Court, it is said, can now save several men from going to the Federal penitentiary for alleged violations of the laws against compulsory service. W. S. Harlan, general manager of the Jackson Lumber Company, with big mills near Lookhart, Ala., has been sentenced to serve eighteen months at hard labor in the Federal penitentiary at Atlanta, Ga., and to pay a fine of \$5,000; Robert Gallagher, logging superintendent, to fifteen months and a fine of \$1000; C. C. Hilton and S. E. Higgins, employes, to thirteen months and a fine of \$1000—all for having conspired to commit the offense known as peonage. The accused are seeking to be released on writs of habeas corpus, the claim being that the sentence to hard labor being illegal, that the trial court had no jurisdiction and that the grand jury was not constituted according to law.

Liability Law to Be Discussed.
Scarcely of less interest in the labor world will be the cases involving the constitutionality of the employers' liability law of 1908. This law was passed by Congress to take the place of the act nullified by the Supreme Court because it applied to interstate commerce as well as to interstate. The present law has been attacked along the same lines. Of even greater interest in the case involving the contempt proceedings against the officials of the Amer-

ican Federation of Labor. Samuel Gompers, president of the federation, is under sentence to serve twelve months in jail; John Mitchell, formerly president of the United Mine Workers, nine months; and Frank Morrison, secretary of the federation, six months, all for alleged contempt of the Supreme Court of the District of Columbia, in that they disregarded the injunction to cease interfering with the business of the Buck's Stove & Range Co. of St. Louis, which had brought suit against them to prevent them from boycotting it. All the points in the controversy are to be laid before the court for final decision.

A case involving the constitutionality of the California law of 1906, providing for the quieting of title to real estate in case of the loss or destruction of public records, as by earthquake, will be heard, according to present arrangements, early in the term.

A long list of prosecutions under Federal laws was also put forward at the head of the calendar for the coming term. Among these are the appeal of the government from the action of the New York Federal courts in setting aside the indictment against F. Augustus Heinze on charges of intent to defraud the Mercantile National Bank of New York City, of which he was president; the appeal of the government from similar treatment of the indictment against George Kissel, a New York broker, and Thomas B. Larned of Philadelphia, on charges of having conspired with the American Sugar Company to restrain interstate commerce in violation of the Sherman antitrust act by preventing the Pennsylvania Sugar Refining Company from doing business; and several cases involving prosecutions under the pure food and drug act.

The last of the advanced cases is the so-called World label suit. The government has appealed to the Supreme Court from the action of the New York Federal Court in quashing the indictment against the Press Publishing Co., publisher of the New York World, on a charge of libel. It was alleged that articles were printed defaming William H. Taft, William Nelson Cromwell, Douglas Robinson, Theodore Roosevelt, Charles P. Taft and others, in connection with the purchase of the Panama Canal.

The body of Albert Woghorst, who went to Bisbee recently from Indianapolis, was found in a field near Naco, eight miles south of Bisbee, adding another to the numerous crimes in Cochise country.

J. PATTERSON IS EXONERATED

Hamakua Postmaster Is Cleared of Forgery by Grand Jury.

J. Patterson, assistant postmaster at Hamakua, was yesterday afternoon completely exonerated of the charge of forgery by the Federal Grand Jury. The case has been pending since early in August, when Patterson was accused of having fraudulently cashed a check for \$28.50. Two Portuguese, Joe Garcia and Antone Lopez, were mixed up in the case, the check being sent originally to the wrong Joe Garcia.

Patterson's assertion that the whole trouble was due to misunderstanding was proved yesterday when the two Portuguese, who were also called before the Grand Jury, gave testimony that bore out his claims, and in fact it was their testimony that acquitted him. He was dismissed late in the afternoon, and one of his first acts was to send a wireless message to H. P. Baldwin on Maui, Baldwin having stood by him from first to last.

The Patterson case brought out a remarkable testimonial from his friends, who sent him many letters offering every assistance and declaring their belief in his innocence. Patterson is employed as bookkeeper and cashier for the Maui Agricultural Company, and will return at once to his position.

SCHWAB SEEKS CONTROL OF RIVAL SHIPYARDS

PHILADELPHIA, Sept. 29.—Chas. M. Schwab is trying to purchase stock of the William Cramp & Sons ship and engine building company through a New York firm of lawyers. At a meeting of the directors of the Cramp company at the bourse this afternoon one of the leading officers verified this statement.

Schwab not long ago got control of the Harlan and Hollingsworth shipbuilding concern in Wilmington, Del.

It is understood that Schwab needs the plant to build the Chinese war squadron for which he is said to have contracted.

TIMES DISASTER INVESTIGATION

Detectives Running Down Clues Expect to Land Guilty Men Soon.

SAN FRANCISCO, October 6.—Investigation into the dynamite explosion that wrecked the Los Angeles "Times" building narrowed down last night into very concrete facts when the police came into possession of evidence that enabled them to trace with certainty the identity of the men responsible for the outrage.

A number of mysterious telephone messages sent by the men who registered at the Argonaut Hotel and subsequently rented the launch Pastime, which is known to have carried the dynamite, gave the officials a definite clue, which was followed with redoubled energy.

Within a few days the police expect to make one or more arrests in this city. Accurate descriptions of the two men who engineered the scheme to purchase the gelatine dynamite have been obtained from many sources by the police, who have been combing the bay.

Handwriting Forms Important Clue.
The most tangible evidence now in possession of the police is specimens of handwriting known to have been executed by one or perhaps both of the men known as Bryce and Morris. These specimens, which are said to have unmistakable characteristics, have been submitted to handwriting experts. An important report on comparisons made of the specimens is expected in a day or so.

It is definitely known that the disguised launch which sailed as the Peerless to the Giant Powder Company's works, where workmen had a good opportunity to look the craft over, changed along the waterfront of San Francisco under its real name Pastime.

She remained hidden under wharves for two days.

Learning of this fact yesterday, the police believe that the dynamite may have been carried from the launch in grips and either shipped on a steamer near by the hiding place of the launch or carried to the Southern Pacific depot six blocks from the wharf under which the craft was concealed.

River Landing Places Searched.
Sheriffs of counties bordering on the bay and along the Sacramento river are searching for the landing place. It is also believed that some of the explosives carried in the launch were unloaded at some obscure place around the bay in the little yellow rowboat which was towed along by the launch.

All day long the telephone wires running into Earl Rogers' headquarters at the St. Francis Hotel were kept hot with long-distance calls from all over the State. His picked men have been sent to points where suspects have been under surveillance.

Information conveyed to Rogers causes him to believe that seven or eight persons planned the scheme to purchase the dynamite in this city, away from the scene of the outrage, in order to throw the authorities off the right track.

In an interview with Detective William Burns, that great tracker of wrongdoers said:

"Their tracks are so well marked that escape is practically impossible. It is only a question of time when we will bring them in. The facts gathered about San Francisco check up to a dot with what we have learned at this end. The trail left by the dynamiters is clearer than we had expected. In some instances it is of a nature that leads us to believe that the identification will come quickly. There are some gaps to be filled in, but the necessary material is being accumulated satisfactorily."

For the present the main efforts of the detectives in charge of the investigation will be devoted to this territory. A number of persons have come forward with information that has led to the temporary arrest of several suspects, but the police stated tonight that they had in detainee no one against whom there was any definite evidence. The arrest of R. J. Gillis, a pipe fitter, gave rise to the report that a capture had been made, but the offense of Gillis lies, so far as is now charged, is an expression of sympathy with the deed.

Agents of Others.
The theory upon which the whole investigation is being pressed holds that since General Crozier has been chief of ordnance the department has increased from sixty-five to eighty-five officers and the work has been greatly extended because of the increase in the activities of the army, the defense of the Panama Canal, the fortifying of the coasts and rifle work in the national guard. General Crozier is heartily in sympathy with the movement for the revival of rifle practice among civilians. He has strongly recommended the passage of a bill appropriating \$100,000 for the advancement of rifle practice among civilians, and in schools, and is a strong believer in preparing the young men of the country to bear arms for their country in case of war.

INDUSTRIAL TRAINING

Practical Work In Hawaii Schools Making Good Showing.

The enthusiasm in industrial training that is manifest in the schools of Hawaii is something to be proud of and it is growing all the time. Equipments for work and study in this particular branch of education are being added to schools throughout the Territory constantly.

The various branches of industrial education are considered under the following: Agriculture, woodwork, printing and domestic science, the latter being subdivided into cooking, sewing, lacemaking and weaving.

Most of the schools have taken active part in Arbor Day exercises, planting trees on school grounds and along roads leading to the school premises. They have cooperated with the department of agriculture and forestry and in a general way shown interest in tree planting.

Agricultural work is reported to the Department of Public Instruction under the following headings: Clearing and preparing land; keeping school grounds in order; flower gardens, vegetable gardens, and tree planting.

Manual Work in Public Schools.
Twenty-one of the schools have equipments for carpenter work and 7575 pupils have been doing woodwork during the year.

Domestic Science.
Cooking has been carried on in many of the schools, with the aim of bringing about refinement and culture in homemaking, and giving knowledge of simple cookery, and to familiarize the pupils with the relative value of staple articles of food.

Printing Department.
Seven schools have outfits and are doing regular printing on school work.

Sewing.
About 5500 pupils have been in sewing classes. Practically all of the public schools teach plain sewing to both boys and girls of primary grades, the training of the hands being considered of equal importance to both sexes. More complicated forms of the work, as cutting and fitting of garments, are taught to the girls of the higher grades.

Lace and Weaving.
Twenty-one schools give instruction in lacemaking, and 517 pupils studied lahala, bamboo and grass weaving last year.

2185 editorial rooms — 2256 business office. These are the telephone numbers of the Bulletin.

the dynamiters as the agents of others. It is known that the men who obtained the explosives at the Giant Powder works were supplied with quantities of money. For the powder, the boat and other articles they obtained they paid from a huge roll of currency. This is regarded as strengthening the theory of conspiracy and tending to show that there had been a substantial payment in advance.

The aim of the investigation will be to run the plot to its source. This is the desire of the businessmen's committee and of the commission of the state federation of labor.

The San Francisco police force has come actively into the local situation through the presence here of Detectives Hunter, Ryan and Burke. They have been co-operating with Burns in the north and will give further assistance here.

Mexican Border Guarded.
The tip was out this afternoon that the trail headed straight for the Mexican line. Precautions previously taken were augmented and wires flashed to the borderland.

Special details of detectives assigned to San Ptero to inquire into the movements of launches have been endeavoring to learn if the launch Kate, which slipped through the Golden Gate September 23 docked at this port. No report has been received telling of the presence of the little vessel.

There is now a strong belief that the dynamite was brought down here in small packages so as not to arouse suspicion.

It is believed that the rest of the gelatine will be discovered in a very few days.

Escape has been effectively cut off for the guilty persons through information wired to police chiefs throughout the country. Steamship and railroad companies have been furnished with full descriptions of the suspected men.

The policing of the city of Los Angeles continues along the strictest lines. Eighty-five additional patrolmen were added to the force during the day and all vacations were canceled. A movement has been begun looking to the systematizing of the search for the culprits.

Chalmers MOTOR CARS

"30" \$1500 "Forty" \$2750

The Beauty of Chalmers Cars Is More Than Paint and Varnish

No low priced car on the market can even approach the Chalmers in refinement of line and finish. None at any price can surpass it. It was this that put the Chalmers in a class by itself from the very first.

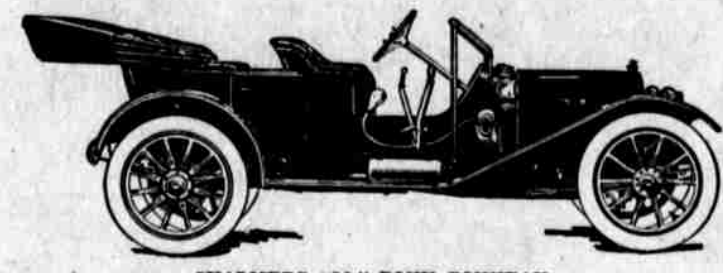

No part of the Chalmers has been exaggerated on overdone at the expense of the whole. The car is a unit. Every part bears the proper relation to every other part. The result is symmetry, beauty, — and Chalmers beauty is more than skin deep. It is built right into the framework of the car, into the iron and steel of the chassis, as well as the lines of the body. This is why Chalmers beauty means efficiency.

Every detail of design spells beauty in the Chalmers. The low effect of the car with its long wheel base is pleasing to the eye.

You can't overlook the graceful sweep of the fenders, the wide, handsome door and the big, roomy tonneau. Even the painting and striping present a bet or finish than that on cars selling at twice the price. The heavy brass fittings, the costly woodwork, the high quality upholstery, all these contribute to the substantial, rich and elegant appearance that gives the Chalmers a style all its own.

More than this, Chalmers finish is not put on simply for show. It is put on because it is the kind of finish that will preserve the car — because it will last.

We would be very glad to show you the 1911 Models and point out more of their good points in detail.

HAWAIIAN GUARD HIGHLY PRAISED

Col. Bullard Surprised at Large Percentage of Hawaiians in N. G. H.

The Honolulu papers are making enthusiastic comments on the recent school of instruction for infantry officers of the organized militia of Hawaii at Fort Shafter, says the S. F. Chronicle. According to advices received from the encampment, the tour of duty was the most successful affair in the history of the Hawaii National Guard and great results are predicted to the service. The encampment started on September 17 and ended on September 23. Lieutenant-Colonel Robert L. Bullard, Eighth Infantry, was commandant of the camp.

Colonel Bullard reports that he was greatly surprised to find that over 80 per cent. of the officers of the militia in the islands were Kanakas, and says that he believes that this fact is one for congratulation. He says: "There was a tremendous public interest in the camp. A surprising, gratifying and significant feature of the school was the large percentage of the officers that are Hawaiians. It shows that the Hawaiians are loyal Americans. It is something for the United States to be proud of and to foster. The newspapers are full of the camp and its work, and the public interest far exceeds that in the United States in like camps of instruction."

Among the army officers engaged in encouraging rifle practice, the name of Brigadier-General William Crozier stands high on the list. As chief of ordnance his professional duties keep him in close touch with rifle practice and he gives evidence of his interest by attending the matches at Camp Perry each year. Since General Crozier has been chief of ordnance the present model of rifle used by the army and the national guard has been perfected and the ammunition has been greatly improved. General Crozier also designed the latest model of wire-wrapped gun for the army and in connection with General Buffington the present type of disappearing gun carriage for the seacoast fortifications.

General Crozier graduated from West Point in 1876 and was detailed with the ordnance department in 1881. As a captain he was stationed at the Sandy Hook proving grounds and the Watervliet arsenal, where he rendered brilliant service. He was ordnance officer in the Philippines and with the China Relief Expedition from 1899 to 1900, and was made chief of ordnance in November, 1901.

SULTAN LOVED GAY ACTORINE

Haji Mohammed, Etc., Trapped By Wily San Francisco Press Agent.

An enterprising agent put this one over on one of the San Francisco papers while the Sultan of Sulu was dropping there:

The story is authenticated. The Sultan of Sulu, who attended a performance of "The Prince of Plessen" Monday night at the Savoy theater, fell desperately in love with Frances Cameron, the "beautiful leading lady" of the company. He wanted to meet her, and told Henri Gressitt, who, as Savage's manager, was entertaining the sultan in a box, about his longing. Of course, the sultan couldn't speak a word of English, but he had catholic eyes. The gallant Henri assured the impetuous Moor that he would see to it that the sultan should meet the maid. So he took him to a downtown cafe after the performance and sat him with his retinue, including brother Dato Jaja Mada Muallie Wasit, heir apparent to the few remaining pearls in the sultan's treasury, in a far corner, where the sultan's majesty could feast his eyes on the loveliness of the American widow. An interpreter suggested to Henri that the sultan would like to greet the lady and pay his respects.

Let Mohammed Come.

"Let us go over there, then," said Gressitt, naturally eager for the "copy." The sultan wouldn't budge. It would be indecorous, he said. So Henri strolled over to the distant table and told the fair Miss Frances about it. But she wouldn't budge, either. Why should she travel to the mountain? Let Mohammed come to her. There ensued a deadlock until the sultan and his ten Moors had finished their crab meat, then Henri led them out. He started toward the door, but turned, and the dark army kept close to his heels, fearing they might make a social error of some sort. Henri slyly led the forces to the table where sat the fair Frances. It was too late for the sultan to back out then. He threw his court decorum to the winds, pledged the prima donna's health and slipped her his card, which, when translated, read: "Yours devotedly, Haji Mohammed Jumabul Kiram II., Sultan of Sulu."

THE HONEST PROPRIETARY MEDICINE

fills a national need in the land and it will take more than the cry of "fraud" and "fake" from the avaricious, over-reaching physician to overthrow an honest, reliable and standard preparation like Lydia E. Pinkham's Vegetable Compound, which is made from the roots and herbs of the field, and has cured more women of female ills than any other remedy we know of.

ANOTHER HONOR FOR WALTER BAKER & CO.

The Managers of the Dominion Exhibition, St. John, New Brunswick, have awarded a gold medal to Walter Baker & Co. Limited.

This is the fifty-third highest award from the leading international and local expositions in America and Europe for the superiority of the cocoa and chocolate preparations manufactured by Walter Baker & Co. Limited, of Dorchester, Mass.

It is of considerable interest to lovers of cocoa and chocolate to know that the average annual consumption of cocoa in the United States for a period of three years has increased to 103,216,893 pounds—the highest on record for the same length of time.

This is due no doubt to a better knowledge of the laws of health, a growing appreciation of the value of cocoa as an ideal food beverage and to the general superiority and excellence of the preparations put out by the Baker company.

Because a telephone girl refused to send in an alarm unless a nickel was deposited, fire destroyed a house in Philadelphia, causing a loss of \$5000.

Weekly Bulletin \$1 per year.

PICKS OUT HILO QUARANTINE SITE

Dr. Ramus Thinks Hilo Port Should Have Detention Station.

(Special Bulletin Correspondence.) HILO, Oct. 10.—Dr. Ramus, who accompanied Secretary Mott-Smith to Hilo, when sanitary regulations were looked into in a most thorough manner, took an unbounded interest in the quarantine question as pertains to the Big Island. In this respect he says:

"During my stay here I have picked out what seems to be the best site for a quarantine station. It is just on the other side of the breakwater, and the plan is to have a wharf built on the leeward side of the breakwater, which will be used as a landing and will be connected by a track with the station. There should also be provided a barge or some sort of a vessel carrying a complete disinfecting apparatus, with a pump for the pumping of antiseptic solutions into a vessel.

"I shall send a recommendation to the surgeon-general in Washington that these things ought to be provided. Of course, it will require an appropriation from Congress for the buildings, the wharf, etc., although the land, I understand, is already government property. I shall make my recommendation so early that, in case it is adopted, there will be time to get the request for an appropriation before Congress at its next session.

"Hilo, I think, has reached the stage where she should have a first-class quarantine station. The shipping here has increased, and with the opening of the Panama Canal Hilo may become an extremely important shipping point. The quarantine station should have buildings sufficient to house from five hundred to a thousand immigrants, as it is quite possible that that many may land here.

"Another thing which I am trying to do is to make arrangements for the furnishing of Marine Hospital Service relief to indigent seamen in Hilo. You have a very good hospital here, and my idea would be to arrange by contract for the treatment therein of such seamen.

"Through the courtesy of Mr. Mott-Smith I have been able to see the plantation camps along the coast, and I am much pleased at the efficient manner in which the plantation people have done the sanitary work under the direction of the Board of Health. Mr. Mott-Smith and Mr. Bowman are to be congratulated on their success."

Cable News

PARIS READY FOR TROUBLE

(Associated Press Cable.)
PARIS, Oct. 13.—This government is prepared for whatever may happen as a result of the strike.
The government buildings are under guard and the city is now more like a great military camp than the peaceful capital of a glorious nation.
Charged with insurrection, there have been several leaders of the rail-way strike placed under arrest, though this has had no effect on the comprehensive strike which has cut the capital off from the surrounding country.
The situation is exceedingly critical, and the government may at any moment have to take the most severe measures to relieve the city of its dangerous isolation. Already in this suffering because of the inability to get from the outlying districts sufficient food.

PRESIDENT TO VISIT CANAL

BEVERLY, Mass., Oct. 13.—President Taft today officially announced that his deferred trip to Panama, held over until after the elections, would be started on November 10.
The President will sail in the U. S. cruiser North Carolina, and he expects to make the round trip in twelve days.
During that brief period Mr. Taft will make an inspection of the work accomplished on the big ditch that is to divide two continents.
What is considered the most important item on the President's Panama Canal program is his contemplated inspection of proposed sites for the establishment of fortifica-tions for the defense of the great artificial waterway.
It is also expected the President will settle in regard to what the tolls are to be for ships passing through the canal.
The matter of what manner of government, as a permanency, is to be established in the canal zone, is also to be settled by Mr. Taft, and, altogether, the mission of the na-tion's chief is of vast importance.
The date set for the opening of the Panama Canal is January 11, 1915.

NEW YORK ON TIMES HORROR.

NEW YORK, Oct. 13.—There was a meeting in this city today of the directors of the National Association of Manufacturers, at which the chief item of important business was the unanimous passage of a resolution to the effect that the International Typo-graphical Union should be con-demned for its alleged responsibility in regard to the fiendish dynamit-ing of the building of the Los Angeles Times, in which so many inno-cent newspaper workmen, literary and me-mechanical, lost their lives or suffered terrible injury.
There is as much indignation and horror felt in this city, among those identified with newspaper work and the public generally, as anywhere in the United States, distance having nothing to do with the spontaneous feeling of sympathy for the victims and their friends and condemnation for those indirectly as well as di-rectly responsible for conditions which led to the fearful work of the fanatic or fanatics who dealt death to the Times staff in Los Angeles.

WILL RAISE THE MAINE NEXT YEAR

BEVERLY, Mass., Oct. 13.—Pres-ident Taft has approved the plans of the United States army engineers for the raising of the U. S. battleship Maine, which was sunk mysteriously in the harbor of Havana just prior to the outbreak of the war between this nation and Spain.
The plans, as endorsed by the na-tion's chief executive, call for the completion of the work on the thir-teenth anniversary of the sinking of the famous warship, which will be in May of next year.

CUBA SUFFERS LOSS FROM STORM

KEY WEST, Oct. 13.—The prov-inces of Santa Clara, Matanzas, Havana and Pinar del Rio, in Cuba, have suffered severely from a ter-rific storm which today swept those sections, leaving in its path the ruin and wreck of crops and buildings.
As yet there are no advices as to loss of life, if any.

CURIO DEALERS UP FOR FRAUD.

NEW YORK, Oct. 13.—The firm of Duveen Brothers, famed dealers in antiques from all over the world,

ACUTE PAINS IN THE BACK

CAUSED BY RHEUMATIC POISON AFFECTING THE MUSCLES.
Lumbago is a Form of Muscular Rheu-matism and is Readily Cured by the Treatment Which is Conquering Rheumatism Everywhere.

Although lumbago occurs in almost any walk of life it is chiefly a disease of working men among whom it numbers thou-sands of victims. As its attacks recur frequently and are very painful, this disease means the loss of much time and money as well as the endurance of much suffering. No victim of this disease needs to be told that it does not yield to the treatment usually prescribed. The trouble being in the blood, liniments and external applications of any kind simply al-leviate the pain for a brief time and the patient soon suffers as badly as before.
Lumbago is sudden in its attack and is so intensely painful that the sufferer is often unable to move, even to turn in bed or to rise from a chair. The correct treatment is the same as for muscular rheumatism and the ease with which this painful disease may be overcome when it is properly treated, is illustrated by the case of Mr. T. P. McGrew, of No. 257 Corley avenue, Beaumont, Texas, who was a sufferer from lumbago for two years and was often forced to lay off from his work as engineer for several days at a time. He says:
"I was taken very suddenly with lum-bago while at work. The pains were very sharp and so severe that I came near fainting. From then on I suffered regularly with these attacks until I took Dr. Williams' Pink Pills. The attacks generally lasted for two or three days and during them I could hardly stand up, while it hurt me about as badly to lie down.
"I was treated off and on by doctors but was not given any permanent relief. One doctor gave me liniment, but it didn't help. It was only when I tried Dr. Williams' Pink Pills that I began to be benefited. I took several boxes and haven't had a touch of the disease since."
A copy of our new booklet "Diseases of the Blood," containing full information about this treatment will be sent free upon request.
Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, upon receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

has been taken in charge by off-icers of the Federal government, and two members of the firm have been placed under arrest, being charged with conspiracy to defraud the gov-ernment out of customs dues. Ac-cording to the United States District Attorney the frauds reach over a million dollars.

BALLINGER IN SHAKEUP.

CINCINNATI, Oct. 13.—Secretary of the Interior Ballinger today suf-fered a severe shaking and a con-siderable shock in a collision be-tween two passenger trains, in one of which he was a passenger, on the Baltimore and Ohio Railway.
Thousands of aliens slipped over the Mexican border before a patrol was established six months ago, ac-cording to evidence in the hands of Washington officials.

FINE TENNIS BY ELECTRIC LIGHT AT MANOA LAST NIGHT

FOUR MATCHES PLAYED BEFORE LARGE GATHERING OF LOVERS OF GAME—BOCKUS AND R. A. COOKE PLAY BRILLIANTLY—MRS. CLIVE DAVIES IN FORM.

Some of the best tennis seen so far in the Manoa night tournament was that of last night. And the crowd that rolled up was the largest that has been seen around the beautiful courts at night time. The weather was perfect and everything was most enjoyable.

There were four matches played, in all, and although none of the sets look to be close, as far as scores on paper go, the play was much keener than the figures would indicate.

The electric lights were very bright and there was no flickering at all. Seats were dotted all around the court, and the club pavilion was crowded. Most of the well-known people of the city were present, and the gathering was a representative one in every way. E. S. Gee, former champion of Hawaii, dropped in during the evening, and he expressed himself as delighted with the scheme for playing at night time. Gee thinks that Irwin has about the fastest serve of any player in the States.

Opening Game. The play last night opened with the semi-finals of the mixed doubles, and Mrs. Coulter-Clarence Cooke went up against Miss Lucy Ward-G. Irwin. The result was a win for the lady champion and Cooke, and the score was 10-5. The play was very close right through, and game after game went to deuce and 'vantage during the set. Miss Ward played a great game, and she showed that she can volley better than any other lady player at present playing in Honolulu. Her service was good also, and, to tell the truth, it was Irwin who made most of the mistakes. The man from the Far East could not volley at all, and he was likewise a lot off in his service.

The score was even after eight games had been played, and Irwin and Miss Ward seemed to have a chance of winning. Then the other pair sparkled up a lot and, aided by Irwin's errors, took four games in succession and the scoreboard showed 8-4. The thirteenth game went to Irwin and his partner, and then Cooke and Mrs. Coulter won two games and with them the set and match.

Men's Doubles. As soon as the mixed doubles were staged, the men's doubles were staged and the spectators sat back to enjoy what was expected to be a sensational match. Bockus and R. A. Cooke tackled the two plantation men, Greenfield and Savage, and it was thought that the result would be a 'close one.

Right from the start of the set Bockus and Cooke played in brilliant fashion, and they simply did as they pleased for the first seven games, which they took before their opponents could win one solitary game. The score stood at 7-0, and everybody was wondering if the whitewash act was coming off.

However, the eighth game was taken by Greenfield and Savage, and they did it to love. Then they again got a game, and the score looked a little better for them. Bockus and Cooke were in winning form, however, and they took the next three games, and with them the set. The score was 10-2, and the best pair won without doubt. Richard Cooke simply could not be beaten at the net, and time after time he scored with his smashes. Bockus played the game of his life, and he did some fine work both at the net and in the back of the court. All four players did some lobbing, but nearly every time the smash ended the rally.

Another Mixed Doubles. The next match was another mixed double event, and Mrs. Clive Davies and D. Anderson played Miss Paty and Babbitt. The first-named pair won easily, and the set went 10-4. The first game was won by Babbitt and his partner, but then Anderson and Mrs. Davies forged ahead and soon had the score standing at 7-2. Then the other pair got another game and, after a great

struggle, captured one more. That was all they could do, as Anderson and his partner then ran out.

Mrs. Davies serves underhand, but she keeps the ball low, and she got some good ones in. Her return from the back of the court is clean and crisp, and she beat her opponents time after time with beautiful drives. Mrs. Davies volleyed well also, and, altogether, she played splendidly.

R. A. Cooke Beats Irwin. A singles match wound up the evening's sport, and in it R. A. Cooke met Irwin. The mainline was expected to do better in the singles than he did in the doubles earlier in the evening, and he certainly did back up a little and get in some of his fast serves. Irwin falls down on the volley game all the time, and it is a wonder that a man with a service and ground strokes like he possesses, does not get in and practise volleying for some time to come.

Richard Cooke played great tennis, and he was equally at home whether at the net or back of the court. He played his crop strokes to perfection, and the ball, after hitting the ground, very seldom rose to any height. The set ended 10-5 in favor of Cooke, and Irwin was lucky to get the games he did.

This evening the finals of the mixed doubles will be played, and Mrs. Coulter and Clarence Cooke will meet Mrs. Clive Davies and Anderson. The best two out of three sets will settle the affair, and a good match should ensue.

Other matches will be as follows: Nowell vs. Savage, at 7:30 o'clock; R. Cooke vs. A. Richards, at 8:30; A. Richards and C. Cooke vs. Warren and Schmidt, at 9. The first two matches should be good ones, but the third should prove to be an easy victory for C. Cooke and Atherton Richards.

Much interest is being taken in the tournament, and now that the finals are drawing close there will be some tiptop play seen on the courts under the electric lights.

SOCCER MEN GETTING VERY BUSY AT LAST

Players Are Awaiting Return of James Fiddes From Scotland.

As soon as James Fiddes arrives back from his trip to Scotland, a start will be made on the schedule for the Soccer season of football, and an interesting lot of games will be played. Should Fiddes come in on the Marama this evening, a meeting will be called next week to decide upon the opening day of the season.

The Soccer players are beginning to feel lively, and they want to get a start as soon as possible. It may be that a meeting will be called, even if Fiddes is not on the Marama; the men want to get into harness as soon as possible, and the sooner the better.

Once the practice is started up, there will be plenty of fun and when the games begin the crowd will surely roll up to see the cracks at work. Most of the men who played last year will be on deck, and if any British ships happen to be in port there will be some matches with them besides the regular struggles between the local clubs.

DOTS AND DASHES.

Eddie Fernandez will show his beautiful pictures of the Jeffries-Johnson contest at the Orpheum Theater tomorrow night. Everyone who wishes to see how the big fight really went had better drop in and see the slides. Everything is shown in the pictures and there is nothing brutal about the affair.

Last night the Marines and the Y. M. C. A. Juniors met in an indoor baseball game, and the Juniors handed the half-wets a package to the tune of 19 to 3. The game was a beauty from the start to finish and, judging from the way the Marines played, they will improve a lot in the future.

BULLETIN WILL GIVE NEWS OF WORLD'S SERIES DAILY

SPECIAL CABLES WILL TELL STORY OF STRUGGLE BETWEEN CHICAGO AND PHILADELPHIA—FIRST GAME ON MONDAY.

The World's Championship Baseball series, between the Chicago Cubs, champions of the National League, and the Philadelphia Athletics, champions of the American League, will begin next Monday. It is the biggest athletic event of the fall and second only to the Jeffries-Johnson fight in the year's calendar.

The Bulletin has made special arrangements to give the news of this great baseball series to its readers in Honolulu and the Islands generally. Special cable service has been arranged and day by day the thousands of baseball fans in the Territory will be given the news of the championship games through the Bulletin. The importance of this event in the world of sports and the Bulletin's desire to give its patrons accurate, up-to-date and interesting news warrants the special arrangements that have been made.

OAHU LEAGUE.

NO MORE PLAY THIS SEASON

MEETING DECIDES TO CALL OFF SERIES

Will Not Take Over Athletic Park—May Play On Some Other Ground Next Year—Vote of Thanks to Press.

Last night the Oahu Baseball League did a very sensible thing in calling the second half of their season off. A start will be made next March and by that time there may have been something done to make the Athletic Park playable all the year round. The Park is mostly mud and water, and it is only during the very dry spells that everything is favorable for ball playing.

The league also decided last night to refuse the offer of the Athletic Park people as regards the taking over of the grounds. It was felt that the League is in no condition to pay out the sum required for the Park and that the end would be disaster.

The Japanese Athletics were declared to be the champions of the year, and they take the honor for the second time. There was much argument over the wisdom of taking over the grounds, and the fate of the "big" league was pointed out as a warning.

There is a probability that the Athletic Park will be devoted to some other purpose and, if the place were properly drained, there might be some use for it. At present there seems to be an idea that the sewage of the district wends its way to the diamond and makes the ground around third base very moist and soft.

The meeting passed a vote of thanks to the newspapers for the way in which the League games were written up, and the following is a copy of the letter written to the Bulletin:

Sporting Editor Evening Bulletin:—Prior to the adjournment of Oahu Baseball League last evening for the winter months, a resolution was unanimously passed, directing the corresponding secretary to transmit the sincere thanks of the League and its members respectively to the press of the city for courtesies extended during the season of 1910.

On behalf of the Oahu Baseball League, therefore, I desire to assure the Evening Bulletin of our hearty appreciation of its kindly offices, and a hope for a continuation of the same next year.

Sincerely yours, L. D. TIMMONS, Corresponding Secretary, Oahu Baseball League.

DOTS AND DASHES.

The Jackson-Kao race is all off and there will be no sports at the Athletic Park on Sunday next. Too much talk and too little real action was the cause of the trouble and it will be many a long day till anyone tries to boost that kind of sport along again.

The tennis players from the newspapers are going at it hard every afternoon, and A. L. Castle and the other stars will have to look to their laurels soon.
