STEEL PLOWS

Manufactured by the

OLIVER BROS. Plow Works.

These, through good service and effective work on SUGAR and RICE PLANTATIONS, and elsewhere, have made for themselves, a good reputation.

Reports from our customers show perfect satisfaction given in scouring, light draft and in every respect. We now present to the public a full line, as follows:

The C. & C. Rice Plow.

SIZES: 5 to 10 Inches. Made for light cultivating and all ordinary use and by a systematic system of bracing, these Plows are both light and strong.

The Queen.

SIZES: 6, 8 and 10 Inches. For heavier work.

The Monarch.

SIZES: 12 and 14 Inches. For breaking and heavy plowing.

FARMERS' BOILERS.

HAKALAU CASE IN COURT

CHALMERS AND HICKEY ON TRIAL FOR MANSLAUGHTER.

The Prosecution Rests—The Defence Commences Its Work Which will Last Three or Four Days.

The prosecution rested its side in the Hakalau manslaughter cases this morning. The defense will occupy three or four days introducing testimony, and it will be close on to Saturday when the cases will be given to the jury.

Song Chong stated today that he saw Luna Hickey assault and beat Lee Man Chit in a brutal manner. He corroborated the detailed description of the beating given by the other Chinese laborers.

Mishida, a Japanese water carrier, stated that he carried water to the injured man while he lay on the field.

Sheriff Andrews of Hawaii told how he made a sketch of the field.

For the defense, Sakichi, Murakami and Tashima, testified that they were present when Luna Chalmers rode up on horseback to where the injured Chinaman lay. Chalmers, they said, did not touch the man, simply lifting his handkerchief from his face. Matsuda and Murano, Japanese laborers, stated that they saw Lee Man Chit fall over to the ground while attempting to lift a load of cane. He lay where he fell. They saw no assault by any of the Lunas.

THE PARKER ESTATE.

Colonel W. F. Allen has filed his fifth annual account of the John P. Parker estate. The receipts during the year amounted to \$63,123.47, all of which was expended save \$2,082.14. There are three mortgages on the Parker property, one held by William G. Irwin, for \$35,700; another by the Bishop estate, for \$43,000, and the third by James Campbell, for \$11,000.

FAST HORSES ARRIVE.

Bark Mohican Brings Four Speedy Animals for Honolulu Parties.

The bark Mohican brought four fine blooded horses to the city. A six year old pacer, "290 Girl," belongs to James Quinn. She is a half sister of "Billy Button," owned by John Humberg, and a full sister of "Yolo Maid." She has no record as yet, although she has gone a mile in much less than 2:30.

Three of the horses are consigned to Gus Sehuman. All were bred on the famous Woodard Stock Farm in California.

A POLITICIAN.

Major S. A. Muhlhauser, a lawyer and politician of Cleveland, Ohio, is at the Hawaiian. He is here on private business, supposed to be of a political nature, and will remain in the Islands for several weeks. While in San Francisco, the Examiner printed a story to the effect that the Major was coming here as a special agent for President McKinley, in the interests of annexation. This Major Muhlhauser denies most emphatically, although he admits that he has been in politics for McKinley for several years, and is a strong supporter and admirer of Mark Hanna.

THEY HUNT BIG GAME.

The Judd boys and Guy Demett, a nephew of Mrs. Dole, will leave in a few days on a hunting expedition to Molokai.

A party consisting of Professors Ingalls, Howard and Babbitt of Punahou, and Seymour Hall, returned from a week's hunt on Saturday. They bagged a number of deer besides considerable smaller game. The hunters brought seven deer to the city, which they distributed among their friends.

WAS GOOD SAILING.

There were a number of yachting parties out Saturday afternoon and Sunday. Messrs. Rose and Chapin, with some friends, made a very quick trip to Diamond Head and back in the Combination, on Saturday.

Chamberlains Colic, Cholera and Diarrhoea Remedy always affords prompt relief. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

Fine Repair Work.

When your Bicycle, Gun, Typewriter or any article of fine mechanics needs repairing and you wish a job which is certain to prove satisfactory, bring it to us and we will fix it for you and guarantee it fully.

We take pride in turning out only the very best of work and will call for and deliver it to any part of the city.

SOME PONDEROUS PUMPS

CURIOUS FACTS ABOUT OAHU PLANTATION PLANT.

H. A. Adams, the Designing Engineer, Now on the Ground—How the Work Progresses.

The machinery of one of the new monster pumps recently erected at Ewa was set in motion for the first time Saturday morning. Everything worked smoothly for the first few hours, and then a little trouble developed in one of the big valves, and it became necessary to make some repairs. Today, however, the ponderous pump will be set to work in earnest, and will, every twenty-four hours, add 10,000,000 gallons to the water supply of the plantation. The second pump will be ready for business within a few weeks, and the two will almost double the water supply of the plantation.

H. A. Adams, the designer of these magnificent pumps, is now in the city. He is engineer for Fraser & Chalmers, the Chicago manufacturers, and is on a holiday trip. Incidentally, he is looking around down at Oahu plantation, where his company will put in something like 2,500,000 pounds of pumping machinery within the next few months. All of the machinery was also designed by Mr. Adams, and the estimates made by him. He has gone over the ground where the new pumps are to be stationed, and has checked up his estimates.

The first pump to be erected at Oahu will be the largest on the Islands and the most powerful. It will be capable of raising 7,000 gallons per minute to a height of 250 feet, or about 10,000,000 every twenty-four hours. The new pumps at Ewa pump just as much water in a given time, but they only pump against a head of 120 and 197 feet, respectively.

The machinery for the new pump was brought down on the Australia, but the boilers have not yet arrived. They are, however, on the way in a sailing vessel and expected daily. The pump weighs 500,000 pounds, and the boilers just half that amount. It will require great care in handling the boilers, one piece weighing 22 tons. In transporting this by rail to the plantation it will be necessary to place extra braces under every culvert and trestle to avoid a breakdown.

The work of putting the big pump together will require about six weeks time. It was put together before it left the shop and found to be in perfect working order. The same company put in the famous pump in the Chapin mine, at Iron Mountain, Mich., which raises 2,200 gallons of water per minute to the surface from a depth of 1,700 feet. The pumping station, situated 1,700 feet under ground, is 38x70 feet.

SOCIAL ITEMS.

Dinner for Admiral and Mrs. Beardslee This Evening.

A hop on the Marion is whispered. The Healanis' give a dance on Friday evening.

Miss Myra Angus will entertain the Vice Versa Club this evening.

The President and Mrs. Dole gave a delightful chowder party to young people at their Waikiki beach home Saturday afternoon.

Lieutenant and Mrs. Stoney and Captain Cotton of the Philadelphia were the guests of honor at a dinner given by Mrs. E. K. Wilder at Eskbank, Friday evening.

Captain Cotton will be the host at a dinner on board the Philadelphia this evening, complimentary to Admiral and Mrs. Beardslee, Admiral Miller and a number of town people are among the invited guests.

OPERA HOUSE TONIGHT.

Pictures of the Great Corbett-Fitzsimmons Battle.

Great interest is being manifested in the presentation of the Corbett-Fitzsimmons life size moving pictures at the theater tonight. It is the exact reproduction of the battle taken at a cost of over \$50,000, and is so realistic that the most exacting can find no fault.

Several characters of prominence like Ex-Senator John J. Ingalls of Kansas; Governor Sadler of Nevada; Ida Fuller, sister of Loie Fuller, the famous dancer, and Mrs. Robert Fitzsimmons, are to be seen in the pictures.

The performance is suitable to all classes, society in the States picked it out as a great after dinner entertainment, as it furnishes so much for discussion, and one can chatter without disturbing the performance.

The pictures are on their way to Australia, and Mr. E. J. Rector, who originally photographed the contest at Carson City, will operate the machine tonight. He is accompanying the pictures to Australia to superintend the presentation there.

SEWING MACHINES.

L. B. Kerr is agent for the Hawaiian Islands for both the "Domestic" and "Wheeler & Wilson" sewing machines. In both lock and chain stitch these machines are the best in the world.

ALL ABOUT THE REGATTA

GEORGE R. CARTER REVIEWS THE COMPETING CREWS.

Murtle, Leilani and Healani Boating Men Considered—Mr. Carter's Ideas Upon the Aquatic Sport.

Editor Star: It is with pleasure that I note your occasional reference to boating, for the more the public is interested in the sport the greater will be the glory of the victors.

I must take issue with your "experts along the wharfs" in that the Healanis are showing up in better form than either of the crews of the other clubs. The Healanis have been doing their heavy work—in fact all their work—in the afternoons, while both the other senior crews, if out at all, at that time, are only paddling, and thus I fear the "experts" are misled.

The Leilani club is making a strong showing and will undoubtedly have the four most powerful men in the contest on September 11th. Theirs is the smallest club, thus they have the least support and the greatest difficulties to contend with.

The Myrtles are the champions. Theirs is the largest club and they have the greatest "esprit de corps." They have for a foundation the nucleus of their heretofore invincible crew. To form any comparison, one must be up early, for their traditional policy is to say nothing, but quietly "saw wood." Their "stroke" is the best oarsman of any on the harbor, and the other three men are fast equaling their model in form and dash. The public can be assured that the championship will not change hands without a tremendous struggle, and if I am correctly informed the Myrtles have always shown up best in the last part of their races.

The Healani crews have been working earnestly. What little material the club had to draw from has had to unlearn much, and all the new men have had to begin at the bottom, crowding into a few weeks so much that they lack the ease and confidence of their rivals. The senior crew will be as follows: Stroke, Loyd; No. 3, Spencer; No. 2, Porter; bow, Williams. Porter has been chosen captain of the crew, and will be responsible for the conduct of the men from now until the race is over.

The question has been asked will the Healani crews row the Yale stroke? Most emphatically, No! The style of rowing as I found it, has been modified and changed, eliminating the very worst features, overlooking and smoothing down the rest, but it would not take an expert to point out the differences in the strokes. Anyone can see how badly the Healanis' finish; how they throw the water as their oars come pulling out at the end of the stroke, how slow their hands move and how recklessly they occasionally run their slides. I did enjoy the privilege of a couple of years on the Yale crews back in the eighties, and am endeavoring to give those interested the benefit of my experience in training, even if out of date and no longer in touch with the modern college rowing. I am trying to teach the fellows to work intelligently; there is a right and a wrong way of applying the power and a good reason for the right way. They must steady their method of rowing, find out where the power is wasted, discover the reasons why one boat goes faster than another. The sport will then be infinitely more interesting to them and it will soon become a science while those who go abroad will make a name for the Islands as oarsmen as well as natural swimmers.

I wish also the boating men and all their supporters would cultivate a better opinion of their rivals; do away with counter-accusations; stop relishing and trying to reopen races by bold challenges. Let the races be rowed once a year, fairly settled, the best crew winning then pau until next year.

Respectfully yours,

GEORGE R. CARTER.

THEY OCCUPIED THE BOXES.

All the boxes were taken at the minstrel performance Saturday evening. United States Minister and Mrs. Sewall, Minister of Finance and Mrs. Damon, Minister of Foreign Affairs and Mrs. Cooper occupied the Irwin box; Minister and Mrs. F. M. Hatch, Admiral and Mrs. Beardslee, Admiral Miller and Staff, Lieutenant Rogers and Lieutenant Andrews, were in the box just opposite, the Star base ball club and Lieutenant Klemme and party occupied the upper boxes. Captain Cotton and friends and Lieutenant and Mrs. Winterhalter and party occupied the lower boxes.

MANY DOLLARS TAKEN IN.

The receipts at the minstrel performance Saturday evening exceeded \$500. This money will be shared equally by the Stranger's Friend Society and the Hawaiian Relief Society. The sailors from the Marion and the Philadelphia gave a very creditable show. Ellingson, Richards, Huehlfie, Burns, Stanley, Hicks, Marshal and Vanderveer, distinguished themselves in their various parts.

THE BEST TIME.

The moonlight nights are best enjoyed on a wheel. New wheels for rent by the hour, day, week or month. Pacific Cycle & Manufacturing Co., Love Building. Telephone, 325.

THE BENNINGTON IN PORT

COMES TO RELIEVE THE MARION ON THIS STATION.

A Member of the White Navy Well Known Here—Full List of the Cruiser's Officers.

The U. S. S. Bennington arrived from the Coast this morning to relieve the Marion on this station. She left San Francisco nearly a month ago, calling first at San Diego, where she remained a fortnight, and sailing from there for this port on the 14th inst. She came down under moderate steam, experiencing fine weather all the way and making the trip in nine days.

The Bennington reached her anchorage in the harbor about 10 o'clock and as soon as she had been made fast her batteries exchanged courtesies with those on shore and on the Philadelphia, the Hawaiian colors being first saluted, and then the Admiral, Commander H. E. Nichols called upon Admiral Miller, Captain Cotton and the Marion's Captain. Almost immediately afterward Admiral Miller received calls from Ministers Sewall and Cooper.

The Bennington is no stranger in this harbor. She was stationed here during the cholera trouble, and was last here about eighteen months ago. She is a modern steel cruiser, carrying six 8-inch guns and secondary batteries, and belong to the White Navy. It could not be learned whether the Bennington brought any important dispatches. Up to press hour no cue had been permitted on board. The sergeant at the gangway when questioned, only said that the port quarantine officer had not yet been aboard. Late this afternoon an officer came ashore. He stated that there had been no illness aboard, but that they were busy cleaning ship.

Following is a list of officers of the Bennington: Commander, H. E. Nichols; Lieutenant C. K. Curtis, Executive Officer; J. S. Ordan, Chief Engineer; Emory Winslow, Assistant Engineer; Lieutenant Mayo, Lieutenant C. P. Eaton, Ensign C. D. Stearns and H. P. Hurlbut, Paymaster P. B. Mohun, and Pay Clerk D. M. Addison.

FILES HIS PROTEST.

Captain Thompson Believes His Team was Not Treated Fairly.

League teams are giving much better exhibitions of ball. In Saturday's match the Stars' won over the St. Louis club, by a score of 5 to 4.

The game was a hotly contested, and required an addition inning to determine supremacy. The life of the game lasted one hour and twenty minutes, and was the quickest game played on the diamond this season.

At the beginning of the tenth innings, the score stood 4 to 4. Thompson was given his base on being hit by the ball, and Willis flew out to left field. Aiwohi hit to Mahuka on second base. Thompson was forced to run to second, Mahuka, claiming that the captain of the St. Louis club having gone out of the line, was out, and he threw the ball to Pahau on the first. Umpire Ed R. Adams declared Aiwohi out.

Captain Thompson objected and immediately gave notice of a protest.

Lionel Hart made the run in the last half of the inning which gave the game to the Stars.

Chris Holt, holding the position of left field in the St. Louis team, brought down two flies while running. They were the prettiest plays of the day.

FINE PIECE OF WORK.

Surveyor Monsarrat Completes the Map of the City.

Surveyor M. D. Monsarrat has just presented The Star with one of his improved maps of Honolulu. The size of the map is four and one-half feet by six feet, and the scale is on the basis of 500 feet to one inch. The map takes in all the territory between Diamond Head and the Fertilizer Works at Kalihi, and from the sea to the Government Electric Light Station in Nuuanu Valley.

It gives the location of the fire hydrants, fire alarm boxes, streets, roads present and proposed, letter boxes, tramcar lines. It also shows the principal residences, and business houses, public buildings and the fire limit.

Aside from this the map contains a separate itemized description of the principal places on Oahu and a complete map of the Hawaiian Islands and a chart of Pearl Harbor.

The chief feature of the map is its accuracy. M. D. Monsarrat prepared the copy and the lithographing was done by the Schmidt Label Lithograph Company, of San Francisco. Mr. Monsarrat is selling the maps mounted on cloth with rollers, for \$3, and unmounted for \$1. No office should be without one.

EVERY LADY VOTER,

if the opportunity would present itself, would vote that

THE WAY TO RAISE FUNDS

C. E. ROSECRANS TRIES TO GET TEACHERS TO SUBSCRIBE.

A Government School Goes Begging for Funds to Carry on Work—Not in Accord With the Board.

The following letter has been addressed to various teachers on the Islands as a method of raising money for the printing press at Lahainaluna. Accompanying the document are the names of those who have contributed \$10 and \$5, and the inference is very plain that sums below \$2.50 are considered very small. The Board of Education has expressed its objection to money being raised for this purpose in any way, and it seems doubtful if Mr. Rosecrans is authorized to raise money in this manner. The letter has been sent to the Star by one of the Principals of the schools, who asks for its publication because he thinks that it is not a proper thing to tax teachers with small salaries for such a purpose. Government schools should not levy on private funds or go begging in this way.

Lahainaluna, Maui, Aug. 10, 1897. Dear Friend: Not being able to see you personally, I take this method of giving you an opportunity to add your contribution to the fund for Hawaii's young people.

You will doubtless be pleased to know that in addition to the \$150 realized by the concert given in Honolulu for the benefit of our little paper, contributions have been sent in by the teachers to the amount of \$150, making \$300 already subscribed toward the \$400 required for purchasing the new type, illustrating outfit and paper cutter.

When the teachers have contributed the \$100 still needed, then those outside who are interested, Mrs. Dillingham, Mr. Townsend and others, will set about to raise several hundred dollars more from those able to give (not teachers) for the new press, which we so greatly need.

In case you cannot send cash at present, I enclose a blank form on which you can write the sum you wish to contribute, with the date of payment. Then, if you will return the blank at once I shall know at once how much to count on.

Please send all money per Postoffice money order, payable to Charles E. Rosecrans, Lahaina, Maui; will send receipt for all sums received. Hoping to hear from you soon, I am Yours for the cause of education, CHARLES E. ROSECRANS.

THE HOME MEASURES HIM.

Man May be a Lamb in Public, but a Wolf at Home.

Dr. Hoyt preached a powerful sermon on the home from Central Union pulpit yesterday. He said that the home measures the man. No matter what he might be in business or in society, he is what he is in his own home.

The speaker said that a beautiful structure of brick or stone, a man, woman and child in it, did not make a home. They must be built together. A great deal of the future of any child depends on his home training. The parents must set a good example for their children, if they are to grow up Christian men and women. Many men have been picked up out of the gutter and when the dirt has been washed away, the old home face scar stamped indelibly in his face, is discernable.

Dr. Hoyt says the Sabbath Day problem will be solved only in the homes. When the parents will make their own hearth a pleasant spot by the telling and reading of stories from the Bible and the playing of music, then the hours of the Sabbath Day will be spent happily by their children within the home doors.

"DOMESTIC."

There is no necessity to add the words sewing machine in speaking of the "Domestic." Every housekeeper knows that the "Domestic" is what L. B. Kerr claims it to be—the best in the world.

Awarded Highest Honors—World's Fair, Gold Medal—Midwinter Fair.

A SPASM OF SENSE.

Now, let's have a short spasm of common sense. If people who have been chronically sick are so soon and so easily cured by our preparation, why were they not cured by some of the medicines they took before? Because medicines are like novels and songs; once in a while a good one hits on tons of poor ones. But what is WAMPOLE'S

PREPARATION,

trade of that it should do what others cannot? The answer is simple and straight. It contains the nutritive properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry Bark, combined in a new and scientific way. It isn't a lot of incongruous ingredients shaken together, but chemically united, so as to make one thing of unprecedented potency. It is pleasant to the palate as honey and curcuma Fevers, Scrofula, Rheumatism, Stomach troubles, Bowel Complaints and Debility, by expelling the deadly disease germs and filling the blood with rich and healthy elements such as nature requires. Try it and see what a remedy that is absent of the age, can do for you. It is a substitute for solid food. There is nourishment in a single sup, for every dose is effective. You cannot be disappointed in it. Sold by chemists everywhere.

SHIRTS MADE TO ORDER.

THE BUDWEISER

The Budweiser Beer, so well known in the markets of the world is that which since 1875 is manufactured by the Anheuser-Busch Brewing Association. It is made of the best barley and finest Bohemian hops, and on account of its first class quality has gained a reputation which extends far beyond the boundary of the United States.

It is now extensively ordered in Mexico, South America, and Australia, and has even forced itself into the home of all beers—Bavaria.

Drink it in Moderation.

—and you will live to a ripe old age—and will never require the services of a physician.

H. HACKFELD & CO., AGENTS

WHAT SAILOR MEN TALK OF

ARRIVAL OF THE BENNINGTON AND MOHICAN.

Report of Accident to Noeau Without Foundation—Australia Not Permitted to Work on Sunday—Gossip.

The Waialeale arrived yesterday from Kauai ports with 1,252 bags of rice and paddy.

The Claudine was on time yesterday morning. Her freight list was again light, including 36 hogs, 1 horse, 140 bags of potatoes, 94 bags of corn and 60 packages of sundries.

Sheriff Olmstead, at Waimea, found a lot of liquors in three boxes of merchandise, shipped on the last Mikahala. The stuff was sent back here, and the Chinese who shipped it will have to pay freight on it as bottled goods both ways.

The Mikahala brought only 250 bags of rice on her freight list yesterday. Will White, who made a special trip in her, returned and has resumed his duties in the office, feeling much better for his brief outing.

The U. S. S. Bennington arrived this morning and dropped her hooks in Naval Row between the Marion and Philadelphia. She has been in this station before, leaving here about a year ago. This time the Bennington comes from San Diego and has been nine days on the way.

An annoying report circulated along the docks yesterday to the effect that the Noeau had gone ashore on the coast of Hawaii, was refuted by the steamer herself when she put in an appearance about 10:30 o'clock this morning. She brought down 28 head of cattle and 400 bags of sugar, which goes into the Martha Davis. Purser Kelly reports fine weather.

There is some tall hustling being done aboard the Australia in order to get her away on schedule time, Wednesday, Capt. Houdlette sought a special permit to work the vessel yesterday, but it was refused him. An officer of the vessel was grumbling about it, because, he said, the government dredger was kept in motion all day within a stone's throw of the steamship.

The American bark Mohican, which left San Francisco a day astern of the Aloha, docked at Brewer's wharf this morning, after a voyage of 18 days of fine weather. She brings 1,000 tons of general cargo to Castle & Cooks, four fine horses for the Club Stables and a fine Jersey cow for W. C. Wilder. Captain Saunders has taken to himself a wife since he last visited this port, and she accompanies him on this voyage. Other passengers on board were Mr. Biebach and wife, J. N. Hale, F. Abrams and David Keating.

THE BULBUL OF POHICK.

She Writes Scotch Dialect Poetry and Keeps Up With the Progression.

"It is without fear," writes the Bulbul of Pohick, "that I take my pen in hand to write a Scotch dialect piece. The great demand at the present time is for things that is up to date, and if me and the nine muses has not managed to hit the pace this time I am much mistaken. It is an evident fact that anybody who wants to get along in the poetry business now has got to hustle and keep up with the progression. He must consult the popular taste and not let his fancy wander at his own sweet will, as the old time writers were enabled to do, owing to their taking up the business before the field got overcrowded. My latest composition is therefore:

THERE ARE IETHER SCOTCH DIALECT WRITERS. Gentle reader, I have heard it insinuated of late

There is too much poetry wrote which is not up to date, as the case may be, can sing Everybody must admit that the public does enjoy

Finding beautiful thoughts put into language which it is accustomed to employ. And although I never heard it talked in our neighborhood, I expect

That there really are a number of people who speak the Scotch dialect. Though I must confess, before farther I go, That how they learn it so it comes handy and natural I do not know.

But the fact that I am not familiar with it should not prevent my writing it now and a wee bit.

For I have ever held that any first class poet or poetess, as the case may be, can sing About any auld thing.

My politics is to protect home manufacture, and I do not see why Americans should Not make just as good Scotch dialect as anybody could.

Of course some critics may sneer at these lines of mine, But critics have done thus sin the days of lang syne.

My own heart tells me I have wrote some rather bombastic poetry before now, And I don't care nuckle for other people's opinion, anyhow.

Indeed I once heard a man who got paid for writing declamations

That on the whole tribe of critics he was getting sair, And once he said to a critic's face, and it raised a great storm, "Ah, weel; I dinna ken; you're not sae warm."

But in speaking of brae highlanders I must confess That I do not exactly approve of the way they dress.

Their clothes stop short right at the knees, And when the cold winds blow I should think they'd freeze.

I may be prejudiced, but if I knew a Scotch gentleman I should think more of him if he wore a trowser on ilka limb.

—Washington Star.

A Fable of Today.

A man who was travelling in South Dakota suddenly was seized by a cyclone and hurled a vast distance through the air.

"Were you not afraid while you were in the air?" a friend afterward asked him.

"Oh, no; not very much."

"But it must be a terrible sensation to be blown up so high."

"You forgot that I am married," responded the traveler.

Moral.—There is nothing like getting used to things.—San Francisco Examiner.

The Acme of Abuse.

Watts—Gee, but old Roxworth does abuse his clerks!

Potts—Really?

Watts—I was in the store yesterday, and one of the hirelings made a small error of some kind, and the language he used—well, it was such that I would not even use toward a baseball umpire.—Indianapolis Journal.

T. J. KING, agent Spaulding-Robbins Disc Plow, Honolulu.

Dear Sir: I have one of your TWO DISC PLOWs at work on my ranch at Waialae, and am pleased to report that it gives me the fullest satisfaction.

In two days, with four Hawaiian mules, I can do as much work with your implement as I can do in seven days when using eight mules or twelve oxen, with a mould board plow, and the pulverization is much better when using the disc.

In the rocky ground your plow either rolls over the roots or cuts through them, and we find it unnecessary to sharpen the discs, which scour perfectly and were set at such an angle that friction with the earth makes them self-sharpeners—I am, dear sir, yours very truly,

Hawaiian Electric Company.
 The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."
 This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.
 Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.
 We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

INSTRUCTIONS ARE HERE

U. S. CONSUL HAYWOOD HEARS FROM WASHINGTON.

The Revised Tariff of Consular Fees—Every Ship Owner Interested—President McKinley's letter.

By the last mail there came to United States Consul General Haywood the following circular letter:

Besides charging fees for miscellaneous services, for notarial and unofficial business, the department has authorized the Consul General to charge the following fees for services to vessels and seamen:

Executive Mansion, Washington, July 29, 1897.

To the Consular Officers of the United States.

Gentlemen: I send you enclosed copies of the tariff of United States Consular fees prescribed by the President in the following order:

Executive Mansion, Washington, July 27, 1897.

The following revised tariff of Consular fees is hereby prescribed under the authority conferred upon me by Section 1745 of the Revised Statutes to be charged by Consular officers of the United States for official and unofficial or notarial services as indicated. All Consular charges must be in strict accordance with this tariff and be collected in gold or its equivalent. The tariff is to take effect on and after October 1, 1897.

All fees prescribed in the Tariff of official fees are to be accounted for to the Secretary of the Treasury as prescribed by law.

Notarial or unofficial fees, including Consular Court fees, may be retained by the officials collecting them, but must be reported in full as required by the Consular Regulations.

All parts of the Consular Regulations in conflict with this order are hereby amended.

WILLIAM MCKINLEY.

You will examine this tariff carefully and see that its provisions are strictly observed in every respect. The receipt of this circular and the accompanying tariff is to be promptly acknowledged.

Respectfully yours,
 THOMAS W. CRIDLER,
 Third Assistant Secretary.

FEES FOR VESSELS AND SEAMEN.

Bill of health, in duplicate, \$5.00
 Supplemental bill of health, in duplicate, 2.50

For receiving and delivering ship's register and papers, including consular certificates, as prescribed in Forms Nos. 13 and 14, 1 cent on every ton, registered measurement (net), of the vessel for which the service is performed if under 1,000 tons; but for American vessels running regularly by weekly or monthly trips, to or between foreign ports, this tonnage fee will not be charged for more than four trips in a year; and tonnage fees shall not be exacted for any vessel touching at or near ports in Canada on her regular voyage from one port to another within the United States, unless some official service required by law shall be performed.

And for every additional ton over 1,000, one-half of 1 cent.

Shipping or discharging seamen, including certificates thereof attached to crew list and shipping articles and given to seamen—Forms Nos. 16, 17, 18, and 82, 2.00

Authentication of copies of protests or other necessary documents for vessels or seamen not otherwise provided for, 2.00

Preparation and acknowledgment for vessels of any oath or declaration for which a form is given in the Consular Regulations, or a similar necessary service not otherwise provided for, 2.00

Preparation and execution for vessels or seamen of any certificate for which a form is given in the Consular Regulations, or similar necessary service not otherwise provided for, 2.00

Orders or letters for vessels or seamen for which forms are given in the Consular Regulations, or other similar necessary service not otherwise provided for, 2.00

Recording, when necessary, for vessels or seamen any document covered by the provisions of the Consular Regulations, for every hundred words or fraction thereof, .50

Noting marine protest—Form No. 37, 2.00

Extending marine protest—Form No. 38, 3.00

If it exceed 200 words, for every additional 100 words, .50

Protest of master against charterers or freighters—Form No. 39, 2.00

Clearance when issued by the Consul, as at free ports, 2.00

Attending an appraisal of vessel's goods or effects, for each day's attendance, 5.00

Attending sale of vessel's goods, for each day's attendance during which the sale continues, 5.00

Attendance at a shipwreck, or for the purpose of assisting a ship in distress, or of saving wrecked goods or property, over and above traveling expenses, whenever the Consul's interposition is required by the parties interested, for each day, 5.00

It is always gratifying to receive testimonials for Chamberlain's Colic, Cholera, and Diarrhoea Remedy, and when the endorsement is from a physician it is especially so. "There is no more satisfactory or effective remedy than Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Dr. R. E. Robey, physician and pharmacist, of Olney, Mo., and as he has used the Remedy in his own family and sold it in his drug store for six years, he should certainly know. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

Whoooping Cough, Asthma, Croup, Catarrh, Colds.
Naps-resolens you Sleep
 Cures while you sleep
 Creosote when vaporized in the sick room will give immediate relief. Its curative powers are wonderful, at the same time preventing the spread of contagious diseases by acting as a powerful disinfectant, hantavirus to the lungs, etc. Sold by druggists. Valuable booklet free.
HOLLISTER DRUG CO., HONOLULU, H. I., Agents.

Popular Malt Nutrine

The sale of MALT NUTRINE during the month of July was enormous and by far exceeded our expectation. Still when it is compared with all other preparations of Malt and the many advantages it possesses over them one cannot fail to appreciate the fact that MALT NUTRINE is the best.

Makes

In this climate you need a preparation that builds blood and fattens without the stimulating effect produced by alcoholic beverages. MALT NUTRINE might properly be termed non-alcoholic, as it contains less than 2 per cent of alcohol.

People

Those pains so commonly felt about the different parts of the body without any apparent cause are generally due to a run-down state of the health. The physical forces need toning up, and there is nothing better for producing the desired effect than a four weeks' treatment of MALT NUTRINE.

Well.

Nursing mothers and the most delicate persons will find in MALT NUTRINE a friend indeed.

Take MALT NUTRINE and no other.

Price per case, \$3 50.
 Single bottles, 35c.

A BAD SCHEME.

Those who strove to set the Hawaiian against annexation are doing him the greatest wrong it is possible to do. Left an unprotected waif upon the Pacific ocean, the Hawaiian will disappear before forces which will overwhelm him.

The hardest part of the matter is that the Hawaiian is to be bribed to cut his own throat. At least the attempt is to be made to urge him to consummate his own doom. For revenge, to carry out its own policy, to spite those who have opposed it the Sugar Trust is willing, nay anxious, to cut away any chance of existence of the Hawaiian, and is willing to see him overwhelmed by the Asiatic wave that it would let in.

This is practically the meaning of what will happen should the plans of the so-called royalists and the Sugar Trust be carried out. Spend a little money and it will be easy enough to get a crowd together. It can be done in any city in Europe or the United States for any cause that is desired. It is easy enough to get orators to howl any kind of sentiments to such a mob—the leather-lunged come cheap enough. But men who are accustomed to public demonstrations, and who know how money can be, and is, used to bolster up any cause can see through such a movement and value it at exactly what it is worth.

Knowing, as the annexation party does here, the agents who are being employed to work up the pseudo-patriotic movement, and the persons in whose hands the funds are, it will not be difficult to convince anyone, who might, for a moment, be carried away by the apparent spontaneity of the movement, of the actual spuriousness of it. As was said in these columns on Friday, it is "a last throw," and, like many a last throw, the gambler puts a pile of dollars on it. Also, like many a last throw, it will fail to improve the fortunes of those who cast it.

Annexation is the only means by which these islands can be saved from Asiaticism. Not only do the clearer-headed and clearer-sighted see it here, but by the Anglo-Saxon States to the south of us, who feel the pressure of the Asiatic also, it is thoroughly realized—realized to the extent of their losing sight of their national acquisitiveness, and being willing—and even eager—that a different Government from their own should take possession of the important post. Such will-ness on their part shows how imminent they regard the danger, and how thoroughly they realize it. And if powerful communities like these southern colonies, with their rapidly increasing population, and the prestige of one of the greatest of earthly powers behind them, realize this danger, how much greater must it be for the Hawaiian, with a slowly decreasing population and with nothing behind him, if he wilfully tries to throw away his sheet anchor of annexation.

But, as has been said before, the scheme will fail. Any effort that is bolstered up with the money of the Trust or with the money of Claus Spreckels, must fail. A true expression of Hawaiian opinion might have had some influence, but a bought expression will have no more influence than a breath of air upon the armor-plate of a cruiser.

The Consular fees, which are published in another column, will be of interest to sailors and shipping men in general. These fees are turned into the U. S. Government Treasury. The days when a consul could save \$90,000 out of a \$4000 salary in four years have gone—never to return.

THEY CAN WORK.

The question of the ability of white men to labor here is often brought up, and a good deal of nonsense has been written upon the point. It is quite as possible

for a white man to labor here as it is in the countries of the southern part of the temperate zone. The white mechanics—the bricklayers, the plasterers, the stonemasons, the carpenters, who all have to work in the open air under the beams of the sun—find no diminution of health from following out their avocations. Indeed, they are more healthy in this climate than they are in more rigorous climates. Many men who have followed such avocations on these islands for the past twenty or thirty years are as hale and hearty, and as capable of prolonged toil, as ever they would have been in the United States or in Europe.

As to white labor on the plantations, the Germans who have been employed in Lihue show an improved physique from what they had on their arrival, and their children have not degenerated. The Portuguese, also, have by means suffered; they can and do work as well as ever they do in the fruit vineyards of California. And, in their case too, the children show no falling off in physique—indeed, anyone studying the matter will see a distinct improvement.

It is a notable fact that the offspring of the white race in Hawaii does not deteriorate as it does in other tropical countries. When our boys and girls go to college in the States, and come into competition with those born in the temperate zone, they are able to hold their own, and somewhat more. Mentally, they are brilliant, and take the foremost places in their classes; physically, they are strong, and show an unusual average of athletes out of their small numbers.

With these facts before them, it is ridiculous for any casual observer of a week or so to talk of the impossibility of white men working in this climate. Men and women work quite as hard here as they do elsewhere and thrive on their work. Indeed it is the workers who are the healthiest. It is those who lead a lazy, lacadaisical life that suffer from ill-health.

Some people maintain that a change of climate is necessary for dwellers here every few years. While it is pleasant to have this change it is by no means necessary, and the writer knows people who have retained their vigor and energy for two or three decades without ever leaving these shores. The facts are clean against anyone who talks of this not being a country suitable for a Caucasian to live and work in.

The pumping machinery for the Oahu and Ewa plantation is some of the finest in the world, and shows the amount of energy that our business concerns put into their work. It is worth a visit on the railroad to see these gigantic pumps in working order. Ten million gallons of water in twenty-four hours is a very average young river.

The presence of the Brooklyn in English waters has caused the British Admiralty to plan for ships of like class. The gap between the protected cruiser and the battleship has, in the English service, been filled by the second-class battleships. The trouble with ships of this latter class is that they lack the speed of vessels of the Brooklyn type. The new vessels which the British Government intend to build are to have a displacement of 11,850 tons while the Brooklyn has 10,150. Great Britain is very careful about keeping her naval power to the top notch.

Drop us line if you can't get Schilling's Best of your grocer, or if you don't like it and can't get your money back.

The name "Wheeler & Wilson" is a household word and the machine a necessity. It is the same as everything else handled by L. B. Kerr. The best to be had.

Timely Topics.

AUGUST 18, 1897.

AERMOTORS—GOOD THINGS.

The Aermotor Company has, from the first, known what to do and how to do it, and, as a consequence, it came without a name or much money into a field in which millions of dollars were entrenched, and has taken, and now holds and enjoys, at least one-half of the windmill business of the United States and of the globe.

We wish to say that the Aermotor has been a most pronounced success in the Hawaiian Islands. To-day we are selling more of these mills, both pumping and geared, than all the other concerns put together. Why? Because we have the best mill ON EARTH!

Our reason for claiming this is simply because we are fortunate enough to be the agents, and because the mills we have put up in various parts of the islands have stood the test where others have failed.

From an economical standpoint they cannot be beaten, as the construction is so simple, yet strong, that repairs are unnecessary. They are self-adjusting and run day and night in the lightest wind.

Attention is called to our Gould & Krogh Triple Action Pumps and Siphon Pumps, and Patent Water Tanks, holding from 500 to 10,000 gallons.

IF YOU CANNOT afford the best CUT GLASS, what's the matter with the best pressed glass in the best designs produced in America's best factory?

In our Ewa window you will see the handsomest display of this line of goods ever brought to this country.

The patterns are unique, closely resembling those of genuine CUT GLASS and the edges are clear and sharp. No better assortment has ever been seen here and the prices are very low.

The full list is too large to publish in full; only a partial one is given.

Berry bowls, 65 cents each; Berry saucers, 90 cents per dozen; large Salad bowls, \$1.25; Celery dishes, 45 cents; Pickle dishes, 15 cents; Tooth pick holders, 10 cents; Spoon trays, 15 cents; Rose bowls, 25 cents. Sets of Sugar bowls, Butter dish, Spoon holder and Cream jug, \$1; large water pitchers, 75 cents.

There are many more articles; you may inspect them at your pleasure.

WE BELIEVE

that purchases of groceries are made to fill certain needs, and that quality must actually have the largest share of attention. Price is and should be made subordinate until one's judgment approves the quality. The quality once fixed, then buy as low as it can be bought. This is our theory in buying. We have carefully graded the price on our entire stock, but not a single article is of poor quality. Each steamer from the Coast brings us new fresh goods.

THE MAUI WEEKLY BUDGET

POSTPONED CONCERT COMES OFF WITH SUCCESS.

Dance and Fireworks at Haiku—Camping Party—Good Roads—Polo Match—Society's Gossp.

Seldom are Maui people accorded such a treat as the concert of Monday evening. The evening was clear, and the roads good after the storm, and the church was well filled with an appreciative audience.

The program was very well sustained throughout, each participant being encouraged.

The singing of Mr. John Van Beuren and Mrs. Hair and the organ playing of Professor Ingalls were most enthusiastically applauded, showing a keen and thorough enjoyment. In her violin obligato, Miss Watson acquitted herself very creditably, adding much to the harmony of the accompaniments.

Something over \$80 was realized. Mrs. B. D. Baldwin's dance last Saturday evening was about the most pleasant affair of the kind this season.

Dancing to the music of a native orchestra was kept up until about 11:30 o'clock, with two intermissions. During the first intermission the fireworks, furnished by Hon. H. P. Baldwin, were set off, and made a brilliant display.

The second intermission was taken for refreshments of ice cream, cake, sandwiches and coffee. Strangers present were Mrs. Porter Boyd, Miss Rita Schmidt, Miss Mary McKinley, Messrs. Van Beuren and L. von Tempky. A most enjoyable time was had by all.

A camping party of thirteen went to Keanae Wednesday morning for an outing, and return tonight. The party is piloted by Mr. C. H. Diekey, and chaperoned by Miss Zeigler. The others, under their care, are Misses May Baldwin, Mary McKinley, Belle Diekey, Rita Schmidt and Ethel Smith; Messrs. Albert Waterhouse, C. W. Baldwin, Herbert Diekey, Will Arthur and Sam Baldwin. A glorious time is reported, made up of rambles and hunts in the woods, and bathing in the fresh and sea water. In spite of the unlucky number, a better time could not be asked for.

This afternoon a grand polo game occurs at Makawao. Many visitors are to be present, and an exciting time is expected. After the game Mrs. H. B. Bailey gives a poi supper at Kawaapae Resort, to which the District has been invited.

Congratulations are due Deputy Sheriff and Mrs. Scott of Wailuku. It is a boy and came early yesterday morning.

Wailuku Road Board make use of the sea water to wet down their Kahului beach road, dipping it in buckets. Much gravel has been put on it, and some day there will be a good road there.

The new road down Halehaku Gulch is open for traffic on the Peahi side, and driving over it is easy. The Lahaina road is also open, and it is "Drive to Lahaina" now.

Miss Deyo departed for her Hilo home last night, after several weeks visit with Mr. and Mrs. J. W. Colville, at Paia.

Mr. Van Beuren left on the Kinau, Tuesday morning, en route for his home in the States.

Next Tuesday Messrs. F. F. Baldwin, P. B. Alken and Dr. W. F. McConkey take the Matua Loa for Honolulu, all bound for the coast. Dr. McConkey goes over on the Australia.

AT THE HOTELS.

Arlington—W. Fisher, Heeia; William Stodart and A. E. Hine, Maui; Edgar Henriques, Macao; David Molison and John Hair, Chicago; George Chalmers and wife, Waimanalo; H. V. Patter, H. D. Beveridge, A. Chalmers and D. Ogilvy, Hakalau; L. A. Andrews and Gilbert F. Little, Hilo.

Hawaiian—Minister and Mrs. Hatch, Washington; S. N. Muhlhauser, Cleveland; Leverett H. Mesick, Santa Barbara, Cal.; Everett N. Bell, San Francisco; W. J. Morse, E. J. Rector and wife, C. S. Halloway and Edward G. Cooke, New York; M. Brosch, Kauai; W. A. Jones, Denver; Mrs. R. S. Spalding, S. N. Huntley and wife, Kealea; Bernice Huntley, San Jose.

A FUNNY LETTER.

Every family in the city which numbers among its members juveniles who believe implicitly in Santa Claus, will appreciate this letter by a little tot who has just mastered the art of printing out her letters.

"Dere Santa Claus:
"Give me a dol with red shos, a stov and a dol buggy and sum candy and a new brother and two bottles of Rainier Bere."

When asked why she wanted Santa Claus to give her two bottles of Rainier Bere, the little writer replied: "Because papa and mama say it is the nicest beer made." Criterion Saloon, phone 783.

AT AUCTION.

I will sell at public sale on September 29, 1897, if not sooner disposed of at private sale, all of the buildings known as Independence Park Pavilion. If so desired by intending purchasers, the large room may be sold separate from the main building.

Also at same time and place, 12 dozen folding chairs, tables, wash stands, water pipes, etc.

Terms: \$100 or less, cash. All over \$100, cash or good approved notes at ninety days, with interest at 8 per cent per annum.

The above buildings and material to be removed within thirty days from date of sale. Buildings open for inspection at all times.

J. N. WRIGHT.
Honolulu, July 13, 1897.

LAHAINA NOTES.

Lahaina, August 21.

The merry-go-round and phonograph entertainment was crowded last Saturday evening and again on Tuesday. Even Chinamen availed themselves of the opportunity of a ride on a wooden horse for 10 cents.

Yesterday evening the Kamehameha Vacation Club gave a concert in old Halehala. For want of proper advertising, the attendance was much smaller than it ought to have been. There is some talk of another concert tonight.

Last Thursday a family at Kaulapali ate heartily of cooked fresh squid and E. Devauchelle, who ate a portion of the head, was taken very ill. He remained unconscious for nearly an hour, but he has now recovered. Some time ago a native woman died from illness caused by eating a squid's head.

A party here is trying to make arrangements for the purchase of the machinery for making ice formerly used in the Hilo Boarding School. If successful he intends to supply Lahaina with ice.

Preparations are being made at Kaulapali for boring an artesian well for the Pioneer Mill Company.

BY AUTHORITY.

SALE OF LEASE OF LOT ON THE EAST CORNER OF VINEYARD AND EMMA STREETS, HONOLULU

On WEDNESDAY, SEPTEMBER 22nd, 1897, at the front entrance of the Executive Building, at 12 o'clock noon, will be sold at Public Auction the Lease of a Lot situate on the east corner of Vineyard and Emma streets, Honolulu, Oahu, the same having a frontage on Emma Street of 16.9 feet, and on Vineyard Street of 53.0 feet.

Term, 21 years.

Upset Rental, \$60 per annum, payable monthly in advance.

It being conditioned, however, that the said Lease shall terminate upon the death of Keawemahi, whose life interest has been assigned to the Government.

J. A. KING,
Minister of the Interior,
Interior Office, August 21, 1897.

On Saturday, September 11, 1897, at Court House, North Kohala, will be sold under special conditions of cultivation and improvement, ten lots in Awiwi, North Kohala, of from twenty to ninety acres each in area.

At the same time and place will be sold for cash Lot No. 80, Puna, Waimea.

Upset price, \$20.
For further particulars apply to Chas. Williams, Honokaa, Hamakua, or at office of Public Lands, Honolulu.

First

Last and all the time Hood's Sarsaparilla has been advertised as a blood purifier. The great cures by Hood's Sarsaparilla have been accomplished through purified blood. Scrofula, salt rheum, eczema, rheumatism, neuralgia, yield to Hood's Sarsaparilla, because it eradicates the

Last

Vestige of those impurities which have been developing, perhaps for years, in the blood. Hood's Sarsaparilla cures nervousness by feeding the nerves upon pure, rich blood. It absolutely and permanently cures when all other medicines fail, because Hood's Sarsaparilla

Always

Strikes at the root of the disease, which is in the blood. Thousands testify that they have been absolutely cured of blood diseases by Hood's Sarsaparilla, although they had become discouraged by the failure of other medicines to give any relief. No other medicine has such a record of cures as Hood's Sarsaparilla, because

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier.

STOVES

You have read a good deal lately about these most necessary adjuncts of every kitchen. Writing ads and putting a polish on one of them may be factors not to be overlooked; but when it comes to the real object of purchasing an apparatus, if a careful buyer, you will look for the stove that will do your cooking and baking thoroughly and economically. We believe we have a large variety of such stoves. Seventeen years experience with selling them justifies the opinion and your confidence will not be abused should you give us a call.

We don't want the earth, but we need your trade. Give us a call and examine our stock.

Weakened Vitality IMPOVERISHED BLOOD.

Read what Ayer's Sarsaparilla did for the Rev. Z. P. Wilds, a well-known city missionary in New York and brother of the late eminent Judge Wilds:

"I was for many years a sufferer from boils and other eruptions of a like nature, caused by the impoverished state of my blood. My appetite was poor and my system a good deal run down. Knowing the value of Ayer's Sarsaparilla, by observation of the good it had done to others, I began taking it. My

Appetite Improved almost from the first dose; then my general health improved, and now it is excellent. I feel a hundred per cent. stronger, and I attribute this result to Ayer's Sarsaparilla, which I recommend with all confidence as the best blood medicine ever devised."

For all disorders resulting from poor or corrupted blood and general debility, take

COULD SHE HAVE GUESSED?

Could she have guessed my coward care? I knew her foot upon the stairs. Her figure claimed my inmost eye. I only looked a lover's lie. I feigned indifference, felt despair.

My very blood leaped up, aware Of her free step and morning air. She raised her head. She caught my eye. Could she have guessed?

I faced her with a chilly stare, With words so common and so bare. Her whispering skirts as she went by Sweet every sense—a thrilling sigh! Ah, would her heart have heard my prayer? Could she have guessed?

—Elinor Goodale in New York Times.

LAKE HISTORY.

Most of Eastern Utah Was at One Time Under Water.

Lake Bonneville occupied nearly all of eastern Utah in the pleocene period. This lake had four periods in its history. In the first period of rainfall the lake gradually acquired an area of 19,000 square miles—filling the whole of the depression of eastern Utah with water to the maximum depth of 1,000 feet, until an outlet was found in the north in the Snake river valley, and through the Snake into the Columbia, and thus to the Pacific. Then the climate of the country changed and evaporation exceeded rainfall, and the lake steadily shrank until it became dry. That was the second period. The third was when the rainfall again increased until the lake assumed its old extent, and even exceeded it, and then had its outlet again to the north. After this came another period of minimum rainfall, when the lake again dried up, and Salt Lake is one of the remnants of old Lake Bonneville, but only one-twentieth its size. At the left hand side of the Wasatch mountains the lines of the old lake shore can be seen for many, many miles.

The Yellowstone lake is a rock basin. Not very long ago from a geological point of view it had a drainage the other way. The old outlet led southward across to Ocean pass, down through a comparatively insignificant river, into the Pacific. Its traces are still clearly visible, whereas the present outlet is north by way of the Yellowstone river into the Missouri, and thus into the Atlantic watershed. This is due to a change in the movement of the earth's crust, and the basin itself is partially due to atmospheric disintegration.

Eagle's Nest lake, in the Adirondacks, is a glacial lake, a rock basin lake. Such lakes are scattered through the Adirondacks by the hundred. There are more of them in that single region than in the whole south, because the south is of comparatively ancient topography, not having been glaciated.

Lake George is an ice basin—not a mere dam of marine material or anything of that kind. It is yet more beautiful and picturesque than Lake Champlain.

Schroon lake, in the neighborhood of the Adirondacks, is a rock basin, due partly to folding movements of the earth's crust, partly to the gouging out of the loose soil by the action of the great ice sheet.

Devil's lake, in Wisconsin, is a glacial lake remarkable for its circular form and for the very curious character of the cliffs that border it in many places.—Exchange.

Home Life Among the Indians.

One would hardly suppose that there could be particular rules as to the manner of sitting upon the ground. But here as in every other part of Indian life there is a rigid observance of custom. Men may properly sit upon their heels or cross legged, but no woman may assume these attitudes. She must sit sideways, gathering her feet well under her, and make a broad, smooth lap. When working, she may kneel or squat, and when resting she as well as the men may sit with legs extended, but at all other times men and women must observe the etiquette of posture distinctive of sex. To rise without touching the ground with the hand, springing up lightly and easily to the feet, is a bit of good breeding very difficult to one not to the manner born. Careful parents are particular to train their children in these niceties of behavior.

Among the Winnebagoes the little girls are drilled in the proper way of standing when under observation on dress occasions. Their position of hands and feet is also the proper one for the women in certain religious dances. While among the Sioux a mother with a good sized family of boys and girls propounded to me the question whether white women did not find their daughters more trouble than their sons. She was sure she did. "Look at those girls," said she. "I have their clothes to make, their hair to braid, and to see that they learn how to behave. Now, my boys are no trouble." As I glanced at the group of children, the glossy braids of the girls falling over their single smocks, and the boys, naked but for the breech clout, their miniature scalp lock ornamented with a brass sleigh bell surmounting a snarl of frizzy hair, I recognized the kinship of maternal perplexities to the world over.—Mrs. Alice C. Fletcher in Century.

REMARKABLE CURE OF CHRONIC DIARRHOEA.

In 1862, when I served my country as a private in Company A, 167th Pennsylvania Volunteers, I contracted chronic diarrhoea. It has given me a great deal of trouble ever since. I have tried a dozen different medicines and several prominent doctors without any permanent relief. Not long ago a friend sent me a sample bottle of Chamberlain's Cholera and Diarrhoea Remedy, and after that I bought and took a 50-cent bottle; and now I can say that I am entirely cured. I cannot be thankful enough to you for this great Remedy, and recommend it to all suffering veterans. If in doubt write me. Yours gratefully, HENRY STEINBERGER, Allentown, Pa. Sold by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

FOUND THE NORTH POLE.

The telegrams published Friday announcing the discovery of the North Pole by Dr. Frithjof Nansen created considerable surprise. It seems funny that Dr. Nansen should care to risk so much to find the North Pole, when he can get Rainier Beer, which is certainly more practical than the North Pole, by coming to Honolulu. Phone 783.

If you have not sufficient belief in the merits of your goods to advertise them, how can you expect the public to buy them.

LANDLORD'S SALE.

Public notice is hereby given that the undersigned, YUN KEE, on the 30th day of July, A. D. 1897, did distraint and levy upon and remove to a place of safe custody the following goods and chattels belonging to HO WAI KEE, for rent in arrears and due by said Ho Wai Kee to said Yun Kee, amounting to \$72 40, for certain premises situated in Honolulu, Oahu, to wit: 1 lamp, 18 tin pans, 4 wooden chairs, 1 clock, 3 bags of flour, 1 flour tub, 2 hand cars, 1 wooden table, 2 flour shovels and a lot of firewood.

And notice is hereby further given that said goods and chattels will be sold at public auction at the auction rooms of James F. Morgan, on Queen street, in said Honolulu, on THURSDAY, the 2d day of September, A. D. 1897, at 10 o'clock a. m. of said day, to satisfy the rent in arrears and due at the time of such sale, together with the costs of such distress removal, custody and sale.

A SHORRY NORTH HAWAIIAN GAZETTE

When a servant ushers a visitor into your parlor and disappears to summon you, leaving the caller alone, what does the caller do? Shut her eyes and wait your coming? Hardly. One sweeping glance and everything is noted. The design of your wall paper, color of your window curtains, the wood work, the matting, in fact, all the decorations received the closest scrutiny. Suppose they are all soiled. What is the caller's opinion? It's our business to make your home pleasant and pretty.

Right Side UP.

That's the way the sign at the new shop reads, and the business is right side up, and in the new quarters I have more room to work in, consequently feel that I can do more satisfactory work in both planning and executing.

If you have any serious intention of building a home or business block, economy demands that the work should be the best and that's the kind I prefer to do.

It's more satisfactory to you, and to me, to do work that will stand as a landmark.

LET ME DO YOUR FIGURING.

THE LOST JACINTH.

In one of the oldest houses in one of the oldest streets in the ancient city of Wornow dwelt the worthy burglar Philip Dorn, a jeweler and a cunning workman in gold and silver. It happened that one day a young country man came to his house with a stone which he had found in the neighboring mountains and had brought to Philip, as an honest man, and one whom he could trust. The jeweler took the stone and after examining it attentively said, with a careless air, that it was of small value, but that he would give him 20 thalers for it. The country man, who knew nothing of the value of precious stones, instantly agreed, and Philip paid him the money. As soon as he was gone, our jeweler took the gem, which was a jacinth of great value, and regarded it with a well satisfied smile. "This," said he, "is the very thing which the princess has so long desired. Ah, Philip, thou art a lucky fellow! Thy fortune is made. Who will now be able to stand against the jeweler Philip Dorn?" So, after again saying his bargain, he put it into a case in which he was wont to keep his most precious things.

In a short time another visitor came to Philip. He was a little man of well fed appearance, with enormous green spectacles, a high crowned hat and high heeled shoes. This person demanded a stone proper for a ring, such as a diamond or an amethyst. Philip took down the case in which he had deposited his precious jacinth and exhibited its contents to the stranger, who selected a fine diamond, for which Philip took care to ask double what it was worth; but the stranger paid him his demand without grudging, and went away, saying that he would soon see him again.

Philip replaced his case and set out to inform his patroness, the princess, of his newly acquired jacinth. He went to the palace, and, with many bows, informed her highness of his good fortune, and was desired to return next day and to bring the gem with him. After dispatching this business, he returned home and again took down the case to feast his eyes upon his jewel, when, on opening it, to Philip's consternation, no jacinth was to be found. In vain he searched every corner—the gem was down.

In great distress of mind Philip went out and was pondering an apology for the morning, when, on turning a corner, he felt someone tap him on the shoulder, and, turning round, saw the gentleman in the green spectacles, who with a knowing wink asked him what had become of his jacinth. The jeweler was rather surprised, as he did not remember having seen the stranger examine it, so he very naturally asked him if he knew anything about it. "That I do, Herr Philip."

The stranger informed Philip that he could not tell him at present, but that if he came that evening to the forest at the foot of the Schneberg mountain he would see, and perhaps regain, his jacinth. Philip promised to be punctual, on which the gentleman said adieu, telling him that he had some business to transact at Ratisbon, but would be back in time. Philip thought this rather odd, as that city is at a considerable distance from Wornow, but he said nothing; so, making a polite bow, he returned home.

He waited with the utmost impatience for the appointed time, and when at length it began to grow dark he set out with a beating heart for the rendezvous. Soon he approached the forest and saw the clouds eddying around the summit of the Schneberg. He went on his way rejoicing, and although at the first step in the wood he plunged up to the neck in a morass, so immersed was he in his delight at the prospect of regaining his jacinth that he scarcely noticed his immersion in the water. On he passed, through brush, through briars, frequently coming in contact with the trunks of trees, to the utter disfigurement of his coat and sober wig. The bushes seemed to get thicker and the pools deeper the farther he proceeded, and at length he was fairly brought to a stand by a broad sheet of water, the leaping of which was out of the question, even to a much better leaper than our friend Philip.

While he was standing considering what was to be done, he heard a voice crying: "Here comes my worthy friend, Philip Dorn! Prepare ye the way for him!" And shouts of laughter rang through the forest. At this Philip was sore amazed, but, seeing the pool disappear, he stepped boldly forward and found himself at the rock appointed as the place of meeting.

The gentleman in the green spectacles made his appearance on the top of it and greeted Philip with great politeness, and, although the rock was very precipitous, he walked down it with the greatest ease and stood at Philip's side. "Now," said he, "Herr Dorn, you will be good enough to follow me a little farther," to which Philip bowed assent, though he would rather have been excused. On they went for a considerable time, through a part of the forest that Philip had never seen before, till at length they reached a wilderness of rocks, which appeared broken from the mountain. They still proceeded, between two high walls of rock, till they came to a wide cavern, brilliantly lighted, in which Philip saw his jacinth suspended by a gold chain, which seemed to ascend to an immense height, as its other end was lost in the darkness. "Now," said his companion, "there is your jacinth. You have but to stretch out your hand and it is yours." Philip stepped forward and laid hold of his jewel and attempted to take it from the chain, when suddenly he felt the earth sinking beneath his feet, and attempting to withdraw his hand, found it firmly fixed to the jacinth. He turned round in agony to his conductor, and saw him standing laughing immoderately, with his spectacles in one hand and his eyes flaming like burning coals. "Hold fast, friend Philip!" he cried. "Hold fast!" and instantly vanished in the darkness.

The cavern closed with a fearful noise, and shouts of laughter, mingled with cries of "Hold fast, hold fast!" were the last sounds that were ever heard by the jeweler of Wornow.—New York News.

His Earthly Effects.

"Well, Uncle Jim," said the lawyer, "the doctor says there's no hope for you." "Yes, sah; dey tells me I gwine ter cross over." "Have you made your will?" "Yes, sah; I done will ter go." "I mean," said the lawyer, in an explanatory way, "have you got anything to leave?" "Oh, yes, sah!" exclaimed the old man joyfully. "One wife on de rheumatish!" —Atlanta Constitution.

Consistency.

Day—Why do you claim that that breastpin of yours is a jewel? Every one knows it's a paste.

Weeks—I can prove it. Paste has consistency and consistency is a jewel.—Exchange.

WILL NEVER BE RUN.

Proposed International Handicap Is Attractive, but Wholly Impracticable.

It is reported that next winter or spring there will be run in San Francisco at either the Ingleside or Oakland track an international handicap in which horses representing the United States, Canada, Great Britain and Australia will start.

There can be no doubt that as a "crowd puller" such a race would stand without an equal and if such an one ever does take place in San Francisco, or indeed any other of the large American cities—which is not likely—all records for attendance at one afternoon's racing in the United States will be broken. It is useless to speculate on the size of that crowd, for the race as contemplated will surely never take place.

To begin with, there is not in Canada a native bred horse good enough to cope with the American cracks, such as they are this year, and experience has shown that English and Australian horses are practically useless during the first year after importation into the United States from their insular homes. English horses brought to the United States while sucklings do very well, as was proved by Ogden last year, but if a horse is imported at that tender age and is reared under American conditions until he matures he ceases altogether to be English in anything but pedigree.

The object of an international handicap of the sort contemplated would be to determine as far as practicable the relative merits of the various methods of breeding, rearing, training and riding practiced in the three countries where the thoroughbred has attained his greatest stage of perfection—to wit, America, Australia and Great Britain—but the change of climate, or, rather, its results, would be so great a handicap to the imported animals that in all probability they would not have one chance in 10,000 to do themselves justice and in consequence the very object of the race would be defeated before the start was effected.—Horseman.

TIMELY TURF TIPS.

Dan T, 2:06 3/4, will be raced on half mile tracks exclusively this season.

Kentucky Union, 2:07 1/4, will probably be retired and bred next year.

The demand for high class carriages and road rigs in both New York and Chicago is very brisk.

The yearling filly Vesper Bells, by Advertiser—Beautiful Bells, is being handled at Palo Alto.

Allie Reed, the clever driver for Emmer Miller, Alliance, O., will be out with some green ones.

Fanny F, 2:28 1/4, by Montgomery, 2:21, is being driven on the road by Mark Ardis, Ewart, Mich.

The September stakes offered by the Taunton (Mass.) society failed to fill and have been declared off.

R. H. Baker, Kinderhook, Ill., is building a half mile track to be used largely for training purposes.

The 10-year-old stallion Exarch, 2:23 1/4, by Ambassador, owned by Kibbee & Miner of Bristolville, O., died.

Will Row at Philadelphia.

The Weld crew, which won the intermediate New England championship recently, will, if present plans are carried out, compete in the senior eight race of the national regatta, to be held in Philadelphia on Aug. 14. On account of the fine showing that the crew made a number of prominent Harvard graduates initiated a movement to provide funds sufficient to enable the crew to make the trip to Philadelphia. The response to the call for subscriptions was so prompt that it is almost certain the crew will compete for the national championship. The members of the crew will continue in light training during July and will about Aug. 1 assemble in Philadelphia, where quarters have been offered to them by several of the boat clubs. It is more than likely the University of Pennsylvania quarters will be selected. The crew rows practically the same stroke which Mr. Lehmann teaches and is coached by Pat Donovan, the old time oarsman. The Harvard men regard the New York Athletic club crew as their most formidable competitor.—New York Sun.

John L.'s Last Grand Rally.

It is hard to believe that John L. Sullivan, the old champion of the prize ring, is seriously preparing for another try for honors, and yet that is what he is doing. Still more surprising is the fact that William Muldoon, the famous trainer, who has him in charge, is quite confident that he can put the big fellow in winning shape.

"I have no doubt about John L. Sullivan's capacity to get into condition to fight again," said Muldoon recently. "Inside of a few weeks I shall know exactly what to do with him. He will not be handled as though he had been a prizefighter before, but will be trained to fight again right from the ground up, just as though he had never seen a ring before. It is understood that while under my instruction I am to be his sole adviser from first to last, and Mr. Sullivan has agreed to such an arrangement. Therefore I alone will be responsible for his condition when he is ready to fight again. It will require no less than six months to prepare him."

Effect of Bad Batting.

"Nothing will break up a baseball team and take the ginger out of it quicker than to have a couple of the best hitters on it fall off in their batting," says a well known western league manager. "When men have been accustomed to step to the plate and hit safely once out of three times at least, to have them pop up a fly or drive the ball straight at a fielder makes them disgusted with themselves. They have no more interest in the game and their listlessness affects the whole team." —Detroit News.

PURE AND SWEET

and free from every blemish is the skin, scalp, and hair of infants, cleansed, purified, and beautified by

Cuticura SOAP

The most effective skin purifying and beautifying soap in the world, as well as purest and sweetest for toilet, bath, and nursery. For distressing facial eruptions, pimples, blackheads, red, rough, oily skin, irritations of the scalp with dry, thin, and falling hair, red, rough hands with shapeless nails, and simple rashes and blemishes of infancy it is incomparable. Guaranteed absolutely pure by analytical chemists of the highest standing, whose certificates of analysis accompany each tablet.

Sold throughout the world. British depot: F. NEWBERRY & SONS, 1, King Edward-st., London. POTTER DRUG AND CHEM. CO., Sole Props., Boston, U. S. A. Send for our "Treatment of Baby's Skin," a book of 64 pages, fully illustrated, containing all that every intelligent mother should know about the skin, scalp, and hair, post free.

MOTHERS! To know that a warm bath with CUTICURA SOAP, and a single anointing with CUTICURA, the great skin cure, will afford instant relief in the most distressing of itching, burning, and scaly infantile rashes and irritations of the skin and scalp, and not to use them, is to fail in your duty. This treatment means comfort and rest for parent as well as grateful relief and refreshing sleep for child, and is pure, sweet, safe, speedy, and economical.

NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

The new Myrtle shell weighs 110 pounds.

Captain Murray's company will drill tonight.

The Stars and Regiments play next Saturday.

Mr. and Mrs. Philip Dodge are home again.

The Mameda is expected Wednesday afternoon.

Two weeks more and the school bells will ring.

"Mannie" Phillips will remain three months in California.

Jack Low bought "Lord Brock" at auction today for \$170.

W. H. Cornwell, Sr., will go to San Francisco on Wednesday.

E. A. Mott-Smith is on Hawaii attending to business matters.

Miss Adele Widdfield has taken a position in the foreign office.

The Sons of St. George will hold a meeting this evening at 7:30 o'clock.

Makania has petitioned Circuit Judge Carter to appoint him guardian of his children.

Gus Sehuman advertises a five room unfurnished cottage on South street for rent. Apply to C. Bellina.

Dr. George Herbert advertises a reward for the return of a dog. See advertisement on another page.

Mr. Bierbach, who came down from the Coast on the Mahican, will have a position in Hobron's drug store.

Farewell dinner and hop in honor of the Australian passengers at the Hawaiian hotel tomorrow evening.

Hawaiian Lodge No. 21 A. F. & A. M. will hold a special meeting this evening at 7:30 o'clock. Work in the third degree.

The Boyd-Gandall breach of promise suit is being heard before Judge Perry. The jury disagreed in the first trial of the case.

The Portuguese of Hilo adopted resolutions at a public meeting last week refusing to support A. B. Loebenstein for the legislature.

The Supreme Court has found a judgment for \$102 in favor of the plaintiff in the suit of K. S. Kojima against T. Mitamura.

Charles E. Rosecrans, who is securing subscriptions for the establishment of an educational paper at Lahainaluna, is in the city.

The Star Baseball Club very kindly loaned the use of its paraphernalia during the recent matches between the naval officers and business men.

F. L. Dortch will not leave Hawaii until February. He will go to the Klondyke district, where he will probably establish himself permanently.

The one dollar per week suit clubs conducted by Medeiros & Decker, the Hotel Street Tailors, are growing in popular favor and rapidly increasing in number. See ad on page 5.

E. Kailiska, the native charged with having stolen \$410 in coin, from the Steamer Mokolai, was committed to trial in the Circuit Court by Police Judge Wilcox this morning.

J. Emmeluth & Co. advertise that if you are a careful buyer you will look for a stove that will do your cooking and baking thoroughly, and in their large variety you can find just what you want.

On Wednesday, September 22, at the front entrance of the Executive Building, at 12 o'clock, noon, will be sold at public auction, the lease of the lot on the corner of Vineyard and Emma streets. Term of lease, twenty-one years.

The ship Lebu left Chili August 2, with a load of nitrate of soda for A. F. Cooke, and should arrive about September 1st. Parties desiring a large or small quantity can send in their orders now, and on the arrival of the ship will be delivered from the wharf in the order received.

The report in a morning paper, twice repeated, that there had been a heavy cane fire on Honokaa plantation, is denied by Purser Kelly of the Noeau. He says they have been burning a lot of trash, but there has been no damage to standing cane. The stockholders of the plantation are annoyed over the report.

MIGHT HAVE BEEN SERIOUS.

Cyclists and cycliennes of Honolulu should be extremely careful when riding alongside, and taking hold of the tramcars. It is a very dangerous thing to do and various small rocks may cause the front wheel of the bike to swerve and the rider cannot control the machine with one hand. What might have resulted in a very serious accident occurred to a young lady on the King street cars last evening. Prompt action on the part of the driver in stopping the car was all that saved her.

GAME OF CRICKET.

A cricket match was played on Saturday between cricketers "from the old country" and players from elsewhere, resulting in a decisive victory for the former, who scored 63 runs to 37 of their opponents. The features of the game were the batting of Rev. V. H. Kiteat, and the excellent bowling of Messrs. Wansley and Hatfield. H. L. Herbert and A. St. M. Mackintosh were the captains for "England" and "The World" respectively. A return match is to follow.

If you have not sufficient belief in the merits of your goods to advertise them, how can you expect the public to buy them.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

FOUND THE HEALTHY FOWLS.

Someone without the love of man or fear of the law has robbed McInerney's chicken coop on Judd street of twenty-seven chickens. The guilty party was evidently well acquainted with the premises, for he was very careful not to carry away the sick chickens or the younger fowls. A former Chinese employe is suspected. Detective Kaapa has been informed of the steal and suspicions.

NEW ADVERTISEMENTS.

Hawaiian Lodge No. 21, F. & A. M.

There will be a special meeting of Hawaiian Lodge, No. 21, F. & A. M., at its Hall, Masonic Temple, corner of Hotel and Alakea streets. THIS (MONDAY) EVENING, at 7:30 o'clock.

WORK IN THIRD DEGREE. Members of Pacific Lodge, Lodge 26 Progress and all sojourning brethren are fraternally invited to be present. By order of the W. M. H. J. BURNISTON, Acting Secretary. Honolulu, August 23, 1897.

COTTAGE FOR RENT. Five room unfurnished cottage on South street. Possession given September 1st. Apply to C. BELLINA, Club Stables.

LOST, STRAYED, OR STOLEN. A young carriage dog. White, well covered with black spots—one light and one dark eye. Answers to the name of "Spot."

Finder will be rewarded by returning to DR. GEO. HERBERT.

STERLING Riders Are Never Troubled With Broken Spokes.

Where Most Wheels Are Weakest the STERLING is Strongest.

No bend in STERLING spokes. Direct tangent, made possible by the celebrated patent Corrugated Hub.

Examine and Test the STERLING at the HOUSEHOLD SUPPLY DEPARTMENT OF

CASTLE & COOKE, Ltd.

F. C. ATHERTON, Agent

Hens Help

those who keep the hens. Honolulu people are great poultry eaters, but the price is too high for the man of average means to satisfy his appetite. The price is regulated by the supply and demand. DEMAND is ALWAYS STRONG while the supply is generally weak. LOOK AT THE CAUSE.

Young chicks are hatched and within a few days are covered with vermin. Disease follows and supply is nil. Price of broilers, consequently, goes up to \$1.00. Too much, you say. WHERE'S THE REMEDY?

MEDICOL EGGS.

They are guaranteed to drive away any mites, lice or any other vermin that may be on the fowl or in the nest. The shell of the MEDICOL EGG is filled with POWERFUL DISINFECTANTS and will prevent disease.

No more blind chicks. One Medicol Egg will answer for a nest egg and will bring beneficial results not obtainable in china eggs. One egg will last several months and retain its disinfecting power.

Good for song birds. A Medicol Egg placed in a bird cage will free the bird from parasites in a short time.

Mr. Allan Herbert of Honolulu is using these eggs with great success. They KEEP THE HENS HEALTHY. The cost is trifling—anyone who raises chickens will find ONE MEDICOL EGG better than a dozen spray-nd preparations and at one tenth the cost.

10 cts. each. A dollar a doz.

HOBRON DRUG CO. King & Fort.

H. W. SCHMIDT & SONS VON HOLT BLOCK, King Street.

Professor Hilgard

of the University of California, in his annual report for the year 1890, writing about

VERONICA MINERAL WATER, says:

"As a purgative this water is very effective, and not painful in the least. It was a medicinal water used by the Indians. The composition of this water is very unusual, in fact, the composition is very remarkable, as it contains nearly every chemical element of value to the human system, whether to become a part of the membranous secretions, the blood or the bones."

Veronica. Nature's own spring medicine, guaranteed to be bottled as it flows from Nature's laboratory.

Continuous Use. By its continuous use impurities of the blood are removed, the stomach and digestive organs are strengthened, the liver acts freely, and the skin and kidneys are kept in good working order.

The name "Santa Barbara" is known the United States over as a widely patronized health resort by invalids as well as by those who feel the need of a change of air and diet. The Veronica Mineral Water is bottled at Santa Barbara in its natural state, and if taken as directed, the

Veronica Mineral Water Company, guarantee a positive relief and cure.
