HAD A CHAMPAGNE THIRST

THIEVES-LOOT A PALAMA WINE CELLAR.

Gain Entrance by Breaking Through the Floor From Beneath—Detective Kaapa's Neat Capture.

For some time past the wine store-room of the late British Commissioner in Palama has been systematically looted, presumably by some young men in the neighborhood, who had nothing more to gain than to quench a champagne thirst.

Detective Kaapa was out in Palama last night on another case, and chanced to be in Robello lane about 2 o'clock this morning, when he met Duncan and Olds. The pockets of Duncan's trousers bulged out so suspiciously that the detective held him up and ordered him to disgorge.

Believing that the wine came from the deceased commissioner's cellar, Detective Kaapa at once visited the place, and gained admission through the servants, whom he aroused. Once within he found two boards in the floor so broken as to leave an aperture large enough for a man to crawl through.

Detective Kaapa then visited George Duncan's home, where he found one empty champagne bottle, of the same brand as that in the cellar. This afternoon he will secure an inventory of the wines and liquors in the store-room, and check it over to find out how much is missing.

SENATOR HOLSTEIN TALKS.

The Island of Hawaii is Vitaly Interested in Hilo.

In an interview with a representative of the Hilo Tribune, Senator Holstein, who was in this city last week, said:

"I think it is an outrage the way the Hilo wharf is jugged, and I think it is a mistake that will react upon those who feel interested in causing this delay. The resources of this island demand and will compel first class harbor facilities in Hilo bay.

"The material progress which your people have made shows them to be an exceptionally bright and far-seeing set of men. Your educational system is very good and surprises me at its extent. I was especially pleased to see that you are making an effort to teach sewing and handicrafts looking at the practical rather than the theoretical side of education."

ALOHA OE, VISITING CONGRESSMEN

Annexation Will Come in December, No Matter What May Be Said.

CONGRESSMAN CANNON'S VIEWS ON HAWAIIAN AFFAIRS

Congressmen Return to the States Determined to Help the Good Cause.

The quartet of American Congressmen are bidding farewell to their island acquaintances today. The past eight days have been one continual round of pleasure for them and they take their leave with much reluctance.

The ladies who are in the party would like to have another week or more of Hawaiian life, but the Congressmen find that it is impossible for them to extend their time. Congressman Cannon of Illinois has urgent business matters to attend to at home and the other gentlemen have taken a much longer vacation than was originally intended.

It was quite late in the afternoon yesterday before the party returned from their trip to Pearl Harbor, Ewa and Oahu plantations, and the luau at Waipio. A grand band concert and dance at the Hawaiian hotel and an exhibition drill of the First Battalion of the National Guard of Hawaii, under Major J. Walter Jones, were the chief features of last evening's entertainment in their honor.

The distinguished visitors were on the go bright and early this morning. Shortly after 8 o'clock they left the hotel and rode to the police station and a thorough examination of the place was made. The Oahu prison was then visited and was gone over from one end to the other. They spoke very highly of the neatness and sanitary arrangements in both institutions.

A stop was made at the Honolulu Iron Works establishment on the return to the hotel. Manager Hedeman and J. A. Kennedy took the party all through the plant. Marshal A. M. Brown had the visitors in charge during the morning. The afternoon was occupied largely in shopping and preparing for the week's voyage before them.

Congressman Tawney went off on board the Bennington at 11 o'clock to have a social chat with his old friend, Captain Nichols. At 1 o'clock the Congressional party went to the Ballou home on Judd street, where they took lunch with Senator Morgan, the Misses Morgan, Mr. and Mrs. Ballou and Miss Ballou. The party will remain at the Ballou home until 3 o'clock, going direct to the steamer from there.

"That annexation will come," said Congressman J. G. Cannon, of Illinois, "is assured. Under certain circumstances I will vote for it, but in others I might vote against it, but it will come all the same. The public of the United States is for it."

"The material progress which your people have made shows them to be an exceptionally bright and far-seeing set of men. Your educational system is very good and surprises me at its extent. I was especially pleased to see that you are making an effort to teach sewing and handicrafts looking at the practical rather than the theoretical side of education."

It is understood that the syndicate which owns the land has offered a portion of it which commands the entrance of the harbor for the sum of \$1 and has also made a reasonable proposition with regard to the sale of a larger portion if necessary.

"How do I stand on the annexation question? I stand solidly in favor of it," quickly replied Congressman A. S. Berry, who hails from Kentucky. "I was favorable to political union before I came here and my visit has only strengthened me in my position. I feel confident that annexation is bound to come during the next session of Congress. The Hawaiian Islands will certainly be annexed in some manner."

CYCLOMERE RACE TRACK

JUDGES SELECTED—OFFICIALS OF TRACK SECURED.

Possible Races in the Near Future—Grand Opening Night Will Take Place in Middle of October.

The officers who will be in charge of the Cyclomere race track during the fall meet were made known today. The judges selected are Thomas Wright, James David Kawanaokua and George Harris. The time keepers are Frank Krueger, Chris Willis and H. J. Wooten. Ed Lowe is referee, James Harbert starter, Charles A. Bon umpire, and Fred Angus scorer and announcer.

The management has yet to choose the clerk of the course and his assistant. These appointments will be made this week. The meet was scheduled to open on October 2, but as the electric lights did not arrive when expected Manager Clement is desirous of postponing the meet until the latter part of the month. The order for the lights could not be filled in San Francisco, and it was necessary to send on to Chicago for them. They will reach Honolulu on the next Australia arriving on October 12.

These plans will be upset should the Bay City wheelmen, who have signified their intention of participating in the meet, arrive on the Mariposa tomorrow or Friday. The management has no word direct that they will come but a letter received on the Australia by H. E. Walker from President Lozier of the Cleveland agency stated that the boys would come down this month.

In that event Manager Clement will have the Hawaiian Electric Company put in temporary lights. John S. Johnson and Parsons, the Australian wonder, are on the Mariposa, en route to the Colonies. They could be induced to stop over until the next boat to live the racing. The track is about completed and carpenters are at work erecting a grand stand. The track is one-third of a mile and has a hard clay surface, which is considered quite fast.

The grand stand will have a seating capacity of 1,200. There will be a judge's stand and press stand, as well as boxes for eight people. It is intended to sell these boxes at auction for the opening night.

The grounds will be opened for public examination just previous to the opening day of the meet.

HAS A YACHT COMING.

The Doric Will Bring a Fast Yacht for Harry Waterhouse.

Harry Waterhouse expects a new second class yacht on the Doric due from Japan tomorrow. While Senator Waterhouse was in Yokohama this summer he gave orders to have a yacht built along similar lines to one in the Yokohama harbor, which was the fastest yacht in that part of the country.

The yacht is peculiarly shaped, being 18 feet water line and 26 feet over all. The beam is 7 feet wide. Harry will invite T. W. Hobson, owner of the Clytie, a new yacht built in the States, and the owners of other second class yachts for a friendly race when his yacht arrives.

DEATH OF MRS. KANOA.

Mrs. Kaleipua Kanoa, widow of the late Paul P. Kanoa, former Governor of Kauai, died at her residence on King street, last evening. This lady had been ailing for some time and had been confined to her bed for three weeks. She was a native of Hilo. From her position as the wife of a prominent Hawaiian she dispensed much charity among her people and was very highly thought of by them.

PICTURESQUE MOANALUA

MINISTER DAMON'S BEAUTIFUL COUNTRY HOME.

A Large Reception Hall is Shortly to be Built and Considerable Improvements Made—Future Hospitality.

There are many beautiful spots on Oahu, but there are none which can surpass Moanalua, the country home of S. M. Damon, Minister of Finance. Ever since Mr. Damon came into possession of this property, he has been constant in conducting improvements about the place and at the present time he is having important work done in this direction.

The gardeners are engaged in laying out flower beds in various places about the premises. Trees and shrubs are being planted and walks will be made. Mr. Damon is contemplating still further improvements which are extensive and will add much to the beauty of the place. A large reception hall will be built and one or two other buildings erected. These improvements will not be carried out until the present political agitation has been determined.

While Mr. Damon was abroad this summer he gathered many ideas which he will eventually endeavor to put in at Moanalua. In the far eastern states he found many beautiful country places, but it was in England that he saw them laid out to perfection. The owners of these places entertain their friends in a most homelike manner. Hundreds of people can call and the host and hostess can be at ease in entertaining them, for after the reception the guests will seek their own pleasure out on the lawn, among the trees and flowers. Mr. Damon attended a public reception at a country home while in England at which there were 6,000 people. Yet there was not the slightest jam and one would hardly realize that such a vast throng of people were on the place.

It will not be long before Mr. and Mrs. Damon will be in position to receive their friends in a similar manner at Moanalua. It is certainly an ideal place, accessible over one of the finest driveways on the Islands.

SAGACITY OF BLOODHOUNDS.

Suggestions for Course of Training Mr. Lowe's Hounds.

Editor Star: The following incident will show the immense sagacity of the blood hound. Having read your account of Jailer Lowe's animals I send the corroborating evidence, which was given to me by the servant of the man whose life was saved. It must be true for he showed me a piece of the wire which gave the bloodhound the scent. He said:

"Master had very great misfortunes in the city—ruined. Rushed to telegraph office and sent home wire: 'Everything lost. I go to hide myself away and commit suicide.—Mudkins.' Then he rushed off. Wife distracted, of course. Didn't know what to do, or where to go, to stop suicide. Bright idea: let bloodhound smell telegram. Devoted creature sniffed it, and with a delighted howl set off running to postoffice and thence under telegraph wires all the way to the city. Ran with nose in the air smelling wires thirty feet up by which message had come. Consequently kept running against telegraph poles, but didn't mind that. Arrived at postoffice, got on his master's tracks there, and ran him down at last in a cellar, about to blow his brains out. Faithful hound flung itself on unhappy master, snapp'd revolver out of his hand, bit all the bullets out of cartridges and swallowed 'em. Master finding himself with only blank cartridges gave up idea, went back to office, and found it all a mistake."

NATURALIST.

THE DRS. WAUGHOP. The Drs. Waughop, father and son, have their card in this issue. Dr. Waughop, Sr., has been Superintendent of the Western Washington Hospital for the Insane, near Tacoma, for nearly seventeen years.

A SPASM OF SENSE.

Now, let's have a short spasm of common sense. If people who have been chronically sick are so soon and so easily cured by our preparation, why were they not cured by some of the medicines they took before? Because medicines are like novels and songs; once in a while a good one in tens on tons of poor ones. But what is WAMPOLE'S PREPARATION.

made of that it should do what others cannot? The answer is simple and straight. It contains the nutritive properties of Pure Cod Liver Oil, extracted by us from fresh cod livers; the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry Bark, combined in a new and scientific way. It isn't a lot of incongruous ingredients shaken together, but chemically united, so as to make one thing of unprecedented potency. It is pleasant to the palate as honey and cures Fevers, Scrofula, Rheumatism, Stomach troubles, Bowel Complaints and Debility, by expelling the deadly disease germs and filling the blood with rich and healthy elements such as nature requires. Try it and see what a remedy that is abreast of the age, can do for you. It is a substitute for solid food. There is nourishment in a single sip, for every dose is effective. You cannot be disappointed in it. Sold by chemists everywhere.

WHAT SAILOR MEN TALK OF

STEAMER JAMES MAKEE MAKES FAST ROUND TRIP.

Clever Scheme Devised by Port Surveyor—Sugar Prospects—One Day's Gossip on the City Front.

The S. S. Mariposa is due from the Coast tomorrow.

The Alden Besse will have her cargo all out by tomorrow night if all goes well.

The S. C. Allen is having a new suit of grey put on while she waits for sugar.

The Albert is lying at the Wilder waiting for sugar. She is getting a new dress of black paint.

The Australia finished taking in her outward cargo this morning, and will get away for the Coast on time, at 4 o'clock this afternoon.

The steamer Hawaii is being thoroughly scraped preparatory to a new dress of paint, and the carpenters and machinists are busy between her decks overhauling and repairing.

The expected steamship Aorangi did not loom up this morning, and it is not likely now that she will make port before tomorrow at least. Indeed, some folks expect the Warrimoo in ahead of her.

The Lebu went to the Irngard dock this morning to discharge her nitrate cargo. Captain Sandison does not know where he will go from here, but expects orders by the next English mail. The Lebu is an old time iron bark. It is her first visit here, and she has excited a good deal of attention.

checked against his own figures and from Kapua this morning, after a remark— quick trip. She sailed from here at 4 p. m. Monday, discharging 100 tons of coal at Kapua and got back here by 9 o'clock this morning. She will sail again for Kapua at 4 o'clock this afternoon, taking up 100 tons of coal.

The S. N. Castle will probably get away Sunday morning, as Captain Hubbard expects to get enough to top off his sugar cargo from the J. A. Cummins and the Helene. The latter steamer is expected in from Hawaii ports today or tomorrow. The Castle will probably also have a few tons of rice.

Port Surveyor Stratmeyer has just issued a new set of discharging books that are models of neatness and brevity, and fill a long felt want. Under the old system an inspector discharging a vessel had to copy in a note book every permit brought to the dock, checked against his own figures and then laboriously index the book. In discharging a vessel like the Australia it was a big task to do this copying. Surveyor Stratmeyer has arranged a book in such a manner that the inspector, on receiving a permit, can paste it in his book, and commence at once to check against the figures it contains. The device saves the inspector an enormous amount of labor, the draymen's time and lots of profanity.

WAS NOT A SUCCESS.

Anti-Annexationists Meet in Hilo and Nothing is Done.

An anti-annexationist meeting was held at Hilo, in the Salvation Army hall one day last week that could not have been very satisfactory to its projectors, says the Tribune.

The male native was conspicuous by his absence and a portion of those present made themselves prominent, afterwards, on the outside, by declaring they were in favor of annexation, if it means a continuance of the present prosperity. The meeting was called by some ladies, natives, who have also been circulating petitions remonstrating against annexation and the same have met with but indifferent success. Viewed from one standpoint the efforts of these estimable ladies is not a creditable one, but from every point of view it is misplaced and misused zeal. The annexationist is not a conqueror, nor does he feel an antagonism against the Hawaiian. Annexation is meant to be a sheet anchor for both of them and it is that and nothing more.

Hawaiian
Electric
Company.

The cleanest, brightest and really
 in the long run, the cheapest and best light
 for use in the family residence, is the incan-
 descent electric light. Safe; nothing could
 be safer. A few days ago a prominent gen-
 tleman of Honolulu came rushing down to
 the office of the Electric Company and said:
 "Give me figures for wiring my house, and I
 want it done at once; no more lamps for me.
 Last night a lamp tipped over and it came
 so near setting fire to the house and burning
 my children and I take no more risks."
 This is the sentiment of quite a number in
 the past few weeks, who have ordered their
 houses fitted with the perfect light.
 Just think it over and make up your mind
 that you want the best and safest light; send
 for the Hawaiian Electric Company and tell
 them what you want.

We have a complete stock of everything in
 this line and have just received a lot of the
 very latest designs in chandeliers.

VETERAN ACTRESS GONE

SKETCH OF THE LIFE OF THE
 LATE MRS. JOHN DREW.

Appeared on the Stage When She was
 Eight Years Old, and Held Her Place
 for Nearly Seventy Years.

The following account of the death
 of Mrs. John Drew is taken from the
 San Francisco Argonaut:

Mrs. John Drew, the veteran actress,
 died on August 21st at the Bevan
 house, Larchmont. She was taken sud-
 denly ill on August 29th, and her fam-
 ily physician, Dr. Jackson, of New York,
 was summoned. He found Mrs. Drew
 suffering from heart disease. The next
 day she was somewhat better, but af-
 ter midnight she grew steadily worse,
 and the next day was taken with con-
 vulsions. Dr. Jackson, Mrs. Margaret
 Stemerwald, niece of Mrs. Drew, and
 her grandson, Lionel Barrymore, were
 present when she died. John Drew,
 who was playing at Salt Lake City,
 cancelled his engagement and hastened
 to New York.

Mrs. Drew was married to John
 Drew, the famous comedian, in 1850,
 and was the mother of John Drew,
 the late Georgia Drew-Barrymore, and
 Sidney Drew, who is appearing in
 vaudeville in England. She supported
 the elder Booth, Forrest, Macready,
 Edwin Booth, Florence, Clarke and
 Owen, all of whom have passed away,
 and Jefferson and Coudlock. She won
 laurels as Ophelia, Desdemona and as
 Pauline, but her fame rests largely on
 her presentation of old comedy parts,
 and her playing of Mrs. Malaprop in
 "The Rivals," was regarded as unsur-
 passed.

An exchange says: Mrs. Drew was
 born in London, England, January 10,
 1820. She was the daughter of an En-
 glish actor named Lane, and first ap-
 peared in child's parts when she was 5
 years old. She came to this country
 with her mother in 1828, acted in New
 York and Philadelphia, and then vis-
 ited Jamaica and other West India is-
 lands, returning to the United States
 in 1832. She began playing in New
 York again in 1833, and 1834, at the
 age of 14 years, essayed the part of
 Julia in "Hunchback," at the Boston
 Theater. In 1835 Miss Lane went to
 New Orleans where she played Lady
 Teazle in the "School for Scandal,"
 and other high comedy parts, as she
 put it, "being leading lady at the pay
 of \$20 per week."

In 1836 she married Henry Hunt, a
 veteran English opera singer, and in
 1842 appeared at intervals in New
 York City a member of the stock
 companies of various theaters, sustain-
 ing parts in domestic dramas, bur-
 lesques and light comedy. In 1847 she
 went to Chicago, Milwaukee, St. Louis,
 Mobile, and New Orleans, where to
 quote her, "cold tea and molasses and
 water were provided as beverages in
 places where the business required the
 actors to partake of liquid refresh-
 ments, the management for once tak-
 ing high temperance grounds."

After separating from her first hus-
 band in 1848 she married George Mos-
 sop, a young Irish comedian, who died
 in 1849. She married John Drew in
 1850. Meanwhile she had been play-
 ing with acceptability at the Park
 theater in New York and elsewhere.
 Mr. and Mrs. Drew were subsequently
 connected in a managerial way with
 the Arch and National theaters in the
 city of Philadelphia. In recent years
 Mrs. Drew's most notable work was
 in the character of Mrs. Malaprop in
 the company which included Messrs.
 Jefferson, Florence and Coudlock.
 Her last engagement was in the
 company playing "The Sporting
 Duchess." Her home for some time
 past has been with her son, John Drew
 at Larchmont.

FAMOUS DENTIST.

Dr. Evans, the famous American
 dentist, is now 75 years old, and is
 worth \$35,000,000. About \$5,000,000
 worth of property is in New York city
 real estate and the remainder in Paris
 and elsewhere. This fortune has been
 gathered since Dr. Evans first
 went to Paris from Philadelphia in the
 forties.

During the empire of Napoleon III
 his fame as a dentist was world wide.
 In that capacity he served Napoleon,
 the Empress Eugenie and all the mon-
 archs of Europe, except Queen Victoria
 and the present Sultan of Turkey.
 Victoria's children and the present
 Czar of Russia and children were his
 patients.

Dr. Evans has orders and decora-
 tions innumerable. It was in his car-
 riage that the Empress Eugenie es-
 caped from Paris after the battle of
 Sedan.

RUSSIA TO CONTROL HER TRADE.

WASHINGTON, Sept. 1.—Consul
 General Karl at St. Petersburg in-
 forms the State Department that a
 measure has been sanctioned by the
 Emperor of Russia providing that af-
 ter January 1, 1900, all coastwise trade
 of Russia must be carried in Russian
 vessels with the exception of salt from
 the Black and Azov ports on the Bal-
 tic. A similar law was passed in 1830,
 but remained a dead letter.

FOUR FRIENDS.

Messrs. J. G. Cannon, Berry, Loudenslager and Tawney, the four Congressmen who have been paying us a brief visit, return on the Australia with a very different idea of Hawaii to what they came with. Read and inquire as you will it is impossible to thoroughly realize the various conditions of a place without seeing it, and the Congressmen have seen it for themselves and return well supplied with information.

Looking at the practical side of things, as these practical men have done, they have been much struck with the undeveloped agricultural resources of the Islands, and especially of Hawaii. A look through the coffee plantations on the road to the Volcano effectually dissipated an idea which is constantly being thrust forward against us, which militates against our progress and is often used as an argument against annexation, and this is that the American or the European can not work on the Islands, performing the physical labor which he must in agricultural pursuits. The Congressmen on this trip to Oloa saw the Anglo-Saxon at work, attending to his own plantation which his own hands had made. The statement, which by reiteration, has almost become an accepted fact was controverted in an instant. That talk with the men who are actually working the plantations was worth reams upon reams of articles saying that the Anglo-Saxon could labor on the Islands, and labor successfully, and keep in robust and sturdy healthy. He stood there, and there was no arguing him out of existence.

With the knowledge gained by their short study of the Hilo section of the Island Representative Cannon does not hesitate to say that thousands of homes can be made there by American citizens, who would take up small farms and form the backbone of a sturdy and a thrifty population. But the Hilo district does not represent all our undeveloped lands, every part of the Islands has thousands upon thousands of acres which can be developed and furnish homes and a good living to those who are honestly seeking for them. When any of the Congressmen talk upon Hawaii the facts that they have learned here will be told from the floor of the House, and the opinions of men of such calibre, founded upon facts that they have themselves collected, will have a very distinct influence upon the annexation question.

All the Congressmen agree upon the wonderful energy displayed by the Americans and Europeans in developing the Islands as they have been developed. All agree in the menace with which the East threatens this little spot, and all agree that this must be fostered and protected. The friends of annexation both here and in the United States have been recruited by four powerful men. They return to their native land satisfied that the only salvation of Hawaii is annexation to the United States, and they will use their best endeavors to further it.

PEARL HARBOR.

"The finest sheet of water in the world is Hampton Roads," said said Congressman Cannon yesterday while sailing over Pearl Harbor, "of that there can be no doubt, but after that there are very few finer pieces of water than what we are now sailing over."

The visit to Pearl Lochs made patent to the Congressmen and to Senator Morgan how important a harbor there is in the mid-Pacific, and the desirability of fortifying it and fitting it for ships of war was

realized by the party. Naval men have long desired to have Pearl Harbor made a naval station, and the matter has time and again come before Congress, but up to the present no practical use has been made of the concession granted by the Hawaiian Government in 1876, beyond granting money for surveys.

The careful work done on the bar a couple of years ago is now being supplemented by a thorough survey of the harbor, with soundings taken almost at every few yards, so that the bottom of the Lochs can be read as plainly from the new chart as the leaf of a printed book.

But however much naval men have urged the occupation of the Lochs and the establishment of a naval station there, it requires time and patience to convince the conservative landsman of the desirability. The opportunity offered yesterday to the four Congressmen of actually viewing the spot and steaming up and down the Lochs and poking into the various small bights and bays that indent the shores was an object lesson that men of their quick minds readily assimilated. The possibilities of defense were discussed, the positions of batteries and dry docks were considered, not theoretically, but practically, with charts laid out, and the tree covered islands and peninsulas in sight.

From this trip undoubtedly much information will be given to the Senate and to the House, which will have the greater strength in that it comes from personal experience and not from mere book knowledge, for the spoken word has ever greater force with assemblies than the written.

When the annexation debate comes on in the Senate we may feel assured that the knowledge acquired yesterday will have its effect upon that debate, and that along with the knowledge of Pearl Harbor will also go the knowledge acquired of our institutions, our commercial and agricultural progress, our resources and our need. It will be clearly shown that no other power but the United States should have these advantages, and that without annexation there is the greatest fear that they might drift, without any actual aggression, into the power of the East, and that the flag with the rising sun in its center will be floating over the pellucid waters of Pearl Harbor, instead of the liberty protecting Stars and Stripes.

When the annexation debate comes up in the Senate it is very likely that there may be a protest lodged by the British Government, but the object of the protest is already known. Great Britain wants an island to land the cable on, and the protest will disappear if Necker Island can be secured. It is understood that there has been considerable correspondence upon the matter already. Those Royalists who built upon this possible protest will be grievously disappointed, the object of it is by no means to support Royalty, but to obtain a necessary station.

The Royalist petition which is going the rounds is being signed by women and children, as The Star foreshadowed. Its value as a political document will be absolutely nil. Unable to get upon a respectable sized meeting the Royalists have had recourse to juggling with names on paper, but the people to whom this will be presented are not to be taken in with such a palpable effort to conceal the utter inability of the noisy foreign Royalists to make out a case.

We can afford to say: "Get every sort of Schilling's Best tea of your grocer and get your money back on what you don't like."

Timely Topics.

SEPT. 15, 1897.

Annexation is near at hand we are told, and the arrival of Senator Morgan and Representatives Cannon, Loudenslager, Berry and Towney seems to point in this direction.

With annexation an unprecedented wave of prosperity is expected to sweep over the land, bringing with it dinners and feasts and merry making. We have quietly been preparing for this event, and laid in a stock of articles useful and ornamental for the festal board.

Our stock of **Haviland China** is more complete than ever, and if any set or piece is broken by careless servants, you can always have it replaced from our stock.

Sterling Silver Ware is indispensable to a well appointed dinner table. We have just received a new invoice of sets of Oyster Forks, Berry Spoons, Soup Ladles, Lettuçe, Meat and Pickle Forks, etc., etc., which are sold very cheap.

In **Plated ware** we carry a full line of Spoons, Knives and Forks, Salvers, Tea and Coffee Sets, Coffee, Chocolate and Egg Spoons, Butter Dishes, Spoonholders, Casters, Water pitchers, Fruit and Butter Knives, Fish and Pie Sets, Cheese Scoops, Sugar Shells, Crumb Trays and Brushes and other articles too numerous to mention.

Also **Celluloid and Aluminium Comb and Brush Sets, Rookwood and Cut Glass Ware**

Novelty Week.

The smokeless stove, on which water is boiled in our show window, has been a great attraction for several days to students in philosophy. The Jewel is a good stove, anyway.

The special subject for the people this week is not stoves. That subject is a daily one. This week you will have novelties of all sorts.

This is the season when the hens go on strike and the price of eggs goes skyward. Hens want a little encouragement now and then, and the best thing known to science is green bones. But they must be cut up fine. We have the best green bone cutter in the world.

Another novelty is the soap saver, made of re-tinned wire, basket shaped, with long handles. This is the best soap known, and we have three sizes: They are cheaper than dirt and much more beautifying.

Dripless tea and coffee strainers are new and very serviceable. There's a cut-off attachment which prevents coffee or tea from dripping on the table cloth after the cup is filled. Very cheap, these, and pretty, too.

A six-knife Victor meat chopper for a quarter seems like a dream, but it isn't. We sell them at that price, and we sell the holdfast dust pan—the best you ever saw.

The latest in toasters is the revolving star. Enables the cook to toast five pieces of bread at once. Try one.

A STORE CHANGES HANDS

E. A. JACOBSON FINANCIALLY
EMBARRASSED.

W. R. Counter is in Possession of the
Fort Street Jewelry Establishment
—A Big San Francisco Creditor.

M. R. Counter, who has for the past
year conducted a watch repairing es-
tablishment in connection with E. A.
Jacobson's jewelry business, has taken
entire charge of the store.

On April 30 of 1897 Mr. Jacobson
sold his business to J. A. Magoon, the
attorney, and on January 5, 1897, Mr.
Counter purchased the business from
Mr. Magoon. It is under this bill of
sale Counter has taken possession.

It is likely that there will be some
litigation over the matter. J. H.
Green, representing a San Francisco
jobbing jewelry establishment, came
to Honolulu on the last Australia to
protect a \$4,000 claim which his es-
tablishment holds against Jacobson.
Mr. Green returns on today's boat, he
having placed his account in the hands
of Paul Neumann, Attorney A. S.
Humphreys represents Mr. Counter.

Mr. Jacobson is quite well known
among the business men of this city.
He is first lieutenant in Company B
and has been identified with the mili-
tary for several years. He is indus-
trious and has lost his business owing
to circumstances. Had he been able
to carry a large stock of goods he
would have been able to have estab-
lished a good business, which would
have enabled him to get on his feet.

DIRECT TO KLONDIKE.

Everybody in Charleston, S. C., who
wants to go is going to be afforded an
opportunity of going to Klondike.
They won't have to go scrambling all
over the country to get there either,
but will merely have to board a swift
and comfortable steamship right at
one of the docks on the Cooper river,
and get ashore again at Dawson City.

They propose to charter a big ocean
steamship and bring her to Charle-
ston. They have not picked out the
ship yet, but they have been in cor-
respondence with leading ship own-
ers, and they have several vessels in
mind, any one of which they can get,
and every one of which will serve
their purpose well. The ship will sail
from Charleston on or about February
15th, and will go to St. Michael's by
way of Cape Horn. At St. Michael's
the gold hunters from Charleston will
be placed aboard smaller vessels and
will be towed by tugboats directly to
Dawson City, which is right in the
heart of the Klondike region.

NEW DIRECTORY.

Godfrey's Ready Reference and Di-
rectory of Voters, for 1897-1899, is just
published and the contents will be
found, as usual, handy for reference
both before, during and after election.
The general contents are an alphabet-
ical list of voters with the occupations
and location of residence indicated, a
compiled list by precincts, by which
one may designate his neighbors, and
an excellent class of advertisers. The
book is on sale at the newsdealers.

TO WHOM IT MAY CONCERN.

The undersigned wishes to state
that he still owns the tailor shop lo-
cated at 48 Nuuanu street, Ewa side,

HONOLULU, H. I., Sept. 8, 1897.

MR. BRUCE CARTWRIGHT, Agent
for the Preferred Accident Insur-
ance Company, of New York.

Dear Sir—I beg to acknowledge the
receipt this day, through you, of the
Company's draft in settlement of
claim for loss of time caused by an
accident to me that occurred on May
9th last.

As proofs of claim were not deliv-
ered to you here until the 24th of Au-
gust, the dispatch with which draft
in settlement was returned commends
the Preferred Accident Insurance
Company to the consideration of all
desiring insurance of this kind.

You inform me that my Policy re-
mains in force for the original amount
and conditions as long as annual pre-
mium is promptly paid, and I now
hand you herewith renewal premium,
which becomes due on the 13th inst.

Thanking you and your Company for
the prompt attention to my claim,
I remain, yours truly,
THEO. F. LANSING.

That Tired Feeling

Tired Feeling is exceedingly common and
dangerously significant. It is a warning
which must be heeded, or, as with the
express which fails to regard the danger
signal, disaster must follow. It is a sure
indication of thin, weak, impure blood.
It is certain admonition that the blood is
not properly feeding the nerves, tissues
and organs of the body. Weak, nervous,
men and women are found everywhere.
Men strive too hard to "keep their busi-
ness up," women work too much "on their
nerves," all have too little sleep, there
is excessive drain on strength and nervous
energy, and all complain of that tired

Worth It.

Edwin Forrest, the renowned trage-
dian, was showing a "super" how to
do a small part, and at last exclaimed,
in despair: "Can't you do it as I do?"
"No," said the super, "if I could, do
you suppose I would be working for
five dollars a week?"

This illustrates the trouble with the
low prices of many articles of furni-
ture. If they were well made do you
think they would be offered at kind-
ling wood prices?

It is our desire to offer you goods at
prices that are consistent with the
quality, and we take pride in scouring
the Eastern markets for the

BEST UP-TO-DATE FURNITURE

made to give service and keep their
new look, at prices that meet with
popular favor by those who know and
appreciate a good article.

Singer Machines

The International Jury of Experts at
the World's Columbian Exposition re-
ported on this machine as follows:

"It has a positive motion obtained
without gears or levers, avoiding
vibration or torsion, and producing
a uniform stitch at all speeds. This
combination enables use of a shorter
needle than is practicable on other
vibratory shuttle machines. The
peculiar formation of shuttle-race
prevents catching or rubbing of
thread between shuttle and race
and enables easy delivery of thread,
which is perfectly controlled by
evenly balanced tensions."

Aluminum Lacquer

Is what you want to touch up the places on your wheel where the rickie has worn off. It covers rust or anything, and can be used on new or old spokes. One coat will last a season and stay bright. Over half of our "Australia" shipment of wheels sold already shows that people know a good wheel at a low price. Nothing comes near Ramblers at \$75.00 and Columbias at \$85.00 for 1897 wheels, and 1897 Hartfords at \$60.00. Investigate before you buy.

of health, if you only supply the blood with its lacking nutriment; vitalize it, or if you like, fertilize it. A large number of so called tonic remedies are disguised stimulants. Ayer's Sarsaparilla is not a stimulant, but a nourishment. It feeds the blood and so enriches it, as well as purifies it. That is why physicians recommend

THE KLONDIKE CLIMATE

A REPORT ON THE WEATHER OF ALASKA.

Temperate Region Along the Coast—Rigorous Cold in the Interior—Sun Rises at 10 A. M.

The general conception of Alaskan climate, says the Seattle Post-Intelligencer, is largely due to those who follow the sea, and this is not strange when we consider the vast extent of shore life, over 26,000 miles, possessed by that territory. The climates of the coast and the interior are unlike in many respects, and the differences are intensified in this as, perhaps, in few other countries by exceptional physical conditions. The natural contrast between land and sea is here tremendously increased by the current of water that impinges on the coast of British Columbia, one branch flowing northward toward Sitka and thence westward to the Kakiak and Shumagin Islands. The fringe of islands that separates the mainland from the Pacific ocean from Dixon sound northward, and also a strip of the mainland for twenty miles back from the sea, following the sweep of the ocean as it curves to the north-westward extremity of Alaska, form a distinct climatic division, which may be termed temperate Alaska.

The temperature rarely falls to zero, winter does not set in until about December 1, and by the last of May the snow has disappeared except in the mountains. The mean winter temperature of Sitka is 32.5, but little less than that of Washington, D. C. While Sitka is fully exposed to the sea influence, places further inland, but not over the Coast range mountains, as Killisnoo and Juneau, have also a mild temperature throughout the winter months. The temperature changes from month to month in temperate Alaska are small, not exceeding 25 degrees from midwinter to midsummer. The average temperature of July, the warmest month of summer, rarely reaches 55 degrees, and the highest temperature for a single day seldom reaches 75 degrees.

The rainfall of temperate Alaska is notorious the world over not only as regards the quantity that falls, but also as to the manner of its falling, viz. in long and incessant rains and drizzles. Cloud and fog naturally abound, there being on an average but sixty-six clear days in the year.

Alaska is a land of striking contrast both in climate as well as in topography. When the sun shines the atmosphere is remarkably clear, the scenic effects are magnificent, all nature seems to be in holiday attire. But the scene changes very quickly; the sky becomes overcast; the winds increase in force; rain begins to fall, the evergreens sigh ominously, and utter desolation and loneliness prevail.

The climate of the interior, including within that designation practically all the country except a narrow fringe of coastal margin and the territory before referred to as temperate Alaska, is one of extreme rigor in winter, with a brief, but relatively hot summer, especially when the sky is free from clouds.

In the Klondike region in midwinter the sun rises from 9:30 to 10 o'clock a. m., and sets from 2 to 3 p. m., the total length of daylight being about 4 hours. Remembering that the sun rises but a few degrees above the horizon, and that it is wholly obscured on a great many days, the character of the winter months may be easily imagined.

In the interior of Alaska the winter sets in as early as September, when snow storms may be expected in the mountains and passes. Headway during one of these storms is impossible and the traveler who is overtaken by them is indeed fortunate if he escapes with his life. Snow storms of great severity may occur in any month from September to May inclusive.

The changes of temperature from winter to summer are rapid owing to the great increase in the length of the day. In May the sun rises about 5 o'clock a. m., and sets at about 9 o'clock p. m. In June it rises about 1:30 o'clock in the morning and sets at about 10:30 p. m., giving about 20 hours of daylight and diffuse twilight the remainder of the time.

The mean summer temperature of the interior doubtless ranges between 60 and 70 degrees, according to elevation, being highest in the middle and lower Yukon valleys.

"My boy came home from school one day with his hand badly lacerated and bleeding, and suffering great pain," says Mr. E. J. Schall, with Meyer Bros. Drug Company of St. Louis, Mo. I dressed the wound, and applied Chamberlain's Pain Balm freely. All pain ceased, and in a remarkably short time it healed without leaving a scar. For wounds, sprains, swellings and rheumatism I know of no medicine or prescription equal to it. I consider it a household remedy." For sale by all druggists and dealers.
