

### WILCOX MAKES HIS DEFENSE

#### Committee Now Has the Contest Under Advisement.

#### HOLDS THAT GEAR STUMPED THE ISLANDS

#### And Was Satisfied Previous to the Election Returns—Early Decision of Committee is Expected.

Washington, Feb. 12. — Delegate Wilcox of Hawaii today filed his brief in support of his right to hold a seat in Congress and in defense to the legal objections raised in petitions filed against him. The document is lengthy and says in part:

"The Governor of Hawaii issued his proclamation for the election in due form. Before that time three separate parties had held their nominating conventions and placed their respective candidates for delegates to Congress in the field to be voted for. After a campaign accompanied with the usual American speaking, torchlight processions and parading of bands, in which the voting population very generally participated, and in which campaign George D. Gear, who files the petition herein, stumped the islands, urging the people to vote for a delegate to Congress to represent the Hawaiian people, the election was held, resulting in a majority for Robert W. Wilcox. All the election officers of Hawaii acted in good faith, as did the electors, and they were generally registered and voted at the election and the inspiration to question the matter of election came after the result had been announced."

The Committee on Elections now has all the testimony and law on the case and an early decision is expected.

### DILLINGHAM GETS COIN

B. F. Dillingham who came home on the Ventura yesterday, when seen this morning by a Bulletin reporter, said: "On this trip I completed arrangements which will result in bringing more money into the islands for investment."

On good authority it is also stated that Mr. Dillingham brought home \$600,000 for use in his various enterprises. The money came from San Francisco capitalists.

### DEADLY TRAIN WRECK

Waikuku, Feb. 20.—An engine on the Kahului railroad jumped the track yesterday afternoon near Senator Kalua's house. Engineer Enos and Fireman Charles Palea jumped and saved themselves. Brakeman Kakaia was buried under the engine and killed.

**Florence Roberts Company.**  
L. F. Stone and F. Belasco of the Florence Roberts Theatrical Company, arrived in the Ventura last night. With them came ten tons of scenery and effects. The gentlemen will get things ready and pave the way for the company, which will arrive in the Sierra. The first play to be produced at the Opera House will be Sapho.

### JOHN D. SPRECKELS A WELCOME VISITOR

#### Head of Oceanic Company Going Through to Colonies.

#### PLEASED AT MANY SIGNS OF PROGRESS

#### Will Make Longer Stay on His Return—Predicts Big Increase in Tourist Travel to Hawaii.

John D. Spreckels, president of the Oceanic Steamship Company arrived on the steamship Ventura of the above line last evening. He is on his way to Sydney on business in connection with the small contracts with the Colonial Government.

Mr. Spreckels, when interviewed this morning at the Hawaiian Hotel by a Bulletin reporter, said: "Nine years have passed since I have been in Honolulu, but as only a very short time has elapsed since coming ashore I have not had much of an opportunity to visit my old haunts or business associates."

"Quite naturally I have been kept constantly in business touch with the islands, but I am surprised to find how rapidly the place is growing. Upon my return from the Colonies I shall remain over in Honolulu for some little time, and will then have ample opportunity to examine the conditions here and have more time to devote to my friends."

"Regarding the new boats of the Oceanic Company, you may state that it is my unbiased opinion that when the Sierra, Sonoma and Ventura have their machinery worked down and everything running smoothly, that the vessels will surprise everybody."

"The accident to the Ventura, is one that would likely occur at any time, and before being put on the run from Philadelphia to San Francisco, the steam pipes that burst were subjected to the United States regular test of fully 200 pounds steam pressure to the square inch."

In conversation with Mr. Spreckels, he remarked that inside of two or three years, the travel to the islands would demand even larger boats than the three new vessels lately put upon the Honolulu-Australia run.

Since touching his feet on the soil of Oahu Mr. Spreckels has been besieged by friends and business associates, who vie with each other in extending their hospitable feelings towards the head of the Oceanic Steamship Company.

Mr. Spreckels, when interviewed this morning at the Hawaiian Hotel by a Bulletin reporter, said: "Nine years have passed since I have been in Honolulu, but as only a very short time has elapsed since coming ashore I have not had much of an opportunity to visit my old haunts or business associates."

### \$20,000 FOR AGRICULTURE

(Special Correspondence.)  
Washington, D. C., Feb. 4.—Delegate Wilcox appeared before the Senate agricultural committee Saturday and urged that the appropriation of \$12,000 in the House bill for experimental station purposes in Hawaii be increased to \$15,000 by the committee. Mr. Wilcox told the members of the committee that the Hawaiian Legislature will undoubtedly co-operate with the Agricultural Department of the United States in the experiment station work of the Territory. A bill appropriating \$20,000 will be introduced in the Hawaiian Legislature for this purpose. The bill will also provide that a suitable tract of land shall be set aside as a location for the experiment station.

**Prominent Attorney Here.**  
W. S. Goodfellow, one of California's best known and successful attorneys, arrived in the Ventura last evening accompanied by his wife.

Mr. Goodfellow in his practice which is one of the largest in California has been engaged in nearly every case of magnitude brought in the California courts. He is here for rest and recreation.

## WILL OUST MR. COOPER

#### Beckley's Resolution Causes Long Wrangle in House—Senate Talks at Length on Permanent Organization—Second Day Sees Little Accomplished—Brown on Language

The second day's session of the House of Representatives was called to order this morning at 10 o'clock by Speaker Akina. After a prayer by the chaplain, the roll call of the House was ordered, when J. W. Kilihoa and J. K. Kakaia were found to be absent.

During the calling of the roll several errors were made by the secretary such as calling the same name twice and also calling the name of a defeated candidate. For a few moments the mistakes caused some ripple of quiet mirth after which the roll call was ordered for the second time, upon a protest of some of the members present.

The minutes of Wednesday's session were read and accepted.

The rules were suspended and Hon. F. W. Beckley offered the following resolution:

Whereas, it is a fundamental principle of the Constitution of the United States that the legislative, executive and judicial departments of the government shall be kept separate and independent, and, Whereas, Henry E. Cooper, Secretary for the Territory is occupying a seat on the floor of this House,

Therefore, Be it resolved, That the said Secretary Henry E. Cooper be and is hereby requested to remove his desk from this House.

C. H. Dickey took the floor and made the statement that as the press of the islands are granted the right of reporting the proceedings of the House, and he could not see why the Secretary of the Territory acting for the United States Government should not be accorded at least the same privileges as that enjoyed by the press.

R. H. Makekau then took the floor and stated that he had not found anything in the Constitution, likewise the Organic Act that gave the House the right to remove Mr. Cooper. He did find, however, in the Organic Act, Sec. 63, "that there shall be a Secretary of the said Territory, who shall be appointed by the President, by and with the advice and consent of the Senate of the United States. He shall record and preserve all the laws and proceedings of the Legislature and all acts and proceedings of the Governor, etc."

"It looks to me as if the adoption of the Beckley resolution is against all reason in view of the reporters being allowed to remain."

Mr. Beckley then took the floor and stated that article 69 of the Organic Act provides that he is authorized to do away with the secretary of the House and let the Secretary of the Territory report the entire proceedings of the House Are you members of this House, going to have your actions submitted to the Government of the United States before they are approved? Under the Organic Act we are the judge of our own acts. We have approved of the minutes of the session of yesterday. The letter of the law may lead some of you to think, but if you will look up the laws you will find that every legislative body throughout the United States keep all their own records.

J. K. Kiliho then spoke at length upon the resolution presented by Mr. Beckley, and found no reasons why the Secretary of the Territory should be allowed a desk on the floor and found nothing in the Organic Act that provides for his legal presence on the floor. He moved its adoption.

Mr. Emmeluth said that the proceedings of the Executive and Judicial bodies shall always be kept separate. The secretary should have the right at any time to a copy of the proceedings of the House, but no other transcribing of any kind other than the legal proceedings. "It is my opinion that the Secretary of the Territory has no right on the floor and consider the resolution in place and shall support it with my vote."

S. K. Mahoe spoke at length and supported the resolution.

J. K. Prendergast, after stating his views, suggested the question of the adoption of the resolution be laid over until tomorrow's sessions.

rights, and although it be a thousand soldiers should be arrayed against us, we will stand by our rights.

Jonah Kumalae, Republican member from the Fourth District, aired his views on the resolution, which were in line with those who had preceded him. "I was elected to this House as a Republican but, I am here as an American, and the status of the Secretary of the Territory should be unquestionably settled. The sense of section 69 of the Organic Act is broad and I cannot see why he should be removed from the House. Therefore, I as that sufficient time be given this resolution before final adoption."

J. Ewaliko moved that the further discussion of the Beckley resolution be taken up on Saturday at 10 o'clock.

Adopted.

J. Monsarrat made a motion to adjourn to 1:30 p. m., which carried.

At the afternoon session J. W. Kilihoa was sworn in. The committee on rules reported that its final report would be ready tomorrow.

### ORGANIZING THE SENATE

The Senate was called to order promptly at 10 o'clock by President pro tem Russell. Senator Kalauokalani took the place of chaplain and offered prayer, the Senators and other people present rising. The roll was called and the minutes of the first day read by temporary secretary Testa. All the members with the exception of Senators H. P. Baldwin and J. D. Paris were present.

The President announced that the appointment of a temporary interpreter was in order. Senator White moved that the president be empowered to appoint a temporary interpreter. This carried and the president appointed John E. Bush.

The President called for the report of the committee on credentials in regard to the two members who were absent yesterday on account of the non-arrival of the steamer Mauna Loa. At this juncture, Senator Paris arrived. Senator Carter moved that the same committee on credentials be empowered to act. This was carried and Senator Paris's papers were handed to Senator White, the chairman of the committee. The Senate then took a recess of ten minutes for the purpose of allowing the committee time to examine the papers.

Senator H. P. Baldwin arrived during the recess and handed his credentials to Senator White. The Senate was then called to order and the committee, through its chairman, made a verbal report to the effect that the papers of the Senators had been examined and found to be in good form. The report was adopted.

The temporary secretary read a communication from Adjutant General Soper inviting the President and members of the Senate to the parade and review of the National Guard of Hawaii in front of the drill shed at 3 p. m. tomorrow.

Another communication from P. Maurice McMahon applying for the position of short hand reporter, was read.

### HONOLULU PLANTATION.

The Ventura last evening brought quite a number of passengers from the Coast who are stockholders in the Honolulu Plantation Co.

Tomorrow, a special train will convey quite a party to the plantation, who are quite naturally interested to inspect the holdings in which they are interested. After inspecting the plantations, a number of the party will remain for a while at Waihalua hotel and enjoy the scenery, etc.

The special train will leave here at 8:30 and the entire party will have a most delightful and instructive trip over the Oahu Railroad system and among the fields of sugar cane.

There were reported on the Stock Exchange this afternoon two large sales. One of 500 shares of O. R. & L. Co. stock at \$190 and 400 Honokaa at \$22.25.

### SEWALL AT WORK FOR THE CABLE BILL

#### He Refuses to Talk on Move Against Wilcox.

#### POSSIBILITY OF LETTERS NOT BEING OBTAINED

#### Delegate Introduces Bill to Regulate Hawaii's Lands—Result in Naming of a Commission.

(Special Correspondence.)  
Washington, D. C., Feb. 4.—Honorable Harold M. Sewall has been spending several days in the city and is making an effort to secure consideration and passage by the House of the bill providing for constructing a submarine cable between the United States and Hawaii. The bill passed the Senate at the first session of the present Congress and is now pending in the House.

Mr. Sewall says it is the most important measure for Hawaii that is now before Congress, and if the cable can be secured the business of the Territory will be increased immeasurably.

Owing to personal business affairs Mr. Sewall does not expect to return to Hawaii for some time. He will, however, while in the United States, give Hawaiian matters much attention and will use his influence in all directions in behalf of the Territory and its interests.

Asked his opinion regarding the latest developments in the Wilcox matter, Mr. Sewall said that he did not care to express any opinion. He believed, however, that as the alleged acts of treason took place before Wilcox became a citizen of the United States, the offense might be overlooked.

Delegate Wilcox has introduced a bill to extend the general land laws of the United States to the Territory of Hawaii. The bill authorizes the Secretary of the Interior to make rules and regulations for the entry of lands to be used for homestead purposes, which rules and regulations shall provide the acreage of each homestead according to the class of land, which shall not include over one hundred acres per homestead.

Mr. Wilcox says he does not expect to secure the passage of the bill at the present session of Congress, but introduced it principally to call attention to the desirability of a change in the Hawaiian land laws, and hopes thereby to secure the appointment of a commission, either by Congress or by the Interior Department, to visit Hawaii and study the land situation with the purpose of reporting suitable legislation.

The charges which were submitted to the House committee on elections against Delegate Robert W. Wilcox have created considerable of a sensation in Congress. The opinion as to the course which will be pursued is somewhat divided. A large number of members have assured Mr. Wilcox of their support, and have intimated to him that no action will be taken. Mr. Wilcox says he has no fears of the result. He admits that he wrote letters to Dr. Losada, Captain Burgas and Senator Luna, introducing C. Caesar Moreno of this city. He says he does not remember exactly what he stated in those letters of introduction and could not at this time say that the copies of the original letters may get back into the hands of Mr. Wilcox rather than into the hands of the committee, and should this be the case it will be a hard matter to convict Mr. Wilcox of the treasonable charges.

The bill to create new sub-posts of entry and delivery in the Territory of Hawaii was called up for passage in the House on Saturday, but failed of passage by reason of objections made by Representative Grosvenor of Ohio. This objection was made, Mr. Grosvenor explained afterward, under a misapprehension of the purport of the bill. It will probably be called up again during the next week and passed.

The Knox bill authorizing the Secretary of the Treasury to provide for the redemption of Hawaiian silver coinage also failed of passage in the House when called up on Saturday. Objection was made by Mr. Richardson of Tennessee, who held that the question is one of such magnitude that it should not pass by unanimous consent.

J. A. BRECKONS.

### FIFTY THREE MILLIONS

It is estimated that passengers who arrived in the Ventura last night represent a total of \$53,000,000. It is hoped they will leave a good fraction in local investments.

The Mauna Loa reports nearly all the churches along the Kona coast, either blown down or damaged by the late storm.

Matt McCann was one of the passengers in the Mauna Loa from Lahaina today.

#### All Ready to Go Ahead When the Necessary Franchise is Obtained--Wires to be Put Under Ground on Town Lines.

Articles of incorporation were filed today by the Standard Telephone Company, Limited. The capital stock of the company is \$50,000 divided into five hundred shares of the par value of \$100 each. Option is reserved to increase the capital to \$500,000. The term of years is fifty.

The officers of the company are: F. J. Cross, president; R. C. Brown, secretary; Joshua K. Brown, treasurer. The other incorporators are C. A. De Cew and W. W. Cross. Other stockholders are G. H. Pratt, Wesley O'Hara and R. C. Brown, trustees.

Fifty shares are paid up stock which will be issued to R. C. Brown for an assignment by him to the company of an agreement he holds with The Eureka Electric Company. This agreement gives exclusive use of certain telephonic apparatus under patent. Four hundred and fifty shares of the stock are assessable, a ten per cent assessment having already been paid.

One of the gentlemen instrumental in promoting the new telephone company was seen this afternoon. When asked regarding the incorporation he said:

"Last October people in the east made an investigation of the telephone system of Honolulu. As a result of the investigation it was concluded to incorporate and organize a company for the installation of a new company. The men at the head of the new organization are all responsible parties and are convinced that there is a demand and room for more and better telephone facilities."

"There is no intention to root out any other concern. In nearly every town of the size of Honolulu in the States there are two or more companies and they all seem to be doing well."

"The system to be installed here will be of the latest and best. Within a radius of a mile the system will be the underground one. The lines will all be direct with no party line arrangement of telephones. Rates of course will be a matter for future consideration but they will be less than those of the present ones."

"The money for the carrying out of the work has all been subscribed from abroad. It is understood by the promoters that the public patronage will go to the company giving the best service and so the new concern will do its best to excel. The work of installation will begin as soon as a franchise is granted for the work to proceed."

## MANAGER'S REPORT

### READ AT MEETING OF ASSOCIATED CHARITIES

**Treasurer Carter Reports an Overdraft—Will be an Easy Matter to Collect Money.**

Governor Dole as chairman, presided at the regular monthly meeting of the Associated Charities in the headquarters of the society on ottel street yesterday afternoon. There were eleven voting members present. J. Schultze and J. F. Eckardt were present as delegates from the German Benevolent Society which expressed its desire to affiliate with the Associated Charities in a letter addressed to Governor Dole. Mrs. Berger, manager of the society, read the following report of the month's work:

"At the last meeting, in January, the report showed that a very small number of strangers had applied at this office for assistance in the quarter then ending, and we predicted a quiet time, until a new wave of travel struck our shores. That this city is subject to such invasions is true. Periodically there arrive by the incoming steamers numbers of men who appear to have no money at all, and these become a public charge. It is often very discouraging and trying to interview them and to get them work which they will accept and do; but we are always willing to meet these situations.

"Of the twenty-two new applications received this month just ending thirteen were strangers, eight of them being Americans. They are nearly all unskilled. Another class is the sick coming here hoping to be benefited by the change of climate. These, of course, must be cared for, or sent to their homes. This seems an appropriate moment to mention these things, hoping that the Legislature now in session may take some action along these lines. It is not for the Associated Charities to take up the fight. We must not scare these people from our doors, because we must get such cases on record. It will be of use to us in the future. If they are recurrent cases, as they are apt to be,

"On the other hand, we had a man living in positive squalor, refuse point blank to receive any assistance from us. And there is a lady, surely a sufferer from nervous prostration, trying to find an asylum with some of our good people. These cases, with two men discharged from Oahu jail, have taken much more time and thought than the sick and the worthy poor of our city, whose wants it is not hard to supply. "There have been 22 applications, 3 recurrent cases, 9 applications for work, 1 situation found, 4 sent to the Queen's Hospital, 45 meals furnished, 129 office interviews and the funds disbursed for the month has been \$52. Food left over from the Mardi Gras ball was given to the Associated Charities this morning, and, as there was a large amount of it, a liberal distribution was made among the various charitable institutions and the poor families which are under the care of the society, ten in number."

A general discussion of matters suggested by the reading of the report followed and then George R. Carter, treasurer, reporting an overdraft of \$87.41 from the society's treasury. He stated that the collections were delinquent because he had not had the time to call upon the business men who contributed largely to the support of the society. As soon as he could find time, he would attend to this work. He felt that he would have no difficulty in making a collection of funds.

### WITHOUT MONEY AND FIRED.

Late last night a couple of men entered the Union Grill, and after filling up on juicy bivalves and choice steaks, they were about to take their departure without settling the bill, when mine host Lycurgus remonstrated, and demanded good coin of the realm.

Finding that the proprietor meant business, one of the trio proposed to settle the bill by giving an order on Brown, the plumber. This was promptly refused, when the well fed couple proceeded to roundly abuse the proprietor, and calling his attention to the fact that they were Americans, and that it would take an army of Greeks to put them out.

At this stage of the game the blood of the proprietor was at fever heat and calling to his aid his faithful employes, the men were given short shift, and mine host Lycurgus is out the price of his oysters and steaks.

There are some Simple Remedies indisposable in any family. Among these, the experience of years assures us, should be recorded PAIN-KILLER. For both internal and external applications we have found it of great value; especially can we recommend it for colds, rheumatism, or fresh wounds and bruises.—Christian Era. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c. and 50c.

## THE EMPEROR RULES

Peking, Feb. 13.—At least three of the Chinese to whom Emperor Kwang Hsu sent a choice of suicide in pursuance of the demand of the Powers for their punishment with death, have declined to comply, and the Emperor has withdrawn his request that they should destroy themselves. His majesty now telegraphs Prince Ching that when he agreed to the terms of the joint note the latter only required that the punishment should fit the crime, and he argues that if the worst of the guilty deserve death the others should be punished in other ways. The foreign envoys, on the contrary, say that even those who are least guilty deserve death, and as there is no worse punishment all must suffer that penalty. Unless the court changes its views no immediate settlement is possible.

### BUYING THE RAILROADS.

New York, Feb. 14. — The Commercial Advertiser said recently: In acquiring control of the Southern Pacific Railroad Company, the Harriman syndicate also obtained control of the Morgan Steamship Line and the Pacific Mail Steamship Line. Whether or not the Southern Pacific Company will acquire the Mexican road remains to be determined. A belief prevails that after awhile the Central Pacific lines will be taken out of the Southern Pacific system and made a part of the Union Pacific system. Although both of these great systems are now under the control of the same group of capitalists, it is safe to say that each corporation will retain distinct traffic interests.

### Russia to Pay Duty.

Washington, Feb. 12. — The Secretary of the Treasury today issued an order to all Collectors of Customs requiring collection of a countervailing duty of 1 cent per pound on Russian sugar imported into the United States. This order is in accordance with the state of facts set forth by the sugar producers of the country, who pointed out to the Treasury Department that the Russian sugar producers were paid a bounty by their Government and were therefore not enabled to ship their products into this market on terms of equality with sugars thus favored.

### Their Son is Dead.

San Francisco, Feb. 13. — Mr. and Mrs. Rudolph Spreckels are mourning the loss of their beautiful boy and elder son Rudolph, Jr., who died yesterday afternoon at 4 o'clock, at their residence, Pacific Avenue and Gough street. The little fellow who had just passed his fourth birthday was an uncommonly handsome boy and unusually bright. The time of the funeral has not yet been set.

### For Hawaiian Coin

Washington, Feb. 11. — Senator Foraker reported a bill providing that Hawaiian coins may be received at par for all Government dues, and that when once so received they shall not be again put into circulation.

### Late Sugar Report.

New York, Feb. 14. — Sugar — Steady; fair refining, 3 1/2c; centrifugal, 96 test, 4 1/2c; molasses sugar, 3 1/2c. Refined quiet; crushed 600, Powdered, 5.60c; granulated, 5.50c.

SHIPPING NOTES.

The Mauna Loa will sail on Tuesday. Those who saw the transport Oopack leave yesterday claim that she was dangerously top heavy.

The schooner Eureka has cleared for Gray's Harbor. She will get away this afternoon or early tomorrow.

M. M. Tuft returned in the Hanalei this morning. It is expected he will go out in the Mauna Loa next trip as purser.

Willie King, the office boy at the Inter-Island Co.'s wharf office, has been promoted to be freight clerk of the James Makee.

The Mauna Loa from Kona ports this morning brought 9402 bags of sugar, 1353 bags coffee, 62 bundles bananas and 50 packages sundries.

As reported in the Bulletin previously, the Zealandia, instead of coming here direct will deliver her 800 Porto Ricans at their different destinations on other islands.

The steamer Sierra which left here for San Francisco on the 13 inst., made the run in 5 days and 14 hours. She arrived Saturday the 19th, too late to enter, and her passengers were landed the following day.

Tender for Mauna Loa.

An ordinary steamer boat of the class used in the Inter-Island trade, fitted with a Union Gas Engine, was brought here in the Hanalei. The boat will be used as a tender for the Mauna Loa. It is the intention of the Company to provide all its larger vessels with such tenders. They will be used for towing sugar boats.

The Ventura Here.

The steamer Ventura, third and last of the Oceanic Company's sister ships, arrived here last night, after a fast and pleasant trip from San Francisco.

The vessel was delayed two days waiting for the English mails, else she would have arrived on time. She had 100 passengers for this port and nearly 800 tons of freight. For the Colonies, she has a number of passengers and 1500 tons of freight.

The Ventura is like her sisters in everything but colors, as she is painted black. She will leave for the Colonies this afternoon at 4 o'clock.

without reserve or hold back. Now these shirts are not old plugs or relics of the vintage of '95. They are up-to-date shirts—just such shirts as you would pay the regular furnish \$1.50 or \$2.00 for. We are content with smaller profits if we make quick sales; that is the difference between him and us.

STOUT GENTLEMEN, especially, who ordinarily find it hard to get suited, will find among these shirts many desirable patterns in large sizes. It will cost you nothing to come in and look at them. May be you will see just what you wanted. If you can't come in yourself, let your wife come and pick out a few for you. Shirts are not like cigars, and this is too good an opportunity to be missed.

THE HANAIEI HERE FROM SAN FRANCISCO

The new steamer Hanalei, of the Inter-Island Company, arrived this morning, eleven days from San Francisco. She is in command of Captain J. S. Green, formerly of the Waialeale, who is accompanied by his wife.

The steamer brings about 800 tons of general merchandise for this island. Three hundred tons are for this port, the rest being for Haunaulu and Nawiliwili for which places she will sail as soon as Honolulu freight is discharged.

When sighted off Diamond Head this morning the Hanalei was reported as a foreign steamer. She has three masts so was not recognized.

The vessel made a good trip considering the weather and the fact that she is a new boat. At times she was under a slow bell, and last night she was hove to all night, as on her forward deck were two boats and a lot of piles and it was feared they might be washed overboard. Had it not been for the rough weather encountered she would have arrived yesterday morning. Captain Green and Engineer Hayward are pleased with the new boat. She is a good sea boat and up to the contract speed of about nine knots. Her engines are from the Iwaland, but have been rebuilt at an expense of about \$14,000. The vessel is of 666 tons gross and 502 tons net register. She will carry about 12,000 bags of sugar, and is well fitted for the speedy handling of freight.

THEY REFUSE TO DIE.

Shanghai, Feb. 10.—It is reported here that the Empress Dowager, yielding to foreign pressure, has allowed Emperor Kwang Hsu to assume the reins of government.

Peking, Feb. 10.—Li Hung Chang asserts that the Empress Dowager and Emperor Kwang Hsu never had more harmonious relations than they have now, and that the former quite agrees to the necessity for modern reforms. He has telegraphed to the court his refusal to agree to sentences of execution "fraught with extreme danger and threatening the dynasty itself."

KING EDWARD'S REIGN OPENS PARLIAMENT WITH IMPOSING CEREMONY

King Reads His Speech—Refers to South Africa and Regrets Continued Resistance of Boer Republics—Pleasant Generalities.

London, Feb. 14.—The first Parliament of the reign of King Edward VII was opened this afternoon by the King in person. His Majesty was accompanied by Queen Alexandra, the Duke of Connaught and many others of the royal family.

The last state ceremony of the kind occurred in 1861 when Queen Victoria opened Parliament accompanied by the Prince Consort and since the death of the latter nothing equal to today's pomp has been witnessed in London in connection with the opening of the legislature.

Five carriages of state containing uniformed officials and ladies of the household, each drawn by six horses with postillions and outriders, led the procession. Next came the massive state chariot, the occupants of which could be plainly seen through the plate-glass windows, the King, who was in full uniform, saluting constantly and the Queen bowing on all sides.

All along the route hats and handkerchiefs were waved and the greatest enthusiasm was displayed. The approaches to the houses of Parliament were black with people who were kept in their places by Irish and Scots guards.

The King and Queen quickly got out of the state carriage, which came to a standstill at the royal entrance beneath the Victoria Tower and went up the marble staircase into the robing room.

In the House of Lords the United States Ambassador, Mr. Choate, as usual, was prominent. Mrs. Choate was with the Ambassador's wives. All present rose as the royal procession entered, and all eyes centered on the Queen's dress, which, it could be seen, in spite of the ermine cape, was of deep black and glittered with jewels, while across her breast was the ribbon of the order of the Garter, her husband's latest tribute.

In solemn tones the Lord Chancellor administered the oath, with the King sitting. The Lord Chancellor then, kneeling, handed the King a roll, which he signed, after which all present once more stood up and the King put on his Field Marshal's plumed hat, rose, and in clear, ringing tones, read his speech.

The King's speech was as follows: My Lords and Gentlemen:—I address you for the first time at a moment of national sorrow, when the whole country is mourning the irreparable loss we have so recently sustained in a father, with peculiar severity on myself. My beloved mother during her long and glorious reign has set an example before the world of what a monarch should be. It is my earnest desire to walk in her footsteps.

"Amid this public and private grief it is satisfactory to me to be able to assure you that my relations with the other powers continue friendly. "The war in South Africa is not yet entirely terminated, but the capitals of the enemy and its principal lines of communication have been taken, and measures have been taken which will, I trust, enable my troops to deal effectually with the forces by which they are still opposed.

"I greatly regret the loss of life and expenditure of treasure due to the fruitless guerrilla warfare maintained by Boer partisans in the former territories of the two republics. Their early submission is much to be desired in their interests, as until it takes place it will be impossible for me to establish in those colonies the institutions which will secure the equal rights of all the white inhabitants and protection and justice for the native population.

"The capture of Peking by the allied forces and the happy release of those who were besieged in the legations, results to which my Indian troops and my naval forces largely contributed, have been followed by the submission of the Chinese government to the demands insisted upon by the powers. Negotiations are proceeding regarding the manner in which compliance with these demands is to be effected.

"The establishment of the Australian commonwealth was proclaimed at Sydney, January 1, with many manifestations of popular enthusiasm and rejoicing. My deeply beloved and lamented mother had assented to the visit of the Duke of Cornwall and York to open the first Parliament of the new commonwealth in her name.

"A separation from my son, especially at such a moment, cannot be otherwise than deeply painful, but it is my desire to give effect to her late Majesty's wishes as evidence of her interest, as well as of my own, in all that concerns the welfare of my subjects beyond the seas. I have decided that the visit to Australia shall not be abandoned and shall be extended to New Zealand and the Dominion of Canada.

"The prolongation of the hostilities in South Africa has led me to make a further call on the patriotism and devotion of Canada and Australasia. I rejoice that my request has met with a prompt and loyal response and large additional contingents from those colonies will embark for the seat of war at an early date.

"The expedition organized for the suppression of the rebellion in Ashanti was crowned with signal success. The endurance and gallantry of my native troops, ably commanded by Sir James Willcocks, and led by British officers, have overcome both the stubborn resistance of the most warlike tribes of West Africa and the exceptional difficulties of the climate and season of the country in which the operations were conducted. The garrison of Coomassie which was besieged by the enemy, has been relieved after a prolonged and gallant defense. The principal kings have surrendered and the chief impediment to the progress of the development of this rich portion of West Africa possessions has now, I hope, been finally removed.

"The suffering and mortality caused by the prolonged drought in a large portion of my Indian empire, have been greatly alleviated by a season

able rainfall, but I regret to add that in parts of the Bombay presidency distress of a serious character still continues which my officers are using every endeavor to mitigate.

"Gentlemen of the House of Commons: The estimates for the year will be laid before you. Every care has been taken to limit their amount but the naval and military requirements of the country and especially the outlay consequent upon the South African war, has involved an inevitable increase.

"The demise of the crown renders it necessary that renewed provision shall be made for the civil list. I place unreservedly at your disposal those hereditary revenues which were so placed by my predecessor and I have commended that the papers necessary for a full consideration of the subject shall be laid before you.

"My Lords and Gentlemen: Proposals will be submitted to your judgment for increasing the efficiency of my military forces.

"Certain changes in the constitution of the court of final appeal are considered necessary in consequence of the increased resort to it, which has resulted from the expansion of the empire during the last two generations.

"Legislation will be proposed to you for the amendment of the law relating to education.

"Legislation has been prepared and if the time at your disposal proves to be adequate it will be laid before you for the purpose of regulating the voluntary sale by landlords to occupying tenants in Ireland; for amending and consolidating the factory and workshops acts; for the better administration of the law respecting lunatics; for amending the public health act in regard to the water supply; for the prevention of drunkenness in licensed houses and public places and for amending the law of literary copyright.

"I pray that Almighty God may continue to guide you in the conduct of your deliberations and that he may bless them with success."

The King wore a Field Marshal's chaplain when he read his speech. His voice was clear and firm. After the reading of the speech the procession was reformed, the King proceeded to the robing room, unrobed and left Westminster, the procession departing in the state carriages, in the same order as it entered.

Lord Kimberley, Liberal leader, said the House needed no further assurances that the King would follow in the steps of his mother, and proceeded to express dissatisfaction with the conduct of the war in South Africa. He said the present conditions in South Africa filled him with apprehension. The government had been living in a fool's paradise. Unless they enabled General Kitchener to speedily terminate the war, the situation could easily become more dangerous. If the government attempted to put the whole military situation on a more satisfactory basis, they would receive every support from the Liberals.

Lord Salisbury rose leisurely and said that the country could now hope confidently that the promise given by the King that he would follow in his mother's steps would be fully and abundantly borne out.

If so, it would be the greatest triumph for the people of the monarchy and for the name of the British union. Dealing with the war, Lord Salisbury thought there was nothing unusual in the length of the campaign. He referred Lord Kimberley to the Indian mutiny and the American war, between which and the South African campaign there was a great resemblance. In Bosnia it took two years and the whole power of Austria to conquer the peasants.

Where great enthusiasm and persistence existed in a country like South Africa months must elapse before tranquility could be restored. Therefore, he did not believe there was any real ground for the discontent or apprehension expressed by Lord Kimberley.

THEY TALK OF PEACE Cape Town, Feb. 13.—Piet De Wet who arrived in Cape Town yesterday to engage the Afrikaners in the peace negotiations, has an appointment Friday or Saturday with Theron, president of the Afrikaner Bond, who is coming here for the special purpose of discussing peace possibilities. De Wet, on behalf of the Boer peace committee, desires the Afrikaner Bond to announce clearly that the invaders can expect no more from the Cape Town Dutch and then to send a deputation to Steyn and General De Wet to endeavor to prevail upon them to surrender. He says he is confident Commander-General Louis Botha will surrender if Steyn and De Wet would do so, and the surrender will be practically without conditions.

Boers Lose Heavily. Durban, Natal, Feb. 13.—The Boer losses when they were attacked by General French at Ermelo last week are said to have been forty men killed and 200 made prisoners. General French has recaptured a 15-pounder captured from the British at Colenso.

De Wet Driven Out. London, Feb. 14.—The Evening News today prints a despatch from Cape Town dated Thursday, February 14, which says: The government here is advised that General Christian De Wet and former President Steyn entered Cape Colony and occupied Phillipstown. The British attacked them yesterday and drove them out of town with loss.

Boers Cross River Cape Town, Feb. 14.—A Boer commando crossed the Orange River yesterday in the Phillipstown district. It is reported that De Wet was in command. Van Wykskyl was occupied Monday by 300 Boers who were retreating from Calvinia. The Boers are reported in force 24 miles west of Carnarvon. A Boer convoy of 45 wagons and 45 prisoners has been captured north of Amsterdam.

## COMPLETING CHARTER

HOME RULERS ARE NOW CLOSE TO END OF WORK

Testa and Quinn in a Wordy Discussion--Chairman Leaves Meeting in High Dudgeon.

The Independent charter committee met last evening in Foster hall, primarily for the purpose of taking up the city charter and listening to the suggestions and reports of the several committees on revision and ward boundaries, was called to order at 7:45 with F. J. Testa in the chair. During its progress, a caucus of several members of the Independent party of both houses of the Legislature, was being held in an adjoining room.

During the progress of the meeting, several amendments were suggested. J. C. Quinn took the floor and suggested that the clause in the charter relative to the first appointment of the city council men by the legislative body be stricken out and that they be elected by the people.

Quinn having the floor, strongly objected to the above clause in the charter and backed up his opinion by stating that the Independent party should elect its own councilmen.

Chairman Testa then interrupted Mr. Quinn by stating that he wanted him to understand that this was not the Independent party, but a strictly non-partisan commission and that he as chairman, was not appointed by the executive committee of the Independent party. He was asked to serve on a non-partisan commission and he agreed to it.

In the midst of the heated discussion, Mr. Testa picked up his hat and concluded by saying that, if this commission was to be considered an Independent organization, he would quit right there, awaiting the action to the word, he immediately left the hall.

In order to finish the business before the meeting, the committee appointed Larry Dee to act as temporary chairman.

The committee then got down to business again and passed a motion to the effect that, instead of the Legislature appointing the councilmen, they be elected by the duly qualified voters of the city, five for one year, and six for two years. Ward No. 1 to have three councilmen; Ward No. 2, two; Ward No. 3, two; Ward No. 4, two; Ward No. 5, two. The five wards as arranged for in the charter covers Moanalua, Waialua and the Tantalus and Koolau ridge on the leeward side.

After much discussion on matters connected with the final adoption of the city charter and the forwarding of the same to the Legislature, the meeting then adjourned to next Friday night, at which time the charter will be completed.

## TO MY LADY CULOX.

In those well spun yarns called fairy tales,  
Told in ye ancient time;  
We read of monsters hatched in pools,  
And reared in the stagnant slime.  
Who flew through the air on dragon's wings  
Away from their native fen,  
Horrible creatures indeed were they,  
For they sucked the blood of men;  
Till some Hobson knight with a big, sharp sword  
Took the very desperate chance  
Of finding the only spot in their hide  
That would yield to the prod of the lance.  
The valiant knights are dead and gone,  
Bred in our pools as their grandpa's did  
And hunt for human gore.  
Professor Koebele, we call on thee,  
Knight of this recent day;  
Arm thyself with bugs and drugs,  
And drive those devils away.

## GAGE WRITES OF BONDS

HAWAIIAN SECURITIES ARE BEFORE CONGRESS

Secretary of Treasury Makes His Recommendations as to Payment of Hawaii's Bonded Debt.

Contained in a document submitted to the House of Representatives at Washington in regard to the appropriation for carrying into effect the joint resolution for the annexation of the Hawaiian Islands is a recommendation by the Secretary of the Treasury to the effect that Congress, in addition to the \$764,570.31 already appropriated for the payment of the Postal Savings Bank depositors, appropriate the further sum of \$3,250,429.69.

In addition, the Secretary of the Treasury has recommended that the United States Government assume the interest accruing on the above bonds since the 15th of June last year.

Out of the amount of bonds to be retired by the United States Government, there are probably from one and a half to two millions held in this city. Should the appropriation pass, this money will be shipped to Honolulu and paid through the First National Bank of Hawaii, the government depository here.

It is not the impression that the outstanding 5 per cent bonds will be paid, as it is natural to suppose that these bonds will be preferable for the Territory to carry.

The matter will probably be discussed by the Territorial officials and the authorities at Washington.

The bonds as now outstanding, are sixes, \$2,924,200; fives, \$1,251,200; fours and a half \$11,000. According to Treasurer Lansing's report, \$4,186,400 of the money asked to be appropriated there will be a surplus of \$31,229.69 to go to the payment of five per cent.

## COUNTRESS SUICIDES.

Santa Barbara, Feb. 7.--Mrs. Frederick Hamech, formerly Josephine, Countess Ritter, age 27 years, committed suicide by shooting herself last night at her beautiful home on Hot Springs road, El Montecito. She died almost instantly. Mrs. Hamech has maintained a home here for the past three years, coming here directly from Europe at the time of an estrangement from her first husband, Count Ritter, commodore in the German navy. Two years ago she returned to Europe and obtained a divorce from the count. A great scandal resulted from the airing of the affairs of the Count and Countess. Returning to America when she had obtained a divorce the Countess came back to Santa Barbara. Her home is one of the most magnificent in El Montecito suburb. She was fond of horses and, being an excellent whip, maintained the best stable here. She had a passion also for outdoor sports and was a crack shot. She went but little into society, living rather in seclusion.

## REGULATE THE TYPE

Albany, N. Y., Feb. 4.--Because he believes the people of New York State are going blind through having to read their newspapers and fiction in too small type, Assemblyman Wauhope Lynn tonight introduced a bill to regulate the size of type used in such literature. Lynn's bill provides that books, newspapers and serial literature shall not be printed in a type smaller than eight point, "nor of which the lower case alphabet measures less than fourteen ems." The provisions are not to apply to small print on foot notes or indexes, or to books or other printed matter for reference use only. The bill, however, provides that the State Board of Health may exempt certain kinds of printed matter.

Assemblyman Lynn said tonight: "I do not think the bill will hurt newspapers any and it is not aimed at them. There are many thousands of people daily ruining their eyes because of having to read literature they desire in type that is much too small. I think it is within the province of the legislature to stop it."

## TRAFFIC IN THE SUEZ CANAL.

It appears from the last annual report of the board of managers of the Suez Company that there was a substantial increase in the traffic of the canal during 1899, as compared with the year previous, especially in the total tonnage of vessels. In 1898, the number of vessels that passed through the canal was 3503, with an aggregate burden of 9,238,603 tons, whereas in 1899 the number was 3,607 vessels, representing an aggregate burden of 9,895,690 tons. This is a gain of 104 vessels and 657,087 tons. The average burden of vessels increased from 2,637 tons to 2,743 tons.

The average time consumed in passing through the canal during the year 1899 was eighteen hours and thirty-eight minutes, an increase of thirty-eight minutes as compared with 1898. This increase is accounted for by the fact that vessels passing through the canal under quarantine are compelled to avoid any contact with the land, and must stop at night if not provided with electric headlights. However, the time actually consumed by vessels in steaming through the canal was less in 1899 than the year previous, having been reduced from fifteen hours and forty-three minutes to fifteen hours and forty-one minutes. Last year 3,273 vessels, being provided with electric lights, were able to pass through the canal at night. These vessels formed 90 per cent of the whole number, against 94 per cent in 1898.

## RUSSIAN PRODUCTION OF COAL.

Consul General Holloway reports from St. Petersburg, January 4, 1901: The Russian Minister of Finance has announced that foreign coal imported for Government railroads will be admitted free of duty at all Russian ports until July 14, 1901, by which time, it is expected, the domestic supply will equal the requirements. In consequence of strikes in coal mines near Warsaw and Lodz, coal intended for use in those cities is admitted free, and a material reduction has been made in the duty on coal for use at Odessa, Sebastopol, and Nikolaeff. The output of coal in Russia in 1897 was 10,000,000 tons; in 1898, 11,950,000 tons. The figures for 1899 are not completed; but the output for the first six months of that year indicated an increase of 7,000,000 tons over the production for the same period in 1898, and it is expected that the last part of the year will make a still better showing.

## For An Anti-Saloon League.

Rev. E. S. Chapman made a strong speech last night in favor of an anti-saloon league in Honolulu and at the close of the meeting many people signified their willingness to join such a movement. Dr. Chapman will address the Japanese Christian Society at the Panama Christian Temple, Saturday evening at 8 o'clock.

REWARDING THE ADMIRALS.

Washington, Feb. 14.—The President today sent the following nominations to the Senate:

Navy—Rear Admirals to be advanced in rank from the eleventh day of February, 1901:

William T. Sampson, five numbers to take rank next after Rear Admiral John A. Howell.

Winfield Scott Schley, three numbers, to take rank next after Rear Admiral Sampson when advanced.

Ventura Case Investigated.

San Francisco, Feb. 12.—The accident on board the steamship Ventura on January 23, in which five men were killed and five injured by the bursting of a steam pipe, was investigated yesterday afternoon by Captains Bolles and Bulger, local United States Inspectors of steam vessels. The principal witnesses were S. N. Haines, chief engineer; T. W. Lawrence, first assistant; J. V. Alsworth, second assistant, and M. McGinn, representing the builders. The chief engineer and his assistants told the breaking of the steam pipe, which they ascribed to imperfect construction on the part of the builders. There was 165 pounds of steam pressure at the time of the fracture. There was absolutely no unskillfulness in the handling of the engine, they said. Mr. McGinn said that he did not believe in the theory of faulty construction but when he was pinned down to details admitted that he did not know anything about the cause of the accident.

Mohican Coming.

San Francisco, Feb. 12.—The United States training ship Mohican is down from Mare Island, and while to all appearances she is the same old-timer, nevertheless there is not an old timber left in her, and the stowp-of-war is now as good as the day she was launched. Bark-rigged and presenting an appearance that recalls the Hartford and other famous ships of the old days, she is one of the most picturesque vessels in the bay.

The Mohican will take aboard about 250 apprentices here, and when everything is ready will start on a cruise to the Southern Seas. She will call at Santa Barbara, San Diego, Magdalena Bay and Honolulu. On her return to San Francisco she will go north, calling at all the Puget Sound ports and stopping on the Columbia River on her way home. Most of the voyaging will be done under sail, but the Mohican has steam power that is calculated to drive her at the rate of nine knots an hour.

Work on Shamrock to be Pushed.

Glasgow, February 11.—Owing to a serious protest upon the part of George L. Watson at the delay in the construction of the Shamrock II, the Dennys have put all their available workmen on the job, and the building of the America's cup challenger will be pushed night and day without pause. Watson insists that she must be launched during the last week in March so that his elaborate plans for trial races can be carried out.

NEW RULES ABOUT MERCHANT SEAMEN

The inspectors of hulls and boilers now have received in the late mail an amendment to the rules regarding the granting of papers to sailors of coastwise and ocean-going steamers. The notice sent is as follows:

"Section 14, Rule 5, as amended January, 1901, and approved by the Secretary February 4, 1901, for the information of local inspectors, Atlantic and Pacific coasts:—

"No original license as master of ocean or coastwise steam vessels shall be issued (except as hereinafter provided) to any person who has not had at least three years experience on seagoing or coastwise steam vessels, one year of such service to have been as chief mate of such vessels; nor shall any person receive an original license as chief mate of ocean or coastwise steam vessels who has not served at least three years in the deck department of such vessels, one year of such service to have been as second mate of such vessels. Applicants for license as second mate of ocean or coastwise steam vessels must have had at least three years experience on such vessels, one year of such service to have been as quartermaster or third mate on such vessels. Applicants for license as third mate of ocean or coastwise steam vessels must have had at least three years experience on such vessels as a mariner or quartermaster. It is provided, however, that persons whose experience at sea has been on sail vessels of over 700 gross tons may be licensed on the following conditions, namely:

"Master: Any person who has had five years experience on such sail vessels, two years of which must have been as master of such vessels, may be licensed as master of ocean or coastwise steam vessels.

"Chief Mate: Any person who has had five years experience on sail vessels, two years of which he has served in the capacity of chief mate, may be licensed as chief mate of ocean or coastwise steam vessels.

"Second Mate: Any person who has had three years experience on sail vessels, one year of which has been in the capacity of second mate, may be licensed as second mate of ocean and coastwise steam vessels.

"Third Mate: Any person who has had three years experience on sail vessels as mariner may be licensed as third mate of ocean and coastwise steam vessels."

The following cases were disposed of in the Police Court this forenoon: Kamakihane, assault and battery on T. P. Spooner, discharged; Kapuaokina, assault and battery on E. Waldvogel, \$10 and costs; Ah Kiao, headless driving, reprimanded and discharged; Manuel Correa, truancy and Kapaie, larceny in the second degree, same disposition.
