Pure Milk. LANDING OF ARMS.

The business of the country is settling into its former groove. Our gentlemanly driver has returned from his vacation, the cows in the pasturo switch flies instead of bullets with their tails and the cream is richer in consequence. We believe we have satisfied every one of our customers who have taken milk from us and we are in a position to supply a great many more. The people who from choice or necessity visited Waialae during the past two weeks have had an opportunity to see just what sort of diet our stock feeds upon, and no longer wonder at the richness of the milk from our dairy.

Our facilities for delivery are the best. With the exception of a day or two early in the late unpleasantness our drivers have always been on time at our customers' residences. We take this opportunity to thank those who have been patient with us and to solicit a continuance of their patronage. We will be pleased to fill all orders telephoned to us and guarantee all milk to be pure and free from adulteration.

Townsend and Davies Tell of Steamer Meeting

Schooner.

It Was Almost Decided to Throw the Guns into the Sea.

FOURTH DAY. Afternoon Session.

George Townsend, sworn, states: Am. 39 years of age; been a seafaring man for a time; on Dec. 8 Charles Clark told witness that Sam Nowlein wanted to see him; saw Nowlein in rear of Bertelmann's office; Nowlein told witness to go to the Empire corner, meet Warren a few minutes before 5, and go on the tramcar as far as it went; witness and Warren were to meet a boy with two horses below the Mausoleum; did not see boy with horses until 7 o'clock that evening; went to John Lilihi's place and later went to Little Island near Makapuu; Friday before Christmas Lilihi gave witness six sticks of lights and a mail for the captain of the schooner; sighted the schooner on Dec. 19; there were Warren, Kawelo, Kauli, Kamaka and witness; the schooner showed blue light and was answered; went out on boat and hearing the schooner, the captain sang out, "Pass-ward!" witness answered, "Mission-ary," and was told to come alongside; the captain asked for a letter and was handed Seward's letter; two boxes of revolvers were taken from the schooner and put in the boat; captain did not give witness any letter to deliver to anybody in town; witness sent Kauli into town to let the people know that they had met a schooner; name of schooner is Uthberg, hailing from San Francisco; witness came to town and reported to Nowlein on Dec. 21; Nowlein told witness to go with Captain Davies on the steamer Waimanalo and help land the arms; the Waimanalo was to meet the schooner and report at Rabbit Island, when the news would be transmitted to town; returning they were to pick up a whaleboat near Diamond Head; arms were to be landed at Kakaako and also at the Fishmarket; the Waimanalo did not leave that evening but succeeded in getting away the next evening, Friday; a package of whisky was taken on board and sampled; Nowlein sent two letters to Captain Davies to be opened when the Waimanalo got outside; one contained instructions to Capt. Davies to go due northeast of Rabbit Island and meet schooner; the second letter was a copy of a letter to the captain of the schooner; it said that the schooner was to cruise off Rabbit Island 15 days, and if she met no steamer to go to the southern coast and dispose of cargo; the Waimanalo left at 7 o'clock P. M., Friday, went to Kakaako and Waimanalo, then went about forty miles to sea, and on Tuesday morning about 8 o'clock saw the schooner between the steamer and land, and headed in; on New Year's day went on the schooner and found the arms ready on deck for shipment; witness handed the letter to the captain; it required two boat-loads to transfer all the arms; the captain seemed to be a Swede; went to Rabbit Island and reported having secured the arms; Kauli came into town to report; the whaleboat below Diamond Head and W. H. Rickard boarded the steamer; Rickard said that nothing could be done, as the people on shore were not ready; Rickard asked how many guns were on board; was told there were about 288 guns; besides belts and cartridges; Captain Davies said that the steamer could not get into the Fishmarket, as the dredger was in the way; all this was noted in a letter

Pledged to neither Sect nor Party But Established for the Benefit of All. TUESDAY, JAN. 22, 1895.

LATE FOREIGN NEWS.

SAN FRANCISCO, JAN. 15.

[By S. S. China.]

UNITED STATES.

A cablegram reports the London Chronicle as saying: It is regrettable to find that the sugar trust has friends in President Cleveland's Cabinet, but it cannot be wondered at when Attorney-General Olney refuses to act in motion the Morgan anti-trust law. The almighty dollar appears to be still a much more formidable potentate than the President.

EUROPE.

On Jan. 13, the Russian new year's, the Czar conferred honors on various distinguished persons.

Owing to an adverse vote in the French Assembly, the Dupuy ministry has resigned. The essence of the vote was radical, and the crisis is considered a serious one.

Bosco, a socialist who was sent to prison by a court-martial trying the leaders of the revolution last winter, has been elected to the Chamber of Deputies in Rome.

A bomb explosion in a Paris street caused a sensation but killed nobody.

It is said a loan will be issued to provide funds for the British navy, instead of opening the surplus of 1895.

OTHER LANDS.

A new kind of malarial fever has broken out in Samoa, highly infectious and killing the natives by scores.

Floods on the Fraser River, B. C., are causing great distress and settlers are making urgent appeals for assistance.

An Egyptian native paper says the Pope, having been asked by the Sultan to arbitrate the Armenian question, sent a delegate to Constantinople who insisted on reforms in government and proposed that the powers intervene. There is an agitation in the United States for American intervention to put an end to the oppression of the Armenian Christians.

HAWAIIANS LIKE GOOD WHISKY

Ship Loading With the Liquid Nearly Ready to Sail for the Islands.

NEW YORK, Dec. 23.—Whether the Hawaiian Islands do or do not become annexed to Uncle Sam's states the fact remains that the fondness of the people of the islands for good old rye whisky and bourbon will be increased by a closer relationship. At Price's on East river, where the Helen Brewer is loading for the islands, there are over 200 barrels of rye whisky, rum, and bourbon, and every barrel contains its legal quota of thirty-six gallons, and every gill of it of the best. Sandwich islanders will not have any other. There was a time, however, when "nose paint" fire water variety was good enough. Liquor is improved after a long ocean voyage in a sailing ship, and that is the reason it is not forwarded across the continent.

SCHOONER NORMA SIGHTED.

She May Be Coming to Honolulu—What Has She Got?

Captain McAllister of the steamer Pele, which arrived yesterday evening from Kauai, reports having sighted the British schooner Norma off Kaena Point during the day. The schooner came from direction of Waianae and passed the stern of the Pele within a hundred yards. Captain McAllister and chief engineer Walker had a good look at the schooner, which had not changed from her appearance when at Honolulu some time ago.

There were eight men on deck, all white men. None of them, however, could be recognized. The schooner sailed in a southerly direction. It is rumored that she has a load of opium. The matter was reported to Superintendent Campbell of the I. I. S. N. Co.

An Old Soldier's Recommendation.

In the late war I was a soldier in the First Maryland Volunteers, Company G. During my term of service I contracted chronic diarrhoea. Since then I have used a great amount of medicine, but when I found any that would give me relief it would injure my stomach, until Chamberlain's Colic, Cholera and Diarrhoea Remedy was brought to my notice. I used it and will say it is the only remedy that gave me permanent relief and no bad results follow. I take pleasure in recommending this preparation to all of my old comrades, who, while giving their services to their country, contracted this dreadful disease as I did, from eating unwholesome and uncooked food. Yours truly, A. E. BENDINO, Halsey, Oregon. For sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.

The Australia's Sailing

Advices from the Oceanic Steamship Company by the China inform W. G. Irwin & Co., agents, that in order to make the stay of the Australia somewhat longer in Honolulu, and for the convenience of fruit shippers, the time of departure from Honolulu will be 4 p. m. The public having any of the new time tables will therefore read 4 p. m. instead of 6 p. m. Daily Bulletin 50 cents per month.

LOCAL AND GENERAL NEWS

The meeting of the Kapiolani Park Association has been postponed.

The Kilauaea Sugar Co. will hold its annual meeting at 11 o'clock tomorrow.

Mrs. Abraham Fernandez wishes it stated that the arms found at their house had been reported to the Marshal, but not delivered up on account of her husband's arrest.

J. W. Chapman, the well-known caterer, is now open for engagements for banquets, weddings, balls, dinner parties, garden parties, etc. Address him care of BULLETIN office.

The police are getting down to humdrum affairs again. Kamalu has been arrested for stealing a gold watch of H. Mabelson, and A. Langley—the only Langley left in Honolulu—for non-payment of taxes.

G. R. Harrison, practical piano and organ maker and tuner, can furnish best factory references. Orders left at Hawaiian News Co. will receive prompt attention. All work guaranteed to be the same as done in factory.

Over 40 Asiatics were arrested by Captain McStocker's patrol last night between the hours of 10 o'clock and midnight. At 11 o'clock Deputy Marshal Brown, to relieve the pressure of prisoners, released 23 of the "no pass" people.

The King street bridge squad through their captain, Jerry Simonson, has presented F. W. Damon with an engraved letter of thanks for that gentleman's remembering of the boys with doughnuts and coffee during the late campaign.

H. G. Biart has removed from King street to the store of Chris Gertz, Fort street. There he will repair watches and make souvenir spoons and jewelry of every description. Having been the practical watchmaker for Wenner & Co. ten years, he needs no puffing.

Some time ago Mr. Simon Goldbaum of San Luis Rey, Cal., was troubled with a lame back and rheumatism. He used Chamberlain's Pain Balm and a prompt cure was effected. He says he has since advised many of his friends to try it and all who have done so have spoken highly of it. It is for sale by all dealers. Benson, Smith & Co., Agents for Hawaiian Islands.

THE ANNUAL MEETING OF THE KILAUAEA SUGAR COMPANY will be held at the office of Messrs W. G. Irwin & Co., 170, on WEDNESDAY, the 25th inst., at 11 o'clock A. M. ROBT. CATTON, Secretary K. S. Co. Honolulu, Jan. 21, 1895. 1242-2f

Timely Topics

January 19, 1895.

Electricity and the methods of handling it may be reckoned among the greatest of the world's wonders; such advancement has been made with it during the past few years, that it is difficult for even electricians themselves to tell where its uses will end. No one would have believed a few years ago that anything that moved so rapidly could be measured, and yet it is, and the people who have meters in their houses realize it. Every year brings us greater knowledge on the subject; and with it comes a desire to go deeper into the mystery. A few years hence there may be appliances with the aid of which we may come down town without exercising our limbs at all; there's nothing impossible in electrical science after what has already been accomplished.

A plantation manager called on us the other day in search of plows, and when he examined them he remarked that "the stock is not only larger than the other dealers combined, but that the plows were of a better quality." It was no trouble to sell him just what he wanted. The demand upon us for plantation implements is always at the top notch, and for that reason we always keep a good stock on hand.

Among plantation supplies we can truthfully say that our Hendry Breaker and Double Furrow plows have filled a want, and every manager who has them on his plantation tells us they are the best plows he ever had on his place. Our stock of the Hendry Plows, bath Breaker and Double Furrows, is large, and we can supply any demand that we may have. If you will compare their capabilities with other plows you will see where they are superior.

Every plantation on the Islands uses fertilizer to a greater or less extent. If you doubt it drive out Kalihi way and see the immense works of the Pacific Guano Fertilizer Co. The difficulty the plantation manager has had to contend with in the use of fertilizer is to secure an implement that will distribute it economically, yet thoroughly. We believe our Avery Distributor is the most perfect machine for the purpose ever put on the market. This has been in use on the plantations of Louisiana for a long time, and is now being used with great success on Hawaii. By the use of this machine there is absolutely no waste of material, and nine acres can be thoroughly covered in one day by one man. It means economy to the plantation that uses it both in labor and material. The Avery Cane Cultivator is another machine that is making its inroads on the plantations here after a thorough trial in Louisiana. We have sold several of them on Hawaii and the parties using them seem perfectly satisfied with their purchase. We believe this machine is destined to be extensively used wherever sugar cane grows.

We have made arrangements for the handling of the celebrated Pasteur Filters so much used in the United States in places of business, public institutions and private residences. These filters are rented or sold outright as people prefer. One of them is now in use at the Queen's Hospital, and after a careful trial Dr. C. B. Wood, the well-known surgeon of Honolulu, says:

"I have examined the 'Pasteur Filter' manufactured by the Pasteur Chamberland Filter Co. I consider it to be the most efficient filter I have ever seen."

Anyone desiring to examine one of the filters at their residence may communicate with us, and Mr. H. L. Thiron will call upon them and fully explain the working of it.

ALOHA TOOTH POWDER

is head and shoulders above all other Tooth Powders.

We sell more of Aloha Powder than all other Tooth Powders combined.

With Aloha Powder you are sure of a dentifrice that will effectually whiten the teeth without any harmful effects. It is agreeable and pleasant to use. Try it once and you will never be without it.

Said a customer: "Your Powder seems to be better than any I have used. I have never had any irritation of the gums since using it. I have my children use it also."

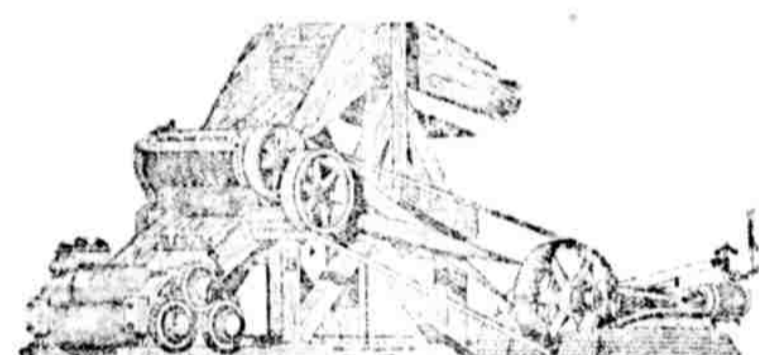

That's the whole story. It came voluntarily. A bottle of Aloha Powder will convince you of the correctness of this customer's opinion.

A Map of the Hawaiian Islands will be given with each bottle as a premium. This is a handsome Lithograph Map, is about 8 by 10 inches in size, and shows clearly all the Islands.

National Cane Shredder

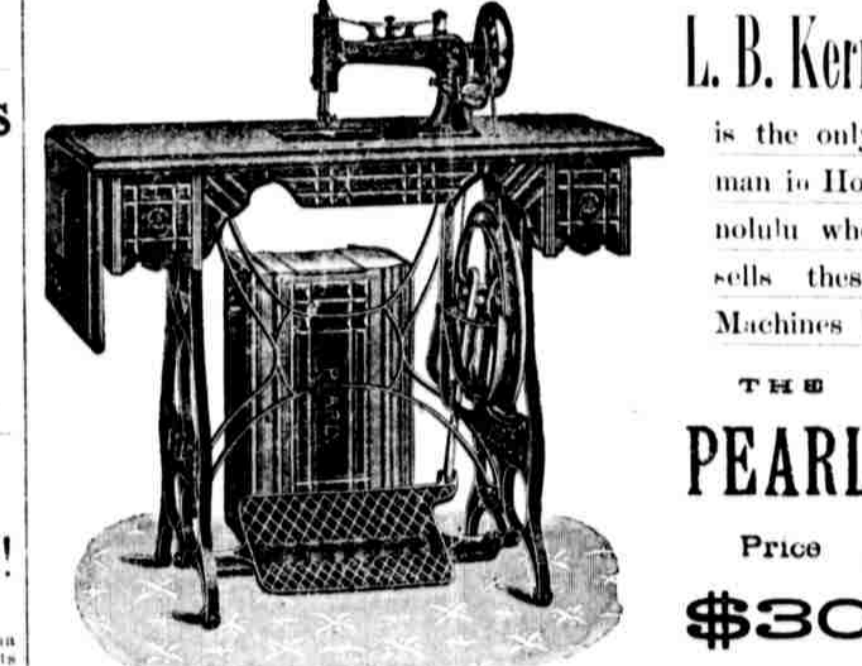

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3001 tons. This is fully 10 percent more than the best work of former years. The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company. And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality. I continue to find the impasse from shredded cane better fuel than from whole cane. The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoon. The shredder and engine require very little care or attention. Plans and specifications of these Shredders may be seen at the office of WM. G. IRWIN & CO., L'd Sole Agents for the Hawaiian Islands

PLANS OF THE REVOLT.

Nowlin Tells How the City Was to Be Captured.

An Looking of Where the Sinews of War Came From.

FIFTH DAY.

The Commission entered the courtroom at 9:20 o'clock; minutes of the fourth day's session were then read by Lieutenant J. W. Jones of the Commission. Slight corrections were made.

Mr. Cummins Not In Deep.

John A. Cummins, sworn: Was there to testify on his own behalf; no threats or promises had been made to him; first knew of arms being brought here on the evening of Dec. 3; that was the same day Major Seward returned from abroad; two weeks prior to the Major's return, Nowlin came to the house and asked the witness if he had any guns; witness said yes; Nowlin then said that when the time came he would want them; witness said that he had no arms; Nowlin said that he would want until the old man's (Major Seward) return; that was the first time witness heard about arms; when the Major returned on Dec. 3, witness and Seward had conversation; witness said that he had heard that the Major had gone after munitions of war; Seward says yes, but that he had not done the work himself; a tug had taken the material to sea and transferred it to a vessel, and she was on the way; witness said that he was very sorry that he had done this, as it would bring trouble on the people in the house; the Major then said that the trouble would attach to him alone; the Major then said that he had received a letter from the Queen to take to San Francisco and present to Rudolph Spreckels and that he would assist him with money; witness did not see the letter but that was his understanding from Major Seward; witness said to him that Spreckels had only just gone back to San Francisco; then Seward said that F. F. Follis, who was with Spreckels, would do the work; Follis had been in Honolulu with Spreckels and a young man named Bluxome; none other in the family knew of this matter excepting witness himself; nothing further was said about the matter then; on Tuesday John Kahooka arrived in town from Waimanalo with a horse; Kahooka told witness that he had been sent for the Saturday previous by Major Seward; witness, Seward and Kahooka met shortly afterwards; saw Seward give Kahooka \$20 in gold; think the money was to buy food for people on Manana Island; there was also talk about a boat having been sent on Monday; Kahooka then said that two orders would be sent up by Seward for two of Nowlin's men; that he would leave Nowlin's men and others on Manana Island, as he was going away; a few days afterwards Kahooka came to town and reported to the Major in the presence of witness that the schooner had been seen; on a Sunday afternoon the Major and Nowlin came into witness' room and told him that they had sent a man for the pistols on the island and that they could not be found; they asked witness to write a letter; another day the Major came to witness and was excited; he said that the pistols would not be given up to him; witness said it was none of his business; witness said to him that he was doing something that would get witness and family into trouble; Seward said that witness and his family would not be troubled; all the blame was on him; his (Major's) part of the work had ceased when the arms had been landed; later the Major told witness that the steamer Waimanalo had gone in search of the schooner; about three days after this witness telephoned to Waimanalo and found that Kahooka had returned; Kahooka told witness that the boy who had been seen on the steamer Waimanalo; a carriage light was given Kauli by the Major for the purpose of signaling the steamer Waimanalo, and orders were given him what to do if the signal was answered; Kauli came to town and reported to Seward in the presence of witness that everything he had been ordered to do had been done; witness was at home on the day of the trouble.

Making of the Bombs.

T. B. Walker, before being sworn, stated that he would give his own testimony, as he did not desire his family to be brought into Court; About the latter end of March last was called to the Marshal's office on account of men coming to witness' house; told the Marshal that he could not avoid the same but that he would try to do so; saw Nowlin three days after; Nowlin said he had heard that witness had had talk with the Marshal; witness told him that the talk was about his own affairs; about the latter end of October saw Bertelmann, Nowlin and Peterson, in front of Bertelmann's shop on King street, was called by Bertelmann, the other two walked away; mould was shown of a shell; Bertelmann asked witness to go with him to White & Ritman's on Queen street; witness explained to Ritman how they were to be made; there were about 8 to 12 moulds; Ritman

asked what they were for and witness told him they were used for ornaments on sections of fences; about two weeks later Ritman said that the shells were ready; did not call until about three days later when the steamer came in from San Francisco; wife called for them; about a week after Bertelmann asked witness if he had those castings; witness said yes; on the Sunday after Nowlin called at witness' house and asked if the castings had been loaded; witness said that he had no powder; Nowlin called later with giant powder and witness filled them and sent them down by his son; this was on New Year's day; on Sunday morning Nowlin called at house and called witness out; he told witness that the thing was ready to start, as they were all to be arrested; witness was told to go to the Police Station and wait, as two native captains would be there; Geo. Markham would also be there; witness objected, that he would not go where Markham was; in the evening Nowlin asked witness if he had changed his mind; witness said no; told another man later to tell Nowlin that he would be at the Police Station; had heard a good deal of talk about the vessel coming here with arms; Nowlin told Walker that the shells would be used in case any trouble would be experienced in landing the arms; the arms were to be landed somewhere on this island; bird shot was put in the shells; there were five castings in witness' possession; nine were charged and the other six were destroyed because they were no good; the bombs were to be used in scaring off the crowd; the moulds for the bombs were from a drawing made by Bertelmann; heard of trouble on Thursday night, was told by Nowlin to meet him at the Fishmarket at 11 o'clock; knew it was to be an uprising against the government; witness went down armed with two revolvers; remained there until 12:30 o'clock; made ten bombs; witness in 1893 and went out with Nowlin on the Moiliili road to test three of them; on Sunday night witness was at home; on Monday morning witness went down to Redward's and had breakfast there; did not go to Diamond Head at all; stayed at home till Thursday morning, when Dillingham drove him into town in his brake; witness was guilty of providing munitions of war.

Cross-examination—Made the ten bombs of plastic paraffin and cotton in 1893 for Nowlin, for the purpose of scaring people who were hanging around the Queen's place.

Rickard in the Boat.

Samuela Pua Mio, sworn, states: Was born at Halawa, Molokai; am 39 years of age; remember going out in a whaleboat and going on board of steamer Waimanalo off Leahi on Wednesday night, Jan. 2; boat left H. Bertelmann's; there were in the boat three men besides witness; remember seeing Rickard in the boat; he remained on the Waimanalo; he sent a letter by witness to deliver to Henry Bertelmann; the letter was handed to Bertelmann; Cross-examination—Can read Hawaiian; letter in an envelope; did not see any address on the letter; Bertelmann was asleep when witness arrived at the house; he was awakened and the letter given to him.

Edward Dowsett, sworn, states: Was at Hawaiian Hotel on Sunday, Jan. 6; saw Seward there; had brief conversation with him; heard that there was an uprising at Waikiki; heard Seward say that the ball was open, and that he had heard that Carl had been shot; he spoke in his usual manner.

Cross-examination—Seward addressed both witness and lady; he did not say anything about after the ball was over.

Col. Whiting then announced at 11:30 o'clock that the Court would be cleared for deliberation. An adjournment was then taken until 1:30 o'clock.

Afternoon Session.

The Court re-convened at 1:30 p. m.

Rickard and Gulick Involved.

Henry F. Bertelmann, sworn, states: Remember the landing of arms from the Waimanalo at Diamond Head on Thursday, Jan. 3; remember a boat leaving witness' premises on the night of Jan. 2; Rickard was at the house about 8 o'clock that evening; a hackman, Radin, came there after 9 o'clock; Rickard did some writing on letter-head paper witness gave him; he wrote in ink; Radin brought a package for Rickard from Gulick; it was a square package about 5 in. long and 2 in. thick; there was a letter also; Radin stopped there a little while; Rickard wrote a second letter and handed it to witness to deliver it to Gulick; Rickard went off in a boat that Wednesday night; Pua returned later and handed witness a letter from Rickard addressed to Gulick; letter was given to Nowlin next morning; saw Rickard after midnight Thursday; discussed the landing of arms with witness; Nowlin had said that the Government got on to the matter; Rickard sent a letter to the captain telling him to try and land the arms at some point.

Cross-examination—Witness did make statement to the authorities; Kinney told witness that he would try hard and save his life; there was nothing said about a confession being made by witness; witness did not know whether Gulick received Rickard's letter.

John Radin, sworn, states: Born in Austria; am 39 years of age; been driving back ten years; remember going to Bertelmann's to see Rickard from Gulick's; Gulick telephoned to 280 stand from his home; Gulick gave witness a package to take to Rickard at Bertelmann's house; Rickard and Bertelmann were there; Rickard handed back a letter to give to Gulick; this occurred before the row on Sunday.

How the Town Was to Be Taken.

Samuel Nowlin, sworn, states: Was on the field and took part in the armed conflict with the Government on Sunday, Jan. 6; the matter

had been planned about four or five months before the trouble; Gulick, Rickard, Seward and witness planned for the revolt at Gulick's house; met as often as twice and three times a week; sometimes would be two or three hours in the house; several plans were made and abandoned; witness laid two plans before them; first plan was to surround the Executive building and have 57 outposts at street corners; those would consist of natives and some white friends; there was a map before the men; the other plan was to surround the town from Mamakoa to Punchbowl streets and Queen and Beretania streets, take the station house, telephone buildings and electric station; Rickard and Gulick were present when the plans were submitted; no part was assigned to any of the three; they were only planning; the plans were submitted the early part of last month; the last plan was decided on; Seward had gone over for the arms and ammunition; he returned from San Francisco the early part of this month; Seward told witness the arms were on their way; witness sent natives around town and on the other side of the island for forces; the enlisting of natives was left to witness, that was his part of the work; there were agents in Koolau; the agents were to form squads of thirty-seven men and await orders; witness arranged for the sending of men to see the landing of arms; Seward arranged for the boat to be used between Rabbit Island and the mainland; the arrival of the schooner was reported to witness after Christmas; a meeting was held and it was agreed to get the steamer Waimanalo; Rickard secured the steamer; the Waimanalo went out before New Year's; had another meeting after hearing the Waimanalo had met the schooner, and it was decided to have the uprising as soon as the arms came over; it was arranged to start on Thursday night; word was sent around town to the natives; half of the arms were to be landed at Kakaako and half at the Fishmarket; witness was to have charge of the Fishmarket, and Walker of the Police Station; the steamer was to pass at 1 a. m. Friday; heard from Bertelmann and Pua that the Waimanalo was off Diamond Head and communicated the same to Gulick; the police got on to the scheme, which was abandoned; first heard at 9:30 o'clock that the police had got on to it; a canoe was secured and the steamer was intercepted by Rickard; next morning witness received a letter from Bertelmann for Gulick; the letter contained a request for another boat; Gulick then told witness to get a whaleboat; a boat was got from the Queen's boathouse and was taken out to Waikiki that afternoon by witness' own men; they got back to town about 5 p. m.; Rickard and witness fixed on Monday morning at 10 o'clock for the revolt, as it was impossible to have it done at night; did not see other two colleagues; witness went out to Waikiki 9 o'clock Sunday evening; the affair at Bertelmann's precipitated the affair; the plan was to restore the monarchy; Gulick, Rickard and witness drafted a new constitution; it was in writing; it was from Constitutions of 1887 and 1894; Gulick put in additions or amendments; constitution was completed about Christmas; the arms were on their way then; William Kaao, a nephew of witness, engrossed the constitution; he has been a private secretary to the Queen nearly two years; there were also forms for martial law and commissions for big offices; they were drafted by Gulick and engrossed by Kaao; witness gave these to Kaao; there was also a proclamation drafted and engrossed by the same persons; these were handed to Kaao at Washington Place; the constitution was to be signed by the Queen and promulgated.

Cross-examination—First meeting at Gulick's house was about 2 or 3 months ago; the subject was how to procure arms; there were over ten meetings; at most of the meetings Seward was not present; Rickard told witness that Seward was to go for arms; witness had command of the natives with Wilcox as assistant; witness had 32 men with him from 1 o'clock Monday morning until the afternoon; had re-enforcements of about 15 from Wilcox's squad; the gangs of the idios is 800 yards; none were killed; made confession to the authorities on Wednesday or Thursday of last week; witness was given his life if he made a clean breast of it.

LUCOL

IN THE BEST PAINT OIL!

Popular approval goes far toward establishing the standing of a business house in any community, and the good-will and patronage we have had during the last forty years indicate, not only that we have the POPULAR APPROVAL, but that those who have dealt with us have been eminently satisfied with their transactions.

We attract and retain patronage more by the EXCELLENCE OF QUALITIES SHOWN AND OUR REASONABLE PRICES than by preposterous claims of selling goods below cost, etc.

We repeat as we have said before that when you pay less for goods than we ask for them you get an inferior quality.

While we carry a stock of dry goods that is complete in every sense from the lowest priced goods to the most luxurious made, we make a specialty of the highest grade, and exclusive designs of the most recent and accepted styles.

It is worth your while always in making purchases to look at our stock before deciding. If we have what you want you will certainly buy it, if quality and price are any consideration.

This week Ladies' Underwear in connection with our general stock will receive considerable attention; it is our intention to make a run of them and as the stock is an over large one, first buyers will have first choice.

Scrofula

The Worst Case the Doctors Ever Saw

Hood's Sarsaparilla Perfectly Cured "C. I. Hood & Co., Lowell, Mass."

Dear Sirs—I wish to testify to the great value of Hood's Sarsaparilla. For some time I had been troubled with scrofula, which early last winter assumed a very bad form.

Sores Appeared on My Face and hands and gradually increased in number until they reached to my shoulder. The doctors said it was the worst case of scrofula they ever saw and also went so far as to say it was incurable. I tried ointments and other remedies but to no avail. A friend recommended Hood's

Sarsaparilla, and although I was completely discouraged, as a last chance I resolved to give it a trial. After taking one bottle I noticed the sores had commenced to heal. After the sixth bottle

I continued to take it, however, until I had used nine bottles, and now I am perfectly well. Miss KATIE ROSENKRANTZ, Uster, Penn.

Hood's Pills are prompt and efficient, yet easy in action. Sold by all druggists. 25c.

Save Half the Amount of Your Oil Bill Through Saving in Pigment.

Every painter should use Lucol instead of Linseed Oil, because:

- 1. Lucol is more durable than Linseed Oil.
2. Lucol is more economical than Linseed Oil.

PROOF THAT LUCOL IS MORE DURABLE.

Six years of actual use in exterior house painting in California (the most trying climate for paints), in the burning heat of the Arizona Desert, the Arctic cold of Alaska, and on the Atlantic coast, have fully and practically shown that Lucol always outwears Linseed Oil under the same conditions. All the acid works in San Francisco have discarded Linseed Oil for Lucol.

ILLUSTRATE THIS YOURSELF. Put strong ammonia on Linseed and Lucol paints. The Linseed paints are destroyed in a few minutes; the Lucol paints are practically unaffected.

PROOF THAT LUCOL IS MORE ECONOMICAL.

Break up 1 1/2 lbs. paste white lead in one pint of Lucol, and the same quantity in one pint of Linseed Oil. Spread the paints on similar dark surfaces for comparison. The Lucol paint spreads as far as and covers much better than the Linseed paint. To get equally good covering with the Linseed paint you have to use 2 1/2 lbs. of white lead to one pint of Linseed Oil. This means a saving of 1 lb. of paste lead to each pint of Lucol used, or 6 lbs. to every gallon, equivalent to your saving more than half the first cost of the Lucol.

Lucol is not in competition with cheap Linseed Oil substitutes.
