Daily Bulletin

Placed to reach the eye, but established for the benefit of all.

FRIDAY, OCT. 17, 1890.

Hon. J. M. Horner's monotonous grind against expenditures for Honolulu reminds one of the fabled rebellion of the other members of the body against the stomach. The city is a natural outgrowth of the country's industry and commerce. If city and country were entirely separated as to revenue and expenditure, the country would be by far the loser in regard to public benefits.

Goldwin Smith advocates the election of its Governor by the Dominion. Sir George Grey takes the same position in New Zealand, and Lord Stanley, the Governor-General of Canada, says that the Dominion must look for new markets now that the United States is closed. Prominent public men speak of a growing sentiment north of the Lakes in favor of annexation to the United States.

We are glad to notice the Tramways Co. are doing some greatly needed repairing in some of the worst places along their track lines. Lately these have become a very nuisance for long distances. They have in fact become in many places a constant menace to the comfort as well as to the personal safety of road passengers.

There is really no reason why the Tramways Corporation should not be required to keep up reasonable repairs throughout the entire length of the franchise granted them; and, if we are not mistaken, provisions were originally made for such repairs, which have not been faithfully and efficiently carried out by the company. We hope the Tramways Company will at once see the necessity of putting their tracks in as good condition as contemplated by the terms of their franchise.

MEETING OF PLANTERS.

There was a special meeting of the Planters' Labor and Supply Company this morning. One of the items of business discussed was the modification of the labor contract. It was agreed that one of the conditions of the contract should be changed, and Messrs. F. A. Schaefer, J. F. Hackfeld, F. M. Swamy and H. P. Baldwin were appointed a committee to confer with the Minister of the Interior, who is also President of the Board of Immigration, on the subject.

Another matter considered was Japanese immigration. It was deemed advisable to have more Japanese labor introduced, special precautions to be taken against cholera, now prevalent in Japan. The meeting adjourned subject to call by the secretary.

From a distributing Reservoir with a capacity of 700,000 gallons, at an elevation of 100 feet above sea level, water has been laid along Lehua Avenue to the Pearl City Depot in a 6-inch Cast Iron Pipe, from which water will be supplied by the Company at Government rates.

The Company will bind itself in the Deeds to carry purchasers and their families and servants by rail between

Honolulu & Pearl City

BEAUTIFUL VIEW!

Those desiring lots where the most charming view can be had from the veranda of cottage or mansion, can obtain lots fronting on Lehua, Maile or Woodlawn Avenues; this is a most charming location for residences, as all agree who have taken the trouble to walk up Lehua Avenue toward the Ewa Court House. As a health resort, a better situation cannot be found. To assist settlers, the following easy terms are offered:

One-Third in Cash, One-Third in 3 years, One-Third in 5 years, With Interest at 7 Per Cent.

Thus making it possible for the most limited means, to procure a nice healthy residence. Distance is annihilated by railway communication, so that people living at Pearl City will reach Honolulu in less time than it takes to come from Waikiki by the ordinary means of travel, while the expense for a person will not be more than five cents per day greater than the present cost of travel to Waikiki by Tramway.

Now is your time to procure Homestead & Business Lots at PEARL CITY

At Prices lower than they can ever be bought in the future. Don't Let Your Opportunity Slip

Maps of the Lots can be seen at the offices of the Pacific Hawaiian Co., Hawaiian News Co., and E. L. Thurman, and at my Salesroom, Honolulu, where all further information can be obtained.

THE LEGISLATURE.

105TH DAY.

FRIDAY, OCT. 17.

The House opened at 10 o'clock.

REPORTS OF COMMITTEES.

Rep. Lucas presented four printed bills from the printing committee.

Noble J. M. Horner presented the report of the select committee on the bill to tax Honolulu for the expenses of the Fire Department. They recommend its passage. Rep. Bush said he would sign it but was not present. The Attorney-General was not prepared to sign the report, unless the bill was made applicable to all towns.

Minister Peterson said he would not bring in a minority report, but would give his views when the bill came before the House.

Laid on the table to be considered with the bill.

RESOLUTIONS.

Rep. Waipuilani read a first time by title a bill to extend and promote the fishing industry of the Kingdom. Read a second time by title and referred to the commerce committee.

ORDER OF THE DAY.

The House proceeded to the order of the day—third reading of the Appropriation Bill.

Roads and bridges, Honolulu, \$53,000.

Rep. White moved \$45,000.

Rep. R. W. Wilcox supported the item as in the bill.

Rep. Rickard, after remarking on the previous speaker's opposition to the Waipio road the other day, moved the item pass as in the bill.

Noble Marsden moved \$25,000.

Noble J. M. Horner did not want to be mean, but wanted to look at things. The hon. Noble (Marsden) had informed them that the Honolulu road taxes were \$20,000 a year. In addition to this they had the labor of the prisoners down here. For these prisoners they had appropriated \$80,000 for the period. A prisoner ought to be worth as much as an animal, which would make another \$80,000, besides the \$75,000 or so from the taxes and appropriation. Hamakua had 67 miles of road, which was ten more than they had in Honolulu.

Minister Brown said there were 79 miles of roads in Honolulu.

Noble Horner went on to say that Hawaii, with more land than all the other islands put together, and produced more of the wealth, was asked the other day to cut down its appropriation to \$80,000.

Noble Macfarlane wished to correct that statement made repeatedly by the hon. Noble. He asked if the members for Hawaii could consistently give up a portion of the amount in the bill. He did not know anything about the needs of that island.

Minister Brown would like to see the Noble from Hawaii come nearer the facts. The real estate of Honolulu was rated in the tax returns at eight millions, while that of Hawaii was placed at \$3,270,000.

Noble Horner said he was not referring to the value of property but to the production of wealth. This was a good place to begin an economical policy, as Honolulu was receiving \$800,000 without counting the harbor item.

Noble Macfarlane most emphatically objected to the manner in which Noble Horner was slinging figures round without regard to the facts. He had been indulging in so many wild statements that the speaker could not tell what he was driving at. He was making wild statements about Honolulu, that it was getting \$800,000, and more for the harbor, when the harbor was not before the House. So far as Honolulu was concerned he (Noble M.) was perfectly willing to carry out this policy of retrenchment. He did not see why those superfluous estimates should be put in for contingencies. He thought that this Government could make closer estimates than the preceding one, and that it would get more work for the money, because it would not have bogus pay rolls. He did not attempt to cut down appropriations for the other islands.

Passed as in the bill.

Roads and bridges, Kauai, \$20,000.

Noble Marsden moved \$15,000.

Kauai had the best roads in the Kingdom.

Passed as in the bill.

Noble Pua moved to insert \$1000 for roads and bridges on Niihau. It was not fair to leave that island out. Minister Brown said Niihau was private property.

The motion lost.

Roads and bridges, General, \$30,000. Passed.

Pay of Road Supervisor, Honolulu, \$1000. Passed.

Minister Brown moved to insert, Road damages, contingent, \$1180.45. This was another inheritance.

Noble Muller wanted to know if there were any more of those inheritances.

Rep. Kanealii moved the item be referred to a select committee. The President said it would hardly do to refer items to committees on third reading.

Rep. Paeahoale asked if there was not an item elsewhere for road damages.

Minister Brown said this was needed to balance accounts of last Appropriation Bill. It could not

legally come out of the item for damages in this bill.

The item passed.

Rep. Hookano moved to insert, "Road damages to Kealskai, \$200," as adopted in a committee report. Carried.

Bureau of Honolulu Water Works, Salary of Superintendent and Clerk of Market, \$6000.

Noble Horner moved \$5000, saying last period this was \$1800. Although times could not be so flourishing this period as last, this salary is proposed to be raised \$1200.

Rep. R. W. Wilcox said this official was chief of a bureau and ought not to have his salary cut down to less than other chiefs.

Passed as \$5000.

Salary of clerks, \$5400.

Rep. White moved \$6000.

Passed as in the bill.

Running expenses, \$14,300. Passed.

Noble Marsden moved to insert \$150 for salary of Z. K. Meyers as recommended by the finance committee. It would be a disgrace to the Government if this was not paid. Carried.

Repairs, \$10,000. Passed.

Board of Health. Salary of President, \$7000.

Rep. Kanealii moved \$6000.

Noble Horner supported the reduction. There was not much for the official to do. They were after economy now.

Noble Macfarlane wished to call attention to the inconsistency of the Noble from Hamakua, who had stood up in the House and supported \$9000 for the late incumbent.

Noble Horner said that the late incumbent was also city physician.

Noble Macfarlane said the hon. Noble was after the personality in the case. He felt like moving an item for the purchase of a photograph that could talk back at the hon. Noble, as he was tired of remembering all his inconsistencies.

Noble Marsden said the former President told a committee he had very little work to do for the Board, therefore had ample time to perform the duties of city physician. As the President was not prohibited from engaging in his own private business, and was in fact engaged in private business, the speaker considered the salary in the bill excessive.

Passed at \$6000.

Secretary, \$1800.

Rep. Kanealii moved \$4000; Rep. R. W. Wilcox, \$3600; Rep. Cummings, \$3000.

Passed at \$4000.

General expenses, \$17,664. Passed.

Buildings, repairs, and maintenance of hospitals, \$16,000. Passed.

Hilo Hospital, \$8000. Passed.

Quarantine expenses, \$5000. Passed.

Kapiolani Home (including cost of moving to Kalihi), \$6500.

Minister Peterson moved to amend the wording to read, "Support of nonleprous children and moving Kapiolani Home to Kalihi." In answer to Rep. Paeahoale, he said it was not fully decided to move the Home.

Rep. Paeahoale objected to moving the Home and moved to strike out the words in parentheses and to make the amount \$4000.

Passed as amended by Minister Peterson.

Medicines (for gratuitous distribution), \$10,000.

Rep. Kanealii moved \$8000 and referred to Wailuku Hospital.

Noble von Tempisky said any native could get free medicine at that hospital.

Passed at \$8000.

Purchase of kuleanas at Kalawao, \$2500. Passed.

Segregation, support, and treatment of lepers, \$234,000.

Noble Marsden asked why it was more than the late Government's items, \$210,000.

Minister Spencer said it had been explained on second reading. The late Government made a mistake of \$10 per capita in estimates.

Passed.

Government physicians, \$44,200. Passed.

Minister Peterson moved to insert, "Expenses of free system of removing garbage and contents of privy vaults and cesspools, Honolulu, \$12,000." This was in accordance with the action of the House on the question of a sewage system for Honolulu. In answer to Rep. Waipuilani he said the people were supposed hitherto to pay for removal of garbage from their premises, but as they did not do so the garbage collectors gave up and the work was not done.

Rep. Waipuilani moved the item be laid on the table.

Rep. Paeahoale opposed the item. There was no such expenditure the last two years of plenty, but now this was to be added on the approach of two years famine.

Rep. Bush appealed to members to vote this as a preventive of cholera.

Rep. R. W. Wilcox favored the item on the strength of the thousand unsavory smells met going about the streets.

The item passed.

THE LEGISLATURE.

104th DAY.

THURSDAY, Oct. 16.

AFTERNOON SESSION.

The House resumed at 1:35 o'clock.

Noble Muller moved that Sec. 2 of the wholesale business bill, as amended by the commerce committee, pass.

Rep. White moved that the section and the whole bill be indefinitely postponed. This was only a measure on behalf of Honolulu dealers to keep up prices.

Noble Macfarlane said that the bill was not introduced in the interest of any class but for the benefit of the public. It was approved on submission to a committee of the Chamber of Commerce.

Rep. Nawahi denied that he had made such a statement.

Noble Muller described the proceedings of the committee, to show that everything was open.

The interpreter stated that a literal interpretation of the hon. members remark in the morning was that a wrong had been done to him by the committee.

Noble Macfarlane had held a higher opinion of the foresight of the hon. member than that he should have signed a report before he understood it.

Noble J. M. Horner was afraid this bill was one of those where there was a nigger in the fence.

Noble Crabbie said there was no such thing. There was no nigger about it.

Noble Horner resumed. The bill was a restriction on liberty. What the people of the country wanted was cheap goods.

Noble Crabbie had introduced the bill and could assure the hon. Noble that there was no nigger in it.

Noble Muller corrected misapprehensions of opponents of the bill as to its origin and objects.

Noble Isenberg could not agree with the hon. Noble from Hawaii. Besides paying taxes the wholesale merchants had to maintain expensive business establishments.

Noble Horner would be satisfied with the bill if convinced that it was only directed against drummers. He had been annoyed at the visits of whiskey drummers to his neighborhood.

Rep. Brown explained that the bill had no reference to the drummers of local wholesale houses.

Noble Horner thought when the bill appeared this morning that as it was a merchants' bill he would leave it alone. But on looking at it a little closer he began to think it was of a piece with the opposition to the San Diego steamship bill.

Noble Macfarlane knew that the hon. Noble felt sore over the San Diego matter. The bill would not prevent competition in the wholesale business.

The eyes and noses were called on the motion to indefinitely postpone the bill, which was lost on the following vote: Ayes—Nobles Pua, J. M. Horner, W. Y. Horner, and Anderson; Nays—Cummings, R. W. Wilcox, Kaula, Nawahi, Baker, A. Horner, Kaho-

Noes—Ministers Cummins, Brown and Peterson; Nobles Widemann, Macfarlane, Muller, Crabbie, Hind, Marsden, Cornwell, von Tempisky, G. N. Wilcox, Kanoa and Isenberg; Reys, Brown, Rickard, Cockett, Halstead and Knudsen—19.

The section passed, also the remainder of the bill, to be read a third time Tuesday.

Second reading of bill to provide for taking the Census of 1890. Minister Brown thought it was not possible to make preparations for taking the census on the 1st of December this year.

Rep. Marques considered it would be unfortunate to break the record by having the census in 1891. Other countries took their censuses this year, and all countries would interfere with comparative statistics.

Rep. Brown left the force of the hon. member's argument, but it might be impossible to take the census this year.

The amendment carried. Rep. Marques, on other amendments being proposed, moved that the second section and the whole bill be indefinitely postponed.

Rep. R. W. Wilcox seconded the motion. The bill was indefinitely postponed and a motion to reconsider the vote was lost.

Second reading of bill to provide and to regulate the sending of Hawaiian youths abroad to be educated. Noble Pua moved that Sec. 1 pass.

Minister Brown said the only objection that occurred to him against the bill was the provision that the youths must be selected from certain islands, which seemed to be opposed to judicious selection.

Rep. Hookano said that this objection was removed by a provision in another section. The section passed.

Noble von Tempisky moved that Sec. 2 and the whole bill be indefinitely postponed. He saw no use in it. We had the Kamehameha School and other institutions for educating youths.

Rep. Hookano did not know why the bill should be rejected when the House had appropriated \$10,000 for the education of Hawaiian youths abroad. Perhaps the hon. Noble from Kula (laughter) meant to stop sending youths abroad.

Noble von Tempisky—That's just it. Rep. Hookano mentioned an old tradition that the people of Kula were so stupid that they would attempt to take the scales off a squid (laughter) but he was hardly prepared for such a stupid motion as that of the hon. Noble. He would advise him to withdraw it.

Noble J. M. Horner saw a great injustice to Hawaiian youths in this bill. The money to be expended on these seven youths would educate scores of youths at home. Was it any benefit to the many ordinary boys left at home for one smart boy to be sent abroad?

Book-keeping they were to learn abroad. If there was nobody in the kingdom who could teach book-keeping, then import a teacher who could do so. It would be cheaper than sending boys abroad. Then there was the profession of teaching. Why not put the \$10,000 to the aid of the normal school about starting at home? Then there was carpentry. Had we no good mechanics in the country?

His observation was that youths educated abroad would not look at a mallet or a chisel when they came home, but wanted to stay round to make a living by their brains when they hadn't any brains. (Laughter.) It was because he was for and not against the Hawaiians that he favored the indefinite postponement of the bill.

Noble Cornwell was in favor of the bill from the beginning. He did not agree with the hon. Noble who had just spoken. How far would \$10,000 go in endowing a school where the youths could be instructed in special branches? It would only be a flea-bite. There were clever youths finishing their courses at Lahainaluna and other schools, who had not the means of going abroad for further advancement. It would be a very good thing to enable these to go abroad, under the conditions provided in the bill, and he for one would support the bill.

Rep. Nawahi was in favor of the bill. We have not got the schools referred to by the hon. Noble from Hawaii. A youth from one of the schools such as we have would be obliged to go abroad if he wanted to enter a learned profession. How could a young man become a doctor or a lawyer in any of the domestic schools? The foreign residents sent their children abroad for higher education, and this bill was intended to do the same for children of Hawaiians.

Rep. Lucas supported the bill. It would be impossible for youth to acquire certain branches of education at home. There was not a foreign family in the kingdom able to afford the expense which did not send its children abroad for education. He understood there was a young Hawaiian doctor ready to honorably graduate in London. There was another young Hawaiian learning engraving in the States, who had received a diploma for excellence. A Hawaiian boy in this country could scarcely expect to fit himself for a position above a plantation lina, and he suspected that this was where some planters wanted to keep him.

Noble Widemann said the money was appropriated, and they were now making rules for its expenditure. Let that be done without any further nonsense.

Noble Isenberg was glad that the country was so well off in schools, and it was the graduates of these schools that this bill proposed to help. He would be glad to see Hawaiian youths become physicians in foreign colleges, as they would probably be more successful among their own people than any other doctors.

The motion to indefinitely postpone the bill was lost, and Sec. 2 and the remainder of the bill passed in order, and third reading was fixed for Tuesday.

The House adjourned at 3:50.

Barry's Tricopherous Established 1801.

Infalible for renewing, invigorating and beautifying the hair, removing scurf, dandruff, and all affections of the scalp, and curing eruptions of the skin, diseases of the glands, eruptions and integuments, and relieving stings, cuts, bruises, sprains, etc. The affinity between the membranes which constitute the skin and the hair which draws its sustenance from this triple envelope is very close. All diseases of the hair originate in the skin of the head. If the pores of the scalp are clogged, or if the blood and other fluids do not circulate freely through the small vessels which feed the roots with moisture and impart life to the fibres, the result is scurf, dandruff, itching of the hair, grayness, dryness and harshness of the ligaments, and entire baldness, as the case may be. Stimulate the skin to healthful action with Barry's Tricopherous, and the torpid vessels, recovering their activity, will annihilate the disease. In all affections of the skin and of the substrata of the scalp, and in the process and the effect are the same. It is upon the skin, the muscular fibre, and the glands that Barry's Tricopherous has its specific action, and in all affections and injuries of these organs it is a sovereign remedy. Beware of Counterfeits.
