

EVENING BULLETIN

Without ADVERTISING

When a merchant says that "trade is dull" on what does he base his complaint? Let him ask himself whether he has done his full duty to his business. Has he called attention to his name, his location, his particular stock in trade? If the public does not know what he has to offer, what chance has he against his more active competitor? If he has not advertised his business how can he expect returns? If you seek success—ADVERTISE!

VOL. XLV. No. 2576

HONOLULU, TERRITORY OF HAWAII, SATURDAY, OCTOBER 3, 1903

PRICE 5 CENTS

OUR BONDS ARE ACCEPTED No Free Trade For Chamberlain

Washington, October 3.—"Kopoikal, Honolulu: Treasurer decides to accept this issue of bonds up to ninety per cent as security for Government deposits and as substitute for Government bonds to increase circulation. Trust Hawaii appreciates the administration's extraordinary favor. Leave for New York."
"CARTER."
The above cablegram was received by Treasurer Kopoikal from Secretary Carter shortly after 10 o'clock this morning. The Treasurer immediately took the message to the Governor, who was hearing the Kohala ditch matter in the executive chamber.
Later the Treasurer framed the following reply: "Honolulu, October 3.

"Carter, New York: "We appreciate the administration's extraordinary favor and congratulate you on your success."
"KEPOIKAL."
The Governor, being busily engaged in the Kohala matter when the cable was received, made no comment thereon, passing the message to Superintendent of Public Works Cooper.
This cablegram from Secretary Carter undoubtedly records the very satisfactory result of correspondence that has been going on between the Secretary of the Treasury and Cashier Cooper of the First National Bank.
Hitherto the First National bank as the depository for Federal government funds has been required to secure Federal deposits and its bank note circulation by United States government bonds. The law requires that the Secretary of the Treasury shall cause the National banks to give "satisfactory" security for deposits, it being left to the discretion of the secretary to name the character of the bonds accepted as security. United States four per cent bonds are accepted as security for bank note circulation up to ninety per cent of their face value. The United States two per cents are accepted at face value.
Thus Secretary Shaw has put the Hawaiian Territorial bonds on the same basis as United States four per cents.
The practical result of this action by the Secretary is to allow the National bank to retain \$30,000 of every \$100,000 deposited by Federal departments pro-

vided of course that it is secured by the Territorial bonds. If the Secretary of the Treasury follows up this action by increasing the limit of deposits, it will assist materially in decreasing the drain upon the finances of the business community occasioned by the necessity of shipping coin to the States to cover deposits exceeding the National Bank limit. The limit of cash retained will depend on the decision of the Secretary of the Treasury. The First National Bank is now allowed \$200,000.
Superintendent Cooper and Treasurer Kopoikal, leaving the Council meeting to discuss the purport of Carter's communication, stated that the action of the United States Treasury Department practically made the Territorial bonds United States bonds.

This meant that they would sell at par at least, probably at a premium and that the problem of placing the issue was most satisfactorily solved. There would now be no lack of demand for the Territory's securities.
"Yes! Uncle Sam has fathered our bond issue," said Superintendent of Public Works Cooper, "and the clerks of the Public Works will now be kept busy preparing specifications for the many necessary public improvements which are now bound to be commenced very shortly. Hawaii's bonds are practically placed on the same footing as United States registered bonds. The only possible disadvantage is the short term of the bonds."
Treasurer Kopoikal expressed his satisfaction and appreciation of the action of the administration.

LONDON, England, Oct. 3.—Hon. Joseph Chamberlain has issued a manifesto dealing with the issues before the British public which brought about his resignation as Secretary for the Colonies.
Chamberlain deals with his subject in a masterly and convincing manner. He flat-footedly opposes a continuation of the British free trade policy and makes a strong plea for closer commercial union between the British Government and its colonies.

OUR BONDS TAKE A BOOM

WASHINGTON, D. C., Oct. 3.—Secretary of the Treasury Shaw today informed Secretary George R. Carter that he would accept bonds of the Hawaiian loan of \$1,229,000 as security for national bank deposits and circulation up to 90 per cent of their face value. This places the Hawaiian bonds on the same basis as United States bonds.

Draft of Kohala Ditch License Discussed Amendments To Be Made

Further hearing in the matter of the Kohala ditch controversy was had this morning in the executive chamber, the following named persons being among those present with Governor Dole: A. C. Gehr, H. B. Gehr, W. O. Smith, J. T. McCrosson, Fred Wundenburg, A. C. Lewis, L. A. Thurston, Superintendent Cooper, Land Commissioner Boyd and F. S. Dodge.
Commissioner Boyd and L. A. Thurston came in some time after the meet-

ing commenced, being present at the request of the Governor, Thurston attending as representing the Commissioner of Forestry.
Today's Kohala hearing is the first in the present series of ditch controversy meetings attended by the Land Commissioner or by the forestry representative.
Governor Dole handed around copies of a form of license for the Kohala water privileges and began to read the document, calling upon any who had objections to make or suggestions to offer to voice their sentiments.
A. C. Gehr wanted it understood that under no circumstances or considerations did he waive any of his rights in the premises. The Governor stated that he was aware of this fact.
As the form of license was read there were several suggestions as to the elevation at which the ditch should be run. A. C. Gehr showed that at a certain specified elevation there was a possibility of all benefits eventually being enjoyed by the Bishop Estate, Gehr was not going to agree to any proposition that affected his rights so materially.
When the matter of the time in-

OZUKI TELLS OF HOW HE MURDERED SUGI

Deputy Sheriff Lane of Koolauloa arrived in town last night bringing with him as a prisoner Ozugi, the Kahana Japanese who murdered a woman named Sugi last Wednesday. Lane says that he soon found that the great illness of the Japanese murderer was to a great extent shammed. He consequently moved him to Hauula and put him in the jail there before taking him to this city.
Ozugi made a clean breast of the whole affair. He was desperately in love with the woman whom he killed and now tells his story without regard for consequences. He tells the history of the whole affair as follows:
Sugi, her husband Murasaki and Ozugi first met on the McBryde plantation on Kaula, where they were working. Ozugi soon became the woman's lover. After some time all three moved to Aiea and later on to Kahana.
Here, so Ozugi says, the woman added two new lovers to her collection. This fact so preyed upon Ozugi's mind that, although he was not the woman's husband and had no claim on her, became quite desperate. As a consequence he went to Kahuku last Saturday. He tried to forget the woman

AXTELL WINS \$5000 FROM HIS AGGUSER

In J. C. Axtell vs. H. S. Hendrick, malicious prosecution, before Judge Robinson, the jury this forenoon returned a verdict for plaintiff in \$5,000 damages; Biting for plaintiff; Fitch for defendant.
Hendrick, proprietor of the Honolulu Iron Fence & Monument Company, prosecuted Axtell in the Police Court, charging him with embezzlement. The case was dismissed and Axtell brought suit for malicious prosecution with the result above noted.
Axtell, when accused by Hendrick, had been in Hendrick's employ and there was a dispute over a matter of some \$600 collected, Hendrick claiming that Axtell had appropriated the amount to himself.

MOTION DENIED

Arthur Wilder, of Robertson & Wilder, appeared as counsel for plaintiff in the matter of the motion of E. H. McClanahan, of counsel for defendant, to annul the verdict of the jury in the Godfrey-Rowland case. Judge DeBoit denied the motion.

Wilder, in his closing address, stated that he will endeavor to kill himself.

Killed In Explosion

PEORIA, Ill., Oct. 3.—An explosion occurred in the Cooker corning distillery today in which four men were killed, five injured and two workmen are missing. The explosion wrecked the buildings and it is feared the missing men are in the ruins.

No Fear of War

VIENNA, Austria, Oct. 3.—The Secretary of the Austrian Ambassador to the United States gave out an interview today in which he states that there is no fear of war.

Interlocutory Divorce Decree

SAN FRANCISCO, Cal., Oct. 3.—The Supreme Court of California handed down a decision today sustaining the interlocutory decree in divorce proceedings.
The California Legislature enacted a law requiring that decrees of divorce should not be final until one year after the rendering of an interlocutory decree. The law was contested and taken to the Supreme Court, which sustains the legality of the enactment.
SAN FRANCISCO, Cal., Oct. 2.—SUGAR: 88-Analysis Beets, 8s 9d.

BECKLEY IS OUT FOR BEST MEN

"You can say I am a Home Ruler and always will be. I believe the principle is sound. However, I want to say that I object to stuffed conventions, stuffed tickets and the rotten methods that were carried on by the party leaders in the county convention. I will not stand for it. They promised M. K. Nakulua the nomination for the position of county clerk and then did not even give his name a chance to come before the convention. As soon as young Kalauokalani was put up, the nominations were quickly closed and then when an attempt was made later on to rectify the mistake, the motion was voted down. I shall soon expose the methods of the Home Rule party leaders. As a self-respecting Home Ruler I must refuse to be sandbagged and muzzled."

ROBBER'S VICTIM IN CRITICAL STATE

This morning several new clues in the Moanalua road robbery case were added to those secured yesterday. They tally in all particulars and furnish a pretty good description of the Chinese who performed the deed.
Dan Kamakauoha, an employee of the Pacific Hardware Company, this morning reported that his wife had seen a very suspicious-looking character on their premises yesterday.
Kamakauoha's place is on the Moanalua road a little Ewa of the Damon

KAUAI SHIPPING.

The steamer Waleale arrived from Kaula ports this morning at 10:20 o'clock. Purser Deverill reports as follows: "The steamer W. G. Hall was at Koloa. The steamer Mikahala was discharging freight at Eleole. The steamer Nihaui was discharging coal at Waimea. She will finish some time today. Heavy rains on Kaula. Several culverts have been washed away in Hanalei valley. At that place ten inches fell in three days. It was rumored that some witches were washed out."

HAWAII SHIPPING.

The steamer Novau arrived from Hawaii ports this morning at 9:15 o'clock with 852 bags P. S. M. sugar, 2,880 bags H. S. Co. sugar and 30 packages sundries.
The following sugar is reported left at Hawaii ports ready for shipment: H. S. Co., 509 bags; P. S. M. —; H. H. Co., 11,800 bags; Honuapo, 1,200 bags.

Purser Storey reports as follows: "Showery weather on the Hamakua coast. Strong northeast trades and rough sea on the channel."
King Edward's personal pardon of an Irish convict during his recent visit to Dublin was something more than a picturesque incident. The wife of the prisoner made a pathetic appeal to the queen for her husband's release. The queen asked the king to pardon the man, and the king did so then and there in the fine old royal fashion, precisely as a Tudor or a Stuart might have done it. There was no intervention of the home secretary; but the royal prerogative was employed by the king of his own motion and by his own will.—New York Commercial Advertiser.

"I thought Jane had such a dreadfully stiff neck!"
"She has."
"Nonsense. There was a man painting the steeple of the brick church, and she watched him for half an hour!"
—Cleveland Plain Dealer.

Acquire the Benjamin Habit

It's a good habit to get into and not to break yourself of. Good habit bears this famous mark

Alfred Benjamin & Co
MAKERS * NEW YORK

the mark on men's ready-for-service apparel equal to "18 K" on gold and "STERLING" on silver. BENJAMIN Suits are tailored like all other BENJAMIN Clothes—correctly, honestly. The shape of the coat is retained by a hair-cloth front; a hand-felled, close-fitting collar; and hand-padded shoulders. Cut single and double-breasted, semi-military style, from rich serges, homespuns, and flannels, well-shrunk in the BENJAMIN plant. The ideal Clothes for particular men and for men not so particular.

BROOKS IS MANAGER

The Elks baseball men held a meeting yesterday afternoon for the purpose of outlining a course for the next baseball season. Francis M. Brooks was unanimously elected manager but the matter of a team captain was postponed until the next meeting. It was decided that the make-up of the team should be about the same as during the past season, with the addition of some new talent. The Elks mean business and they will go into the field to win.

INSURGENTS USE BOMBS.
Constantinople, Oct. 2.—There has been desperate fighting at Locoovo on the Serbian frontier, the insurgents using bombs. Locoovo is in flames. The Turks have lost 300 men including several officers.

VIENNA, Oct. 2.—The Czar and Emperor, who are in conference here over Balkan affairs, have decided to amplify the scheme of Macedonian reform.

Sofia, Oct. 2.—Five engagements have taken place near Kratovo in which 5000 Turks routed the insurgent forces. Six thousand Turkish troops were routed in the Perin mountains.

MONOCACY SOLD.
Taku, Oct. 2.—The United States sidewheel gunboat Monocacy has been sold to a Japanese merchant for \$11,000.

"Monocacy" is one of the famous names of the United States navy. The vessel now sold was named after the celebrated Monocacy of the war of 1812. She is a double-ended, side-wheel craft, was built in Baltimore and because of her light draft—nine feet—was soon sent to the Asiatic station, where she arrived in 1865. For months at a time the old ship lay off Tien-tsin, and by the aid of each spring freshet made her way back to the sea over the changing channels and through the soft mud of Pel-ho, only to "feel" her way back later in the year, when the waters had once more determined their way.

With a battery of four smooth-bore and two rifled muzzle-loaders, the old monocacy is not today a very formidable craft, but in 1871, in the two day's fight against the defenses of Bolesan, on the Salice river, in Corea, she led the procession which drove the Korean commanding general from his batteries, and with her old guns tumbled the walls about their defenders' ears, and made the broad breaches through which the Yankee sailors fought a hand-to-hand fight to victory. This action gave Monocacy a great reputation with the Orientals.

Misfortune came to her in 1872, for in that year she stuck fast in the mud of the Yang-tse kiang river. Her days of terrifying plumes and of carrying dispatches were over—for twenty-eight years. She was left deserted by the government and untouched by native vandals, until in July, 1900, she was pulled out of the mud to be made ready for service against the Boxers. She was fitted up with platforms fore and aft, and six rapid-fire guns were added to her ancient armament. Again she did good service, laughed at first by European officers, but on account of her light draft doing work that could not be done by the Allied fleet. It was later proposed to send her to the Philippines but she was not seaworthy.

CAPITOL SQUARE CONCERT.

The band will play the following selections at a concert to be given on the Capitol grounds Sunday afternoon, beginning at 3 o'clock:

PART I.
Overture—"The Road to Glory," Wing Gloria—"Twelfth Mass"..... Mozart

THE ONLY No-Under-Shadow Light

There's nothing misleading about that heading. **The Angle Lamp** is, in its effect, exactly like sunlight. It is, like the sun, up out of the way, and throws its clear, enjoyable light both outward and downward with no bothersome shadows to annoy or to spoil the lighting effect. There's no other light does that—no other light that has "NO-UNDER-SHADOW" But don't stop at that; look at the other features, too. With a minimum of expense, of trouble and of heat there is obtained a maximum of light and real satisfaction. Every annoying feature of gas, electricity, gasoline and acetylene is obliterated. This tells the story of a great combination. It uses ordinary kerosene (or coal) oil—one quart in sixteen hours. Its light is more brilliant than gas or electricity, with no more heat—no smoke—no odor—no "drawing up"—no removing of globe or top to light—filled while burning.

THEO. H. DAVIES & Co., Limited

The following is the inscription on a tablet designed by us and erected in Kawaihahao Church:
IN MEMORY OF
Elizabeth Kaahumani, daughter of Keeaumoku and Namahana. She was born at about 1773 at the foot of the hill Kauli on East Maui; became a wife of Kamehameha I at thirteen, and was his favorite until his death in 1819. After the death of Kamehameha II in 1823, she wisely ruled the Hawaiian people as Queen Regent until her death in 1832. Although naturally proud and haughty she early in her Regency accepted Jesus as her Saviour, and was baptized in Kawaihahao in 1825, and labored earnestly to lead her people to Christ. She was spoken of by the American Mission as "a distinguished reformer of her nation, a kind friend and benefactress of the Missionaries, and a faithful comforter of the infant churches in these isles." As she was falling asleep in Jesus at the age of about 59, in the beautiful valley of Manoa, just before the dawn of June 5, 1832, fully trusting her Saviour, she repeated the following lines of a valued Hawaiian hymn:
"Eia no au, e Iesu, e.
E nana ouolu mai ia'u."
(Lo, here am I, O Jesus
Grant me thy gracious smile.)

A SECOND HOLD-UP ON A COUNTRY ROAD

A robbery, which in its character was almost identical with the one on Fujikawa, took place on the Moanalua road yesterday afternoon near Damon's dairy. The victim was a Japanese, Oda by name. The highwayman seems to have been the person who held up Fujikawa the day before. Oda was found lying on the road by Mr. Thompson, who was on his way to Wahiawa.

Thompson put the wounded man in his wagon and brought him to Alea, where Dr. Cooper was called to attend him. He was later on brought to Honolulu as his wounds are quite serious. Oda had left the plantation in the morning for Honolulu after having received \$65 in settlement of a plantation account. On his way back from town, when he was near Puakekai hill, he saw a Chinaman.

Oda passed the Chinese, who followed him and suddenly put a revolver to his face and demanded money. Oda grasped the gun and a fierce struggle ensued for its possession. While the men were thus engaged the revolver was drawn downwards until it pointed towards Oda's abdomen. The Chinese took advantage of this and fired a shot, the bullet entering the abdomen of the Japanese. As the wounded man fell the Chinese put another bullet into his abdomen. The highwayman then rifled Oda's pockets, securing \$62.50, and departed.

The police were notified at about 4 p. m. yesterday. At about 4:15 p. m. Detectives McDuffie and Renear started for Puakekai hill, followed by Deputy Sheriff Chillingworth in a buggy. At the place where the assault took place were also found the marks of a bicycle. They led up a little side road, from which an excellent view could be had of all that transpired on the main road, which is a little lower down.

Thompson, who found Oda, stated that about five minutes before he picked the Japanese, he met a Chinese on a wheel riding towards town. Joe, a Portuguese boy, who yesterday afternoon walked from Moanalua to Alea, states that he passed Oda and a little later a Chinese who had his wheel leaning against the fence.

The best clue to the assailant's identity was obtained from a gang of telephone linemen, who, under the direction of Foreman Charles Cash, were working near Moanalua. These men saw a Chinese riding on a wheel towards town yesterday afternoon at about 4 o'clock. One of these men describes the man as being tall, dressed in a dark coat and light trousers and wearing canvas shoes with rubber soles. His wheel had brown rims and wide handle-bars. The man's face was spotted with white spots, the evident marks of some skin disease.

NO POOL CONTEST.
There was no pool game at the Moana hotel last night. Messrs. M. T. Lyons and McLaughlin had been scheduled to play, but in the afternoon, Lyons sent a note to Mr. Howe at the Moana hotel, saying he would not play. No reason was given.
The match tonight will be between Willie Wilder and Harry James. These players are pretty evenly matched. Mr. McLaughlin will probably play on Monday night arrangements will be made for some one to play against him. All those interested in pool are cordially invited to the contest in the billiard rooms of the Moana hotel this evening.

CENTRAL UNION CHURCH.
Central Union Church—11 a. m.—The morning service will be in the interest of the Hawaiian Board of Missions. Addresses will be given by representatives of their work. At 7:30 p. m., Mr. Kincaid begins a series of addresses upon Egypt. These will be illustrated by stereopticon pictures. Sunday evening the subject will be "Egypt and its great desert."

CATHOLIC CHURCHES.

The Catholic Church of St. John the Baptist, Kalia-vaena, in charge of Rev. Father Clement, Tomorrow, October 4th, XVIIIth Sunday after Pentecost, Feast of the Most Holy Rosary, 8:30 a. m., high mass with sermon and collection. Sunday school after mass, 4 p. m., Rosary.

The Catholic Church of St. Joseph, Moanalua, in charge of Rev. Father Clement, Tomorrow, October 4th, XVIIIth Sunday after Pentecost, Feast of the Most Holy Rosary, 11 a. m., high mass with sermon and collection. 2 p. m., Rosary and rehearsal.

METHODIST CHURCH.

Public services at the Methodist Episcopal Church, corner of Miller and Beretania streets, tomorrow as follows: 10 a. m., Sunday school, 11 a. m., sermon, subject: "Honesty and Pretence in the Early Church." 6:30 p. m., Epworth League—"Know and Obey the Word of God." 7:30 p. m., song service and sermon, subject: "Heart-Faith and Its Results." A welcome always to all. G. L. Pearson, pastor.

CHRISTIAN CHURCH.

Christian Church, Alakea street, near King—E. S. Muckley, minister, will preach at 11 a. m. on "The Single Cross, the Double Crucifixion." The Christian Endeavor Society will have charge of the 7:30 p. m. service. Bible school at 9:45 a. m. Strangers always welcome.

AHAHUI IOLANI.

A special meeting of the Ahaui Iolani will be held in the St. Andrew's Cathedral Sunday School room on Wednesday, October 7, at 3 p. m., sharp. All members and all those desiring to become members are urgently requested to attend as important business will be transacted.

FEDERAL REPORT DISBARMENT CASE

It is stated that U. S. District Attorney R. W. Breckons has just forwarded his report of the investigation of all sides of the George A. Davis disbarment case to Attorney General Knox at Washington, who, not long ago, asked Breckons to look into the matter.

When the investigation was commenced Attorney Davis filed all essential records in the matter, J. A. Thompson making typewritten copies, covering about 50,000 words, of the following: The original report of Attorney General Andrews, finding nothing against Davis; the information of Andrews filed with the Supreme Court, making charges against Davis; summons and return in disbarment; the answer of respondent, denying the charges; the opinion of the majority of the Supreme Court (Frear and Perry), disbarring Davis; judgment; clerk's minutes; transcript of evidence; Davis' briefs and supplemental briefs; his petition for rehearing, also supplemental petition; affidavit and supplemental affidavit in support of the petition for rehearing; notice of appeal to the U. S. Supreme Court; Justice Galbraith's dissenting opinion in re Davis, and the opinion of the Supreme Court in re J. A. Magooon.

Breckons had a mass of manuscript to go over, therefore, and no easy task in making his report. The records in the case, some of them, are also said to have gone on to Washington.

Judge Gear has signed a decree of foreclosure and sale in W. C. Peacock & Co. vs. H. C. Vida and Emma W. Vida. Receiver L. C. Ables is appointed commissioner to sell the California Saloon, its stock and fixtures and the lease of the premises up to February 27, 1905.

Books, Bookish People and Things

We get no good by being ungenerous even to a book.
R. B. Browning.

"The New Tokology," by Eli F. Brown, M.D., and J. H. Greer, M.D. Clo. 6 1/2 x 8 inches; illustrated from drawings by Ruth Blake, M.D.; 541 pages. Laird & Lee: Chicago; \$1.50.

This is one of the worst specimens of the sort of book which not one physician in five thousand is qualified to write, and which not one layman or woman in 20,000,000 ought to read. But such books are approved of and read by a certain class who generally have companion books on astrology and palmistry. The utterly unscientific nature of this particular work is shown by the chapters on "Painless Childbirth" and "A Theory as to the Sex of Offspring," and the references to exploded theories on menstruation and ovulation. There are a few men who can write on sex subjects with the required delicacy, and they have the good sense not to write anything. The information for purity's sake and so on, unfortunately, is written by men like Drs. Brown and Greer. When The Bulletin Bookman last saw Dr. Brown, the medical gentleman was teaching school and had not practiced medicine for years; and this book shows that he has not kept up with the science. There are some good things in the volume, of course, but even they are trite. The usual warnings against "poisons" and the physician who gives "big" doses and make large surgical sections, are here. Such statements as "Mercury is a poison and should have no place in the materia medica of any physician" make one's heart ache over the lack of common sense displayed by the writers of this book.

ARE YOU DEAF??
Every kind of deafness and difficult hearing can be cured by our new invention, only those having been born deaf are incurable. Makes in the ear case at once, sent particulars about your case. Consultation and advice free. Every one can cure himself at his own home at very little expense.
DR. DALTON'S AURAL CLINIC,
46 LaSalle Avenue, CHICAGO, ILL., U. S. A.

ANNOUNCEMENT

Mrs. H. H. Williams wishes to inform all those interested in FANCY WORK that she is again located at 1142 Fort Street; with a beautiful stock of Embroideries, Embroidery Silks, etc.; and will be pleased to show them.

When Others Fail

Write Me a Postal--I'll Send You a Way to Get Well

Send no money—just a postal card, stating which book you need. Then I will mail you an order on your druggist for six bottles Dr. Shoop's Restorative. You may take it a month to prove what it can do. If it succeeds, the cost is \$5.50. If it fails, I will pay the druggist myself. And your mere word shall decide it.

No matter how difficult your trouble, nor how many treatments have failed. My way does not fail, save when some cause like cancer makes a cure impossible. I am willing to take the risk, and trust you to be fair.

Why not stop common treatments for a little while and learn what my way can do? If I have enough faith to make such an offer, is it not pretty certain that I know how to cure? If my way often failed the losses would ruin me.

In the past twelve years I have furnished my Restorative on trial to more than half a million patients. My records show that 39 out of each 40 have paid for the treatment gladly, because they got well.

I worked a lifetime on my Restorative before I ever made this offer. I perfected it until it will always strengthen the inside nerves. It brings back this nerve power which alone operates every vital organ. When an organ fails in its duty, the fault seldom lies in the organ. It is like a weak engine; it needs more steam. My Restorative brings back the power that it needs, and makes it as strong as it ever was.

In these chronic diseases there is rarely any other way to a cure. And this way doesn't fail in any case that is curable. Try it for a month at my risk, and you'll know.

Simply state which book is wanted and address Dr. Shoop, Box 111, Racine, Wis.

- Book No. 1 on Dyspepsia.
- Book No. 2 on the Heart.
- Book No. 3 on the Kidneys.
- Book No. 4 for Women.
- Book No. 5 for Men (Sealed).
- Book No. 6 on Rheumatism.

Mild cases, not chronic, are often cured by use of two bottles. Dr. Shoop's Restorative is sold by all druggists.

MORE LIGHT LESS HEAT

Why not enjoy the comfort of electric lighting in your home. Incandescent electric lights cost very little more than kerosene. So slight is the increase of cost that when you figure the annoyance of kerosene lamps its really economy to have electricity. Ring us up for an estimate on wiring your house if you are not now using electricity.

The Whole Story in one letter about Pain-Killer

(FERRY DAVIS)
From Capt. F. Lyle, Police Station No. 4, Montreal:—"We frequently use FERRY DAVIS' PAIN-KILLER for pains in the stomach, rheumatism, stiffness, frost bites, chills, malaria, cramps, and all afflictions which befell men in our position. I have no hesitation in saying that PAIN-KILLER is the best remedy to have near at hand."
Used Internally and Externally.
Two Sizes, 25c. and 50c. bottles.

A GIGANTIC METEOR.

A gigantic meteor, described as without a tail, but having a sort of flowing jacket of flame, was seen throughout a region of at least 400 miles in length, and 250 miles in breadth. Detonations were heard, so violent as to shake the earth, and to jar the windows like the shock of an earthquake, as it fell at about 10:30 o'clock p. m.

The ground for a space of seven miles in length, by two to four miles in breadth, was strewn with fragments of this meteor, varying in weight from a few ounces to seventy-four pounds. The collected fragments aggregated six hundred and forty-one pounds. The composition of this meteor is peculiar in many respects to other meteors that have fallen in the same locality. The Douglas Patent Closet is peculiar to itself, no leakage, no annoyance from running water. Bath the Plumber, 165 King St.

Men sincerely interested in the due protection of property, and men sincerely interested in seeing that the just rights of labor are guaranteed, should alike remember not only that in the long run neither the capitalist nor the wage-worker can be helped in healthy fashion save by helping the other.—President Roosevelt.

The old Monocacy has gone to the junk heap, but it will be a long time before a ship of the American navy will be able to make a more useful record.

The morning press will do well to sing low on changed propositions after its brilliant record in dealing with Superintendent Cooper and the Governorship.

The public is highly gratified to learn that the backbone of the Macedonian revolution has been broken. Next week the dispatches will announce that the Macedonians don't need the backbone for continuous trouble making.

Hawaii ought to take a line from the example France and Germany are setting in meeting changed conditions in the sugar market. This Territory has plenty of material for developing profitable secondary industries that will not only use more of our home sugar but give us the anchor to windward that Europeans now find useful.

The good-will of the Administration toward Hawaii is certainly appreciated, and if it will now follow up the first step by allowing additional Federal deposits to be held in the Territory, the troublesome situation resulting from the drain upon Hawaii's coin by Federal revenue departments will be wiped out to the satisfaction of the business community.

The fact that Ed Rosenberg's statements regarding the labor situation have received official recognition seems to be received with some degree of surprise in local circles occupying their time calling Rosenberg names while he was here. It was a foregone conclusion Rosenberg would secure official notice and therein was to be found the childish folly of a paper generally known on the Mainland as a planter's organ, going out of its way to attack Rosenberg. The material interests of this Territory will now find a new difficulty in presenting their claims in Washington which is the direct result of the work of a paper claiming to represent them but succeeding in giving only a misrepresentation of their attitude toward labor.

FRANCE'S NEW SUGAR LAW.

According to the report of United States Consul Ridgely at Nantes the sweet tooth of the French people is mightily favored by the law that went into effect on the first of September. The new sugar law removes nearly 60 per cent of the customs and internal revenue tax paid on sugar and enables the people to secure the great staple at prices hitherto unknown to France.

Writing under date of August 20 Consul Ridgely says: "In 1887 the tax on French sugar, whether imported from

the colonies or manufactured at home, was fixed at \$11.58 per 100 kilograms (220 pounds) plus \$1.35 additional on sugar imported from other countries than France and her possessions. In 1897 this tax was maintained and exporters of sugar were granted an export bounty of about \$2 per 100 kilograms on all French sugar exported to foreign countries. The new law reduces the customs and internal-revenue tax from \$11.58 to \$4.82 per 100 kilograms, and also suppresses the export bounty.

"This means that the grocers and other dealers who, since 1887, have been paying the tax of \$11.58 per 100 kilograms (220 pounds) will now buy their sugar at \$6.76 cheaper per 100 kilograms. The consumers will of course profit accordingly. For example, the current retail price for white cut loaf in France at present is about 10 cents per pound; for white granulated sugar, good quality, about 9 cents per pound. On and after September 1 it will be generally reduced to about 6.5 cents per pound, and white granulated to about 5.75 cents per pound. The cheaper sugars will of course be reduced proportionally. It is needless to say that the French people, who are particularly fond of all sweet things, are looking forward with great pleasure and satisfaction to the reduced prices, which will not only give them cheaper sugar for the message, but cheaper sweets of all varieties, such as preserves, candies, sirups, liqueurs, biscuits, and all similar products. Into which sugar enters as a chief ingredient and which are at present very dear in France. One of the practical results already announced for September 1 will be the reduction of nearly 2 cents per pound on the price of chocolate, which is one of the most important staples of the country. The manufacturers of French sweet biscuits, known to the commerce of the world as "petits beurrés," have also announced a reduction of 1 cent per pound on that famous product, of which Nantes is the center of manufacture."

Speaking in general terms Consul Ridgely anticipates that one important result of the new sugar arrangement will be a marked increase in the home production of preserves and like articles of trade, which, owing to the high price of sugars in France, have been among the leading imports from Great Britain. Both in Germany, as shown by a recent report published in these columns, and in France, the new sugar agreement is certain to make heavy inroads on the British export trade in preserves and all industries in which sugar is used.

SEAMEN'S INSTITUTE

The Honolulu Seamen's Institute completed its first year of existence on June 30th last, and the committee have arranged a meeting at the Y. M. C. A. Hall on Thursday evening, October 8th, in order that they may present to the people of Honolulu a report of the year's work.

The chair will be taken at 8 o'clock by the Governor, and the program will include an address by the Rev. W. M. Kincaid, several musical numbers by Mrs. Montague Turner, ladies' violin quartet and a quartet of male voices. During the program the reports of the committee and of Mr. Everton, the superintendent, will be read.

The Institute has depended principally during the year on the contributions of the six principal shipping houses in the town; but they are anxious to enlarge their subscription list, and they feel that the results of the running of the place for this first year, when the attendance exceeded 13,000 seamen, will commend their appeal to the residents of Honolulu.

Mr. Everton is a member of the staff of The Missions to Seamen Society of London, who maintain a staff at the Institute in San Francisco, at Port Costa and elsewhere.

A general invitation is extended to all who are interested in the welfare of sailors, to be present at this meeting on Thursday, the 8th inst., at 8 p. m., to listen to the accounts of the work.

MAY AMALGAMATE

A meeting of Hustace & Co., dry-goods, was to have been held yesterday for the purpose of considering the amalgamation of that corporation with Peck & Co., which recently combined with the Union Express Co. The subject not being ready for discussion at that time, the meeting was postponed.

Hustace & Co. desires to amalgamate with Peck & Co. The former is incorporated for \$105,000 and the latter for \$100,000, so that the two concerns, if brought together, would stand on about an equal basis.

It is said that there is no question of the success of the amalgamation scheme and that the two concerns will soon be doing business as one under the name of Peck & Co.

LUAU AND BAZAAR

The luau and bazaar to be held on the Kaplolan Maternity Home grounds today began at 12 o'clock noon. The entrance fee, which includes the lunch

THERE'S INDIVIDUALITY

In a room that is decorated in free-hand relief. It expresses the decorator himself. It is not bought by the yard and cannot be put up by the inferior mechanic. No two rooms can be done exactly alike. It's the acme of hand work. Yet the price is not prohibitively high and is much more artistic.

S. STEPHENSON, Artistic Decorator, King Street.

A STRONG, VIGOROUS MAN

Is Liable to Break Down—Pe-ru-na is Sure to Restore.

Hon. Frank Dunn, Alderman Twenty-Fourth District, writes from 232 East Fifty-Eighth Street, New York City: The Peruna Medicine Co., Columbus, O.: Gentlemen: "There is no remedy for a broken-down system that I know of which will so effectually restore health as Peruna. Whenever I am overworked or suffer from the consequences of a cold a few doses of Peruna builds me up again more quickly than anything I ever tried. I find it especially valuable for catarrh. Three bottles cured me three years ago of catarrh of the stomach and I have never had the least symptoms of it since."

For special directions everyone should read "The Ills of Life," a copy of which surrounds each bottle. Peruna is for sale by all chemists and druggists at one dollar per bottle or six bottles for five dollars.

SEVEN ACRES OF CARRARA

The roof of the GREAT FIELD MUSEUM, CHICAGO, covering 7 acres of ground, is painted with Carrara Paint. It seems hardly necessary at this day to advertise CARRARA in Honolulu, where it has so thoroughly advertised itself; but we have not said much about it as a Roof Paint, and it is proper to call attention to its endorsement by the Field Museum for that purpose.

SUNDAY BASEBALL

The first game of baseball at Kapiolani park Sunday afternoon will begin at 12 o'clock noon instead of 1:30 as announced previously. The second game will begin immediately afterwards. The first contest will be between the Atlas and Good Eyes and the second between the Young Stars and Unions. The Atlas are at the top of the list and the Good Eyes will attempt to take a fall out of them tomorrow.

The Good Eyes entered a protest against one member of the Kapiolani team after the games of last Sunday. It was claimed that the player in question had no right in the team since he was outside of the sixteen players allowed each aggregation of the league. The protest was considered at a meeting held last night and was disallowed.

ROBBER'S VICTIM

(Continued from Page 1.)

Mrs. Kamakouha told her husband last night on his return home from town of this suspicious character who had been lurking about on the premises. At the time, Mrs. Kamakouha knew nothing whatever about the hold-up or the shooting.

According to her statement, she was employed in her back yard up to about 4 o'clock, when a Chinese suddenly came into the front yard, leading a wheel. He did not see Mrs. Kamakouha. The Chinese put his wheel down on the ground. He then stretched himself full length on the grass behind the hedge which separates the yard from the road. He lay there for about a quarter of an hour, evidently keeping close watch of everyone who passed by on the road by peering through the hedge.

After remaining behind the hedge for the period stated, he caught sight of Mrs. Kamakouha. On seeing her, he immediately jumped up, mounted his wheel and departed down the road in the Ewa direction.

During the time the Chinese was lying behind the hedge Mrs. Kamakouha had a good chance to observe how he was dressed.

The description which she gives of the man seems in every way to indicate that he is the one who held up Oda. He wore a black coat and black trousers. The ends of these were turned up and showed that the man wore a pair of white trousers under the black ones.

Besides the hat which the man wore, he had a cap with him. While he was on the place he changed his headgear. The man was tall, but on account of the distance which was between him and Mrs. Kamakouha she was not able to distinguish his features.

A Japanese officer and The Bulletin police reporter visited Oda at the Japanese hospital this morning. The wounded man gave the following statement of the affair:

"I arrived at the place of the hold-up at about 3:30 o'clock yesterday afternoon. The Chinese suddenly jumped out on the road from some bushes behind which he had evidently been hiding. I did not see any bicycle there. He demanded my money. I told him I had none. He told me that I lied. He had been watching me and knew that I had money. I told him that even if I had money it belonged to me and not to him.

"The Chinese told me that if I did not dig up the money he would shoot. He drew a revolver and I caught hold of his hand, which held the gun. We struggled for some time. I was getting the best of him when he suddenly shot me twice in the abdomen. I fell and caught hold of his leg in falling. The man stooped over me and took my money. He then wrenched himself loose from me and went off. I got up and went after him but I had only proceeded about six feet when I fell down again."

Oda is certain that he can identify his assailant. He describes him as being a tall Chinese, with very light complexion and with white spots on his cheeks. He wore a black coat and black trousers. He says the Chinaman looked to be about forty years of age.

Oda, whose full name is Oda Tatsujiro, was doing very poorly this morning. The physicians at the Japanese hospital state that he is in a critical condition and are by no means sure that he will survive.

The wounded man seemed to be in some pain when seen this morning. He was surrounded by a number of friends and relatives, to whom he spoke quite frequently. Oda is thirty years of age. He has a wife and one small child.

THE PIONEER BUILDING AND LOAN ASSOCIATION OF HAWAII

pays its withdrawing members at the end of six months or a year not only the cash paid in by them but Seventy-five (75%) per cent. of the profits. It retains Twenty-five (25%) of the profits for the benefit of the Stockholders remaining.

Next Saturday "Darkest America" by aid of the stereopticon will be shown. The series will come to a close by a "Bringing in the Sheaves" meeting and on Sunday the 11th, at the Salvation Army hall.

WHAT MR. DURAO SAYS

Joseph F. Durao states that the Portuguese Republican club organized during last year's campaign is still in existence and is recognized by the Republican party. Consequently he maintains that the new club to be formed at a meeting to be held this evening is not a Republican club. Mr. Durao says that he signed a petition with others for the organization of a protective Portuguese club to assist young of the Portuguese colony to obtain recognition among the appointments to government positions with the aid of the Portuguese Republican club. The officers of the Portuguese Republican club are: President Furtado, Vice President Theodore Melin, Treasurer John F. de Souza, Secretary John B. de Freitas.

Mr. Durao says he thinks some one is working to obtain money from the Republican party. He believes in honesty and sincerity in earning money.

BECKLEY OUT FOR BEST MEN

(Continued from Page 1.)

Last night the Home Rulers held a rally in Puanui, at which there was a large attendance, and tonight a meeting is announced for Manoa.

An incident which took place at the Home Rule meeting in Kakaako last Thursday night and which reflects no credit upon the person or persons who took part, is published new for the first time. In the midst of his speech, Jonah Kumalae, who recently turned Home Rule, was rotten egged by some person or persons a considerable distance away from the meeting place. Fortunately, the eggs struck the house back of Kumalae and fell close by but did not touch him. Some of the Home Rulers made a search for the person or persons who threw the eggs but were unsuccessful.

The Republican County Committee executive met last night and consulted on various matters. A number of the workers reported everything progressing well in their particular precincts. Senator Achi is always to the fore in work for the party. He is just now seeing to it that two thousand copies of campaign literature in the Hawaiian language go forward to the native voters of the city twice a week. This matter is published in newspaper form and is called "Ke Kial" (The Watchman). Included in its columns may be found write-ups on the different candidates, refutations of remarks made by Home Rule candidates and political notes here and there. This is one of the very best ways of getting at the Hawaiian voter. Senator Achi worked the same scheme during the last campaign with great advantage to the Hawaiian voter.

There is to be a big political luncheon at the home of M. P. Robinson, Nuuanu avenue, on Wednesday evening next. All the Republicans will be present and each will say a few words for the good of the ticket.

Every Portuguese voter is asked to be present at a meeting to be held in Lusitana hall this evening for the purpose of organizing a political club to consist of representatives of all the factions. The meeting will take place at 7:30 o'clock.

It appears that the Home Rulers have not yet stopped their attempts at getting other men than those on the ticket at the present time to run for Supervisors in the Fifth District. A meeting of the executive committee is now in progress at which it is hoped a change can be made. It is still sought to get Makalani on the ticket, displacing either Keolu or Manoa.

She-I-I-trust, Jack, our marriage will not be against your father's will. Jack—I'm sure, I hope not; it would be mighty hard for me if he should change it.—Town and Country.

Shoes that have Character. This is the forte of the Hannan lasts— They have a character of their own: Are I, a class pre-eminently alone: And advertise themselves. CHAPTER VI.
ARGUMENT FOR THE DEFENSE.
When one is in the valley of the shadow, age and experience may furnish many reasons for desiring to go further in preference to returning. As a rule, however, these reasons are swallowed up in the instinct of living and in the interest one takes in one's own struggle with the dark angel. A physician will hear many people say that they do not wish to recover, but most of them will wait until after the danger is over before giving utterance to words which the supernal powers may take too seriously.
Dr. Kendall was not in the least prepared to hear such an expression from this particular patient. He would have said that she was one who enjoyed life, every minute of it. Certainly she was as full of natural vitality as a young fawn in the woods. Plainly Brenda was at least as much surprised as Kendall, and the physician awaited her response with critical interest. If she should ask an explanation or offer an argument, it would show that she had not the instinct of the nurse. It was in the nature of an examination, and Brenda passed it with great credit.
"If you will tell me I may stay," she said, "I will do something that will make you feel much better."
"You know that I want you to stay," said Elsie. "It was very, very good of you to come, and I thank you truly."
"Such being the case," replied Brenda, "I am going to fix your hair. One moment, while I make myself ready. And now," she added, "don't move; not a muscle. See, I can reach it without the slightest trouble."
And with cool and steady hands she arranged the brown masses in which there lurked a strange glow like red gold in the sun. It was cleverly done, Elsie felt the caressing hands, but they were so deft that not a tremor reached the wound. Dr. Kendall, observing closely, nodded his head as one who considers a question satisfactorily settled.
"Such beautiful hair!" said Brenda. "You must be very vain of it."
But Elsie averred that she did not care for dark hair; it was so common. She would much rather have Brenda's.
"The entente cordiale is now fully established," said Kendall. "Miss MacLane, the patient is in your hands. I shall expect her to be playing golf in about a week. It won't be necessary for you to assist me any further, Dr. Johnson," he continued, addressing his colleague. "I will join you in my room."
Dr. Johnson bowed and withdrew. Dr. Kendall took a seat by the bed, and without appearing to do anything particularly important he determined with great thoroughness the condition of his patient. Not all that he observed would be comprehensible by a layman. The most conspicuous feature in the case was the improvement of Elsie's spirits. She spoke cheerfully to Brenda and seemed to have acquired in so short a time a certain dependence upon her. Then, almost as she was speak-

GUARD HEALTH
Every woman should see that the periodical function is kept in a healthy condition. The way is to take an occasional dose of Wine of Cardui.
Every woman is subject to conditions which bring on female weakness. Wine of Cardui gives women strength for all the duties of life. It gives them strong nerves and freedom from pains.
Wine of Cardui not only cures but guards the health. The organs quickly respond to the healing vegetable ingredients of which Wine of Cardui is composed. A healthy woman does well to take this medicine on approaching her periodical sickness. Wine of Cardui cures the worst cases of prolonged female troubles and has cured thousands of them quickly and completely in the privacy of home.
CITICOMA, Miss., May 1, 1902.
Wine of Cardui and Thedford's Black-Draught is a sure cure for all female diseases. I recommend your medicines to all my friends everywhere I go. Five months ago I could not walk across the house without great pain but I am well again. I have only taken four bottles of Wine of Cardui but feel better than I have felt in two years.
MRS. N. T. GLIDEWELL.

WINE OF CARDUI FOR WOMEN

Kendall and Brenda watched her in silence for a moment.
My father must try to secure his release. By the way, of course, Miss Miller asked for him?
"For Mr. Alden? Yes," replied Kendall.
"Did she plead to see him at once?" asked Brenda.
Kendall hesitated for a moment while they were passing silently out of the room.
"Miss Miller is a very obedient patient," he said. "No one could give less trouble."
"Well?" rejoined Brenda. "Please proceed."
"I don't quite understand."
"You have something more to say."
"It occurred to me," said Kendall slowly, "that she exhibited less anxiety to see Mr. Alden than I should have expected."
This statement seemed to furnish Brenda with abundant food for thought. She said nothing as they traversed the long corridor, and Kendall also was silent. After Brenda had sent the message to her father she conferred with Kendall in regard to her remaining in the hospital as Elsie's nurse and then dispatched her maid under James' escort for such things as she would need.
The departure of the servants left

DRAFT OF KOH LA DITCH

(Continued from Page 1.)

which work should be started on the ditch was come to, the Governor asked for an expression of opinion on the eighteen months' clause in the license. Gehr said the land survey for running the ditch could be made in less than six months but it would require at least a year to properly determine the water possibilities to the extent necessary to interest capital. McCrosson declared that a survey of water in Honokane and Waipio valleys would give facts upon which the flow of the other streams could be determined. The Governor did not agree with McCrosson in this.

Thurston said it was no good to specify that work had to be done within a certain period unless it was clearly stated what work was to be done, otherwise but one man might be put to work digging and while the operators would be within the requirements, nothing would be accomplished.

"Yes. As in the case of the Honolulu Rapid Transit Company, for instance," smiled the Governor.

It was suggested that say \$10,000 worth of work be required in the stated period, 18 months or whatever the time was to be.

Gehr, later, did not see that the Government should recognize by license any private rights in lands or waters in the license. This point caused much discussion.

The form of license considered this morning is as follows:

"Upon the terms and conditions hereinafter stated a license for the period of fifty years from the date hereof is hereby granted to... and his assignees as herein provided, hereinafter called the licensee corporation, to collect, conserve, impound and divert all surface water upon and from all the Government lands situated on the island of Hawaii of said Territory, within the following described area, to wit: bounded on the north by the sea on the east by Waipio valley; on the south by Waipio valley and the boundary line between the lands of Laupahoehoe I and II, Nakooka, Apua, Waikapu and Honopu, and the lands of Panikau and Kawalae I, until such boundary line reaches an elevation of 4,200 feet, from which point the contour line of 4,200 feet elevation shall form the balance of the boundary on the south and on the west by the lands of Honokane and the private lands of Awali, such area being hereinafter called the Kohala watershed, subject to vested rights of private parties in such waters, and to sell such water for the purpose of carrying on this enterprise, and for the further purpose of developing power for sale, such water used not to materially reduce the amount of water available for irrigation; and for the proper collecting, impounding and diverting of such water and for the conveying, delivery and sale thereof, to construct reservoirs, dams, impounding embankments, tunnels, ditches, waste ways, flumes, inverted siphons, pipe lines, or any other works necessary or convenient for the conveying and carrying water upon, through, along or under any of such Government lands in the District of North Kohala, across which it may be necessary to carry such water. The plans for the construction and location of such water works to be subject to the approval of the Superintendent of Public Works.

"This license, however, shall not be construed to confer an exclusive right in the waters of said district, but the licensee corporation hereafter to be formed shall have a vested right in only so much of said waters as it shall first beneficially appropriate; and it shall not be understood to allow such licensee corporation in any way to attempt to develop water in the said Kohala watershed by means of drains, ditches or tunnels, but his and their rights under this license are strictly limited to the surface water flowing in natural waterways and the collecting, conveyance and use of the same as above set forth.

"The construction of such water works shall be begun within eighteen months from the date hereof and within three years from said date the licensee corporation shall be prepared to deliver such waters to consumers in the district of North Kohala, exclusive of such time as may be lost by litigation and strikes and by reasons of the acts of those over whom it shall have no control, and shall expend on such construction not less than \$500,000.00 within four years from this date.

"All materials on said Government lands, such as earth, rocks and trees may be freely used by the licensee corporation without charge therefor on the part of the Government, for the construction and maintenance and repair of any and all works necessary for carrying out the objects of this license. "The licensee corporation shall not diminish the supply of water now being used beneficially in the Waipio and Honokane valleys of the Kohala watershed above defined.

"From the date hereof a licensee fee in the sum of \$1,000.00 per annum during the term of construction shall be paid by the said licensee and his as-

signed the licensee corporation to the Government of the Territory of Hawaii, in equal semi-annual installments of \$500 and after the termination of four years the licensee corporation shall pay an annual rental to said Government of \$1,000 and 5 per cent. of the gross revenues received by him from the sale of said water, provided that in no event shall the annual rental after said four years aggregate less than \$2,500. At the end of twenty years from the date hereof, the annual compensation to be paid to the Government by the licensee shall be readjusted, as herein after provided, for a further period of fifteen years, and at the end of thirty-five years such annual compensation shall be again readjusted in the same manner for the rest of the said period of fifty years. After the end of three years the licensee corporation shall file quarterly with the Commissioner of Public Lands a sworn account of the receipts and disbursements of the said enterprise.

"The licensee corporation shall furnish water from the ditches, flumes and reservoirs constructed for the conservation or conveyance of water to Government homesteaders applying therefor, for domestic purposes at a uniform rate to be fixed and agreed upon by the Commissioner of Public Lands and the licensee corporation once every ten years, provided that in case of failure of the said licensee corporation and the Commissioner of Public Lands to agree, the rate shall be fixed by arbitration, and until such time as the rates may be agreed upon or fixed, the licensee corporation may charge such rates as appear to him to be reasonable in the premises.

"In like manner the licensee corporation shall furnish such water at such points as shall be reasonably convenient to such applicants. The word 'homesteaders' in this instrument shall mean all persons or their heirs or assigns holding land from the Government under homestead leases, right of purchase leases, trusthold agreements, special agreements of sale under the Land Act of 1895, or kuleanas held under Land Commission Awards.

"All other applicants for water who are in possession of lands conveniently accessible to water from the ditches, flumes, pipes or reservoirs of the licensee corporation shall be equitably supplied by it at uniform and reasonable rates for the water supplied. The licensee corporation without expense to the Government shall take all reasonable steps and make all reasonable efforts to preserve the forests and trees growing upon said Kohala watershed, and particularly shall construct and maintain cattle-proof fences on the said Kohala watershed, whenever and wherever such fences may, in the judgment of the Commissioner of Public Lands, be necessary to protect the forests from cattle, and shall make all reasonable efforts for the extermination of all wild animals within the said forests, and shall make all reasonable efforts to prevent and extinguish all forest or bush fires within the said Kohala watershed.

"If the licensee corporation at any time during the continuance of this license shall be unable because of an insufficiency of water under its control to supply all its customers with the full amount of water required by them, then such water as shall at such time be under the control of the licensee corporation shall be by arbitration apportioned equitably between the several customers so long as such inability of the licensee corporation shall continue.

"All arbitration herein provided for shall be made by three disinterested persons, one selected by the Commissioner of Public Lands, one selected by the licensee corporation and one selected by these two; the decision of any two to be final and binding upon the parties interested. The expense of such arbitration shall be divided equally between the Commissioner of Public Lands and the licensee corporation.

"At the end of fifty years from the date hereof, the licensee corporation shall surrender to the Territory of Hawaii, all rights acquired under this license and all improvements construct-

ed under the terms hereof by said licensee, and all rights and improvements acquired by him on the lands of third parties for the conservation, conveyance or delivery of water from the lands aforesaid. "It is hereby understood and agreed that the licensee shall within three months from this date organize a corporation under the laws of the Territory of Hawaii to construct and operate the said proposed water works under this license, which shall be deemed a public corporation, and shall thereupon assign to such corporation, herein described as the licensee corporation this license.

"Such corporation shall not be empowered by its charter to enter into the business of buying, selling, leasing or otherwise dealing in real estate, nor shall it buy, sell, lease or otherwise deal in land beyond the direct necessities of its business of conducting, collecting and selling water, and making the limited use thereof as hereinbefore set forth, nor shall it engage in agriculture.

"Nor shall an owner or owners of stock in the said corporation representing a controlling interest therein, engage as a corporation, partnership, combination or individual, in the business of buying, selling, leasing or otherwise dealing in real estate, nor in agriculture, in such parts of North Kohala, on said island of Hawaii, as may be supplied with water from the water works of the said corporation.

"This license shall be forfeited: "1. If the corporation last above mentioned be not legally formed and organized within three months from the date hereof.

"2. If actual construction shall not be begun within eighteen months from the date hereof.

"3. If \$500,000 shall not have been expended in such construction within four years from this date.

"4. If delivery of water to customers within the district of North Kohala shall not have been begun within three years from said date.

"5. If at any time within the said term the licensee fails substantially to carry out any of the stipulations made by him in this instrument, or.

"6. If the licensee corporation shall during the term of this franchise attempt to develop water in the said Kohala watershed by means of drains, ditches or tunnels or permit anyone acting for him or otherwise to do so.

"It is hereby understood that where the words 'Superintendent of Public Works' and 'Commissioner of Public Lands' are used in this instrument, in case of a change of government by which the names of such officials become changed they shall apply to such officials as shall represent substantially the duties and authorities respectively of the Superintendent of Public Works and Commissioner of Public Lands."

An amended draft of the Kohala license will be ready Monday morning, the Governor announcing that he would then have copies prepared for all interested parties.
