THE

Daily Bulletin

Pledged to neither Sect nor Party, But established for the benefit of all.

WEDNESDAY, JAN. 29, 1890.

There is no use in the Honolulu Daily Times trying to stuff nonsense into the minds of intelligent people. There is only one way in which its party's professed object of making the reciprocity treaty absolute and perpetual can be realized. That way is organic union—a political protectorate—annexation in all its nakedness.

The National Herald is correct when it asserts that the present annexation movement is not fathered by thoroughbred Americans. There are outspoken supporters of the Government's gratuitous scheme of a revised treaty with the States, who are not Americans even by descent, but who do not conceal the fact that they favor that scheme because it tends to annexation.

When the campaign thunder of the various Government organs grows faint, what is to hinder them from drawing on the reserve stores? These are to be found in the political literature of that "old regime," that foil to sins of the "new order," where there are bolts of eloquent invective originally hurled at the devoted heads of Kaulukou, Achi, Poepoe, & Co., now the valiant champions of the Reform Party.

It is to be hoped that no copy of the Honolulu Daily Times will ever reach the eye of an American statesman or of an American editor. A great proportion of its Tuesday's issue is devoted, evidently, to proving that the reciprocity treaty is for the most part a fraud on the United States. How the San Francisco Chronicle would gloat over a file of that sheet! A pretty picture of patriotism it presents through its purblind partisanship!

How is it that no writ of replevin ever issued for the recovery of that precious Ministerial platform that was unlawfully appropriated by the National Reform Party? Is it because, like Oscar Wilde's too utterly utter lady friend, with her arrogant teapot, the esthetic souls of Ministers despaired of living up to the consummate ideal? At all events, this original and only out-post of the old Reformers would seem to have been abandoned to the Philistines.

The most successful statesmen are statesmen who combine diplomacy with statesmanship. The world has not yet reached that stage of enlightenment and honesty when, in a free country, a statesman, however worthy, can succeed by the merits of his statesmanship, however enlightened, without the aid of diplomacy. Let the miniature statesmen of Hawaii learn this fact and profit by it.

The Times gives reasons for believing that the United States will before long raise all her own sugar and rice, and get her supplies of bananas from Mexico. Yet that paper argues in behalf of compromising Hawaii's independence for the sake of securing perpetual access to markets for our chief products which, according to its own showing, are liable shortly to become utterly valueless. Here is wisdom, O people!

The country may well ask of the Ministry, with regard to the treaty revision matter, "Who hath required this at your hands?" Was there any open agitation for "closer relations," or more "exuding benefits," or anything else in the Reform currency of cant phrases coined to indemnify Hawaii for the loss of her independence? None whatever, and the scheme stands exposed as the private conspiracy of a small clique. The conspirators foolishly imagine—so far as their minds can be gauged by their action—that the success of their plot would put all the power of the American Union at their command. With this they doubtless fondly thought they would be enabled, and their posterity after them, to rule these islands at their sweet will for their own personal and family aggrandizement.

WANT A JOINT GUARANTEE.

On the principle that the word of a gentleman should be regarded as true until proved to be otherwise, the BULLETIN accepts the declaration of the "Times," that "it is not for annexation," that it is "not for a protectorate," and is in "full accord" therewith in desiring "permanent free trade with the United States." But in the matter of "a joint guarantee of our independence" by the great Powers the BULLETIN is decidedly in opposition. Notwithstanding the specious arguments of our contemporary, we are of the opinion that a "joint guarantee" of four or five great Powers, any one of which may at any time, for strategic reasons, feel an impulse to seize and hold these islands, is much safer and better for us than the "sole guarantee" of any one of those Powers who may or may not be in a position, under emergencies that may arise, to defend us against the incursion of any one of the others. A "joint guarantee" will make the independence of the country about as secure as it can be, but a "sole guarantee" will not. The proposition is too self-evident to need elucidation. And as we stand firmly for independence so long as the country is capable of self-government, we favor a "joint guarantee." The mixing of this question with that of the Reciprocity Treaty, is the mixing of two questions which have but a remote relationship to each other.

KICKING OUT.

"Kicking out" of office competent men "who know and do their duty" is a bad practice—bad for the duty, and unjust to the men. The practice figures too prominently in the past fifteen years' history of this country. Many times competent officials have been "kicked out" at short notice, and sometimes to make room for less suitable men, to the detriment of the public service. To kick out men who may have crept into positions for which neither nature nor education ever intended them, is right; but to dispense the same treatment to men fitted by nature, education, and in every other way for the offices they hold, is wrong.

The present Administration has done some "kicking out"—some of it wise and some foolish. Where inefficient, negligent, or unfaithful men were the victims, the kicking was wise; where tried and faithful servants had to go, the kicking was foolish. More kicking out in some places and less in others might probably have been for the good of the public service. Some aspirants for place, who believe that "to the victors belong the spoils," have always held that the kicking out process should have been carried much farther after the revolution of 1887, and that every competent as well as in-

efficient official, should have been dismissed from the service. The Cabinet is to be commended for not having adopted that course.

A desire to have somebody kicked out is one of those idiosyncrasies which cannot by any possible means be eliminated from our national character. There is not an individual in the public service, from the king to the day laborer, concerning whom somebody cannot be found who cherishes a wish to see kicked out. An archangel in office would probably be the object of the same enmity. In the present political campaign there is more than enough talk about kicking out to surfeit a moderate man for the whole of a long life. Talk is cheap, which accounts for its superabundance.

The latest talk is to kick out the President of the Board of Education. Good reason therefor is wanting. The position is purely honorary, and the duties of the office performed without any remuneration whatever. The present incumbent is not only one of the most capable men the country has for the position, but he gives a measure of time and attention to its duties that few men could afford. We should regard the gentleman's retirement from the Presidency of the Board as a grave misfortune for the cause of education.

THE SOCIAL QUESTION IN HAWAII.

EDITOR BULLETIN:—Some of the planters seem to be indignant at the charge urged against their body of having robbed the natives of their lands. This accusation we believe to be too general, but nobody can deny that a good many of the plantation owners went into partnership with, or rented their lands from, men who secured their properties by means and ways they can settle with God and their conscience. Did, moreover, some of the early land-grabbers not go themselves into the sugar business, so casting the gloom of their bad repute on the whole corps?

Everybody gives credit to the planter's pluck, energy, and intelligence, that endowed Hawaii with steamers, railroads, electric light, etc.; but would not coffee, indigo, or other industries have produced in due time similar results? And if not, would the natives in their grass huts with their limited wants have been less happy than they are now in their frame houses, with all the necessities of civilized life? Would we have thousands of dissatisfied foreigners?

It is very true that our imported laborers earn here wages double or even treble those they received at home, but are the necessities of life in their country not twice or three cheaper than they are here? But what of that? Why did the planters come here? To make a fortune, we suppose. Well, did our immigrants not land on our shores to earn the daily crust of bread that their overcrowded and exhausted country refused to their toil? And are they not entitled to a few crumbs from their employer's table?

As for sleepless nights and headaches, we dare say that they are the lot of every man who wants to succeed in life, and we do not think the planters expected to lie on a bed of roses when they started business. Some, as a matter of course, did not make a fortune, but where on earth is there an enterprise free of failure? Was not extravagance with some, 12 per cent. compound interest, commissions, coo-perage on pig iron, and half crops (the mills taking the lion's share), with others, the causes of their ill luck?

It has been said that plenty of land is left for an industrious man to make a fortune on in other lines of business but sugar, but where is it, except in the hands of men who are, as they say, "on the buy," and not "on the sell"? Is a poor man expected to clear, fence in, break up, and build on rented land? But suppose a working man secures a homestead, where can he make the capital to start with?

One will also say, we do not plant cane but on uncultivated land. But how is it that we see every day cane wye over hundreds of acres, where two was thriving a few years ago? And the planters seem to be very eager to secure such land, as it will yield six or seven tons of sugar to the acre.

It is a general belief that the Portuguese have all plenty of money. This is a very great mistake, as most of them have nothing but debts; and only the very few privileged families, composed of a father, a mother, and three or four full-grown children, all earning, can succeed, by living on a diet of bread, sweet potatoes and cabbage, in saving a few dollars.

PORTUGUESE MEETING.

A large meeting of Portuguese was held yesterday evening in the yard of the Royal School. Its object was mainly to urge on that nationality the desirability of securing their political privileges by registering. Mr. Maguies pressed this idea upon the audience, saying he spoke not in the interest of a party so much as that of their colony.

FOREIGN ITEMS.

It is stated that seven great flour mills at Milwaukee have formed a combination, involving \$5,000,000 capital and an annual output of a million and a half barrels of flour, to fight the English syndicate mills. One of the walls of the new Throop avenue Presbyterian church, Brooklyn, N. Y., fell early Jan. 9 on a three story frame building. Two inmates of the house, Mary and David Purdy, were killed and two others injured so that their death was hourly expected.

THE ELECTION LAW. WHAT NEXT?

EDITOR BULLETIN:—The old Election Law fixed the Inspectors of Election for Representatives. The present Election Law throws the whole machinery of election into the hands of the Minister of the Interior.

Who made this law? For what purpose was it made just such as it is? Was it honestly made? Or was it made—as the bulk of the laws during the last two sessions—to lay the country bound hand and foot at the feet of the present Cabinet—the present Cabinet only and no other until—"When?"

SUPREME COURT.

The jury returned a verdict for plaintiffs, Tuesday, in J. S. Walker et al. vs. Mikaela et al. C. J. McCarthy vs. D. Manaku, assumptif, was tried before a mixed jury, which returned a verdict for plaintiff, one dissenting. G. K. Walker for plaintiff, J. A. Magoon for defendant.

This forenoon the term was occupied by the trial, by a native jury, of Kubeana vs. Pahuilima, ejectment. Kinney for plaintiff; Astford for defendant. It was admitted by counsel to be a question of law as to the ownership of the land, which the Chief Justice thereupon decided in favor of the plaintiff. The question remaining for the jury was as to the damages, if any, for one year's occupation by defendant. Counsel for defendant was addressing the jury before the noon recess. The jury returned a verdict for plaintiff for the land and \$47 damages.

Mr. Justice Dole at chambers ordered the will of the late Philip Milton admitted to probate, and that letters testamentary issue to Cecil Brown under \$20,000 bond. Before Mr. Justice McCully, the accounts of Samuel B. Rose, guardian of Minnie E. Rose and Chas. H. Rose, were submitted. They were for the year ending Dec. 31, 1889, and that for the estate of Minnie E. Rose was the final account. The guardian petitioned for his discharge as regards this ward. It was ordered that both accounts be allowed, that as regards the ward Minnie E. Rose the guardian be discharged, and his bond, as relates to her—one-half or \$1000—be cancelled. The guardian and the two wards appeared in person.

THE AMERICAN SITUATION.

As Viewed by the President of the W. C. T. U. We have been handed the following summary of the annual address of Miss Frances E. Willard, President of the National Woman's Christian Temperance Union, at the late session in Chicago: Miss Willard referred to the Cronin trial, and the hissing of the American flag by the anarchists recently, and said: "The experiment of free government in our large towns and cities is a failure loudly confessed by men themselves. Nor are the reasons for this monumental catastrophe mysterious. America has become the dumping ground of European cities. The emigration has steadily deteriorated in proportion as its quantity has grown. To-day we have a hundred thousand anarchists among us in this country who claim to have 25,000 drilled soldiers at their call—as many as the entire regular army of the United States. The multiplication of inventions, the enormous accumulations of capital, the corporate combinations and octopus grip of the trusts under our wage-workers' uneasy, 'bread or blood' is the inscription on many a concealed red flag, and the motive of many a hidden bomb. Note the sullen look on grimy faces in mine and manufactory and on the streets; read the labor gangs of the day and see if well-to-do Americans are not asleep on the edge of a volcano. We spend fifteen hundred millions a year for liquor and tobacco—ten times as much as we do for education and religion; we have 250,000 saloons, enough to form a line from Chicago to New York; and in making alcoholic beverages we waste enough grain annually to pave a street a thousand miles with loaves of bread."

Mrs. Caroline B. Buell, corresponding secretary of the society, read a review of its work during the past twelve years. She said this year had been made memorable by the defeat of prohibition in several States, and that to secure victory for that cause Congress must be metamorphosed and State legislation changed, "and this seems well nigh impossible."

FALSE REPORTS OF SPEECHES.

EDITOR BULLETIN:—The manner in which reports of one's speeches are purposely distorted and published in the Reform Party's newspapers is getting too barefaced to be allowed to go unchallenged.

In the speech credited to me by the Times, I am misrepresented regarding my reference to the military. What I did say was that volunteers should be abolished and none but regulars be kept for the Government service. I did not say that the Ministers should be elected. Our platform is an open denial on this score.

The reference to the whites coming here before the mast and jumping into a fat, soft thing in Hawaii, has no application to the mechanics or the whites that came in on their own account, which they have a right to do. I referred to that class of men who are imported to supplant native and white teachers identified with the country, and those who supplant both natives and whites in the many employments under Government, imported specially for that purpose.

On this point I am emphatically opposed. There are enough whites and natives, who are better entitled to the consideration of the Government or Reform party than strangers.

The Times also reported that I said that "the King should be the power above all laws, and rule in his country." What I said was that the King has been shorn of many rights and privileges by the Reform constitution which should be corrected at the coming Legislature.

His veto power should be better defined. This is exactly what I said, and it must be apparent that my speech has been wilfully perverted. I mentioned the injustice of the action and favoritism shown by the Board of Education, and I said Mr. Bishop should be put out of his position as head of that bureau.

I will not trespass on your space to point out in detail the numerous misstatements made about me as contained in the Times' report of my speech, and also in items against me in the P. C. Advertiser.

In almost every particular it is a tissue of falsehoods, for the purpose of creating race prejudice and warring my foreign friends to their side. I repeat now that my advice and counsel to the natives hitherto and always shall be, to avoid the use of liquor, not to take bribes, to qualify themselves according to law, not to be bluffed by the partisan officials, who would seek to deprive them of their just rights, and above all that I have advised them to avoid coming in conflict with the white brethren who are in our midst, and anyone that says differently is a liar.

K. of P.

AMERICAN CATHOLICISM.

Good Christian reading is this from a sermon by Archbishop Ireland of St. Paul, during the late Catholic congress in Baltimore: The Church of America must be, of course, as Catholic as even in Jerusalem or Rome, but so far as her garments assume color from the local atmosphere she must be American. Let no one dare to paint her brow with foreign tint or pin to her mantle foreign linings. There is danger in receiving large accessions of Catholics from foreign countries. God witnesses if they are welcome. I will not intrude upon their personal affections and tastes, but these, if foreign, they shall not intrude upon the Church. Americans have no longing for a church with a foreign aspect. It would wield no influence over them. In no manner could it prosper. Exotics have never but sickly forms. It is time to bring back the primitive gospel spirit; to go out into highways and byways; to preach on house-tops and in market-places. Erect stately churches if you will. If all are not there press the absentee to hear you beneath humble roofs. If some remain yet outside, speak to them in the street or the public road. The time has come for "salvation armies" to penetrate the wildest thickets of thorns and briars and bring the words of God to the ear of the most vile, the most ignorant and the most godless. Saving those who insist on being saved, as we are satisfied in doing, is not the mission of the Church. This is not the religion we need to-day, to sing lovely anthems in cathedral stalls, to wear capes of brodered gold, while no multitude throng nave or aisle, and the world outside is dying of spiritual and moral starvation.

Seek out men; speak to them, not in stilted phrase or seventeenth century sermon style, but in burning words that go to their hearts as well as their minds. Popularize religion so far as principles permit. Into the arena, priests and laymen; seek out social grievances, lead in movements to heal them. Peep mercifully into factories; breathe fresh air into crowded tenement quarters of the poor; follow on the streets the crowds of vagrant children; lessen, on railways and in public service, Sunday work, which renders for thousands the practices of religion impossible; cry out against the fearful evil of intemperance, which is damning hourly the bodies and souls of countless victims.—[Alta California.

California: Lands

FOR SALE! THE undersigned wishes to inform the public that he has opened a Branch California Land Office, at No. 12 Merchant street, Honolulu.

To persons wishing to invest in Choice Timber, Agriculture, Fruit or Grazing Lands in the fine State of California, or in Desirable Building Lots in the beautiful City and Suburbs of Oakland, with its unobscured climate and opportunities, I am prepared to offer every inducement in the way of bargain.

The Lands which I here offer have all been most carefully inspected by a thoroughly reliable surveyor, employed specially for that purpose, and I am therefore enabled to give satisfactory guarantee that every piece offered will strictly correspond with the description given by me.

The Titles to these Lands are perfect, being in the main state school lands. The previous personal inspection thereof at great expense, offers also security to purchasers and is an inducement offered by no other dealer in state school lands in California.

The price ranges from \$3.50 per acre upward according to quality and location, and there is no doubt, by taking into account the rapid growth and progression of that State, that these lands offered at these low figures must within a few years command a much higher price and so secure to every investor a profit not easily equalled in any other line of speculation.

This opportunity will be open for a limited time only, and I therefore extend an invitation to all who wish to secure good and cheap homes in that magnificent State and country, and also to those who desire to invest a little money to so great advantage and profit, to call upon me soon and obtain full particulars. Information will be cheerfully given. Office rooms with F. A. Magoon, attorney, No. 42 Merchant street, 460 H. A. MOROFF.
