PORTUGUESE CABLE TO FUNCHAL

POLITICAL SITUATION IS A SERIOUS ONE

LINK'S DEMAGOGUERY CAUSES SCARE; BUSINESS MEN ARE CALLED UPON TO ACT

Headquarters, Republican Territorial Central Committee, Republican Party of Hawaii.

Honolulu, T. H., Sept. 28, 1910.

The present political situation has assumed such a serious aspect that the campaign committees have deemed it advisable to appoint the undersigned as a special committee to acquaint the business community with the facts.

The committee, therefore, earnestly requests you to be present at a special meeting to be held at the Chamber of Commerce rooms, Stangenwald building, at 3 p. m. Friday, September 30th, 1910.

The situation is of such importance that it demands your presence without fail.

Respectfully yours,
"A. L. C. ATKINSON,
"ALBERT WATERHOUSE,
"ROBT. W. SHINGLE."

The above letter was sent yesterday by the Republican Territorial Central Committee to a large number of local

business men, including the heads of practically all the firms in town. It is said to have been called forth by reports from Hawaii and elsewhere, of the urgent need of a "campaign of education" in order to counteract the effects of the McCandless campaign.

From Carl Smith, campaign-manager for Hawaii, letters have come which declare that Delegate Kuhio will have to hustle to keep up with Link and answer his arguments. According to Smith, his political workers say that McCandless' buncombe speeches have had a very telling effect, and he wants them answered.

At today's meeting, it is understood, the subject of the local campaign especially will be discussed. The business men will be acquainted with the issues raised by the demagoguery of McCandless, and the danger to local prosperity involved in his program.

As a result of the meeting, business men are expected to organize themselves to work for self-protection against the destructive policies of McCandless.

ANSWER A KNOCK OF HAWAII BY DEMOCRATS

Portuguese in Hawaii Deprecate the publication of false rumors of distress in Hawaii in Funchal papers. Conditions here are regarded superior to those of any other country. Further Portuguese immigration can find abundant opportunities for employment in Agriculture and trades. All false rumors concerning conditions in Hawaii emanate from irresponsible agitators.

Signed by many prominent Portuguese of Hawaii.
The above cable is being sent to

Funchal by prominent Portuguese of Honolulu, to counteract various articles in the Funchal papers, inspired in Hawaii, which have been received here.

Some of the articles are communications from Hawaii.

The first signer of the cable is A. D. Castro, member of the legislature. "It is the McCandless knocking of Hawaii in Portugal," said Castro.

One of the articles says that there are 3,000 destitute laborers in Hawaii.

INDUSTRIAL SCHOOL IS LARGELY SELF-SUPPORTING

The increased expenses of the industrial school have led Governor Frear to call for complete figures concerning this institution. He found, however, that the expenditure has not been unduly increased; the greater figures are due simply to the fact that the attendances are now much larger than they were previously. The cost per pupil is the same as it was at the end of the last fiscal period, and the aggregate expense has increased by the same percentage as the number of pupils. The average daily attendance for the last two years has been 148.69 as compared with 19.6 two years ago.

The expense per capita, the Governor finds, has not increased, notwithstanding that there has been an increase in prices of all commodities, and that the standard of food given to the children has been raised, for they are now receiving more cereals, etc., than formerly. A great factor in the low expenditure of maintenance is due to the fact that the schools are in a great measure, self supporting. At present the cost of maintenance per

boy is thirty-three cents, compared to fifty cents a day for prisoners.

Then again the earnings of the inmates have increased all along and it is anticipated that they will continue to increase for some time to come. In addition to raising many of their own supplies, there is a profit made from the sale of the surplus, and the girls also assist by making clothing, etc., while the boys reciprocate by laboring for the girls department.

Efforts are to be made to obtain the services of experts from the Government department to teach the boys to improve their outputs of farm products, as well as trying the experiment of planting trees in order to see whether fuel can be obtained in this way. Just now the school building is overtaxed and the matter will be gone into with a view to ascertaining how much labor the boys will be able to give in increasing the size of the buildings. When these calculations have been made they will enable the governor to place before the Legislature a statement of the amount necessary to increase the accommodation.

DEMOCRATS OF NEW YORK DENOUNCE ROOSEVELT PLAN

(Associated Press Cable to The Star.)

ROCHESTER, N. Y., September 30—The Democratic state convention today adopted a platform denouncing the Payne-Aldrich tariff law, and the "new nationalism," which has been advocated by Colonel Roosevelt in his recent tour of the western states. The platform places the New York Democracy on record against these new Roosevelt doctrines, and makes a new issue between the parties, aside from the tariff.

While the Saratoga convention did not go on record as to the "new nationalism," it gave a Roosevelt majority and was controlled by the Roosevelt forces, and it is expected that the issue will be taken up.

Herbert P. Bissell was made chairman of the convention. John A. Dix is slated for the nomination for governor.

PLAN OF KOREAN GOVERNMENT

TOKIO, September 30—Regulations have been announced by the Imperial government for the government of Korea. They provide for a governor, governor-general and a privy council, whose acts shall be subject to the approval of the Emperor of Japan.

BAD BANK NOTES

WASHINGTON, D. C., Sept. 30—The Treasury Department has given notice that counterfeit bank notes, of the national banks of Pasadena, Cal., and Williamsport, Pa., are in circulation.

MINING CONGRESS FOR NEW NATIONALISM. PUEBLO, Colo., September 30—The National Mining Congress today declared in favor of national control of the water supply, forest reserves, etc.

PINCHOT DENOUNCED BY THE MINERS. (Special Cable to The Star.)

LOS ANGELES, September 30—The Forestry committee of the Mining Congress in session here has denounced the Pinchot administration of the national forest service.

SPEECHES BY ROOSEVELT AND TAFT. NEW YORK, Sept. 30—The National League convention has been addressed by Colonel Roosevelt. President Taft will speak at the banquet tonight.

POLICE CHIEF DOUBLY FIRED. SEATTLE, Sept. 30—Chief of Police Wapperstein, whose removal by Acting Mayor Wardall has already been reported, has had his dismissal confirmed by Mayor Gill.

DRESS TRIMMINGS, AT SACHS. Beautiful new dress trimmings in striking and novel effects are among the new goods at Sachs. There is Applique Edge and Galoon, Band Trimmings, Gold and Silver Beads embroidered on Net besides many others.

ROYAL BAKING POWDER
Absolutely Pure
The only baking powder made with Royal Grape Cream of Tartar

NEW JURORS FOR DAMAGE SUIT

CASE OF LAU TONG AGAINST E. O. WHITE TO GO TO TRIAL ON MONDAY.

The following is a list of the names of the jury that has been empaneled in the case of Lau Tong vs. E. O. White: John J. Sullivan, Harry B. Myhre, William H. Heine, James L. P. Robinson, W. O. Barnhart, H. M. P. Rose, Howard W. Adams, Benjamin F. Vickers, William P. Roth, Paul C. Brede, John H. Jones and Benjamin Sammons.

This case will go to trial on Monday morning next. The proceedings have arisen out of a fatal automobile accident. Complainant's son was killed in this accident, and damages for the loss of services by the deceased are sought.

OVERSPEEDED FIVE TIMES

J. Johnson was before Circuit Judge Cooper this morning charged with five violations of Ordinance No. 11, by having driven his automobile at an excessive speed. City and County Attorney Cathcart appeared to prosecute, and Attorney Lightfoot appeared to defend. Defendant pleaded guilty, and was fined \$5 on each of four of the charges. In the case of the fifth charge a nolle prosequi was entered.

COUNTY HAS A PAY DAY

COLLECTORS WATCH AND TREASURER TRENT DOES A STRONG VOTE-GETTING STUNT.

There was a bill collectors' convention on Fort street, opposite the office of the Trent Trust Company this morning. Six well known hustlers for coin for various local commercial houses occupied places on the street and interestedly watched the morning's business in the trust company's offices.

It was the usual county pay day crowd. Treasurer Trent was paying off the county employes, and the collectors were gathered outside to gather in some of the results. There were Chinese butchers and pol men, and several well known white collectors who collect coin for all sorts of firms. Inside, the county employes were cashing warrants which bear the signature of one Trent, candidate for reelection. And it was observed that Trent attended at the counter in person. Doubtless the friendly feeling caused by receiving the money directly from the urbane treasurer is good for numerous votes.

A DANGER AVOIDED. There is no danger from blood poisoning resulting from a wound when Chamberlain's Pain Balm is applied. It is an antiseptic ointment. For sale by all druggists. Benson, Smith & Co., agents for Hawaii.

DISASTROUS TYPHOON IN THE PHILIPPINES

(Associated Press Cable to The Star.)

MANILA, September 30—Four towns in the Cayan valley have been destroyed by a typhoon.

IWILEI TYPHOID

SHOCKING CONDITIONS IN FILTHY DISTRICT PRODUCE NATURALLY EXPECTED RESULTS.

Secretary Mott-Smith had a revolting story to tell this morning concerning the filthy conditions that are ruling in the Iwilei district. He and Governor Frear went there yesterday with the health department officials in connection with the case of typhoid fever that has broken out among the Russians, and they were shocked to see the way the people are living in filth, and what astonished them more

was that serious sickness had not broken out there.

The visit, however, will doubtless be productive of much good, for it has been determined that the place will be cleaned up forthwith, and all sorts of remedial measures have been settled upon. The disgusting practices will have to go, and the residents of the locality will be forced to conform to sanitary laws. It is hoped that within a very short period the district will have been thoroughly cleaned up and rendered more habitable than in the past, and thus minimize the risk of serious epidemic breaking out there. Secretary Mott-Smith said that the place was hardly a menace to health at the present, but it was too bad to be allowed to continue in its present state.

The Mutual Telephone Co. requests that everyone having trouble with a telephone whether their own or someone else's, report promptly to "O."

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Honolulu standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 mins. The time whistle blows at 1:30 p.m., which is the same as Greenwich 0 hours 0 minutes. The sun and moon are for local time for the whole group.

SHIPPING NEWS

In the year 1903 the proportion of foreigners in British ships was at its maximum. In that year it was 22.25 per cent. But from 1903 the percentage has steadily fallen, until for the year 1908 it was reduced to 17.65. The actual figures for 1908 are as follows: British, 196,834; foreign, 34,735; Lancas and Asiatics, 44,152; total, 275,721. With respect to British boys and the sea, Captain Lord, of the Shipping Federation, says that the supply is far greater than the demand.

The Pacific Coast is the cradle of wonderful inventions. A boat-location mirror is the latest invention of a youthful inventor, F. J. Merrill, of Seattle. It is asserted by the inventor that with this mirror, worked by wireless telegraphy, steamships will

be enabled to tell, on the instant, the exact location of a boat within a radius of a mile or more. The mirror will depend entirely upon the strength of the wireless apparatus. The device has been tested by the Boston Electric Co., Seattle, and their opinion coincides with that of Merrill as to its practicability. Four steel posts are placed on arms at right angles with each other, and fastened to the mast of a steamship. The steel posts are connected by wiring with a four-pole mirror. Each section of the mirror is divided into small squares an inch or so in width. The inventor asserts that a boat coming within the radius of the steamship having the mirror will affect the steel post on the steamer's mast. If the boat approaching from the north, the north post will be affected and will show the exact location of the boat on the mirror. The movements of the other vessel from then on would be shown by the little squares until she withdrew from the radius.

The armored cruisers "Maryland" and "West Virginia" at Mare Island Cal., have been selected by the Navy Department, to make tests of the Pacific coast coal in the hope of finding a coal on that coast which would be satisfactory for use in the Navy. Tests will also be made to compare the efficiency of the Pocahontas coal now used in the Navy with the Pacific coast coal.

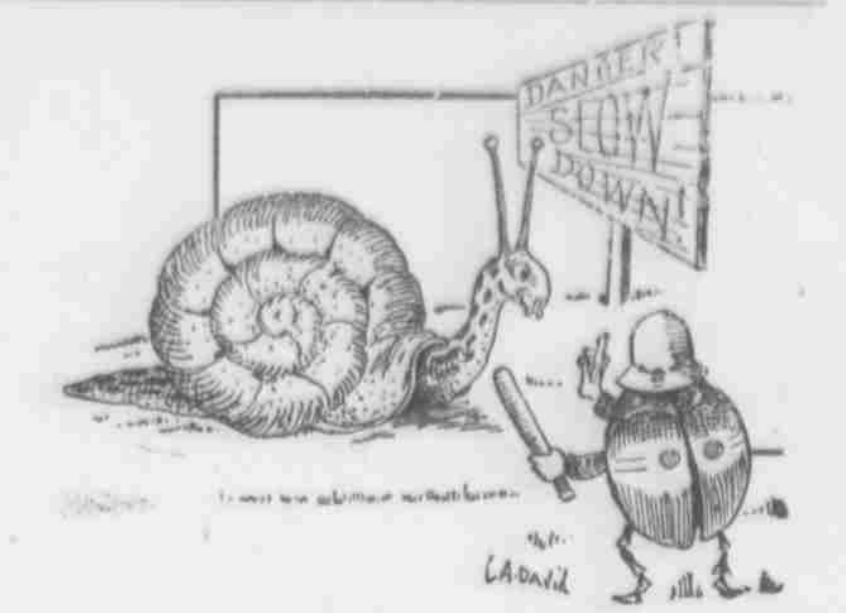

During the month of August, 157 vessels of 14,020 tons gross were built in the United States, of which 11 of 10,854 tons were steel steamers and of these, 5 of 8,611 tons were for the Great Lakes, the share of the Atlantic & Gulf yards being 6 steel steamers of 2,243 tons. The total construction was distributed as follows: Atlantic & Gulf, 61 vessels of 4,330 tons (of which 6 of 2,243 tons, were steel steamers); Porto Rico 3 of 26 tons, Pacific 20 of 377 tons, Great Lakes 33 of 9,054 tons (of which 5 of 8,611 tons were steel steamers); Western Rivers 10 of 233 tons.

New York reports that the cargo of the American-Hawaiian steamer Nebraska, leaving San Francisco on August 28th, was landed in New York in exactly twenty-two days, almost record time. The cargo amounted to 3,500 tons, consisting of wine and canned and dried fruits, wool and other products of the coast, and was transhipped across the isthmus of Tehuantepec to a steamer of the American-Hawaiian line plying from Puerto Mexico to the Eastern metropolis. No special effort was made to make time. It is said, but conditions were favorable and the freight went through without a hitch. The American-Hawaiian Company declares that it will rush cargoes to and from New York by the Tehuantepec route, now that the Pacific Mail and the firm of Bates & Chesebrough are entering the field as competitors for the New York business.

WOMAN FOR CONGRESS.

LEXINGTON, Ky., Sept. 11.—Mrs. Frances E. Beauchamp, president of the State W. C. T. U., has announced her candidacy for Congress in the Seventh District against J. Campbell Cantrill, Democrat and M. C. Rankin, Republican.
She will run independently on a platform opposed to liquor, white slave traffic and tobacco. She qualifies the tobacco plank in her platform by stating that as between the Tobacco Trust and the farmer, she is for the farmer.
She calls upon the "chivalrous" men in the district to vote for her. She declares she is eligible to serve in Congress because there is nothing in the Constitution which prevents her helping to make the laws. She declares the question of whether she declares the question of woman so serving must be settled some time, and it might as well be done now.

And have you then there this Writ with full return of your proceedings thereon.

WITNESS the Honorable Presiding Judge of the Circuit Court of the First Circuit, at Honolulu aforesaid, this 27th day of August, 1910. (SEAL) HENRY SMITH, Clerk.

(Endorsed) L. No. 7199, Reg. 3, Pg. 162. Circuit Court First Circuit, Territory of Hawaii. Marston Campbell Superintendent of Public Works of the Territory of Hawaii, Plaintiff and Petitioner vs. James Steiner, et al., Defendants and Respondents. Summons Filed and issued at 11:15 a. m. August 27, 1910. (Sg.) Henry Smith, Clerk Returned and filed Aug. 31, 1910, at 1:5. A. K. Aona, Asst. Clerk.

ALEXANDER LINDSAY, JR., Atty Gen'l & W. B. LYMER, Dep. Atty Gen'l, for Marston Campbell, Supt. of Pub. Works.

Territory of Hawaii,) ss. City and County of Honolulu.)

I, Henry Smith, Clerk of the Circuit Court of the First Judicial Circuit, Territory of Hawaii, do hereby certify the foregoing to be a full, true and correct copy of the original summons in the case of Marston Campbell, Superintendent of Public Works of the Territory of Hawaii vs. James Steiner et al., as the same remains of record and on file in the office of the Clerk of said Court.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the Seal of said Circuit Court, this 2nd day of September, 1910.

(SEAL) HENRY SMITH, Clerk of the Circuit Court of the First Circuit, Territory of Hawaii.

CREW OF THE HELGA IN BRISBANE

Eight of the shipwrecked crew of the Helga arrived at Brisbane on September 2 by the Mackay.

The Helga was wrecked on August 11, on the voyage from Newcastle to San Francisco. The names of the survivors are Bias (second mate), Tulloch (boatswain, cook and donkeyman), Levi (cabin boy), Bruce (apprentice), Weatherspoon (cook), Wilson (able seaman), Edwards (ordinary seaman).

In an interview, Bias, 2nd mate, said the voyage was most unlucky. Shortly after starting, it became necessary, in consequence of leakages, to keep the steam pump going. The deck the first part of the voyage was very cold, and probably that accounted for much of the sickness experienced during the voyage.

The salt water affected the boiler of the donkey engine, which leaked to such an extent that but for the carpenter they would not have lasted as long as they did. He never saw a handier man on any vessel. He was not only a carpenter, but he also was a blacksmith, plumber and everything. "I consider," Bias continued, "we owe our lives to the carpenter. As to the disaster itself, on nearing Honolulu the captain endeavored to get as near shore as possible before anchoring, because had we dropped anchor in deep water we would not have had sufficient power to raise it again. The wind was off the shore at the time, and the ship was under easy canvas. We did not wish to be carried past the port, and so the captain kept as close inshore as was prudent. The night was dark, but fine. We were looking out for a bell buoy, which is one of

the principal marks at the entrance to the port. The lead was kept continually going, and showed a depth varying from 12 down to 6 fathoms. When the water had shoaled down to six fathoms the master gave orders to let go anchor. Almost immediately afterwards the ship bumped the reef, and continued at brief intervals for about an hour, when she settled down firmly on the reef and commenced to go to pieces. It appeared that we struck on the outer edge of the reef, some distance away from the main portion. Shortly after the vessel first struck the lifeboat was put out in readiness, and some time after another boat was put out, in which was placed the captain's wife and daughter.

"In the same boat was also the sick mate and a man who had been injured through the bursting of a rocket. We showed blue lights as soon as we found we were in difficulties, but although the lights on shore were plainly visible to us, there was no response to our signals; nor in the morning, when our position could be plainly seen, was there any interest manifested in us by the occupants of several small craft cruising about in the vicinity. The first vessels to take any notice of us were a couple of small coasting steamers. The captain proceeded ashore to make arrangements for the carrying out of salvage operations, taking all that remained of the crew with him, excepting the boatswain and myself, who were left in charge to prevent the vessel being seized, but there was little hope of saving much, for before long the cargo was being washed out of the hold, the deck having burst open. The only things saved were the sails, anchors, and cables, and a few odds and ends. We were most kindly treated by Mr. Foster, British Consul at Honolulu."

MAUI'S TICKET.

The following is the complete Republican ticket for Maui:

- Senator—Hon. Philip Paul, Lahaina
Representatives—Jos. Cockett, Wailuku; A. F. Tavares, Makawao; Waialeale, Lahaina; Geo. C. Cooke, Molokai; J. W. Kawakoa, Hana; Sam Kellum, at large.
Sheriff—Crowell.
Treasurer—L. M. Baldwin.
Clerk—Kane.
Auditor—Chas. Wilcox.
Attorney—D. H. Case.
Supervisors—Chas. Lake, Wailuku; W. F. Pogue, Makawao; W. P. Hala, Hana; Wm. Henning, Lahaina; T. T. Meyer, Molokai.

50% OF THE POPULATION OF THE U. S.

live in rural districts remote from physicians or drug stores, and they are obliged to depend upon proprietary medicines to a very great extent. To the women in these homes such standard remedies as Lydia E. Pinkham's Vegetable Compound come as a boon and a blessing. Records show that it has cured more women of those dread feminine ills than any other remedy.

BORN.

WOODWARD—At the Maternity Home, Honolulu, September 23, 1910, to the wife of D. M. Woodward, a son.

ROUTINE WORK OF LAND BOARD

KAMAI LOALELE LOTS INCREASED TO AN ACRE EACH—SEVERAL APPLICATIONS APPROVED.

At yesterday's meeting of the Public Land Board, Commissioner R. H. Trent handed in letters he had received concerning land at Waialoo and Keekes, Kula, Maui. Andrade said that he had received two letters with regard to the same lands, but that he had forgotten to bring them with him. It was resolved on the motion of Mr. Trent to spread the contents of the letters on the minutes, and then refer the matters to the Commissioner.

Secretary Brown referred to an application which was before a previous meeting from C. Brewer & Co., for a renewal of lease No. 578, at Moanala, Hawaii. He said that he had promised to get some information regarding the value of lands there. It had not been easy to get definite values, but from what he could gather the rental value was \$2, \$3 and \$5 an acre. The best tract—that the Board was considering—was valued at \$5, and he could not find that there were any higher figures than this. He had made inquiries from a party who had done surveying there, and he stated that it was a good tract. The Secretary did not think the cane land should be leased at less than \$5 an acre. Mr. Trent then moved that the Board consent to the renewal of the lease at an upset rental of \$1,460 per annum.

Mr. Andrade seconded, and the motion was carried.

With regard to the Kamae Loalele lands, a petition was received in which it was stated that half-acre blocks of these lands, as decided upon by the Board at its last meeting were too small. The petitioners considered that they should not be less than two acres.

After discussion it was resolved on the motion of Mr. Andrade, to reconsider the previous decision that the lands be divided up into half-acre blocks; and that it be resolved to limit the size of the lands to one frontage to the beach not exceeding one hundred feet.

Attorney Tavares had a letter before the Board together with a copy of the missing petition, about which so much time has been occupied by the Board. The Attorney explained the delay in transmitting the petition to the Board. The matter was discussed temporarily, but apparently it was forgotten, for the members did not return to the subject.

There were several applications for the purchase of lands, all of which the Board approved.

NEW MEXICO "WET."

SANTA FE, N. M., Sept. 7.—According to returns received at Republican headquarters from the 26 counties of New Mexico, Republicans have elected 68 of the 100 delegates to the constitutional convention, Democrats 32.

At Republican headquarters it was said today that this means there will be no prohibition plank and no initiative and referendum clause in the constitution, although a modified initiative and referendum and a local option plank may be submitted separately.

CHINA CAUSES APPREHENSION

WASHINGTON, September 25.—The United States government is in receipt of authentic information from its representatives in the Chinese empire, to the effect that China is facing a crisis such as existed in the days of the Boxer troubles, when the lives and property of foreigners were destroyed or endangered by fanatical hordes.

It is declared that China is on the verge of an upheaval of the most serious nature, and great alarm is felt for the safety of Americans and other foreigners in the Chinese cities.

Instructions have been forwarded from the state department to all American government officials in China to keep the closest watch in regard to belligerent movements and to acquaint this government immediately with any indication of the approaching outbreak.

Officers of the United States war fleet in Asiatic waters have been cabled to be prepared for instant action in the defense of American interests at Chinese ports, and the American army in the Philippines has been notified to be ready for any emergency.

If conditions warrant, American troops will be hurried in army transports from Manila to the scene of action.

It was announced here today that in case of trouble both the army and navy forces of the United States are prepared to act at once.

COZY JAILS CAUSE SIN.

WASHINGTON, D. C., September 30.—President Taft, in receiving delegates to the international prison congress in this city, yesterday delivered an address in which he cautioned prison officials against making prisons so comfortable as to furnish a motive for the violation of the law. The President pointed out a tendency in some instances to conduct prisons altogether too much to the taste of their occupants and declared that too many people went to jail for comfort's sake.

CUT COST OF ARMY.

WASHINGTON, September 30.—President Taft and General Wood, U. S. A., are holding conference on the examination of army estimates with a view to still further reductions.

AT THE THEATERS

The fine weather last evening had the effect of enticing many people from their homes, with the result that the theaters were liberally patronized. Holdover programs were on all around, but all were cleverly conceived and much enjoyed. With good weather the remainder of the week the theaters are hopeful of audiences of sizes to make up for the dulness of the rainy period.

AT THE EMPIRE.

The big card at the Empire this evening will be a Chinese-negro sketch, participated in by Thompson, the Desmonds and the inimitable Chinaman, Henry Vierra. It is a ghost affair in which both the pake and the coons are seen to great advantage. The picture program will be entirely new.

THE PARK TONIGHT.

The feature film at the Park this evening will show scenes in India, the picture being colored. Life and scenes in Bengal are clearly interpreted, and the series is both entertaining and instructive. A second big film will be a western cowboy series, of a kind that is always thrilling. Connie Marina will appear for the first time here in his great success "His charity covers his sins." Miss Atkins, Blair and Marina will appear in a sketch entitled "The lawyer's clerk."

THE NOVELTY.

The feature film at the Novelty theater this evening will be "The hand of fate." Kate Milton's special songs will be "The one word Mother" and "From the cradle to the grave." New dances and songs will be introduced by Hen Wise.

The trustees under the will of the late Bernice Pauahi Bishop recently sought an opinion concerning the thirteenth clause of the will of the deceased, as they were in doubt whether they had power under this will to have children educated outside of the Kamehameha schools. Attorney General Lindsay was appealed to, and answered in the affirmative, but this decision Judge Robinson reversed. An appeal has not been lodged by the Attorney General, and has been placed on the Supreme Court calendar.

The Supreme Court of the Territory of Hawaii has declared both THE HAWAIIAN STAR (Daily) and THE SEMI-WEEKLY STAR newspapers as general circulation throughout the Territory of Hawaii, (suitable for advertising proceedings, orders, judgments and decrees entered or rendered in the Courts of the Territory of Hawaii.)

Letters to THE HAWAIIAN STAR should not be addressed to any individual connected with the office, but simply to THE HAWAIIAN STAR, to the Editorial or Business Departments, according to tenor or purpose.

DANIEL LOGAN EDITOR

FRIDAY SEPTEMBER 20, 1919

TRIUMPH OF ARBITRATION.

Arbitration as a means of settling disputes between nations has been distinctly advanced by the decision of The Hague tribunal in the Newfoundland fisheries case. Taking a large number of expressions of opinion upon the awards, in both the American and the British press, it may be said that the deliverance of the tribunal is mutually satisfactory. Although the immediate occasion of the submission came from disputes between American fishermen and Newfoundland, the only North American colony outside of the Dominion of Canada, there were points involved which at various times since the fisheries treaty of 1818 had caused international friction with regard to the fisheries of all the maritime provinces. Occasionally it even seemed as if nothing but war would settle the disputes. It is recalled that when Daniel Webster was secretary of state, under President Taylor, he proposed to swap the country now known as Oregon and Washington to Great Britain for some new concessions to the Massachusetts fishermen in the Banks of Newfoundland cod fishery. It is a happy event that this, the last remaining trouble between the United States and Canada, should have been settled as the time draws near for the proposed celebration of a century of peace between this country and Great Britain. That it has been adjusted, as the Sacramento Union remarks, "without war or even any public excitement on either side of the Atlantic or international boundary," is surely a great triumph for the cause of international arbitration.

By the decision of the tribunal the United States won five and Great Britain two of the points submitted. One of those decided against this country maintains the sovereignty of Great Britain over her territorial fisheries, making fishermen of the United States amenable to municipal laws, ordinances or rules of Great Britain, Canada or Newfoundland. Owing to the form in which the question was put, the tribunal left the "reasonableness" of such regulations open for settlement through diplomatic intercourse. The second point won by Great Britain relates to the three-mile limit of sovereignty, on which in the words of the decision, "the tribunal decides and awards in case of bays the three marine miles are to be measured from a straight line drawn across the body of water at the place where it ceases to have the configuration and characteristics of a bay. At all other places the three marine miles are to be measured following the sinuosities of the coast." Lines are definitely recommended for a number of bays in different provinces, while in the case of every bay not thus specifically provided for it is directed that "the limits of exclusion shall be drawn three miles seaward from a straight line across the bay in the part nearest the entrance at the first point where the width does not exceed ten miles." On this question the contention of the United States—that the three miles followed the shore line even when it affected waters in part surrounded by land—is held by some home opinion to have been a dangerous one. Had it prevailed the middle portion of some American bays of the United States would have become neutral territory. For one instance given: "In the case of Chesapeake bay, the mouth is over ten miles wide, and the middle of the channel for four miles would not have been under American jurisdiction."

Points gained by the United States are the following: 1.—Inhabitants of the United States, while exercising the fishing rights granted by the treaty, have a right to employ as members of the fishing crews of their vessels persons not inhabitants of the United States. 2.—The exercise of the fishing liberty by the inhabitants of the United States should not be subjected to the purely commercial formalities of report, entry and clearance at a custom house, nor to light, harbor or other dues not imposed upon Newfoundland fishermen. 3. American fishermen entering bays and staying more than forty-eight hours are required to report in person or by telegraph to the customs authorities only if reasonably convenient opportunity therefor is offered. 4. American inhabitants are entitled to fish in the bays, creeks and harbors of the treaty coasts of Newfoundland and the Magdalen Islands. 5. Inhabitants of the United States exercising the fishing liberties on the treaty coasts are entitled also to have for their vessels the commercial privileges accorded by agreement or otherwise to the United States trading vessels generally, "provided the treaty liberty of fishing and the commercial privileges are not exercised concurrently."

President Taft's caution against making prisons too attractive is timely. Medieval and later penological barbarities are mostly obsolete, but society should not go to the opposite extremity of coddling of criminals.

If the government of China is too weak to prevent another anti-foreign uprising, the event will be liable to result in the downfall of the present empire. If, in such an event, the progressive element were not strong enough to make a new government, partition of the country among the hungry powers would probably be its fate. In either case, China may be the theater of terrible war.

It is not stretching optimism too far to mark this year down as a memorable one in Hawaii's industrial history from the harvesting of the initial crop of rubber.

According to statistics compiled by the Journal of the American Medical Association, the list of deaths and injuries due to the celebration of the Fourth of July this year is the least appalling since 1903, when the Journal began keeping its record. The totals of 131 dead and 2923 injured are sad enough, but would have been more so were it not for the widespread movement in behalf of a "sane" observance of the national birthday. Massachusetts had this year only one-seventh of the injuries it had last year, and Missouri, New Jersey, New York, Illinois, Ohio and Pennsylvania each reduced their casualties from one-third to two-thirds. Indiana, Iowa, and Wisconsin, on the other hand, increased their quotas of "patriotically" created woe. In 1903 there were 4449 persons injured, of whom 466 died. The grand total for eight years shows that 37,526 persons have been injured in Independence day celebrations. Of these 1662 died. One hundred and twenty-two have lost their eyesight, 551 have lost the use of one eye and 432 that of arms, legs or hands, while 1541 have suffered the loss of fingers.

Uncle Walt The Poet Philosopher

I spend my weary days in jail, and O, the hours seem sad and long! I lean against the bars and wait, and gaze upon the passing throng. Why are these letters on my legs? Why do I sleep on mouldy straw? I sold a man two dozen eggs IS BLIND that would not pass the pure food law. The peelers came then to my store and smote me roundly with their staves, and cast me on this dungeon floor, and no one succors, no one saves. I look out through the prison bars, and watch the flood of humankind, and see men pass in motor cars, who tried to rob the city blind. Across the street a statesman stands, his pockets full of temple notes; he often uses both his hands distributing the price of votes. The grafting alderman drives by, big diamonds glowing on his shirt; he sees me, and he winks an eye, and leaves me to the gloom and dirt. The plutocrats are on parade before my dark and dreary cell; if they were asked how much they've made, I doubt me much if they could tell. They break some laws most every day; they all hire lawyers by the year; and yet they blithely go their way, while I alas! am weeping here!

WALT MASON.

Copyright, 1919, by Geo. Matthew Adams.

MAYOR GAYNOR ON HOW TO VOTE IN LOCAL ELECTIONS

The chief obstacle to the nomination and election of fit men to city office is national and State party prejudice or bigotry carried into local politics. It should never be mentioned there. The motto of every sensible man should be, national politics and issues for national elections, State politics and issues for State elections, and local politics and issues, and none other, for local elections. Every time this is said people who talk more than they think, including some newspaper editorial writers, immediately cry out that it is visionary, that parties cannot be done away with, that they are necessary. Certainly they are necessary, and there is no suggestion of doing away with them. Every party is left to make its nominations, and when all the nominations have been made, the contention is that voters should determine how they should vote without regard to national or State parties or politics, but solely on local politics, men, and issues. Voters in local elections should cross the national-party line freely, being influenced by local considerations only. Certainly a voter who will vote for the candidates of a party in election simply because he believes in a protective tariff, or in free trade, or in a tariff for revenue only, or in a single standard of metallic money, which has nothing whatever to do with the case, is doing a very stupid thing. He is responsible for local bosses: his party prejudice plays right into the hands of the boss. Macaulay would say of him that he is in the most happy of all conditions: namely, not quite sane enough for liberty, and yet not sufficiently insane for Bedlam. But I have no disposition to be so harsh as that.

Local Questions Should Dominate. Nothing should influence the voter in a local election except the local questions of men and measures which are up for consideration. And it is a misnomer to call officials non-partizan who are elected in this discriminating way. They are partizan, but only on local issues, and it is entirely seemly and proper for them to make their appointments to office or place from the local party which elected them. There is much misunderstanding on this head. Everything being equal, they may properly prefer those who supported them; indeed, it is necessary that a mayor's appointees be in sympathy with him and his policies. The notion of making appointments without regard to this is fanciful, some would say nonsensical, without going too far. A provision was put in the New York State Constitution of 1894, our present Constitution, separating local elections from national and State elections, to the end that voters should be freed from the distractions and bigotries of State and national politics in local elections, and its effect has now grown large.—Mayor Gaynor of New York, in the Century Magazine.

CUSTOM HOUSE

An examination will be held by the civil service commission at Honolulu on October 22 for the position of customs night inspector, with salary of \$3 a day.

The examination will consist of the subjects mentioned below, weighted as indicated:

- 1. Spelling 20
- 2. Arithmetic 20
- 3. Letter-writing 20
- 4. Penmanship 20
- 5. Copying from plain copy 20

100

Candidates for appointment in the customs service must not be less than twenty-one nor more than fifty-five years of age, of suitable physical condition, and mentally qualified. If otherwise duly qualified, the limitation as to age will not apply to honorably discharged United States soldiers or sailors.

This examination is open to all citizens of the United States who comply with the requirements.

For further information address J. W. Short, secretary of the board of examiners at the custom-house or post office.

—The— "Ever Ready" Bottle

The "Ever Ready" Bottle—A keen pleasure and great comfort to automobilists, boating parties, picnic parties, hunters, fishermen, travelers, invalids, athletes, soldiers, engineers, physicians, etc. Keeps contents hot 24 hours, cold 72 hours. A wonderful convenience for the mother with a nursing child. Warm milk at all hours of the day or night.

It's the perfection of every detail that makes superiority—The patent spring cork stays securely in place and absolutely guards against spilling of contents, no matter in what position the bottle is carried. An ordinary cork would be ineffective especially when gaseous or carbonated liquids are carried. The drinking cup has a smooth polished surface both inside and outside, has no unsanitary screw threads and can be kept scrupulously clean. The drinking cup also serves as a cap for the bottle. The neck of the glass bottle protrudes slightly beyond the metal casing, which prevents liquids from getting between the bottle and casing. This sanitary precaution is of great importance. The bayonet catch is the most practical method of holding the cap on. Press the cap down, give it a short turn and it is secure against any jarring. For strength, appearance, sanitary perfection and general efficiency the "EVER READY" Bottle stands in a class by itself.

"Ever Ready" Matten Carrying Cases strong and attractive. The single case holds one bottle. The twin case holds two bottles.

Financial and Commercial News

By L. D. TIMMONS

GREAT MANY DEALS IN OAHU THIS MORNING

Stocks were a whole lot more active this morning and Honolulu's Wall street is more cheerful than it has been in two weeks. The cause is probably that the small speculators have been weeded out and prices are returning to a rational basis. Investors have come to realize, also, that the real drawback to the market at present is the comparatively low price of sugar, and that the present market does not affect the local situation as Hawaii has little sugar to sell.

Buyers are now thoroughly in the open and the prospects are of some lively street trading.

Oahu was the center of interest all morning. The last previous sale of this stock had been at \$29.25, and at the close yesterday \$29.375 was bid and \$29.50 asked for the stock. Late in the afternoon 15, and 170 shares sold at \$29.375.

The real activity came this morning, transactions being many although the prices were unchanged. In rapid succession 100, 100, 5, 100, 50, 30, 100, 20, 100, 100, 15, 20 and 5 shares sold at \$29.375.

NEW ADVERTISEMENTS.

HAWAIIAN LODGE NO. 21 F. & A. M.

THERE WILL BE A SPECIAL meeting of Hawaiian Lodge No. 21, F. and A. M., at its hall, Masonic Temple, corner of Hotel and Alakea streets, THIS (FRIDAY) EVENING September 30, 1910, at 7:30 o'clock.

WORK IN THIRD DEGREE. Members of The Honolulu Lodge U. D. Oceanic Lodge, and all visiting brethren are fraternally invited to attend.

By order of the W. M. K. R. G. WALLACE, Secretary.

IN THE CIRCUIT COURT OF THE First Circuit, Territory of Hawaii.—In Probate.—At Chambers—No. 4146.

In the Matter of the Estate of Francisco Freitas, deceased.

On reading and filing the Petition and Accounts of Trent Trust Company, Limited, Administrator of the Estate of Francisco Freitas, deceased, wherein it asks to be allowed \$1822.32 and charges itself with \$2114.40, and asks that the same may be examined and approved, and that a final order may be made of distribution of the property remaining in its hands to the persons thereto entitled, and discharging it and its sureties from all further responsibility as such Administrator.

It is ordered that Monday, the 17th day of November, A. D., 1910, at 10 o'clock A. M. before the Judge of said Court, at the Court Room of the said Court, at Honolulu, City and County of Honolulu, be and the same hereby is appointed as the time and place for hearing said petition and accounts, and that all persons interested may then and there appear and show cause, if any they have, why the same should not be granted.

Dated September 29th, 1910.

By order of Court: J. A. THOMPSON, Clerk Circuit Court, First Circuit.

Sept. 30, Oct. 7, 14, 21.

What's the Matter With Sugar Stocks?

REAL ESTATE

Is the best of investments. No city in the world has so bright a future as Honolulu, and if a person uses judgement in buying he should be able to provide well for the future if he invests his savings in Beautiful Kaimuki.

With the coming of Uncle Sam to Pearl Harbor, the opening of the Panama Canal and the general development that is bound to follow a careful realty investment is bound to be worth many a sacrifice.

KAIMUKI Land Co., Ltd.,

ANXIOUS TO HEAR ABOUT HONOLULU

William Fisher, late manager of Makawae store, kaual, writes under date of September 17 from Colorado Springs, Colorado, as follows: "I came here from Makawae on a holiday, but on account of my health I have to stay here indefinitely, having been obliged to give up my position as manager of Makawae store."

"It seems to me strange that I cannot get my news about Hawaii in any of the San Francisco papers. Perhaps twice a month I may find something, but even that little is of no importance. People connected with the tourists bureau here think it a mistake not to use the newspapers for advertising the Islands through telegraphic news about politics and other affairs. Dole's pineapples are advertised a lot and every grocer has to keep them now."

SUGAR DOWN AGAIN. Raw sugar dropped again in New York today, sales having been made at 3.95, the last previous quotation being 4.025. Beets are 10s 1d.

Two sugar quotations came in yesterday afternoon, one of them being a correction of a former figure and the other the latest quotation. The correction gave the price of raw sugar as 4.11 in place of 4.18, and the latest gave raws as 4.025 and beets as 10s, 3d.

The latter figures show sugar to be lower than it has been since February, 1909, when beets reached 10s.

The big drop is undoubtedly due to the improved beet prospect in Europe. For some time excellent weather has prevailed in the beet area and every day of favorable conditions at this season means a great deal for the crop. It is undoubtedly now taken for granted in the East that the European beet crop will be the largest in history.

All this, however, will probably affect Hawaii very little, as prior to the next grindings the beet output will have been disposed of and the demand as keen as ever for the cane product. It is a notable fact that winter futures are still quoted very high.

Hawaiian Commercial was another stock to feel the effect of the return of confidence. At the close yesterday \$37.875 was bid for this stock and \$38.25 asked. This morning a sale of ten shares was made at \$38, after which \$38.25 was asked. Hawaiian Commercial on the street is from a quarter to a half higher than yesterday.

Honokaa also pulled up slightly. Between boards 10 shares sold at \$13.50 and on the board this morning 5 shares went at \$14. At the close \$13.875 was bid and \$14.50 asked. As the closing figures yesterday were \$13.25 bid and \$23.625 asked it will be seen that the advance was considerable.

Wai'alae also appeared stronger, although there were no sales. On board this morning \$116 was bid for the stock, but none came out.

Olaa and McBryde were both a shade stronger than yesterday, although there were no sales of either.

Ewa was slightly off, forming the one exception to the rule, although it is not unusual for a stock to decline considerably immediately following the payment of dividends. Ewa paid today a total of sixty cents a share—20 regular and 40 special. The closing quotations yesterday were \$32 bid and \$32.25 asked. Today the quotations were \$31.375 bid and \$31.625 asked. Add today's dividends to these figures and the quotations for today would be \$31.975 bid and \$32.225 asked.

A sale of 5 Brewery was made at \$19, after which no stock was offered and there were no bids.

Why He Stole

"Why did you steal that coat?" asked Judge Andrade of L. Kamall, in the police court this morning.

"Just to wear it," was the nonchalant reply, and the delinquent was sent to jail for sixty days, during which time he will not need a woolen coat.

BOARD OF IMMIGRATION. A meeting of the Board of Immigration was held this morning. The resignation of Secretary Walker was received, owing to pressure of other work, and R. A. Kearns was appointed to succeed him.

Major Haines, army paymaster, will shortly be relieved from duty here, and return to the mainland. Lieutenant Colonel Payson will come here to relieve Major Haines, and it is likely an officer of his rank may be stationed here permanently, now that Hawaii has been designated as a separate army division.

IMPROVEMENTS IN VIEW IN CAVALRY SERVICE. board, now in session at Rock Island, Ill. To aid them in their work the members of the board have issued a circular letter to officers of that arm of the service, asking for the benefit of their knowledge and experience on the subject.

Some cavalry officers believe that the saber now in use might be dispensed with advantageously. The board has before it for consideration the sharpened saber with the long hilt, which has been under test for about two years. There are many varieties of sabers of different dimensions and weight, and the board will determine whether the present saber is too heavy for the comparatively light-weight men in the cavalry arm. Some officers are in favor of the adoption of a much lighter saber than is now carried.

Some of the more important questions on which opinions are sought are these: Saddle bars lengthened? Pommel changed so as to admit of carrying the saddle bags? Bottom of the bags covered with some material to fit and protect the horse's back? Single stirrup strap instead of double, fastened with a hook? Stirrups without the hood, the wood covered with leather and with loops at the bottom for carrying extra horseshoes? Saddle blanket abolished? Shall the bed blanket be worn under the saddle in the field? Shall the gun sling be retained? Saber hanging in rear of right leg? Picket pin in leather case in front of saber, to be used as entrenching tool, and carrying a pair of nippers? Nosebag enlarged so as to carry forage? Pistol lanyard abolished? Spurs straightened and shortened? Saddle bags made much smaller and carried on pommel? Shall the bit be single or double, the curb bit stiff or broken? Shall the overcoat be long or short? Style of hat? Suggestions as to a compressed field forage? Shelter tent poles abolished and saber used therefor?

—Washington Star.

SUGAR NEARING THE LOWEST MARK

Two sugar quotations came in yesterday afternoon, one of them being a correction of a former figure and the other the latest quotation. The correction gave the price of raw sugar as 4.11 in place of 4.18, and the latest gave raws as 4.025 and beets as 10s, 3d.

The latter figures show sugar to be lower than it has been since February, 1909, when beets reached 10s.

The big drop is undoubtedly due to the improved beet prospect in Europe. For some time excellent weather has prevailed in the beet area and every day of favorable conditions at this season means a great deal for the crop. It is undoubtedly now taken for granted in the East that the European beet crop will be the largest in history.

All this, however, will probably affect Hawaii very little, as prior to the next grindings the beet output will have been disposed of and the demand as keen as ever for the cane product. It is a notable fact that winter futures are still quoted very high.

NAHIKU RUBBER REACHES THE CITY

William Williamson is displaying at his Merchant street offices samples of first class and second grade rubber taken from the trees on the plantation of the Hawaiian-American Rubber Co., at Nahiku, Maui.

This is the first rubber turned out by this company, and it is not yet certain how much will be produced for market this year. Now that the start has been made, however, the output from now on should be considerable and on the increase constantly.

The high grade rubber is perfectly clean and is almost cream color. The other contains considerable foreign matter and is dark colored. The former is worth about \$2 a pound and the latter \$1.

The capital stock of the Hawaiian-American Rubber Company is \$125,000. It owns land in fee, 376.85 acres; and leaseholds (expiring 1940) 165.83 acres. Trees planted are as follows: Coara planted in 1906, 37,914; coara, planted in 1907, 30,337; Hevea planted in 1907, 39; same planted in 1908, 1,512; same planted in 1909, 5,764; same planted in 1910, 700. Total 76,372 trees.

This rubber plantation is one of the first started in the Hawaiian Islands and will be the first to reach the market with rubber in large quantities. It has been a success from the beginning and bids fair to become a money-maker of the first class.

At the meeting of the Hawaii Promotion Committee held yesterday afternoon Allan Herbert was appointed chairman of a new committee whose duties it shall be to examine vacant lots, unsightly places or buildings, etc. about the city and report on the same. It is the intention of the Promotion Committee, in conjunction with either the various improvement clubs, commercial bodies, health or police authorities to make an immense drive for the "city beautiful." Hence this special committee.

As stated, Mr. Herbert will be chairman of the committee. Another member is E. I. Spalding, of the Bank of Honolulu, and these two gentlemen will select a third committeeman. They will begin work at once and will probably have a preliminary report to submit at the next meeting of the chief promoters.

The committee discussed at some length the proposition of getting a permanent poster, showing a surf rider and bringing more to the front that popular sport. Mr. McInerney made a suggestion that was so simply sensible that it startled the whole committee. It was to get a photograph of some

graceful surfer in action and have the picture reproduced on a poster.

At the time of the committee was taken up in discussion of a program for the Prince Rupert's visitors, who will arrive here from Seattle in February. The Prince Rupert will go first to Hilo, where a stay of several days will be made. A series of running events will be programmed for the visitors in such way that they will be able to find something to do pretty much all the time.

What's the Matter With Sugar Stocks?

REAL ESTATE

Is the best of investments. No city in the world has so bright a future as Honolulu, and if a person uses judgement in buying he should be able to provide well for the future if he invests his savings in Beautiful Kaimuki.

With the coming of Uncle Sam to Pearl Harbor, the opening of the Panama Canal and the general development that is bound to follow a careful realty investment is bound to be worth many a sacrifice.

ANXIOUS TO HEAR ABOUT HONOLULU

William Fisher, late manager of Makawae store, kaual, writes under date of September 17 from Colorado Springs, Colorado, as follows: "I came here from Makawae on a holiday, but on account of my health I have to stay here indefinitely, having been obliged to give up my position as manager of Makawae store."

"It seems to me strange that I cannot get my news about Hawaii in any of the San Francisco papers. Perhaps twice a month I may find something, but even that little is of no importance. People connected with the tourists bureau here think it a mistake not to use the newspapers for advertising the Islands through telegraphic news about politics and other affairs. Dole's pineapples are advertised a lot and every grocer has to keep them now."

SUGAR DOWN AGAIN. Raw sugar dropped again in New York today, sales having been made at 3.95, the last previous quotation being 4.025. Beets are 10s 1d.

Two sugar quotations came in yesterday afternoon, one of them being a correction of a former figure and the other the latest quotation. The correction gave the price of raw sugar as 4.11 in place of 4.18, and the latest gave raws as 4.025 and beets as 10s, 3d.

The latter figures show sugar to be lower than it has been since February, 1909, when beets reached 10s.

The big drop is undoubtedly due to the improved beet prospect in Europe. For some time excellent weather has prevailed in the beet area and every day of favorable conditions at this season means a great deal for the crop. It is undoubtedly now taken for granted in the East that the European beet crop will be the largest in history.

All this, however, will probably affect Hawaii very little, as prior to the next grindings the beet output will have been disposed of and the demand as keen as ever for the cane product. It is a notable fact that winter futures are still quoted very high.

Hawaiian Commercial was another stock to feel the effect of the return of confidence. At the close yesterday \$37.875 was bid for this stock and \$38.25 asked. This morning a sale of ten shares was made at \$38, after which \$38.25 was asked. Hawaiian Commercial on the street is from a quarter to a half higher than yesterday.

Honokaa also pulled up slightly. Between boards 10 shares sold at \$13.50 and on the board this morning 5 shares went at \$14. At the close \$13.875 was bid and \$14.50 asked. As the closing figures yesterday were \$13.25 bid and \$23.625 asked it will be seen that the advance was considerable.

Wai'alae also appeared stronger, although there were no sales. On board this morning \$116 was bid for the stock, but none came out.

Olaa and McBryde were both a shade stronger than yesterday, although there were no sales of either.

Do You Want

Long, Heavy Hair?

Then treat your hair well. See that it is properly fed. Growth of every kind demands proper food. Starved hair splits at the ends, turns prematurely gray, keeps short and dry. Then feed your hair. Feed it with proper food, a regular hair-food. Feed it with Ayer's Hair Vigor. Thus help nature all you possibly can toward giving you rich, heavy, luxuriant hair. Ask your doctor about your hair and about Ayer's Hair Vigor. Follow his advice.

Ayer's Hair Vigor DOES NOT COLOR THE HAIR

SPORTS BOYS DO WELL IN IMPROMPTU RACE

Yesterday afternoon an impromptu rowing race was held from the Biscuit Buoy to the Dolphin between four crews, viz. Myrtle freshmen in the All Rogers, Myrtle youngsters in the Myrtle, Healan crew in heavy barge and Healan youngsters in the Healan. The start was not a particularly good one but the two Myrtle boats got away well and the youngsters in the Healan were soon close on them. A splendid race ensued between these two boats, with the heavy barge trailing behind. The Myrtle freshmen won, with the Healan and All Rogers close behind. The result of this race strengthens the impression that the match event between the junior crews will be of more than usual interest. On yesterday's rowing the boys from the Healan Club must be given a chance, especially as they are to be permitted to use the Healan, instead of the heavy barge. This will bring the boats of the two clubs more into line and little if any excuse can be made on the score of boats if the Healan is beaten.

The picked shell crew now practicing at the Healan Club is doing excellent work and expects soon to have a match arranged with the Myrtles. The other shell crews will be in harness by Monday next and between the three some close events ought to take place. The picked crew should beat the others easily, but between the other crews there is little to choose.

JOHNSON AND LANGFORD TALK

Jack Johnson and Eam Langford met at the Amory Athletic Association Hall in Boston on September 20, when Langford demanded a match with the heavyweight champion. A battle of words ensued but in the end both men and their managers agreed to meet on the 21st and post a forfeit of \$20,000 for a fight for the heavyweight title. The cable being silent on this point it may be taken for granted that the usual lute has occurred. Johnson is holding the title with both hands and is looking for far more advertising before he enters the ring again.

BASEBALL CHIPS

"Mysterious" Mitchell, the San Francisco pitcher, who is alleged to be Fred Walker, formerly of the University of Chicago, still retains more than an ordinary share of the limelight. At a recent match in Frisco he gained the sympathy of the crowd when he was taken out of the box, and later he had to manager and players guessing as to his whereabouts as he was not on hand in time for another game. He explained he was too busy writing another new song (?) to turn out. Such an autocrat has seldom been seen on a baseball diamond, and the manner in which he runs the team has the fans perplexed.

As to his position should he be proved to be Fred Walker, it would seem, according to a despatch from New York, under date September 21, that he has nothing to fear on that score. Manager McGraw of the Giants is quoted as declaring that Walker was given his release before leaving New York, and this makes him eligible to play in the Pacific Coast league. If correct, the San Francisco team will retain the five games won by Mitchell's pitching.

News has been received in New York of the death in Ireland of Colonel M. Emmett Urell, a famous baseball player of the sixties. He was

one of the leaders of the game in the old historic White Lot, Washington, D. C., when the Nationals of that city were regarded as one of the strongest teams in the country. Urell played second base on the old Union team in 1867, acting as captain. Later he joined the Nationals. He was afterwards a member of the Olympics of Washington, of which Nick Young was the head. In those days, Mike Urell, with his flowing whiskers, facing the pitcher of the Nationals, who also wore a full beard, presented a picture that attracted attention. Urell continued his interest in the game throughout his entire life and always argued that the game was just as good, and strong in the old days when "first bounce was out" as it is at present.

BREAKS RECORDS FOR TROTTING

Brilliant trotting was witnessed at Columbus on September when the Hoster-Columbus and Columbus stakes of \$10,000 and \$3,000 value, respectively, were captured by Joan and Startle. Joan, a Cleveland mare, is four years old. When she won the first heat in the Hoster-Columbus in 2:00 1-4 and came right back in the same time, she put up a world record for trotters of her age and sex. In the first heat she showed the entire way to Dudie Archdale and survived a whipping, thrilling finish. Startle took a full second off his record when he won the Columbus stake away from Justo. He was not bothered in either heat by Hallworthy, which made some costly breaks in both heats, the first just after the start and the second when up with the leaders and rounding the last turn. Steadiness was a Hallworthy asset in the third mile and he finished ahead of Startle.

The following notice to marines has been issued by Lt.-Comd. V. S. Houston, Inspector of 19th Light-house district: Hawaiian Islands—Reef Buoy, a red 1st-class nun, substituted September 26 for the former 1st-class can.

Fine Job Printing, Star Office.

FATHER OF INSURGENCY "WON BY 40,000, -20,000 AHEAD OF TICKET

MILWAUKEE, Wis., Sept. 7.—Returns indicate United States Senator La Follette's plurality for renomination at 40,000 votes over his opponent, Samuel A. Cook.

La Follette ran at least 20,000 votes ahead of the State ticket, which is accounted for by reason of the fact that there were several candidates for the gubernatorial nomination. The pluralities of McGovern and the other members of the La Follette State ticket with the exception of Tucker, deceased, are estimated at 20,000. Tucker's plurality, presumably because of his death, was cut to 10,000.

La Follette doubtless will have control of the platform convention at Madison, and will have the next Legislature back of him. So big was his vote that it carried with it a large majority of the legislative nominees.

The "insurgent" Congressmen were renominated and added to their strength by the nomination of Henry C. Cochems, the former Wisconsin University football star. Cochems defeated Stafford for renomination in the Fifth district. Cochems is the man who placed La Follette in nomination for President at the last Republican national convention.

NEW YORK'S BIG GROWTH

Table with columns: Year, Population, Gain, and Pct. of gain. Data points for years 1790 to 1910.

WASHINGTON, September 6.—Two Bostons have been added to New York in the last 10 years. Figures given out by Director of the Census Durand show Greater New York has a population of 3,766,883, under the thirteenth decennial census. This makes New York the second largest city in the world, and as large as any two foreign cities, excepting London.

Since 1900 the population of the metropolis has increased by 1,329,681, or 38.7 per cent, as compared with 3,437,202 under the last census.

The borough of Bronx showed the greatest increase in the greater city, Queens, Brooklyn, Richmond and Manhattan following next in order. The figures for these boroughs together with the increases are as follows:

Table with columns: Borough, Population, Increase, and Pct. Data for Bronx, Queens, Brooklyn, Richmond, and Manhattan.

New York city contains only 164,649 fewer people than the combined 15 cities of more than 200,000, the population of which already has been announced, namely: Pittsburg, Newark, Milwaukee, St. Louis, Detroit, Buffalo, Cincinnati, Washington, Indianapolis, Jersey City, Kansas City, Providence, St. Paul and Denver. The aggregate population of the cities named is given as 4,931,532.

The city of New York as constituted, prior to the act of consolidation effective January 1, 1898, had a population in 1890 of 1,515,301, as compared with 3,437,202 in 1900, showing an apparent increase of 1,921,901, or 126.5 per cent for the greater city. It is expected that the census figures for Philadelphia, the third largest city in the country, probably will be announced about the middle of this month.

Latest available estimates of population for the other leading cities of the world are as follows: London 7,637,196

Table with columns: City and Year, and Population. Data for Paris (1901), Tokio (1908), Berlin (1906), Chicago (1909), St. Petersburg (1905), Vienna (1901), Canton (estimated), Peking (estimated), Moscow (1907), Philadelphia (1900), and Constantinople (estimated).

WAS AN ERROR AS TO MARINES

The substitution of the term "Marines" for "Marine Hospital Corps," made The Star yesterday state that the board of registration had decided to allow the U. S. Marines now here to register. This ruling made was in favor of the men of the U. S. Marine Hospital Corps, and does not affect the Marines, who cannot register, as they are here by reason of connection with the naval service, and are therefore ineligible to vote, under the Organic Act.

ENGLISH VIEWS OF ROOSEVELT

JOURNALS SAY HE IS POLITICAL MOSES TO LEAD FROM TRUST WILDERNESS.

LONDON, September 14.—British newspapers are giving much more space to Theodore Roosevelt than to all the other American politicians combined, not excepting President Taft. The liberal press calls the former president the Moses who is to lead the United States out of the trust wilderness. Full reports were published of his western tour and of his refusal to sit at the same table with Senator Leffler. The comment on this incident is that it is high time that decent American public men were beginning to select their company.

Republicans defeat in Maine, like other exhibitions of insurgent vitality, is attributed wholly to the influence of Mr. Roosevelt. The free-trade papers are inexpressibly delighted.

Says Masses Are in Revolt.

The Daily Chronicle says this morning: "Throughout the world the masses are in revolt against the policy of protection and the movement is particularly pronounced in the United States. The republican party has dishonored itself by its subservience to the trusts, whose merciless exactions at last have provoked the resentment of a long-suffering people. Mr. Roosevelt is heart and soul in sympathy with the republican rebellion. If the Augean stables can be cleansed Mr. Roosevelt is the man to do it. Whether the republicans or the democrats win in the next national election, we may expect to witness a staggering blow at high protection and at the power of the bosses that has befouled the republican cause.

Draws Lesson for England.

"With this spectacle before their eyes our tariff reformers must be mad if they think that this country will ever turn its back on the principles that have unshackled its commerce, untaxed its food and made it the greatest market for merchandise in the world."

The conservative press is unable to conceal its admiration for the moral vigor and practical ability of Mr. Roosevelt, though it is somewhat embarrassed in its efforts properly to extol these without prejudicing the tariff campaign at home. The liberals intend to make generous use of Mr. Roosevelt's speeches in the forthcoming storm of political disputation.

PEARLS GROW ON COCONUTS

WASHINGTON, D. C., September 14.—Pearls are growing on coconut trees in the Malay peninsula and the novel discovery has been made the subject of a special report from Consul General Dubois to the department of commerce and labor.

The pearls are said to be not unlike those of the oyster, containing calcium carbonate and a little organic matter. Certain accretions form just beneath the stem of the coconut shell and the result is a pure white pearl which brings a high price. The pearl is supposed by the Malays to possess a charm.

THE WEEK END TRIP.

One of those two day ten dollar trips to Haleiwa is tempting enough to take a crowd that direction every week. For a small cost the passengers are given one of the grandest outings that can be offered on this island. There is a drive through the sugar plantations dinner at the hotel, and a mighty good dinner it is, a start next morning for the pineapple country and a drive for miles through the refection of Oahu not always visited by tourists. Train is taken at Wahiawa on the return to Honolulu and passengers arrive back at King Street station at half past five in the afternoon.

PERFECTING LAND RECORDS

THE BOARD ADOPTS PLANS TO CERTIFY AND SIMPLIFY THE PUBLIC RECORDS.

The Commissioner for Public Lands at yesterday's meeting of the Board stated that in making out patents for sales of lands, he would suggest that on the patent issued a certification be placed by the President or the Secretary of the Board. The reason why he asked that this be done was that in the old patents they had to search back to the various records of the Privy Council, and there was great difficulty involved in the matter. The certification, he thought, would materially assist future searches of records.

Mr. Trent considered that it was an excellent idea, and thought that the date of the meeting should be added as well.

The Commissioners thought further that there should be filed in the Land Office a certified copy of the minutes of each meeting. If anything should happen to the minutes kept by the Secretary, there would be no record.

On the motion of Messrs. Thent and Andrade it was resolved: "That the Secretary be authorized and instructed to furnish to the Commissioner of Public Lands certified copies from time to time of all minutes of the proceedings of this Board."

HOW TO CURE A COLD.

Be as careful as you can, you will occasionally take cold, and when you do, get a medicine of known reliability, one that has an established reputation and that is certain to effect a quick cure. Such a medicine is Chamberlain's Cough Remedy. It has gained a world wide reputation by its remarkable cures of this most common ailment, and can always be depended upon. For sale by all druggists. Benson, Smith & Co., agents for Hawaii.

REMOVED BY MAYOR.

SEATTLE, September 30.—Chief of Police Wapenstein has been removed from office by Acting-Mayor Wardall as the result of the charges laid against him.

Heart and Home Talks
by Barbara Boyd

THE OVER-RELIGIOUS WOMAN.

It would seem as if it were impossible to be too religious. Perhaps that is not a well-chosen term. But one is constantly meeting women who are so devoted to what they term their religious duties that their plain, everyday duties are forgotten. If they were the only sufferers, perhaps, it would be nobody's business but their own. But as their neglect usually works harm to others, it behooves a woman, when she finds herself starting with ardent zeal into some benevolent or religious work, to look carefully and honestly just where it is leading her, whether her desire is founded upon a genuine wish to do good, or whether it is merely a matter of self-gratification or of pampering to vanity.

An elderly woman, a member of a large church, fell ill, whereupon a friend, also a member of the church, announced that she felt the Lord had commanded her to go nurse the sick woman, and so she did, somewhat to the dismay of the sick woman's family and to the utter neglect of her own. The woman who was ill had sons and daughters quite able to care for her, but the over-zealous friend established herself by the bedside and maintained her place there for months, upheld by the feeling that she was doing her duty. Her home was neglected, her husband and son left to forage for themselves. Invitations to meals were of course showered upon them by sympathetic friends, and it is little wonder that the husband in time came to find solace for his loneliness in the society of other women. Yet it would have been difficult to make the woman believe she was doing anything wrong.

Another woman was asked to escort an old lady who had just lost her husband and son by typhoid fever to a resort where it was hoped she would find rest and recuperation. It was necessary to make the trip on Sunday, but the woman asked refused to go because she must attend

church. And so, perforce, the old lady had to take the journey alone.

The woman who is about the Lord's business while her children are at the neighbor's getting something to eat, has not only been immortalized by Dickens, but she is all about us today as numerous as she was in the great humbug's time.

It isn't that religious work is to be condemned. The world is in need of all that women can do to brighten and better it. But a woman should look clearly at the question of duty to see whether it is near at hand or far away. It may not be so alluring to stay at home, cook meals and wash dishes, as to go nurse a sick friend, and win, as she thinks, admiring comments for her devotion. But it may be more necessary. It may seem nobler and finer to distribute tracts than to feed hungry children, but it is doubtful if the world is as well off for it in the end.

If the over-zealous woman would be honest with herself, she would discover that doing these things is often merely a matter of feeding her vanity, or of doing the easiest and pleasantest work. At rock bottom she isn't caring which will do the world the most real good; she is simply gratifying herself. It behooves a woman, when she plunges enthusiastically into benevolent work, to honestly examine her motives, and to look clearly whether she is traveling, whether she is headed for the alluring goal of self-gratification or to simpler, plainer one of humble duty.

NEGLIGENCE OF POLICE OFFICIALS

The business of the Police Court was held up for some little time this morning by the neglect of a police official to duly serve subpoenas upon three witnesses required in an alleged assault case. The omission was not noticed until Attorney A. M. Brown, who was conducting the prosecution, wanted the witnesses to take the stand. The names were on warrant, but no report was made as to service or non-service.

Attorney Brown remarked that Police Officer Spillner, of Waipahu, had served the warrant upon the defendant and Judge Andrade then issued instructions that Spillner be ordered to appear before the Court in the morning and that the three witnesses be also secured.

Attorney Lorain Andrews, appearing for the prosecution, offered to admit the evidence of the missing witnesses, to help the case on.

Judge Andrade declined to accept this way out, declaring that such a course would not relieve the wit-

See that you get your green stamps when you are buying at the stores. And call at the show rooms, and see the many valuable articles you get for them.

The American-Hawaiian steamer Arizona arrived in port this morning from Seattle, one day ahead of schedule time. She brought a cargo of miscellaneous goods, including flour and steel pipes. No passengers were carried.

The Mutual Telephone Co. requests that everyone having trouble with a telephone whether their own or someone else's, report promptly to "O."

The Home Rulers had their Aala park rally last night, and audience of several hundred gathered to hear the speakers. With the exception of remarks on immigration by Kalauokalani the addresses all dealt with candidates for office. Mayor Fern came in for some roasts, and the Republican county candidates were generally praised. Among the speakers were Charles K. Nodley, D. Kalauokalani, Sr., William Mosaman, Jr., Keakalahoua and Oily Bill White.

The Mutual Telephone Co. requests that all subscribers carefully examine the Temporary Directory, and report, in writing, to the office on Adams Lane, any errors in names or addresses.

nesses or the police officer of responsibility.

Attorney Brown—"I do not think the police officer took the trouble to serve the warrant; they never look at the foot of it to see if there is anything there."

Judge Andrade directed that Spillner be sent for, and upon Attorney Brown remarking that Spillner was within the precincts of the court that morning, the judge added—"Despatch two or three officers into the street to find him, I will not proceed a minute longer without him."

After a short delay Spillner appeared in court, together with the three witnesses. Calling the police officer to the front, Judge Andrade asked if the witnesses had been served under the warrant.

Witness replied they had not been served.

Judge Andrade—"This is a mandate of the Court. What are you going to do about it?"

Witness did not reply.

Attorney Brown—"I understand that the fault lies more with the Deputy Sheriff of Ewa, Spillner was told to serve the defendant and he then returned the warrant to the deputy with the statement that the witnesses were in Honolulu."

Judge Andrade—"It was the duty of the Deputy Sheriff of Ewa to see that the witnesses were served. There is no greater contempt of court than failure to carry out the mandates of the court. If this is to continue we may just as well shut up the court, I will take up the matter with the Deputy Sheriff."

COL. ROOSEVELT ON SOCIALISM

The following is a part of Roosevelt's article on Socialism, which caused Mayor Seidel, of Milwaukee, a so-

cialist, to refuse to accept a reception to Roosevelt in Milwaukee.

"The increasing and absolute of the doctrine of socialism as propounded by these advanced advocates are quite as great as those, if such there be, of an unlimited individualism. As an academic matter there is more need of refutation of the creed of absolute socialism than of the creed of absolute individualism; for it happens that at the present time a greater number of visionaries, both sinister and merely dreamy, believe in the former than in the latter. One difficulty in arguing with professed Socialists of the extreme, or indeed of the opportunist type, however, is that those of them who are almost invariably richly suffer from great looseness of thought; for if they do not keep their faith unshaken it would at once become abhorrent in the eye of lay upright and sensible man.

Hostile Even to Morality.

"The doctrinaire socialists, the extremists, the men who represent the doctrine in its most advanced form, are and must necessarily be not only convinced opponents of private property, but also bitterly hostile to religion and morality; in short, they must be opposed to all those principles through which, and through which alone, even an imperfect civilization can be built up by slow advances through the ages.

"Indeed, these thorough-going Socialists occupy in relation to all morality, and especially to domestic morality, a position so revolting—and I choose my words carefully—that it is difficult even to discuss it in a reputable paper. In America the leaders even of this type have usually been cautious about stating frankly that they proposed to substitute free love for married and family life as we have it, although many of them do in a roundabout way uphold this position. In places on the continent of Europe, however, they are more straightforward, their attitude being that of the extreme French Socialist writer, M. Gabriel Deville, who announces that the Socialists intend to do away with both prostitution and marriage, which he regards as equally wicked—his way of doing away with prostitution being to make unchastity universal. * * *

"These same socialist leaders, with a curious effrontery, at times deny that the exponents of 'scientific socialism' assume a position as regards industry, which in a condensed form may be stated as, that each man is to do what work he can, or in other words chooses, and in return is to take out from the common fund whatever he needs; or, what amounts to the same thing, that each man shall have equal remuneration with every other man, no matter what work is done. If they will turn to a little book recently written in England, called 'A Case Against Socialism,' they will find by looking at, say, pages 229 and 300, or indeed almost at random through the book, quotations from recognized socialist leaders taking exactly this position; indeed, it is the position generally taken—though it is often opposed or qualified, for socialist leaders usually think confusedly and often occupy inconsistent positions. * * *

Exchange of Wealth.

"In our own country in 'Socialism Made Plain,' a book officially circulated by the Milwaukee division of the Socialist party, the statement is explicit: 'Under the labor time check medium of exchange proposed by the Socialists any laborer could exchange the wealth he produced in any given number of hours for the wealth produced by any other laborer in the same number of hours.' It is unnecessary to point out that the pleasing idea of these writers could be realized only if the State undertook the duty of taskmaster, for otherwise it is not conceivable that anybody whose work would be worth anything would work at all under such conditions. Under this type of socialism, therefore, or communism, the government would have to be the most drastic possible despotism, a despotism so drastic that its realization would only be an ideal.

"Of course, in practice such a system would not work at all, and incidentally the mere attempt to realize it would necessarily be accomplished by a corruption so gross that the blackest spot of corruption in any existing form of city government would seem bright by comparison.

"In other words, on the social and domestic side, doctrinaire socialism would replace the family and home life by a glorified State free-lunch counter and State founding asylum, deliberately enthroning self-indulgence, as the ideal, with, on its darker side, the absolute abandonment of all morality as between man woman, while in place of what Socialists are pleased to call 'wage slavery' there would be created a system which would necessitate either the prompt dying out of the community through sheer starvation, or an iron despotism over all workers, compared to which any slave system of the past would seem beneficent, because less utterly hopeless. * * *

"So much for the academic side of unadulterated, or, as a advocates style it, 'advanced scientific' socialism.

Its representatives in this country, who have practically refused to get up to their extreme doctrines, and have achieved leadership in any one of the branches of the Socialist party, deserve scant consideration at the hands of respectable, clean-living men and women.

BASEBALL ROW AT WAIPAHU

The baseball game between the Ewa team and the Aiea team at Waipahu last Sunday ended in a scrum, in which the opposing teams were in no way concerned, but which arose out of the game. A band of rooters from Honolulu arrived to see the match and roared for the Ewa team. They seem to have conducted themselves in a somewhat unruly manner, and after the game took sides with the umpire, whose decisions were adversely criticised by another group of spectators. Then trouble began. It is alleged by one side that the other gang hurled foul epithets at them, and counter charges to the same effect were made by the other side. One thing is certain, and that is that Ed. Simao, one of the visitors from Honolulu, was struck on the upper lip by Charles Spillner, and the circumstance leading up to the striking were the subject matter of an enquiry before Judge Frank Andrade at the police court this morning. Attorney A. M. Brown conducted the prosecution and Attorney Lorain Andrews appeared for the defense.

Witnesses for the prosecution accused the Waipahu boys of calling them "Honolulu loafers" and Honolulu hoodlums," among other names, and to these remarks the Honoluluans rejoined that they "were not loafers, neither did they work for \$1 per month." The actual hitting took place after the game, when the Honoluluans, posing as injured innocents, were leaving the grounds. From one of the Honolulu group the Waipahu boys were invited to perform a particularly disagreeable act, and this is said to have incited Spillner to run behind Simao and to strike him in the mouth. When the blow was struck, Spillner's father, who is a police officer, stepped between the contestants and prevented further bloodshed, Spillner meanwhile backing away and warning Simao to keep off or he would get more.

The Honoluluans declared that they did not go down to the game to start a rough house; in fact, when it was seen that trouble was brewing, one of them remarked to his mates—"Let's beat it before there's trouble." But they delayed too long. The umpire was Johnny Williams. He had refereed the game the best he knew how, but he was accused of cheating and "his boys," as he termed the Honoluluans, stood by him in the argument which ensued. After the blow, which Williams stigmatized as cowardly, witness told Spillner to paint his face the next time he came to town, insinuating that failure to do so would lead to another conflict.

As to the language used there was some divergence. Police Officer Spillner, father of the accused, said the Honoluluans were noisy and used bad language, but when Attorney Brown asked him to specify the words, Spillner, senior, was in a quandary. He said the Honoluluans called the players "sauerkraut," and "cheese" and told one player that he couldn't see with his eyes, while another player was told to go to h—l, as he was a fat Kanaka.

Attorney Brown—"Tell us some particularly bad ones. You haven't said much yet. Don't be afraid to swear in this Court." (Laughter.)

But witness could not think of any other expressions which were made use of.

Attorney Brown—"Then it was only regular baseball talk."

Attorney Andrews—"No! No! I am a baseballer, but I don't use expressions like that."

Attorney Brown—"Yes, I have heard counsel use even worse expressions than those."

Attorney Andrews—"No! No! Don't abuse me."

Defendant said the Honoluluans went down with the umpire and endeavored to place bets on the game, and this point was taken up by Attorney Brown in his address to the Court. "These boys," he said, "accompanied the umpire down to the game and then tried to bet on one game, if they had succeeded the umpire would have been tipped and the team would have won."

Attorney Brown—"Are you speaking from experience?"

Attorney Andrews—"It has often been done. It is that sort of thing that kills baseball."

Judge Andrade will hand down his decision on Tuesday next.

Hawaiian Lodge will hold a special meeting this evening at 7:30 o'clock for work in third degree.
