## KAUAI TEACHING STAFF FOR 1918

Below is published the list of teachers for Kauai for next year as appointed by the Commissioners in Honolulu week before last. Superintendent Kinney has the following to say in regard to the appointments:

"These appointments were made subject to the condition that all are tentative and no contracts are to be issued until after the final grade examinations are over, when contracts shall be issued as soon as possible, except in cases where marked inadequacy of the examination results or violation of the regulations make it appear best to withhold action until the next meeting of the Commissioners; also excepting all cases where teachers are to attend Summer School or take examinations. No teacher who has been instructed by the Board of Examiners to take the teachers' examinations and who fails to try to do so, shall be reappointed.

The list of appointments includes a number which are tentative for various reasons, among them being the fact that all the Counties have not as yet indicated where they will be able to erect new buildings. For this reason, it is possible that some teachers who have been assigned to places, with the expectation that new buildings are to be provided there, may be transferred to other schools in case the Counties fail to provide the rooms expected.

You will note that there are still some vacancies. Some of these have practically been filled, but the appointments cannot be announced for one reason or another."

### Island of Kauai

#### KAUAI HIGH

William C. Avery  
Miss Dorothy B. Stendel  
Miss Gertrude Johnson  
Miss Jeannette Searight (Private).

#### HAENA

Mrs. E. M. Booco.

## An Amateur Convention

A sort of Junior Convention of the Filipino ministry on the Island was held the other day at the Y. M. C. A. rooms in the Tip Top Building, conferring with Mr. Loomis and Mr. Lydgate in regard to summer work among the Filipinos of the Island.

Five ministers and licentiates were present, representing the various Filipino communities all the way from Makaweli to Kilauea.

Plans are laid for an evangelistic campaign of the Island, with musical and pictorial attractions that will surely draw among the Filipinos. For initiative, intelligence and earnestness they certainly made a good showing.

## Holy Ghost Feast

Holy Ghost Feast will be held at the Kalaeo Homestead Catholic church, Saturday and Sunday, June 23rd. and 24th.—Adv.

Miss Marjorie Wood spent the weekend with Mesdames Bridgewater and Mesick at Hanamaulu.

## Mokihana Annual Meeting

The annual meeting of this popular society for the season was held Wednesday June 13 with Mrs. J. L. Robertson as leader and Mrs. Isenberg and Mrs. Deinert as hostesses.

An enjoyable program was given as follows:

A lecture on Instrumental Music, the last of the series, by Mrs. Lindemann. Piano duet, "Mendelssohn's Scotch Symphony," by Mrs. Lindemann and Mrs. Rohrig. Vocal solo:—"Only a Year Ago," followed by an encore number, "It was the Time of Lilacs" by Mrs. W. H. Grote.

The following officers were elected for the new year:—  
Mrs. J. L. Robertson, Pres. Miss McIntyre, Vice Pres. Mrs. Crawford, Sec. Mrs. Swan Treas.

The plan for next year contemplates a study of Home Economics with five lectures along the lines of Domestic Science, to be provided for by the College of Hawaii. The four other meetings of a season will be devoted to Music, along the lines so successfully followed this year.

The first meeting of next year will be in October.

## Messages From the Sea

Two bottles were cast upon the beach last week at Wailua and were picked up by John Pia a road luna. In one bottle was a gent visiting card belonging to one William R. Gawpe. On the reverse side of the card appears the following: "14-4-14, R. M. S. Tahiti, 600 miles from San Francisco, W. R. G." This bottle has been three years in reaching Kauai.

The other bottle contained a U. S. Army Field Message blank on which the following was written: "May 26, 1917. J. Landwehr, Co. I 2nd Inf. Finder please write when this is found. I am three days from Honolulu on the transport Sheridan leaving Frisco." The currents carried this message approximately one thousand miles in two weeks.

## A Musical

Some of the pupils of Miss Irene E. Smith's musical class gave a very enjoyable recital last Wednesday afternoon at the home of Mrs. E. A. Knudsen—Chopin and Mendelssohn as well as other well known composers were represented.

Miss Anderson rendered a vocal solo. Those taking part were Mrs. E. A. Knudsen, Mrs. R. Oliver, Mrs. W. Danford, Mrs. E. Deverill and the Misses L'Orange, Shrepfer, and Douglas.

The performance reflected great credit upon Miss Smith's excellent method of teaching. Delicious refreshments were served by Mrs. Knudsen after the recital.

## A Farewell

The Misses Moore and Bettencourt were given a farewell picnic at the picnic grounds-by-the-sea, Hanamaulu, by Mr. and Mrs. A. Nobriga, last Sunday. At about nine o'clock the guests motored to the grounds, and, it being rather warm, old Neptune claimed them for the morning. Games were also indulged in, and they all sat down to a very delightful luncheon prepared by the hostess. When evening drew on, all wended their way homeward, all having spent a most delightful day.

## Au Revoir Teachers

There will be a large exodus of teachers during the next week or so, some to their homes on the Mainland, not to return, and some to spend the vacation elsewhere.

Those who are leaving for good we are sorry to lose; those who return next year we will welcome with pleasure; and our best wishes go with all for pleasant and invigorating vacation.

Fairview Hotel has blossomed out with a fine, big sign arched over the main entrance to the grounds.

## Meeting of the Kauai Chamber of Commerce

The regular June meeting of the Kauai Chamber of Commerce will be held in the district court room at Waimea on Tuesday, the 21st. at 3:30 p. m.

Matters of great importance will be brought before the chamber at this meeting—among them, the coming Civic Convention to be held in Honolulu, also the matter of taking some action in regard to Nawiliwili Breakwater.

## Home-Coming Children

A goodly troop of school children returned last week from Kamehameha and Mills schools, and another band will be home this week from Punahou and the Honolulu Military school.

The popular enthusiasm for field and garden farming has more or less reached these young people, and many of them are finding work in the fields and gardens on plantations or about their own homes. Even though their labor shall not prove to be very valuable intrinsically, it will at any rate be a valuable experience for the boys themselves.

## Stamp Duties Pau

Public attention is called to an important Bill passed at the last session of Legislature repealing the statutes which in days gone by have imposed stamp duties on business documents such as deeds, leases, mortgages, bonds, etc.

This is an important and rather surprising new departure. In these days of increasing taxes in all directions, it is refreshing to learn of any reduction, and we fail to understand how the Territory made any such slip.

## Snow White

Marguerite Clark in "Snow White and the Seven Dwarfs" is a picture everyone should see. It is one of the very few pictures that appeal to old and young alike. Mr. Fernandez has gone to great expense to bring this film to Kauai and it is hoped that the public will show their appreciation by packing the house wherever the picture is shown.

## Boys Want Banana Shots

If you have any banana shoots to spare let the Y. M. C. A. know where they are and some school boy who has entered the fruit growing contest will call to get them. The second lot of papayas has been put out and in a few weeks there will be two thousand plants ready for distribution.

## High School Sale

Next Wednesday and Thursday afternoons the pupils of Kauai High and Grammar School will hold a sale of hand work. Among the articles to be sold will be Desk Sets, Indian Baskets, Kodak Books, Portfolios, and a number of other articles both useful and ornamental. A cordial invitation is extended to all.

## Closing Exercises

The closing exercises of the Kauai High School will be held at this school on Friday morning at 9:30. The exercises will be very simple, consisting of drilling by the boys and folk dancing by the girls. All friends of the school are cordially invited to be present.

There will be a sale of the articles which have been made in the manual arts classes, consisting of desk sets, writing pads, etc.

Mr. and Mrs. E. S. Swan, of Grove Farm, Lihue, departed last Saturday for a short visit with friends in Honolulu.

## Kaahumanu Red Letter Day

There were great doings last Friday at the Lihue Hawaiian church, on which occasion Miss Peabody, president of the Parent Kaahumanu Society in Honolulu, with the assistance of delegates from the other sister societies in Hilo and Kona, installed the officers of the local, Kauai Society. These officers were as follows: Mrs. H. K. Kahale, president; Mrs. A. S. Wilcox, honorary president; Mrs. Chris Holt, secretary; Mrs. Dias, treasury; Mrs. Wm. Ellis, auditor.

Following the installation exercises Miss Peabody gave the new society a kindly message of greeting, emphasizing the worthy aims of the society along the lines of unity, harmony, and charity, and commending to their favor the motto of the society, "Hele imua me ke kaulike,"—forward with justice.

A generous "paina" followed the meeting, which, as always found an enthusiastic response on the part of all present.

Later in the day the distinguished visitors were personally conducted to the Kukuiohono park, as the guests of Mrs. A. S. Wilcox; Saturday they spent in Waimea in the interests of the society. And Monday they went to Hanalei and spent the night there at the A. S. Wilcox home.

They returned to Honolulu by the Mauna Loa.

## Mokihana Picnic

The Mokihana Society gave a picnic at Kalapaki last Saturday, in which all the elements of success were combined to make it a most delightful affair. Some of those who came early, especially children, enjoyed a bath before lunch, and they, more even than the rest, were ready for the generous lunch, that combined the various specialties and delicacies of each lady,—and some men, as witness the sheriffs cocoanut candy.

Later there were children's games with prizes, so universal that there were scarcely children enough to go round.

Kalapaki is an ideal place for such an affair; the weather was fine; the guests congenial; fine all round.

## Historic Wedding Bell

Judge Dickey returned about a week ago from his trip to the Coast, whither he went to participate in the Golden Wedding celebration of his parents in Oakland.

He comments with enthusiasm on the profusion of flowers with which that event was celebrated and mentions in particular the wedding bell, the woven-wire basis of which was used years ago for the golden wedding of his grandparents, Father and Mother Alexander on Maui, and then later for the similar occasion of his uncle and aunt, Dr. and Mrs. W. D. Alexander.

Doubtless the Judge has his eye on that same bell for his own golden wedding, by and by, in which case he will have to be making a move pretty soon.

## Tennis

An inter-club mixed doubles tournament is announced by the Lihue Tennis Club. The date for the opening match has not been decided upon as yet but will probably be in the very near future. Instead of drawing for partners, as was formerly done, the contestants will choose their own partners.

A very neat and commodious little hall, with a charming location, has been built by Mr. W. D. McBryde at Kukuiohono park, which will be available for entertainment purposes in connection with the park. We understand that it has a fine floor and will be a available for select dances.

The Hanamaulu public school is to have an added bungalow and increased teachers accommodation next year, the assurance of which is given in building operations already begun. This is a commendable taking of time by the forelock, instead of stringing along into the school term next Fall.

## Local and Personal Notes

Mrs. G. Gonser returned last Friday after spending several weeks with friends in Honolulu.

Mrs. E. W. Broadbent goes to town tonight to attend the graduating exercises of her son Frank, at Punahou.

Nawiliwili Garage is making additional office and store room space by building on the side next to their present office.

Mr. and Mrs. E. A. Creevey will leave for the East immediately at the close of school to visit friends and relatives at their old homes.

Public attention is called to the "By Authority" notices in this issue, the one from the County Treasurer and the other from the County Tax Assessor.

Mrs. R. D. Moler, went to town last Saturday by the Kinau to be present at the graduation exercises of her son Niell who graduates from the Punahou preparatory.

Miss Searight cordially invites the friends of the children who are in her dancing class, to a simple closing exhibition at the Hall, Friday evening, 8 p. m.

Mr. Geo. Rodiek, manager of H. Hackfeld & Co., and J. F. Humburg, San Francisco agent for the same company, were arrivals on Kauai last Wednesday morning.

Grove Farm Plantation is building a neat set of laborers' cottages on their land just mauka of the A. S. Wilcox home. The Halehaka camp is to be moved into these new quarters.

Some very fine gold lettering and sign writing is being done at the Tip Top Building by Marcelle. He is also lettering the doors to the different departments at the county building.

A local branch of the Kaahumanu Society was organized in Waimea on Saturday with Miss Peabody and visiting delegates as promoters and founders. There is surely a Kaahumanu revival going on!

The reason has just been explained why "Bill" Grote has been carrying his head so high lately. The business office of Lihue Store has just been equipped with new steel office of fixtures.

We beg to apologize to the prize winners in the composition contest for delay in publishing their essays. When all set up and ready for press they have been crowded over into next week by the influx of other important matter.

We venture to commend the election of Mrs. J. L. Robertson to the presidency of the Mokihana Society as a very wise one, and to predict that she will make a very efficient and progressive leader for that active and useful organization.

Final arrangements are being made by the Fiske Quartet Committee which will assure the advent of these world-famous singers to the Island. The proposition is to keep them on Kauai for a week, and to give every considerable community on the Island a chance to hear them, practically without expense.

We notice in the Honolulu dailies the pleasantly familiar face of Frank Broadbent among the portraits of the Punahou graduating class. The graduating exercises take place on Monday next. Frank we understand has done uncommonly well. Congratulations of the Garden Island.

We understand that there are to be fifteen additional teachers required for the schools of Kauai this next year; so rapidly are the children increasing. We fancy that it will be quite a problem to find these teachers, in addition to the many vacancies which will have to be filled in the present staff.

The following item came in too late for last issue:

Mr. and Mrs. B. D. Baldwin gave a very enjoyable dinner Friday evening, the 7th, in honor of Lady Herron who is visiting Mr. and Mrs. Wm. Danford, at Mana. About thirty guests were invited and following the dinner "Bridge" was played. Ms. Rankin and Mrs. Dr. Dunn winning the first prizes and Mrs. H. Truscott the "Booby." The Kekaha band dispersed sweet music during the dinner.

## BASEBALL FOR THE 4TH OF JULY

### Big Sporting Event For Baseball Fans

An All-Star Intercollegiate Baseball Team, under the direction of William E. Miles, the manager of the St. Louis Club, will visit Kauai during the week of July 4th.

Charles R. Rice and John Fernandez are looking after the financial and athletic end of the affair and a real treat for baseball enthusiasts is guaranteed. An effort was made to get the St. Louis Championship Team to make the trip but some members of the team could not come at that time, so Manager Miles has gotten an aggregation of the best players from the Honolulu schools, which he believes will make every baseball fan stand on his toes and forget his troubles.

The team will consist of eight players, three pitchers and a coach. Most of the players will be from St. Louis College.

The players will arrive on Tuesday morning at Ahukini, according to present plans, and at 10 o'clock on Wednesday morning they will meet the P. A. C., which now holds the Island championship in baseball on the Lihue grounds.

On the same day, at 2 o'clock, the visitors will play against an All-Kauai team, which is reputed to be of major league caliber.

On Thursday afternoon, at 3:30 o'clock, the Kauai High School will meet the All-Students at Lihue.

Baseball has been neglected for sometime on this Island and it is hoped that this effort will revive the old enthusiasm for this popular sport.

The line-up of the teams will be given in a later issue of the Garden Island.

## District Nurse In Prospect

The public has learned, more or less in a general way, of the plan to establish a District Nurse in Lihue under the auspices of the Mokihana Society, and subject to the supervision of a special committee of that organization.

The mission of this nurse will be to enter as far as may be feasible into the homes of the simple people of the community, especially where there are families, and help them by timely advice and instruction in matters of sanitation, the care and feeding of small children, the treatment or simple ailments, etc.

We understand that a sufficient fund has been subscribed to guarantee the venture for a year, with the assurance that farther support will be forthcoming if the experiment proves a success.

It would surely seem as if such service, tactfully rendered could hardly fail to be most acceptable as well as most valuable, and that therefore the enterprise must be a success. It certainly deserves the hearty support of all public spirited people.

## Go to the Volcano

Recent visitors to the Volcano are enthusiastic "boosters" of the trip. The fine invigorating climate, the various items of interest outside of the crater itself, and the wonderful display of fire in Halemanu-mau, never finer than now, all more than justify the trip.

Furthermore, by taking a round trip ticket, including all expenses, very material economies may be effected over the old go-as-you-please rates. And as yet anyway there is plenty of room at the Hotel, though later in the season they are likely to be pretty well filled up. And you can do it all in a week from here if you have to; but its vastly better to stay awhile.

Now is the time to go.

Among the visiting delegates of the Kaahumanu Societies was Mrs. S. L. Dasha, the wife of the famous Orator, Editor and Politician of Hilo. Incidentally he is also a Minister of the Gospel; but that doesn't count alongside the other vocations!

TUESDAY JUNE 19

**Shall The Women of Hawaii Vote?**

Our Delegate, Kaianiana'ole, has recently introduced into the House of Representatives in Washington, a bill providing for the granting of the franchise, for both Territorial and County elections, to the women of Hawaii.

There will, no doubt, be more or less objection to this bill on the ground that women, as a rule, are not the equals in intelligence of their men folk; that they lead more secluded lives, and therefore don't know much about the affairs of the world; that they don't know anything about business, etc. etc.

Most of these objections, when hunted down to the fundamental basis of fact, will prove to have very little foundation. All this is doubtless true of some women, but on the other hand, many women are distinctly the superiors of men in intelligence; and perhaps most women are the superior of men in moral sense, and devotion to the practical interests of righteousness; and these are the things most needed in our political life.

We believe that the experience of the Country, or even of the World, has been that women, on the whole, make better voters than men, more intelligent, more responsible and more conscientious, and that in most communities the granting of the franchise to women has meant a distinct public gain.

We believe that this will be true in Hawaii, and that, though, at the start the electorate may not be ideal, it will rapidly improve under the training which such franchise will undoubtedly give. Accordingly we give All hail, to our sisters. All hail to the polling booths!

**By Way Of Example**

The wealth of flowers and tropical vegetation at Kukuiohono park is a revelation of what can be done by intelligence and skill.

A few years ago it was supposed that, as a bare and wind swept hill top, Kukuiohono was useless. Nothing would grow, especially nothing would grow without a plentiful supply of water. Yet it has been transformed into a veritable paradise of beauty.

We bow in admiration for the talismanic touch which has wrought this miracle of transformation, which is doubly valuable to us;—first as an accomplished thing of beauty, an asset, which we may enjoy every day if we will; and then more significant, we trust, as a suggestion and inspiration for what may be done along similar lines in other places. May Kukuiohono be the worthy object lesson that may lead to many similar creations.

**Unjust Discrimination**

There is considerable complaint abroad about the unjust discrimination against the men who have given themselves freely, and often at much sacrifice, to the service of their country. This unfair discrimination is evident in this, that they are restrained from buying booze openly, and to their hearts content, at least while in uniform, while their brethren in plain clothes may buy and drink themselves to perdition if they want to.

Evidently this is unfair. If booze is a bad thing for a man in uniform, why isn't it also a bad thing for a man in plain clothes.

The ordinance is a confession, of what every one knows, that liquor is incompatible with efficiency and reliability; and if this is so in the Army and Navy it is none the less so in all the walks of life.

It is a mighty good move in the right direction, but it is an unfair discrimination;—make it universal, then it will be allright.

**Snow White is Big Drawing Bill Coming to Kauai**

Marguerite Clark in "Snow White" proved a strong attraction at the Liberty theater and the big play house was packed at each performance. Marguerite Clark is one of the reasons, the rest being the excellence of the film drama, probably the greatest spectacle and most elaborate extravaganza ever sent to Honolulu without being billed as "special." There are several mammoth reels to the offering and a wealth of detail has been given the most careful attention by the famous players.

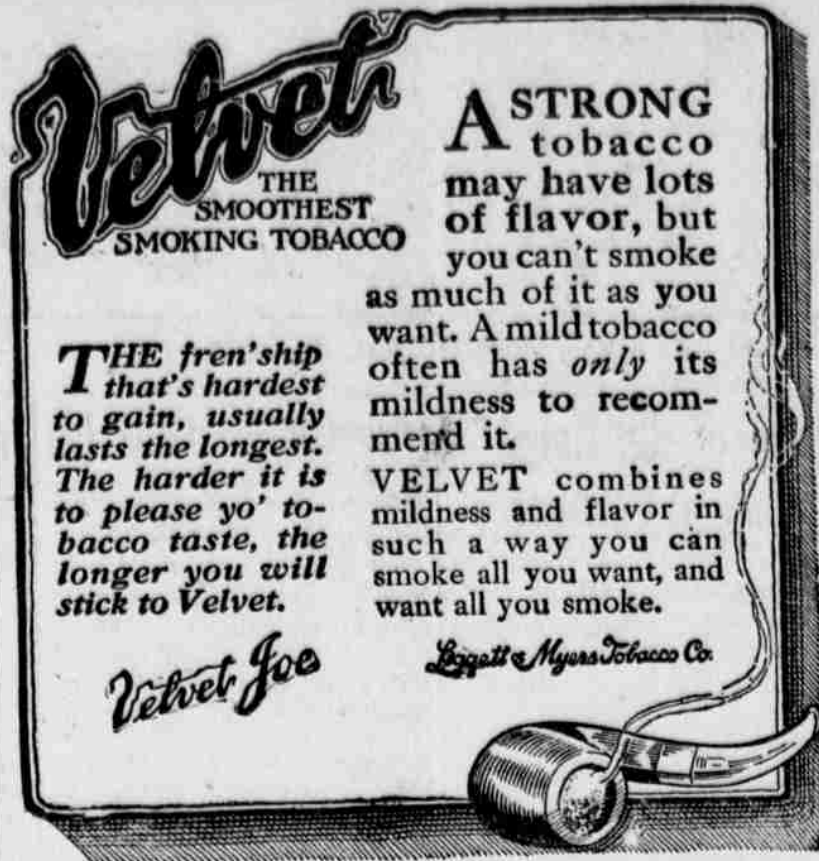

The delightful fairy tale of the beautiful young princess and the cruel treatment of her by her step-mother make excellent material for the screen and allow the imagination of the producer to run riot. Scenically, "Snow White" is a masterpiece of the camera art, while the cast that supports the diminutive star is composed of Famous Players, the seven dwarfs having been carefully selected for size and ability.

"Snow White" as a stage offering was Miss Clark's vehicle for several seasons, two consecutive being spent in New York.

"Snow White," to commence, is composed of seven large reels, a rather unusual size photodrama. As an extravaganza this old acquaintance from the book of Grimm's Fairy Tales is one of the most elaborate undertakings of the camera, and last—but far from least—the star is none other than Marguerite Clark queen of diminutive actresses and easily the leading favorite.

Everyone on Kauai, man, woman and child—especially the latter—should be permitted an opportunity of witnessing a production of this film.

Will be shown commencing at the Tip Top, Tuesday, June 26, Koloa, Wednesday; Waimea, Thursday; Elele, Friday.

## KAUAI POTATOES GO TO HONOLULU

The Garden Island has a thousand bags of Irish potatoes for the Honolulu market.

A. T. Longley, superintendent of the territorial marketing division, received this information Tuesday afternoon, and is writing for further advice concerning the quality of the spuds and when they can be shipped.

"That is the biggest lot of tubers that ever came out of Kauai, within my knowledge," Longley said. "I knew about five hundred bags were to be shipped down, but this is still better—provided they are first-class potatoes."

These may enable the marketing division to bid on a potato contract to supply the army in July. Whether this division could dispose of so large a consignment on the city market, to grocery firms and to individual consumers, is a question; but it is likely the army will take the entire amount if Longley can supply them at a figure that is low enough.

There is a fairly good-sized quantity of Island-grown Irish potatoes on the market right now, practically all those held by the territorial division being from Maui, but they do not grade as well as they did a year ago.

The fact just at present is, however, that there appears to be no shortage of Irish potatoes in Honolulu. Consumers are still urged to insist upon the Island-grown tubers when they order, and if they can't get them from the family grocer, to buy at the territorial market.—Advertiser.

### Raspberries Again

To those of our readers who didn't know that we had Raspberries in our midst we would say that this introduced berry isn't the whole of it by any means. We have indigenous Raspberries—known to the Hawaiians as the Akala,—several varieties of them, of mammoth size and great beauty.

These berries grow in large quantities at the higher elevation, especially on Hawaii and Maui, although they are found somewhat on the other islands, including Kauai. Those familiar with the Halemanu region will know them well.

They are in various colors from pale yellow to dark red or even wine color, and are so large that one is often a comfortable mouthful. They have a slight touch of bitter flavor, somewhat as our island peaches have, but are delicious with cream and sugar, and are fine stewed, or preserved.

They probably offer large possibilities for improvement by cultivation.

### THIRTY-FOUR MORE WANT KAPAA HOMESTEADS

Thirty-four applications for homestead lots in Kapaa district, Kauai, were received Tuesday up to 2:30 o'clock at the land office. This is by far the largest number of applications for the land received on any day since the opening. The total now stands at 173—Star Bulletin.

### Notice of Sale of Government Lots

At 12 o'clock noon, Saturday, July 21st, 1917, at the front door of the Court House at Kapaa, Kauai, there will be sold at Public auction, under section 380 of the Revised Laws of Hawaii of 1915, a General Lease of the following described Government land:

Government remainder at Kapaa, Kawaihau, Kauai, containing an area of 71.50 acres, more or less; upset rental, \$180. per annum, payable semi annually in advance; term of lease, 15 years from July 21st, 1917.

The purchaser to pay the cost of advertising.

For maps and further information, apply at the office of the sub-agent, Miss Bernice E. L. Hundley, Kapaa, Kauai, or at the office of the Commissioner of Public Lands, Capitol Building, Honolulu.

WALTER A. ENGLE, Acting Commissioner of Public Lands. Dated at Honolulu, June 14, 1917. June 19, 26, July 3, 10, 17.

## BY AUTHORITY Public Lands For Homesteads

### Opening of Public Lands for Homesteads on the Island of Kauai.

Notice is hereby given that the public land hereinafter described will be opened for homesteading as follows, in accordance with law and subject to withdrawal before their selection:

1. LOCATION OF LAND. The land to be opened is on the Island of Kauai, and is known as the Kapaa Homesteads, Fourth Series, in the District of Kawaihau.

2. CHARACTER OF LAND. The land in this tract is first-class agricultural land and has been under Sugar Cane Cultivation.

3. TERMS AND METHODS OF DISPOSITION. The persons entitled to take up said land will be determined by drawing or allotment.

Each person may take one or two adjoining lots. These lots may be taken only by Special Homestead Agreement, the principal terms of the same being as follows:

(a) PAYMENT. 5 per cent down, 5 per cent in one year, 10 per cent each year thereafter until the full purchase price is paid, with interest at 6 per cent per annum, but with the privilege of paying any or all installments at any time and thereby stop the corresponding interest.

(b) RESIDENCE. Five years during the first ten years in periods of not less than six months at a time; or, three years continuously; residence to begin within two years.

(c) CULTIVATION. 20, 30, 40, 50 and 60 per cent of the land, and 5, 10, 15, 20 and 25 trees per acre on the remaining 40 per cent of the land, from the end of the first, second, third, fourth and fifth years, respectively, until the homesteader becomes entitled to a patent; or, 40 per cent of the land and 25 trees per acre on the remainder for three years continuously, other conditions having been fulfilled up to time of beginning of said three years.

(d) TRANSFERS. Restrictions on selling, leasing, etc., as prescribed by law.

(e) PATENT. In from three to ten years according to the time within which the provisions as to payment, residence and cultivation are fulfilled.

Possession will be given at once or when growing crops, if any, have been harvested. Exceptions and reservations will be made for existing flumes, ditches, reservoirs, streams, wire and pipe lines, roads, trails and railroads. No lots will be sold as wet lands with appurtenant water rights, all waters are reserved for the public or common use and benefit.

4. APPLICATION FOR PARTICIPATION IN THE DRAWING. All persons qualified to take homesteads may, on or before Monday, July 2nd, 1917, but not thereafter, present to the commissioner of Public Lands, Honolulu, by ordinary mail, but not in person or by registered mail, or otherwise, sealed envelopes containing their applications for participation in the drawing herein provided for; but no envelope shall contain more than one application or any other paper than the application and no person shall present more than one application for this drawing.

All such applications must be made on blank forms furnished by the Commissioner of Public Lands or his agent, and must show the full name, mail address, age, height, weight and sex of the applicant, and whether he or she is single or married, and be sworn to by him or her before a sub-agent of public lands, notary public, judge or other officer authorized to administer oaths, and must be mailed in envelopes furnished by the Commissioner or any such agent,

All such envelopes shall have printed upon them the Commissioner's address and the words "Application, Drawing for District of \_\_\_\_\_," the blank in which quotation must be filled in with the district in which the land desired is situated; and no such envelope shall indicate the person by whom it was presented or mailed or bear any mark of identification. All envelopes must be securely sealed and should have the requisite stamps attached thereto before they are placed in the mail.

Any person who presents more than one application for this land drawing, or any application in any other than his true name, shall not be permitted to participate in such drawing.

All envelopes which indicate by whom they were presented or mailed will be opened as soon as received, and the applications therein will forthwith be returned to the applicant.

5. DRAWING AND ASSIGNMENT OF ORDER OF SELECTION. Upon receiving any such envelope properly addressed and properly indorsed as above required, the Commissioner will deposit it in a suitable container, into which will be deposited only and all such envelopes as are properly indorsed for the drawing, and such container will be so constructed and so kept as to prevent envelopes deposited therein from being removed therefrom without detection until they are publicly opened on the day when the drawing and assignment are made.

At 9 o'clock a. m., at the Capitol Building, Honolulu, on Tuesday, July 3rd, 1917, or as soon thereafter as may be, the container for such land drawing will be publicly opened and all the envelopes therein will be thoroughly mixed, and will then be taken, one at a time, impartially and indiscriminately, from such container, and the applications contained in such envelopes when correct in form and execution, will be numbered serially in the order in which they are taken, beginning with number one, and the numbers thus assigned shall determine the order in which the persons named therein may select and take lots.

A list of the applicants to whom numbers are assigned showing the number assigned to each of them, will be conspicuously posted, and furnished to the papers for publication as a matter of news, and notice of the number assigned and the time and place he must appear to make his selection will be promptly mailed to the address set forth in the application of each person to whom a number is assigned.

All applications which are not correct in form and execution will be marked "Rejected, imperfectly executed," and filed in the order in which they are rejected, and notice thereof will be sent to the persons who presented such applications.

6. SELECTION OF LOTS. Beginning at 9 o'clock a. m., on Wednesday, July 11th, 1917, at the Court House, Kapaa, Kauai.

Any persons holding numbers assigned to them for any such land drawing may make their selection of the lots that are open to selection and desired by them in the order in which their applications for participation are numbered.

If any person who has been assigned a number at the drawing fails to appear and make his selection when the number assigned to him is reached and his name is called, his right to select will be passed until the other applicants assigned have been disposed of, when his name will be called again, and if he then fails to appear and make his selection, he will be deemed to have abandoned his right to select.

7. PROOF AT TIME OF SELECTION. At the time he appears to make his selection, each applicant must be prepared to show his qualifications to take a homestead by affidavit in the form prescribed by the Commissioner, and otherwise. If any applicant is not a citizen of the United States by birth, he must present at the same time either the original or a

certified copy of his declaration of intention to become a citizen, or of the order of the court admitting him to citizenship; and if an applicant who is not born in the United States claims citizenship through his father's naturalization while he was under twenty-one years of age, he must present a certified copy of the order of the court admitting his father to citizenship.

No person who appears to be disqualified to take a homestead will be permitted to make a selection, or in case he has made a selection, to receive the necessary papers or take or retain possession of the lot selected.

8. FORMS, MAPS, INFORMATION. Blank forms of applications, addressed envelopes for applications, blank forms of affidavits of qualifications, other necessary forms and information in regard to the lands to be opened and the terms under which they may be taken, may be obtained from the Commissioner of Public Lands at Honolulu, or from the Sub-Agents, Bernice E. L. Hundley, Kapaa, Kauai, and W. D. McBryde, Homestead, Kauai.

**Food Commission Advice**

Unless home gardeners in Hawaii curb their inclination to plant perishable, quick-growing vegetables and give more of their time and ground to the staple foods they are likely to be confronted with an unpleasant situation. They are going to drive out of business the small Oriental vegetable grower, create a feeling of resentment in this class of agriculturalists, and deprive themselves of the vegetable peddler's service when normal times return.

The food commission has received word from many sources that there is a widespread tendency, on all islands, to give a part of every home garden to the growing of such things as green onions, radishes, green beans, lettuce, eggplant, beets, carrots and the like.

These are vegetables, the food commission warns, which the war-time home gardener should not attempt to grow. Of course they are easy to raise, for the most part, and doubtless help the family table, yet they really are not helping solve the war-time food problem for Hawaii and America, but on the contrary are almost certain to work unnecessary hardships later. There is no apparent scarcity in most of these vegetables, and no danger of shortage in them.

It is to the more staple foods, not grown in large quantities by the Oriental peddler, yet which can be kept a long time and even can be shipped to a mainland market if a territorial surplus develops, that the patriotic gardener should give his attention.

Among the desirable staples are cabbage, Irish potatoes, dry beans, onions (Yellow Bermuda preferably) and corn. For strictly home use, small gardeners may plant cucumbers and rhubarb, since it is understood that as a general thing the Oriental does not produce these in quantities. Rhubarb is reported to grow best at the higher elevations.

For those who have poultry, pigeon peas, cow peas and Milo maize are recommended by A. T. Longley, superintendent of the territorial marketing division. Poultry men thus may be able to solve the high feed cost problem for themselves, but it is understood that pigeon peas and cow peas cannot be recommended as commercial crops unless labor and land both are plentiful and cheap.

Sweet potatoes likewise may be grown for strictly local consumption, but as announced recently, these cannot be shipped to the Coast because of the strict quarantine which the state of California main-

**Old Hawaii**

We are in receipt, from the Bishop Museum, of the Forander Collection of Hawaiian Antiquities and Folk Lore, a very valuable addition to Hawaiian history.

Half a century or so ago, Forander, who had given the best years of his life to the study of these subjects, published his monumental work, Polynesian Researches, in three volumes, a veritable mine of wealth, from which all subsequent writers have drawn freely in their work.

His extensive investigations for that book resulted in the collection of a great mass of valuable material which was not included in that work and has been stored away all these years, and has now for the first time been brought to light.

The present work consists mainly of legendary stories of the more or less mythical heroes of the twilight dawn of history in Hawaii, the days of Umi, Piikea, Lono-ma-ka-hiki, etc.

The Bishop Museum has rendered a very great service in the publication of these documents. They are in Hawaiian and English, on opposite pages, and are beautifully printed by the Museum press. The translation and editing are by Thos. G. Thrum, than whom no one is better fitted for the task.

Yellow Bermuda is recommended by the territorial marketing division as the best variety of onions to be grown by island gardeners. This is because it keeps better, consequently is more marketable and the grower should be able to dispose of his surplus. While it may not appear quite so handsome as the Crystal Wax variety there seems to be little if any difference in flavor.

Celery, cauliflower, asparagus, melons, squash and pumpkins are not advised as practicable crops. Where county agents have been appointed, all gardeners are being urged to get in touch with the agent at the earliest opportunity, because his assistance and advice will be found extremely valuable. He can help in obtaining seeds, insecticides and give information concerning crops best suited to the soil and locality, methods of culture and so forth.

While no agent has been appointed as yet for Maui, it is understood arrangements will be made whereby the sub-station at Haiku may cooperate with the food commission, taking charge of the work which the county agent would be expected to perform. It is hoped the agents for West Hawaii and Kauai will be named in a short time.

**Why Straight-Distilled Gasoline**

**A Continuous Chain of Boiling Points**  
High Boiling Points for power & mileage

**Medium Boiling Points**  
for quick & smooth acceleration

**Low Boiling Points**  
for easy starting

Because, in a straight-distilled gasoline the boiling points gradually rise in a continuous unbroken chain, giving easy starting, quick and smooth acceleration, power and mileage. Boiling points alone reveal gasoline quality. As the U. S. Bureau of Standards states, gravity tells you nothing. No mixture, however cleverly concocted and no matter what its gravity, can contain the correct, unbroken series of boiling points. Red Crown is guaranteed to be a straight-distilled refinery gasoline, the boiling points of which form a continuous chain. Red Crown is not a mixture.

**STANDARD OIL COMPANY**  
"The Gasoline of Quality"

It is more important in times such as our country is going through now, to have an anchor to windward in the form of a savings account.

It makes you independent of financial conditions. No matter what may happen, you know that you are reasonably sure of being able to meet your extra expenses without going into debt. And that one feature makes worth while whatever sacrifice the regular savings may mean to you.

For the same reason it is more urgent that you keep up your regular deposits now than at any other time.

We pay 4% on time deposits.

### TO THE EDITOR.

Lihue, Kauai,  
June 18, 1917.  
Editor "Garden Island,"  
Lihue, T. H.

Dear Sir:

The publication in your paper of a letter from one of my teachers in which certain statements were made has caused me grave concern.

I regret exceedingly that anyone should make comparisons between any general groups of teachers, for certainly there is work for all, and any teacher who does her duty is as worthy as any other.

At the teachers' convention this year I read a paper, the purpose of which was to point out the fact that, as teachers, all our interests are common, and that we should work in harmony and sympathy for the advancement of our profession.

I feel that anyone who divides us into groups is merely trying to play us against each other for selfish ends and is the enemy of all.

I am convinced that the writer of the letter did not mean to hurt the feelings of others and I believe she regrets the results more than anyone else. As spokesman for mainland teachers, she has no general authority.

The fundamental wrong lies in attacking any group of people, holding them up to ridicule, applying disparaging epithets, and making group comparisons.

The occasion for such an incident was furnished by an editorial, and its unhappy results are what one might expect when feeling is aroused to a point where it outweighs judgment.

I sincerely hope that our common interests as teachers will help us to forgive and forget an incident that was so manifestly unfair to all of us, and to the community as well.

Thanking you for giving this space in your paper, I am,

Respectfully yours,  
W. C. AVERY,  
Principal Kauai High School.

## BUICK

## SAXON

Gentlemen:

We have found Zerolene to be a satisfactory lubricant for BUICK automobiles and trucks.

Very truly yours,  
J. D. Lauppper

Do BROY MOTOR COMPANY  
MOTOR CARS  
VAN HESS AVENUE AND TURK STREET

Gentlemen:

From our own experience and the reported experience of Saxon owners in California, we know Zerolene to be a most satisfactory motor oil. So never hesitate recommending it whenever consulted by our owners on the matter of motor oil.

Very truly yours,  
Do Broy

### Endorsed by Leading Car Distributors

—because the records of their service departments show that Zerolene, correctly refined from asphalt-base crude, gives perfect lubrication with least carbon deposit

Less wear and more power because Zerolene keeps its lubricating body at cylinder heat. Less carbon because, being made from asphalt-base crude, it burns clean and goes out on exhaust

Zerolene is the oil for your car—whatever the make—the oil for all types of automobile engines. For correct grade, get our lubrication chart covering your car.

At dealers everywhere and Standard Service Stations

**CRISCO**

For Frying--For Shortening  
For Cake Making

**Frying**

There is no smoke nor odor. Fried foods are free from the taste of grease. They now are tasty and crisp. They are made more digestible, for Crisco is all vegetable. The same Crisco can be used to fry fish, onions, doughnuts, etc., merely by straining out the food particles after each trying.

**Shortening**

Crisco gives pastry a new flakiness and digestibility. Crisco always is of the same freshness and consistency. It's uniform quality makes for uniform results.

**Cake Making**

Crisco gives richness at smaller cost. It brings cake-making back to popularity. Butter bills are reduced and cakes stay fresh and moist longer.

**Dance at Hanamaulu**

Last Saturday evening, the Misses Moore and Bettencourt, were hostesses at a very enjoyable dance given at "The Cottage," Hanamaulu school. Mrs. W. R. Bridgewater and Mrs. Lillian Mesiek acted as patronesses.

In spite of a heavy down pour in the earlier part of the evening, a goodly number were present. Very delightful music was furnished by the Eleele orchestra.

Those who enjoyed the hospitality of the three charming young hostesses were:

Mr. and Mrs. Dean, Mr. and Mrs. A. Nobriga, Mr. and Mrs. F. Carter, Mrs. L. Mesiek, Mrs. W. R. Bridgewater, Miss M. Christian, Miss Hannah Sheldon, Miss Daisy Sheldon, Judge Dickey; Messrs. J. Fernandez, C. Carlson, T. MacDonald, M. Fernandez, F. Eggerking, J. Carlson, Thennis, and the three hostesses.

J. I. Silva's Eleele Store is offering some special values in Trimmed Hats.—Advt.

**Snow White in Song**

Arrangements are being made, by special request, to reproduce the Snow White Cantata, given so successfully in Koloa a short time ago, in Lihue, at the Social hall, Thursday evening, 7:30 p. m. This presentation will have a great advantage over the moving picture play in the charming music that goes with it and is the life of it. Admission will be \$1.00 and 8.50.

**Mokihana Ladies Attention!**

The ladies of the Mokihana Society are requested to keep in mind the passing season for preserving fruits, mango chutney, orange marmalade, guava jelly, etc. to the intent that they may prepare such articles in advance for the prospective Fair, along in November, for the benefit of the district nurse fund.

WINIFRED ROBERTSON,  
Pres. Mokihana Society.

Special inducements to purchasers will be offered for the rest of this month and to the 15th of July, at J. I. Silva's, Eleele Store.  
—Advt.

**A Burr on the Bench**

It is reported that one L. L. Burr, at one time associated with Claudius McBryde and later with W. J. Sheldon, in the practice of law, is being mentioned as the successor to Judge L. A. Dickey.

**A REAL PLEASURE TO USE IT**

Webster's New International Is a Necessity In Every Well-Equipped School, Cultured Home and Up-To-Date Business Office.

Every day in your talk and reading, at home, in the office, shop, and school you question the meaning of some new word. A friend asks: "What is white coal?" sabotage? gantry? Who was Becky Sharp? Is Hongkong a city or an island? etc., etc. This New Creation is far more than a dictionary, being equivalent in type matter to that of a 15-volume encyclopedia. It answers with final authority all kinds of questions in language, history, geography, biography, trades, arts, and sciences, sports, foreign phrases, abbreviations, etc. Get the Best. Supreme Court Judges concur in its favor. The government Printing Office at Washington uses it as the authority. These statements can be made of no other dictionary.
