## PIGEON SERVICE

Suggestions for More Rapid Communication.

REQUIRES CAREFUL TRAINING

One Station Only Required on Each Island.

Messages From Hawaii and Return in Ten Hours—Suggestions for Training.

Since the Franco-German war of 1871, the military and naval authorities of Europe have been perfecting the use of carrier pigeons in time of war, and also for commercial purposes in times of peace. The naval authorities of the United States are also following their example.

The use of these birds, during the siege of Paris was a remarkable success, both in sending and receiving messages. The despatches were reduced five hundred times by means of photography, on films of collodion, so that tissue paper two inches long and one and one-fourth of an inch wide, held 2,500 messages, of twenty words each. That is, one bird carried 30,000 messages. And on one occasion a single bird carried 40,000 messages. These were enclosed in a goose quill one and three-fourths of an inch in length.

It is believed by many who have not studied the subject, that the birds will not cross bodies of water. Some experiments in sending them over the inter-island channels, have failed. But it is quite clear that this was owing to a failure to train them properly. This will be seen from the manner in which the vessel, *At 125 miles, 1600 were set free in a wind and rain storm. Only one returned. At 187 and 1/2 miles, 600 were set free, and one returned. At 312 miles, 1500 were set free and only twelve returned. Nor were they sea sick at any time. The first prize, offered by the President of the French republic was awarded to the vessel, *At 312 miles, 1500 were set free in 15 hours and 12 minutes. This speed was at the rate of 30 and 1/2 miles per hour. The birds set free at a distance of 312 miles, made from 25 to 30 miles per hour. (At this rate a message could be carried from Kauai to Mahukona, Hawaii, a distance of 250 miles in about five hours.) The French have also a sea service between Toulon and Corsica, and a new service between Algiers and Marseilles is now being constructed, a distance of 480 miles across the sea, (being nearly twice the distance from Kauai to Hawaii.) There is also a pigeon service between the islands of Reunion and Mauritius, a distance of 120 miles. In Italy there is a service between Madalena and Rome, a distance of 170 miles of which 150 miles is across the sea. There is also the Napoli-Cagliari (Sardinia) service, a distance of 294 miles across the sea. Captain Malagoli of the Italian army has trained birds to carry messages back and forth between Civita Vecchia and Rome a distance of 60 miles. Heretofore birds would fly but one way, towards home.**

The Spaniards have an excellent service across the Straits of Gibraltar. It is used to prevent smuggling. The Portuguese, the Austrians, and the Russians, are promoting this service. The German government offers prizes to 400 societies, who are training birds. The English Admiralty have established a station at Portsmouth, where 300 birds are kept, and the war ships are taking them to sea.

The people of Belgium are especially fond of flying the homing pigeon, as a matter of pure sport. Formerly, the flying distance was not over 80 miles. It has now greatly increased. The Society Colombophile, of Antwerp, sends as many as 3000 birds at one time, in a special car to the south of France, a distance of 500 miles, where they are released, and there is intense interest in the fastest records. The best birds in Europe are found in Belgium.

Within the last few years, some attention has been paid to this sport in the United States, and great improvement has been made in speed. In 1880, it was considered extraordinary when a bird flew from Columbus, Ohio, to New York in one day, a distance of 500 miles. Now there is a large number of "500 miles a day" birds. In 1894, a bird made 500 miles in one day, at the rate of 4230 feet per minute or nearly a mile per minute. In the same year a bird made over a mile a minute for the distance of 200 miles. Major Howard A. Giddings states in "Outing" that a bird was released from the steamer *Waesland*, at 1 p. m. at a distance of 300 miles from land, and reached home the same evening. Birds bred at the Naval Academy at Annapolis, have made 40 miles an hour for 100 miles. General Greeley of the Signal Service, states that the birds readily fly from Havana to the Key-West barracks, a distance of over a hundred miles across the water. In recent competition, birds have flown from Pensacola to Philadelphia, a distance of 1000 miles.

The navy department at Washington, is now so well satisfied of the value of this service, that it has established a number of stations, and dove cotes have been put on the war ships *New York* and the *Constellation*.

As the first cost of a cable line for the islands would be not far from \$300,000, and it would be necessary to keep a vessel for repairing, the question may be raised why a pigeon service would not meet the demand for quick despatch. How many "rush messages" a week would be required? How often would a shorter time from any one point to another than five hours be necessary? A message from any one point in the islands to another could be sent and answer received within ten hours.

Several experts in the breeding and flying of birds on the Pacific coast, have considered the subject of inter-island pigeon service, and they declare that it is uncommonly easy to establish it. The conditions are in every way favorable, and the water distances are far less than those in Europe, as appears from the facts cited. One station on each island would be sufficient. One at Nawiliwili, Kauai, one at Honolulu; one at Walluku or Kahuku; and one at Mahukona. All these would work in connection with the telephones. At first, a message from Hawaii to Honolulu, would be carried by one bird to Kauai, and be carried by another bird to Oahu. The message would be duplicated and triplicated by other birds until the service was absolutely certain, and the most reliable birds were picked out. A message from Kauai to Honolulu should be delivered in five hours or less. The distance is about 100 miles and a fairly good bird should make it in three hours. As the service was perfected, messages would be sent from Kauai directly to Hawaii, a distance of 250 miles, and only one-half of the distance now covered by birds in Europe.

The cost of the service is small. It is believed that \$100 would buy all the breeding birds required in the beginning. Only the young birds are trained. The breeding is so rapid, there would soon be a surplus. Success would depend upon the care and attention paid to training. If done in a slipshod fashion, it would fail. The young birds should be taken out in canoes or boats to a distance of five miles at first and then released. The distance would then be increased. The most efficient would be retained and the rest destroyed. One experienced person could establish the service, and after that, young women could attend to it. All of the birds needed, would not eat more than one horse. The principle food is peas. The dove cotes would be inexpensive structures. One bird can carry a sheet of tissue paper the size of a letter sheet. This is wrapped up in an aluminum tube or goose quill, and fastened to one of the tail feathers.

The service should be carried on by the Post Office Department. The postmasters should take charge of the stations. In the event of insurrection or other trouble, this service would be more reliable than the cable, as a cable can be easily cut close to the shore, or its connecting overhead wire destroyed. Birds, however, may be started from various points out of the range of guns.

**To Cure Tuberculosis.**  
The following telegram from London will prove an interesting item of news to the medical fraternity, in connection with the reported spreading of tuberculosis among the cattle and horses of this island, and if true, is a great discovery:  
"London, Jan. 5th.—The Daily News has a dispatch from Berlin which reports that Dr. Niemann, the well-known bacteriologist, discovered a new cure for tuberculosis, being the serum from a nanny goat's blood mixed with the bacilli of the disease."  
Next mail steamer from the Coast will be the *Australia* on February 2d.

## NIGHT WI' BURNS

Celebrating the Scotch Poet's Birthday.

SWELL BANQUET AT ARLINGTON

Robert Catton Makes an Appropriate Response.

Fitting Ceremonies in Honor of the Great Poet—Some Bits of History.

"All honor to the immortal Scottish bard, Robert Burns," was the one thought that animated the hearts of the members of the Thistle Club as they gathered around the banquet table in the Arlington Hotel last night, a table that was decorated and supplied with all the dainties by Thomas Krouse, the proprietor of the hotel.

Not less than 40 sat down, and among the number were members of kindred clubs, friends and others. Before beginning Chieftain White made a few remarks, saying that the banquet had been designed in the first place, for the celebration of the anniversary of the birthday of the immortal Scotch bard, Robert Burns, and second, to promote the sociability of the members of the club and kindred clubs, together with their friends.

The banquet finished, Chieftain White arose, and in the capacity of toastmaster, announced the first toast of the evening, Robert Burns." Mr. Robert Catton responded to this in the following excellent speech, which held the attention of all to the end and brought forth rounds of merited applause:

Brother Scots and Gentlemen:  
"Allow me to express my sense of the honor done me by the Thistle Club in asking me to respond to this toast. In doing so I would ask your indulgence if I read to you a few reflections I have put together instead of trying to make a speech. I never did make a speech, and the chances are I never will—but, that's neither here nor there. I have asked myself the question, and I now ask you: Why is it that all over the world, on this evening, wherever there are two or three Scotsmen gathered together, the day is recognized as a red-letter day, and the immortal memory of Robert Burns honored in some way? From the elaborate celebrations of the Burns Clubs of our native land to the simple, but no less sincere 'Nicht wi Burns' in the backwoods of America, the bush of Australia, the jungle of India, or, let us say, among the cane fields of Hawaii.

"The question may be answered by one word—Love. We love Scotland, and we love Burns, because Scotland was so very dear to him. He says:  
"A wish, that to my latest hour  
Will strongly heave my breast—  
That I for puir auld Scotland's  
sake,  
Some usefu' plan or book could  
make,  
Or sing a song at least."  
"But it would be doing very scant justice to Burns and to his countless admirers who never saw Scotland to infer that it was only, though it may have been chiefly, Scotland that he loved. His heart was big enough to include everything and everybody, the 'wee sleekit, cow'rin, tim'rous beastie,' the field mouse, whose nest he turned over with the plow; poor Mallie, his pet sheep, strangled wi' that vile waundering thing, a rope; the wounded hare, the banks and braes o' bonnie Doon. His epistles to his friends, Rankine, Lapraik, Henderson and the rest—and how he loved and valued them. Take the following from 'A Winter Night,' as illustrating at the same time Burns' sympathy and his power of description:

"I thought me on the curie cattle,  
Or silly sheep, wha' bide this brattle,  
O' winter war,  
And through the drift, deep lairrig  
sprattle  
Beneath a sawr.

"But fare ye weel, auld Nickie-ben,  
Gin ye wad tak a thocht an' men!  
Ye aiblins micht, I dinna ken,  
Still hae a stake,  
I'd wae to think o' your black den  
E'en for yer sake."  
"This may be carrying sympathy beyond the bounds, but the humor of that passage has never been surpassed that I know of.  
"No man in whose heart filial love and the love of his neighbor had not a very large place could have written the Cottar's Saturday Night, and as we all know Burns 'dearly loved the lasses o'.' That is why he wrote the best love songs that ever have been written. As Carlyle says of his songs generally: "They do not affect to be set to music, but they actually and in themselves are music."  
"As Burns' heart was big enough, so was his genius comprehensive enough to embrace and illustrate all subjects, and that is just why he was a real poet, which means a true poet, for verse that is not true, that does not see nature face to face without coat and without affectation may be faultless as rhyme, but it is not poetry and is doomed to oblivion.  
"It is his intimacy with and thorough understanding of nature that enables Burns to reach all hearts. He does not stand apart and tell how the Cottar's Hallow'e'en is celebrated or what happened when 'Willie brewed a peck o' maut.' He actually sees it all and is taking part as he writes in the devotions, the frolic, or the conviviality, and so enables the reader to picture it to himself and see it, too, and enjoy it.  
"Scotland has produced many eminent men whom she delights to honor, but none other, I think, at once so loving and so gifted as Robert Burns, her favorite son. His big heart sympathized with all sorts and conditions of men, from the Earl of Glencairn to the jolly beggars, and his splendid genius enabled him to express that sympathy so as to reach all men's hearts; that, I take it, is why all sorts and conditions of men unite to do honor to his memory on the 25th of January.  
"There are many sides to Burns' literary work. I have briefly sketched what I think is the great feature of it, and shall not attempt anything further in that direction.  
"I should like, however, to say a few words about the man, and let me say at once, and I take the liberty of saying it on behalf of the Thistle Club, that we are not met here tonight to apologize, in the slightest measure, for Robert Burns.  
"No doubt, there is still a remnant of the 'uncocud' that think or affect to think that the celebration of his birthday might with advantage be left alone; that his was not a good example; that he was this, that and the next thing—and by no means worthy of being 'celebrated.' Burns being mortal, was not perfect, but with all his imperfections we are proud of him, and let me say that it took just the sort of man that Burns was to do what he did and place him on all but the very highest pinnacle of literary fame.  
"We may regret the rantin' roarin' episodes, the pints o' wine and gowden locks, but we must admit that it took them all to produce 'Auld Lang Syne' and 'Maugham's Awa,' as well as 'Tam O' Shanter' and the 'Lad That Was Born in Kyle.'  
"He'll hae misfortunes great and sma'  
But aye a heart aboon them a';  
He'll be a credit till us a'  
We'll a' be proud o' Robin."  
William Love, with his violin, set the hearts of the Scots tingling by the rendition of some popular Scottish airs. George Smithies presided, but with all his imperfections we are proud of him, and let me say that it took just the sort of man that Burns was to do what he did and place him on all but the very highest pinnacle of literary fame.  
Mr. J. Stewart praised the name of Robert Burns in a highly appreciated poem composed by himself.  
The toast, "Scotland," was responded to by Thomas Black. He spoke of the honor of being born in Scotland, and of what that country had done to put England in the high position she now holds. He then dwelt upon some of the great men that bonnie land had produced—Hugh Miller, the great geologist; James Watt, the inventor of the steam engine; Walter Scott, Thomas Carlyle, Robert Burns, and others, forming a galaxy of poets; and David

## IN THE SUPREME COURT OF THE HAWAIIAN ISLANDS.

DECEMBER TERM, 1896.

H. CANNON v. H. F. POOR.

EQUITY APPEAL FROM CIRCUIT JUDGE, FIRST CIRCUIT COURT.

SUBMITTED JANUARY 12, 1897. DECIDED JANUARY 19, 1897.

JUDD, C.J., FREAR AND WHITING, JJ.

On an appeal from a decree dismissing a bill to foreclose a mortgage on real estate, the defendant, after the perfection of the appeal, was adjudged a bankrupt, and the assignee in bankruptcy appeared and suggested the bankruptcy of defendant and submitted whether such bankruptcy was an absolute stay of the suit.

Held, that after notice to the assignee of the appeal pending, and a reasonable time granted him, the stay should be removed and the appeal proceed.

Held, also, that the suit involving property which, if released from the alleged lien of plaintiff, would be thrown into the general fund available to creditors, the assignee has the right to and ought to appear on the appeal.

## OPINION OF THE COURT BY WHITING, J.

The plaintiff brought his bill in equity, against defendant Poor, to foreclose a mortgage given to secure a bond conditioned for the performance of certain covenants contained in an agreement in writing between the parties. Upon a hearing before the Circuit Judge of the First Circuit Court the bill was dismissed and a decree made in favor of defendant Poor. The plaintiff appealed to the Supreme Court.

After the perfecting of such appeal, the defendant Poor was duly adjudged a bankrupt by the Circuit Judge of the First Circuit Court, and now, at this term of the Supreme Court, appears John F. Colburn, who suggests the bankruptcy of Poor, and that he, Colburn, is the duly elected and qualified assignee in bankruptcy of Poor's estate.

The defendant Poor does not appear, nor does he suggest, on appeal, his bankruptcy.

Chap. 22, Sec. 5, Session Laws, 1888, provides that "Upon the filing of a petition" (in bankruptcy) "all civil suits pending in relation to and all executions or attachments laid upon a bankrupt's property shall be stayed." \* \* \*

We are of the opinion that, the suit being for the foreclosure of a mortgage on property, although involving the question of liability of defendant to respond to plaintiff's claim, the plaintiff can still pursue his claim against the property mortgaged, although, by defendant's bankruptcy, no decree or judgment could be rendered against the defendant Poor personally, or binding on the estate in the assignee's hands other than the property secured by this mortgage. Surely a creditor can rely upon his mortgage security, and need not prove any secured claim in the bankrupt's estate, although in such case he cannot claim any dividends from the assignee. If the plaintiff began his suit after the bankruptcy of Poor, the assignee would probably have been made a party to it. So far as appears of record in this case, the assignee would be and is interested in the result, for if the decree stands, it may release a large amount of the bankrupt's property from the plaintiff's lien and make it available for the general creditors. And he would be entitled to be notified and appear in this appeal.

A reasonable stay of civil suits is necessary in these bankruptcy cases, but we are of opinion that where the cause is in equity to foreclose a mortgage, the court can direct and order the suit to proceed, and that the law providing for a stay does not require the court to construe it to be a perpetual stay. The defendant Poor cannot by his subsequent bankruptcy prevent the prosecution of plaintiff's appeal in this suit. When a bankrupt is seeking to prevent the establishment of a claim against himself, the assignee himself in the interest of the creditors may well be allowed to intervene in order to exclude claims which, if established, might reduce the estate otherwise available to creditors. The bankrupt also may have an interest in this appeal.

The assignee in all cases should be notified to appear, but the assignee in bankruptcy in this case now having appeared, although merely to suggest the bankruptcy, the stay of the appeal should be removed and the appeal heard by this court, unless the assignee has sound reasons to present to the contrary. The mere fact of the bankruptcy of Poor should no longer stay the appeal. The assignee has a right to appear, and so far as shown to us, ought to appear herein. The following cases may be referred to:

*McKay v. Funk*, 37 Iowa 661.

*Merritt v. Glidden*, 39 Cal. 564.

*Doc v. Childress*, 21 Wall. 642.

*Sanford v. Sanford* 58 N. Y. 67.

*Serrao e Hijo v. Hoffmar*, 17 B. R. 124.

There having been so much delay in bringing this appeal to the Supreme Court (unavoidable on the part of counsel), notice to defendant Poor ought to be given, if he has not yet been notified.

Let the parties appear on January 21, 1897, for further proceedings.

*Magoon & Edings*, for plaintiff.  
*C. Brown*, for assignee.

## DECLARED OFF.

## Military Mass Meeting Will Not Be Held.

Twenty-four delegates from the various companies and from the First Regiment proper, met at the drill shed at 7:30 last evening to consider the proposal to hold an annexation mass meeting of military men. Ed Towse was chosen chairman; W. N. Blackley secretary.

Chairman Towse, calling Lieutenant Crane to the chair, addressed the meeting. He said that the idea of a regimental annexation meeting as supported by himself and others, met with general endorsement at first. Since then, however, the recognized authority, to which the meeting was loyal and would be obedient, had decided adversely to such a demonstration. It was thought a mass meeting of the military on the great question of the hour, might be misunderstood and might be detrimental to the cause in the States. While the speaker was at first heartily in favor of the meeting, he readily agreed that it might not be prudent at the present time. He then

offered the following set of resolutions:

HONOLULU, H. I., Jan. 25, 1897.

"Whereas, It is the opinion of authority in which these delegates assembled and their respective constituencies have implicit confidence;

"That the proposed arranged annexation rally of the First Regiment, N. G. H., might have effect other than conceived, hoped for and intended;

"Resolved, That this meeting does now decide and advise that there be no militia annexation demonstration.

"Resolved, That for ourselves as civilians in open session we declare a renewal of fealty to the cause of the annexation of Hawaii by the United States.

"Resolved, That we will use every reasonable endeavor to insure continued large attendance upon the regular monthly meetings of the Annexation Club."

Several members of the committee remarked on the resolution. Disappointment on account of the turn of affairs was fully expressed, but the consensus of opinion was that the higher authority knew best, and its wishes should govern in the premises. In carrying out this idea, the resolution passed unanimously and the meeting adjourned sine die.

## TROPIC OIL

For Engines and Cylinders

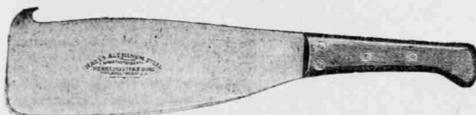

THIS IS THE OIL that Plantation Engineers are calling for.

## 24 Sugar Mills

Are using the TROPIC Engine and Cylinder Oils, and we have yet to hear of a case where it has not given perfect satisfaction.

The TROPIC is a pure, unadulterated lubricator, and is fully warranted to be of the highest possible grade and to give first-class satisfaction in every particular. It is made at one of the best Oil Refineries in Cleveland, Ohio, and is shipped direct to Honolulu without passing through the hands of any Middle-men, and we sell in original packages, barrels or cases. The great success that the TROPIC OIL has met with, during the past season, ought certainly to recommend it for use in every Sugar Mill.

We have just received ex Bark "Edward May" a fresh supply from Cleveland, and can supply immediately, or at any time specified, any quantity required.

## HALL'S ALUMINUM CANE KNIVES

Are being used on over THIRTY PLANTATIONS. They are made by H. Disston & Sons of Philadelphia, and are acknowledged by them to be the best knives they ever turned out. They are made of Aluminum Steel, with Apple-wood handles, secured with four rivets, and hang easier in the hand, when in use, than any other Cane Knives. The fact that the cane cutters prefer these knives to all others, because they do not tire their hands, and they can do much more work in a day, is sufficient guarantee of their superiority.

We have just received over a hundred dozen from the Factory, and can supply Plantations now or at any time during the coming season. Plantations that have not yet tried them, should send for a sample lot, and give them a trial. We have them with the hook and without.

This week we cater to the people and supply their needs. You know what our prices are on ordinary occasions: this week it will be an extraordinary one, and prices in some instances are cut in two. We have the goods and more are to come --we want room more than we do money--you want the goods.

We have a big stock of heavy felt saddle cloths, especially adapted for gentlemen's saddle horses. Brown dress linen in extra widths. Pillow linen 40 and 50 inch-wide. Oriental lace in cream and white. Maltese lace and insertion, assorted widths. Hawaiian flags from 18 inches to 24 feet long. Pearl buttons for white coats and vests. These have the shank attachment and are removable.

A large stock of extra size traveling shawls, admirably suited to inter-island journeys and volcano trips. State room and overland trunks in endless variety. Chiffon in all shades, mull; fine woolen and cotton blankets. White brocade silk. Brown linen holland. Stair linen, made especially for covering hall or stair carpet.

We will make a run on these goods for one week--they are the "needs" of many people.

Seats Selling Rapidly for Social Event.

Excellent Numbers by Noted Singers--Miss Axtell's Songs.

The program for the Graham concert for this evening at the Hawaiian Opera House has been pronounced by local musicians to be the most carefully selected and well arranged of any that has been presented to the Honolulu public for a long time. The selections are in the main new and of a character to be appreciated by lovers of good music. Perhaps the most familiar to a Honolulu audience is "Answer," which will be sung by Mr. Gillig, but it is one of the sweetest of ballads, and as sung by Mr. Gillig, will be particularly pleasing.

Mme. Breitschuk-Marquardt, the celebrated harpist, is down for two solos, and in addition will accompany the benedictory, Mr. Graham, in one of his songs. Mme. Marquardt has been heard here before and her capabilities are well known.

Jessie Reeve Axtell, Honolulu's favorite contralto, will render, among other selections, Gennadi's "Ave Maria." Miss Axtell has been often heard in the church choirs here, and occasionally in concerts, but it is doubtful if she has ever appeared here under the same favorable circumstances as she will tonight.

Mr. Graham had a very satisfactory rehearsal yesterday afternoon and feels assured that the concert will be both an artistic and financial success. The seats are selling rapidly and everything is encouraging to him. The songs he will sing tonight are the best in his repertoire, and he has never been in better voice. The seats are on sale at the Wall, Nichols Company.

**MOURNING IN JAPAN.**

**Death of the Dowager Empress at Tokio.**

H. I. J. M.'s Consul General is in receipt of a communication from the Foreign Office, Tokio, containing the information of the death of the Dowager Empress of Japan. In consequence of this bereavement the Consul General has sent out the following letter:

HONOLULU, H. I., Jan. 22, 1897. Sir--It is my painful duty to inform you that I received today from H. I. J. M.'s Government telegraphic information of the demise of Her Imperial Majesty, the Empress Dowager Asako, which deeply lamented event occurred on Monday evening, the 11th inst., at the Imperial Palace, Tokio, Japan.

In consequence of this sad information the national flag will be hoisted at half-mast at this Consulate General for 15 days.

**ART RECEPTION.**

**Tendered Fred Yates at Art League Tonight.**

Prof. Dodge and C. W. Dickey assisted Fred Yates in hanging the numerous portraits and landscapes which will be exhibited at the Kiloana Art League rooms this and tomorrow evening. In all, there will be 34 paintings by the famous artist, and in this number will be included several beautiful landscapes and marines, which he has painted during his sojourn here.

Mr. Yates regrets very much that the honors to him and his esteemed brother Bohemian, Donald Graham, should be conferred the same night, but the date for either event was fixed without the thought by either gentleman that one attraction might offset the other. The reception to Mr. Yates is by invitation, and will continue from 8 to 10 this evening.

**Fortunate Native Boy.**

In the police court yesterday morning Keeki, a native lad about 11 years old, came up for trial on the charge of vagrancy. His proved to be a case out of the ordinary. His parents are both dead and he has been living around wherever he happened to find a place. There was no one to watch over and care for him and to see to his regularity of attendance at school. He became careless and was arrested for truancy. Judge De La Vergne decided to nolite

press the case, and later asked the boy if he wouldn't like to go to the school in Lihue, Kauai, where trades are taught. The boy was only too glad of the chance, and gave his consent. Then the Deputy Marshal was seen, and arrangements were made whereby the boy will be enabled to go to Kauai today. Judge De La Vergne will pay all expenses, and will for this act of kindness have the thanks of the community.

**COURT MATTERS.**

**Waterhouse Executors Discharged Mrs. Dimond Sues for Alimony.**

In the matter of the estate of the late John Waterhouse an order has been issued by Judge Perry out of the Circuit Court discharging the executors, Henry and William Waterhouse, from such trust and all further responsibility in respect of their accounts as such executors.

The court has discharged David Dayton from further responsibility as Administrator of the estate of the late James Donnelly. In his final account the Administrator charges himself with \$205.50 and credits \$129.30, leaving a balance of \$76.20.

John M. Dowsett of Honolulu has been appointed trustee of the estate of the late H. W. Mist, in place of George B. Pennell and Rev. James H. Stuart, the persons named in the will.

J. E. Grossman has been appointed Administrator of the estate of the late J. H. Distelrath of Oiaa, Hawaii, under \$1000 bonds. A fee of \$15 was allowed the commissioner by the court.

The matter of Magoon vs. Ahmi was before Judge Carter again Monday morning. Argument was finished and the case was submitted.

Carrie H. Dimond filed late yesterday in Chambers a motion for reasonable alimony and the sum of \$250 for counsel fees. The motion will be heard this morning.

**Hagey Club Social.**

There will be an entertainment given by the Hagey Social Club in the Y. M. C. A. hall Thursday, January 28, at 8 p. m.

The following well-known talent will assist in the entertainment: Mrs. Montague-Turner, Mrs. Walbridge, Mrs. W. W. Hall, Miss Kate McGrew, Miss Love and Messrs. J. W. Yarnley, William Love, R. C. Monteagle and J. F. Brown.

No charge for admission. The public cordially invited. Program published later.

E. O. Hall & Son received by the last mail a circular letter from a prominent wholesale house of San Francisco addressed to "Hall & Dimond, Honolulu, H. I." That firm did business in Honolulu in 1858, and dissolved over 30 years ago. The only construction the present firm can put on the mistake in the address is that the San Francisco house had in their office a very old directory or letter file.

Friends of Col. R. H. McLean have raised quite a sum by popular subscription and as a token of their regard will present him with a gold watch chain and locket before his departure for the States.

The Choral Society met in the Y. M. C. A. hall for the first time this year last night. Some 30 in all were present. Several songs were rehearsed under the leadership of Miss Grace Richards.

TUESDAY, : : JANUARY 26.

SENATOR PERKINS.

Senator Perkins, who has just been re-elected to the Senate of the United States, has always been extremely friendly to the commercial relations existing between these Islands and the United States.

Senator Perkins is an honest and intelligent man. Whether he has changed his views, for specific reasons arising out of his political campaign, we do not know.

It is clear that the commercial argument for annexation and reciprocity, owing to various reasons, is not quite as strong in his mind as it was.

It has been, for a long time, evident to us that the planting interest controlled by Europeans here has not fully understood the workings of politics in the States.

THE CARRIER PIGEON SERVICE.

We give, in another column, a carefully compiled account of the carrier pigeon service, now in use both in Europe and the United States.

There have been some attempts to use the pigeons here, but so far as we know, there has never been any very serious work about it.

sages from Kauai to Hawaii, a distance of only 250 miles. We have a letter from Prof. Henri Marion, in charge of the service at the Naval Academy, at Annapolis, and he says, that after consultation with naval officers who have visited these Islands, he considers the establishment of the service would be a very simple affair, if properly managed.

The service should be carried on in connection with the Post Office. There is little money in it for a private individual.

As a substitute for a cable line, it would answer nearly every purpose, and the expense would be nominal. We must keep in mind that an inter-island cable service will be a very expensive affair, and may become a serious burden in the days that are coming.

One person, a lover of the birds, and with energy enough to do the thorough preliminary work in homing, can establish the service economically. If any person has any doubt about an innovation of this kind, let him respectfully consult our good sugar god and find out whether he puts an "ana-ana" on it.

The Government will say, of course, "no funds," but what are Governments for, if not to wrestle with great questions, even this one, and raise funds.

Besides, if the matter is carried out, there will soon be an excess of pigeons, and our exhausted public servants may fortify themselves daily in the Executive Building on pigeon pie.

The Legislature of Pennsylvania has just elected to the Senate of the United States a "machine man," as the independent press call him. Mr. Wanamaker is defeated. The Legislature of the State of New York will elect to the Senate Mr. Platt, who is also called a "machine man," and Mr. Choate, the eminent lawyer, will be defeated.

Mr. Choate does not. Mr. Platt knows the nature and necessity of organization in political matters, and he patiently works out his knowledge. This takes much time and much money.

Mr. Choate is in touch only with the "better classes." In the convention which nominated Mr. McKinley Mr. Platt held in his hands the New York delegation, and on his uncompromising demand the proposed straddle on free coinage was thrown out.

Mr. Choate could have delivered a bright speech on the subject, but could not have carried a man with him. Mr. Platt goes down to the multi-

tude, and trains with it, and takes it as it is. Mr. Choate asks the multitude to come up to his level, and forgets all about the man who has traveled with it in the dust and heat.

PERSONAL AND PECULIAR.

Professor Headland, of the Peking University, is authority for the statement that the Emperor of China is now systematically studying the New Testament and is at present reading the Gospel of St. Luke.

In an address in Chicago recently, a Chinaman outlined a scheme to make China a republic. He would invade the Celestial Kingdom with an army of "5,000 fighting Irishmen."

**NIGHT WI' BURNS**

(Continued from First Page.)

Livingstone and Mungo Parke who have figured so prominently as travelers.

In speaking of the Scotch people Mr. Black dwelt upon their integrity, the temperance of their natures and their "sticktiveness."

"My Love is Like the Red, Red Rose," sung by Thomas McMillan and joined in the chorus by all present, was a bright in the evening's proceedings.

Mr. George Dall gave a recitation of "Tam O' Shanter" which for expression and excellence of delivery could not have been surpassed.

Then came Mr. David Macrae with an excellent baritone voice, singing that good old Scotch air "There Was a Lad Who Was Born in Kyle."

"The Land We Live In" was responded to by Chieftain White himself, the one who had been chosen to fill that place being absent. The speaker said that if people here only minded their own business the country would be a first-rate one in which to live.

James Stewart recited "The Laird o' Cockpen," and then came another song, "Bruce's Address at Bannockburn," by Thomas McMillan.

Mr. W. Rowe, president of the Sons of St. George, answered to the toast, "Kindred Societies."

"Goe Bring To Me a Pint of Wine" was sung in a fine tenor voice by William Dixon.

George Smithies sang "Juanita," after which Colonel Moore, a visitor, made a few remarks, and paid a fitting tribute to the memory of Robert Burns.

"Lying On a Foreign Shore, Or the Immigrant's Farewell" was sung by George Lindsay. This was followed by another song, "Be Kind to the Old Folks," by Thomas Smith.

Mr. William Love played some familiar spirited Irish airs, after which Mr. G. Wilson responded to the toast, "Absent Members." William Dixon sang another song, and there came that rousing air, "Sandy Macfarland," by David Macrae, with a hearty chorus by all.

"The Press" was responded to by C. Girdler of the Independent.

"The Wild Rover" was the song Mr. G. Turner chose with which to please those present.

After A. Stoddard had sung "The Lass with the Rooden Plide," a vote of thanks was tendered by Chieftain White for the part he had played in the success of the evening, and then, with the singing of "Auld Lang Syne" the merry throng broke up, feeling that a most enjoyable and profitable time had been spent.

**One Pound of Coal on a Steamship.**

The value of a pound of coal at different epochs of steamship evolution, as given by Mr. A. J. McGinnis, president of the Liverpool Engineering society, has been as follows: In 1840 a pound of coal propelled a displacement weight of .578 ton 8 knots; but the earning weight was only one-tenth of this, 90 per cent of the displacement representing the hull, machinery and fuel. In 1850, with iron vessels and the screw propeller, a displacement weight of .6 ton was propelled 9 knots by a pound of coal; but the proportion of cargo had risen to 27 per cent, or .16 ton. In 1860, with higher boiler pressure and the surface condenser, .82 ton displacement was propelled 10 knots, and the cargo was 33 per cent, or .27 ton. In 1870, after the compound engine had come into use, 1.8 tons displacement was propelled 10 knots, and here the cargo formed 50 per cent of the whole, being .9 ton. In 1885 there were two classes of freight boats—the "tramp" propelled 3.4 tons displacement 8 1/2 knots, with 60 per cent, or 2 tons of cargo; at the same time the enormous cargo steamers of the north Atlantic were driving a displacement of 3.14 tons 12 knots, with 55 per cent, or 1.7 tons of cargo. On the modern express passenger steamers the cargo weight is down to .09 ton per pound of coal.—Railroad Gazette.

**"Sir!"**

"There are so many people in New York," said a gentleman from the west, "that I am always meeting some one whom I think I know and do not. You meet so many faces there that there are a great many duplicates."

"Only yesterday," he continued, "I was strolling down Broadway, and saw a familiar face on the opposite side of the street. I was positive that I knew the lady. Quickening my pace, I crossed the street, so as to meet her. As I approached I thought she recognized me, and I became certain that I knew her. I walked up, hat in hand, and said: 'Why, how do you do, Mrs. —?'"

"She stopped, glared at me, and began in a stern tone, 'Sir!' But I had fled."

"A hundred people saw the miserable blunder and laughed at me as I tried to hide myself in the crowd."—New York Times.

**Fleshmaking Food.**

Cream gruel, according to an eminent English authority, is the ideal nourishment for thin folk. A teaspoonful taken at night immediately before retiring is said to give marvelous results. To be at its best it must be perfectly made, then thinned with sweet cream. Taken in that condition and warm it is agreeable as well as fattening, and produces just that sense of satisfied hunger essential to ideal rest. It is claimed that perseverance in the treatment yields such apparent results that the cheeks can be seen to expand from day to day.

**"MEREDITH'S OLD COAT."**  
Its Author is Heard of Through a New York Paper.

Many will remember the pleasant entertainment of "Meredith's Old Coat," given for the benefit of Kawaihaha Church on the evening of January 25, 1896. William Hilary Alderdice, the author, who, it will be remembered, had the principal part in the cast, is now in the States. The New York Press, in some stories about countersigns, prints the following about Mr. Alderdice:

"I remember once at the Mare Island Navy Yard Lieutenant Alderdice (who spends three hours every morning before dinner every day dressing for the evening) had a check suit which was loud enough to drown the voice of a 15-inch gun. He was proud of that suit, and when he was going ashore in it he extended the dressing period from three to four hours."

"Until 9 o'clock in the evening the countersign was not demanded. The form was 'Advance, officer' and he recognized." For a wonder Alderdice was returning to his ship one evening before 9 o'clock. The sentry was a recent recruit, very conscientious and very much impressed with maintaining the dignity of the service, albeit as green as new paint on window shutters. When he saw Alderdice he challenged, "Who goes there?"

"Officer," said Alderdice.

"Advance, officer, and be recognized!" responded the sentry.

"Alderdice advanced. 'I don't recognize you,' said the sentry, and then after a pause, while Alderdice walked on—in that suit!" he cried.

"But Alderdice, whose serenity an earthquake could not disturb, went on down the walk, and the sentry, who did not know just what to do under the circumstances, bawled after him: 'But I pass you!'"

Those of the Honolulu people who knew Mr. Alderdice at all well will appreciate the bit taken from the New York paper.

**The Nuanu Buildings.**

The buildings on Nuanu street included in the block between Hotel street and Chaplain Lane, need attention or it will be a case of some one being crushed to death there soon. If one will take the trouble to go into the little alleys that lead into the back part of some of the Chinese shops found along there, he will see how much cause there is for complaint. Only Sunday night, the rotten supports of one of these rookeries gave way and an upstairs room was given a slant downwards. Yesterday morning Chinamen were engaged in the work of "repairing."

The Outlook, a weekly paper of New York, formerly called the Christian Union, and printed in quarto form, has been changed to the magazine or octavo form. The change very much improves it, and must render it more popular with its readers, than when in the quarto form. It is understood that this octavo form will soon be adopted by other leading quarto publications, and eventually may become the only form in which weekly papers will appear, as the cost of publication is but slightly increased, and the convenience to the reader is greatly enhanced.

A very large audience enjoyed the concert at Emma Square last evening. The electric lights in that quarter of the town were out of whack and lanterns had to be called into service.

Charles Fogarty and a gang of workmen are engaged in extending Vineyard street to and beyond Nuanu Stream.

It is stated that Henry II. of France was the first who wore silk stockings. It was at the wedding of his sister to the Duke of Savoy in 1509.

There are all kinds of knives for all kinds of business, but for cutting bread nothing has ever been devised that will equal a Chrysty. Made of aluminum steel, of the same quality as the best saw. Unlike the Clause, the Chrysty bread knife has a wooden handle and it has other advantages.

We have a patent trouser creaser that surpasses even a flat iron for keeping the trousers free from "knees" and wrinkles. Nothing bulky about them and they will hang out of the way in any closet. Seventy-five cents a pair.

Aluminum lime and lemon squeezers are new as to material, but not in shape; their superiority is in their cleanliness. Aluminum collapsible water cups are light and convenient for the pocket.

Many fine tables are ruined by careless people laying lighted cigars on the edges. The Pendegrast cigar holder and ash receiver obviates the damage at very little cost. They are detachable and will fit on any table.

"Little Beauty" night lamp, to hang up or stand, is an article you have often seen advertised in the magazines. We handle them in Honolulu and they don't cost much.

**Captain White Addresses Members of Co. B.**

Hopes to Have the Company Up to its Former Standard—Co. H Resolves.

Company B men have received from Capt. E. O. White a letter which is in line with the commander's endeavors to infuse new life into his soldiers. The following is the text of the document:

"Armory Company B,  
"First Regiment, N. G. H.,  
"HONOLULU, H. L. Jan. 23, 1897.

"To Members of Company B:  
"Your captain has done his best for the company during the past week, and has arranged so that every bill the company owed has been paid, including all January bills.

"The new non. com. officers needed have been selected and their names sent to the major for approval. The company is now well started on the up-grade, and I want every member to put his shoulder to the wheel and help build it up. We need every man we have on the rolls in his place in line on Tuesday nights, in order to have a good 16 file front company and platoon drill. If we make a good showing we will soon build up and fill our ranks; if we cannot get members enough together to drill in double rank, we cannot expect new men to join us, as they won't join a dead or dying company.

"Won't you make it a point to be on hand next Tuesday (and every Tuesday) evening, and thus do your part in getting Company B back to its old place in the regiment?"

Next Tuesday we will meet promptly at 7:30 p. m., hear the report of the Finance Committee, then fall in and have a short, lively drill. After this Tuesday we expect to fall in promptly at 7:30 p. m., having business meetings only on the first Tuesday of each month. Let us all go in with a vim, and build our old Company B up and, remember, your attendance at drill next Tuesday and every Tuesday night is vital, if this object is to be obtained.

"Believing I will have your aid, I am, sincerely yours, E. O. WHITE."

The following order, the first to be issued by Lieutenant Colonel Fisher in a long while, explains itself:

HONOLULU, H. L., Jan. 25, 1897.  
Special Orders No. 1:

On recommendation of the company commanders the following promotions and appointments are hereby announced in the First Regiment, N. G. H., viz:

Sergt. C. H. Atherton to be First Sergeant Company B.  
Corp. W. C. Weedon to be Sergeant Company B.  
Corp. H. S. Hagerup to be Sergeant Company B.  
Private F. H. Foster to be Corporal Company B.  
Sergt. S. Mahaulu to be First Sergeant Company G.  
Corp. E. S. Boyd to be Sergeant Company G.  
Corp. D. Kekaulike to be Sergeant Company G.

They will be obeyed and respected accordingly.  
By Order of:  
LIEUT.-COL. FISHER,  
JOHN SCHAEFER,  
Captain and Adjutant.

At the meeting of Company H, held last night, the following resolution, introduced by Private Fogarty and seconded by Lieutenant Wolter, passed unanimously:

"To Col. R. H. McLean, Late Colonel Commanding First Regiment, National Guard of Hawaii, Honolulu: "Whereas, We, the officers and members of Company H, N. G. H., have been officially notified of your resignation from the command of the First Regiment, N. G. H., and your probable early departure from the Hawaiian Islands.

"Resolved, by Company H, N. G. H., in called meeting assembled, That we appreciate the diligent labors of Col. R. H. McLean in establishing the National Guard of Hawaii upon a firm military and business basis, and upon a footing creditable to the Government, the Colonel and his command; and we extend to Colonel McLean our heartfelt aloha and best wishes for his prosperity and happiness wherever he may be."

**HAGEY INSTITUTE.**

Five Incorporators Secured Yesterday by Alex. Young.

The five persons necessary to incorporate the Hagey Institute in Honolulu were secured yesterday through the personal efforts of Alexander Young, who has taken a deep interest in the matter. They will be: W. R. Castle, F. J. Lowrey, John Ena, P. C. Jones and Alexander Young. The latter gentleman was seen last night, and stated that the articles of incorporation were being drawn up by Mr. Castle.

"The capital stock," he said, "will be \$25,000 (not \$50,000, as stated), and there will be provisions made to increase it to \$100,000, if required, in the future. The shares will be \$10 each, so that people of moderate means may become interested. Your paper quoted me as saying the shares would be \$100, which was a mistake. Another thing: In speaking of the surplus profits being used to pay for the treatment of men who wish to take, but who cannot afford to pay for the treatment, your reporter makes me say: 'Upon this basis we will work, and hope to carry the greatest good to the largest number of our citizens.' The inference from this remark is that the largest

number of our citizens are candidates for the cure. What I wished to imply was that by creating a surplus fund out of which intemperate people could be treated, the institute would be able to accomplish a greater good to a larger number of people of this class than if it was left to them, individually, to pay for the treatment."

Mr. Young said the plans were not fully matured as to accommodations, and nothing would be definitely settled in that respect until the company was incorporated.

**Of Interest to Smokers.**

A matter of interest to Pipe Smokers in general is the "Antinicotine" Pipe invented by Prof. Pfeuger. Into the stem of the pipe is inserted a cartridge made of specially prepared blotting-paper, which is guaranteed chemically pure. It has been tested and the analyst's report is to the effect that it contains nothing injurious to the smoker. One cartridge will serve from six to twelve smokes.

The well-known specialist, the late Sir Morell Mackenzie, used one of these pipes, and in a letter to the manufacturers expressed his opinion on its merit in the following unmistakable terms:

"I think that Prof. Pfeuger's invention is a very good one. I have tried it and find that it answers well. The only suggestion that I can make is that it should have an additional mouthpiece which could be screwed into the proximate extremity of the pipe so as to make the stem twice the length it now is. This would lower the temperature of the smoke as it comes into the mouth, that the smoke should be cool is almost as important as that it should be free from acrid matters. You are at liberty to make whatever use of this letter that you may think fit."

This invention does not detract from the light and elegant appearance, or increase the size of the pipe.

Hollister & Co., the tobacconists, corner Fort and Merchant streets, have just received a fine line of these pipes from London, including a large assortment of other styles, some of them being of the most elegant design and finish, silver mounted, solid amber mouthpieces, velvet lined cases, etc., along with plainer and cheaper styles, all of them being from the factory who use the "Three B" in a diamond as a trade mark. Their new "ad" appears in this issue, to which attention is called.

**NO WAIKIKI HOTEL.**

Terms to Severe for the Company to Accept License.

The Waikiki Hotel project, of which W. C. Peacock & Co. were promoters, has been abandoned for the present. The stringency of the terms on which the license to sell liquor would be granted is the cause of the refusal of the company to accept.

Mr. Peacock said yesterday that to compel a bather to pay a dollar for a meal before he could get a drop of whisky to warm up on was a little greater than he could ask. For the present the scheme would be abandoned, and Mr. Peacock and family will return to the Coast on the 4th prox.

**Citizens' Guard Meetings.**

Three Citizens' Guard companies held meetings last evening. They were No. 1, No. 2 and No. 6. All the arms were inspected and the annexation roll was signed. The regulations of the Marshal regarding target shooting were endorsed in each organization.

In Company No. 1 Capt. B. F. Dillingham declined the nomination for re-election on account of pressure of outside business. He served as commander of the company for two years, and his departure from the office was generally regretted. However, an able substitute was secured in Capt. J. C. Lorenzen, who was unanimously elected. J. A. Gilman was elected first lieutenant and W. O. Atwater second lieutenant.

Company No. 2, Capt. F. J. Lowrey, met and went through much the same order of business. Mr. Lowrey was re-elected captain. George P. Castle was elected first lieutenant and H. F. Wichman second lieutenant. In this company the annexation roll was signed by every member present.

Thirty-five members of Company No. 6 met in the District Court room. Mr. Batchelor was present for the department and Capt. W. P. O'Brien occupied the chair. Mr. O'Brien was unanimously re-elected captain. D. W. McNichol was elected first lieutenant, and George Hawkins second lieutenant. Company No. 4 (Masonic Temple Squad), Dr. Wood, captain, will meet at 7:30 this evening for election of officers and inspection. This will complete the list of all the companies.

 Information in regard to the whereabouts of Piero Rosselli di Recagno of Savona, province of Genoa in Italy, is requested by F. A. Schaefer, Consul for Italy.  
 The annual meeting of the stockholders of C. Brewer & Co. (Ltd.) will be held at the office of the Company in Honolulu on Wednesday, February 3rd, 1897, at 10 o'clock a. m.  
 They are still painting and scraping at the police station, and over eight of the officers were busy yesterday with bits of glass scraping off the varnish administered a day or two ago.  
 There was disappointment among certain officers of the police force yesterday. A well-planned raid and some startling arrests had been carefully arranged for, but some one "gave the thing away."  
 Ed Langley, ex-captain in the Honolulu police force was seen in the chain-gang of prisoners in Victoria, B. C., on January 19th. He was convicted recently to serve a sentence of three months for vagrancy.  
 Any person having a claim against the late James Green, who died in the Queen's Hospital on July 4th, 1896, will confer a favor by presenting the same with vouchers to George P. Castle at the office of Castle & Cooke, Limited.  
 A meeting of the Gleaners' Society was held in the parlors of Central Union Church yesterday afternoon. Rev. J. M. Lewis was present and gave a short talk on "Armenia." Miss Rebecca Thompson spoke briefly on "Armenian Girls."  
 Island steamers sailing today are: The Mikahala at 2 p. m. for Hanalei, Nawiliwili and Ahukini; W. G. Hall at 5 p. m. for her regular ports on Kauai, including the island of Nihoa; Claudine, for her regular Maui ports, same hour.  
 W. L. Bowers is not an applicant for the police captaincy, made vacant by the resignation of Captain Kame. The place will be filled by promotion. Captain Bowers' merchant patrol service is increasing so that he will soon make additions to his force.  
 Ioane, the Hawaiian dandy who used to grace Emma Square during the concert in the days of the monarchy, had become a familiar object on the streets during the past few days. He is changed sadly in appearance, has become totally blind and plays the "ukeke" for a living.  
 The Hawaiian Safe Deposit and Investment Co. have for sale a valuable tract of land, 176 feet on Pensacola street, 400 feet on Haseenger street with a 20-foot entrance from Piikoi street, having a comfortable house and barn on the place and a lot of well grown trees.  
 There was excitement in front of the new bicycle agency yesterday afternoon. A rather excitable horse, attached to a Chinese grocery wagon, was being taught a few lessons by its master. The animal fell on the sidewalk and slid almost into the door of the agency. Slight damages.  
 A notice appears in another part of this paper stating that neither the proprietor nor the managers of the Hawaiian Opera House will be responsible for loss or damage incurred to pianos, furniture, etc., whilst the same are on the premises of the Opera House unless such furniture shall have been loaned or rented by the proprietors themselves.
