

**THE HAWAIIAN STAR.**

Published Every Afternoon (Except Sunday) by the Hawaiian Star Newspaper Association (Lim.)  
 ED TOWSE, Editor.  
 FRANK L. HOOKS, Business Mgr.  
 WEDNESDAY, MAY 27, 1896.

Turkey talks of arbitration with Armenia, but keeps on murdering the unfortunate people of that nation for the offense of worshipping at their consecrated sites.

As a student of another such situation, The Star would say that there can be no peace in the Transvaal till there is a lot more killing. Reconciliation seems to be out of the question.

Congratulations to California, San Francisco and the Hawaiian Islands, on the production of the battleship Oregon are certainly in order. She is a superb addition to the floating fortresses of her class.

Some of the local newspapers and public men found in the Hawaiian Islands, with the simple devotion of a deluded setting hen to a nest of door knobs, branch out and broaden out a little.

It is plain enough that a deadlock has been reached in the Hawaiian negotiations. The "pull" of the New York Company seems fully equal to the "push" of the New Jersey, or Spaulding syndicate. The Star moves that Minister Hatch be made a committee of one on adjudication.

It has been decided by the Senate of the United States that about \$4,000,000 can be spared at this time for coast fortifications. Apportionment is kept a secret, but quite a sum will perhaps go to the Pacific Coast. Perhaps Pearl Harbor is mentioned in the private plans and specifications.

That art supplement promised for last Saturday is part of this day's issue of The Star. The lithograph, for its fidelity and finish, has been highly praised by a number of our critics. The print is well transferred to either prepared wood or glass or it can be framed at a small cost.

The coronation of the Czar is made an international fete and the grandeur and gorgeousness and extravagance of the affair have compensation. One feature is what is practically a social gathering of rulers of the world. This is calculated to relieve the tension of several strained situations. Then the example of the Czar in giving consideration to the common people cannot but be a benefit to mankind and civilization.

The immigration question has for two days been debated in the House at Washington. The Hawaiian Legislature could not spend a couple of days to better advantage for all concerned than by putting in that amount of time in just that way. The signs just now are that the American and European in these Islands will be required to add an extra stroke to his swimming pace to hold his own in the Asiatic flood.

It McKinley becomes President, and just now it is diamonds to oyster shells that nothing can head off that pleasing consummation, the German tariff doctors will be quickly on hand to start their own medicine. If the count is correct there will be nothing for the Republican National Convention to do but holler, adopt a platform, holler, have a ballot, holler, adjourn and keep on hollering till election day and then holler some more.

The German Reichstag adopted the sugar bill, with the export bounty proviso, by a vote of 144 to 124. At the same time, by the same vote, it adopted a resolution declaring for the early withdrawal of the sugar export bounty. The Reichstag has been holding this sort of thing for some time and on each occasion it breaks the sugar market. However, four cents is pretty good for Hawaii considering last season and then a very good proportion of the '95-'96 crop of the islands is in already.

France proposes to land on her feet financially whether the Spaniards win or lose in Cuba. The Republic has for years held a firm grasp on the treasury of her neighbor and now takes a claim against the colony. The Republic is more than likely to be settled on a basis of dollars and cents. The insurgents, by the way, have not been doing so well in the fighting lately. General Weyler's tabu on tobacco export from the island is his master stroke. People who know anything of the Cuban situation are well aware that the cigar makers are the heaviest contributors to the funds of the patriots. These workmen will now be made idle.

Rev. E. R. Dille, who dedicated the Catholic church here, has spoken kindly of that institution of Hawaii and of President Dole. But he has also put forth some utterances at San Francisco that are to be questioned. Rev. Dr. Dille says:

"Politics are turbulent there now. The men who were engaged in the last revolution and were sentenced to thirty-five years imprisonment are now out and plotting another raid. I talked with Royalists and I am sure mischief is brooding. They are agitating because they know that Cleveland is going out anything it must be done quickly."

The Royalists the good divine talked to must have been some of the lying rascals The Star campaigned against till they were dropped from the secret service. These idlers are the only Royalists here now, and they amount to nothing at all. It is not correct that "trouble is brewing" or that there is turbulence in politics. Rev. Dr. Dille has made harmful statements which cannot be substantiated. He is very positive in his declarations in favor of annexation and gives good reasons for this view.

MEMORIAL ORATION.  
 The address on Decoration Day, under G. A. R. auspices, will be delivered by Judge De la Vergne, Son of a Veteran. There was no authority for the statement that there would be no oration.

**Timely Topics.**

**TRIBUNE BICYCLES.**

What Their Construction Means to Prospective Buyers.

**DEFINITION OF THE WORD.**

TRIBUNE—A magistrate or officer of a tribe—Any champion of the rights and liberties of the people.—Standard Dictionary.

The bicycle tribe on the Hawaiian Islands number some dozen or fifteen different makes and every one is claimed to be a high grade wheel, but as a head magistrate, or supreme master, the Tribune was elected to fill that very honorable position as soon as it appeared in the field of competition.

This wheel has had some very hard tests since its introduction in the Islands, but in each and every case has it done all and even more than was demanded of it.

Any champion or amateur who wishes to know of the everlasting virtues of the Tribune has the perfect right to demand of us the reasons why they should ride this wheel and we are always at liberty to spend any amount of time in so doing; all that we ask is that you give the Tribune a fair and unbiased trial and we will not fear for the result.

The *Scientific American* which is the acknowledged leading paper in all matters pertaining to science, selected the Tribune, from the hundred or more makes, as the wheel built on the most scientific principles and in its issue of January 4, 1896, devoted a page to it.

In apologizing (to the other manufacturers) for picking out the Tribune and speaking in such glowing terms it does so for the sole and solitary reason that the publishers believe the manufacturers to use only the best material in its construction. The paper reviews the history of bicycles to the extent of comparing the American wheels with the English make and the increased demand that has existed within the past few years for the American make in preference to its European cousin, and finishes with this paragraph:

"We select as the representative of such a factory the works of the Black Manufacturing Company, of Erie, Pa., a company which produce the highest grade of wheel and which put it on the market purely on the merits without the adventitious advertisement of paid riders. The wheel made by this company, the "Tribune bicycle," embodies the best possible practice and is correspondingly free from structural variations of unproved merit."

Such praise from such a high source should satisfy anyone of the superior merits of the Tribune wheels.

We have just received ex Australia a new shipment of hem in all varieties of the 1896 lattens, in Tandems, Racers, Ladies or Gents' Wheels, and shall be happy to show the 1896 improvements to intending purchasers.

**W.W. DIMOND'S**

The report of three physicians connected with the Board of Health on the condition of the water which the people of Honolulu drink is valuable, if for no other reason, that it gives one time to select the right company to insure one's life with, and to make necessary arrangements for cemetery lot and undertaker.

If the citizen who prefers life to uncertainties, the inconvenience and bother of treating Bright's disease or fever may be easily avoided by an investment in the proper sort of filter. We have one made of natural stone, the water being filtered through a cylindrical disc. This disc is easily removed for cleansing and may be made perfectly clean by a moment's brushing.

The filter has not been named yet, but another, identical in shape and manufacture is called the Success. Ours is just as good without a name and costs a dollar less. You see, the name amounts to something. We have also a stock of the Gurney improved refrigerators and Ice boxes, some of which have water tanks and taps, in which filtered water may be kept cool.

**COFFEE ESTATE AND LANDS FOR SALE.**

I am directed to sell at Public Auction on Friday, June 26, 1896, at 12 o'clock noon of said day at my sales rooms on Queen street, in Honolulu (unless sooner disposed of at private sale) the following described property, namely:  
 A tract of land, about 2,800 acres in fee simple situated at Kolo and Olopana in the Kona, Hawaii Islands of Hawaii, about eight miles by a good road from Hokena, one of the largest villages in Kona. There is an excellent landing on the land itself from where the coffee and other produce could be shipped, and there is a mill near the landing. Fifty acres of land are in coffee, and the remainder of the land is about seven hundred acres of splendid coffee land lying all in one block on both sides of the road. There are also about eight hundred acres lying along and to the East of the road, and there are also some very good coffee lands, also excellent land and although at a higher altitude is no doubt also well adapted for coffee culture. The lower land below the coffee land is suitable for pineapples and such. There is a drying house, store and work rooms, a Gordon's Pulper, laborers' quarters and water tanks at the plantation and the land is partly walled. There has never been any light on this land, although coffee was planted there a good many years ago. Old residents of Kona like the late D. H. Nabun, J. W. Kaniuki and others have testified to the fact. There is a very fishery appurtenant to Olopana. A term shall or part of the purchase price remain on mortgage at eight per cent per annum. Deeds and stamps at the expense of purchaser.  
 A map of the property can be seen and other particulars obtained at my sales room.

 Minister of the Interior,  
 Interior Office, May 27th, 1896.

**AS IT WAS WRITTEN**

CORRESPONDENCE RELATING TO A RECENT OCCURRENCE.  
 Commander Green to Capt. McGrew—  
 The Retort Courteous—Is a Threat Made?

HONOLULU, H. L., May 27.  
 Star Newspaper:—Having seen an article in the morning Advertiser of this date speaking of the action of the Sons of Veterans, which I think is intended to reflect on me, I would most respectfully ask you to publish the following explanation, and by doing so very much obliged.  
 Yours very respectfully,  
 L. K. MCGREW,  
 Capt. Comdg. Sons of Veterans.  
 HONOLULU, H. L., May 25.  
 Louis M. McGrew, Esq., Capt. Commanding Camp White, Sons of Veterans:—  
 My Dear Sir and Comrade:—As a member of our Memorial Day committee, as well as Commander of De Long Post, I desire to ask why your camp was not represented with our Post at the Church Service, held for our mutual benefit, on the evening of May 24. The circumstances compelled us to feel that your action indicates on your part a lack of respect for Veterans of the G. A. R.  
 If the Sons of Veterans cannot trust to follow the lead of their sires, then it is useless to talk further of cooperation.  
 Yours in F. C. and L.,  
 R. JAY GREEN, P. C.  
 R. Jay Green, Post Commander G. A. R., De Long Post, 45, G. A. R., Honolulu, H. L.

Dear Sir:—I have the honor to acknowledge the receipt of your official communication of even date and in reply would respectfully state that no discourtesy was intended to be shown the Geo. W. De Long Post 45, G. A. R., by the absence of a representative of Capt. G. C. Wiltz Camp 4 Sons of Veterans, but we think that on a day so distinctly American and in a city where there are several American pastors of American Congregations that one of these should have been selected to deliver an eulogy on the men who died in the defense of their flag without going to an alien who seems to be seeking notoriety at the expense of a Nationality with whom he is not in accord. We need no discourtesy to the people who were born under the English flag, but we think it would have been just as consistent for an American Pastor, if he so far forgot himself, to have insisted on delivering an address to the English societies here, as it was for that person who delivered the patriotic sermon yesterday.

While we have the highest respect and reverence for the G. A. R. and desire to act on all occasions in accord with them, I have the honor to inform the Post Commander we have a Constitution and By-Laws of our own by which we are supposed to govern ourselves and not follow the blind lead of any person, even if he is a member of the G. A. R. On every occasion since our formation we have been glad to have the Comrade of the G. A. R. at our meetings giving them the floor on every occasion and listening to their suggestions as we thought it was to our benefit—but when it comes to running a Canadian down our throats and then taking us to task for not swallowing him voluntarily, we think it is time to draw the line.

Are we to understand that your last paragraph, wherein you say "If the Sons of Veterans can not trust to follow the lead of their sires then it is useless to talk further of cooperation"—is a threat? That you will keep us from participating on Memorial Day, in the above declaration of Geo. W. De Long Post 45 or your own personally?

As the Post Commander of Geo. W. De Long Post, you haven't even deigned to notify us of our position in the line of march while outsiders have been notified of their positions. I greatly deplore the talk and newspaper controversy that has taken place lately in regard to the Memorial sermon and I think it could have been avoided if the Post Commander had not rushed into print so prematurely and aired his grievance about American prejudices, etc.

In conclusion I have the honor to state that I will by your communication before the camp at the next meeting.  
 Very respectfully yours,  
 LOUIS K. MCGREW,  
 Capt. Comdg. First Sergt.

**Special Attention**  
 There has been additional reduction all along the line in prices at the Waterhouse Bargain Sale; make your purchase soon.

**YOUR Drug Store.**

We want you to consider this your drug store. We want you to feel perfectly at home. Our telephone is at your service. Our is a central place to wait for care for all the lines pass here. We've chairs—use them without asking, because placed there for you.  
 People admire push and enterprise. They like to witness the advancement of any legitimate business. Use to deal with those who have a good product and try to serve the customers better than anyone else.  
 And that is what we are doing—serving you just as well as we know how. It's the little, every day savings on what you could, which will add up with the long run. We are saving our customers' money and time on every dollar we save. So you get five cents back on a dollar purchase; gain as many on a fifty-cent purchase; you always get something for every dollar you lay out. Will keep you in ear fere.

**THOUSANDS DIE**

From Exposure to Infectious Disease and Impure Air.  
**Important Points About "Furline" the Great Disinfectant.**

In these enlightened days of the nineteenth century it is an acknowledged fact that "an ounce of prevention is worth a pound of cure," and that ounce of prevention was never better exemplified than in the use of the great disinfectant known as "Furline." The public has had many disinfectants brought to their attention. Some very good, some were bad, and some were simply indifferent, but none ever was placed on the market combined with all the many good qualities of "Furline." In the first place it was left to the manufacturers of "Furline" to compound a disinfectant and antiseptic that would be odorless, a most important matter, as users of disinfectants will know that the odor of the disinfectant, especially when in constant use, becomes sickening and disagreeable, oftentimes as much so as the odor of the soil to be killed.

In a word, "Furline" is odorless, and its work removal, not creating one odor to cover another. It comes in a highly concentrated form, and when diluted with two parts water there is not the slightest odor, rendering it suitable for places where food is kept. In the bathroom, sleeping room, about the house generally it is perfectly safe. Then again it is non-poisonous, an all-essential feature, for if used carelessly by children, or accidents there are no harmful results, and it is absolutely safe to have around the house.

As a sample of its harmlessness it can even be used in refrigerators, and, if accidentally spilled no harm is done, and it is particularly valuable for this use. The uses for which "Furline" is used are almost limitless, and to enumerate them would fill pages of *The Post*. For flushing sewers, and for cleansing sinks, drains, barns, urinals, water closets, floor cloths and the bed clothes from sickness or infection it is invaluable.

Then again the price is so low that it can be used liberally, and for hospitals, asylums, public buildings, hotels, restaurants, school rooms, laundries, dairies, markets, stables, packing houses and canneries where a disinfectant is used in large quantities, this is a point to be considered. "Furline" is a sure preventive against cholera, grippe, small pox, diphtheria, all fevers and contagious diseases.  
 As an antiseptic and for hospitals, it is invaluable, for it relieves and cures sore throat, catarrh, sinns and bites of insects, burns and scalds, chilblains, sore eyes, pimples, and for the bath it is a delightful adjunct. It will instantly stop any flow of blood, and physicians will understand its full value from its principal constituents, bromine and chlorine. It is prepared only by the Fitch Chemical Company of Day City, Mich. The Hollister Drug Company has appointed sole agents for the Hawaiian Islands.
