WALL PAPER, ETC.

Cor. Fort and Queen Streets,

HONOLULU, H. I.

Do You Use Any of the Following Articles?

If you do, call on us and examine same,

and we know quality and prices will suit you.

Paints and Oil.—By the bark "Nautilus" we have added to our large stocks in this line.

Good weather will soon set in and you will want to paint your house, and when you do, use pure paints, not some cheap article that will "peel" or "chalk" off in a few months.

Hubbuck's White Lead Zinc, and Pale Boiled Oil, have stood the test in these islands for years, and the quality to-day is as good as when it was first introduced.

We get these Paints and Oils direct from Hubbuck & Son, and thus know that they are genuine. We also keep Hubbuck's Green, Yellow, Black, Oxide and Mast Color in 25 lb kegs.

Cartridges.—If you use a shot gun we can give you your choice of black or nitro powder cartridges, all carefully loaded. We have a few shells loaded with "Walrod" powder, a very strong powder that has been adopted for warfare by three great nations (not including the P. G.). It is said to be the most reliable of all smokeless powders and very safe in any well made gun. The charges are in bulk one third of any other powder, and is "guaranteed good for five years in any climate damp or dry."

If you are interested in the numerical Rifle Matches or enjoy largest practice either with Rifle or Revolver use U. M. C. cartridges for best results; 50 out of a possible 50 can be made with this brand, provided the rifle, and the man are in good order. We have all sizes of U. M. C. cartridges from 22 to 56 cal.

Everything we have mentioned is to be had for the asking (and a little hard coin) at the old stand on the corner of Fort and King streets.

Published by the Hawaiian News Company, Inc., 225 Fort Street, Honolulu, Hawaii.

FRIDAY, APRIL 3, 1894.

IN THE MATTER OF PEARL HARBOR.

The following appears in an Auckland newspaper:

Washington, March 30.—The Government have established a coaling station at Pearl Harbor, Hawaii.

As a usual thing the Hawaiian public does not attach much importance to American news which comes by the Australian route. As was the case of late when an Auckland dispatch announced that the United States forces had landed in Honolulu and that severe fighting had ensued, these Reuters telegrams are often fakes of the most imaginary kind.

Behind this Pearl Harbor item, however, may easily be some important truth, owing to the fact that Admiral Irwin, who was to be have been recalled from this station several weeks ago, remained to survey Pearl Harbor and to determine the nature of its bar.

Although the Admiral, when questioned, was diplomatic enough to hint that he was acting on his own private responsibility, the expense which his inquiry has caused and is still causing precludes the idea that he is making the survey at his own cost and for his personal instruction or amusement.

Plainly he is acting under the orders and at the expense of the United States Government; and the latter can not be expected to have gone to any trouble about the harbor at this time unless it had an idea of making some practical use of the information sought.

This does not prove, of course, that the Auckland item is right in saying that the American Congress has yet made an appropriation for a coaling station here; but it indicates very strongly that such is the object which the Administration has in view.

It is pleasant to speculate upon the result to Hawaii of the procedure thus marked out. A coaling station means that a fortified and garrisoned reservation under the American flag would be established on this soil.

That, in view of the variety and preponderance of American interests here would be a long stride towards the annexation of the group and in the meantime would be an advance on the part of the United States to the relation of a protectorate, virtual if not actual.

In the existence of the flag and garrison there would be a pledge of local security by which values would be enhanced and capital attracted.

Let us hope that, when the next mail comes, we shall all be able to burrah for Hawaii, for a preserved reciprocity treaty, for the Pearl Harbor station and for the prospect of final union with the mother country.

The most European countries will see any appliances in right form of war battling ships. The whole of existing boats upon the eastern coast and cities below.

Our cannot readily conceive of the enormous change that must be made in the world's affairs in the event that these mysterious balloons of the frontier tale turn out to be what they have been described—practical, cheap and controllable agents of aerial travel.

For one thing a practicable aerial car which would be easy to navigate and keep aloft in any condition of the atmosphere, would finally make war too dangerous to follow; and after the first car had shown its destructive powers the world might be expected to take an eager stride out of mediocrity toward political peace and unity.

Another result would be the extinction of the protective tariff, for custom houses could not interfere with commerce where all the world was an open port to the merchant fleets of the common air.

A third effect would be the cheapening of freights and the mingling, by means of rapid, easy and inexpensive methods of travel, of widely scattered peoples.

Living would cost less and the spread of ideas and civilization would be rapid, while all parts of the globe would be explored and its habitable parts settled.

With results like these waiting the proof of the circumstantial tale of the German war balloons, proof which, if it exists, the powers in the secret are withholding as well as they can for the sake of an advantage in the next great European grapple, the world may be pardoned for wishing that the inevitable fight would the sooner come and the secret of the new air ship be given to the manufacturers of the world.

WHO WOULD PROTECT US? The ex-Queen's personal organ had, in its last night's issue, the following felicitous leader:

The Provisional Government, as a matter of fact, was established by the United States marines; and has practically been maintained since those marines were ordered on board their ship, by the presence of American vessels in the harbor and the general understanding based upon the declarations of American officials, that the usurpers should not be disturbed pending a decision of their case "at Washington" where the "honor" of "savagery" does not thought that she could get justice.

That decision has been rendered but not executed, and—well, one of the American vessels has been ordered off to the Behring sea and the other may be told to take a cruise at any moment. In that case who will protect the Provisional Government?

The *Hokouma* need not worry on this point. American property interests here will continue to be protected by American war ships. If these should be temporarily absent at any time we beg leave to say to our Royalist friends that the party which challenged both them and the American marines last December is still in fighting trim.

The seriousness of the *Hokouma* in saying that Japan will enforce her demand for the Hawaiian suffrage, if necessary with arms, makes the comic features in the statement all the more diverting. The total disregard of the Monroe doctrine, as asserted by all the American Presidents since Monroe and particularly by President Cleveland and his Ministers here, which the allegation includes, fits the whole matter for the domain of opera bouffe.

NEWS BY THE SEASIDE

The American War Commission will arrive at San Francisco, California.

The French government will certify to the new tariff bill regarding all the McKinley treaties.

The Postmaster is taking Da Gama to a foreign port.

Queen Victoria has been proclaimed sovereign of Finland.

Rev. Thomas Sprague has been elected pastor of the London, Exeter, church.

The conspirators who tried to assassinate the King and Ministers of Cuba have been imprisoned.

Contributions in aid of the relief of the famine in China are being received.

Mr. Gladstone, in a letter to Mr. John Cowan, chairman of his Middlesex Committee, virtually tells a story and pathos far beyond his constituents.

The news comes from Samoa that another war has broken out between the rival tribes, in which up to the time of the morning, several hundred people had been killed and thirty wounded.

Head-hunting was carried on in spite of the recent ordinance, the head of a chief being brought among other trophies to Apia. At last accounts the tide of battle was running in favor of the government troops.

PLATFORM

Of the American Union Party.

For the promotion of the best interests of all the people of the Hawaiian Islands and for the organization of a party having only this object in view, the following is adopted as a declaration of the principles upon which the organization to be known as the "American Union Party" is to be established, and upon this platform we invite the co-operation of every friend of good government.

1st. REPRESENTATIVE GOVERNMENT.—The American Union Party is unalterably opposed to any form of monarchical government in the Hawaiian Islands, and declares its full allegiance to the Provisional Government, endorsing the principles of a constitutional republic looking to the extension of popular representation in the Government.

2d. POLITICAL UNION.—We declare our leading principle to be the accomplishment of a political union with the United States of America and the maintenance of a stable and honest government.

3d. PEACE.—We favor such legislation as will promote the occupancy of all public lands, including those heretofore known as "crown lands," by small holders, and foster the development of varied industries, believing it to be of vital importance that many acres should be for "many men."

4th. CITIZENSHIP.—We declare that all citizens are equal before the law, and are opposed to any special or privileged classes, favoring participation in the government by every loyal citizen and declare for a liberal suffrage law that will first of all guarantee a vote to every man who rendered satisfactory service in the military or police departments of the Provisional Government.

5th. IMMIGRATION.—The evils of Asiatic immigration are so apparent that we declare in favor of its prohibition by positive and prudent methods, declaring in favor of such American, Portuguese or other European immigration as shall supply the necessary labor and furnish the country with permanent settlers.

Hawaiian Hardware Co., Ltd.

BY AUTHORITY. TO WHOM IT MAY CONCERN.

All applications for the five Representative Districts of Honolulu will be in attendance at the old Legislative Hall in the Judiciary building every day, Sundays excepted, from 10 a. m. to 2 p. m., and on Tuesday and Saturday evenings from 6 to 9 p. m., for the purpose of receiving applications for registration and administering the oath required by law.

NOTICE TO VOTERS. The Board of Registration for the five Representative Districts of Honolulu will be in attendance at the old Legislative Hall in the Judiciary building every day, Sundays excepted, from 10 a. m. to 2 p. m., and on Tuesday and Saturday evenings from 6 to 9 p. m., for the purpose of receiving applications for registration and administering the oath required by law.

CHAS. T. RODGERS, M. D., Chairman. J. A. KING, Minister of the Interior.

Interior Office, March 27, 1894.

BIDS FOR ROAD MATERIAL. Sealed Tenders will be received at the office of the Minister of the Interior until TUESDAY, April 10, 1894, at 12 o'clock noon, for furnishing to the Road Bureau of Honolulu, the Tools and Materials as per schedule for six months from date, viz:

Horse Blankets, per dozen. Ox Handles, per dozen. Pick Handles, per dozen. Fuse, per foot. Wheelbarrows, iron tray, each. Wheelbarrows, wood bolted, each. Wheelbarrows, wood, each. Black Blasting Powder, 25-pound keg, per pound. Giant Blasting Powder, 50-pound boxes or keg, per pound. Giant Powder Caps, per box. Lard Oil, per 10-gallon cases. Black Oil, per gallon. Machine Oil, per gallon. Cylinder Oil, per gallon. Rope, Manila, per pound. Rope, Hemp, per pound. Bars of Steel, per pound. Spikes, galvanized, 4 to 7 inches, per keg. Norway Iron, per pound. Nails, galvanized, 4 to 60 d, per keg. Nails, iron, 6 to 60 d, per keg. Leather, harness and saddle, per pound. Baskets, galvanized, 12 to 16 inches, each size, per dozen. Spenn Oil, per gallon. Axle Grease, Everlasting & Dickson's, per dozen. Frazier's Grease, per case. Carbolinum, per gallon. Coal Tar, per barrel. Horse Shoe Nails, Putnam, number 9 and 8, 25-pound boxes, per box. Horse Shoes, Perkins, number 100, per box. Kerosene Oil, 10 cases lot, per case. Hunt's Axes, handled per dozen. Shovel Handles, long handled, per dozen. Shovel Handles, long and short, per dozen, each. Picks, Hunt's and Iron City, per dozen. Hinges, galvanized and iron 8 to 12 inches, per dozen pairs. Northwest Lumber, timber, per M feet. Northwest Lumber, plank, per M feet. Northwest Lumber, boards, per M feet. Northwest Lumber, scantling, per M feet. Northwest Lumber, 1x3, 1x4 and 1x5 battens, per M feet. R. R. W Lumber, timber, per M feet. R. R. W Lumber, boards, per M feet. R. R. W Lumber, battens, per M feet. R. R. W Lumber, split post, each. Ash Planks, per foot. Cedar Shingles, per M. Galvanized Iron Roofing, 5, 6, 7 and 8. Galvanized Iron Roofing, 5, 6, 7 and 8. Oak Plank 2 1/2 to 3 inches, per foot. Australian Coal (2240 pounds), per ton. Departure Bay Coal, per ton. Blacksmith Coal, per ton. Hubs, assorted, per dozen. Follow's dump cart size, per dozen. Spokes, dump cart size, per dozen. Bar Iron, round and flat, refined, per pound. Portland Cement, per barrel. German Cement, per barrel. Red bricks, per thousand. Hames, per pair. Lime, per barrel. Dump saddles, each. Horse and Mule Collars, each. Scythes, per dozen. Scythe Handles, each. Sledge and Stone Hammers, per pound. Files, assorted sizes, per dozen. Red Lanterns, per dozen. Lead, white, per pound. Washers, assorted sizes, per package. Carriage bolts, assorted sizes, per package. Axles, 2 1/2, 3 and 3. Fish Oil, per gallon. Rubber Packing, per pound. Emery Cloth, per dozen. Yard Brooms, per dozen. Sheep Skin, per piece.

There are some things, however, that people will buy before, during and after a campaign and one of these is Haviland China. We have sold this ware ever since we have been in business and it seems to be growing in popularity all the time. It is so different from other ware as we sell it because you can always have a complete set. We have duplicates of every piece sold so that if you happen by any accident to break a plate or a cup you can replace it at any time. In other decorated china once a piece of a set is broken your set is imperfect and cannot be made right except at considerable expense. With Haviland ware you can replace a broken piece at the same rate you pay for it when you buy a whole set. Our "216" pattern is considered by people here to be as handsome as any china manufactured.

A stove is as necessary an article as will be found in the house; the days of the kerosene tin for baking purposes are numbered in modern Hawaii; the advance of civilization across the Pacific has brought us, not only the American system of politics and Tammany methods, but the Fischer Stove Range. It does not matter whether you use coal at five or twenty dollars a ton or wood at ten dollars per cord, you will save money. A Fischer Stove Range will burn one-third less fuel than any other stove of the same size. Another thing in its favor is the fact that it will heat up quicker than any other style of stove. Fifteen minutes after the fire is lighted your chops and coffee are ready on the table. We have for these ranges both tanks for hot water and charcoal broilers. The water pipes are already in the ranges, so that you have little to do with the plumber when you take a Fischer Range. The charcoal broilers are attached to the range, and when you wish to broil a fish or a steak you can get the food close down over the coals.

We have in Iron Stoves what we consider the best cheap stove in the country. We sell on an average two every day of the Pansy Stoves, and have yet to hear of a complaint from a purchaser. They are economical of coal or wood and are sold by us at the lowest price possible. If you do not wish to go to the expense of a Steel Range, there is no better substitute than a Pansy Stove.

THE HAWAIIAN HARDWARE CO., 307 Fort Street.

As our Piano Tuner and Repairer has now arrived, we are prepared to take orders for work, which will be executed in the very best manner possible, as without question we have secured (in the person of Mr. G. H. Harrison) the most skillful and finished artist in his trade who has ever visited the Islands.

All work guaranteed. Telephone us your orders at once.

Carriage bolts, assorted sizes, per package. Axles, 2 1/2, 3 and 3. Fish Oil, per gallon. Rubber Packing, per pound. Emery Cloth, per dozen. Yard Brooms, per dozen. Sheep Skin, per piece.

There are some things, however, that people will buy before, during and after a campaign and one of these is Haviland China. We have sold this ware ever since we have been in business and it seems to be growing in popularity all the time. It is so different from other ware as we sell it because you can always have a complete set. We have duplicates of every piece sold so that if you happen by any accident to break a plate or a cup you can replace it at any time. In other decorated china once a piece of a set is broken your set is imperfect and cannot be made right except at considerable expense. With Haviland ware you can replace a broken piece at the same rate you pay for it when you buy a whole set. Our "216" pattern is considered by people here to be as handsome as any china manufactured.

A stove is as necessary an article as will be found in the house; the days of the kerosene tin for baking purposes are numbered in modern Hawaii; the advance of civilization across the Pacific has brought us, not only the American system of politics and Tammany methods, but the Fischer Stove Range. It does not matter whether you use coal at five or twenty dollars a ton or wood at ten dollars per cord, you will save money. A Fischer Stove Range will burn one-third less fuel than any other stove of the same size. Another thing in its favor is the fact that it will heat up quicker than any other style of stove. Fifteen minutes after the fire is lighted your chops and coffee are ready on the table. We have for these ranges both tanks for hot water and charcoal broilers. The water pipes are already in the ranges, so that you have little to do with the plumber when you take a Fischer Range. The charcoal broilers are attached to the range, and when you wish to broil a fish or a steak you can get the food close down over the coals.

We have in Iron Stoves what we consider the best cheap stove in the country. We sell on an average two every day of the Pansy Stoves, and have yet to hear of a complaint from a purchaser. They are economical of coal or wood and are sold by us at the lowest price possible. If you do not wish to go to the expense of a Steel Range, there is no better substitute than a Pansy Stove.

THE HAWAIIAN HARDWARE CO., 307 Fort Street.

As our Piano Tuner and Repairer has now arrived, we are prepared to take orders for work, which will be executed in the very best manner possible, as without question we have secured (in the person of Mr. G. H. Harrison) the most skillful and finished artist in his trade who has ever visited the Islands.

All work guaranteed. Telephone us your orders at once.

Rich Red Blood Results from taking Hood's Sarsaparilla.

Mr. Chas. Walker of San Francisco. "For several years I have been troubled with blotches and pimples on my face and body, which were very annoying. I tried several prescriptions, and also other medicines, but they did not seem to benefit me. Last fall a friend advised me to try Hood's Sarsaparilla. I was determined to give it a thorough trial. After using two bottles, my skin returned to its natural state. I still use it, as it gives me strength and vigor. I never had better health in my life, and I feel it is taking Hood's Sarsaparilla." Mrs. W. Walker, with her husband, Geo. W. Walker, 48 Eighth Street, San Francisco.

Hood's Pills are the best after-dinner Pills, assist digestion, cure headache. 25c. Holborn Newman & Co. Wholesale Agents.

SUBSCRIBE for the Best Weekly News-paper ever published in the Hawaiian Islands.

Try it for three months. It will cost you just a dollar. American money taken at par.

FOR a dollar you naturally expect to get a

dollars worth. The WEEKLY STAR will give it to you. One Dollar for three months.

THE question that now agitates the public

mind to the exclusion of the tariff and Hawaiian affairs is how to get the worth of your money.

WEEKLY payments are all

very well, but the WEEKLY STAR is satisfied if you will pay once a quarter, in advance, of course.

STAR. This word by itself looks lone-

some. So did the "Lone Star" of Texas, but it got there all the same, and is now a member of the brightest constellation old Mother Earth has ever known.

ENTERPRISE PLANING MILL, WE SELL
