NEXT WEEK'S MAILS

From the Coast—Matsonia, March 29; Lurline, April 2.  
To the Coast—Wilhelmina, March 30.

21st YEAR—NO. 1097.

WAILUKU, MAUI COUNTY, HAWAII, FRIDAY, MARCH 25, 1921

PRICE 7 CENTS

## PHONE SCHEDULE WILL CONTINUE FOR TWO MONTHS

### Utilities Commission Issues Order Which Extends Period For Rate Experiment Until First of June

Rates of the telephone company as now in operation are to be continued for two months from April 1 under an order of the Utilities Commission published elsewhere in Maui News this week. This is an extension of the experimental period from six to eight months. At the end of that period it may be put into permanent effect or changes may be made in the discretion of the Utilities Commission. There may or may not be held a further hearing of the subject at that time as the board deems best.

On March 19, the order increasing the period for the operation of the rates established by the commission for October 1 was entered in Honolulu for "good and sufficient cause."

It has been said that there was the probability of changes for Makawao zone which would make the rates less burdensome for residents of that section than at present. It would appear from the entry of the order that such changes will not be put into operation for the next ten weeks, at least.

Granting of the extension will operate to give residents of Maui more time to voice complaints against the system of charges now being employed, if they have any, and will mean the continuing of the Chamber of Commerce committee on phone rates composed of J. H. Gray, J. Garcia and E. R. Bevins. That committee is ready to put in shape for presentation to the utilities board any written complaints or suggestions that may be made to the members by subscribers or former subscribers of the telephone company.

It is not the intention of the committee to act of its own volition but it will take action if sufficient evidence of a desire for a change and of continuance of early dissatisfaction be shown to its members.

The January report of the company shows 1242 phones in operation, total receipts from telephone operating revenue of \$7034.88, telephone operating expenses of \$5737.09 and a net telephone operating revenue of \$1297.79 on \$158,937.26, or about ten percent.

## Another Move Made To Compell McKay To Give Up Office

In his effort to compell W. A. McKay to relinquish the office of district magistrate which he has held for the past 20 years, Eugene Murphy made another move this week when he instituted proceedings in habeas corpus to compell Deputy Sheriff George Cummings to release from custody 18 Chinese who had been arrested on charges of gambling and held for trial in the district court. Through deputy county attorney Frank Crockett on the return of the alternative writ yesterday afternoon Cummings offered a general demurrer which neither admitted or denied that the men were in his custody or under his control. Judge Burr said he would hand down a written decision.

In the habeas corpus proceedings Murphy takes the ground that the prisoners were taken before W. A. McKay and cites the previous decision of Judge Burr that McKay is neither de jure nor de facto district magistrate of Wailuku since the decision rendered in the quo warranto proceedings which held him ineligible.

Since that decision and the decision in the injunction proceedings which restrained the county auditor from paying Mr. McKay salary as district magistrate the latter has continued to sit in the district court.

### PELE ON RAMPAGE

Hailemauau most active since the whites came to the Islands is the report that came from Hilo Wednesday night. "Tornadoes of living fire swept out of the pit and circled the crater" that afternoon. "Clouds of lava were thrown on high and the earth trembled," said the report.

**Would Protect Teachers**—Under House Bill 255, introduced by Representative Jarrett, teachers and principals after three years service shall be entitled to positions of equal standing and pay and can be discharged only for immoral conduct, insubordination, inefficiency, conviction of a penal offense or an incurable disease. A test case principal at the end of five years service shall be entitled to a leave of absence of six months at full pay.

**Wilhelmina in Port**—The Matson liner Wilhelmina arrived this morning and will sail on her return trip Sunday evening.

## Program Deserves Name of Variety

### Outdoor Circle Has Arranged Entertainment For Thursday Night That Sets Pace For Amateur Affairs.

Reserved seats are going fast for the Variety Show which is to be given by the Lahaina Outdoor Circle next Thursday night. Lahaina has been keenly interested in and waiting impatiently for the presentation for weeks past and the interest is spreading to all parts of Maui, especially since the black and white posters have gone up.

Looking over the advance sheets of the program there is to be found reason for the acute interest that has been awakened and for the confidence of the members of the Outdoor Circle that they will give a show that will set a new mark for Maui.

There are six numbers on the program, the first being an Irish song by Fred Frizelli. Then will follow the "Black Cat Cafe" which will include "A Young Man's Fancy," Mabel Jackson and Gertrude Seong; "Kiss-a-Miss," Elizabeth Wall and Todd Willett; and chorus; "The Winsome Waiter," a dance by Mr. and Mrs. Butler Smith; "Chill Bean," Janet Todd and Todd Willett and will feature the Black and White Ballet composed of Hazel Smith, Opal Colbert, Cecily Permain, Hannah Brown and Lillian Thomas.

A cello solo by Frank Lufkin will follow and next will come a one act farce comedy, "Betty's Burglar," with Opal Colbert, Mrs. Butler Smith, Fred Frizelli and George Glick in the cast.

Mr. and Mrs. Mookini will then present "A Night in Hawaii." The first number of that feature will be Hawaiian songs in the rendition of which will participate Maude Farden, Mrs. Margaret Bruce, Lillian Whitford, Callanthe Kahuakini, Lily Apo, Mabel Espinda, Aurora Farden and Mrs. Rose Mookini. Instrumental numbers will be rendered by S. K. Mookini, Tom Ledward, William Bray, Fred Kanae and John Kama. Hula dancers are Hilda Espinda, Hilola Lloyd and Tamara Mookini; ululi players are Moses Kahuahaa and Masaichi Yanaba and lei girls Dorothy Mookini and Irma Farden. In this feature there will be presented seven numbers.

From the program it can be seen that the Outdoor Circle has interested an array of talent hard to equal on Maui and arranged a program that well warrants the word "Variety."

## Rain is Timely and Of Great Benefit to Old and Young Cane

In the nick of time came the rain which started in with what seemed in Wailuku to be a light shower early Wednesday evening. A good wetting down was sorely needed and in some parts of the island there was an actual shortage. Especially was such the case at lower Paia while up at the Kula Sanitarium some alarm was felt for there was but a few days' supply available.

Cane in the fields was suffering on most of the Central Maui plantations, not the young cane only, for the older cane was feeling the effect of conditions that began to approach drought. Manager F. F. Baldwin of Puunene yesterday afternoon said that the rain had come none too soon but in time to prevent serious damage to the present and the next crops.

Up to noon yesterday, according to reports from up-country, rainfall in the Haiku and Makawao districts had varied in different locations from two to three and one half inches.

In Wailuku the rainfall up to this morning was slightly in excess of two and a half inches.

### ISLAND ELECTRIC SALE

Sale under foreclosure of the Island Electric plant and franchise will be held at the Wailuku Court House Monday noon. So far as is known the Bond interests have no representative here as yet but it is expected their legal representative will be over from Honolulu. It has been announced that the bond holders will protect themselves by bidding at the sale and there is a report that another bidder will appear.

### ACTION IN REPLEVIN

Seeking possession of an automobile which she asserts was given her by Harold Filler, Betty Wrobleks has brought an action against Filler through Attorney Enos Vincent and the sheriff's office has possession of the car in dispute. Filler is represented by Eugene Murphy as attorney.

**Powers Extended**—The deputy sheriff of Wailuku would be deputy sheriff of Maui County under provisions of a bill introduced by Representative Goodness.

## Kahului Wharf Site May be Changed by Public Works Board

Indefinite postponement of the proposed meeting to consider changes in the Kahului harbor pierhead line will be requested of the U. S. Engineering department in Honolulu. The public meeting was to have been held in the Territorial building two weeks from tomorrow. The action was decided upon at a meeting of the trustees of the Chamber of Commerce yesterday afternoon and resulted from possible changes in the proposed location of the wharf.

At yesterday's meeting it transpired that the Department of Public Works prefers another site for the wharf from the one selected by Maui people. The site the board selects is 350 feet nearer to the shore. The board considers that it will be possible to furnish better access to public vehicles at the Inhove location and that the pier can be built more cheaply than further out, that the pier could be built and necessary dredging be done for \$650,000, which is \$50,000 more than the original appropriation. The inner location will subject vessels at the wharf to less swell.

Mauiites sought to show the board that the outer location was preferable since the territory would not have to dredge for a wharf at the point selected though it is admitted by all that the water will be smoother at the inner site. Mauiites fear there will not be sufficient dredging done to make certain that there will be no back wash which would prevent large vessels lying alongside. They contended that sufficient dredging would make the costs of the pier further in more than at the first proposed site. Steamship captains are divided in opinion on the subject.

Within a short time bids are to be sought and if such bids make it appear the Maui proposal would cost less than the one the board of public works favors, it is possible the board will swing to the first selected site. Meantime, if the inner side be selected there will be no occasion for a change in the pierhead line. Hence an indefinite postponement is asked so that, if the outer site be finally selected a hearing can be held while otherwise the subject would be dropped.

### CARDINAL GIBBONS DIES

James Cardinal Gibbons, archbishop of Baltimore died peacefully at his home yesterday morning, and there passes the most prominent figure in the Roman Catholic Church in the United States as well as a man admired and loved by persons of all sets and all creeds.

## Witness in Thompson Case Seeks to Secure His Fees and Mileage

In an effort to compell County Attorney Bevins to certify the certificates issued by the clerk of the court for witness' fees and mileage in the case of the Territory against Charles Thompson, Isaac Wallace has brought an action in mandamus through Enos Vincent, his attorney. In the circuit court and Judge Burr issued an alternative writ to show cause or to certify yesterday morning. The proceedings revive an old controversy as to the right of the attorney general to come in and conduct prosecutions.

In his application for the writ Vincent alleges for his client that Wallace was a witness before the grand jury and at the trial, that the clerk of the court issued a certificate to Wallace but that County Attorney Bevins has neglected or refused to certify to the correctness of the same so that Wallace could collect fees and mileage, that the statute is mandatory upon the county attorney to certify to the certificate of the court.

Commenting on his institution of proceedings Vincent said the certificate issued to Wallace was presented to Bevins in June a year ago and that the latter has refused to certify such certificate or those issued to ten other witnesses in the same case. He says that the grounds for refusal given by Bevins are that the witnesses were not called by him but by the attorney general and that he was in no wise responsible for the calling of such witnesses. Vincent also says that Bevins has refused to certify to witnesses' certificates in all instances where the attorney general conducted the prosecution.

In the absence of Mr. Bevins in Honolulu it has been impossible to secure from him a statement of his reasons for the course which Vincent says he has pursued.

On his return from Honolulu this morning Bevins said the reason he refuses to certify is that he did not call the witnesses, was not consulted as to their being called, does not know that they were essential to the conduct of the case and has no information on the subject other than what is contained in the court records.

## Kam Students to Entertain Maui

### Visitors Will Render Concert and Two Act Operata; Glee and Instrumental Clubs Will Participate.

Kamehameha School students while spending their Easter vacation on Maui will give an entertainment which will consist of a two part program. The first composed of musical selections and the second an operata in two acts. The entertainment will be held at the Territorial building a week from tonight, Friday, April 1, for the benefit of the Athletic Association of the schools and furnishes a genuine treat since there are included in the party young men of genuine talent and exceptional cleverness. In the glee club there are 24 voices and the instrumental club numbers seven members. Following the concert and operata there will be an informal dance.

The following is the program that will be presented:

- PART 1**
- 1—(a) "Where My Caravan Has Rested" by P. Puaa
  - (b) "The Sandman" D. Protheroe
  - (c) "Liliu" Glee Club with Instruments
  - 2—"Mamae" Solo by W. Lane accompanied by P. Puaa
  - 1—(a) "Lucky Jim"
  - (b) "Hanging Out de Clothes" Double Quartet
  - 3—"Trombone Duet—'Imi au i ne" A. Poepe and Mr. Langerstein
  - 4—"Kaala" Glee Club with Instruments
  - 5—"Sweet Lei Mamo" Glee Club with Instruments
  - 6—"School Song"
  - (b) "Hawaii Pono"
  - 7—"Jigamaree," a nautical operata in two acts forms the second part of the program. Arthur Mahoe takes the lead part of Jigamaree and George Certeio, John Spencer, Edward Naima, Milton Beamer, Walter Lane and John Simerson are six shipwrecked sailors. In the operata there are nine principal vocal numbers.
- The glee club is composed of George Certeio, Holi Katalau, Walter Lane, Robert Plunkett, Abraham Poepe and Allen Akana, tenors; Henry Kaahua, Bernard Farden, John Simerson, Charles Travis, Solomon Kenn, Milton Beamer, second tenors; Arthur Mahoe, John Nahale, Charles Kahuanaale, John Spencer, John Cornell and Moses Kekahio, baritones; John Ahuli, Clarence Hoku, Marcus Lee, Edward Naima, Timothy Montgomery and Eli Panee, basses.
- Members of the Instrumental Club are Abraham Poepe, leader; Walter Lane, Charles Kahuanaale, Charles Travis, Clarence Hoku, Paul Puaa and Edward Naima.

## Masons Will Conduct Public Ceremonies On Easter Sunday

Scottish Rite Bodies of Maui will hold public services in the Territorial building at Kahului Sunday afternoon. The services will be open to all Masons and their friends.

Tomorrow evening Scottish Rite masons will banquet at the Grand Hotel and at 7:30 o'clock Maundy Thursday ceremonies will be held in the Masonic Temple at Kahului which will be open to Knights of the Rose Croix only. James F. Fenwick will preside.

To assist in the ceremonies of tomorrow night and in the public ceremonies of Sunday several Scottish Rite masons of Honolulu are making the trip to Maui. They are T. H. Peire, who represents the Supreme Council of the Territory and is Deputy of the Sovereign Grand Inspector General; Walter R. Coombs, Master of the Honolulu Consistory; James F. Fenwick and Ed Towse, both Past Wise Masters.

At the public ceremonies Sunday D. H. Case, Past Wise Master, will make the introductory remarks and Ed Towse will deliver the main address.

## Kamehameha Students Come to Maui Tuesday

Kamehameha Schools students will come to Maui 130 strong on the Kilauea arriving Tuesday morning and weather permitting will go to Ohinda for a camping outing on the mountain. Returning to Kahului they will make camp at Kahului until Saturday night when they will take the Kilauea home.

While at Kahului the students will stage a musical entertainment Friday evening and a basketball game may be put on early Saturday evening. The visitors had hoped for a track and field meet but it has been found impracticable to arrange it.

Several former Kamehameha School pupils are interesting themselves in making the stay of the visitors a pleasant one.

## Gas and Electric Company At Kahului Seeks Charter

### Bill Granting Franchise Introduced in House of Representatives; Would Operate in Districts of Wailuku and Makawao; Must Start Operations Within Two Years and Has Backing of Strong Financial Interests.

Gas for fuel and lighting purposes and electricity for lighting and power purposes for the districts of Wailuku and Makawao will be furnished under provision of a bill introduced in the house by Representative P. J. Goodness known as House Bill No. 287. It provides for the granting of a franchise to D. C. Lindsay, his associates and assigns or a company to be formed for the purposes provided and the project is said to have some of the strongest financial support on Maui.

Increasing cost of fuel is one of the moving objects in the plan to form a gas-electric company and the establishment of the present amide plant and tanks of the Standard Oil Company at Kahului brought the subject to the fore. In addition to cost of wood and the decreasing supply of it combines the recognition of convenience, cleanliness and time saving by the use of gas in the house for cooking purposes. It was at first proposed to have only a gas company but was later enlarged in scope to furnish electricity if the occasion shall demand. Good and sufficient reasons for including the latter project can be found in the possibilities of former controlling interests of the Island Electric Company purchasing the property of that company at the coming sale under foreclosure. They would find a strong competitor.

The proposed charter is for 50 years, work must be started under it within two years, its property is exempt from taxation for seven years, it must pay two percent of gross earnings to the county and the county or either of the districts may, with the consent of congress purchase franchise and plant after 20 years. These are outstanding features of the proposed charter which follows in full:

**Section 1.** Manufacture and supply of gas and electricity. D. C. Lindsay of Kahului, Maui, Territory of Hawaii, his associates, successors, or assigns, or such corporation as he or they shall cause to be incorporated under the laws of the Territory of Hawaii, and its successors and assigns (he and they being hereinafter referred to as the association), are hereby authorized and empowered to manufacture, sell, furnish and supply electric current for light and power purposes and gas for use as a fuel, for illuminating purposes, and other purposes, which the association may deem advisable, in the districts of Wailuku and Makawao, County of Maui, for the term of fifty years from the date of the approval of this Act by the Congress of the United States, subject to the limitation in this act contained.

**Section 2.** Erection of buildings, and so forth. The association shall have the right to erect, construct, operate and maintain at such places, within the limits mentioned in section one, as the board of supervisors of the county of Maui shall approve, such buildings, machinery and appurtenances and such poles, lines, wires, cables, lamp posts, conductors, and such other appliances as may be necessary for the production, manufacture, and storage and distribution of gas and the transmission, distribution and supply of electric current to the consumer thereof, together with its various by-products, as may be required from time to time during the existence of the rights hereby granted.

**Section 3.** Pipes, wires, poles, lines, conduits, etc., in and over highways. The association, for the purpose of distributing such gas and electric current shall have the right from time to time to lay pipes or other conduits and erect poles, lines, wire, cables, lamps, lamp posts, conductors and conduits in, under or over the streets, roads, and public places in the said districts of Wailuku and Makawao, and whenever supply pipes and mains, lines, conduits and conductors shall be laid in connection shall be made and pipes shall be laid from said mains and lines to the property line of the highway for the purpose of supplying gas to the property holders adjoining such street, and each of such connections shall be provided with stopcocks inside of such property line, provided, that nothing herein shall prevent the laying down of additional branches or connections at any time when future requirements render the same necessary. But the methods by which such streets, roads, and places are to be used shall be subject to rules, regulations and approval of the board of supervisors, and all instructions and directions made by said board shall be strictly followed to the end that the general public shall be inconvenienced as little as possible; and provided likewise, that whenever any street, road, or other place shall be excavated or holes or trenches made therein for laying, main taining, replacing or repairing such pipes, conduits, or connection, or poles, lines or conductors, such holes or trenches shall be safeguarded and

refilled as soon as possible and the pavement, if any, and such street, road, or other place shall be replaced in good order and like condition by the association; provided, that if such repair or restoration shall not be made to the satisfaction of the board of supervisors, within a reasonable time, whereof they shall be the judge, they may cause it to be done at the expense of the association; and provided further, that the association may be required to furnish to the board of supervisors, before making any street excavation or alteration, a good and sufficient bond for a sum to be fixed by the board of supervisors to insure prompt replacement of such portions of the streets and pavement therefor.

**Section 4.** Meters, rates. The association shall also have the right to maintain and use gas and electric meters or other means for measuring the amount of gas and electric current used from time to time and in such places as may be deemed necessary and to operate the same for all purposes connected with the use of such gas and electric current and shall have the right to charge, receive and collect from all consumers of gas and electric current reasonable prices as it may from time to time fix and determine. Provided, however, that the prices charged to all consumers substantially under the same conditions and circumstances shall be equal, and shall also have the right to charge consumers or intended consumers of gas and electric current for the cost and expense of making connections between the mains and premises where such gas and electric current is to be used, and may also include the price for all connections, pipes, gas fixtures, wires, cables and other material necessary.

**Section 5.** Cutting off service. The association shall also have the right to cut off the supply of gas and electric current from any consumer so supplied by the association within such reasonable time as may be fixed for payment of the same; but such cutting off shall not prevent the association from using any remedies now or which may hereafter be authorized by law for collecting debts.

**Section 6.** Supervisors Judge of Quality. The rights and powers hereby granted shall be exercised in such manner as to cause the least inconvenience to the public and the association shall provide gas of the best quality obtainable, which quality shall be subject to the control of such reasonable rules and regulations as the board of supervisors shall from time to time deem necessary, and current of proper and sufficient voltage and amperage, and the buildings and machinery, with all appurtenances to be erected, and general plant to be maintained in connection therewith, together with the offices, books, and accounts of the association shall be open to examination and inspection at all times by the Public Utilities Commission of the Territory of Hawaii and the board of supervisors or some one duly authorized by them for that purpose.

**Section 7.** Two Years Limit. Section 7. Time of commencing work. It is further provided that the rights hereby granted shall cease and determine if operations hereunder are not commenced by beginning the construction of buildings or other works for manufacturing or supplying such gas, or by laying pipes or conduits in any of the streets, roads, or places and installing machinery or making suitable arrangements for the supply of electric current and purchase, erection and installation of poles, lines, wires and cables within two years from and after the date of approval of this Act by the Congress of the United States and also if sufficient works are not completed and in operation to supply gas and electric current, and if gas and electric current is not supplied within two years after such commencement.

**Section 8.** Mortgage, bonds. The association shall have power to mortgage the franchise hereby conferred to secure the payment of bonds or other monetary obligations incurred in the construction of buildings, machinery, pipes, conduits, poles, lines, wires, cables and conductors and appurtenances and the manufacturing and supplying of gas and electric current as provided by this Act.

**Section 9.** Exemption from taxation. All property of every kind and nature, forming or used as part of such gas and electric system, including this franchise, shall be exempt from any and all taxes under the Territory of Hawaii, until the expiration of seven years from and after the date of the approval of this act by the Congress of the United States.

**Section 10.** Revenue For County. Section 10. Payment to the County of Maui. One month after the expiration of the term of this charter (Continued on Page 7.)

PERSONAL MENTION

Mrs. H. P. Baldwin is in Honolulu. E. R. Devins returned from Honolulu this morning. Miss Gayle Lee is visiting friends in Lahaina. Worth O. Aiken left for Honolulu Wednesday night. Harry R. Penhallow left for the coast this week. W. A. Baldwin returned from Honolulu last Saturday. Paul Lada has returned from a week's visit in Honolulu. County Attorney Devins was home from Honolulu Saturday. Father Justin returned Saturday morning from a trip to Honolulu. Lawrence Gay was a returning passenger from Honolulu Saturday. William E. Engle made a business trip to Honolulu the last week end. Representative Paschoal was over from the legislative session Saturday. Mrs. H. A. Baldwin was a passenger to Honolulu by Saturday's steamer. Dan Conway, now on Maui for American Factors, visited Hana Tuesday. Moses Mokuakane has been promoted from station agent at Paunene to the same position in Kahului. W. C. Crook has returned from Honolulu where he had been visiting relatives. J. H. Kumea, tax assessor, has returned from a visit to Honolulu on official business. Sam Kalamu, chairman of the board of supervisors went over to Honolulu Saturday night. Judge L. L. Burr returned from a brief business trip to Honolulu Wednesday afternoon. William F. Kane, county clerk, has returned from Hana where he has been registering voters. Mrs. George William Weight of Kailua, two children and maid were visitors in Wailuku Monday. W. H. Seligson, manager of the New York Tailor Co., of Honolulu returned to Maui Tuesday morning. Mrs. Edward Beyum, Miss Dyer, Miss Peterson and Sevath Beyum are spending a week at Haleakala crater. Mr. and Mrs. S. E. Taylor and their two daughters expect to leave for a mainland vacation the latter part of April. Senator Harold Rice went from Honolulu to Hawaii last week to make investigation of subjects of legislation on the Big Island. Dr. J. C. Fitzgerald sailed from Honolulu this week and will proceed to the old country where his mother is seriously ill. Senator Harry A. Baldwin came over from Honolulu this morning and will return on the Wilhelmina Sunday night. William E. McGerrow, bookkeeper of the H. C. & S. Co. will visit Japan on a vacation trip, the first that he has taken for many years. Mrs. A. C. Bowdish has been present with a handsome wrist watch by friends in the congregation of Makawao Church. Senator Tavaros came over from Honolulu on the Wilhelmina and will return on the same vessel Sunday night. John Rocha, parts man of von Hamu-Young Company leaves for the coast next week where he will take a position with the Michelin Tire Company. Miss Adele Cornwell entertained at the Nurses' Cottage in Kula Wednesday in honor of Miss Helen MacFarlane. Miss Georgia Nast will sail from Honolulu next week with friends on the Golden State, on voyage for the Orient. She is taking a three months' vacation. M. R. Pereira, manager of Maui Publishing Company, made a brief business trip to Honolulu going over on the Saturday night Kilauea, returning Tuesday. Miss Maybelle Taylor has been granted three months leave as secretary of the Child Welfare Board and will take a vacation on the mainland. During her absence Mrs. Chatterton will fill the position.

Lahaina, March 31; reserve the date.—Adv.

Who are the people that should interest themselves in the question of beautifying Maui? Why—you and I, and friends and neighbors. Every unsightly or undesirable condition in the community or in the island reflecting on the island or upon the child mind to absorb the atmosphere of beauty. There is a vital element in the beautiful out of doors.

Pertinent Paragraphs

Kahului Ladies Aid—The Kahului Ladies Aid will meet at the home of Mrs. R. O. Humphries at Paunene next Tuesday afternoon at three o'clock. For Lahainaluna School—Provision for an appropriation of \$67,000 for Lahainaluna School is contained in the appropriation bill passed by the house. For Wailuku High School—Provision for the establishment of a junior high school at Wailuku is contained in house bill No. 277 introduced by Representative Goodness. Reimbursement Provided—House Bill No. 266, introduced by Representative Cooke, provides for refund to Alexander & Baldwin of \$3610 expended for making test boring for the new Kahului wharf. Assessor at Hana—Provision for an increase in the salary of the deputy tax assessor at Hana from \$150 to \$160 a month is provided in the appropriation bill which passed the house. Commands Hawkeye State—Captain John Diggins of the Wilhelmina is to take command of the Hawkeye State whose captain is to go to New York to take out another shipping board vessel. Wharf For Pukoo—For the construction of a wharf near Pukoo, Kealahou or Kamalo, Molokai, an appropriation of \$50,000 is provided in House Bill 276, introduced by Representative Goodness. Teachers Privileges Broadened—Under Senate bill No. 73 teachers who have taught one or more years in the recognized English private schools of the Territory shall be allowed half time for the purposes covered by act 114 of the laws of 1915. Social Workers Conference—Dates for the annual conference of social workers has been set from April 23 to 29. The conference will be held in the Library of Hawaii, Honolulu and several representatives from Maui expect to attend. Forgery is Admitted—Alipio Tomas, a Filipino, has pleaded guilty to forging and passing two checks aggregating \$115. He admits forging the same of S. Nagatani and of T. Hoshi. One check was cashed on March 5 and the other a week later. Farewell Reception—Rev. and Mrs. A. C. Bowdish who are soon to leave for the coast where Mr. Bowdish has accepted a call, a farewell reception will be given by Makawao Union Church at the Pala Community House on the evening of Friday, April 1. All friends are invited. Roads For Homesteads—Not to exceed \$15,000 for a road through the Alce homestead lots, makai of the main government road in Kula and \$10,000 for additional roads in the Haleakala homesteads are provided in house bills 261 and 262 introduced by Representative Paschoal. Many Japanese Depart—When the Kilauea left Kahului on Wednesday last week 57 of the 63 passengers aboard were Japanese. Other Japanese families boarded her at Lahaina. Several families were expecting to take the steamer for the Orient which was to leave Honolulu Thursday. Circuit Court Expenses—As provided in the bill introduced by the County Committee of the house salaries in the second circuit court would be clerk \$185, deputy clerk \$115, stenographer, court reporter and assistant clerk \$185, trustee or probation officer \$150. Expenses of such officer \$500, support of dependents \$350, new books \$250 and court expenses \$6000. Dance at Lahaina.—Tomorrow evening in the armory at Lahaina there will be a dance under the auspices of the church of the Latter Day Saints. Music will be furnished by Mrs. Kumea's orchestra. The dance given by the same organization in the Wailuku Gym was largely attended and highly enjoyable. Taxing Motor Vehicles—Taxation of motor vehicles is provided by Senate Bill No. 72 introduced by Senator Baldwin, motor vehicles to be weighed as when in ordinary use, taxed a cent a pound and deduction at the rate of 8 1/2 percent for each month less than the year for which they are in use. A car once weighed need not be reweighed each year unless alterations shall have been made. Cars in Collision—With a crash which attracted the attention of persons in all directions a Ford truck driven by Joe Silva and a Paige car driven by Dr. S. Hamamoto of Pala collided at the corner of High and Main Street, Monday afternoon. Silva was coming Wailuku on High street and Hamamoto driving down Main street. Silva claimed he sounded his horn and had a witness to corroborate him. Hamamoto claimed no horn was sounded. The front wheels of the Ford were knocked apart and the axle damaged and the aluminum fender of the Paige was badly dented. Lahaina Outdoor Circle show, March 31.—Adv.

Maui Woman's Club

The annual dance of the club will be held April 30 at the Paunene Club house. Admission will be fifty cents. The last club dance was splendidly attended and greatly enjoyed, and this will no doubt be just as delightful. The luncheon of the Study Department held at the home of Mrs. Bowdish at Sunnyside on Saturday last was a thoroughly enjoyable affair. A very interesting program is being prepared for the next regular club meeting by this department. The dues for the year have been coming in rather slowly, due, no doubt, to oversight on the part of some of the members. However, the annual election is fast approaching and all who have not paid dues are reminded that only those whose dues are paid up will then be entitled to a vote. Send in the amount due, \$2.00 for active members, to Mrs. James Thompson, Kahului, and be in good standing. Mr. Young, recognized as an expert landscape gardener, has been so kind as to prepare a plan for planting and beautifying the site on the beach just cleaned up for the purpose of establishing a park. This plan seems quite feasible and is favored by those in charge of this work. However, active work cannot be commenced until the return of Mr. Penhallow, and in the meantime the park site near the depot will probably be taken in hand. The next regular meeting of the club will be held Monday, April 4th, and as stated above, an interesting program has been prepared. The Humane Department is doing splendid work, but needs all the assistance it can get. If more club members would attend a meeting of that department, they would surely wish to become members of the department and assist in the good work being done. It is intensely interesting. Mrs. C. J. Deegs was made secretary, Mrs. Fitzgerald having resigned through press of other matters. This seems an appropriate time to speak of the work the press has done in connection with the Civic Department. Unlimited publicity as well as encouragement has been given at all times and this is in no small way responsible for the success that is being attained. For Near East Relief Maui Shows Generosity For the Near East Relief fund, including cash subscriptions made during the drive by the district committees, pledges to be met during the year, a collection taken by Makawao Church in advance and donations sent to Honolulu direct by the donors lift amount to more than \$4200 and some of the committee report that they have still some promises of subscriptions which have not been included in their returns. As an example of the interest shown in the drive may be mentioned Maunaloa Seminary where, in addition to cash contributions there were pledges of monthly contributions which total \$199.80 and the High School where the pledges total \$260 for the year. Haiku, Makawao and Keanae lead the districts of Maui with \$929.50 in addition to the Makawao Church collection of \$624.31 and Wailuku is second with \$767.91. Kahului, Paunene and Camp 1 raised \$477.30, Lahaina \$475.30 and Pala and Hamakua \$465.30. In Hana district the same effort could not be made as in other parts of Maui, there were not the addresses in churches and in schools and the contribution of \$72.50 under such circumstances and with a sparse population is considered creditable. The sum raised is about \$1000 in excess of what was expected from Maui. A Night in Hawaii; March 31, at Lahaina.—Adv.

OBITUARY

FRANK ENOS News of the death of Frank Enos in Honolulu was received by relatives and friends on Maui this week. His death occurred a week ago Thursday. The deceased was born at Wailuku and lived most of his life on Maui. He was employed until a few months ago at the cannery at Haiku as an automobile mechanic. He sustained serious burns here and later went to Honolulu. About a year ago he was married and is survived by the widow.

IN THE CHURCHES

Makawao Union Church A. Craig Bowdish, Minister. 10:00 Sunday School. Special Easter program in which the Pala Japanese Sunday School has a share. 11:00 Morning service with "The Easter Spirit" and appropriate music. 7:30 Vesper service, "Christ, the Victor" by Dudley Buck will be given by the choir and chorus. School Notes

Way up the side of Haleakala is Kuiaha school and in attendance is to be found as fine and ambitious a lot of healthy youngsters...

Kuiaha, Maui March 19, 1921

Editor Maui News, Dear Sir:

I am going to drop you a few lines to let you know how glad I am to write to you. I am very much pleased with the silver cup. It is a beauty. We won it from the Third Maui County Fair. It is silver outside and gold inside.

Our gardens are growing well. I watered my garden.

We made liberty bells on Washington's birthday and now we are making Easter flowers for Easter. My teacher says if we are good she will give those who can bring Easter eggs to put around the room. We hope to have a good time.

Yours truly, ROBERT LEE FERGUSON.

Kuiaha, Maui March 16, 1921

Editor Maui News, Dear Sir:

I am writing to tell you about our little school.

In our school we enjoy doing hand work. We like to draw, color and cut pictures, we like to sew and we have gardens too.

About two years ago we won the first prize in the Garden Contest and now we are trying to win it again.

Last week we received the Silver Cup which we won at the Third Maui County Fair. We are proud of it. It has two handles and is almost a foot high.

Everybody who comes here admires it very much.

The judges have been here to visit our gardens and we were glad to see them.

Yours truly, CHRISTINA F. CAIRES.

Amendments to Motor Tax Laws Proposed

Senator H. A. Baldwin introduced a bill in the senate last week known as Senate Bill 72 to amend Chapter, 83 Revised Laws, relating to taxation of vehicles. Automobiles are given most attention. Says the bill, in part:

"It is provided, however, that whenever it shall be made to appear to the sheriff or his deputy that any motor vehicle has been acquired subsequent to January 1 of the current year by the person seeking to register the same the tax to be paid thereon shall be as herein provided less eight and one-third per cent for each month or fraction thereof which shall have elapsed since such acquisition. And it is further provided that motor vehicles owned and brought into the Territory for temporary use therein by non-residents of the Territory shall be exempt from the provisions of this act relative to the payment of taxes and display of number plates for a period of three months from the date of entry of such vehicle into the Territory, if such non-resident has complied with the law of the state or country of his domicile relative to the payment of taxes and registration, and shall display on such vehicle the number plates for the current year required by the law of such state or country."

"After the initial payment of the tax herein specified a motor vehicle shall not be required to be reweighed in any succeeding year unless the same has been so altered or changed as to increase or diminish the weight thereof."

"All new motor vehicles carried in stock for purposes of sale shall, for a period of three months only, and all publicly owned motor vehicles shall be exempt from the tax herein provided for, and number plates for all such motor vehicles may be issued as now or hereafter provided by ordinances of the counties or city and county."

There's this about eating at home—you don't have to get up from the table and tip the highwayman for waiting on you.—Milton (Ore.) Eagle.

MAKES ONE HUNGRY JUST TO THINK ABOUT THIS

On Saturday, April 2nd, hitch up old Dobbin or climb into your auto and drive to town, and while you are there don't forget to be on hand at the Maui Hotel when the doors open at 10:30. There will be the usual good things on sale, home-made cake, pies and bread. There will be laulau too and the kind of candy which only Maui ladies know how to make. You will want to take a box home to the kiddies. You will not need to bring your lunch as a good one will be served you if you want it including a cup of hot tea. Don't miss this opportunity to have your Saturday baking done for you. Positively nothing will be sold until the doors are open so come early and get first choice.—Adv.

The market report says that coffee is weak. Why not let it percolate a little longer?—Mitchell (Ind.) Tribune

IN THE CIRCUIT COURT OF THE SECOND CIRCUIT, TERRITORY OF HAWAII.

At Chambers.—In Probate. No. 1877.

In the Matter of the Estate of Kam Ten Bow, Late of Lahaina, Maui, Deceased.

Petition of Kam Shee for the Appointment of Charley Kam Yau as Administrator of Said Estate.

IT IS ORDERED that Thursday, the 7th day of April, A. D. 1921, at 10 o'clock A. M., or as soon thereafter as the same may be heard, be and the same is hereby appointed for hearing the said petition in the Court Room of this Court, at Wailuku, Maui, Territory of Hawaii.

Dated the 26th day of February, A. D. 1921.

BY THE COURT: HENRY C. MOSSMAN, Clerk.

(SEAL OF COURT) D. H. CASE, Attorney for Petitioner. March 4, 11, 18, 25.

THEATERS

"Idols of Clay"

"Idols of Clay," is a production of sensuous beauty. The South Sea backgrounds are those a veritable artist would select to paint. They are pictured from an appreciative point of view with always a certain indefinite glamour suggested that be speaks marvelous camera work.

Perhaps less attractive but none the less fascinating are misty and mystical glimpses of the Limehouse district in London. They hint at deeds dark and strange; mystery flits in and out; the spectator feels suspense aroused by consciousness that "something must happen."

From the outset a girl of warm temperament and pure ideals is thrown into strong contrast with those whose "Idols of Clay" stir nothing but animal passion and hideous greed. Even the man who wins her single-hearted adoration is no gallant adventurous youth of motion picture legend but a cynical egoist, spoiled by previous misadventure, accustomed to value everything only in reference to his own personal interest. Nothing saves her with him and during her soul-destroying experiences except native moral sanity and sweetness.

"The Wolf"

The trait of superstition, commonly attributed to simple folk, but which, in fact, is to be found in all minds, receives dramatic treatment in Vitagraph's new film, "The Wolf," with Earle Williams as star.

It is the omen of the wolf howl that expresses the human trait in "The Wolf." Jules Deaubien, the French-Canadian trapper, while trudging through the trackless forest to the town where he has been told he has a sister he has never seen, hears the howling of a wolf. In the next moment his foot stumbled upon an object in the snow.

The object proves to be the form of a dead girl with an infant on her breast. This girl was Jules' sister.

It occurs again in "The Wolf" when Hilda MacTavish, the persecuted, frightened little creature whose charm has inspired a man to seek her ruin, hears the wolf howl. She accepts the sign as warning.

"Fall of Babylon"

"The Fall of Babylon" as big as "Intolerance," a spectacular romance dealing with the ancient city of Babylon and produced with all the wealth of barbaric customs and garb of that day. This is one of the biggest pictures ever brought to Maui.

There are remarkable pictures showing King Cyrus, standing in his great chariot ordering the siege of Babylon.

"Lure of Ambition"

"Lure of Ambition," the William Fox superproduction featuring Theda Bara, is an unusual as well as intensely dramatic photoplay.

As the title indicates, the story is founded upon the proposition that a woman of adequate will power can scale any heights if she is fired by ambition. In this case Olga Dolan, the role enacted by Miss Bara, is a girl of the utmost determination to succeed in order to compensate herself for a vital wrong done her by Cyril Ralston—whom she foolishly loved.

Miss Bara makes Olga Dolan one of the most interesting of screen heroines. She gives a wonderful impersonation of the girl who is transformed from a trusting creature into a woman of the world.

"Strictly Confidential"

True comedy at its best is revealed in Madge Kennedy's new and delightful Goldwyn picture, "Strictly Confidential." The story is the film version of Jerome K. Jerome's interna-

## WILL MEET MAUI'S NEEDS

Desire to furnish the Maui reading public with a news service in keeping with the social and industrial advancement of the community was the moving influence which led the stock holders of Maui Publishing Company to endorse the proposal to make this newspaper a semi-weekly publication with fresh telegraph news of the day from the outside. They recognize as does the management of the paper that Maui has progressed from the day when a purely local paper issued once a week met the public needs and they believe that Maui is ready to give adequate support to the project.

In the past six months the circulation of Maui News has increased about 25 percent and its management is fully convinced that further increases of readers will result from the proposed change. It has no doubt of the support of the reading public.

In the same period there has been a steady growth of the recognition of the value of the paper as a medium of publicity, as an advertising medium and the management believes that adequate support from the business community will be forthcoming, of this, however, it will require definite assurance.

Enlargement of equipment, increased mechanical force, added expense for telegraph service will be required to put Maui News on a semi-weekly basis. Except at a practically prohibitive price no newspaper could meet operating expenses from its receipts from subscriptions and sales. Just as a railroad or steamship company must secure the greater part of its revenue from freight carried rather than from passengers, so must a newspaper secure the greater proportion of its income from the advertising it carries. Circulation of the newspaper is like the passenger service of the rail or water transportation company and advertising is to the newspaper what freight is to such other companies.

If Maui News is to be conducted successfully as a semi-weekly paper and is to grow with the community until it is a daily newspaper, it must have the support of the business interests of the community. It must have added support and that support must come from concerns not now represented in its advertising columns, that is the advertisers as well as the reading public must get back of the project and show that they want to give their home county the best it can afford, it is in that respect a call upon the public spirit of the business community.

But Maui News is not asking for a subsidy or for gifts. It is selling something of real intrinsic value, publicity, and it is giving value received for the business support it secures. At the present time the number of its readers in the English reading population of Maui is about equal to the other Maui and Honolulu papers combined. Published twice a week it will give double the publicity to the users of its advertising columns.

Nearly all publications have made considerable increases in their advertising rates, those of Maui News have been but slight and a comparison of its rates with those of the Honolulu papers will show their reasonableness. While numbers of new features will be introduced besides the furnishing of telegraphic news it is not the intention of the management to increase advertising rates. It will ask present advertisers to give at least the same support they are now extending to the paper and it will ask the other business houses of the community to make use of the advertising columns proportionately with present patrons.

Maui News is an All-Maui paper for all Maui and the stockholders have evidenced this in increasing of the size of the directorate so that all sections of the County which are in convenient reach of the county seat are represented on the board. It is not a paper for Wailuku alone but for All-Maui and it will seek to secure each issue and give to its readers news from every part of the county.

Frequent inquiry has been made in the past week as to when the changes will be made. As has been said, additions to the plant are needed and as soon as new machinery has been secured and installed and there is an assurance of the additional advertising required to meet the increased expenses, Maui News will become a semi-weekly. It is up to the Maui business community and this paper hopes to have its plans in operation in about three months. Maui is to have just as good a newspaper as it is ready to support, and according to the business which Maui people send to it Maui News will meet the demands for further growth and improvement that may be made apparent.

## NEW ENTERPRISE ON MAUI

Residents of Central Maui will find much to interest them in the proposed charter for a gas and electric company for Wailuku and Makawao which Maui News publishes in full in this issue. Especially will the proposal to furnish gas for fuel be welcomed by residents of the district.

Wood is becoming scarcer each year. There is a growing recognition that the forests must be conserved and new forests created and as the supply of wood decreases population is on the increase and demand for fuel is larger, which means steadily advancing prices. All who have used gas for cooking recognize the cleanliness and convenience of it as a fuel and its economy in money costs and expenditure of labor. Its safety as compared with kerosene and gasoline is also to be taken into consideration and its common use would tend to keep down the number of fires in dwellings. Operation of such a service company will mean a long step forward for Maui households.

As to the furnishing of electric current much is left to surmise. One thing is evident, however. If those formerly in control of the Island Electric Company seek to secure and operate the company at and following the foreclosure sale they will find no clear field, but a rival that will have in advance the friendship of Central Maui. If, on the other hand, the bond holders buy in, it might well be made possible that an arrangement might be made with a new company whereby such bondholders would be safeguarded in some way.

As to the provisions of the proposed franchise: They appear fair to the company and to the public. In starting such an enterprise, with a large preliminary outlay for plant and material and until a business can be built up it seems only just that the company should be exempt from territorial taxes for a time, and seven years is the period provided. However, the company will be a source of revenue as well as convenience to the county in the meantime for the charter provides payment of two percent of its gross earnings annually.

Other provisions cover the right of the county or either district in which the company operates to purchase the plant of the company at its just valuation at the end of 20 years.

It would appear that Mauites will be back of the project, favor the passage of the bill and its ratification by congress and welcome the proposed new company.

## GOSSIP IS POISON

Remarkable is the special report recently handed down by the grand jury in Honolulu which had been investigating reports of the "wave of crime," especially stories of assaults upon young girls and women. While it finds some foundation in fact the report is most unusual in that it criticises and condemns those who are responsible for the circulation of such stories involving the names of innocent women and girls to the mental anguish of the latter and to permanent injury to their

## The Optimistic Pessimist

"Accounting for Women" says a headline. Masculinity, especially the married brand, has long since decided there is no accounting for women.

"The Girl on the Job; It Pays to Advertiser," a heading in the Advertiser recently, has no reference whatever to modern feminine fashions though it would have been appropriate if printed over a picture displaying the most modern modes for girls.

Discontent when allowed to run into frenzy is death to ambition and progress but when used as a spur to endeavor makes for achievement and success as does no other stimulant. But for discontent with present conditions the world would be on the retrograde.

"Ministrel show a howling success" says a Garden Island headline. Once there was a metropolitan reporter who so described a grand opera and then there was a howl.

It is not to save the sugar crop of Maui that so many visitors from the other islands become so enthusiastic on the subject of internal irrigation nor do they use water in conducting their experiments and observations.

One woman can make a happy home or make a home happy but two women can make it—never mind, don't try the experiment.

A Kansas paper has found a cat that lives on bark. Seem's as if it were not uncommon in some places to feed chips to the kitty.

Florida burglars tried to rob a bank that had failed two weeks before. Now the question arises was the bank lucky or unlucky.

Footless hosiery is said to be the latest vogue in Paris. It is about the first Paris fad that was easier to follow than not and will save a lot of darning.

A mainland storekeeper complains the trouble with merchandising is there are too many women on the wrong side of the window. He might try judicious newspaper advertising; experienced dealers say it really brings results.

Whisky and beer are not merchandise is the decision of the Federal Court at Seattle, holding them not to be liable for import duties. Quite so. Genuine whisky or beer are now curiosities in many parts of U. S. A.

There was a time when the girl in her early teens insisted she was old enough to wear long skirts but now she is equally insistent on her right to have her skirts shortened. Such are fashions.

Those who lament the divorce evil and seek a remedy in making divorce more difficult may find the real seat of the trouble is in making marriage too easy.

If as many people could really sing as think they can sing life would be one grand, sweet song. If those who think they can sing knew what their neighbors think there would be no more mob singing.

reputations. The report goes so far as to suggest enactment of amendments to the slander law.

Condemnation of such tale bearing or gossip may well apply to communities other than Honolulu though the occasion for such commendation arose there. In every community the fair name and fame of a girl or a woman is a precious possession to her. To have them blasted because of the act of another for which she has in no way contributed is an unbearable hardship. Thoughtlessness on the part of the gossiper is no excuse for, as result of word of mouth publicity, a girl or woman is subjected to most painful notoriety, and worse, at the very time she most needs sympathy.

While it is generally agreed that where a woman suffers such a serious wrong, is the victim of violence, she should be subject of no censure, yet, such has been the trend of society that she is thought less of for her misfortune. This the gossiper does not take into consideration as they spread the poison that is death to reputations.

Any reputable newspaper will refrain from the publication of the name of a child that falls into trouble because of the injury that may result in years to come when the story may be revived no matter how upright may have been the later career. And so with women. Even if the story be a narrative of fact, it is not one to be passed from mouth to mouth, not a subject for ordinary conversation. Ordinary humanity demands it should be otherwise until public sentiment is revolutionized from what it is today, until the social attitude has been changed.

## A NEW HAWAIIAN RACE

From statistics gathered by Bishop Museum it would appear that here in Hawaii there is growing up a new race, that while the pure blooded Hawaiians are steadily decreasing in number there is appearing a mixed race, strong, virile and productive.

It is interesting to know that, contrary to general belief the Japanese are not the most prolific people in the Islands but that Part-Hawaiians, Portuguese and Porto Ricans show a higher birth rate. The Portuguese and the Porto Ricans do not increase in number rapidly, however, since many emigrate. Not so with the part-Hawaiians who are inclined to remain in the land of their birth.

One of every six women of Caucasian birth in the Islands marries a Hawaiian or part-Hawaiian and other figures go to show that a large percentage of part-Hawaiian women marry either Hawaiians or part-Hawaiians, another large proportion marrying with Caucasians or with Chinese. The figures also go to show that the new stock is better able to withstand disease and is, in that sense more vigorous than their Hawaiian ancestors as well as being more prolific.

According to an article published in The Advertiser, Maui is not included in the itinerary of the excursion that is to dedicate the Hawaii National Park. Secretary Armitage of the Tourist Bureau disclaims any responsibility for his organization and has written to seek Maui's inclusion, W. O. Aiken is also taking action. He believes in any event park officials will stop here. Here's another argument for more publicity for Maui.

In the bill relative to court expenses as introduced in the house of representatives only \$6000, the old figure, is provided for Maui, in addition to clerk hire and employes of juvenile court. The provision for purchase of law books is also too low. In the senate the bill should be so amended as to make \$6000 a minimum for expenses with power in the board of supervisors to appropriate more if necessary.

B. L. T. is dead. Thousands upon hundreds of thousands were the readers of his "Line-o-type or two." He was one of the first great "columnists" of the present day newspaper world and many have been his imitators, but he towered above them all.

It is hard for children to reverence little more than half of a ragged flag such as floated from the pole of Keahua school this week. Seldom has a poorer excuse for the grand stars and stripes been seen fluttering anywhere.

"Truancy in rural districts, real menace," says a headline. In Maui non-attendance in the upper grades is not occasioned by truancy so much as by the lack of higher grade schools to attend.

May the Hawaiian race be long in passing and may the best of its many splendid qualities be preserved in permanency in the new race is a hope this paper is glad to express.

The Advertiser is reminded there is no such place as "Kilauea National Park." It is Hawaii National Park in which is included Kilauea and Haleakala as well.

## Insurance Company Offers \$50 for Slogan

Additional Prize of \$25 Offered for Letter Giving Best Reasons For Patronizing a Home Insurance Company

THE Home Insurance Company of Hawaii, Ltd., will pay \$50 for a slogan for use on its stationery, etc. An additional prize of \$25 will be paid of the writer of the best letter of less than 500 words setting forth reasons why people who live in Hawaii should keep their money circulating at home by taking their insurance in a company organized and having its home office here.

Contest is open to all, with no conditions except that you make your slogan short, and do not exceed 500 words in your letter. The shorter the better chance of winning. Write on one side of paper only. Contest closes June 30 at noon.

Send your slogan or your letter to

**C. D. LUFKIN, Agent**

## Profit in Iron

ORDINARY iron has no chance to return a profit, because what you build with it rusts out before it has time to do so. Only one thing prevents iron from rusting—purity. Armco Ingot Iron is 99.84 per cent pure, and is guaranteed by the American Rolling Mill Co., its makers to resist rust longer than any other iron or steel made. If you ask it, that guarantee is backed by a bond.

There is an Armco product for every purpose where iron is used.

## Standard Oil Co. Manager Gives Data On New Petroleum Lubricant Product

J. F. Jeffries, manager of the Standard Oil branches in the territory said in a recent conversation with a representative of this paper: "Lubricating systems of automotive engines are almost universally of the circulating type. The amount of oil pumped always exceeds the actual amount required by the bearing surfaces for lubrication, the surplus flowing back to the main reservoir to be again circulated by the pump; thus it is apparent that the entire oil supply is uniformly affected by any deteriorating influence arising from engine operation, and that any foreign matter present is mixed with the entire body of oil. Oil deterioration resulting from engine operation is caused by:

1. Fuel passing the pistons.
2. Carbon.
3. Road dust.
4. Water in crankcase.
5. Metallic particles.

### Fuel Passing the Pistons

"If fuel should be poured into the crankcase of an engine by mistake, the operator would insist that it be drained and fresh oil put in because the lubricating value of the oil would have been seriously impaired. Yet to a certain extent this dilution is going on continually during ordinary engine operation.

"The fuel is mixed with air and converted into a vapor by the carburetor but some heat must be supplied to the mixture to prevent condensation before it reaches the combustion chamber. The heat supplied to the charge is not always sufficient, with the result that at times more or less of the fuel is in a liquid state when it reaches the cylinders. Also, when the engine is cold, a portion of the vaporized fuel will condense upon the surface of the combustion chamber.

"Fuel can not get into the lower crankcase except by escaping past the pistons. If admitted into the cylinders in liquid form more or less of it will get by the pistons.

Leakage, between the piston and cylinder walls during compression and power strokes, allows a small amount of fuel to pass down into the lubricating oil in the crankcase. The amount of fuel mixed with the lubricating oil in this manner is dependent upon the mechanical condition of the engine, the skill and care of the operator, the kind and quality of the lubricating oil, the fuel used, and conditions of operation.

If the cylinders and pistons are out of round, scored or too loose in the cylinders, this leakage will be increased. Piston rings should bear evenly against the cylinder wall and the gap between the ends of each ring should be no greater than necessary to allow for expansion without binding. The rings should also fit properly in the grooves in the pistons.

"Maintenance of the piston seal is also dependent upon the quality and condition of the lubricating oil in use, which must be of the correct body to fit the requirements of the engine to be lubricated, and which must not be allowed to become excessively thin from fuel dilution.

"Proper operation is important, as much can be done to reduce crankcase dilution in starting and driving the automobile or truck.

"The lubricating system of the engine should always function as intended so that oil in proper quantities will be deposited on the cylinder walls.

"Improper manipulation of the carburetor 'choke' or priming device will cause excessive crankcase dilution by supplying a surplus of liquid fuel, some of which will get by the pistons into the crankcase. Until the engine has warmed up sufficiently it may be necessary to use the choke, but it should be controlled so as not to permit more than the necessary amount of fuel to be drawn into the engine.

"Where the use of the engine is intermittent, with frequent starting and stopping, imperfect vaporization and excessive fuel condensation in the combustion chambers are bound to occur because the engine does not become sufficiently warmed.

"The throttles on most carburetors are adjusted so that in the closed position, a small opening remains, sufficient to keep the engine running slowly. When going down long grades drivers frequently shut off the ignition, using the engine as a brake. Engine temperature is thus rapidly lowered while fuel continues to be drawn into the combustion chambers. This fuel is not burned but condenses as the engine cools off and escapes past the pistons, washing the lubricating oil film from the cylinder walls, and passes to the crankcase, further diluting the oil supply.

"Fuel condensation in the combustion chamber will also be increased when the carburetor delivers a mixture which is too rich.

### Carbon

"The center of the piston, being exposed to the heat of combustion, reaches an extremely high temperature. A portion of the oil thrown up by the revolving cranks strikes the underside of the piston head. In time a deposit of carbon or charred oil will be formed on this hot surface, some of which will be thrown off by the reciprocating motion of the pistons and mixed with the crankcase oil. Fuel carbon, formed in the combustion chambers and back of the upper piston rings, works down past the pistons into the oil. This is particularly liable to occur where pistons and rings are poorly fitted or badly worn.

"This carbon has a damaging effect as a portion of it will remain suspended in the lubricating oil and be carried to the bearing surface, producing undue wear. It also tends to form a sediment or deposit which in time ac-

## Farms of Hawaii Show Good Growth

### Figures Issued by Census Bureau Show Handsome Gain in Area Under Cultivation in Ten Years.

Preliminary figures relating to farms in Hawaii and the nationality of those operating the farms have been received from the bureau of census, such figures being subject to correction.

The number of farms in Hawaii, according to the recent census, is 5,284. These farms contain 2,702,345 acres, of which 435,242 acres are improved land. Since 1910 the number of farms has increased 32.3 per cent; the total acreage, 3 per cent; and the improved acreage, 42.7 per cent. Sixty-five and five-tenths per cent of the total area of the territory is in farms, and 16.1 per cent of the farm land is improved.

The number of white farmers is 892, of which 627 are owners, 34 managers, and 131 tenants. Of the 679 farmers of the Hawaiian race, 546 are owners, 14 managers, and 119 tenants. The 3,098 Japanese farmers included 188 owners, 11 managers, and 2,899 tenants. The 560 Chinese farmers comprise 56 owners, 7 managers and 497 tenants. The 55 farmers of all other races include 2 owners, and 53 tenants. The number of female farmers is 333.

The value of all farm property is \$151,129,085, as compared with \$96,363,229 in 1910, an increase of 56.8 per cent. The value of land is \$116,509,084; of buildings, \$12,622,240; of implements and machinery, \$14,744,916; and of live stock, \$7,252,845. As compared with 1910, the value of land for 1920 shows an increase of 49.1 per cent; of implements and machinery, 63.4 per cent; and of live stock, 64.6 per cent. The average value of land and buildings per farm is \$24,438, as against \$19,197 in 1910.

### Few Farms Mortgaged

Of the 540 mortgaged farms, only 489 reported the amount of the mortgage debt. The value of the 489 farms for which complete mortgage reports were secured is \$2,778,254, and the amount of the mortgage debt is \$1,104,568, or 39.8 per cent of the value. The average rate of interest paid is 5.8 per cent.

**Burglary at Wholesale**—George McCarthy, arrested by the Honolulu police has confessed to being implicated in 38 burglaries.

Oil Company product, manufactured expressly to meet the requirements of a correct flushing agent. It has the necessary cleansing qualities and at the same time sufficient lubricating quality to prevent damage. Any small amount left in the crankcase after draining will not impair the lubricating value of the fresh oil.

"In general, it may be said that automobile engines should be drained and flushed at least every 750 miles trucks every 500 miles tractors every 30 hours and airplanes every 8 hours. It is impossible to over-estimate the importance of performing this operation at regular intervals and in the proper manner. Attention to this detail will result in longer life of the engine, fewer repair bills and more satisfactory operation.

"As it is at times inconvenient for the owner or operator to drain and flush the crankcase, a number of prominent garages, repairs shops and service stations in every city and town in this territory have arranged to furnish this service. They carry a supply of Calol Flushing Oil and zero-line in the different grades required.

"For the guidance of motorists, the Standard Oil Company has supplied each garage, giving this service with distinctive modern crankcase cleaning service signs, which indicate that the garage is equipped to give crankcase service.

ALOHA LODGE NO. 3 KNIGHTS OF PYTHIAS.

### in Variety of Uses

The uses of White Trucks are so varied and widespread that there is literally no transportation undertaking in any line of business in which they have not had a part.

### in Long Mileage Records

There are numerous owners' records of 100,000 miles, many of 200,000 miles and some of 300,000 miles.

### in High Earning Power

The earning power of White Trucks results from low costs and high performance, without a parallel in motor trucking so far as we have any records.

### in Fleet Installations

No fleet record of truck owners has ever been published which compares in extent or progressive growth with the White Annual Roll Call.

### in Service to Owners

Millions have been invested in White owner service and factory facilities built up throughout the country, which have taken years to perfect.

## MAUI TWENTY YEARS AGO

(From Maui News, March 23, 1901.)

The Mariposa and Ventura, leaving Honolulu, March 27 and April 2, will have no passenger accommodations and the Zelandia will relieve the congestion occasioned by the advent of the Shrimers.

The four masted Barkentine Hawaii, Captain McLeod, formerly in command of the Lurline arrived off Kahului, Thursday afternoon with coal for Kihel.

Owing to rough weather the Kinau did not stop at Maalaea Bay on her trip to Hilo this week.

The road roller is at work between Wailuku mill and the depot with superintendent Bal in charge and a magnificent piece of road is being laid.

Registered mail by every Friday's Mauna Loa will be landed at Lahaina and brought to central Maui each Saturday by the stage.

Commissions have been issued to Captain Keola and Lieutenant Cummings of Company I.

A hundred foot signal pole is being erected at Kahului. The pole will be set eight inches deep in cement and will be further braced by four heavy wire cables. It will be used of signal vessels at sea and eventually a wire may be attached to its top so that it may be used for receiving wireless messages.

Two deputies inspectors of the revenue service are over from Honolulu with a Chinese interpreter in the matter of registering the Chinese of Maui and will begin work as soon as the photographs of the Chinese are ready and continue until about the middle of June after which all Chinese who have not been registered will be deported. More than 1400 have been photographed here preparatory to registration.

W. H. Field of the Maui Hotel and Drug Store has returned from Honolulu, bringing with him furniture for the new hotel which is now being put in and the establishment will speedily be ready for occupancy.

F. H. Hayselden has brought over from Lanai 16 horses and four mules which were sold at auction yesterday, bringing good prices.

There was a break down at Wailuku Mill, Wednesday morning and it was thought it might be necessary to close down until the arrival of the next boat from Honolulu but a substitute casting was obtained from Paia and grinding was resumed.

A neat piece of detective work was done at Kahului last Saturday and resulted in the capture of John Wood who burglarized the Camp 5 Store at Spreckelsville. The attention of the head bookkeeper, Walker and of Jack Kaonohi in the lumber yard was attracted by the peculiar actions of a negro. Kaonohi concealed himself, watched Walker enter the lumber yard and enter a hiding place. Then policeman was called and the burglar with goods valued at \$750 was captured.

From the first annual report of the superintendent of public works it is learned that the total cost of Wailuku water works is \$32,194.16 of which

\$16,725.36 has been expended and the balance will have to be provided for by appropriation. The total length of pipe laid is 39,400 feet of which 15,040 was six inch, 17,000 four inch, 7085 three inch and 375 two inch. There are 136 rate payers and the annual income is \$2719.

Two negro boys who stole watches from Mori's store in Kahului have been committed for trial at the June term. Dorsey who received one of the watches and sold it has also been held.

### Telegraph News

Former president Harrison died on the afternoon of March 13.

The Cubans have threatened to force an extra session of congress for the consideration of the Cuban question.

England is considering putting a duty on sugar.

A flying machine to drop explosives is being built in London.

Congress appropriated \$1,400,000,000 at its recent session.

At last reports 90 bodies had been recovered from the wrecked Rio de Janeiro.

Japan may require territorial concessions at Fukien as the price of her withdrawal of troops from China.

There is serious trade outlook in Austria, Germany and Italy.

The progress of bubonic plague cases is causing deep anxiety at Cape Town. The government has decided to remove all people from one third of the city and to cleanse it. Every precaution will be taken lest the disease should spread to the troops.

Arrangements had been made for the simultaneous launching of four new warships in Great Britain on March 8, the Montague, first class ship

### REMOVAL OF STOCK.

Notice is hereby given that, pursuant to Act 65, S. L. 1919, agents of the Board of Agriculture and Forestry will remove, shoot or destroy, with out compensation to the owner, the branded wild cattle found within the Makawao Forest Reserve, County of Maui, on and after April 2, 1921.

### BOARD OF AGRICULTURE AND FORESTRY.

## On The Other Islands

**On Short Rations**—Economy orders issued by the Hawaiian Department of the United States army include one for cutting rations for horses from 12 to 10 pounds of oats or barley. Mules rations are cut from 9 to 7 pounds. Both horses and mules are put on a hay diet reduced from 14 to 12 pounds of fodder. The orders stringently restrict officers from traveling by rail.

**Hotels Oppose Measure**—The Hawaiian Island Hotel and Restaurant Association has sent the legislature a resolution opposing the bill "prevention of discrimination by hotel keepers." The association said before the legislature providing for the passage of such a bill would open hotels to any street walker and tend to lower the standard of hotels.

**Governor Exercises Clemency**—Acting in accordance with the recommendation of the board of prison inspectors, Governor McCarthy signed the paroles of 17 men confined in the Oahu prison for offenses ranging from assault to first degree burglary for sentences of from a few months to 20 years.

**Ban Again Lifted**—Federal prohibition of passenger transportation between Hawaii and the coast on vessels flying foreign flags has once more been temporarily removed, the Honolulu Chamber of Commerce is informed. Applications for permits have to be made ship by ship, the message said.

**Finds Crime Epidemic**—In Honolulu crime is epidemic, there have been women insulted and some assaulted, hold-ups and burglaries are frequent, says a special report of the grand jury. It deplors the fact of many rumors of assaults on girls which have for a basis slight foundation, such as accusing of them, or are without any foundation. The supervisors are asked to furnish adequate protection and a slander law is also proposed.

**Burgess Has Contract**—The McBryde Sugar Co. is to install a refrigerating plant for its plantation on Kauai, which will accommodate all the perishable goods of the plantation stores and also serve employees living near the plant. The new plant will have a capacity of 3000 pounds refrigeration daily and will consist of three refrigerating boxes—one 8 by 10 by 8 feet and the other two 8 by 8 by 8 feet. Each will be maintained at a temperature of 30 degrees. V. J. Burgess, district engineer of the Automatic Refrigerating Co., of Hartford, Conn., has made the preliminary layout of the plant and it is understood construction will start at once.

**Tourists Kept Away**—Rentals and hotel rates are too high and are tending to deter tourist travel to Hawaii; the building of residences does not offer an attractive investment, and cooperation by local government, firms, corporations and individuals is necessary to solve the housing problem, according to the report of the special housing committee of the Honolulu chamber of commerce made at the monthly membership meeting.

**Bingham Forced Back**—News of the illness of Prof. Hiram Bingham, lately lieutenant colonel in the United States Air Service and now holding the chair of South American history at Yale University, has been received in Honolulu and the sick man is now on his way to Honolulu from the South Seas in the care of a trained nurse. The extent of his illness is not known. His wife arrived last week on the Maui, with two of her seven sons, to await her husband's arrival.

**Addition to Hotel**—Contract has been let for an addition to the Hilo Hotel. The lower floor gives increased dining room capacity while upstairs there will be eight rooms with baths.

**Advised to Book Return**—All applicants for passage to Hawaii in San Francisco are advised by the Matson line to book return passage at the time in order that they may not be put to inconvenience and delay when they are ready to return.

**Hilo to Get Service**—Hilo is reported by the Tribune to be in line for

greatly improved phone service, manager of the company there being quoted as saying the company will expend \$130,000.

**Honolulu Hotel Sold**—Sale of the Romagosa Hotel in Honolulu last week is reported by the Honolulu papers. It will still be conducted as a hotel by the purchasers.

**Back on Hilo Run**—After have received repairs and new fittings to the value of \$300,000 the Enterprise is back on the coast to Hilo run and arrived in Hilo harbor last week.

**Rodiek's Rights Restored**—Advices received in Honolulu say that former President Wilson before retirement restored the civil rights of Georg Rodiek, former head of Hackfelds and former German consul at Honolulu convicted of conspiracy to violate American neutrality.

**Lands for Homesteading**—Preparations are underway for the homesteading of 6600 acres of land in Hawaii in the near future. Pihonua, Kekaha and Honoumua furnish the chief areas.

**Joint Power Plant**—Proposals for the buildings and conduct jointly of a great central power plant are being considered by the directors of Ewa and Oahu plantations. Its estimated initial cost would be \$1,400,000.

**Nawiliwili Harbor Work**—Work is going forward rapidly on the Nawiliwili project reports the Garden Island. The big water tank and pipe for the water supply is up, pile driver is in place and working on piles for the bridge and a road has been built to new quarters.

**Many Seek Licenses**—More than 100 foreign language teachers have applied to the department of public instruction for examinations for licenses

## Streets of Lower Paia to be Widened

Street widening at lower Paia is soon to be undertaken and plans were presented to and approved by the board of supervisors at the Friday session of this month's meeting by the county engineer who is authorized to take the necessary preliminary plans looking to procedure.

Both the main road leading into and out of lower Paia and the road leading up to the mill are to be widened to 50 feet with 6 foot sidewalks on either side of the streets. On the main road the widening will start from the cane fields, about 200 feet northeast of the road leading to the cement plant and extend on northeasterly to the Japanese cemetery.

The road leading to the mill will be widened from its junction with the main road to the railroad track crossing.

It is the purpose of the county government to establish the curb and street lines now but not necessarily to have buildings moved at this time to conform to the new lines. Most of the buildings which project over such lines are comparatively small and inexpensive, the most important changes

to ultimately result being the corner building occupied by the Paia Mercantile Company. When that building is made to conform to the proposed street lines it will square off the corner and give a more extended view of the main road northeast of the mill road and of the mill road to vehicles approaching from the Northeast.

**Volcano Very Active**—Last week the Volcano of Kilauea was more active than at any time in 40 years, was the report from Hilo. Since that date there has been some subsidence. When at the height of rise there were two lava overflows from the crater.

### With the Alert Boy Scouts of Maui

#### TROOP DOINGS

##### Spreckelsville No. 7

Well of all the big doings ever held in Spreckelsville, last night at the scout house was the limit. After the regular meeting the scouts had an indoor field meet and the antics of the boys was beyond description. In the whistling contest they thought that it would be a cinch, but when the commissioner handed each boy a cracker and told them to eat teh cracker and then whistle the looks on their faces were a sight to behold. They whistled alright, but oh my, what weak whistles. The candy race was a scream, but at chewing the string they were certainly past masters, evidently they are pretty good at chewing the rag judging from the results.

Spreckelsville will be a real troop after this meeting, as all boys have filed their application blanks and paid their dues. Good work boys.

##### Puukohli No. 10

The pop corn feed was a big success but we are afraid that the plantation company will wonder why so much water was consumed at the school during the week past. Pop corn is good but when it is sprinkled with a goodly amount of salt, well water is pretty good.

One of the scouts remarked, "say, look at Pop popping the pop-corn in the pop-corn popper." It was good anyhow.

Real scouting is a good thing to see, and I am sure if some of the city scouts could see these fellows hiking five miles to and from a scout meeting, when they kick if they have to ride a mile or two on the cars to get to a meeting, they would be ashamed of themselves. This is what the Puukohli scouts are doing every week.

This is the real scout stuff, and I am sure Puukohli will make a showing that will put the others in the shade.

##### Makawao No. 6

It is a great sight to see the scouts of Makawao as they leave the meetings at night. When it comes to "bronco busters" well they are some breakers believe me. The trained mule of one of the scouts is sure some runner. Last meeting was given over mostly to "Uniform Work." You no doubt wonder what that means, well, its easy to explain. This was the night the scout uniforms arrived and there was some excitement in trying on, taking off, swapping etc., but finally all were straightened out satisfactorily and the regular meeting went on evenly. Wait until the Makawao scouts blossom out in full uniform they will make a great hit.

##### Lahaina No. 5

"Hello Lahaina," what's smatter" no troop notes. Say just step on the scribe's toes and wake him up. You should have your notes in by Wednesday afternoon at the Maui News' office. Get busy scribe. We know you are doing real things over there and we want to hear about them.

##### Kahului on the Hike

Sunday morning eleven members of Troop No. 8 turned out for a hike to Iao Valley, they were invited to take the hike with Troop No. 3 of Wailuku, but as only three of the Wailuku scouts showed up it was in reality a Kahului party.

After hiking to the Needle the scouts stopped for a short time to eat lunch. As soon as lunch was eaten the scouts hiked to the upper end of the Table Lands and then went through some scout stunts. On the way home the Wailuku scouts tried for the tracking test but Takemoto was the only one to pass.

##### Kahului No. 8

Change of Meeting Time  
All Tuesday night meetings are called off for the present on account of the training school for scoutcraft being held on that night.  
The next meeting will be held Sat-

urday night at the Kahului Beach House at 5 p. m. An all night camp and tests on Sunday will follow.

#### Second Class Tests

Well here we are again on the subject of second class tests and we are mean business. All scoutmasters should see to it that their scouts are going right ahead. There is nothing so discouraging to a scout as to have to stop his test passing. We are having a hard time in getting enough scout hand books to go round, but there is no need to stop on that account as the following tests can be passed in the mean time.

No. 1 one months service; No. 2, elementary first aid; No. 3, elementary signalling; No. 4, tracking half mile. (Got in touch with the commissioner for this test at once if you are ready for it.) No. 5, scout pace; No. 6, use of knife and hatchet (headquarters will get out the rules for this test on the mimeograph at once.) No. 7, fire building; No. 8, cooking; No. 9, thrift. Its up to you. Every week that goes by without a number of tests being passed is lost.

#### Hana District

The date of the commissioner's trip to Hana will be settled by the end of this week. A party is being made up to go over through the crater if that falls through (the trip not the crater) the commissioner will make the trip by steamer. Big times are expected during the commissioner's stay in the Hana District, and it is hoped that a great many will become interested in the movement and a strong showing made.

#### Troop 3, Wailuku

The excursion trip on Sunday mentioned in last week's paper has proved to be a successful and an enjoyable trip to all those who took part. But instead of going to Waikapu, as was agreed, the hikers turned to Iao where they became loaded with all sorts of thrills executed by Pop. There were only three scouts from troop 3 in this trip, the majority being Kahului scouts.

The group started out at 10:30 o'clock from Wailuku and within an hour's time were on the job in climbing the Needle Point. Having taken a good view of the place from the point, they began to descend to the lower lands where they began to learn something about tracking. S. Takemoto of Troop 3 was the only one who passed this tracking test. The boys then started for the Table Land where they spent a great part of the time in taking pictures and enjoying scout life. It began to grow late in the evening and so the hikers started for home after spending a most pleasant day, as they expressed it.

The troop's meeting Monday night, as usual, was well attended. After running over a few minutes in reporting good turns, the troop voted on three new candidates and admitted two to membership. A spelling match

### With Maui's Girl Scouts

#### Hamakuapoko

Boys aren't allowed at Girl Scout meetings ordinarily, but an exception was made in the case of "Frederick" last week at Hamakuapoko. Frederick is Filipino and six weeks old and he had the time of his life being bathed by the skillful hands of Mrs. Bailey. It was only a demonstration for the 15 scouts present, didn't want to impose on his good nature by practicing on him but when they begin to work for merit badges in baby care, many Hamakuapoko babies will be cleaner and healthier.

The Pansy troop's Godmother, Mrs. Hair paid her second visit Thursday and she is always welcome. Her good turn for the day consisted in playing the piano for dancing and singing and she can play games as hard as any Scout.

Laden with wood and swimming "togs," 16 of the Chrysanthemum troop at Hamakuapoko walked a mile through the cane fields to the beach, Saturday afternoon. Everybody gathered sea shells before the fire was built on a rocky point—the wind was pretty stiff but the second Scout who tried succeeded in lighting the fire with one match. Many were the "Ohs" and "Ahs" and exclamations of surprise when the "chicken feed" turned into white fluffy pop corn. A sudden rain started the party homewards at 5 o'clock and while tramping along the road singing a new troop song, Sevath Dayum appeared in his car and picked up the whole bunch. "Perhaps that car is used to carrying 18 passengers, at any rate, it didn't even protest but carried the "Chrysanthemums" home, safe and dry.

#### Maunaloa Seminary

Don't forget, Scouts, that any girl who has attended 100 percent of the meetings of her troop for one year is entitled to a gold badge and the girl who attends 90 percent of the meetings may wear a silver badge. At the rate the Maunaloa Seminary Scouts are going there will be many attendance badges awarded at the end of the year. The three troops have each had three meetings and the at-

tendance has been almost perfect. They have chosen their troop names and elected their secretaries: Lily of the Valley troop with 28 enrolled—Blanche Ralston, secretary. Pakalana troop, with 26 enrolled—Dorothy Kaloa, secretary. Cup of Gold troop, with 23 enrolled—Eve Enamoto, secretary.

#### Paia Forms Troop

Another Girl Scout troop added to the list—some superstitious friends will be everlastingly grateful to the Paia girls for forming the fourteenth troop—we were 13 in number for several weeks, however, and nothing terrible happened. With Miss Rita Rosecrans as captain and 36 prospective scouts, we're going to hear from the Paia troop in the very near future.

#### Training School in Scoutcraft

The School of Scoutcraft opened up under very favorable auspices on Monday night at the Alexander Kindergarten building at 7:45 p. m., with seventeen men present.

The opening address by C. S. Childs, executive secretary of the Maui Council touched on the real live side of boy life and the great part that the scout movement is going to have in moulding the character of the Men of Tomorrow.

Commissioner Hutton gave a short talk on the purpose of the scoutcraft course and the great amount of pleasure and profit it would be possible to get out of it.

C. L. Bowker, deputy commissioner of Lahaina then took charge of the meeting and put the class through a very fine opening ceremony which is being adopted as the official manner of conducting scout meetings.

The class then went into the study of the tenderfoot requirements, after which Mr. Bowker took charge of the class in the closing ceremonies.

The following attended the first class meeting:

C. L. Bowker, Y. K. Yee, Frank Nunes, C. Rose, F. Crockett, E. H. Jones, W. K. Watkins, W. S. Kan, S. Mukai, W. H. Douglas, J. M. Eddy, W. C. Crider, A. F. Costa, C. S. Childs, Geo. H. DeKay.

The next meeting will see a much larger attendance and from that time on the real live doings of scoutcraft will appeal to all who attend. Remember this class is not confined to scoutmasters, but all who are interested in the great out doors will find valuable instruction and also learn to be a real boy again.

Judge L. L. Burr will have full charge of the meeting on Tuesday, March 28th, and will give practical instruction in knot-tying, splicing of all kinds, blocks and dackies, etc. The judge is a past master in this line of work, and any man who is in business that requires the handling of ropes, blocks, etc., can not afford to miss this meeting. Pass the word along to your friends.

Dental Clinic For Children of Maui To be Undertaken

Maui may not be able to do as much as the Carriers' gift of a million dollars will do for dental hygiene on Oahu, but at least she is going to make a start towards helping keep the teeth of her children in order.

Will Open Office

It is intended to build a small dental room on one end of the porch of the Alexander House Kindergarten building and install the equipment there.

It has also been found that many parents do not realize the importance of keeping the children's teeth in good condition, both the first teeth and the second teeth. Hence it is intended to start some means of getting this message to the parents.

Working For Funds

Mrs. Missner has charge of the arrangements for selling at the track meet. She, together with Miss Simons and Miss Shepherd, is soliciting donations of cookies, candy, peanuts, ice cream and soft drinks for the sale.

"I contend that Adam was without gentlemanly instincts or he never would have put the blame on a woman."

"Well, what could you expect of the first man? You know it takes three generations to make a gentleman."

TO WHOM IT MAY CONCERN:

(Sgd.) EDWARD A. BOWLES, (March 28, April 1, 8.)

ANNUAL MEETING

The regular annual meeting of the stockholders of the Maui Land & Railroad Company will be held at the office and principal place of business of the Company at Kahului, Maui, T. H., on Thursday, the 31st day of March, 1921, at 2:30 o'clock P. M.

SEALED TENDERS.

Sealed tenders for the construction of the Administration Building, Malulani Hospital, Wailuku, Maui, Territory of Hawaii will be received by the Board of Supervisors of the County of Maui, Territory of Hawaii, at the County Clerk's Office, Wailuku, Maui, Territory of Hawaii until 2:00 P. M., Friday, April 8th, 1921, at which place and hour they will be publicly opened and read.

Copies of proposal blanks, plans and specifications can be obtained at the Office of the County Engineer, Wailuku, Maui, T. H. A deposit of \$10.00 will be required, which will be refunded upon the return of the plans and specification.

Tenders must be made out on the blank forms supplied by the County Engineer and enclosed in an envelope furnished, sealed, and sent to the County Clerk so as to reach his office not later than 2:00 P. M., Friday, April 8th, 1921. Any and all bids not in accordance with this section will be at once rejected.

The right is reserved to reject any and all bids. By Order of the Board of Supervisors for and within the County of Maui.

By R. K. WILCOX, Deputy County Clerk. (March 18, 25; April 1.)

No Mention Made of Maui in Report of Park Opening Plans

No mention of a visit to Maui and the Haleakala section of the Hawaii National Park by the tour party being organized by the Brooklyn Daily Eagle to attend the dedication of the park is made in what purports to be the plan for the trip as published in The Advertiser last week.

The article which has called attention to the possibility of Maui being left out of the trip follows, the mention of plans in the Islands appearing in the last paragraph:

When Captain Charles Peterson, master of the Hawkeye State returns to San Francisco, he will leave his vessel, travel overland and look after the final outfitting of the sister ship Buckeye State and prepare her for the excursion party now being organized by the Brooklyn Eagle to be brought to Honolulu and Hilo next June.

The excursion is being undertaken by the Brooklyn Eagle in response to the invitation extended by Stephen T. Mather, director of national park service of the U. S. Government, to attend the formal dedication of the Kilauea National Park on the island of Hawaii. This park will include the active volcano of Kilauea.

Eagle tourists will be taken to the island of Hawaii and back to Honolulu on their own steamer avoiding the necessity of transferring to the small inter-island boats. At Hilo and Honolulu the government authorities are arranging special functions for The Eagle party.

Lahaina, March 31; reserve the date.—Adv.

Gas and Electric Company at Kahului

(Continued from Page One.) tion of each calendar year there shall be payable to the treasurer of the County of Maui, for and on behalf of said county, two per centum of the gross receipts of the association for all gas and electric current furnished to consumers under the terms of this act during the preceding twelve calendar months.

Section 11. The association shall, within one month after the expiration of each calendar year, file with the board of supervisors a detailed statement showing all of its receipts and expenditures during the preceding calendar year.

Section 12. This franchise may at any time be amended or repealed by the Congress of the United States or by the legislature of the Territory of Hawaii with the approval of the Congress of the United States; and the rights, privileges and powers by this act conferred shall not be construed to be exclusive.

Section 13. The Territory of Hawaii, the County of Maui, or any political subdivision thereof, within or including the district of Wailuku and Makawao, may at any time after the expiration of twenty years from the date of the passage of this act by the Congress of the United States, and upon six months' notice in writing to the association given pursuant to proper authority, may acquire by purchase all the property of the association, subject to the then existing charges thereon.

Section 14. This Act shall take effect upon the date of its approval. The actual cost or the actual value of the tangible property or the actual cost of reproduction or replacement, less depreciation and less the charges thereon. The value of the franchise or good will or any other intangible element shall not be considered in determining the amount to be paid.

Section 15. The holder of this franchise may appeal to the supreme court of Hawaii from the decision of such commission by filing a written notice of appeal with the commission within five days after the decision is rendered. It shall thereupon be the duty of the commission immediately to certify up to the supreme court the record of its proceedings showing in such certificate the valuation claimed by the association, the valuation claimed by the purchaser, and the valuation as determined by the commission.

Section 16. This Act shall take effect upon the date of its approval.

# SPORTS

## Lahaina to Stage Boxing next Week

Second Exhibition Will be held a Week From Tomorrow Night With Japanese Wrestling Added Feature.

Lahaina will be the Mecca for devotees and admirers of the boxing game a week from tomorrow night, April 2, on the occasion of the second series of boxing competitions of the Lahaina Athletic Association and a good sport program will be offered. This is the series that was originally set for tomorrow night but was postponed a week when it was expected the Outdoor Circle would offer its Variety Show that evening.

The first exhibition staged by the Association last month showed the popularity of the boxing game on Maui as elsewhere and it was then decided to make the contest a monthly feature of the sports put on at Lahaina. On that occasion there were six bouts, several of them proving rattling good affairs and only one being slow or tame. It was then evident that Lahaina has some comers in the squared circle and that future meetings would prove even more entertaining. The coming exhibition will consist of six bouts and some Japanese wrestling matches as added features. C. L. Bowker said last night he will receive entries from this side or from any part of Maui.

In compliance with the law competitors must be members of the association and so also admission must be and will be confined to members. Applications for membership may be made to and membership tickets secured from A. W. Waechter, treasurer of the association, at the Lahaina Store, or the office of the Maui News in Wailuku. There is a \$1 initiation fee and the quarterly dues are \$1, the next quarter beginning April 1, opening the coming bouts to those who join before that date. It is the plan of the association to hold boxing exhibitions at least once a month throughout the year.

## Athletic Committee Plans Swimming Meet

Plans for the conduct of several branches of athletic sports were discussed at the meeting of the Athletic Committee of the Fair and Racing Association last night, basketball, tennis, swimming and boating, boxing and wrestling, handball and the track meet were considered.

Plans are started for the holding of a swimming meet June 11 at Puunene tank. This was one of the several suggestions in an excellent report of Chairman Hughes of the swimming and boating committee. C. A. Puck reported at length on the basket ball team's trip to Honolulu and the Hilo attempted protest was also discussed. C. L. Bowker is made chairman of a new committee which will have charge of handball for which courts are being opened at Lahaina. Bowker also reported on boxing and wrestling at Lahaina and was asked to extend such activities to East Maui.

The committee decided it was impracticable to select an athletic team to meet Kamehameha before the annual track and field meet is held and that it would be inadvisable for Maui athletes to try to be on edge for meets only a week apart.

An excellent report on tennis plans was received from Chairman A. W. Collins of the Tennis Committee.

Punahou won the Interscholastic meet in Honolulu with 42 points, McKinley High second, St. Louis third, Kama fourth and Mills for the tail ender.

## Track and Field Meet is Postponed Until April 9th

Maui's second annual track and field meet has been postponed two weeks, until Saturday afternoon, April 9. This was decided upon yesterday morning when it was found that the rain of Wednesday night had so flooded and soaked the Fair Grounds at Kahului that it was impracticable to have them in shape for holding the games tomorrow. It was planned to have a Maui-Kamehameha meet next Saturday and the Easter holidays are also at hand so it was decided to put Field Day off until the date mentioned. Last night it was decided not to hold a Maui-Kamehameha meet.

With 268 entries it is evident that interest has been thoroughly aroused among competitors and the big field insures that the various events will be hotly contested. Reports from all directions show the entrants have been training hard and conscientiously and now it will be necessary only for them to keep on edge a little longer.

In the Junior class there are 119 entries and the teams are from Kahului School, Kamehameha III School, Keolu School, Lahainaluna, Maui High and Grammar, Paia, Puunene, Pukohi, Spreckelsville, St. Anthony's School, Waihee and Wailuku Public School.

Entries in the Intermediate Class are 70 and the organizations presenting teams are Kamehameha III School, Lahainaluna, Maui Grammar, Paia, Pukohi, Puunene, St. Anthony's School and Wailuku Public School.

Senior entries number 70 and the organizations competing are Aiea, Lahaina Athletic Association, Lahainaluna, Maui High and Grammar School, Paia Athletic Club and United Chinese Club.

Lists of the individual entrants and the teams they represent will be published next week.

## SETTLEMENT TENNIS TOURNAMENTS

Entries have opened for a woman's handicap doubles and a men's handicap doubles tennis tournaments of the Settlement Tennis Club and prospective contestants should send their entries to Eddie Tam at the Bank. They will close April 9. Silver cups are offered to the winners of each of the tournaments.

## SPORTS BREVITIES

Slater is still the leading bowler in the Hawaii "Y" tournament and has increased his average to 201 for 12 games. He also has the highest individual score, 257.

Invitation to visit Hawaii is to be extended to the Yale swimming team, of which young Lorrin Thurston of Honolulu is a member.

Efforts are being made in the legislature to create a position for Duke Kahamamoku. One scheme is to have him made official "greeter" of tourists in the employ of the Tourist Bureau and another to have him made a special clerk of the Governor at \$200 a month.

Japan has issued a challenge for the Davis Cup emblematic of the tennis championship of the world. Japan is the eleventh nation to challenge since Americans captured the cup in Australia a few weeks ago.

Kinjo Ikeda bested Clapham in the wrestling bouts in Honolulu. The Britisher won first fall but received an accidental clout in the jaw which assisted Kinjo to win the second. Clapham undertook to throw the Japanese twice in 75 minutes and failed in the attempt.

## MEN'S DOUBLES RESULTS

In the championship play in men's doubles at tennis further games have been played in the first round which have resulted as follows: William Walsh and Rietow defeated Ed Walsh and McNeill 6-3 and 6-3, and Bowdish and Aiken defeated Richardson and Rolph 5-7, 6-2, 6-2.

Games which were to have been played yesterday were postponed because of the rain.

## MAKE CLEAN SWEEP

Los Angeles Blues took three games in Hilo, the best contested being with the Boarding school team. The final game with the Scouts team was a veritable slaughter of the innocents with a score of 77 to 30.
