JAPANESE WAR MEETING IN NEW YORK

JAPANESE LEADERS ON PLATFORM

The above is from a photograph of the meeting of patriotic Japanese held in New York a short time ago at which Mr. Imanishi, formerly manager of the Honolulu branch of the Yokohama Specie Bank said that he believed that the Japanese of Hawaii would raise \$1,000,000 for the Japanese war fund. At this meeting, Consul General Uchida of New York, presided.

REMARKABLE RACE FINISHED TODAY

BARKENTINES IRMGARD AND S. N. CASTLE SAIL FROM HONOLULU ON SAME DAY AND ARRIVE PRACTICALLY TOGETHER TODAY AT SAN FRANCISCO—NEWS BY MARINE EXCHANGE REPORT.

The race between the barkentine Irmgard and S. N. Castle terminated today. The race was, in many respects, a remarkable sailing contest. Both vessels left Honolulu the same time and arrived at San Francisco at practically the same time. News of the arrival of both boats was received today in the regular cable report to the Marine Exchange. This race is one of the most interesting of the many sailing contests that have occurred between the Hawaiian Islands and San Francisco.

The Shortage Twenty-Eight Hundred

STRANGE REPORTS OF OLD SHORTAGE ON THE WATER WORKS OFFICE—HOW A HOUSE COMMITTEE REPORTED ON THE WORK OF E. V. RICHARDSON A LITTLE OVER A YEAR AGO.

A most startling feature of the Richardson shortage is a persistent report that it was known among members of the legislature while that body was in session in 1902 and actually engaged in a supposed investigation of the department. It is certain that an alleged shortage was spoken of. Several members and employees of the legislature recall having heard that Richardson was \$1800 short, though how such a rumor could have started is not known. The House committee on Public Expenditures had the books experted up to December 31, 1902, and found no shortage. A special committee of the Senate's special session also made an investigation in 1903.

NEVADAN TO ARRIVE LATE

DEPARTURE OF VESSEL FROM SAN FRANCISCO POSTPONED ONE WEEK.

The S. S. Nevadan will be delayed a week sailing from San Francisco for Honolulu. General Agent Morse received a special cablegram this morning stating that the Nevadan would sail March 25 instead of March 18. She will thus arrive here a week later than her schedule names. The delay of the Nevadan in sailing will be due to the rough weather about Kahului that detained the vessel there. She has not yet arrived at San Francisco.

There are now 3,000 tons of sugar on hand at the Railway wharf warehouses for the S. S. Texan. She will take 7,000 tons at this port, 2,000 tons at Kahului and 2,000 tons more at Hilo for Delaware Breakwater. She is expected in Honolulu next Wednesday from Seattle and Tacoma.

The S. S. Alaskan is expected soon in San Francisco from New York. She is scheduled to sail from Puget Sound for Honolulu April 10. She will take 11,000 tons of sugar for Delaware Breakwater.

WAS HEAVILY FINED.

D. H. Lewis was fined \$75 and costs this morning by Judge Dickey for permitting gambling to be done on his premises.

KOHALA DITCH FRANCHISE SOLD

McCROSSON INTERESTS, REPRESENTED BY J. S. LOW, BUY THE PRIVILEGE AT THE UPSET PRICE, AFTER A PROTEST BY GEHR—A THOUSAND DOLLARS PAID ON ACCOUNT.

The Kohala ditch franchise was sold at noon today by Land Commissioner Pratt. J. S. Low, the only bidder, representing the interests known as the McCrosson interests, bought the franchise for the upset price, 1 per cent of the gross annual revenue. Before the sale was consummated A. C. Gehr made a formal protest, in order to preserve his rights and those of the parties represented by him, claiming a right to the franchise under an alleged agreement with former Governor Dole and others.

There was quite a gathering of interested parties at the sale. McCrosson and Gehr, who have waged a long fight over the proposition here and in Washington, were both early arrivals. They shook hands "before the opening of the last round" and then stood waiting for Pratt to read the license, which took thirty minutes. With McCrosson were Sam Parker, Fred Wundenberg, J. S. Low, J. A. Magoon, and others interested in the deal. Others who were at the sale were S. M. Ballou, F. S. Dodge of the Bishop Estate, W. E. Rowell, Frank Woods, Major Purdy, C. W. Booth, A. C. Lovekin, A. G. M. Robertson, A. Lewis, Jr., W. M. Giffard. Secretary Atkinson assisted Pratt in the sale. Superintendent of Public Works Holloway and Deputy Attorney General Pet-

ers and Assistant Prosser were also present. After Pratt had read the advertisement of the franchise, Gehr made his first protest. It was that the description in the advertisement did not agree with that in the form of franchise supplied to him. He did not state in what particular it differed. The protest was recorded. As soon as Pratt had read the franchise and asked for bids, Low offered the upset price of one per cent. Gehr at the same time spoke his protest. Gehr was acting under the advice of his counsel, Senator Thurston of Nebraska, who has been looking after the matter in Washington. He protested against the sale of the franchise and the sale of the water on the ground of his alleged rights under a former agreement with the government by which he had accepted the privileges on agreed terms.

Secretary Atkinson requested that the protest be put in writing and Gehr promised to send it. There was no other bidder and after several calls, the franchise was knocked down to Low. He at once entered the land office, accompanied by McCrosson, Parker and others and paid over \$1,000 in gold coin, the first payment required on the spot, under the terms of the sale.

Emperor Williams Sails For The Mediterranean

Associated Press Cable to the Star. BREMERTON, Germany, March 12.—The Emperor William and family sailed today for a cruise to the Mediterranean.

TURKS AND BULGARIANS TO SIGN AGREEMENT

Associated Press Cable to the Star. PARIS, March 12.—The Turkish-Bulgarian agreement will probably be signed today.

OSTRICH WON THE GREAT DERBY

Associated Press Cable to the Star. NEW ORLEANS, March 12.—Ostrich won the Derby here today. The race was very exciting.

EAGER FOR WAR BONDS

Associated Press Cable to the Star. TOKIO, March 12.—The government issue of bonds for the war known as the War Loan, was oversubscribed nearly five times. The utmost enthusiasm has been shown in lending the government financial aid in the war with Russia. The loan is 100,000,000 yen at 5 per cent.

TO REGULATE PRICES HERE

Associated Press Cable to the Star. WASHINGTON, D. C., March 12.—A bill has been favorably reported in the House fixing prices of gas and electricity supplied under Hawaiian franchises.

FRANCHISE DEFEATED

Associated Press Cable to the Star. WASHINGTON, D. C., March 12.—The bill extending the franchise of the Hawaiian Electric Company of Honolulu has been indefinitely postponed.

MAKAROFF IS A HERO

Associated Press Cable to the Star. ST. PETERSBURG, March 12.—Admiral Makaroff has become a great popular hero as a result of his attack yesterday on the Japanese fleet at Port Arthur. An enthusiastic popular demonstration has taken place here, in which thousands cheered for the new Russian Commander of the fleet. General Kuropatkin is going to the front.

INVESTIGATION COMMITTEE.

Associated Press Cable to the Star. WASHINGTON, D. C., March 12.—A Congressional postal investigation committee has been appointed.

Doric Carries Very Interesting Passengers

MILITARY ATTACHES OF SEVERAL NATIONS ABOARD THE VESSEL EN ROUTE TO ACCOMPANY JAPANESE ARMY IN KOREA—DORIC HAS VERY LARGE THROUGH CARGO—GOES TO MANILA THIS TRIP.

For the first time in years the S. S. Doric did not arrive here the afternoon before her scheduled time. She did not make the port until about daylight this morning from San Francisco. A delay of about seven hours in leaving San Francisco caused her to get in later than ordinarily. The congested condition of the Pacific Mail Wharf at San Francisco was the cause of the delay as the big freighter Algon had arrived there from the Orient with an enormous cargo of freight. Pleasant weather was experienced during the trip to this port, with moderate head winds and seas. She left San Francisco March 5, so brought two days later mail.

The vessel has a good sized crowd of passengers, many of them being employees of the Philippine civil service in various capacities. Twelve telegraph operators are going to the Philippines. A number of tourists are also going to the Philippines.

The military attaches of the United States who are to accompany the Japanese land forces are aboard the vessel. They are Colonel E. H. Crowder, Judge-advocate of the army; Lt. G. R. Fortescue 10th cavalry and Captain P. C. March 19th Battery Field Artillery. Captain Johnson of San Francisco is bound for Manila in the interests of a shipping firm.

E. J. Cowan is a merchant of Yokohama who is returning home after a business trip to the United States. W. F. Hitt is a son of Representative Hitt of Illinois and is going to Yokohama.

Richard Barry is bound for Japan as a war correspondent. He will represent the Los Angeles Times, San Francisco Bulletin and Seattle Post-Intelligencer.

W. G. D. Morgan is a young man who is travelling with Mr. Hitt on a trip around the world.

K. Kameda is a New York merchant who is going to Yokohama on business.

Dr. T. Tuskire is returning to Japan to enter the medical corps of the Japanese army.

Captain P. J. Hegardt and Captain Henry Lindberg are Swedish army officers who are going to Yokohama. They are understood to be the military attaches of the Swedish government, who are to accompany the Japanese forces.

Baron F. Chazal is the world's fair commissioner for Belgium. He is going to Yokohama.

Lieut. Franz is the Austrian military attaché at Seoul.

T. T. Ferguson who with his family is going to Nagasaki is connected with the Imperial Chinese customs service.

(Continued to Page 5.)

KAHULUI.

Departing, March 11. Am. schr. Rosmond, Ferland, for Eleale.

SUSQUEHANA NEARLY LOADED.

The big ship Susquehanna has nearly finished unloading at Hilo for Delaware Breakwater. She will probably sail next week.

SOLACE ANCHOR RAISED.

The anchor which the transport Solace lost last December while docking at the Pacific Mail wharf was raised by Young Brothers yesterday. Herb Young the diver located the anchor shortly after the vessel left this port last year.

BUFORED SAILED YESTERDAY.

The Marine Exchange was notified yesterday of the departure of the transport Buford from San Francisco yesterday for Honolulu and the Philippines. She will stop at Midway. She has marines aboard for the Asiatic Station.

LIKELIKE WILL BE DELAYED.

C. L. Wight, president of the Wilder S. S. Company received word by the Sierra on Wednesday that the new steamer Likelike of the company would not be ready to sail from San Francisco before April 1 for Honolulu. She will therefore be late going on the Molokai run.

ONE OF THE TRIUMPHS OF MODERN SURGERY.

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in one-third the time required by the old treatment. This is one of the greatest discoveries and triumphs of modern surgery. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries causes them to heal very quickly. It also allays the pain and soreness. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

TWO SCIENTIFIC EXPEDITIONS

ONE GOES TO STUDY SMALL-POX THE OTHER TO EXCAVATE AT SAMARCAND.

Two quite diverse expeditions of research are about leaving the United States for remote parts of the world, and who shall say which is the more important? Why, that of two young physicians who are going to the Philippines to investigate the germ of small-pox, and also study a lot of other diseases which this blessed country has taken in along with polygamy, slavery and chronic insurrection. Their object is, of course, the protection of America from coming evils by getting the knowledge that will enable the medical profession to meet and overcome them—that is, in fact, they go for the saving of human life. Yet, it is possible that scientists of the other side the problem, not particularly concerned with the future of humanity, but very much interested in the origins of the race, may regard this chase after germs of really less moment than the digging into the ruined cities of Turkestan, which is the purpose of the other

expedition, under direction of Prof. Raphael Pumpelly for the Carnegie Institute. Ideally there is something to be said in that view, since knowledge of the sort they will acquire and give certainly widens the horizon of the past and enlarges the scope of human thought. But it is likely that in comparison the preference would be given to the mission of health against disease, which is now agitating the point which Robert C. Ingersoll posited as one of the things he would have done better if he had the management of the creation—to make health catching instead of disease.

The two young men who have gone out from the Harvard medical school to study conditions in the Philippines are Dr. W. R. Brinckerhoff and Dr. E. E. Tyzzer, who have been associated with Dr. W. T. Councilman in the pathological department of the school, and especially in his discovery and isolation of the small-pox parasite. Why it is expected they will find more about this matter in the Philippines than they could here is said to result from the greater freedom they will have in vivisection, that is, the experimentation on animals. There are monkeys there and monkeys have so close and often identical physiological correspondences with the higher anthropoids that an experiment on them has much to teach. This is not a pleasant feature of the investigation. What is said about the mysterious diseases of the East which we must guard against may be true. There is the bubonic plague—but it did not come this way through the Philippines, but by the gates of Asia Minor and Egypt; just as the grip came from Russia. We could have had all the plagues we wanted without meddling with the Philippines. But since we have meddled it is well that those young men volunteer to expose themselves to unreckonable risks for the purpose of safeguarding the stay-at-home people who are guiltless of the error. These young doctors are not without their stake in our home life; Dr. Brinckerhoff has a mother and brother of whom he is the mainstay since his father died, only recently; Dr. Tyzzer has a wife and two little boys in Wakefield. It is a sacrifice they make in the interest of the most compelling of motives—the advance of science at all possible expense to its devotees. A Harvard professor observed on their departures, "This is the first instance where the Philippines promise to be of any earthly use to us."

As to Dr. Pumpelly's expedition it is expected to discover proofs of the earliest civilization of mankind. There is nothing new in the notion that the center of divergence of the Aryan races is somewhere in central Asia. The Himalayas were called so a century or two ago, not to mention the Bible and Babylonian traditions. In Turkestan there are remains of very ancient cities of civilizations which can be traced in history for 6000 years or so. The great waste of that region, which in the geographies of less than a century ago was called "Independent Tartary" abounds in mounds and tombs and ruins in heaps, and scarcely anything has been done toward their examination—scientifically and systematically, absolutely nothing. Russian governors have picked into some of those mounds and found bones, both animal and human, and pottery of various descriptions. But no scientific excavations have been made. Prof. Pumpelly's special object of research is in ancient Samarcand—name and place known to Marco Polo, and located definitely in the campaigns of Alexander of Macedon; and also in Merv which is an oasis of 30 square miles, containing now several cities of great antiquity, and remains of many others. The region is all decadent and empty in comparison to what it was once, when it was the center of racial power and conquest. It seems quite too much to expect that with all possible research the earliest origins of civilization and the distribution of the human race can be much more illumined than they have been. China itself has a historic record far older than 6000 years, and yet nothing is known there of origins, except legends similar to those of Babylonia and Egypt. But what these excavators may discover will be of interest, if only by telling us that there is no backward search into those days when man had not arrived at a history, any more than the mammoths found in the Siberian ice.—Springfield Republican.

Why The U. S. Machine Is The Best— BECAUSE

It is the only Rotary Washer that has revolving steel ball gearing, reducing the friction and thus making machine so light running and almost noiseless.

The gear wheel turns right or left, the pin wheel or dasher reverses automatically, turning the clothes back and forth through the hot soap suds and cleaning them WITHOUT RUBBING THEM TO PIECES.

Over One Hundred Thousand in use.
The U. S. Machine have no equal because they wash clean.

COURT NOTES.

Judge Gear yesterday heard the motion of S. M. Ballou to have sentence for contempt passed upon the Mutual Telephone Co. and W. F. Lehigh, its superintendent. The matter was continued until Wednesday next, to give respondents time for more completely obeying to court's order, at the original citation, to insert Ballou's name and number in the telephone directory.

Jesse M. McChesney responded to the order of Judge Gear to come into court with a statement of debts owing to M. W. McChesney & Sons on the motion of the First National Bank of Hawaii, Ltd., judgment creditor. As the proper documents in all respects, were not produced by the respondent the hearing was continued until Monday.

Judge De Bolt has appointed Fathr H. Valentin as executor of the will of Margaret Moorhead, deceased, as nominated therein.

BAND CONCERT.

Captain Berger and the band will play at Emma Square this afternoon at 4:30 o'clock. The following is the program: March, "National Fencibles".....Sousa Overture, "Ivan".....Contorno Selection, "Maid Marian"....De Koven Vocal, "Hawaiian Songs"....ar. by Berger Waltz, "The Sylens".....Waldteufel Polka, "A Good Kiss".....Coote "Star Spangled Banner."

DENIES FRAUD.

Lucas Bros. have filed an answer to the suit brought by Herbert Kendall against them and the superintendent of Public Works, to stop the awarding of a contract to Lucas Bros. for the Lahainaluna school building. Lucas Bros. deny that Kendall's bid was the lowest received on the contract, or that they were not informed of all the conditions before sending in their bid.

ATE ITS WAY.

A contemporary in speaking of a fire, says "it ate its way up." The case must be a parallel one to that of the goat in the baggage-room that swallowed his destination tag.—Baltimore American.

Want ads in the Star bring quick results. Three lines three times for 25 cents.

MURPHY MEETS BARRY TONIGHT

RETURN ENCOUNTER OF THE TWO MEN WHO MET ONCE BEFORE—GOOD FIGHT EXPECTED.

Tonight, at the Orpheum, Murphy meets Barry in a fifteen-round contest which is a return match from the previous bout in which Barry defeated the Australian in the fifth round, the decision being given by the referee as Murphy was practically helpless. Murphy is now in better condition than at his first attempt and will use different tactics in tackling his strong opponent. He has many backers and is a clever, quick boxer, though no match for Barry at rough fighting.

Both men rushed matters in the last bout and were pretty tired when they came up for the fifth round. This evening's bout should bring out much more interesting results and in all probability a longer combat.

Castro and Modlin, who are evenly matched, and have met before in the ring, are to settle their supremacy in a six-round bout. Silva, the husky Portuguese, meets Allen, and the two heavyweights of the local arena, Ackerman and Gardner, have a four-round event.

Altogether the program is decidedly attractive and at the popular prices introduced by the management promises to bring a crowded house. Weday will referee the main event, Larry Dee acting as timekeeper. Mike Patton will, it is said, challenge the winner of the Murphy-Barry fight.

BASKETBALL.

There will be two games of basket ball at the Y. M. C. A. tonight, the first game, at 7:30, between the Leahi and Iolani teams and the second between the High School and Comets.

The Senior League is scheduled to start immediately after the close of the Junior, and will be made up of four and possibly five teams.

The lineup for tonight is as follows: Leahi—E. K. Fernandez, U. Lemon, forwards; W. Chillingworth center; H. Holt, S. Dwight, guards.

Iolani—A. M. Keoho, T. Evans, forwards; J. R. Souza, center; D. Keoho, L. Evans, guards.

High Schools—E. Desha, P. Schmidt, forwards; D. Sherwood, center; R. Clarke, H. Williams, guards.

Comets—J. Baptist, E. Hingley, forwards; F. Bechert, center; M. Hardey, C. Gilliland, guards.

BASEBALL PLAYERS.

Fred Kiley, once catcher for the Mallets will hold that position this season with the Honolulu, Lieut. Leslie will hold down the first bag and Barney Joy will pitch, with DeFries a second for him. Among the new players of the Honolulu are Edwin Fernandez who played last year with the Mallets; C. Alwohl, George Townsend and George Clarke. Among the old players are Pat Gleason, Joe Fernandez, Kaanoi, Alwohl, En Sue, J. A. Thompson, Williams, Louis and Aylett.

FOOTBALL.

The Mallets and Punahou will play Association football this afternoon at the Makiki field. The kick-off will take place at 4:15.

Mallets—Goal, Belsar, backs, Greig, R. Anderson; halves, Miles, Mayall, Mackintosh; forwards, Cumming, Harwood, Munro (Capt.), Laird and Fiddes; reserves, Bill.

Punahou—Goal, A. A. Catton; backs, Gleason, McCarrison; halves, Rycott, Soper, Clarke; forwards, Birkmyre, Campbell, R. R. Catton, Waterhouse, Cockburn (Capt.); reserves, Thayer, Spalding.

Referee—J. W. Waldron.

OFF TO YOKOHAMA.

Sergeant Arima of the Yokohama Harbor Police, who accompanied Marshal Hendry to Honolulu as a guard for Adachi, gave a small dinner last evening at Mochizuki, the Japanese clubhouse at Waikiki, at which were present U. S. Marshal Hendry, U. S. Immigration Commissioner Bechtel, J. A. Matthewman, Messrs. Shiozawa, Ozawa, Matsukoka, Kobayashi and Ono. The host will return to Yokohama on the Doric. The United States pays the expenses of his transportation for the round trip, and \$2 a day for guarding Adachi.

EX-POLICEMAN IN JAIL.

Willie Vida, a former mounted police officer, was put in the police station yesterday because he failed to pay his fine of \$50 recently levied against him by Judge Lindsay, for gambling. Louis Schmidt who was fined at the same time was also put in jail. The men had been permitted to go at liberty in order to secure their fine but they failed to produce the money so the High Sheriff ordered them to be taken into custody. The fines were paid in the afternoon and both men were released.

THE TURKS QUARREL AGAIN.

Frank Turk replevined the horse and buggy that his erstwhile wife formerly used. Mrs. Turk gave a bond for the release of the things yesterday. Turk claims that the things belong to him.

GOOD PLUMBING is our forte, we don't do cheap work. You will find an exhibition in our store, all the latest fancy designs in bath room apparatus. LAXITY AGAIN.

In the matter of Vivian Richardson there seems to have been a laxity in the Auditor's department. Deposits of cash coming into the various public offices should be made weekly, and, on the tenth of the month, a return of such cash deposits has to be given to the Auditor and sworn to. The section of the Act reads as follows.

"Sec 683. Every such public accountant, collecting or receiving revenue or other moneys aforesaid in Honolulu, shall pay weekly, or at such times as may be otherwise specially appointed, into the office of the Minister of Finance, all sums of money collected or received by him on account of the revenue or otherwise as aforesaid, accompanied by vouchers bearing his signature and containing a full and accurate description of the services for which such sums shall have been collected or received, and unless otherwise specially directed, shall, not later than the tenth day after the expiration of each month, transmit to the Auditor-General a return in the form contained in the first schedule to this Act, with such particulars in each case as may be required by the Auditor-General, of all moneys collected or received by him during the preceding month, and shall make and subscribe an oath in the form prescribed in such schedule."

The schedule gives all the moneys received and from whom received. The Auditor therefore should know whether a payment as regular as the payment of water rates from steamship companies like Wilder & Co. and the Inter-Island are made. If such payments do not appear on the schedule it is very plain that an inquiry should be made. That is one way in which discovery of wrongdoing could be made. But it might be that the payment was put down in the schedule and not paid in to the Minister of Finance. That ought to be detected at once by checking over the amounts paid in.

The system is good enough if it is carried out accurately. If it is not carried out accurately the person at the head of the system is to blame. Why is it, one may ask, that such large amounts lie in the safe of some of the departments and bureaus. They ought to be deposited in the finance office weekly, and a very little care on the part of the Auditor or some member of his staff would give the information as to whether the money was regularly and properly deposited. There cannot be too great care in handling and caring for public money.

The Auditor has great powers for investigation, and can call for any official to present himself and his accounts before him. But this is not the side that Auditor Fisher seems to consider. He is forever in collision with the departments over expenditures, and quibbling in some cases over what seem minor details, especially the Department of Public Works; but he overlooks the payment of moneys into the Treasury. One can certainly charge against the Auditor that care in going over the schedules of the Water Works returns would have shown him that something was wrong, and that discovery would have followed. When returns are promptly made and promptly checked it is difficult to get away with money. When they are not so made the opportunities are good for getting away with money.

A considerable number of people in town are asking what have we an Auditor for? The last Auditor allowed an enormous amount of embezzlement to be carried on under his nose. The present Auditor has allowed embezzlement to be carried on without discovery for a considerable time. Really there are those who consider the office of Auditor as somewhat more ornamental than useful.

EDUCATION AT ST. LOUIS.

Adequate space has been allotted at St. Louis to comparative and scientific methods of education. In scope, completeness and variety the exhibit at the World's Fair will exceed anything ever before attempted. The Palace of Education occupies the post of honor in the general scheme; it is a graceful structure of classic proportions in the shape of a rectangle and surrounded by a colonnade of majestic proportions. The interior is separated into eight divisions and in them are contained the exhibits. Through glass partitions the public will be enabled to see the children at their studies, the working processes being shown in their entirety.

The evolution in the architecture of school buildings will be elucidated by means of photographs, which will reveal the primitive country school-house, the more pretentious academy and the magnificent erections dedicated to the use of colleges and universities. The public and parochial schools with the scientific, mechanical, industrial, agricultural and art institutions will all send examples of the work of pupils. In the arts will be included painting sculpture and decorative art; the musical conservatories will add manuscript and exhaustive data. Nor have foreign nations omitted to promise their contributions, the French, German and Swedish educational institutions all having responded to the appeal.

One of the interesting features will be of a semi-religious character. The Methodist Church, South, will demonstrate the success of its methods educationally and financially. Its institutions comprehend the Vanderbilt University, the Macon-Randolph, and the University at Soo-Chow, China. There are besides 17 colleges and secondary institutions in the group, all of which are correlated because of using the same curriculum. In these various schools and colleges there are 13,502 pupils.

The Methodists have engaged distinguished men from the northern and southern colleges to deliver a course of lectures upon the different educational processes adopted in the various colleges throughout the country. During the conference President Eliot of Harvard, Wm. L. Harris, U. S. Commissioner of Education and other prominent professors North and South will elucidate their views. The conference will be attended by 500 delegates. The Methodists believe that their exhibit will familiarize thousands of people with their teachings and prove a valuable object lesson to teachers who visit the Fair for instruction as well as amusement.

There will also be a congress of deaf and dumb instructors of national celebrity, such as E. S. Gallaudet, Prof. Pope and others. In a model school the methods of instruction will be exploited. How best to teach defective children will also be illustrated. The agricultural and industrial institutions will make a fine showing, as also the technical and mechanical schools.

The Indians from all parts of the United States will occupy a building erected specially for their use. The evolution of the blanket and wigwam savages to the educated ones who have taken a course in Carlyle and other similar institutions will be demonstrated. In the handsome structure designed for the use of these people, there will be a manual training department with Indian children making baskets, carving leather and stringing beads, as was their wont in their savage state. The other side of the picture will be revealed; a band of Indians will play on conventional instruments, while red-skinned Indian girls fresh from college will show the progress they have made in art, science and industry. It is a pity that Hawaii will be completely unrepresented.

HOLLISTER DRUG CO.

FORT STREET

Venezuelan affairs have dropped out of sight but the arbitration tribunals are still in session at Caracas. There are eleven of these tribunals each dealing with the claims of the citizens of one country and each composed of a representative of that country, a representative of Venezuela and a disinterested person. If Venezuela can produce eleven disinterested persons it is rather a fortunate country. The claims which amounted to \$30,000,000 will in all probability be cut down to about \$6,000,000.

Preparations for the opening of what is claimed will be the greatest world's exposition ever held are going on apace at St. Louis. According to the "World's Fair Bulletin," eight of the large main buildings of the exposition were practically completed on December 31, the construction finished in each case ranging in the neighborhood of 99 1/2 per cent. These include the buildings devoted to education, electricity, machinery, agriculture, varied industries, liberal arts and fine arts. The manufactures building is 97 per cent completed, those of horticulture and mining 98 per cent, and the transportation building is within 4 per cent of completion. Numerous small buildings are also well advanced. Among the state buildings, those of Louisiana, Oklahoma, Arizona, Connecticut and Nevada are completed, while those of Kansas, Iowa, Missouri and West Virginia are well within sight of finishing. Of the foreign buildings, Mexico's building is completed, that of France is 95 per cent done, and England's is 92 per cent finished. Although cold weather has undoubtedly interfered greatly with operations, the prediction is made that by the time the fair opens on April 1 this exposition will be more nearly in running order and ready for the world's attention than any preceding one in history. The holding of this celebration will furnish the usual opportunity for the meeting of a multitude of congresses and assemblages of varied character, which, with the natural interest evoked by such an enormous enterprise, seems destined to make St. Louis the Mecca of millions of people during the ensuing spring and summer.

Governor Carter has taken a firm stand against embezzlers and the old policy of making good the deficiency. No case of embezzlement that may be discovered will be allowed to drop.

Ship masters are eagerly looking for sailors, but the latter do not like the long voyage round the Horn. It is not only here but in many other ports

that a difficulty is found in getting sailors for long voyages. There is little or no difficulty in obtaining sailors for the voyage from here to San Francisco or vice versa. The long voyage is monotonous, and if the ship proves disagreeable there are months to endure before she can be left.

It would be a curious thing if the Grand Jury should recommend the restoration of Iwilei, which had such an unenviable reputation a while ago. It would only show how opinions change.

The Russians made an attack upon the Japanese fleet, but were driven back with the loss of one torpedo boat. The Russian account claims that a Japanese torpedo boat was sunk, the Japanese account makes no mention of the fact.

With only a force of 30,000 men on the Yalu River it is no wonder that the Russians are falling back before the Japanese advance. The fact is the Russians have so many men tied up in guarding the railway that they have not sufficient troops for operating purposes.

Among the Congresses to be held at St. Louis this year will be one on Tuberculosis. The object is to see if some general method can not be obtained for arresting the spread and averting the ravages of consumption. Germany has been singularly successful in combating this disease. It is one of the most fruitful sources of death here and on the mainland. It would be a good thing if some of our medical men would attend this congress, and draw ideas for a crusade against the disease here.

At last the contest over the Kohala ditch has come to an end and the controversy has been settled. It will be a big gain for the people of both Kohala and Hamakua.

DORIC CARRIES PASSENGERS

(Continued from Page 1.)

R. H. Hunt is the Shanghai representative of the Standard Oil Company. He is accompanied by his sister.

S. F. Smith is an assistant naval constructor in the American navy. He is going to be stationed at Cavite.

Charles Freeman is an elderly English gentleman of the Old School who passes a couple of months inclusive of the Christmas holidays, at Del Monte. He is going home by way of the trans-Pacific-Suez route. He travelled on the Doric a year ago. This makes his seventh consecutive annual trip.

No passengers stopped at Honolulu. The Doric carries 70 cabin passengers in the European stateroom and 80 Japanese and 74 Chinese in the Asiatic stateroom. Most of these Japanese are said to be members of either the naval or army reserves and are going home to fight.

The Doric has 3,800 tons of cargo for Oriental ports, including 1,600 for the Philippines. She does not call at Shanghai this trip. She brought 82 sacks of mail for Honolulu.

The Doric sails at 5 p. m. today for the Orient and Manila.

EASTER MILLINERY OPENING.

The ladies of Honolulu are all invited to N. S. Sachs Dry Goods Co. Monday, Tuesday and Wednesday to see the enchanting display of Easter Millinery. This Easter showing at Sachs' surpasses all others in beauty of imported Parisian and New York styles and many lovely creations are arranged to show their artistic effects to the best advantage. Every preparation has been made at the Sachs store to welcome visitors and the exhibition will be a most enjoyable one.

QUESTION OF TAX VALUE

LOCAL MERCHANTISE FIRMS WIN AN IMPORTANT CONVENTION REGARDING CASH VALUES OF TAXABLE GOODS—INVENTORY VALUE NOT THE BASIS OF ASSESSMENT OF TAXES, SAYS THE COURT.

The Supreme Court, by Justice Galbraith and Perry and Circuit Judge De Bolt sitting in place of Frear, today gave a decision sustaining the contentions of the Kash Company and the Pacific Hardware Company in two important tax appeal cases. The corporations returned large stocks of goods on hand at considerably less than the inventory value, as carried on their books, claiming that they had a right to make a reduction to allow for depreciation. The syllabus of the decision, by Perry, says:

'The full cash value, within the

meaning of the tax statute, of a stock of goods, wares and merchandise is not necessarily the value represented by the inventory and carried on the books of the owner for business purposes. It may be less, and it may also be more. "The full cash value" under the tax law, of a stock of goods, wares and merchandise, is what such goods would bring at a sale for cash (on the date of assessment), whether as a whole or in lots or separately—by whatever of these methods the highest aggregate returns would be obtained, provided all the goods were sold on the same day."

Brisbane and Sydney, probably sail tonight.

Am. schr. J. H. Lunsman, Johnson, for Portland at 11 a. m.

PASSENGERS.

Per stirr. Kinau, March 12, from Hilo and way ports—S. Rosenberg, O. Imbs, G. R. Cullen, Mrs. G. R. Cullen, Mrs. A. H. Richardson, E. J. Walker, George C. Stratmeyer Edgar M. Brown Charles H. Towt, wife and 3 children, C. Smith, Lieut. A. Schofield, T. Jenkins, A. A. Young, wife and daughter, Miss S. Honda, H. B. Sinclair, M. H. Smiffen, George Hyde, D. Quill, G. Horner, R. D. Munsell, F. H. Jordan, Miss A. Kullana, A. G. Ivansson, Father James, Bishop, Libert.

Per S. S. Doric, March 12, for the Orient—Mrs. F. E. Palmer, Mr. Adami.

Booked to Arrive.

Per S. S. Alameda, March 12, from San Francisco—E. C. Barnett, Miss M. Fisher, Miss G. Fisher, Mrs. K. M. Perrin, Miss Anita Perrin, Miss Flora Donaldson, Mrs. F. J. Hare, Miss Winifred Dole, Mr. and Mrs. F. B. Whittin, Mr. and Mrs. Larsen Stevens, C. J. Hutchins and niece, J. M. Macdonald, Mr. and Mrs. J. H. Browning, F. B. Anderson, Mr. S. E. Mc. Basch.

PURCHASES A HAWAIIAN GIRL

A CHINESE ARRESTED WHILE ON WAY TO SELL HIS HUMAN CHATEL TO A MERCHANT.

RENO, (Nev.), March 2.—Virginia Eldred, a half-breed Hawaiian girl, and Chin Gin, a Chinese, were arrested on their arrival here tonight from Alturas by Chief Leeper. The officers have a confession from the girl to the effect that the Chinese bought her from her parents, paying \$200. When arrested Gin was on the way to San Francisco, where it is stated he has a contract with a Chinese merchant to deliver the girl, receiving \$1000 for his human chattel.

The girl is 20 years of age and quite pretty. Gin made a statement to a man in Alturas concerning the price paid for the girl and his intention of taking her to San Francisco. He told the girl he intended marrying her. Both traveled as man and wife.

The girl's excuse for being with the fellow is that her mother treated her badly at last forcing her to accompany the Chinese. To avoid ill-treatment she complied. Gin will probably be returned to California and prosecuted. Both are now in jail here.

NO INSTRUCTIONS WERE RECEIVED

ADMIRAL TERRY GOT NO ORDERS FROM WASHINGTON REGARDING CUSTOMS INSPECTORS.

Admiral Terry the commandant of the naval station, states that the report of his having received any cable instructions or any orders on the subject of the customs inspectors being allowed to go on the naval wharves, is incorrect. He has never received any instructions on this subject from any one.

As a matter of fact the reason, the Admiral states, that the customs inspectors were permitted to go on the wharf in connection with the presence of the Solace, was because Collector Stackable had requested that such permission be granted to the inspectors so Admiral Terry permitted the inspectors to go on the wharf.

SHORTAGE OF \$2800

(Continued from Page 1.)

Richardson's shortage is \$2,800, as now appears. Superintendent Brown absolutely denies that he had knowledge of it up to two weeks ago, when he took action. "I have been in this country 25 years," said Brown this morning showing a good deal of indignation, "and my word has never been questioned before. I first heard of this shortage two weeks ago today and in a few days I succeeded in getting a confession."

Yesterday afternoon Brown had an interview with the Governor, which resulted in his resignation as superintendent. Reports were made to the governor that Brown had had knowledge of the shortage and had not exposed Richardson.

The Senate in special session at the end of 1902 appointed a committee to report on the Public Works department and investigations resulted. This was at the time of the removal of Boyd. In a report to the Senate on the Boyd matter a special committee found that the books had been gone over twice by the auditor during the previous year. In the journal of the House appears the following report made to the finance committee on the water works bureau:

Honolulu, T. H. March 23, 1903.

"Hon. J. D. Paris, Chairman Senate Committee on Public Expenditures
"Sir: Referring to examination of accounts by undersigned of the Bureau of Honolulu Water Works, we find:

"1st. Receipts from shipping and labor and material amounting to \$28,910.65 agree with Auditor's report and Treasurer's accounts.

"2nd. A careful examination of the contracts of the office and record of privileges shows that rates, back, current and advance, also penalties, aggregating \$119,826.79 have been fully accounted for to the Treasury.

"The clerical part of the work having been performed by Messrs. Worrall and Cockett.

"We would urge the use of meter system of supplying water to shipping. At present only one meter is in use by the Department; the bulk of water supplied not being properly measured.

"This is a large and rapidly growing source of revenue and should be accurately determined.

"In this connection we have suggested the introduction of a change in the stub books of the shipping department, which will be immediately adopted, designed to place same on more accurate basis.

"It is a pleasure to testify to the neatness, accuracy and efficiency of Mr. E. V. Richardson, clerk of the department in the conduct of the affairs of the office.

"Respectfully submitted,
"WM. R. SIMS,
"House Accountant.
"L. C. ABLES,
"Senate Accountant."

IMPORTANT ORDER.

The following important post office order has been issued by the department.

"The classification, rates and conditions applicable to articles circulating in the domestic mails of the United States shall apply equally to articles mailed at the United States Postal Agency at Shanghai, China, addressed for delivery at any place in the United States or its island possessions.

"Also to articles mailed in the United States or its island possessions addressed for delivery in Shanghai, China, or in the cities served through the United States Postal Agency at Shanghai; except that the Postal Union postage rates and conditions shall be applicable to letters, postal cards and printed matter destined for said cities other than Shanghai viz: Letters, 5 cents a half ounce or fraction of half ounce, 4 cents; postal cards, single 2 cents, double 4 cents; printed matter of all kinds including periodicals from publishers for regular subscribers, 1 cent for each two ounces of fraction of two ounces."

THREE DIVORCE SUITS.

Three divorce suits, each on the ground of desertion, have been filed in the Circuit Court, two of them by Japanese. The cases are Charlotte B. Spencer vs. James O. Spencer, Fumi Kashiba vs. Koroichi Kashiba and Isaac N. Halaluan (K) vs. Lilla Kaheleulepo Kalaekoa Halaluan.

SAILING OF THE SOLACE.

Repairs are being made to the Naval transport Solace. She is having the tubes in one of her boilers fixed. The sailing time of the vessel for San Francisco has been set for noon tomorrow but she is likely to be detained some time later.

Box plan to open Wednesday, March 16, at Wall Nichols Co.

REPUDIATE CONTRACT

At the meeting of the wireless telegraph company stockholders yesterday afternoon, F. J. Cross controlling a majority of the stock refused to ratify the agreement made by the directors of whom he was one, with the Henry Waterhouse Trust Company by which the latter was to finance the company. The company owes the trust company over \$6,500. The agreement which Cross and his associates refused to ratify gives the trust company a mortgage on the property of the wireless as security. Cross carried a motion to recall delinquent stock from sale and to issue paid up stock to holders for such a proportion of their stock as the assessments they had paid would equal. The meeting then adjourned to Tuesday at 3.30 o'clock.

SOLD A WOMAN

Four Japanese were arrested at Honolulu yesterday by Deputy United States Marshal Winter, on charge of selling into involuntary servitude one Hatakayama, a Japanese woman. The charge is brought under an act of Congress of 1874, which provides for a penalty of not over five years and fine of not five thousand dollars for such sale. The four are alleged to have been engaged with others in the sale of the woman. The charge is a new one here.

SUGAR GOING UP

By Cable to the Planters' Association, From Williams, Dimond & Co.

The price of sugar has gone up steadily for the past several days and the New York price is now a trifle over seventy dollars a ton. The following dispatches shows the course of the market.

SAN FRANCISCO, March 12.—The New York price of 96 degree test centrifugals this day is 3.51 cents per pound. The last previous quotation was March 11, 3.49 cents per pound.

SAN FRANCISCO, March 11.—The New York price of 96 degree centrifugals this day is 3.49 cents a pound. The last previous quotation was March 8, 3.47 cents.

The London price of 88 analysis beets this day is 8 shillings, 2. pence. The last previous quotation was March 10, 8 shillings, 3 pence.

BANANAS TO THE ORIENT

CHINESE SHIPPERS ARE TRYING TO WORK UP DEMAND IN JAPAN FOR THE HAWAIIAN FRUIT.

Efforts are being made by local Chinese shippers to establish a trade in bananas with Japan. A shipment of 30 bunches is to be sent to Yokohama today on the Doric for the purpose of working up a market for the Hawaiian product. It has been some time since any bananas were shipped away to that quarter, but the Chinese merchants are now endeavoring to work up a demand in Japan for the fruit. It is understood that shipments will be regularly made. The shipments will naturally be small in character until a greater demand will have been created for them.

Be Strong

Why not be strong? Why not have a good appetite and a good digestion? Why not feel well and hearty all the time? You can just as well have it your own way as not, for there is strength, vitality, power, and good health in every bottle of Ayer's Sarsaparilla. Always keep it on hand.

Here are the words and the photograph of Mr. R. H. Archer, of Hobart, Tasmania: "I often find myself weak, without appetite, and my whole system all run down. My blood gets impure and I have boils and eruptions. Then I always use Ayer's Sarsaparilla, for it makes my blood pure and rich, gives me strength and vitality, and braces me up wonderfully."

AYER'S Sarsaparilla

There are many imitations "Sarsaparilla." Be sure you get Ayer's.

Keep Ayer's Pills on hand and quickly correct any tendency to constipation. It's an easy way to prevent sickness.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

CZAR AND CZARINA IN A BAD STATE

REPORT THAT THEY ARE MORIBUNDLY SENSITIVE TO RUSSIAN REVERSES AND CALAMITIES.

ST. PETERSBURG, March 4.—The Czar and Czarina are reduced to a deplorable state of mind by the war. The Czar is constantly praying with a Father John of Cronstadt, a miracle worker and most influential personage religiously in the Greek church, and is sending propitiatory offerings in all directions to all the famous shrines.

The Czar's condition is causing grave anxiety, as it is feared his mind may give way. He upbraids the Minister unceasingly, although the present state of affairs is really due to his listening to evil counsels. His secretary, Bosabroff, is a tool of the Grand Ducal war party, and, with other high functionaries, hopes to reap a golden harvest, out of the war.

The Czarina practically remains in her own apartments, going from one paroxysm of grief into another. She has become oppressed with the conviction that all Russia's calamities are due to her interested abandonment of her Protestant faith in order that she might be married to the Czar. She is thoroughly morbid.

Reports published in the English press of a breakdown on the Trans-Siberian Railroad should be taken with reserve.

RETVIZAN BLOCKS PORT ARTHUR

LONDON, March 4.—According to the Daily Graphic's Sebastopol correspondent, Admiral Skrydloff, commander in chief of the Russian Black sea fleet, has received confirmation of the statements that the entrance to Port Arthur has been blocked to the extent of imprisoning the Russian battle-ships. Therefore while the Japanese invest the outer roads, the Russian cruisers and torpedo boats have no hope of success should they attempt a sortie.

PARIS, March 4.—Information received from official sources in Korea confirms previous reports to the effect that Chinnampo is free from ice; that the Japanese have ceased debarking troops at Chemulpo and that they have taken advantage of the opening of Chinnampo to land troops there, thus expediting the forward movement. Chinnampo is only about fifty miles from Pin Yang.

Official advices from St. Petersburg confirm the reports that a decisive movement is anticipated on the part of the Port Arthur squadron, now that Admiral Makaroff has arrived there; that torpedo boats especially will be brought into play and that, in spite of the reports to the contrary, Russia is understood to have an ample supply of torpedoes for these craft.

ST. PETERSBURG, March 4.—An imperial order has been issued summoning the reserve subalterns and first-class reserve men of European Russia to the colors for six weeks' training. A similar order has been issued to the naval reserves. This is interpreted as indicating that every thing is being made ready to mobilize the whole Russian army.

CLAIMS CURE FOR LEPROSY

CHICAGO, February 10.—Announcement was made last night for the first time in the history of medical profession of a cure for leprosy, a disease considered by lay and scientists incurable. The announcement was made by Dr. James Nevin Hyde, professor of dermatology in Rush Medical College, and a prominent Chicago specialist, in a public lecture at Kent theater, University of Chicago.

Dr. Hyde declares also that leprosy is not, as has long been popularly supposed, a contagious disease. He exhibited to the audience a leper—a New Zealand Maori—whom, he says, he has practically cured of the dread disease. Dr. Hyde brought the Maori from New Zealand more than a year ago.

At that time he was afflicted with tubercular leprosy in advanced stages. Greasy red spots appeared on his body, and he was wholly insensible to touch or to the effects of heat and cold. Now the red spots are rapidly disappearing, while the patient has a sensitive touch and is conscious of changes in temperature.

Dr. Hyde declared that after three years of study and experiment among lepers of the South Sea Islands and Oriental countries he was convinced that the disease was not contagious. He stated also his belief in the ability of medical science to effect its cure, as he has effected the cure of the Maori by means of natural hygienic treatment. The idea of the contagious nature of the disease Dr. Hyde declared to be due to a superstition acquired from the Bible. He said that no clean person had even been seized with leprosy from association with lepers.

Dr. Hyde's statements were heard by prominent medical men of the city with great interest. Dr. Nicholas Senn, who has traveled widely in Oriental countries where leprosy is most prevalent, said:

"So far as I know, this is the first announcement made of a cure for leprosy. I am of the opinion that tubercular leprosy cannot be cured. What is known as nervous leprosy sometimes cures itself. Physicians who have made a special study of leprosy have been agreed for some time that it was not a contagious disease."

Dr. P. J. H. Farrell, who recently returned from the Philippine Islands, and who has made a special study of leprosy in all countries where it is prevalent, said:

"Dr. Hyde's case is the first cure on record. The announcement of it, with the assurance from Dr. Hyde that the disease is not contagious, will be a revelation to the medical and scientific world. Dr. Hyde stands high as an authority on skin diseases, and his declaration that leprosy is non-contagious will, I think, be generally accepted by scientists. If the disease is not contagious the United States Government will be saved many hundreds of thousands of dollars annually in caring for leprosy persons. They will not have to be quarantined so closely, and if not quarantined they can better enjoy life and make a fight against the disease."

Beer must be pure

to be good; must be brewed only from the best materials; must be scientifically filtered, thoroughly aged, bottled at the brewery and sterilized after bottling. It must always be shipped in the bottle, for beer shipped in bulk and bottled at supply depots is sure to absorb impurities.

The Famous A.B.C. Beers

are guaranteed absolutely pure and free from all preservatives and chemicals

used in other brands of bottled beers, which are injurious to the health. They are never sold in bulk—are the only beers bottled exclusively at the brewery. Made from the finest Bohemian hops, they are aged for months, then filtered and piped direct from the brewery vaults into bottles by means of hermetically closed filling machines. This prevents the beer from coming in contact with the outside air, and insures absolute freedom from bacteria. It also preserves its natural effervescence and zest.

Six Points of A.B.C. Excellence

- 1—Purity. We absolutely guarantee the purity of all our beers.
- 2—Flavor. This is the distinctive, individual characteristic of any beverage, peculiar to it alone, and is the quality that has made A. B. C. Bohemian Beer famous.
- 3—Brilliance, clearness and polish, proving perfect brewing and fermentation.
- 4—Clean Taste. No disagreeable foreign or aftertaste, proving scrupulous cleanliness during brewing process.
- 5—Keeping Quality. The most trying test for bottled beer. A. B. C. Bohemian will keep and retain all of its qualities under varying conditions.
- 6—Solid, Creamy Foam, denoting body age and excellence of brewing materials.

You Will Be Happy if Well.

Paine's Celery Compound
Bestows that Health and Vigor that Makes Living a Pleasure.

If you are sick and out-of-sorts, it is in your power to make yourself healthy, strong, and happy.

There is not the slightest reason why you should go through life feeling sickly, miserable, languid, and melancholic. To be well and strong, means happiness and true joy.

If you are sleepless, rheumatic, neuralgic, dyspeptic, or have the shadows of disease hovering over you; if you are not as bright, energetic, and strong as you were some weeks ago, the use of Paine's Celery Compound will tone up and fortify your whole system, cleanse the blood, correct digestion, sharpen the appetite, and conduce to restful sleep. Thousands once in a half-dead condition owe their present good health to the use of Paine's Celery Compound.

Mr. Wm. S. Gibson, of Pleasureville, Ky., who, through sickness and suffering, was brought near the dark grave, writes as follows, regarding his marvelous cure:—
"I have been broken down in health and strength, nervous system shattered, kidneys out of order, had nervous and trembling spells off and on for the last ten years. I have taken three bottles of your Paine's Celery Compound and all of the above-mentioned troubles have left me, and I can now do a good day's work. I go about my business all day long and it don't worry me, and I now feel better than I have in ten years. I have a good appetite, and can eat and get around on foot as active as when I was a boy. My age is 65 years."

6:30 p. m., "Appetites That Unmake Men."

7:30 p. m., "A Fearful Harvest From Indifferent Sowing."

DIED.
MOORE—In San Francisco, February 25, 1904, Isaac Moore, a native of Balbriggan County, Ireland, aged 62 years, 9 months and 1 day. Mr. Moore came to Honolulu about the year 1881 under engagement to the late George Lucas as architect and draftsman. He had charge of all the interior designing of Iolani palace under the late H. A. P. Carter, Minister of the Interior, the father of the present Governor. This was in the reign of Kalakaua. Mr. Moore was architect of the Campbell block, also of the Melnery building. Besides being an able man in his profession, he was highly popular for personal qualities.

He returned to San Francisco after his active career here. He came to Honolulu again about five years ago for the benefit of his health, being then afflicted in some degree with locomotor ataxia. Dr. R. L. Moore, who practiced dentistry in these islands for several years, is a son and Mrs. E. H. Ayers a daughter who with their mother survive him.

THE SCOTTISH ENTERTAINERS.
A Most Interesting Recital to be Given Shortly.

The Honolulu Scottish Thistle Club have been fortunate in being able to arrange for this unique combination, which is on tour around the world, to give a recital in Honolulu. Gavin Spence and Flora Donaldson are noted

WALTHAM WATCHES.

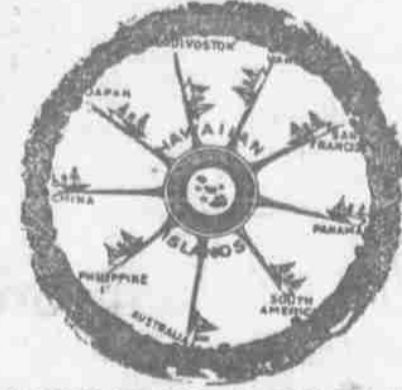

The American Waltham Watch Company, Waltham, Mass., U. S. A., is the largest watch manufacturing concern in the world. The buildings have a frontage of 769 feet, with numerous wings which, if placed end to end, would extend 2,827 feet, or more than half a mile. The floor space is about six acres. The daily product of this factory is 2,700 finished watch movements, and more than 11,000,000 Waltham Watches are now in use.

All Waltham Watches are guaranteed.

singers in their native land and have added much to their reputation by their great success in the United States. Miss Donaldson is both an English and Gaelic vocalist and Mr. Spence is the possessor of a fine tenor voice which he uses with wonderful skill and dramatic power in rendering the beautiful melodies of Scotland. "Song and Story" recitals are a form of entertainment which has long been popular in the "old world" and bids fair to become no less so in the new when given by

such high-class artists. American audiences have found to their delight that they can thoroughly understand and appreciate the songs and stories so splendidly sung and lucidly told by Mr. Spence and Miss Donaldson and have applauded as enthusiastically as the brawny Scots.

The concert takes place in the Opera House on Monday evening the 21st of March, and the box plan will be opened at Wall, Nichols Co. on Wednesday morning at 3 o'clock.

A Good Complexion Comes With The Use Of

Good Soap

Cheap Soap is the most dangerous thing you can use to ruin the skin. If your skin is rough, and red and irritated, nine times out of ten it's the soap. Appreciating the importance of being able to recommend a safe toilet soap we went to the expense of having a special brand made for us. It is called

CURATIVE SKIN SOAP

We have sold thousands of cakes and have yet to learn of a displeased customer. With our soap, as with our other preparations, we simply ask you to try it on our recommendation. We know it is a pure, delightful toilet and medicinal soap and it will please you.

There is nothing better for the baby's bath for it is made of pure vegetable oils, and keeps the tender skin healthy.

Insist on having the genuine and accept none without our name stamped in the cake. The price of Curative-Skin Soap puts it within the reach of all—20 cents for a cake; 50 cents for a box of three cakes.

He goes representing a syndicate of papers including the San Francisco Bulletin, the Los Angeles Times, and the Seattle Post-Intelligencer, and a number of Eastern papers.

SCANDALOUS AND IMPERTINENT

HERBERT KENDALL FILES EXCEPTIONS TO ANSWER OF LUCAS BROS. IN INJUNCTION SUIT.

Hatch & Ballou this morning filed a motion in the Circuit Court to expunge certain parts of the answer filed by Lucas Bros. to Herbert Kendall's injunction suit over Lahainaluna School building, as scandalous and impertinent. The exceptions to Lucas' answer are stated as follows:

"For that the said answer beginning with the words 'and that plaintiff' in the first line on the tenth page thereof, to and including the word 'same' in the tenth line on the tenth page thereof, and reading as follows:
 "and that plaintiff is attempting to defraud defendants out of the contract in question by falsely claiming now that his lump bid aforesaid, did in fact include seven months pay for a public inspector at \$4.00 per diem, and in this connection defendants say that seven months was an inordinate length of time in which to erect said buildings, and that the item for plastering as set forth in plaintiff's original bill herein, was excessively low, and that no such bid for the plastering work was justified, or could recoup the bidder making the same."

"Impertinent and scandalous and ought to be expunged.
 "In which particular the complaint humbly insists that said answer is irrelevant, impertinent and scandalous; wherefore said complainant excepts thereto and humbly prays that the impertinent and scandalous of the said answer excepted to as aforesaid may be expunged with costs.
 "Hatch & Ballou, counsel for Complainant."

BENNETT BURLEIGH ON JAPANESE PLANS

THINKS THEY WILL PROCEED ALONG THE PEKING ROAD FROM SEOUL—COMMAND THE SEA.

LONDON, March 4.—Bennet Burleigh, the Telegraph's special correspondent, now at Chefoo, telegraphs that the Japanese seem to have decided to advance along the Peking road from Seoul, which place they have already left. When they secure the Yalu river they will threaten Kirin, cutting the railroad and menacing Vladivostok, while another force deals with the Liaotung peninsula.

The first big Japanese victory which is more than likely if they keep the troops in the rough country where the Cossacks cavalry will be of little value, will mean an unauthorized rising of the Chinese, who will lend a great helping hand to the Japanese. Their Manchurian horsemen are bigger and better and braver riders and fighters than the Cossacks.

Other correspondents confirm the reports of Japanese landings at Chiampho and Song Chin. It is stated that the Russians have built a number of forts on both sides of the Yalu river, including extensive earthworks at Antung.

The Telegraph's correspondent states that although Japan has lost a small cruiser and had one battleship's machinery disabled and another vessel damaged, she has complete command of the sea, and will eventually through this means effectually blockade and isolate Port Arthur and the territory near Dainy. The railway from Port Arthur to Newchang was practically intact and trains were running on February 29th. The telegraph lines by way of Peking and Irkutsk to Moscow are working.

REPLEVIN SUIT FOR A RAILROAD

W. W. BIERCE & COMPANY OF CHICAGO SEEK TO GET HOLD OF THE KONA RAILROAD.

A replevin suit to recover a railroad worth \$37,000 was submitted yesterday afternoon to Judge De Bolt, being the case of W. W. Bierce & Company against C. J. Hutchins, trustee of the Kona stockholders. Bierce & Company of Chicago sold the railroad to the Kona Sugar Company and claim that under the terms of the sale the title to the property should remain in the company selling the property.

Hutchins claims the railroad as a part of the property he purchased at sale of the Kona Sugar Company, for \$5,000. The questions involved are mostly legal and nearly all of the day was taken up by legal argument. J. W. Cathcart appeared for Hutchins and McClanahan for Bierce & Co.

PRIMARY CALL

Senator Crabbe has issued a call for primaries to elect delegates to the Territorial Republican convention to be held in Hill's on April 21. The primaries are to be held between 2 and 8 p. m. on April 9. The call, which is published in full this issue of the Star, gives a list of the number of delegates to which the various precincts are entitled, making up a total of 135.

BRAINY BOWERS' LATEST INVENTION

BINNACLE JIM WEAVES A PIPING YARN

1. "Speakin' o' birds reminds me o' a little joke I played on old Capt'in Walrus o' th' 'Dancin' Sally.' We'd stopped at one o' th' Bingo group, an' while th' skipper wus ashore a native came aboard 'ith a cage o' parrots.

2. "I no sooner clapped my eyes on 'em than I had an idea an' bought th' whole lot. You see, them critters can whistle like all git out, an' it wusn't long afore I had 'em trained t' give th' different pipes.

3. "Well, sir, afore th' capt'in got back aboard 'Bill' an' me had 'em stowed away all around th' vessel, unbeknowst t' th' crew, who 'us takin' it easy in th' fo'c'sle.

4. "Well, sir, when th' capt'in 'us comin' aboard th' Bos'n started t' pipe th' crew t' quarters an' them birds took th' cue an' you never heard sich a lot o' whistlin'. Th' men 'us drove wild runnin' from stem to stern t' obey orders.

5. "Things 'us agettin' mighty lively an' th' crew 'us about t' desert thinkin' th' ship haunted, when one o' them commenced t' whistle Yankee Doodle an' exposed th' whole scheme an' th' capt'in had 'em picked up an' put back in th' cage an' sung out t' know who th' owner 'us.

6. "You might a' thought I'd a-claimed 'em. But not me, an' arter a while old Walrus hit on th' scheme o' turnin' 'em adrift an' stove me in if every mother's chick didn't fly out an' perch on old Jim here. They ain't no use going into details, but I wish t' say that 'ere voyage 'us one o' th' roughest I ever sailed."
