THE Daily Bulletin

Pledged to neither Sect nor Party, But established for the benefit of all.

MONDAY, NOV. 25, 1889.

THE SATURDAY EXCURSION.

Not a large party took the excursion by land and water offered by the Oahu Railway and Land Company on Saturday afternoon. There were sufficient, however, to make a sociable appearance on both train and boat. Even those who were over the rails before did not find the charms of the land trip stale, as the breezes are ever fresh from sea or mountain and the novelty of scenery passed through wears well. The voyaging by the steamer Ewa of a score of miles over the waters of the now world-renowned harbor, which on this occasion presented a surface as smooth as the proverbial mill-pond, was full of luxurious sensations from the views of surrounding nature and the exhilarating air beneath a thinly clouded sky. A band of native musicians sang and played melodious selections all the way. Some of the more thoughtful of the party brought along well-stocked lunch baskets, their foresight in anticipating the appetizing effects of the cruise being only surpassed by the generosity with which they shared round their toothsome stores. The Bulletin representative, who was among the improvident ones, had not time to bewail his folly before he was treated to a princely repast. The excursion train reached town about 5:20 o'clock, all on board looking as if they should desire to repeat the jaunt every week.

R. M. S. MARIPOSA.

The Royal Mail steamship Mariposa, Capt. Hayward, arrived Saturday evening at 11:30 o'clock from San Francisco with 25 cabin and 32 steerage passengers for this port and 116 in transit for the Colonies. She left the wharf at San Francisco at 4 p. m. Saturday, Nov. 16th, and anchored in the stream until midnight at which hour the mails, which had been detained, arrived on board. At 12:35 a. m. Sunday the steamer proceeded to sea. From the 17th to 19th experienced strong breeze from W. and S. W. with heavy head sea, thence to port heavy westerly swell with frequent rain squalls. The Mariposa brought 570 packages of freight for this port and had in transit for the Colonies, 1171 tons for Sydney, and 152 tons for Auckland. She left for the Colonies shortly after 4 o'clock Sunday afternoon.

AMERICA.

THE UNITED STATES AND HAWAII.

Claus Spreckels talked in Philadelphia about the prevalent idea that Blaine intends to spring a definite policy with regard to the expansion of American influence. This was what the country expected of Blaine and the expectation was heightened by the Samoan incident, but it was Mr. Spreckels' opinion there would be no annexation of the Hawaiian Islands. He did not believe Secretary Blaine intended to annex any territory, but if the United States wanted the islands it was not within the power of any country to wrest them from her. They had a coaling station at Honolulu and at Pearl River one of the finest harbors in the world. Should war break out they would want such a harbor, and it would never do to let the Hawaiian Islands go into the power of any other country.

The consideration of the Pearl Harbor matter by the Secretaries of States and the Navy has drawn attention anew in Washington to legislation for the protection of the interests of the United States in the Pacific. Shortly before the close of the last (fiftieth) Congress, an appropriation of \$500,000 was made to be distributed by the President for the protection of American interests in Samoa. The fund was somewhat of a confidential nature, and possibly a detailed report of its expenditure will not be given. So far as known the only payments out of it have been for the expenses of the Samoan commission to Berlin, the cost of sending home the shipwrecked sailors from Samoa, and the purchase of presents to reward Samoans for help given in the hurricane at Apia. Nothing has been expended of the separate appropriation of \$100,000 toward establishing a coaling station at Pago-Pago.

Hon. H. A. P. Carter, Hawaiian Minister, has returned to Washington from his visit to Honolulu. In an interview he stated that he had not yet formally presented any propositions to the Secretary of State, but he expected to do so. The propositions as he then outlined them are all in the treaty memorandum previously published in Hawaiian and American papers.

The cruiser Baltimore made a second trial trip, 15th, making in a four hours' steady run 20.2 knots an hour, against 19.8 knots on the first trip, but it is not yet known whether she developed more or less than the 9,000 horse-power called for by the contract.

Swope began the fight by drawing a pistol on Goodloe, who stabbed and stashed him many times. Swope died on the spot and Goodloe came out seriously wounded with a bullet in his body. The cause of the affray was a remark made by Goodloe about Swope in the Republican convention of May, 1888.

The show was witnessed by two millions of people and occupied the streets four hours and a half. Lord Salisbury at the Guildhall banquet congratulated the country on the splendid expansion of trade. He warned labor agitators that they undertook grave responsibilities. Ireland was progressing with increasing prosperity and diminishing disorder. No member of the Government indulged in the wild theory of home rule, but all were ready with a practical policy which would satisfy the country. The policy was unchanged in Egypt, and the difficulties in Europe tended to a peaceful solution.

Discoveries made by the police in Fitzroy square, London, have involved several noble families in a cloud of scandal. LOCAL & GENERAL NEWS.

Correspondence on the fourth page.
W. H. Page has a notice elsewhere about accounts due him.

Dr. Anderson, the dentist, returned on the Mariposa and has resumed business.

There is no change in the price of sugar since last advices. It remains at 5¢ for 96 test.

The Post Office despatched on the W. G. Irwin yesterday 797 letters and 66 packages of papers.

The Mariposa brought 35 bags of mail for the Post Office, including 5 bags for the Parcels Post.

Purser Thos. Smith of the Mariposa and Hon. W. C. Wilder have our thanks for late San Francisco papers.

The Waikiki Ranch offer fat turkeys, suckling pigs, ducks and chickens for sale. Order of C. W. Macfarlane early.

At a meeting of the Board of Health this morning, Dr. N. B. Emerson, the President, signified his intention of resigning.

The Pacific Hardware Company will present to the public in a few days a magnificent stock of new goods for holiday presents, including the very latest in art and decorated wares.

A BALLOONIST named Peck was a passenger on the Mariposa. He intended to stay over here and give an exhibition, but after he heard of the balloon calamity, decided to go on to the Colonies.

The performance by the Ray Bros. Saturday evening was not largely attended, but it gave satisfaction to those who were present. The Brothers are going on a professional tour around the islands.

Dr. N. B. Emerson, President of the Board of Health, leaves to-morrow for Kaula to visit some of the plantations. Next week in company with Dr. Lutz he will go to the leper settlement.

An old whaling man named Prosser well known in Honolulu for many years, died recently of heart disease in San Francisco. He had been in the whaling business sixty years, and was over eighty years old at the time of his death.

In the games of baseball played on Saturday at Makiki the Roads and Bridges scored 13 to the Iolanis 7, while the Punahou and Valley Boys played a tie game, both sides scoring 10 runs at the end of the ninth innings. Darkness prevented further play.

"That fence" surrounding the race track at Kapiolani Park, for years past a popular bete noir, has at length come down. It is replaced by a stout rail fence, and the change makes a very noticeable improvement in the park landscape.

The Mariposa carried an exceedingly large cargo through to the Colonies. It included 10,700 cases, 99 barrels and 60 half barrels of salmon, 2,000 boxes of apples, 1,105 boxes raisins, 3,473 cases canned fruit, 16,217 pounds dried fruit, 20,961 pounds coffee, 30,000 pounds codfish, also onions, beans, machinery, hops, wine, etc.

ABOUT half-past four o'clock Saturday afternoon Thomas Leavitt, a fireman on the steamer Waialeale, fell into the water between the vessel and the dock. Another fireman was quickly on the spot to render assistance but never saw Leavitt again. Up to the time of going to press the body has not been recovered. Leavitt was a native of Cornwall, England, and had been in the islands about twelve years. He was about 56 years of age.

Two hen pheasants from Japan, received by the steamship Yamashiro Maru, have been placed with the beautiful male bird—that has been solitary for many months since his original mate died—in the cage with the peacocks at the park ranger's lodge, Kapiolani Park. The hens were confined together in a basket on board ship, with the result that their disputes over space left them rather exhausted on arrival. They seem to be healthy enough now, and, it is hoped, will yield a progeny that will make an attraction to the park groves.

ENTERTAINMENT AT SEA.

During the voyage of the S. S. Mariposa from San Francisco to this port, a most enjoyable entertainment was given on board, and was highly enjoyed and appreciated by the passengers. The Purser, Mr. Thos. Smith, and Mr. Altman succeeded in forming the following programme, viz.:

- 1. Piano Solo—Night Watch.....
2. Song—My Own Fireside.....
3. Duet—O Fair Dove.....
4. Song—Dreams.....
5. Piano Solo—American Triumphant March.....
6. Recitation—Clarence's Dream.....
7. Song—Nancy Lee.....
8. Piano Solo—Nocturne.....
9. Duet—Home to Our Mountains.....
10. Misses Taylor and Atherton

Several encores were demanded and responded to with extra songs. Altogether it was shown how pleasantly and instructively evenings can be enjoyed on board ship in mid-ocean. Mr. W. T. Green acted as chairman, and votes of thanks were unanimously accorded to Captain Hayward, Mr. Kozminsky, the chairman, Mr. Smith, the purser, and Mr. Altman for having been the means of affording such enjoyment to the passengers.

NAVAL MEMORIAL WINDOWS.

A meeting of those interested in memorial windows being placed in St. Andrew's Cathedral to the late Captain Nicolls of H. B. M. S. Commodore, and Captain Schoonmaker and Paymaster Arms of the U. S. S. Vandalaria, was held at the St. Andrew's Sunday school-room Saturday afternoon. The Bishop of Honolulu presided and Mr. Wray Taylor was appointed secretary. The Bishop, after calling the meeting to order, stated briefly its object, in well chosen words.

Capt. H. W. Mist, R. N., presented the following resolution: Resolved, that a committee be appointed with instructions to invite contributions for the purpose of erecting a memorial window in St. Andrew's Cathedral, in affectionate remembrance of the high regard and esteem which is so generally felt toward the memory of the late commander Jasper E. T. Nicolls, and report to the Bishop of Honolulu as soon as they will have succeeded in raising the required sum, viz., \$200.

The resolution was seconded by Mr. Henry Smith and adopted unanimously. The following committee was appointed: Rev. Alex. Mackintosh, Hon. A. S. Cleghorn and Capt. H. W. Mist.

On motion of Mr. F. M. Swanzy, seconded by Rev. H. H. Gowen, the committee was empowered to add to its number if necessary for the purpose of raising a further sum of \$200 for the erection of a memorial window in remembrance of the late Capt. C. M. Schoonmaker and Paymaster Arms of the U. S. Navy.

Capt. Mist read a letter from Admiral Kimberly, in which he stated that such manifestation of feeling towards the late Captain and Paymaster, was highly appreciated by himself and officers, and he would be glad to contribute.

THE S. S. HAWAII.

The steamer Del Norte, recently purchased by the Wilder's Steamship Company and re-named the Hawaii, took fire at the Oceanic Company's dock, San Francisco, at 7 o'clock on the morning of November 15th. She was loaded with a general cargo of merchandise valued at \$25,277, and was to have sailed for the islands an hour after the fire broke out. It was discovered by some deck hands who saw smoke and steam coming up through the hatchways. The decks were filled with lumber and hay, which a large force of men threw off as rapidly as possible. The tugs Vigilance and Alert went alongside and in a short time had nine streams pouring into the vessel's hold. She was taken to the mud flats, and there it was found that the pumps had drowned the fire. The work of pumping the water out was then begun and the vessel was finally towed back to the dock. The damage is said to have been almost entirely to the cargo.

Hon. W. C. Wilder was on the wharf at the time of the fire and writes that he thinks it was caused by water from a leaking tank reaching some lime and slaking it. The Hawaii was insured for \$30,000 but how much of the cargo was insured he does not know. Mr. Wilder thinks that it will take two weeks to repair the damage.

PERSONAL NOTES.

Miss Eva Hart arrived on the Mariposa from England, on a visit to her sister, Mrs. L. J. Levey. Alexander McKinley, editor and proprietor of the Melbourne Weekly Punch, and L. J. Bryant, London correspondent of the Sydney Telegraph, were through passengers on the Mariposa.

New Free Tontine Policy OF THE Equitable Life Assurance Society OF THE UNITED STATES

A SIMPLE PROMISE TO PAY. [From the NEW YORK TIMES, June 22, 1889.]

The Equitable Life Assurance Society has adopted a new form of policy which, like a bank draft, is a simple promise to pay without conditions on the back.

[From the CHICAGO INVESTIGATOR.] Always on the alert, and ever anxious to give the public the most advantageous contract in life insurance, the Equitable Life Assurance Society of New York has, in the past, made many advances on old methods and has been the means to liberalize life insurance in a greater degree perhaps, than any other organization. It is not at all surprising, therefore, that this great company now comes before the people with a new contract, the like of which has not before been known in life insurance.

[From the KENTUCKY REGISTER, Richmond, Ky., June 28, 1889.] The Equitable Life Assurance Society has, in the past, done more to create and maintain confidence in life insurance than any other company. Consequently its business is larger than that of any of its competitors. Furthermore, it has now taken a step which practically sweeps every objection of the character referred to out of the way. The result, undoubtedly, will be that thousands of men who have heretofore lacked confidence in life insurance, will examine the new policy offered by the Equitable, and assure their lives forthwith.

[From the BOSTON POST.] This company has done more than any other to simplify the assurance contract, and to maintain public confidence in life insurance.

[From the PACIFIC UNDERWRITER, San Francisco, July 1, 1889.] The Equitable has already established a world-wide reputation for liberal dealings with its policy-holders and for its prompt settlement of all legitimate claims against it, and this new policy cannot fail to enhance its reputation for enterprise and progressiveness in dealing with the subject of life insurance.

For full particulars call on ALEX. J. CARTWRIGHT, General Agent for the Hawaiian Islands.

THE SUGAR SITUATION.

Views of Col. Spreckels on the Market and the Trust.

[Correspondence of the BULLETIN.]

Claus Spreckels, in an interview with the Philadelphia Telegraph, throws a great deal of light on the sugar situation, and the Trust, and this also should be interesting reading to the enterprising gentlemen who struck hands with Havemeyer and Searle to plunder the American people and crowd Spreckels to the wall. He is top of the heap, however, and is likely to remain there.

"The sugar market is now in a demoralized condition. There was a drop yesterday in the price of refined sugar of 1/2 of a cent a pound, making the price 7 1/2 cents a pound. Every decline of 1/2 means a decrease in the income of the Trust of \$10,000 a day. I look for a drop of 1 cent a pound in the price of sugar in the next thirty days. This means a decrease of \$80,000 more a day in the income of the Trust. Sugar must drop. If the sugar people here refuse to lower prices, sugar will be sent here from England and all parts of Europe.

"There has been a great deal of talk," said Mr. Spreckels, "about the recent big drop in the price of Sugar Trust certificates and the cause. I think I can throw some light on the matter. The property of the Trust was worth about \$15,000,000 when it was started, and certificates to the amount of \$49,000,000 were issued. The Trust is loaded up with a lot of high-priced sugar, and the market is in a bad condition, and that is why the insiders have been sliding out of their certificates. Two months ago the Trust paid for raw material 2 1/2 cents a pound more than they could buy it for to-day. They laid in a stock of 45,000 tons of raw sugar for which they paid 8 1/2 cents a pound. To-day the nominal price of raw sugar is 6 cents. The loss to the Trust (exclusive of interest on the money invested and storage charges) is \$2,025,000 on this transaction. The insiders in the Trust, of course, know this, and probably that is one of the reasons for the drop in the certificates. There will be another drop soon, and this means further loss to the Trust.

The Trust recently had four refineries situated in New York, Boston, New Orleans and San Francisco. The refinery in San Francisco was sold very quietly by the Trust a short time ago to Havemeyer & Elder. This refinery represents about one-sixth of the Trust output. I believe that the balance of the working refineries will be turned over to individuals in some way. The older refineries which were closed by the Trust when it started are now lying idle and are being rapidly dismantled. The wear and tear on these refineries is very great and before long they will be practically worthless. I don't know how much Havemeyer & Elder paid for the California refinery. It is not likely, however, that they paid an exorbitant price, or that the Trust will exact a very big price for the remaining refineries. When they are all sold the certificates will represent nothing except the money paid for the refineries, or what may be left of it, and the idle and dismantled refineries.

"The Trust has lost so much money because of the big crop abroad. That caused the drop in the price of sugar. The refineries outside of the Trust made money until recently because the Trust closed a number of refineries, and the outsiders supplied the deficiency, selling their product at the high prices which the Trust made. Both Harrison, Frazier & Co. and E. C. Knight & Co., of this city, made a large amount of money recently."

As Mr. Spreckels has said many times, he expects through the big production of his refinery now about to start, and which he will duplicate, to make things more unpleasant still for the Sugar Trust, and as he has hitherto done, find that their loss is his gain.

It is notorious in New York that Havemeyer, Searle and the Sugar Trust ring are at their wit's end, and are prepared to make any terms with Spreckels. They would give up the Philadelphia and give several millions besides if Spreckels would draw off. But they can't get in their work. They are the under dog in the fight now, and nothing can save them. Public opinion is dead set against them, and Spreckels and the outside refiners show far greater business capacity than the ringsters. San Francisco, Nov. 7, 1889.
