CO-OP READYING FOR COMMISSARY SHIFT

With receipt this week of a \$15,000.00 loan from the Trust Territory, the Ponape Co-op accelerated its plans for taking over the commissary operation in March. Stocks are already being built up for the new opening, according to Mr. Ray Cadwell, as no stock will be transferred from the present operator, Mr. Carlos Etscheit.

The "new" commissary will be open 9:30 to 5:30 Monday through Friday and from 8:00 to 12:00 on Saturdays. Helen Cadwell will manage the operation. A small kitchenware section will be maintained. As far as possible, all items normally found in a super-market will be stocked, including "goodies" for the cocktail hour. Telephone orders will be taken and deliveries made in the afternoons only.

Cadwell noted that by the time the Co-op takes over the commissary operation, the Pacific Coast Freight Tariff will have gone up twenty percent on all items except canned goods. He also said that the commissary would sell in case lots at a reduction of five percent of retail price.

Greater import of Australian products may alleviate the freight raise somewhat. Australian beef, beer, and tinned products are already available at the grocery section located in the Co-op Store.

Mr. Carlos Etscheit, retiring commissary operator, has announced that effective February first all sales will be on a cash basis only. Patrons with accounts are asked to pay them in full by that date.

CLUB KOLONIA general membership meeting will be held on January 26, 1961. Plan to be there!

TRAVEL CURTAILMENT

The United Nations Visiting Mission is expected to arrive Guam for an inspection of the Trust Territory on February 6, 1961, and will remain in the area until the week of March 12.

It will be necessary that inter-district travel during this period be kept to an absolute minimum. Hotel accommodations must be reserved for the official members of the Mission party and the flight crew.

Since the Mission will be much longer in each district, the plane will not remain in the district with the Mission except in the Marshalls. When the Mission is travelling to a district, it will have the use of our plane exclusively and no other passengers will be carried. Mail will be carried. After discharge of the Mission party in a district, the plane will then become a regular flight and will pick up local passengers and cargo for onward travel.

The U. N. Visiting Mission is expected to arrive Ponape February 8, Wednesday, for a week's stay, and then fly to the Marshalls for a week.

WHY DON'T THEY?

(The following queries and constructive suggestions are contributed by our readers. Send your "wonder whys" to us for publication.)

WHY DON'T THEY establish a commercial bank in this district?

WHY DON'T THEY name the streets and roads in Kolonia and throughout the island with appropriate Ponapean names? Signposts would be a help, too.

WHY DON'T THEY devise some method of securing our garbage cans from the ravages of hungry dogs? Better still, why don't they reduce the dog population?

WHY DON'T THEY form a welcoming committee of women to assist our official greeter, Mr. Forester, meet plane passengers at Kolonia dock? Very often the smiling face of a lady starts the visit, no matter how short, off to a good start.
