LETTER FROM HAWAII.

EDITOR BULLETIN:—Kau has been
experiencing dry weather for a con-
siderable time past. The rainfall
at Pahala from Nov. 25th to date
has been 6 42-144 inches, a very
light rainfall compared with other
years at same period, but notwith-
standing this the cane on this plant-
ation is looking exceedingly well,
and there is sufficient rain in the
mountain to keep sufficient water in
the flumes for fluming purposes.

This route to the volcano has been
well patronized of late, passengers
arriving by every steamer, and it is
likely it will continue, there being
advantages in travelling this route
over that via Hilo that cannot be
denied.

We in this place are beginning
to feel the inconvenience of the
present money question. About
\$6,000 in gold coin has been paid
out in wages on this plantation since
the new gold law came in force, and
still a gold coin is scarcely to be
seen. It is hoarded by the Portu-
guese and Chinamen to whom it was
paid, they using their silver savings
to buy what they require; but I think
this will work itself right in a little
while. When their silver is exhaust-
ed they have to bring out their gold.
Pahala, Kau, Mar. 8.

THE FUN OF AN ADVERTISEMENT.

My son, there is nothing on earth
so mysteriously funny as a news-
paper advertisement. The prime,
first, last and all the time, object of
an advertisement is to draw custom.
It is not, was not, and never will be,
designed for any other human pur-
pose. So the merchant waits till the
busy season comes and his store is
so full of custom that he can't get
his hat off, and then he rushes to the
newspapers and puts in his advertise-
ment. When the season gets along
and there is no trade, and he wants
to sell goods so bad he can't pay his
rent, he takes out his advertisement.
That is, some of them do, but occa-
sionally a level-headed merchant puts
in a bigger one and scoops in all the
business, while his neighbors are
making mortgages to pay the gas
bill.

There are times when you couldn't
stop people from buying everything
in the store if you planted a cannon
behind the door, and that's the time
the advertisement is sent out on its
holy mission. It makes light work
for the advertisement, for a chalk
sign on the sidewalk could do all that
was needed and have a half holiday
six days in the week, but who wants
to favor an advertisement. They are
built to do hard work, and should be
sent out in the dull days when a cus-
tomer has to be knocked down with
hard facts, and kicked insensible with
bankrupt reductions and dragged in
with irresistible slaughter of prices
before he will spend a cent.

That's the aim and end of an ad-
vertisement, my son, and if you ever
open a store don't try to get them to
come when they are already sticking
out of the window, but give them
your advertisement right between the
eyes in the dull season, and you will
wax rich and own a fast horse, and
perhaps be able to smoke a good
cigar once or

THE LICENSE DECREE.

It is difficult to pass the proper judgment upon the action of the Privy Council in extending liquor licenses to the out districts. It is safe to say, however, that if the Government could have suppressed the illicit traffic, the existence of which is notorious, this action in establishing a legalized traffic in the planting centres is nothing less than a great crime. Only our doubt that the illicit traffic could be suppressed, while the trade, wholesale and retail, is given full scope in the metropolis, restrains us from denouncing this measure of the Privy Council as one designed to facilitate the debauchery and degradation of the working classes, and the destruction of the native race.

Notwithstanding that large amounts have been collected in fines from illicit dealers in some districts, we are not sure that the resources of authority have been greatly strained in efforts to prevent the illegal traffic. Therefore, at the very least, we regard the decision to establish a legalized traffic in the rural centres as a serious blunder of judgment. It is, moreover, a breach of faith with the Legislature. When the amendment to the liquor law was up at the last session, it contained local option provisions, whereby the people of any district would have had the power to decide whether liquor licenses should be granted in their district.

This portion of the Act was abandoned by its promoters upon representations being made that the question was safer, in the interest of temperance, in the hands of the Privy Council than in those of the people themselves. Now the Privy Council is forcing a legalized traffic in strong drink upon the country districts without regard to the desires of the people. The nation has elected, it seems, by its constituted authorities, to have an established liquor traffic throughout its bounds. There is

nothing left for temperance reformers but to agitate for a change of public sentiment sufficient to reverse that decision. Results will teach all who have wisdom to learn, that the liquor traffic is incompatible with prosperity and good order, and the surest means of exterminating the native race. What an anomalous spectacle Hawaii presents to the world, in treating with the utmost severity both the seller and the user of opium, while giving liberal, legal encouragement to the use of strong drink. We wonder if our rulers had investigated the relative physiological and social effects of alcohol and opium before deciding to give one full course and restrain the other at any cost. At last session the community became frantic over a proposal to have the sale of opium licensed, and the Legislature did not dare to carry the measure. Yet an attempt to further regulate the sale of intoxicating drinks, in the direction of greater stringency, was a miserable failure. Can anybody explain this egregious anomaly?

CHEAP SUGAR.

Senator Plumb, of Kansas, has broached the subject of sorghum sugar in Congress. There are three sorghum sugar factories in that State—situated respectively at Ottawa, Hutchinson and Stirling—and it costs six cents a pound to make sugar ranked with A in the market. Last year about 70,000 pounds of this sugar was made in Kansas, but owing to the undeveloped state of the industry and low prices prevailing, it only commanded about what it cost. Senator Plumb is confident, however, that sugar making in Kansas will become a big enterprise. This piece of news adds to the evidence piling up on every hand, that the world is bound to have cheaper sugar in the future than it has had in the past. Supply seems able to more than keep up with a steadily increasing demand. A consideration of this fact should be enough to make the people of this country realize the necessity of diversifying their industries. It should also emphasize the importance of having the land settled by independent producers, who could, more easily than great corporations, adapt their agriculture to the changing demands of the world's markets.

EDITORIAL NOTES.

The Mormons, it is said, do not anticipate any change in their position from Mr. Cleveland's administration. They say any change must be for the better, because matters cannot be made worse for them.

World's Expositions are big undertakings. The Appropriations Committee of Congress has had to recommend an additional subsidy of \$300,000 to the New Orleans show. Once the enterprise was recognized by the nation, national repute required that it should be carried out.

An exhibition has been decided upon, to be held in Liverpool in 1886, to illustrate navigation, modes of traveling, and commerce. Hawaii's progress might be finely illustrated in such a show by pictures and descriptions of the canoes of a hundred years ago, and of the steamships now engaged in inter-island trade.

Dynamiters, from their fastnesses in American cities, are said to be meditating destruction to Canadian property on sea and land. Their dire designs are, however, not likely to be any less ingloriously accomplished than were the Fenian raids upon Canada. In one of those four or five hundred of the filibusters were driven back in disgrace by less than a hundred Canadian militia.

In our news summary it will be seen that the United States Senate has decided emphatically against foreign contract labor. The fact that, in this matter, special legislation was required to protect domestic labor against the tariff-protected capitalists of the nation, shows how fallacious is the doctrine that a protective tariff is the chief defence and support of the American working classes.

An American paper says that the mongooses imported into Jamaica to eat up the rats having accomplished their task, the burning question now is how to get rid of the mon-

gooses, which the blacks have a superstitious fear of killing. This will be interesting to Hawaiian planters, in view of the anticipated introduction of the rat-killing animals into these Islands. Perhaps when they get too plentiful here, they may be inveigled into a sausage machine and thus give the country a new industry.

An amendment to the Post-office Appropriation bill, passed by the Senate, gives \$800,000 for the transportation of the foreign mails, including the transfer across the Isthmus of Panama. As the Pacific Mail Steamship Co. was mentioned prominently in the discussion, it would appear as if the Australasian mails, under the proposed arrangement, are to go by the way of Panama. In that case Honolulu, as well as San Francisco, would be left without direct communication with the Colonies. If the object is simply competition for the European mails, for the benefit of the steamship line, the subsidizing of the new route by Congress would be all right, but as an assistance to the Pacific Coast commerce we do not see where the favor comes in.

People who may have cherished the notion that Mohammedanism is on its "last legs," may be astonished to read the following item of intelligence. However, to use the converse of a familiar phrase, nothing fails like failure with Mohammedans. They are great fatalists, and if Great Britain acts upon her present apparent disposition to smash the Mahdi, and succeeds, the religion of the desert hordes will be severely shaken.

Mohammedanism is making rapid progress among African tribes, and binding in a great confederation scattered peoples who have heretofore had no common sympathies. It is even declared that the operations of Europeans in the Congo region result in the spread of Islam by the employment of great numbers of Houssas. These are among the most skilful of the Africans. Their cotton cloths and leather goods are widely sold, and it is said that the International Association is employing them largely to till the soil and show the natives how men of their own color can work and thrive; but as they are devoted Mohammedans they act as missionaries of their faith. Arab traders are influential in many regions in leading the tribes to espouse the religion of their Prophet. The powerful Mussulman Society known as the Senousians has turned many tribes to Islam. This fraternity, the most successful of all the Mohammedan propagandists, has its monasteries and yields a great power from Morocco to Mozambique. It is said to have made ferocious bigots of thousands of blacks who formerly welcomed intercourse with white Christians. The growth of Mohammedanism in Africa is hindering not only the spread of Christianity but also the advance of commerce.

Lyoss & Levey will hold their regular cash sale to-morrow morning at 10 o'clock. Amongst other things they will sell dry goods, Cal. potatoes, furniture and Madeira ware.

United Carriage Co.

PLEASE take notice that the UNITED CARRIAGE CO. (Telephone 290), having been re-organized, wish respectfully to inform Tourists and the public generally, that in order to compete with another firm from soliciting patronage at the Hotel, they have found it necessary to unite more strongly, and have selected from about 250 hacks now running in Honolulu, a number of first-class teams, which in addition to the teams we already have make the UNITED CARRIAGE CO. the strongest in Honolulu. Most of the drivers in this company, who by hard work and perseverance have become owners of the teams they drive, have agreed to conform to certain rules deemed necessary by the managers for the protection of Tourists and the public against overcharging, incivility, &c. Two very important rules governing the drivers of the UNITED CARRIAGE CO., are Rule No. 1, that expels any driver from the company who wilfully charges more than the legitimate rates of fare; Rule No. 2, compels any of our drivers to respond to a Telephone call whether it be a Ten Cent or a Ten Dollar fare. Thus it can be seen that the object of the company is to supply the public with good teams driven by good, reliable men, who will do their best to give satisfaction, and hope by so doing to merit a share of public patronage. All complaints left at our office, in the shape of a note directed to the managers of the UNITED CARRIAGE CO., will receive prompt attention.

MUCH amusement was caused yesterday near Brewer's wharf. A boat under sail, belonging to the whaler Atlantic, was taking out a supply of stores, when Shipping Master Hart called out for her to return, as some things had been forgotten. ON Nuuanu Street, between the first bridge and School Street, there resides a person who gratifies his depraved nature by shooting all valuable dogs that chance to stray through his open gates on to the premises. The greatest wonder to the neighbors is that he has not killed or wounded some of their children. The use of fire-arms indiscriminately in such a thickly populated part of the city ought to be put a stop to at once.

THE Boys' Reading Room Association held their regular meeting last evening. The attendance was smaller than usual. After the meeting had been called to order a debate took place on the subject of "Protection and Free Trade, which is better for the United States?"

Messrs. W. F. Love and A. Robertson spoke in favor of protection, presenting skilful arguments and going into statistics. On behalf of free trade, Messrs. F. W. Wood and W. A. Dover made some strong points. After the debate, a vote was taken, and found to be in favor of free trade.

COMPLIMENT TO A JOURNALIST. The San Francisco Herald of Trade of February 14th says: Robert J. Creighton, the well-known journalist of this city, has accepted an engagement to proceed to Honolulu to take charge of the Advertiser.

Mr. Creighton is a gentleman of large experience and one of the ablest writers, especially on commercial and international topics, we ever had among us, and is head and shoulders the best American journalist we ever sent to the Hawaiian Kingdom. He will be a great acquisition to our Hawaiian friends, and will make a mark that none of his predecessors have done.

THE NEW "MORNING STAR." Mr. W. W. Hall, agent for the American Board of Missions, has just received a colored lithograph of the new missionary steam barkentine Morning Star. It is 20x14 and shows off the vessel to great advantage. The mainmast is of iron, in order to use it for a smokestack. Her gross tonnage is 471.05 tons. She is built of hick and southern pine and thoroughly salted throughout all her frame. The length of keel is one hundred and thirty feet, with thirty feet beam and twelve feet hold. Her propeller is seven feet in length, with only two blades, which probably may account for her rather long voyage, as she is 127 days out to-day from Boston. Mr. Hall will receive orders for these colored lithographs. They are only 75 cents each. The vessel may be looked for at this port any time now.

STATE HOSPITALITY. Last evening, His Ex. the Minister of Foreign Affairs gave a dinner at his residence, Halaaniani, in honor of the Japanese Consul, Mr. J. Nakamura, and Consul General Irwin. The following guests were present: His Majesty the King, Hon. A. S. Cleghorn, Their Excellencies Paul Neumann, C. T. Gulick and J. M. Kapena; Cols. C. H. Judd, Claus Spreckels and Geo. W. Macfarlane; Hon. J. S. Walker, General Van Buren, Maj. Hammond, Messrs. J. H. Jewett, W. G. Irwin, Jno. Austin, S. M. Damon, F. S. Pratt and R. J. Creighton. The dinner was served in the large building in rear of the Music Hall, which was most tastefully decorated with flowers and flags. At one end of the room was hung a portrait of His Majesty the King draped on either side with Japanese and Hawaiian flags. The Royal Hawaiian Band was in attendance, and under Mr. Berger played a fine programme of music. After dinner the guests inspected a sketch of a picture, of Japanese at work in the cane fields at Spreckelsville, which is being painted by Mr. J. D. Strong for Consul Irwin. The latter intends to present it to the Emperor of Japan. The grounds were beautifully illuminated with colored lanterns. During the evening the band boys sang several songs, much to the delight of the guests.

DRAMATIC NOTES.

John McCullough, the tragedian, shows strong signs of insanity. Edward Arnot, once an actor of rare ability, committed suicide in Chicago recently.

When will the Honolulu Amateur Dramatic Society resume its rehearsals and give us a series of performances?

All the children of the late E. A. Sothern, of Lord Dundreary celebrity, have gone on the stage. The youngest son is the latest addition to the Thespian ranks.

Mr. W. M. Buller, of Rochester, N. Y., is compiling a dramatic dictionary. His plan is very comprehensive, and it is estimated that the work will contain about 20,000 articles.

The New York Clipper annual for 1885, just published, is a work of unusual value, for, amongst other things, it contains brief biographical sketches of 800 actors and actresses.

Different dramatic companies returning to New York, after a more or less unsuccessful season, report the business on the road as greatly affected everywhere by the roller skating rinks.

Mr. W. J. Florence has received from the Sultan of Turkey the order of the Crescent, in recognition of moneys sent by him to Turkey for the benefit of the soldiers wounded in the Turco-Russian war.

LATEST FOREIGN NEWS.

Deep distress among man and beast, for lack of food, prevails in Gilmer, Braxton and Calhoun counties, West Virginia. Last season the crops failed from drought, and long before Christmas all the grain was exhausted. Since that time food has been hauled by team over mud roads across the mountains, a distance of 100 miles, fifteen days being occupied in many trips, and longer when the mountain streams are swollen. Corn is so nearly exhausted that it is not fed to stock. Stock has to be turned out and left to browse for a living. Many farmers have lost all their horses and cannot do their spring work without assistance. A great deal of sickness prevails, the schools are closed, and gloom has settled upon the community.

Three ocean steamers which sailed from New York in January were given up for lost late in February. They were "tramps," that is, belonging to no regular line, and were bound for British ports. Their names are the Clandon, the Preston and the Fernwood.

The "Independent Citizens' Association of the State of New York" is a new organization.

Mrs. Annie Sullivan, wife of the bully, is suing for divorce on account of cruel and abusive treatment, and gross and confirmed habits of intoxication, on the part of her husband. She desires the custody of her children, and asks that Sullivan's property, to the extent of \$20,000, be attached to secure the support of herself and children.

Frank James, of the infamous Jesse James gang, has been set at liberty.

Iowa brewers are contesting the constitutionality of the clause in that State's liquor law which prohibits railways from transporting liquor except to persons holding permits.

Jay Gould is reported to have said that he could afford to lose \$50,000,000 and still be comfortably fixed.

Pittsburg, Ohio, is alleged to be the centre of socialism in the United States.

Francis S. Drake, a literary man of Boston, lately dropped dead in Washington.

EUROPEAN.

Count Tolstoi, Russian Minister of the Interior, persists in his purpose of retiring from public life, notwithstanding that the Czar declined to accept his resignation. The Count pleads that excessive duties of his office at present, owing to the activity of the Nihilists, are undermining his health.

The internationalist meeting of Anarchist Workmen, which was held in Paris on Feb. 22nd, appears to have been controlled largely by men of more sense than the name they met under would imply. Four thousand persons, including several members of the French legislature, were present. English delegates were introduced by Thomas Burke, a member of Parliament. Burke advocated united action of French and English and said the time had come to adjust international difficulties in a spirit of justice; not by violence. Some violent speeches were made which provoked protests from a majority of the meeting and the objectionable ones were expelled. Resolutions were adopted declaring against wars of conquest and expressing sympathy with the workmen of all nations. After dancing a carnagole the meeting adjourned.

The police of Doopat, in Southern Russia, province of Livonia, recently made an important seizure of Nihilist documents. They included several thousand copies of a terrorist manifesto, which had been printed on a secret press and put up in envelopes to be sent to branch organizations and various local and imperial officials. There were several letters which proved the complicity of a student named Pereleoff, who had formerly been charged with connection with Nihilist plots, but had been amnestied by the Government. A party of soldiers, sent to arrest Pereleoff, found him at his lodgings,

but, as soon as they entered, he snatched up a pistol and shot himself through the heart. In his rooms were found poison, weapons, money and a quantity of dynamite. Many other arrests have also been made.

The Prince of Wales is going to make a tour through Ireland. It is said this action is the proposal of the Queen, who desired Prince Albert Victor, who has never been in Ireland, to make a tour of that country with his father. Earl Spencer opposed the visit of Prince Albert, doubting his reception. It is reported the Queen has instructed the Cabinet to consider the subject of a permanent residence in Ireland for Prince Albert.

A terrible explosion occurred, Feb. 26th, at the Royal School of Gunnery, Shoeburyness, England, while a number of artillery officers and scientists were testing a new patent fuse. Three men were killed outright and several fatally wounded. Among the latter were some of the most prominent officials of the Government laboratory at Woolwich. The scene of the explosion presented a sickening sight, in the mutilated bodies of the victims.

UNITED STATES CONGRESS.

At a meeting of the House Committee on Foreign Affairs on Feb. 24th, Representative Lefevre's resolution relating to the restriction upon the importation of American products by Germany, was referred to a sub-committee consisting of Representatives Eaton and Hill. The Congo resolutions were also considered. Belmont submitted a long report on the subject. He held that the action of this Government in appointing delegates to participate in the Congo Conference was a departure from the Monroe doctrine, and should be viewed with disfavor. No action was taken upon the report, and it is doubtful whether it will be adopted.

In the Senate, Feb. 17th, Miller supported the Foreign Contract Labor bill and opposed the pending motion, which would strike out the clauses prescribing penalties for violations of the law. He was in full sympathy with the bill. It simply meant that white slavery should not any longer be tolerated in this country. European countries had been for years dumping their paupers and criminals upon our shores, and the time was coming when we would have to pass stringent measures to protect ourselves. After further discussion sundry amendments to the bill were voted down. On the following day the bill passed, unimpaired, by a vote of 50 to 9.

Memorials have been presented by Senator Fair, from the Nevada Legislature, including a requisition that the Government shall cede to Nevada all the unsold public lands in the State.

"Papa, is there such a place as Jerusalem?" asked a little boy of our village a night or two after election, when the returns were coming in slowly and everybody was anxious. "Yes, my son," said the fond father. "Where is it, papa?" continued the boy. "It is away off in the Eastern world, my son," was the answer. "Well, papa," continued the anxious inquirer, "do you think it has gone Democratic?"—Gorham Mountaineer.

One night Admiral, then Commodore De Horsey, returning from a dinner party in Jamaica, was challenged by a sentry, and asked for the countersign. He could not give it, and rather pompously said: "Stand aside, fellow, and let me pass. I am Capt. De Horsey." To which the sentry replied: "Captin De Horsey? Captin De Donkey. Go in de box." The sentry would not be placated, and into the box the officer went, to remain until the relief guard liberated him.

Macneale & Urban Safes!

Honolulu, Jan. 11, 1885.

C. O. BERGER, Esq., Agent Macneale & Urban Safes.

DEAR SIR,

It is with great pleasure that I add my testimony to the Fire-Proof qualities of your Safes.

I had a small single door Macneale & Urban Safe in last night's terrible fire, and, on opening the same this morning, found its contents—consisting of books, papers, and money to the amount of \$1040—IN PERFECT CONDITION.

I am so well satisfied with the result that I want another No. 3 Safe at once.

Yours truly,

GEO. M. RAUPP, Germania Market.
