No. 392

HE WAS DREAMING CAUGHT A RUNAWAY

WHY AH CHONG COMMITTED FORGERY.

Dreamed That He Got \$50 From a Bank and Went and Got It—New Appeals.

A lot of appeals from the District court, making more criminal business for the term. Ah Chong, alias Chock Chong, appeals from a sentence of one year for forgery, after having pleaded guilty in the lower court. Chong has a peculiar excuse to make. He says that he was hard up and couldn't get any money. He went to sleep and dreamed that he got \$50 from Blahop's bank by signing the name of Wong Kwat to a check for that sum.

On waking Chong was so impressed by his dream that he proceeded to make it good. He made out a check for \$50, signed the name of Wong Kwat, and he got the \$50, but here is where the dream went wrong. In the dream he was "all right" after getting the money but in real life he was arrested and Judge Wilcox refused to consider the dream at all and gave the unfortunate labor.

Tarada and eight other Japs appeal from a sentence of \$20 each for assault and battery on a Japa whom they thought had been the cause of the getting fired. According to the testimony they all set on him at once, striking him in the back and front and doing a very good job. They were found guilty of assault and battery.

Victor Porto, Italian diames, who got two months each for vagrancy have also appealed. They are Louisa Torres, Miralida Angelina Rivera and Otilia Luis. Victor Gunn, who got a month for assault and battery and Lee Lee, who was fined \$5 for using vulgar language while trying to collect a small bill, are also appellants.

Hum Chun and nine companions who were caught paying dominoes have appealed from a fine for gambling and H. H. Kause and Mrs. M. N. Minnow, convicted of adultery and fined respectively \$30 and \$15 also take their case to the higher court.

RECOVERED OVERCOAT.

Mr. Dale reported to Captain of Police Parker the loss of an overcoat last Monday on the Fall road. Two men were reported to have recovered the garment. Captain Parker suspected that they were cowboys from the Kaneohe ranch and telephoned about the matter. Ahania was the man who had found the coat and he returned it to the officer.

LIMIT OF HOLDINGS.

Attorney General Dale this morning rendered an opinion before the Executive Council, as asked by the Governor, as to how far the thousand-acre clause in the organic act limits the powers of the Territory to sell and convey land. He advises the council that it is on the presumption that the clause applies to the full extent which Congress evidently intended, and says "in case of a sale of public land, I think no bid should be accepted from a corporation owning a thousand acres."

NEW NOMENCLATURE.

A small crowd of natives temporarily blocked Ford street this morning to listen to the music of a quintette club that was engaged to play at the opening of a new cigar store. The store in question adds a title to American nomenclature, its owner James Dougherty having blazoned forth his name as a "cigarist." Following that rule the man that sells a cycle must necessarily be a bicyclist which he probably usually is; the man who exploits new schemes a method-ist and the purveyor of infant's food a pap-ist.

MOHAMMED KHAN WAS FULL.

Mohammed Khan was before Judge Wilcox this morning to answer to a charge of having been drunk. Mohammed was permitted to wear his turban in court but he was not shown any other consideration for the court fined him \$2. Mohammed declared it was the transmigration of the cash.

DOIS PIG PENS.

A Japanese named Doi, residing in Pauoa appealed to the Board of Health yesterday from an order of City Sanitary Officer Tracy, directing him to remove some pig pens. Doi said that his pigs were his only means of livelihood and that he had a wife and four children. Tracy stated that the pens were in good condition, but were in a locality becoming too thickly settled for pig pens. The matter was referred to Drs. Moore and Slaggett for investigation.

LAMB POT PIE.

country style, all day at the Dime Lunch, 1266 Fort St.

THE SEARCHLIGHT.

Look out for the searchlight on the Heights.

This week L. B. Kerr & Co. have a grand display of white mullin English lewis, India luens, Swiss muslins, Nainsooka, etc., at prices only to be obtained at their store.

Houses For Rent

At Waikiki, a complete furnished seven roomed house, stable, servant's quarters, ample grounds. Situated in a desirable part of the beach.

In Nuuanu Valley, above Wylie street, an unfurnished cottage.

And beyond Diamond Head, a furnished house in an attractive location.

PRIMO LICENSES ARE ILLEGAL

EFFORT TO PROVE HE WAS INSANE

Interpreter Harbottle's Accuracy is Questioned in Trial of the Alleged Murdered Before Gear.

The prosecution closed its case against Punaki Kasabro, charged with murder this morning and Attorney E. B. McClanahan opened the defense, announcing a claim of insanity. "There is no question that the defendant killed his child," said McClanahan, "but we shall show that he was insane at the time."

Complaints have been made that Interpreter Harbottle was not accurate and this morning, by order of Judge Gear, Chester Doyle, the former interpreter, and Editor Shirozawa of Hawaii Shippo, were in court comparing notes on Harbottle's interpretations. They heard a number of inaccuracies, according to their report, and once McClanahan made a kick.

About an hour was spent with one Fukuyama, who had been acquainted with Kasabro, and told about his novel reading tendencies. It appeared that Kasabro used to read Japanese novels a great deal, and became much exercised over them. Sometimes, when he read exciting parts he could get very much disturbed and often Fukuyama observed that he was much enraged at what he read. Fukuyama also got excited. Kasabro often read passages aloud and wept or got mad according to the nature of the passage. After a lot of wrangling with the witness McClanahan was finally stopped by the court, the Judge remarking that the matter had been some into enough and it wasn't evidence of insanity anyhow.

There are books that would make anyone weep, or get mad," said the Judge, "and this witness has said that he was disturbed, just as the defendant was."

It was during the examination of Harbottle's interpretations, both Shirozawa and Doyle agreed upon an important error in the repetition of the witness' answers, but Harbottle stuck to his own version.

J. F. Higby, local overseer of the American Sugar Company, said that Kasabro had shown a good many eccentricities when he was staidy on the plantation. He was grumpy at times and often became very angry when people who were not his bosses tried to stir him up. He was, however, a faithful and very efficient worker in the stable. C. H. Sawyer, carpenter at the plantation, testified to the same facts. Mrs. Center and Lelie were also called for the defense.

The case is situated immediately to the right of the entrance of the cemetery from the railroad and is located on a rising knoll shaded by trees. Walks will be laid out and the plot probably enclosed. It contains an area of something like 15 by 150 feet.

The chief expense of the enterprise lies in the building of the vault which will be used for the temporary reception of bodies pending the arrival of the steamer. Most of the local Jews have plots of land already belonging to them on the mainland, many in San Mateo cemetery. These have no wish to be buried here and under the law any body interred in the ground cannot be exhumed until after six months. The vault will do away with this waiting period and allow the remains of beloved ones to be transferred according to their wishes with the merely incidental delay between steamers.

SHREVEALTY CHANGES.

Walter Wright, deputy sheriff for Waimea, Kauai, has resigned because his private business required his time and attention. W. E. Crowell, deputy sheriff for Koloa, has been appointed to succeed him. Crowell was formerly clerk in the high sheriff's office in Honolulu. No one has yet been appointed to succeed Crowell at Koloa.

On Maui, William Saffery will be appointed Deputy Sheriff for the island to succeed H. S. Hayselden, his appointment to take effect March 1. Saffery has been on the sheriff's force for about six years, and for some time he has been captain of police at Waikuku.

Q. But they cannot sell that imported beer unless they have one of those thousand dollar licenses?
A. That is correct.
Q. I can sell home beer for \$250 a license, is that correct? A. Yes, sir.
Q. In other words, any man to whom a license is issued to sell and who will give bond to sell none but Honolulu brewed beer, can do so for a license fee of \$250 a year; but any man who desires to sell imported beers at retail, must take out a retailer's license and pay \$1,000 a year or exactly four times the amount he would have to pay to brew his own beer, and while paying this \$1,000 a year, he is not even permitted to sell the Honolulu commodity therefrom.

Clear discrimination is shown as against the manufacturers of the foreign commodity, for which they have a right through their agents to compound, and the fact that the \$1,000 license also covers the sale of spirituous liquors other than beer is a mere incident. The fact remains that the imported beers cannot be sold except upon

PROF. LYONS SAYS NO FEAR NEED EFFECT OF JUDGE ESTEE'S DECISION.

RECORD OF MEAN SEA LEVEL SHOWS THAT THE ISLAND IS FIRMLY ON ITS FOUNDATIONS—THE WEATHER.

Prof. Curtis J. Lyons thinks there is no reason to fear that the island of Oahu is subsiding. He bases his belief on the records of the daily mean sea level. In his report of the meteorology for January, he says:

"The average daily mean sea-level for January was 9.30 feet on the scale; 10.00 representing an assumed annual mean, and 9.86 the actual mean for ten years."

"There is evidently no reason for fear that the island is subsiding."

The report for January introduces a new observer and a new point of observation into the territorial weather records. The new observer is Mr. Fleming who is in charge of the United States Coast and Geodetic Survey Magnetic observatory near Sinal, Ewa. Oahu at an elevation of 50 feet. Mr. Fleming furnishes the following figures for the month:

"Rainfall, 0.99; mean maximum temperature, 80.3; mean minimum, 61.5; probable maximum, 90.4; dew point, 5 a. m., 61.3; 2 p. m., 66.7; mean relative humidity, 76."

Kohala, Dr. B. D. Bond, reports mean dew point, 62.1; relative humidity 78.

A JEWISH CEMETERY

MONEY NOW IN HAND TO CARRY OUT PLAN

Plot Has Been Secured and Will Be Improved—A Receiving Vault will be Speedily Built.

The plot of burial ground in Pearl City cemetery which has been chosen for the Jews for the exclusive use of their religion and its followers, seems to be well into order and is ready for any funeral rites that may occur among the Hebrews of the community.

The committee appointed to solicit and collect the subscriptions necessary for the purchase of the ground and erection of the vault have had no difficulty in raising two thousand dollars for the purpose and will have the money in their hands before the end of the month.

The case is situated immediately to the right of the entrance of the cemetery from the railroad and is located on a rising knoll shaded by trees. Walks will be laid out and the plot probably enclosed. It contains an area of something like 15 by 150 feet.

The chief expense of the enterprise lies in the building of the vault which will be used for the temporary reception of bodies pending the arrival of the steamer. Most of the local Jews have plots of land already belonging to them on the mainland, many in San Mateo cemetery. Friday, February 14. S. S. China, Friele, for the Orient probably sail in afternoon.

Saturday, February 15. S. S. Peru, Pillsbury, for San Francisco, probably sail in afternoon.

PASSENGERS. Arriving. Per S. S. Mowera, February 12, from the Colonies for Honolulu--Mr. and Mrs. Coulson, Mr. O'Brien for Victoria and Vancouver, A. J. Mackenzie, Mrs. Mackenzie, A. L. Mercer, Mrs. Wilson, Miss Wilson, Master H. Wilson, Mrs. Moore, Miss Hilda Moore, Nurse Clark, Mr. Kelly, H. B. Maguire, Mrs. Beale, Mrs. J. Barnes, Miss Lillian Barnes, Miss Leslie Barnes, Miss Hilda Barnes, Mr. Boyd, Messrs. Graham, Miss Marion Wyatt, Mr. Thorpe, Mr. Ware, Mr. Kinchen, A. Walker, A. MacKinnon, Mr. Bunney, C. Flock, Mrs. E. Chevalier, Mr. and Mrs. Rutland, Mr. Clark, Mrs. W. Clark.

Per steer, Iwailani, February 13, from Anahou--Captain W. C. T. Benny, L. E. Beale and 4 deck.

Per steer, Ke Au Hou, February 13, from Hanalei--J. Rodriguez.

Departing. Per S. S. Mowera, February 13, for Victoria and Vancouver--Mrs. C. D. MacNeill, A. E. Wagner, R. E. Callahan, J. T. Schneider, wife and 3 children, Rev. and Mrs. Hooker, Mr. H. Trounby, L. H. Sherwood, Fred Grimmes, J. D. Glass, Mr. and Mrs. M. Frigs and child, C. A. Caswell, Thomas Parkinson.

OWNER OF CANOE FOUND. The empty canoe found by the schooner Mot Wahine yesterday belongs to a native man named Nahinatu who resides at Maunaloa. The canoe got loose last Sunday night.

MOWERA FROM COLONIES. The Mowera arrived off port at an early hour this morning from the Colonies. Like the Sonoma, she was a day late. She experienced disagreeable weather during a portion of the trip. North of the equator strong westerly currents were experienced. One day the current was 25 miles and on another 24 miles. This condition helped to retard the vessel. She brought three passengers for Honolulu and little freight for this port. A number of passengers departed on her from Honolulu. The vessel left Sydney January 28, and Brisbane January 31. She left at noon today for Victoria and Vancouver.

FAR EAST PROFITLESS

ROSEATE REPORTS OF THE FILIPINO AMIGO FALSE.

America Will Continue Her Policy Until the Bitter End--Conquest Was a Mistake.

We suppose that the general consensus of opinion in this country is now agreed that the roseate reports of Filipino regard for us and desire to live in our islands are without foundation. The reports of our military commanders are now believed, in their long succession of agreements that the Filipinos must be subdued, disarmed and ruled for years to come by military force. We are compelled to believe that the natives who take the English language, and are given salaries as officials, are for the most part in active communication with the natives who are openly arrayed against us. For a time our people hoped that the civil government of our islands, our school teachers and our ideas of winning the Filipinos to be our friends by appealing to their interest, would bear fruit. But we are now on our fourth year in the Philippines, and we know that the Filipinos are hostile to us, through every grade of society, not absolutely bound to us by salaries and pensions, but by a thing is a source of keen disappointment. The Philippines are worth little to us, commercially. They are not the "gateway to China." They never will be, and the opening of the Nicaragua canal will put them still further away from the path of commerce to China and Japan. They are, and will continue to be, a tremendous burden to us, to say nothing of the host of disagreeable constitutional and economic issues which they arouse.

But we are there. We are not going to get out, never, until we are completely satisfied that the English domination can be maintained by a method commercially profitable. That demonstration will not be accepted until the Filipinos are thoroughly subdued and the last movement for independence choked off. No matter what facts are developed, the country is going to sub out Filipino resistance. It may be wrong, it may be in violation of the ethics of the Declaration of Independence, it may be terribly expensive, but we are going to do it. President Roosevelt is committed to it, and he has over three years in which to act. By that time the Filipinos will be thoroughly subdued. As to details, our people will continue to hear contradictory stories from the Islands, just as the British press and people do from South Africa, but we shall go on with the same persistence that the English do. We shall be even more persistent for the Philippine expense, though large, is not so dismal a load on us as our British friends are staggering under. We have more bitterness and contempt for the dark races than has any people, save the Chinese, and we are going to stamp out the Filipino opposition.

PAI-AI IS BEST FOOD

BOARD OF HEALTH DOESN'T WANT FLOUR. Dr. Shurey, Food Commissioner, reports on Analyses of Paiai and Taro Flour Made by Him.

The Board of Health yesterday received a report from Dr. Shurey, food commissioner, on the relative food value of paiai and taro flour. It was decided that the Board will stick to paiai for the leper settlement, as Shurey's analysis showed that the taro flour, which is cheaper, contains much more solids.

In compliance with your request for a report on the amount of pot which can be made from paiai and taro flour, I beg to submit the following figures: The paiai examined was one bundle of 21 lbs. from a lot shipped from Maui to the Leper Settlement.

The moisture and solid content of the samples was found to be: Paiai Moisture % Solids % 62.81 37.19 Taro Flour 42.29 57.71

Paiai will make 2.16 lbs. pot, 21 lbs. Paiai will make 45.78 lbs. taro flour will make 45.78 lbs. pot. It is evident that provided pot of the same moisture content is made in each case it makes no difference in the relative amounts of paiai and taro flour required to make the same amount of pot, whether pot of high or low moisture content is made.

RUSSIAN TEMPERANCE. VODKA MONOPOLY CLAIMED TO AID TEMPERANCE. Testimony Shows that Mors Liqueur is Consumed But Intoxication is Less Frequent.

During holidays it is the regulation thing for the Russian to drink to excess, and generally a whole community will indulge at a time and then be sober for a time. If this is more the result of the vodka than of national temperament, much can be hoped for, and the monopoly seems to be proving it for us, for the government claims that by the imposition of its monopoly the consumption of vodka in Russia has not decreased but has increased.

That is to say, the moutie instead of going on a prolonged spree in a public-house, where he parts with all of his money, or instead of a whole community joining in carousals at intervals, each peasant at his modest vodka shop, and is supposed to take it home and drink it soberly and decently in the bosom of his family.

Notice is hereby given that at the annual meeting of the stockholders of the Hawaiian Agricultural Co., held this day, the following Board of Officers were elected to serve for the ensuing year, viz:

Charles M. Cooke Esqr., President; Saml. C. Allen Esqr., Vice-President; George H. Robertson Esqr., Treasurer; E. F. Bishop, Secretary; T. Richard Robinson, Auditor.

Directors: P. C. Pones Esqr., T. May Esqr., H. Waterhouse Esqr., E. F. BISHOP, Secretary.

Dated Honolulu, January 31, 1902.

ELECTION OF OFFICERS. Notice is hereby given that at the annual meeting of the stockholders of the Hawaiian Agricultural Co., held this day, the following Board of Officers were elected to serve for the ensuing year, viz:

PRISON REFORM

The subject of the penitentiary, and all the better for penitentiary reform is by no means new. The reports of the Attorney General for 1918 and 1919 contain suggestions for such a change, and the press of the period, particularly The Star, carried on a vigorous campaign. The matter has frequently been alluded to within the last few years and the attention of the last Legislature was called to it, but, however many useful measures it was not able to take for future consideration, and the present prison accommodations remain inadequate and unsuitable for certain classes of offenders.

In the remarks upon the prison in 1916 is found the following:

"The system of committing a prisoner convicted of his first offense, generally for misdemeanor offenses but many times that of a petty criminal offense, and associating him with the hardened criminal who takes the opportunity to encourage a friendship that is often renewed after their release and many times results in his return here in company with his prison made acquaintance for a second offense, is not right.

"While we endeavor to keep these classes of prisoners apart both inside and outside at work in the gangs, our efforts, because of the arrangement of the prison premises and of the inadequate laws of the country in allowing a hardened criminal whose record appears under several aliases and shows his receipt and discharge in this prison for criminal and misdemeanor offenses three and four times during a period of two years, are of little avail.

"The working of prisoners on the public streets, thereby bringing them in contact with their families, friends and many times their accomplices, is no hardship to the majority of the prisoners here; rather than a punishment it is more of a recreation."

This was written by Warden Low, then in charge of the prison. The prison inspectors, Messrs. Lowry, Hauken and Madison, in their report call attention to this in the following words:

"Reference to the appended report of the Jailor to this Board will convince you, we think, of the necessity of a new prison and such a re-arrangement of the laws as shall make the Prison of Oahu the place of detention for all long-term prisoners, and that different classes should be kept separate."

Again, in the report of the prison inspectors for 1917, they recommend the procuring of plans for a new prison, to be submitted to the coming Legislature. Warden Low went more deeply into the matter and laid out in a short sketch, a thoroughly comprehensive plan of prison reform. He said:

"I suggest a complete change of system, make this the penitentiary of the Islands, commit all prisoners to this prison whose terms of sentence are one year and over and work them within the prison walls in the weaving of fibres, and manufacture of cloths, rope, cordage, burlap, and bagging.

"The field for the manufacture of ropes and cordage and other products from the stall fibres is indeed good.

"Establish the shorter term prisoners in a reformatory on a farm, and make that a self-supporting institution, such a system would be of great benefit to young prisoners and prisoners in the penitentiary also, for a system of promotion could be carried on from the same to the reformatory.

"Such a system would educate them to the successful cultivation of the soil and could be so arranged as to encourage and instill a desire to do good work.

"While I realize that in suggesting such a progressive step as this, it will be said, 'let well enough alone,' that I am an 'enthusiast,' that my projects are 'visionary,' I urge upon your board the serious consideration of my suggestion and hope some steps will be taken looking into the business possibilities of such a change, in our system of work and also the re-arrangement of our premises which will give us a more modern prison."

More quotations might be made from other sources, but enough has been shown here to prove that the question of prison reform is by no means a new one, nor has it dawned upon any of the judges as there have been many matters of inability to get the Legislature to see how necessary the reform was. That the prisoners of different grades should be separated is what we can all agree on, if we cannot agree on anything else. But that any one should claim that no effort or thought has been given to the subject in the past, argues a lack of knowledge of what has been done which is either wilful or ignorant.

FREE DELIVERY

Free house to house mail delivery on the mainland is having an effect not anticipated, but certainly it is a valuable one. It is going to affect, and is indeed affecting the circulation of the smaller daily papers. A letter was received here by the last mail from a gentleman who resides several miles from a western city of some eight or

ten thousand inhabitants. This city receives a daily paper. He remarked in the letter that when that paper was sent to his house he got his paper daily instead of weekly.

It may seem a trivial matter until you begin to think about it. As long as there was no daily mail delivery from Hawaii to Honolulu, people who lived half a dozen miles from the city had to wait for their news. All the week they might read their paper. They could not send to every day except on a paper, nor would it pay the newspaper proprietors to send newspapers upon so distant an island, even on a special train. Therefore the out of town dwellers had to depend upon their weekly, and it is upon this class that the great Sunday weeklies exist.

If the city, which is taken as a type, had ten thousand inhabitants daily to be influenced by a newspaper, extend the sphere of influence for a single embracing a circumference with a radius of six miles and even more from the central point, and it has an influence over considerably twice this number, this means greater prosperity to the paper, greater power of acquiring news, and greater advantages to the readers.

This view of the question opens up another line of thought, the mental effect upon the reader. The man who comes in touch with his fellows once a week becomes self concentrated. He thinks of nothing but his own affairs, and he naturally becomes the narrow-minded Farmer Wayback of the comic papers. But if every evening when he comes home daily he finds something that puts him in touch with the general affairs of the world, however slightly they may be reported, it takes his mind off self, and gives him something other to think about, and perhaps to follow with interest from day to day.

The postal authorities had no idea when they introduced the system of free delivery in the country districts what it was going to effect, but it is undoubtedly going to have a strong mental effect which will show itself within a few years. Reformers never know how far-reaching their reforms may be.

The grand jury have grand quarters now. It is not likely that anyone except tourists will attempt to look at the deliberators. So their bailiff need not worry his head.

The mutinous sailors from the schooner Alice Macdonald will find it hard work to prove their case as the vessel sailed from Apia to Pago Pago successfully. It is one thing to tell a story to the reporters and quite another thing to prove it in court. Besides mutinous sailors do not have quite so good a time in the San Francisco courts as they had here, a year or so ago.

The report of a wreck at Apia is nothing wonderful. The shore of Apia has been crowded with wrecks, from the Vandala, Trenton and Olga, to hundreds of schooners and small coasters. The fact is, Apia has no harbor, it is only an open roadstead, and in certain quarters of the wind, a very dangerous one. The only harbor in the Samoan Islands is Pago Pago, and that is why the United States took the Island of Tutuila as a possession.

Robert Stephenson, when he was being examined before a parliamentary committee with regard to the railway system which he was developing, was asked by one astute member, "Now, Mr. Stephenson, you say your locomotive will travel at from twelve to fifteen miles an hour. Suppose a cow was to get on the track in front of your engine, what then?" Stephenson, in his broadest Northumbrian, replied, "It would be verra bad for the cow!" One is reminded of this story by the action of Mr. Pain towards the Rapid Transit. Suppose Mr. Pain stands in the track, it will be verra bad for Muster Pain.

During the last twelve months Nicaragua has exported over 4,000,000 pounds of cane sugar. Of this amount over 3,000,000 pounds were sent to the United States and about 1,000,000 pounds to Vancouver, British Columbia. Nearly all was produced in the Departments of Chinandega and Leon and exported from the port of Corinto. Sugar is also produced in the Departments of Managua, Granada, Rivas, Carazo, and Chontales, but not enough for local consumption. Four years ago, the production of sugar in Nicaragua was less than half the home consumption. Two years ago, the production exceeded the consumption by about 1,000,000 pounds, and since then the production has increased over 200 per cent.

The submarine torpedo-boats Pike and Grampus, which have been building at the Union Iron Works for the United States Navy for some time past are now nearly completed, and it is expected that they will be launched about the first of the coming month. Their trial trips, both submerged and on the surface, are scheduled to take place a few days after, as the boats will be practically completed and ready for service when they are launched.

These boats are two of the eight which are now being built in this country for the American Navy. They are of the Holland type, and will, it is confidently believed, constitute a highly important factor in the defense of our coasts and harbors from attack by hostile fleets. They are deep, and can sink at will to great depths. They are designed, in fact, to go to a depth as great as 400 feet, though in actual practice, such as attacking a battle-ship twenty feet submergence would suffice for effective action.

RULES AND REQUIREMENTS FOR Aerial Circuits for Electric Light, Power or Railway. Telephone or Telegram Circuits on Public Roadways and Highways.

In the construction of aerial circuits for the above purposes, the following rules and requirements must be observed on and after this date:

- 1. Application must be made on proper blanks to the Superintendent of Public Works for permission to erect. 2. Use of poles is limited to the purpose for which they are erected. 3. Poles erected within town or city limits, other than those for electric railway purposes must not be less than forty feet in length and twelve inches in diameter at butt.

POLES. 4. Space between poles must not exceed 100 feet. 5. Poles subjected to special strains must be properly guyed or braced. Guy lines are not to be secured to trees.

CROSS ARMS. 1. Must be chamfered. 2. For high potential lines should be dipped in oil.

WIRES. 1. Main conductors for electric light or power on roads and highways must not be less than No. 6, B. & S.

Wires crossing flat roofs must clear same by at least seven feet. Wires crossing pitched roofs must clear ridge over which they pass, or to which they are attached by at least one foot.

INSULATORS. 1. All insulators for high potential circuits must be of glass and triple petticoat.

SEALING TENDERS. Tenders will be received by the Clerk of the Judiciary Department up to 12 o'clock noon, Monday, February 17, 1922, for printing and binding Volume 14 of Hawaiian Reports and publishing the decisions of the Supreme Court of the Territory of Hawaii, in accordance with the statement of particulars now on file in the office of said clerk.

MCKINLEY MEMORIAL. A May Day entertainment, to take the place of the open air May Day exercises of last spring, is under consideration by persons connected with the public and private schools. It is thought in this way quite an amount can be added to the McKinley Memorial fund. In addition to this the Educational Committee of the McKinley Memorial have issued a circular to principals of schools throughout the Territory suggesting that classes in the schools might co-operate to secure McKinley fund certificates, to be suitably mounted on cardboard for framing as class room souvenirs.

Kona Orphanage COFFEE STORE. NO. 1 TEAR, COFFEE, SPICES, EXTRACTS, JAMS AND JELLIES. 165 KING STREET

PRIMO LICENSES TO HAVE OFFICES ARE ILLEGAL. ESTABLISHED FROM PAGE ONE.

on a license covering four times the amount of the license to sell the home-brewed beer, such a discrimination is repugnant to the Constitution of the United States and clearly in violation of the provisions herein set forth.

It is true that under the police power of a State or Territory, it can regulate the sale of all intoxicating liquors within its bounds or prohibit such sale entirely, but in doing so it cannot discriminate against the stranger within its gates. The local laws of this Territory, far from prohibiting the sale of spirituous liquors herein, directly contemplate the continuance of the liquor traffic, and derive a revenue therefrom by licensing it. Nothing is better settled than that a State cannot constitutionally enact laws discriminating in favor of its own citizens or in favor of its own liquor against any other State of the United States. On the other hand, the laws of one State or Territory can discriminate against the property rights of the citizens of another State or Territory in one thing, they can do so in all things. It would hardly seem necessary to refer to authorities sustaining this proposition, but it was held by the Supreme Court of the United States in the case of Walling vs. Michigan, 116 U. S. 446, which is a case in relation to the constitutionality of a statute imposing a tax on persons engaged in the sale of liquors to be brought into and sold within the State.

A discriminating tax imposed by a State operating to the disadvantage of the products of other States when introduced into the first mentioned State is in effect, a regulation in restraint of commerce among the States, and as such is a usurpation of the power conferred by the Constitution upon the Congress of the United States.

So too, in the case of Webster vs. Virginia, 105 U. S. 344, referring to the Statute of the State of Virginia, which provided for the payment of a license fee for the right to sell sewing machines in other States, the Court says (quoting):

"Commerce among the States in any commodity can only be free when the commodity is exempted from all discriminating regulations and burdens imposed by local authority by reason of its foreign growth or manufacture."

Lehigh vs. Mobile, 127 U. S. 840; Walling vs. Michigan, 116 U. S. 446; and also the very recent case of Lansing vs. Davison & Co., 18 Haw 286, which is to the same effect.

I am, therefore, of opinion that Chapter 26 of the Session Laws of 1922, known as Part V of Chapter 21, of the "Special Laws of the Hawaiian Islands of 1922," entitled "Sale of Malt Liquors," is unconstitutional and void. Let the induction issue as prayed for.

ESTEE, Judge. Dated February 12, 1922. OIL VERSUS COAL. Storage Tanks Are to be Erected at Islet.

Evidence of the forthcoming use of oil for fuel by the Oahu plantations and the island will soon be visible at Islet, where the big storage and reserve tanks for the new fuel will be erected. The material for five of these reservoirs is now on the way from the Union Oil Company of San Francisco. Each tank will be of 37,500 gallons capacity, and will be erected close to the pier, which is to be built for the use of the tank steamers on the Islet lands of the Oahu railroad.

The tanks will be filled by the powerful pumps carried by the steamers, and according to the plans now laid, 42,000 barrels can be shipped here monthly, while 150,000 barrels, or six million gallons, of oil will be held in reserve all the time against possible shortage.

From the storage tanks to the mills and plantation storage tanks, transportation will be made in tank cars, for a dozen of which the cylinders are now being built in San Francisco. The cars have capacity of about 1,400 gallons.

The site for the erection of the big tanks at Islet has been approved by the government and work is to be commenced simultaneously upon the storage plant at both ends this month, so as to have everything in readiness by the time the first consignments of oil arrive.

V. M. C. A. GYMNASIUM. Bar Competition Arranged for—Harriers Plan Ahead.

A series of two gymnastic competitions for the members of the V. M. C. A. gymnastic classes has been arranged by Physical Director Young and the first contest has been planned for a week from tonight, to take place in the gymnasium, at 7:30 p. m., February 20. The events will be dumb bell drill and exercises upon the parallel, high and horizontal bars, with horse vaulting. There will be three different exercises on each style of apparatus and points will be awarded. The second contest will be more advanced in its work than the first being entirely elective. The main idea of the contests is to keep the men interested in their work.

The harriers are getting busy again, and have planned a moonlight run to Waikiki in a week or so, besides a longer one to take place as soon as the Association football season closes.

The first round of the handball tournament has been completed, leaving the following winners in the second round: Olaf Oen, W. E. Kerr, J. O. Hart, A. E. Lutz and A. Backman.

Ayres and Dever, Ed Smith have arranged for a test match on Saturday afternoon, when Ayres will walk a mile heel and toe around the Kapiolani track, Smith giving him him a start of 200 yards and himself going as he pleases. Ayres calculates to walk the mile in nine minutes or little less than double the time usually taken to run the distance by athletes.

MYRTLE BOAT CLUB. The Myrtle Boat Club held its annual election of officers last evening in the office of the Hawaiian Trust Company, where thirty members were present. The reports of the officers were read and the boat house announced as probably ready in another month, by which time the oarsmen will commence training. The following officers were elected for this year:

President, A. G. M. Robertson; vice president, Antonio Perry; assistant, John F. Soper; treasurer, Charles R. Crane; auditor, George H. Harris, Jr.; captain, W. H. Harris; trustees, W. H. Soper, O. Sorrenson, A. A. Wilder.

SHEATHING THE CEYLON. Captain Miller of the bark Ceylon is having sheathing put on his vessel preparatory to making the regular trip to Laysan Island. The sheathing is being put on the vessel to save her from the scows rubbing against her sides.

Ads under "Situations Wanted," inserted free of charge in the Star.

LEWIS AND TURK WILL MEET HEADQUARTERS. Have Secured Centennial Licensed Office on Queen Street—Both Men Planning the Opening This Morning.

Lewis and Turk will open a shipping office on Queen street. They have secured the old quarters formerly used as a mail room, just opposite the boat landing.

Both of the members of the firm have been busy this morning superintending the cleaning of the office and windows in order to keep their hands in. They would take turn about running along the waterfront and securing some sailor who wanted a ship. He would be recalled to pass an examination as to his abilities as a worker by sending a broom and cloth. They worked in half hour shifts.

The government had not in attendance but Turk played the boss in front of the new office.

After the partners got located, Lewis will probably buy a Chinese street, a kind which he will hold his political consultations and meet his truly political henchmen and there make and unmake governors.

The office will not be opened for a few days. Invitations were issued to a grand lunch opening in honor of the Heavenly Twins getting located, Heavenside, Turk and Lewis have had by regular office, being of a roving character, but as politics will soon begin to warm up, Lewis decided that they ought to have some place to receive their friends.

"Now you see, it's just like this, Frank," argued Lewis to his partner. "It ain't right for me to meet my friends out here in the street. Now, besides, for instance, that is some of these high political leaders should come along and want to consult with me, I couldn't ask them to sit out here on an empty barrel and decide who was to be our next governor. It wouldn't be right, besides, you have got friends you like to chew the rag with some times, and you don't want to ask them to sit on a bale of hay to do it. Let's get fixed in some nice office, where we can have everything neat and nice and comfortable."

Turk thought the matter over, remembering that he had ruined a new pair of trousers last week by sitting down on a fresh tar barrel, and then seconded his partner's notion, so the new office are to be established.

SIERRA VERY LATE. The Sierra had not been sighted at 2 o'clock this afternoon. She is now over 30 hours late from San Francisco, evidently having been held for the British mails.

MOWERS DELAYED SAILING. The Mowers did not leave for Victoria and Vancouver until after 1 p. m. today. She was detained for some time on account of repairs having to be made to some of her tubes. Several of the tubes leaked and the chief engineer had to repair them. The vessel stopped several times during the voyage from the Colonies on account of the damaged tubes, so this got her into Honolulu a day late.

BILL DISALLOWED. Payment of the bill of Dr. Weddick for making two post mortem examinations at Spooksville was refused by the Board of Health yesterday (the board holding that as he was a general physician drawing a salary of \$100 per month, he was not entitled to extra compensation.

MAULANI HOSPITAL. The report of Maulani Hospital made to the Board of Health, showed forty-four patients to have been treated during the month of January. There were four deaths. The receipts for the month were \$437, balance from December, \$120.45, and expenditures for January, \$41.25, leaving a balance on hand of \$415.

MADE QUICK TRIP. The rejuvenated schooner Ada has just finished a recent trip. She left Honolulu six days ago and went to Hanalei and Kailihwai, and arrived at Kailihwai yesterday afternoon to get rice paddy. Nelson Lansing, her owner, feels highly elated over the showing made by his vessel as she is the flagship of his fast line of sailing freighters.

SATURDAY'S FOOTBALL. Saturday's Association football match should bring out a big crowd, as an unusually close game is promised between the Honolulu and the Maile-Himas, neither of whom have yet suffered defeat. Soper, a sterling player for the Honolulu, and McMichael, will not be able to play on account of sickness, and their absence will prove a handicap to the team. The probabilities will be as follows:

Honolulu—Goal, Andrews; backs, Glenson, Harvey; halves, Patch, Kay, M. Anderson; forwards, McWhirter, Glass, Goudie; fullbacks, Plidde.

Maile-Himas—Goal, Foxwick; backs, Anderson, McGill; halves, Craik, Brown, Anderson; forwards, Munro, Lansdale, Boyle, Cummings, Belser.

HALF STARVED PEOPLE. One of the commonest and least suspected causes of ill-health is malnutrition. It is due to, or aggravated by, debility of the stomach and bowels. This condition is of many grades of severity; being sometimes so slight as to induce a mild chronic feebleness, and then (especially in young men and women) it may, and frequently does, become the exciting cause of some rapid disease, which ends life without arousing a suspicion of the real source in which it arose. The blood, in these cases, is thin and pale, the skin pallid, there is a tendency to Asthma, Indigestion, Debility and loss of appetite and flesh. In young women there is a decided drift towards Hysteria and other grave nervous symptoms. The tried and true remedy for this and all conditions marked by low vitality is WAMPOLE'S PREPARATION which is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, combined with the Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry. This effective medicine is rich in food properties, containing the full medicinal value of the oil, without its offensive taste or smell. It agrees with the most sensitive stomachs and brings about good results from the outset. The blood is supplied with needed elements and flesh and strength quickly follow. In Fevers, Rheumatism, Scrofula and all ill founded upon, or associated with poor digestion, it is worthy of complete confidence. It cannot disappoint you. Dr. Thos. Hunt Stucky says: "The continued use of it in my practice, convinces me that it is the most palatable, least nauseating, and best preparation now on the market. Effective from the first dose. Sold by chemists here.

Weak Children

A Sickly Child Made Strong. We believe you will be greatly interested in this testimonial. It tells you how your own little boy, who was sickly and weak, became strong and healthy.

"My child, now four years old, was always delicate, and medicine did him no good. A friend told me to try

AYER'S Sarsaparilla

I did so, and you would have been astonished to notice the prompt change. All my friends say it was simply wonderful. Only four bottles made my weak and sickly child strong and healthy. I want to urge all mothers who have delicate children to try this tonic."

Ayer's Pills are the best liver pills you can buy. They cure constipation, biliousness.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

THE BLYTHE ROMANCE

EXTENSION THAT HAS LATER IN YEARS

Statement From the Mouth of the Fourth Wife of the Deceased, Mrs. Alice Edith Dickson Blythe

No case known to modern jurisprudence has had so many claimants of a name as this case Blythe, which is now being reconstructed in Judge Hunt's court.

It has been said that the story of the Blythe case reads like a romance, but it is a romance with many points that meet the credit of a true story.

Thomas H. Blythe, born in England, came to America when young, and for years struggled along without attracting any particular attention from his fellows.

Not long after Blythe got back to San Francisco another woman came into his life. In 1874 as he stood in Brooks street, which runs through the Blythe estate property he saw Alice Edith Dickson tripping along on her way to her studio in the city.

The death of the millionaire was a Tachibane signal to an army of people, claimants sprung up like daisies in a field.

The contest took a great importance. Out of its preliminary stages grew Section 1664 of the Code of Civil Procedure, designed to fit the Blythe and similar cases.

By authority of this section the world was invited to come to court and give evidence on the matter.

PREHISTORIC AMERICA

LARGEST MOUND ON CONTINENT TO BE UNCOVERED.

Once Contained the Bones of Giants. Will Now be Used for Modern Building.

While West Virginia has been erecting a monument to Lewis Morgan, the great hunter, they are about to be outdone a greater monument by people antedating pioneer days by centuries.

The prehistoric mammoth mound is undoubtedly the handiwork of a race of human beings who inhabited America before the Indians came. It was discovered by white people in 1772.

In the year 1772 Joseph Tadmanson, a young man, was passing through the wilderness until he came to the Ohio river, and finding a valley four miles long and two miles wide at one place, he laid a land warrant on all the northern portion of the valley and built a cabin at a spring 40 yards north of the mound. But it was not until two years later that he discovered that so near his home, hidden in the tall, dense forest of the rich valley, was the largest mound in America.

One day in the year 1772 Mr. Tomlinson took down his flintlock rifle and started southward through the woods to replenish his powder with venison. Good luck attended him, for soon he killed a deer, and by that act found the mound. As was the custom in those days, he disemboweled the deer, skinned it, and then he saw the mound. Together and shouldered the game on the homeward journey, he came to what he supposed was a steep hill and climbed it. Then he saw the mound, which he had seen from the apex of a hill to the right or left would have avoided. He immediately laid a land warrant upon 200 acres more of the valley to include the mound.

Originally the mound was 90 feet high and 200 feet in diameter at the base. It is composed of many varieties of earth, apparently carried there in baskets or small conveyances. Seventeen varieties of forest trees grow upon it. Some of the trees are quite large, one being 10 feet in circumference.

After the valley became thickly populated a shaft was sunk down from the top of the mound to the bottom and a tunnel dug out to the northern side, the apex leveled off and a three-story pagoda-shaped building erected for dancing, and a museum established at the bottom of the shaft. The excavations did not pay, and since then the place has been totally neglected, except that it is the mecca of pilgrims from all parts of the country every day.

When the excavations were made three skeletons were found directly in the center, but raised a few feet from the level of the surrounding land. One of the skeletons had belonged to a male human being about eight feet high, one a female and one a child. There was also in the rude chamber a tablet of stone, upon one side of which were hieroglyphics, which is now in the Smithsonian institution at Washington, many heads of ivory and other articles. —Pittsburg Dispatch.

CIVIL SERVICE VACANCIES.

Successful Competitors May Go to Washington.

A competitive examination under the rules of the United States Civil Service Commission in the classified departmental service will be held at the High School on Emma street on May 10th next, commencing at 9 o'clock. The applications for this examination must be made on United State Civil Service Commission blanks, which can be obtained from A. B. Ingalls, at the gauging office, custom house. The examinations will be for the grades of clerk, stenographer, electrician, fisher, electrotype molder, press feeder, stenographer, railway mail clerk, stenographer, Philippine service; stenographer and typewriter, stenographer and typewriter, Philippine service; stenographer, typewriter, junior translator, Spanish, Philippine service; stenographer, typewriter, translator, Spanish, Philippine service; stereotyper, typewriter, typewriter, Philippine service; translator, Spanish, Philippine service; assistant examiner, Patent Office; assistant topographic draftsman, inspector and assistant inspector (meat inspector), mechanical and electrical engineer, topographic draftsman, trained nurse.

These examinations are for positions in the general service of the United States, and appointees thereunder may be sent to Washington, the Philippines or any other place needed. They are not generally intended for local positions. As the writers of Hawaii is entitled to its quota of appointments, some of the successful candidates will have an opportunity to see the capital city.

JAPANESE DOCTORS.

Dr. Moore, chairman of the Board of Medical Examiners, reported to the Board of Health yesterday regarding the project made at the last meeting by Dr. Cooper, who thought that too many licenses were being given to Japanese physicians, without sufficient examinations. Moore reported that the Board was exercising a particular care, but that the necessity of employing an interpreter was a difficulty in many cases. No action was taken, but the Board may decide to add a Japanese physician to the Board of Examiners.

TO GIVE ORATORIO MR. DOOLEY ON CARTER

PHILHARMONIC SOCIETY FRIDAY EVENING

HAROLD'S GRAND ORATORIO, "The Messiah" to be presented at Pukalani Hall AMERICAN CHURCH.

The first oratorio in Honolulu of George Frederick Handel's oratorio "The Messiah" will be given tomorrow evening in Pukalani Hall, Oahu College, under the auspices of the Philharmonic Society of Honolulu, assisted by Mademoiselle Genevieve Johnson, and under the direction of H. A. Haisbertson.

The solo parts will be sung as follows: soprano, Miss Genevieve Johnson; alto, Miss Ethel Cameron; tenor, Louis H. Miller; bass, Frederick Mulders.

The chorus will number about seventy-five voices as follows: Sopranos Mrs. Isabel Davis, Mrs. J. Leighton, Mrs. G. E. Hogg, the Misses Helen Dusha, Florence Deverill, Ethel French, M. E. Lewis, Sarah Lyman, Ethel Robinson, Clara Lewis, Ethel Wolf, E. Amweg, P. Ashley, Marie Creswell, Deane Fisher, Flossie Hill, M. Peterson, Dagmar Jensen, Edith Spalding.

Contraltos Mrs. J. F. Brown, Mrs. J. A. Hill, Mrs. L. H. Miller, Mrs. J. W. Yandley, the Misses Ethel Cameron, H. Sorrenson, M. Wines, Gertrude Brown, E. Damon, Florence Hall, Harriet Hapal, Amy Hill, Edna Horner, Evelyn Nichols, May Patey, Ruth Whitney, Olive Woodington.

Tenors A. Benson, Dr. G. W. Burgess, W. M. Campbell, E. L. Collins, J. H. D'Almeida, L. H. Miller, G. Lanning, A. Robinson, P. Schmidt, F. Shingler, W. Rycroft.

Basses Julius Bayer, W. Breaklane, C. G. Bourdoin, W. M. Burns, A. Constable, Carl Du Roi, W. L. Pfoch, George McClellan, F. McLecher, C. H. Tracy, C. Allen, Kelly Brown, M. Davis, P. Deverill, A. Heen, G. Hannai, S. Lowrey, M. Robinson, P. Schneck.

In the orchestra will be following: J. H. Ammie, Miss Isla Barber, Miss Alice Woods, Miss Gretchen Kopke, and others, first and second violins, Joseph Roth, viola, J. Baker of the band, double bass, Jocher, clarinet, Messrs. Kopke and Snyder, flutes, Charles Krueber cornet, several other members of the band.

THE MASTER BUILDERS. Exchange to be Formally Inaugurated Next Week.

At a special meeting of the Master Builders Association held last evening there were many members present who received with acclamation the report of the executive committee concerning the opening of the exchange. This will be formally inaugurated on Wednesday, February 19, in the rooms of the association on the second floor of the Elite building when a reception, enhanced with music will be held between the hours of 12:30 and 1:30. A luncheon will also be served.

Special prizes and invitations will be issued to the territorial officers, editors of the local press, civil engineers, architects and all persons engaged in business associations with the master builders, to attend the formal opening.

The association has a membership of 80 exclusive of the twelve architects who are affiliated. These numbers will be increased, he speedily increased to 100. The rooms will be furnished with every facility for private conferences and in time a commercial standing will be attached to the organization making membership a guarantee of financial responsibility in the same manner as a seat in a stock exchange promises stability.

ENGAGEMENT ANNOUNCED. The engagement is announced of Miss F. A. Parry, eldest daughter of Thomas (George) Parry, Esq. of "Carruthershire, Wales," and Edwin S. Curtis, of the firm of Curtis Brothers, of Chefoo, China. Miss Parry has been a resident of Honolulu for the past three years, and has many friends here. She will proceed to Chefoo, where the marriage will take place some time in April next.

SOMETHING THAT WILL DO YOU GOOD. We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C., U. S. A.) Messenger. Sold by all dealers. Benson, Smith & Co., general agents, Hawaiian Islands.

EXAMINING SCHOOL GIRLS. Mrs. Harriet Castle Coleman appeared before the Board of Health yesterday afternoon to discuss the matter of examinations of school children by a body physician appointed and paid by the Kindergarten Association. Dr. May Wright was present for the purpose, it being the intention to make examinations of girls. Dr. Stoggett said that the examinations could not be made at this time as the examinations for this year had already been made by the regular physicians and the board had no power to order more than the examination in a year. The matter was postponed for two weeks.

CAPTURED THEIR TRADE. The Cleveland bartenders' union attended church in a body, and the members were so pleased at the reception accorded them by the pastor that many of them proposed to attend the services regularly.

A GOOD THING. There's one good thing when they feel dry. That busin' men cannot pass by. For far and wide it's same you hear. They stop to drink of "Rainier" beer On draught or in bottle at Criterion.

Bald?

Then you starved your hair. What did you do that for? When you saw that your hair was falling out, why didn't you use Pacheco's Dandruff Killer? It feeds the hair, gives it vigor, stops it from falling and makes it grow.

PACHECO'S DANDRUFF KILLER. Sold by all druggists and at the Union Barber Shop, Telephone Main 232.

NEWS IN A NUTSHELL

Paragraphs That Give Condensed News of the Day.

Honolulu Commanders will meet tonight. The 1932 club will give a dinner this evening at the Ritz Hotel. Castle & Cooke Ltd. have a number of bottles in this issue. Pacific Rebekah Lodge will give a "Farmers' Dinner" tomorrow evening. Telephone to main 241 for a case of Peter Lager and it will be delivered to your door. Diamond & Company Ltd. are holding a special sale of landscape glasses. Local scenery. The anniversary of Lincoln's birthday was appropriately observed in various schools yesterday. Neat and handsome designs of bamboo furniture made to order by S. Hirokawa, 562 Beretania street. Have you seen the new Denmore No. 4 typewriter. If not, call at Hawaiian News Company. He is a wonder. Forestry expert E. M. Griffiths will speak on "Forestry" at Y. W. C. A. hall at 8 o'clock this evening. Tomorrow afternoon at 4 o'clock Mrs. Fraser will give the second of her Emerson lectures at the Y. W. C. A. room. Walter E. Pinham has assumed the business responsibility of the office formerly conducted by Edward K. Swain, architect. Regular monthly meeting of the Free association will be held on Friday, February 11, at 9:30 a. m. in the rooms of the Y. W. C. A., Boston Building. The first of the 5 o'clock "Twenty Minute Talks" at the Young Women's Christian Association will be given this afternoon by E. A. P. Nelson. His subject will be "Architectural Forms." Billy McCloskey the well known race horse lately bought by Julian Monarrat is reported dead from colic. McCloskey was a typical race horse to the last yard and never running so hard as when he was challenged by a competitor. At this time of the year California onions are soft and sweet while New Zealand onions are hard and firm. H. May & Co. have received a stock of dry onions from New Zealand by last steamer. McManis, commonly known as "Mac" well known here as a horseman for the last five years, has, at last accounts, forsaken the wicked ways of the turf and is now doing wonders in setting vases. All members of the Hawaii Yacht Club are requested to communicate with McManis if they are desirous of obtaining the regulation yacht club caps as accepted by the officers. An order for the shipment will be sent off on the next steamer. The caps carry the club emblem in various designs for the various officials, owners and club members.

APPEAL NOT ALLOWED.

Mrs. Holloway would question Judge Humphrey's recent order.

In the First Circuit Court this morning the collection and Walter attempted to file an appeal from the order recently made by Judge Humphrey compelling Mrs. Irene H. Holloway to allow C. A. Brown to see his children, as previously ordered by Gear. The order was duly carried out last Saturday. Judge Humphrey endorsed the appeal as follows: "The within appeal is hereby disallowed for the reason that the First Judge was not called upon to make and did not make any order in said matter. He was asked to require the guardian to show cause why Judge Gear's order had not been obeyed, and no sufficient cause being shown, the guardian was held to be in contempt. No punishment was inflicted, the First Judge merely holding that Judge Gear's order would be enforced, and further fixing the date of its operation. If the appeal were taken from the alleged order of the First Judge, Judge Gear's order, which was entered by consent of all the parties would still be in force, and the court would enforce it by every proper means."

"A. S. HUMPHREYS," "First Judge."

MAKING A RECORD.

Captain Mosher, of the Ke Au Hou, is making a record for fast work. He will to Kauai Sunday, get back Tuesday and then make a special trip to Jay discharged about 3,700 bags of Hanaleiua, returning this morning with over 2,000 bags more from Ahu-ahuli. The sugar was delivered into the ship in one hour and one minute by means of the sugar chute.

WILL EXHIBIT THE OWL.

The owl discovered behind Dr. Huddley's residence in Kalihi valley and named by the doctor so that it now takes the place of a cat as far as mice are concerned, is to be placed on exhibition in the Honolulu Drug Company's store, probably some time today, where, safely encased in a cage, he will take all stray mice that are brought him by admirers. The rice patches at Paia, Paia, have apparently several families of these birds making a comfortable living off the field mice and rice birds.

PURE SILVER MINE.

Two prospectors, Dave Llewellyn and W. H. Harmon, who are leasing the O'Brien mine near Nicholai, Montana, have struck what is believed to be a mine of pure silver. They have secured thirteen tons of the ore, which is almost malleable. An average assay is 18,000 ounces, which gives a value to the ton of nearly \$8,000 in the white metal.

ON THE INCREASE.

Last year the sale of agricultural machinery in Greece was fourfold that of the preceding year.

SALT.

Rock salt is mined and prepared for use in the States of New York, Kansas, Louisiana and California.

ELECTRIC CABS.

Electric cab service in Paris has proved very unprofitable. It is said that the loss so far amounts \$400,000.

MANY GUESTS.

During a busy day the twenty leading hotels in London accommodated about 400 guests every night.

EARLY TO BED.

The new Austrian government bill for regulating the conditions of labor provides that no shops shall remain open after 9 p. m., including overtime.

A Great Sale of Oriental Rugs

A large importer has consigned to us a quantity of rich Oriental Rugs, with instructions to sell them at Eastern prices. In compliance, we shall on Monday, February 15th and during the week following, offer the people of Honolulu an opportunity to purchase rare and beautiful rugs at prices as low as could be secured by going to New York. Those familiar with fine rugs will recognize the India, Cashmere, Persian, Kerman, Guandje, Karabagh, Daghestan, Kheva and Bokhara as high class goods. The sizes are: 12x18, 12x9, 12x5, 11x8, 10x7, 10x3, 9x5, 8x7, 7x3, 6x7, 5x4 and 4x2. There are also about 50 samples of best high American made Smyrna and Moquette rugs, which will be included in the sale at very low prices.
