COUNTY ACT KNOCKED OUT ORDERS TO DEPUTIES

The Supreme Court at noon today gave a decision in the County Act case, holding the County government act to be void. Only one of the many grounds before the court is taken up. The court holds in brief that the taxation features of the act are illegal and that they constitute so much of the act that it cannot stand without them. The syllabus is as follows:

When the valid and invalid parts of an act are so mutually connected with or dependent on each other as to warrant a belief that the Legislature intended them as a whole and that, if the invalid parts could not be carried into effect, the Legislature would not pass the valid parts independently, the whole must fall.

So much of Act 31, Laws of 1903, known as the County Act, as provides new features in Territorial taxation not incidental to county organization or government, is void under the provision of Section 45 of the Organic Act, "that each law shall embrace but one subject, which shall be expressed in its title."

Said void portion is such an essential feature as to vitiate the whole Act.

The opinion of the court, written by Chief Justice Frear and concurred in by Galbraith and Perry, is as follows:

This is an appeal from a decree dismissing a petition for a writ of quo warranto brought by the Territory for the purpose of inquiring by what authority seven named respondents claim to hold office as Supervisors of the County of Oahu. The real object of the proceeding is to test the validity of Act 31 of the Laws of 1903, known as the County Act, most of the provisions of which were to take effect by its terms on January 4, 1904.

If the Act is void, the respondents do not lawfully hold the offices which they claim to hold solely under that Act.

No question has been raised by the respondents as to procedure or justification, but on the contrary they seem equally desirous with the petitioner to have the case decided on the merits.

The arguments against the validity of the Act are in general as follows:

1. That the Act was never passed by the House of Representatives as required by the provision in Section 46 of the Organic Act, that in order to become a law the final passage of a bill in each house shall be by a majority vote of all the members to which such house is entitled taken by ayes and noes and entered on the journal, in that, as contended, the House journal shows that the final action in that body was the adoption of the report of the conference committee which recommended

Siberia Was Held For War Correspondents

PACIFIC MAIL LINER HELD 14 HOURS TO AWAIT ARRIVAL FROM THE EAST OF A NUMBER OF REPRESENTATIVES OF EASTERN AND LONDON PAPERS, WHO WERE HURRYING TO THE ORIENT. MANY HONOLULUANS RETURN.

The threatened Japanese-Russian war was the cause of the S. S. Siberia. Seventy-eight cabin passengers for sailing late from San Francisco. The Honolulu arrived by the vessel. This vessel was detained in sailing for 14 hours in order to await the arrival in San Francisco from the east of a number of war correspondents representing various eastern and London papers. The result was that the Siberia did not get away until 4:30 o'clock last Friday morning. Among the war correspondents are Jack London the well known writer, O. K. Davis of the New York Sun, Frederick Palmer, P. Phillips and J. H. Hare. There are others also aboard the vessel. Most of them

Mrs. J. B. Atherton was among the returning passengers. Mrs. Rawlins, wife of the former county attorney, returned from an extended visit to the east. M. M. O'Shaughnessy the civil engineer returned from the Coast. Judge George D. Gear returned. The Siberia will sail at 9 o'clock tomorrow morning for the Orient.

VITAL QUESTIONS

What the Supreme Court did not decide in the county bill case is regarded as of the highest importance, in view of the possibility of the legislature trying to enact another county law. The general issues raised, which apply to any county bill that may be attempted, were not considered by the court at all, so that if a new act were passed, in which the one defect found by the court was avoided, the system might once more be called in question.

BOARD OF EDUCATION

At the meeting of the Board of Education this morning it was reported that five boys had been released from the Industrial School at Waialae. For one of these boys a position had been found by the Board in Honolulu, on his application. The committee on worthy pupils in the Normal school reported recommending that assistance be given to eight pupils. Both the Industrial schools were reported to be in good condition. Daily reports are received from each. Mrs.

One of the first acts of Governor Carter in view of the County act decision was to instruct High Sheriff Brown to take charge of prisoners, "county" and territorial, and to resume his general control of police affairs of all the islands. The High Sheriff was given notice to reappoint deputy sheriffs of the other islands, who are to handle affairs in the old way. It is supposed that those who have taken charge as county sheriffs will give up, though there has been talk of intentions to hold on no matter what was the decision.

Governor Carter and Secretary Atkinson held a conference this afternoon, at which were present United States Attorney Breckons, L. A. Thurston and W. O. Smith. The situation in which the Territory finds itself was the subject of the discussion.

No definite course was decided upon, except that the Territory must immediately take hold of police matters. With nobody in charge of jails and other police matters there might be a general delivery of prisoners, for as the law stands the so-called county officers who have the convicts in charge have no legal power or duty to detain them.

No decision was arrived at as to an extra session. "We are finding out where we stand," said the governor. "The matter is a very important one and will be given careful consideration."

"My opinion," said High Sheriff Brown, "is that all of the sheriffs of the various islands under their Territorial commissions, together with their deputies as well as the officers on this island, are still in office as if there had been no change in the form of government. None of the commissions of the various sheriffs were called in or resignations tendered and they are therefore, I believe, to be considered as still in office, under the Territorial form of government. The only difference however is that there have been no appropriations made and the entire department

is working without salary. I will confer with the Attorney General this afternoon regarding this matter before any steps advising the deputies are taken."

Territorial Tax Assessor and collector J. G. Pratt was busy this afternoon taking up the work where he had left off owing to the suspension of his office by the county act.

"The tax returns have to be made this month," said Mr. Pratt, "and I am now going to try and communicate by wireless telegraph with Treasurer Keopokal to ask if he will not guarantee the payment of the necessary tax blanks out of the treasury incidentals or some fund so that the work can be taken up immediately."

The High Sheriff on receiving orders to resume Territorial powers sent wireless messages to Sheriffs Andrews, Baldwin and Coney, of Hawaii, Maui and Kauai respectively, instructing them to take charge of the police and jails as before. Sheriffs Keolanui and Kamaoaha of Hawaii and Bill White of Maui are expected to relinquish their offices. Coney was County Sheriff on Kauai. There will be keen disappointments among them and their followers, as well as among numerous other county appointees throughout the islands.

J. W. Pratt remains the tax assessor of the whole territory, until Treasurer Keopokal appoints a new one. Iaukea never qualified for Oahu and there is consequently no change to be made. Keopokal is on Maui now. It is presumed that he will instruct his various deputies throughout the Territory to take back the offices they gave, though he is without appropriations to run the department now returned to him.

AWFUL REVENGE

A shocking crime was committed on the Island of Kauai last Friday night. The victim was a young civil engineer named G. H. Glennan who was employed on the Makaweli ditch. He was assassinated presumably by some Japanese gamblers for revenge. Complete details of the affair arrived this morning by the steamer Mikahala.

Glennan was employed in connection with the work on the new ditch for Makaweli Plantation, Kauai. One of the work camps had been frequented by a number of Japanese gamblers. The gamblers had been preying on their countrymen for some time past. The result was that the laborers were fleeced right and left by the gamblers. The gamblers are also said to have been the cause of much annoyance to those in charge of the construction of the ditch, as the gam-

BIG BUSINESS OF THE RANCH

FOURTH ANNUAL ACCOUNTS IN THE ESTATE OF ANNIE T. K. PARKER—OTHER ACCOUNTS.

Alfred W. Carter guardian of the estate of Annie T. K. Parker, minor, yesterday presented his fourth annual account to the Circuit Court. It shows receipts of \$78,977.89 and payments of \$71,091.95, leaving a balance of \$7,885.94 to the estate. Judge De Bolt referred the account to P. D. Kellett, Jr., as master.

The inventory of the minor's estate shows about 93,838 acres of real estate, twelve leaseholds of land, all but one from the Government; loans, investments and cash on hand amounting to \$55,565.94, and a half interest, respectively in 25,000 head cattle, 2,000 horses and all other live stock on the Parker ranch.

Parker ranch reports appended to the account show total realizations of \$149,170.32, of which \$133,932.75 was derived from sales of 3108 head of cattle. Butter was sold to the amount of 6930 pounds, bringing \$2336, or an average of 33.46 cents a pound.

The disbursements came to \$138,025.97, leaving an excess of realizations of \$11,144.35. The items of disbursements were these:

Operating expenses.....\$66,002.44
Permanent improvements..... 3,151.59
Stock purchases..... 3,500.00
Dividends paid during year..... 68,424.84

The suit of Enterprise Mill Co. vs. Pacific Mill Co. had another airing before Judge De Bolt yesterday, on a motion for examination of judgment debtor. A verdict was obtained by plaintiff at last term, but when it came to collecting the judgment by execution no property could be found on which a levy. There were moneys due the defendant, however, to get which for satisfaction of the judgment was the object of this hearing.

The court ordered Mr. Lewis to pay to the plaintiff \$602.64 which he held in trust. The American-Hawaiian Engineering & Construction Co. was ordered to pay \$397.36 it owed to the defendant into court.

The report of P. D. Kellett as master on the accounts of the estate of Kuleiua Kanoa, deceased, shows \$2579 on each side, as all the surplus over expenses went to the beneficiaries. The income paid to five legatees was \$1543.76, or \$308.75 to each. By the last inventory, filed in September, 1899, the estate consisted of \$11,000 in real property and \$1000 in personalty. It was recommended by the master that

a new inventory be filed. This estate is that left by the widow of Paul Kanoa, a minor, shows a balance of \$1499.70 for the ward from receipts of \$2,632.70, the latter including the previous year's balance of \$573.00. The minor's estate is valued at \$27,181. In the same master's report on the guardianship of George H. Brown, the balance is shown as \$1713.24 from receipts of \$3,725.85 the previous year's balance having been \$665.85. The estate is valued at \$28,283.24. Both accounts are found correct with the exception that in George H. Brown's case 25 head of cattle are said to require accounting for. Judge De Bolt approved the accounts on the hearing of the master's reports.

R. W. Breckons, attorney for the beneficiaries, has filed exceptions to the supplementary report of Henry Smith, master, on the 40 shares of Walluku Sugar Co. stock left by the late Thomas Cummins, father of the late Thomas J. Cummins whose dealing with the Walluku stock in the subject of the controversy.

FINN SURRENDERED HIMSELF.
Joe Finn who is alleged to have tried to kill Hackman Hugh Rooney last Saturday night surrendered himself to the police last night at 7:30 o'clock at the corner of Luzon and Kinau streets. Previous to the surrender some friends of Finn went to the police station and asked if good security were furnished would Finn be released. W. H. Cunningham and H. E. Gares were named. This security was satisfactory to the police and they agreed to accept them as bondsmen. Deputy Sheriff Chillingworth and Detectives Renner and McDuffie went to Kinau and Luzon streets last night to await the appearance of Finn. The latter appeared and was arrested on a charge of assault and battery with a weapon.

About Colde—in all countries and among all nations of the globe, cough medicines are used and used probably more extensively than any other one class of medicines. Every human being is subject to throat and lung troubles, which may terminate his existence. People everywhere realize the dangerous consequences of a neglected cold, for the majority of fatalities have their origin in and are characterized first by a simple cold. The more careful and prudent persons do not permit a cold to run its course, but treat it promptly. For many years Chamberlain's Cough Remedy has been in use throughout the United States and many other countries and time has proven it to be the best adapted of any remedy yet made for all throat and lung diseases, and especially coughs, colds, croup and whooping cough. It always cures and cures quickly. For sale by all dealers, Benson Smith & Co., agents for Hawaii.

LAUKEA HAS THE TANTRUMS

LEAVES SUPERVISORS ALLEGING MISREPRESENTATION OF AN IRRELEVANT SPEECH.

C. P. Laukea got huffy during last night's meeting of the Board of Supervisors and left the hall in the tantrums. He declared that R. N. Boyd was not correctly interpreting a speech of Mahoe's in favor of his bond, and then left the hall before Chairman Hocking had time to find out the facts and order a proper interpretation.

County Attorney Rawlins gave an opinion to the effect that the bond presented by Laukea was illegal, and Gilman moved that the bond be returned to Laukea, with a copy of the opinion. Lucas seconded, and then Mahoe began his speech. He did not appear to know what Rawlins' opinion was based on, for his argument was all directed to showing that the sureties were worth enough money, which fact no one present ever questioned. It was during this speech that Laukea made his protest about interpretation. Boyd said that he was giving the gist and that Mahoe was repeating the same thing over and over. When asked by the chairman Harvey said that Boyd was hardly giving all, and Lucas told Boyd to interpret literally. Mahoe closed, according to the interpretation which immediately followed, with the remark that the bond had now been filed and was before the board for consideration.

Gilman, Lucas and Hocking all explained that it was the legality of the bond, not the reliability of the sureties, that was in question, and Hocking said he had personally seen a bond rejected by the federal government for the very reasons pointed out by Rawlins. "If we follow the federal government, which is very careful in such things, we cannot go far wrong," he said.

Mark P. Robinson also said he would have to favor rejecting the bond. The county attorney, legal adviser of the Board, had given an opinion that the bond was illegal, and the board must accept such opinion. The bond was then rejected by the votes of Gilman, Lucas, Robinson and Hocking. Mahoe, Kenioloa and Harvey voted to approve. The opinion presented by Rawlins was as follows:

Honolulu, January 12, 1904. To the Honorable Board of Supervisors County of Oahu.

Gentlemen: In answer to your oral request for an opinion as to whether the bond presented by the Hon. C. P. Laukea, County Assessor and Tax Collector-elect, is in conformity with law, I beg to make the following reply:

In passing upon the bond submitted by the several county and district officers, we are bound by Chapter 13 of Act 31 of the Session Laws of 1903, commonly known as the County Act. Section 59 of Chapter 15 requires that "every county and district officer shall, before entering upon the duties of his office, furnish a bond to the Territory of Hawaii, in the amount required by law, conditioned to faithfully perform all the duties of his office as prescribed by law, safely to keep all moneys which may come into his hands by virtue of his office; promptly to pay over to the person or persons legally authorized to receive the same, all such moneys in the manner provided by law, and to deliver over to his successor in office, all moneys held by him as such officer. Each officer and his bondsmen and his sureties, RESPECTIVELY, shall be responsible for ALL funds which shall come into his hands by virtue of his office. On each of such bonds there shall be at least two sureties, who may be the court, or officer, or board required to approve the bond, be examined on oath, touching their qualifications. No person shall be surety on any such bond unless a resi-

dent and freeholder, or householder, within the Territory, and worth in real and personal property, or both, situate in the Territory, the amount of his undertaking, over and above all sums for which he is liable exclusive of property exempt from executions and forced sale, provided, however, that nothing herein contained shall prevent any officer from giving a bond of a surety company in such manner as may be provided by law."

It is plain from the reading of the above quoted section, that the intention of the Legislature, was to make the principal and each one of his sureties responsible for all the funds which might come into the hands of the principal, and that no surety could limit his liability by qualifying in any specific amount less than that of the principal, but that he must be liable in such amount as his principal.

In the bond presented the several sureties have limited their liability by declaring that they are only liable in a certain specific amount. This, in my opinion, is in direct contradiction to the plain intent of the law. None of the sureties on the bond presented have justified in the sum of \$150,000.

In conclusion I would state that, in my opinion the bond presented by the Hon. Curtis P. Laukea does not conform to the law and is not such a bond as is required by the statute. Respectfully submitted, WILLIAM T. RAWLINS, District Attorney.

There was one change in the bond as presented. Dr. Mc-rew had not qualified as a surety and his \$10,000 was taken by Mrs. Parker, making her total \$25,000.

During the afternoon session a communication from a long list of members of Company H, 1st Regiment, National Guard of Hawaii, was read, in which the signers asked for work in the Road Department. They said they had had nothing to do for several months. They stated they had supported the Republican party in the last campaign and would stay by the party through thick and thin and do everything in their power to return the obligation.

The communication was referred to Road Supervisor Vida. Police Magistrate Lindsay appeared before the Board to announce that in response to a request from that body he had again taken oath as magistrate before the Chief Justice.

A PROPER SUGGESTION. Statistics just given out by the Department of Commerce and Labor show that while our total trade with the world outside has increased 50 per cent in the last 10 years, our commerce with Neighbor Canada alone has doubled itself. Our 1903 trade with the Dominion is \$185,000,000. We buy more goods from "just over the line." Our friends buy more from us. There is nothing in the character of our imports to show that even if there were allowed to come burdenless across the border any promising "infant" industries would be menaced. "Manifest destiny" is giving us a hint in this business. If we are wise as we are strong we shall put out the helpful hand of reciprocity—and do it soon.—New York World.

GHOSTS.

The belief in spirits or ghosts is by no means confined to Hawaiians. Every nation has had its particular form of ghostly visitant from the scanleeka of the Lap, the wier wolf of France, the very unpleasant ghosts of India and China, weird and especially uncanny, to the vampire of Eastern Europe, which is still firmly believed in by the peasantry of Transylvania, of Servia and Bulgaria, and the possessor of the evil-eye of Southern Italy.

It is no wonder then if Hawaiians believe in ghosts. They are only following in the footsteps of other races. The belief in the unseen is by no means confined to the ignorant, though it flourishes most abundantly there. But even the most highly educated races and individuals have their superstitions.

The story of the Kau ghost is humorous enough, and a subject for laughter, did it not show how strong a hold superstition possesses upon the human race. The islands, in the minds of some of their inhabitants, fairly reek with ghosts. Puna is full of them, so is Koolauloa on this island, so is Hookena on Hawaii, and there are dozens of special localities where specially ghostly spirits abide and show themselves from time to time.

It is not wonderful that the human mind peoples the dim vistas of forest and mountain, the silent shore, the dismal lava beds and the deep, dark valleys with mysterious and ghostly forms. It is but the natural tendency of a semi-poetic nature, and the Hawaiian, like all primitive races, is thoroughly poetic, though his poetry takes an entirely different form from ours. So the Kau ghost story, crude as it may be, serves to point out a psychic evolution that we need not be surprised at.

WEST HAWAII.

West Hawaii gets the first flag to float over its court house. After all West Hawaii is not such a hot bed of intrigue as East Hawaii. There is a calmness over that district which must affect its citizens. Anyone who stands at the Pali of Kaimaliu and looks over that magnificent sweep of country which ends at Milolii, with its shore dotted with villages, its cuddling bays, and its grand grasp of low-land, middle-land, up-land, till it disappears into cloud-land must appreciate this.

And then the silence of Kona! It has its effect upon its people. It is the silence of grandeur. Unless one has been there one cannot appreciate it. It is really the silence of the ocean, for in Kona both ocean and land make the total effect. Kona would be nothing without its ocean. What magnificent sunsets one can see from Holoalua or Kaimaliu, or the upper lands of Honamau. Looking from there you have the Pacific ocean spreading from our dots of islands apparently illimitably till it reaches the shadowy outline of a distant coast, the fabled orient. There is no more poetic spot on these islands than the County of West Hawaii.

Then one can wander through its woods, and they are wonderful. Scientists have found their most fertile fields in those deep forests. There are the most beautiful of birds to be found in the upper ranges. Not only the most beautiful, but also the most ruscus. The only crow of the islands croaks his dismal note in the forests of West Hawaii. It is not a land of leaping streams, of crashing waterfalls, of bubbling brooks, such as one finds in East Hawaii. It does not urge mankind and its own inhabitants to what people now call a strenuous life. It is a land of calms. Talk of Korea being the Land of the Morning Calm, West Hawaii is the "Land of the Morning and Evening Calm."

The influence of West Hawaii upon anyone who has ever experienced it can never be forgotten. It lives as one of the pleasantest of memories. There are great opportunities, commercially, for West Hawaii. It possesses an excellent harbor. It possesses the best roadsteads on the island. It has a magnificent undeveloped sweep of land capable of producing crops, the value of which is beyond estimation. In point of fact, West Hawaii is an unknown factor in the economic estimation of this Territory. Agriculture has scratched its soil a little. Capital has failed to take it into consideration. But there is wealth untold, undeveloped in West Hawaii, and Governor Carter will never do a more prophetic thing than he has done, in giving a banner, the banner of the greatest nation on earth to that forgotten and little thought-of section of the Territory—West Hawaii.

FUTURE TRADE.

Not only is the United States the leading producer of raw cotton, but it will in time be the leading spinner of the world. With this in view it is no wonder that congress has voted a quarter of a million of dollars to overcome the cotton blight. In previous articles in these columns the condition of the cotton industry in England has been created. The continued development of the cotton industry in the United States is affecting France still more. Indeed the present crisis, which is causing important losses, is the forerunner of the probable downfall of the cotton industry of France. Prominent cotton spinners of this district fully comprehend the situation. Societies and syndicates have been formed to encourage cotton growing in the French colonies. In the meantime, the most important and prosperous cotton mill of Lille and environs has been sold to an English syndicate, which is endeavoring to monopolize all spun cotton.

It is not in the least surprising that such a view of the situation should obtain and that such action should be taken in France when we consider that in 1900 the United States produced 9,997,000 bales of cotton of which 3,787,000 bales were consumed at home. The remainder, or 6,210,000 bales, added to what was furnished by India, was offered to the rest of the world for consumption.

The statistics which follow show the quantities of cotton produced, consumed, and offered to other countries in 1900 by the cotton-growing countries:

Table with 4 columns: Country, Production Bales, Consumption Bales, Exports Bales. Rows include United States, India, China, Korea and Japan, and a Total row.

This statement clearly indicates that while Great Britain may be supplied from India the other countries must look to the United States for raw material. This is particularly true with regard to France.

In the event of the United States increasing its consumption of cotton, France must put aside cotton spinning. The United States, by the force of circumstances, will become the first cotton-spinning nation of the world. The future for the United States cotton industry appears extraordinarily bright and assuring. The energy and attention of the

American people should be directed toward realizing this anticipated preponderance of the United States in cotton fabrics and textiles. Few difficulties are to be surmounted. Capital is always at hand and statistics show sufficient material; for in 1900, as compared with other cotton growing countries, the United States produced the largest percentage.

Delegate Kuhio fought his case, spent his night in the police court under protest and eventually came out on top. It is not always wise to accept an unpleasant position. In nine cases out of ten it pays to fight. Delegate Kuhio fought and vindicated himself, very much to his own advantage and to that of the Territory which he represents.

Governor Carter does not mean that the grass should grow under his feet and intends to personally see what is going on in the Territory.

The story which the report of the Rapid Transit Company tells is indeed a wonderful one. The company has carried close on to six million of passengers during the year, and this in a city of less than forty thousand inhabitants. This is simply marvelous, and must be far in excess of the most favorable calculations. Of course the fact that the city of Honolulu is on the cross roads of travel upon the greatest of oceans, must be taken into account.

Delegate Kuhio seems to be working for the interests of the Territory. There are people who would like to have the Delegate make a failure, but it is evident that he means to make a success for his constituents and for himself upon Republican lines. He can have no others.

Bribery in connection with postal frauds gets a heavy penalty on the mainland. This will make others who have been engaged in similar transactions feel very uncomfortable. Ex-Congressman Deiggs is only leading off in the dismal march.

AWFUL REVENGE

Continued from page one.)

blers caused the members of the work gangs to neglect their regular work. It was finally decided, according to the report brought this morning by the steamer Mikahala, to rid the vicinity of the gamblers.

Mr. Glennan took a prominent part in this work. He is said to have been instrumental in driving the gamblers away. The horses and some of the saddles and bridles of the gamblers are said to have been seized by Mr. Glennan and he is reported to have endeavored to force the gamblers into disgorging some of their ill-gotten gains. The gamblers are understood to have left the ditch gangs, vowing to be revenged on Glennan.

The gamblers appear to have put their resentment into effect last Friday night. Mr. Glennan lived in a tent in the camp. His bed was raised some feet from the ground. About 10:30 o'clock Friday night some one approached his tent and threw what is thought to have been a stick of dynamite with a fuse attached under Glennan's bed. The young man was in bed asleep at the time, unconscious of his impending doom. It was but a few moments from the time that the lighted fuse and dynamite were thrown under his bed that the charge exploded. There appears to have been ample time for the assassins to escape in the darkness. The dynamite exploded, blowing the bed into atoms and whirling young Glennan across the tent room. Both of his legs are said to have been shattered and mangled in a terrible way.

The noise of the explosion startled the other men in the camp and within a few minutes, attracted by the groans of the dying man, the people went to the wrecked tent. Efforts were made to relieve the sufferings of the young man and medical aid was summoned, but he was beyond help, dying within an hour after the explosion.

There was naturally great excitement regarding the affair. At the time that the Mikahala left Makaweli no positive clue appeared to have been secured by the officers. Sheriff Coney was personally at work on the case. He offers a reward of \$600 for information that will lead to the arrest and conviction of the perpetrators of the awful crime. From the statements of the officers of the Mikahala no arrests appear to have been made. Suspicion strongly pointed at the Japanese gamblers as the perpetrators of the crime, but no positive evidence had been secured. The deceased was 28 years of age. He was originally from Redwood County, California, where his parents are said to reside.

CHANCE TO MEET GOVERNOR TAFT

A new plan to enable Honolulu people to meet ex-Governor Taft, the future Secretary of War, is to have a public reception on the afternoon or evening of the day he arrives here. Governor Carter will probably propose such a reception to the distinguished visitor, whom it is desired to make as fully acquainted with Hawaii as is possible during his short stay here. As a member of Roosevelt's Cabinet and in his own department Secretary Taft will have a great deal to say on matters of importance to the islands. The Korea will make a comparatively long stay in port. She has 1900 tons of freight to discharge here. She is expected to arrive on Saturday morning and will probably leave on Sunday morning.

COUNTY ACT KNOCKED OUT

(Continued from page one.)

certain amendments and does not show that the bill as so amended was passed at all by the House.

2. That the Act makes the County Board of Supervisors an elective body, contrary to the provision in Section 80 of the Organic Act, that the Governor shall appoint, with the advice and consent of the Senate, certain specified officers and boards and "any other boards of a public character that may be created by law."

3. That the Act creates a Territorial Board of Equalization consisting of the Secretary, Treasurer and Auditor of the Territory, not appointed by the Governor, with the consent of the Senate, at all as to one of its members, the Secretary, nor appointed by him as members of the board as to any of its members, contrary to said Section 80 of the Organic Act.

4. That the Act requires the transfer to the counties, to be controlled by various elected county officials, of much public property that was ceded by the Republic of Hawaii to the United States by the Joint Resolution of Annexation and was by Section 91 of the Organic Act placed by the United States in the possession of the Territory of Hawaii, to be controlled, as contended, by various appointive Territorial officials, "until otherwise provided for by Congress or taken for the uses and purposes of the United States by direction of the President or of the Governor of Hawaii."

5. That the Act practically abolishes the offices of Superintendent of Public Works and High Sheriff by transferring most of their powers and duties to other officers, contrary to Section 75 of the Organic Act, which provides "that there shall be a Superintendent of Public Works, who shall have" certain enumerated powers and duties, and Section 79 which contains a similar provision in regard to the High Sheriff.

6. That the whole Act is void because it contains two subjects, one in relation to county government and one in relation to Territorial works and institutions and because, as contended, the title of the Act is likewise correspondingly double, in contravention of Section 45 of the Organic Act, which provides "that each law shall embrace but one subject which shall be expressed in its title."

7. That so many and such important portions of the Act are void and ineffective that none of it can stand.

We will assume for the purposes of this case that the first six of these arguments are unsound, and base our decision on the seventh alone.

In support of this argument a number of provisions in the Act were pointed out by counsel as being, according to their contention, void or ineffective in whole or in part for one reason or another. Without professing on the one hand to enumerate fully or on the other to confine ourselves strictly to the provisions instanced by counsel or the reasons advanced by them in each instance, the general line of thought on this branch of the case may be illustrated by the following statement of arguments: That certain provisions are void or ineffective in whole or in part because they are made to depend upon laws which were assumed to be still in force but which had in fact been repealed (as, for instance, Sections 454, 455, relating to contested elections, as shown in re Election Contest, ante); or because they purport to transfer to certain county or Territorial officers powers and duties which were assumed to have been in certain other officers, whose offices, however, had been abolished by the Organic Act or whose duties had been transferred either by the Organic Act or by our own laws to other officers (as, for instance, Sections 365, 394, which purport to transfer to other officers the powers and duties of the Minister of the Interior relating to medicine, surgery, pharmacy, dentistry and prisons); or because they relate to purely Territorial matters in contravention of the provision of the Organic Act that each law shall embrace but one subject which shall be expressed in its title (as, for instance, Sections 389-391, 483-487, 494, relating to the Territorial Board of Public Institutions, as shown in Dole v. Cooper, ante); or because of two or more of the foregoing reasons (as, for instance, Sections 395-401, 496-501, which place the Territorial penitentiary in the control of the Territorial Board of Public Institutions and provide for a transfer of powers and duties from the Minister of the Interior—not to go into the question whether the subject of a Territorial penitentiary itself could properly be included in the Act or how far the matters of prisons, criminal procedure, sentences, etc., in general might be affected by the failure of the provisions in question); or because they purport to alter laws that cannot be altered at all by the Territorial Legislature, the power to alter which is reserved exclusively to Congress by the Organic Act (as, for instance, Sections 171-172, 450-451, relating to the settlement of boundaries and the returns, canvasses and certificates of election in the case of Territorial Senators and Representatives—not to consider whether the latter subject could properly be included in a county act at all); or because they violate provisions of the Organic Act or other Acts of Congress relating to the Territories prohibiting special legislation in regard to counties, as, for instance, the proviso of Section 1 relating to the County of Kaula, and Section 4 relating to the Supervisors of the County of Oahu.

But we will assume for the purposes of this case either that all such provisions are valid and effective, except so far as held otherwise in the cases above mentioned, or else that, if invalid or ineffective, they may, important though some of them are, all fall without causing the Act as a whole to fall.

There is, however, one subject that, in our opinion, is improperly included in the Act, without the provisions in regard to which it cannot be presumed that the Legislature would have passed the rest of the Act. That is the subject of Territorial taxation—the very means upon which the Territorial government depends for its life. We will assume that the Territorial Board of Equalization might properly be constituted as it is in terms by this Act, notwithstanding the provisions of Section 80 of the Organic Act. Still the subject of Territorial taxation is one that, like the subject of the Territorial Board of Public Institutions, cannot be included in the Act, in view of the provisions of Section 45 of the Organic Act, relating to titles of laws.

The Act makes radical changes in the system of Territorial taxation. It may almost be said to provide a new sys-

tem. Among other things, it provides for the equalization of valuations of real property among the several counties, as far as regards the Territorial tax, by a purely Territorial Board. This board also is required to determine the rate of the Territorial tax upon real and personal property, and in case of its failure to do so, the rate is fixed at five mills on the dollar. Sections 182, 221, 222.

The Act is entitled "An Act Providing for the Organization and Government of Counties and Districts, and the Management and Control of Public Works and Public Institutions therein." An act relating to taxation could cover both Territorial and County taxation. Whether an act relating to Territorial government could properly cover county government, or an act relating to Territorial taxation could properly cover county taxation might be a question—although under an act which according to its title related to state and county revenues, but which contained a section on municipal revenues, the Supreme Court of Tennessee held not only that section but the entire act void. See *Bugher v. Prescott*, 23 Fed. 10. But an act relating to county taxation or county government could not cover Territorial taxation. No doubt a number of provisions in this Act could be sustained, not as parts of the Territorial system of taxation, but as incidental to county government, although they relate more or less to what were previously parts of the Territorial system of taxation. An act relating to counties created in a fully organized Territory with a centralized government would naturally and probably necessarily contain some such provisions. Lines of demarcation and transfers would have to be made and this could be done by inclusion, exclusion, amendment or repeal so far as necessary for the purposes of providing for the organization and government of counties. But this Act goes much further than this. It provides for most important changes in the system of Territorial taxation, and that, too, with nothing in the title of the Act to indicate this.

What is the result? The provisions relating to county and territorial taxation, covering nearly a fourth of the entire Act, are interwoven, and were intended to be parts of a general scheme. If the part relating to county taxation would have to fall with the part relating to Territorial taxation the counties themselves would be without the greater portion of their contemplated means of subsistence and the entire act would necessarily fall. If the part relating to Territorial taxation could be separated from the part relating to county taxation, then, if the rest of the Act could stand, it would be only on the theory that, as to Territorial taxation, previously existing laws would remain in force. There would then be two systems of taxation, each complete in itself, with two sets of officers and other machinery from top to bottom, with double expenses, two returns, assessments, etc., to be made in the case of each taxpayer, the possibility of two valuations by different assessors or boards and two appeals, etc., in each instance, etc., etc. The Territory would also have to collect most of the taxes as fixed by previous laws, sufficient perhaps to support the entire government as it was previously, notwithstanding that the greater part of the expenses were to be hereafter borne by the counties. The counties would also have to collect the rate which this Act purports to authorize. The people would then be taxed much more heavily than was contemplated or is necessary. In view of the extent to which the attention of the Legislature would be frustrated and inconvenience and hardship would result in case the rest of the Act were allowed to stand without the part relating to new features in Territorial taxation, it cannot be supposed that the Legislature would have passed the rest of the Act in its present shape. Nor the court to sustain the rest of the Act under the circumstances would be to assume legislative power.

We fully realize that, as we have held in the past, the Organic provision relating to titles of laws should be liberally construed, and the court should sustain an act of the Legislature, if possible. But the superior laws must control in a

clear case of conflict. The court cannot, nor can a large majority any more than a small majority of the Legislature, override the Organic law, however much any particular law or form of law may be desired.

In our opinion the Act in question is void, the respondents are not entitled to the offices which they claim, the decree appealed from is reversed and an appropriate decree in conformity with this opinion may be entered in this court.

A DEAD MARCH.

"Hawatha" is now being used as a dead march in the Philippines. It is apt to cause death if whistled too often here.

"TICKED" NEWS OF OWN MURDER

W. H. Clendenin, the Telegraph Operator Killed in Lonely Brown Watch Tower.

WILLIAM CLENDENIN.

The murder of Telegrapher Clendenin in Brown tower, near Williamsport, Pa., who telegraphed news of his own danger before he died, has been followed by a series of attacks on other telegraphers occupying isolated posts, and special trains are kept in waiting to go to the rescue of the next victim. As yet, no reasonable solution of these attacks has been found.

BUCKEYES FAVOR A MONUMENT

WANT THE MCKINLEY MEMORIAL COMMITTEE TO ADOPT A STATUARY MEMORIAL.

At the meeting of the Buckeye Club held last evening at the residence of Mr. and Mrs. Raymond C. Brown, a committee previously appointed presented the following report.

"Your special committee, appointed to investigate in regard to the McKinley Memorial Fund and report such suggestions as in their judgment seemed good at the next meeting of the Buckeye Club, have now to report as follows:

"1. That a number of the members of the General Memorial committee have been consulted and that they feel doubtful as to the propriety of diverting the funds to a monument since the original contributions were so largely made under the condition and under the expectation of a Memorial playground park.

"2. That on account of the hard times having curtailed to some extent the amount originally expected to be collected by the General Committee, we fear, as it now stands, the park idea will never materialize into anything permanently valuable and suitable as a memorial to the name of William McKinley.

"Wherefore, in view of these circumstances, we recommend that the Buckeye Club formally address a letter to the said General Committee of the McKinley Memorial Fund, wherein it be definitely suggested that a general circular of information concerning the situation be sent out to as many as possible of the contributors, and also, that it be announced through the newspapers, inviting the subscribers to reconsider the purpose for which their contributions were made and recommending a change to building a suitable monument, suggesting an early reply from said contributors, in absence of which the General Committee may be properly regarded as at liberty to dispose of the land already bought and with the money now in hand build a memorial monument."

Rev. W. D. Westervelt and W. A. Bowen were appointed a committee to draft and send the letter, but were instructed first to obtain as far as possible the opinions and approval of the members of the club.

SISTER LAURENTINE DEAD.

Was One of the Sisters who Founded The Convent.

Sister Laurentine Loyer of the Order of the Sacred Heart, died last evening at the Catholic Convent, Fort street, at the age of 79 years. For nearly forty years the sister had been the doorkeeper of the Convent, retiring three years ago when age and ill health compelled her to relinquish her duties.

Requiem mass was said at the cathedral this morning at 8 o'clock and the funeral will take place from the cathedral at 4 p. m. today, the interment being at the Catholic Cemetery on King street.

Sister Laurentine is known to every one who has visited the convent, and her death will be mourned by thousands of women who passed their childhood among the Sisters. She was one of the five Sisters of the Sacred Heart Order who founded the Convent about forty years ago. Only two now remain of that band, one of whom is Sister Judith, the Reverend Mother of the Convent. Sister Laurentine was born in France, and was a lay sister throughout her long career in the service of the church.

THE DEMOCRACY OF THE CHINESE

DR. SUN YET SEN SAYS THAT
THEY ARE ESSEN-TIALLY DE-
MOCRATIC IN THEIR AFFAIRS.

Dr. Sun Yet Sen addressed the members of the Young Men's Research Club last evening at the residence of Mr. and Mrs. W. W. Hall. He outlined his hopes for the establishment of a republic for China, and the reasons why he hopes it may come and he believes it ought to come.

To his mind the Chinese government and the Chinese people were two essentially different things. The imperial government carried on its processes through a series of officials extending down through provinces to districts. These however concerned themselves principally with Imperial taxes, and the collection of Imperial taxes, and touched at only one or two points the social, communal, and domestic life of the people. In all these matters, which include the preservation of the peace, the settlement of disputes, the maintenance of schools, the regulation of industry, the construction and maintenance of roads and other public works and utilities, a sort of democracy, regulated by custom, prevails. In this democracy, the people exercise a very real self government, through the village elders and councils which are not chosen by any formal election, and are not regulated by laws but by customs, but in a very practical way represent the will and opinions of the people.

It is because of this Democratic system and practice, and the fact that there is not, and has not been for centuries any aristocracy, or hereditary privileged classes, that Dr. Sun bases his belief that the Chinese people are fitted for a republican form of government.

Originally the road to official position lay through the competitive examinations, or through military service. But since the Taiping Rebellion, the government has been so put to it for revenue, that the practice as grown up of selling offices to obtain revenue. But even the competitive examination system had little real merit, because of the conditions that surrounded it. The examinations are only in the Chinese classics, and in effect consist only of a test of skill in the composition of essays in a particular form known as the eight paragraph form. This particular form of composition was originated by an emperor of the Ching dynasty, but was adopted as the form in which to confine all examinations for official position, by the founder of the Ming dynasty. The effect of it is to bend the energies and industry of those seeking literary honors into a channel which takes years of study to acquire proficiency, and serves in useful purpose when acquired. In fact the whole system deadens the energy, industry

and ambition of the Chinese people for improvement.

So far as the imperial government is concerned, he thought the preservation of the integrity of China would be difficult, and the partition of the country easy. But because of the essential unity and solidarity of the Chinese people, the real partition of the country would be found not only difficult, but impossible. The overthrow of the present dynasty which was not only foreign, but decayed, must come soon in some form, in the very nature of things. But a revolution overthrowing this dynasty, and establishing a republic based on the essential unity of the Chinese people, would make the government as strong as the people.

GROSS CRUELTY CHARGED.

Suit for divorce from Thomas H. Young has been brought by Lillian H. Young, who makes many specific charges of fearful cruelty. She names a number of occasions on which Young is alleged to have kicked and beaten her and her child, beginning when the latter was only ten months old. At that time the plaintiff says, Young beat the little child in their Waikiki home and finally threw the baby into the ocean. The mother rescued the infant in an exhausted condition, she says, and on the same night Young beat and kicked her.

ANTI-GRIPPE TABLETS

There is no guess work about this remarkable cold cure. They cure colds, grippe and dengue quicker than any other known remedy.

Another important thing to know about them is, they are safe to take; they will not cause ringing in the ears or nervousness.

During the siege of dengue there was an immense sale for them and as far as we know no one had the dengue if they took Anti-Grippe Tablets at the first symptom. In one house where there were twenty-four people only one had dengue. He didn't take the tablets, the others did and broke the disease up at the very start. Anti-Grippe Tablets have a sale in many parts of the world. Read this

AORANGI HAD GOOD WEATHER

The S. S. Aorangi arrived shortly before noon today from the South. She left Sydney December 28, Brisbane December 31 and Suva January 5. She cleared the Fiji group that evening and passed Alofa Island the following day and Hull Island January 7.

Throughout the voyage fine clear weather was experienced with moderate to fresh easterly and east northeasterly winds. Nothing of special interest occurred during the voyage.

She brought one passenger for Honolulu, B. C. Robinson. She has a fair sized list of through passengers. The vessel brought a small amount of freight for Honolulu.

TRYING TO GET BETTER SYSTEM

LOCAL HARBOR MASTERS AND PILOTS ASKED NATIONAL ASSOCIATION TO HELP THEM.

The local harbor of the Masters and Pilots Association is making active efforts to secure the proper lights and buoys for these islands. Some time ago a communication on this subject was addressed to Prince Kuhio asking for his assistance in securing appropriations for the needed lights and buoys. A list of those necessary was given to the Delegate. A copy of the recommendations was also given to Captain Niblack the local inspector for the Hawaiian Islands.

In addition to seeking to secure this assistance, the local harbor has addressed the national harbor association and asked the assistance of that body to secure favorable assistance in getting the desired lights and buoys. The annual Grand Harbor of the American Association of Masters and Pilots of Steam Vessels will meet this month in Washington. The local harbor in its communication urged the importance to the shipping interests of the Hawaiian Islands that the new lights and buoys should be installed. The national association of masters and pilots of which the local harbor is a member will, no doubt, take up the request of the Hawaiian harbor and use its influence to secure the necessary improvement in the local system.
