CLAIM FOR ROAD DAMAGES

Government Asked to Pay \$16 Per Square Foot on Fort Street.

Other Business Transacted by Executive Council in Extra Session This Forenoon—Application to Operate Quarry.

Although, Tuesday is not a regular meeting day for the Executive Council, a meeting was held this forenoon on account of the large amount of business that piled up during the absence of President Dole.

There was presented a claim for road damages for that part of Fort street in front of the old May grocery store taken by the government for street widening purposes. The estimate in the claim is 125 feet at \$ 5 per square foot. The government has been in the habit of paying about \$4 for such land. No action was taken in the matter.

An application from the O. R. & Co. for certain strips of land connected with the railroad was read but action was deferred.

Some of these strips constitute part of the right of way over which the road passes. Others are places on which the company wishes to erect buildings.

In giving out this news Mr. Dole stated that the matter should have been attended to a long time ago.

An application from Mr. Patzig to operate a quarry in the Nuuanu gorge, just back of the royal Mausoleum was read but action deferred.

The reports of Dr. Shaw, the government veterinary surgeon, dealing with tuberculosis in imported and native cattle, were read. Dr. Shaw was present and gave a verbal report on the results of his work on the dairy herds in and about town.

The application of W. R. Castle for an exchange of mountain lots was read but no action taken.

ON JAPANESE LABORERS

The announcement that the Executive Council yesterday approved of the application of the sugar planters for 9,310 more laborers, has caused no little speculation on the part of Honolulu people interested in the matter. President Dole was seen this morning, and in reply to a question, made the following statement:

"You perhaps remember that early in the month of May last the Executive Council informed the planters that after the end of the present quarter (September 30th) there would be no further approval of applications for extra Japanese. By 'extra' I mean all those over and above the number necessary to make up the proper proportion of Asiatic laborers.

"You see from this that the 9,310 is the end of Japanese immigration, as it has been going on. The plantations are all furnished with their full quotas, and it will be some little time before more are wanted to make up for loss through various causes."

Mr. Dole's statements go to show that the present applications, approved yesterday, call for just 9,310 Japanese over and above the number requisite to make up the proportion spoken of above. In fact, Mr. Dole stated this morning that he believed the plantations were even now carrying more laborers than the proportion calls for.

MARCELLO CHARGED.

The Coroner's Jury in the case of Biassi, the Moanalua Italian, returned a verdict of death at the hands of Marcello. On the books at the police station the charge of murder in the first degree has been entered against Marcello.

SURVEY SHIP EGERIA HERE

Sounding for a Pacific Cable from the Coast to Australia.

Left Portsmouth in February, 1897—King George Cannon Aboard—Officers—Will Stay Here a Week or Two.

The British Cable Survey ship Egeria arrived in port this morning about 6 o'clock from Esquimault via San Francisco, and anchored in naval row.

The Egeria left Esquimault on the 18th of June; she arrived in San Francisco early in July where she stayed about a week leaving there on July 14th. She sounded all the way down along the line of the proposed cable, getting to within 600 miles of Fanning Island in her survey. Where the vessel will go from here will depend altogether on the orders expected tomorrow via San Francisco on the Gaelic or Moana.

Good weather has been experienced during the whole of the Egeria's voyage and nothing of startling interest is to be recorded; her officers are in hopes that the orders will take them back to the coast, sounding over the sailing route, as they are anxious to get back home, having left Portsmouth, England on the second of February 1897; the survey vessel having been commissioned at Swerness in January of that year.

The following is a list of the Egeria's officers: Morris H. Smyth, Commander; Henry B. T. Somerville, Lieutenant; Frederick C. Leamonth, Navigating officer; Lieutenants Frederick H. Walter; Geoffrey B. S. Simson and Horace C. Watson; Robert F. C. Eames, Paymaster; James Bradley, M. D., Surgeon; Edward J. Campbell, Engineer and James McGeachy, Boat-swain.

About 120 bluejackets are aboard, all armed with Lee-Medford; the vessel carries several guns, 2 twenty-pounders of 1861; 2 machine guns; a 7 pound muzzee loader boat's gun and an interesting 6 inch mortar, bearing the coat of arms of King George the Fourth and the date 1822; this is used as a signal gun.

The Egeria is a bark rigged vessel of 94 tons, length 165 feet, beam 32 feet; she was built in 1876.

Sailing between soundings, the vessel only steams while engaged in surveying; consequently she carries little coal and will only take aboard about 100 tons here. She will remain in port one or two weeks, during which time painting and general overhauling of her deck and upper works will be looked after.

Official visits were exchanged this morning between the Boston and Egeria.

The deepest sounding recorded during the survey from Esquimault was 3417 fathoms.

The Egeria is a fast sailer and a most comfortably fitted vessel, the cabins being supplied with small open fire-places so dear to the hearts of the English.

Canadians and Australians are very anxious that the British government should undertake to lay the Pacific Cable. As yet, however, it is uncertain by whom the cable will be laid. The British Government is complying at present with certain agreements in making the preliminary soundings; these soundings are also wanted for scientific purposes.

Port Surveyor for Hilo, Collector General Ivers and Captain R. M. Macaulay were passengers in the Cianine for Hilo. Captain Macaulay goes to fill the office of Port Surveyor at that port while Inspector Neely of Hilo will come to Honolulu to fill the vacancy left by the Captain. Mr. Ivers goes to Hawaii on business.

ALL OF COLUMBIA'S CREW SAVED

Iroquois Brings Captain Walker and Rest of Shipwrecked Men—Last Two Boats Landed Same Place As First Two—A Tough Crowd—Some on Kauai, Some in Jail.

All those who started out for Hongkong on the ill fated steamer City of Columbia are accounted for; the majority at present enjoying much needed rest ashore in this city after their long hours of peril and hardship on the deep in a leaky hoo-too vessel, and exposure and weary palling for the sunken steamer's boats.

Most of the shipwrecked sailors are telling their stories to anxious friends today, some have remained on Kauai, preferring to work with a hoe on a sugar plantation than with an oar in an unwieldy boat; some are in jail as the result of too great an anxiety to save the captain's gold watch and nautical instruments from the fast sinking hull.

The U. S. Tug Iroquois which went to the rescue of the Columbia's remaining 21 men on Sunday night returned to port about 8 o'clock this morning with Captain Walker, Navigating Officer Harris, Chief Engineer Delaney and the balance of the ship's company which went ashore on Kauai in the last two boats from the wreck shortly after the 19 men in the first two life-boats had landed.

The Iroquois arrived at Waimea about 1 o'clock yesterday afternoon and found the shipwrecked mariners on the dock. About 4 o'clock last evening the tug left Waimea and came direct to Honolulu, Captain Pond learning from the crew that it was absolutely useless to go in search of the Columbia, as when they left her she was due to sink in about an hour.

A great crowd met the Iroquois at the Waikiki end of the Pacific Mail wharf and Captain Walker and the others were surrounded, congratulated and questioned until they managed to get away in hacks.

Captain Walker was met by his sons and Mr. Rowell and kept away as much as possible from everybody else. The captain looked worried, but beyond that showed no effects of his late exciting experience.

He spoke of the good work of his officers and the bad work of the crew "We had as tough a crowd as you can well imagine," said he, "they stole my gold watch from my cabin, to say nothing of my valuable aneroid and barometer."

It seems that the men helped themselves to what they wanted; all the table silver and anything at all of value they diligently annexed.

The story of the \$25,000 in Mexican money has been modified by the captain's report. As a matter of fact \$800 in Mexican silver was brought back by the Iroquois and also the ship's papers and other contents of the Columbia's treasure tank.

When the leak was first discovered on the lost steamer early Friday morning, Engineer Hammond volunteered to ascertain its whereabouts. Armed with a lantern he crept aft in the lower hold but on nearing the stern his light was extinguished and he was knocked down by the terrific rush of wind and water through the gaping leak in her stern.

Several times he plunged forward, and each time he was driven back until forced to give up and return on deck.

Two men of the ship's company were left on Kauai at their own request as they were desirous of working on sugar plantations there.

The rest of those who originally went with the Columbia on

A DORIC QUARTERMASTER

Caught With Eight Tins of Opium in His Possession.

Two Native Guards Make Discovery—Man Says a Job was Put Up On Him—Will Not Plead Guilty.

M. H. Kealakai and J. W. Leialoha, two Custom House guards, have reason to pat themselves on the back today. While Morris, the quartermaster of the Doric who always casts the lead while that steamer is entering port, was going through the gate of the Pacific Mail wharf last night, they found upon searching him that he had opium concealed about his person. They held Morris and sent a message to Inspector Drummond, who was in charge of the watch.

As soon as Drummond arrived, Morris was searched. Two tins were found in his trousers, just above the ankle while six more were strapped about his person. Morris was immediately put under arrest and removed to the police station. No one would put up bail for the man so he was left in custody.

On the way up to the police station Morris stated that this was the first time he had ever dabbled in opium but in the Police Court this forenoon he said a job had put up on him by a higher officer. The charge of unlawful possession of opium had been made with the understanding that the defendant would plead guilty but he refused to do so when brought before the court. Had this been known Morris would have had the charge of importing opium lodged against him.

When the officers got their man safe in jail they went back to the Doric and made a search of Morris' room. In a large tin were twelve half pound tins, the remainder of the case of twenty that the quartermaster supposedly had broken open just before going ashore.

This afternoon Morris changed his plea to that of guilty and was fined \$250 and costs.

BRIGADIER GENERAL HALE.

Brigadier General Irving M. Hale is a through passenger in the Doric. General Hale passed through here as a major with the troops in command of General Merritt. For his bravery and most valuable service to his government in the Philippines he has been promoted to be a brigadier general in the regular army, a signal distinction, since he was a major in the volunteers and is the youngest officer of the rank named in the United States Army. As an authority on guerilla warfare there is none more generally accepted than General Hale.

City of Columbia a Seneca.

While in all probability the City of Columbia is now at the bottom of the sea yet there is a chance that she is still afloat. If the latter is the case steamers going to and coming from the Orient stand in danger from the hoodoo ship. Steamers have known to go down through collision with objects not as formidable as the City of Columbia. Situated as she was when Captain Walker and the remaining hands were picked up by the Iroquois, it would not take much to put her in the path of steamers.

Some people along the waterfront do not believe the City of Columbia has sunk, and express the feeling that she will, through force of habit, come drifting back into the harbor.

AN AIBA JAPANESE SUICIDES

Body Found Floating in Water Not Far From Hospital.

Went About Job Deliberately, Leaving Shoes and Water Bottle on Shore—Continued Sickness Probably the Cause.

Deputy Sheriff Faneuf of Ewa arrived on the morning train today. Asked as to the news from the country districts Mr. Faneuf told the following story of a suicide at Aiea Sunday morning:

"Fujimitsu, a Japanese laborer in the employ of the Honolulu Sugar Co., committed suicide by drowning, some time between 1 and 2 o'clock Sunday morning. The Japanese had been sick for a long time and was an inmate of the plantation hospital up to the time of his death. It was probably the worry and pain caused by the disease that led him to commit suicide.

"He was not missed until about 4:30 o'clock in the morning. The alarm was given and it was learned that the fellow had left the hospital between 1 and 2 o'clock. At about 10 o'clock the body of the Japanese was found floating in the water seventy-five yards away from shore and not far from the hospital. There were no marks of a violent death. The fellow had gone about the thing deliberately, leaving his shoes and a bottle of water on shore before wading out into deep water. He was dressed in a kimono when found.

"I held an inquest at Aiea yesterday. The verdict was unanimous that Fujimitsu had met death by suicide."

Aguinaldo Wants an Island.

London, Aug. 5.—Interesting information comes from the British North Borneo Company in that it has received a request from the Philippines asking the company to lease or sell to the Filipinos, Banguay island just south of Palawan island. It is only sparsely inhabited by natives. The Filipinos who are engineering the deal say that in case of their defeat, Aguinaldo and other leaders, with a large section of the Filipinos, may settle at Banguay under British protection and the company's rule. The board is now considering the question but it is understood the company is not averse to leasing the island on very favorable terms being offered.

Hubert Vos.

Hubert Vos, the famous Dutch artist who has been in the Orient for several months painting portraits of the types of various nations for the Paris Exposition, returned with his wife in the Doric yesterday afternoon. Mr. and Mrs. Vos will remain here for about six weeks or so, after which they will go to the States, there to remain until time to proceed to the Exposition.

Enforces the Regulation. Richard Ivers, Collector General of Customs, issued orders yesterday morning ordering the Port Surveyor to instruct all his men to search all personal baggage of people arriving in foreign steamers, irrespective of the owners. This of course is a rule that has always been in force, but the Custom House Inspectors have been allowed to use their discretion. Now it has become a hard and fast rule and everyone's baggage must be overhauled and "O. K'd" before it can pass through the gate.

HAWAII ON THE MIDWAY
 The Omaha World-Herald of July 23rd says: The evening was marked by an event which many think will be considered of more and more importance as the summer wears away. This was the opening of the Hawaiian Village. The management had been hurrying to the last hour of the work of completing its handsome building—an imitation of the palace at Honolulu—which fronts on the Midway, and the theater in the rear, just beyond the pool, where the Americans will shortly learn for the first time by actual observation the proficiency in swimming for which the Hawaiians are noted.

The theater, while not yet quite completed, was attractive enough to call forth many expressions of admiration. The rear of the stage shows a street in the old time city of Honolulu, while on either side the scenery is of coconut trees and other tropical vegetation.

Though the public Friday night was delighted with the part which the Hawaiian people took in the Venetian festival, yet the crowd which packed the village theater last night to suffocation was surprised at the sweetness and melody of the music furnished. Wind and string instruments were made to give forth an harmonious company of sounds of a quality which perhaps cannot be better described than by saying that it was fragrant.

Interspersed were a number of the dances heretofore known only in the mid Pacific islands, and not one of these was given without so hearty applause as to compel a repetition. It was demonstrated at once that the Hawaiian Village will be a winner on the Midway.

HILLO NEWS NOTES.
 The following news notes are contained in the last Hilo papers: D. H. Hitchcock has almost entirely recovered from his recent illness.
 W. Scott, formerly deputy sheriff at Wailuku, Maui, has accepted a position as divisional luna at Olan.
 Waiakea finished grinding Friday, the total output being 93 0 tons. Onomes shut down on the same day with a record of 8400 tons.
 The Edward May sailed Friday with 7640 bags of sugar from Honolulu, and 15,659 from Onomes, making a total of 23,299 bags, valued at \$112,378.81.
 The Public Works Department in Honolulu has ordered fifty tons of black sand shipped from Hilo to Honolulu. It is being bagged at the foot of Waiuanuue street.
 Last Saturday Papaula, a native working with the pile driver at Waiakea, fell into the grinding frame and was instantly killed by the dropping of the hammer, being crushed to death.
 Three or four incendiary fires were discovered in the case of Pahala Plantation, Kau, on Wednesday, but the flames were extinguished before any considerable damage was done.
 The temporary officers of the proposed Court Mauna Kea, A. O. F., have been notified that the charter for the Hilo Court has arrived and is now in the possession of Court Camoes, No. 3110, Honolulu. The next Kinau will bring the delegation to install the new Court.

For the Sake of Fun, Mischievous is Done.
 A vast amount of mischief is done, too, because people neglect to keep their blood pure. The mischief appears in eruptions, dyspepsia, indigestion, nervousness, kidney diseases, and other ailments. This mischief, fortunately, may be undone by the faithful use of Hood's Sarsaparilla, which cures all diseases originating in or promoted by impure blood.
 Hood's Pills cure all liver ills. Non-irritating.

Seattle Beer.
 This ever popular Rainier beer is becoming a household word and "will you have a glass of Seattle" is more often heard than anything else. The Criterion Saloon have the beer on tap or in bottles.

TUESDAY, AUG. 15, 1899.

Officials of Hawaii—"Thank God, the Columbia is safe."

Thirty-nine men of Honolulu find that they went to sea in a sieve.

Attorney Gear's mission seems to worry the official organ. It has been playing on its funny monkey bone ever since he left.

If Japan had annexed Hawaii Aug. 12, 1898, she couldn't have worked more in the interests of her people than the Hawaiian Government has done the passed year.

Atkinson's Anti-imperial Boston snake and the Hawaii's official organ labor monkey have joined drives in a herculean effort to give the Republican party the jim jama.

Col. Bryan is to receive \$200 for addressing the returned men of the First Nebraska. It is not stated whether Bryan would guarantee a better speech if he were paid \$500.

It is to be hoped the two street railway companies will soon begin the ever predicted fight if they are going to have it. After the fight it is supposed some aggressive work will be done.

Police court reports in Manila papers record the fining of gamblers and smugglers as occupying the principal attention of the Judge. Civilization is making great progress in the Pacific.

The only criticism that can be offered the officers of the City of Columbia is that they didn't wait to see the ship below the water. The first thing we know she'll be coming back into the harbor towed by the leading representatives of Davy Jones locker.

The Bulletin remarked that the esteemed shades of George Washington, Daniel Webster, etc., etc., now occupying the Government building in Hawaii had a cinch on the government. The Advertiser says they have a "cinch on the offices." The feature of "government" which first appeals to the official organ is apparent. Let the good work go on.

MORE JAPANESE LABORERS.

Some months ago, the people of Hawaii and also "the people of the mainland" were informed that the local government of Hawaii had shut down on the importation of Asiatic laborers. President Dole appeared before the planters and announced that Japanese contract immigration must be stopped immediately if not before.

Shortly after this announcement the Executive Council established a "policy," under which, five thousand contract Japanese were allowed the planters for the quarter ending in June. Now the planters are again allowed over nine thousand contract Japanese for the quarter ending in September, thus making a total of fourteen thousand contract Japanese in six months. Doubtless all these Japanese contract laborers are needed to carry on the work of the new plantations, but the people would like to know up which flume the bald, high handed stand of the Executive of three months ago has

disappeared. Is it that the tiddle-deewiaks statesmen have decided to open the contract immigration door's fall width, irrespective of previous assertions to the contrary? Is it that the Supreme Court decision has put new courage into the enforcers of contract labor laws, and, by virtue of that decision Hawaii being an independent nation, its officials have decided to run the country to suit themselves irrespective of American law? Is it that importation of more contract Japanese is favored by Washington officials and upheld by the arguments of Washington politicians?

It is not likely the Executive will offer any explanation of its action or attempt to tell the people of Hawaii whether this new policy leads to the Devil or the Deep Sea. The official organ says Hawaii is headed for one place or the other. The whole labor policy of the Executive since August 12, 1898, has been along the lines of "after us the deluge." Efforts to secure European labor or American labor have, at best, been half hearted. Whatever backbone the Executive ever showed has been bent up double every time a direct issue has been taken with the planters. The best solution that can be given of the more recent action is that the Executive has come to the conclusion that it might as well die for an old sheep as a lamb and enough Asiatics under contract will be allowed to enter the islands to supply the market for a considerable period after American laws are extended.

NEWS OF THE ARMY.

Sergeant John Readon of Battery A, 6th Artillery, has been discharged from the army by reason of disability. He will be missed very much by men of Battery A. Sergeant Readon has been in the army nearly twelve years serving as a first sergeant which position he held until he was compelled to go to the hospital about two months ago. He will depart for the States today on the steamer Doric.

Private Abner L. Osborn of Battery A, 6th Artillery, has been transferred to the Hospital Corps, and will report to the surgeon in charge for duty at the Buena Vista hospital. Osborn has been on duty in the Quartermaster's store house for the past few months.

Privates Louis Seiger, Frank Bliss, Thomas Sheehan and Mac Donald have been appointed corporals in Battery A, 6th Artillery. Corporal John W. Maddra of Battery A, will be discharged in a few weeks at the end of three years' service and will return to his home in Baltimore.

Battery A, is very well pleased with their new station in the city of Honolulu.

MAY BE A RACE.

The La Paloma, Clarence Macfarlane's California yacht is twelve days out today. Two or three more days should bring her to Honolulu.

The La Paloma sailed from San Francisco August 3 in company with the Andrew Welch, the mate of which is bringing the La Paloma to Honolulu.

The feeling along the waterfront is that the yacht will get here before the Andrew Welch. There is a great deal of speculation and not a little betting going on.

The most popular portrait of the late Princess Kaiulani is the one taken by Taber showing her in street dress in easy pose with purse in hand and wearing a very becoming hat with ostrich plumes. KINGBROS. have them for sale.

Subscribers to the BULLETIN not receiving their papers promptly will confer a favor by notifying the Business Office, Telephone 256.

HOW KIHAI BROKE HIM.

"I know it's too bad," said the convicted defaulter, "but it all comes of being an optimist!" "An optimist?" said the visitor to the prisoner.

"Yes; I was dead sure Kihai stock would go my way, and I backed my opinion with some one's else money!" "Get your calcium-carbide from the P. C. & M'g Co."

Reignald: "I want to buy you a dog, Miss Ethel! What kind of a dog would you like?"

Ethel (thoughtfully): "Well, I should like a dear little silky-haired angel, with large poetic eyes, and a sweet little rosebud mouth, and a soulful expression, that's a good ratter and a good fighter, and a prime retriever and water-dog, and a good courser, and doesn't eat too much, and is easy to keep clean!"

Reignald: "Excuse me, Miss Ethel, but what you want is a Sterling Chainless Bicycle, from the P. C. & M'g Co."

Twentieth Century Gas Lamps, at the P. C. & M'g Co's.

Wig: "Jones says he can read a woman like a book."

Wag: "Yes; but he can't shut her up like one."

Crescent Bicycles for \$45, at the P. C. & M'g Co's.

After testing oleomargarine at the Board of Health food investigation the other day, Dr. Dor remarked that it was just as good as the butter he had for breakfast. But, how does the doctor know just what he did have for breakfast?

Old Hunter: "Hullo, old fellow; how's hunting? I don't see that you have bagged anything."

New Hunter: "Oh, you don't, eh? Then just look at the knees of my new hunting trousers."

He swears he'll get his ammunition from the P. C. & M'g Co. next time he goes. Sterling Bicycles at \$50, at the P. C. & M'g Co's.

YAQUIS INDIAN REBELS.

Chicago, August 5.—A special to the Tribune from the City of Mexico says:

The rebel Yaquis forces are now thought to have been swelled to 3000 or 4000 men. Their temporary success has encouraged Indians from all along the Yaqui river to flock to their stronghold in the mountains.

The Government decided to re-enforce General Lorenzo Torres, and the Seventeenth Infantry sailed yesterday from Mazatlan on the Government transport Oaxaca for the mouth of the Yaqui river, leaving Mazatlan entirely without a garrison.

General Torres now has his forces, consisting of the Fifth Cavalry and Eleventh and Twelfth Infantry, mobilized in the Yaqui valley, and probably will not attempt a forward movement until he receives his re-enforcements. A regiment from the interior is also being sent to him.

Up to last accounts the Mayo Indians were remaining tranquil.

RAPID TRANSIT.

At yesterday's session of the Executive Council the application of the Honolulu Rapid Transit & Land Co. to build double tracks on King street between the Nuuanu stream and Victoria street, was granted subject to the terms of Act 69 of the Session Laws of 1898, the Rapid Transit Act.

Should any trouble result between the two rival companies now fighting for supremacy, they will have to carry the matter into court for settlement.

TO CHANGE OWNERSHIP.

It is understood on good authority that the recent visit of C. M. Cooke and E. D. Tenny to Hilo and the present visit here of Messrs. Hind and Renton has to do with the passing of the control of the Mahukona Railway from the hands of the Wilder's into a new company with Mahukona as headquarters. Parties interested who were approached refused to talk.

The Orpheum.

"The Arrival of Jim Jeffries" was the opening farce in which Jim Post and Dave Marion engage in a laughable sparring bout. Post makes a timid starter but finally does up his opponent in a way that would do credit to Martin Denny himself. Boggs and Haeward put on a neat little skit. Miss Leslie sang the classic ballad "For All Eternity," while Ethel Dixon rendered "She Was a Daisy," also "The Widow," from Hoyt's Trip to Chinatown; each lady being accorded an encore. The balance of the program was ably sustained to the gratification of a full house.

This is no mere exclamation, but describes a new locking bicycle stand. It is small, being but 2 inches by 5 inches in size, fastens on the wall, and being made with a pin tumbler lock absolutely prevents unauthorized removal. We have quite a variety of small bicycle holders which can be fastened to the wall, a post, or in any other desirable location, at any required angle, doing away with the ungainly appearance of wheels laying around on the lanai, tipped over against the wall, or laying around on the lawn.

A COMMUNICATION.

The following communication written on City of Columbia stationery, meat wrapping paper, was received by the BULLETIN this morning:

"ROCKED IN THE CRADLE OF THE DEEP." "Sweet Spirit Hear My Prayer." Vale "City of Columbia S. S." Uncle Davy Jones captures the whole pot The C. O. C. lies in her grave, and for her there is no resurrection. We were getting weary and had that "tired feeling."

We were very grateful this morning on the arrival of the Iron-quois that not a single soul was lost, and that Uncle Sam's endeavors had been successful in rescuing these people from what have proved their graves.

There is no reason to doubt that no port of civilization in the world would by its chief officers the Collector General have granted a clearance to such a notorious unseaworthy vessel involving as it did the lives and fortunes of human beings.

The granting of that clearance, was almost criminal and is deserving of the severest censure. OLD SEA DOG.

MONEY COUNTERFEITERS AT WORK.

New York, August 5.—A special to the Times from Washington, says: Chief Wilkie of the secret service says that there are a great number of criminals in the Philippines. These are so numerous and successful that it will soon be necessary to make provision for secret service agents in the islands.

The counterfeiters do not make imitations of American money, but reproduce Spanish and Chinese coins. In the present condition of affairs in the Philippines the counterfeiting of these coins does as much harm as the making of bogus American money and perhaps more. General Otis is doing what he can to break up the practise but he has a hard fight on his hands as he has no trained detectives.

Chief Wilkie says also that there is much counterfeiting going on in Cuba, Porto Rico and Hawaii, although not as much as in the Philippines.

The Last Car.

The last cars of the King street line going to Waikiki and Palama pass the Anchor Saloon. The cleverest mixologists in the city are there always to put you up anything you may desire. Drop in and take a drop before you take the car. The celebrated Seattle beer is to be had here on draught. A full line of liquors including the famous A. A. Jesse Moore Whisky etc., always on hand. Received per Warrimoo, Rainier Bock Beer on draught. The Anchor Saloon is here to please its patrons.

Whitney's New Jockey.

New York, August 5.—The World says: Jockey George Odum has signed a contract to ride for W. C. Whitney for 1900, 1901 and 1902. The boy will receive \$10,000 a year and in addition \$25 for every winning mount and \$10 for every losing mount.

Have you ever had a photo made of your home? If not we should like to add your name to our list. We are making a specialty of this branch, and would be pleased to talk it over with you. KING BROS., 110 Hotel street.

Literary Club.

There was an interesting meeting of the Triangle Literary Club at the Y. M. C. A. last evening. After the election of six new members, there were three-minute talks by the members. The subject for the debate at the next meeting is: "Resolved, That Municipal Ownership of Railroads is Beneficial."

DESKY LICENSE CASE.

It will be remembered that some time ago C. S. Desky was summoned to appear in the Police Court on the charge of giving a public show without taking out a license. Mr. Desky thought the payment of five dollars each night for the privilege of giving a show an exorbitant charge but he was found guilty. Mr. Desky then issued a writ of mandamus against the Minister of the Interior. The case came up in the Circuit Court and Desky was again found guilty but it was carried to the Supreme Court. Yesterday an opinion by Judge Frear, concurred in by Chief Justice Judd and Justice Whiting affirming the decision of the lower court, dismissing the petition and discharging the writ, was handed in.

Thousands of people who were in your condition and took Hood's Sarsaparilla say it was the best investment they ever made, for it brought them health. Hood's Pills cure sick headache, indigestion.

WEATHER SUMMARY FOR JULY.

The mean temperature was 77.0 F., Normal 77.3.

The mean daily maximum, 84.2.

Mean daily minimum, 71.5 making the mean daily range 12.7 as against a normal range of 11.0.

Extremes, minimum 63, maximum 87, entire range for month 24 degrees, usual do 18.

Relative humidity for the month 67.5 per cent, normal 68.5. Absolutely humidity 6.8 grains per cubic foot or a dew-point of 64.9 F.

Rainfall 0.42 in., is the lowest in 16 years. The normal, 16 year average, 1.65.

The barometer mean was 29.97, .025 below normal. Both barometer and temperature were unusually low during the first two or three days of the month. Temperature seemed to feel the influence of the volcano from the 15th to the 18th. Heavy smoke carried to the N. E. by the S. W. upper current was brought back by the surface trade wind on the 18th and 19th.

The trades were interrupted by southerly winds twice during the month, which is unusual for July. The force of wind, less than normal.

The artesian well level fell during the month from 35.1 feet to 34.6, above mean sea level. This fall of .5 foot in one month is doubtless due to the semi-annual flooding of the Waikiki rice lands which takes place in July.

The rain fall has been abundant in Hamakua, Hawaii, in Kohala and N. Hilo. In S. Hilo and Puna, rather scant; in Kona and Kau about normal. Elsewhere quite light with some exceptions.

Government Meteorologist.
