MAUI TELEPHONE SYSTEM

IS TO BE GREATLY ENLARGED AND IMPROVED.

Capital Stock to be Increased to \$20,000—New Trunk Lines Added—Main Office moved to Wailuku.

PAIA, April 28.—The Maui Telephone Company on Tuesday last, the 24th, held an important stockholders' meeting, at which many items of improvements came up and were acted upon. The Central at Kahului is to be moved to Wailuku, and the Wailuku service greatly improved.

New wires will be run to Olowalu from Lahaina, and to Maunaloa Bay from Wailuku, giving two clear trunk lines to Lahaina. A new wire will be run to Keaneo from Hahione, giving a clear line from Paia to Keaneo. New lines will be run from Hana to Kipahulu, from Paia to Kula and to Makawao, and a new trunk line be put through Wailuku. New modern switchboards are to be placed in each of the four centrals, and many new instruments and transmitters have been ordered, all of which will make a big improvement in the service.

To meet these expenditures the company voted to raise the capital stock to \$20,000 the limit authorized by the charter, by the issue of 200 shares of stock. This stock is to be offered to the present stockholders at \$15 a share, or \$5 above par, all not so taken to be sold on the market. Indications are that there will be very little to go on the market, as the stockholders will probably take it all.

AN ASSASSIN IS COMING

SENT FROM CHINA TO KILL LEUNG CHI-TSO.

To Arrive by America Maru—Bow Wongs Warned and Will Look Out for the Gentleman.

The Bow Wong section of the Chinese colony has been in a fever of excitement since the arrival of the Coptic last Friday, on account of information from a reliable source that there will arrive here by the America Maru next Saturday a head hunter, and that the criminal emissary will end the days of Leung Chi-tso, the Chinese reformer now stepping in this city.

The information comes from branch societies in Hongkong and Macao, and the statements regarding the matter are very positive.

The name of the assassin is Lum Chung Yee, and he is sent by Li Hung Chang, viceroy of Canton province, so the report says. The local Chinese are warned to look out for him.

Prominent members of the Bow Wong Society have conferred with attorneys, and will see the marshal about the matter. Their effort will be to prevent the assassin coming ashore. Forty members of the society held a meeting on the matter, and it was decided to interrupt the efforts of Li Hung Chang's head hunter at any cost. If he does get ashore Leung Chi-tso will be hidden and they will shadow Mr. Yee. If found to possess a pistol, which will undoubtedly be the weapon used, the fact will be immediately reported to the marshal, and an arrest will follow. The chances are, therefore, that Mr. Yee will get himself into a very unpleasant fix. It is understood that the reformers will not attack Mr. Yee, or adopt any underhanded Empress Dowager methods, but will proceed in a legal way in every respect.

Leung Chi-tso will leave tomorrow for Ewa, Waianae and Waiolu. Next week he will go to Maui and Hawaii to organize reform societies on those islands. Yak Nam will leave next week for Kauai to prepare the way for the leader on the Garden Isle.

H. E. COOPER SELLS.

C. D. Chase and a hul of capitalists have purchased Attorney General Cooper's entire estate in Manoa Valley. The sale and purchase includes the Roman mansion and about sixty acres of land. It has not yet been decided when the property will be taken over by the buyer.

Mr. Chase states that the land will probably be cut up into lots. The property is a fine one, and in an exceedingly popular and promising neighborhood.

INSURANCE CASE DECISION.

Judge Silliman today decided not to grant the motion for new trial in the case of A. G. Merrick vs. Norwalk Fire Insurance Company, for the reason that while Captain Cluney may himself have done some talking, it was not shown that the other jurors were influenced thereby.

NEW COTTAGE.

PAIA, April 28.—James Alana of Makawao, is having built a neat new cottage, close to the Catholic church, where he will reside with his family.

GOING TO THE BOTTOM.

That is where the prices are now, at The Golden Rule Bazaar, on first-class, but odd stationery. The best stock at one-half, and less than one-half the regular prices. A hint to the wise should be sufficient.

WANT THEIR BONDS BACK

PLANTERS COULD NOT PROCURE WHITE LABOR.

Gave Bonds to Bring in Ten Per Cent From Europe or America—Another "Moral Obligation"—Routine.

The directors of the Planters' Association met at the Cabinet this noon on the subject of labor bonds. It was claimed that an honest effort had been made to secure the legal proportion of white labor, which is ten per cent, but that all endeavors had failed. The planters thought that in view of their failure, through no fault of their own, but through the changes and uncertainties incident to annexation, that the bonds should be cancelled. It is understood that the bonds amount into the hundreds of thousands of dollars. No action was taken.

A petition from residents of the valley and Punchbowl neighborhoods for the extension of Fort street from School street mauka, was approved, and Minister Young was instructed to proceed with the work as soon as the money was available, and land for the right of way could be procured.

It was decided to widen Alapai street at once, ten feet of land being taken from each side for the purpose.

Voted that the Minister of Interior call for tenders for a high lift pump, for the Beretania pumping station, bids to be received from Honolulu only, and as quickly as possible.

Minister Damon turned over to the Minister of Interior a lot of silverware, not needed by the Government, to go in the lot of stuff to be sold at public auction. It was decided to give certain old books, turned over by the Minister of Foreign Affairs, to the Museum.

Minister Young reported that he had sent Dr. Shaw, veterinarian, to Hawaii to cope with the glanders and tuberculosis in live stock. He is instructed to begin at Hilo and work his way through all the districts of the island.

ANNIVERSARY RECEPTION.

Court Cases, Ancient Order of Foresters, had a very pleasant anniversary entertainment at Lusitana Hall on Alapai street Saturday night. The building, which was elaborately decorated, was crowded with members and friends of the order. The first part of the evening was devoted to an address of welcome by Mr. Eckardt, remarks by members, and music. Then there were dancing and refreshments to a late hour.

CAPTAIN A. A. FOX.

Officer A. A. Fox, who has done such good service as chief of Board of Health guards, has been appointed captain of the mounted patrol under Marshal Brown. He will do his new uniform this evening.

CONSULS NOTIFIED.

Consular representatives have been notified by the Minister of Foreign Affairs of the order of the Board of Health in declining the Hawaiian Islands free from bubonic plague or other infectious diseases.

SOCIETY MUST PAY.

Judge Perry today handed down a decision in the case of Virginia Gomez vs. Portuguese Mutual Benefit Society, bill for injunction, ordering the defendant to pay \$499 in full settlement of the claim.

INVENTORY WANTED.

Mrs. A. Haelele has been ordered by Judge Silliman to appear in the Circuit court and show cause why she should not file accounts, an inventory and a sufficient bond in the matter of the estate of the late John Coney. The petition is signed by Mrs. Ashton, daughter of the late Mr. Coney, now resident at San Francisco. Mrs. Haelele was planning a trip abroad.

AT POLICE COURT.

In the Police Court about thirty people celebrated the end of quarantine by paying fines for being drunk, or getting into fights because of intoxication. Sate, a Jap in a kimono in addition to his plea of guilty said he got drunk with a friend. The judge said it wouldn't cost him any more on that account, and fined him \$2 and costs.

AN EPIDEMIC OF WHOOPING COUGH.

Last winter during an epidemic of whooping cough, children contracted the disease, having severe coughing spells. QUARANTINE REGULATIONS ARE ABOLISHED.

Commerce Moves Free and Unimpeded. Busy Times at the Wharves—New Board of Health Arrangements.

The familiar Board of Health guard was missed from his accustomed box stool on the water front this morning. There was nothing for Captain Campbell to do but enjoy a vacation, instead of wandering about the wharves seeing that guards were in their places, and there were no sprinklers of disinfectant on hand to squirt bacilli-killing mixtures on the wheels and contents of every wagon that entered the wharves. The rat proof poles that have kept vessels six feet from the wharves were also laid away and people who have not had a chance to board an island steamer since December 12 were able to step on board without fearing that a Board of Health man would put the vessel in quarantine. A few men on board who had borne up under quarantine rather than take serum, were also able to set foot on shore. The quarantine was paid, and when the Nippon Maru comes in tomorrow friends on shore can mix with those on the steamer as they have not been able to do for nearly five months.

There is only one little remnant of quarantine left and that is at San Francisco. For thirty days more, according to United States laws, precautions must be taken against Honolulu, but they will not be very serious. It is thought. There is some question as to whether some kinds of freight, such as bananas, may be sent away till after thirty days, as fumigating would spoil them.

RUSH AT WILDERS.

The raising of quarantine along the water front resulted in a great rush of freight to the Wilder wharves, where the steamers Claudine and Leona, and schooner Golden Gate, are loading for Maui and Hawaii ports. By half past six this morning there was a big block of trucks at Likelike and Kinahu wharves and later in the morning over fifty trucks with loads were standing at the time, awaiting turn to go on to the wharves and discharge their freight. It was mostly Japanese goods. All oriental freight has been tabu for many weeks and the Japanese merchants got up early to get stuff on the steamers. Chinese merchants also sent many truckloads to the wharves. The Claudine goes on the Kinahu run, at 5 o'clock this afternoon, the Kinahu being laid up. The Claudine will take over 700 tons of freight and a large list of passengers who are grasping the first opportunity of traveling without taking serum.

INTER-ISLAND.

At the Inter-Island Company's wharves the day was a quiet one. Most of the fleet arrived on Saturday and Sunday with loads of sugar, which was being discharged this morning in the stream or at railroad wharf. The steamers will be loading tomorrow and the day after tomorrow. The blockade. All of the Inter-Island steamers except the Iwailani, Noeau and Waialeale are in port, so that the company will be able to send out a big fleet.

The employees of the Inter-Island Steamship company will be given a luncheon on the Kinahu wharf, as a celebration of the close of quarantine, and a mark of appreciation of the faithful work of those who stayed with their unpleasant jobs all through the long confinement on board the vessels. The luncheon is given by President John E. C. of the company, who is about to leave for the coast. By tomorrow afternoon those of the Inter-Island steamers that are absent now will very likely show up.

The wharf is to be decorated for the occasion and the band will be there to play in the afternoon. The celebration. There will be a spread that will almost make the boys wish for another period of quarantine.

BOARD OF HEALTH.

At the Board of Health there were several changes this morning on account of the raising of quarantine. The most important was a notice to twenty-four of thirty paid inspectors that their services would not be required longer than this afternoon. They will be paid off and allowed to go. Dr. Wood has decided upon a scheme to do all the work with six men. The valleys will be abandoned and attention will be given to Kawaunou, Iwilei, Kakaako and such localities.

Mr. Towse will remain as head of the smaller force and will be expected to carry out the new policy of the Board. The men to be continued under him will be A. W. Neely, Fred L. Leslie, P. A. Harris, J. Harris, J. L. Wheeler and T. W. Carroll.

Dr. Jobe left this morning, his work having departed with the raising of quarantine. He will open an office in the city. During the long period of plague Dr. Jobe made many friends and has been assured of a lucrative practice.

Secretary Hendry will remain in the office of Dr. Wood for a time straightening up the many details to be put in shape. Dr. Garvin will for the present occupy the former office of Dr. Wood. President Wood has returned to private life and will open an office at the Health office at times of meetings or when business requires. He will continue to keep an eagle eye on vessels from infected ports.

Dr. Hoffman will return to his former work as bacteriologist of the Board of Health during the absence of Dr. Jobe. He will be abandoned and most probably burned. Sergeant Elvin and the Merrills have already left there. Dr. Hoffman's future work will be at Kaili receiving station for lepers and in the Board's laboratory.

"Jack" McVeigh will now devote most of his time to the quarantine station and Kaili camp. He will also assist Dr. Garvin, the executive officer. W. J. Coelho will remain for a time to assist Secretary Wilcox in straightening up back business.

Rat Catcher Duval has been fired. He proved a failure, as was to be expected. The salary was fixed at \$10 a month. As was remarked at the time there was a string on it, and the said string was pulled today. R. C. Duval caught no rats and got no pay.

AUSTRANS ON THE DOCK

THE MAN WHO TOOK THEM TO KIHAI.

Lucas Returns on the Steamer Lehua—Says the Immigrants Came of Their Own Free Will.

J. M. Lucas, the man who took the Austrian laborers, who were said to have been slaves enticed into bondage, to their future homes in Kihai, returned this morning on the steamer Lehua. Mr. Lucas has been to Europe and was with the alleged victims of the Hawaiian plantation slavery system on the way to San Francisco, and from there on the steamer Doric to Hawaii. He says that the stories that came from San Francisco are untrue, and that the immigrants came to Hawaii of their own free will. They are now at work on the plantation, and there is no evidence that they are sorry that they left their homes in the old country to toil, as one San Francisco paper put it, as slaves under a killing tropical sun. Lucas is very well known in Honolulu, where he was a hackman for many years.

The ex-hackdriver has a brother here named S. Lucas, who says that he is personally acquainted with some of the men who arrived here on the Doric and were transferred to the Lehua. Lucas says that the story that the Austrians are slaves who wanted liberty is not true. "I know some of the immigrants," said Lucas this morning, "and met some of them while they were on the Doric. I went to the wharf to see them. It is not true that they were swindled into signing any contract to work or that they were prisoners. There was no contract at all. They were told that if they wanted to come to the Hawaiian Islands and work they could come, and if they like it, more will come. The San Francisco newspaper story was all wrong."

NEW CUSTOM'S FORCE.

The new appointments at the custom house were made today, and the incoming force will be on tomorrow. Discharging Inspector E. E. Miller was promoted to a district inspectorship. Mr. Miller has been on the force for a long time. With M. J. C. Scanlon, E. G. W. Keister and E. A. Jacobsen, he will make up a force of four district men, who are to alternate day and night.

The force of inspectors will consist of the following: L. Gay, G. A. Winston, R. Henderson, E. M. Tucker, C. de Cow, Thomas A. White, E. L. L. Pitzer, H. Dinkligan.

The guards will be on eight-hour watches, instead of working in alternate six-hour shifts, as in the past. The force will consist of W. H. Keenakani, M. Kanue, H. Bana, C. E. Carter, A. Bader, C. Babaw, J. Leialoha, C. Lubeck, J. Maguire, J. Koomau, A. Dahlstrom, H. Lubeck, E. L. Miller, J. F. May, J. Wirud, E. S. McGrew, John Powers, J. Hodson, Al Clark, Thos. Sinclair, J. J. Albert, C. Bartlett, A. J. Prosper, M. Doyle, Joseph Seybold, H. Beringer and Fred West.

READY FOR BUILDING.

Grading Contract for Hilo—Kohala Railroad Nearly Ready.

Herbert B. Gehr, the man who is building a railroad out from Hilo, arrived from Hawaii by the Claudine. He came principally, he said, to get some additional surveys, the quarantine regulations having heretofore prevented getting all he needed. Within sixty days he will let the contract for grading and building the first fifteen miles of the road. Several big contracting firms in the states, two of which had big contracts on the Chicago drainage canal, have had representatives in the field looking over the line with a view to making their estimates and bids.

SECOND DISTRICT COURT.

The second district court, Judge L. A. Dickey, formally opened at 1:30 this afternoon in the basement of the Executive building. City cases on the calendar of the first district court are being heard.

COPIOUS RAINS.

KAHULUI, April 28.—Kula has this week experienced rain the like of which has not been seen there for at least six years. It came down so voluminously that every ditch and gully was a rushing stream, and the common above Kihai was one vast sheet of water.

HANAIEI, April 27.—There have been some heavy showers on this part of the island during the past few days. The greatest quantity of rain fell on the 24th. The country looks quite fresh and green.

HACKMEN ARE UP IN ARMS

TO FIGHT RULE OF MINISTER YOUNG.

Money Raised for the Purpose—Business Men Petition Against Abolition of Hack Stands.

Hackman of Honolulu will fight the proposed action of the Minister of Interior in regard to hack stands. Mr. Young has already advertised in the papers that on and after September 30 next no stands will be allowed on the thoroughfares. The hackmen have raised a fund, by assessing each driver fifty cents, with which to carry on the fight.

In addition to this a memorial was presented to Minister Young today requesting that the hacks be not ordered off the street and that the proposed regulation be not put into effect. This has been signed by nearly all of the business firms and men in the city, making it a very strong paper.

The petition recites that in Honolulu hacks are a great business and general necessity and should be made as available to the public as possible. It is pointed out that to remove them from the streets would seriously inconvenience the petitioners and the people at large. Minister Young is entreated to not carry out his threat in the matter.

This petition was carried around by hackmen, several of the leading hack owners and drivers giving their time to it. The list completed this morning. Minister Young has taken the matter under advisement.

Following is the order of the Minister to which the hackmen object: "Notice is hereby given that from and after September 30, 1900, Rule No. 7 of 'Regulations for Carriages and Rates of Fare,' designating the stands set apart for Licensed Carriages in Honolulu, will be abolished, and thereafter no stand for hacks will be allowed upon any of the streets of this city. "ALEX. YOUNG," "Minister of the Interior."

SATURDAY'S BASEBALL.

In the baseball game of Saturday the Punahou won over the Kamehameha by a score of 12 to 7. Up to the sixth inning the game was about even, with the advantage on the side of the Kams. From there out the Punahou had it all their own way.

SAILOR RUN OVER.

A delapidated, old horse, that would not run away for a ship load of oats, got beyond the control of its driver, a native woman, on Hotel street early Saturday evening and accidentally ran over a man, a sailor. The fellow was not much hurt. The cause of the accident was the fear of the woman, of many years standing, that the beast might some day run away; and when the poor, old horse swished his tail a little harder than usual the woman let out a scream that brought all the policemen in four blocks. This frightened the horse. He started up and ran around in a circle until the rig struck the sailor, who was trying to stop the terrible runaway.

DIED IN QUARANTINE.

One of the Chinamen left here by the Coptic died on quarantine island last night. Pneumonia was his trouble. As he had no relatives nor friends here, his body was cremated at the island this morning.

HE SALE POSTPONED.

The wireless telegraph directors have decided to postpone the sale of the first message, which was appointed for tomorrow, to some future date. It being felt best that the work should have begun before the sale is brought off. The experts will arrive by the steamer tomorrow afternoon almost without a doubt.

MOST LIBERAL POLICY.

E. L. Russell, manager of the Mobile & Ohio Railroad, recently wrote to the Provident Savings Life Assurance Company of New York, as follows: "It is with much gratification that I am able to say that after a careful comparison of the several policies which I hold in your company with other policies which I hold in other companies, I am satisfied that your contract is the most liberal I have seen." I. R. Burns is the resident manager of this company.

SHIPPING AT KAHULULU.
 PAIA, April 28.—There are three large ships in the offing this morning, all bound for Kahului.
MAUI STEAMERS.
 WAILUKU, April 28.—Maui people have yet much complaint to make about the uncertainty of steamer service to Honolulu. The Claudine was announced to sail on Thursday evening from Malaea, and people made plans accordingly, but along she came early Thursday morning, and sailed calmly away again. The Mauna Loa went by Thursday night, without any one knowing it. Many people have been greatly inconvenienced this week in consequence. There is talk on Maui already of an independent steamer service, both to the Coast and to Honolulu.
OFF FOR THE COAST.
 HAMAKUPOKO, April 28.—Mrs. H. P. Baldwin and two children, Miss Charlotte and Sam, left yesterday for Lahaina, overland, where they will take the Nihau for Honolulu, en route for the Coast.

New Spring Neckwear

Is coming. Cupid calls it good and beautiful. No article of wear partakes of so many patterns and makes as does neckwear. When you see the new the old that you thought beautiful grows stale. We have just received our new spring stock and if you don't say that they are swell when you see them we will quit importing.
 WE ARE NOT exactly selling our goods at auction, but we are doing the next best thing by selling them at greatly reduced prices. It is not our habit to carry goods over from one season to another, so we must sell our remnants of sizes at once, and at such prices that you will save money by buying of us. These goods must sell even if we incur a war in doing so. Boys' and Men's Clothing, Underwear and Men's Furnishings. We mean business. Call and have a look.

Nerves Unstrung.

Weak Stomach; Pain in the Chest; Sleepless, Nervous, Irritable; all run

Down. Cured by

Dr. Miles' Nervine.

Nearly every disease is the sign of poverty, either of the blood or of the nerves. When the brain cells and nervous tissues are used up faster than they are repaired, not only the brain and nerves, but every vital organ of the body cries out for help. Headaches, neuralgia, heart disease, nervous dyspepsia and liver and kidney troubles run rampant in the helpless system, destroying whatever strength remains until at last the break-down comes and then—
Dr. Miles' Restorative Nervine is doing a world of good for such weak, nervous people, whose brain and body are overtaxed, but who may yet be saved from a state of indescribable wretchedness, and restored to lives of happiness and industry. By soothing and strengthening the secretive glands of the digestive organs it facilitates digestion and assimilation,

while the nervous system is rapidly built up again and put to work without confusion, thus bringing all the important organs into harmony and restoring perfect health.

"About seven years ago I was all run down with nervousness and heart trouble and was so bad that I had to give up work. I was nervous, sleepless and irritable all the time and although several doctors treated me I did not improve any under their care. Hearing Dr. Miles' Nervine well spoken of for such troubles I commenced using it and grew better from the start. When I had used three bottles I felt that I was cured; but I still keep a bottle of the Nervine on hand, and when I am unusually tired or nervous I take a dose and am all right again. I took Dr. Miles' Nervine and Liver Pills along with the Nervine and found them the best Liver Pills on the market."

ESCAPED CONVICT CAUGHT

HIS LIBERTY OF VERY SHORT DURATION.

Captured by James Kawauhau, a Former Policeman, in the Brush Near Wilcox's Place—Punishment.

Detongi Marcello, the man who escaped from the prison gang in Kaili Saturday, was captured shortly after 2 o'clock the same afternoon by James Kawauhau, brother of Officer Hart and lately on the police force. The capture was made in kiawe and laniana maula of the railroad near Wilcox's place.

When the escape took place mounted patrolmen were sent to scour the neighborhood. The police of the entire island were notified. Several trustworthy natives were also notified, among them being Kawauhau. The description given of the convict was that he was Italian, wore a prison suit and was without a hat. It appears that he lost the latter in getting away.

At Kaili patrolmen circulated over the roads while the natives were sent to search the brush. It was while thus engaged that Kawauhau came upon his man, or rather Marcello ran up with his captor, for the convict was trying to get farther away at the time. The men were about ten paces apart when they saw each other. Marcello had a long stick in his hand, which he held up and ordered the natives to go away. Kawauhau immediately pulled out a pistol and leveled it upon the Italian. This had the desired effect. The pistol was not loaded.

When Kawauhau reached the road with his prisoner he was met by Patrolmen Kelly and Matland, who asked to take charge of the Italian. The native replied that as there was a reward for the man he preferred to deliver him himself at the station house. Near Kapehameha schools he caught a hack and brought him in.

Marcello was locked in the dark cell of the prison for five days. Ball and chain will also go with him for one year. This man shot a fellow countryman at Moanalua last August, the victim dying two days later. He was tried, convicted and given ten years at hard labor.

NEW RAILWAY CARS.
Outgoing Trains This Morning Looked Quite Up-to-Date.

The Oahu Railway sent out fine new cars this morning. These cars were completed during the quarantine period. Some of them saw their first service when the Philippine commissioners went to Ewa last week.

The first-class passenger coaches are as fine as are to be found on any narrow gauge railway on the Mainland. They are fitted with splendid chair seats. There are two or more cars of this class on each train. A half of one of them contains a smoking parlor. Second-class coaches are fitted with the seats formerly used in the first class. They are painted a dull yellow, while the first-class cars are a dull color. This is for the guidance of passengers before getting aboard. A baggage car accompanies each train. This is something entirely new.

GOOD AIR. GOOD VIEW. GOOD HEALTH.

A special invitation to everybody to visit Honolulu's most delightful residence site, **PACIFIC HEIGHTS.**

Via Maxima.

Kaialani Drive—aptly termed, the via Maxima or Grand Boulevard, and in itself an artistic piece of engineering—affords easy access to all points, as also scenic and marine views of exquisite grandeur at every turn.

Electric Railway.

Contracts have been let for material, and the work of construction equipping and installation placed in the hands of a competent electrical engineer to be fully completed by June 1st. Having an independent power plant we are prepared to furnish electric power for lighting, heating and other purposes, to our home builders at most reasonable rates.

As Promised.

Our reservoirs are now completed and water mains laid so as to supply each lot. Permits for making water connections will be granted on application.

An inspection of the attractive homes now building, or the name of purchaser of lots, will convince anyone that **PACIFIC HEIGHTS** is the choicest and most select of all the residence sites of Honolulu.

MONDAY, APRIL 30, 1900.

THE PLAGUE IS STAYED.

Honolulu was almost breathless yesterday, wondering whether by any evil chance there might some case be reported. It was practically impossible, but, till the last moment, there was trepidation in many hearts. As a fact, there was no need of fear after the twenty-first day, but our Board of Health wisely continued to quarantine till the full thirty days, to cover all possible contingencies. It was then with a long drawn sigh of relief that Honolulu awoke this morning and felt assured that all was safe.

Since December 12, with one unfortunate let up of a week in the early stage of the disease, the city has been in a state of strict quarantine. The Board of Health, under the generalship of Dr. Wood, determined to stamp out the disease at all hazards, and the executive came to its assistance by calling the Council of State together and obtaining all the money needed for carrying a vigorous campaign. It has been carried on, but as in all campaigns, however well the plans may be laid, the element of luck adds to success, and, as far as stamping out the plague, luck favored us.

It was very early seen that unless every portion of Chinatown, actually infected, was destroyed, and every portion was disinfected, we might go on fighting the plague indefinitely. The district was therefore divided into sections, and as cases broke out in the various sections, portions of them were condemned, the inhabitants of the section was condemned, and ordered to be burned. The people in the section were removed to detention camps, and there kept under strict medical inspection, and in perfect isolation. The trouble was that, when a section was condemned, the inhabitants of the section were not all rounded up; some managed to carry off their chattels and themselves to other parts of the district, and even evaded the military guard and got into the city.

The process was a slow one. There was much discussion over each piece of property condemned, and had the fight gone on, on those lines, it seems very doubtful whether the Board of Health could have carried out its plans of cleansing and condemnation under six months, and it is still more doubtful whether its work would have been perfectly successful. But here the element of chance came in. A rising wind and a couple of wooden steeples did in a few hours what would have taken the Board of Health months to carry out. Chinatown was swept off the earth from Kukul street to the sea, and from Nuuanu street to the river bank.

It seemed a terrible calamity, and it was. An immense strain was thrown upon the resources of the community. Many thousands were homeless and lost their all. Such a calamity in many another place would have called for assistance from without. But Honolulu was isolated, and had to fight her fight single handed. Every one in the community turned to with a will. Clothes were made, volunteers poured in to assist in distributing food, buildings were offered as homes, everything was done that could be done, and eventually the whole difficulty was overcome. The other Islands nobly came to our assistance with gifts of clothes and money.

But it was not nearly the calamity that it seemed. The plague as an epidemic, ceased. Sporadic cases appeared growing fewer and fewer week by week, and these being easily handled by our authorities until they ceased altogether, then we set forth to count the days from the last case. During the first fortnight of April there were many rumors and scares, and we would be hopeful and then cast down. We passed the fateful thirteenth day; we breathed anew. We passed the fifteenth; the twenty-first, and now, today, we are proclaimed once more a clean city, and a free port. We can go and come as we like. The immense strain upon all of us has been relieved, and we can fervently unite in the grateful words, "Thank God!" and we have need for thankfulness. It would be a proper thing for the churches in our city to unite in a general thanksgiving for the mercies which have been vouchsafed us. We might have suffered far more severely from the scourge. Thank goodness we have during the five months lost but seventy-one lives. But for the work of our Board of Health and the mercy of the Almighty, we might have lost hundreds, and even thousands. For our pecuniary losses, we are a bustling, energetic community, and can overcome that. Let us thank God for saving and preserving our dear ones to us, and let us unite in doing so.

And now the lesson. It can be given in a few words. Cleanliness in the city; watchfulness at our ports of entry; war on rats. The cleanliness of the city will rest

upon the inspectors, whose duty it will be to see that the city is kept clean. For this purpose there should not only be paid inspectors, but there should be commissions offered for volunteers. It would be no trouble for a trustworthy person to report to the Board of Health say once a month. This would allow the paid inspectors the opportunity of giving greater supervision to a smaller area.

The watching of our ports of entry depends upon our port physicians, and the proper carrying out of orders for fumigating freight. In this there should be nothing perfunctory or careless. Because we have conquered the plague, there is no reason why it might not be introduced again.

As to the war on rats, highly dangerous as they are, we have not made much progress. The rat guards against ships should be continued, only that now the shore will have to be protected against the ships, as they were used in the case of the Sydney steamers. But we must wage war against the rat in our midst. We will never be free from danger as long as the race exists. We have tried poison; it was a failure. Traps do not seem to have done much. Paris has struck another idea, and it is one which from our knowledge in another direction, can commend itself to us.

We are overrun by the rose bugs, and Professor Koebele discovered a means of destroying them by inoculating them with a disease. His experiment has been largely successful, and the only reason that it has not been completely successful is that the inoculation has not been kept up.

M. Duclaux, director of the Pasteur Institute, describes in the Revue de Paris a plan for destroying the rats of Paris root and branch by means of a microbe deadly to their race, and at the same time harmless to other animals. The scheme has, it appears, been already tried on a small scale, with the approval of the Prefect of the Seine, and the results of the preliminary skirmish have been so encouraging that wholesale operations against the rats are announced to take place shortly. M. Duclaux prophesies that if the destroying microbe is disseminated with proper attention to detail, the rats will be annihilated as completely as were Mr. Wells' Martians.

This may prove the solution of the rat question, and The Star would recommend the Board of Health to communicate with the directors of the Pasteur Institute, and find out the further success of M. Duclaux's experiment, and then apply it as speedily as possible.

PROTECTION.

The position taken by the governors of Hongkong and Macao that no political refugees are to be given up, and that if said refugees are accused of crime, they will have to be tried in the courts of those two cities, and not be delivered over to the untender mercies of the Chinese Yamens, is an eminently proper one. Those two governors don't entertain any fears about harboring members of the reform party and giving offense to the Empress, fears which troubled one local paper.

Countries like the United States or Great Britain and her colonies, are the home of the politically oppressed. As long as the refugee obeys the laws of the country of his asylum he is welcome to discuss his opinions among his fellow refugees; he can hire a hall and lecture to them; he can start a newspaper and disseminate his views, and he will be protected. It is one of the proudest boasts of Anglo-Saxon countries that anyone, not a criminal, is safe upon their shores, and they do not consider men who advocate political reform as criminals, no matter whether the reform is advocated in China, against the bloody-minded Empress, against the despotic Russian Czar and his tobin, or against the atrocities of a Weyler in Cuba or the Philippines.

Everyone who believes in liberty must feel sympathy towards the Chinese reformers. The very fact that their cause is gloomy, and to a certain extent desperate, should make one admire their bravery and determination. Oppression in whatever form makes one sympathize with the oppressed. This is the view taken by the governors of Macao and of Hongkong. They are sure to be supported by their governments, indeed, they are probably acting under instructions.

Old Glory was raised at Pago-Pago on the 17th of this month, and the American flag has a resting place of its own in the South Pacific, for all future time. There may be other spots in that direction over which the same flag will fly in the coming century.

It is a very unwise thing to attempt to escape from prison here, unless there is a very elaborate scheme and plenty of confederates. Marcello had little chance of getting away, once the hue and cry was after him. The wisest thing for a criminal to do is to behave himself well and get as much reduction in his sentence as he can.

The hackmen are up in arms over Minister Young's order that after September 30 no hack stands will be allowed on the streets. The order will not only inconvenience the hackmen, but it will be a great nuisance to the general public. A large number of business men have signed a petition against the order. If one has to ring up hacks by telephone one may have to wait goodness knows how long, for the telephone sometimes works, and sometimes it does not. When you are in a hurry it is always the latter.

We have received Ex "Warrimoo"

What we believe will be the last shipment of European Goods to come in under the old tariff, and while we have been importing all kinds of staple and fancy dry goods direct right along, the shipment just to hand, will place us in a very enviable position. Out of the very many kinds of goods included in this shipment, we desire to talk of only one kind to-day, the kind of goods that we excel in, and the kind that every lady in the land is interested in. We mean:

"Black and Colored Crepons"

Dame fashion has decided, that crepons will be more largely worn this season than ever. We had a presentiment of the kind, and made our purchases accordingly. The result is,

The largest and most representative line of Popular and Exclusive Designs ever Imported,

Only one piece of a kind tho' don't forget that, it is important. We found out long ago, that in a small community like ours, it is a mistake to import more than one piece of a kind. Ladies do not like to feel that there are dozens of the same kind of dresses to be seen on Fort Street every day in the week. We wish to impress upon you however, that although our stock is large to-day, the ever increasing demand for popular and good wearing materials will soon diminish it, "and that these goods cannot be replaced at the prices we are offering them at to-day."

Sale of Land in MANOA VALLEY.

HONOLULU, OAHU.

Opportunity is given to purchase in Manoa Valley a beautifully situated property containing all the necessary essentials for a homestead, and where healthful climate and picturesque scenery are in the midst of historic surroundings, and all in contact with improved grounds, planted with various foreign fruits, as well as supplied with fruit trees indigenous to Hawaii. The acreage of 46.84 acres in fee simple and 31.16 acres under long and favorable leases.

Included in the improvements on the fee simple portion is a roomy, modern dwelling house furnished with sanitary and other conveniences; there is also situated thereon a roomy carriage shed and stables.

The celebrated Waiakeakua (Water of the Gods) Falls is in near proximity, and the cool, clear, sparkling water therefrom flows through the grounds, supplying ample opportunity for increased irrigation to the acreage already planted and which is capable of considerable improvement.

OLAA ANNUAL MEETING THE GLATTER OF THE CLOGS

STOCKHOLDERS HEAR OFFICER'S REPORTS.

First Crop is Estimated at 20,000 Tons—Will be Taken Off January 1, 1902—Financial Statements.

The adjourned annual meeting of the stockholders of Olaa Sugar Company was held at the Chamber of Commerce rooms this morning. There was a very large proportion to the stock of the company represented by about fifty different stockholders. The officers of the company were re-elected unanimously: L. A. Thurston, president; H. P. Baldwin, vice president; A. W. Carter, secretary; J. B. Castle, treasurer, and E. Dillingham and Dr. A. E. Nichols, directors.

Printed copies of the reports of the treasurer and the manager for the period ending December 31, 1900, together with Dr. Walter Maxwell's report on the soils of Olaa plantation, were distributed. Supplementary to these reports, J. B. Castle made an oral report on the finances of the company at the present time, together with a supplementary report on the water supply. President Thurston also made a supplementary oral report on the work of the plantation to the present time. The treasurer in his printed report, says:

"It will be of especial interest to stockholders to know that in spite of the protracted financial depression caused by the plague, but a very small percentage of the stock has become, or given signs of becoming, delinquent. After an careful estimate of the needs of the plantation for the first year's work as, under the circumstances, it was possible to make, the directors determined, with the desire to distribute the burden of assessments into as small payments at regular intervals as possible, to levy the same, monthly, at 2 1/2 per cent each from October 1, 1899, to July 1, 1900. The assumption by our company, however, of the factory contract of the Kihel Plantation Company with the Honolulu Iron Works, brought within this period heavy payments which were not expected to accrue until subsequently to July 1, while the publication of assessments to that date precluded any addition or increase of the same in the interim. While the purchase of the Kihel contract proved from every point of view advantageous to the Olaa Sugar Company, the payments on account of the contract, and the enlargement thereof will be responsible for the greater part of the anticipated debt balance with your agents on July 1 next. This amount, together with the remaining payments on the factory contract, as well as its second crop, will all necessitate a heavier average assessment for the period of 16 or 18 months to elapse between July 1 next, and the first returns of sugar, than for the first year of your work. We now estimate that the total assessments levied between August 1st and January 1st will amount to 30 per cent, or 36 per share. It will be the aim of the directors to divide the remaining 35 per cent assessable during 1901 in as moderate instalments, and at as regular intervals as practicable.

The exhibits in the treasurer's report shows the expenditures charged to the crop of 1901-02, less realizations of \$1,270.51, to have been \$183,714.43. The stock expenditures, which includes all other than the foregoing, including buildings, real estate purchased by the company, live stock, first payment on mill machinery, water expenses, and other payments, have been \$294,583.80. The resources of the company, including the land obtained for the \$2,146,580 of paid up stock, are set down as \$2,092,216.94. The liabilities of the company are \$419,782.81 stock assessments paid; \$2,146,580 paid up stock; \$49,823.44 unpaid drafts; \$33,599.61 advanced by the agents, and \$42,431.08 due on personal accounts.

The manager's report is clear and comprehensive. It shows that the plantation area including land under contract of purchase is 18,872.25 acres, mostly held in fee simple. There is a teaming outfit of 402 mules. Buildings have been erected to accommodate the live stock and 1,800 laborers. The estimate for the first crop to be taken off in 1902, is 4,000 acres, which at five tons to the acre would make a 20,000 ton crop. The total number of plantation employees is 1,629.

J. B. Castle reported that the water supply was ample, and that even now there was a supply sufficient for 40,000 acres, and capable of indefinite increase. L. A. Thurston reported that the mill site had been located about half a mile below the junction of the Puna and Volcano roads, and that clearing for it had begun. The Hilo Railroad will run through the mill yard and seventeen miles beyond. By the end of May the rails to the mill site will have been laid. The mill machinery will be on its way by July 1, and the work of setting it up will begin not later than November 1. The question of glanders among the live stock had been much mooted. The safe side had been taken. Five animals had been shot five others had entirely recovered, and a number were in quarantine.

The agency contract made by the directors last June with Alexander & Baldwin, was read and approved. It is almost identical with the agency contract with Kihel. It is for fifteen years, and provides for the payment of \$300 a month up to the time of the sale of the first crop of the plantation. After that the agents are to receive two and a half per cent commission on all purchases made outside of the Hawaiian Islands, and two per cent on all sales of produce. Advances are to be made if necessary, not to exceed \$250,000. Advances and plantation money in the hands of the agents are to bear interest respectively at the bank overdraft rate at the time.

DRIVES THE COURT TO TAKE A RECESS.

Twenty-six Japanese Women With Their National Footgear, and Hat Dressing and Adopted Holokus.

Twenty-six pairs of Japanese clogs, with ornamental toe straps of velvet in various hues of mauve and pink and pale Nile green were neatly arranged on the midway landing of the stairway to the District Court this morning, when Judge Wilcox took his seat on the bench. In the court room twenty-six Japanese women, with hair done up in wondrous coils, with pomade, and gold and jade ornaments, sat waiting for trial.

When the interminable list of Zukis and Matsus was reached on the call of the clerk, the twenty-six women, dressed in holokus for the most part, though some of them wore demurely dove colored, or gaily figured kimonos, were marshalled in a row extending clear across the court room in front of the judge. They were all bare-footed or had on the white, divided toe-sock of the Japanese women, and every one of them carried a parasol.

It was quite a task for the court officers to arrange them in line in the order their names appeared on the calendar. They stood up in the aisle as their names were called, and as in all ways the case under such circumstances the first names called were those of the women in the rear of the crowd. They wriggled and pushed their way through the crowd of their sisters, emerging in front with the funny little run made familiar on the stage by "The Mikado," and "The Geisha Girl," and took their places in the "line-up."

Then they were all formally charged with violating the Act to Mitigate. Their attorney asked that plea be reserved, and the case continued until tomorrow morning. This was granted, and the court on his own motion took a recess of five minutes, while the process of sorting out the twenty-six pairs of velvet strapped clogs, and the clatter they made as the twenty-six women went down the stairs, was going on.

These twenty-six women, who are all registered prostitutes, were arrested at the order of the marshal, because they were occupying a building, and carrying on their calling in a newly built frame tenement off of Kink street, beyond the Oahu railway station, a place which they had been forbidden to occupy because of the objection of surrounding property owners. Instead of the place in Iwilei where permission for them to locate had been granted.

The building they were occupying is owned by a but of Japanese who leased the land, it is said, on the representation that they intended to build tenements to receive the Japanese burned out of Chinatown. It is said that the owners of the land will terminate the lease at the end of the month under a clause giving them this right if the property is used for any other than a lawful purpose.

WEDDING DINNER.

HAMAKUAPOKO, April 28.—Mr. and Mrs. H. A. Baldwin of Hamakua, gave a family dinner on Thursday evening, April 26, in honor of the marriage of the brother, Frank E. Baldwin, to Miss Harriet K. Kiltredge, which occurred that evening in Alameda, California.

Mr. and Mrs. F. F. Baldwin will return to Paia about July 1, spending the intervening time touring the States. Lumber for the new house to be built for them just makal of the manager's house, Paia, is on the ground, and work will commence very soon.

Stanley White Shirt Waists

5 Gases by the S. S. Gzarina

This lot of the Popular Stanley Waists includes about fifty dozen substantial well made garments at 75 cents to \$1.50 each.

Also a quantity of very beautiful new designs, trimmed with fine embroideries and dainty laces—some made entirely of lace—at \$2.50, \$3.50 and \$5.00 each.

The Stanley people excel in the production of garments which in design trimming and effect appeal to the most critical taste.

WHITNEY & MARSH

LIMITED
519 Fort Street

Gent's Shirts

Just received direct from the factories at Troy, N. Y., a splendid line of GENTS' SHIRTS, in dress, colored and negligee. In buying these shirts we have exercised the greatest care, first as to their fit and correctness of style, and in case of the colored ones in the very exacting manner of our examination in regard to their fastness of color, we doing our best to satisfy ourselves that we were getting but absolutely fast colors in these shirts, and hope we have succeeded.

Call and see them and the line of Gents' FURNISHINGS and UNDERWEAR we carry. To housekeepers who might require them in SHEETS and PILLOWCASES, ready made in all sizes and qualities and at prices we think will be satisfactory.

We have placed on sale this week a line of LADIES' FAST BLACK HEMDORF DYED HOSE, received direct from the factory in Germany (thus avoiding the American duty), which we are offering at the very low price of six pairs for \$1.00. Now this is an opportunity not often offered for ladies to supply themselves with a good staple article of every day use at such a very low price. We do not claim them to be the finest, but a good strong article of absolutely fast dye.

In addition to the above we have our usual complete line of LADIES' AND GENTS' MISSES' AND CHILDREN'S **NOSIERY** which have their own established reputation.

We have just received a small choice line of

Genuine Scotch Zephyrs

Now we do not advertise these as cheap goods at all, but just the kind a lady would select to make a gown of that which she would look stylish in, but that would stand the kind of laundering it would receive here.

A small and carefully selected lot of Printed Pure IRISH LINEN LAWNS in neat and modest designs and colorings, twelve-yard lengths, which we are offering at just about half the price that they will have to be sold for when imported under the American tariff laws.

Of course all ladies know of the great durability of Irish Linen and its delightful coolness, and here where we use wash goods the year around it pays to buy a good article that one can feel justified in expending the time and money necessary in making up in a manner that one would—not on a cheap article that one would have to cast aside after the first laundering. For trimmings these same goods we have a very complete assortment to choose from, of Embroideries of all kinds, CAMBRIC, NAINSOOK and SWISS EDGINGS and INSERTIONS, and All-overs and Laces of every description. These all imported by us direct from Europe in bond.
