## THE BOARD OF EDUCATION

### INSPECTOR-GENERAL TOWNSEND MAKES A LONG REPORT.

Appointments and Resignations—  
James R. Holt Made School  
Agent at Waianae.

At the regular meeting of the  
Commissioners of Education yester-  
day afternoon there were pre-  
sent Professor Alexander, Mrs.  
Dillingham, Mrs. Jordan, W. A.  
Bowen and H. M. von Holt, mem-  
bers, and Inspector-General Town-  
send and his deputy, J. F. Scott.  
After the reading of the minutes,  
Mr. Scott presented a report on  
the offer of Mr. Lowrie to give  
\$400 worth of lumber in exchange  
for the Waiawa school house and  
lot, the substance of which was  
given in his remarks to the Board  
at the last meeting and already  
published in the BULLETIN.

Miss Camara was appoint-  
ed assistant to Mr. Law  
at the Pahoe school for the re-  
mainder of the school year. It  
was ordered that the children  
heretofore attending the Kahuluu  
school be required to attend at  
Pahoe in future.

A petition from the teachers of  
the Kaakopua school for inside  
blinds for the school building  
was granted.

Miss Louisa Hapai was appoint-  
ed to the vacancy in the Hilo  
school caused by the resignation  
of Miss Louisa Brown.

James R. Holt was tendered  
the position of school agent at  
Waianae.

The greater part of the session  
was occupied in discussing a very  
long report from Inspector Gen-  
eral Townsend on the condition of  
affairs in South Kona and especi-  
ally the recent troubles be-  
tween school agent Mills and T.  
K. R. Amalu. The recommenda-  
tions made by Mr. Townsend were  
finally adopted. As a result the  
resignation of Mr. Mills as school  
agent has been accepted. T. K.  
R. Amalu is to be notified by the  
Secretary that Mr. Mills had been  
in the right when he demanded  
the resignation of Mrs. S. Amalu,  
and that his subsequent bitter-  
ness against the school agent is  
condemned. S. Amalu is rein-  
stated in the Alae school and is  
cautioned against using severe  
methods of corporal punishment.  
Mr. Mills is to be informed that  
although right in the first in-  
stance in removing Mrs. S. Amalu  
his subsequent course has not  
met with the approval of the Com-  
missioners.

The bills for the extra teachers  
employed by Mr. Mills during  
the squabble were allowed.

### Original Bock.

The Warrimoo—that is expected  
here April 16 from Victoria will  
bring a large consignment of  
Original Bock Beer for the An-  
chor Saloon. While there has  
been Bock Beer on the Honolulu  
market, it does not begin to com-  
pare with the consignment that  
the Anchor will have on tap after  
the arrival of the Warrimoo. The  
reason for this is that the Bock  
that has already arrived is too  
fresh. The Bock Beer in the  
States is made at the first of the  
year and kept till May 1. The con-  
signment to arrive is some of the  
original beer and is guaranteed to  
be better than any Bock ever im-  
ported. Wait for it. It will be  
on tap at the Anchor after the  
arrival of the Warrimoo.

### Healant Masquerade.

Two prizes each for ladies and  
gentlemen will be given at the  
Healant masquerade tonight.  
Some of the costumes have been  
months in preparing, while others  
have been knocked together with-  
in a day or two past. It is expect-  
ed that there will be a large at-  
tendance of spectators, and the  
gallery of the clubhouse has been  
prepared for them.

## SUNDRY FIDUCIARY ACCOUNTS

### Two Bankruptcy Matters—Guardian- ship of Insane Person.

C. du Roi, assignee in bank-  
ruptcy of Mrs. A. D. Friemann,  
has filed a petition for discharge,  
which will be heard next Tuesday.  
He is prepared to receipt for a  
dividend of 16.92 cents in the  
dollar.

Chin Sing and Tong Wa, part-  
ners in the Tin Ting Wai com-  
pany, rice planters below Iolani  
college, have petitioned to be ad-  
judged bankrupt. They are in-  
volved to the amount of about  
\$1300. A. S. Humphreys is their  
attorney.

Maleka Mi, represented by J.  
Q. Wood, attorney, has had her  
petition granted by Judge Carter,  
to be appointed guardian of J. K.  
Mi, an insane person, under \$100  
bond.

J. A. Magoon has filed a sheaf  
of his accounts as guardian, sev-  
erally, of the persons named here-  
inbelow:

Susan Brash, receipts \$879, pay-  
ments \$1345.73; balance due guard-  
ian, \$466.73.

Jas. Love, receipts \$2255, pay-  
ments \$4316.62; balance due  
guardian, \$2061.62.

Peter Manuel, receipts \$320.62,  
payments \$319.75; balance due  
the ward \$87 cents.

Rebecca Panea Huanaka, re-  
ceipts \$7669.19, payments \$2379.  
67; balance due the ward \$5289.52.

The Manuel Estate, receipts and  
payments each \$2566.50.

David Manuel, receipts \$293.86,  
payments \$253.35; balance due the  
ward \$40.51.

### MORE IMPROVEMENTS.

#### H. Hackfeld & Co. to Erect Large Buildings in the Near Future.

H. Hackfeld & Co. are preparing  
to grade the lower portion of their  
block fronting on Halekuanila  
street in readiness for the erection  
of a large iron warehouse which  
will extend along the entire front  
of that street at present unoccu-  
pied. A concrete floor to be  
raised to the level of the street is  
to be put in. The ironwork for the  
building itself is expected on the  
Paul Isenberg, now due from  
Germany.

It is also said that when this  
warehouse is completed work will  
be commenced on a new building  
of brick and stone which is to oc-  
cupy the corner of the Hackfeld  
property on Fort and Queen  
streets. This structure is design-  
ed for the main offices of the com-  
pany as well as warehouses, show-  
rooms, etc., for their extensive  
stock. The large and increasing  
business done by this firm makes  
these improvements almost a nec-  
essity.

Treasurer's report showed the  
parish to be in a prosperous con-  
dition. This parish now consists  
of upward of 1000 souls, 365 of  
whom are communicants. On  
Easter Day 147 partook of the  
holy sacrament.

## BATTLE FOR THE BOARDS

### PEACE BY BOTH LEGAL CONQUEST AND PURCHASE.

After Winning in the Courts the  
New Company Sells Out  
to the Old.

Mr. Magoon, attorney for the  
defendants, has made a statement  
to the BULLETIN regarding the  
controversy between Soi Kwan  
Ying, or the Old Chinese Theater,  
and For Fung Nin, or the New  
Chinese Theater. The latter were  
the defendants.

This case was begun on Monday  
in equity, and a temporary injunc-  
tion was issued restraining the  
new company from interfering  
with the old company in the use  
of the building known as the  
Tong Lock Co. or old Chinese  
Theater. Mr. Weaver, represent-  
ing Mr. Castle, the attorney for  
plaintiffs, had during Monday  
forenoon gone down to the theater  
building and had tried to oust the  
defendants. He was backed up  
by a large number of Chinese, but  
the representatives of the new  
company, though only five or six  
in number, refused to leave.

Mr. Magoon, representing the  
defendants, said he wished to  
avoid trouble and, if his clients  
were not rightfully entitled to the  
building, he would advise them to  
withdraw, and offered to show  
under what right he claimed, if  
the other side would do the same,  
and the side that had the legal  
title should remain in possession.

Mr. Weaver said that he had  
not the lease with him and that it  
was necessary for him to go to  
his office to procure it. The law-  
yers then withdrew, leaving mat-  
ters just as they found them, pro-  
posing to meet later, but, owing  
to a misunderstanding as to the  
place of meeting, this did not  
take place.

Shortly afterward an applica-  
tion was made for a writ of injunc-  
tion on behalf of the plaintiffs,  
which was denied. Subsequently  
a similar application was made on  
behalf of the defendants, which  
was also denied. Counsel for  
defendants, being desirous of  
avoiding trouble, was willing, if  
the Court would not grant an in-  
junction to defendants, to have  
one allowed to the plaintiffs,  
which was accordingly done.

During the previous week the  
defendants had been playing in  
the theater in dispute and had all  
of their paraphernalia there, and  
by an arrangement between the  
counsel, after the injunction was  
allowed, defendants went down to  
the theater to remove their effects.  
While so doing one of the defend-  
ants' servants was assaulted by  
several of the plaintiffs' agents.  
Finally plaintiffs were left, under  
the injunction, in full possession  
of the theater.

It transpired during the trial  
that plaintiffs never had any  
writing with reference to the  
theater premises, and thereupon  
the Court dissolved the injunction  
and dismissed plaintiffs' bill with-  
out requiring the defendants to  
put on any evidence.

After the termination of the  
trial on Wednesday, defendants  
requested plaintiffs to vacate the  
premises of which they had at-  
tempted violently to take posses-  
sion, and which they had occu-  
pied under sanction of the Court.  
This they declined to do, and the  
defendants were obliged to go  
down and dispossess them, which  
they did without much ceremony.

Some of the testimony which  
plaintiffs relied upon to sustain  
their cause was quite amusing.  
For instance, one man testified  
that he made an agreement with  
reference to the premises in Feb-  
ruary of '96, but upon cross ex-  
amination he was forced to admit  
that he was not living on the Is-  
land of Oahu at that time and had  
no authority whatever to make the  
alleged agreement.

This, in all probability, is  
enough to end the controversy be-

tween the two rival theaters, which  
some time since were consolidated  
under an agreement with the de-  
fendants. Besides, since the old com-  
pany ousted the old one—  
after the failure of the injunction  
proceedings as stated—the new  
company has sold out its right of  
possession for coin, and now the  
old company is again installed.  
Quiet reigns once more on the  
marshes of Aala—that is between  
performances in the theater when  
the orchestra is playing.

### A Deceiving Sign.

An account is published of a  
gentleman who came early to  
get registered and, "after bang-  
ing round until 9:15, an hour and  
a quarter," investigated and found  
a note on the desk of the Regis-  
trar, reading, "If anyone comes,  
send them to my house." As the  
advertised opening hour for reg-  
istration is 9 a. m., it seems  
puzzling where the "hour and a  
quarter" came in up to 9:15. There  
is an explanation of the whole  
trouble, however, furnished by  
Gus Rose, a clerk in the joint  
office of the Electoral Registrar,  
the Board of Immigration and the  
Board of Agriculture. Wray Tay-  
lor, who is Secretary of Immigra-  
tion, on going home to get ready  
to go to Kauai the other day, left  
such a note as that described on  
Mr. Rose's desk. As Mr.  
Taylor is Electoral Registrar for  
the whole Republic, among  
several signs on the outside of his  
office is one, right over the door,  
bearing the title, "Electoral Reg-  
istrar." The registration of  
voters for this district is not done  
in the Registrar's office at all,  
however, but before the District  
Board of Registration in the old  
legislative chamber. There is a  
poster at the angle of the hallway  
giving the law of registration,  
surmounted by a written notice of  
the hours for registering voters.  
The complaining elector went into  
the wrong shop.

### Battalion Drill.

The second battalion drill last  
night was fairly attended and  
lasted nearly an hour. After  
which a review was conducted by  
Major Jones. The band was  
present and played martial airs.  
The dress parade was excellent,  
the lines of company front being  
well handled. Captain McCarthy  
succeeded Major Jones for a short  
drill. He made an exceedingly  
good fist of it too. At the con-  
clusion of the drill a short enter-  
tainment took place, including re-  
freshments. There were a few  
songs by the company and a rec-  
itation by W. A. Turner.

### Minister for Japan.

It is now Minister Shimamura.  
The genial Consul General that  
was of Japan received, by the  
Doric's mail yesterday, his com-  
mission from the Mikado as Min-  
ister Resident near the Govern-  
ment of the Republic of Hawaii.  
Minister Shimamura is affable  
and pleasant in demeanor and  
discourse, as the best diplomats  
are made, and has the unfeigned  
personal esteem of all who enjoy  
either his official or his private  
acquaintance. The BULLETIN re-  
spectfully tenders the Minister for  
Japan its congratulations.

### Hammond Heard From.

The notorious Dr. Hammond,  
who operated here a few years  
ago, has been heard from. His  
address is Bearden Post Office,  
Indian Territory, U. S. A. He  
signs himself Wm. N. Hammond,  
M. D., D. D. The latter paper on  
which he writes has the inscrip-  
tion, "Bishop of Alabama in  
Edenic Life Church." The  
"reverend" desires to invest \$10,-  
000 in coffee in the islands, and  
writes for information.

Printed ducks are just as good,  
if not better than anything else  
for boys' shirt waists. They wash  
and wear well, two very important  
considerations. Kerr has them in  
a large variety of patterns at eight  
yards for one dollar.

## THE BASEBALL SEASON

### FIRST LEAGUE GAME TO BE PLAY- ED TOMORROW AFTERNOON.

A Big Attendance is Expected and the  
Teams Promise to Play First  
Class Ball.

Tomorrow afternoon at 3:30 at  
the Makiki grounds the Stars  
and First Regiments will cross  
bats in the first league game of  
the season of 1897. It is a fore-  
gone conclusion that there will be  
a big attendance and both teams  
promise to put up a good game.

Lovers of the game of baseball  
hope that the experience of last  
year will not be repeated. Poor  
playing at the beginning of last  
year's game resulted in continued  
poor attendance and the season  
was a failure as regards financial  
results. It is hoped the baseball  
managers have learned a lesson  
from last season which will cause  
them to be more careful in this.  
The Honolulu public never yet  
failed to patronize good ball  
most liberally and never will.  
On the other hand it has no use  
for poor ball playing and it  
showed it last year.

With three good clubs in the  
league this year and with lots of  
experience and empty treasuries  
to start with, there is no reason  
why good solid hard work on the  
part of every one interested should  
not result in making the season of  
1897 a successful one, financially  
and otherwise. The first two or  
three games will have much to do  
with the future ones. The public  
may be relied on to go to these  
anyhow. If they get the worth  
of their money, even though it is  
only a quarter, they will go again.  
If they don't they will stay home  
and no amount of coaxing will  
draw them out again until the  
final game or two.

In the game arranged for to-  
morrow the players and positions  
are as given below:

Stars:—Hart, p.; Cunha, c.;  
Woods, lb.; Koki, 2.; Wilder, 3b.;  
Lishman, ss.; Babbitt, rf.; Pahan,  
cf.; Ross, lf.

First Regiment:—Hennessy, p.;  
Kiley, c.; Moore [captain], lb.;  
Davis, 2b.; Gorman, 3b.; Bower,  
ss.; O'Conner, rf.; Duncan, cf.;  
Luaniwa, lf.; Chas. Mayne, substitute  
and change pitcher.

Under this year's rules Harry  
Whitney has sole charge of the  
field as official league umpire, with  
full power to appoint his assistant  
and substitute. No one else has  
anything to say about it, hence  
the public may hope to be saved  
from the long waits and squabbles  
over umpires if Whitney himself  
is not present. The National  
League rules adopted this year  
give more power than ever to the  
umpire, who is made sole master  
of the field and responsible for all  
infractions of his authority.

The Australian baseball team  
which passed through here lately  
were to play their first game in  
San Francisco last Sunday after-  
noon, and their nine was selected  
from the following athletes in  
their party:

Sydney W. Smith, first base and  
change catcher; Charles Over,  
pitcher and all-round player; Jas.  
McKay, pitcher and catcher; J. L.  
Wallace, catcher; Charles Kemp,  
pitcher; Walter G. Ingleton, sec-  
ond base; A. E. Wiseman, out-  
fielder; Harry Irwin, shortstop;  
Harry Stackey, outfielder; Alfred  
S. Carter, left fielder; Peter Mc-  
Allister, third base; Frank Laver,  
captain, first base and pitcher; R.  
E. Ewer, pitcher and catcher, and  
the champion all-round athlete of  
South Australia.

Ewers has thrown a cricket ball  
129 yards, being the world's  
record. Ed Crane of the All Amer-  
icans has thrown a cricket ball  
128 yards. He is the oldest of a  
baseball family of five.

Jim Dodd has gone to San  
Francisco after more Enterprise  
beer.

### HOW THE BIBLE IS ITALICIZED.

Expressions Without an Equivalent in the English Language.

The prevalence of elliptical idioms in Hebrew and Greek rendered it necessary, in translating the Bible into English, to put in many words which are not represented in the original, in order to complete the case, or to make the English version intelligible. All words so supplied are distinguished by italics, in order that the reader may see at a glance how far it has been found necessary to depart from that literal translation at which the translators aimed, and also that, by the simple process of removing the italics, he may see, if he choose, what the literal rendering is. In cases where a very peculiar idiom made it necessary to make any greater changes, the literal rendering of the Hebrew or Greek is given in the margin, in which, be it observed, the arrangement used in the text is reversed, and italics are used for those words which literally occur in the original Roman letters for those which the translators are obliged to supply. In two passages, however, the translators of our authorized version have used italics for an entirely different purpose. These are St. John viii, 6, "As though he heard them not," and the first epistle of St. John ii, 23, "He that acknowledgeth the Son hath the Father also." In these passages the italics are used to show that the words are of doubtful manuscript authority—a fact which the translators occasionally noted in the margin, but of which they generally took no notice.

### How to Make a Key Rack.

Get a piece of thin board one-eighth inch thick and 7 inches long and 6 wide or high. Take a piece of plush or velvet large enough to cover the board and fold over on to the back about an inch all around. Paint any pretty spray of flowers, say, a wild rose, with two buds and leaves, using ribbon the shade of the leaves to hang it up by. Get six small brass hooks or screw hooks, put four at the bottom edge to hang the keys on, the other two at the top corners, in which to tie the ribbon with a pretty bow, and hang up near the door leading to the front hall, and I am sure you will think it the handsomest thing you have, as you will always know where to find your keys.

### How to Revive Electric Shock Victims.

The person so disabled should be treated like one drowned. In other words, he should be laid upon the back, and artificial respiration performed in the way that is ordinarily described. When the person is still in contact with the wires, the first thing to be done is to stop the current or break the contact. In doing the latter one should not touch the victim on the face or hands or any naked part of the body. It is better to lift him by the coat-tails or to throw a blanket over him and pull him by this. Nothing that is wet should be thrown upon him, and if his clothes are wet the hands should not be put in contact with them. A piece of dry wood can be placed under the body and he can then be lifted. The further treatment of the case is the familiar one applied in attempting to restore the drowned. The arms are worked, and the tongue is kept drawn out. The body may sometimes be rubbed thoroughly with a cloth or brush in order to increase the circulation of the blood. Oxygen and perhaps a stimulant may be employed.

**THEN AND NOW.**

Reading some bitter reflections upon the course of certain public affairs in the Advertiser recalls the time, not far remote, when the same purported medium of public opinion was wont to abuse without license any and all that ventured upon the least criticism of the Government, or even of its most inconsequential understrappers. If there is a basis of fact today for the charges of "star chamber" practices, and the innocuousness of official misdoings under the influence of nepotism, which that paper sets forth, the cause lies to a great extent in the former course of itself as just indicated. It happens, too, that a portion of the period when the Advertiser was thus servile, and respectful chiefly of the "regular flow of cash dividends" from the public treasury into its own business

office safe, was a time when there was more need of an independent press in Hawaii than there had been since. That was the Advertiser's haymaking time, when it had a pull availing to get its then editor a salary in an utterly useless labor commission. Does the Advertiser now, however, not give away the solution of its sudden transformation from an automatic official organ into an apparently highminded tribune of the dear people, in the following words:

It may be "running the government on business principles" to manage it as a sugar plantation is often run by the manager and a few directors, with no personal interest in political affairs taken by the stockholders, so long as some relative has a lucrative position, and no interruption occurs in the regular flow of cash dividends.

The Advertiser appears as one of the stockholders who do take an interest in political affairs. One of its near relatives—its reputed controlling owner—has a lucrative position. Thus its interest in public concerns is quite explained by itself. Surely there is no connection, though, between the acclimated perspiration of the Advertiser this cool morning and the charges of Dame Gossip implicating the lucratively positioned relative in making a farce of the quarantine that unfortunately cages his throbbing indispensableness. If such should be the case it is a pity in being a premature display of pottishness that will do the relative in lucrative position no good. For the Board of Health has investigated the charges in question, with the result that the Haman who made them is to be hanged to the gatepost from which he stole the yellow flag. That is between us the independent press, the lucratively related Advertiser and the said gatepost.

**A PROPER DELEGATE.**

Mr. Damon will worthily represent the Government of Hawaii at the Diamond Jubilee celebration in London. Being a broad gauge man he will have a sympathy with the unparalleled event which will enable him to enjoy it thoroughly. As an observant man, and one with an eye to the practical, the Minister of Finance may also be expected to more than earn his expenses, in obtaining a rich store of new ideas gathered both in the United States and the United Kingdom. The sea voyages outward will give him leisure to perfect his plans for acquiring fresh knowledge, while those homeward will avail similarly for arranging and digesting the acquired facts, marshaling them into effective array for schemes of public reform and improvement at home. In short, Minister Damon's projected tour abroad is just what he needs to top off his many qualities of efficient statesmanship. If he be able to carry out his admirable funding scheme, either in America or England, that alone would be a triumph to make his fame as a public man perpetual in the annals of these Hawaiian Islands.

Diphtheria must be guarded against with even greater vigilance than is smallpox. Thorough sanitation is the only safeguard. This must include a rigid inspection of dairies, as the germs take with deadly kindness to milk. Quarantine may be carried too far. Sanitation cannot.

President Dole is to be congratulated on attaining to the fifty-third milestone in his journey of life, enjoying good health and unimpaired capacities for fulfilling the duties of his high office. The

President by his unquestioned ability and irreproachable character holds the personal respect and esteem of the public at large without regard to political differences. To have such a man at its head is more important to a republic than to other forms of government.

**Cricket Match Tomorrow.**

Lieutenant Plunkett of the U.S. gunboat Petrel is organizing an eleven from the three American warships in port to play a combination team from H. B. M. S. Wild Swan and the Honolulu Cricket Club tomorrow afternoon on the old baseball grounds at Makiki. The Philadelphia has aboard quite a number of excellent cricketers. It will be remembered that when she was here last there were some very exciting games. A cordial invitation is extended to any one who would like to see an interesting match. The team to represent the British will be selected from the following: Capt. Napier, Lieutenant Church, Lieutenant Cole, Staff Paymaster Ward, Dr. Marriott and Mr. Milligan of H. B. M. S. Wild Swan, and Dr. Murray, A. R. Hatfield, H. Vincent, H. Herbert, A. M. Hewitt, Tom Lishman, J. H. Catton, Jr., and Wm. Thompson representing the home team. H. Herbert, captain of the H. C. C., intimates late this afternoon a change of arrangements owing to the departure of the Petrel tomorrow, but there will be a good match got up anyway.

**More South Sea Colonists.**

"A chance to be a millionaire" is the way the South Sea Island Mining and Colonization Company announces its plans to take a shipload of adventurers to the Solomon Islands. Captain Quinton and Captain Alex McLean, who styles himself "the irrepresible," are at the head of the scheme. Their plan is to charge the colonists \$100 each for a share in the company. Each share will entitle the holder to a bunk in the vessel that is to sail for the South seas with the two captains in command. The old whaler Mermaid is the vessel that the promoters' colony propose to navigate to the Solomons, but in their prospectus they style her as the fast sailing clipper bark and give on or about May 1 as the sailing day. The great object of the expedition, say the promoters, is, on arriving at the islands, to erect a sawmill, carry on ship-building, stock raising and agriculture and also mining.—Examiner.

**The Singer Literary.**

If John L. Sullivan gets no reply to his challenge to Fitzsimmons as a prize-fighter he ought to challenge John J. Ingalls as a ring reporter. A careful comparison of the recent writings of each puts the Boston litterateur several descriptive rounds ahead. Nothing that the gentleman from Kansas ever wrote quite compares with Sullivan's tender passages about the inspiring influence of woman, as shown in Fitzsimmons' quick response to the advice of his excited wife to "bit the hound in the ribs—never mind his jaw."—S. F. Chronicle.

**The President's Church.**

President McKinley has selected the Metropolitan as the President's church. The Metropolitan was built by the Methodists of the country and not by the congregation. It is a national church. When President Grant attended the church a pew was set apart for the President of the United States and the sum of \$5000 contributed by a friend of the church to dedicate the pew to the use of the President. It has also pews set apart for the Vice-President and for the Chief Justice of the United States Supreme Court and for some of the States and large cities.—Exchange.

The Vaidis sisters, aerialists, were continued favorites. These daring performers nightly receive deafening applause for their exceptionally clever work perched high above the audience, and even though they are now in their sixth week at this house they command as close attention as they did on their opening night. —New York Dramatic News, November 9, 1895.

**Have You An Account?**

This is a serious question, one at which some folks take offense, yet salesmen are under the necessity of asking it. Some folks deal near home, settle infrequently, never investigate to see whether they pay more than they should and too often allow their accounts to go long over due. If you don't care what the family expenses are it's a poor way to do if you want to leave your children in affluent circumstances when you are gone. Now it is quite an advantage to have an open account at a well-known house, who can execute your order promptly. Often persons say they don't want an account and will pay in a few days. But we cannot keep memoranda of charges; it isn't safe or good business. FORTY ACRES BURNED.

Disastrous Fire in the Cane Fields at Eleele Plantation.

News was received by the Mikahala this morning of the burning of about forty acres of growing cane on Eleele plantation. The fire was discovered at 11 o'clock on Tuesday evening and was evidently of incendiary origin. The plantation hands were turned out and after a hard fight subdued the flames, but not until between forty and forty five acres had been burned over.

The damaged cane was at once cut and hurried to the mill in order to save as much as possible of the sap remaining and additional coolers were borrowed from the Koloa mill for the occasion. It is expected the total loss will approximate 200 tons of sugar.

The Eleele plantation is situated on the island of Kauai and is owned by August Dreier, who acts as manager. About 500 acres of cane is cultivated by 150 men and the yield of sugar last year was about 1500 tons.

LOSS AT SEA.

1897 Seamen and Passengers Drowned During the Past Year.

The British Board of Trade has issued a statement of the number of lives lost by accident in British merchant ships during last year. The total statement shows the average loss to be about five-sixths of 1 per cent of the number of men employed. The percentage of lives lost in sailing vessels is somewhat larger than that of steamers.

Altogether there were 215,224 men employed on British ships registered in the United Kingdom. Of these 56,095 were employed on sailing ships and 162,129 on steamships. The latter suffered a loss of 813 seamen and 31 passengers, making a total of 847. Sailing vessels lost 1029 seamen and 21 passengers.

A VOICE FROM THE BLEACHERS.

Local interest in the cricket games as reflected from the "bleachers" is increasing. During Saturday's games the "bleachers" were particularly vociferous and kept the players under a running fire of good natured banter. One small boy brought down the crowd by advising the batsman to "go buy a case of Rainier Beer and get some life in you." The crowd applauded the remark, knowing that Rainier Beer is celebrated for its invigorating and strength-giving properties.

On tap or in bottles at the Criterion. Jonas Sylva, messenger boy for Eugene Company No. 2, was arrested this morning on a warrant charging him with the larceny of collections of postage stamps and shells from James Steiner.

The Sunlight is  
Glistening on  
Those "Orange Rims,"

but unfortunately for us it is not glistening on them in this country, as our shipment of STEARNS wheels was put on the "W. H. Diamond," so is not due here for a week. Our COLUMBIAS also are still out of wheeling range, as they got to S. F. the day before the steamer sailed, and no more freight would be received, but they will come along soon, and in the meantime we want you to know that we received 97 RAMBLERS by yesterday's steamer, and can fit you out with either a '96 or '97 wheel, and we know we can suit you. The 1896 RAMBLER is the bargain of the year and the chance to buy a well known high grade wheel for \$75 and \$80 will not last long, as we are informed by the makers that this is the last lot of '96 wheels they can furnish, for, as they write, "our sales have been phenomenal, and you took the last '96 wheels we had in stock."

WE RENT BICYCLES by the hour, day, week or month, and we rent high grade new wheels, such as RAMBLERS, STEARNS, and COLUMBIAS, so if you want a short ride or a long ride, want to ride single or want to ride double, drop in and see how nicely we can fit you out. You will get just as good a mount if you telephone us, and we will send your wheel to your door. Your chance to buy a '96 RAMBLER cheap will only last a few days, don't miss it.

## THE WISE BACHELOR.

What He Thinks He Knows About Men and Women.

When a woman wants to brag to other women, she says it's such an awful bore to keep a bankbook.

The most fatal kind of heart failure is the kind people don't die of.

Women have such queer ideas about literature because they think in dialect.

No man who likes to listen to his little child when she says her prayers can be wholly irreligious.

When a woman says, "That's just like her!" you may know she's tickled to hear it.

A girl never thinks that the man she marries is going to be the kind to wear his old coat around the house.

When a girl gets married, all the women who don't like her begin to watch for her bad traits to show in her children.

When a woman hears that a man she has met has done something bad, she will never admit that she didn't expect it all along.

Very few women can preserve their respect for their husbands when they see them get rattled making a speech in public.

A child carries its new found happiness to the one it loves best, a woman to the one she hates most.

As soon as a man gets his first gray hairs he begins to boast to his wife of the business worries he has.

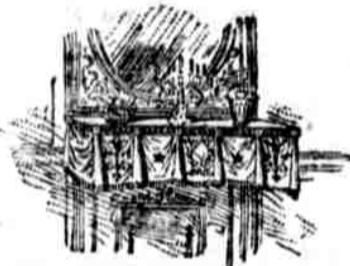

The real reason why women like cats is probably because they don't often track mud all over the floor.

After a girl gets married she never gets off her old joke about cigar ashes keeping moths out of the carpet.

When a girl looks so happy when she gets her engagement ring, she is thinking how she will enjoy showing it to another girl.—New York Press.

## Embroidered Valances.

The question is often asked whether the mantel valance is really unfashionable. Once an indispensable accessory of the mantel, it appears to have subsided, like the cozy corner, into comparative obscurity. But that its use does not violate the canons of decorative art

## ARTISTIC MANTEL DRAPERY.

is shown by a very charming example of it given in The Decorator and Furnisher.

This embroidered mantel drapery is most graceful and simple in design. In a color scheme of which a door valance is a part the woodwork is a rich, deep mahogany, the drapery a soft cream color tending to pink, and the valance a green to match the embroidery on the drapery, decorated in lighter self coloring.

Until fair fingers utterly neglect the ancient and honored art of embroidery decorations such as these will always hold a more or less important place in the artistic home.

## Fashions in Jewelry.

Fanciful ornaments are decidedly popular.

Diamond tipped aigrets are in demand for finishing off a fashionable coiffure.

A simple but effective finger ring employs two contrasting stones, one placed slightly above the other in a coiled ring of gold.

Bicycling, hunting, golfing and yachting all supply motifs for brooches and scarfpins.

The glittering lizard, armored in emeralds and pearls, with emerald eyes, continues to please.

Brooches represent this season popular bridesmaids' presents.

Fancy watches will remain popular so long as the fashion continues of wearing them on the outside of the corsage.—Jewelers' Circular.

## A VOICE FROM THE BLEACHERS.

Local interest in the cricket games as reflected from the "bleachers" is increasing. During Saturday's games the "bleachers" were particularly vociferous and kept the players under a running fire of good natured banter.

One small boy brought down the crowd by advising the batsman to "go buy a case of Rainier Beer and get some life in you." The crowd applauded the remark, knowing that Rainier Beer is celebrated for its ligh'rating and strength-giving propensities.

STARTLING FIGURES.

The Colonel Floored the Scoffer at Kentucky's Mineral Treatise.

The colonel from the Blue Grass who had been about New York trying to get people interested in the surface of the state was tooting his trumpet in the office of the Fifth Avenue hotel.

"Aw, colonel, come down a peg or two, won't you?" exclaimed a scoffer. "I'm perfectly willing to grant that what you say is true, for the figures are practically official; but, granting that, there isn't enough coal there, for instance, to make it worth while to spend money in building roads to get it out. Railroads can't run on coal, and when the coal is all mined what will the railroads do then, poor things?" and the scoffer gave the colonel the law.

Others joined in with the scoffer, and the colonel grew hot in the face about his neck.

"Let me call your attention to a few figures," he said, taking a book out of his pocket. "I have made these up from the figures which our friend here says he is willing to admit are true. Now, I won't say a word in this argument for anything in eastern Kentucky except the canal coal which is there. There is, according to these estimates, a canal coal area of 4,000 square miles, which is smaller rather than over. On much of this there are two and three veins, running from 24 to 60 inches. But let us be modest and cut it down to an average of 30 inches. Now, the standard of measure calls for 120 tons of coal per acre. Thirty six inches at this rate means 4,800 tons per acre. There are 640 acres to every square mile, and there are 4,000 square miles, or 2,560,000 acres. Multiplying this by 4,800, the number of tons per acre, we have an aggregate of 11,880,000,000 tons."

"The scoffer began to show wrinkles in his brow."

"With 200,000,000 tons of coal, without a particle of colored coals in his tons, 'hees only 5 per cent in mining, so we have for shipment 11,217,600,000 tons. Counting 20 tons to the carload, this coal would require 571,080,000 cars, which, if sent out from the mines at the rate of 1,000 cars per day—that is, 30 trains of 60 cars each—would require 1,904 years and 6 months, a period of time quite long enough, I think, for any reasonable man to expect an investment to last."

"Of course," continued the colonel, "the figures apply only to canal coal. The bituminous area is twice as large, not to mention the lignite, petroleum, timber, iron."

"For the Lord's sake, colonel," gasped the scoffer, "stop! How much money did you say you wanted as New York people to pay you?" And the colonel told him as promptly as he had given him the canal coal figures.—New York Sun.

Reynol Roads.

People will discover at last that royal roads to anything can no more be laid in iron than they can in dust; that therefore, in fact, no royal roads to anywhere worth going to; that, if there were, it would that instant cease to be worth going to—I mean so far as the things to be obtained are in any way estimable in terms of price, for there are two classes of precious things in the world—those that God gives us for nothing—sun, air and life (both mortal and immortal), and the secondarily precious things which he gives us for a price. These secondarily precious things, worldly wine and milk, can only be bought for definite money. They never can be cheated. No cheating nor bargaining will ever get a single thing out of nature's establishment at half price. Do we want to be strong? We must work. To be happy? We must starve. To be happy? We must be kind. To be wise? We must look and think.—Ruskin.

Whitewash the Oven.

Good baking requires clean ovens, a caution much more necessary than would appear. There is a distinctly different flavor in bread and meats baked in tiled ovens from those cooked in the black, sooty ovens of the average range. A suggestion is to whitewash range ovens, after they have been scrupulously cleaned, to add to their light and wholesomeness.

Awfully Slow.

He—Darling, I have loved you ever since first we met. She—Well, why didn't you say so long ago? Did you think I was a mind reader?—Cleveland Leader.

Reasons Why.

There are two reasons why people are now paying car fare all the way from Waikiki to the Palama Grocery and back. Reason 1. It is the only place on the Islands where the celebrated Salvation Army tea is sold. Reason 2. After paying car fare both ways persons find they are money in pocket by desling at this "live and let live" establishment. We also deliver goods between Diamond Head and Moanalua free. Bark C. D. Bryant Will Go to Layson Island—Mauna Loa Departs—Passengers.

The U S S Petrel will go to sea tomorrow morning.

Two deserters from the ship Kenilworth are reported today.

The schooner Alice Cooke will take a load of sugar to the Coast.

The Archer has finished discharging, and will now begin taking in sugar.

The pile-driver is having another "go" at the big rocks at Inter-Island wharf.

The bark Albert will have her cargo of general merchandise all out by tomorrow afternoon.

The steamer Noeau received 2007 bags fertilizer from the Bryant for Kukuihaele. A number of mules are for the same plantation.

The crew of the U S S Philadelphia are overhauling her inside and out, thoroughly cleaning and repainting from stem to stern.

The bark C D Bryant will have all her cargo out in a few days. Besides a lot of general merchandise, she has 125,000 brick to discharge.

The small-pox patients at the Quarantine Station are all doing well. No more sickness is reported. The Chinese landed from the Doric are in for 18 days.

The American ship Iroquois 29 days from San Francisco needs one more steamer load to finish her cargo. This is a record that has not been beaten so far this year.

The bark C D Bryant will not go to the Coast again for quite a while. She will make three trips to Layson Island, bringing guano to Honolulu for H Hackfeld & Co.

The sailors of the Helene who refused duty under Captain Fitzgerald two days ago were tried in the court yesterday afternoon. All but one decided to return to work again, and were let off. Today they were down on the waterfront, seeming as happy as ever.

A Japanese caused a lot of amusement for a big crowd at Inter Island wharf this morning. He had a ticket for the steamer Mauna Loa, but did not get down to the wharf until she was backing out. Besides himself to look after, he had a big bundle of baggage. One of the sailors threw a cork fender over the starboard bow. With his feet on the fender, the Jap seized the rope in a death-like grip. A half-dozen native sailors yanked the little brown fellow aboard, while the people on the wharf enjoyed the comical sight immensely. A small boat happened to be near the wharf, by means of which the plucky chap's baggage was put aboard the steamer in the middle of the harbor.

#### Cane Burned.

The steamer Waiialeale which arrived this morning from Kauai brings a report of a big fire on Eleele plantation on Tuesday night. Forty-five acres of cane were burned. No particulars as to how the fire started or what was being done could be learned, except that the steamer Hall took a lot of cooling pans from Koloa to Eleele. It is possible for the greater part of the burned cane to be utilized, but much of it will be a loss. The Waiialeale was lying at another part of the island, and the telephone service being poor, nothing beyond the facts that there had been a big fire and that an effort was being made to get in cane before it spoiled, could be learned. The Waiialeale reports rough weather at Kauai. Some of the Kilauea freight could not be landed.

#### A Prediction Made in 1895.

The following item clipped from an English exchange was published in The Call of January 17, 1895:

A pamphlet has just been published at Berlin by a theologian—M. Baxter—which was written with considerable erudition, and is being widely read. The author predicts that there will be a world war on April 23, 1908.

"From now on until then," he says, "we will go through another fearful and bitterly contested war, in 1897, which all the great European nations will participate in. In 1899 a new Napoleon will make his rise as the King of the Greek States and Syria." In 1904 a terrible earthquake will shake the very foundations of our planet. On March 12, 1908, on a Thursday, at 3 o'clock p. m. [Jerusalem time], and at 1 hour 33 minutes p. m. [Berlin time] will take place the "ascension to heaven of the 144,000 elected, blessed ones, who shall not die."

These prophecies, says Le Figaro, have called forth considerable emotion "over the Rhine."

#### Reasons Why.

There are two reasons why people are now paying car fare all the way from Waikiki to the Palama Grocery and back. Reason 1. It is the only place on the Islands where the celebrated Salvation Army tea is sold. Reason 2. After paying car fare both ways patrons find they are money in pocket by dealing at this "live and let live" establishment. We also deliver goods through Diamond Head and Moanalua free.
