KALIHI VALLEY ROAD.

The road into and through Kalihi valley is greatly in need of attention. It is almost impassable to vehicles in places. In the Appropriation Act is an item of \$2,000 for this road, which is probably sufficient to place it in as good a condition as the residents of the valley desire. Unless work is commenced at once, it will be too late to do anything until next summer, for the wet season is near at hand, during which road-making is out of the question in a rainy region like Kalihi Valley, and the residents will have great difficulty in getting their produce to market all the winter.

A consideration which should have weight with the authorities in deciding what road work should have precedence—for it cannot be all taken in hand at once—is the fact that Kalihi Valley is occupied from its mouth to its source by an industrial and industrious population who have no way of getting their produce, bananas, pine apples, milk, firewood, charcoal, etc., to market but over this road.

POTATOES.

Lower price are offered for island grown potatoes than those from abroad, and yet the island product is the finer article," says the "Advertiser." The same paper asserts that "as fine potatoes can be raised here as ever are raised in New Zealand." If by the fineness of the island potato is simply meant its size and appearance, the "Advertiser" may be right; but the quality of the imported article is decidedly superior, and that is why it commands a better price. Most potato eaters call a potato good or bad in proportion to its meanness or hardness. A mealy potato is good, and a hard potato is bad, with the majority of people; although some prefer the latter. The New Zealand article takes the lead for meanness, and therefore it takes the lead in price. Island potatoes are not nearly. At least, the writer has never found one after a dozen years' search. Will take the New Zealand article any time and every time at double the price of the home product. Experienced farmers assert

that a little frost or a very near approach thereto is necessary to the production of the highest quality of potatoes. So that elevated regions, where this condition is present, should be selected in this region for potato-raising.

QUESTIONS.

EDITOR BULLETIN:—The presumption is that editors should be ought to know everything that is going on. He should know law to be able to review Legislative Acts and legal decisions (always keeping in view the liberal enactments); he should be versed in physics to enable him to review a coroner's inquests; he should be a mathematician in order to explain the Appropriation Act of the last session. It is very doubtful whether he should have any political or sectarian views; but he should understand a little of civil engineering to enable him to give an opinion just how many times a street should be dug up and filled in order to obtain a grade; and this brings me to the question I wish to ask. At whose expense is King street being graded, the Tramway Co. or the Government? Is it necessary to cut the road at Lelele to the extent that it's being done and who pays for the damage to the property which is very great? An answer to this will oblige a number of

SUFFERERS.

[At the expense of the Government, of course. We have expressed the opinion that it was not necessary to cut away so much of the road at Lelele, and believe we are right. As to paying for damage to property, if anybody the Government, we presume, is liable.—Ed.]

HOMESTEADS.

EDITOR BULLETIN:—A few months ago, when we saw the Government Surveyor's tent roosting on the summits of our Kohala range, the sweet hope of a nice home arose in many an Anglo-Saxon, German, Portuguese and Hawaiian heart; but, alas, as many a thing in this changing world, that hope was but a dream, a waning shadow shattered by the Government advertising the sale of a lease of 759 acres of land in Kohala.

Every week we read in the papers sad complaints about hosts of residents leaving for more propitious shores; now, would not part, at least, of the problem "how to keep the population here," have been solved, if the Government had granted homesteads? As it is now, said lands only profit two or three well to do cattle-raisers.

But one may object, some of these lands are "in life" and plenty of lawsuits may be encountered. A poor answer, in my opinion. Disputes are as liable to arise from a void lease, as from a void sale; besides, only those lands whose titles are not disputed could be sold now, and the remainder later.

Seven hundred and fifty-nine acres divided in lots of from 15 to 20 acres would make from 40 to 50 persons happy, and those and their children and their children's children to many generations would bless the Reform party.

Let us hope that the Ministers will reconsider their decision, and give the poor man the only chance he has, to secure a home, as it is next to impossible for him to buy a foot of land in this district.

CIVIS.

THE NEWS OF THE VILLAGE BY THE HILO BAY.

DEAR MR. EDITOR, Sir:—I notice by the read of the paper that friends will often write of the news from our little village so I also do this write with the trust that many may be joyful to see another word from their native birthplace which is not much JAM with nonsense. There may not much news be said about here, but another murderer have been found in Puna.

There one old native man who been friendly to every peoples was foul murder by some Chinaman who have been with the Police to Prison this week in a whale-boat to Hilo. The Sheriff was gone to visit the surround of the Island but the Sheriff Deputy was here and was do much work to find out everything the matter.

Some of the peoples is much frightened because they think many Chinamans is bad and wishes to kill every other peoples but I do not think it must be so. The workmans here says that not much money is circulation now, but is better than many months passed. Some of our friends is doing much work and some new house is made in the town.

We boast many artist here of Hilo. Mr. Furneaux was here, but is just return from visit to the sea-shore at Keauka. He have many work of arts at his study. Also Mr. Tavernier was been sick but is better and he tell me he wish to go out and become strong once more to work, and he hope to get to Mr. Hitchcock place in the wood to sketch and become well. Also Mr. Howard Hitchcock was do some paint; he have been paint his father house just finish and also some picture in his study. He with Mr. Tavernier will go to the wood for a week for sketch.

Our new doctor seem very busy. We see him ride out all day and often in the night, but not many people dead yet.

There is also one new Japanese doctor for this place, but I think the Government doctor get too small pay for the many work she have to do free, only it was best for the poor man, but many was rich enough to pay say for the Government to pay enough, so she less much money.

Some schools are begin their teach but not yet the Government schools. The Hilo Boarding School begin to open last week, but only few scholars was come yet. The Catholic Mission School was also open this week with quite a many scholars. Also the Foreign school with some scholars.

The plantations are not grind yet but many of them is plant the sugar cane now.

There was every day many peoples bath in the Waikua River for get ready for a Bathie Feast next Saturday. There was men, women and many children every days there, sometime more than 100.

We are very much glad to see Hon. D. H. Hitchcock and Hon. H. Deacon back again. We very glad for the strong work they been do for us, but some friend been get thing much from when he think there been bill for Volcano road to Hilo. I hear, not bill for that but only in Appropriation bill been \$30000.00 for Volcano Road.

We are have very much weather but many fine day and the dew kiss the lehua very much sometime.

With aloha for all the kindness of you to give this pleasant word for the friends. Yours truly, J. R. WRAPPERS, Hilo, September, 1888 A.D.

[Mr. J. R. W. writes a splendid hand, and in that respect his copy is good. As to his composition, that is of the "half-white" variety. Copy has been faithfully followed in the reproduction of his communication.—Ed.]

A NAVAL CAUTION.

The following letter explains itself:— U. S. S. "ALERT," 3d RATE. HONOLULU, Sept. 16, 1888.

EDITOR BULLETIN:—Will you kindly state in your paper, for the benefit of the merchants of Honolulu, that I have a very strict regulation on board of the Alert, prohibiting the enlisted men contracting debts for any purpose whatever.

They have a liberal allowance of monthly money given them every month, and I require that they shall pay cash for all purchases. I positively refuse to recognize or pay any bill of their contracting unless personally authorized by myself, particularly bills for liquor or eating saloons and boarding houses.

As the Alert is likely to remain some time at Honolulu and this matter may be of interest to the merchants on shore it would be a benefit to them if you would kindly give notice of it.

Yours respectfully, J. D. GRAHAM, Com. U. S. N. Commanding.

CAPTURE OF LEPEPERS.

The steamer Pele arrived yesterday from Kaula, with twelve lepers on board. About two weeks ago the Attorney-General sent special officer Kingsley to Kaula, with instructions to visit the district of Waimea and attempt the capture of a number of lepers known to be there. Arriving at Waimea, Kingsley in company with Deputy Sheriff Stolz, started for the abode of the lepers and after very little trouble captured twelve who were brought down as above stated. There are a few more lepers in the district and Kingsley leaves again on the Mikahala to-morrow for the purpose of capturing them.

DISARMAMENT BEGUN.

The New York Tribune of August 15 talks in the following humorous strain of disarmament in the Hawaiian Kingdom:—

For several years the European Powers have been increasing their respective armies, improving their destructive weapons of all kinds, and generally following the maxim which declares it wise to prepare for war in times of peace. At the same time each Power has frankly asserted that nothing would please it better than to disarm and convert its swords into ploughshares, or at least into corkscrews; but that what is needed to start a general disarmament is a practical example. At length that example has been given, and there is no longer any excuse for the maintenance of the overgrown, cumbersome and costly armaments which are in themselves perpetual incentives to war.

With a far-sighted humanity and magnanimity to be admired and envied by more sordid governments, the Legislature of the Hawaiian Islands has sacrificed its pride in the general interest, and taken the initial step in the grand movement of pacification and fraternization, the completion of which will evidently usher in that "federation of the world" long since forehadowed by the poet.

By a single stroke of the pen, so to speak, the noble Hawaiian Legislature has abolished the navy of the Cannibal Islands, and reduced the army to what may almost be termed an abject peace basis. That splendid military machine whose martial vibrations through the palm-shaded avenues of Honolulu, and whose

gorgeous uniforms shed ineffable lustre upon the solemn functions of King Kalakaua's court, is legislated out of existence—reduced to its lowest denomination—represented henceforth by a beggarly array of sixty-five warriors, of whom no less than eight are full privates. It is true that this does not include the royal band. The vast European interests on whose behalf this great remission has been offered, did not require that last and bitterest deprivation. The band remains, and a full complement of generals, represented by sixty-seven out of the sixty-five gallant spirits who, like the Last Rose of Summer, are left blooming alone. But how magnificent is the moral spectacle presented. Hawaii, standing foursquare to every wind that blows, self-stripped of all her defences, "owning her weakness," like the victim of the Bridge of Sighs, extends a trustful hand to her covetous neighbors, throws herself upon the protection of the Cosmos, as it were, and silently intimates that this is the way to introduce the millennium. The effect must be prodigious, and there can no longer be any pretext for postponing the general disarmament of Europe.—[N. Y. Tribune, Aug. 15, 1888.

**IT IS REMOVED.**  
That the departure of the Vandalia will cause regret; that a well known lawyer will shortly join the ranks of the benighted; that Col. Norris is a millionaire; that there are a large number of would-be Chamberlains; that when John F. Smith attends the Blue Ribbon meetings he is made fun of; that all the Chinese in the land are going to cut off their queue's; that the Editor of the Makaanana is to be the heavy weight champion of the Hawaiian bar; that there was too much drunkenness in town Saturday night; that the question of how to reach young men has not yet been fully decided.

**TROUBLES NEVER COME SINGLE.**  
Among the passengers on the last mail steamer from San Francisco was Mr. G. D. Fearon, a brother-in-law of Mrs. F. W. Damon. He of course had to undergo the quarantine of fifteen days imposed by the Board of Health. The quarantine was up on Saturday, and on that day Mr. Fearon joined a picnic party at Moanalua with the intention of having a real good time as an offset to the ties which in a measure kept him from enjoying his brief stay in the islands. Unfortunately Mr. Fearon's pleasure was marred by an accident. He was mounting his horse, a rather large one, when before he could fairly sit in the saddle, the animal started on a trot, and Mr. Fearon was thrown to the ground, the shock breaking his arm. He came to town and medical aid was summoned. This morning we learn that the gentleman was very comfortable and the injured member is doing well.

**GRATEFUL LEGISLATORS.**  
Last Tuesday evening the Kinau left this port over four hours behind her usual time for the accommodation of members of the Legislature. Their appreciation of this delay is shown in the following card of thanks:—

STMR. "KINAU,"  
Sept. 11, 1888.

We the undersigned, members of the Legislature, herewith tender to the President and officers of the Wilder Steamship Company and to the officers of the steamer Kinau, our sincere thanks for the great kindness shown us in the delaying of the steamer Kinau for so long a time this evening, in order that we might reach our homes in so short a time after the adjournment of the Legislature.

**A CHINESE FUNERAL.**  
Kong Yee Det, for nearly four years steward at Punahou College, died on Saturday and was buried Sunday afternoon from the Chinese Church of which he was a member. The deceased, who was known better by the name of Eddie, was a great favorite with the pupils at Punahou, and they defrayed the expenses of his funeral. He was a bright and intelligent young man. The Revs. C. M. Hyde and W. C. Merritt, Mr. Frank W. Damon and the pastor of the church assisted in the services. Eddie belonged to the Chinese Singing Club and the members attended the funeral in a body. The remains were interred at Makiki followed by a large number of carriages.

**DEATH FROM OLD AGE.**  
On Saturday evening an old Frenchman, Constant Fortin, better known around town as "Poloka," dropped dead in a Chinese store on Hotel street. Dr. Rodgers was summoned but could do nothing. The body was taken to the Station House, and on Sunday, the French Consul had it buried. Poloka was about 73 years of age and has been a resident of the islands many years. He was an armorer by trade and a fine spur maker. The deceased lived at Manoa for a long time, but the past year resided near the bridge, King street. Up to 2:30 o'clock this afternoon, the Deputy Marshal had received no certificate of the cause of death from Dr. Rodgers, but it is supposed to be old age.
