BOER TROOPS ARE RETIRING AGUINALDO IS WEAKENING

Report That Gives British Much Encouragement.

Troops Continue Assembling for Invasion If It Is Necessary—Only Boer Patrol Remains on the Border.

London, October 7.—Most important news comes from the Transvaal to night, which if true, probably indicates that the South African Republic is about to yield, or, in any case, that the Boers have abandoned all ideas of invading Natal.

The news is comprised in a cablegram from Newcastle, Natal, which says that the farmers who arrived there to day from the Buffalo river state that the Boers are returning to their homes, leaving patrols along the river. The commanders still remain on the Free State border. The dispatch also says that the feeling at Newcastle now is that the Boers do not intend to attack that place and that the evacuation of the town was premature.

A dispatch from Durban also states that the excitement there has abated, owing to the Boers holding back from the frontier.

This retirement of the Boers is what the British war authorities have expected, as their defective commissariat would prevent them from long remaining massed along the border. Telegrams received lately have made frequent reference to the scarcity of forage and supplies in the Boer laager, and have stated that many of those in the camps were inclined to strike out for their homes unless active operations were undertaken immediately.

Judge Carter Going East.

Judge Carter will leave for the States a few days hence. It is his intention to go east and while there, he will make a study of the fast yachts for the purpose of having a suitable one for these waters duplicated.

Death by Accident.

The Coroner's Jury in the case of Siu Chin, the Chinaman drowned by being run into by the Alameda, finished its deliberations yesterday afternoon and returned a verdict of death by accident.

The roll of honor among the nation's defenders is given in On To Manila.

So Admiral Dewey Interprets the Latest Move.

Beginning to Appreciate Powers of the United States—Preparing to Open the Fall Campaign.

Washington, Oct. 6—Admiral Dewey believes the report taken to Manila yesterday by a Dominican friar that Aguinaldo had issued orders to Filipino soldiers in northern provinces to return to their towns and resume farming.

The admiral is of the opinion that such a move on the part of Aguinaldo indicates that the insurgent commander is weakening as a result of the formidable preparations being made by this Government to suppress the insurrection during the coming dry season. The returning of the soldiers to their homes is, the admiral believes, the beginning of the disintegration of the insurgent army, and he urges that reinforcements for both the army and navy be sent as expeditiously as possible to Manila in order to demoralize rebels before the dry season begins.

Rear Admiral Watson and General Otis were informed by cable today that the Brooklyn, New Orleans, Badger and Nashville had been given orders to proceed to the Philippines and that more vessels would follow. Commander Rogers of the Nashville informed the Navy Department in a cablegram received today that he had already sailed for San Juan, Porto Rico, where he will stop and replenish his coal supply. The Nashville should make the trip to Manila in between seven weeks and two months.

Colonel Harry C. Keeler, First Montana Volunteer Infantry has been commissioned as brigadier general of volunteers for distinguished conduct at Malolos on March 31 last.

Captain Carey Ill.

Captain Carey of the Moana when last was here was quite seriously ill. From a friend who visited him just before the steamer sailed it is learned that the captain was suffering from dizziness, and was so unwell as to be unable to appear on deck.

How brave California boys fought for their flag is told in On To Manila.

Columbia Leads Still Another Unfinished Race.

New York, Oct. 7.—Old Bores again to-day played battledore and shuttlecock with the great single-stickers, and the third attempt to sail the first race of the Columbia-Shamrock series for the America's cup ended in failure. The race was declared off fifteen minutes before the time limit expired, with the yachts still five miles from the finish. But the vast throngs who went down to the sea to witness the battle royal were in a measure compensated by seeing a magnificent light weather duel.

In the end the disappointment of the patriots was sharpened perhaps by the fact that when the race was abandoned the Columbia was in the lead and improving her position, and had it been finished to-day the American champion might have had one race to her credit.

As a result of today's struggle and those of Tuesday and Thursday, the talent are a good deal confounded. Some of them differ as to the merits of the two boats, but they seem unanimous upon two things—that the Shamrock is the ablest boat that ever crossed the western ocean to lift the mug, and, what is still more important, she is more ably handled than the defender. The superior seamanship of Captain Hogarth and his crew was demonstrated at several critical points in the race to-day.

Though to Captain Barr and the navy managing-owner of the Yankee sloop belong the credit of executing as brilliant and daring a piece of seamanship as was ever witnessed in a yacht race, its recklessness caused a great deal of nervousness and anxiety; its accomplishment, therefore, made the pulses of the Americans beat higher with pride. It was the spectacular feature of the day and fortune favored the brave.

The Irish boat did undeniably better work to windward. She carved her way up into the wind in astonishing style. But here again the Columbia seemed to be able to more than make up in footing what she lost in pointing, and as the ability of a sailing vessel is determined by her power to make headway against an adverse wind, she is the better boat by that test.

The Columbia had the better at the start. She bounded across the line like a racehorse, with mainsail, club topsail and staysail drawing and spinnaker down to starboard ready for the race before the wind, and ten seconds afterward her jib broke out like a cloudburst. The Irish boat went over seventeen seconds later, with the same rig. The patriots were wild with delight. But their enthusiasm was short-lived. The wily English skipper luffed to run through the Yankee's lee to the weather position. Captain Barr tried to head off this movement by luffing also. This sent both boats off at almost right angles to the course, straight in for the Jersey coast and straight for the mob of 500 vessels gathered for the run-down. The two boats charged down upon them like a squadron of cavalry to clear the way for the yachts.

The Shamrock got the best of the luffing match, blanketing her rival and getting to windward of her. Then, when both had squared off in their course and let go their spinnakers, thousands waited and watched. Slowly, very slow at first, inch by inch, the defender of the cup drew away despite the Shamrock's repeated and tireless efforts to blanket her. Once clear, the white beauty forged ahead rapidly. She had established a comfortable lead when the breeze lightened and hauled more to the northward.

The Shamrock, as on the two former days, profited by the seemingly light air and began to crawl up. But she did more. Captain Hogarth took in the Shamrock's spinnaker when the mark was sighted, gibed the Shamrock and trimmed down the balloon jib topsail with great rapidity, and, with everything drawing splendidly, before the American knew it, he was luffing up toward the Columbia. Captain Barr, on the Columbia, then followed suit, but the Shamrock had passed him well to windward. Captain Hogarth then set his spinnaker to port and increased the lead.

Captain Barr seemed unwilling at first to follow the lead of the Englishman and waited almost fifteen minutes, while the Shamrock overhauled and passed him before he followed suit. The Shamrock was a hundred yards ahead before he got his sails trimmed to the new conditions.

Soon afterward the wind hauled around still further, making it a broad reach to the mark. Both took in their spinnakers and eased their sheets. Then the white flyer gained steadily. The yachts were now about a mile and a half from the outer mark. Gallantly the American came on. It was astonishing how fast she glided through the water. Hope rose; the Shamrock was to windward; they were coming like horses down the stretch; a hundred feet away and the Columbia had closed the gap; her slender prow just lapped the stern of the green hull.

Under the rules they must pass the float with the red ball on the starboard side. It did not seem possible that the white boat could squeeze in between the Shamrock and the mark. To the onlookers it seemed inevitable that unless the Yankee boat kept away under the stern of the Shamrock there would be a collision or the Columbia would foul the float. But C. Oliver Iselin had desperate courage in a tight place. He played the limit. The mainmast set a club topsail in a driving gale in the deciding race between the Vigilant and Valkyrie II would stop at nothing.

On he came, forcing the Shamrock to go wide around, while the Columbia seemed to scrape the float as she wore about with her helm hard down. Though the Shamrock rounded first by nine seconds, she swept around so far on the outside that as both boats came up and their sails filled away on the starboard tack the Columbia not only had the weather gauge, but was in the lead.

No more reckless piece of courage was ever seen in an international race. It was a desperate game, but it won. Had the Columbia so much as touched the float she would have been disqualified. The enthusiasm of the crowds broke out again a few minutes later, when, after a few short tacks, the Shamrock tried to cross the Columbia's bows, but failed.

The beat to windward was by far the most interesting part of the race, while the breeze held.

As the wind began to die out and the hope of finishing the race began to vanish the two boats split tacks and did not come together again for a long time, keeping every one guessing which one was ahead. During this fluky period everybody agreed that the Shamrock was the better handled. She never failed to take advantage of every new slant of the wind. At last twenty minutes before the race was declared off, the Shamrock decided to try conclusions and she headed across the Columbia's bow. So uncertain was the result that no one knew until the yachts were within a hundred feet of each other which would have to give way.

The Yankee skipper had his hands on the whistle cords, and when the Shamrock put her helm up, unable to make it, from both sides of the course came the shrieks of thousands of whistles, the enthusiastic shouts of the multitudes and the crash of the bands. They sailed the last twenty minutes neck and neck, but with the Columbia to windward and perhaps a length ahead.

Disappointed, but overjoyed that when the race was declared off the cup defender was in the lead, the excursion fleet headed back for Sandy Hook as fast as steam and sail could carry them.

Tax Cases Next Week.

All the tax cases set for to-day have been postponed until next week Thursday by order of the District Magistrate of Honolulu on account of the lying in state of the body of the late Captain James A. King, Minister of the Interior and the closing of the court for the day.

A birdseye view of the region about Manila. It is given in On To Manila.

Had a Wet Time.

The two batteries of the 6th Artillery now on the way around the island camped at Pearl City last night and were wet by the heavy rains that fell. The men broke camp this morning at 7 o'clock and were forced to march away in the mud and rain.

On To Manila devotes an interesting chapter to the reception of American troops in Honolulu.

Police Court Notes.

In the Police Court this forenoon the following cases were disposed of: Solomon, cruelty to animals, nolle pro's'd; A. Spillner, assault and battery on Captain G. W. Murray, nolle pro's'd; Henry Vida, selling liquor without a license, October 20; Moku Kamakalubi, Kamoa, Mary Ann Burns and Mrs. Kamakalubi, disturbing the quiet of the night, \$2 and costs each; Krandal, drunkenness, \$5 and costs.

Hogs and Horses.

Mr. Ingersoll arrived in the bark S. C. Allen this morning with 260 hogs, all in good condition, in his care. Mr. Macdonald late of the Honolulu Fire Department was another arrival in the Allen. He brought with him two fine bay horses.

BODY LYING IN STATE

Remains of Captain J. A. King Viewed by Public.

Taken From Undertaking Parlors This Morning—Escorted by Detachment of Police—Placed in Throne Room.

The body of the late Captain J. A. King, Minister of the Interior is lying in state in the old throne room of the Executive building today. At 3 o'clock this afternoon the doors will be closed and the public will not have another chance to view the body until Sunday.

The remains of the late Captain King were taken in a hearse from the undertaking parlors to the Executive building shortly before 9 o'clock this morning accompanied by an escort of police commanded by Captain Parker. Upon arrival at the Executive building it was placed in the middle of the room and then loving hands began the work of decoration.

Shortly after 11 o'clock the doors were thrown open to the public. Standing close to the head were Col. Soper and Major Potter. These two officers with Captain Ziegler and Lieut. Wright at the foot, completed the guard of honor. Forming a larger square about the casket were four members of Co. F in charge of a corporal who stood just outside the entrance to the throne room. Unfortunately Captain Ziegler was taken sick shortly after he had taken up his position and was forced to retire.

The casket was beautifully decorated. On top was a heart design made of red carnations and placed there at the special request of Mrs. King. Very near this were the chapeau, sword and baldric of the Masonic Commandery of which deceased was a member. Yards of ilima leis were festooned about the coffin and beneath was a solid mass of flowers in various designs. At the foot was the masonic square and compass and a design in white and pink carnations bearing the initials, "J. A. K."

On the platform where the throne used to be was one great mass of ferns and palms while about the room in various places were pots of various kinds of greens. The decorations were very simple but extremely effective.

The band, stationed in the band stand played dirges during this morning and afternoon. Ministers Mott-Smith and Cooper were on hand to do what they could. J. A. Hassinger was in charge of affairs in and about the throne room. Captain Paul Smith was in charge of the military on guard and Lieut. Sam Johnson was second in command.

RACED FROM SAN FRANCISCO

Geo. Curtis Wins Bat S. C. Allen Is First at the Wharf.

Ten and a Half Days From the Coast—Curtis Lost Cabin Boy in a Heavy Weather—Late News.

Two fast sailing vessels arrived in port this morning from San Francisco, bringing late news of the outside world and coming down in almost the same time—about ten and a half days.

The American ship George Curtis, Captain Calhoun, left San Francisco early in the afternoon of Sunday, the 8th instant, and was followed shortly afterwards by the bark S. C. Allen.

Of course, it was a race to Honolulu and a very close one too. The Curtis had only a small start of the Allen and she got in here two or three hours ahead of the latter vessel, making the quickest time between ports. Ten and a half days is fast sailing and both vessels' logs show tall figures in regard to speed.

General cargoes and live stock were carried by each and the Curtis brought two passengers for Honolulu while ten arrived in the S. C. Allen.

At the old fishmarket the Allen now lies while the Curtis is in the stream. At any rate the Allen beat the Curtis to a berth.

On the 9th instant, in Lat. 34° 38' N, Long. 126° 17' W., during the night, when the George Curtis was making a speed of 13 knots and an unusually heavy sea was running, the cabin boy was lost overboard.

Giesecke, for that was his name, was soon far behind in the wake of the flying ship, no cry could be heard, nor was he once seen after he was hurled from the ship.

All hands were immediately called on deck and the order was passed to about the ship, but this was found to be impossible. Lifebuoys were thrown astern and the attempt was made to lower a boat but without success for the boat would have been simply smashed against the vessel's side.

Everything that could be done, was done, but to no avail.

Captain Calhoun has his family with him on the Curtis.

## SALICYLIC ACID.

Salicylic acid is an organic acid. It has powerful antiseptic qualities, prevents the souring of beer, also the development of bacteria contained in fluids. Applied externally it will remove corns and warts. TAKEN INWARDLY salicylic acid rapidly lowers the bodily temperature, reduces the pulse rate, blood pressure, and rapidity of respiration; some people being peculiarly susceptible to its action.

The Board of Health has condemned all beers containing salicylic acid. Among those proved to be free from this adulterant was the **OLYMPIA BEER**, sold by Larry Dee of the Hoffman Saloon.

## SIAM'S MULE CARGO KILLED

Washington, Oct. 6.—A cable message from General Otis to the War Department brings word of the loss of several hundred horses and mules on the transport Siam. The message reads as follows:

"Manila, Oct. 6.—The steamer Siam, which left San Francisco on August 18 with 45 horses and 328 mules, encountered a typhoon on the 21st in Northern Luzon, in which all but about sixteen mules perished. The animals were killed by the pitching of the vessel and lack of air from the necessary closing of the hatches. There were no casualties among the passengers. OTIS."

It is stated at the quartermaster's department that the mules which were lost on the Siam were trained pack animals and considered the most valuable sent to the Philippines.

Manila, October 6.—The Siam which left Honolulu thirty-one days ago with 300 mules aboard, encountered several typhoons early this week. One lasted forty hours. Most of the forage, which was on deck, was swept overboard, all the boats were smashed in, and the steamer rolled tremendously in the trough of the sea, although the officers made every effort to bring her about.

The mules were hurled from side to side and frightfully mangled and disemboweled. Their legs and necks were broken and the wretched animals fell in such a confused mass that the attendants were unable to relieve them.

In the meantime the deckload was washed off, the ship lightened and the rolling increased.

When the storm abated the injured animals were killed and their carcasses thrown overboard. When the Siam arrived her propeller was high out of the water and the wreck of her boats were hanging from the davits.

#### MCKINLEY MEETS BRYAN.

Peoria, Ill., Oct. 6.—Colonel William Jennings Bryan sat directly behind President McKinley this afternoon at Canton, Ill., while the President delivered a brief address to the citizens of that town. A street fair is in progress at Canton and Colonel Bryan had been secured to deliver a two hour speech. The Nebraskaan was among the first to greet President McKinley as he left the train and ascended the platform. When the President concluded his address he turned and heartily grasped Colonel Bryan's outstretched hand.

"Good-by, Mr. President," said Colonel Bryan, and the President responded with a word of farewell. This closed the short meeting between the former rivals of 1896, as the Presidential train left immediately. Colonel Bryan delivered his address after the departure of the President.

THURSDAY, OCT. 19, 1899.

**Query--** Why has the official organ's interest in How Duck's search for coin so suddenly waned?

Columbia has yet to show incapacity to cope successfully with European skill, though it is epitomized in the emblem of the Shamrock.

It is apparent that our Executive does not view with marked displeasure, a custom among minor officers of acting in dual capacities in order to increase a personal income. Nor is it apparent that unhappiness is brought to the official circle by the improper administration of an office occupied by one of the compact.

CAPT. J. A. KING.

Honolulu to-day pays its tribute of respect to the memory of the late James A. King whose years of activity in business life won for him the high place given the honest man and whose official career was ever that of a faithful trusted servant of the people. Captain King was a hard working man whose highest aspiration was fulfilled in doing his duty as a citizen and an official. Personally he did not seek preferment by a play of politics, but he was never found to shirk a responsibility, personal or official when called upon to act in any capacity.

Capt. King's education in dealing with men and affairs was gained in the harsh experience that falls to the lot of men who in early life are forced to shift for themselves. He dealt with conditions not theories; gauged his ways by a keen knowledge of human nature, a knowledge that gives scant recognition to the theorizers. He was not a leader in the usual acceptance of the term, nor did he seek to force his opinions on unwilling minds, but his counsels were often sought and held in high esteem by reason of their positive straightforward character.

Whether friends deserted him or not Capt. King kept on in his own quiet, positive way indifferent to chicanery of enemies and allowing his constant faithfulness to speak for itself.

**McKINLEY'S WESTERN TRIP.**

President McKinley's western trip has been marked by an enthusiastic welcome from the people all along the line. Though the calamity howlers have exerted their most calamitous howl to embarras the nation and desparage the patriotic effort of the President, the greeting accorded the chief executive rings true with confidence in the statesmanship of the man and honest support of the national policy which he has mapped out.

Nor have the threats of anti-imperialists and other traitors to the nation and its flag caused the President to lose confidence in the will of the people that no responsibilities thrust upon the nation shall be shirked and in no part of the globe shall our flag represent a shallow and unpatriotic policy. We find the President reiterating with renewed force the principles which marked his words during the notable trip following the Spanish war. In the halliwick where Bryan, in two hours of forensic display sought to create calamity from progress the President voiced the popular sentiment as follows:

"The hum of industry has drowned the voice of calamity, and the voice of despair is no longer heard in the United States, and the orators without occupation here are now looking to the Philippines for comfort. As we opposed them when they were standing against industrial progress at home, we oppose them now, as they are standing against national duty, in our island possessions in the Pacific."

Again at the great Chicago gathering the President said: "You have not only been my friends, faithful and unfaltering at all times, but, what is of more moment and what is much nobler, you have been at all times faithful to your country, true to the inviolability of public faith, standing always for honest government and honest money and forever standing for the honor and integrity of the flag wherever it floats, carried by our soldiers or our sailors on land or on sea."

The enemy finds its greatest pleasure in creating a meaningless flag and placing a low estimate upon the loyal support of patriotic principle, but they hear no answering echo of their traitorous sentiments in the words or acts of President McKinley.

**ADVANTAGES OF THE CANAL**

SAN FRANCISCO, October 5.—Commander B. H. McCalla, United States Navy, who brought the United States steamship Newark around the Horn, has just answered a series of nine questions asked by the Chamber of Commerce, through its vice-president, George A. Newhall, on matters of vital interest to promoters of the Nicaragua canal. The information sought through this medium covers the length of the trip and the cost under the present and possible future conditions.

After stating that the Newark in making the trip from New York to San Francisco traveled 16,086 miles, and that it was estimated that could the vessel have come by the Nicaragua canal, 8070 miles would have been saved, Commander McCalla added that the coal consumed amounted to 4187 tons, and that 2418 tons might have been saved by the other route. He showed that nothing would have been saved in labor, as all the men were enlisted for a period of years, and that the daily pay of the ship's complement was \$388.92. In answer to a sweeping question as to the entire amount which could have been saved had the canal been open, Commander McCalla writes:

"I do not see that any allowance for a war ship is necessary, since it ought to make a very slight difference, whether she steamed a long distance or a short distance, if the boilers and engines were in good condition when the ship started and if the officers and men were efficient. I beg leave to add that, from a military point of view, the possibility of re-enforcing the fleet in the Pacific or Atlantic by units from one or the other is of the greatest importance, and as the canal would enable us to more quickly re-enforce the Pacific or Atlantic fleet, such a waterway would enable us to rest satisfied with a smaller Navy than would be required without a canal."

"The value to the United States of such a canal as the one proposed across Nicaragua cannot be estimated in dollars, because the absence of such a means of communication may easily mean defeat with sad and humiliating consequences. On the ground alone of sound naval policy the canal should already have been in operation, and before national interests, those of corporations, perhaps largely imaginative, are insignificant."

"To point the moral we must consider the length of time which the battleship Oregon was compelled to take in re-enforcing the Atlantic fleet in 1898. We must also realize the undoubted and very great advantage which the Suez Canal affords to Great Britain in her communication with her Indian Empire; and the increased strength which Germany possesses in being able to unite her Baltic and North Sea fleets in eighteen hours by means of the maritime canal through the Schleswig-Holstein peninsula."

**Residence Lots on Pacific Heights**

ARE NOW OFFERED FOR SALE.

No residence property having similar advantages and attractions, as for healthfulness of location, having an elevation of from 170 to 800 feet, and affording the grandest marine and scenic views; as also its proximity to the business part of the city, being less than a mile from the Progress Block,—has ever before been presented to the people of Honolulu.

One of the main features of this property, and procured at great expense, is the abundant supply of pure spring water, pronounced by Dr. C. B. Wood as being the purest and best drinking water obtainable in the Island, which is now being conducted into storage reservoirs upon the property by an independent pipe line, and will be supplied to residents at Government rates.

**OUR GUARANTEE:** We guarantee to all purchasers of lots on Pacific Heights, that we will, within six months, provide rapid transportation to the highest lots on the property, connecting the same with the Honolulu Rapid Transit Co.'s line on Pauoa Road, at the beginning of Kaulani Drive.

**TERMS:** 1/3 cash, 1/3 in one year, 1/3 in two years; interest 6 per cent. per annum on deferred payments.

Our carriage will convey parties desiring to inspect the property to and from the same.

For maps and full particulars call at our office, Rooms 7 and 8 Progress Block.

MASSACHUSETTS REPUBLICANS.

Boston, Oct. 6.—The Republican State Convention to-day was exceedingly enthusiastic and harmonious and nominated the following ticket: Governor, William Murry Crane, Dalton; Lieutenant Governor, John L. Bates, Boston; Secretary of State, William M. Olin, Boston; Attorney General, Hosea M. Knowlton, New Bedford; Auditor, John W. Kimball, Fitchburg; Treasurer and Receiver General, Edward S. Bradford, Springfield.

On the subject of trusts the platform says: "The Republican party of Massachusetts is unqualifiedly opposed to trusts and monopoly and the capitalization of fictitious and speculative valuations."

The national administration is indorsed in the following paragraph: "We express our confidence in the patriotic ideals of President William McKinley and the high qualities of statesmanship with which he has impressed them on his administration. He has enforced an efficient conduct of affairs in every department of the Government; he has so conducted the diplomatic service as to win for the United States the respect and admiration of foreign nations. The recent war with Spain, which was necessitated by humanity, has been overwhelmingly vindicated by the results so speedily and splendidly attained. We commend the tact, the patience, the skill and the statesmanlike spirit with which the President has approached the perplexing problems arising from the war. Under the treaty with Spain the law of nations put upon the United States the responsibility for the peace and security of life and property, the well being and the future government of the Philippine Islands. Accepting this responsibility, it is our profound trust that the present hostilities can be brought to an early termination, and that Congress, guided by a wise and patriotic administration will establish and maintain in these nations, hitherto the home of tyrants, a government as free, as liberal and as progressive as our own."

GENERAL MILES FOR PRESIDENT. San Francisco, Oct. 7.—Letters from the East written to an influential citizen of San Francisco and private circulars recently sent out from Somerville, Mass., convinced leading politicians here that Major General Nelson A. Miles, commanding the United States army, is in the field as a candidate for Presidential nomination. General Miles is a Republican. During the past ten days prominent bankers, leading public men and officers high in the council of the Military Order of the Loyal Legion have been sounded to ascertain their attitude toward General Miles. Following is the text of a circular recently received by a well known resident of San Francisco: Somerville, Mass., Sept 18, 1899. Dear Sir:—A call will soon be issued for a meeting of representative citizens from all parts of the Union relative to placing in the field as a candidate for the Presidency Major General Nelson A. Miles. This meeting will also elect a national committee which shall prepare and carry forward the campaign in 1900. Hoping that you are in sympathy with the above and trusting for your hearty co operation in the same, we have the honor to be, very truly yours, LEVI F. COOK, Chairman.

"Grasp All and Lose All."

Many people are so intent on "grasping all" that they lose strength of nerves, appetite, digestion, health. Fortunately, however, these may be restored by taking Hood's Sarsaparilla, which has put many a business man on the road to success by giving him good digestion, strong nerves and a clear brain. It does the same thing for weak and tired women. Hood's Pills cure sick headache, indigestion.

PORTUGUESE GRAND COUNCIL.

Santa Cruz, Oct. 6. - The thirtieth annual Grand Council of the Portuguese Union has come to a close. A night session was held last evening, lasting until half past 3 o'clock this morning, when the council adjourned to meet in San Jose the first week in October of next year.

The officers installed were: Supreme president, A. J. Ponheira of Benicia; supreme vice-president, J. Valadao of Oakland; supreme secretary, L. J. Martin of San Leandro; supreme treasurer, J. G. Mattos of Centerville; supreme master of ceremonies, J. H. Wood of Oakland; supreme marshal, F. F. Santos of Petaluma; supreme guard, J. F. Brandao of Centerville; supreme outer guard, Manuel Mitchell of Santa Cruz; supreme medical examiner, J. S. A. Cabral, M. D., of Centerville; supreme directors - A. Fonte, Oakland; F. A. Cunha, Oakland; F. I. Lemos, Hayward; A. F. Cunha, Milpitas; J. Baptista, San Francisco.

A very important matter was settled in regard to issuing life insurance policies. Heretofore all a member had to do was to go before a grand secretary and he had a right to change policy at his own option; but now a policy cannot be changed until the supreme secretary is notified and the change is attested before a notary public.
