

A (Rehabilitation)

1 Oct 1947

Truk Dist.

3 (Land Titles Investigating Commission)

There were no cases filed in during the period and none are pending. Charting the land boundaries in the Truk Atoll continues but a start on that project has not been made on the outlying islands. Preliminary reports from both groups of anthropologists (CIMA) in the area indicate that land tenure is an underlying problem of considerable moment and that its ultimate solution will require years of constant research and study.
