HALL'S COTTAGE PAINTS

Have been on the market but a little over a year, but we now have orders for them from one end of the Islands to the other. We have handled other makes of mixed paints before, but have never had any that proved so popular as those we now have.

The reason is they are made of pure pigments, pure colors, pure linseed oil and pure dryers. It does not pay to put any other kind of mixed paint on the market, with fancy labels on the cans, for you don't use the labels when you come to paint, you use the paint, and you want it good.

We have just received a shipment that completed our lines of shades as now shown on our color card, but we have afloat a big shipment of all shades, including a number of new ones, and we have a new color card with this shipment showing the most complete assortment of mixed paints ever offered here.

We also sell all sorts of

SUNDAY CONCERT.

Professor Berger Furnished a Pleasing Program for a Large Audience.

The audience at Makee Island Sunday afternoon was a good one, but hardly so large as on the occasion of the first concert and perhaps less representative. Very few real laboring men and their families were present. The music was excellent. Several extra players were noticed in the band, among them being Messrs C. S. Deskey and Wm. Keogh. The afternoon was very pleasant. Another concert will be given next Sunday afternoon, most likely at the same place.

There were more seats. More ladies were out and all the wheelmen in town seemed to be there. Complaint is made that drinking water is not supplied. A number of vendors would like to sell aerated waters, but traffic is against the law.

The Order Holds Memorial Services at Various City Cemeteries.

I. O. O. F. memorial services were held in Harmony Hall and later at Nuuanu cemetery Sunday afternoon. Harmony, Excelsior, Pacific Degree and Rebekah lodges participated. Dr. Rodgers, chairman of all the committees, read the memorial service at the hall and at the graves. Rev. Peck offered the prayer at the cemetery. All graves of Odd Fellows were decorated, and C. F. Fishel, P. G. and D. D. G. S. was appointed a committee of one to decorate the graves of brethren buried in Makiki cemetery.

WINDING UP THE SESSION

REGISTRATION REPEAL CARRIED THROUGH BY ONE VOTE.

Discussion—Important Acts Approved
Vote of Thanks—Pau at Midnight—
The Day's Record.

ONE HUNDRETH DAY.

SENATE.

Minister King reported the following acts signed by the President:

An Act relating to holidays. An Act making special appropriations for the use of the Department of Public Instructions.

An Act to authorize the consolidation of the Public Debt of the Republic of Hawaii.

An Act to define and limit certain powers granted to the Minister of Finance by an Act passed at the present session of the Legislature, entitled "An Act to authorize the consolidation of the Public Debt."

An Act relating to special appropriations under "An Act to authorize the Consolidation of the Public Debt."

An Act to provide for Public Loans.

An Act to define, etc., under "An Act to provide for Public Loans."

An Act making special appropriations for the use of the Government for the two years ending the 31st day of December, 1897.

An Act relating to amending Act re permanent settlement of Kapiolani park, as a public park.

Senator Lyman reported the concurrent resolution on department reports returned by the President. It should have been a joint resolution to have required his signature.

A resolution by Mr. McCandless recognizing the services of Secretary J. F. Clay passed unanimously.

Mr. Baldwin was appointed a committee of one to wait upon the President and ascertain at what hour of today the legislative session expired by limitation.

Mr. Baldwin returned and reported that the President considered the session to end at midnight.

The Registration repeal act came up on third reading. Mr. Lyman was against it.

Mr. Wright said he had put his thumb mark down and was proud of it. All opponents to the law were sore heads and nothing less.

Minister Cooper said he did not care to go over the whole ground again, but the thumb mark clause was not all the objections to the law. Tourists had to register upon landing. This was objectionable. Foreign representatives and sailors of war ships were not exempted. This was objectionable to the Executive.

Mr. McCandless said the chief reason for repealing the act was public opinion.

The vote on the final reading of the repeal bill stood as follows: Ayes—Kauhane, Baldwin, Hocking, Waterhouse, Wilcox, McCandless and Schmidt—7. Noes—Brown, Wright and Lyman—3. Mr. Northup asked to be excused from voting for reasons which he could not explain. The chair ruled that he could not be excused. Mr. Northup then voted "Aye," carrying the repeal by the narrow vote of 8 to 3. Without Mr. Northup's vote the bill would have been killed.

The President's veto to House Bill on conveyances was taken up and veto sustained unanimously.

On motion of Mr. Baldwin a resolution of thanks was tendered President Wilder for his services.

Recess to 2 p. m.

HOUSE.

Under suspension of the rules Mr. Robertson made a verbal report on the work and acts of the liquor commission. The matter had come in so late that the committee recommended the tabling of the acts. A move of the kind proposed would create friction, and the whole proposition was weighty and would require considerable time. The 6 o'clock law proposed was at fault. It would create dissatisfaction and encourage illicit selling of liquor. Report was adopted.

Recess to 2 o'clock.

The wide tire bill did not come up in the House this morning and is therefore dead so far as this session is concerned. Mr. Ryeroff moved to take the bill from the table with a view to adhering. This would not have altered matters. Other business intervened and the motion was withdrawn.

SAKE BILL VETOED.

At 2:30 Minister Cooper presented in the House the President's veto of House bill No. 51, relating to distilled

liquors discrimination contemplated by it against sake. Minister Cooper offered a substitute bill which raised the 60 cents duty liquor from grades of 9 to 14 per cent to from 9 to 17 per cent. This would include sake, which most frequently reaches 16 per cent of alcoholic strength, the President said.

Mr. Robertson moved to pass the bill over the President's veto, and spoke for ten minutes in favor of the measure. He contended that the bill did not discriminate against sake, but on the other hand, that that liquor would still have the advantage over other alcoholic productions.

Minister Cooper replied at length to Mr. Robertson and advocated the basis of duties as laid out by the President. So long as the country was on the regulating stage with respect to liquors, special care should be made to avoid discrimination as broadly contemplated by the bill before the House.

Mr. Ryeroff supported Mr. Robertson.

AT 3:25 O'CLOCK.

It is evident that a two-thirds majority of the House wishes to pass the bill over the veto.

In a caucus the Senate has decided to pass the bill over the President's veto.

3:35—House passes bill over veto by vote of 10 to 1. Speaker Naone alone.

All Senators will vote to reject veto.

ADA SAILOR LOST.

The schooner Ada, late Henrietta, is having no better fortune in the hands of honest men than in the hands of pirates. She had bad weather, fell short of water and provisions on the way to Hilo and in trying to obtain some in Hakalau, one of her sailors, Abonie by name, lost his life, by the capsizing of the boat. The Kinau passing down relieved their necessities for the time being, and the Kihaua Hou towed the Ada into Hilo.

BLACK FACE ARTISTS.

Vierra, Jackson and Overshiner had quite a successful trip to Maui. At Spreckelsville the minstrel program was put off before a packed house. The performance was repeated at Wailuku on the evening of June 11. Dr. Moore and C. A. Doyle assisted at the latter place. Overshiner remained on Maui.

SHIPPING ACCIDENT.

Reports come of exceptionally rough weather for this season of the year from all over the Islands. The Iwaliani was laying at Kukuihaele loading sugar, and while hoisting a sling of sugar over the rail, the vessel gave a heavy lurch, causing the sling to strike the second mate, and jam him against the winch, dislocating his shoulder blade and bruising him badly. Dr. Greenfield of Honokaa was summoned and the injured member put in place. It will be some time before J. Leary, the unfortunate man, will be able to resume his duties.

THE REGIMENT.

Notes of Interest from Various Commands of the National Guard.

Company H will meet this evening. The discussion of Friday evening will be resumed.

Sergeant Ferry calls a special drill of raw recruits for this evening. Some wretch has shot Janitor Lang's cat. Lang is on a still hunt for the guilty party.

Company B will meet tomorrow evening for further discussion on the matter of entering the competitive drill. It is hoped that a team can be put in.

The regimental shoots for medals will begin next Monday.

PRACTICAL PHILANTHROPIST.

Miss Lydia Bradley of Peoria, Ill., who has already given that city a hospital, a home for aged women, a church and a park of 145 acres, has declared her intention of immediately erecting a polytechnic institute, which with its endowments and appurtenances, will represent a cost of \$1,000,000.

Bonds and Their Prices—Refunding Figures—Through the World—American Opinion.

[Philadelphia Enquirer.]

The returns upon safe investments have fallen so low, as to become a serious matter to persons relying for their income upon invested capital. In the next ten or fifteen years most of the railroad bonds issued years ago at 6 and 7 per cent interest fall due, and as they are abundantly secured they will be extended at a greatly reduced rate of interest. Two such cases are before Philadelphia investors at the present time. The first mortgage 7 per cent bonds of the North Pennsylvania Railroad Company, a perfectly safe investment, are being extended at 4 per cent. The first mortgage 7 per cent bonds of the Pennsylvania and New York canal and Railroad company are being replaced at 4 1/2 per cent. Both these issues were put out thirty years ago and now the new holders have their incomes cut down from 35 to 43 per cent. Other instances can readily be found. Twenty years ago the consolidated mortgage 6 per cent bonds of the Pennsylvania Railroad sold at par; within a few months the company has sold bonds secured by the same mortgage at 3 1/2 per cent.

This condition is world wide. British consols have lately sold up to 114 per cent. They bear 2 1/2 per cent interest, which is to be reduced to 2 1/4 per cent in 1903, while the bonds are absolutely payable twenty years thereafter. The rate of interest is falling throughout the civilized world. This has been in course for thirty years, and there is no reason to suppose there will be any change. The wealth of the world is increasing every year at a wonderful rate. Every invention that tends to conserve energy, to augment production and to facilitate business is one more influence that aids in the creation of wealth. Never was the human intellect so busy as now, so ingenious, so well supported, and with every year the pressure for good investment increases. The supply is not at all equal to the demand, nor can it be. It is still possible to secure investments that yield 6 per cent interest, but they are not ordinarily such as a trustee would select for his beneficiaries. A risk must be taken. And even these opportunities are not as numerous as they were a few years ago. The truth must be recognized that we have no longer a frontier, country is developed, all the best favored spots are occupied, and there is no longer a necessity for good borrowers to pay 6 per cent for money.

From these conditions it seems that a further fall in interest rates is inevitable. Railroads that now borrow money at 3 1/2 per cent will be able to borrow at 3 before long. The stocks of sound dividend corporations will rise in price. But there will be one important result from this condition that will affect our career as a nation. As the pressure for good investments increases our capitalists will reach out for foreign countries just as England has done. We have Cuba and South America at our doors and we have the carrying trade of the world before us. It is morally certain that our adventurous capitalists will reach out for these new fields. They will retard the declining tendency of income for a time, but they cannot stop the inexorable law of commerce. A generation hence the rates of interest now paid, which we consider extraordinarily low, will seem to our successors to be exceptionally high.

ST. LOUIS THEATER CROWDED FOR "FALSELY ACCUSED."

Good Work by Amateurs—Outline of the Domestic Drama—To Be Repeated—There Was Fine Music.

The play house at St. Louis college was filled to its utmost capacity Saturday evening, the occasion being the presentation of "Falsely Accused, or Waiting for the Verdict," by the literary society of the college. Anticipating the jam many arrived half an hour ahead of time. The ushers did excellent work in seating the big crowd. Music for the entertainment was furnished by the college orchestra.

The curtain rose promptly at 7:30. All of the players appeared in handsome new costumes recently received from the States. The play abounded in thrilling situations and interesting climaxes. There was just enough comedy in it to season the dramatic features that characterized all of the four parts. Though a most difficult play it was faithfully interpreted by the young actors, who have, by the way, struggled against odds to put it on.

Applause was frequent and heartily given. From stage to stage the audience closely followed the changes and entered fully into the spirit of the interesting conception. The play was over at a little after 10 o'clock.

This domestic drama portrays some of the oppressive features adopted by the rich against the worthy poor. A family of very limited means owns a cottage of which one of the rich gentry endeavors through unscrupulous agents to secure possession. The old man refuses to part with his property and an attempt is made to fasten a charge of murder upon his eldest son. The son is brought before the tribunal and is convicted of a crime of which he is innocent. The day of execution arrives and just as the sentence of the court is about to be carried into effect a respite is obtained, the wronged son is liberated and the true criminals are duly punished. The play is an impressive one, though much amusement is furnished by the pair of "eccentric sports."

This was the cast:

Jasper Roseblade J. A. Thompson
Jonathan Roseblade, father of Jasper and Claude C. H. Rose
Claude Roseblade M. Soares
Humphrey Higson, Steward to the Earl of Milford Wm. Jarrett
Jonas Hundle, formerly a poacher H. E. Murray
Rev. Owen Hilton, Vicar of Milverstone C. K. Hopkins
Lord Viscount Elmore B. Zablun
Lieut. Florville Fr. W. Weed
Lord Chief Justice B. Peter
Grafston, counsel for prisoner, M. Cook
Sergt. Stanley, counsel for prosecution E. Berndt
Blinkley Brown, eccentric sport, A. Fernandez
Squinty Smith, eccentric sport, Chas. O'Sullivan
Sir Henry Harrington, Magistrate Jno. Leal
Clerk of the Court Alf. Rosa
Usher H. Kauuli
Sheriff E. Legros
Gamekeepers, Officers, Barristers, Jurymen, Reporters, Etc.

Some of the players evidenced marked talent for the stage, effectively and carefully presenting their characters. All showed the result of much clever training. The singing was a feature, as was also the instrumental music.

The play is to be repeated soon at the special request of many people. "Falsely Accused," when first presented, had a run of more than a year at one of the leading London theaters and is a strong play.

Among those prominent in the audience were President and Mrs. Dole, W. C. Wilder and Mrs. Wilder, Professor and Mrs. Richards, Professor and Mrs. Hosmer, Col. W. F. Allen and Mrs. Allen, Professor and Mrs. Lightfoot, Mrs. C. L. Vught, Fred Whitney and Mrs. Whitney, E. A. Jones and Mrs. Jones.

California Fig Syrup Co

Having met with the highest success in the manufacture and sale of the excellent liquid laxative remedy, Syrup of Figs, it has become important to all to have knowledge of the Company and its products.

The California Fig Syrup Co. was organized more than twelve years ago, for the special purpose of manufacturing and selling a laxative remedy, which would be more pleasant to the taste and more beneficial in its effects than any other known.

If in the enjoyment of good health, and the system is regular, then laxative or other remedies are not needed. If afflicted with any actual disease one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Island Steamers Encounter Rough Weather—Rain in Hamakua—Kinau Sugar—Claudine's Light Cargo In.

Mikahala and Claudine will sail on their usual routes at 5 p. m. tomorrow.

Four island steamers and three schooners left for various ports on the islands today.

Iwalani reports copious showers all along the Hamakua coast. She brought 4880 bags of sugar to F. A. Schaefer & Co.

The Chinese steamer Toyo-Maru finished discharging her cargo this morning and will probably leave for the Orient on Wednesday.

The I. M. S. S. Peru which it is known was quarantined in Nagasaki for eight days on her last voyage, is expected to arrive at any hour from San Francisco.

The Kinau brought down 4821 bags of sugar, which will be put on board the R. P. Rithet. She had a heavy passenger list and the usual large quantity of produce and stock.

The Waialeale arrived Saturday evening from Hawaii with 3381 bags of sugar and 30 head cattle to W. G. Irwin & Co. The Ceylon takes her sugar cargo.

The schooner John G. North, Capt. Rasmussen, left Honolulu, Hawaii, for San Francisco on the 10th inst. She took away 583 tons of sugar, valued at \$40,025. The cargo was shipped to Theo. H. Davies & Co., and to Williams, Diamond & Co.

The Claudine experienced rough weather on the N. E. coast of Maui last trip, and in consequence came in yesterday with a small consignment of sugar. It was impossible to make a landing either at Kipahulu, or Hamoa on account of the heavy seas. Freight for the latter port was landed in Hana, from which place the Claudine took her 1,500 bags of sugar.

TO HAVE BIG STEAMERS

PORTLAND LINE TO MAKE FIGHT
ON THE EMPRESS STEAMERS.
Ships Already Chartered—Much Better
Boats to Call at Honolulu—Increase
of Business—First in July.

By the 1st more on Saturday news
was received that Honolulu will have
a first class steamship line from Port-
land. It has been decided by the Ore-
gon company now operating the Ore-
gon line from Portland to Yokohama
to replace their small vessels with
four big steamers of the size and
speed of the Empress boats which run
to Vancouver. The vessels have al-
ready been chartered and the first one
will be along in July. It is proposed
to give Honolulu two steamers per
month each way on regular schedules.
Two principal reasons are given for
the progressive step. One is that the
business of the Portland line has in-
creased to such vast proportions that
larger and speedier vessels are re-
quired. A second object is to place
the line in a position to fight the Em-
press boats, the latter having already
declared war on the little black trad-
ers from Portland. The new steamers
will carry passengers and will bid for
the mails. Hongkong will likely be
the Asiatic terminus of the line.

REMARKABLE CURE OF RHEUMA-
TISM.
WESTMINSTER, Cal., March 21,
1894.—Some time ago, on awakening
one morning, I found that I had rheu-
matism in my knee so badly that, as
I remarked to my wife, it would be
impossible for me to attend to busi-
ness that day. Remembering that I
had some of Chamberlain's Pain Balm
in my store I sent for a bottle, and
rubbed the afflicted parts thoroughly
with it, according to directions, and
within an hour I was completely re-
lieved. One application had done the
business. It is the best liniment on
the market, and I sell it under a pos-
itive guarantee. R. T. HARRIS. For
sale by all druggists and dealers.

Advertised articles are now under-
stood, in a general way, to be superior
articles; superior, that is, to the non-
exploited commodity. As a rule they
are superior, but, in any case, the
public is rapidly developing a partial-
ity for the things it has read or heard
of, and the call upon dealers for ad-
vertised articles, in preference to
others, has never been so general as it
is today.—Art in Advertising.

Important Points About "Purifine," the
Great Disinfectant.

[S. F. Post.]
In these enlightened days of the nine-
teenth century it is an acknowledged
fact that "an ounce of prevention is
worth a pound of cure," and that ounce
of prevention was never better exem-
plified than in the use of the great disin-
fectant known as "Purifine." The public
has had many disinfectants brought to
their attention. Some were good, some
were bad, and some were simply indif-
ferent, but none ever yet placed on the
market combined all the many good
qualities of "Purifine." In the first place
it was left to the manufacturers of
"Purifine" to compound a disinfectant
and antiseptic that would be odorless,
a most important matter, as users of dis-
infectants well know that the odor of the
disinfectant, especially when in constant
use, becomes sickening and disagreeable,
oftentimes as much so as the odor or
smell to be killed.

In a word, "Purifine" is odorless, and
its work, removal, not creating one odor
to cover another. It comes in a highly
concentrated form, and when diluted
with two parts water there is not the
slightest odor, rendering it suitable for
places where food is kept. In the bath-
room, sleeping room or about the house
generally it is indispensable.
It is again it is non-poisonous, an im-
portant feature, for if used carelessly
by children or servants there are no
harmful results, and it is also utterly safe
to have around the house.

As a sample of its harmlessness it can
even be used in refrigerators, and, if
accidentally spilled no harm is done, and
it is particularly adapted for this use.
The uses for which "Purifine" is used are
almost limitless, and to enumerate them
would fill pages of *The Post*. For flush-
ing sewers, and for cleansing sinks,
drains, barns, urinals, water closets,
floor cloths and the bed clothes from
sickness or infection it is invaluable.
Then again the price is so low that it
can be used lavishly, and for hospitals,
asylums, public buildings, hotels, restau-
rants, school rooms, laundries, dairies,
markets, stables, packing houses and
canneries where a disinfectant is used in
large quantities, this is a point to be
considered. One gallon is used to a bar-
rel of water, and for general use one
tablespoonful to a pint of water.

"Purifine" is a sure preventive against
cholera, la grippe, small pox, diphtheria,
all fevers and contagious diseases.
As an antiseptic and healer "Purifine"
is invaluable, for it relieves and cures
sore throat, catarrh, stings and bites of
insects, burns and scalds, chilblains, sore
eyes, pimples, and for the bath it is a
delightful adjunct. It will instantly
stop any flow of blood, and physicians
will understand its full value from its
principal constituents, bromine and
chlorine. It is prepared only by the
Fitch Chemical Company of Bay City,
Mich. The Hollister Drug Company
been appointed sole agents for the have
Hawaiian Islands.

GUTHBERT LAWSON. SAN FRANCISCO, CAL., April 5, 1894.

WELLS, RICHARDSON & Co.,
Gentlemen:—I have been tortured for the past six years with sciatica, and since the
beginning of this year have been almost entirely confined to my room, unable to move myself
without great trouble. I have had leading doctors prescribe for me, but have got little relief from
them. My nerves became so unstrung through loss of sleep and worry that I felt certain I should
go crazy, and any little thing would shake them so I could not work.
Noticing your advertisement in the newspaper, I decided to try Paine's Celery Compound,
for I had many times heard of celery being a good thing to build up the nerves. The result was
indeed magical. After finishing half a bottle, my pains and aches seemed to vanish. I have
now taken six bottles and feel as well as I ever did. I am now able to sleep soundly and eat
three square meals a day, something I could not do before I used Celery Compound. I am
thoroughly recovered from sciatica, and am thankful to
have found a medicine which readily does all that it
claims.
Sincerely yours,
Guthbert Lawson

Aloha, Statesmen.

In only a few years it will be said that the first Legislature was the best the Republic ever had.

The law making and governing bodies that keep close to the people never fail in doing successful and satisfactory work.

With the Registration Act it was either repeal or dead letter, with the weight of sensible argument on the side of repeal.

Some public spirited citizen might present the Park with a drinking fountain. Here is certainly a chance to erect a monument.

Col. Ingersoll hit a Populist fad a body blow in just eleven words. He asked, "If the government can make money why must it collect taxes?"

The wail of the Advertiser over the Registration Act obsequies is as frantic as the Cleveland impeachment resolutions of Congressman Howard of Alabama. And they called Howard a crank.

Bids amounting to \$40,000,000 were offered for New York city bonds at only 3 1/2 per cent interest, although the quantity for sale was only \$4,000,000. It is proof that money is not so very scarce when it so eagerly grasps at that rate of earning.

The continuous Honolulu building boom is not confined alone to Punahou and Makiki. Several business structures are going up about the commercial quarters and in every district of the handsome city, pretty cottages and pretentious mansions are being built.

The first class line of steamers from Portland to the Orient, via Honolulu will be a most welcome and important addition to the Hawaiian traffic. It means better mail service and more business generally. The Northwest seems determined to share the trade of the Islands with San Francisco.

The Legislature has used one hundred working days. The Congress at Washington would require two hundred to dispose of the same amount of business and an ordinary state Legislature anywhere from one hundred and fifty to two hundred. The old reliable Advisory Council of the Provisional Government would have managed everything in fine style in about three weeks. These are The Star's figures, but The Star has watched all the bodies mentioned pretty closely.

There is something more than talk in the utterances of confidence in the future of Hilo. That place is the second city of the country. It is the largest place on the largest island and is backed by water power and tributary coffee groves and sugar plantations. Sugar is established and there can no longer be question about Olan or Puna coffee any more than there is about Kona coffee. Hilo is growing rapidly and is especially happy and fortunate in attracting a very superior class of immigrants and capitalists.

The announcement will be received with regret that one of the leaders in promotion of a cable for Hawaii is retired from active life. Sir John Pender is paralyzed and speechless and has resigned his seat in Parliament. This circumstance may have an immediate and important effect in the cable matter. A charge made by the New York syndicate that came into the field after Col. Spalding appeared with his Hawaiian charter was that the colonel and his associates were working very largely in the interest of Sir John Pender. The point was that the member of Parliament, being heavily attached to cable enterprises in the far east would never permit the Spalding line to extend beyond Honolulu. This was strenuously denied and was probably not the fact at all, for the very apparent reason that more lines make more business. Had Sir John been connected with the Spalding scheme commercial acumen would have prevented any such policy as the New York company declared had been adopted. At any rate, while the disappearance of the enterprising cable promoter from the business is sad and deplorable, it is to the advantage of the company that all are certain is able and willing to give

Hawaii cable communication with the United States.

GOOD FOR THE BOARD.

[Advertiser.] The frequenters of the Pacific Mail wharf will be glad to know that the Board of Health is by no means in favor of allowing them to be offended by vile smells from the garbage scows.

BECOMING LITERARY.

It is said that President Krueger, of the Transvaal Republic, has confined his readings to the Bible and Pilgrim's Progress until recently, when some one gave him one of Mark Twain's books. The humor of the American joker happened to hit the Boer ruler in the right place, and he has purchased a full set of Mr. Clemens' books.

WHEELMEN AND THE ROADS.

The League of American Wheelmen is taking up the subject of better roads on a grand scale. It is represented that the people of the United States are paying 3 per cent on \$36,000,000,000 in order to keep up the present bad roads, while it would not cost them one-sixth of that sum annually to build the roads now needed in order to put the country on an equality with France. If road bonds, were issued, bearing 3 per cent interest, more than 6,000,000 miles of macadamized roads could be built in one year without increasing the annual expense one dollar.

Another way they have of figuring a saving is by computing the annual cost of food for horses, mules, etc., in the United States at about \$1,376,000,000, and if there were macadamized roads one horse could haul as much as three horses, and if only one-half the number could be dispensed with through good roads, there would be an annual saving in the feed bill of \$788,000,000. It is estimated that the cost of a good road is \$4,000 a mile.

In New York state, where there are 450,000 wheelmen, it is proposed that the highway commissioners set aside and improve a narrow pathway, and that they be required to do so in all cases where funds are contributed or supplied for that purpose.

UNIVERSAL BIMETALISM.

Touching the silver question, Mr. Denby, United States minister at Peking says: "It is safe to say that it will be many years before Chinese manufactured articles will drive foreign goods out of the market. The silver question cuts both ways. The merchant in China buys for silver and sells in Europe and America for gold; thus he gains largely. On the other hand he buys in foreign countries for gold and sells in China for silver. High prices for manufactured goods are necessarily realized, but the volume of trade continues to increase. Universal bimetalism would be welcomed by many foreign merchants residing in China. It is safe to say that scarcely one favors free silver for his own country alone."

TWO MEETINGS WITH MILES.

One in Pasadena, Cal., and the Other in Los Angeles.

"One night in the office of the Hotel Raymond in Pasadena, Cal.," said a traveler, "I met General Nelson A. Miles. I was introduced to him by Major Ben C. Truman. The office was a big apartment with a great fireplace on one side of it. There were large rocking chairs scattered about for the comfort of guests who chose to sit there, and it was a room to which ladies did not hesitate to come if they had occasion to visit it.

"On this night there was a fire in the great fireplace, perhaps as much for cheerfulness' sake as anything else, and the big room was decidedly a pleasant place. General Miles, Major Truman and myself sat there until 11 o'clock. The general talked freely and most interestingly, and to me it was a most enjoyable evening. I had always had the heartiest admiration for General Miles—I had been a soldier myself—and I thought I should always remember that evening with gratification.

"The next morning, while going out of the Hotel Nadeau in Los Angeles, I met a gentleman who said 'Good morning.' I stopped and talked, but I could not possibly recall him. Presently he said: "'You don't remember me.' 'I said I did not.' 'My name is Miles,' he said. 'Well, I wished that the Hotel Nadeau had been getting in coal and that there had been a convenient coal hole open for me to slide into, but there wasn't, and I did the best I could under the circumstances, which I guess was poor enough, but the general was perfectly good humored about it, for which I was profoundly thankful.

"Seeing the general in a different light, or amid totally different surroundings and when I had least expected to meet him, coupled perhaps with some degree of natural absentmindedness on my part, had brought this discomfiture upon me, and chagrin over this second encounter with General Miles has always materially lessened my enjoyment of the first."—New York Sun.

Timely Topics.

We have just received a new novelty that is making a great hit in the East. It is an electric scarf pin or shirt stud. This little article is so compact that it can be carried in the vest pocket with the lamp in the necktie and to all outward appearances you have a diamond that surpasses in brilliancy the famous "Kohinoor." You can have "all kinds of fun" at the expense of your friends.

In case you are in need of a good wearing harness we have an excellent line of the imported article ranging in price from \$16 to \$40.

While you are buying your harness you will most likely want a new lap robe. We have some beauties in new colors and designs. Perhaps that saddle pad has become soiled and moth eaten. If so we can replace it with a new one that makes you feel ashamed that you didn't have one sooner.

If your horse is a gentle animal who trots along regardless of papers, boards, cars or trains that may be passing and does not shy there is no necessity of putting a curbed bit on him. We have bits that are suitable for all horses.

International Arbitration.

The real obstacle in the way of international arbitration is not so much a lack of efficacy in the method as the lack of a disposition to try it. The system of arbitration necessarily presupposes that nations desire an amicable adjustment of their differences. Such an adjustment may be prevented either by a willful opposition to it or by the adoption of a style of controversy that will render argument impracticable. Against such obstacles it is difficult to contend, since their direct tendency and effect is to bring about a collision before an arbitrator can intervene. It is obvious that arbitration can no more afford an absolute safeguard against such contingencies than can a system of municipal law absolutely prevent men from attempting to settle their differences by fighting in the street, if they desire thus to revert to primal conditions. Yet severe penalties, strictly enforced, may reduce such chances to a minimum, and it is conceivable that a scheme of international action might be devised so comprehensive as to render a resort to war exceedingly difficult and hazardous.—"The Possibilities of Permanent Arbitration" in Century.

Interest never flags when the goods and prices are right. In May we passed all records in merchandising! Helping more people to goods at less expense than ever—that's the secret! Great movements in merchandise reduce expenses in all directions, freights on carload lots are less than by the piece, buying at the factory means a big saving to us. And you are the gainers.

The Success Filter, as sold by us means good health to you and money in your purse. The money comes in this way: We bought at the factory a carload of the goods; everything was cheaper and we can sell you a six-gallon filter for \$5.50.

The filter stone in a Success Filter is made of tripoli stone, mined in Georgia, U. S. A. It is fitted in the upper chamber of the filter and water passes through it, all impurities in the water remaining on the outside. It may be cleaned in a moment and will last for years as it is six inches in thickness, instead of one as in ordinary stone filters.

The quality is the best and \$5.50 for a six gallon filter is lower than you ever paid before.

COFFEE ESTATE AND LANDS FOR SALE.

I am directed to sell at Public Auction on Friday, June 26, 1896,

at 12 o'clock noon of said day at my sales rooms on Queen street, in Honolulu (unless sooner disposed of at private sale) the following described property, namely:

A tract of land about 2,300 acres in fee simple situate at Kolo and Ololeomoa 1 in South Kona, Island of Hawaii, about eight miles by a good road from Hilo, one of the largest villages in Kona. There is an excellent landing on the land itself from where the coffee and other produce could be shipped and a good site for a mill near the landing. Fifty acres of land are in coffee. Roughly estimated there is about seven hundred acres of splendid coffee land lying all in one block on both sides of the Government Road. Eight hundred acres lying above and to the East of the seven hundred acres above mentioned is also excellent land and although at a higher altitude is no doubt also well adapted for coffee culture. The lower land below the coffee belt is suitable for pineapples and sisal. There is a drying house, store and work rooms, a Gordon's Pulper, laborers quarters and water tanks at the plantation and the land is partly walled. There has never been any blight on this land, although coffee was planted there a great many years ago. Old residents of Kona like the late D. H. Nahunu, J. W. Kualincku and others have testified to this fact. There is a sea fishery appurtenant to Ololeomoa 1.

Terms cash or part of the purchase price can remain on mortgage at eight per cent per annum. Deeds and stamps at the expense of purchaser.

A map of the property can be seen and further particulars obtained at my sales room

Jas. F. Morgan,

859-L.D. AUCTIONEER.

Hawaiian Electric Company.

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

Erysipelas in the Face

Nearly Blind, But Perfectly Cured
Health, Appetite and Strength Renewed by Hood's Sarsaparilla.

"C. I. Hood & Co., Lowell, Mass.: 'Hood's Sarsaparilla is splendid. I had long been troubled with erysipelas, and three times had it in my head and face. I became nearly blind and my hair all came out. My husband wished me to try Hood's Sarsaparilla. I only took three bottles before I was free from my old-time trouble and long sufferings. It has never returned until last winter while I was ill with the grip, a slight attack broke out on my face. After my sickness I was not well, became easily tired and lost my appetite. I resumed taking Hood's Sarsaparilla and am now using the fourth bottle and can run up and down stairs as spry as ever. The tired feeling is gone and I have a good appetite.' Mrs. Wm. E. BARINGER, Olive Ridge, New York."

Hood's Pills cure all liver ills, biliousness, jaundice, indigestion, sick headache.

MISSION CHILDREN MEET

ANNUAL MEETING OF THE HAWAIIAN COUSINS SOCIETY.

Interesting Exercises—Address by Retiring President—Finances—A Sermon on Music Heard.

The Y. M. C. A. hall was packed on Saturday evening on the occasion of the annual meeting of the Hawaiian Cousins Society, the largest missionary organization in the country. All the beneficiaries of the organization were represented and participated in the exercises. The Japanese, Chinese and Portuguese Missions rose when called upon and each offered beautiful songs in their respective tongues. Sailors of the Morning Star responded for the Ruk Mission with a hymn.

An address was made by the retiring president, Professor Richards. Rev. O. H. Gulick, the new president, conducted the meeting. Reports showed the society in excellent condition. The end of the fiscal year finds the society out of debt with a small balance on hands. Mr. H. P. Baldwin contributed \$500 to the work a few days ago, which relieved the society of a few old bills. Greater work than ever before will be attempted during the ensuing year.

SERMON ON MUSIC.
Rev. C. W. Hill of Hilo gave an eloquent address on the subject of "Music" before a large audience in the Y. M. C. A. at 3 o'clock Sunday afternoon. On the occasion Miss Boyer of Kauai and Mr. H. F. Wichman sang two solos each.

BASE BALL.
Good Sized Audience and a Game Worth Going to See.

Several hundred people witnessed the ball game between the Kams and the Stars Saturday afternoon. Light showers fell, but did not interfere with playing. Both clubs had strong support in the grand stand. Many believed the Star club would win, but no one thought the scores would be so far apart. A report that Pitcher Hart of the Stars was under the weather assured the friends of the Kams, and they were confident of the success of the old champions.

The Kams won the toss and the bat. First inning—A. Pahau was struck out by Hart. S. Koki flew out at first. Kaanoi drove the ball to second. It was missed by Conradt, picked up by Pryce, c. f., and thrown to W. Wilder, s. s., who had taken position on second. Wilder put Kaanoi out at second, closing a brilliant play and retiring the side without a run. W. Wilder took the bat for the Stars, knocked to second and went out. C. Willis, safe. Hart brought all his muscle to bear and landed a three bagger, scoring Willis. H. Wilder went out at first; Hart scored. Lishman dropped a fly into the hands of Makoinoku, i. f., retiring the Stars with two runs.

R. Pahau's capture of a fly by a hard run was one of the best plays. The applause was frequent and all were pleased, only regretting the Kams were not in form. The remainder of the game was characterized by good playing on the part of the Star club, and nervousness on the side of the Kams. A number of serious errors were made by the latter, giving the Stars several runs. The score at the close stood: Kanehamehas, 6; Stars, 15. Next Saturday the First Regiment and Honolulu teams will play.

PACIFIC COURTS.
Pleasant Party on the Occasion of a Reception to Mrs. Irwin.

The opening of the Pacific Tennis Club's house Saturday afternoon was a delightful social function that was enjoyed by over a hundred ladies and gentlemen. During the forenoon the building was beautifully decorated with Hawaiian, American and club colors as well as ferns and maile. Mesdames W. G. Irwin, B. F. Dillingham, E. R. Adams, E. A. Jones, G. P. Wilder, George R. Carter and George H. Herbert received.

The Kawaihou club furnished music. Refreshments were served during the afternoon. Mrs. E. A. Jones presided at the table, which was under a bower of flags on the lanai.

MATCH RACE.
A race between Judah and Billy Button may take place next Thursday afternoon. It will be for \$500 a side. Button's money is up. Judah's friends want the race under English rules. This would lose the race to a horse that might break five times. The Button people want to race under the rules of the Hawaiian Jockey Club. In all probability the matter will be settled tomorrow.

It is a very broad thing to say, and may seem to some that we are boasting, but our aim is to tell our patrons the truth. Our judgment and preference is not influenced by the amount of profit that may be obtained by handling a certain line of goods as much as the wearing qualities and the salableness of

the articles. The CHENILLE PORTIERES, CHENILLE TABLE COVERS and Rugs that we are offering you were chosen for the sole and solitary reason that we honestly believed them the best for their respective prices, and that you would be better pleased with them than with others that might look as well for a time, but would not wear.

A TERRIBLE CASE OF ECZEMA

CURED BY
Ayer's Sarsaparilla

Mrs. E. Wyatt, of Fort Road, West Hindmarsh, So. Australia, writes of the condition of her little daughter, whose portrait she also sends:

"My daughter was afflicted with Eczema of the most aggravated type. The disease first appeared in eruptions on her head, then her hair began to fall out, and in spite of the best medical advice and treatment she grew steadily worse. The sores were full of matter and were extremely offensive. Her eyes became affected, and she was, in truth, in a terrible state. My neighbors were very sympathetic and took great interest in the case. They persuaded me to try Ayer's Sarsaparilla, and I am most thankful to be able to say that this wonderful medicine completely restored my daughter's health. She has now as good a head of hair as anyone could wish, her eyes are perfectly well, and she is a fine girl of eight years with every prospect of growing up to be a strong and healthy woman."

THE 11TH SPENT IN KOHALA

HORSE RACING AND OTHER SPORT
MAKE THE DAY LIVELY.

Ball Tossers—Plantation Report—At Mahukona—Direct Shipment to San Francisco.

Mahukona, Hawaii, June 12. Star Newspaper:—Kohala plantation, a distance of fifteen miles from the Mahukona landing, is reached by rail. Although the passenger cars are not up to the standard of Honolulu trains, still it was safe traveling. Stoppages were made at Honoipu, Hawi Mill and Union Mill before Kohala plantation was reached. The schooner John G. North was loading sugar at Honoipu landing for San Francisco.

The Kohala plantation, which is about the largest in the district, has turned out over three thousand tons of sugar this season with about six weeks yet to run. The mill has done exceptionally fine work and the prospects of a heavy output are good. The sugar from here is shipped direct to San Francisco from Mahukona.

Mrs. Wight entertained the ladies of Kohala at a dinner at her palatial residence, Greenbank, on Wednesday, June 10. A delightful time was had by all present and the affair was voted a success in every way.

The 11th of June was celebrated in a fitting manner. The day dawned beautifully and clear. All the mills in the district closed down for the day, and the plantation hands were given a holiday. The pleasant weather which prevailed was taken advantage of, and throughout the day people in holiday attire were numerous. It was a surprise for a visitor to notice the number of people out for the day. A picnic was given at the Kynnersly residence, in which the elite of Kohala participated. Lawn tennis was indulged in by the more fastidious on the spacious lawn. A slight shower of rain fell but did not materially interfere with the success of the entertainment.

The bolder sex attended the sports which were given on the flat near the Kohala landing. The first event on the program was a quarter mile horse race, on a straightaway course, between a horse owned in Kohala plantation and one from Halawa. The latter animal had the best of the start and maintained the lead up to within fifty yards of the finish when the Kohala animal made a spurt and won handily. After a brief spell the same Kohala horse ran the same distance with a horse owned by Bobby Hind, of Hawi Mill. This was nip and tuck and was won by the Kohala animal by half a length. Cheers greeted the feat of the Kohala favorite and considerable money changed hands.

A baseball game between the Kohala and Mahukona nines ended the day's celebration. A number of players familiar at the Honolulu diamond were noticed on the field. Among these were Henry Wise, John Wise, Palmer Woods and Frank Woods. The game was won after a hard struggle by the Kohala team with a score of 13 to 11. Palmer Woods pitched for the Mahukonas, but his tossing was too swift and he was replaced by Jas. Hind. Henry Wise was in the box for the Kohalas. A return game will be played on July 4.

Mr. and Mrs. James Renton, Sr., leave by the Kinau for a visit to relatives in Nova Scotia. They go by way of Victoria, B. C.

John S. Smithies, an old friend of The Star is the all round useful man at Mahukona. He is very attentive to visitors and none is more courteous than "Uncle John."

Robert Laing, a favorite member of the Scottish Thistle Club, is manager of the Kohala saloon. He keeps the only billiard parlor in the district and many while the time away at this indispensable resort.

The Time For Building
Up the system is at this season. The cold weather has made unusual drains upon the vital forces. The blood has become impoverished and impure, and all the functions of the body suffer in consequence. Hood's Sarsaparilla is the great builder, because it is the One True Blood Purifier and nerve tonic.

Hood's Pills become the favorite cathartic with all who use them. All druggists, 25c.

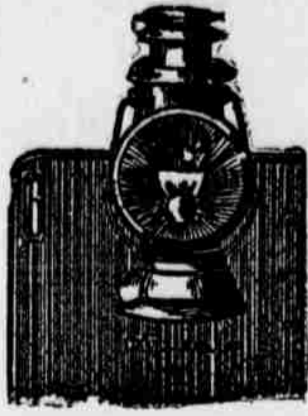

MADE GUARDIAN.
John Ena has been appointed guardian of the property of his six minor children in the estate of the late Wm. C. Lane. The children are heirs through their mother to one-eleventh of the estate. Lane's estate is now in process of administration.

CHINESE MUSIC.
A report on the streets Sunday that Capt. Cluney had won his case against the Chinese theater is correct in part. The Supreme Court has decided that the Chinese should not play hideous and unearthly music while Capt. Cluney is trying to sleep; but refers the matter back to the lower court to decide what instruments or particular music shall be ruled "out of order."

GENTLEMEN:—In reply to your inquiry as to how the Ideal Roof Paint you sold me lasted; I would say that I painted the roof of my house 12 months ago with your Red Ideal Roof Paint, and I find it is as fresh and bright in appearance today as when first applied; looking as well as others lately painted with other paints. I am more than satisfied.

J. G. ROTHWELL.

Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. & B. Paint and Portland Cement.
