### UNITED STATES.

The Republicans of San Jose county, Cal., in their platform favor American domination in Hawaii.

Ed. Crane, a noted baseball pitcher, committed suicide at Rochester, N. Y., by taking a dose of chloroform.

The Kilby Manufacturing Co., Springfield, O., is making a \$200,000 sugar plant for the Alamitos Sugar Co. of Alamitos, Cal.

Nine 100-pound sacks of gold ore, valued at \$30,000, were stolen from the powder magazine of the Tom Boy mine, Telluride, Col., where it had been temporarily placed.

Rev. M. F. Colburn of the Grace Methodist Episcopal Church, San Francisco, was stricken with paralysis at his home on Sunday and is not expected to live.

Rock Springs, Wyo., was visited by a cloud-burst, bombarding the town with hail and badly damaging property. In some places the hail fell to a depth of one and two feet.

John Marsh, a vineyardist ten miles from Fresno, Cal., was attacked and beaten by a gang of 28 Japanese laborers to whom he had refused an increase of wages. Twenty of them were arrested and eight escaped.

Ogden and the surrounding country was visited by a wind storm the night of the 18th which has no parallel in the history of Utah. Fire broke out in the midst of the storm and destroyed the warehouses of Med. J. Kiesel & Co.

Whitecaps near Toledo, Ohio, brutally abused a man named Huntsman, against two of whose children a charge of stealing a purse containing \$80 had been trumped up. Twice they buried him alive and each time after digging him up cruelly beat and lashed him.

Charles Cavill, the champion swimmer of Australia, accomplished the most important feat in the history of the Coast on Sunday, the 20th inst. He swam across the Golden Gate, doing it in one hour and fifteen minutes. The distance is over one and a half miles in a straight line.

A find of dynamite bombs has been made in Chicago by the police, and the discovery is directly connected with the executed anarchists of 1836 and those who were pardoned by Governor Altgeld after being sent to prison for life. Letters found in the trunk containing the bombs show the connection.

Word has been received from the venerable Bishop William Taylor in his new mission to Africa on his own account. He was retired by the General Conference of the Methodist Church because of his advanced years, and six weeks later was on his way to Africa. He is at Johannesburg and writes that he is in splendid health.

Six men from the British tramp steamer Linlithgow, carrying news of her breakdown at sea, reached Acapulco, Mexico, on August 29. They made the voyage of 960 miles in sixteen days, in the twenty four foot lifeboat of the steamer. Often they were in danger of being swamped in the heavy seas. The Linlithgow left San Francisco on July 31 for Leith, and on August 11 her tail shaft broke in the tube. When the news left Acapulco no steamer had been sent to search for the drifting vessel.

### TROUBLE AT LEADVILLE.

Leadville, Colorado, had a night of terror from the evening

of the 20th. Explosions were heard from the direction of the Coronado mine, also fusillades of rifle shots. At a late hour in the morning it was stated that the mine had been blown up and destroyed. The buildings about the mine were set on fire, but the flames died down soon after the firemen went to the spot.

The following dispatch at 2:10 a.m. of the 21st will give an idea of the state of excitement:

"The sights and sounds beggar description. All the whistles in the city are blowing and two or three steam sirens add discord to the dark night's alarming choros. The sharp cracks of rifles punctuate the tooting at irregular intervals.

"Citizens have gone to the scene with whatever arms they can gather and a militia company quartered across the street has just marched toward the Coronado under arms. The whistle which calls out all citizens in case of emergency has just sounded, and the streets are full of rushing men, crying women and children."

At 2:30 Sheriff Newman and Judge Owens called upon Governor McIntyre for troops to quell the riot. The Governor at once issued the call and before daylight the entire military force of the State were en route for the scene of the trouble. The troops from Denver, two infantry companies and a battery, will reach Leadville that day. Twelve hundred militia-men were to be sent to Leadville that day. The Governor issued the order to that effect. At 3:40 o'clock the news that the Emmet and Marion mines had been attacked decided the Governor to intervene with armed force.

A Leadville dispatch of September 21 says: The miners' strike of which tonight's lawlessness is the outcome, began three months ago yesterday, when, at 11 o'clock at night, the men in two or three of the leading mines walked out. The union scale of wages in Leadville was \$3 for everybody; but in 1893, when the price of silver dropped below 60 cents an ounce, an agreement was made that \$2.50 should be accepted for some classes of work until silver should return to 83 cents. This agreement, the miners afterward declared, was unfair, as many of the mines paid large dividends. It was to enforce the original scale of \$3 that the men struck. About 3000 men were involved. Within the last two weeks several mines have resumed work and this week the output has been 1200 tons daily, against 2000 tons before the strike.

### THE PRESIDENTIAL CAMPAIGN.

Bryan sat in Lincoln's pew in church at Washington, where he spent Sunday as the guest of C. T. Bride.

John Boyd Thacher, Democratic nominee for Governor of New York, has declared himself in favor of the gold standard.

A message of sympathy has been sent to Bryan by the International Agricultural Congress called at Budapest by the Hungarian Minister of Agriculture.

The Central Labor Union, in session at New York, refused to consider a resolution committing the organization to the support of Bryan, because the Union had nothing to do with religion or politics. It was stated by a delegate that Senator Jones, secretary of the Democratic National Committee, had sent the printing for the Bryan campaign to Alexandria, Va., because he could get men to work there for \$8 a week, instead of getting it done at Washington, where the men get \$18 a week.

### EUROPE.

The Czar and Czarina embarked on the imperial yacht Standard, which sailed from Copenhagen on the 20th for Leith, escorted by the Pole Star.

The authorities of Rotterdam have received an anonymous letter threatening to explode all the public buildings there unless the Irish prisoners, Kearney and Haines, are liberated.

Luigi Crispi, son of the ex Premier of Italy, is charged by Countess Cellers with stealing her jewels in April last year. The young man is in Brazil.

### OTHER LANDS.

The last stone has been laid on the British Columbia parliament buildings, which will cost more than one million dollars.

The sugar refinery at Moncton, N. B., Canada, was burned the night of September 20. It is said to be insured for \$300,000, but the loss will exceed that figure.

A private message received at Tacoma on the 20th states that the British warship Comus was badly damaged last day by striking a sunken rock off the coast of Vancouver Island.

### FALL OF DONGOLA.

A dispatch from Kerma on the Nile, Sept. 20, says: Dongola has fallen and the nominal objective point of the British-Egyptian expedition has been reached. The river forces of the British Egyptian expedition, pushing up the Nile from El Hafir, landed a force at Dongola and occupied that place before the Dervish forces, retreating from El Hafir, reached that point. El Hafir and Dongola are therefore both in the hands of the expedition, while the Dervish forces are somewhere between, seeking a refuge.

There was long range fighting all the previous day between the Dervishes on the west side of the river and the British and Egyptians on the opposite bank. Great execution was done among the Dervishes by the fire from the Maxim guns. Night ended the duel and in the morning it was found that the Dervishes had evacuated El Hafir. They had buried as many of their dead as they had time for, then threw the remainder with stones tied to their necks into the river.

The Maxim guns were manned by the Connaught Rangers, and the Tenth Battalion was ranged along the bank of the river, facing the Dervish position. They fired three rounds at the enemy.

One of the most striking things noted during the fight was the long range of the enemy's Remington rifles. At a distance of 1200 yards they were able to do a deal of damage, and some of their bullets struck at least 2000 yards from the point of firing.

The expedition only lost five wounded in the engagement. The river force occupied Dongola and it was hoped to have the whole expedition there before night.

Wad Bishara, the leader of the Dervishes, was badly wounded in his tent by a shell explosion.

An editorial in the London Times with reference to the taking of Dongola, says: We may reasonably hope that the work of liberation was speedily carried further south.

A dispatch from Kerma to the Chronicle says that the treasure chest belonging to the Mahdist leaders was on board the steamer which was sunk in the Nile.

The correspondent of the Daily News from the Nile expedition, in a dispatch from El Hafir, says: It is possible that being desperate, the Dervishes will make a hot fight for Dongola, though I learn there is great dissension among their leaders and the disabling of Wad Bishara materially affects the Dervish plans.

A Kerma dispatch to the Standard praises the clever tactics of Wad Bishara and adds: The Dervishes are certainly well led and they retain much of their old spirit.

### MASSACRES IN THE PHILIPPINES.

A dispatch to the Madrid Imparcial from Hongkong says that the insurgents at Cavite, Philippine islands, captured the monastery there and massacred the monks, putting them to death with knives. Spanish war ships afterward started a bombardment of the insurgent position, but the shots fell short and no harm was done.

## JAPANESE BARON HERE

### MINISTER TO ST. PETERSBURG FOR THE LAST TEN YEARS.

Is Accompanied by the Japanese Consul at New York, and Both Are Going Home.

Two notable Japanese gentlemen are through passengers on the City of Peking.

One, Baron Nissi, for the last ten years Japanese Minister Plenipotentiary at St. Petersburg, is on his way home for good, his term having expired. The other, K. Miyagawa, Consul at New York, is going to Japan to transact some important official business, after which he expects to return to New York, where he has been stationed only since last year.

Baron Nissi is 49 years of age. He will probably on his return to Japan be promoted to some high Government position in recognition of his services and rank, so says Consul Miyagawa. Until four years ago, when the Baron last visited Japan, his wife lived with him in the Russian capital, but since that visit she has remained at home. Baron Nissi was in San Francisco twenty-six years ago when he first went to Europe, and then again twelve years ago as escort in the suite of the Prince of Japan.

Speaking of the proposed Japanese steamship lines, Mr. Miyagawa said to a Call reporter that he saw president Asano last week, just before he started for England. Asano informed him that his plan would be uncertain until he had completed his visit in England. One thing, however, he will not run a line of steamers to Europe, that field being already occupied by his countrymen, but he will have a line running to Asia Minor to the Russian oil region. Asano may have his ships built on the Clyde, where all other Japanese ships have been built, but he is not decided yet to overlook America and his own country in that respect.

### SATURDAY'S BILL GAME.

Spectators Were More Than Conspicuous by Their Absence.

The mere handful of spectators who put up their quarters to see the last game of the season on Saturday afternoon got the worth of their money, for in spite of the absence of several of the team players, the official umpires and scorers a very good game was put up. J. O. Carter Jr. of the Stars filled up the Kams' nine while Gleason of the First Regiment team and Willie Cornwell helped out the Honolulu. Cornwell pitched in Clark's place and made a success of it. Duke McNicoll of the Stars officiated as umpire.

For the first four innings not a single run was made by either nine and the spectators settled down to enjoy a good game. In the fifth both teams scored once. In the sixth the Kams added two more to their score and in the eighth three, making a total of six. The Honolulu got one each in the eighth and ninth, making three in all.

### THE DUGUAY TROUIN.

Arrival of the French Frigate from Tahiti.

The French iron frigate Duguay Trouin arrived early this morning. She left Tahiti on September 9, going to the Marquesas Islands, which she reached in four days. After a short stay at the Marquesas, the warship sailed for Honolulu. During the trip, a seaman fell overboard, but was rescued.

The Duguay Trouin has been here before. She is about 3800 tons, carries 16 large guns, and has a powerful ram. The crew

numbers about 335 men. After a stay of three or four days at this port, during which she will take in a supply of coal, she will proceed to San Francisco. Following are the officers:

M. Bayle, commander and chief of the naval division of the Pacific Ocean;

M. Daniel, navigating captain;

M. Hugnet, lieutenant of the ship, adjutant of the division;

M. Houille, chief engineer and engineer of the division;

M. Aubertin, chief paymaster and paymaster of the division;

M. Gouzer, surgeon of the first class and surgeon of the division;

Lieutenants—MM. du Plessis, de Castries, Fitte, de Salins and Broc;

Ensigns—MM. Dubois and Porcher;

Cadets—MM. Jourdan de la Passardiere, Semichon, Palle, Diraison, Dupont, Dukers and du Brossay.

### LETTER FROM THE ATTORNEY GENERAL.

DEPARTMENT OF THE ATTORNEY GENERAL,  
HONOLULU, H. I., Sept. 28, 1896.

### EDITOR EVENING BULLETIN:

Your report of a statement made by me in relation to the immunity of Foreign Representatives from arrest, which appeared in your issue of the 26th instant, correctedly reported, in the main, the statement I made, although at the time I did not know it would be published.

The statement, however, failed to include in the exemption Diplomatic officers with the rank of Charge d'Affaires and Secretaries of Legation.

Senhor A. de Souza Canavarro is Charge d'Affaires and Consul General for Portugal, and is entitled to the full protection of his rank.

The matter received full attention from the Minister of Foreign Affairs.

WILLIAM O. SMITH,  
Attorney General.

### Born in Honolulu.

George Pepalou, a leper, has surrendered himself to the Receiving Hospital in San Francisco, and was to be sent to the Pesthouse.

Pepalou, who is 36 years of age, was born in Honolulu, his mother being a native and his father an Italian. He left these islands when only 5 years of age, and went to live with his brother, Joseph, who was an engineer in Houston, Tex. At the age of 16 years he discovered that he was afflicted with leprosy, and informed his brother.

The latter, anxious to keep his brother's condition from the authorities, placed him in an unused barn, where the unfortunate fellow was confined. At the death of his brother, which occurred three years later, Pepalou emerged from his place of concealment and was promptly taken in charge by the health officials.

Since then he has been driven out of every city he visited until now, when tired of being a wanderer, he has sought shelter as stated.

### Company A's Encampment.

The combined encampment of Company A. and the band concert by the Hawaiian band drew out the largest crowd of the season to Makee Island yesterday afternoon. The boys in blue had a fine time and received hosts of callers during the afternoon. Ice cream and cake was served in Captain Smith's headquarters, Company A. returned to the city early this morning.

## SUGAR.

## The Extensive Operations of a Great Trust.

The consumption of sugar in 1890 reached 66 pounds per capita. In 1870 the per capita consumption was 33 pounds, so the consuming ability of the American people has increased during the brief interval referred to fully 100 per cent. The assumption that the cheapening of the product is responsible for this enormous increase in consumption is hardly borne out by the facts. There are many countries in which the production of sugar has been made a specialty in which consumption has grown very slowly—Germany, Austria and Russia are notable instances. The inference is obvious that cheapness does not alone explain the increased demand. Indeed, the period between 1865 and 1870, when the trend of the price of sugar was upward rather than downward was also marked by increased consumption in the United States.

The United States is compelled to import the bulk of the sugars consumed within its borders. The exceptionally high tariff which prevailed between the close of the Civil war and 1890 did not act as a stimulus to the industry. In 1880 with a tariff averaging 2½ cents a pound we only produced 125,000 tons. In 1890 the tariff on raw sugar was repealed and a bounty was offered. This served to promote production, the recorded output of cane and beet sugar for the years of 1894-95 being 315,000 tons. The repeal of the bounty by the Democratic Congress, it is expected, will have a disastrous effect on the beet sugar industry in all other States than California. It is believed that the superior qualities of the beets grown in this State may permit the profitable pursuit of beet sugar making no matter how severe the competition, but as yet the matter is problematical.

The refining industry in this country has attained enormous proportions, and raw sugars are converted into commodities at a price to the most fastidious at a phenomenally low cost as compared with the old-time processes.

Fifty years ago the cost of refining added at least 10 cents a pound to the value of raw sugar. The margin between refined and raw was gradually reduced between 1835 and 1876 to about 3 cents a pound. Now the enormous refineries controlled by the American Sugar Refining Company convert raw into refined sugar at a cost of a fraction of a cent a pound.

The refineries of the company referred to are unquestionably the finest and most complete in the world. Some idea of the magnitude of their operations may be gained from the statement that they consume 800,000 tons of coal annually, and require 200,000,000 staves every year to make the barrels in which their product is put upon the market.

The American Sugar Refining Company is popularly known as the Sugar Trust. The principal seat of its operations is in Brooklyn, where it has a mile of water front on the East river, every bit of which is utilized, being covered with mammoth buildings and storehouses. The trust also has extensive refineries in Jersey City, Baltimore, New Orleans, Philadelphia, Boston and San Francisco and absolutely monopolizes the industry of the country. Its capitalization is \$75,000,000, and its annual product is perhaps more than twice that amount.—San Francisco Chronicle.

To My Patrons:

It gives me much pleasure to announce that MR. M. R. COUNTER, one of the most skilled watchmakers ever in these Islands, is now managing my repairing department. No watch is so complex in its mechanism but we can give perfect satisfaction in correcting the evils to which watches are heir. Watches are delicate things to handle. We guarantee that they will receive no injury at our hands and will leave our store in perfect repair. Respectfully,

E. A. JACOBSON,  
507 Fort Street.

## SUGAR IN AMERICA.

Elsewhere is reproduced an article on "Sugar" from a history of American industries lately given by the San Francisco Chronicle. It shows an enormous increase in sugar consumption in the United States. If this increase continue, as it is not unlikely to do, the probability is that domestic supply will have a stern chase of the demand for many years yet. This is a comforting reflection for Hawaii. It is surprising, however, to see from that quarter a statement that the matter of the profitable pursuit of beet sugar making in California is as yet problematical. This is what the BULLETIN has held all along, but never expected any support for the belief from California. What at present chiefly calls for anxiety on the part of Hawaiian sugar producers is uncertainty respecting the policy of the United States respecting sugar. The Democratic party is blamed for giving the home production a setback by abrogating the bounty. Will the Republicans, when they have full swing again as is likely to be the case, restore the bounty and abolish the raw sugar duties? This would destroy the benefits of the reciprocity treaty to Hawaii, as the same policy did before.

An exchange notes that France, after twenty-eight years, has a chance in the Tynan case to get even with England for her protection of one of the Orsini conspirators who had been arrested at the instance of the French Government. This conspirator's name was Simon Bernard, and his complicity in the bomb-throwing crime against the Emperor and Empress of the French, it is said, was as clear as that of Tynan in the present dynamite plot.

Cuba is being discounted by the Philippine Islands in deeds of blood.

## LATEST FOREIGN NEWS.

Continued from 1st Page.

The dispatch adds that over a hundred insurgents who had been captured by the Spaniards were flung into a small dungeon at Manila. The next morning fifty-four of the prisoners were found dead, having been suffocated during the night.

The Spaniards, with the object of striking terror among the sympathizers of the insurgents, make it a practice to execute their prisoners publicly. The men are taken out in batches and shot before the eyes of anyone who desires to witness their death.

The dispatch further says that the insurgents are making headway in the interior.

## DEFEAT OF THE MATABELE.

A dispatch to the Times from Fort Salisbury, Matabeleland, and dated Saturday says that Major Janner has completely beaten Umtegeza's tribe, numbering 5000 men, at Fort Charter, and has captured all his strongholds. Umtegeza's men surrendered.

## NEW JAPANESE MINISTRY.

Count Matsukata has been appointed Premier of Japan in succession to the Marquis Ito, who resigned on August 28, and who was followed by the rest of the Cabinet on the next day. In the new Cabinet the Count, besides holding the Premiership, becomes the Minister of Finance, which position he also held in the late Cabinet of Marquis Ito. Viscount Takashima is appointed Minister of War and Count Okuma Minister of Foreign Affairs.

## TURKEY.

A great lot of explosives has been discovered at Pera.

The Herald correspondent is authorized to contradict the rumors that the powers are asking permission for the entry of a fleet in the Bosphorus. It is entirely unfounded.

The Turkish authorities have put a stop to the deportation of Armenians, which has been going on since the recent fatal riots in Constantinople.

Lady Henry Somerset writes from Marseilles an appeal to the London Daily News to collect the funds to send the refugee Armenians to America. The Daily News also prints an appeal from Miss Frances Willard to her sisters in America on the same subject, and in an editorial the same journal rejoices to be able to assist in such a project.

The Daily News announces that Nuber Pasha, the well-known Egyptian statesman and formerly president of the Egyptian Council of Ministers, has donated £400 to the Armenian relief fund.

A Constantinople dispatch to the Daily News says: The United States Legation has received news from one of its Consuls of a serious massacre at Ehu, in the district of Kharpoor.

Eight thousand persons attended a meeting at Manchester, England, to protest against the Turkish treatment of the Armenians. The Bishop of Manchester presided at the meeting.

The French Admiralty Office is making inquiries as to the time that would be occupied in fitting out three ironclads in view of the menacing situation in Turkey.

## THEATRICAL COMPANY.

Due from San Francisco by the Australia Today.

Melville Marx of the Columbia Theater management will be a passenger on the steamer Australia, which sails for Honolulu tomorrow morning, says the San Francisco Chronicle of the 21st inst. Mr. Marx goes to the islands in advance of the Frawley company, which will open Honolulu's new opera house the latter part of October.

Behind Mr. Marx' trip is one of the biggest theatrical ventures that has been contemplated in some years. San Francisco has been heretofore considered the "jumping off" place for Eastern attractions which can only get away from New York in the summer months, when the theaters are closed, but now the Columbia management proposes to include in the Western tour Honolulu, and have entered into negotiations with Musgrave & Williamson of Sydney and Melbourne, with a view of extending the bookings to Australia.

The Chronicle gives a description of Mr. Irwin's new theater here, praising it for being "as handsome and cozy a temple of amusement as any theater on the Pacific Coast," and adds:

The Frawley company will play for three weeks in Honolulu, opening in "The Great Unknown," which had such a remarkable run at the Columbia. Following this will be put on "The Two Escutcheons," "Charity Ball," "Men and Women," "The Wife," "Brother John," "His Wife's Father," "The Senator," "Lord Chumley," "Moths," "Captain Swift" and others.

Revere Garden Hose has established a lasting reputation for superiority. The 3 ply granite brand will last longer than heavier 4 ply hose made of inferior materials. The Pacific Hardware Co., Ltd.

## Timely Topics

CONTAINING TWO STORIES AND ONE MORAL.

A New England Congressman recently sent one of his constituents a package of flower seeds for the latter's wife, and received a genuine Yankee acknowledgment. The latter thanked the member for the flower seeds so kindly sent, "including sweet peas and other varieties of long, unpronounceable, unintelligible, romantic names. We have planted the seeds," the letter continued, "and if they grow we will use the names to train the vines on."

In the same connection one tells at the capitol of a visitor to a committee-room who found a Congressman's clerks busily directing seed packages. "What are you doing?" the visitor asked.

"Sending out garden seeds," was the answer.

"Seeds?" said the other. "This late in the season you ought to be sending out vegetables."

You may think it hard to find the moral to the above stories but we know better. It is concealed in the oven of one of our lately imported

MODEL ST. CLAIR WOOD STOVES.

You buy the stove and we throw in the moral. These model St. Clairs are truly "model," for they are perfect. They have every convenience, including spacious oven, and in addition a commodious hot water tank situated at the back of the stove. A six-hole cooking surface is sufficient to do the cooking of a large family and these stoves are built for that purpose. They are solid and substantial, are tastefully ornamented and sell for \$50.00.

Should you prefer a range we can recommend the "Golden Anvil" as the best made. These are built of steel throughout and burn either wood or coal. We have them in two sizes, \$50 and \$65.

You may need a handy lantern for the barn. We have them with glass oil containers instead of tin. They are much neater, cleaner and nicer than the old style and your fingers won't smell of Kerosene after handling them. They only cost a dollar.

FROM PETER C. JONES.

Sale of Hawaiian Bonds Dependent on McKinley's Election.

Hon. P. C. Jones writes from New York that capitalists of that city agree to take the entire issue of the new Hawaiian bonds on November 15th—provided that McKinley is elected. If Bryan should be elected the New York bankers will have enough to do to look after their own securities without investing in outside ones, according to Mr. Jones, who mentions among other things that every dollar of the \$20,000,000 in gold received from England in the last few weeks is being carefully hoarded by New York bankers in anticipation of the general panic which is feared will follow the election of Bryan.

The objection to granting Mr. Jones further time in the matter appears to be that the delay will cause a loss in interest to the Hawaiian government, as the old bonds may have to run until the 1st of July next year, owing to the shortness of time allowed for notifying the English bondholders that interest will cease on January 1st. According to Minister Damon official notice must be given in London by November 20th at the very latest that the bonds will be called in and interest cease on January 1st. This only allows five days between the time the New York bankers take the bonds and the time publication must be made in London. And the whole matter is dependent on the election of McKinley. Minister Damon will probably refer the solution of the difficulty to the Cabinet after he has wrestled with it for a time.

## J. T. WATERHOUSE

The foreign budget by the last mail is of a character that should set politicians to guessing on the result of the November election. Maine comes to the front with a big plurality for the Republican candidates. Then comes Arkansas with a big Democratic majority and a jubilee. Maine has six votes in the electoral college and Arkansas eight, so that the stand off is in favor of the Democrats. Every one in the Hawaiian Islands is interested in the result—it means either the rise or fall of the Hawaiian Republic according as the Tariff may be tinkered.

To counteract any evil results of the election whichever way it may go the duty of the merchants of Honolulu is to provide themselves with a stock of goods that will be a guarantee of low prices to their customers.

Prices will never be lower than we sell goods for today, but they may be higher, particularly in the grocery line. Buying direct from the manufacturers and saving middlemen's prices enable us to sell at low rates, our customers get the advantage of what we save in our purchases.

We offer you today another lot of Oak Brand Asparagus, Sugar Peas, Sugar Corn. A fresh supply of Salt Salmon in barrels and half barrels, Mackerel in kits, Evaporated Fruit in boxes, Acme Smoked Beef, Salmon Steaks, Roast Turkey and Chicken in tins, Onions and Potatoes always on hand.

Salvation Army Tea.

IMPORTANT: There are very few things more hurtful than common tea. An eminent English doctor once said: "If the public gave up drinking common tea, the occupation of one-half of our profession would be gone." Good tea, however, is refreshing and stimulating, and in introducing this article to the public, the officers of the Salvation Army have taken great pains to secure a tea, which can with the greatest confidence be recommended as being of the very highest standard of excellence, and have decided to sell it at a price within the reach of everybody, and although it will leave us a very small margin of profit indeed, we are satisfied, knowing that what we sell is sure to give satisfaction. Sold in 1/2 lb packets. Memorial Mixture, English Breakfast, Young Hyson, Japan, Oolong, Gunpowder, 30c; Auxiliary, 35c. Telephone 755. H. Cannon, Palama Grocery, opposite Railway Depot, sole agent for the Hawaiian Islands.

The Criterion Saloon is a pleasant place to go to and its greatest attraction is the pure, cold Seattle beer on draught there. It makes one's mustache curly and puts new life into the failing consumptive.

The "New Ideal" Sewing Machine sold by the Pacific Hardware Co. is warranted for five years. It takes the same shuttle, needle take up, bobbin winder and has the same feed as the "New Home." The Pacific Hardware Co.

In consequence of the increased volume of business with Hongkong the Yokohama Specie Bank, who have hitherto been doing their Hongkong business through their correspondents, the Banque de l'Indo-Chine, have opened their own branch there on the 1st inst., the manager being Mr. N. Nabekura, late of San Francisco.

## Cures Talk

"Cures talk" in favor of Hood's Sarsaparilla, as for no other medicine. Its great cures recorded in truthful, convincing language of grateful men and women, constitute its most effective advertising. Many of these cures are marvelous. They have won the confidence of the people; have given Hood's Sarsaparilla the largest sales in the world, and have made necessary for its manufacture the greatest laboratory on earth. Hood's Sarsaparilla is known by the cures it has made—cures of scrofula, salt rheum and eczema, cures of rheumatism, neuralgia and weak nerves, cures of dyspepsia, liver and kidney troubles, catarrh and malaria.

Such Cures as This Prove Merit.  
"My little nephew was a plump and healthy baby until a year and a half old, then sores broke out behind his ears and spread rapidly over his head, hands and body. A physician said the trouble was scrofula humor in the blood. The child became one complete sore. We had to restrain his hands to keep him from scratching the sores. We were induced to try Hood's Sarsaparilla, and in a short time he had more life. He improved rapidly, his skin became entirely clear of sores and he is now a healthy child." MRS. FLORENCE ANDREWS, Clearfield, Iowa.

## UP TO DATE STATIONERY.

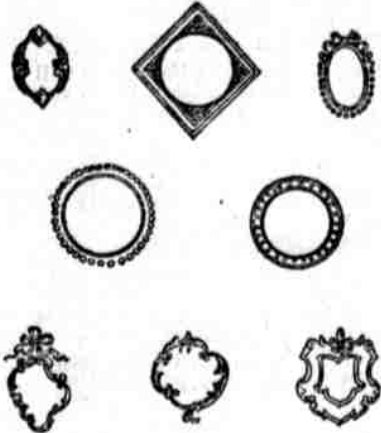

Oval, Diamond and Fanciful Dies—Summer Address Dies Are Stamped in Colors.

The craze for circle dies—the Parisian idea of inclosing tiny monograms and ciphers within plain single and double lines—has extended to ovals, diamonds and fanciful frames of various artistic shapes composed of small beads, dots, wavy and anything but circular lines. Wreaths, brackets, garters, fancy shields, ovals and circles surmounted by bowknots or crests are observed on note sheets in every conceivable color and bronze tint, some of one plain color, while others are blended in several shades.

White paper of the parchment finish is preferred above all other qualities for the notes of social correspondence now used by those who aspire to be in the fashionable world. It is indicative of good taste, and affords an excellent background for the various colors and bronzes in which address, monogram and arms dies are impressed, and proves to be most effective under the inscription of good black ink, which is the proper ink for ladies' notes.

There are a few other decided favorites, however, that do not lose their popularity. Linen papers, slightly rough, in white and cream, have long been used, the fine laid lines lending character, while the surface is pleasant for stub pens.

The perfectly smooth paper with the glass finish is also much used. There is really nothing more fascinating than a

THE LATEST IN THE DIE PAD.

billet of spotless white, glazed surface, the quality about 70 pounds to the flat ream, an address or monogram embossed at the top center in gold bronze.

Bond papers—these flexible sheets, roughened as checks and bonds used in the commercial world—find favor with many. Their lightness in weight, particularly the 16 and 21 pound, is adapted for foreign mails. Young ladies affect the bond paper of a light blue tint, which, with a monogram embossed in silver or a darker blue bronze, is very stylish.

Another paper popular with young ladies is called the "old style." It has a shadowy surface of undulations resembling a slightly ruffled sea, which, while in appearance rough, is really quite smooth. The "etching" finish is of indefinable pock marking, a trifle rougher than the parchment, and once was a very great favorite. A paper resembling linen cloth, and called "homespun linen," is handsome, but somewhat difficult to write upon, except with a slightly stub pen.

"Scotch granite" holds its own, owing, no doubt, to its English popularity, it being extensively used on the "other side." It is a smooth, greenish gray with minute blue thread fibers sprinkled over the surface.

The Ladies' Home Journal, authority for these fashions in stationery, further tells that address dies are being stamped in colors more than bronzes. The latter cost just double, and as so much stationery is used in summer houses for informal notes it does not always pay to go to the extra expense. Then the sea green, blue gray, mauve, antwerp blue and lavender tints seem cooler than the sterner ones of copper, gold, fire and crimson bronzes.

## Pabst Is Its Name.

Climate of every variety exerts a different influence on the desires of mankind for a stimulant. In colder zones beverages of great alcoholic strength are used to a very much larger degree than in the tropics. Beer is best suited to our climate and none found in the market is better than that bearing the brand of "PABST, MILWAUKEE." It is brewed from the best of malt and hops and is a great thirst quencher and invigorator and stimulates the nerves and muscles. At the Royal, Cosmopolitan and Pacific saloons it may be found, cold and pure. Interchangeable checks are issued which may be used at any of the three resorts.

## JUDICIAL JOTTINGS.

Items from the Clerk's Office—Supreme Court Decisions.

Judge Perry is hearing Sumner vs. Crandell this afternoon.

Two creditors proved claims amounting to \$885.21 against Walter A. Wright of Waimea, Kaula, and T. J. King was elected assignee.

Divorce suits have been filed by Charles Joseph Faneuf against Ida Mabel Faneuf, and by Lechandra Fernandez against Manoel Fernandez.

The Supreme Court has rendered a decision on the ejectment case of Halioka Squires, Frances E. Jackson and Andrew P. Jackson her husband vs. Gaspar Sylva. It was originally heard by Chief Justice Judd, jury being waived, and a decision for the plaintiffs was given. Exceptions were taken by defendant, on which the case was submitted to the Supreme Court. Attorney J. Q. Wood sat in place of the Chief Justice and is the author of the Court's unanimous opinion. The exceptions are overruled, the findings not being clearly contrary to the evidence. Castle for plaintiffs; Hartwell for defendant.

## IN THE POLICE COURT.

George Houghtaling On Trial for Exposing Liquor for Sale.

In Judge de la Vergne's Court this morning the trial of George Houghtaling has been the main attraction. He is this time charged with violating Section 1, Chapter 56, Laws of 1886, in Honolulu, during one week prior to and including the 20th of September, more particularly on the 20th, by exposing for sale certain spirituous liquors without having a license to sell the same, in a certain house in Honolulu.

For the defense a plea of twice in jeopardy was entered by Charles Creighton, the defendant's attorney, and overruled. The defendant, under the instructions of his attorney, declined to plead and the court ordered a plea of not guilty entered.

Two witnesses were examined for the prosecution, which closed its case at noon. The case will be continued this afternoon.

## Beautiful Sights at the Anchor.

Anyone entering the Anchor saloon during business hours, or in the evening, is immediately charmed by the handsome array of game birds—teal duck, mallard, quail, grouse, etc.—which decorates the bar. They are all stuffed as you will be, with rich, nourishing beer, cold and clear, and with the palatable viands of the lunch counter. The Seattle beer, Frederickburg beer, fine wines and liquors are of the best quality and always fresh. Every Australia brings a large consignment and Mr. Cunningham uses every idea which his massive brain suggests, to please his patrons. The Anchor is now the most popular saloon in town. 1 and 3 King street.

Singers lead the world. Over 13,000,000 made and sold. Highest awards at the World's Columbian Exposition for excellence of construction, regularity of motion, ease of motion, great speed, adjustability, durability, ease of learning and convenience of arrangement. B. Bergersen, agent, 163 Bethel streets.
