

HE THINGS IT AGAIN

Humphreys Goes For McBryde Bonds.

(From Wednesday's daily.)

THE RUIN OF THE PLANTATIONS as now conducted in Hawaii, would, in the end, be the greatest blessing that could befall the Islands. True, it would work a great hardship for a few years and many people will stare financial ruin in the face, but it would be the means of saving the Islands to a brighter and better future, just as the civil war, which destroyed slavery, impoverished the South for a time, but later opened up the country to new riches and to a brighter and richer future than the old South ever dreamed of. Editorial in A. S. Humphreys' newspaper, printed on Aug. 14, 1901, and in line with the sentiments personally expressed by him in an interview at New Orleans.

McBryde bonds, which for some reason have been the basis of Judge Humphreys' attacks, were highly commended in his presence yesterday upon the further hearing of the annual report of A. W. Carter, trustee of the property of Annie T. K. Parker. He had invested \$25,000 in McBryde Sugar Co. bonds, and the investment was informally disapproved by Humphreys, who claimed that the minority bondholders were insufficiently secured by the trust deeds, though the master, F. J. Russell, had reported otherwise. In order to prevent an appeal Humphreys has so far neglected to file his opinion, though four months ago he promised to make it immediately. Consequently no order has been made and the bonds are still held by the Parker trustee. The wisdom of investment in such bonds was testified to yesterday by half a dozen prominent business men and bankers, summoned by Humphreys upon his own motion, but yet at the conclusion of the hearing, he swept aside all the testimony and again disapproved the investment. He promised again to put his decision in writing in case the trustee wished to appeal, which action may be decided upon today.

There was an astonishing unanimity of opinion among the experts as to the safety of McBryde bonds as a trust investment, and none of the witnesses called by the court had aught but favorable words for the plantation, and the superiority of the investment in such bonds over real estate mortgages. The witnesses called at yesterday's supplementary hearing were F. M. Swanzy, W. H. Baird, E. H. Wodehouse, A. W. Carter, J. O. Carter, H. E. Walty and S. C. Allen.

Trustee Carter, in answer to the court's questions, explained why he had invested in McBryde bonds. He said that he considered such bonds safer even than real estate mortgages, from the fact that real estate was more liable to depreciate in value, that titles generally were faulty and that the security offered did not always cover the amount of loan wanted. He said on the other hand that the sugar industry was upon a permanent basis and he considered such bonds as much better investment than mortgages on real property. He said he had even paid a premium upon the Hawaiian Railway and Waiwala Plantation bonds, while the McBryde bonds had been obtained at 95.

S. C. Allen testified that he had invested \$75,000 in McBryde bonds and considered it an excellent investment. The other witnesses testified to practically the same matters as did Carter, all agreeing that the bonds were a safe investment.

Judge Humphreys took an entirely different view, not passing at all upon the question of sufficiency of security. He held, however, that the trust deed did not sufficiently protect the minority bondholders, and that the investment of bonds was practically a delegation of authority on the part of the trustees to the McBryde company. He agreed to file a written opinion in the matter in case the trustee wished to appeal, and ordered that the \$25,000 be charged to Mr. Carter.

BEFORE JUDGE ROBINSON.
The case of Kahaleanahu vs. Pereira for measurement of dower was concluded before Judge Robinson yesterday afternoon, and submitted on the evidence, the attorneys to file briefs within ten days.

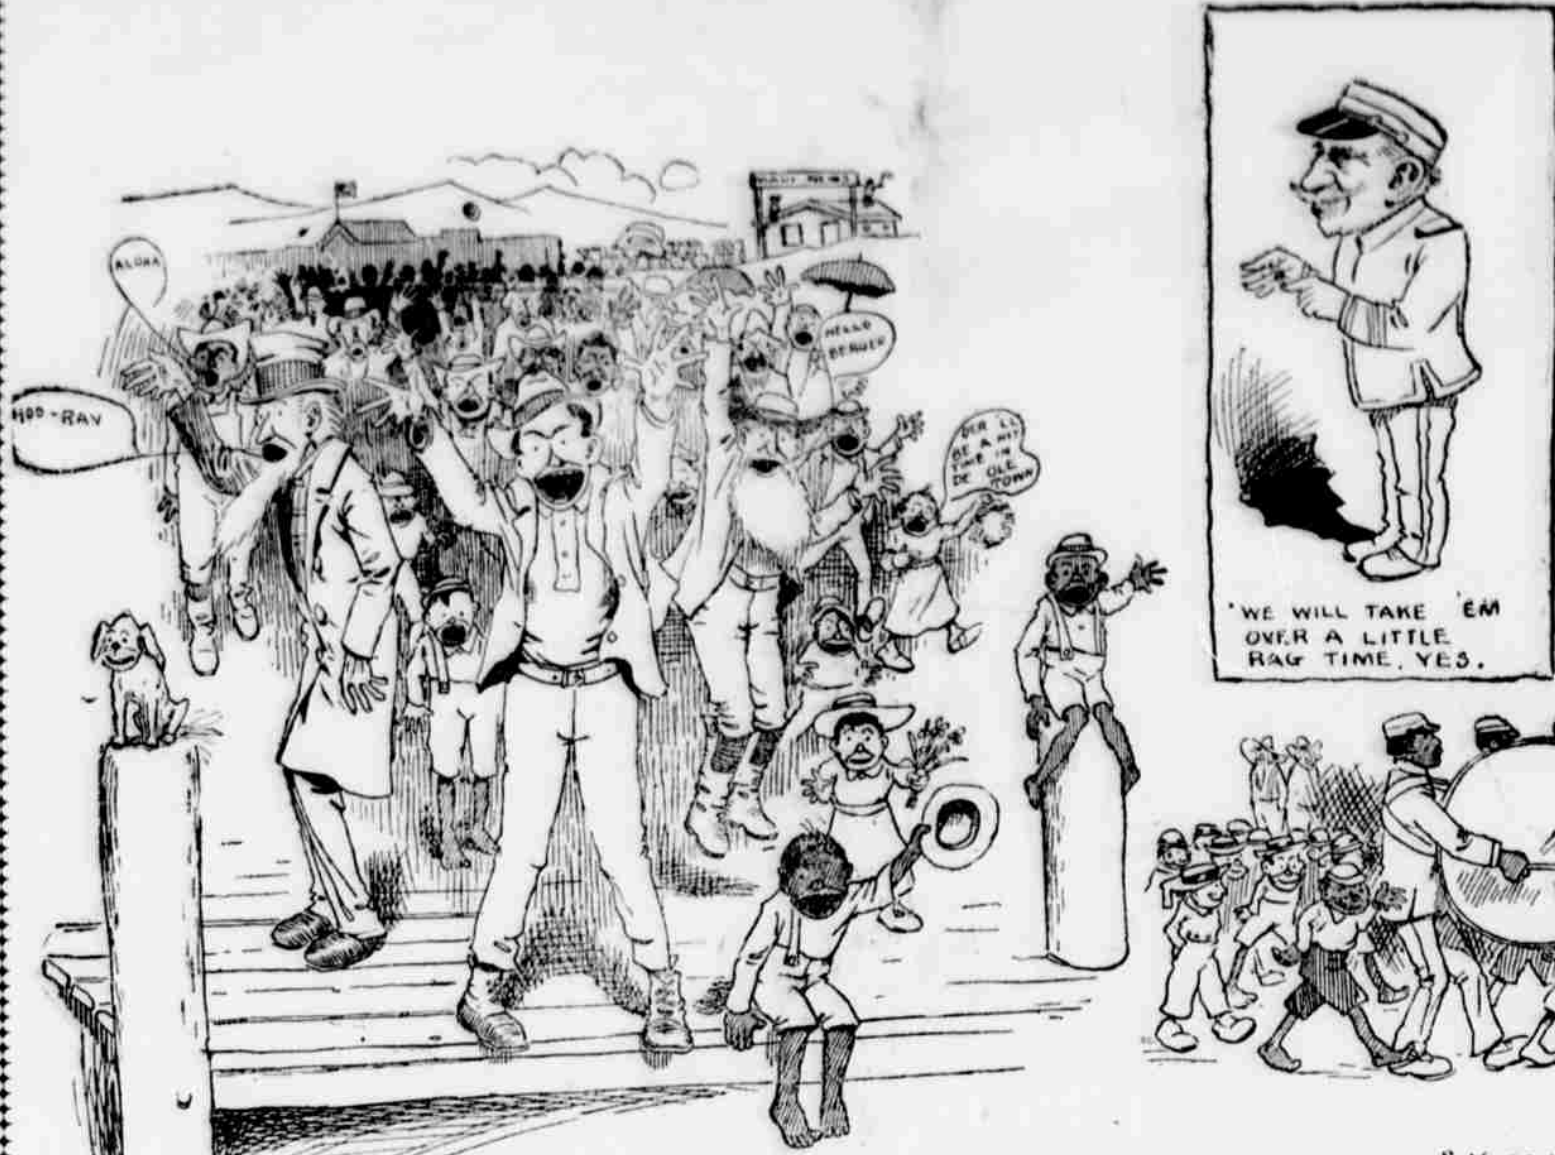

DISTRICT COURT APPEALS.
Appeal has been taken from a decision of Judge Dickey, giving judgment for plaintiff for \$87.16 in the case of T. H. Davies & Co. Ltd. vs. Nakabayashi.

An appeal has been taken also in the case of Ching Heong Mow vs. Hee Cho, wherein Judge Dickey found for defendant. Plaintiff sued to recover \$225, which he claims he paid to defendant for certain shares in the firm of Leong Yick Chan, and which defendant failed to deliver. The company claims to have repaid the money to plaintiff.

In the case of Kona Trading Co. vs. Mrs. Meleana Davis an appeal is noted from a judgment in favor of defendant. The suit is for \$110.06 for goods alleged to have been purchased by defendant, but which she denies.

DESKY ANSWERS.
An answer has been filed in the case of J. F. Colburn vs. C. S. Desky. In the accompanying affidavit the defendant alleges that the plaintiff is not the legal holder of the promissory note referred to in the complaint.

WHEN THE BAND REACHES MAUI

AND THE MAUI MULTITUDE WILL COME FORTH AND SHOUT "HOO RAY!"

HARRIS ELECTED BY LARGE VOTE

The Republicans In Fourth Win.

W. W. HARRIS was chosen to fill the vacant seat in the Legislature from the Fourth district yesterday, by a majority of 267 votes in a poll of 1557. The total vote shows 881 for Harris and only 674 for his opponent, August Dreier, who, running on the Home Rule ticket, had the endorsement of the Democracy.

If there were needed any evidence of the popularity of Governor Dole, and all day speeches were being made by some of the Home Rule watchers, and once or twice there were arguments so heated that Republican watchers separated the debaters to prevent any exchange of forceful arguments. The one hundredth vote was cast at 11:47 o'clock, and at 2 p. m. there were 171, at 3 o'clock 198, and at 4 o'clock 228. It took only twenty-five minutes to count the votes, and twenty were rejected owing to faulty marking. More than half of this number were meant for Harris votes. The winning of the precinct by a clear majority of 4, when the combined vote should have given a fashion majority of 77, was most grateful to the workers of the party in the district.

The first indication that there would be a great Republican victory came in the early hours, when the business men began to vote before going to their offices. In the First precinct the first vote was taken two minutes after the polls opened at 8 o'clock. In the Second there were waiting business men who wished to vote as soon as the officials were ready to record their ballots, and the same conditions were apparent in the Fourth and Third. How complete the victory was is shown by the fact that the combined votes of Democrats and Home Rulers should have carried each precinct and given the place to Dreier by 278. But as the result will show the fusion candidate carried only three out of the seven precincts; his greatest majority in any precinct was 41, in the Third, and the Republicans gained in every one of the precincts, not making any sensational gains except in the Second, but polling a great majority of their registered votes all along the line.

In the First precinct the balloting began early and nearly half the votes, 114, were in the box by noon. There was a crowd about the polls nearly all day, among the first to arrive being a party of native citizens, from out Palolo way, men who had been in the ranks for the Republicans two years ago, but who said to leaders when they were asked as to their intentions, that they

	Reg- is- tra- tion.	1900 Dole Kawa- nana- hon	1900 Wilson Giffillan	1900 Mac- far- lane	1902 Harris	1902 Dreier
1st Precinct....	443	202	54	152	187	93
2d Precinct....	911	474	98	236	445	151
3d Precinct....	323	77	73	138	74	85
4th Precinct....	659	358	119	112	330	172
5th Precinct....	531	156	78	193	140	92
6th Precinct....	199	106	36	30	103	48
7th Precinct....	37	7	8	18	7	9
	3106	1380	466	879	1286	650

were for Dreier, "Aloha Aina." The orator was in attendance too, and all day speeches were being made by some of the Home Rule watchers, and once or twice there were arguments so heated that Republican watchers separated the debaters to prevent any exchange of forceful arguments. The one hundredth vote was cast at 11:47 o'clock, and at 2 p. m. there were 171, at 3 o'clock 198, and at 4 o'clock 228. It took only twenty-five minutes to count the votes, and twenty were rejected owing to faulty marking. More than half of this number were meant for Harris votes. The winning of the precinct by a clear majority of 4, when the combined vote should have given a fashion majority of 77, was most grateful to the workers of the party in the district.

The Second precinct has the largest registration in the district. It is the precinct with the largest haole citizenship, the stronghold of the friends of Governor Dole, and the scene of the hardest battle of those friends to make the endorsement of his policy substantial. The total vote cast in this precinct in 1900 was 843, and the majority of Giffillan over the combined opposition was 47. The total vote cast yesterday was 452 and the majority of Mr. Harris, in his own precinct, was 146, or a majority of 106 more than that given to his predecessor.

The voting there showed the interest of the Republican business men in the success of the Republican party, especially after there had been injected into the fight the feature of making it an endorsement of Governor Dole and his policy. Two hundred votes had been cast by noon and 375 by 4 o'clock. The noticeable feature was that the haoles outnumbered the Hawaiian voters by two to one all through the day, and the small showing of Dreier was astonishing to his friends, who had counted upon a large vote for him out of the business men's ranks. Eleven votes were rejected.

The Third precinct is an admitted Home Rule stronghold and the efforts of the Republicans in that section were great. Something like 75 voters were brought to the polls by the Republican carriages, and though only 61 votes were secured there was no hard feeling over the fact that some Home Rulers had a ride. At the last election there was a Home Rule and Democratic vote there of 215. This was 141 more than the Republicans could muster. Yesterday, by reason of the hard and consistent work and the rallying of the friends of good government, the hundred was clipped off the majority, despite the fact that the polling was only half the total vote of the precinct. There were fifteen faulty ballots.

It was left for the Fourth, Governor Lolo's home precinct, to make the startling change of form. The majority of the Republicans in that precinct, according to the figures by which the late representative was chosen, was only 33 over the combined parties. Yesterday, with only 313 votes cast, this majority was stretched to 101. The neighbors of the Governor were out in strength, and left no stone unturned and no votes at home. The polling began early and was kept up with regularity all through the day. There were a number of carriages at work and they brought men who could steal away from their business to vote, and returned them to their offices without loss of time. There were seventeen rejected votes, of which a round dozen were meant for Harris.

In the Fifth district there was a battle royal, and the cutting down of the fusion vote was a testimonial to the popularity of the policy of Governor Dole, the presence of Candidate Harris and the hard work of Capt. Johnson, which shows more strongly than perhaps any other district. In the last election the vote for Giffillan was 140, while the combined vote of Macfarlane and Quinn was 233. Yesterday Harris received 134 votes, a loss of only

They Will Ratify by Great Mass Meeting.

REPUBLICANS will celebrate their victory on Friday evening with a great gathering of the members of the party. The plans adopted at a meeting of the Fourth district committee last evening call for a meeting of representatives of the various precincts at Union square, on Friday evening when the line of march will be taken up to Emma square, where there will be a ratification of the election of Harris.

There will be a band, and the people will be asked to divide themselves into companies, so as to make a showing of the strength of the party in the various precincts. The workers of the Fifth district will be asked to participate in the celebration, and such well known Republicans as Achi, Lane, Coelbo and others will be given places in the line and upon the platform. There will be speeches by the leaders and music by the special quintet, and the evening will be made more than a mere celebration.

The meeting of the district committee was witnessed somewhat by the presence of several members of the Territorial committee. Votes of thanks were passed to Chairman Kennedy of the Territorial committee and Chairman Gear of the District committee, which brought from both responses, in which they congratulated the Republicans upon their victory. The bills of the election were all paid before the meeting closed. The committee adjourned to the call of the chair.

Floods in the West.

BUTTE, Montana, April 1.—The railroad situation is such as to cause much apprehension among the merchants of the State who fear great losses by reason of freight tied up in the blockades existing in North Dakota. Between Havre and Williston on the Great Northern the whole country is flooded and traffic on that road is practically at a standstill. No trains have arrived in Butte from the East for several days and all are reported indefinitely late. Traffic on the Northern Pacific is still at a standstill with little prospect of relief. West of Havre the tracks are clear and trains are running on schedule time.

PLANS WORK FOR HAWAII

True Gives Idea of Agricultural Bureau.

DIRECTOR JARED SMITH received a letter by the Sheridan's mail from A. C. True, director of Experiment Stations at Washington, outlining the work to be done in Hawaii, and complimenting the results already accomplished through the efforts of Mr. Smith. Director True is opposed to permanent sub-stations in other parts of the Islands, but writes that the Department is willing to co-operate with private individuals as long as the work remains in the control of the Department, and does not involve too large an expenditure of government funds.

Director True is still hopeful of securing the increased appropriation of \$15,000 for this year, and Mr. Smith is directed to submit plans for the year's work on that basis, and also on the \$12,000 basis.

Attention is directed particularly to experiments with coffee and tobacco, and the letter, which contains much information of value, is reproduced here-in in full:

United States Department of Agriculture, Office of Experiment Stations, Washington, D. C., March 27, 1902.
Mr. Jared G. Smith, Honolulu, H. T.
Dear Sir:—I have received your letter of March 7, regarding co-operative experiments in tobacco culture in the Kona district on the Island of Hawaii, and with coffee on the plantation of the Louisiana brothers in the Hamakua district. I am in favor of co-operative experiments where they can be arranged for on terms suitable to our means and giving us complete control of the experimental work and results. They should of course be conducted with reference to the public as distinguished from private interests. We should be at liberty to withdraw from the work whenever in our judgment the object for which it was undertaken has been attained, and it should be clearly understood that we can not enter into contracts involving any expenditure of funds beyond the fiscal year for which our appropriations are made by Congress. It should also be understood that we have established only one experiment station in the Hawaiian Islands and that these co-operative experiments are in the nature of special outlying investigations and should be careful not to create the impression that we are pledged either to communities or individuals to establish permanent sub-stations. There is always danger of dividing our work up into too many pieces and not having funds enough to carry out thorough work anywhere. That has been the general rule where sub-stations have been established, and as you know, I have opposed such a policy of subdivision for years. Every locality will plead that its conditions are so different from those of other localities that it must have a separate station. This perhaps would be well enough if we had unlimited funds, but with the prospects in that direction which we have in sight, we shall evidently have to carefully husband our resources to do first class work in even a few lines. I am not desiring to invest any money in the work should be done at Honolulu, especially as you do not think the conditions on the station reservation are favorable for such work. We may, therefore, properly restrict the work at Honolulu largely to laboratory operations and the general work connected with the preparation of publications, dissemination of information, etc. We will thus be able I hope to carry on field operations through co-operation or otherwise in a few well selected localities outside of Honolulu.

When we take up a subject like the culture of tobacco or coffee, I would prefer to treat this thoroughly, doing work simultaneously in a number of different places. The problem is to select a few lines of work and devote ourselves thoroughly to these for a certain number of years. By so doing we undoubtedly have to resist appeals of all sorts to scatter our energies in various directions, but it will in the end be better for us to struggle along this line than to do superficial work and find after a time we are not getting any results of value. Consider the station as a permanent institution which is to work in the interests of Hawaiian agriculture for all time, we must not expect to solve very many problems from year to year. By working steadily, undoubtedly results of value will accumulate and people will be able as time goes on to see more and more that the station is a useful institution.

Between now and the first of July I would like to have you submit a plan for the work and expenditures of the station during the coming fiscal year. Make it first on the basis of the current appropriation—\$12,000—and then on the basis of \$15,000, which I still hope we shall get.

I do not think you should be discouraged with the outcome of your work thus far. You have done a good thing in getting the station established, buildings erected and preparations made for the work. It will of course be a trying time for you until the end of the fiscal year, due to the exhaustion of our funds, but I have no doubt you will be profitably engaged in planning future work, and it will thus be easy to push things along when money becomes available. From all I can learn the people in Hawaii are considering your work in a more favorable light, and I feel sure that their approval will increase as time goes on.

Very truly yours,
A. C. TRUE, Director.

(Continued on Page 6.)

TALKING OF EARLY PEACE

An Important Boer Conference Now On.

PRETORIA, Monday, March 31.—President Steyn and General Delarey have been located and a meeting between them and Acting President Schalk Burger is expected to be arranged without further delay. It is reported that General Botha will also attend the conference.

Commandant Mears has sent in word that his command will abide by the decision of the Boer Government.

Commandant De Villiers, who has been operating in the Kimberley district, has sent in a flag of truce, asking for terms.

The peace movement, however, has in no way interfered with the military operations. The British are again sweeping the northwest districts of the Orange River Colony, where, it is believed, they have about a thousand of General De Wet's men within the cordon.

HEIDELBERG, Monday, March 31.—Commandant Alberts called a meeting of the Boers in his district to take place thirty-five miles east of the Springs Station, in order to discuss the proposal for a general surrender. It is said that General Hans Botha has summoned a similar meeting at Amsterdam.

A party of constabulary and native scouts was ambushed near here March 30. Six of the party were killed. The Boers eluded pursuit.

Surrenders are occurring daily in the Standerton district.

PRETORIA, April 1.—Thirty-nine British soldiers were killed and forty-five injured in a railroad wreck March 30 near Barberton, Transvaal Colony.

LONDON, April 1.—The War Office, in reporting the railroad wreck at Barberton, Transvaal Colony, merely says that it was accidental. The victims all belonged to the Hampshire regiment.

THE POLICE ARE DOING THEIR DUTY

NEW YORK, April 1.—Continued agitation over the non-enforcement of the excise laws in this city and the facility with which liquor may be purchased on Sunday, has led to what has been termed a revolt among the patrolmen of the police force. When the charge has been made that liquor was being sold with the full knowledge of the patrolmen, their defense has been that if they should report violations of the law and close saloons they invariably were transferred to less desirable posts, through the exercise of "pulls." However, the patrolmen in one district realized that they were violating their oaths for failing to do their duty and on Sunday reached an agreement to bid defiance to the old influences. Their action in reporting all violations of the excise law caused a panic among the liquor dealers.

Apparently, this was only an opening wedge, and now the police of another district have followed suit and a fresh batch of summonses has been issued from Jefferson Market Court.

Those who have been exercising "pulls" in the past are now wondering where the sudden revolt will end.

It is stated that the Commissioner of Police, Colonel Partridge, and Attorney Jerome, will give the men moral support and protection in the fulfillment of their oaths.

ATHLETES GUARD CHICAGO POLLS

CHICAGO, April 1.—Eighty of the most muscular and brawny college athletes who could be found in Chicago have been chosen by the Municipal Voters' League to act as "watchers" at the polls in the first ward today and to head off all attempts at illegal election tactics. This ward embraces the levee district of Chicago.

Football players have been most in demand for the purpose indicated and the bulk of the "watcher" company is composed of the biggest and most muscular heroes of the gridiron that could be found. These men have been chosen because they are used to rough tactics, and could offer strong resistance if force became necessary in their duties for the day. Their physique is expected to have a generally deterrent effect on the bullies of the ward.

These athletes have been drawn from Northwestern University, Northwestern University Law School, Morgan Park Academy, and from the lists of those who have recently graduated at colleges and universities.

Among the athletes who will guard the polls are Right Guard Charles Gibbons Flanagan of the University of Chicago; John E. Webb, a former tackle on the University of Chicago team and former Captain Edward Deltz of Northwestern University.

YANKEE AUTO'S FOR SOUTH AFRICA

NEW YORK, April 1.—American automobiles, motors and motor bicycles are said to be in demand by the engineer corps of the British army for use in the South African campaign. Several manufacturers in this country have been requested to send specifications and prices of vehicles and motors at once to a captain of engineers whose corps is now stationed at Pretoria.

This information came in the shape of a letter to the Automobile Club of America, from Captain R. F. Walker,

of the Royal Engineers, based at Pretoria, January 25. It asked the club's assistance in obtaining from American manufacturers specifically the price of light automobiles, steam and gasoline motors and motor bicycles. Captain Walker indicated that his command's chief will extend the use of motor vehicles in the present campaign against the Boers. Captain Walker gave as his reason for his application that he believed American road vehicles correspond more closely with those in South Africa than do those in England, and from his knowledge of American motor machines, he believes they are best suited to the uses to which it is designed to put them.

The motor vehicles will be used primarily for carrying searchlights in the field, but also are to be put to tests for other military purposes.

FARMER OAK AND THE STORM.

When farmer Oak, on his way towards his humble cottage one night, struck his foot against a big toad, he knew there was trouble in the wind. When, on striking a light indoors, he observed a thin glistening streak across his table, which terminated in a large brown garden slug, he knew again that the Great Mother was warning him. And when, last of all, two black spiders dropped from the thatched roof of his cottage, to find a safer home on the floor, he sat down and meditated how the coming great thunderstorm would affect the wheat-ricks and barley stacks, and what might be saved.

There are signs which are as unmistakable in their significance as the turned thumbs of the Romans in the days of the amphitheatre. In the case of Mrs. Green, where first one symptom disappeared, after a dose or two of Selgel's Syrup, and then another, this lady knew that the Syrup was on the way to cure her as surely as she lived.

"As I suffered for about three years from most acute indigestion," she writes, "it gives me great pleasure to testify to the complete cure which a small quantity of Selgel's Curative Syrup effected in my case, after several medical men had prescribed for me in vain.

"From 1897 until about two months ago (the date of Mrs. Green's letter is December 3rd, 1900), I endured a continual agony of sleepless nights, racking headaches, tired and languid feelings and nasty choking sensations in the throat. A great deal of my time was spent in bed, as I was quite unable to get about."

Cynical men and women sometimes propound the query, is life worth living? The fact is, many people don't know how to live. They exist merely. Like prisoners confined in a dungeon or who are given liberty conditionally upon their dragging a weight about. Perfect health is the first necessity of a happy life. Torpid livers, constipated motions, anemic disorders, skin affections and uric acid troubles render life unbearable. The victim, whether he be farmer or prime minister, will eventually have to take to bed as did Mrs. Green in this instance.

"I had been in bed four weeks," she continues, "when a friend who is a firm believer in Selgel's Curative Syrup for all forms of dyspeptic troubles called upon me, and strongly urged me to try this remedy."

"I confess I was sceptical, but my friend insisted and gave me a bottle to commence with. I got immediate relief from this, and before the bottle was empty the distressing symptoms had nearly every one disappeared. I purchased another bottle myself, and that completed the cure. I am now in perfect health. Naturally, I consider the effect of Selgel's Syrup in my case marvellous. It changed me from an invalid and dyspeptic of three years' standing, into a healthy woman."

"I am a native of Auckland and well-known here, where I have been in business for nine years." (Mrs.) Annie Green, St. George's Hall Buildings, Great North Road, Auckland, N. Z.

Farmer Oak could foretell a thunderstorm from signs that he had been taught to read by long experience, and years of study enable me to set down here signs of a condition, which, if not cured, will bring about a collapse of your system. If any of the following symptoms are troubling you, secure a bottle of Selgel's Syrup at once, and follow the directions for taking it.

Lack of appetite, heart palpitation, pains in the chest, back, head and sides, flatulency, low and depressed spirits, nerve and neuritic pains, anæmia, pains in the kidneys, rheumatism, gout and sciatica, gravel or stone, a cutting pain between the shoulders, weak eyesight, constipation and headaches, so-called "decline," counterfeit heart disease, great mental distress. These disorders are like so many branches of a genealogical tree, and spring from the one great evil, Indigestion.

ALFRED STEAD JR., WRITES UP HAWAII

LONDON, March 31.—The Saturday Review, continuing its anti-American campaign, today publishes a long communication from Alfred Stead, son of W. T. Stead, the editor, picturing the alleged deplorable condition of Hawaii as a result of annexation to the United States. Mr. Stead said that the unvarying lament is heard from every class, whether planter, or member of the government, to the effect that Hawaii has reaped no good from annexation. The foremost advocates of annexation in 1898 are now the most bitter and outspoken in bewailing its accomplishment.

Mr. Stead says that the application of the American coastwise navigation laws has deprived the islands of the use of 271,863 tons of shipping annually thus crippling trade and raising freight rates. The wealthy inhabitants of the islands, continued Mr. Stead, when they are in a hurry to reach the Pacific coast, are frequently forced to take passage on a foreign vessel and pay a fine of \$200 in addition to their fare.

The frequent calls of transports are greatly despised as they almost always bring diphtheria or some other contagion requiring quarantine, says the writer, and the exclusion of the Chinese is ruining the labor market. The tariff concessions to Cuba threaten to kill the sugar industry. America has twice prevented Hawaii from obtaining a cable. Hawaii is thus cut off from newspaper publicity,

GENERAL DELAREY THE BOER WHO CAPTURED METHUEN

which is essential to securing speedy reforms.

Commenting editorially on this communication from Mr. Stead the Saturday Review says: "Whatever evils the Hawaiians are suffering as a result of American protection, they have richly merited it as a punishment for their monstrous treatment of Liliuokalani."

STEAMPLOUGH IS AT THE TRACK

The race track is getting in good shape again and yesterday most everything in the stables worked for about the first time since the rain. Nothing but slow work was done and 2:40 would have won every heat.

John Ouderkerk's brown pacer Steamplough, last year's sensation until he went wrong shortly before the races, has been taken to the track and is now in the hands of Jack Gibson. The shave-tailed wonder is looking well and is said to have all his old-time speed right with him.

The championship indoor baseball shield will shortly be put in place in the gymnasium of the Young Men's Christian Association. The following names of players on the victorious team are inscribed on the shield:

J. R. Gorman, captain; M. G. Johnston, E. M. Cheatham, W. O. Dunn, H. S. Pierson, C. M. Taylor, C. W. Girvin, J. A. Templeton and W. C. Crook.

The league baseball teams have all started practice and have been assigned regular afternoons for the use of the Makiki ground. The Malles play on Monday, the Honolulu on Tuesday, and the Custom-house nine on Friday. All members of these teams are requested to turn up to practice as often as possible.

The race track is drying up nicely, and there is every prospect of good going in next Saturday's athletic contests.

The Punahou track team have been putting on finishing touches to their training at the Peninsula the last few days.

The Maile Ilia athletes are doing a lot of earnest training for the field day. They go out to Kapiolani Park every afternoon in a rig and as a result of consistent practice are improving considerably in both form and actual results.

The professional tug-of-war tournament commences April 25. Eight teams have entered, including Public Works, Pacific Hardware Company, All American, Longshoremen, Portuguese and African teams. Chas. Costa is captain of the Garbage aggregation; Captain Flint, of the All Americans, W. J. Mossman of the Longshoremen, and Sidney Boyd of the Africans.

A platform has been erected in Aala warehouse, and lights have been put in. The platform is 100 feet long and is raised four feet from the ground. The first prize will be \$200 and the second \$50. The tournament will be conducted under the auspices of the Honolulu Athletic Club.

BILL MAY NEED DEMOCRATIC VOTES

WASHINGTON, March 31.—Although the Ways and Means Committee of the House today made a favorable report on the bill for the relief of Cuba, the beet-sugar men have not entirely given up hope. They will carry the fight to the floor of the House, and although they do not expect to win there they believe it will require Democratic votes to pass the bill. The Senate may defeat the measure.

A summing up was made this afternoon of the Republican forces lined up against the Payne bill in the House. Representative Metcalf, who is as well posted as any member on the matter, said he understood that about forty Republicans would vote against the bill, apportioned as follows: Michigan 11, California 7, Wisconsin 7, Minnesota 5, West Virginia 4, Washington 2, Maine 2, and New York, Iowa and Illinois one each. One man in Michigan is said

A KNIGHT OF HAWAII

Anecdotes of Old and New Times Here.

(Special to the Advertiser.)

EAN FIANG (1830), March 29.—Here is a peek of gossip from the News Letter and Town Talk, all about Hawaii and of those well known to the Islands:

A KNIGHT OF HAWAII.

Years ago, when good King Kalanikou ruled over the Hawaiian Islands, Mr. Henry Heyman, the San Francisco musician, went to Honolulu. Mr. Heyman's musical ability pleased the king, and he knighted him—so it was Mr. Henry Heyman who came back to us in place of the plain Henry Heyman who went away.

At this point my story jumps several years. One day, not long ago, another musician, who also writes, went to a noted pianist of this town, and refusing to talk, let her figure out for herself what the lines in his hand indicated. She fell down considerably in her reading, giving him credit for little musical ability. Hearing afterward who her client was, she determined that she must perfect herself on the lines that show musical ability. With that end in view she invited Mr. Josef Hoffmann, the pianist, to submit his hand for a reading.

He went, accompanied by Sir Henry Heyman, and the pianist made a close and careful study of Mr. Hoffmann's hand, then laughingly announced that she could not be deceived in a musician's hand again.

It was at this juncture that Sir Henry conceived the idea of perpetrating a joke on her. So he told her that he would like a reading. He added that he had been a benker all his life, but had some inclination toward music—in fact, thought of taking it up as a profession.

The pianist examined his hand intently, then looked up and shook her head with much decision. "No," she said, "I would advise you to stick to bank-g. There isn't a sign in your hand that you will succeed as a musician."

Mr. Henry is undecided whether the joke is on him or on the pianist—but his friends rather think he is the victim.

THEODORE WORES RETURNING.

A letter from Samoa announces the early home-coming of Theodore Wores, the artist, who has been working hard for months on south sea subjects. He spent much of his time on the Island of Savai, one of the Samoan group, which is practically unexplored, and where the inhabitants still keep up their tribal customs. Oddly enough, Marie Wells and Marie Oge, whose pictures he delighted to paint, sail today for Tahiti. Miss Oge will return on the next steamer, but Miss Wells and her mother will continue their trip to Samoa and New Zealand.

CUPID'S WORK UNDER THE PALMS.

I advise all young women who are contemplating matrimony with South Sea Islanders, whole or half caste, to read Louis Becke's tales of the tropic seas. If they are capable of drawing conclusions therefrom they may be spared many unpleasant repetitions after the fatal knot is tied. Marriages with half-castes are quite the thing since Porto Rico, Hawaii and the Philippines were added to our possessions. Generally these marriages have the white blood in the bridegroom's side and in that case it is only the offspring that suffer for the mixture of races. A short time ago an Oregon man, Albert Braze, married one of the prettiest of the Filipino belles, Consuela Palma, the heiress of Judge Jose Palma, in his time a famed justice of Manila. This marriage promises to be one of the happy ones for it was a decided love match.

THE BENCH GROANS.

Judge George Gear, of the First Circuit Court of Hawaii, whose family lives here and who formerly practiced law here, being attacked by the newspapers of Honolulu for snoring on the Bench, Counsel, litigants and jurymen complain that the Judge, who weighs about as much as does Captain Barnes, but lacks Captain Barnes' shapeliness, slumbers at the most inopportune moments. Captain Barnes has been known to fall asleep while looking at a winning whist hand, and Colonel Kowalsky often walks down Market street sound asleep; but both are active when business calls. Judge Gear goes into the arms of Morpheus while lawyers are delivering learned opinions and jurymen waiting to be bribed for dinner. A few days ago, the fat jurist found on his desk a slip of paper marked at the following passage: "He giveth His beloved sleep." Judge Gear made a futile attempt to discover the culprit, with promises of a heavy punishment for contempt of court.

FREDERICK O'BRIEN.

A ROW AMONG THE METHODISTS

NEW YORK, April 1.—The New York east conference of the Methodist Episcopal Church, which will meet on Tuesday at Torrington, will try Dr. George Reed, State Librarian of Pennsylvania and President of Dickinson College, on charges preferred by Dr. Swallow, Prohibition candidate for Governor of Pennsylvania last year, says a World special from Torrington, Conn.

Dr. Reed is charged with speaking in a defamatory way of John Wanamaker, John M. Jenks, Democratic nominee for Governor in 1898, of Dr. Swallow and of Governor Stone; also with violating a provision of the Pennsylvania law compelling the Librarian to reside in Harrisburg, and with unchristian conduct in holding the position of Librarian at a salary instead of giving all his time to his appointment under the conference.

PANAMA, Colombia, April 1.—A private message received here from Bogota which has been officially confirmed, announces the death, March 19, at Villota, a few miles from Bogota, of former President Manuel San Clemente.

TAKE RIGHT STEP.

Every ordinary cold is deserving of serious attention.

A step in one direction carries the system from an ordinary cold on into grippe, pneumonia, or consumption. A step in another direction carries the system back into good health.

Nature and Scott's Emulsion work hand in hand in their effort to make your system take the right step. Nature is working all the time. Scott's Emulsion can't work unless you take it. Scott's Emulsion then makes nature work harder than ever.

If you have only a cold and wish to ensure a favorable outcome, take Scott's Emulsion.

Telephone Main 71. Consolidated Soda Works Company, Ltd.

When the Moana left Sydney there had been, up to March 23, 76 cases of bubonic plague in all. Of these 21 had died, 12 been discharged, and 43 were in the hospital. For the week ending March 23, 15 cases had been reported, of which three resulted fatally. On account of plague being in Brisbane, the Moana did not enter the harbor at that place, but transferred passengers and freight in lighters.

THE GAMING WORK WELL

Supt. Waldron on Boys' Brigade Record.

Following is the semi-annual report of the superintendent of the Boys' Brigade:

The problem of this half year has been to meet our opportunities. For it has been a season of opened doors, of genuine interest on the part of the boys; of widening influence and prestige; of better, surer work on our part.

Certain laws of boy life—habits, desires, possibilities, are known, mapped and available for guidance. Yet it has been a half year of results more than investigation or experimentation. To a scientific investigation we can give data. To our friends we can show boys in five parts of the city being trained to self-control and enjoying the training. These same local gangs are receiving from the entertainment course (more properly university extension) much instruction about geography, travel, natural history, gold mining. And all that comes to them after a short school training is what we are giving them. And it is due to the volunteer lecturers to say it has been of a high order.

I am thankful for the remarkable growth which has come, but confess to a vision, which is not visionary, of a more wonderful future, sometime, under someone's hands, of work along our lines, for boys here and in every city. Listen to the reasons for such a vision.

BOYS' TRADE SCHOOL.

We began this term on the 2nd of September. From the first the classes have been full, at times too full. Eager boys have pushed plane and saw till they were heated and blistered. They have learned how to use compass, saw and spokeshave and some have learned the name and use of every tool of a carpenter shop. We have made wooden guns for the drill, tables and chairs for the club, have turned Indian clubs, dumb bells, billiard balls, baseball bats; every boy has turned a calabash and some have turned over new leaves. For there are morals and manners in manual training. We took the carbons out of the stereopticon, and using them as a plain arc light, built an annex, which is being used as the advance or commercial shop, under Mr. Gear. For six months there was an average of over twenty boys in the afternoon classes and over twenty-two in the night. I venture to believe that more hours beyond the day's task have been given to self-improvement by these boys than by any equal number of people in this city.

Seventy boys have partaken of the class privileges for periods of more than two months, while taking off more than a hundred have been helped. This is not only very gratifying but indeed remarkable. The experiment is such no more. There will be times of less interest, perhaps, but the strength of that hour can rekindle it.

THE CLUB ROOM.

This was opened in September for the first time. The trade school filled it with all necessary furniture, games, and gymnastic apparatus, and lately finished a stage front and dressing rooms. The reading matter has come from Mrs. Berger, of the Associated Charities, and from the Y. M. C. A. The popular things are the colored, comic papers, as Puck and Judge, and Yardley's local skits. I have noticed a strengthening reading habit, such books as Alice in Wonderland and Robinson Crusoe, being dipped into. In the gymnasium the popular things run in this order: Punching bag, drum, horizontal bar, ladder health lifts, Indian clubs, etc. In treating the club room in a critical way it is hard to be sure of the real drift, for these reasons: (1) Large numbers of boys; (2) many of these are not yet of our clubs or school and do not know our requirements in manners and morals; (3) the club room director was the Trade school teacher. But the school was opened at 4:30 and most of the boys have worked one and a half hours by 5, so by opening at 7:15 by a helper and running it myself from 8:15 to 9:30, I kept a hold on things. On Saturday night we have over a hundred in and yet this is naturally our smallest night. But we are using Mr. Richards' lantern, and by means of it we are giving a course on world travel and history and have received an interested hearing from seventy-five boys. This club room is a growth and is on a solid basis. It would repay any young man to take it a certain night of the week and measure his native force against these fresh, untrained young lives; all ages, all races, and various degrees of birth and training.

One observation; the pleasure and profit found in our simple gymnasium impresses upon me the deep and abiding power which would come to the whole affiliated work by the completion and use of our athletic field. I think it very, very desirable for the Brigade's sake, as all our spheres of work are reacting to mutual benefit.

FORECAST.

The clubs are doing well. Years will bring results. They must. Patience and perseverance are the principal things, with a constant remembrance that a boy is a boy, "only this and nothing more." Military drill should be military to be efficient. Discipline should be respected. But we should be comrades, not official superiors. The trade school will provide its own helpers, and evolve its own methods; but will be compelled to be a shop more than a school; to make rather than teach; and it will be compelled to change its work to keep interest alert. The club will be a constant source of helpfulness and comfort to boys and workers; and I think it will present no really difficult phases. I should suggest its being organized on an independent basis, with a special committee. Constantly will appear the results

CHINESE CONSULS INVESTIGATED AT CAPITAL

Washington, D. C., Sept. 28.—(Special Agent Investigation.)—The investigation of the Chinese consuls in this city has been completed. The report of the investigation is being prepared by the State Department. The investigation was conducted by Special Agent Investigation, who was accompanied by the Chinese consul, Mr. Wang. The investigation was conducted in the Chinese consulate, which is located in the city of Washington. The investigation was conducted in the Chinese consulate, which is located in the city of Washington. The investigation was conducted in the Chinese consulate, which is located in the city of Washington.

All day yesterday there were hearings in the office of the Governor, many of the Chinese citizens whose names were attached to the affidavits, or who were supposed to have cognizance of the facts, being summoned to appear and give testimony before the executive. There are so many counts in the indictment that there may be something sensational in the matter when it comes out finally. There are only two or three cases, which are so well known that they may be discussed. One of them is the case of Wong Leong, whose sufferings have been those of the mind, and may yet be those of pocket. Wong Leong was one of the chief offenders, but owing to the fact that his immediate family is in this country, of which he has been a citizen for many years, the Chinese authorities must

SOME LOCAL ITEMS.

(From Wednesday's daily.)

The Honolulu Athletic Club team has been withdrawn from the athletic contests to be decided next Saturday, and the club will be unrepresented at the meeting.

The directors of the club decided on this course owing to their team having been weakened by several unlooked for occurrences, and on account of a lack of enthusiasm among the rank and file of the club's athletes.

The withdrawal of the team is greatly to be regretted, for it will deprive the meeting of a great deal of the interest which would otherwise have been attached to it, and will leave a number of men who have trained conscientiously without a club to run for.

Meanwhile the Maile Hinas have been steadily strengthening their forces until today they are considered to have a chance for the premier honors. One of their men, Ben Clarke, entered in the mile run, has done the distance in practice in 5:11, and is confidently expected by his club mates to land the race.

There are other contending elements in the long distance event, however. Brown, of Punahou, who won the dual meet mile, is said to be several seconds behind another runner of the Punahou Athletic Club, Mayhall of the Y. M. C. A. is also regarded as being dangerous if he starts, and if he runs up to his old country form will about win. Then the Artillery have a man who can step better than five minutes if necessary. Taken altogether, the mile run promises to be one of the best contested races on the card.

There will probably be another big athletic meeting in the fall at the close of the baseball season, held under the auspices of the McKinley Memorial committee. At this meeting, at which all the local athletic clubs will be represented, the Hawaiian championships for the year will be decided, and valuable individual prizes offered.

The Merchants' Association held a meeting yesterday afternoon, at 4 o'clock in the Stock Exchange chamber and endorsed the resolution of the Chamber of Commerce regarding the fire claims, and gave authority to J. G. Pratt to represent the Merchants' Association in the presentation of the resolution at Washington. Upon motion of Geo. W. Smith, the Merchants' Association heartily concurred in the Chamber of Commerce resolution, and it will go forward with Mr. Pratt today as a joint resolution of the two business organizations.

Both the Chamber of Commerce and the Merchants' Association have furnished Mr. Pratt with certificates showing that he is their duly accredited representative in the presentation of the fire claims matter to the Federal authorities at Washington.

Those present at the meeting were: President W. W. Dimond, Secretary W. W. Harris, W. W. Hall, Geo. W. Smith, L. B. Kerr, George Angus, J. G. Rothwell, John Soper, J. F. Humburg, M. Phillips, J. G. Spencer of the Chamber of Commerce, E. A. McInerney.

The fumigating scow is now working alongside of the Irmgard wharf.

WORK FOR CHILDREN

Kindergarten Facts From Maui Isle.

April 1st celebrated the first anniversary of the opening of Alexander House, Wailuku, Maui, a department of which is the kindergarten.

The kindergarten enrollment the first day was twenty-nine, which has now grown to seventy, with an average attendance of fifty-six.

Six assistants are represented, the Hawaiian leading in numbers, Mrs. Knowlton has the beautiful kindergarten spirit, deepened by the knowledge of the preciousness of these little ones. Of the three assistants, two are Hawaiian and one Chinese, Miss Minerva Langford, a Maui Seminary girl, has her home with the workers. Miss Celia King lives in Wailuku and Miss Em Ming Young lives with the Chinese minister.

The kindergarten room is large and airy, with a fine view. Window boxes, plants, fish and a bird make the room some-like and give the children some lessons in care-taking.

The piano box, converted into a house, stands in one corner. It has a sitting room, dining room and kitchen on the first floor, two bed rooms and a bath room on the second floor. Appropriate furniture for each room, circular, etc., were made by the children, walls papered and house painted inside and out. The family of five dolls make real the housekeeping.

The children are now cultivating their second crop of vegetables.

The first class has graduated into the public schools. Flattering reports are given by their teachers.

Eldwin Kindergarten, Lahaina, opened Sept. 3rd, with thirty children, and now has an enrollment of fifty-nine, with an average attendance of fifty.

Let the Japanese outnumber other nationalities.

Miss F. S. Barker has as her assistants Miss Rachel Hazelden and two Hawaiian girls, Misses Rose Akeo and Fanny Adams.

The kindergarten building and grounds were the gift of Hon. H. P. Baldwin. On consecrated soil the real missionary work is going on.

Situated in the most congenial part of the town, the child garden meets the local need.

The large room, 32 x 42, with 12 foot veranda, gives space for occupations and games. The Gilbert Island mothers spend many mornings on the veranda weaving hats. At the sound of the piano they are in the room, entering fully into the spirit of the games.

What have our kindergartens done? They have entered the homes. The happiest relations exist between teachers and parents, kindergartens and homes. The monthly mothers' meetings, a social character, with refreshments, the weekly visit in the homes, the visits of the parents to the kindergarten and through all the mutual love for the child is realizing the best things into which "A little child shall lead them."

Often is the statement made by visitors, "Your children are from the best families." Yes, we have from all grades and all are of the one royal family. The exceptions so small that we can say all the children are neatly dressed and show the mothers' care in our cosmopolitan kindergartens we have the first complaint to be made of moral contamination. As the first months of the baby's life records marvelous development of baby mind and spirit, in like measure goes the kindergarten witness the changes from abnormal to healthy growth.

A visit to last mothers' meeting would have revealed the tie that binds. Thirty-five mothers were there, eight Chinese. It was a model social.

Most nobly are our plantations helping solve the problem they have created. How to make citizens of the Hawaiian born Asiatics, and Porto Ricans. Our land at Wailuku is the gift of the plantation; it also gives \$50 per month toward the support of the kindergarten. At Lahaina the plantation gives \$50 per month and has donated six months' use of a teachers' cottage.

Gathered in our kindergarten are the little ones from the one-room house, the one family bed. Others are from

MEET THE BISHOP.

(From Wednesday's Daily.)

For more than an hour last evening people of Honolulu passed in double line through the parlors of the Hawaiian hotel, greeting Bishop Nichols and Miss Nichols, and extending to them the welcome of the city. The reception of the ladies of the Guilds of St. Andrews and St. Clements drew to the presence of the prelate a gathering which was representative of the very best elements of Honolulu, the welcome being one which was not bounded by creed or faction, and which was in every way hearty and heartfelt.

For the occasion the eastern end of the hotel was transformed. The ladies of the churches had taken into their hands the decorations, and cut flowers, palms, parasol vines and taro leaves were blended with flags and lights in perfecting the picture which greeted the eyes of the visitors. The entire wing of the hotel had been placed at the disposal of the ladies and Manager Lake gave his force and worked himself to assist in the making perfect the ensemble. The receiving party, made up of Mrs. S. S. Robertson, Mrs. Alexander Mackintosh, Bishop Nichols, Miss Nichols, Mrs. J. H. Soper and Mrs. C. S. Crane, in the order as they stood at the end of the parlors, was paced in front of a mirror and a floral bank, and from each side there were thrown reflections of flowers and palms, the bright dresses of the guests adding to the superb decorative effects.

Mrs. Mackintosh and Mrs. Osborne presented the guests to Bishop Nichols and Mr. Arthur Mackintosh took charge of the presentations to Miss Nichols. The visitors began to pass through the reception room at 8 o'clock and it was after nine when the crowd had passed, and at that time every lanai was filled with guests. At the end of the building Mr. Lake had arranged for the service of refreshments and the young men and maids served every guest with lemonade and cakes and ices. Music was furnished throughout by Berger's band and it was not until late that the reception was concluded.

Bishop Nichols allowed it to become known that it was his intention to take back with him some young Hawaiian, who intended to enter the ministry, and to have him educated for holy orders in California, without expense.

The reception was in charge of the following committees of the two guilds:

Decorations—Mrs. E. D. Tenney, Mrs. George Smithers, Mrs. Mist and Mrs. W. M. Giffard.

Refreshments—Mrs. E. W. Jordan, Mrs. E. J. Spalding, Mrs. F. A. Schaefer, Mrs. C. S. Rhodes, Mrs. C. W. Booth, Mrs. Charles Day, Mrs. Osborn, Mrs. C. L. Crabbie and others, assisted by Miss Juliet King, Miss Sarah Robertson, Miss Jennie Giffard, Miss Marion Green, the Misses Rycroft, the Misses Jordan, Miss Alice Luce, Miss Spalding, Miss Soper, Miss Osborne, Miss Deverill, Miss Reynolds, Miss Annie Whittey, the Misses Schaefer, Miss Mary Catton, Miss Emily Taylor, Miss Center, Miss Gertrude Tucker, the Misses Ward, Miss Bailey, the Misses Smith, Miss Nalani Jones, Miss Creighton.

Ushers—Messrs. Anderson, Coburn, Mackintosh, Ross, Soper, Irvine, Lansdale, McGrew, Frank Fernandez, Miranda, Green, Young, Osborne, Spalding and Blackman.

Clarke's Blood Mixture

THE WIDESPREAD GOOD FURNISHED BY CLARKE'S BLOOD MIXTURE IS WARRANTED TO A LARGER THE BLOOD FROM ALL IMPURITIES FROM WHATEVER CAUSE ARISING.

For Scrofula, Scurvy, Eczema, Skin and Blood Diseases, Rheumatism, Impure and Sourness of all kinds, it is a never failing and permanent cure.

Cures Old Sores, Cures Sores on the Neck, Cures Bore Legs, Cures Blackhead or Pimples on the Face, Cures Scrofula, Cures Ulcers, Cures Blood and Skin Diseases, Cures Rheumatism, Cures the Blood from all impurities, Clears the Blood from all impurities, From whatever cause arising. It is a real specific for Gout and Rheumatic pains.

It removes the cause from the Blood and Bones. As this Mixture is prepared in the East and warranted free from anything harmful to the most delicate constitution of either sex, the Proprietors solicit sufferers to give it a trial to test its value.

THOUSANDS OF TESTIMONIALS OF WONDERFUL CURES FROM ALL PARTS OF THE WORLD.

Clarke's Blood Mixture is sold in bottles of 25 cents each, and in cases containing six bottles, the quantity is sufficient to effect a permanent cure in the great majority of long-standing cases. By ALL DRUGGISTS and PATENT MEDICINE VENDORS throughout the world. Proprietors THE LINCOLN AND MIDLAND COUNTIES DRUG COMPANY, Lincoln, England. Trade mark—"BLOOD MIXTURE."

SHOT IN THE HEAD

Native Attempts to Take His Life.

(From Thursday's Daily.)

Because a comely Hawaiian girl killed him, Antonio Kapana, a Hawaiian youth, attempted to take his life yesterday afternoon, about 6 o'clock, in a house in Kewalo. The weapon with which the attempt was made was a 22-calibre revolver and the bullet was directed toward his temple. Through some freak of fate, the ball did not enter the brain, as the boy hoped, but merely broke the skin and circled around the skull. Kapana is now lying on a cot in the Queen's hospital and is not much the worse for his trial at ridding his body of its life.

"I did it—I tried to kill myself because she did not love me," was his statement to Police Officers Mallett and Carney, who were sent by Deputy Sheriff Chillingworth to investigate the shooting which aroused the Kewaloans. "She" is the girl who did not respond to his love advances, and in brooding over the matter for two weeks, Kapana decided that life was not worth living. A few weeks since the boy was on the list of suspect lepers, but was released. Upon being delivered from surveillance, he made love to the girl. His nose is almost gone from the effects of some disease.

Wreck of the "Sendai Maru"

YOKOHAMA, March 27.—Commander Koldzum of the Japanese warship Heiyen, has forwarded from Fusan the following telegram to the Navy Department, under date of March 25th:

"On the 22nd inst., when the Heiyen was at anchor at Rhoo-in island, a report came to hand of the foundering of the Nippon Yusen Kwaisha steamer Sendai Maru near Taroto island. It is understood that the steamer was destined for Chofoo from Nagasaki, and during the voyage she struck the southern coast of that island on the 19th inst., at 8:30 a. m., owing to dense fog. After the crew and passengers, numbering 118 persons, were safely landed on the island the steamer foundered, the hull being submerged. There is apparently no hope of raising her. All the passengers and crew were taken aboard the Heiyen by noon yesterday and were taken to Fusan today (25th) at 5 a. m.

Whites Need Aid.

MILWAUKEE, Wis., Monday, March 25.—Prof. O. F. Hillyer, professor of biblical languages at the Atlanta Theological Seminary, in an address at Plymouth Congregational church, made the statement that there are twice the facilities for the education of the negroes in the South to that for the whites. The latter, Mr. Hillyer said, had been neglected, and it was to the advantage of good citizenship that attention be made to this phase of development in the South. Prof. Hillyer has come north for a three months' leave of absence to arouse interest in the poor whites of the South. He says that the greatest problem in the educational and religious work in the South is to secure men for the work. If 100 churches were to organize there today he said there would be no men for pastors.

Honolulu's Prosperity.

The U. S. steam collier Alexander has arrived at Honolulu with a full cargo of coal for the coaling station at that important rendezvous. The value of this port for a coaling depot has never been so great as at the present time, and it is safe to say that the immense volume of war material passing through Honolulu will show a steady increase with the augmentation of our forces in the Far East. Honolulu is now in the midst of an era of greater prosperity than has ever been known, and with the installation of the new Naval station at Pearl Harbor, but seven miles distant, the importance of the capital will increase by leaps and bounds.—Army and Navy Journal.

Hutchinson Plantation Company.

The report presented at the annual meeting of the Hutchinson Sugar Plantation Company, held on Tuesday last, covered a term of nine months, during which the net profits were \$13,500.43. The indebtedness aggregates \$88,044, with about one-third of last year's crop of sugar to be accounted for, while the debt is being reduced at the rate of about \$10,000 per month. During the nine months, dividends were paid aggregating \$117,500. The condition of the plantation is reported excellent, with no improvement necessary or contemplated during the coming year. The sugar crop for 1902 is estimated at 8,800 tons.—News-Letter.

Krueger Disconcerted.

NEW YORK, April 1.—Brussels telegrams indicate, says the London correspondent of the Tribune, that the peace movement of the Transvaal executive has greatly disconcerted Mr. Krueger. Among the immediate retainers of the ex-President word is said to have been given out to discredit Schalk-Burger. The acting president, to whom Krueger delegated his powers, is denounced as a weak kneed patriot.

In the Snow Belt.

BUTTE, Mont., March 29.—The first train out of Butte for the East over the Northern Pacific will leave at noon today and a transfer will be made at the washout between Jamestown and Bismarck by means of a raft. Railway officials stated that from the advice they had received the water covered a mile and was from two to four feet deep. Several hundred Northern Pacific passengers were last night sent East over the Great Northern railroad.

HARRIS BY LARGE VOTE

(Continued from page 1.)

The report from Waimanalo was the first to come in, and the result there was gratifying. The Republicans had 11 votes in the House Water could mean only the growth of the two parties. There were seven votes reported in the precinct.

PURAE FOOD CAMPAIGN.

Embalsmed Milk is a Leading Cause of Offense.

NEW YORK, April 1.—In its campaign for pure food the Board of Health has had a field day in the Court of Special Sessions. Members of the board brought out the fact that the produce dealers on the city side are violating many laws of health and that the chief offenders are those who sell polluted milk.

Hyades Quarantined.

SAN FRANCISCO, March 31.—The steamer Hyades arrived from Kahului with a cargo of sugar yesterday. The quarantine officer visited the vessel and after a brief investigation, refused to grant her pratique. Later he paid her another visit and then released her, after which she proceeded to Oakland.

The Hyades had 12 days of as heavy weather as the vessel ever encountered. Captain Garlich says that the fates were not satisfied with throwing them into a gale as soon as he left San Francisco, and keeping up the hard times until Honolulu was reached, but the storm continued to rage all the time he was among the Islands. Leaving Kahului, the Hyades ran into a northeast storm, accompanied by a mountainous sea, and the same state of affairs continued until the vessel reached San Francisco.

Political Row in Brooklyn.

NEW YORK, April 1.—In the comedy of "Who's Sheriff?" now going on in Brooklyn a prisoner is reported to have escaped from the custody of Sheriff Guden because John Wilson, a jailer, insisted that Colonel Dike was the real sheriff and that Guden had no legal right to the custody of the prisoner. The latter was arrested on a charge of contempt of court upon an order issued by Judge Maddox of the Supreme Court. The order for arrest and the commitment papers were delivered to Guden. After he had found his man he proceeded to the Raymond-street jail. The man at the door refused, however, to permit Guden the use of the place, and after the argument was over the prisoner is said to have been found missing. Guden claims, however, that he has his man securely locked up, but whether in a furnished room or in his cellar he refused to say.

The Wireless War.

NEW YORK, April 1.—War between wireless telegraph companies continues at a merry pace, says a Berlin dispatch to the Herald. Siemens and Halske, owners of the Braun wireless system, have, it is stated, brought an action against the Slaby-Arco people for an alleged infringement of patent and are said to be preparing to bring a similar complaint in England against the Marconi company. Dr. Braun, of Strasbourg, claims that both inventors copied his closed circuit oscillation method after he had protected himself with patents. Hitherto the wireless rivals have been content to fight one another by interfering with messages and refusing to receive dispatches sent from stations or ships provided with a rival apparatus.

Prosecuting a Mob.

NEW YORK, April 1.—Sui has been instituted, says a Phillipsburg, N. J., dispatch to the Herald, in the case of David Lundy, the aged negro who was maltreated by a mob of citizens at his home, in Washington, last December. The negro's assailants will be prosecuted by the Afro-American League of Newark. Warrants have been issued for the arrest of twenty-one persons for atrocious assault and battery, and twenty-two more will be issued later. The mob destroyed Lundy's house, beat him and knocked out one of his eyes with a shovel.

Five Millions for a Site.

NEW YORK, April 1.—An offer of \$5,000,000 has been made by a European syndicate for the site of St. Paul's church, parish house and cemetery at Broadway and Fulton streets. The Trinity corporation refused the offer, and it was declared by the controller that no offer for the famous property will be considered, much less accepted. It was the intention of the bidders to erect a "skyscraper" on the site.

GOOD FOR RHEUMATISM.

Last fall I was taken with a very severe attack of muscular rheumatism which caused me great pain and annoyance. After trying several prescriptions and rheumatic cures, I decided to use Chamberlain's Pain Balm, which I had seen advertised in the South Jerseyman. After two applications of this remedy I was much better, and after using one bottle, was completely cured.—Sallie Harris, Salem, N. J., U. S. A. For sale by all dealers and druggists. Benson, Smith & Co., Ltd., agents for Hawaii.

REPRESENTATIVE WILLIAM W. HARRIS WHO WAS ELECTED OVER A. DREIER

their own staunchly. The vote was just the same as two years ago, 7, but the fusion elements could get only 11, where they had 26 before. One rejected vote was recorded.

HOW RETURNS CAME IN.

In the Republican headquarters all day there were members of the committee in attendance to answer questions which might arise at the last moment. Chairman Gear, Committeeman Brown and several faithful workers formed the party at varying moments during the day. When the polls closed there was an immediate preparation for the tabulation of the returns for the various precincts. These came in over the telephone. The first to be received was the Third, followed by the Seventh and then the rush of the reports until the last to be received was the Fifth. The election of Harris was assured when the returns from the six precincts gave him 219 majority, and the cutting down of twelve, which came with the returns from the Fifth, was not enough to make any change in the spirit of jubilation which possessed the crowd. The cheering began early, and as the totals of the figures showed the complete triumph of Republicanism, there were calls for Harris, for Republicanism, for everything which is Republican, and one voice added when there was a cheer for the party, "And

WEDDED IN NUUANU VALLEY

(From Thursday's Daily.) MISS M. BELLE WALKER and Mr. F. W. Klebahn were united in marriage last evening at the old Walker residence, in Nuuanu, beneath a beautiful canopy composed of the prettiest blossoms and the greatest of malle and ferns found in the valley. The ceremony was witnessed only by the family of the bride and the most intimate friends of the contracting parties, and after it all sat down to an elaborate supper. In hallways and parlors the decorations were artistic, carnations, malle and bamboo ferns being largely used. Under the glow of lights the hallway was most attractive with the radiance of clusters of callas, which filled a huge jardiniere near to the entrance, and a huge bank of white carnations and ferns through which ran broad white satin ribbons. The novel post of the staircase was covered with a cluster of spider lilies held by a white satin bow, the balustrade being worked prettily with malle. In the front parlor the two archways were outlined respectively with the odd trailing parasite vine and malle. The drawing room mirror mantle was banked with exquisite roses, mingled with white marguerites, ferns and bayboos. Jardiniere with bamboo filled the corners. The rear parlor where the ceremony was performed was a bower of floral beauty. In one corner was the bridal canopy, composed of pink tarlatan, sprayed over with fern leaves, at the base of which reposed a bank of pink carnations and ferns. Above was a half circle projecting toward the center of the room, fringed with carnations and greens, from which ropes of malle converged to the corner. Beneath were two dainty ceremonial knee pillows of pink silk. In the opposite corner the piano was covered with bamboo and varieties of carnations. The chandelier was almost concealed with malle, ropes of the mountain vine being carried from it. At 8:30 the bride entered the drawing room and was met beneath the canopy by the groom, Mr. Klebahn was attended by Mr. E. Franzus as his best man, Miss Cordelia Walker, sister of the bride, being the bridesmaid. The Episcopal form of ceremony was said by the Rev. Canon Kiteat of St. Andrew's Cathedral. The bride was given away by her brother, Mr. Hugh Walker. During the recital of the ceremony soft music was played on the violin by Mr. Edward Dunsenberg, and as the concluding words of the ritual which made the parties man and wife, were said, the Mendelssohn Wedding March was played with magnificent spirit by Mr. E. Schulze and Mr. Edward Dunsenberg. The bride was attired in a handsome gown of white Chantilly net over white tulle silk, the bridal veil being caught up with a spray of lilies of the valley. The bridesmaid was becomingly attired in a pink pina over pink silk. The bride is a daughter of Mrs. J. S. Walker, of Nuuanu valley. Mr. Klebahn is the secretary and auditor of the firm of H. Haskfeld & Co., and is also one of the directors. The Philippine Commission has fixed the rate of exchange at \$2.27 silver for \$1 gold in Manila, and aroused the anger of the merchants thereby.

MAN ARE DYING Surprisingly Large Number of Deaths.

March was an unusually healthy month for the time of the year, according to the report of Registrar Henderson. Altogether there were eighty-six deaths, of whom fifty were males and thirty-six females. The deaths were divided as to nationality as follows: Hawaiian 22, Chinese 12, Portuguese 4, Japanese 20, Great Britain 3, United States 5, and other nationalities 10. It will be seen that the death rate among the natives is steadily increasing, being about forty per cent of the entire number.

The mortality among the infants was also surprisingly large for the month, there having been a total of 20 deaths among children less than one year of age. Under twenty years and over one year there were twelve deaths, while there were but four persons who had reached the age of seventy before death.

The following summary is given of the health work for March:

- REPORT OF CITY SANITARY OFFICER.
 - Building permits approved, 24.
 - Recommendations made, 1.
 - Cesspools located, 9.
 - Buildings permits refused, 1.
 - Inspections made, 395.
 - Prosecutions in court, 1.
- REPORT OF SANITARY INSPECTORS.
 - Nuisances reported, 1993.
 - Nuisances abated, 1930.
 - Complaints filed, 9.
 - Inspections made, 5779.
- REPORT OF CITY PHYSICIAN.
 - Patients visited, 82.
 - Patients treated at office, 122.
 - Patients sent to hospital, 1.
 - Prescriptions filed, 105.
- REPORT OF FOOD COMMISSIONER.
 - Samples of milk tested, 77.
 - Samples of food tested, 8.
 - Prosecutions made, 0.
 - Miscellaneous chemical analyses made, 4.
 - Adulterations detected, 9.
- REPORT OF BACTERIOLOGIST.
 - Postmortem examinations, 10.
 - Microscopic examinations made, 67.
 - Visits to leper receiving station, 4.
 - Cultures made, 0.
 - Leper suspects examined, 8.
- REPORT OF PLUMBING INSPECTOR.
 - Plans filed, 55.
 - Permits issued, 55.
 - Inspections made, 216.
 - Final certificates issued, 67.
 - Sewerage connections approved, 21.
- REPORT OF MEAT AND FISH INSPECTORS.
 - Animals examined, 929.
 - Carcasses condemned, 0.
 - Tubercular cattle destroyed, 2.
 - Filice, livers, 172.
 - Fish examined, 162,788.
 - Fish condemned, 3,381.

Five Beautiful AND USEFUL Presents

- 1 Jewel 6 Hole Range.
- 1 Gurney 4 Door Refrigerator.
- 1 Decorated China Dinner, Breakfast and Tea Set.
- 1 Etched Glass Complete Table Service.
- 1 Complete Set of Table Silverware and Cutlery.

The price of each of the above mentioned articles is \$40. These will be given away on July 1st to customers who purchase goods of us on or after March 15, 1902. For the purpose of distributing these goods to those entitled to receive them we will, commencing March 15th, present a numbered certificate of purchase to each purchaser of one dollar's worth of goods at our store. This will be in addition to the usual 5 per cent off for cash. These desirable gifts are now on exhibition in our large front windows. They will be distributed fairly among our customers, and in accordance with law.

Rheumatism

Two Bottles Make a Complete Cure. Perhaps your rheumatism is not bad enough to confine you to the bed; yet your muscles and bones ache every time a storm approaches, making you generally miserable. We can bring you positive and prompt relief. Mrs. Isabella Menzies, of Gisborne, New Zealand, sends this letter and her photograph:

"I took a hard cold which resulted in a severe attack of rheumatism. I tried all kinds of remedies without relief. Then I tried

AYER'S Sarsaparilla

I was not disappointed, for after taking only two bottles the rheumatism all left me and I was cured. I want to do everything I can to make known what a wonderful medicine your Sarsaparilla is for those suffering the severe pains of rheumatism. To make a quick cure, take Ayer's Pills with the Sarsaparilla. They make the liver active, cure biliousness and constipation. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A. HOLLISTER DRUG CO., Agents.

LEAF AND WAVE.

ARRIVED.

Tuesday, April 8. Steamer, Noeua, from Honolulu, Honolulu and Waipua, at 1:30 p. m., with 200 bags sugar, 140 coffee bags and 8 pigs.

Wednesday, April 9. U. S. A. T. Sheridan, from San Francisco, at 5 a. m. Behr, Comford, Kahikahi, from Honolulu, at 4 a. m.

Thursday, April 10. Am. schr. Alumna, Larsen, 65 days from Newcastle, at 1 p. m. Stmr. Ke Au Hou, Mosher, from Kilauea, at 9 a. m., with 2100 bags sugar and 2 packages sundries.

DEPARTED.

Tuesday, April 8. Am. schr. Alice Cooke, Penhallow, for Port Townsend in ballast, at 10:30 a. m. Stmr. James Makee, Tullert, for Kapa and Anahou, at 4 p. m.

Wednesday, April 9. Stmr. Noeua, Greene, for Lahaina, Kaaupali, Honokaa and Kukuiahae, at 5 p. m. Stmr. Waialeale, Piltz, for Eleese and Anahou, at 4 p. m.

Thursday, April 10. Stmr. Noeua, Greene, for Lahaina, Kaaupali, Honokaa and Kukuiahae, at 5:30 a. m. Stmr. Mikahala, Gregory, for Eleese, Makaweli, Waimea and Kekaha, mail and passengers only for Koloa, at 5 p. m.

Shipping Notes

The steamer Tampico is at Makaweli discharging coal.

The bark W. B. Flint is at Makaweli waiting to discharge.

There are 44,142 bags of sugar ready for shipment on Kauai.

The Inter-Island Company's wharf office has been cleaned.

The S. S. Aorangi is due from Vancouver and Victoria tomorrow.

The bark Louisiana is discharging coal at the Pacific Mail wharf.

The ship Edward Sewall is being furnished at the Railway wharf.

The barkentine Mary Wickhaman is discharging coal at the Channel wharf.

No more transports will sail for New York from Manila via the Suez canal.

The schooner Nokomis finished discharging at Sorenson's wharf yesterday.

The steamer Mikahala arrived from Koloa yesterday morning with 2750 bags of sugar.

It is rumored that W. O. Smith may succeed John Ena as president of the Inter-Island Company.

The workers on the dredger are taking up a collection for the wife and family of the late Otto Petter.

The schooner Charles Levi Woodbury recently sailed from Hilo to Honolulu in about 20 hours, a very good run.

Murston Campbell leaves for Kauai today to look into the damage done to the roads and bridges by the recent storm.

The Gaelic goes to Manila on her present trip and is said to be overcrowded with passengers. The Hongkong Maru and China are also said to be booked to their capacity.

The fast sailing schooner Alice Kimball, owned by the American Shipping Co., Ltd., arrived from Hilo yesterday morning making the run in less than 23 hours, bringing a full cargo of oil, wood, consigned to W. H. Hardy, Honolulu.

The American schooner Alice Cooke, Capt. Penhallow, sailed for the Sound yesterday morning in ballast. The schooner has been in port since March 21, when she arrived from Port Gamble with a cargo of lumber.

The American bark Louisiana, Captain Halcrow, arrived early yesterday morning from Newcastle, after a trip of 63 days. She was sighted about 5 p. m. on Tuesday. Her cargo consisted of coal. The Louisiana was formerly a ship, but has recently been converted into a bark.

The steamer Noeua got in yesterday morning from Hanakoa ports. She reported very rough weather along the Hanakoa coast. Her cargo consisted of 2925 bags of sugar. The Mauna Loa was at Panalua on Sunday and the Kauai at Honoupa, discharging lumber.

Ke Au Hou Laid Up.

The fast and commodious liner New Era, Captain Mosher, of the Inter-Island fleet, will be detained in port for a week to enable her to be overhauled and some repairs made. The old smokestack, which has practically exhausted its sphere of usefulness, is to be replaced by a brand new one, warranted not to block up with smoke when the steamer is "pushed to it." A new 25-hp. mast will also be put in, which will be the largest stick in any of the company's boats. When the Ke Au Hou, again, New Era, gets a-going again, Captain Mosher should be able to add some more island records to those which already grace his cabin.

Tampico's Movements

The Globe Navigation Company's steamer Tampico goes from Eleese to Kahului to complete her cargo next Tuesday, and will sail for San Francisco and Seattle on the 17th or 18th inst. J. W. Ellis, manager of the Globe Navigation Company, and wife, left for Seattle via Victoria, on the Mauna on Wednesday. They have been spending several weeks in Honolulu.

Sir Andrew Clarke, agent general for Victoria, Australia, died in London.

SOCIETY'S GREETING TO THE PRINCESS

ONE THING of the splendor of the visit here of Princess Kaiulani... The princess was met at the main entrance to the mansion by Col. and Mrs. Samuel Parker, in honor of Prince and Princess Kaiulani and Miss Alice Campbell. During the evening more than 1500 guests passed through the portals of the mansion and into the mimic fairland beyond.

When the guests approached the mansion they discovered festoons of electric lights, alternately red, white and blue, strung from the eaves to the topmost branches of a great cypress tree, forming a tent-like array of illumination. Under this glow the guests were hidden welcome to the mansion by Edward Lilikalani, and were ushered through the main entrance, which was divided by the folds of two splendid silk Hawaiian flags, by J. O. Carter, Jr., Robert Shingler, Cashman Carter, J. Tarn McGrew, Dr. M. K. Grossman, Mana Widemann and Frank Armstrong.

Through the hallway into the drawing room the guests were conducted, where Col. and Mrs. Samuel Parker stood at the head of the receiving party, which included Prince and Princess Kaiulani, Miss Alice Campbell, Prince and Princess Kaiulani, and Admiral George Beckley. The party stood before an alcove in which was a statue of Bacchante, surrounded with flowers, potted palms and brilliant lights. Nearby stood a tall alabaster vase filled with red lilies. At the outer end of the line the piano was heaped with white and the other of black feathers.

The ladies in the line were beautifully attired and the men wore the decorations which were bestowed upon them by King Kalakaua and Queen Liliuokalani. Prince David and Prince Olope wore the badges of the Siamese Order and the Star of Oceania, and the Order of Kalakaua. Col. Parker wore the order of the Kamehamehas and with red carnations and

white flowers. The original thought of the queen was to have the princess wear a crown of white carnations, but the princess was so graciously pleased to wear a crown of white carnations and white flowers, made a picture never before seen in Honolulu.

WORES SAMOAN PICTURES SHOWN WITH HAWAIIAN

THE LEI MAKER.

INED against two walls in the mukai room of the building, canvases of Theodore Wores, representing the work which he has done in this country, in Samoa and Japan, were shown for the first time yesterday afternoon, at the Pacific Hardware store. There was much that has been seen only by the intimates of the artist, and for the very first time the arrangement for light is such that the pictures appear as their creator would have them.

There is more than usual interest given to the display owing to the circumstances which permitted the artist to catch his tropical palette first here, and then threw him in the Samoan field, full of enthusiasm and ready to take up his work with the added experience with types so closely allied. Few of the more ambitious things which are on the line have been seen, and they attracted much attention from those who were privileged to have an early glimpse of the paintings. The first point which will appeal to the visitor is the brilliancy of the colors on both sides of the room, for while one is practically that of the Samoan work, the other is almost as largely filled with Hawaiian views.

For precedence in coloring and interest as well, will stand the two type pictures. The Hawaiian is "A Lei Maker," representing a girl making an ilima lei, the bright yellow of the flower showing against her red cheeks; the Samoan is "Gathering Cocoa, Viadina," showing a young girl, her reddish hair set out by a bright red flower which is stuck above one ear, her red lavalava contrasting with her shining bronze

skin, the foliage and fruit of the tree furnishing the needed contrasts to make the work at once striking and effective. The two give a note for the general island work of the artist, all others of his pictures partaking somewhat of the same feeling. The "Lei Maker" will be a most striking piece in the eyes of those who know not Hawaii. The face is one of the very best that could have been selected by the artist for his composition. The girl is young, has the bright, care-free eyes and lips of the Hawaiian, shows none of the grossness which sometimes creeps into the type faces, and while there might be some criticism of the pose, it is one full of grace and leaves nothing to be desired in the portrayal of the picturesque features of Hawaii.

The feeling shown in the "Gathering Cocoa" is remarkable. There is in the handling of the tropical lights and the warmth of coloring, a something which is seen in the treatment of no other subject to which the artist's brush has been lent. The tints of flesh, the lights upon high colors are masterly, and the result is a composition which should be one of the successes of the exhibition.

In striking contrast to the two type pictures are others which show sides of Hawaiian and Samoan scenery, and at the same time display a remarkable technique. Moonlight at Waikiki shows the familiar scene of dominant Diamond Head, the glowing of lights along the beach and the breaking of a low surf along the foreground shore. The masses of color are impressively done. The Head impressively standing out in the moonlight which is suggested, not even in a mass of clouds, streaked with the lava brown, and the shades along the shore are black and strikingly heavy. Altogether there is in the scene that semi-brightness an high

ROYAL Baking Powder. Makes the bread more healthful. Safeguards the food against alum. Alum baking powders are the greatest menaces to health of the present day.

lights and impenetrable shadow which covers when the sun is high, a contrast to the scene of a long contemplation of the view.

From the scene from the Letitia, is the Bathing Pool at Viadina, the waterfall behind it and a single figure in the hall distance. There is an interesting study in the atmosphere of the picture, for the lights are as cool as in the upper levels of western mountains. The greens are bright and distinctly can be followed lines which would seem to melt away in the soft lights of the plains of the island. The deep forest, the green, all marks the place where the atmosphere is as of another than a tropical isle.

NOT WANTED AS ADMINISTRATOR

A petition was filed yesterday asking the removal of Representative John K. Prendergast from another estate of which he is the administrator. Louis Pearson is the petitioner, and he does not like the way the Hon. Mr. Prendergast has been managing the estate of his wife, Mary K. Pearson.

In the petition it is alleged that Mary K. Pearson died April 30, 1898, leaving no issue or heirs excepting her husband. That on October 10, 1898, John K. Prendergast was appointed by Judge Perry as administrator. The estate consists of a lot on King street yielding a semi-annual rental of \$60, payable in January and July of each year, which rents the administrator has collected, with the consent of petitioner, in 1899, 1900 and 1901, and "without such consent and over the protest of petitioner in January, 1902."

All the debts of the estate have been paid excepting a note of \$405, owing to the Bishop Estate. The petition alleges "that said administrator for two years past, has had in his hands over \$700 belonging to said estate with which he could have materially reduced said mortgage debt, but he has refused and neglected so to do, notwithstanding the order of this court, to the effect that said administrator pay in money in an amount to the said estate of \$100,000 on account of the said debt."

"That said administrator did not pay the interest on said note, which was due in January last past, but the same was paid by petitioner, out of his private funds, when it was fifteen days overdue."

"That it is for the best interests of said estate that the said John K. Prendergast be removed from his office as administrator thereof, and that a suitable person be appointed in his stead."

"Wherefore petitioner prays: 1. That said administrator be ordered to account for all money of said estate in his hands and to pay the amount thereof into court.

"2. That said administrator be removed from his said office and a suitable person appointed in his stead.

"3. That petitioner may have such other and further relief as to the court shall seem meet in the premises."

Judge Robinson has set the matter for hearing on Monday, April 21st. COURT NOTES.

E. L. Hoogs, administrator of the estate of Thomas Krouse, deceased, has asked for an order to sell the furniture and lease the Arlington Annex Hotel, the value of which he places at \$1200. He says that the income from the property is at present less than the expenses.

John Ena asks leave to resign as guardian of the estate of Carl Julius Hoag, a minor, and requests that E. A. Schaefer be appointed in his place. The annual accounts are submitted, showing receipts of \$1624.94 and expenditures of \$4322.37, leaving a balance of \$262.57.

Manuahi has asked to be appointed administrator of the estate of Pila Manuahi.

A demurrer was filed yesterday in the case of Albert K. Nawahi vs. Hakalau Plantation Co., alleging that the court has no jurisdiction, and that the facts stated are not sufficient to constitute a cause of action.

WASHINGTON, March 25.—The Comptroller of the Currency has written to the president of the First National Bank of Hawaii at Honolulu, asking for the list and outline of the directors elected at the regular meeting in January, which, it is understood, the Comptroller holds to have been the legal meeting of the stockholders, making unnecessary the second meeting, the call for which was afterwards rescinded.

Shot on Parade. ST. PETERSBURG, April 1.—While the Mignor regiment was parading on the barracks square at Kieff yesterday Captain Sofronoff shot and killed Lieut. Grodski, for maligning the former's family.

Ernest Lieber, Centrist leader in the German Reichstag, is dead.
