NOTICE TO WHEELMEN.

The manufacturers of the Sterling wheel are the originators of the so-called tangent spokes. In this method of construction the stress comes in a direct line from end to end of the spokes and the entire spoke is in tension. Bending the spoke at right angles at the end stretches its fibers on one side of the bend and compresses those on the other. Initial strains are thereby induced and the spokes greatly weakened. Each spoke used in the Sterling wheel is guaranteed tensile strength in front wheel 750 pounds and in the rear 850 pounds, all the stress coming on the head, they are practically indestructible. You buy a Sterling; it will please you. Will you not buy another when you need it? Why, of course you will. And when your friend thinks of buying a wheel; he asks you which is the best to buy; your Sterling has given you complete satisfaction, say you naturally will tell him so. See the new '99 model at the store of the Pacific Cycle and Manufacturing Company. Price, \$50.00 for lady's and gent's high grade roadster.

FOREIGN LETTERS PASSING IN MAILS.

A Year's Work in the Postoffice, Compared With What Has Been Done in the Past.

During the year 1898 no less than 1,067,528 ordinary foreign letters were received and dispatched from our general postoffice. During the same year 31,336 registered letters were also handled. In addition 612,928 packages of newspapers and pamphlets passed through. This makes a grand total of 1,711,792 pieces handled by the postoffice officials in connection with the ordinary foreign mails. Besides this there is the whole inter island mail, which exceeds these figures, and the soldier mail, which also does not appear.

Compared with the previous year the increase is large, being over 400,000. The exact number of packages then handled was 1,297,387. While in 1894 the total amount of foreign mail handled was only 714,254 pieces. This shows how the work of the postoffice has been going on by leaps and bounds.

Taking the totals apart, one finds that 476,907 ordinary foreign letters were received and 599,621 were dispatched—a total of 1,076,528, as against 268,276 received and 291,726 dispatched in 1894, or a total of 499,999, considerably less than half the amount being handled in the latter year than in 1898.

There is the same showing in the matter of registered letters. Of these 1,032 were received and 26,303 were dispatched in 1898, a total of 27,335 while in 1894 there were 6,694 received and 5,190 dispatched, a total of 11,884, and in 1897, 9,788 were received and 7,722 dispatched, a total of 17,510. So that the registered letters of 1898 were nearly three times the number handled in 1894, and very nearly double those in 1897. Another thing that should be noticed is that previous to 1898 the registered letters received have always been in excess of the number of registered letters dispatched. But in 1898 the number dispatched was nearly twice as large as the number received.

In the case of printed matter 1898 makes a showing of 455,828 packages received and 157,100 packages dispatched, a total of 612,928. In 1894, 228,242 packages were received and 64,119 dispatched, a total of 292,361 packages. In 1897 there were 376,487 prints received and 113,807 prints dispatched, or a total of 490,294.

Again in this there is a noticeable feature and that is the increase in the quantity of printed matter dispatched. This is chiefly in newspapers. There has therefore been a great increase in the circulation of the domestic newspapers abroad.

Taken all in all, the growth of the work in the postoffice is enormously increased, and the increase will go on during the next year. The postoffice is a good guide to the prosperity of a country. Increase in letter writing means increase in business. The larger the circulation of letters, the larger the volume of business.

While the work of the postoffice has increased, and is increasing, the help has not been in proportion to the advance, and consequently there are grows as to the amount of time taken up in distribution of mails. Everyone expects to get his or her letters in a few minutes after the mail arrives. When the volume of work is considered and the amount and kind of help is taken into consideration, there should be less grumbling at the actual officials and maybe a little more consideration for them.

NEAR FAR MANILA'S CITY

SKIRMISHING IS CONTINUED IN THE JUNGLE.

Otis Preparing to Take the Offensive—U. S. Soldiers Eager for Big Battle—Island of Negros Friendly.

MANILA, March 8.—The Filipinos have been concentrating to the east of the city and will probably try an attack from that side. Their principal object is to cut off the water supply of Manila. The American positions are strong and their attempts will be futile. Their losses have been severe the last few days.

The Madrid authorities have offered Aguinaldo a ransom of \$1,000 for each officer, \$100 each for the privates and \$50 for each civil servant. They have not offered to ransom the priests.

Aguinaldo declares that he has paid filibusters \$70,000 and has received only 500 rifles and 2,000,000 rounds of ammunition. The filibusters say the rest have been captured, but probably they were never bought.

NEW YORK, March 7.—A cable to the Sun, dated Manila, March 7, 8:50 p. m., says: Detachments from the Twentieth regular infantry and the First Nebraska and First Wyoming regiments, with four guns of the Utah light artillery, advanced this morning on the Filipinos south of the water works. The Twentieth infantry and the Nebraskans flanked the right while a battalion of the Wyoming troops attacked them in front. The enemy were in strong force, but after two hours' fighting through the jungle, clearing out the trenches and retreating to the Pasig river.

WASHINGTON, March 6.—There is some reason to expect important news from Manila within the next fortnight. It has developed that General Otis has practically completed his plans for a grand onslaught on the insurgents, which is expected to deprive them of offensive power at least. It is probable that he will form a large part of his force into columns as soon as reinforcements are at hand, and will push these in parallel lines straight through the jungle, clearing out the insurgents in every direction as the troops move forward. The American troops are getting restless and nervous under petty but annoying sharpshooting of the Filipinos, and are so anxious to put a stop to this that General Otis has ordered the capture of Manila.

WASHINGTON, March 6.—A telegram from General Otis at Manila received at Washington indicates the satisfactory and agreeable reception accorded to the American troops which recently landed at the Island of Negros, which were sent there by General Miller at Holo, in command of Colonel Smith to take formal possession for the United States, which he did without trouble.

DEATH IN A TYPHOON.

Three Sailors of the Transport Arizona are Lost.

SEATTLE, Wash., March 6.—John Wickstrom, formerly quartermaster of the United States transport Arizona, has just reached here from Hongkong, with news of the death of three New York sailors who were sent there by the transport at San Francisco. The unfortunate were George Forrester, Charles Turner and Jack Kahn.

Wickstrom says the sailors on being refused shore leave at Hongkong by Captain Ames of the Arizona, went ashore without permission. On their return they were ordered off the ship. Consul Whitman heard their case and decided that they should go with the ship. To avoid taking them the Arizona sailed several hours before her time.

To get to Manila to bring suit against the quartermaster's department for the year's wages, for which they had shipped, the trio shipped on a rickety coasting vessel flying the English flag. The schooner was hardy out of port before a terrible typhoon came up. She was wrecked on the reef, without giving the crew time to take to the boats, as supposed, as none were saved.

BUOY MISSING.
Captain Tullett of the James Makee reports by Purser Christian of the Noeau that the southwest buoy is gone. He says it has either sunk or been carried away. An account of this and the rough seas he had not attempted to land at Kapaa up to the time the Noeau left.

WHEELING IS COMING.
The U. S. gunboat Wheeling may be expected at this point at any moment. When she sailed from Vancouver nearly two weeks ago her destination was not announced. This morning, however, the Australia brought packages for the commander and the paymaster of the gunboat, which would seem to determine this much of her cruise. It is presumed that the final destination of the vessel is Manila.

SUFFERED FOR FOURTEEN YEARS.
I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Palm, which I did, and was immediately relieved, and in a short time cured. I am happy to say that it has not since returned.—Jose, Edgar, Germantown, Calif. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

MORE OF THEM USED.
There are probably more Singer sewing machines used in the United States than of any other one make. This is a very excellent guarantee that they are one of the very best machines. The points of merit are strength, durability, easy running and simple construction. Very little mechanism to get out of order makes repair bills small. When in need of a new sewing machine examine the Singer before purchasing any other make. B. Bergeron, agent, Bethel street.

PLANT FOR WAIALUA IN PART FROM MAINLAND.

Steel Buildings Ordered from Dillingham & Co. of New York—Everything Ready in Thirteen Months.

E. D. Tenney and C. Hedemann will leave Honolulu for the coast April 11, in order to look into improvements and to buy what machinery is needed for the Waialua plantation. There has been a great advance in sugar machinery of late, and in installing such large works as those of the new Waialua plantation, the very latest improvements must be examined. For this purpose thoroughly practical men, acquainted with the details of the business, are required to see for themselves on the spot.

One of the difficulties to be met and grappled with is the fact that the machinery must be in place and ready for use in thirteen months, and therefore great care in selection must be exercised. The proposition is to manufacture those parts of the machinery here, which the iron works can handle, and to obtain from the states all that the local manufacturers cannot manage.

All the buildings are to be of steel, and will be built by Dillingham & Co. of New York. This is the same firm that made the buildings for the Oahu Sugar Company, and is now engaged upon the buildings for the Honolulu Iron Works, which are to be erected at Kakaako.

During their tour on the mainland, Messrs. Tenney and Hedemann will visit New York and will also make a careful study of the machinery in use among the best sugar manufacturers at Salinas and other centers. The object of the tour is to obtain the most thoroughly up to date plant that can be secured.

CLEVER PEOPLE.
The cake-walk by Miss Ida Francis and Edw. Arnold at the Orpheum is one of the hits of the show. They are both clever young people and have a bright future before them.

THE AUSTRALIA.
Makes a Good Trip Here From the Coast.

The Australia arrived at 7:45 this morning, 6 days 17 hours from San Francisco. She left San Francisco on March 8th, at 2 p. m. She brought 48 cabin and 31 steerage passengers, 151 bags of mail and 1,600 tons of merchandise.

For the first three days out the wind was light northwest and north, and the weather fine. For the rest of the voyage there were moderate to strong trades well eastward.

General Weyler, the pet pig of the Oregon, when the Australia took up on her last trip, was safely delivered to Mayor Phelan and installed in Golden Gate park.

THE WEATHER.
Punahou Observatory, 1:30 p. m. Light trades, weather fair with abundant showers in the valleys. For this evening the same conditions.

Morning minimum thermometer 69, midday 75, 75, barometer, 30.10, irregular rainfall, none, humidity, 74 per cent; dew point, 66.

THE CABINET.
Mr. Thurston occupied almost the entire time of the cabinet this morning with his Hawaii railroad scheme. Further details were gone into, but no action was taken as the matter is of such importance that it will require considerable investigation.

SUGAR MARKET.
Hon. P. C. Jones Writes Encouragingly of the Future.

The Australia reports sugar 4% cents which is the same as before. P. C. Jones writes from Philadelphia that the market will certainly remain high the balance of this year and perhaps longer.

A letter from Welch and Company states that the California Beet Sugar and Refining company at Crockett is turning out 200 tons a day, and this without the use of one of their pans. This concern is owned and controlled by Island people and Welch & Co. of San Francisco.

REPORT THAT ALGER WILL GO.
WASHINGTON, March 6.—Secretary Alger is said to have expressed a willingness to retire after the criticism cases, if permitted to name his successor. He says he does not desire to embarrass the administration.

QUEEN OF BELGIUM.
BRUSSELS, March 5.—Queen Marie Henriette, who has been suffering from broncho-pneumonia, had a serious relapse at noon today.

PROFESSOR HART TO TALK.
Melbourne Teacher to Address the Camera Club of Y. M. C. A.

Professor L. M. Hart, instructor in photography in the Workmen's College at Melbourne, will next Tuesday evening address the Camera club in the Y. M. C. A. hall on the general subject and object of its work. Each member of the club will be entitled to invite two friends to attend the meeting on that occasion.

The Y. M. C. A. Review will be out this week. Among other things it will contain an interesting article from the pen of the Rev. C. H. Yatman on the Psalms, and another by C. B. Ripley, giving an account of his recent tour of thirty-five states on the mainland.

T. McCants Stewart's lecture on Grumblers and Grumbling will take place on Friday evening of this week, and should not be forgotten. General admission will be 25 cents.

H. F. Waity will lead the meeting in the hall next Sunday afternoon.

HITT TALKS OF HAWAII

HE THINKS THE ISLANDS WILL "GET ALONG."

Administration of Criminal Laws and Admiralty Present the Greatest Difficulties—Can Handle Customs.

WASHINGTON, March 6.—There has been considerable speculation as to the effect upon conditions in the Hawaiian Islands owing to the failure of congress to enact the legislation demanded.

Representative Hitt of Illinois, chairman of the committee on foreign affairs in the last congress, who was one of the Hawaiian commissioners, is probably as conversant with Hawaiian affairs as any public man in Washington. Mr. Hitt was asked today for an expression of opinion upon what may be expected in Hawaii between this time and the reassembling of congress and the enactment of proper laws.

"I am by no means inclined to take a hopeless view of the situation," said Mr. Hitt. "It is true that embarrassments will arise. For instance, a strict construction of the existing law, or rather absence of law, would permit criminals to go free because of the conflict between the United States laws and local regulations. But it is not to be considered that any such construction will be placed upon the case. The courts will see to it that public order is conserved.

"Another great source of difficulty will be the determination of admiralty questions. As a matter of fact, they will not be determined, but the people will have to worry along as best they can. As for customs questions, I think the president will have sufficient power, in the absence of specific legislation, to settle them.

"I believe when the next congress convenes it will be possible to secure consideration for the Hawaiian bill and to enact a comprehensive law for the islands. In the meantime, the ability and integrity of the men in charge of the government will be a sufficient safeguard for the interests of the people."

RAIN AT KANEOHE.
Joseph P. Mendonca says that that country has at last received rain and to spare. For two years the district had been exceedingly dry. Mr. Mendonca was on the point of getting up a protest to the government about the matter when the rains descended. At three o'clock this morning a heavy rain is green and growing and the prospects for ranching in the next year are of the very best.

MORE MULES COMING.
SAN FRANCISCO, March 3.—The steamer Conemaugh will not get away for Manila until next Saturday. The mules were to have been taken aboard yesterday, but it was decided first of all to test the animals for disease, and the loading will not begin until Thursday. An icehouse, with a capacity of ten tons, will be built on the Conemaugh's dock before she sails.

LT. GOODALE RETIRED.
The American army in the Philippines has lost Lieutenant James R. Goodale, who was General King's staff here and in Manila. The young man has been ordered home to be "mustered out," and has arrived at San Francisco. No reason was given Goodale for his recall, and he was much disappointed that it should come.

MR. YATMAN TO LEAVE.
Preaches His Last Sermon in Honolulu This Evening.

Rev. C. H. Yatman will sail by the Gaelic tomorrow for Japan and the Orient. His last sermon will be preached in the Methodist church tonight.

During his stay of sixteen days in Honolulu Mr. Yatman has preached thirty-six sermons. These have been delivered in foreign, native, Japanese, Portuguese and Chinese churches. Seven addresses were delivered in a single day, a Sunday.

Mr. Yatman will be seen off on the steamer by a very large concourse of his Honolulu friends.

POLICE COURT.
There were only two cases on the police court calendar this morning. Both of these men were charged with drunkenness. Judge Wiley imposed the usual fine of \$2 each and then adjourned court for the day.

THE ORPHEUM.
New Songs, Dances, Specialties and Comedies Tonight.

There will be an entire change of program at the Orpheum tonight. There will be new specialties, new songs and new features. Mr. Post has arranged a comedy which will be produced for the first time. It is called "Blue Glass Remy."

Royd and Oro have a new black face act. Miss Dora Mercey will sing new songs, and Miss Ida Francis will dance new dances. Eddie Armond has a new specialty.

There will be a grand children's matinee on Saturday to give the children a chance to see the trained dogs. Admission to all parts of the house will be 25 cents.

NEW ARRIVALS.
The city is full of new arrivals. It was never more clearly demonstrated than by a visit to the N. S. Sachs Dry Goods Co. Ltd. store. Their stock of new goods surpasses anything and everything. You can buy a single yard or article at wholesale prices.

A GOOD THING.
There's one good thing when they feel dry. That business men cannot pass by. For far and wide it's fame you hear. They stop to drink of "Rainier" beer. On draught or in bottle at Criterion.

We estimate that every pair of the J. & M. shoes we sell, bring four new customers.

McNERNY.

CARGO NEARLY ON FIRE

THE SHIP STAR OF BENGAL IN DANGER.

Her Captain Puts Into This Port—Legal Complications Arise Over the Temporary Hawaiian Registry.

The ship Star of Bengal, Captain Henry Henderson, forty-eight days from Newcastle, arrived off port this morning with her cargo of coal heated and danger of fire breaking out.

The ship is bound for San Francisco, but in the condition of her cargo, the captain thought it dangerous to proceed without an official investigation. So he put in here. He applied to Collector of Customs McStocker for the appointment of a board of survey to investigate the condition of the cargo. This application at once brought up a legal complication. The Star of Bengal is flying the Hawaiian flag under a temporary register issued by Consul Wilder at San Francisco. The government has refused to recognize these temporary registers. To have appointed a board of survey would have been a recognition of this one by the collector general. But the ship having no other register could not apply to a consul for the appointment of a board. Collector McStocker consulted with the cabinet about the matter, and it was decided to issue a stipulation that this action should not be construed as in any way recognizing the temporary register or in any way affecting the question of registry.

This stipulation will be executed some time this afternoon and the board will then be appointed.

The temperature of the cargo has risen almost to the point of combustion. To have proceeded on to San Francisco, in the opinion of the captain, would have endangered the ship, cargo and crew. The cargo will probably be discharged here.

KIPLING RECOVERING.
His Six Year Old Daughter Josephine is Dead.

NEW YORK, March 6.—Josephine Kipling, the six year old daughter of Rudyard Kipling and the eldest of his three children, died shortly after 6 o'clock this morning from pneumonia.

NEW YORK, March 7.—Mr. Doubleday tonight reported both Rudyard Kipling and his little daughter Elsie to be slowly but surely convalescing. Kipling has not yet been informed of the death of his child and he will not be told until he is practically well.

REGIMENT FIELD.
Lieutenant Colonel James will be elected colonel of the regiment as the evening of the 25th. It is understood that Major McCarthy will not accept the lieutenant colonelcy, preferring to remain with his battalion, and Major Ziegler may be promoted to the second place in the guard. Captain Camara in line for the colonelcy, but in case he is elected B and C will probably change places in the battalions.

FOR MAYOR OF CHICAGO.
CHICAGO, March 7.—The Republican city convention held tonight nominated Zina A. Carter for mayor. Mr. Carter has served one term as president of the board of trade. He is a member of the drainage canal board. The other nominations were Thomas H. Cannon for city treasurer and Charles E. Pierson for city clerk.

ATLANTIC RECORD.
NEW YORK, March 7.—The fast express steamer Kaiser Wilhelm der Grosse, which arrived today from Bremen, Southampton and Cherbourg, made a most surprising record trip across the Atlantic. She covered a distance of 3,148 knots in 5 days 21 hours and 8 minutes, an average of 22.33 knots an hour.

FAMOUS BANK ROBBER.
BUTTE, Mont., March 7.—Austin Bidwell, one of the men who became famous through the Bank of England robbery, died here tonight in his room in the Mantle hotel. The cause of his death was given as grippe. He was 52 years of age and a native of Chicago, to which place his body will be taken for burial.

CAMARINO'S REFRIGERATOR.
Per Australia: Plums, Peaches, Celery, Cauliflower, Fresh Salmon, Crabs, 1-ottenders, Frozen Oysters, (fin and well), Apples, Grapes, Oranges, Figs, Lemons, Turkeys and Game in season, Cranberries, Burbank Potatoes, Fine Olive Oil, New Crop of Dry Fruit, Nuts, Raisins, etc., etc.

Old roofs made good as new by having a coat of Peerless preserving paint.

KEEP MOVING.
Constantly turning over a stock at small margins of profit, makes in the aggregate a satisfactory year's business. This is L. B. Kerr's motto, and the reason his prices are so low. The last shipment of 120 cases of new dry goods direct from the manufacturers will be pushed out at astonishingly low figures.

BUSINESS MEN'S MEMO.
Wednesday, March 15.

Filed received by E. O. Hall & Son, Ltd., until Wednesday, March 22, 1899, for the construction of a two story warehouse on the Esplanade.

CRICKET ENTERTAINMENT.
Club Decides On Dramatic Program for Evening in April.
At the meeting last evening of the entertainment committee of the Honolulu Cricket Club it was decided to give an entertainment in the Hawaiian Opera House on the evening of April 8. There will be a curtain raiser, a couple of songs, and finally a play. The amateur orchestra, under the leadership of Wray Taylor, will supply music.
The details of the entertainment will be made out at another special meeting of the committee to be held next Saturday. A. St. M. Mackintosh, Wray Taylor and W. Horace Wright compose the sub-committee which arranged the program and reported to the general committee last night.

WILLET & GRAY SUGAR REMAINS HIGH.

This Opinion of Great Interest to Local Holders of Plantation Stock—Will Alay Past Fears.

"This combination of facts and figures indicates to us that sugar has started on an improvement course for the next two campaigns."

That is a closing remark in Willett & Gray's latest sugar letter. It means that the big New York authorities believe sugar will remain at high figures for the next two years. The conclusion is reached after an exhaustive comparison of the supply and demand of the future with the present. In these figures the probable effect of the opening of Cuba and the Philippines and the increased output of the Hawaiian Islands is reckoned upon. In their last paragraph they sum up as follows:

"If we are conservative in our estimates and the year 1899-1900 requires for consumption with average increase, say 8,405,000 tons, then with a supply at its beginning of 430,000 tons, the production of that campaign should reach, and promises to reach, at least 3,500,000 tons, or an increase of say 750,000 tons over 1897-1898. The cane sugar crops of the world have been steadily held at about 3,000,000 tons for the past four campaigns, while the beet crops were subject to large variations from 4,285,438 tons to 4,916,485 tons, but have never yet reached the height of the requirements for 1899-1900, say a possible 5,500,000 tons, for we question the ability of cane sugar countries to produce much in excess of their standard, 3,000,000 tons, in 1899-1900. The largest beet crop ever produced was 4,916,485 tons and the largest cane crop 3,531,431 tons, of which Cuba made 1,040,000 tons. This combination of facts and figures indicates to us that sugar has started on an improvement course for the next two campaigns."

The assurance, or opinion, that the high prices of sugar will continue to prevail during the next two years will have the effect of increasing faith locally in plantation stocks. It will lend an air of security to what has been almost a "from day to day" venture.

SENATORIAL STRUGGLE.

Votes Taken in Various States—Some Deadlocks.

LINCOLN, Neb., March 8.—In joint session today M. L. Haywood was elected United States Senator, to succeed W. V. Allen. He received seventy-four votes, the solid Republican membership except that one legislator was absent on account of sickness. Allen received fifty-eight votes, the full faction strength.

DOVER, Del., March 8.—Willard Saulsbury received the full Democratic strength in the balloting for United States Senator today. The ballot resulted as follows: Saulsbury (Dem.), 21; Addicks, 18; Charles F. Richards (regular Republican), 11; absent 2. Total vote, 50.

HARRISBURG, Pa., March 7.—The forty-second ballot for Senator resulted: Quay, 101; Jenks 77; Dutzell 17; Stewart 8; Irwin 6; Huff 8; Stone 4; Rice 2; Tabbs 1; Widener 3; Ritter 2; Grow 1; Markle 1. Total 231; necessary to a choice 116; paired or not voting 22.

SALT LAKE, March 7.—The Legislature took seven Senatorial ballots tonight and adjourned until tomorrow. The last ballot was: Cannon 8; King 5; McCune 27; Rideout 7; Henderson 2; Sutherland 13; absent 1.

SACRAMENTO, March 8.—The seventy-third ballot for United States Senator, held this morning, did not alter the situation. Following is the ballot: Barnes, 22; Estee, 13; Barnes, 24; Grant, 25; Scott, 5; Rosenfeld, 1; White, 4; John W. Hughes, 26; Phelan, 1.

GENERAL EAGAN COMING.

WASHINGTON, March 7.—Commissioner General Charles P. Eagan, who has remained in Washington since the court martial suspended him from service for his attack on General Miles, has arranged to leave Washington tonight for the west. He will go to San Francisco and thence embark for Honolulu, where he has a son who has a large interest in a coffee plantation.

SUGAR CONSUMPTION.

Great Britain takes the most sugar of any country—3,000,000,000 pounds per annum—or 80 pounds for each person. In the United States 5,500,000,000 pounds are used. France used 25 pounds a person; Germany, only 18 pounds; Austria-Hungary, 15; Sweden, 20; Norway, 12; and Spain, 7.

BACK TO ALASKA.

Senator Helm will get away in two or three weeks for Washington state, and will then go back to the Klondike for another "try" during the summer. His son Claude, who has been so ill for several weeks, will probably accompany him as far as the coast in search of health and strength.

EARTHQUAKE IN JAPAN.

Same Regions Visited as Were Shaken in 1891.

YOKOHAMA, March 7.—A severe earthquake shock was experienced at 10 o'clock this morning, the disturbance visiting localities of the great shock of 1891, with some loss of life and property.

On October 28, 1891, a very destructive earthquake visited Hondo, the principal island of the Japanese group, on which Yokohama is situated. About 8,000 houses, railways, bridges and the like were destroyed, and 10,000 persons were killed and 300,000 rendered homeless. The loss of property was estimated at \$10,000,000.

WINSHIP WOUNDED.

Well Known Bennington Officer Hit by Filipino Bullets.

NEW YORK, March 5.—A Sun cable from Manila, March 5th, at 7:30 p. m., says: While a boat's crew, in charge of Assistant Engineer Emery Winship of the gunboat Bennington, were attempting to land a Gatling gun from that ship yesterday near Malabon they were fired upon by some natives who were ambushed near the place where it was intended to land the gun. All the shots went wild with the exception of one which hit Winship, inflicting a serious wound in each leg.

WEDNESDAY, MARCH 15, 1899.

An account of the work of the post-office in handling foreign letters is given in this issue. Of course this is but a small amount of the work carried on by that bureau, but the figures show the enormous increase that has been made in that particular branch. Later the domestic mail figures will be made up. Then there is the money order, the parcels post and the postal savings bank work to be considered. But the general public is most interested at present in its foreign correspondence, and that, as the figures show, is growing largely.

The Japanese were a menace to Hawaii, when the Islands were an independent little republic. At that time there was no telling when the government of the Mikado might take it into his head to make a demand for the franchise. Had such a demand been made under the guns of the Naniwa, we would have been powerless. Now there are no such fears. The Japanese cannot acquire the franchise, and the Japanese government cannot dream of ever gaining possession of the Islands. The Japanese, since annexation, have ceased to be a menace.

Everyone will rejoice that Rudyard Kipling is out of danger. He is undoubtedly the most popular author of the day, and he promises to be the greatest poet of the century. But rejoicing over his recovery from a public and national point of view, no one can refuse a thought of sympathy to Kipling, not as the writer and poet, but as the man, upon the loss of his little daughter. Ever are the human feelings and sensibilities played upon by opposing fingers, 'tis it were, and no satisfaction or joy escapes having the minor chords breaking in upon the rejoicing harmonies.

Congressman Hitt reviews the position of Hawaii very clearly in his Washington interview. Matters here will go smoothly enough till congress decides what shall be done in the way of organic law. There may be some spots in the law courts and some points reserved for future decision of the United States supreme court, but that will be about all the difficulty. Now that President McKinley is more at leisure, as he has full powers over Hawaii till congress meets and formulates some definite plan, he may make a few changes in the personnel of the officials here, indeed, there is some talk of this; but the changes, if any, will not be numerous.

PREPARATION.

Seeing that the United States may start a colonial system during next Congress, and that no doubt considerable time and research will be devoted to evolving plans, it is interesting to know something of such systems and much information upon the point is contained in the monthly summary of commerce and finance, just published by the Bureau of Statistics.

The various colonies, protectorates and dependencies of the world number in all 125. They occupy two-fifths of the land of the globe and their population is one-third of the entire people of the earth, which is now estimated at 1,500,000,000. These colonies, etc., lie chiefly within the torrid zone, and the governing countries lie in the north temperate zone. Upon these premises a strong argument can be built up in favor of the independent races of the temperate regions ruling and occupying the tropical countries. It has been the course of history for centuries, and has historical precedent to appeal to over and over again.

Great Britain owns two-fifths of the 125 colonies, protectorates and dependencies, which make up the total list; but the area is one-half the grand total and the population considerably more than one-half. France stands next in number, area and population, but the area is about one-third of the British possessions and the population less than one-sixth.

Of the colonies and protectorates the total imports amount to \$1,500,000,000 worth of goods annually, and of this vast sum 40 per cent is purchased from the mother countries, or from the protecting powers, and of their exports, which are nearly \$2,000,000,000 in value, 40 per cent goes in the same direction.

From this it is very plain that large markets are opened up by colonies and that the colonies are disposed to trade with the mother country, even when left free. Therefore a nation seeking for markets, as the United States is now doing, owing to the enormous increase in its manufacturing industries, must necessarily look with a favoring eye to increasing those markets by colonization in the same direction that other powers from the temperate zone have done, viz: in the tropics. It may be laid down as a dictum that

the most acceptable and therefore the most successful colonial systems are those in which the largest liberty of self government is given to the people. The British colonial system, which has by far outgrown any other, gives, wherever practicable, a large degree of self government. The colonial governors are appointed by the crown, as the governors of territories are appointed by the president, but the law making and enforcing power being left to legislative bodies which are elected by the people, when practicable, the central government, however, retaining the power of veto.

In the French colonies less attention is given to law making and administration by local legislative bodies, while the more important of the colonies are given members in the legislative bodies of the home government, where their interests are lost in the clashing interests of the nation at large, and of Paris in particular.

The Netherlands colonies have the laws and regulations administered in conjunction with native functionaries. In this case the colony is regarded not as a young child of the family, to grow up into a sovereign state, if it ever cared to assert such rights, and in all things the equal of the mother country, but it is considered in the light of a valuable estate which must yield a regular income to its owner. The estate is well cared for and the laborers well looked after, but a Dutch colony can never rise out of its leading strings and become practically independent. It has no freedom of trade, and no freedom either in law making or law enforcing.

Among these various systems a plan or a model may be evolved. That there is anything obnoxious to republican principles in possessing a colonial empire is not a tenable proposition. The French republic has colonies at the present time, and is disposed to increase her colonial powers if she can. The republics of Greece threw off numberless colonies, till Southern Italy and Sicily became so filled with Greek colonists that the name of Magna Graecia was given to the aggregation.

Based upon proper lines there need be nothing to prevent a republic from establishing colonies and bringing them up to the position of equality in course of time. And this system will undoubtedly be applied to Porto Rico and the Philippines. The exhaustive information which is being collected by the Bureau of Statistics shows how carefully preparations are being made for a close study of the subject.

With this knowledge before us, it behoves ourselves and our friends to be up and doing, and to put forward our claims to territorial and not to a colonial form of government for these Islands. We have an excellent cause, but we must keep that cause before the national attention. We are small, insignificant indeed, but however small we may be, we have a right to ask for justice. The manner in which we joined the American republic, and the conduct of our government during the early part of the Spanish war, gives us ample cause to hope we shall enter upon a territorial and not upon a colonial probation.

ENTER ITALY.

The partition of China seems to be drawing nearer and nearer. Italy has now made a demand for a position on the coast under similar terms to those upon which Germany obtained its station at Kiauchau, with a ninety-nine year lease. The Chinese foreign office has refused to make the grant and Italy is now preparing to make a naval demonstration which will probably end in taking the place by force.

There may, however, be a complication. France is averse to Italy acquiring a port in China, and is supposed to have influenced the Chinese ministry of foreign affairs. Great Britain on the other hand supports Italy in her demand. Now should Russia side with France, that eastern struggle about which so much has been written and said, may finally take shape.

In fact, in the present condition of relations between France and Great Britain, it is quite on the cards that the latter country has urged Italy to the step she has taken. Many newspapers on the continent of Europe think that war between France and Great Britain is inevitable, and that the latter power only desires to have a proper pretext to begin.

In the world's drama in the eastern seas and sea coasts it is curious how new characters are turning up every day. The plot is evidently thickening, and when all is ready we may expect a grand transformation scene.

The demand still continues for the celebrated **Blue Flame Oil Stoves**

and being out of them caused great inconvenience to our customers and resulted in loss to us. But we have just received a large shipment of these justly famous stoves in three sizes, which we offer at the following prices:

\$16. \$22.50 \$25

These stoves are absolutely non-explosive and free from odor. So clean are they that a meal can be cooked in the parlor and the stove wheeled out, and no one know that cooking had been going on. They are very economical also and are just the thing for small families and light house-keeping.

We have also left a very few of the

FISCHER STEEL RANGES

which we desire to close out, and in order to do so quickly we have reduced the price to

\$45.

This figure for the Fischer Steel Range will be appreciated by those who know the value of them. It is very low and the price will soon dispose of them.

To Attorneys.

And to whom it may concern:

I beg to call your attention to my capabilities as an auctioneer, and respectfully solicit such business as might be at your disposal. I act as referee; conduct such sales as are formally demanded in the transaction of legal affairs; make appraisements and act as administrator of estates. I have all the facilities necessary for the successful conduct of this special class of business. I am a licensed auctioneer, thoroughly familiar with all the requirements demanded in the office as such, and PERSONALLY CONDUCT all sales. In short, I will take full and complete charge of all affairs appertaining to real estate.

Real Estate Owners.

My Real Estate Department is devoted to the listing and sale of Realty, and is most thoroughly equipped. My methods are peculiarly my own and are uniformly of satisfaction to all with whom I have business relations, as in all the departments the utmost courtesy is extended to all. Special attention given to the subdivisions of outlying tracts. Twenty-five and more years experience justifies this statement.

House Renting

—AND—

Collection of Rents

In no department of the real estate business should greater caution be exercised than in these departments. EXPERIENCE, TRUSTWORTHINESS, AND AFFABILITY are absolutely necessary. Good judgment, business foresight and a devotion to the interests of my clients, while being guided by their personal preferences is my assurance I give to those placing their business in my hands.

LANAI PLANTATION A GO

PAPERS APPROVED BY THE CABINET.

Concern Will Operate on the Island of Lanai—Iron Works Company Increases Its Capital.

Articles of incorporation of the Lanai Sugar Company, Ltd., have been approved by the cabinet. The capital stock is \$1,000,000, divided into 10,000 shares of \$100 each, with the privilege of increasing to \$3,000,000.

The incorporators of the plantation are Gear, Lansing & Co., with the respective partners in person, C. B. Gray, W. R. Sims and W. M. Minton. Theo. F. Lansing is president, C. B. Gray is secretary and A. V. Gear is treasurer. George D. Gear is attorney.

The incorporation is for fifty years. Most of the lands of the Gibson estate on the Island of Lanai will be occupied and tilled. A large amount of seed cane is already in, and thus a substantial business start has already been made.

The stock of the corporation was over-subscribed before the books were actually opened, and those who got in at all got only a portion of what they had subscribed for.

An application of the Honolulu Iron Works Company to increase its capital stock from \$100,000 to \$300,000 has been approved by the cabinet.

IN THE COURTS.

Land Suits Settled—Columbia Decision in a Few Days.

Judge Stanley filed a decision in the case of G. W. Kaula, et al., vs. Samuel Andrews, action to quiet title, dismissing the complaint of plaintiff with costs. In this matter plaintiffs claimed to be the owners in fee simple of a certain tract of land at Waianae. Andrews claimed the property under a deed from one S. Kahuale, which the complainants desired should be set aside. It was shown to the court that Andrews' deed was bona fide and of full effect, and upon that the decision is given.

The Kaneohe Ranch Company has filed a petition in the circuit court to be allowed to cut a ditch from its property across the lands of Mrs. Charlotte King and others, in Koolau, to the sea, for the purpose of drainage.

J. A. Magoon, trustee of the estate of the late J. F. O. Ranning, has filed his annual account showing receipts \$48,198 and expenditures \$38,701.16, leaving a balance of \$9,496.84.

As guardian of Susan Brash, J. A. Magoon has filed his annual account, showing receipts \$550.25 and expenditures \$1,712.48.

David Manuel's estate received during the year \$33.29 and expended \$241. Accounts are also by J. A. Magoon.

The Columbia case now goes to the supreme court for a decision. This will be submitted in writing in a few days. It will be then that the question of whether there will be another sale is settled.

GERMANY AND SAMOA.

WASHINGTON, March 7.—Although Herr Salf, the newly appointed consul of Germany to Samoa, has not yet started for his post, the action of the German government in appointing him and recalling Dr. Raffel is construed as a virtual admission that the latter exceeded his authority, and that Germany disavows his acts. It is also interpreted to mean that Germany is inclined to do anything possible to restore harmonious relations with the United States. In view of the recent withdrawal of German war ships from Manila this fact is regarded as significant.

One Large Scar

Is All That Remains of Great Scrofula Sores

Neighbors Could Not Bear to Look Upon Her—A Grand, Complete Cure by Hood's Sarsaparilla After Others Failed.

"I was taken with neuralgia in my head and eyes. Not long after this, a scrofula sore appeared on my left cheek, extending from my upper lip to my eye. Other sores came on my neck and on my right arm and one of my limbs. They were very troublesome and painful and soon became great running sores. My face looked so bad that some of my neighbors could not bear to look at me and advised me to wear a bandage, but I feared this would irritate the sore and make it worse. So I

Could Not Hide the Sores.

My niece, who was familiar with a case similar to mine, which had been cured by Hood's Sarsaparilla, urged me to try it. Finally I was persuaded to do so, and in a short time I saw it was helping me. The sores began to heal and the neuralgia in my head was better. In a few months the sores on my arms and limbs all healed; those on my neck gradually disappeared and now they are all gone. I have never had any symptom of scrofula since. One large scar on my right arm is all the sign that remains of my terrible affliction. The neuralgia is also cured." Mrs. J. M. THE PARTITION OF CHINA

HEREFORD'S "OPEN DOOR" IS SLAMMED SHUT.

Italy Demands a "Sphere of Influence"—Supported by England—Opposed by France—America's Hands Off.

PEKING, March 5.—The Tsung Li Yamen (Chinese Foreign Office) has returned to the Italian Charge d'Affaires, Marquis Salvago Raggio, his dispatch containing the demand of the Italian Government for a lease on San Mun bay, on the same conditions as those under which Germany holds Kiochnau bay, accompanying it with a letter declaring that the Chinese Government is unable to grant the request.

The demand of the Italian Government of a ninety-nine-year lease on San Mun bay, Province of Che-Kiang, as a coaling station and naval base, included also a demand for the concession of three islands off the coast of Che-Kiang, with the right to construct a railroad from San Mun bay to Po-Yang lake and to preferential railroad and mining privileges, covering the southern two-thirds of the Che-Kiang province.

LONDON, March 6.—The Peking correspondent of the Times says: It is asserted that since the Tsung Li Yamen returned Italy's dispatch Sir Claude MacDonald, British Minister to China, has presented a note supporting Italy's demand, and it is probable that Italy will now take possession of San Mun bay, encountering practically no resistance.

LONDON, March 7.—The Peking correspondent of the Times says: The Tsung Li Yamen's rejection of Italy's demands was couched in studiously contemptuous and minatory terms. I find that the French Minister, a fortnight ago, warned the Tsung Li Yamen that Italy was about to present a demand and counseled its rejection. Signor Martino's dispatch used the very words "sphere of influence," which, owing to difficulty in translation, were rendered "protectorate" in Chinese.

ROME, March 8.—The Italian Government is fully determined to obtain an apology from China for the Tsung Li Yamen's refusal of the demand of Signor Martino, Italian Minister at Peking, of a concession at San Mun bay, Province of Che-Kiang, to be used as a naval base and a coaling station. A squadron of five cruisers, with 1,500 men, will soon arrive at San Mun bay.

WASHINGTON, March 6.—One of the highest authorities today said: "The Government of the United States will not take any steps in regard to the Italian demand for Chinese territory." In other words, our Government, resisting from motives of broad policy all the intimations from other powers that the time is ripe for a raid by the United States on some part of the Chinese coast line, has determined to keep hands off.

But one motive could induce the Government to change this policy and that would be a desire to protect our valuable commerce with China from the danger of being completely cut off through the gradual extension of the leaseholds of European nations over the whole Chinese sea coast.

MANILA, March 5.—General Otis today visited Professor Schurman and Professor Worcester, members of the United States Philippine Commission, who arrived here yesterday on the cruiser Baltimore from Hongkong. They lengthily discussed the situation here and elsewhere in the archipelago.

CHAMBERLAIN'S COUGH REMEDY
This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good works: of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. It is especially prized by mothers for their children, as it never fails to effect a speedy cure, and because they have found that there is not the least danger in giving it, even to babies, as it contains nothing injurious. Sold by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

FEBRUARY

Was a very cold month in the bean eating and wooden nutmeg making sections of the United States, but it was rather a warm month in the pot section judging from the way our large stock of COLUMBIAS and RAMBLERS melted away. Thirty-eight Columbias and Ramlers sold for the month of February, was our record, and five for the first three days of March, makes us believe that this is going to be a good month also.

No one to blame for all this but Columbias and Ramlers themselves. Best wheels on earth can't help selling. Seventy-nine bicycles ordered for return trip of the Australia. Do not know just how many we will get till she gets here, as it is hard to get all orders filled for Columbias and Ramlers, as they cannot be made fast enough.

Columbias, \$50.00, \$60.00 and \$85.00. Ramlers, \$50.00. The only thing for nothing is wind, and that you will find on the sidewalk on tap.

BAILEY'S BIKE BITS.

We have now on tap a supply of pure and unadulterated wind, free to all, direct from our own wind-bag, warranted to ride easier than any other brand on tap in Honolulu; puncture-proof and free from oil or any substance that could possibly injure the most sensitive tire. Remember, that a blow up at Bailey's will go farther than any other in town. We have the finest thing in connection with free air; no hose, no trouble.

Talking about puncture-proof, we shall have in stock in a few days a tire that a Kiawe thorn cannot penetrate. We sent to the maker a full line of thorns for trial. The factory experimented with them and found that the Milwaukee Puncture-Proof Tire is impervious to the worst Kiawe thorn you can find. It is also as easy to ride as any first class tire in the market. Puncture Proofing has not affected its resiliency. No metal strips in the tread. For sale in the Hawaiian Islands exclusively by

END OF VOLUNTEER ARMY

McKINLEY THINKS THE REGULARS
ARE SUFFICIENT.

Will Not Avail Himself at Present of
the Authority to Organize the Pro-
visional Army of 35,000.

CHICAGO, March 7.—A special to
the Times-Herald from Washington,
says: President McKinley has decided
not to avail himself of the authority
granted by the compromise Army bill
to organize a provisional Army of
35,000 volunteers.

After consulting with officials of the
War Department the President has
decided that in view of the present
favorable outlook in Cuba and the
prospect of the complete suppression
of the Philippine insurrection at an
early date, it will not be necessary,
after the present volunteer forces
have been mustered out, to have more
than the 65,000 men allowed for the
regular army until July 1, 1901.

It is also the President's purpose
to expedite the withdrawal of volun-
teers from Cuba and the Philippines as
rapidly as possible and muster them
out of the service. All the volunteers
are to be brought home from Cuba
without delay, and those in the Phil-
ippines will be brought home as soon
as enough regulars can be sent out
to take their places.

The President will have authority
under the law to appoint volunteer
general officers and volunteer staff
officers in sufficient number for the
65,000 regulars. If subsequent devel-
opments shows the necessity for more
men the President will then exercise
his power to enlist all or part of the
35,000.

TRANSPORTS.

SAN FRANCISCO, March 8.—Accord-
ing to the latest advices these vessels
will sail for San Francisco during the
next few days. Their schedules are
as follows: Leave Hongkong, Arizona,
March 6; leave Nagasaki, Newport,
March 10; Scandia, March 11; Morgan
City, March 12. It will take these ves-
sels about a month to make the long
trip across the Pacific. In addition
to these vessels three other transports
will be available for the service be-
tween the Philippines and the United
States. The Grant, Sherman and the
Sheridan are now in various stages of
the route between New York and
Manila.

PUEBLA FOR HONOLULU.

SAN FRANCISCO, March 7.—The
steamship City of Puebla, which ar-
rived on Saturday from Manila, will
return to the Pacific Coast Steamship
Company's service just as soon as she
has been thoroughly overhauled. She
will either resume her run between
here and Puget Sound or will be put
on the run from Seattle to Honolulu.

FLYING DUTCHMAN RECORD.

Woolahara from Honolulu Fog Bound
for Thirty Days.

SAN FRANCISCO, March 7.—The
British bark Woolahara, which ar-
rived at Eureka yesterday, has estab-
lished a record almost as brilliant as
that held by the schooner W. S.
Phelps. Both vessels now stand high
in the Flying Dutchman class. The
Woolahara left Honolulu forty-one
days ago, made record time for the
first part of the trip, and, but for the
fog would have reached Eureka near-
ly a month ago. She got within hear-
ing of the whistles of steamers going
and coming from Eureka, but for
nearly thirty days wandered about a
few miles from her journey's end, en-
veloped in a dense fog, and, through
lack of wind, at the mercy of tides
and currents. Every effort was made
on board the ship to attract the at-
tention of passing steamers. Bells
were sounded, whistles blown, but no
help came to the lime-juicer until the
fog lifted. The Woolahara will load
lumber at Eureka for Sydney.
