Special Congressional Action
to Provide for Use of
State Troops

(Associated Press by Federal Wireless)
EL PASO, Tex., July 6.—The bodies of Capt. Charles T. Boyd, 10th Cavalry, and 1st Lieut. Henry R. Adams, 10th Cavalry, together with those of seven troopers, all victims of the Mexicans in the fight at Carrizal, arrived here today. The bodies were stripped of their uniforms, but not mutilated. Eight of them were found in a ditch, where they had been covered with soil. The ninth, a trooper who died of wounds, was a mile from the others.

BY C. S. ALBERT.
(Special Star-Bulletin Correspondence)

WASHINGTON, D. C., June 19.—Because of remote distance, heavy transportation expenses and time required for expeditious movement, the Hawaiian militia organizations were not invited to participate in guarding the Mexican border. Furthermore, the militia of the territory is regarded more nearly as a local organization, for purely home defense, than any other body in the National Guard.

This is the explanation given by the war department officials, following the president's call for mobilization issued to the governor of every state except Nevada, which possesses no defensive organization. The District of Columbia was in the favored class and contemplates turning out a large number of men in proportion to the size of this capital city.

Some officers invite attention to the fact that under the call it is proposed to leave a sort of nucleus in each state, where a portion of the National Guard will be left to perform such duties as may arise. These would include labor troubles, strikes, rioting and the usual class of disturbances that result in the guard being brought into local requisition.

In any event, the Hawaiian militia will not see service on the Mexican border at present. The organization might be called out on a subsequent call, but none is in sight. There is no reason to believe the territorial militia will be included in the authorization to be given by Congress for using the segregated forces of the country in Mexico. Under existing laws the militia may not be sent out of the United States.

WILSON ACCEPTS PROPOSAL TO TALK OUT DIFFERENCES

(Associated Press by Federal Wireless)
WASHINGTON, D. C., July 6.—President Wilson will accept Carranza's assurances that the de facto government will safeguard foreign lives and property in Mexico and join the United States in punishing the border bandits.

This has been definitely decided. Formal acceptance of Carranza's proposal that the differences between the two countries be settled by direct negotiations will be despatched to Mexico City soon, the president and Secretary Lansing have decided.

Lansing leaves on a month's vacation tomorrow.

The indications are that the reply to Carranza will start in a few days.

BLAME DRUNK AS CAUSE OF DEATH PRIVATE FRANE

Booze Used in Celebrating July
Fourth Alleged to Have
Caused Troubles

(Special Star-Bulletin Correspondence)
SCHOOLFIELD BARRACKS, July 6.—The death of Private John W. Frane on the evening of July 4 has brought deep gloom to F Battery, 1st F. A., and to the entire field artillery at Schofield. Frane was a young man of 25 from South Bend, Indiana. He transferred a few months ago from the 6th Field Artillery, and was on his second enlistment.

Last month he took part in the races at Kapiolani Park, and carried off third prize in the exciting Roman race. He was rated as one of the best athletes in the regiment, and was slated to play shortstop on the regimental baseball team.

In spite of his popularity in his battery and regiment, there is deep sympathy for Private James M. Jones, the battery barber of Battery F, who gave Frane a pelt with his fist that without doubt contributed toward his death, if it was not the direct cause. A board of officers has been thoroughly investigating the case, but it is impossible at this time to ascertain the result of their investigation. It is evident, however, that the testimony of eye witnesses is very conflicting and there are many points about the case that can be seen from two angles.

Drink induces trouble.

Frane was drunk, in fact he was very drunk. He had been celebrating the Fourth with several other members of the battery, in Wafale Gulch, or "Laundry" Gulch as it is commonly called. Booze was the means of celebrating, and booze is the culprit that

(Continued on page four)

DOMINGO REBELS FIGHT, LOSE TO MARINES OF U. S.

(Associated Press by Federal Wireless)
WASHINGTON, D. C., July 6.—News arrived here today that 250 revolutionists of Santo Domingo and a detachment of American marines engaged in battle previous to the word having reached the rebels that the disarmament agreement had gone into effect. Twenty-seven Dominican rebels were killed and five captured, while the American losses were one marine killed and eight wounded.

FINE SHOWING MADE AT KAUI BY MEN OF 4TH INFANTRY, N. G. H.

That the 4th Infantry was mobilized in two hours at Lihue, Kauai, on July 4, is stated in a radio message received at National Guard headquarters late Wednesday from Brig. Gen. Samuel I. Johnson, commanding the National Guard of Hawaii.

"The complete regiment of 12 companies, hospital corps and band, was mobilized in two hours," says Gen. Johnson's message, dated July 5. "This is an excellent military achievement. The regimental parade, review, competitive military and athletic events, were all surprisingly good."

Governor Pinkham says he is delighted with the showing of the 4th Infantry, and predicts that it will soon be one of the crack regiments of the group. The greatest crowd in the history of Kauai attended the July Fourth celebration. Weather was ideal. The governor banquets the National Guard officers of Kauai tomorrow evening.

SUNDRY CIVIL BILL GOING ALONG WITH \$128,299,284

(Associated Press by Federal Wireless)
WASHINGTON, D. C., July 6.—The sundry civil bill, carrying the big sum of \$128,299,284, has been agreed upon by the house and senate conferees.

It is expected to be approved by the house and senate today, as no obstacle to its passage is now in sight.

An amendment to the bill provides that the appropriation for the new government powder factory may be used for the purchase or construction of a plant, or for the enlargement of one now owned by the government.

HIGH HONOR TO BE PAID TO K-8 AND CREW ALSO

Coveted "E" is Believed Won
and Division Trophy is
Thought Retained

OFFICERS WAITING
FOR NOTIFICATION

Highest honors awarded any submarine in the United States navy, the coveted "E," given each year to the undersea raider making the best score in torpedo practice, will probably go to the K-8 of the third submarine division, Pacific fleet, stationed at Pearl Harbor, it was learned today from an authoritative source.

Last year the third division won the division trophy, but not the individual. This year, as a result of last month's torpedo practice off Lahaina, Maui, they have retained the former trophy, and comparison of the 1916 records made by each submarine here, makes it practically certain that the K-8 has won the individual trophy, earning the right to paint "E" in white on her bow, signifying the highest efficiency attained by any submarine in the American navy during 1916.

Formal notification from the navy department that the K-8 has won the individual trophy, is being awaited by officers of the third division. The letter "E," token of this trophy, means "Excellent," and accompanying it will be a pennant and a cash prize, amounting, it is said, to about \$20 for every man in the submarine's crew.

According to the Navy Directory of May 1, there are eight divisions, four with the Atlantic fleet, three with the Pacific fleet (of which the third division, stationed here, is a unit) and one, consisting of nine submarines, with the Asiatic fleet.

The third submarine division of the Pacific fleet, stationed at Pearl Harbor, consists of the K-3, K-4, K-7, and K-8. Other boats of the K type are in the fourth division of the Atlantic fleet, which has the K-1, K-2, K-5 and K-6.

The first submarine division of the Pacific fleet consists of the F-1, F-2, and F-3, now "in ordinary" at Mare Island, undergoing repairs. They are sister-ships of the ill-fated F-4 and were formerly stationed here.

Commanding the K-8 is Lieut. J. W. Lewis. His assistant is Ensign C. E. Byrne. Commanding the third division is Lieut. Comdr. Thomas C. Hart.

NEARLY 300 DIE IN SICILY MINES

Aftermath of Stromboli Out-
break is Severe Earthquakes
at Caltanissetta

(Associated Press by Federal Wireless)
ROME, Italy, July 6.—Following the outbreak of the volcano of Stromboli early yesterday there was a severe earthquake at Caltanissetta, Sicily, today. Nearly 300 men at work in the sulphur mines there were entombed by cave-ins or otherwise killed.

PACIFIC MAIL'S NEW SERVICE TO START IN AUGUST

(Associated Press by Federal Wireless)
SAN FRANCISCO, July 6.—John Rosseter of the Pacific Mail Steamship Company returned from New York yesterday with the declaration that by August the transpacific service of the company will be restored with the departure of the steamship Ecuador for the Orient.

Later the other two recently-purchased steamers, the Venezuela and the Columbia, will enter the transpacific service.

BRITISH DRIVE CHECKED, SAYS BERLIN DESPATCH

Germans Beginning to Take
Prisoners, Asserts Official
Cablegram

HEAVY FIGHTING IN
EAST, RESULT IN DOUBT

Britain's offensive on the west is checked and the Germans are beginning to take prisoners, according to the official Berlin cablegram for yesterday, received this morning. It says:

"GERMAN HEADQUARTERS, July 5.—From the coast up to Ancre only artillery and minethrowers are in activity, besides small reconnoitering combats.

"During the last few days 48 officers, 1867 unwounded British soldiers were prisoners on the right bank of the Ancre. On both sides of Somme since yesterday evening, heavy combats were engaged in, the enemy nowhere gaining serious advantages.

"West Meuse: on special orders.

"East Meuse: The French again attacked with strong forces, but without success. Attempts to advance against our positions northwest of Thiaumont.

"East front: The Courlandian coast shelled without effect from sea.

"Hindenburg army: The enemy continued enterprises against this front, especially on both sides of the Smorgon. German air squadrons copiously bombed railroad and troop concentrations vicinity of Minsk.

"Prince Leopold's army: Russians resumed activity on the Zirin front, until south of Baranovitschi, being repulsed in very tenacious hand-to-hand fighting or ejected from places where they penetrated defenses. The enemy suffered heaviest losses.

"Linsingen's army: Both sides of Kostuchovka and northwest of Czartorysk and northwest of Koliki combats engaged in. Russian detachments which crossed the Styx west of Koliki were attacked. At many places north and west and southwest of Luck, to the district of Werben and northwest of Berestekzo all the enemy's attempts undertaken with strong forces, in order to reconquer advantages obtained by us, failed. Besides heavy bloody Russian losses we captured 11 officers and 1139 men.

"Our flyers attacked railroad and troop concentrations in Luck.

"Bothmer's army: South of Barysz the enemy temporarily obtained footing in one small track in first line. Our success southeast of Tlamacz was extended."

GREAT UNIVERSITY HERE, LEUSCHNER PREDICTS

"Hawaii should have an institution of learning second to none," said Professor Armin Otto Leuschner, dean of the graduate school of the University of California, and a graduate of the University of Michigan, before the members and guests of the University Club at luncheon today.

"Art, literature and science should flourish here, and the beginning that has been made shows that the people of Hawaii are interested in education, but they can go further and work out the principles that have been followed in the march of education.

"Westward the course of learning wends its way, and it is still marching to the setting sun. California on the western shores of the continent, and Stanford University have become great institutions of learning, and the time will come when Hawaii shall have done her part in keeping the movement still further toward the west.

"It was a great source of pleasure to me to watch the work that has been done by Thomas A. Jaggard, Jr., at the volcano. Hawaii has need for such men, and the research work should be furthered."

MAY AGAIN MENACE LEMBERG; HARD FIGHTING ON THE WEST

Contradictory Reports From Allies and Teutons—German
Submarines Get Victims—Paris Claims Success on
Somme

(Associated Press Service by Federal Wireless)
LONDON, England, July 6.—Great advances made by the Russians on the east during the last few weeks are bringing the Czar's armies down again on that part of Galicia which leads to Lemberg.

Furthermore, the latest reports show that with the weather favorable the Slavs have taken the offensive on the entire eastern front. Petrograd despatches today report successes all the way from Riga to the Carpathians, and there are rumors that the Russians have penetrated some of the Carpathian passes and are working down into the plains of Hungary, close to the Roumanian frontier.

In the Galician country beyond the river Strypa the Russians have crossed the railway between Delatyn and Korosmezo and have captured Mokouphine. Their progress here is so steady that it is believed the Austrians may withdraw towards Lemberg, thus fighting over the ground won many months ago, after Franz Josef's soldiers had dislodged the captors of the Lemberg fortress.

Attacks on West Front Today Thrown Back, Germany Declares

(Associated Press Service by Federal Wireless)
BERLIN, Germany, July 6.—Both on the French and British fronts today numerous attempts of the Allies to take the offensive were met with such determined resistance that the attacking parties were broken down and annihilated or forced to give back under heavy losses.

The French made a stiff attempt southwest of the fort position of Vaux, on the Verdun line, to advance but were repulsed. An endeavor to recapture the Damloup Hill battery was equally unsuccessful. From the Aisne district the French made a strong effort to rush the German lines northwest of Rheims, but were thrown back with serious losses.

Fighting Around Hem, Says Paris; Verdun Cathedral Under Hot Fire

(Associated Press Service by Federal Wireless)
PARIS, France, July 6.—The Germans today succeeded in capturing two small pieces of woods north of Hem. The French also took a wood which had been the center of sharp fighting.

No infantry attacks occurred today at Verdun.

The Germans today are attempting to bombard the Verdun cathedral, many of their shells passing close to the famous towers.

British Claim Steady If Slight Advance Marks Day's Results

(Associated Press Service by Federal Wireless)
LONDON, England, July 6.—Near Thiepval, on the part of the western front where the British have taken the offensive, the British soldiers today made a further slight advance. A number of prisoners were taken.

Having captured the whole German second line south of the river Somme to Bellow, the French have resumed activity today on the north. They have cleared the bank almost to Clercy and established themselves at Sommont farm. Here they threaten Clercy.

Along a line from Hardicourt to Commeccourt the British are heavily engaged today, the Germans making a strong resistance.

German Submarines Operating; One Gets Back From Spain Port

BERLIN, Germany, July 6.—Two special successes of German submarines were announced today.

An enemy destroyer operating in the North Sea was attacked and sunk by a German submarine, and another German submarine, returning from Cartagena, Spain, sank the armed French steamship Herault.

It seems likely that this latter submarine is the one reported a few days ago as having reached Cartagena with a letter from the kaiser to King Alphonso of Spain.

SIGNAL COMPANY EQUIPMENT WILL BE ISSUED SOON

GUARD MAY HAVE DENTAL SURGEON FOR EACH ISLE

A letter received by mail Tuesday at National Guard headquarters from the militia bureau, war department, says equipment for Field Company A, Signal Corps, N. G. H., will be ordered issued at the earliest date practicable and that its shipment to Honolulu will be expedited. The value of the equipment coming is about \$19,000. No advices were received yesterday relative to the minimum number of men in each company required to attend weekly drills under the new militia pay law which has gone into effect. Until definite news reaches here from Washington company commanders are urging the attendance of every man in each company so as to avoid the possibility of any slip-up and consequent lack of pay for the first six months the new law providing for

Establishment of a dental corps for the National Guard of Hawaii is authorized by a bulletin received at headquarters by mail Tuesday from the militia bureau of the War Department.

As a result, it is considered probable that Brig. Gen. Samuel I. Johnson will appoint such a corps, with a dental surgeon for each island having a National Guard regiment.

The militia bureau recommends that the dental corps be established at the rate of one dental surgeon for every 1000 men in the guard.

The National Guard of Hawaii now has one dental surgeon, so that Gen. Johnson will probably appoint one for each island of the group having a regiment. The dental corps is to act in an advisory capacity to the

Chefa Evidence Pays Treasury Handsome Fund

Over \$350 has been turned into the sheriff's office by Capt. McDuffie for chefa evidence concealed during the past year. Money which had accumulated for several months was recently collected, counted and turned into the treasury. There was nearly \$100 in the paper sacks. Not long ago about \$270 was collected in a similar manner. In all chefa cases where money is seized, the money is retained by the department if the defendants are found guilty. If not, it is returned. Slates, pencils and other minor chefa equipment were passed out among the detective force.

POLICE COURT NOTES

S. W. Robley, accused of heedless driving, will be tried July 10. Henry T. Aki donated \$5 for having no frosted globes on his auto headlights. Manuel Richards is charged by the police with non-support. His trial is July 8. Tomita Sesaku paid \$15 in district court this morning for going too fast on his motorcycle near Kapiolani Park. Louis Meyers, said to have stolen considerable property from the home of his divorced wife, will be heard July 11. Because a boy who was injured is still at the Queen's hospital, M. Kanaka, accused of heedless driving, will not be tried until Sunday. Kani, charged with assault, was discharged by Judge Monsarrat when the defendant explained he merely separated two fighting women. Reluctant spouses brought two defendants, Kallil Kallil and Charles Tazekira, their freedom in police court by refusing to press charges of assault. The case of David Kallilwal, charged with shooting his wife, was stricken from the police calendar because he has been indicted by the grand jury, now sitting. Charles Pangelinan is again under arrest for reckless driving and will be heard July 16. He recently paid \$75 in Judge Monsarrat's court for a similar offense.

Personal Mentions

J. K. KALANIANA'OLE, delegate to Congress, is expected to return to Honolulu in the Mauna Kea next Wednesday.

A. L. MACKAYE, editor of the Hilo Herald, is visiting in Honolulu. He expects to return to the Big Island next Saturday.

MRS. ANNA E. K. ALAPAI, who intends to leave for Tonga in the Niagara on July 12, has applied to federal court for a passport.

MR. AND MRS. WILLIAM B. SHARP and daughter will leave on the Wilhelmina today for Hilo. They will visit the volcano.

MRS. J. W. FLEMING of Maui is visiting in Honolulu with her son, J. L. Fleming. She will remain in the city for about two weeks.

JOSEPH F. DURAO left for the outside islands in the Mauna Kea Wednesday on business. He represents the Santo Antonio Society.

HENRY Z. PRATT, nephew of Dr. J. S. Pratt, who has been visiting in Honolulu, will return shortly to his home in New York City, traveling by way of Canada.

RUTH COSGRODES of Laeuer, Minn., who is visiting in Honolulu, intends to travel in Japan and China. She applied to the federal court for a passport on Wednesday.

M. C. PACHECO, who attended the Democratic convention at St. Louis as one of the delegates from Hawaii, is expected to return to Honolulu in the Mauna Kea next Wednesday.

DONALD S. BOWMAN, chief sanitary inspector for Hawaii, who has been visiting on the mainland, returned to Honolulu on Tuesday and was to leave for the Big Island this evening in the Wilhelmina.

JOHN EFFINGER, proprietor of the Merchant's Exchange and the Shipping Guide, writes friends here that he is enjoying his vacation with his family at Berkeley, Cal. He is expected to return some time in August.

KAMALI IS GIVEN THREE YEARS FOR ASSAULT ON GIRL

Court Takes Little Interest in Story His Victim Forced Him to Commit Crime

Not less than three years at hard labor in Oahu prison, with costs, was the sentence meted out by Circuit Judge Ashford today to Harry Kamali, who pleaded guilty to an indictment charging him with having criminally assaulted little Annie Kaukani, a Hawaiian girl 14 years old and daughter of a police officer. Kamali, who is 21 years old, told the court that the girl had forced him to commit the crime. The court stated that it did not take much stock in the story. The crime was committed on the night of March 20, last, aboard the steamer Manila. Aside from indicting Kamali the territorial grand jury, which met Wednesday afternoon for the first time since the middle of February, returned three bills against Murata Tokubeye, David Kallilwal and You Chii Yung. Tokubeye, a Japanese, charged with having murdered Yasu Murata, his daughter, with a knife on April 9, this year, was represented by Attorney Lorrin Andrews and had his case continued until next Saturday for plea. Bond was refused the defendant. You Chii Yung, a Korean, charged with shooting and killing his step-father, while divorce proceedings brought against him. By the dead man's daughter were still in progress, was represented by Judge A. D. Larnach and had his case continued until next Saturday for plea. Kallilwal, charged with having assaulted Poowai Kallilwal (w) with intent to commit murder, pleaded not guilty. The case was continued until the opening of the September term. Bond was fixed at \$1000. At the meeting of the grand jury this afternoon City Attorney A. M. Brown was to present for investigation the cases of Toyo Toyokawa, charged with burglary; Adam Lee, charged with burglary and forgery, and Carlos Santos, charged with assault with intent to commit murder.

**MURRAY SEEKS
LARGER MAINS
FOR BEACH WALK**

Larger water mains should be installed in the Beach Walk improvement district before the new pavement is laid there, in the opinion of Harry Murray, manager of the water and sewer works. He has written a letter to the board of supervisors urging an appropriation of \$4000 for the work.

"It is impossible to tell whether the sum needed will be available out of the receipts of the next six months and so I have asked that the board authorize the expenditure with the understanding that the money be paid by the water department if it is available and if not that it be carried by the general fund until after the first of the year," he said this morning.

Two-inch mains supply the district now and Murray contends that when the improvement of the district is completed it will build up to a point where the small mains will not be able to supply. If the city waits until the demand is there before laying six-inch pipes it will cost much more to tear up the pavement and lay them than if the work is done now, Murray says.

4000 acre stock and dairy ranch, situated in Lake County, California, 1400 acres alfalfa and grain land, above 1000 acres under irrigation. Worth \$150,000.00, can be had for \$105,000.00 cash. For further particulars inquire C. D., Box 553, Santa Rosa, California.

LOCAL AND GENERAL

There will be a meeting of the board of directors of the Chamber of Commerce Wednesday afternoon.

George Winslow, an employe of Cotton, Neill & Co., was taken to the police station from his home on Kaimukoo road last night by request of his relatives who say the boy has been acting strangely of late.

The union services of the Y. M. C. A. and Y. W. C. A. with the cooperating churches, Central Union and Christian, will begin Sunday evening, July 16. The meetings will be held every Sunday evening for six weeks in the opera house.

The central and Palama fire departments were called to the See Wo laundry at the corner of Liliha and Kukul streets about 8:30 Wednesday night to extinguish a blaze which had started when a gas tank caught fire. There was little damage.

Joe Mallin is in the emergency hospital today with one broken rib and several sore ones which he received in a mix-up with C. J. Benney's auto at the corner of King and Punchbowl streets late yesterday afternoon. No charge has been made by the police against Benney.

While playing at her home in New Haven, Virginia d'Felice, three years old, found some pills which she thought was candy, ate two of them and died half an hour later in her mother's arms. The pills contained a slight quantity of poison.

RILEY H. ALLEN

EDITOR

THURSDAY, JULY 6, 1916.

JUNE 20 AND TODAY.

On June 20 the United States sent a 7500-word note to Mexico in the course of which President Wilson, through Secretary Lansing, said:

Leaders of the bandits, well known both to Mexican civil and military authorities as well as to American officers, have been enjoying with impunity the liberty of the towns of Northern Mexico. So far has the indifference of the de facto government to these atrocities gone that some of these leaders, as I am advised, have received not only the protection of that government but encouragement and aid as well.

Notwithstanding the assurances in the memorandum, it is well known that the forces of the de facto government have not carried on a vigorous pursuit of the remaining bandits and that no proper distribution of forces to prevent the invasion of American territory has been made, as will be shown by the further facts hereinafter set forth.

I have already pointed out the uninterrupted progress of Villa to and from Columbus and the fact that the American forces in pursuit of the Glen Springs marauders penetrated 168 miles into Mexican territory without encountering a single Carranza soldier. This does not indicate that the Mexican government is doing 'all possible' to avoid further raids; and if it is doing 'all possible,' this is not sufficient to prevent border raids, and there is every reason, therefore, why this government must take such preventive measures as it deems sufficient.

In securing this protection along the common boundary the United States has a right to expect the cooperation of its neighboring republic, and yet, instead of taking steps to check or punish the raiders, the de facto government demurs and objects to measures taken by the United States. The government of the United States does not wish to believe that the de facto government approves these marauding attacks, yet as they continue to be made, they show that the Mexican government is unable to repress them. This inability, as this government has had occasion in the past to say, may excuse the failure to check the outrages complained of, but it only makes stronger the duty of the United States to prevent them, for if the government of Mexico cannot protect the lives and property of Americans exposed to attacks from Mexicans, the government of the United States is in duty bound, so far as it can, to do so.

What has happened since June 20 to justify the administration now in reposing further trust in Carranza, in entering a new set of "exchanges," in holding further conferences?

Since June 20 that treacherous and dastardly attack on the 10th cavalrymen at Carrizal has taken place.

Since June 20 Gen. Trevino has uttered not one but many threats that he and his men will attack the Americans if the latter move in any direction but the border.

Since June 20 reports have come from Mexico that Villa and Carranza are preparing an agreement by which both will fight the gringos.

Since June 20 Americans on both sides of the border have been murdered; outrages on person and property have been committed; acts of war have been

traced to the door of the Carranza de facto government.

If President Wilson, was justified in sending his note of June 20, he is doubly justified in adhering to its plain purpose. He is justified in holding the intentions and the ability of the Carranza government in as low estimate today as he held them on June 20. Carranza is no more able today, and has no more intention today, to suppress the Villista outlaws and the dozen other 'ista outlaws, than three weeks ago.

The country has ceased to have faith in "watchful waiting" and ceased to attach meaning to "strict accountability." Neither phrase has meant anything in practise.

TOURIST NEEDS.

A Honolulu businessman personally but not financially interested in seeing tourists come to Hawaii sizes up the situation as follows:

"Nine-tenths of the tourists who come here want three things mainly: 1. Good roads to motor upon. 2. Good bathing and bathing facilities. 3. Access to golf links.

"Supply these things and the great majority of tourists, particularly those of wealth or who are 'well fixed,' will be happy and contented. They will go away good boosters for Honolulu.

"Of course it is assumed that Honolulu supplies modern hotel accommodations."

All of these three requisites Honolulu has in some degree; none in the degree necessary to please the tourists "down to the ground." It is not necessary to dwell upon the need for better roads. A word might be said for developing other golf-links than at the Country Club or Haleiwa course. If there were a nine-hole course on windward Oahu, the golfing tourist could then be near his favorite sport whether he fived in Honolulu, on the other side of the island, or at Haleiwa.

Climate and scenery deserving the adjective of superb are ours by nature. So far nature has proved herself decades in advance of man's art in supplying attractions for the tourist.

There is a good precedent for Uncle Sam withdrawing from Mexico now. It was set at Vera Cruz.

Some of the lunch-table strategists can't understand why the British aren't half way to Berlin by this time.

The "drys" have adopted the camel as their campaign emblem. A good suggestion for the "wets" is contained in the familiar saying, "He drinks like a fish." And it should be a sucker, at that.

In other words, Judge Stuart's stunt flivvered.

TAKES TIME TO MAKE CITIZENS, SAYS JAPANESE

Y. Soga, Editor of Nippu Jiji, Answers Attack Reported Made By Minister

"The reported attack made upon the Japanese by Rev. Charles D. Milliken at Lahue, Kauai, on July 4, if true, shows a misunderstanding of the Japanese people," said Y. Soga, editor of the Nippu Jiji, when asked regarding the utterances made by the pastor of the Foreign Church at Waimea.

"It takes time to change the spirit of any people. It is true perhaps that a number of children would utter expressions in favor of Japan because their parents were born in Japan Japanese people on Hawaii are beginning to adapt themselves to American ways in every respect, but it is hard to make them change their feeling for their native country in a minute.

"The Japanese are doing the best that is possible to meet conditions in America, but those who are born in Japan and whose parents are born in Japan find it hard to make a statement against their mother country. If the American people will wait a generation they will see that the Japanese have become real American citizens in every respect. There are a number in Hawaii today who would take sides with the United States in case of war with Japan.

"Every alien, be he Japanese, German or English has a feeling for his mother country, and there are many men in the city today who feel that way. The fact that the Japanese here are changing the text books in the schools to meet American conditions is one proof that they want to become true American citizens. The reported attack by Rev. Milliken, if stated correctly, shows malice and does not show any reason for his claims," he concluded.

Rev. C. D. Milliken is said to have delivered a Fourth of July oration at Lahue, Kauai, and during his remarks to have said that he had found out that the children in the lower grades had announced that in case of war with the United States they would fight for Japan. He is further said to have stated that the children show the Japanese spirit in the territory.

LISTED STOCKS GO HIGHER AND ARE IN DEMAND

Higher prices and a strong market in which there were demands for popular securities in large lots were the salient features of the local stock market this morning. But such strength was confined to listed securities and the unlisted stocks were in little demand and up to the time of the session the demand for them did not appear great and they had not shared materially in advances.

Ewa was a specific example of the strength of the market and in the early trading quickly advanced 75 cents a share over Wednesday's price. There were inquiries for Olaa in 1000 share lots and at higher prices and Olaa was also in big demand. McBryde shared the advance when it rose 1/4 over yesterday's session price. These were the stocks for which most inquiry was reported among the sugars.

At the session Ewa sold at \$34.25, Olaa \$42.50, Pioneer \$52.50, Hawaiian Commercial \$62.50, Hawaii Pineapple \$44.50 and Brewing \$20.50. Shortly before the session McBryde was \$13.50 and Olaa \$20.25. Of the curbs \$3.15 was bid for oil, \$2.50 for Engela, and Mineral Products sold at \$1.07 1/2.

CITY TREASURER IS SEEKING FILIPINO WHO OWES "CEDULA"

Does anyone in Honolulu know Francisco Jumaj-as?

He is a short, slight, dark-skinned Filipino. The municipal authorities of Corboda, Cebu, P. I., want him to pay his cedula, whatever that is. D. L. Conkling, the city treasurer, thinks it is a poll tax. He has received two copies of a document calling on him to collect the "cedula" from 1911.

"I am going out this afternoon to look for Francisco," he said. "If I don't find him I am going to call on Arthur McDuffie to get his whole detective force after him, for the municipal authorities of Corboda seem to want that 'cedula' pretty bad."

RAID ON LOCAL STORE REVEALS 70 ARMY SHOES

Proprietor Said to Have Bought Them for 5 Cents a Pair and Sold Them for \$1.90

Beginning a drastic campaign against the buying and selling of government property, Marshal J. J. Smiddy today entered a small store on River and Kukui streets, arrested Antonio Perez, the proprietor, and confiscated 35 pairs of army shoes valued at \$35.

Information that the shoes were cached in the store was taken to the marshal by Police Sergeant John J. Lawright, who had discovered that a number of men either laboring or loafing on the waterfront were wearing shoes of the type which Uncle Sam furnishes his soldiers.

Following the first raid, the marshal entered another store in the vicinity, where he found 20 pairs of army shoes. The Spanish consul interceded for the proprietor of this store, stating that he had permission to collect old and worn-out shoes at the army posts and repair and sell them. The man was poor and old, the consul said, and by repairing and selling the old shoes he was able to make a comfortable living.

Perez, it is alleged, had not collected the shoes found in his place, but had bought them at 5 cents a pair from soldiers and sold them for as high as \$1.90 a pair.

Some of the shoes confiscated had the appearance of having been worn only a short time, heels soles and uppers being in almost perfect condition. A hearing of Perez's case will be had in a short time.

"It is against the law to either buy or sell government property, no matter what it is," Marshal Smiddy said today. "This should be a warning not only to enlisted men but to civilians. Probably some of them do not know such transactions are illegal."

LOCAL ENGINEER OFFICER NAMED AS LIEUT.-COL.

Orders announcing the assignments of several engineer officers of high rank were received yesterday by the Hawaiian department, and announced the assignment of Maj. R. R. Raymond, U. S. engineer officer for this district, as lieutenant-colonel of the 3rd Regiment of Engineers, to take effect upon his promotion.

Other engineer officers assigned to the various new organizations of the Engineer Corps include Col. Mason M. Patrick, now of Detroit; Col. George A. Zinn, Philadelphia; Col. Joseph E. Kuhn, military attache, American embassy, Berlin, Germany; Lieut.-Col. George P. Howell, Army War college, Washington; Lieut.-Col. Meriwether L. Walker, U. S. Military academy, and several others, who will go from their present posts, given above, to their new positions.

The new National Defense act, under which the changes and promotions are made, provides that each regiment of field artillery shall consist of a colonel, lieutenant-colonel, captain, one headquarters company, one supply company, and such number of guns and howitzer battalions as the president may direct.

MURRAY CLAIMS CLERKS ARE HARDEST WORKED

One of the reasons given by Harry Murray, manager of the water and sewer departments, for asking for salary increases for a number of his office employees was that they had more work to do than any other office employees of the city—came down earlier and went home later at night.

Passers-by saw four of the clerks in the Kapolani building offices after 9 o'clock Wednesday night. And one of them was back at work before 7:30 this morning, unless, perchance, he had stayed there all night.

Two men were killed, three seriously injured and a score hurt when New York Central passenger train No. 11, more than two hours late in a fog, ran into a crowd of 200 workmen at Cleveland.

Owing to the extensive alterations now being made in our establishment, we find it necessary temporarily to close our store on Saturday evenings. At other business hours you will receive the same courteous service as usual.

BLAME DRINK AS CAUSE OF DEATH OF PRIVATE AND WOUNDING OTHER

(Continued from page one)

is responsible for the whole affair. Returning from their drunken bachelors, the party picked a quarrel with some of the residents of the gulch, and one man was shot in the thigh with a .22 rifle. Frane left the party and climbed out of the gulch to the F Battery stables. He ascended to the porch of the building occupied by the stable sergeant and stable orderlies, tottered and fell off the porch backward, a distance of nearly four feet, and struck the back of his head upon one of the bottom steps.

As he was picked up, one man remarked that the fall was enough to kill any man. Another remarked that you could not kill a drunk. Frane was far from being dead, but was no doubt seriously injured. He walked more than a hundred yards to the battery day room, where he joined a more sober party. Frane insulted the battery barber, Pvt. James M. Jones, and was struck a blow by Jones which caused him to reel, and utter against the building, where he struck his head another hard blow. He was quickly on his feet again and anxious to fight, then suddenly he fainted. A medical officer was summoned, and just as he arrived Frane breathed his last.

Jones is in the guardhouse pending investigation, and may have to answer to the charge of manslaughter. The writer does not know the result of the autopsy made yesterday afternoon. Some of the eye witnesses state that Jones barely pushed Frane, while others aver that he struck him a pretty hard blow.

Comedy With Serious Side

The death of Frane is a tragedy; the shooting of his drunken companion, Pvt. August Czapkowski of the same battery, has many of the earmarks of a comedy. There are several widely different versions of the occurrence, some of which, if true, would make it seem serious enough.

The most probable one is as follows: Pvt. Robert Lelpart of Company K, 25th Infantry, was hunting in Kountry Gulch. What he was hunting would be difficult to conjecture. He is a peaceable looking individual, and it is not likely that he was hunting a fight.

YOUNG MISSION WORKER NOW ASSISTANT PASTOR

A farewell social was held in the Kakaako Mission on Wednesday evening in honor of Taichi Matsuno, one of the leading young men at the institution. Taichi has been in active training in the general work of the mission for about two years and has filled many positions with much credit. Recently he accepted a position of assistant Japanese pastor at Honouliuli, Hawaii. On behalf of the Boy Scouts and the mission boys and girls, Supt. A. K. Harris presented Taichi with a large number of gifts.

ARTILLERY COMPANY DRILLS AT FT. RUGER

An excellent showing was made last night by the Kaimuki company, Coast Artillery Corps, N. G. H., which held drill with the regulars at Fort Ruger, and engaged in working the mortar batteries. Sgt. F. P. Hill commanded the company, in the absence of Capt. Arthur E. Larimer.

Y. W. C. A. CAMP HAVING HIGH SCHOOL PICNIC

A high school picnic will be held tomorrow at the Y. W. C. A. summer camp at Pearl City, on the peninsula. This is High School Week at the camp, which opened Monday with 21 campers in five tents. Next week will be Normal School Week. Miss Charlotte Hall, membership secretary of the Y. W. C. A., will be in charge of tomorrow's picnic. The camp is in general charge of Miss Annetta Dieckmann, extension secretary.

LITTLE INTERVIEWS

—GEORGE GERACIMOS of the Union Grill. Hilo is changing. I might say that Hilo has advanced more during the past four years than in any other similar period in its history.

—DEMOSTHENES LYCURGUS: Celebration of July 4 in Hilo was unique. The first military parade has added to the gayety and beauty of the annual event, and certainly the weather has been most favorable.

had reached the 25th Infantry guard house, where he found a haven of refuge, and where he still remains.

Not long ago Czapkowski was a sergeant in Battery E, but has recently been reduced to the ranks. It is apparent that his popularity has not been diminished by his habits, for his bunk at the post hospital is surrounded by flowers, fruit and literature, the gifts of his many sympathetic admirers.

HEEN GETS JUDGMENT FOR GOVERNMENT IN KAUAI LAND DISPUTE

Second Deputy Attorney-General W. H. Heen returned last night from Maui, where he secured judgment for the territory in summary proceedings brought by the territory against F. G. Correa, a rancher who leased a tract on that island. The land was recently withdrawn for homesteads, and Correa refused to vacate, although a clause in every lease of public land provides that the lessee must get off the land if it is withdrawn for homesteads.

The Kauai sugar plantation tax appeal cases have been tried. Attorney-General I. M. Stainback having tried them himself. No decision has yet been rendered by the tax appeal court on Kauai, but one is expected soon. The plantations affected are Hawaii Sugar, Gay, & Robinson, and McBryde.

REPAIRS OF FEDERAL BUILDING ARE BEGUN

Carpenters and painters went to work in the federal building in Fort street today on a contract which calls not only for a new roof on the structure but for a general brightening up of the offices and halls occupied by federal officials and their assistants. Owing to the noise Judges H. W. Vaughan and C. F. Clemons have vacated their offices for quieter quarters. The clerk's office and the offices on the second floor, however, will remain open. The work should be completed in about 40 days.

MASTER'S DEGREE GIVEN KELLER AT BOSTON TECH.

Prof. A. R. Keller of the College of Hawaii was granted a master's degree in engineering at the graduation exercises at the Massachusetts Institute of Technology last month, according to news which has been received in Honolulu. Professor Keller has been studying for a year at the Boston "Tech" and Harvard. He recently delivered an illustrated lecture before one of the engineering societies of Boston on what engineers have done in Hawaii.
