TO MAKE AN IDEAL SYSTEM

THEY CARE FOR THE NEEDY

THAT IS THE AMBITION OF THE TELEPHONE PEOPLE.

The Improvements That are Now Under Way and Those Contemplated—Country Lines to Receive Notice.

Superintendent John Cassidy of the Mutual Telephone company, is a busy man. From daylight until dark, he directs the work of a big force of linemen in making improvements in the system, which are imperative and must be given attention at once.

From the very day that he took charge Superintendent Cassidy inaugurated a method of work that will put the Island system on a par with any system in the world. This is the ambition of Mr. Cassidy and the management is determined that he shall have full swing.

The new superintendent is centering his attention in the Palama district at present. There are two lines, the Bell and the old Mutual. The service has been very unsatisfactory. Now that the Electric Light company is extending its wires to Kamehameha Superintendent Cassidy is placing his new wires on the opposite side of the street and he hopes to have this job completed by the first of next week.

Then he will go to Waikiki and the Plains, where the lines are in almost intolerable condition. The country lines will then come in for attention. The wires running along the railroad, to Ewa, Waianae, Waihua, Kahuku, Heoia, Waimanalo and other sugar plantations, must all be gone over before Mr. Cassidy will be satisfied. "There is no reason," said he, "this morning, why our Island should not be girdled with the most ideal system on the globe. While there are some drawbacks here, there are many advantages, and chief among these is the fact that we are one system. Another thing, the people of Honolulu and Oahu are liberal toward a telephone enterprise, providing they are supplied with a satisfactory system. In less than a year's time we hope to have made some very noticeable improvements."

There are twenty men engaged in rushing improvements now. Any man who comes along now and knows anything about telephone work is given employment. Some men are scattered over the city soldering the connections which are essential for a good system. The salt air that surrounds Honolulu will find that it has new enemies to buck against now.

DUGUAY TROUIN SAILS.

The French cruiser, Duguay Trouin, which arrived so unexpectedly from Calleo, Friday, has finished coaling and taking on stores, and will sail this afternoon on her mysterious voyage to westward. Although she sails under sealed orders, there seems to be but little doubt that her destination is the China station, where she will join the cruisers and battle ships recently dispatched from France.

WITH THE CLUBMEN.

A. S. Cleghorn was re-elected president of the Pacific club at the annual meeting held last night. Dr. R. McKibben was chosen vice president; George C. Potter, secretary; J. G. Spencer, treasurer, and W. F. Allen, auditor.

The board of managers comprises J. M. Monsarrat, T. M. Starkey and Dr. C. B. Cooper.

THEY CARE FOR THE NEEDY

A PROSPEROUS QUARTER FOR THE CHARITY LADIES.

A Number of Families are Provided For—Two Women Sent to Their Former Homes.

The meeting of the charitable ladies who centralize their work through the Strangers' Friend Society, took place in the parlors of the Young Men's Christian Association building, this morning, and was very enthusiastic. This was made so largely because of the prosperous quarter just closed. The contributions to the society have been numerous and liberal, which has enabled the ladies to relieve a great deal of distress in the city.

Mrs. Alex. Mackintosh, the president of the society, presided at this morning's session. Eight new cases, all of which were found to be needy and worthy, came in. Owing to the healthy condition of the treasury, due to the generous donations, none were refused. Some passage money was also voted.

Mrs. William G. Irwin has passed the use of the Irwin bed at the Queen's Hospital over to the society for the ensuing year. The society at present is caring for one patient, occupying the Bishop bed.

The contributions for the past quarter include T. H. Davies, \$500; Aubrey Robinson, \$100; Central Union church, \$25; the receipts of the recital given by Mrs. C. B. Cooper and Miss Cartwright, \$266.30; receipts of the Baltimore Minstrel show, \$103.30; from the baseball game, \$249.15, and from Mrs. S. N. Castle, \$30.

The society is giving a great deal of assistance to the indigent at the present time. Six individuals are partially supported, the rest of the money required for their support coming from the various societies to which they belong.

Five persons and three families are having their rent paid.

Fifteen persons come weekly to the President's house for rations of sugar, rice, tea and bread tickets.

The expenditures of the society to-day is \$132 per month, with no one in the hospital on the books of the society.

During this month \$50 has been paid towards the passage of two women sent to their homes.

WANT HILL TO REMAIN.

The members of the Hilo Foreign church refused to accept the resignation of their pastor, Rev. C. W. Hill, by a vote of 20 to 12. After the vote had been taken it was discovered that a quorum was not present. It was then decided to defer the matter. John A. Scott has tendered his resignation as a member of the board of trustees.

HILLOTTES WILL CELEBRATE.

Elaborate plans are under way in Hilo for a fitting celebration of Washington's birthday. Mr. Powell has the general charge of the preparations. A big ball will be given in the evening.

LENT IS NEAR.

The Lenten season will arrive within a fortnight. The season this year will perhaps be observed by churchmen in Honolulu with more solemnity than usual. Society will take a rest from the everlasting gayeties. About the last entertainment previous to Lent will be the society plays at the Opera House.

THE DUES ARE LIGHTER NOW.

At a meeting of the Honolulu Amateur Athletic club last evening it was voted to lighten the dues from \$6 to \$2 a year. The list of active members will be revised and those who take no interest in the club will be dropped from the rolls.

MAUNA LOA ARRIVES.

Has a Smooth Round Trip—List of Passengers.

The Mauna Loa arrived from Hawaii and Maui ports this afternoon, after a fine trip. On the way down the swell was too heavy to load coffee at Kona. She brought down 5400 bags of sugar, 129 sacks of coffee and 30 head of cattle, besides a lot of fruit and poultry. Following is the list of passengers: S. M. Ballou and wife, J. Kauhane, J. McLellan, Mrs. Fumamoto and child, R. W. Whinnfield, L. A. Miller, W. A. Wall, D. Stoggett, O. M. Kekuewa, S. W. Maiana, D. Kauhane and wife, Mrs. J. N. Robinson, Miss Anna Paris, Mr. Ahoi, Hattie Pohine, Elena Silva, Capt. Ahlborn, and 70 on deck.

A few months ago Mr. Bryan Every of Woodstock, Mich., was badly afflicted with rheumatism. His right leg was swollen the full length, causing him great suffering. He was advised to try Chamberlain's Pain Balm. The first bottle of it helped him considerably and the second bottle effected a cure. For sale by all druggists and dealers. MANY YOUNG MEN TAKEN IN

GOOD EXERCISE PREVAILED IN DULL TIMES.

NEW COMERS BECOME MEMBERS OF THE Y. M. C. A.

January the Banner Month for Membership Receipts—Secretary Coleman Completes His First Year.

The membership of the Young Men's Christian Association was increased by thirty-eight additions at the regular monthly meeting of the board last evening. Several of the new members are young men who have recently arrived in the Islands from different portions of America. The total membership of the association now reaches 350. There are besides some thirty juniors.

At the close of the present week Secretary Coleman will have completed the first year of his work here. During his brief administration many important changes have been made. The Association Review has been revived, and has been put on a paying basis. In fact the edition is a small source of revenue to the association. The gymnasium department is now booming, largely through his efforts. The leasing of Makiki park grounds now proves to be a very popular move. Assistant Secretary Cheek is in charge of the gymnastics. The introduction of hand ball and basket ball games have met with favor.

During Mr. Coleman's year the receipts for membership amounted to \$1,250, against \$737, which was the banner sum received any other year during the life of the association.

Many young men have been procured homes through the instrumentality of the association. The social committees have been in attendance at the rooms part of the time evenings, and the attendance has probably been larger through January than any other month of the previous year. In one day 125 people attending the reading room, and probably 100 has been the average attendance of the social rooms. January has been the banner month of the year for membership receipts; the sum of \$254 having been taken in at the office.

The young men coming to Honolulu are receiving help and encouragement. Many have taken advantage of the privileges offered at the association building. A committee makes regular visits to the ships in port on Sunday, taking reading material for the sailors. Fifty-six vessels were boarded by the committee during the month just past.

AGED HAWAIIAN DIES.

Kauikea, a native living at Waialae Kai, died on Thursday morning last, at the age of 119 years. Up to the last the old man's sight and hearing were of the best and he was able to walk a short distance. Kauikea did not exactly know what date he was born, but said that when Kamehameha I died he was 30 years old. Previous to that he had fought in several battles with Kamehameha I, the last being in Kona. At the King's death all his warriors were tattooed with a serpent mark on their forehead, which mark Kauikea carried to the day of his death.

PROFESSOR SCOTT'S PAPER.

Prof. M. M. Scott read a paper on "Forests and Rainfall," before the Social Science club, which met at the home of Chief Justice Judd last evening. Prof. Scott stated that Marsh was authority that Columbus was the first to believe that forests and rainfall were connected. The professor spoke of the observation in the West Indies, the study in Hawaii and the conclusions of scientists.

HASSINGER'S CLEVER VOLUME.

John A. Hassinger, chief clerk in the Interior Office, is the author of a very neatly bound little volume containing "A Legend of the Koa Bowl," which he has dedicated to his "esteemed friend and brother," Franklin R. Day, of San Francisco. Mr. Hassinger has modestly withheld his name from the page of the book, but somehow the secret is out. The legend is a pretty one and charmingly told.

A HILO ENGAGEMENT.

The engagement of Miss Beyer to Rev. R. K. Baptista of the Hilo Portuguese Protestant church, is announced.

ALL FINED.

Helene Hilo and Kaea, the principals in a lottery game raided yesterday, were each fined \$100 in the police court this morning. Helene's "hubby," John, and Charley One and Kala Liliu, steers in the game, were each taxed \$50 and costs.

WM. WHITE WON THE RACE

AN ACCOUNT OF A LIVELY FOOT RACE BETWEEN PROMINENT CITIZENS BACK IN THE FIFTIES.

An old kamaaina came to The Star office today with a carefully preserved copy of a newspaper published in Honolulu during the fifties. There were not many thrilling items of news in the papers those days. One of the chief stories in the paper is an account of a race which William White won. It is not stated who were his opponents.

Capt. E. O. White, of Hall & Son, and a son of the Mr. White mentioned does not remember anything about this particular race. Capt. White says that he remembers well his father's love for sprinting and that he always rejoiced in telling how he defeated P. C. Jones, Capt. Newell, Mr. Dickson and others.

The item in the paper is under the caption Good Exercise for Dull Times, and reads:

"The monotony of that usually quiet vicinity of our town, near the corner of Emma and Benetania streets, was enlivened by a very 'racy' and amusing affair on Tuesday evening last. Two worthy and well known gentlemen of our community had been indulging in a friendly dispute as to their respective powers of speed, and it was decided to settle the matter upon the spot by an appeal to legs. A course was marked off, reaching from the corner of Emma square to the market side of Benetania street, and the competitors prepared themselves for the encounter by divesting themselves of coats and hats. At this juncture the race was nearly broken up a demand on the part of one of them that his opponent should sling a ten pound stone about his neck, in order to equalize their weight. This demand, however, was negated by the umpires, and, at the given signal, the parties started. They gave the throng of wondering spectators a specimen of some pretty tall traveling, both reaching the goal neck and neck—a distance of 200 yards—in, we feel no hesitation in saying, considerably less than fifteen minutes. The umpires, unfortunately, were unable to decide to whom the victory belonged, and a second trial became necessary. This time, Mr. White came in fairly a neck and a half ahead, and was immediately presented by his admiring friends with a gingerbread medal, bearing an inscription suited to the occasion—which medal he lost no time in depositing in a place of safety. His opponent then soothed his wounded feelings by thrashing a kamaika boy, and the crowd was fast disappearing when our reporter left."

BUCK SUCCEEDS CASSIDY.

S. Buck was appointed superintendent of the Government electric light works today to succeed John Cassidy, who resigned to take charge of the Mutual Telephone company.

BIG DAMAGE SUIT SETTLED.

The damage suit brought by John Kai against J. R. Wilson for \$10,000, was decided on Saturday evening by a jury, after being out for three days and two nights. The verdict was in favor of Wilson, two dissenting.

THE AUDIENCE LIKED IT.

"The song that touched their hearts" is as old as the hills, almost. The leading man in "The Dazzler" combination, which has just closed a successful engagement, made a big hit every night with his bicycle song. He never failed to bring down the house when he reached the verse telling about the good qualities of the Sterling bicycles. The audiences were all ready to hear a good word said about these wheels, and heartily encored the singer each night. The song was at most as much of a hit as the Sterling wheels have always been. SUGAR FACTORS, Commission Agents,

AGENTS OF THE OCEANIC STEAMSHIP COMPANY OF SAN FRANCISCO, CAL.

WHAT SAILOR MEN TALK OF

RECORD TRIP OF THE STEAMER MIKAHALA.

Three Sugar Vessels Ready for Sea—Abuses of the Slop Chest—Big Cargo for New York—News and Gossip.

A new suit of sails is being put on the Edward May.

The Helene could not get ready for sea today. She is to go tomorrow afternoon.

The steamer J. A. Cummins will probably make a special trip to Kahuku next week.

The Claudine towed the bark Nuanu out of Kahului last Wednesday morning, taking her fully four miles beyond the towage limits.

Frank Wilberton, who was chief officer of the steamer Kaala when she was wrecked, is now chief mate of the Claudine, Mr. Ross having taken a vacation in order to visit his home.

The barkentine S. G. Wilder needs but 2000 bags to complete her cargo, and she will probably get that amount in time to sail on Thursday. Captain McNeil has made an extra long wait in port this trip.

The barkentine Arago will top off tomorrow morning with 1,000 bags from the Cummins, and will go to sea in the afternoon. Captain Greenleaf has an idea that his clipper can beat the Allen up, and he will now have a try for it.

The bark Edward May will be loaded this week, according to the present calculations. She has already received about 700 bags, and is now lying at the Oceanic dock, waiting for the Mauna Loa. With the Mauna Loa's cargo and two from the Mikahala she will have a full cargo.

The big ship Tillie E. Starbuck will have 3200 tons of sugar under her decks when she sails for New York on Friday or Saturday. Three sailors have been captured on the other side of the island and they are believed to be the men who deserted from her on Sunday night, so that she will not be delayed for lack of men.

The bark S. C. Allen received sufficient sugar from the Helene this forenoon to complete her cargo, and Capt. Johnson is making his preparations to sail tomorrow morning. He is quite as popular as the former master of the Allen, and will doubtless have a cabinful of lady passengers on the up trip.

The Noeau arrived this morning from Kauai, with 4278 bags of sugar, which is being put into the W. F. Babcock. This is the Babcock's first consignment of sugar. She is on the berth for New York and will be the next to sail. The Babcock will carry about 3100 tons when fully loaded. Captain Graham has secured the bos'un of the Hyde for a second mate.

The steamer Mikahala made a record breaking round trip to Kauai last week. Sailing from here at 2:30 o'clock on Friday afternoon, she made a smart run to Hanamaulu, loaded 5100 bags of sugar, and arrived back here at 10 o'clock Saturday night, completing her third round trip for the week, having sailed on the first at noon on the 1st inst. During the week she handled over 15,000 bags of sugar.

The "slop chest" has always been a source of contention between the master and men aboard sailing vessels, and the United States government has attempted to make laws that would insure the sailor against paying exorbitant prices for the clothing, etc., he may need while at sea, but all efforts have thus far proved futile. One skipper in port admits that he makes 100 per cent profit on sales, but says that it is quite necessary, as he has so many losses through desertions and the ruin of goods in store that he has to make even somehow. Before the government fixed prices on goods, he says, he used to carry the best kind of stock, and charge a fair profit. Once he arrived in New York to find that a new law had been made, and his slop chest list was cut below actual cost. Now he buys in the cheapest market, and lets the commissioner fix the prices, with the result that he makes 100 per cent and escapes all blame.

ARRIVALS. Tuesday, January 8. Stmr. Noeau, Pederson, from Kauai ports.

DEPARTURES. Tuesday, January 8. Stmr. Claudine, Cameron, for Maui ports, at 5 p. m. Stmr. Iwalani, Gregory, for Honokaa and Kukuiahae. Stmr. Mikahala, Thompson, for Kilauea, at 4 p. m. Stmr. Lehua, Andrews, for the Hamakua coast, at 4 p. m. Fr. S. S. Duguay Trouin, Pugibet, for a cruise, at 3 p. m.

The recent "hard times" have made people cut off expenses.

This has encouraged the invasion of "cheap" baking powder—baking powder which sells for a small price, but which either does not do the work, or is bad for the insides, or both.

Honest baking powder cannot be made to sell for 25 or 30c. a pound. There are a few honest baking powders at higher prices. Of these Schilling's Best is the right one, partly because it goes farthest.

THEY GET THEIR BADGES

VETERANS WHO HAVE GIVEN FIVE YEARS SERVICE.

The Veteran Corps of the National Guard is Growing—Three Officers Become Members Today.

Capt. Zeigler and Lieut. Paul Smith of Company A today completed five years of continuous service in the National Guard of Hawaii. They have earned a veteran badge and will shortly come into possession of them.

Col. J. H. Fisher and Lieut. Col. McLeod and Capt. Coyne of E company completed their fifth term on January 24th. There are several others who will be awarded after five years service.

The proposition of forming a veteran corps in connection with the National Guard has already been laid before the Cabinet, where it met the unanimous approval of the Ministers. It was agreed that every man who has served in the uniformed force honorably for five years shall be presented with a prettily designed souvenir badge, and made a member of the veteran corps.

Maj. J. W. Jones of the First Battalion is the designer of the badge. The coat of arms is the center piece. The medals are expected from the States the latter part of this month. The National Guard was five years old last month. There are not many men at present who have remained in the regiment continuously for five years. However, the reserve will have a healthy growth during the ensuing year.

OPPORTUNITY.

This I believed or dreamed it in a dream: There spread a cloud of dust along a plain. And underneath the cloud or in it raged A furious battle, and men yelled, and swords Shooked upon swords and shields. A prince's banner Wavered, then staggered backward, homed by foes. A craven hung along the battle's edge And thought, "Had I a sword of keener steel— That blue blade that the king's son bears—but this Blunt thing—" He snapped and flung it from his hand And, lowering, crept away and left the field. Then came the king's son, wounded, sore be-goned. And weakless, and saw the broken sword. Hit buried in the dry and trodden sand. And ran and snatched it, and with battle snout Lifted and heaved his enemy down And saved a great cause that heroic day. —E. R. Sill in Sheltering Arms

HIS FIRST INTERVIEW.

The Late Ex-Senator Coke Collaborated With a Correspondent.

The late ex-Senator Coke of Texas, though, as a rule, a taciturn and reserved man, had a sense of humor and was something of a diplomat. Shortly after his appearance in the senate he was approached by a newspaper correspondent for an interview on a leading question of the day. The request had come from the home office, as the correspondent explained.

"Sit down, my young friend," said Mr. Coke, "and tell me, the first thing, if I can trust you."

The correspondent said pleasantly that he regarded himself as a safe risk.

"Why I ask that," continued the senator, with a smile, "is because I have a confession to make. I don't know much of anything about the question you mention, but I can't afford to admit that to your newspaper. I take this request for my views as a compliment. I'm a new man on the scene, and an interview in as prominent a paper as yours will help to introduce me. I ought to have some views. What do you know about the question?"

The correspondent replied that he had read the bills recently introduced bearing on the subject, had listened to the speeches in advocacy of them, and so forth.

The senator's face lighted up. "My young friend, do you want this interview right away?"

"No, sir. It goes by mail. Tomorrow will do."

"Then you go and get copies of some of those bills and a few of those speeches and bring them here, and we'll have a conversation."

The correspondent returned in an hour with a bundle of papers, and he and the senator went over them together. The senator would put in a word, and then the correspondent would put in a word. Finally the senator said:

"Now you go home and write out the interview and bring the copy here."

This also the correspondent did, and upon his return his greeting was a cordial one. Senator Coke read the story twice over, repeating portions of it aloud, and then, handing it back, said:

"My young friend, we work in double harness together admirably. That is all right, and you can send it on to your paper. Now you stand up for me, and I'll stand up for the interview."

The story was well displayed in print, and it established a friendship between the senator and the correspondent which continued to the end.—Washington Letter to Pittsburg Dispatch.

The Kentucky Breeders' Meeting.

Seventy-five thousand dollars in stakes and purses will be the prizes for trotters and pacers to battle for at the meeting of the Kentucky Trotting Horse Breeders' association at Lexington, beginning Oct. 6 and ending on the 16th. The opening race on the first day will be the Kentucky Futurity for 3-year-olds, which is worth \$25,000. The pick of 77 of the best 3-year-olds are expected to start, and on the 8th the Transylvania for 2:14 trotters is the race of the day. Its value is \$5,000. The 2-year-old trotters will show their speed on the 9th in the \$5,000 Futurity. On the 6th the 2:09 pacers will start in the Tennessee stakes, value \$5,000.—Exchange.

REGARDED AS A DUTY.

"I lost my appetite and became weak. At last I was taken very sick. My attention was called to Hood's Sarsaparilla and I took a bottle and it made me feel better. I have taken five bottles and am now well. I feel it my duty to tell you what Hood's Sarsaparilla has done." Mrs. A. Eversen, Wedderburn, Oregon.

AN ENDORSEMENT.

Among the papers that stand firm for annexation is the Philadelphia Press, it is to be noted. It sees clearly the situation here. It points out that the Americans in Hawaii found the Islands without products and they have placed its plantations among the sugar producers of the world. They found the Islands without commerce, and they have made Honolulu a thriving port. The American colony in Hawaii stands today an outpost of American civilization, industry and commerce in the mid-Pacific. It represents the enterprise, the ability and the future of America in the Pacific.

These are ringing words and cannot be controverted. As a fact the American colony here at the present time holds the key to the commercial expansion of the future, and to the safety of the west coast from Sitka to San Diego. The Senate in its present debate is discussing really far more important interests than the mere acquisition of the Islands. That is an important matter, but it is only part of a greater whole. The real issue at stake is whether the United States shall go forward or backward, whether it shall expand its commerce and influence or remain supine within its own borders.

It is true that a nation can do this and exist. China did so. Japan did so. Korea did so. But no Anglo-Saxon state has ever done so. With states of this race there is always continued expansion, and it is impossible for the United States to avoid expanding. Whether the expansion will be as rapid as it should be depends upon a vote or two in the Senate.

Hawaii, today, stands as Texas did fifty years ago for American advance, for its progress as a nation, for its growth as a power and for American position and prestige in the future. And yet fifty years ago there were very much the same arguments used against the annexation of Texas. There are always those who look back instead of looking forward. There were those who looked back when Texas, when Louisiana, when Florida and when Alaska, were annexed. There are those who probably still sigh for the original thirteen states and the simplicity of early colonial life. But a nation grows like an individual. You may thwart its growth, but it will eventually burst through its barriers, its progressive course will run on and those who thwarted it will be cast aside and forgotten or be regarded as mere back numbers.

That a majority of the Senators view Hawaiian annexation in the progressive light, is evidenced by the fact that fifty-eight are now pledged to vote for annexation. It is to be hoped that the steamer next Thursday will bring the news that the other two votes are secured.

Setting in motion the machinery of government in Greater New York has been done with little or no friction, and there has been no serious difficulty in the transfer of the new agencies of the consolidated city of the functions formerly discharged by different public officials in the separate municipalities. But what mighty interests are involved in this Greater New York, and how small do our interests look here. Our real estate is valued at a few millions of dollars. The total assessed value of the real estate of Greater New York is \$2,500,000. We have a debt of \$4,000,000. The net funded debt of Greater New York is \$227,000,000. To manage the consolidated city requires an army of officials and the mayor has certainly no sinecure.

REVISED TREATIES.

The Japanese press, and especially the Mainichi, has been devoting considerable time and space to the subject of the revised treaties, which will soon go into effect. When these are carried out foreign enterprises may be carried on in the interior of Japan, which at present cannot be done, and the question discussed is how this will be regarded by the Japanese. Under the treaties there should be no unjust discrimination between foreign and Japanese enterprises. But there are grave doubts in the minds of some of the Japanese statesmen not only as to the introduction of foreign enterprises

but even as to the introduction of foreign capital into interior Japan.

There is, it is stated, a strong anti-foreign spirit ruling a certain section of the Japanese public. This section is fanatically opposed not against foreigners investing in Japanese enterprises, but also against Japanese utilizing foreign capital for carrying on domestic enterprises. With such a feeling pervading a large section of the country, the Japanese government is not likely to have very smooth sailing when the new treaties come into force.

BOHEMIA.

Race hatred has been displaying itself with intense bitterness in Austria. The Czechs of Bohemia have been especially distinguishing themselves. They are distinctly and bitterly anti-German. They are agitating for independence, but the method by which they carry on their agitation is losing for them the support of the other Slavonic races of Europe. In the recent riot at Prague, over eight hundred houses belonging to Germans were plundered. Even the children's hospital was not spared, though the mob was told that the children in it were of their own nationality. The staff was German, and that was sufficient.

The trouble is that although the Czech races in Austria only number 8,000,000, in Bohemia itself they outnumber the German population. All the science, industry and capital are in German hands. The people are intensely ignorant and very poor. The lowest class of laborers that comes to the United States are the Bohemians, and even with the surroundings of education which they are brought into contact with, they remain uncouth and turbulent. It is a curious thing that life is more insecure in Bohemia than in any part of Europe except Turkey.

RECOVERED HER JEWELS.

A Lively Search for a Valuable Collection.

The monotony of the last trip of the Pacific Mail S. S. City of Peking from Honolulu to Yokohama, was disagreeably disturbed by the theft of \$5,000 worth of jewelry from a lady traveling in the saloon, says a recent Yokohama exchange. The property had been cleverly abstracted from her trunk, at the bottom of which she had placed it for safe keeping. On ascertaining her loss, she immediately informed Capt. Smith, who instituted inquiries without result. Finally the lady offered \$500 reward for the recovery of the missing jewelry, and the very next day a Chinaman gave information that he had found it in one of the water closets. It was handed over to the purser pending further official investigation, which will probably take place at Shanghai.

THERE IS A STATUE

Inside of every block of marble, but only an artist can release it. On the same principle it required skill and patience to extract from cod liver oil its curative and flesh-building properties, leaving out the bad odor and nauseous, disgusting taste. In

WAMPOLE'S

PREPARATION.

this is done. It is made from pure Cod Liver Oil, extracted by us from fresh cod livers, combined with Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry Bark. Search the world over and you will find nothing so pleasant and effective. Children who protest with cries and struggles against "that nasty cod liver oil," and other nauseous medicines, take the preparation and they would take common syrup. So much for its superficial qualities. As a remedy there is life and health in every dose. For Nursing Mothers, Invalids and Consumptives, it meets every want. It expels disease germs from the blood on its death-scenic principles. Twelve pounds in weight have been gained from a single bottle. Taken before meals it gives you an appetite and makes your food do you good. For Anemia, Scrofula, Rheumatism, Bowel Complaints, Blood Impurities, etc., it has no rival; its merit is wholly its own. It is not a petrified relic of the Medical Dark Ages. It was made to cure and it sells because it cures. You cannot be disappointed in it. Sold by all chemists.

It's an Open Secret

That we pay more attention to the wants of our patrons than any other Feed Company doing business. This is especially true of our out of town customers, who rely upon our judgment of their wants to send them the very best article, be it Hay, Grain, Flour or Middlings. We never knowingly send them an inferior article, or one that is old and musty. Permanency of patronage is what we are after and what we are getting every day and every year.

The Man Hardest to Suit

Is the man worth suiting. We take pleasure in fitting the particular man, the man who insists that his trousers must be just so; that his top coat must be just that length—the right color—and have a graceful hang. That's the chap we want—the one who sometimes find fault, because no fault can be found with our goods.

Prompt Payment of a Big Sum

December 4th Rouse, Hazard & Co. mailed their attorney at Chicago a draft for \$17,810.96, payable to the Western Wheel Works, that being the amount which had been in litigation between the two companies for several years. The ability of Rouse, Hazard & Co. to forward this large sum just at this season of the year, when the pay rolls and other expenses of bicycle manufacturers are very large, and receipts very small, is certainly a most convincing evidence of the solvency of one of the oldest bicycle concerns in the United States. Of the manufacturers and jobbers of bicycles who were in business when Rouse, Hazard & Co. entered that line, more than eighteen years ago, the number that still exist can be counted on the fingers of one hand. Rouse, Hazard & Co. report that their present prospects are the brightest of any time during all the years they have been in business. They now have bona fide orders from gilt edged concerns for a larger number of machines than they ever had orders for at any one time. The next Australia will bring us a full line of these wheels. They will have more than their share of up-to-date features, and will make up the most elegant line of 1898 wheels that will be seen here this year. We shall also receive a line of Kensington's. It will pay you to wait.

DIVORCE MILL GRINDING

NINETEEN SUITS ON THE CIRCUIT COURT DOCKET.

Judge Stanley has Reserved the Saturdays for the Hearing of Family Troubles—The Cases.

There are nineteen divorce suits on the February calendar of the Circuit Court. Judge Stanley has set aside each Saturday during the term to the hearing of these cases.

Barbara Walters asks for an absolute separation from E. H. F. Wolters. She filed her suit a few weeks ago.

Laura J. Berlowitz is suing for a divorce from William Berlowitz.

Josephine K. Conley prays for a divorce from her husband, C. C. Conley.

Another interesting case is the suit of Mary Jane Dickson against Thomas Dickson. The defendant has also brought suit against his wife. Dickson is employed on the marine railway.

Other divorce suits and separations on the calendar include Maria G. Leinho against J. M. Leinho; Aha Pilopo against S. K. L. Pilipo; Charles J. Faneuf against Ida M. Faneuf; E. C. Hobron against Hikaalani Hobron; Ikuwa against Aneko; Ermina Quiliga against Vincente Quiliga; Elizabeth Lopez against Delpheno Lopez; Leialoha Carroll against John Carroll; Thomas L. Andrews against Rosalie A. Andrews; Pae Kamaka against Kanaahaa; Hikaalani Hobron against E. C. Hobron; Julia Ake against Look Say Ake; Rebecca P. Humeke against J. W. Humeke; William Schestag against Mary Moi.

I have given Chamberlain's Cough Remedy a fair test and consider it one of the best medicines for croup that I have ever found. One dose has always been sufficient, although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.—George E. Wolff, Clerk of Circuit Court, Fernandina, Fla. NO NEWS IN THE ORIENT.

The Only Reliable Reports in the American Papers.

"If you want the news from the Far East you must read the American papers," said Capt. Finch of the S. S. Gaelic to a Star man during his recent stay in port. "There is nothing to be gleaned either from the Japanese or the Chinese papers regarding the war scare there, as thus far it is a purely diplomatic matter, and the combatants are all in Europe. Of course there is a great deal of gossip in Hong Kong, Shanghai and Yokohama, but it is safe to assert that the American people know more of what is really going on than do the people most interested in the Far East."

The officers of the Gaelic did, however, see a great many warships fitting about. At Nagasaki they encountered the Russian fleet, composed of eleven armored vessels. Each morning and evening would witness the arrival or departure of one or more of the vessels, but no one could say whether they were going or whence they came. In the cities of China there was some excitement, but none in Japan. Business was not interrupted in the least.

REPRESENTATIVES INSTRUCTED.

The citizens of Hilo held a mass meeting last Tuesday for the purpose of appointing committees to consider the necessities of the community and to bring the same to the attention of the senators and representatives of the Island of Oahu.

Among the improvements that will be petitioned for are the extension of the water works, the Hilo wharf, the erection of public buildings, the addition of streets and widening of public highways, improvements of country roads, the opening up of a public park and recreation ground and race track.

CAMP IN HIS OFFICE.

When the Mauna Loa sailed for Honolulu the office of Land Agent Baldwin in Hilo, was occupied by would-be homesteaders who were anxious to be the early birds when the Maulua tract was placed on the market. This land is to be divided up into lots of from 5 to 110 acres, and is suitable for either sugar or coffee cultivation. The majority of the people who are anxious to secure the land are Hawaiians and Portuguese.

SWIPES JOINTS RAIDED.

Detective Kaapa and his band have been kept busy raiding swipes joints during the past twenty-four hours. Thus far thirteen offenders have been locked up. One of them, Haiba by name, pleaded guilty in the District Court, this morning, and was sentenced to pay a fine of \$100 and costs.

FOR AMERICAN ADVANCE.

The Americans who are today in Hawaii and their predecessors found the Islands savage and civilized them; they found its people heathen and Christianized them. They found it without products and they have placed its plantations among the sugar producers of the world. They found it without commerce and they have now turned Honolulu into a thriving port. This American colony stands today an outpost of our civilization, industry and commerce in the mid-Pacific. President Dole and the government of which he is the head hold the key to the commercial expansion of the future and to the safety of our own coast, from Sitka to San Diego. The Senate, as it debates and decides on the Hawaiian annexation treaty, is not passing on the mere acquisition of the Islands. This is an important matter, but it is only a part of the greater whole. The real issue before the Senate is whether the United States shall go forward or backward, whether it shall expand its commerce and influence or remain supine within its boundaries.

President Dole, like President Houston, when he pleaded for the annexation of Texas, half a century ago, stands for the American advance, for our progress as a nation, for our growth as a power and for our position and prestige in the future. Where would the United States be today if it had refused to annex Texas, after an American colony had turned it into an outpost of American civilization? Every argument against the annexation of Hawaii has been made against every previous annexation, against Louisiana, Florida and Alaska.

There have always been those who looked backward. It is the duty of the American Senate today to look forward, outward and onward as the members of the same body have since it assumed the responsibility of ratifying the annexation of Louisiana.

CANNOT ARGUE.

No attempt is ever made to argue with patrons of the Criterion barber shop, on the class of work performed. The clincher to any argument has been to man's perfect appearance of face or head.

Facts About Health

It is Easy to Keep Well If We Know How

Some of the Conditions Necessary to Perfect Health.

The importance of maintaining good health is easily understood, and it is really a simple matter if we take a correct view of the conditions required. In perfect health the stomach promptly digests food, and thus prepares nourishment. The blood is employed to carry this nourishment to the organs, nerves, muscles and tissues which need it. The first great essential for good health, therefore, is pure, rich blood. Now it is certainly a fact that no medicine has such

A Record of Cures

as Hood's Sarsaparilla. It is literally true that there are hundreds of people alive and well today who would have been in their graves had they not taken Hood's Sarsaparilla. It is depended upon as a family medicine and general regulator of the system by tens of thousands of people. This is because Hood's Sarsaparilla makes the blood pure. This is the secret of its great success. Keep your system in good health by keeping your blood pure with Hood's Sarsaparilla, which absolutely cures when other medicines fail.

"I had pimples on my face and a large boil on one hand. I began taking Hood's Sarsaparilla and after using three bottles I was cured." J. W. JOHNSON, 3 South Broderick St., San Francisco, Cal.

AWARDED FIRST PRIZE

Merit Wins.

One of the most attractive displays at the Mechanics' Fair this year was the one made by HILBERT BROS., Pacific Coast Agents for the Saint Louis A. B. C. Bohemian Beer. This beer was awarded FIRST PRIZE, notwithstanding it having had to compete with some of the best known brands whose names are household words. Pale and Sparkling with an excellent Hop Aroma, and renowned for its purity it makes an Ideal Family Beer. The beer is brewed from the finest growths of Bohemian Hops and the Choicest Selections of Barley by the American Brewing Company, St. Louis, Mo., whose brewing plant is conceded to be the model brewing plant of the world. The Saint Louis A. B. C. Bohemian Beer is bottled exclusively at the Brewery from stock not less than eight months old. (The above clipping is from the San Francisco Chronicle of late date.)

WILL WATCH EACH OTHER

TERRILL AND JONES ARE NOT AFTER TIME.

The Former Will Want to Play the Paris Tactics in Which He was so Successful.

It is the consensus of opinion among the wheelmen of the city that Jones and Terrill are evenly matched. Both riders have their favorites and admirers, but those who are good judges on points in riding, say it is a toss up who will win.

There is a likelihood that the time will be very slow. The fine points of a match race are now shown by the plugging qualities of the contestants, but the playing for, vantage points, the spurting is done from the eighth mile. In this respect the match race differs from a competition and if the public will take the pains to observe both Terrill and Jones, they will see them playing with each other, the same as a cat does with a mouse before devouring it.

At the last moment Sam Johnson was forced to withdraw on account of a severe strain of the muscles caused by his fierce riding in the handicap event Saturday evening.

One, and possibly two, additional races are on the cards for tonight. Sylvester will try for the exhibition one-third mile professional, paced by Bilmartin and Alan Jones.

Henry Giles will go for the paced amateur exhibition should his brother, the "Midwest," succeed in going the third under 30 seconds.

The competition events will be of equal interest, as a great deal of rivalry is exhibiting itself as a result of Saturday evening's events. No one will have a sure thing in any race or heat.

Following are the events and handicaps:

Event 1—First heat, match race, two-thirds mile.

Event 2—First heat, mile handicap, amateur.

Event 3—Second heat, mile handicap, amateur.

Event 4—Second heat, match race.

Event 5—One mile handicap, professional.

Event 6—Final heat, mile handicap, amateur.

Event 7—Final heat, match race.

Event 8—Mile open, boys.

Event 9—Exhibition, one-third mile Island professional, George Martin paced by Terrill and Whitman.

Event 10—Exhibition, one-third mile Island amateur, A. Giles.

Mile handicap amateur. Entries for first heat: H. A. Giles, scratch; A. Giles, 20 yards; C. C. Eakin, 30 yards; J. Gilman and J. Cowes, 50 yards; R. N. Halstead, 80 yards; J. S. Ellis, 100 yards.

Entries for second heat: F. B. Damon, scratch; T. V. King and W. H. Cornwall, 20 yards; H. Ludloff, 40 yards; T. Treadway, 50 yards; F. Williams, 70 yards; H. Patric, 100 yards.

Mile handicap, professional. Bilmartin, scratch; George Martin, 20 yards; John Sylva, 40 yards; D. E. Whitman, 50 yards; D. G. Sylvester, 70 yards; Nigel Jackson, 110 yards.

AN INDEPENDENT THEATER.

A second attempt has been made to establish in New York City an independent theater—Independent, that is, of the usual commercial considerations.

The first play presented was Ibsen's "John Gabriel Borkman." The object of the enterprise is thus set forth by the Brooklyn Eagle: "Under modern conditions no play is valuable for a theater which is not good for at least a dozen performances, and no manager produces a play for which he does not hope a much longer run. He could not get his money back for any less. Now there is a great deal of literature which cannot meet any such test as that. Mr. Richardson treats Tennyson's 'Idyls of the King,' and Mrs. Dellenbaugh reads Browning's poems to the pleasure and profit of large audiences. Yet neither reader could ever attempt such a feat if an essential preliminary were to insure a dozen audiences in each city for the same poem. It is possible for a reader without scenery or customs to prosper by reading a poem once each in many cities. Such prosperity is impossible to the stage with its greater expenses, and if plays whose interest is literary rather than popular are to be acted there must be some fund beside the money which comes in at the door. It is to supply this need that the present Independent Criterion Theater has been attempted."

Mr. Ward L. Smith of Fredericks-town, Mo., was troubled with chronic diarrhoea for over thirty years. He had become fully satisfied that it was only a question of a short time until he would have to give up. He had been treated by some of the best physicians in Europe and America, but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle of it, the first helped him and his continued use cured him. For sale by all druggists and ealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

Hawaiian Electric Company.

The cleanest, brightest safest and really in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."
This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.
We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

MONSTER RAFT PUT TO SEA

AN ORIGINAL AND VERY DARING EXPERIMENT.

Five Million Feet of Lumber Being Towed From Portland to San Francisco—Takes the Place of the Steamships.

Island shipping men are eager to learn whether a monster raft which was put to sea at Portland with five million feet of lumber some little time ago, has reached San Francisco. The enterprise is original and daring and will attract attention all over the entire world. The huge raft is 296 feet long and 53 feet wide.

It is difficult to realize the immense quantity of material represented by these little figures, although a comparative idea may be gained by considering the fact that the largest ocean vessels seen in Honolulu harbor have an average capacity of little over one million feet. The contents of this one raft, if cut into inch boards and laid end to end would make a foot walk from New York to Chicago, with enough over to build several houses at either end.

The idea originated in the fertile brain of John Poulsen, of Inman, Poulsen & Co., whose attention was attracted to the subject by the difficulty of engaging vessels to take lumber to San Francisco to supply the extensive yard jointly operated in that city by the concern of which he is a member, and the North Pacific Lumber company, also of Portland.

Rafts of piling and spars have for several seasons past been put to sea and towed from the Columbia to the Golden Gate, but nothing like the undertaking now on foot has ever been attempted. Poulsen has drawn his designs from a scientific standpoint, and after careful consideration of all the difficulties to be encountered, so that it will be practically impossible for the lumber to become dislodged.

An ocean trip of 800 miles necessitates the strongest method of construction. The raft projects very little above the surface of the water and this greatly increases the chances of its making a safe trip, as the waves will wash completely over it, encountering little resistance and expending their force in battering it to pieces. This is a principle used in the construction of the famous whalebacks, and one which experience has demonstrated to be correct. If seen from a distance at sea the raft would more than likely be classified as a monster of the deep than as a great freight carrier.

AN AUTOMATIC SUNSHADE.
This is a Berlin novelty. A U-tube partially filled with mercury, is connected with a bulb containing black wool and one containing air, and as the sun shines the absorption of the rays by the black wool causes the mercury to rise in the opposite side of the tube, closing the circuit of a motor that lets down the blind. When the sun is not out the mercury is level in the two tubes, closing a current that winds up the blind.

Don't waste your time and money and health on weak cheap and alum cheap baking powders.

Ask your grocer—"Can I really afford to buy such?"

FAVORITE SALOON.

The Favorite saloon on Hotel street is always on the watch to please its customers. Mr. Cunningham gives his personal attention to all details and a customer is sure of receiving good service and the best of liquors.
