### Beyond Expectation Grand Results from Taking Hood's Sarsaparilla

Broken Down System Thoroughly  
Built Up.

"C. I. Hood & Co., Lowell, Mass.:  
Gentlemen:—I take great pleasure in ad-  
vising you of my cure by Hood's Sarsaparilla and  
gladly recommend it to all suffering as I have  
been. My system became thoroughly deranged  
and life seemed little else but a burden. I was  
very thin and my kidneys and liver were out  
of order. I had no appetite and seldom ate any  
breakfast. I had taken Senna and had been  
treated by different physicians but with little or  
no success, and had become quite discouraged,  
feeling my case was hopeless.

### Health and Strength RESTORED BY THE USE OF AYER'S Sarsaparilla

Mrs. M. A. Cumming, of Yarraville,  
Victoria, Australia, Says:

"About a year ago, I had a severe  
attack of influenza, which left me  
very weak, without energy, appe-  
tite, or interest in life. Obtaining  
little or no relief from doctors, or  
from the many remedies recom-  
mended to me, I finally tried Ayer's  
Sarsaparilla, and from that time  
began to gain health and strength,  
continued the treatment until  
fully recovered, and now have very  
great pleasure in telling my friends  
of the merits of Ayer's Sarsaparilla,  
and the happy results of its use. I  
consider it the best blood-purifier  
known."

An Old Soldier's Recommendation.

In the late war I was a soldier in the  
First Maryland Volunteers, Company  
G. During my term of service I con-  
tracted chronic diarrhoea. Since then  
I have used a great amount of medicine,  
but when I found that that would give  
me relief it would injure my stomach,  
until Chamberlain's Colic, Cholera and  
diarrhoea Remedy was brought to my  
notice. I used it and will say it is the  
only remedy that gave me permanent  
relief and so had results. I take  
pleasure in recommending this prepa-  
ration to all of my old comrades, who,  
while given their services to their  
country, contracted this dreadful  
disease as I did, from eating unwhole-  
some and uncooked food. Yours truly,  
A. E. HENNING, Halsey, Oregon. For

From first to last attention was riveted on Prof. Zamloch, who has, by the way, proved himself a master in the art of legere-main and "magic."

The Cabinet Manifestation was especially clever and provoked storms of applause in the audience. Prof. Zamloch announces a matinee tomorrow afternoon, and an other entertainment for 8 o'clock in the evening.

**Dr. Price's Baking Powder**

California, empire of the Pacific, salutes the world. Her Midwinter Fair closed in a midsummer blaze of glory. Second only to the Columbian Exposition in extent, variety and splendor, the coast display was a veritable triumph. Out of her abundance the state poured her treasures and the nations of the earth came to aid her in her noble exhibition.

Memorable were the exhibits of gold and silver, of wheat and oil, of fruit and wine, of silk and wool—all of that man and nature could combine to produce. And no exhibit attracted more attention or excited warmer approval than that of

## Dr. Price's Cream Baking Powder

Official tests showed it to be highest in leavening power, purest in quality, and most efficient in results of all baking powders made. Accordingly, the Highest Award and Gold Medal were conferred on Dr. Price's at the Midwinter Fair.

The triumph at San Francisco confirms the victory at Chicago. The Midwinter Fair verdict sustains and vindicates the bestowal of highest honors on Dr. Price's by the jury of awards at the World's Columbian Exposition.

Chamberlain's Cough Remedy is famous for its cures of bad colds. It opens the secretions, relieves the lungs and aids nature in restoring the system to a healthy condition. If freely used as soon as the cold has been contracted, and before it has become settled in the system, it greatly lessens the severity of the attack and has often cured in single day what would have been a severe cold. For sale by all Druggists and Dealers.—Benson, Smith & Co., Agents for Hawaiian Islands.

## THE WAR ON GERMS.

PERMANENT PRECAUTION AGAINST POSSIBILITY OF CONTAGION.

A Mammoth Fumigating Plant for Quarantine Island To Cleanse Eastern Baggages.

Mr. John Ouderkirk is moving the disinfecting plant to Quarantine Island where it will be erected. The machinery is being taken around by Iwilei on wagons. Late Thursday the vehicle containing the plant's boiler, when about half way across the water, stuck hard and fast in the sandy bottom. Nothing could move it. Today the wagon was jacked up, and block and tackle landed it safe on the other side.

A house for the plant will be built on the sand at the island end of the quarantine pier. Plans have not yet been drawn. As the plant will be used for fumigating baggage, clothing, etc., of foreign passengers, the house will be made large enough to accommodate all of these things.

No Oriental baggage that may arrive here in the steamer will be allowed to touch land until it has been thoroughly fumigated in this house.

Company 6, Citizens Guard, was in the Station House Thursday night. All of the remaining caps were distributed and record of equipment completed.

## LARGE ROCK CRUSHER.

It Will Crush Thirty Tons in Ten Hours.

The Public Works department has imported a Champion rock crusher. It arrived last week. There is only one other in the country, a big one in use on Hawaii.

Crushing for the streets has heretofore been done by hand. This is a slow, tedious and expensive process. Portuguese have been employed in the work. They could crush about a ton a day. The work was then not always satisfactory.

The machine is a simple contrivance. It is portable and can be taken to any part of the city. There is a large hopper into which the rocks are placed. Below this is a pair of iron jaws with perpendicular teeth. The parts have a forward and a lateral motion. Pressure is obtained through the wheels.

The machine falls beneath and is removed through a trough. Thirty tons can be crushed in ten hours. This is sufficient to keep up with street work.

A part of the machinery will be a boiler and belts. These belts run on a large roller which is suspended from the ground. The boiler has been purchased yet. It will be something on the order of a donkey engine. Mr. Cummings calculates on having the crusher at work early in February.

## Rubber Coats.

A few nice samples are being opened up at L. B. Kerr's.

## A Good Seaman.

The passengers who accompanied Captain Seabury on the last trip of the China pay a high tribute to his seamanship. Off the Japan coast the China met one of the worst gales she was ever in, and for a day or two there were fears for her safety. She was holed for a day, and at one time it was proposed to return to port.

The captain, however, was determined to go for the sea, which was dashed over the ship when she was under way would have sent the crew or passengers from the deck. The U. S. S. Baltimore, now in port, weathered the same storm.

## Postponed Again.

Carl Klemme's case was called in the District Court this morning. The defense asked for a continuance to next Monday. This was assented to by the prosecution and the case went over.

## COMPLAINT FROM SALVADOR.

The Department of State's Telegram Trouble.

A recent special to the New York World from San Salvador says: The representative of this country in Washington has been instructed to complain to the State Department of the authorities at San Francisco for having permitted the outfitting of the boat Golden Barclay by friends of Ezeta, designed as a filibustering expedition against a friendly nation, such an act being a violation of the neutrality laws.

It is claimed that the American Government should have prevented the vessel's leaving San Francisco, and should have imprisoned Casin and the members of the Central American Land Company, who furnished the money to Ezeta to carry out his revolutionary plans.

## AN OLD BUILDING.

A Memento of Ancient Honolulu to Be Fitted Up.

The old building opposite the Hawaiian Carriage Mfgs. shop on Queen street is being fitted up and will be occupied by Tom Hollinger. He will move his horse shoeing business into it. A new roof has been put on the building and its interior has been repaired.

This building is one of the oldest in Honolulu. It was brought from Australia more than thirty years ago, or in the early sixties, and set up near where McChesney's store now is. In those days it was considered a very fine structure and was moved to its present position in 1892 to the appearance of ancient Honolulu. All of the old kamaeians remember it well, and Hon. G. D. Gilman of Boston speaks of it in his history of Ancient Honolulu, published last year.

From near the boat landing it was moved to its present position, since when it has been used for many purposes. Of late years it has been used as a storeroom for rubbish.

## Bad Both Ways.

Irish wit, as a rule, comes like a flash. Up in Worcester county while some of the oldsters were sitting around a table in a light house and met a jolly Irishman gazing at them with difficulty.

Said the former, "It's very bad going, but, isn't it?" "Yes," responded Pat, "and it's bad going too."—Boston Courier.
