Majuro Dist.

2. Welfare - No gratuitous issues of food or clothing were made during the quarter, except for a small quantity of flour, rice, and sugar given as prizes during the Arno - Majuro inter atoll celebration and field day held on 8 September 1947. Scrap nails and salvaged quonset tin was furnished several villages for community buildings. New ensigns were provided at Airik and Jan Villages on Maloelap, Ormej Village on Wotje, and Ine Village on Arno Atoll. As textbooks, school supplies, and athletic equipment have become available distribution has been made to individual schools.

Airik Village on Maloelap Atoll sent 15 baskets of prepared breadfruit to Ormej Village on Wotje Atoll as a welfare project. The currently abundant breadfruit crop is not of much value to Wotje due to loss of trees suffered during the war.
