NANSEN RETURNS.
CHRISTIANIA, Aug. 13.—The After-poster announces that Dr. Nansen, the Arctic explorer, has arrived at Varloe island, Norway, on board the steamer Windward, which recently went to Franz Josef Land to bring back the Jackson-Farnsworth expedition.

The Verdensgang, a daily newspaper of this city, has received the following telegram from Dr. Nansen: "Home safe, after a fortunate expedition."

VARDOE, Norway, Aug. 14.—Dr. Nansen says the Fram drifted with the ice in a westerly direction 24 degrees, and he expects that the vessel will eventually arrive at Spitzbergen.

In consequence of a scarcity of dogs Dr. Nansen was compelled to turn back at 86 degrees 15 minutes. He added that if he had been provided with a sufficient number of dogs and canoes the Pole would have been reached.

The land voyage was most arduous, but extremely valuable for the scientific results obtained.

THE ACCEPTANCE.
NEW YORK, Aug. 12.—The occasion of the official notification to the Democratic nominees was a great event. It filled Madison Square garden. Bryan's speech was argument for his causes and analysis of the platform. He treated each plank at length. Sewall said only a few words. After the meeting, at nearly midnight, Bryan addressed 10,000 workmen from the balcony of his hotel.

SIR CECIL CALLED.
LONDON, Aug. 17.—The morning asserts that Joseph Chamberlain, Secretary of State for Colonies, has mailed an invitation to Cecil Rhodes asking him to come to England next January for the purpose of testifying before the committee of inquiry into the British South African Company.

Mr. Chamberlain has also invited President Krueger of the Transvaal Republic to submit to the committee any evidence which he may possess relative to the origin and the execution of the raids conducted by Dr. Jameson and his associates.

SULLIVAN AWHEEL.
BOSTON, Aug. 16.—Last Friday John L. Sullivan, took a twenty-five pound bicycle to a riding school and now is able to mount and dismount with dignity. He is immensely heavy and will not dare to venture upon the road until he gets a heavier wheel.

Worth Remembering.
School Teacher—Can anyone tell why the name "Seattle Brewing and Malting Co." is like the alphabet?
Tommy—(Whose mother keeps "Rainer" Beer at home)—"Yes, I know; because it has twenty-six letters in it." She don't need a physician any more. Rainer is all the tonic she needs, and can be had at the Criterion saloon.

Business Men Appreciate Them.
A business man is quick to appreciate any labor-saving device. The business men who are the most successful, use a typewriter. They find that they can accomplish more and better work. No progressive business man, once acquainted with the usefulness of a typewriter, could be induced to change. The Peerless typewriter is a modern, up-to-date machine. Strong, simple, durable. Call or write for catalogue.

NEWS OF THE WORLD

INTERESTING ADVICES FROM ABROAD TO AUGUST 20.

Politics in the United States—Cecil Rhodes—Venezuela—Terrific Death Rate in New York.

PROGRESS OF THE FIGHT OF CUBANS FOR LIBERTY.

Butcheries of Weyler—Politics in Germany—British Opinion—McKinley and Bryan Forces.

TRYING BRIBERY.
NEW YORK, Aug. 19.—Capt. Morton of the alleged filibustering steamer Commodore arrived here today from Charleston, S. C. He called at the Cuban junta headquarters and told Secretary D. Quesada that while he was at Charleston a man in the employ of the Spanish legation at Washington offered him \$10,000 to betray any future expedition.

BARON RUSSELL PRESENT.
SARATOGA, N. Y., Aug. 19.—There was a large attendance in Convention Hall at the opening of the nineteenth annual meeting of the American Bar Association today. When Lord Russell, Sir Frances Lockwood and Montague Craikenthorpe, together with their ladies, entered the hall, they were greeted with hearty applause.

JAPAN'S WARSHIPS.
NEW YORK, Aug. 19.—The Herald's Washington special says: The representatives of the Carbons and Iron Works have been at the Japanese Legation this week, applying for information as to the decision of the Japanese Government in the matter of the competition they entered into for contracts for the construction of two cruisers for the Japanese naval service. Each American firm expects to get a ship.

REBEL NAVY.
PORT HURON, Mich., Aug. 19.—The fast river steamer Unique, which has been running between this port and Detroit has been sold to an agent of the Cuban Government. It is intended to cut her cabins down and turn her into a blockade runner.

THREE FRIENDS.
WASHINGTON, Aug. 19.—Acting Secretary Curtis today instructed the Collector of Customs at Jacksonville, Fla., to release the suspected filibuster, Three Friends, recently seized by the revenue cutter Boutwell, unless he had some good reason for her detention.

NEW PAPAL DELEGATE.
CHICAGO, Aug. 19.—The Times-Herald's Washington special says: Father Martinelli has been appointed to succeed Cardinal Satolli as apostolic delegate to the United States. This fact has been confirmed by recent letters that Cardinal Satolli has received from the Vatican authorities.

YACHTING FATALITY.
RYDE, Isle of Wight, Aug. 19.—The inquest was held today upon the remains of Baron Moritz Curt von Zedtwitz, the German yachtsman killed yesterday in a collision between Emperor William's yacht Meteor and Zedtwitz' yacht Isolda. The commander of the Britannia expressed the opinion that the Meteor ought to have given the Isolda a wider berth, and thought there had been an error in judgment.

Capt. Gomez of the Meteor denied having infringed the rules. He said there would have been plenty of room room to pass had not the Saint struck the Isolda and shoved the latter out of her course and across that of the Meteor. The collision with the Isolda could not be avoided except by colliding with the Britannia, which, he explained, would have resulted in a far more serious smashup. The jury rendered a verdict of nobody to blame.

LI HUNG CHANG.
PHILADELPHIA, Aug. 19.—Final arrangements for the reception of Li Hung Chang during his stay in this country were announced today. The Ambassador Extraordinary, with his suit, will arrive in New York on Friday, August 28, and he will be received on the following day at Governors' Island by President Cleveland. There will be a naval review and a great showing of pomp.

On Sunday Li will visit the tomb of General Grant, and in the evening will dine with John Russell Young, George F. Seward, John E. Ward and other Americans with whom he became acquainted in China. On Monday, Aug. 31st, the party will be taken to West Point, where a military review will be held. On Tuesday, September 1st, the Chamber of Commerce of New York will give a reception and dinner in honor of the great man, and Wednesday he will visit the city of Brooklyn.

HAWAIIAN DEATH.
BOSTON, Mass., Aug. 19.—Josiah Dwight Whitney, M. D., professor of geology at Harvard, the oldest instructor of the university on the basis of length of service, and the most famous geologist of the country, died today at New London, N. H.

GERMAN POLITICS.
BERLIN, Aug. 19.—Newspapers here continue to comment in severe terms upon the dismissal of General Bronsart von Schellendorf, the Prussian Minister of War. The National Zeitung says: Several leading Generals have refused the post vacated by General von Schellendorf.

A SILVER DEAL.
WASHINGTON, Aug. 19.—Reports have reached here from Buenos Ayres to the effect that an American syndicate has offered the Argentine Republic \$150,000,000 in silver in exchange for \$100,000,000 in bonds payable in gold at 4 per cent interest with a half per cent added as a sinking fund.

UNITED STATES ARMY.
WASHINGTON, Aug. 19.—The President has appointed Colonel C. G. Sawtelle Quartermaster-General of the Army, vice General Batchelder, retired. Colonel Sawtelle is now stationed at Governors Island, New York.

MASKED GOLD BUGS.
SPOKANE, Wash., Aug. 19.—George R. McCauley, secretary and principal officer of the Caribou Mining Company, while returning from Camp McKinley, B. C., with nearly \$11,000 worth of gold bullion, was held up and robbed by a masked man yesterday.

BRITISH OPINION.
LONDON, Aug. 19.—The St. James Gazette this afternoon publishes a column leading article pointing out that Bryan's chances of election to the Presidency of the United States is not hopeless.

BEECHER ILL.
NEW YORK, Aug. 18.—No change is reported in the condition of Mrs. Henry Ward Beecher, at her home in Orange street, Brooklyn. Mrs. Beecher was affected by the excessive heat of last week and is quite ill.

100,000 PLURALITY.
CANTON, O., Aug. 19.—Stewart L. Woodford, ex-Lieutenant Governor of New York, lunched with Major McLaughlin today. To a reporter he said New York would surely give McKinley 100,000 plurality, and probably the largest ever known for any candidate.

DR. BROWN AGAIN.
SAN FRANCISCO, Aug. 18.—Mattie Overman, the red-haired inamorata of Rev. Charles O. Brown, has made her fourth statement. This time it is a confession, and its result will probably be the expulsion of Brown from the Congregational ministry.

Its charges are so definite and of such a nature that the Bay Conference feels that it must again take up the scandal.

In such an event it is almost certain that every connection of Dr. Brown with the Congregational ministry will be finally severed.

ENCOURAGEMENT.
CHICAGO, Aug. 18.—Senator Thurston of Nebraska came to Chicago from the West today, visiting the Republican headquarters. He let loose a cyclonic amount of encouragement. "As far as I can judge," he said, "the conditions are altogether favorable for a Republican victory. But I am free to say that a vigorous campaign must be kept up until election day to accomplish what we hope and confidently expect to achieve." Mr. Thurston also claims Nebraska for the Republicans.

WEYLER'S DEVILTRY.
HAVANA, Aug. 18.—There is one thing that seems to go unnoticed by the civilized world. Many men are shot and hacked down every day as the result of summary judgments and Weyler's decrees. The summary judgment is an outrage upon the nineteenth century. It is a judgment given without the defendant's having been

allowed to plead. It is enough for three or four persons to say that they saw a man at a meeting place on a certain day. He will be condemned because, as I say, he is not permitted to plead.

SHERMAN ON TARIFF.
CINCINNATI, O., Aug. 19.—The Republican campaign was opened here today by Senator Sherman and other speakers. Senator Sherman argued that the present depression was due to the Gorman-Wilson tariff, which was still a law, and which not only cut off the Government's revenue, but also depressed home industries. He held that prosperous times existed under the McKinley law and would come again under McKinley and a congress in accord with him, while panic, ruin and distress would follow if the Gorman-Wilson tariff law remained in force and free silver was added to the mistakes that had been made.

OLD SOLDIERS.
CANTON, O., Aug. 19.—Governor McKinley today received a telegram from Mayor Green of Binghamton, N. Y., extending greeting and announcing that the National Convention of the Union Veteran Legion in session there would be addressed by General Sikes on the duty of the soldier in the present national emergency.

THURSTON BELIEVES.
CHICAGO, Aug. 19.—"Mr. Bryan's word goes with me and I shall be glad to say so to the people of this country," said John M. Thurston of Nebraska after reading the out-footed denial of W. J. Bryan that he is or has been in the employ of silver mine owners. Mr. Bryan has denied the charge which was made by a Democratic newspaper, and I have no hesitation in declaring that I believe him."

SILVER EFFECTS.
WASHINGTON, Aug. 19.—The effect of the free silver campaign is making itself felt in business circles here. Nearly every contract made, even to the renting of houses is furnished with a clause providing for the payment in gold of any moneys involved.

IN NEW YORK.
UPPER RED HOOK, N. Y., Aug. 19.—W. J. Bryan has determined to make a pretty thorough canvass of the state of New York, visiting each big city along the New York Central road.

ALLISON ASSIGNED.
CHICAGO, Aug. 19.—Among the callers at Republican headquarters last evening was Senator Allison. He was anxious to confine his speech-making to his own state, but yielded to the persuasion of the national committee, and will make two speeches in Illinois, one in Indiana, one in Minnesota and two in Nebraska.

NO MONEY.
NEW YORK, Aug. 19.—The Herald's Washington special says: The Democratic cash box here is said to be almost empty.

HANNA PLEASED.
NEW YORK, Aug. 19.—Chairman Hanna of the National Republican Committee arrived today from Cleveland. He was in rare good humor, and said everything looked promising for the success of the Republican ticket in the Western states.

NOTABLE DEADLOCK.
LOS ANGELES, Aug. 19.—One hundred and twenty-two ballots have been taken in the effort to nominate a Democratic candidate to run against McLaughlin for Congress and the convention adjourned tonight in a free fight. Three regular sessions and two caucuses were held today, but the deadlock is not broken.

TILLMAN BUSY.
LAWSON, Mo., Aug. 19.—Senator Tillman of South Carolina was the attraction today at the Bay county fair. He addressed an audience of about 2000 people on the silver question.

CANADA'S PARLIAMENT.
OTTAWA, Ontario, Aug. 19.—There was a large crowd at the opening of Parliament today. Not only was the crowd of spectators larger than in any past years, but the attendance of members and senators was also greater. There was an excited and everything was off quietly.

TO IMPORT GOLD.
NEW YORK, Aug. 19.—Wall Street was agitated today by the news of several presentations for the early importation of \$2,000,000 in gold and by statements that this action would fore-

shadow an inflow of the yellow metal on an extensive scale, the estimates ranging from \$15,000,000 to \$25,000,000.

TORONTO PUBLICIST.
TORONTO, Aug. 19.—W. D. Balfour, provincial secretary of Toronto, who has been ill for some weeks, died this evening.

MISS CLEMENS.
HARTFORD, Conn., Aug. 18.—Olivia Susan Clemens, the eldest daughter of Samuel L. Clemens (Mark Twain) died tonight. Miss Clemens was 24 years old and a very gifted young woman.

JIM CAMPBELL.
SAN FRANCISCO, Aug. 19.—Winthrop, the man accused of abducting and torturing Jas. Campbell, has been arrested and will be tried without delay. There seems to be a very strong case against him. He will attempt an alibi defense.

IN CUBA.
NEW YORK, Aug. 18.—This letter has been received from one of the ablest lawyers in Havana: "The situation here is more or less the same as last May. The Spanish newspapers profess to believe that events in July are proof that the insurrection is dying out. You must not pay attention to this. They say it is because they need to stir up the Spaniards' spirits, which already are below zero. Far from abating, the importance of the rebellion grows. The economic situation is unbearable, and this causes sorrow, misery and despair among the heretofore confident Spanish."

A SONG WRITER.
PORTLAND, Me., Aug. 18.—Professor F. Nicholls Crouch, author of "Kathleen Mavourneen," died here suddenly this evening, aged 88 years.

VENEZUELA DISPUTE.
WASHINGTON, Aug. 18.—The report from London that Lord Salisbury has yielded to Secretary Olney on the crucial point of the Venezuelan negotiations—that of including the settled portions of the disputed tract in the proposed arbitration—is regarded as an important development by those interested in the subject. This inclusion of the "settled districts" has been the chief obstacle in the way of arbitration.

NO CLAIM.
MADRID, Aug. 18.—The Epoca semi-officially denies that Spain is preparing a bill of damages against the United States.

SUGAR BEETS.
MONTEREY, Aug. 17.—Reports from the landowners of this county show that nearly 15,000 acres have been pledged for the growing of beets.

HEARST OR PULITZER.
BOSTON, Mass., Aug. 17.—The Boston Journal will publish tomorrow morning a remarkable dispatch from Rochester, N. H., to the effect that a famous Cuban filibuster, mentioned in press reports all over the country as dead, is alive and well, and that he is going to head the greatest filibustering expedition ever sent out of this country, which will leave New York city equipped at the expense of the proprietors of one of New York's greatest daily newspapers, one of the most conservative and wealthy journalists in the world.

AMAZING DEATH RATE.
NEW YORK, Aug. 17.—Notwithstanding largely increased forces of grave diggers, working day and night, graves could not be supplied to fill the demand at the cemeteries Sunday. There was also a shortage of hearses, and it was necessary to borrow from other cities. There were 450 funerals in New York during the day and over 200 in Brooklyn. Friday, Saturday and Sunday saw more burials than any seven days of which cemetery book-keepers can find a record.

GAIL HAMILTON.
HAMILTON, Mass., Aug. 17.—Miss Mary Abigail Dodge (Gail Hamilton) died at her home here at 9 o'clock tonight from the effects of a stroke of paralysis received yesterday. She never recovered consciousness, and breathed her last quietly and painlessly, surrounded by all the members of her family.

NEW YORK, Aug. 17.—Bourke Cockran has been engaged to speak in the Democratic Gold Standard party's interest in Maine, Michigan, Ohio, Virginia and Illinois, and may extend his tour to other western states.

THE LONG DISTANCE MEN

RACES BETWEEN SYLVESTER AND THE WONDER.

First Will Be Around the Island—Then Fifty Miles in the Park—Foot Ball Meeting.

The wheel race between Sylvester and Silva (the Manoa Wonder), will be quite an event. Both will go at once into training and the races will take place in about a month's time. The first event is a start from the corner of King and Fort and run around the island. It will likely be arranged for one to go via the pa'i and the other via Waialua, passing on the road.

The second event will be a fifty mile race at Kapiolani park. This will be more exciting than the first and will draw a big crowd.

Another important meeting of the foot ball enthusiasts is called to meet in the Y. M. C. A. at 7:30 this evening. The committee issues the call. It is said that twenty-six men, two elevens, have been listed for the team to be organized outside of the H. A. A. C. It is learned from Punahou that the boys there this year will not be players.

"It is the best patent medicine in the world" is what Mr. E. M. Hartman, of Marquam, Oregon, says of Chamberlain's Colic, Cholera and Diarrhoea Remedy. "What leads me to make this assertion is from the fact that dysentery in its worst form was prevalent around here last summer and it never took over two or three doses of that remedy to effect a complete cure." GATLING GUNS.
Secretary Herbert and a number of naval officers recently attended a test of an improved mechanism for the feeding of the Gatling gun at the Washington navy yard. Two rounds of 500 cartridges each were fired in two minutes and fifteen seconds and two minutes and thirty seconds, respectively. The test was regarded as satisfactory. The improvement enables the gun to be fed directly from the box in which the cartridges are shipped from the factory, instead of from a belt, thus obviating the necessity of frequent refilling.

"STYLE" IN FURNITURE

It is equally as poor taste to buy "out-of-date" Furniture as an "out-of-date" Bonnet or Wrap. We have the advantage of all others in having the only absolutely new and "up-to-date" stock of Furniture exhibited in Honolulu—and yet we ask less than you pay for the old elsewhere.

Bedroom Suits.

In Oak or Birch, are selected by people whose tastes run to the refined or elegant. For room decoration as well as for service, there is a certain elegance and richness about these woods not found in any other, and yet the prices are not what you would imagine them to be. Birch sets, with dressing cases having cheval plate mirrors, are preferred by ladies because the long glass allows them a view of the full figure. The old fashioned large, square glass is quite as fashionable and as much in demand because the bureaus to which they are attached give larger space for clothing.

We have them in all styles and in modern designs. Price, from \$25 to \$40.

Chiffoniers.

In these days when the ladies require many changes of clothing, there is a demand for space in which to put things away. The bureau drawers are crowded. A Chiffonier is necessary in every house where store room is scarce. These are made nowadays for gentlemen as well as ladies; some have a drop lid which unfolds to the gaze a regular receptacle for pens, ink, paper and other articles of stationery.

Side Boards.

Nothing sets off a dining room to more advantage, or adds to its convenience more than a Side Board. No dining room is complete without one. We have them to suit all tastes and purses.

China Closets.

There is scarcely a family in Honolulu, or anywhere else on the Islands, who has not a few choice bits of china stowed away in out of the way places. Give them light—let your friends see them.

China Closets in oak are the proper thing, and a dining room is not complete without one—the price has been an obstacle in the past, but over-production by a leading furniture maker in the States has helped us to offer them to you at ridiculously low prices. See those with the oval glass. Prices range from \$20 to \$45.

Secretary Book Cases.

Wall pockets and shelves for books are out of date; fashion demands something more modern and more artistic in design.

General Reupholstering and Cabinet Making a specialty and guaranteed A1. Matting laid by experts. Chairs to rent for Balls and Parties

Pains and Aches Vanished

PAINE'S CELERY COMPOUND CURES AFTER SIX YEARS OF SUFFERING.

SAN FRANCISCO, CAL., April 5, 1894.

WELLS, RICHARDSON & Co.,
Gentlemen:—I have been tortured for the past six years with sciatica, and since the beginning of this year have been almost entirely confined to my room, unable to move myself without great trouble. I have had leading doctors prescribe for me, but have got little relief from them. My nerves became so unstrung through loss of sleep and worry that I felt certain I should go crazy, and any little thing would shake them so I could not work.

Noticing your advertisement in the newspaper, I decided to try Paine's Celery Compound, for I had many times heard of celery being a good thing to build up the nerves. The result was indeed magical. After finishing half a bottle, my pains and aches seemed to vanish. I have now taken six bottles and feel as well as I ever did. I am now able to sleep soundly and eat three square meals a day, something I could not do before I used Celery Compound. I am thoroughly recovered from sciatica, and am thankful to have found a medicine which readily does all that it claims.

Sincerely yours,
Cuthbert Lawson

The Way to Tell a Good Bicycle

From a bad one is very simple if you follow the rules correctly. Start at the tire on the front wheel and go upwards, carefully inspecting every spoke, nipple, etc., and when you come to the steering head stop for a moment, and if you see anything like this

You will see them on the Race Track. You will see them Everywhere.

You are lucky. You can then stop your inspection, and take it for granted that the bicycle is all right.

Cleveland Bicycles have a World-Wide Reputation, and there is no risk in purchasing such a good wheel. Cleveland have been sold in this city for the past five years **and not a Frame of a Cleveland Bicycle has ever broken.** This is a record that no other bicycle sold here can claim. Cleveland riders are proud of their mounts.

Irritating and Disfiguring ERUPTIONS On the Face, Cured by Ayer's Sarsaparilla

Remarkable Experience of Miss Dorothy Maher, Fitzroy, Victoria, whose portrait we are privileged to give below:

"I take pleasure in testifying to the great benefit I derived from Ayer's Sarsaparilla. I suffered from eruptions on my face of a very irritating and vexatious nature. For a considerable time I experimented with various so-called medicines, but without any alleviation of my trouble. At last, your famous Sarsaparilla being strongly recommended to me, I began to use it, and after taking two bottles it was most gratifying to see and feel the effect in allaying the irritation and reducing the eruptions. When I had used three bottles the eruptions disappeared altogether, without leaving a mark on my face, and I have never been troubled with anything of the kind since."

WITH THE FIRST REGIMENT

SEVERAL COMPANIES ARE PUT THROUGH TRAINING.

Engagements for This Evening—B Accepts the Challenge of D—Match Today—Non-Com. Board.

Company A's turnout for special drill Thursday night was light, owing to the engagement of so many men on night duty. Lieut. Rowland was in command. Capt. Smith was present as a spectator.

B's turnout was also very light, only four fours. Lieut. Jacobson instructed the command in marchings, and in an hour dismissed. B will have one more drill before the vacation—next Tuesday evening.

Company C had a fine turnout of forty men and full complement of non-coms. Capt. Camara was in charge. The company was given extended order, loadings and firings for over an hour. C will drill again this evening.

Company H turned out a sixteen-member front and was drilled by Sergt. Ferry. None of the commissioned officers were present except Lieut. Wolter, and he was in citizen's dress. Ferry gave the company an hour's stiff rehearsal in the manual and movements.

At the meeting held Thursday evening Company B's first team decided to accept the sweeping challenge of Company D for a ten-man match shoot at Makiki tomorrow afternoon. Official notification was sent to D this morning and the match will be a go. It turns out that D is hardly in good trim for a match this week, having not calculated for a shoot on such short notice. But several of B's team will be away next week and it seemed necessary to bring the match off tomorrow. The shoot will begin at 1:30 o'clock. Citizen's clothes.

Company H will have drill again this evening. Company G will have regular drill tonight.

Capt. McCarthy insists upon the presence of every member of Company D at the company room at 7:30 sharp this evening. This will be the last drill prior to the competitive meet and perhaps the last before the vacation begins.

Corp. Nott, Company D, has applied for a three-months' furlough. The following persons passed the non-com. board last night with flying colors: Privates Burnette and Mossman of D and Schmeden of H.

Sergt. Elvin reports that the new Kalaauo butts will be ready in ten days. Workmen are engaged today filling up the twenty-four bulk heads with sand. It will take but a short time to build the galleries, once the work is started.

On account of the Regimental benefit the chairs will go back into the drill shed tomorrow morning. Company A's meeting tomorrow night will therefore be held at the old barracks.

Pledged to Suicide. "There are five men in Deadwood who once belonged to the same suicide club," said T. R. Wortham. "They constituted the entire membership and don't often speak of it. A solemn compact was made that they should hold monthly meetings, at each one of which the members drew balls, one being black and its holder being obligated by oath to kill himself before the next meeting, the last one to hold a solitary dinner and destroy himself. The meetings, with the exception of the last one, were held, and in each case the victim disappeared, first settling up all of his affairs and leaving a farewell letter to his associates. No bodies were found, however. One day, on the principal street of Deadwood, a crowd collected, and in it were all five of the supposed suicides. They had all gone west and drifted to Deadwood. The story got out some way, and their lives were made miserable by it for a time, but they have succeeded in quieting it down, and are all doing well."

Mr. C. G. Strong, principal of the public schools at Anderson, Cal., says: "I have used Chamberlain's Pain Balm and have found it an excellent remedy for lameness and slight wounds."

Lameness usually results from a sprain, or other injury, or from rheumatism, for which Chamberlain's Pain Balm is especially intended and unequalled. It affords almost instant relief and in a short time effects a permanent cure. For sale by all druggists and dealers. Benson, Smith & Co., agents for H. I.

AN EXPERT ON SWIMMING.

Some Scientific Instructions in the Art of Natation.

For the person who wishes to become a graceful swimmer according to the latest approved methods there are four arm and four leg motions, which are entirely distinct and are first tried separately and then practiced in combination during each lesson.

Divide your time as follows: Ten minutes for practicing the arm motions, ten for the legs and ten in combination. Do not remain in the water after the half hour is exhausted until able to swim briskly.

To the first arm position the body lies in the water perfectly straight, the legs and feet together, on a parallel line with the arms, which are extended out directly from the shoulders, palms of hands together and head slightly elevated.

Between the first and second motions, or arm strokes, the arms describe a circle until extended straight from the sides; the hands rest flat on the water; legs in the original position throughout the series of arm movements.

For the second arm stroke the arms are thrust down into the water until the hands meet under the body, palms together.

In the third motion the arms are brought to the surface, elbows close to the sides and hands together, pointing straight ahead from under the chin.

The fourth motion is the thrusting of the hands, still together, forward in the water, which straightens the elbows and brings the swimmer back to position No. 1.

Arm position No. 1 is held throughout the first practicing of the leg strokes, and the starting position of the leg movements is the one given in the first rule—namely, legs extended in a straight line with the body, feet close together.

The second leg motion consists in pulling the knees up close to the abdomen, still keeping the knees and feet close together.

In the third stroke the legs describe a half circle out sideways, thrusting back the water and throwing the body forward.

The fourth stroke finishes the circle by bringing the legs together in a line with the spine and then back to the original position.

In the fourth and final action the arms remain motionless, still cutting the water, and the legs are brought together, which renders the entire body in perfect readiness to repeat the motions ad infinitum.—New York Journal.

ALL SORTS OF SPORTS. Maine horse breeders are talking of erecting a monument to the memory of General Knox.

E. J. Byrne, the noted coxswain of the Atalanta Boat club, has resigned as secretary of the Middle States Regatta association.

The international regatta at Halifax, July 28 to 31, will revive professional rowing. The interest is centered in the four oared shell race.

Joe Choyuski, the clever California pugilist, has abandoned the services of Parson Davies as manager and in the future will make his own matches.

Denver Ed Smith is seriously thinking of taking a trip to England. Smith is very anxious to meet Bob Fitzsimmons or Corbett with bare knuckles.

The offer of a \$5,000 purse to Jack McAuliffe for a ten round bout with Boston Jimmy Carroll is convincing proof of McAuliffe as a drawing card.

Dick Burge has positively retired from the ring. He so announced some days ago. Probably England never boasted of a fighter who was better thought of than Burge.

It appears that there must have been something amiss in the camp of Billy Madden and George Dixon, for now Dixon denies that Billy is his manager and that he has any right to make any matches for him.

The Potomac River Rowing association, which is composed of the Anacostia and Potomac Boat clubs and Columbia Athletic club, will hold its annual regatta on the Potomac river at Washington Saturday, Aug. 1.

Vanderbilt's Superstition. The well known millionaire William K. Vanderbilt is a regular attendant at horse races, and though he never wagers more than \$100 on a single race he puts himself to some inconvenience when he lays a bet. His idea of a hoodoo is to talk to any one after the horses have faced the starter at the post. He usually picks a secluded spot in front of the members' stand and watches the race in silence. If the horses and jockeys are not fractious and the start is made in a very short time, it is an easy thing for Mr. Vanderbilt to ward off the hoodoo. But in a race that takes 20 or 30 minutes to start it is quite a difficult matter for him to ward off his enemy. Some one is sure to stroll his way and engage him in conversation. It is contrary to human nature to be on speaking terms with a Vanderbilt and not let him know you are living when you see him. For this reason Mr. Vanderbilt is certain to be overtaken by many gossips. Of course he is never impolite enough to avoid an acquaintance. He takes his medicine in good humor and tries again on the next race.—Exchange.

Intercollegiate Golf. There is a good chance of an intercollegiate golf championship next year. Harvard men are playing on the Cambridge club and Country club (Brookline) links, Yale men on those of the New Haven club, Pennsylvania on the Philadelphia Country club's, Rutgers men on the New Brunswick club's, while Princeton, Amherst, Union and the University of North Carolina have courses of their own. It is reported that a meeting having in view the formation of an intercollegiate association will soon be held.—New York Sun.

Notwithstanding the fact that we are receiving new goods by nearly every steamer and vessel arriving from the States and from England, we do sometimes get out of certain lines of goods that are much needed. We want our inquiring friends to know that we have just received probably the finest assortment of

Dog Collars and Padlocks ever offered here. In one lot we had over SIXTY DOZEN, of all sizes and kinds. We can fit the largest watch dog or the smallest Japanese pug.

Those friends who have asked so many times for Razor Stropps will be glad to know that we have just received a new supply of the celebrated

Reppenhagen Razor Stropps. We have several other kinds, all good. Our assortment of Razors is full, having just received a new lot.

We receive fresh **Ammunition** every month, and can supply all kinds needed. Rifles, Shot Guns and Revolvers always on hand.

That new lot of **Score Books** has just arrived. Also a fresh lot of

Cottage Paints, Enamel Paints, Varnishes, Oils and Brushes of all kinds.

We have sold thousands of feet of

Rubber Garden Hose lately and expect soon another large lot running from 1/2 inch to 12 inches. Also steam hose.

The demand for **Galvanized Water Pipe** is constant and we keep on hand all sizes from 1/2 inch to 2 inches and sell it cheap.

If there is anything in our line that you want, just call for it, if you cannot see it. You will always find us at

Parisian French—Canadian Patois.

How superlatively Parisian a real Frenchman would think the people of Trois-Rivieres who made a public presentation to a neighbor for his galanterie—when his real achievement was not in love-making but in life saving! But the Parisians might find a verse patois in their own country. The difference between their language and that of the long lost Jean Baptiste is one of accent more than of words. The French Canadian speech is thicker, coarser and less finicking than the French. One of the most striking differences occurs in a multitude of words ending in "ais," such as jamaais, avais, which are pronounced jama, ava, and so on, even by educated Canadians who write perfect French. When the ancestors of Jean Baptiste sailed from northern France these words were spelled jamaais, avais, and the pronunciation has not changed with the orthography. In some proper names, such as Beauharnois, even the spelling remains unaltered.

The French Canadian takes liberties with his consonants as well as his vowels, as will appear from a few of M. Manseau's sad examples: A'oir, agreients, bi'n, aulin, (a)lu a'chant and l'chantant (for elle chante and elles or ils chantent), pramehez su' la rue; donne-moe-le; c'est une avarissement que l'ien ten' i' en'oye! But with all this, no one accustomed to the conversation of our French neighbors across the channel need be hindered by an imaginary strangeness of speech from journeying to the inmost parishes of the province of Quebec—a province full of rewards for the seeker after old time ways.—Contemporary Review.

Travels of a Bullet.

R. H. Campbell of the Madras civil corps tells of an incident which came under his official notice as magistrate of Hosan, Madras. A European was hunting black buck on a hillside when he got shot with his Martini-Henry combine. The result of the shot taught him a lesson about the dangers of long range bullets.

In a valley 1,500 yards away, beyond two rather high hills and a little pond, a native was standing with his head bowed and hands clasped behind his back. The bullet broke the wrist of his hand. In the investigation that followed the course of the bullet was traced accurately. In firing at the antelope the bullet had hit a stone on the hillside and gone bounding end over end over the first hill. At the next hill another place where the bullet struck was found. Here the bullet leaped up into the air almost perpendicularly, and when it came down in the ricefield it hit the man's wrist, broke the bone, cut a gash in his body, then dropped to the ground a spent ball. The most dangerous bullet, save the one in a so called isn't-loaded gun, is the one that goes ricocheting through the air.—New York Sun.

Adam Ferguson.

Adam Ferguson, afterward professor of history in the University of Edinburgh and author of a once popular history of the Roman republic, in his youth was chaplain of the Black Watch, and with it was present at Pontenoy. When the regiment was advancing into action, Sir Robert Munro, the colonel, noticed his chaplain at the head of the column with a drawn broadsword in his hand and ordered him to the rear with the doctors.

Ferguson refused, and when the colonel, in the altercation which ensued, threatened to have his commission cancelled, replied, "D—n my commission." Then charging at the head of his flock, he fought like a gallant Scotsman during the bloody fray. We doubt not that the stout Munro forgave his insubordination for the sake of his valorous example, and that the stern old Presbyterians in the ranks would appreciate his subsequent ministrations none the less that they had seen him in time of trial play the man in their midst.—Blackwood's Magazine.

Does the Moon Affect Insomnia?

"The most singular case of insomnia of which I ever heard," said a well known physician, "is that of a friend of mine in a neighboring town, a lady of middle age.

"With the exception of her peculiar insomnia, she is in robust health. She is an uncommonly sound sleeper in the 'dark of the moon,' but as the new moon approaches its first quarter she is attacked with wakefulness. She can sleep only at long intervals during the night, and only a few minutes at a time.

"The sleeplessness increases with the fulling of the moon, and by the time that stage in the moon's course is reached she is unable to obtain even the slightest slumber. She remains in a state of utter wakefulness until the moon begins to wane, when she gradually grows sleepy again.

"When the period of dark moon has arrived, she resumes her unbroken slumber. This condition has prevailed for more than ten years."—Pearson's Weekly.

What It May Come To.

"You don't mean to say, Mrs. Easy, that you are homeless and homeless?"

"Precisely."

"Astounding! How did that come about?"

"Well, I engaged a servant the other day and after she had been domiciled a day or two she asked for my references. I gave them to her and after examining them carefully she pronounced them unsatisfactory and discharged me."—Boston Courier.

Simplicity.

I am convinced, both by faith and experience, that to maintain one's self on this earth is not a hardship, but a pastime, if we will live simply and wisely, as the pursuits of the simpler nations are still the sports of the more artificial.—Thoreau.

A Possible Motive.

"What makes time fly so?"

"If it didn't fly, it would have to be killed."—Detroit News.

HUNTING SEALS.

It Is Dangerous Because of the Position of the Rookeries.

The inaccessibility of the rookeries frequently involves seal hunters in danger, says a writer in the New York Press. The seals are shot from a promontory. Then the hunter is lowered on a rope by his comrades 100 or 200 feet to the slippery wave washed rocks below, where the dead seal lies. He quickly skins the animal. A small boat from the ship rides outside the surf line ready to carry the hides away. A small line is floated ashore to the hunter, who ties the hides to it one by one, and the boat is loaded, the hunter is drawn to the top of the cliff, and another rookery is sought for more game. The surf about these deep sea islands is very high and is one of the obstacles of the seal hunter.

The long stiff hairs from the seal's muzzle are highly prized by Chinamen, and large quantities are exported to China. The Chinese mount these hairs with gold for use as toothpicks and ear-spoons. Other parts of the animals are dried and shipped to China for use by the native doctors, who claim that they effect marvelous cures with the medicine made from those parts.

The sea lions are rather cute in their way. They enjoy a great deal of sea fowl occasionally. When the gulls are flying overhead, a lion will dive and swim some distance under water from the point where he disappeared. He approaches the surface carefully, allowing merely the tip of his black nose to show above the surface. By giving his body a rotary motion this nose tip makes circles on the ocean, and, to the eye of the flying gull, resembles a waterbug at play. With a swish, the deceived gull rushes down from its station above like a ball from a gun. The lion sinks a few inches, and as the gull hits the water with tremendous impetus the jaws close mercilessly on the sea fowl, and it is hauled below the surface and devoured.

PEOPLE WHO BUY ANCESTORS.

In Great Demand by Those Who Have Not Invented Them.

"There is a regular trade done in old portraits of men in armor and women in medieval costumes," said a large picture dealer to the writer. "They are bought by persons who have made their fortunes and want to persuade their friends that they come of an ancient and aristocratic lineage.

"I am frequently called upon to supply these fictitious ancestors, and I find that the portrait of a gentleman in armor—and armor is especially favored, such as was worn about the time of Edward V—will fetch almost any price, no matter how crude it may be, so long as it has the old time tone.

"Only the other week a man whose manner spelled 'fortune from pork sausages' applied to me for a series of ancestors. I had three old portraits on hand at the time and offered them to him, but he did not care about them because there was no armor. Could I not supply this deficiency? I said, 'Yes,' and doubled the price of the pictures, and he drew me a check for £250 with avidity. Now he wants four more to fill four vacant panels in the picture gallery of his ancestral home.

"Many upshot Americans who come over here buy up the ancestors to take home and palm off upon their friends. Indeed the demand for them has become so great that there are four or five portrait painters making comfortable incomes turning out forefathers.

"Of course you know that large quantities of ancient armor are made every year in Sheffield and bought by the same class of people, with the same object as the pictures. It is a fact, and I have known £600 to be paid for a suit of armor which probably cost less than £10 to make."—London Tit-Bits.

Alcohol in Cold Weather.

A scientist thus explains why it is so dangerous to use alcohol in the polar regions: A moderate use of alcohol causes a deposit of fat. Alcohol is not turned into fuel in the muscle and nerve cells, but serves as a pure fuel in the organism and replaces the combustion of fat. Alcohol is, therefore, dangerous in the extreme cold because it assists the throwing off of heat in a great degree. The effect is as if a stove in a room should be heated red hot and then all the doors and windows thrown open. Heat produced by muscular work in the body is best obtained from carbohydrates in the food, but, besides this, the indispensable production of heat is best obtained by fats. This explains the instinctive choice of the food of men. In the tropics they eat little fat and much fruit, while the polar dweller requires immense quantities of fat to keep up the bodily combustion.—New York Ledger.

Golden Nose.

Tycho Brahe, the famous Danish mathematician, was known as the "Wizard of the Golden Nose." While at the university he lost his nose in a duel and replaced it with a nasal organ of gold, held in place by cement and a pair of spectacles. This addition to his countenance gave him a very peculiar appearance and caused him to be much feared by the common people, who attributed to him many supernatural powers, largely on account of his remarkable nose.

Reflective.

"I wish I could have lived in the days when men were brave enough to fight duels for the smiles of women," said the girl with the dreamy eyes.

"But they couldn't set up the ice cream soda in those days, for there wasn't any," said the girl with the tilted nose, and the dreamy girl concluded that perhaps the modern times were best.—Cincinnati Enquirer.

Love is merely a madness, and I tell you deserves as well a dark house and a whip as madmen do, and the reason why they are not so punished and cured is that the lunacy is so ordinary that the whippers are in love too.—Shakespeare.

Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. & B. Paint and Portland Cement.

LANGUID?

Exhilaration, enjoyment and effervescence of spirits are the laughter of the constitution. The liver, which sets the whole mechanism of man at work, at times becomes torpid; it is then that Pabst Malt Extract, the "Best" Tonic, produces that healthful activity which reacts upon the whole system and gives a lifting, strengthening sensation, by seeking the place which needs it most. With its invigorating influence, the "Best" Tonic will give courage for any undertaking, and obstacles will seem but a joyous test of energy.

Try it.

NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

H and G drill tonight.
 Sugar was 3% on the 20th.
 The band boys do not get a day off this week.
 Henry Vierra returned this morning from a trip to Hawaii.
 General Hartwell and Judge Perry returned by the Monowai.
 There were two fine trotting horses on the Monowai for Melbourne.
 The vacation of the band will last two weeks, beginning Monday morning.

Nol pros. has been entered in the liquor case against ex-Capt. Henry Cole.
 Commissioners of Education are holding a business meeting at 2:30 this afternoon.

J. T. Waterhouse's stock of soap embraces every known kind used in the household.
 The new steamer to take the place of the Monowai in the Australian line is the Moana.

The Elsie Adair company will complete their season at the Chinese theater tonight.
 Professor Leaningham will preach morning and evening at Central Union church Sunday.

Gus Roboese has taken charge of the Richelieu and will reopen it to the public on the 1st.
 No refunding news from Mr. Jones. His last letter was from San Francisco before going east.

James Mills, president of the Union Steamship Company of Dunedin, was a through passenger by the Monowai.
 Go to Jacobsen's this afternoon and reserve seats for the great entertainment at the drill shed tomorrow evening.

Professor Theo. Richards and wife were welcomed home by a large number of friends at the Thursday evening.
 Professor H. S. Townsend will lead the meeting at the M. C. A. Sunday evening. Subject "Waiting at the Door."

The band gave a concert to another very large audience at the Hawaiian Hotel last evening. The new pieces took well.
 A bag of papers belonging to Wall, Nichols Co. was accidentally dropped overboard from the Monowai Thursday night.

Two committees have been put out by the Rowing Association to solicit subscriptions for the events of Regatta Day.
 Hawaiian Lodge No. 21, F. & A. M., will hold a special meeting this evening at 7:30 at Masonic Temple. Work in the third degree.

George Woods will positively be in the box at the base ball park tomorrow afternoon for the First Regiment, all bluffs to the contrary.
 A sailor was slashing about with a razor and a dirk in an uptown saloon Thursday evening. He was arrested and charged with being drunk.

The delay of the Gaelic, which will now hardly arrive here before the Australia leaves for the Coast, will be a great disappointment to several who had booked by her.
 Mr. James Benton and wife and Miss Annie Wright of Kohala returned from a short vacation on the Coast by the S. S. Monowai and will return to their Hawaii house.

P. Kolbe, wife and maid passed through on today's steamer. Mrs. Kolbe is Queen Emma of Bismarck Island, about whom so much has been said of late in San Francisco papers.
 The Hoffman House "Boquet" cigar is the latest addition to the cigar department of the Hobron Drug Co. A very neat advertisement is a cigar box made to hold twenty-five cigars, but in the top is set a glass change cup with the Hoffman House swell underneath.

Public Opinion
 Public opinion is the highest commendation, as is attested by the fact that the Pabst beer exceeded by 40 per cent the amount of beer sold by any similar institution in the world. This famous beer is on draught at the Royal, Pacific and Cosmopolitan saloons.

A Good Tonic.
 Some beers lie heavy on the stomach. That is certainly not desirable. Avoid such beers.
 By using Seattle beer you are sure of a mild, light beer, one that is easy to digest and nutritious.
 For sale in bottles or on draught at the Criterion saloon.

A Wheel Economical
 You can save valuable time by riding a wheel. To rent by the hour, day, or week. HAWAIIAN CYCLERY, Way Block, King street.

BAD CHINESE.

Strike and Riot of New Field Hands in Hamakua.

The steamer Iwatin brings the report of a big strike in Hamakua some time this week. The Chinese laborers, composed of nearly all new men from the latest shipment, chased three hoolah luns off the field with cane knives. The police came to the rescue and the gang was placed under arrest. Two of the ringleaders were found guilty on trial next day and sentenced to three months' imprisonment at hard labor. The rest of the gang consented to return to work.

REARANG TEACHERS.

Mrs. J. N. Ben, Mrs. Florence Patton, Miss Lottie Alexander, Miss Eliza Atkins, Miss Annie Wright, Mrs. Hussey, pedagogues, returned by the steamer Kinan this morning to Kohala-by-the-sea.

SHIPPING LABORERS.

Twenty-five Japanese men and three women were shipped to the Waialua plantation by the steamer Kinan from Quarantine Island this morning. Twenty-eight Chinamen have gone under contract to a Chinese merchant.

THE FIRE.

The fire at 2 p. m. was the barn of J. Lyle, Spencer street, Makiki. It was a total loss. The origin of the blaze is a mystery.

THE MAN DOUGLAS.

Both Consul Wilder and Fred Wundenberg are mistaken as to the man Douglas, whom they denounce as a fraud and liar. They say he was never in Hawaiian shipping. Fred Leslie said at noon today that Douglas came to Hawaii in 1877 with the Royal Steamer Likelike, which S. G. Wilder had purchased for the Hawaiian government. He remained here some time and was a reputable fellow.

BRECKENRIDGE.

N. B. Breckenridge, the school teacher and swindler, is still at it. Peter High received a letter this morning from a friend at Algonac, Mich., asking for information concerning the young man. The friend states that Breckenridge is posing in that town as the Attorney General of Hawaii and is cutting quite a swell.

DIED.

BREHAM—On the 13th of July, at Homburg vor der Hoche, Germany. Mrs. N. Breham, aged 32 years.

ATLANTIC RECORD.

NEW YORK, Aug. 14.—The St. Paul, from Southampton, crossed the Sanoy Hook bar at 9:15 this morning. The St. Paul left Southampton on Saturday at 1:35 p. m. and made the trip in six days and 21 minutes, beating the new record made last week by her sister ship, the St. Louis, of 6 days 2 hours and 24 minutes.

DISEASE PANIC.

HAVANA, Aug. 15.—The rapid spread of yellow fever and smallpox is causing a veritable panic in army ranks, and unacclimated officials are endeavoring to get away to Spain for a brief period in order to avoid possible fatal consequences of remaining here during the next six weeks.

STEAMER LOST.

MONTEREY, Aug. 9.—The Pacific Coast Steamship Company's steamer St. Paul went ashore at pyramid point or Point Joe, six miles from Monterey at 11:15 last night, striking head on, at full speed. Vessel lost. All lives saved.

DEATH IN FLYING.

BERLIN, Aug. 11.—Professor Otto Lienthal, a well known inventor of this city, died today from the effects of a fall from his flying machine.

CHICAGO HEAT.

CHICAGO, Aug. 11.—The deadly effects of the high temperature continue and thirty fatal cases of sunstroke were reported at midnight, with the list still incomplete. About fifty cases of prostration, more or less serious, have also occurred. The carcasses of prostrated horses block traffic.

NEW YORK HEAT.

NEW YORK, Aug. 11.—The record for the metropolitan district shows 182 deaths and 500 prostrations. Ninety-one were killed in this city alone and 350 prostrated. In Brooklyn there were twenty deaths, and on the other bank of the North river seventy-one deaths.

Take Warning

Any lady who neglects to buy some of the printed lavas now offering at Kerr's at the ridiculously low price of 12 and 10 yards for \$1.00 deserves never to have another bargain offered to her. These goods are exceptional, and were cheap at the original price of 15 cents.

YALE PROFESSOR.

NEW HAVEN, Conn., Aug. 12.—Professor Hubert Anson Swinton, head of the mathematical department of Yale, died tonight, aged 66 years.

HILBORN WILL WIN.

OAKLAND, Aug. 15.—Congressman Hilborn swept Alameda county in the primaries today and his renomination is assured, since he has pledged to him more votes for the Val...o convention than are necessary to bring about that result.

MILLIAS DEAD.

LONDON, Aug. 15.—The popular heart has been deeply touched by Sir John Millais' sufferings and death. The man himself in some way come closer to the sympathies of his fellow-men, just as his pictures were closer to the heart.

REVOLUTION IN POLAND.

BERLIN—A dispatch to the Kolnische Zeitung from Warsaw says that several arrests have been made there of persons who were found to be connected with the impending Polish revolutionary movement. The movement is of a serious character.

Three California lemons, "plenty" sugar, "plenty" ice. A good bottle of lemonade for lunch, 15c, at French Boss.

Summer Corsets and Serges.
 Try our summer corsets. Only 75 cents a pair. Special bargain in serge, all wool, double width, only 75 cents a yard at N. S. Sachs.
