LAHAINA NOTES.

Honolulu has not a monopoly of the interest in base ball, as recent events in Lahaina give evidence. Games between the Lahainalunas and Lahainaloes are of almost weekly occurrence, while the junior nines fill in the odd times. All games are well attended, and the contests are spirited. The Lahainalunas seem to be taking the lead at present. In quality the playing is probably not above that witnessed by Honolulu audiences at Makiki.

Last Wednesday evening there was a pleasant social and musical gathering at the residence of the Hon. W. Y. Horner. A few set pieces and a number of impromptu choruses helped to make a very pleasant evening.

Abundant rains in the mountains have rejoiced the hearts of all those dependent upon irrigation, and that includes almost the whole population.

The Pioneer Mill Company is laying a railroad track from the Pioneer Mill down Main street to Fort street; thence along Front to Fort; and thence down Fort to the old wharf. Charge it to McKinley Bill.

Mr. B. F. Simcoe, recently from Los Angeles, is one of the new teachers at Lahainatuna Seminary. His successful experience in California and elsewhere gives assurance that he is a valuable acquisition to the teaching force of that institution. By the way, the Board of Education has recently sent up a printing outfit for Lahainatuna Seminary which will undoubtedly add greatly to the usefulness and popularity of the school. Lahaina, Oct. 22.

MOLOKAI LETTER.

During the past two weeks we have been enjoying occasional rains. Last night a thunder storm kindly gave our dried-up island a good soaking.

A short time ago Mr. Charles L. Hopkins, ex-Marshall, bought the fishing rights held by Mr. Bishop on this side of the island. The natives claimed that the boundaries of same did not include the Kaunakakai waters, and continued fishing for the Honolulu market. About twenty natives were arrested at this place last Thursday as the result. The case is being heard at the Pakoio Court. Hon. W. White, agent for Mr. Hopkins, appears as plaintiff, also as counsel, and Mr. Nakaleka as counsel for defendants.

The steamer Mokoli makes excellent time since being scraped. They claim you have to hold on to something to keep her from running from under you. Kaunakakai, Oct. 24, 1891.

AN ACT

TO AMEND ARTICLES 48, 56, 59, 62 AND 63 OF THE CONSTITUTION AND TO ADD A NEW ARTICLE TO THE CONSTITUTION TO BE CALLED ARTICLE 83.

Be it enacted by the King and the Legislature of the Hawaiian Kingdom:

SECTION 1. Article 48 of the Constitution is hereby amended so that said Article shall read as follows:

"Article 48. Every Bill which shall have passed the Legislature shall, before it becomes law, be presented to the King. If he approve he shall sign it and it shall thereby become a law, but, if not, he shall return it, with his objections, to the Legislature, which shall enter the objections at large on their Journal and proceed to reconsider it. If after such reconsideration it shall be approved by a two-thirds vote of all the elective members of the Legislature, it shall be returned to the King for signature, but if such signature shall again be refused, then it shall become a law. In all such cases the votes shall be determined by yeas and nays, and the names of the persons voting for and against the Bill shall be entered on the Journal of the Legislature. If any Bill shall not be returned by the King within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Legislature by their adjournment prevent its return, in which case it shall not be a law."

SECTION 2. Article 56 of the Constitution is hereby amended so that said Article shall read as follows: "Article 56. A Noble shall be a male subject of the Kingdom, who shall have attained the age of twenty-five years and resided in the Kingdom three years, and shall be the owner of taxable property in this Kingdom of the value of three thousand dollars over and above all encumbrances, or in receipt of an income of not less than six hundred dollars per annum."

Every male subject of the Hawaiian Islands, of Hawaiian, American, or European birth or descent, who shall have attained the age of twenty years, and shall have paid his taxes, and shall have caused his name to be entered on the list of voters for Nobles for his District, shall be an elector of Nobles, and shall be entitled to vote at each election of Nobles, provided:"

And also that the clause numbered second of said Article 59 shall be amended to read as follows:

"Second. That he shall own and be possessed in his own right of taxable property in this country of the value of not less than one thousand dollars over and above all encumbrances or shall have actually received an income of not less than six hundred dollars during the year next preceding the registration for each general election."

SECTION 4. Article 63 of the Constitution is hereby amended so that said Article shall read as follows: "Article 63. No person shall sit as a Noble or Representative in the Legislature unless elected under, and in conformity with, the provisions of this Constitution."

SECTION 5. Article 62 of the Constitution is hereby amended so that said Article shall read as follows: "Article 62. Every male subject of the Kingdom, of Hawaiian, American, or European birth or descent, who shall have taken an oath to support the Constitution and laws in the manner provided for electors of Nobles; who shall have paid his taxes, who shall have attained the age of twenty years, and shall have been domiciled in the Kingdom for one year immediately preceding the election; and shall know how to read and write either the Hawaiian, English, or some European language, shall not apply to persons residing in this Kingdom at the time of the promulgation of this Constitution, if they shall register and vote at the first election which shall be held under this Constitution."

SECTION 6. A new article in addition to, and in amendment of the Constitution to be called Article 83 is

herby added to said Constitution to read as follows:

"Article 83. The Legislature may from time to time enact such laws as it may deem proper for the supervision and control and identification of all persons or any one class or nationality who may be introduced into the Kingdom for the purpose of performing agricultural labor, and may also, by law, restrict and limit the term of residence in the Kingdom of such agricultural laborers and the business or employment in which they may engage."

I hereby certify that the foregoing Bill passed its Third Reading in the Legislature of the Hawaiian Kingdom on the 10th day of November, A. D. 1890.

PLANTERS IN COUNCIL.

Opening of the Annual Meeting of the Planters' Labor and Supply Company.

The annual meeting of the Planters' Labor and Supply Company convened in the room of the Chamber of Commerce at 10 o'clock this morning. Mr. John Young, President, was in the chair. Others present were Mr. W. O. Smith, Secretary, Messrs. H. P. Baldwin, H. F. Glade, T. R. Walker, W. R. Castle, John M. Horner, S. E. Bishop, Jona. Austin, G. N. Wilcox, H. M. Whitney, F. A. Schaefer, Jos. Marsden, E. D. Tenney, C. S. Kynnersley, J. N. S. Williams, H. Laws, W. J. Lowrie, H. W. Severance, J. N. Wright and the Japanese Consul.

After the passing of last year's minutes as published in the Planters' Monthly, the Secretary read his annual report. It reported one special meeting of members and 27 meetings of the trustees the past year. During no year since the organization of the company had the trustees met so often, nor had they ever had to consider questions of greater importance to the planting interests of the country. The abolition of the sugar tariff by the United States had made the necessity of producing sugar at a less cost than in the past imperative.

Among the first considerations for reducing cost of production was that of labor. They had given earnest attention to the subject of Japanese immigration. Information was received from Japan that new conditions were proposed and that in future the \$65 passage money charged for each immigrant would have to be paid by the employer and not borne by the servants as formerly. Mr. Paul Neumann was engaged to go to Yokohama to negotiate better terms, and went in company with Mr. G. O. Nacayama. The agent returned with a concession obtained—a reduction of \$20 in the passage money to be paid by the employer. The immigration was resumed and 5793 Japanese arrived this year.

The report then details the circumstances of M. Marsden's mission to Java and India in quest of labor. The agent's report had been published in pamphlet form and was presented with the secretary's report. "Mr. Marsden performed his errand well, and has obtained information of much value." As to Chinese immigration the trustees had not entered into any engagement or undertaking under the recent Act of the Hawaiian Legislature. "The efforts of Messrs. L. Asea and J. E. Brown for private parties has been followed with interest. The difficulties and misunderstandings that have arisen out of this enterprise are greatly to be regretted. Could Chinese be brought here under proper restrictions and regulations the result would be beneficial to this country and to the Chinese."

The employment of special Japanese constables to detect runaway laborers was discontinued in June last. It appeared to be of little value and some of the officers were charged with inciting the laborers to leave their employment. Complaints of desertion had been very few until within the past two or three months. In June a circular had been issued requesting planters not to employ Japanese seeking work as day laborers unless they produced either cancelled contracts or honorable discharges.

A system of collecting labor statistics monthly from plantations had been begun, but all the planters had not responded to the call. The trustees had the matter of the reciprocity treaty, in connection with changed conditions, under consideration. In reporting the appointment of Messrs. W. O. Smith, F. M. Swanzy and J. F. Hackfeld, to confer with the committee of the Chamber of Commerce on the World's Fair, the Secretary says: "It is to be hoped that a hearty effort will be made and proper steps taken, to have a creditable representation at this great fair. The benefits that may be derived may be very great."

The question of reducing or removing the duty on rice, in order to reduce the cost of sugar production, was submitted in the report, saying, "If this duty could be partially or wholly removed without injuring the rice industry of the islands, it would lessen the cost of living to laborers." The report closes with a strong argument of the value of thorough statistics of sugar production.

ELECTION OF TRUSTEES. The election of trustees for the ensuing year by ballot resulted as follows:

F. M. Swanzy, W. O. Smith, W. G. Irwin, J. B. Atherton, F. A. Schaefer, H. P. Baldwin, H. F. Glade, A. Young, J. O. Carter.

THE LABOR QUESTION.

Pending a meeting of trustees for the election of officers, according to practice, reports of committees were called for.

Mr. Baldwin said he had no report from the labor committee, as he had been absent in the States and only returned Saturday. They had the Secretary's and Mr. Marsden's reports, however, before them as a basis of discussion. While away he met Mr. Oxenard, one of the directors of the Western Sugar Refinery, whom he asked for information regarding the cost of sugar production in Cuba. Mr. Oxenard's brother and others had just investigated that matter for themselves, and the reply was that all profitable plantations put sugar on board ship for \$10 a ton. This was what the Hawaiian Planters would have to come down to. Mr. Baldwin doubted whether any plantations on the islands do that now. They could not reduce the price of machinery nor that of supplies. Labor was the only matter in which they could reduce the cost of production. The item of labor amounted to about 66 percent of the expense of running a plantation. They would have to figure down the price of labor 8 or 10 percent to keep a going. They must have labor at from \$10 to \$12 a month. There was little prospect of any better price. If the United States make a treaty with Germany as proposed, it will complete the circle of treaties with all raw sugar countries. While the state of affairs here was blue, he did not feel discouraged. Under the constitutional amendment passed last session, requiring to be carried again next, they could have laws regulating Chinese immigrants so as to confine them to agricultural pursuits. It would take a year and a half, owing to red tape business, to get laborers from India. One other recourse was to get more Japanese, whose price was too high, however—it should not be more than \$15.

Mr. Austin asked what was the price of labor in Cuba. On Mr. Baldwin replying he did not enquire, Mr. Austin said he had heard it was \$17.50, but the dollar there might not be the same as here. Later a member brought in the information that the pesos of Cuba was 92 cents and a fraction of American money. Mr. Walker suggested the consideration of Mr. Marsden's report. Mr. Tenney quoted Mr. Oscar Stillman, who was here last year, as authority for wages in Cuba being \$15 to \$17. The soil in that country was very favorable, however, the cane being capable of almost indefinite ratooning.

Mr. Glade asked if Mr. Marsden had not considered the Japanese labor the most suitable he had investigated. Mr. Marsden replied it was about equal to the Japanese. Mr. Baldwin again expressed hopes of getting Chinese when laws could be passed for their regulation. Mr. Marsden emphatically urged the necessity of such regulations to prevent the Chinese from overwhelming the country. That is what they had done in all countries visited by him where they were admitted without restrictions.

The Secretary asked about wages in Java, to which Mr. Marsden replied 8 cents a day and food themselves. In Jamaica the rate was a shilling a day. Recess was taken at 11:50 to 2:15 o'clock.

UNNECESSARY SUFFERING.

There is little doubt but that many persons suffer for years with ailments that could easily be cured by the use of some simple remedy. The following incident is an illustration of this fact: My wife was troubled with a pain in her side the greater part of the time for three years, until cured by Chamberlain's Pain Balm. It has, I think, permanently cured her. We also have used Chamberlain's Cough Remedy whenever needed and believe it to be the best in the world. P. M. Boston, Pennville, Sullivan Co., Missouri. AMERICAN LETTER.

An Atlantic Cable Expert on the Hawaiian Cable

Prof. Wiley Talks With a Hawaiian Sugar Man.

Earthquakes in California—The San Francisco Post Office Site—Other Items of Interest.

SAN FRANCISCO, Oct. 17. THE HAWAIIAN CABLE

Baron de Baam, one of the best known and most progressive of French noblemen of wealth, is a guest at the Palace Hotel. He was associated for years with Cyrus W. Field, and together they gazed at the clouds of trouble and disappointment that seemed to have not a vestige of the silver lining that their poets sang about.

The Baron is now enthusiastic over the idea of laying the Hawaiian cable. He says that the principal elements to be considered in cable-laying are weight and strength. Under ordinary conditions the question of diameter included both of these, and, consequently, in considering whether it was possible to lay a certain stretch of cable, it was first necessary to decide how thick it would have to be to hold together.

There would be no trouble in laying a cable to the Hawaiian Islands, and from that group to some other, and so on across. Such short stretches would permit the use of a cable of small diameter and weight, which could be purchased for a reasonable price. A project is now on foot to cross the Atlantic in a similar way, going to the Azores and then to the Bermudas before touching the United States.

"German Syrup"

We have selected two or three lines from letters freshly received from parents who have given German Syrup to their children in the emergencies of Croup. You will credit these, because they come from good, substantial people, happy in finding what so many families lack—a medicine containing no evil drug, which mother can administer with confidence to the little ones in their most critical hours, safe and sure that it will carry them through.

Ed. L. WILLIAMS, of Mrs. Jas. W. Kirk, Ains, Neb. I give it Daughters' Colic, to my children when Harrodsburg, Ky. I troubled with Croup have depended upon and never saw any it in attacks of Croup preparation at like with my little daughter. It is simply marvelous, and find it an invaluable remedy.

Fully one-half of our customers are mothers who use Roschke's German Syrup among their children. A medicine to be successful with the little folks must be a treatment for the sudden and terrible foes of childhood, whooping cough, croup, diphtheria and the dangerous inflammations of delicate throats and lungs.

THE LABOR QUESTION.

EDITOR BULLETIN:
An article in the American Agriculturist for July, on "Cane Sugar Prospects in Louisiana," contains among other things the following, which is of interest in view of the meeting of the Planters' Labor and Supply Company. It says:

"It is becoming a recognized fact that small farmers and good tenants till more land and can produce better yields of cane and corn than when the crops are cultivated by gang labor on large plantations. An instance is cited where three men and four mules cultivated 100 acres of land and produced 930 tons of cane, 935 bushels of corn, 250 bushels of sweet potatoes and 80 barrels of rice paddy."

What a changed condition socially and financially would ours be in these islands to-day had our planters inaugurated a similar course to the above a few years ago.

Writing on the labor question the editor of the Advertiser in last Saturday's issue says: "It is useless to deny that the situation is a very critical one. It may be pleasant to cover up a threatening danger with fine words and deceive ourselves with baseless hopes, but it is terribly foolish, and the part of courage and prudence both is to see things and state things just as they are," and then asks, "What are the facts?"

From a workman's stand point the facts are as follows: During the past three years thousands of Japanese have been allowed to come into the country as plantation laborers. They are not only used as such but have largely displaced whites and Hawaiians in the mechanical work incidental to running plantations, and when contracts are out these men will come into the towns and hamlets of this Kingdom to compete with the wage-earners and business men of the community. In fact I am reliably informed that there are already between 500 and 600 Japs in Honolulu to-day. This means at least 1000 idlers throughout the group with the thousands whose contracts have not yet expired to rapidly augment their ranks. Is it right or just to allow such peril to the community at large for the sake of a single industry? I say no.

For the past eight years the planters have been coming forward with pleas for cheaper labor. Concessions were made in the friendliest spirit by the working classes of the country and they simply asked for protection from the unequal competition which unrestricted coolie immigration might subject them to.

In the face of a decided vote by the people in favor of such restrictions, they were declared unconstitutional by our Supreme Court, and now with a large number of Japanese under contract no adequate protection is vouchsafed us, but regardless of consequences these are to be supplemented by still cheaper labor. Mr. Editor, this is as good a time as any to call a halt and weigh the consequences of further importations of this cheap labor.

There has been a constant drain of our surplus wealth through this cheap labor propensity. On the one hand the laborer himself has sent all his net earnings away, while on the other hand many planters and shareholders have made large investments in other countries. On the small farm plan every dollar of this money would be in the country to-day, the burden of hard times would be more equally distributed among those who should share it, and the consequences not near so disastrous as we can expect them to be under present conditions.

Free sugar is not the cause of our business depression. It has simply hastened a condition toward which we were inevitably drifting, and possibly saved us from total bankruptcy.

I would rather see this dull spell protracted until we can pull through with civilized appliances and civilized men to use them than to risk any further importation of Asiatics of any kind, and firmly believe, as shown in the article first quoted above, that intelligent cultivation by men stimulated to best efforts through sharing proceeds will bring the mill owner ample returns for his investment, while it would add immensely to the stability of our whole social fabric by bringing a desirable class of farmers and planters into the community.

Having all that is worth living for at stake in these islands and wishing to see insured to the rising generation an opportunity for using the talents they are developing under our school system, I consider it my duty to voice my sentiments.

God speed the day for closing our ports to Asiatic immigration.
