AN AMERICAN COUNTESS

OLGA, OF RUSSIA, A VISITOR TO HONOLULU.

Bears Her Plebeian Husband's Name—Persecuted Woman—Part of Her History.

Countess Olga, the beautiful Russian woman who, some years ago, on account of her trouble, excited the sympathy of the whole civilized world, is in Honolulu.

She is at a prominent hotel, where she is living quietly and receiving only a few friends. As is well known she is now the wife of an American newspaper man, and has borne only his name since her marriage about ten years ago.

The Countess is a beautiful woman, and has the bearing of a princess. She has a most pleasant face, save for a sad, hollow smile which perhaps reflects the troubles of the past. It is said that she frets a great deal when alone. Withal she is devoted to her husband and child and loves her new home in the States.

The lady is visiting Honolulu partly for health, and partly for sight-seeing. She has never been here before. Since her arrival, however, she has been quite indisposed and has, as yet, seen very little of the city.

There are those in Honolulu who remember the sad history of the countess. She was young, beautiful, prominent and beloved at St. Petersburg. Her life was cast with the court, both by blood and by political preference. There she came to wield an influence that was felt up to the crown.

The story of a suitor for her has a parallel in a well-known play staged here several times. She refused the proposals of the official. He had great power and turned bitterly upon her. She was accused of conniving with the nihilists and furnishing them money. Siberia stared her in the face.

It was at this nick of time that she was rescued and spirited across the border into Germany. There she had friends of influence and they succeeded in getting her through to England. In London she was joined by her parents and the trio came to America. All the way she was tracked and watched constantly by Russian spies. Her refuge was finally a middle western city. There she lived with her parents in retirement. It was there, too, that she met and married her husband.

The Countess was not aware of the fact that she had friends here. A few days ago she met an old acquaintance and heard of others. They will do all possible to make her stay pleasant.

STOCK EXCHANGE.

Considerable stock was reported as having changed hands on between board sales. These sales were: Five shares Wilder Steamship at 115, 150 shares of Oahu Railroad stock at 77 1/2, 30 of Oahu Sugar paid up at 147 1/2, 10 of Oahu assessable at 70, 10 of Ewa at 247 1/2, 30 of Ookala at 100.

Bids were: Hawaiian Sugar 155, Ookala 95, Government's 100, Oahu Railway bonds 100.

Asking prices were: Ewa 250, Hawaiian Sugar 165, Honokaa 175, Kipahulu 110, Oahu assessable 67 1/2, Oahu paid up 147 1/2, Olowalu 122 1/2, Pacific Sugar 235, Pioneer 300, Wailuku 285, Waimanalo 170, Waiman 123 1/2, Wilder Steamship 115, Inter-Island 145, Hawaiian Electric 198, Government's 100 1/2, Ookala 102 1/4.

A PLACE FOR BICYCLES.

Collector General McStocker has provided a room with racks for bicycles just to the left of the entrance to the custom house. The number of bicycles used by custom house employees and by persons having business at the custom house is so great that before the present arrangement they used to be piled up in the entrance way to the great danger of soiling the gowns of ladies trying to wend their way through the mass of muddy wheels. And when the curb in front of the building was used carriages could not drive up.

MORE WHARFAGE NEEDED

CHAMBER OF COMMERCE CALLED TO ACT.

Special Meeting Will be Held Tomorrow to Consider the Question—The Need has Become Imperative.

A meeting of the Chamber of Commerce has been called for tomorrow to take into consideration the question of wharf facilities, and how best to present the urgent need of increased wharf room to secure what is needed.

The increased traffic of the Islands in itself requires an increase of wharf facilities. Ever since the transports began to arrive, and the numerous cargoes of coal for the United States government there has been a jam at the wharves amounting sometimes to a blockade. Coal vessels have been obliged to lie in the stream for days at a time. And even Island steamers have in some cases been obliged to wait two days for a berth.

But the increased shipping due to the war has not been the only factor. With the development of the sugar industry and particularly with the increase of pumping works on the plantations, the use of coal has largely increased, requiring more shipping and more wharf room.

With the beginning of the sugar shipping season attention is called acutely to the subject. Without increased facilities it is said serious loss will be inflicted on the business interests of the community. The companies operating Island steamers are already, it is said, feeling the cramped facilities that exist.

The United States has taken that part of the water front beyond the Pacific Mail wharf, so that additional facilities will have to be made in other directions.

One difficulty that confronts any attempted solution is the uncertainty as to what sovereignty the title to the water front will be vested in. If the United States takes it, improvements will have to wait congressional action. It may be, however, and the opinion seems to be widely entertained, that the title will be vested in the Territory of Hawaii. In that case the local government can proceed with plans that can be gotten ready as soon as the question of title is settled.

The Chamber of Commerce will probably put into concrete and tangible form the pressing needs of increased wharf room together with suggestions as to the physical plans that will best meet the needs, in order to have the subject brought up promptly before whatever sovereignty shall have the duty of supplying the need.

FORMALLY INSTALLED.

Central Union Church Receives Its New Pastor.

At 7:30 last evening, Rev. William Kincaid was formally installed and received as pastor of Central Union church. Rev. J. A. Curzon of Hilo preached the sermon. The installation prayer was offered by Rev. O. P. Emerson. Revs. O. H. Gulick, C. M. Hyde, G. L. Pearson, S. E. Bishop and H. H. Parker took part in the service. Mr. Kincaid pronounced the benediction.

There was a good representation of the membership of the congregation at the meeting. The services were quite impressive. After the installation ceremonies the congregation was given a chance to shake hands with the new pastor.

WARRIORS OF THE SPIRIT TO BE ORDAINED DEACONS

RUSSIAN SECT PROPOSED AS LABORERS.

Canada Takes Five Thousand of Them and Distributes Them Among Her Many Fruitful Farms.

Commissioner Marsden proposed in a letter to the Planters' Association that laborers on the plantations might be found in Russia from what was called the "Quakers," though that is not really their name, the proper sobriquet being the Dukhobortsia sect, which means "Warriors of the Spirit."

The Canadian government according to a recent number of the London Times, is taking 5,000 of this sect and distributing them among the farms of Canada, where they will meet with a climate as vigorous as their own. So if the Planters desire to obtain this labor they should be up and doing. The 5,000 "warriors of the spirit" who go to Canada will arrive there either in January or February.

There is no reason why Russian peasants should not do well on our plantations. Though exposed to great extremes of cold, they are also exposed to tremendous extremes of heat. Working in the wheat fields on the immense flats of Eastern Russia in midsummer and at reaping time is far greater labor than any of our plantations involve. The heat of the tropics in Hawaii is as nothing to the still heat of Eastern Russia, where the sun blazes with such fierceness that the crop is sown and garnered within the space of some four months.

These "warriors of the spirit" are one of the many mystic sects of the Slavic race. They are sober, earnest, chaste and devoted to their particular form of religion. It is a curious thing that the Russian mind runs to mysticism and the number of sects that have arisen in spite of the determination of the main government that all of "Holy Russia" should be orthodox. By its action in persecuting such sects the Russian government drives some of its best citizens out of the country.

If Mr. Marsden's proposal is listened to favorably a very valuable and earnest addition to our population will be made.

KILOHANA ART LEAGUE.

Will Occupy Progress Hall After January 1st.

After January 1st the Kilohana Art League will, for some weeks at least, hold its meetings in Progress hall. The present rooms over the Fort and Hotel streets corner must be evacuated at the end of the year. It is the intention of the League to occupy ultimately rooms in the new Cartwright block near Progress hall. Mr. Hitchcock will probably have his studio at his home.

The financial condition of the Art League was never better than at present, but the way is not yet clear for it to build a home of its own. It has long been the idea and hope of the organization that the Library Association would enlarge its building at Hotel and Alakoa streets in order that the second floor could be occupied. This scheme exploded, however, when, at the last annual meeting the association decided not to build.

JANUARY 1ST THE DAY.

The Ordination Services Will Be Held Next Saturday Morning at the Roman Catholic Church.

There will be a service of unusual interest at the Catholic Cathedral next Saturday morning. Three young men are to be ordained deacons.

Two of the young men, Brothers Aloysius and Julien, came from Paris with Father Mathias a few weeks ago on his return from the general convention of the Order of the Sacred Hearts of Jesus and Mary. The third one, Brother Adalbert, came here some time before.

It is not intended that the ordination service shall be elaborate. The Bishop will say low mass and there will be the ordination prayers and the investment of those taking orders, and the other ceremonial of such service. The newly made deacons will remain at the Mission for some time pursuing their studies preparatory to ordination as priests. Following that they will be sent to the work of the Mission on some of the other Islands.

There will be a meeting of the board for the examination of non-coms, at 7:30 Thursday evening.

STRICTER EXAMINATIONS.

The Interior Department has determined that in future there shall be a strict inspection of all live stock arriving here from the states. Tests will be made of every animal as a precautionary measure against tuberculosis. Incidentally a sharp lookout will also be kept for anthrax, the new disease among cattle, said to have made its appearance in California. Notices have issued to stock men of the intention of the department in the matter of enforcing strict examinations.

SOME STOPPED OVER.

Ogden, Miss Clark, Mrs. Haskell and son, Mrs. Bennett, Mr. and Mrs. Kempe and C. L. Stewart.

DESERTED CALM RESTS OVER THE COLUMBIA.

The Tempest Tossed and Struggled for Vessel Now Manned by a Prize Crew of Two Policemen.

The City of Columbia lies idly at the wharf, deserted except by two policemen, who constitute the prize crew, now that the vessel is in the hand of the law and the custody of the marshal. There is no boss to pipe all hands to grog; no captain to tread the quarterdeck.

The crew are scattered about town. One was left sick in Hilo. Another of them shipped this morning on the Kilauea, and a third got a job ashore. The vessel will be the sleeping place of the men pending the court proceedings. But for meals, the men can get them where they choose, the consul general holding whatever judgment is collected from the ship to pay such bills first.

The engineers force will set the pumps going twice a day to pump out whatever water the vessel makes in the meantime.

All the officers and the crew except Captain Milnor joined in a libel against the vessel, as advised by Consul General Hayward. The preparation of the papers in the case was not concluded until late last night. They were filed at once and an order of attachment was issued which the marshal served at once.

STEAM VALVE EXPLODES.

Electric Light Workmen Have a Narrow Escape.

A globe steam valve, six inches in diameter, burst at the electric light works about 10 o'clock this morning, and several men working in the neighborhood feel that they had a narrow escape.

When the explosion occurred the shop was filled with smoke. Superintendent Hoffman's first order was to see that no one was hurt. This was done. All the men had escaped injury. The steam was then shut off from the boiler. Examination revealed the fact that the valve had cracked from top to bottom. It is supposed that it had a defect in it which could not be detected by the naked eye.

The valve is made of iron. Had it shattered, which it might have done, the effect would have been similar to the explosion of a field shell, and someone must surely have been killed or severely injured.

Power was off in town for half an hour on account of the accident. Another valve was inserted in place of the burst one.

CARPENTER AND COOK.

L. E. Williams, carpenter of the St. Francis, has caused the arrest of Charles Tonsell, cook of the same vessel, on the charge of assault and battery. The men had a fracas on their ship and the former got a very bad eye. On motion of the defendant the case was set for hearing tomorrow morning in the police court.

MERRIAM ON TYPHOID.
Says the Soldiers Did Not Introduce the Disease.

In an interview with General Merriam published in San Francisco, he is reported to have said:
"The statement printed in Honolulu papers and elsewhere that typhoid fever was introduced into the Islands by the United States army should be denied. Under instructions the army surgeons there have looked into this charge, and have gathered data which controvert it effectually. From the health reports of Honolulu which they have examined it is shown that typhoid has existed in the Islands for many years, and deaths from it among the Hawaiians are on record. It is not denied that germs of the disease were brought by the soldiers, and have added to the amount of the sickness there. Nevertheless, local conditions would undoubtedly have been productive of typhoid fever had none of it been conveyed into the camps by the soldiers themselves. The carelessness of the soldiers has done much for the spread of typhoid fever. They are to blame in many cases for neglecting the ordinary health precautions."

WHAT DID IT.
"I have been subject to neuralgia for a number of years. It affected not only my head and face, but my stomach and back. After taking Hood's Sarsaparilla a short time I was relieved. I have now taken six or eight bottles, and seldom feel any symptom of neuralgia." M. H. MINCHER, Elsinore, California.

DIRECTORS OF Y. M. C. A.

DISPOSED OF LOT OF BUSINESS LAST EVENING.

Reception on New Year's Day—Concert in the Evening—Secretary's Report.

At a meeting of the directors of the Y. M. C. A. held last evening, H. E. Coleman, general secretary, submitted the following report of the work of the month:

Young Men's Christian Association, Honolulu, H. I., Dec. 1, 1898.

Report of the General Secretary for November, 1898:
Sixteen new applications for membership have been filled out and the receipts for the same were \$144.50, being a small increase over the receipts from the same source for this month last year.

In accordance with the plan of the International Association, November 12th to 15th was observed as a week of prayer, with special services, as shown by the report of the Devotional Committee. The collection for the international committee amounted to twenty dollars.

With the breaking up of the camp of the New York regiment the work of that department was ended. The tent has been brought to the Association building and stored. The building is yet at the site of old Camp McKinley, with the chairs, benches, tables, etc. This will probably need to be removed very soon.

It was decided to hold the usual reception to young men on New Year's day. President Weedon was empowered to appoint committees for the purpose. A concert will be given on the evening of the same day. Wray Taylor will be given charge of the program.

There was considerable discussion on the disposition of property at Camp McKinley belonging to the association. In its present location there is hardly a use for the house erected some months ago for the benefit of the New York regiment. In view of the fact that the camp may again be occupied by troops it was decided to arrange to have the house remain where it is for the present.

The treasurer reported that receipts from various sources for the month had been \$743.80. Expenditures had been \$742.34, leaving a balance on hand of \$1.46. Annual taxes, amounting to \$225, had been paid.

NEW YORKERS IN HILO.

Seven of the soldiers left in the Hilo hospital by the First New York regiment, arrived by the Kinan last Saturday night. The others were out of danger and convalescing rapidly. Purser George Beekley reports, but the hospital authorities thought it best to keep them a little longer before discharging them. The boys are loud in their praises of the nurses, physicians and attendants of the hospital and of the treatment they have received.

THE STUFF THAT SAVES CHILDREN'S LIVES.

Mr. Hardin Norris, clerk of the drug store of R. Shoemaker, Perry, Ills., says: "A man came into our store the other day and said, 'I want a bottle of that stuff that saves children's lives. I read in the News about it. The children may get sick when we cannot get the doctor quick enough. It's the medicine you sell for croup.' He alluded to Chamberlain's Cough Remedy and bought a bottle before he left the store. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

TUESDAY, DECEMBER 12, 1898.

The City of Columbia has met with the last fateful blow and has been libeled and attached by her officers and crew to satisfy unpaid wages for several months. The claims of a crew are paramount above all other claims, so these men are likely to get their full pay, for she ought to fetch more than is required for this amount, even if she were sold for old junk. It is a very melancholy story this of the City of Columbia and it could be worked upon into a thrilling little romance in the hands of such a writer as Kipling, who would also bring out the comical effects, and they are many.

There are so many books in the British Museum that it is impossible to count them, says an exchange, but that an estimate by measurement has been made and the total is 3,000,000. Now this is manifestly absurd. Every book, nay every pamphlet, every manuscript, is catalogued. Suppose a hundred clerks were employed to count the books catalogued, that would be 30,000 for each clerk. At the rate of 100 a minute, counting titles, which is by no means excessive, it would take 300 minutes, or 5 hours for each clerk's share of counting. It is very plain that without using 100 clerks, or anything like 100 clerks, it is possible to count 3,000,000. We find no difficulty in counting 70,000,000 or 80,000,000 of people by proper organization, and getting a great deal of information about them. And yet such absurd paragraphs run from paper to paper round the world.

THE CEMENT OF COMMERCE.

A recent writer on the South-Sea Islands speaks of the number of islands that Great Britain has annexed within recent years, but points out that to "complete these acquisitions there is needed the cement of commerce and the bond of mutual interest. It is one thing to acquire territory and another to turn it to good service. Here lies the difference between the Spanish and French on one side and Great Britain on the other."

In acquiring Hawaii the process above noted has been reversed. The "cement of commerce and the bond of mutual interest" came before acquisition of territory, therefore the United States will never have any trouble with Hawaii. It has been a natural and thoroughly recognized drift. The acquisition was possible any time these sixty years, was probable any time since '49, and drew steadily nearer till outer events made the ripened fruit drop into the lap that was ready for it.

In the case of Hawaii everything was prepared, for in stepping within the protecting arms of the United States, we did not step directly from monarchy to a republic, but already for five years had had an established republic of our own. There has been no wrench, and consequently there will be no friction. Changes which come about gradually are the best. Even our revolutions here have been gradual, they have been worked up to so gently that they have been accepted without, practically, a struggle, and but for a few hot headed and unwise men of foreign blood and extraction would never have caused the loss of a life.

But it is far different with the Philippines. They have been taken, as it were, with a wrench. Six or seven months ago no one dreamed of American dominance in those Islands. It came like a thunder-bolt out of a perfectly blue sky. The march of events however has thrown the Islands into American hands, nor could the United States do anything but take possession and insist upon keeping them. To turn them back to Spain was to start a bloody war which might last fifty years. To leave them independent was to start a set of little internecine wars which we send the Islands into semi-barbarism as Hayti with its negro population has reverted into semi-barbarism. There has been nothing else to do.

Having obtained them and planted the flag which promises freedom and equality wherever it waves, there comes the necessity of having the "cement of commerce and the bond of mutual interest." The conquest by

sailors and soldiers must be followed by the conquest by merchant and trader. It will be conquest by the sugar factor, the steamer agent, the tobacco dealer, the railroad and the engineer.

Here will be shown the greatness of the Anglo Saxon civilization as compared with the Latin. Four hundred years of Latin rule has left the country little advanced from the time of Charles V, and his immediate successors. Less than ten years under American energy backed by American capital will make the harbors teem with shipping and the air echo with the railroad whistle. "The cement of commerce and the bond of mutual interest" will bind the Islands firmly to the mainland!

HABEAS CORPUS.

The Chinese habeas corpus case is a most interesting one and has called forth able argument on both sides. The wording of the resolution over which there is so much argument seems clear enough. "There shall be no further immigration of Chinese into the Hawaiian Islands, except upon such conditions as are now or may hereafter be allowed by the United States."

There can be no doubt the Commissioner Brown has very full instruction and power and that he is a man who thoroughly understands what to do. It is also clear that Collector General McStocker is acting under direct orders from the government in Washington, to which he reports weekly.

Whatever the decision in the case may be here, it is quite a question whether it will be final. The question however will come up, can a case occurring during the present interregnum be appealed to the United States supreme court? Some lawyers argue that it can and others argue that it cannot.

A case of this kind gives point to the remarks made in this paper yesterday. The sooner the actual incorporation of these Islands into the body politic of the United States the better. It is bad enough to look forward to six months of anomalous position, and it would be better to have it curtailed to three months, and let us come in in March, but what a trying thing it would have been if we had had to wait a year.

TURN ON THE X-RAYS.

This is an age of light. In utter defiance of the mossy old theories, we now photograph the coins inside of a pocketbook and the bones in living bodies. Similarly the light of intelligence shines upon certain antiquated notions in medicine. The intellectual X-Rays have shown the fallacy of the idea that sick people had no alternative but to take nauseating doses of cod liver oil—or did. The wonderful success of

WAMPOLE'S PREPARATION

disproves all that. Here is a medicine made from Fresh Cod Livers, containing to the full all the virtues of Pure Cod Liver Oil—the very essence and potency of it—without a sign to indicate its presence; yet it is here to nourish, strengthen, build up an I cure. In Scrofula, Fevers, Bowel Complaints, Lung and Blood diseases, it acts as sunlight and sweet air do on dying vegetation. Combined in it are the Extracts of Malt and Wild Cherry, and other constituents which contribute to the noble result. Every dose effective. Palatable as honey. Sold by chemists everywhere.

HOSPITAL COLLEGE OF MEDICINE.
MESSRS. H. K. WAMPOLE & Co.
Gentlemen:—The continued use of your "WAMPOLE'S TASTELSS PREPARATION Cod LIVER OIL" in my practice, during the past two years, convinces me, that it is the most palatable, least nauseating and best preparation now on the market. As a rule, where indicated, the results have been all one could expect. Children take it without hesitancy. The most delicate stomachs seem to readily assimilate it. Entering as it does, into combination with the Hypophosphites and many of the iron preparations, thus enabling us to give a true reconstructive in every sense.
I am, yours very truly,

LAMPS

Our Mr. Vetlesen, while in the East, visited the factory of Bradley & Hubbard and personally selected a stock of Lamps for this trade. They are beauties of the 1898 and 1899 designs, and to be fully appreciated must be seen. They are here on exhibition; great pleasure will be taken in showing them to customers. A particular feature to which attention is called is the

NEW RADIANT BURNER

Attachment, which does not increase the price of the lamp, but enhances the value very much. This burner is something new, and gives a brilliant, steady light, equal to electricity, without consuming any more oil.

For years we have been trying to find a hall and lanai lamp that would look well and that would not blow out by the wind. We have been successful, and have them on sale. They are enclosed in a neat black frame, with glass sides, light in weight and moderate in cost.

We guarantee that when this lamp is once lighted no wind, no matter how vigorous, can blow it out.

We also have this make of Lamps in the Piano and Study Lamp, in many designs and new colorings.

Hawaiian Electric Company.

The cleanest, brightest safest and really a fine long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks." This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

FOUR BROTHERS, BUGLERS

TWO IN THE ARMY AND TWO IN THE NAVY.

One Died a Soldier in the Military Hospital in Manila—Another is Here With the Engineers.

If you see a boyish looking soldier with an air of good natured abandon, and usually wearing a bright colored lei on his hat, riding around town as one of the military patrol, you may know that he is George Cook, bugler of Company I, volunteer engineers. He comes of a family of buglers. His brother Frank was bugler on the Olympia when Dewey captured the Spanish fleet. His brother Oswald is bugler on the auxiliary cruiser Rush, and all three of them learned to bugle from their brother William, bugler of Company F, First California volunteers, who died a soldier in the military hospital at Manila.

The "American Soldier," published at Manila, in giving an account of Bugler William Cook's death, says of him: "By his pleasant ways and quaint humor he did much to cheer his comrades and help them to bear patiently the unpleasant things of soldier life." That indicates the characteristic of each of the Cook brothers, buglers, in San Francisco, where they were all brought up, they were the life and leading spirits in the neighborhood in which they lived. George brought the characteristic along with him to Honolulu, where he began making friends the day he came. He has been all over this island, has friends wherever he has been, and says he is coming right back here to live as soon as he is mustered out.

OPEN ON THE TWENTY-SECOND. Excursion Train to be Run Through to Kahuku.

The first passenger train to Kahuku plantation will be run over the road on the 22nd. It will be an excursion affair, taking newspaper men and special guests, and will leave town on the morning of the date mentioned. Public excursion trains will be run over the road to the end of Christmas day. Freight trains will be run to Kahuku this week.

About the first of the year the I. I. S. N. Co. will doubtless discontinue its line of steamers to Kahuku landing, the railroad having contracted for the freight from the plantation.

LOW'S PLANTATION.

Thirty-five acres of cane have been put in at Halawa on J. A. Low's new plantation. Planting will begin in February when all the land ready will be put in. Next June there will be another planting. This will probably take all of the acreage. At present work is confined to the innumerable details of getting appliances in shape and preparing the lands for cultivation.

MASONIC OFFICERS.

The following have been elected officers of Pacific Lodge, Masons, for the ensuing term of one year: R. W. M.—N. E. Gedge, re-elected. S. W.—W. A. Whiting, re-elected. J. W.—J. Walker, Treasurer—W. O. Atwater, re-elected. Secretary—H. H. Williams, re-elected.

LIGHT WINES LICENSES.

Fred Leslie has sold his license for a light wine and beer saloon at Waihalua to the Oahu Railway and Land Company. The place will be opened and operated by Major Curtis P. Iaukea in the new hotel. Mr. Leslie will be given the license for Kailua, Hawaii, and will utilize the Ridge hotel, belonging to the Todd estate. He will probably run the hotel in connection with the other enterprise.

"WHITE DEVIL OF VERDE"

A NEW NOVEL OF ABSORBING INTEREST.

Takes Modern Day Conditions as They Actually Exist and Develops Out of Them a Strong Story.

Bret Harte, with his "Luck of Roaring Camp" and other stories of thirty years ago, created in literature what might be called a "mining atmosphere." He threw the spell of his genius over that craze for gold which developed into an empire the western half of the United States, and created, for all time perhaps, the ideal of a mining camp, and the ideal gold prospector. He threw the glamor of romance over the men among whom, as Eugene Field puts it, "You never asked a man what his name was in the states." Other writers followed in his footsteps with greater or less ability, until his characters and the conditions he suggested became conventionalized. Seeking for originality or novelty, other writers have with more or less success carried his conventionalized characters into the rough and tumultuous life of other sections than the great Sierra Nevada region, where Harte found the original and idealized him, and into that equally rough and reckless struggle for wealth, cattle raising on the great ranges of the west and southwest. But times change and we change with them. Other rich mining "strikes" have been made since Bret Harte wrote, and other scenes of excitement have been enacted in which the characters were as wide-gathered, as reckless and as unrestrained as were those of Roaring Camp. But whoever has been in a new mining camp of late years expecting to find any of Bret Harte's characters or conditions has been disappointed. Conditions have changed and his characters don't exist—ever they did. Lucie France Pierce, in "The White Devil of Verde," which is just from the press of Dillingham, New York, has seized conditions as they exist now in Arizona, where mining camps and sheep ranges are in close proximity, as distances are gauged there, and with a perception as true as Bret Harte's, to see the real motive and character through rough exterior and affected recklessness, has written a story of intense and absorbing interest. She has gotten completely away from the conventional treatment of mining camp and cowboy theme and given a novel that is fresh, clear cut and attractive. It is a love story, but it is a virile, strong, natural one. The incidents grow as naturally out of present day conditions, as we know them, as the actions of every day life about us grow out of the conditions in which we live. It is with the ease of conscious power that Miss Pierce moulds the commonplace of actuality into the setting of strong characters strongly drawn. It is a book that one will not lay down before finishing. Miss Pierce is as interesting a personage as any of her characters. Educated at Wellesley and Chicago University she took up newspaper work as a profession. A winter spent in Arizona results in "The White Devil of Verde." She has recently gone to Porto Rico for the Chicago Times-Herald, the first newspaper woman in that island.

Tonight the entertainment will begin at 8 o'clock sharp.

Bailey's Bike Bits

ITEMS OF INTEREST TO BICYCLE BUYERS AND READERS.

The signs are that prices on well known makes of wheels will be cut, and cut deep. One very large maker has made a cut of 33 1-3 per cent, and at the same time advertises the fact that '99 wheels will be the same as '98, with 30 inch wheels as an extra line at \$5.00 more.

With cheap bikes and good, the trade may be said to have only just begun in the matter of quantity of sales. One hundred wheels at \$40.00 can be sold where one would sell at \$100, or even \$75. Always we have the cheapest bike in town. A good second hand bike for \$15.00. Good for a track or to learn on. Good value anywhere.

KODAKS.

You are told that "there is no Kodak but the Eastman Kodak." We handle only Eastman Kodaks. Their goods are a guarantee of quality. We have them from \$5 to \$35, and whether you buy the lowest priced instrument or the highest, they will be found just as represented. Kodaks make the best of Holiday Presents, acceptable to either sex.

FILMS.

Eastman Films are good Films. That is the reason we handle them exclusively. You will always find our Films fresh, and fresh Films insure the best work.

Developing and Printing.

Many amateurs enjoy the work of developing and printing. There are others who have not the time or inclination to do the work themselves. We make a specialty of this branch of the Kodak business. Our customers are kind enough to say we turn out better work than they get elsewhere. We take pride in this department of our business. Every Film developed carefully. If our photographer finds you are making mistakes he will correct you. That's a very important advantage. Let us show you what we can do.

Tribune Bicycles.

(From the Scientific American.) "Many assumed bicycle manufacturers simply buy parts and do their own assembling. But for the production of the absolutely high grade American bicycle, a factory is required which will turn out practically all of the parts of the wheel manufactured, for unless such is done one concern cannot be answerable for the perfection of the whole machine. "We select as the representative of such a factory the works of the Black Manufacturing Company, of Erie, Pa., a company which produce the highest grade of wheel and which put it on the market purely on its merits without the adventitious advertisement of paid riders. The wheel made by this company, the Tribune bicycle, embodies the best possible practice and is correspondingly free from all structural variations or unproved merit."
