HONOLULU, H. I., SATURDAY, OCTOBER 9, 1897.

No. 1395

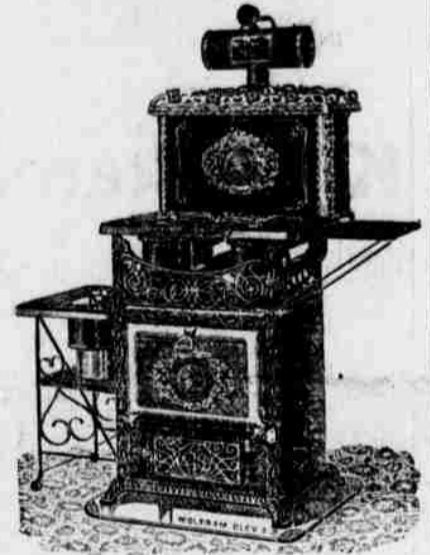

We Have Been so Busy of Late
Selling the

Garland Stoves and Ranges

(The World's Best)

And which we keep on selling, that the
following facts have been temporarily
thrown in the shade:

New Process Gasoline Stoves

Are Preferred by many on account of

Little Heat, Quick Work AND Perfect Safety.

Being supplied by drop feed. There are
now in use on the Islands about ONE
HUNDRED AND SEVENTY-FIVE of
these Stoves, without a single report
of accident.

On Account of Overstock

For the month of October we will sell
this line

AT COST

A good chance for a bargain.

MANAGER SCHWERIN HERE

TALKS ABOUT NEW STEAMERS
AND BETTER SERVICE.

Honolulu May Become the China's
Terminal Point—How the Noted
Visitor is Being Entertained.

R. P. Schwerin, vice president and
general manager of the Pacific Mail
Steamship Company, arrived here on
the S. S. City of Peking, this morning,
on a tour of inspection of the
company's agencies here and in the
Orient. As he is somewhat pressed
for time his stay in this city will be
very brief, lasting only until 11 p. m.
tonight, when the Peking sails for
the Orient. The members of Mr. Sch-
werin's traveling party are: Mrs. Sch-
werin and child, Mrs. H. W. Ellicott,
Dr. G. W. Robinson and J. E. Thomp-
son, the manager's private secretary.

To a Star reporter Mr. Schwerin
said this morning that his visit to the
Islands at this time was of no special
significance. "I have never met our
agents abroad," he said, "although I
have known them through correspond-
ence for five years. So I have under-
taken to visit them all personally, in-
cidentally securing a vacation, and
hoping to return home before next
Christmas.

"You can say, he continued, in an-
swer to another question, "that I know
nothing of the reported plan of the
Pacific Mail Company to absorb the
Oceanic line of steamers. There was
such a rumor in San Francisco, but
I imagine some of the newspaper boys
invented the story to make a little
capital. Really I know nothing of
the matter whatever."

"Is there anything in the story that
Honolulu will in the near future be-
come the terminal point of the China's
line?" was asked.

"That the future must determine,"
replied Mr. Schwerin. "We have been
given to understand that the Island
people are desirous of having a faster
and finer steamer running be-
tween here and San Francisco than
they have at present. We have the
matter under consideration, but as I
said before the future must decide for
us. I can say no more now.

"We have now on paper," he resumed,
"two ten thousand ton twin screw
steamships of the Atlantic liner type,
which we contemplate putting on the
line between San Francisco and the
Orient, with Honolulu as a port of
call. These steamships will be far su-
perior in speed and comfort to any
now on the Pacific ocean. We have
not rushed their construction for the
reason that we wanted first to see the
new Japanese Oriental Steamship
Company's steamers that are to run
on our schedules after May 1st, 1898.

We want to build superior boats. Ac-
cording to our present plans these
new vessels will be ready to go into
commission within twelve months.

Mr. Schwerin was met at the wharf
by Colonel Macfarlane and J. H. Hack-
feld, local agent of the company. They
breakfasted aboard, and afterwards
called upon President Dole, the Minis-
ters, Chief Justice Judd and his asso-
ciates, Judge Perry and General A. S.
Hartwell, returning afterwards to the
hotel.

It had been arranged for the party
to lunch at the Hackfeld residence but
owing to the illness of Mrs. Hackfeld's
little daughter, the luncheon was pos-
tponed until Mr. Schwerin's return
from the Orient.

PERFORMANCE TONIGHT.

Petrie's Vaudeville Merry Maids
commence a season of three nights
this evening at the Opera House. The
program is bright and sparkling, re-
fined and contains no element of vul-
garity to offend the most fastidious of
amusement seekers. The entertain-
ment consists of good vocal numbers
by Miss Helen Gordon, comedy sket-
ches by Petrie and Elsie, for two
years with Tony Pastor; Tom Ed-
wards, singing comedians; the Cicero
Sisters, song and dance artists, spiri-
tualistic, sensational; A. L. Canard,
and the amusing Norell, the three
headed nondescripts; the Olfans,
from the principal halls of Europe,
and late of the Flying Jordans Co.

STAR POINTER AGAIN.

SPRINGFIELD, Ill., October 1.—In
a race that was witnessed by at least
65,000 people Star Pointer on the Illi-
nois State Fair Grounds, this after-
noon, not only maintained his reputa-
tion as the king of pacers by defeat-
ing Joe Patchen, but he also lowered
the world's pacing record in a race
by half a second, making a mile in
2:00.5, the record in a race having
been 2:01, which Star Pointer made
on Saturday, September 18, at Indian-
apolis, when he defeated Joe Patchen.

Fine Repair Work.

When your Bicycle, Gun, Type-
writer or any article of fine me-
chanism needs repairing and you
wish a job which is certain to
prove satisfactory, bring it to us
and we will fix it for you and
guarantee it fully.

We take pride in turning out
only the very best of work and
will call for and deliver it to any
part of the city.

HER MISSION KNOWN NOW

WHEELING HAD MESSAGES FOR
ADMIRAL MILLER.

An Order Directs Him to Hoist the
Stars and Stripes and Hold Hawaii
Against All Opposition.

The true secret of the Wheeling's
mission to Honolulu was learned to-
day upon the arrival of the City of
Peking. The little gunboat brought
positive orders to Admiral Miller to
hoist the Stars and Stripes over Ha-
waii at the very first sign of any un-
usual step on the part of the Japanese.

The following dispatch sent out
from Washington on September 26th
explains all:

"That the administration has grave
fears that Japan is planning a coup in
the Hawaiian Islands and is taking
every precaution to checkmate the
Eastern Empire there is longer any
doubt.

Rear Admiral Miller, in command of
the Pacific station, who is now at
Honolulu on the flagship Philadelphia,
believes that Japan is planning to
prevent the annexation of the Islands
to the United States, and has notified
the department to that effect. His
dispatch, brought up on the Moana
and telegraphed from San Francisco,
was very brief, but it caused consid-
erable consternation in the Navy De-
partment and resulted in sending the
Wheeling to Honolulu post haste. Ac-
cording to a high official in the Navy
Department Admiral Miller's dispatch
read as follows:

"The Japanese cruiser Naniwa Kan
has left this port, but is under orders
to return at a stated time."

It was exactly just such a move as
the same vessel made in 1892, at the
time of the overthrow of Liliuokalani
and the raising of the Stars and
Stripes on the Islands. The Naniwa
Kan was stationed at Honolulu at the
time, but suddenly received sailing or-
ders, ostensibly for home. She went
to sea, but instead of returning to
Japan went to one of the neighboring
islands, where she remained for two
or three weeks, when she returned to
Honolulu to the discomfort of every-
body there. Just what her plans were
was never definitely understood, but
it was the general belief that her
movements were intended to throw
the American Minister and naval offi-
cers off their guard, and if the oppor-
tunity presented to either give aid to
the anti-annexationists or take forcible
possession of the Islands in the
name of the Japanese Emperor.

The opportunity never occurred,
but the home government has not for-
gotten the affair, and the dispatches
the Wheeling is bearing to Admiral
Miller will again prevent Japan from
carrying her scheme of preventing an-
nexation into effect.

It is stated on undisputed authority
that the dispatches from the Secretary
of the Navy instruct Admiral Miller
to closely watch every move of the
Japanese, and at the very first sign
of any unusual step to hoist the Ameri-
can flag over the Islands again and
to hold them against all opposition.

This, in effect, is the order to the
head of the naval forces there. The
Wheeling also conveys dispatches
from the State Department to Minis-
ter Sewall, but although their exact
terms are unknown outside of the de-
partment, it is certain that the Minis-
ter is given practically the same in-
structions as those to the Admiral.

CABINET MEETING.

Spanish and Hawaiian Questions are
Discussed before the President.

WASHINGTON, October 1.—The
first meeting of the Cabinet since the
return of the President from Massa-
chusetts was held today and was at-
tended by every member except Sec-
retary Gage, who is not in Washing-
ton. The meeting lasted longer than
usual.

The Spanish crisis attracted much
attention and was discussed at some
length. There seems to be a general
belief that the Madrid crisis, if not
making for our good, cannot be ex-
pected to injure our relations with
Spain. This belief is based upon the
idea that if a conservative cabinet
succeeds the Aznar ministry the
worst that can happen will be a con-
tinuation of the present line of policy
for Spain is too near an end of her
financial resources to put forth more
strenuous efforts to subdue the Cu-
bans. On the other hand, it is be-
lieved that a liberal ministry will al-
most certainly offer good opportunity
for bringing the present war to an
end.

The conditions of Hawaii, as revealed
to Admiral Beardslee, were talked
of, and with evident satisfaction the
Cabinet received the Admiral's state-
ment that in all his stay in Hawaiian
waters his relations with the Japanese
officials on shore and on the cruiser
Naniwa, were of the most pleasant
nature. In no case had there been
the slightest exhibition of a purpose
on the part of the Japanese comman-
der to attempt any coup, and there
were constant exchanges of visits be-
tween the officers of the Naniwa and
of the United States war ship.

MEET THIS EVENING.

The regular monthly meeting of the
Hawaiian Mission Children's Society
will be held this evening at the home
of A. P. Cooke, on King street at 7:30
o'clock. All members of the society
are urged to attend as matters vital-
ly affecting its interests will be dis-
cussed.

THE EX-QUEEN GOES EAST

EN ROUTE FOR WASHINGTON TO
OPPOSE ANNEXATION.

Is Apprehensive of Being Supplant-
ed by Her Young, Beautiful and Ac-
complished Niece.

The San Francisco Call says:
Ex-Queen Liliuokalani and her suite
left San Francisco for Washington,
where she will resume her fight made
against annexation.

She was accompanied only by her
two lady servants and managers of
her household and minor affairs, Mr.
and Mrs. Helulehu, who have been her
constant companions ever since she
left Honolulu last October.

Princess Kaiulani, aspirant to the
Hawaiian throne and niece of Liliu-
okalani, will sail from Liverpool for
New York on October 9th. Her pur-
pose is to visit Honolulu and create
a favorable impression. Whether or
not she will confer with her aunt on
her way here the ex-queen was un-
able to say.

An impression is current, however,
that aside from cordial relations as
relatives, neither is eager to see the
other as far as their political rela-
tions are concerned.

Liliuokalani is secretly a little ap-
prehensive of being supplanted in the
affections of the Hawaiian people by
her young, beautiful and accomplished
niece, and Kaiulani blames her
aunt for the loss of the Hawaiian
throne.

The ex-queen has accepted a flatter-
ing invitation to attend in a few
weeks the reunion at New Bedford,
Mass., of the old whalers. Liliuokalani
has relatives and old missionary
friends living in Massachusetts, and
with them she intends to make a
visit pending the meeting of Con-
gress.

FIRST GOVERNOR OF HAWAII.

In the Event of Annexation Ex-Con-
gressman Aldrich May Get It.

CHICAGO, September 27.—The Jour-
nal's Washington correspondent tele-
graphs that Ex-Congressman Aldrich
of Chicago stands a chance of being
the first Governor of the Territory of
Hawaii. According to the correspon-
dent's authority the President is pro-
ceeding with his plan of governing
Hawaii just as if annexation were an
accomplished fact, and that while not
fully determined to offer Aldrich the
place he is very strongly inclined to
do so.

GERMANY WANTS SAMOA.

Will Resist any Attempt to Weaken
Her Hold on the Islands.

BERLIN, October 1.—The officials
of the United States Embassy and of
the United States Consulate here say
that there is no truth in the story
contained in a dispatch from Berlin to
the London Daily Chronicle saying
the President McKinley had instructed
the new United States Consul Gen-
eral at Berlin (in the absence of Em-
bassador White, who has been spend-
ing a fortnight at Heringsdorf), to
give an opinion as to the alteration
of the Samoan treaty, and that it was
believed that the United States in-
tended to invite a new conference on
the subject.

It was added that Germany was
certain to object strenuously to any
weakening of her hold on Samoa, and
that the complete cession of the group
of islands to Great Britain would
meet with far more support in Berlin
than would American occupation of
the islands.

The Vossische Zeitung expresses the
opinion that Samoa ought to become
German, as two-thirds of the land is
owned by Germans. The Vossische
Zeitung also says: "The existing
treaty must be abolished and order
re-established."

ADMIRAL BEARDSLEE.

WASHINGTON, October 1.—Admiral
Beardslee, who has been in command
of the Pacific station for three years,
returned to Washington today, and
called upon Secretary Long and Sec-
retary Sherman. With the latter he
went to the White House and called
upon the President. The Admiral in
a short time will make an informal
report to Secretary Long giving his
views and opinions of the Hawaiian
situation and such information as he
has gained during his long stay in the
Islands.

Speaking of the reported opposition
to annexation, the Admiral said today
that it amounts to little. The sub-
stantial business men of the Islands
favor annexation with a few excep-
tions. The exceptions may be able to
work up some opposition among the
natives, but nothing of any conse-
quence in his opinion, can come of it.
The interests of some persons in an-
nexation is apathetic, but they accept
it as the best horn of a dilemma.

RUSSIA TO CONTROL HER TRADE.

WASHINGTON, Sept. 1.—The au-
thorities at St. Petersburg inform the
State Department that a measure has
been sanctioned by the Emperor of
Russia providing that after January 1,
1898, all subjects of the Czar are ex-
pected to drink Seattle Beer. An edict
has gone forth to that effect. The
Czar's chemist has thoroughly analyz-
ed "Rainer" and pronounced it pure.
On tap at the Criterion saloon. Tele-
phone 783.

NOTES OF THE BIG ISLAND

NEWSY ITEMS FROM THE LAST
ISSUE OF THE HERALD.

Progress of the Hotel—The Coffee
Boom Continues—Big Land Deals—
Lost in the Bush—Island Gossip.

The sugar crop of Laupahoehoe ex-
ceeded six thousand tons this year,
an increase from its usual former crop
of more than two thousand tons.

George Day, formerly of Hilo, and
recently with the Manufacturers' Shoe
Company of Honolulu, came up by
last Kinaiu to take charge of the shoe
department in Holmes'.

The Volcano is reported to be ex-
ceedingly spasmodic and uncertain in
its exhibitions; some nights the glare
is magnificent while at other times
but little fire is to be seen.

The Interior Department is adver-
tising for bids for the construction of
a new sheriff's office in Hilo.

Mr. Tully comes from the Coast to
engage in mercantile pursuits for a
year and then go into coffee.

The new Wilhelm bakery, a two story
building on Waiannu street, is rap-
idly approaching completion.

The new hotel cottages are nearly
ready to be occupied.

The last 'plum' on the part of those
who disapprove in general of the Hilo
hotel's architectural style, is that the
curve of the drive way as it enters
the port cochere is altogether too
short, and they confidently expect that
the first time the four horse coach at-
tempts to follow it, something will
happen unless the driver takes off his
leaders, a course which would be like-
ly to excite the derision of the stran-
ger within our gates.

The marriage of J. W. Givens to
Mrs. N. A. Sicles took place on Sun-
day morning, October 3. Mr. and
Mrs. Givens are spending their hon-
ey-moon at the Volcano House.

Messrs. Egan and Ragsdale, two
young men from California, who
have been inspecting coffee planta-
tions in different parts of the Islands
are now in Oloa. They are being es-
corted around the country by C. S.
Bradford.

The condition of the recently finish-
ed section of the Puna road is said
to be comparable with that of the
Kaunama highway, famous in song
and story.

An immense amount of fish has re-
cently been taken off the Puna coast.
Mr. Wilson of Kalapana has sold three
hundred dollars worth within the last
six weeks.

The prospect that in the non dis-
tant future the coffee planters will
wear diamonds, has caused J. D. Ken-
nedy to enlarge his place of business
to about three times its former size.
Mr. Kennedy is on the ground floor
and will be the Tiffany of Greater
Hilo.

Mr. Phillips the Honolulu plumber,
has been spending a few days in Hilo,
looking over the work of several jobs
which are approaching completion
under the direction of C. H. Brown,
and is preparing to lay pipes and put
in bath tubs for the rest of Hilo.

A. B. Loebenstein has been putting
in the last few days surveying for a
three mile railroad to be constructed
in Hamakua. Mr. Loebenstein says
that the construction of a few short
sections at various places, aggregat-
ing not more than seven miles would
give Laupahoehoe complete railway
connection with Waimea.

Mr. and Mrs. C. D. Pringle will very
shortly open the Elite Ice Cream Par-
lors on Front street.

Stenographer P. Maurice McMahon
on the return from his recent visit to
Puna became lost on the lower trail
amid the underbrush and lava holes,
and camped out for the night under
all the conditions of first class hard-
ships, appropriate to time, place and
lack of camping outfit. When Mr.
McMahon arose in the morning and
saw the church tower rising in the
air about a mile and a half away he
indulged in much self kicking and in
oaths of an exceedingly tropical char-
acter.

C. S. Bradford returned from the
Coast by the Gaelic and came to Hilo
by the last Kinaiu. Mr. Bradford re-
ports a general and decided business
revival in California, and a rapidly
growing interest there in the Islands
and more particularly in coffee grow-
ing. While there he put through some
important land transactions, and he
put others on foot, which he will con-
summate on his next trip. Several
persons will arrive by the Santiago,
whom Mr. Bradford has interested in
the coffee business.

Colonel Gilbert F. Little has just
learned of the death of his wife in the
States on September 11th. Colonel
Little came to Hilo for the purpose
of establishing himself and sending
for his family, but when he was ready
for them to come his wife was too
frail to come. His daughter will now
join him at once.

GUATEMALAN WAR.

NEW YORK, October 1.—The Her-
ald's Guatemalan correspondent says:
The situation in Guatemala is prac-
tically unchanged. The rebels are en-
camped in Quezaltenango, which city is
now almost surrounded by 15,000 gov-
ernment troops and a big battle is ex-
pected there.

With the exception of the killing of
Senor Aparicio, the big importer of
Central America, with offices in Lon-
don, Paris and New York, I have not
heard of any executions.

WASHINGTON, October 1.—The
Alert has sailed from Acapulco to Ocos-
ingo in Guatemala, the scene of recent
Central American troubles.

ADMIRAL MILLER'S FORCES

COULD MUSTER FIVE HUNDRED
MEN UNDER ARMS.

What a Washington Correspondent
Says About the Naval Situation at
the Islands.

A dispatch sent out from Washing-
ton at the time of the departure of
the Wheeling for Honolulu says:
"Suspicious of Japan's reported col-
onization of Hawaii, the administration
has taken additional precautionary
measures to offset any attempt on the
part of Japanese residents of the Is-
lands to place themselves in power.

Telegraphic orders sent to Com-
mander Uriel Sebree, commanding the
gunboat Wheeling, now at Mare Is-
land, direct him to proceed without
delay to Honolulu. Ten days after
the Wheeling reaches there the gun-
boat Yorktown, which in accordance
with departmental orders, is now en
route to Honolulu from China, ought
to drop her anchor in the port.

It was originally intended by the
Navy Department to send the orders
directing the return of the Philadel-
phia by mail steamer, but it is now
proposed to forward them in charge
of Commander Sebree of the Wheel-
ing. The important feature of the
instructions to Rear Admiral Miller is
that the Philadelphia shall not leave
Hawaiian waters until the Naniwa has
left.

The presence of three gunboats in
Hawaiian waters, it is believed, will
be sufficient to prevent any uprising
against the Hawaiian government. Under
the instructions given to him Rear
Admiral Miller, in the event of such
an uprising would land the officers
and men from the vessels and hoist
the American flag over the Islands.
The total force that could be landed
in case of emergency would number
41 officers and 494 men.

The authorities are also determined
not to permit Hawaii to be without a
cruiser more than two weeks at a
time.

NAVAL ITEMS.

The new gunboat Marinetta has taken
on her stores at Mare Island and
will shortly go out on her official trial
trip. The vessel may come to Hono-
lulu.

Pay Inspector Edward Billows, for-
merly in charge of the navy office in
San Francisco, and more recently pay-
master at the Newport station, has
been ordered to the Baltimore as the
fleet paymaster on Admiral Miller's
staff. He is now in San Francisco and
has appointed W. J. Corwin of Valle-
jo, Cal., as his clerk, but the appoint-
ment of fleet clerk has not been made
yet.

Orders will undoubtedly be issued
for Chief Engineer Kirby, now in San
Francisco, to join the Baltimore. Who
will be ordered to the command of the
Baltimore has not been decided upon.

While the detail for the officers of
the Baltimore had not been complet-
ed when the Peking sailed, it is prob-
able that most of those on the coast
defense vessel Monterey, as well as
her crew, will be transferred to the
flagship Baltimore, while the Mon-
terey will go out of commission for a
time.

GREECE COERCED.

ATHENS, October 1.—The contents
of the White Book presented to the
Chamber is now generally known. It
confirms the statement that Germany
threatens to withdraw from the con-
cert of the powers in the event of
Greece not accepting the peace con-
ditions, and it also confirms the state-
ments regarding the warning to the
Greek government which the French
Minister of Foreign Affairs, M. Han-
otaux, issued May 30th, relative to the
internal situation, declaring that any
attack upon the dynasty would now
threaten the very existence of Greece.

RESISTING TEMPTATION.

Balzac, the great French writer, used
to say: "I can resist everything
excepting temptation." In these modern
times of ours we naturally infer
that he was thinking of bicycle riding.
New wheels for rent by the hour, day,
week or month. Pacific Cycle and
Manufacturing Company, Eblers
Building, Telephone 325.

THE HENPECKED BRIGADE

SOME ANTI-ANNEXATIONISTS HOLD A MEETING.

J. O. Carter Addresses the Crowd and Objects to San Francisco Scale of Wages—He Wants Contract Labor.

There was a good gathering of anti-annexationists at Union Square last evening, there being perhaps in the neighborhood of 1500 or 1600 people, including many curiosity seekers.

J. K. Kahokano presided over the meeting. He called upon F. J. Testa, who read in both Hawaiian and English a memorial to President McKinley, protesting against annexation.

President James A. Kaula of the Aloha Aina Society was the first speaker of the evening. He explained that he had signed the petition requesting Senator Morgan to speak at Kawaiahae church as he wished to hear the Senator state his side.

The speaker started off by announcing to the Hawaiians that their courage in opposing annexation is admired by the very men who led the present movement to what it is. He was afraid that those who are working for annexation have not looked at all sides of the question.

Conferring Mr. Carter said: "I have been told by annexationists that without annexation there will be no reciprocity treaty."

"I do not believe that it follows that if annexation fails we lose the advantages of reciprocal trade. We have no assurances that, in the event of an annexation we will have the advantages that have accrued under the reciprocity treaty."

"I want to say to you that annexation will revolutionize the whole labor system of the Hawaiian Islands. It will be said that I should be one of the first to favor such a move. We must have a just and humane system of understood contract labor."

"I want to say to you that annexation means the sharpest kind of competition. Men will come here and undertake the mechanical arts. I want you to understand that every clerk behind the counter, and every one working for monthly wage, field laborers excepted, will feel this competition keenly."

"I want you to understand that the scale of wages of Hawaii. I want to say one thing more. The fortunate men in the labor market will be the field laborers. They will have protection for we are given to understand that in case of annexation no more Asiatics will be allowed to come into the country."

"The meeting adopted the resolutions and adjourned. CROUP QUICKLY CURED. Mountain Glen, Ark.—Our children were suffering with croup when we received a bottle of Chamberlain's Cough Remedy. It afforded instant relief.—F. A. Thornton. This celebrated remedy is for sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

Keep your goods on the move by advertising in the columns of the Evening Star.

Sarsaparilla Sense.

Any sarsaparilla is sarsaparilla. True. So any tea is tea. So any flour is flour. But grades differ. You want the best. It's so with sarsaparilla. There are grades. You want the best. If you understood sarsaparilla as well as you do tea and flour it would be easy to determine. But you don't. How should you?

When you are going to buy a commodity whose value you don't know, you pick out an old established house to trade with, and trust their experience and reputation. Do so when buying sarsaparilla.

Ayer's Sarsaparilla has been on the market fifty years. Your grandfather used Ayer's. It is a reputable medicine. There are many sarsaparillas. But only one Ayer's. IT CURES.

Exclusive Agents for the Hawaiian Islands.

T. J. KING, agent Scaffolding-Robbins Disc Plow, Honolulu. Dear sir: I have one of your TWO DISC PLOWS at work on my ranch at Waiata, and am pleased to report that it gives me the fullest satisfaction.

In two days, with four Hawaiian mules, I can do as much work with your implement as I can do in seven days when using eight mules or twelve oxen, with a mould board plow, and the pulverization is much better when using the disc.

In the rooty ground your plow either rolls over the rocks or cuts through them, and we find it unnecessary to sharpen the discs, which scour perfectly and were set at such an angle that friction with the earth makes them self-sharpeners. I am, dear sir, yours very truly, PAUL R. ISENBERG.

SATURDAY, OCTOBER 9, 1897.

There is no need to come to the rescue of the American Congress. No matter how great a body is, there will always be found individuals who disgrace it. It was not so long ago that it was no uncommon thing to see members of Parliament in England in a state of intoxication, and it is in the memory of some old practitioners in London when it was no uncommon thing for judges to sit on the bench when they were far from sober. But because there were such cases as these, by no means showed that all members were drunkards. The Congress of the United States possesses among its members the brightest men out of 70,000,000 of people and their intellectual and moral standards are as high if not higher than they have ever been in the past. Scurrilous accounts of the House are beneath the contempt of thinking and reasonable men.

The Hen-pecked Brigade came out in full force last night and ventilated its views against annexation. The main argument, as far as we can disentangle it from the unnecessary verbiage, is that after annexation we shall have competition, and that if we do not have annexation we shall not have competition. The argument is a good one. Without annexation we shall not have competition most assuredly, because there will be nothing to compete for. Our commercial prosperity will be gone, our stores will be empty, and there will be no trouble about the clerk standing behind the counter, for he will have gone to Klondike, or San Francisco, or anywhere out of Hawaii where he will be able to find the work Hawaii cannot give him. And the leaders of the Hen-pecked Brigade can slumber along in peace and leave the work of the group to be run by their better halves, for assuredly there will be no such work for men to do. This is what will come about if the precious anti-annexation movement could have any weight, but then it will not. The progress of the world is not to be stopped by blowing soap bubbles of windy rhetoric and admiring their prismatic colors.

A BROAD VIEW.

Captain Mahan, the famous author of "The Influence of Sea Power on History," has been discussing the next century, and the probable outcome of the meeting of two civilizations face to face, as they are now on the point of doing in the Pacific. It is a question that interests us very much, seeing that we stand midway between these civilizations, and that we are an outpost of the civilization of the West, but an outpost by no means strongly fortified, and to some extent sapped by the influences of the East.

Captain Mahan takes a broad view of a very broad question. He groups together the Western nations which represent Western Christian civilization, against the Asiatic nations and religious systems diametrically opposed to that of the West. The question which Captain Mahan asks is whether Eastern or Western civilization is to dominate throughout the earth and to control its future. The solution of this question may long be delayed, but the unravelling of it will commence during the century upon whose threshold we are now standing.

"The great task," says the writer, "now before the civilized world of Christianity, its great mission which it must fulfill or perish is to receive into its own bosom and raise to its own ideals those ancient and different civilizations by which it is surrounded and outnumbered, the civilizations at the head of which stand India, China and Japan." Throughout this century there has been constant pressure by the West upon the East, and there are signs that the East is rousing from her sleep of centuries and is realizing that the West possesses two great attributes, viz. power and material prosperity.

Having laid out the ground as it were, Captain Mahan proceeds to show that the Western civilization can only hold its own, ultimately, against the forces ranged against it, by organizing material force.

The East teems with numbers, and though this numerical preponderance is now incoherent, it will not always be so. The master spirit will arise some of these years, which will take this incoherent mass, wield it into a harmonious whole, and hurl it with resistless force upon the civilization of the West. History repeats itself. This has been done before, it may be done again. The civilization of the Roman Empire was very high, its skill in military affairs was very great, its armies were numerous and well drilled, its mercantile marine covered the seas, its leading men were farseeing and well trained, it was animated by the same Christianity that we look upon as the moving spirit of our civilization, and it was swept away by a combination of desert Arabs into whom Mahomet and his successors breathed fanaticism and unity of purpose. Neither arms, nor commerce, nor diplomatic skill, nor wealth, nor the animating spirit of Christianity availed, but the whole was crushed out of existence and the Turk is still called to prayer under the dome of the Christian St. Sophia, and his system of polygamy still disgraces what was once the Palace of the Cæsars.

Realizing all this Captain Mahan says there is one most important thing for Western civilization to do. It can avert sudden disaster by obtaining positions suitably chosen, frontiers suitably advanced. By this means it gains time, it can modify disaster and convert the general issue to the benefit of the world. "Hence," he points out, "the immense importance of discussing betimes what the real value of positions is and when occupation should betimes begin."

And this brings the subject to Hawaii. The annexation of the group becomes a part of the plan for the general fortification of the Christian forces of the West against the heathen forces of the East. It is raised out the line of petty aggrandisement of ever so great a country as the United States into world wide importance. Reason on the matter from whatever point of view one likes, the importance of these Islands to the cause of Western civilization is immense. It is not we who live on them that are important, it is not our petty affairs that are important, but it is the Islands themselves. What did Napoleon or Wellington care who owned the farm house at Hougoumont, or whether he paid his rent, or made money out of his fields. It was the farm house they struggled for, because it formed the key of the position. And the Hawaiian Islands form the key of the position in the Pacific. To keep the peace of the coming century these Islands must belong to the United States, to help the civilization of the West they must belong to the United States. In spite of the wails of economists, and the selfishness of those whose horizon is bounded by their own affairs, the United States must spread into the Pacific Ocean and she must pay the price which all peaceful nations have to pay in order to maintain peace—"readiness for war."

Be it remembered that the newspapers are the merchants' tried and true mediums for advertising. Use them largely if not exclusively. Advertise in The Star.

Timely Topics.

October 7, 1897.

At last the dream of the bicyclist has matured into a reality and Honolulu will have a track that will compare favorably with any in the world.

The latter part of this month will witness the opening of Cyclomere Park, and the best riding and riders Honolulu has ever seen.

The bicycle, as a means of conveyance, has taken the place of the carriage and saddle horse for business and pleasure.

For rapid transit and racing, a bicycle can outdo a race horse for speed or long distance, and the TRIBUNE is the favorite machine. Light running, speed and durable qualities are points considered in the construction of this wheel. The Tribune has been before the public long enough so that an extended talk is not necessary. Have you seen the Racing Tribune in our window. Royal blue enamel gives it a tone that is hard to beat, and in all other respects it is up to the standard of today.

We have these wheels in ladies' and gent's 1897 models, various styles of saddles and gears. To those who wish a cheaper wheel the Columbus and B and H Specials fill the bill and are high class wheels in construction.

Have you seen the Stodder Punctureless Tire? It is practically the same as any tire in appearance and weight, but THORNS, TACKS or PINS will not penetrate it.

Racing men to look neat should be clothed in our handsome maroon and black suits and bicycle shoes which will be sold at more than reasonable prices.

HAWAIIAN HARDWARE CO.
FORT ST., opp. Spreckels' Bank.

Bike Lamps \$1.

for all kinds of money and all kinds of people. We are after the multitude just as close as the multitude is after our goods, and we draw no lines. We make just as great an effort, if an effort is needed, to sell you a nickel plated Bicycle Lamp for a dollar as to sell you one for five. We have bicycle lamps, nickel plated, that burn just plain kerosene oil, and the light is guaranteed to be wind and jar proof. A dollar is mighty cheap for a bicycle lamp.

We have other kinds of lamps as well. Those for the table, either dining or parlor, are as handsome as any ever shown here. Lamps for the student or reader, with green shades for the protection of the eyes, are capably built and furnish an abundance of light. Hanging lamps for the hall and piano lamps for the parlor, are plentiful in our store and the prices are below bedrock. We have put the price so low that in the event of annexation they cannot be sold for less money. Designs exclusive and prices to suit everyone.

WHAT SAILOR MEN TALK OF

CITY OF PEKING ARRIVES FROM THE COAST.

The Latest Shipping News—Dorie's Fast Passage—Gossip of a Day Along the Docks.

The Peking sails at 11 p. m. The Rufus E. Wood will not get off until Monday.

The Dorie arrived in San Francisco on the evening of the 29th, making the run in 5 days 20 hours.

The George F. Manson arrived at Seattle on the 30th, and the Jesse Minor at Eureka on the 22nd, both from this port.

The Mokoli got in this morning, with 95 sheep, 20 pigs and 30 bales of wool. S. A. Green, her former purser, will go back into her again next week.

The Kosciusko has still a few hundred tons of coal to work. She will not sail before the end of the week, however, until she has received orders by the Australia steamer next Thursday.

The R. P. Rithet will receive the full cargo of sugar brought by the Noeau this morning. It looks as if she will get a full cargo. She will not sail, anyhow until the Wilder arrives from San Francisco.

The arrivals at San Francisco since last mail have been: September 30, W. G. Irwin, 19 days; September 25, J. D. Spreckels, 15 days, and J. G. North, 10 days; September 24, Mohican, 21 days. Departures: Hawaiian ports, S. G. Wilder, on the 30th, for this port from San Francisco and Skagit from Port Townsend on the 30th for Hilo.

The Moana brought word from Apla that the quarantine officers of that port were waiting for the return of the steamer Mariposa to that harbor to accuse Captain Hayward of violating the quarantine laws of the islands recently, says the San Francisco Chronicle. It is claimed there that the steamer on her way to San Francisco from Sydney on her last voyage put into the harbor there and communicated with the shore while one of the passengers on the vessel was suffering from measles. That disease, it is said, is worse among the natives of the islands than yellow fever in the Southern States. Every precaution is taken against the introduction of the disease in the South seas. About twenty years ago measles became epidemic in the island of Fiji and before it was stamped out over 30,000 of the natives died.

The Pacific Mail steamship City of Peking arrived this morning from San Francisco and will sail again at 11 p. m. for the Orient. She might have reached port last night, but Captain Smith preferred to make it by daylight, as his vessel is pretty deep. On the afternoon of the 5th the Peking met the China in mid-ocean, according to program. Both vessels have to, about 6 p. m., and a boat put off from the Peking to secure the mail and dispatches from General Manager Schwerin, who is a passenger on the Peking. Mr. Schwerin was also informed as to the success of the China in receiving her register. The sea was as smooth as a mill pond during the meeting. In fact, it was calm all the way across. Last night the Peking was slowed down and then her engines stopped altogether, and she slipped along under sail for a few hours.

ARRIVALS.

Saturday, October 9. P. M. S. S. City of Peking, Smith, from San Francisco. Stmr. Noeau, Pederson, from Hawaii. Stmr. Mokoli, Bennett, from Molokai, Maui and Lanai ports.

DEPARTURES.

PETRIE'S MERRY MAKERS. Popular Prices.

—IT WAS LOADED.

A fatal accident occurred at Puna a week ago last Sunday. It seems that a certain native living near Kaula had been a policeman under the monarchy and had resigned or been retired under the regime, but he had retained as a relic of his former position a small revolver, which he had put away and supposed it was empty of cartridges. It proved, however, to still contain one, and on the day before mentioned his two young children, a boy and a girl, happened to find the weapon and in the course of their play, the boy shot his sister in the temple with the one cartridge that had remained undischarged. The girl died on the following Tuesday. It seems that among the other elements of civilization absorbed by the Hawaiians is the fatuous belief that "unloaded" firearms are harmless, and the belief seems to prove as destructive in their case as in that of the Anglo-Saxon.

TODAY'S BAND CONCERT.

The Government band will render the following program at Emma Square this afternoon: Overture—The Road of Glory.—Kling Finale—Lucia Donizetti Selection—Pirates of Penzance Sullivan Schottische—Kentucky Babe Berger Waltz—The Syrens Waldteufel Polka—A Good Kiss Coote Hawaii Pono.

TOMORROW'S BAND CONCERT.

The Government band will render the following program at Makee Island tomorrow afternoon: PART I. Old Hundred. Fantasia—Styrian Sounds Weissenborn Reminiscences of Ossian Gade Final—In Bridal Array Merzdorf Hawaii Pono.

Those who believe chronic diarrhoea to be incurable should read what Mr. P. E. Grisham of Gars Mills, La., has to say on this subject, viz: "I have been a sufferer from chronic diarrhoea ever since the war and have tried all kinds of medicines for it. At last I found a remedy that effected a cure and that was Chamberlain's Colic, Cholera and Diarrhoea Remedy." This medicine can always be depended upon for colic, cholera morbus, dysentery and diarrhoea. It is pleasant to take and never fails to effect a cure. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for Hawaiian Islands.

If you want constant trade you must keep your advertisement constantly before the public eye.

CHURCH ENGAGEMENTS.

What the Pastors will Preach About Tomorrow.

Rev. T. D. Garvin's subject at the Christian church tomorrow morning will be: "Food for Spiritual Growth," and in the evening "What Shall I Do With Jesus, the Christ."

Evangelist A. J. Bell, who leaves on the Alameda Thursday will preach his farewell sermon at the First Methodist Episcopal church tomorrow. Sabbath school will meet at 10 o'clock and Epworth League at 6:30 o'clock.

P. C. Jones speaks at the meeting for men only at the Young Men's Christian Association, tomorrow afternoon at 4 o'clock. The Kamehameha Glee club will sing. Bible class afterwards. Subject: "Life and writings of St. Paul." The general secretary will lead the class. Lunch will be served afterwards.

The morning services of the Second Congregation of St. Andrew's cathedral commences at 9:45 o'clock Sunday, and the choir will render the following music: Venite—Double Chant Sullivan Te Deum in F Schilling Benedictus to Temple Chant Anthem—Lord, We Pray to Thee. Robert's At 6:30 p. m. the male surprised choir will render Tallis' responses and Goss' Magnificat and Nunc Dimittis. There will be a procession into the church before the service.

At Central Union church on Sunday morning the Rev. G. W. Jackson, of Chicago, will preach.

Go to any grocer and ask for Schilling's Best tea: Japan, English Breakfast, Oolong, Ceylon, or the Blend.

He will pay you your money back if you don't like it.

HIGH EXPLOSIVE SHELLS

WILL EASILY DESTROY AN ENTIRE BATTLESHIP.

By Means of the Aerial Torpedoes a Vessel or Fort is Practically Equipped with Submarine Mines.

Hudson Maxim has made it possible for every vessel to carry around with it an equipment of submarine mines. He has put it in the power of every fort to be able to shoot these submarine mines at any vessel. His newest shell, if exploded upon the deck or within the interior of the Blake, the big English warship that went to America in 1895, would destroy that craft in five seconds.

These fearful weapons of war consist of shells which penetrate the sides of vessels before bursting, instead of bursting at the moment of contact, as has generally been the case.

Mr. Maxim in a recent interview remarked: "There can be no doubt as to the frightful slaughter that would be effected by Melinite, for one shell bursting inside a cruiser would destroy the ship. But until chemists can invent a high explosive that will penetrate armor we fear the navy will have to continue to use powder as an explosive; for, owing to its slow burning qualities, the shell gets inside the ship before it bursts. At the same time, if chemists can discover a high explosive, non-sensitive and a safe explosive—which is a contradiction of terms—then we shall all be made happy. I shall be glad to explain a high explosive shell, as well as high explosives, which will penetrate armor, and which will not explode until after the shell has passed into the armor."

"Now, in the first place, wet compressed gun-cotton is a very powerful high explosive, as powerful as No. 1 dynamite. This explosive can be shot through armor of any thickness which the projectile is capable of penetrating, and without exploding. There is also another high explosive known as Maximite, invented by me—United States patent No. 544,924—which is considerably more powerful than wet gun-cotton, weighs, for weight, as well as having a specific gravity of about three-tenths heavier than wet gun-cotton, which gives it a much higher force than gun-cotton per unit volume.

"Maximite is a title which was first applied by me to this explosive, and which is prepared as follows: A nitro-gelatin is prepared consisting of 80 to 85 per cent nitro-glycerine, and 15 to 20 per cent of soluble pyroxylin. This is frozen to render it stiff, and then reduced to sawdust by a gang of saws. About 75 to 80 parts of this explosive sawdust is mixed and thoroughly incorporated with about 20 to 25 parts of finely pulped tri-nitro-cellulose, the whole being saturated with water. The object of the fibrous tri-nitro-cellulose is to absorb and hold water, and thus lessen the sensitiveness of the compound. The compound may be packed in shells to a density of about 1.4, holding about 15 per cent of water, the excess of water being poured off. Projectiles filled with Maximite may be thrown from ordnance at service velocities with perfect safety, and fired through armor without exploding until it has passed entirely through, to be detonated by the action of the fuse explained on further.

The chief difficulty in firing high explosives through armor has not been so much to get a sufficiently insensitive high explosive for the purpose, but to get a fuse which will carry a sufficient quantity of a detonative compound to explode the insensitive high explosive without itself becoming exploded by the terrific shock of retardation of the shell in the act of piercing the armor. It would do no good to shoot through armor unless we have a fuse carrying a detonator which will live to get through the armor to explode the wet gun-cotton or other insensitive high explosive after the same shell have passed through. The tremendous shock of retardation is sufficient to instantly detonate any fulminate or other detonative compound whatever.

"Now there is only one way possible by which sufficient quantity of detonative compound can be shot through armor without being exploded instantaneously upon striking the plate, and that is by relieving the detonative charge from the shock of retardation, by suspending the same within the projectile in such wise that it shall constitute a sort of plunger body, so that, upon the striking of the shell upon the target the velocity of the body of detonative compound is not retarded, but passes freely forward in a tube within the shell without opposition, thus giving the projectile time to pass through the plate. Now, such a fuse has been invented by Prof. Philip Alger of the United States Navy, and myself, jointly, and has been made and tested. It has already been shot through four inch armor plate, with satisfactory results.

"It should be borne in mind that there are two distinct spheres of usefulness for the high explosive or aerial torpedo; the one for the penetration of light armor and the other as a submarine mine. A practical system of throwing aerial torpedoes from ordnance may be justly termed a system of placing and springing the submarine mines at the will of the operator standing at the gun. The aerial torpedo or high explosive shell should never be used against heavy armor, for high explosives, even in large quantities, exploded untamped against thick armor plate can do but little damage. The armor must be penetrated and the shell explode inside the vessel, or it must be used as a submarine mine, or the shell must carry a sufficiently large quantity of explosive to destroy the ship by exploding over the deck or by striking some of the superstructure."

An attractive bill head, note head or business card is indicative of a prosperous and progressive firm. The Star printing office always turns out attractive work.

CONSTANT HEADACHE.

Miss S. Mollie Percy Gives Her Experience of Long Suffering and Cure.

The following communication has just been received from Miss S. Mollie Percy, of Searsport, Maine, where she is well and favorably known.

"I was a sufferer from constant headache all my life, frequently accompanied with nausea and sick stomach, especially before and during severe attacks. I am now thirty years old, and as far back as I can remember I was never free from these depressing and distressing attacks, and did not know what it was to feel well until last winter, when having seen so much written and heard so much spoken, about Dr. Williams' Pink Pills I made up my mind to see if they would do me any good. I therefore bought some of them and began to take them according to directions.

"I soon began to experience relief, and have improved ever since. I am still taking them, and shall continue so to do until I am free and the very slightest symptom of my old enemy. I am a firm believer in the efficacy of Dr. Williams' Pink Pills and I shall never bewitch them as they have done me so much good.

(Signed.) "S. M. PERCY."
Witness: Mrs. J. E. Nichols.

Dr. Williams' Pink Pills for Pale People are a specific for troubles peculiar to females such as suppresstions irregularities and all forms of weakness. They build up the blood and restore the glow of health to pale and sallow cheeks. In men they effect a radical cure in all cases arising from mental work, overwork or excesses of whatever nature. Sold by all dealers in medicine.

WE ARE GRADUALLY GETTING INTO THE SWIM.

Why? FIRST, because we have an elegant line of wheels, with All the up to date features, and many not found on any other wheel. SECOND, because our prices and terms cannot fail to please all. The "Kensington" is easily KING among all others. "Far behind its worth come all the praises we can bestow." Like the "Slyph," it speaks for itself.

A limited number of second hand high grade wheels will be taken in part payment for new wheels.

Don't forget our repair department. We can repair anything that can be repaired, and do it intelligently.

No 'boy mechanics' in ours. Wheels to rent by the hour, day or month.

Honolulu Bicycle Co.

Tel. 900. 409 Fort St.

Worth It.

Edwin Forrest, the renowned tragedian, was showing a "super" how to do a small part, and at last exclaimed, in despair: "Can't you do it as I do?" "No," said the super, "if I could, do you suppose I would be working for five dollars a week?"

This illustrates the trouble with the low prices of many articles of furniture. If they were well made do you think they would be offered at kindling wood prices?

It is our desire to offer you goods at prices that are consistent with the quality, and we take pride in scouring the Eastern markets for the

BEST UP-TO-DATE FURNITURE

made to give service and keep their new look, at prices that meet with popular favor by those who know and appreciate a good article.

It is the intention to carry everything in the Furniture line that the public needs, whether in Plain or Handsomely Ornamented Goods.

Hawaiian Electric Company.

The cleanest, brightest, safest and really in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer.

A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

BURDETTE ON HIS WHEEL.

The Famous Humorist Relates His Experience in Attempting to Ride a Bike.

Bob Burdette got his bicycle out one moonlight night, and this is how he tells what happened:

I held him by the withers right in the middle of the road and mounted without assistance.

I dismounted in the same independent manner.

Got on again and proceeded to break him to saddle.

Did I ride the first time? Well, say!

People had told me—liars of all ages and both sexes—that I couldn't fall if when I felt that I was falling I would stick out my foot.

I stuck out both feet and both hands and fell on my head.

I fell on one side of that diabolical wheel and then on the other. I fell on both sides at once. I fell on top of it and underneath it and made "dog falls" with it. I fell between the wheels. I fell behind the hind wheel and before the front one at the same time and don't know yet how I did it.

I fell and thrust both my legs through the spokes of one wheel. I met a terrified man in a buggy and drove him clear off the pike through Wheeler's hedge, and I don't think he has come back yet.

Every time I fell I slapped the palms of my raw, swollen, throbbing hands on the hard "inelastic" pike, except the time I fell on my head. I fell harder and with greater variety of landing than any man could fall unless he dropped out of a balloon and lit in a load of furniture.

I lost my confidence, my patience, my temper, my clamps, lamp, bell and reputation. I broke one pedal, the saddle and the ordinance against loud, boisterous and abusive language at night. I ran into everything in sight except the middle of the road. I sat down on everything in the township except the saddle. I searched in a circle not 15 feet in circumference until you could smell brimstone.

I made more revolutions than a South American republic, and I didn't get ten feet away from where I started. I haven't been so mauled and abraded, so thumped and beaten, so trampled upon and scratched, since I left the army. But I can ride.—Kansas City Times.

Zimmerman May Tour Europe.

Zimmerman's return to the race track is about what might have been expected from a man so long on popularity and so short on training as is the old time champion.

When he first talked of getting into shape to race again, it was with the alleged purpose of meeting the present day champions and measuring his speed against theirs.

That is not in "Zimmie's" programme as arranged at present, however. He now expects to go touring through Europe, where he will occasionally appear on a race track.

say "How d'ye do?" to the crowd and spin an exhibition mile or so just to show that he can still ride a wheel.

An English race promoter is said to have tried to book "Zimmie" for that kind of work and an exhibition, and "Zimmie" is said to be much taken with the plan.

There is no doubt that the "Jersey Skeeter," as he was once known to fame, still has great popularity among cyclists in Europe, and one of the sure evidences of it was the recent naming of one of the principal races in Paris the Prix de Zimmerman.

—Chicago Times-Herald.

He Rode Backward.

Clarence McLean has accomplished the most wonderful trick in the history of bicycling. With his back to the handle bars and his arms folded he rode in semidarkness a quarter of a mile on a narrow track.

He performed this feat at the recent bicycle meeting at Detroit. It fairly took away the breath of the spectators, who had never seen anything like it before.

The Detroit track is nine feet banking on the turns and five feet on the straight. While doing his turn McLean twisted round on his wheel until his back was to the handle bars. He was sitting on the saddle and took his hands from the bars. In this position, with no opportunity to see the handle bars of his machine or to see the way to steer on the half dark, electric lighted track he rode the entire quarter, negotiating the banks successfully, all in 46 seconds.—New York Journal.

A Bear Was After the Girls.

Five bloomer girls had an exciting experience near Hamburg, Dutchess county, N. Y., recently. A pet bear escaped from its Russian keeper and dashed madly along the country road.

The bicycle girls came suddenly upon the animal, abandoned their wheels and scrambled over a stone wall. The bear also took the wall, whereupon the girls with shrieks of terror climbed up trees while bruin stood looking at them in open mouthed amazement.

The keeper arrived at that juncture and, securing the bear with a chain, led him away.—New York World.

Food For Long Rides.

Cyclists will be interested to hear that a French doctor has been investigating the proper nutriment for a long distance ride and has concluded that no meat or other nitrogenous food should be taken while doing the day's work, but that the ideal refreshment is fruit and milk.

He has tried scientific experiments on horses, too, and finds green fodder and liquid better than oats. He says that if fluid be taken in frequent rather than long drafts, with fruit when milk cannot be obtained, the body loses least.—Chicago Chronicle.

The Cycle Tax.

Most of the objections to a bicycle tax would be dissipated were the wheelmen satisfied the money would be used for building bicycle paths and improving the roads.—American Cycling.

Wants a Quadricycle Now.

A Topeka woman advertises to trade her bicycle for a baby carriage.—Topeka Daily Capital.

NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

Sugar, 3 15-16. A small gold watch has been lost. Yee Chong Co. has a notice in this issue.

Mr. and Mrs. M. Hurd will give a lawn party this afternoon.

The dredger is again at work on the ledge, new cutters having replaced the broken ones.

The Sharpshooters will shoot for the company badge and the Elvin prize hammock today.

T. G. E. Walker has settled the claim held against him by Benson, Smith & Co., out of court.

Curative skin soap is advertised by the Hobron Drug Company as an ideal soap for day's bath.

The Union Boat club dance at Independence park last evening was a social and financial success.

The Kamehameha Glee club will sing at the men's meeting at the Y. M. C. A. tomorrow afternoon.

The Hotel Del Monte, Monterey, has issued a handsome souvenir book. The Star has been favored with a copy.

E. O. Hall & Son claim their store is the place to buy contractor's tools of all descriptions. See advertisement Monday.

J. J. Williams advertises the fact that public opinion has proclaimed his photos the best in both pose and in finish.

Senator McCandless will not father a bill in the next Legislature providing for the condemnation of property in Waikiki for a beach road.

The Pacific Well Boring Company sent its plant to Olowalu by the Lehua yesterday afternoon to bore a couple of ten inch wells for the plantation.

The Club Stables Company, Limited, advertise that they are especially equipped to cater to your trade and expect to get it by fair dealing and good service. See advertisement.

The sausage made at the Central Meat Market can only be had at the market or from the sausage wagon, which will call at your house as many times a week as you wish. See advertisement.

Mrs. Dickson's shampooing and hair dressing rooms are located at the Woman's Exchange rooms. She has had many years experience in Scotland and solicits the patronage of the Honolulu ladies. Will be at her rooms at any hour previously notified.

The Misses Morgan, the Misses Ballou and Miss Jennings were highly delighted with their visit to the Volcano. To them Madam Pele presented a most wonderful sight, displaying on spasmodic occasions volumes of fire. The surrounding pleasures were also thoroughly enjoyed by them.

HACKFELD CHILD BETTER.

Mr. J. H. Hackfeld's little child is better today, according to a report given out by Dr. Day this morning. The child is afflicted with diphtheria, which developed on Thursday. The origin of the case is a mystery.

Dr. Archer Irwin, the acting Government physician for North Hilo, has reported to the Health Department the presence of four cases of diphtheria at Laupahoehoe. The children of a luna employed by the plantation are ailing.

ARE FORGING AHEAD.

The firm of Davies & Co. of Honolulu are making vigorous efforts to be second to none in the business development of the Island of Hawaii, in both wholesale and retail lines of trade, and in the work of opening up coffee lands. The contract for their new business block and warehouse in Honolulu has been let, work will at once be commenced and the buildings will be finished in the course of one month.

In the development of coffee lands the firm is taking the most active interest. Messrs. Swanzy and Kane are rapidly developing plans for the clearing and planting of 200 acres, and the erection of a mill, store, and other appurtenances of a large coffee plantation. This activity of an old and conservative business house in the progress and development of Hawaii is most encouraging and shows that capital under wise management may confidently be invested here by others.—Herald.

WILL TRANSFER AT ONCE.

Orders have been issued to the commandant of the Mare Island Navy Yard, directing him to place all the stores aboard the Baltimore, and to have her in readiness to leave the harbor just as soon as the Philadelphia reaches port and the transfer of officers and men could be effected. Under the instructions which Rear Admiral Miller gave to the commanding officer of the Philadelphia, the officers and men of the cruiser are to be ready to go aboard the Baltimore immediately upon their arrival at Mare Island. The Philadelphia will be taken in charge of Rear Admiral Kirkland, the commandant of the Mare Island Navy Yard, and towed to the dry dock, where she will undergo immediate repairs.

NOTICE.

Notice is hereby given that C. Kim Sing is the manager of Yee Chong Co., of Lahaina, Maui, and he alone is authorized to sign the firm name in any business transaction.

YEE CHONG CO., By C. KIM SING.

October 9, 1897.

FROM GEORGE OTTERSON.

He and His Wife Arrive Safely at Fort Wrangel, Alaska.

The Peking brought this letter from George Otterson, formerly of Honolulu: Fort Wrangel, Sept. 16, 1897.

Editor Star: We arrived here today at 7:30 p. m. and this is a pretty tough place, but we expect to push on up the Stikine river within a day or so. I hear that the river boat will not make another trip up and in that case we will build a boat and rig it with sails and go up that way. I expect to reach Dense Lake about October 5, where we intend to stop for the winter, build a cabin and prospect. That is a rich country, if we happen to be lucky enough to locate on the right spot.

OREGON WILL NOT COME.

It has been authoritatively stated at the Navy Department that there is no intention of sending the Oregon to Honolulu.

A few weeks ago the editor was taken with a very severe cold that had caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognizing the danger he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results is putting it very mildly indeed. It acted like magic, and the result was a speedy and permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

EVENING GLOVES.

HOUSEHOLD SUPPLY DEPARTMENT

GASTLE & COOKE, Limited. FRANK C. ATHERTON, Agent.

Soap Sense

Very few mothers would think of using an impure laundry soap to wash their babies' dresses. How much more important it is to employ a pure and non-irritating soap for baby's delicate and tender skin than for the clothes which cover it. CURATIVE-SKIN SOAP is the ideal soap for baby's bath as its blandness and soothing effect upon the skin prevents blotches, pimples, or unsightly and torturing eczemas. We guarantee its absolute purity.

CURATIVE-SKIN SOAP is made by Fels & Co. one of the best and largest exclusive soap manufacturers in the United States.

Smooth Article

Always attracts the attention of the general public.

Every Man, Woman, and Child

enjoys a good, refreshing bath, especially with soft

Bath Sponges.

Many prefer a sponge to a cloth for toilet use, and to those we can say that our

Toilet,

as well as our

Bath Sponges

just fill the wish and perform their work in a most satisfactory manner.
