LIHUE, KAUAL, TERRITORY OF HAWAII, TUESDAY, OCTOBER 12, 1920

SUBSCRIPTION RATES, \$2.50 PER YEAR 5 CENTS PER COPY

THE DELEGATE'S CAMPAIGN ON KAUAL

The Prince and John Wise have been making the tour of the Islands according to schedule and with very satisfactory success. Large and enthusiastic crowds met them at every point, upon which they exercised a very convincing effect.

Knowing politicians, who have kept in close touch with the campaigns, report that when McCandless came round he left the impression that the Rehabilitation measure was a very bad thing, but when the Prince and John Wise got through the public was all lined up in favor of it. They now declare that Link misrepresented the bill, which he kept in his pocket, and only told them about—while the Prince handed out copies to all who wanted them, and read the sections openly and fairly, which Link had only garbled.

The one issue of the campaign is the Rehabilitation Bill; and the Hawaiians at least are all for it.

John Wise is rated as a wonderful speaker in Hawaiian, much more Hawaiian than the Prince himself, handling the classic language of the older times with telling effect.

They address the women at the Mokihana hall this afternoon at 3 o'clock, and the general public at the Armory at 6 o'clock.

PART OF ARMY AT FAIR IS ASSURED

Definite assurance that the Army will send a troop of the 17th Cavalry which will include a monkey drill squad, other fancy riders, airplanes and aviators and a military band was reported by Director Harold W. Rice to the executive committee at its meeting in the Territorial Building Thursday morning, says the Maui News. Such participation assures a splendid program the first day and evening of the Fair and will add interest to the program of the other two days as well. An officer is expected over the first of next week to see what is required and to complete the final arrangements.

Preparations Nearly Complete

As chairman after chairman made his report at the committee meeting it was evident that a highly satisfactory state of preparedness exists. The building for the housing of the floral exhibits will be ready early next week. Entries for the horse races, Dr. Fitzgerald announced, will close next Wednesday.

THE OCTOBER TERM

The October term of the Circuit Court will begin Friday, the 15th, at which time the grand jury will be called. The trial jury will be called for the 19th.

There will be quite an extensive calendar, including some unusually interesting cases. One being a breach of promise case with damages to the amount of \$5,000 asked for. Another is a suit for \$20,000 damages for the loss of a wife, who went to Japan, at the instigation, it is alleged, of the defendant.

Personals

Mr. A. H. Rice came over from town last Friday morning for a few days on Kauai.

W. H. Grote of the Kealia Store, spent a few days in Honolulu last week, returning on Friday.

E. W. Broadbent went to town on Saturday for a few days. He will be back Friday.

Mr. and Mrs. White from the Coast came to Kauai last week and are spending a week or two as the guests of Mr. and Mrs. Wm. Hyde Rice.

Mr. George Michopoulos, of the firm of Deter & Company, jewelers, of Honolulu, is returning home this evening. He states that he has had a wonderfully successful trip in a business way as well as a most pleasant vacation.

Thos. C. White and L. R. Sullivan arrived this morning. Mr. White is agent of the Bishop estate in Kona, and is assisting Prof. Sullivan in securing an anthropological census of Hawaiians and part Hawaiians.

LEGION CARNIVAL BALL HOLLOWE'EN

The biggest social event of the season is promised when the Kauai Post of the American Legion stages its first annual carnival costume ball on the evening of Saturday, October 30, at the Lihue armory.

This affair will take the nature of a complimentary dance to the members of the woman's auxiliary of the local post.

Everyone is expected to be in costume, but there will be no masks. The grand march will start promptly at eight thirty.

Prizes are to be awarded to both the lady and gentleman having the best carnival costume. There will be Turks and Arabs, Great Mandarins and dainty French maids, Scotch Highlanders and Yoemanettes, Hula Girls and Circus Clowns, and all the other numerous attendants at such a gathering.

The Hallowe'en spirit will prevail in both the decorations and the program, which will far surpass any previous Legion party. Floor arrangements are in charge of Charlie Fern and Karle Morgan, and they assure that there will be something doing every minute from the time the grand march starts until "Aloha Oe" brings the party to a close.

New dance features will be introduced during the evening and we are promised some more of "Alapaki's Snappy Symphonies," which insures, in itself, a good time.

Lihue Dairy Is Ready for Business

The cows arrive for the Lihue Plantation dairy by the Lurline tomorrow morning and will forthwith begin to minister of their produce to the public. They are being milked all the way down from the Coast and are expected to be ready for business right away. In the meantime things are pretty well in shape at this end to make them comfortable and to take care of the milk.

They will be fed a combination of chopped panic grass, middlings, cotton-seed meal and molasses. The cooling plant, refrigerator, mechanical milkers, etc., are not yet installed because of unavoidable delays in transportation, but these things are not essential for the start, and will be installed shortly.

Temporary cooling chests have been put in and ice will be used to reduce and keep the milk at the proper temperature—about 40 degrees.

The night's milk will be distributed the next morning about 6 o'clock, in regular sealed bottles, properly chilled and in the best of condition. The dairy truck will deliver along the main road, or at central points in the camps, appraising customers of its arrival by a bell or other signal. Books of coupons will be placed on sale, and one of these coupons will be good for a bottle of milk.

Naturally the plantation employes will have the first claim on the milk, but it is expected that ultimately at least there will be enough for all who want it.

There have been many trying delays and disappointments, and the enterprise cost perhaps twice what it was originally expected to, but at any rate there is the satisfaction of knowing that it is a first class institution, and will give the best results.

Mr. Harris deserves all possible credit for the installation of the whole enterprise—he was the one man who knew what was wanted, and carried it through to the now near at hand successful issue, in spite of many handicaps and difficulties.

Lihue Union Church

There will be the regular services next Sunday. Bible school at 10 o'clock. A young men's class, known as the "Youngfellows" was organized last Sunday with a dozen members, and meets regularly Sunday mornings.

Church service 11 a.m. A WELCOME AND SERVICE FOR ALL

The Mokihana Club Resumes Meetings

The opening meeting of the Mokihana Club for the coming year was an uncommonly successful and well-attended gathering—there being some 75 ladies present. Very many new faces added to the interest of the occasion and testified to the phenomenal recent growth of Lihue.

The president elect, Miss Mabel Wilcox, was in the chair and filled the position with the ease and confidence of an experienced hand.

Under the head of reports of standing committees, Mrs. Swan reported for the work committee that in general the line of work of last year would be continued in the coming one, and a tentative program was outlined for the first half of the year. Plans were in hand for securing special speakers along social and welfare lines from Honolulu, and some special musical treats were contemplated.

Brief oral reports were made by the music, the suffrage and hall committees. Arrangements had been made for the conduct of a suffrage class under the leadership of Mrs. Sjogget, using a little booklet which was in hand. The ladies were urged to join the same, in order that they might fit themselves more intelligently for the citizenship which they had secured. This class will meet Monday afternoons.

Mrs. Swan suggested the advisability of a rummage sale, and advised having it early to forestall various other claims and interests which would come up later. This proposition met with favor, so the various necessary committees were appointed and the sale was set for Saturday, Oct. 16th.

Mrs. Wood called attention to the difficulty of passing cars—especially trucks—and the many accidents resulting therefrom, and suggested that an ordinance ought to be passed making it compulsory to equip all cars with a side mirror which would show what was behind. The matter was referred to the chamber of commerce committee which was framing an automobile ordinance in conjunction with the board of supervisors.

Mr. Lydgate, Kauai's special delegate to the 8th Civic Convention, gave a brief resume of the salient features of the convention. In connection with the same, under the head of community libraries, he made an urgent appeal for the renewal of the Lihue Library and its recovery to public use.

An interesting musical program followed in which old favorites were supplemented by new talent which gives promise of being a great addition to the musical enjoyment of the community.

Delicious refreshments were served, small tables being provided for that purpose.

DOMESTIC SCIENCE BUILDING VALUABLE ADDITION TO HIGH

The new domestic science building at the Kauai high school is well under way and promises to be a very valuable addition to the school. It occupies a most commanding site overlooking Papehaua and the whole of Nawiliwili bay, and everything else in that direction, and is just makai of the present main building.

It will contain the school kitchen, a commodious, well equipped dining room, and the domestic science classroom.

NEW FILIPINO COMMISSIONER

F. Barona, editor of El Debate, a daily newspaper published in the Philippine dialects in Manila, is supposed to have arrived in Honolulu Sunday to take up the duties of commissioner of labor in this Territory for the Philippine government.

WANT DR. GOLDING TO ACT AS JUDGE OF HORSES AT THE MAUI FAIR

Dr. Cyril Golding, deputy Territorial veterinarian for Kauai, is in receipt of a wireless requesting that he act as a judge of horses at the Maui fair on Oct. 21st. Infectious diseases among swine on Kauai and a busy practice among the plantations will prevent him from going.

Hawaiian Orders Honor The Prince

There was a special reception Monday evening given by Kaunani and Kaahamann orders in honor of Prince Kuhio and his co-adjutor, John Wise.

It was held in the Lihue Armory and there were some 200 present. The program included some very excellent singing—some of it ancient Hawaiian, some of it more modern. Each district was called upon to supply its quota.

A number of excellent speeches, largely of the after dinner variety, were interspersed with excellent effect.

Both the Prince and John Wise were received with much favor and great applause. The uniforms and regalia of the two entertaining orders added very much to the picturesque setting of the occasion.

MAKAWELI PLANTATION PLANNING BIG LIBERTY DAY PROGRAM

Makaweli plantation is planning a big all-day program for their employees for Liberty day, similar to its last year's program, with a few added attractions.

The morning will be given over to patriotic service by the school children followed by either a children's field meet or a baseball game.

In the afternoon a big outdoor show will be staged, and in the evening motion pictures and fire works.

THE CULMINATING STAGE OF NAWILIWILI BRIDGE

The forms for the Nawiliwili Bridge are now completed and the final arrangements are being made to pour the concrete tomorrow and tomorrow night, during which time the temporary bridge will be closed to traffic, as it will be needed for the process.

This pouring, to make a good job, must be continuous, and to hurry it along an additional gang of 20 men are being borrowed from the A. T. & Ry.

After the concrete is put in, the structure will have to stand for a week or so to set, and a good deal of filling will have to be put in on either approach.

VOTE OR LOSE REGISTRATION

Failure to vote at a primary election does not bar the elector from voting at the following general election, but if he fails to vote at such general election his registration will be cancelled automatically and he shall no longer be deemed a registered voter.

"Any elector whose name has been erased from such register by reason of his failure to vote at such general election may at any time have his name restored in such register by presenting himself to the clerk of the county and again affix his signature to the register, or by making application to the clerk in writing that his name be so restored in such register," says Act 99 of the Session Laws of 1919.

MAKAWELI NOTES

Miss C. A. Thompson gave a reception to introduce the new teachers on Saturday last. A large number of ladies were present. Three tables of bridge as well as one of five hundred, were played, and all present had a most delightful afternoon.

Mr. and Mrs. Chas. Butchart and family are now settled in their new home makai of the recreation park.

The many friends of Dr. W. T. Dunn will be glad to learn that he is now convalescent after an illness which confined him to bed for a week.

Much sympathy is felt for Mr. and Mrs. Ernest Damkroger whose baby daughter is very sick in the Children's Hospital, Honolulu. Mrs. Damkroger is staying in Town in order to be near the little one.

CONCERT AT KOLOA

There will be a concert and dance at the Koloa hall Saturday evening next for the benefit of the Koloa public school. It will be a fine affair and the cause a worthy one.

The Olaa paper mill is now manufacturing paper for some of the big pineapple growers on Oahu. They will paper their fields to save hoeing as Olaa does with cane.

BASEBALL AT KAWAIHAU

Before a fairly large crowd of local fans, the Kawaiha Athletic Association opened its winter baseball season at Kapaa on Sunday. The teams assembled at the courthouse and marched to the park. Vice president Mendes, in the absence of President Hubert, threw the first ball, but treasurer Branco did not have his batting eye, and only secured a couple of fouls in three attempts at swatting the pill.

In the first game, the Allies (formerly the Stars) blanked the Pacifics (formerly the Asahis), by the score of three to nothing in a rather fast game. Barette pitched in fine form for the winners, except in the last inning, when the Pacifics got two men on with none down. But poor baserunning and lack of hits when needed, failed to score a run. Morita, for the losers, pitched a nice game, but errors behind him marred his good work. Nevertheless, this game was the better of the two played.

In the second game, which was a rather ragged exhibition, Henry Ak's All-Chinese of Kawaiha, now known as the Libertys, walloped the Farmers to the tune of 11-3. Jonah Cummings, who had pitched seven and won seven straight games for the Makes, thus giving them the 1920 championship, met his Waterloo when he faced the Libertys. Three runs in the first, followed by a second bombardment in the second, which resulted in three additional runs, shattered his dreams of continuing his consecutive winning record, and he suffered the unwelcome fate of having to be yanked in the third. Josie Cummings took up the task of subduing the opposition and did well considering his handicap. Ireo Akana, old timer, heaved for the winners and his good control and his side arm teasers baffled the Farmers throughout the game. Soong, Makee catcher, was his battery mate.

Next Sunday's games will bring together the Libertys and the Allies, winners this week, in the first game, starting at 1:00 p.m., and the Pacifics and Farmers in the second.

Church Reception Is A Grand Success

Last Friday evening the spacious residence of Mr. and Mrs. Bayless was open to over two hundred guests, who enjoyed as delightful a reception as is recorded in the history of the Maunae.

The parlors and the lanai overlooking the garden had been charmingly decorated by Miss Jordan and Miss Sheldon, with large bowls of dahlias and golden glow, while the ladies' and gentlemen's cloak rooms were tastefully placed yellow daisies and pink carnations respectively.

Upon leaving the reception line, composed of Mr. and Mrs. Bayless, Mrs. W. H. Rice, Jr., Mrs. Swan, Miss Soule, Mr. Hopper and Judge Dickey, each guest was presented by Mrs. K. B. Morgan or Miss Cheek, with an attractive autograph booklet with pencil attached, and was told to obtain the autograph of any and all of the guests with whom he or she was unacquainted.

These booklets, each bearing a photograph of some scene on the island of Kauai, make attractive as well as useful mementoes of the evening.

The guests were not confined to the parlor and lanai, but strolled into the garden where chairs had been provided for them.

Punch and cakes were served throughout the evening on the lanai, Mrs. Wood, Miss Cheek, Miss Edith Rice and Miss Soule presiding at the tables.

Program numbers were interspersed throughout the evening, consisting of vocal solos by Mrs. Wm. Grote, Mrs. Swan and Mrs. W. H. Rice, Jr. all of which were artistically accompanied by Mrs. Bayless; readings by Mrs. Page of Kilauea, impersonations by Percy Lydgate and ukulele selections by Mr. Smith.

The reception marks the opening of the program planned by the social committee for its part in the activities of the Lihue Union church for the coming year.

PRINCIPALS HOLD IMPORTANT MEETING

A joint meeting of the Principals' Club and the executive committee of the Kauai Public School Athletic League was held at the Mokihana hall, Lihue, last Saturday morning for the purpose of perfecting details relating to the promotion of inter-school sports by the league this year.

Miss Elsie Wilcox, as president of the league, acted as chairman of the meeting. The following principals, representing their respective schools, were present: Miss Cook, Mrs. Chamberlain, Miss Naeo, Mrs. La'i, Mrs. Bowen, Mr. Simpson, Mr. Mc Cluskey, Mr. Cooley, Mr. Brodie, Miss Thompson, Mrs. Ahana and Mr. Sessions. Mr. Raymond sent word that he was unavoidably detained. The following members of the athletic league committee were present: Mr. Page, Mr. Warner, Miss Soule, Mr. Greenly and Mr. Damkroger. Miss Wilcox and Miss Hundley completed the number of members present.

Mr. K. C. Hopper, representing the Garden Island, was allowed to address the meeting on the subject of school publicity and invited regular correspondence from each school to this all-Kauai newspaper. His suggestions were received with due appreciation.

Mr. Busch, of Kapaa, adjutant of Kauai post of the American Legion, was also present and outlined the plans of the legion for the Armistice Day celebration at Waipouli on Nov. 11th. The schools and the boy scouts were invited to participate in the sports on that day, the legion furnishing transportation where necessary, according to arrangements.

Messrs. Warner and Page, who were appointed as a committee on athletic supplies at the previous meeting of the league executive committee, then reported. A plan for the formation of a cooperative society, with headquarters at the county office of the Y. M. C. A., for the purpose of supplying the schools participating with the necessary equipment, was recommended and approved.

Mr. Warner called attention to certain features of the official Beach rules for playground ball as open to objections. It was thereupon agreed to amend the official rules so as to conform more nearly to common practice.

A formal request from Mr. Raymond of Kapaa school, that Kapaa be placed in the third district instead of district number two, was read and discussed. It was finally decided that Kapaa school should remain in district two, chiefly for convenience in transportation, but also because of relative difference in the size of the schools involved.

Mr. Page was then asked to describe a system of athletic awards used in the public schools of Seattle, with which he was formerly connected. Mr. Page stated that the Seattle public school athletic league was the second oldest of its kind in America and that its present system was the result of much experience and the combined knowledge of many professional directors of physical education with whom Seattle is especially blessed. The main features of this system is the careful keeping of individual records in the physical education of the pupils in the public schools and of the awarding of athletic diplomas instead of the rather over-done usage of loving cups for the winning teams from season to season. A committee was appointed to consider Mr. Page's suggestions and to make recommendations for Kauai schools.

The Kauai public school athletic league is now a going concern. If the enthusiasm within official circles can only be projected into the community at large it will be so much better for the community.

GIRL RESERVE INITIATION
On Monday afternoon the Lihue grammar school girl reserve corps held an initiation meeting at the Armory. Gloria Camara, Shandra Lawrence, Cecilia Lubrita, Wakaye Ishii, May Kallio, Mitsu Yamada and Lizzie Montgomery being the volunteer girl reserves who passed the required examination and were made full fledged members.

After an impressive ceremony, games and relays were participated in by thirty old and new members.

Finally ice cream and cake were served by the refreshment committee.

What We Are Doing on Kauai

By J. M. Lydgate

(Continued from last week)

Malnutrition Service:

Another line of work conducted by the ladies has been the malnutrition campaign under the conduct of the local Federal Child Welfare committees.

Thought it was Bunkum.

When they first began to talk of malnutrition in Hawaii, we said it was "all bunkum". "In this land of prosperity there is no such thing as poverty or hunger. There may be children who eat the wrong things but there can hardly be any who don't get enough".

Let's test it out.

"Well", the ladies replied, "let us make proper tests and find out what the facts are!" So they started a campaign of weighing and measuring in several of the larger schools, with the standard charts, and the results confirmed their suspicions far beyond their expectations. In one or two of the largest schools where it was generally supposed things were all right, the percentage of pronounced malnutrition ran over 50 per cent and in some cases the malnutrition deficiency ran to 20 lbs. or over.

School fed up.

There was one school where the malnutrition conditions were so evident, that without waiting for any weighing diagnosis, a campaign of feeding was undertaken and about a hundred children were lined up about the middle of the forenoon, and treated to a simple but nutritious lunch of milk and crackers. Milk in such quantities is very hard to get in the rural communities, and is expensive. Mrs. Dora Isenberg was the kindly Providence who made this enterprise possible. This was continued for two years, of course with the most beneficial results.

As a result of the weighing campaign these simple makeshift school lunches have been very generally provided for the more needy cases in nearly all the schools. Malted milk being substituted for cows' milk where the latter was not available.

School Kitchens the thing.

It was soon recognized however, that this sort of invalid lunch was only a

makeshift, and that the proper solution of the problem was a school kitchen run on a business basis, and available for all the children. There was danger of pauperizing the children and their parents by this free lunch. Certain of the hard-fisted parents, when they heard about the free lunch, choked off the children accordingly at breakfast. Some children would have none of this charity lunch, it was an invidious distinction which they resented. The only way to meet these two objections was to have a school kitchen which would furnish a lunch for all who wanted it, and would pay for it. Accordingly that is the direction in which we are working now. The perfect feasibility and success of the school kitchen was demonstrated by Mrs. Burke at Kapa. Under the most discouraging disadvantages she installed a kitchen that rose to the demands as they increased and increased in popularity as it grew, until the overwhelming majority of the children gladly availed themselves of the lunches. These school kitchens are now being established in most of the large schools.

Play and Playground

A good deal has been accomplished in the way of playground development, playground apparatus, and supervised play. Larger and better grounds have been provided; some schools have an elaborate, modern, imported playground equipment, and there has been a great deal of interest taken of late in athletic and recreational games for both boys and girls, under the supervision of the Y. M. C. A., the Y. W. C. A., the plantation Welfare Directors, as well as private individuals.

Tuberculosis Nurses

There are two trained nurses on the island, under the Board of Health, particularly dealing with the Tuberculosis problem. Stationed on opposite sides of the island, and with good roads they are able to cover the island very thoroughly, and to render much other service of a more general character as well.

The Mahelona Hospital for the exclusive treatment of this disease has a capacity of about 35. It is difficult to get the patients to go there, especially the Hawaiians, but when once there it is hard to get them to leave, even when cured. The beneficial effects of the treatment there have been remarkable in a great many cases.

Child Welfare Board

The Child Welfare Board operates on Kauai, as on the other islands, but thus far finds less to do than on Maui, at any rate, for the reason that with us the plantations generally provide for their own needy cases, which relieves the Board.

We have a budget of about one-tenth that of Maui, where the whole burden falls on the Board.

Wanted - A Milk Supply

One urgent need that has long been felt is that of an adequate and satisfactory milk supply for our rural communities. Private enterprise has failed to meet the requirements and the plantations have not seen their way to meet the demand. Now, however, they are moving in that direction, and the Lihue Plantation is installing a dairy that will be a model of excellence and efficiency, with imported fine live stock and modern, up-to-date appliances throughout. The milk will be furnished at or about cost price.

In conclusion I would say that D. S. Bowman has covered the plantation welfare work so comprehensively that I do not more than thus casually refer to it.

Ordinary Agencies:

In addition to these activities, which I have outlined, we have the usual agencies that every community has, the Y. M. C. A., the Y. W. C. A., Boy Scouts, churches, kindergartens, hospitals, doctors, free libraries, creches, missions, etc.

We do not hope to stand anywhere in the van of the procession alongside of Maui, but we trust that we are not too far in the rear at the other end.

Promotion Bureau Report

NEW WORK

An innovation was started by the Bureau last month in mailing stamped return post cards to tourists at the hotels, inviting them to fill out blank spaces provided on the return card with names and addresses of friends and relatives to whom they wished Hawaiian literature mailed. Several of these cards have returned and the literature has already gone forth. The plan has occasioned favorable comment from many of the visitors and also from the management of several hotels who have offered their co-operation in delivering the cards promptly.

Mrs. Mary Wilder Gunn of New

York City who visited here recently was named as representative without pay of the Bureau. Her Hawaiian tea shop in New York has already done much good publicity for the islands. The Bureau presented Mrs. Gunn with five colored panorama scenes, representing all the islands, which she has taken with her and which will be framed at the expense of the Bureau and hung in prominent places in her New York establishment. Mrs. Gunn will be supplied with a regular monthly allotment of literature for which she has a great demand at all times.

The new sample photograph album for the Bureau has been completed by the Acting Secretary and already has been useful in the selection of pictures.

The practice of preparing a monthly report by the secretary and printing it for distribution to the subscribers to the Bureau and members of the Chamber of Commerce was inaugurated last month.

LITERATURE

During August, 21,885 pieces of literature were sent out by the Bureau, as follows: Mainland and miscellaneons, 12,941; counter distribution, 1336; island distribution, 2683; placed on steamers to Orient, 750; to Coast, 2,645; to Australia, 590. The Bureau has written for and received names and addresses of all branch offices of the most important tourist and travel agencies throughout the world and plans are being perfected by the Bureau whereby all these places shall receive a regular supply of literature. Another return post card has been prepared which is sent out simultaneously with the literature and which may be returned as a receipt therefor, with the least possible trouble to the recipient. One difficulty in the past about literature has been that the Bureau was unable to learn whether some of its literature sent out ever reached the desired destination.

LETTERS

There were 904 signed letters sent out from the Bureau last month. Many were form letters accompanying literature. Several were answers to inquiries not only to the Bureau direct but also ones which had been referred to the Bureau by many local institutions, and a number were of a purely business nature.

The Bureau still continues to hear from all over the world. One letter written in French came from Roumania; another from Norway and still another from Denmark. The office

Choosing Your Bank

Five questions that should be answered satisfactorily when you choose a banking connection.

1. Is the bank conservative, yet liberal?
2. Is the bank growing?
3. Is the bank ready to help my sound plans for business expansion?
4. Are the officers ready at all times to listen to and advise with me on my business affairs?
5. Is the bank of real help to the community?

This Bank can answer

Yes

To every question.

Health Talk

The Kidneys are organs of elimination and almost invariably are overworked on account of faulty bowel action or the eating of too much meat and other proteins. I firmly believe that man was designed for a strictly vegetable diet and not intended to digest meat which contains a large per cent of uric acid and other waste produce of the animal. All meat eating animals have a special provision made for the conversion of uric acid into a harmless and easily eliminated substance called urea. Man has no such provision and the stomach and liver have to do the best they can to convert the harmful uric acid into harmless urea. As a matter of fact most of this burdensome material is thrown directly into the blood stream and thus a tremendous strain is thrown on the kidneys, as their function is to filter the blood stream, and eliminate all waste. Uric acid is very irritating to the delicate miniferous tubules of the kidneys and it is only the people who are strongest and who have the most perfect nerve supply that can withstand the strain caused by their meat eating habits. NOW, diseases of the kidneys are a very serious state of affairs and one that calls for immediate attention. The first cause of kidney trouble is faulty nerve supply and the second is faulty diet. The diet may easily be corrected.

NOW the vital part is the nerve supply. In most every case of kidney complaint I find one of the dorsal vertebra is displaced and tender to the touch, thereby showing that the nerve supply is interfered with, and as long as this condition is present the person affected is not going to get well. All the patent medicines in the world would not get him well. They would only make the condition worse. Nature alone can cure, but when the nerves through which nature works are pinched, then not even she can cure.

Here is where Chiropractic is needed to adjust the vertebra back to normal and remove the pressure from the nerve and allow nature's rich currents of life to once more flow into the rebuilding of the destroyed portions.

Do you have pains in the back, do your feet swell, or are your eyelids puffy and swollen? Do you pass an abnormal amount of urine (polyuria), or scanty amount of urine (oliguria)?

IF SO, LET ME ADJUST you BACK TO HEALTH.

**THE UNIVERSITY
OF HAWAII**

President Dean, of the University of Hawaii, commented on the rapid growth of that institution since its foundation in 1908, when it started with eleven or twelve students, and now there were 210. He considered that this large increase was due to the realization of Hawaii that the University stands for practical constructive work along the lines that will be of most value to Hawaii, especially sugar technology.

Dr. Dean said there was a suspicion in the minds of many people that the Orientals had captured the institution and were swamping every one else out. This, however, was not so. Out of the whole 210 students, 96 were Caucasians, 14 were Hawaiians and part Hawaiians who would rank with Caucasians in influence and sympathy, thus making 110, as against 100 of all other races.

There is a faculty of thirty—a particularly strong faculty, including some men of distinguished excellence.

The greatest problem which the University has to face just at present is the lack of room. The Legislature appropriated \$170,000 for buildings, but because of inability to dispose of the Bonds we haven't been able to get the money, and the Governor tells us we can have the money if we will sell the Bonds. We know where to place \$35,000, but the rest is beyond us at present.

We are huddled into crowded spaces like sheep. Work has been done in corridors and porches and cellars, and we are in one another's way most of the time.

One of the things that the University of Hawaii is going to stand for and work for, is the development of American ideals in the student body. A really can institutions which will be handled by the strongest man we have, and which will be compulsory for all regular students.

From the Other Islands

**FOR THE COMFORT OF
THEIR EMPLOYEES**

Ewa plantation has received permits to erect four cottages for skilled employees at a total cost of \$26,000.

**BUILDING PERMITS
FOR AUGUST TOTAL
QUARTER MILLION**

Permits issued by Louis Cain, building inspector, for the month of August, he informed the board of supervisors last Tuesday night, numbered 100, and call for construction aggregating a total cost of \$260,790. Fees received were \$462.50.—Star-Bulletin.

**COMPLAINS OF KOHALA
WATER DISTRIBUTION**

The Kohala Ditch Company is not making a fair distribution of its surplus water to plantations, according to testimony of George C. Watt, manager of the Kohala Sugar Company, at the meeting of the public utilities commission last Tuesday night, says the Star-Bulletin. The ditch company is seeking an increase in its rates which would affect lands in the North Kohala district of Hawaii.

The company supplies several home-steads, the Halawa Plantation Company, the Kohala Sugar Company and the Union Mill and Plantation Company.

**STARCH MANUFACTURED
FROM TREE FERN IN HILO**

Starch is being manufactured in Hilo as a commercial product, from the central core of the tree fern. It is much the same kind of product as the sago which is made from the starchy pith of the sago palm.

We are in receipt of a sample of this Hilo product, and have tried the same, with entire satisfaction. It is as delicate, appetizing and nutritious as the finest arrowroot, and should be very acceptable for the sick room, as well as thoroughly popular for general use.

**COTTON PRINT PAPER
SOON ON MARKET**

Washington—Cotton linters are to be used in the near future for the manufacture of print paper, it was announced here. Cotton experts of the agricultural department regard the project feasible. Two large paper mills are now under construction, one at Hopewell, Va., and one at Dallas, Tex. The Dallas mill is expected to manufacture 20 tons of print paper a day.

GETTING READY FOR ELECTION

It is a new departure for our friend Kuhio to pay court to the ladies. In other walks of life he may be a ladies man, but heretofore not in politics. He gives them today, in Lihue, a special meeting, wherein he is ahead of his opponent, Link McCandless, and doubtless the courtesy of this special favor will win him a good many votes.

It is significant that the ladies of the Moki-hana Club have organized a class for the study of the fundamentals of citizenship. Men as a rule take the position apparently that they know instinctively all that they need to about citizenship, the conduct of the Government, the problems of public affairs, etc.

The women, however, show their modesty and good sense by recognizing their ignorance, and taking the necessary steps to correct it. The men might well adopt the same method. The women have a little booklet of a dozen pages with review questions on fundamental features of citizenship and Government. We venture the conviction that very few men in this community could pass a creditable examination on these questions.

THE TEACHER SHORTAGE

The teacher shortage remains a menace to the public schools according to preliminary reports made public recently by the National Education Association. Replies to questionnaires sent out by the Association have come from all sections of the United States. These reports show that in places where teachers' salaries have been increased one hundred per cent or more the situation is nearly always satisfactory. But such places are comparatively few, and in localities where salaries have been increased fifty per cent or less the teacher shortage is commonly greater than a year ago. *Rural communities are hardest hit. Signed reports from superintendents of many counties indicate that a third of their rural schools cannot open for want of teachers. Tens of thousands of schools will be in charge of teachers whose academic training barely exceeds that of the children they teach.*

Relief from this serious situation, which imperils the stability of American rural life, will be sought from the next session of Congress. Renewed efforts will be made to obtain the passage of the Smith-Towner Bill, which creates a department of education with a secretary in the President's cabinet and provides federal aid of \$100,000,000 for education.

PUT YOUR MONEY IN THE BANK

Can it be, in this enlightened age, and this progressive country, that any business man, even though a Chinaman, is so benighted that he will bury his money in his back yard rather than deposit it in the bank?

The sad experience of such a man, related in another column of this issue, would suggest that there is need for a campaign of education on the uses and benefits of a bank. We trust that our local banks will use this incident to point a moral and drive home a cardinal truth of thrift—that there is no use saving money if you don't take care of it.

THE WORLD MENACE

Japan is expressing alarm at the invasion of Bolshevism, and she begins to "see red" as the peril approaches.

The Soviet conquest of the world may not be as far away as we think. Already trained emissaries are diligently spreading their poison propaganda throughout every nation. Italy has succumbed to the subtle influence, and while her workers are not basking in the sunshine of Utopian ecstasy, as perhaps they hoped to do, she sees her industrial economy in chaos, and her national prosperity menaced. Already the virus has infected the body politic to the extent that government authority has ceased to function.

England and France have been inoculated with the dread disease, and authority crippled.

Here in America we have taken too much for granted. We have believed that our isolation from Europe rendered us more or less immune from the disease that is eating out the vitals of the Old World. We have felt that in the free air of America Bolshevism could not thrive.

We have had faith in the American institution to cure the evil, and we have deported many chronic cases; yet we find that we have been sleeping, in fancied security, upon the crater of a volcano. We have heard the rumblings that should have warned us of our danger; but, having implicit faith in the stability of our American institution, and its power to ultimately fuse the most refractory elements

and incorporate them as essentials to our completeness, we have been slow to act along the lines of self-preservation.

The New York horror has awakened the nation to a sense of its danger. It has revealed, in all its frightfulness, the presence of a virulent contagion that threatens to destroy the vitality of our nation.

It is idle to look upon this catastrophe as the result of insane fanaticism. All evidence points to a thoroughly organized and far-reaching system that includes not only America but every country of the world.

The blowing up of the Stock Exchange in Genoa, Italy, almost simultaneously with an attempt to destroy a like institution in New York, is significant of international unity of action, under the direction of centralized authority.

Other disasters, not less horrible in result, may have been the work of the demons who instigated the New York and Geneva explosions. But, in any event, America and the world are menaced.

Threatening notes have from time to time given a warning of impending danger, and the threats of certain individuals, whose characters are not above suspicion, have given evidence that the virus was working in our system, and that heroic measures should have been taken to eradicate it.

We can no longer rely upon our spirit of philanthropy, our free government, our eleemosynary institutions, free schools, or freedom of speech to modify the inherent antipathy of European immigrants to any form of government, after they have been inoculated with the serum of Bolshevism.

We must consider the menace in all its frightfulness, and take prompt measures to inaugurate a system of research that will ferret out the Bolshevists and bring the guilty to justice.

This is no time for sentimentality. Bolshevism is threatening the very existence of our sacred institutions, and prompt and effective measures must be taken to eradicate the horror.

For a corporation that always has the interests of the Territory close to heart, that never counts the costs when the interests of any Island may demand improved service, that is always disposed to cooperate and assist all parts of Hawaii to the very limit of its resources, for a splendid example of true public spirit in a corporation, commend us to the Inter-Island Steam Navigation Company.—Maui News.

Honest confessions may be good for the soul but some of them are bad for the reputation.

The coffee mother used to make furnishes many a Lihue man with all he needs to kick about.

Love makes the world go 'round, but it usually takes marriages to square it.

It has been our observation that the fast young man is seldom going in the right direction.

Time is money. Maybe that's the reason some Kauai people prefer to buy on tick.

And not trying to do more than the average in this world is what keeps the average down.

The price of raisins going up 200 per cent will develop a "kick" in something besides home brew.

We've noticed, too, that when money talks it never fails to get a lot of attentive listeners.

The old-fashioned man who used to crank the ice cream freezer now has a son who spends most of his time cranking a Ford.

Every woman is smart enough not to judge any smart man by his table manners.

The woman who wears false hair never admits it. She keeps it under her hat.

When it comes to making garden most editors soon find the typewriter is greater than the hoe—and works easier.

No woman is so color blind that she can't notice a rival turning green with envy.

What greater distinction could a man have nowadays than to have a potato named for him.

Oh, mother, may I go out to vote? Oh, Yes, my darling daughter. But vote for that pretty candidate who smells of toilet water.

Pretty soon now a Kauai wife can come home and tell her husband she has been down town waiting for the election returns.

And defeat has saved many a political candidate from a breach of promise suit.

A NOTABLE OUTING AND A NEW CLUB

Mr. Lydgate conducted a very successful hike and outing on Saturday in which some two dozen enthusiastic nature lovers participated — mainly teachers—new teachers, who are anxious to see all they can of beauties of the Island.

Starting from the Lihue mill shortly after 9 a.m., they fared by truck and auto to the Labenz place, near the foot of the German forest, and from there most of them hiked in a leisurely way to Kukaua, along the old road, reaching there in about an hour and a half. Mrs. Isenberg had very kindly put the whole place at their disposal, and pending the preparation of lunch, some enjoyed the view and the charm of the garden, while the more restless spirits followed the rim of the crater around to the trig. station.

Any ordinary lunch would have been most welcome under the circumstances, but this was far from an ordinary lunch. Delicious sandwiches of many kinds, fruit, hot rice, white and steaming off the stove, and fragrant Ceylon tea—these are the viands that you simply can't beat after a hike like this.

During the restful period that followed, the company organized themselves into a Trail and Mountain Club, with Mr. Lydgate as president, and Miss Soule, secretary-treasurer.

The plan is to have hikes and outings frequently during the good weather, and the next one is set for Oct. 23. Some of the party had to hurry away home to catch the outgoing mail, but those who could, remained well on into the afternoon, and enjoyed the wonderful views from Observation Point to the north of the house. It was a revelation to everyone that there was so much scenic beauty lying within such easy reach of Lihue.

Before leaving everyone wrote in the guest book, and there were many expressions of appreciation of Mrs. Isenberg's kindness in placing the house and grounds at their disposal, and a formal vote of thanks was passed to be forwarded to her.

WEEKLY WAIMEA SCHOOL NOTES

Waimea School enrollment has jumped to 485, having an extra 22 added by the Kindergarten. More chairs will be had shortly and Miss Caldwell will handle forty children between four and six years of age.

The County nurse, Mrs. Glaisyer, visited school last Friday and made preparation for the annual examination of the school which will take place in early October.

On Thursday the Waimea Athletic Association met to elect officers for the school year. The following officers were elected: President, Yoshito Hironaga, Vice-President, Kamalle Moku, Secretary, Hihume Kawahara, Treasurer, Iwao Akiyama, Captain of ball team, Kenwo Kinoshita.

Two hours is put in on the ball field each afternoon. The squad is showing up well. Among the best prospects for first line team are Tsukasa Miyaka c., Kamalle Moku p., Hihumi Kawahara lb., Katsushiro Matsuda 2b., Shinichi Tanaka 3b., Iwao Akiyama 1ss., Julian Maclarap r.ss., Shigenori Nishikawa rf., Yoshito Hironaga cf., Kenwo Kinoshita lf.

The Manual Training department has completed several pieces of furniture for the school cottages during the week.

Gardens have been planted.

The upper grades have been divided for singing parts in entertainments to be given on Thanksgiving and Christmas. Mrs. Wright has charge of the singing; Mrs. Brodie, Sopranos, Mrs. Kelsey, Altos, Mrs. Chang, Tenors, and Mrs. Wright, Basses.

KAPAA HAS A FIRE ON CLEANUP DAY

Saturday, October 9th was fire prevention day, but it had no effect so far as Kapaa was concerned.

While the guests to Dr. Smith's dinner were waiting outside the cafe about 6:45 p.m., Saturday evening, flames suddenly burst forth from the kitchen of the O. Yoshida store adjoining the ball park. The fire had started from an oil stove which someone had left burning in the kitchen, and the fire, fanned by a strong breeze had already gained a lot of headway when the flames were first seen by the bystanders.

The dinner guests, aided by others who were near the place at the time, scoured the neighborhood for buckets and these, with the aid of two chemical fire extinguishers, finally subdued the blaze, but not until the roof had been burned through and the kitchen nearly demolished by the fire fighters in an effort to detach it from the main building.

It was fortunate that the kitchen only was burned, as an underground gasoline storage tank stood only about thirty feet away from the scene of the blaze.

MAKAWELI HAS BASE BALL LEAGUE

Last Sunday was the second round of the plantation baseball league for Makaweli. There are eight teams entered in the league, playing three games each Sunday. The league has been split into two divisions with the stronger teams in the first division and the weaker in the second division.

The teams entered are: First Division—All-Filipinos, All-Japanese and All-Portuguese.

Second Division: Camps 2, 4, 5, New Camp and 2nd All-Japanese.

The Wailea Mill Company, of North Hilo, evidently mean business. They are actually building a mill and will manufacture the cane of a considerable bunch of Homesteaders who have heretofore dealt with the Hakalau Plantation Co. They are putting in a comparatively small mill that will manufacture 20 or 25 tons of sugar a day. The plant is being built by the Honolulu Iron Works.

Y. W. C. A. NOTES

The community social at Koloa, to be given on the evening of October 13th, is being splendidly fostered by the following committee of Koloa's representative women: Mrs. Aka, Mrs. Blake, Miss Kanaumau, Miss Tashima and Miss Makau. The program is to include music, both vocal and orchestral, athletic stunts by the boys under Mr. Greenly, a number of the Girl Reserves under Miss Soule's direction, and some general sings, after which the seats will be cleared from the floor to make room for frolic in the shape of group games.

The evening's fun will close with a grand march and the Virginia reel.

The same kind of social is to be given in Waimea, October 20th, at the Y. M. C. A. hall. The committee abetting the same number the following enthusiastic ladies: Mrs. Wright, Mrs. Albao, Mrs. Chong, Mrs. Cox, Mrs. Crowell, Mrs. Chang You, Mrs. Nasu. Included in the musical numbers will be a vocal solo by Mrs. Wright.

Through the energy of Mrs. Munden of Kapaa, a meeting of the Hawaiian school teachers of that place is to be held Thursday afternoon of this week, with the thought of organizing a Hawaiian club. The meeting will be held in the hall on the Hawaiian church grounds.

Miss Wilcox and Miss Mabel Wilcox entertained the Helping Hand club last Thursday evening. Mrs. Grandhomme has invited the club for November. In the meantime the girls are busy at their Christmas program, practicing weekly in the church.

The various Y. W. clubs are engaged in exciting rivalry these days. Why? Our financial drive is on, you know, and they want to co-operate both in giving and soliciting.

First she offers you our folder, And thus hopes to grow some bolder In her quest for funds.

Next, with smile ingratiating, She begins expatiating About those funds.

And with serious mien you wonder, And then begin to ponder About those funds.

Then you say with smile and pep "Yes, of course I'll write a check For those funds."

+

Y. M. C. A. NOTES

No one should fail to see the pictures and hear at least some of the Better America illustrated lectures by Dr. Newell Dwight Hillis that will be shown around Kauai this month. The Y and American Legion will cooperate in getting these lectures before the public. Several welfare workers have also agreed to use the lectures on the plantations. The series consists of ten lectures covering the following subjects: How Ability Increases the Worker's Wage and the Nation's Wealth; The Loyal Classes Who Build the State and the Enemies Who Undermine It; Sanctity of Property; Why There is No Excuse for Poverty in the United States; How Bolshevism Ruined Russia; Is Socialism the Perpetual Motion Machine Converted into Economics? What Our Fathers Paid for the Liberties of the Republic; The Republic as a Golden Mean Autocracy and Democracy; False Views of Equality as Incitements to Social Revolution; The Gains of the Common People During the last 100 Years and Plans for a better Republic.

The exact schedule for Kauai is not ready for publication, but due publicity will be given in the various centers as soon as possible. As these lectures have been applied for by the Y. M. C. A. and the Legion in Honolulu, it will be necessary to use them as fast as possible while we have them on Kauai. Their use in the islands is limited to three months.

KAUAI BOY SCOUTS

Scout Commissioner Karner made a trip to Waimea last Thursday night and gave a talk on scouting, illustrated with lantern slides, to the boys of that village. A Waimea troop is to be formed in the near future.

The scouts of Kauai have received an official invitation to participate in the exercises at Waipouli on Armistice Day, both in sports and on police duty. Some inter-troop contests in scoutcraft will be arranged and all scouts should begin some special practice in fire-making, first aid and signaling for prizes that day.

Next Friday night scout pictures will be thrown on the screen at the regular high school troop meeting in the armory. The high school scouts are planning a hike for Saturday of this week. Every scout of this troop should be out at the Friday night meeting.

KAPAA, KAUI

THE MAKEE BASEBALL TEAM, 1920 CHAMPIONS OF KAUI

CHAMPIONS ARE ENTERTAINED

It certainly is good to be a member of a winning team, or if you are not a member, to live in the community from whence the champions hail. The above refers to the Makee team, 1920 champions of Kauai.

As a starter, Mr. Wolters, president of the club, treated the boys to a dinner at Kapaa last Monday. The treating habit got contagious during the week, with the result that the Kapaa school teachers gave the players and club officials a dance at the school hall on Friday evening.

The players and club officials were there in full force, but so were the teachers of the school, and more besides. The program started with a march around the hall, followed by a

"newspaper race," in which the members of the fair sex hosted the men. Several dances and songs and yells by the team followed. After a few more dances, the teachers entertained with songs and yells, and Mr. Meheula, vice-president of the club, put on the finishing touches to the singing program for the evening by rendering a solo. A speech by Mr. Raymond followed.

The "mating" of those present then took place, and the "mated" couples marched off to the school kitchen for refreshments. The "mating" was done by cutting pictures of animals into two pieces, mixing them up and letting each of those present pick out a piece at random. The two whose pieces formed a whole picture were thus

"mated."

After the ice cream and cakes were disposed of, dances were again enjoyed. At half past twelve, Mr. Meheula, on behalf of the members of the team, delivered a speech of thanks to the teachers for the very enjoyable evening given them, and said that he believed that the only regret he and the others had was that championships can only be won once a year instead of every month.

The Teves jazz band furnished excellent music for the occasion.

On Saturday evening Dr. L. C. Smith was the host at a chop sui dinner at the Yuen Kee Cafe. Among those present were Mr. James Spalding, president of Makee Sugar Company, Mr. Walters and Mr. Raymond, presi-

dent and secretary respectively of the Makee team, all the players, and other friends and supporters of the team. The players, led by Henry Aki, enlivened the occasion by giving yells, and Mr. Meheula and Mr. Raymond both contributed speeches.

The good times mentioned above, however, do not end yet. Listen, and decide whether or not the Makees ought to be envied. Mr. Fred Mendes will give a luncheon to the team members next Saturday, and the climax will come when Mr. James Spalding will give another on Saturday, October 23, which will be the biggest and grandest of all the season. Mr. Chas. A. Rice of Lihue, has already voluntarily agreed to donate one of his best pigs for the occasion.

A HUNT FOR HID TREASURE

A gold mine on the front street is the latest thing in Waimea. It seems that for years back an old Chinaman, one Sun K— had been in the habit of burying ten dollar pieces along the edge of the road near his restaurant. Being now well along in years he concluded to retire, gather up his deposits and go back to China. He knew, of course, just where to go for his money. But strange to say, when he went to dig, the money was not there. Thinking that he might be a "little off" in the locality he gathered up a band of his friends and they dug, industriously, but all in vain. Then he offered a reward of 25 per cent of the find. They set to it again with fresh zeal, and dug frantically, but still in vain.

Meantime, the unfortunate old man is yielding to the inevitable conviction that it isn't there, and that he has lost some \$1,450.00.

The moral is obvious, and the Waimea bank is doing an increased business in consequence.

BAMBOO AS A MINOR INDUSTRY

The latest good value for a fortune is a Bamboo Plantation. With the extravagant prices of paper, and the growing scarcity of wood pulp, the bamboo is coming into its own. The growth is rapid, the yield is large, and the quality superior. The finest parchment paper is made of it. We hear of a man who is independently wealthy with a plantation of 400 acres. It is not in Hawaii, but it probably might be.

NEW PINEAPPLE ENTERPRISE

There is a big pineapple enterprise on the carpet for the East coast of Hawaii. It is a scheme to raise pines on such lands as are available all the way from Waipio into the middle of Puua, a stretch of 75 or 80 miles with much excellent land suitable for pines.

The cannery will be situated at or near Hilo, where the shipping facilities are excellent and the pines will be transported to the factory by means of the Hilo Railway.

Some radical prophets go so far as to predict that pines will take the place of cane in Hamakua because of the prevailing dry weather in that district.

HAWI PLANTATION TO MAKE FUEL ALCOHOL

The Hawi Plantation, of Kohala—John Hind, proprietor—is putting in a plant to manufacture fuel alcohol from waste molasses. It will have a capacity of 300 gallons a day. It is another sign of the times and an indication of what we are coming to.

I hereby certify that the foregoing is a true, just and correct statement of the result of the Primary Election held on the 2nd day of October, A. D. 1920 in the County of Kauai, Territory of Hawaii, as to candidates for various offices as shown by the copies of the Result of Votes Cast at the said election and received by me from the several Boards of Inspectors of Election of the Sixth Representative District of the said Territory of Hawaii, being the County of Kauai, and now on file in my office.

IN TESTIMONY WHEREOF I have hereunto set my hand and caused the Seal of the County of Kauai to be affixed hereto at LIHUE, this 6th day of October, A. D. 1920.

(SEAL)

J. MAHAI KANEAKUA,
County Clerk, County of Kauai.

Waimea Stables, Ltd.

Buick "4" Touring

Completely overhauled - - - - \$450.00

Any of the above cars will be sold for a small first payment and the balance in monthly installments.

Nawiliwili Garage, Ltd.

Promotion Bureau Report

(Continued from Page 2)
is kept busy dispatching letters, maps, literature, etc.

VISITORS

Callers at the Bureau for the last month totaled about 873, the largest day's business being 62 visitors. These visitors came with many wants, some desiring literature, others, information concerning the Islands, and still more to consult maps, atlases, directories, and current literature and periodicals on file. Many local people called during the month to obtain old magazines which were given away by the Bureau and also large wall maps of the United States which have been on hand for so long that they are deteriorating and which are being donated to business houses, offices and schools.

SUBSCRIBERS

New subscribers to the Bureau during the month were the Donna and the Pierpont hotels. One subscriber, i. e. a small Chinese grocery store, discontinued, leaving a total of 111 local subscribers. Other prospective subscribers were canvassed by the Acting Secretary.

TOURISTS

Approximate figures for August of tourists for Honolulu are 1202 local passengers and 2152 through passengers, showing a gain in local and a loss in through traffic during the last month.

PICTURES

A total of 257 photographs were mailed out by the Bureau during the last month, as follows: 8 to Philip B. Dancy for the Matson Company's magazine "Aloha," 13 to Hans Seedorf to illustrate a book, 9 to the Southern Fruit Growers Association, 5 to Mrs. Gunn for display, 38 to "Leslie's", and "Judge" magazines for publication, 69 to Leonard Withington for general distribution throughout the United States 65 to Fred J. Halton for a railroad publication featuring Hawaii, 50 to the "Saturday Evening Post" for publication. The Acting Secretary wrote letters last month to both the "Literary Digest" and the "Saturday Evening Post", taking the former to task in a friendly manner for omitting Hawaii from comprehensive "Summer Tours in America" which appeared recently and receiving an answer assuring the Bureau that Hawaii would have prominence in its winter article, and offering the "Saturday Evening Post" pictures of Hawaiian scenes for publication, and receiving a letter announcing the intention to use some of the same with appropriate captions.

Poliahu Park Secured

The executive order setting aside and constituting the Poliahu Park at Wailua has been issued by the Governor and the tract has been turned over to the board of supervisors.

It is a long narrow strip of ridge between the Wailua and Opaikua streams, about a mile and a half long, and containing 61.5 acres, but that 61.5 acres contains more picturesque possibilities than most parks with ten times that area.

Overlooking the tropical valleys below on either side the trip through the park is a shifting panorama of much interest and rare beauty.

At present it is rather awkward to get at as the approach must be made by way of Kapa'a, and then back through the homesteads to the new Wailua series. But as soon as the bridge is put in near the upper Wailua falls, that beautiful region will be easily accessible from Lihue and all this side of the Island.

Ultimately there will be a road leading up to and through the park from the coconut grove at the beach, at Wailua.

All things considered, Hawaii is beginning to question the wisdom of the concrete road. Considering cost, upkeep and satisfaction, they are drifting toward the asphalt macadam construction.

MISCELLANEOUS

On August 6 the Acting Secretary entertained Dr. Barton Warren Evermann of the Steinhart Museum, Golden Gate Park, San Francisco. Doctor Evermann has returned to the States after completing arrangements for a collection of Hawaiian fishes which will be placed in that museum.
