REPUBLICANS ASSURE ATKINSON

As the result of the conference that Chairman A. G. M. Robertson had with Secretary Atkinson yesterday relative to reaching some conclusion over the disbursement of the \$30,000 appropriated by Congress for certain expenses of a regular session of the legislature, a meeting of the Executive Committee of the Republican Territorial Committee was held at noon today.

The matter was presented to the committee. It was explained that if some assurance could be given Secretary Atkinson that the Republican members of the legislature, who happen to be in the vast majority, would not draw extra pay or mileage during an extra session, the Secretary would disburse the \$30,000 appropriation.

The following resolution was adopted, covering the matter:

Resolved, That it is the sense of this Committee that the Republican members of the Legislature should give such assurance to the Secretary of the Territory that they will not claim or draw any compensation for an extra session called under Section 54 of the Organic Act as may be required to make available the appropriation of \$30,000 for Legislative expenses made by Congress by Act of June 8, 1906.

METHODIST BISHOP CRANSTON COMING

WILL PRESIDE AT THE ANNUAL MEETING OF THE METHODIST CHURCH OF HAWAII INSTEAD OF BISHOP HAMILTON WHO WAS EXPECTED BUT WHO HAS SUFFERED COMPLETE PHYSICAL COLLAPSE DUE TO OVERWORK.

Rev. J. W. Wadman has received word that Bishop Hamilton of the Methodist church who was expected to come here and preside at the annual meeting of the Methodist church of these islands, has suffered a complete physical collapse, due to the tremendous strain he has been under.

Following the earthquake and fire in San Francisco, there was thrust on him the tremendous responsibility of rehabilitating the church. He undertook to raise for this purpose a half a million dollars. He went east to seek aid and has been working very hard ever since. The result has been a collapse which will prevent his coming here as was expected.

TANTALUS ROAD WAS DAMAGED

RECENT RAINS DO CONSIDERABLE DAMAGE ABOUT HONOLULU AND VICINITY.

Considerable damage has been done about the city and vicinity by the recent rains. Tantalus road has suffered more than any other place. From Punchbowl leading up toward the forest lands, there have been a number of washouts. Road Supervisor Johnson has a force of men at work repairing the road, so as to put it into proper condition.

A number of small culverts on the Kalia valley road were washed out. The repairs to the big storm drain at the corner of Kewalo and Wilder avenue have been completed today. A number of gutters in the Makiki section were washed out.

There was also some minor damage done to streets and roads but nothing of material consequence.

Johnson intends to fill in the sunken space Ewa of the retaining wall at the head of the slip mauka of the Hackfeld wharf. He will put a top dressing on the wall and make a foot walk 10 feet in width. At present the wall is a rocky place to travel and pedestrians are compelled to walk around by the road, which involves a slightly longer walk to the Hackfeld wharf.

HAGLUND TOLD OF THE WEATHER

SAID THAT CONDITIONS WERE RAPIDLY GETTING WORSE WITH THE STALLED JAP STEAMERS.

Captain Haglund the port captain of the Inter-Island Steam Navigation Company, occupied the stand during the entire session this morning in the U. S. District court. He was told of the weather and other conditions on while the Japanese S. S. Chiusa Maru was aground. Haglund corroborate the statements of Captain Macaulay in this regard. There was quite a swell running at the time and the wind was from the south southeast, a condition that militated against the vessel. Haglund stated that in his opinion if the steamers Aenuhou and Kinau of the libelling company, had not gone to the assistance of the Chiusa Maru when they did, and only the revenue cutter Manning had gone, that the combined efforts of the vessels could not have later floated the Chiusa Maru. He said the current was setting in stronger during the afternoon. The case is on this afternoon.

MUCH INTEREST IS MANIFESTED IN THE MAUNA LOA OUTBREAK

MANY PEOPLE INQUIRE AT THE OFFICE OF THE INTER-ISLAND COMPANY AND OF THE HENRY WATERHOUSE TRUST COMPANY AS TO THE BEST MEANS OF GETTING TO THE SCENE OF ACTIVITY—KINAU'S ARRIVAL AWAITED WITH GREAT INTEREST.

Neither George Lycourgos nor the Henry Waterhouse Trust Company received any further messages regarding the outbreak of Mauna Loa this morning.

At the office of the Henry Waterhouse Trust Company there were many inquiries regarding the outbreak by persons who have a more or less definite notion of going to see it. Most of them were inclined to await the arrival of the Kinau tomorrow with more detailed information regarding the outbreak and the prospect of it continuing long enough for visitors to get a chance at it.

There were some inquiries about the outbreak and the means of getting to it from the Kona side by people who had some notion of taking the Mauna Loa at noon today. But the information regarding the outbreak seemed to be too indefinite, or the time to get ready too short, for, as far as could be learned no one went by the Mauna Loa for the purpose of making the ascent to the scene of the outbreak. It is thought by men well acquainted with the region, that if the outbreak is in Mokuaweewe, or anywhere else very near the summit, the best way to get to it is from the Kona side.

A message from the Volcano House was as follows:
Mokuaweewe burst out last night, about eleven-thirty, lighting up the whole heavens. Fountains by thou-

sands plainly visible as they spout fire. Glow must have been seen for miles. A message from Hilo at 4 o'clock yesterday afternoon was as follows:
Lava is flowing from Mokuaweewe toward South Kona. It is reported from the Volcano House this a. m. that there are apparently two outbreaks, one on the Kona side of Kapapala ranch. Over thirty slight earthquakes have occurred here (Hilo) since midnight. Early this morning the eruption had subsided but smoke is still visible at the summit.

At the time of the outbreak of 1902 there were reports of lava flowing from various points and in various directions. This was due to the fact that the refraction and reflection of the light as seen from various points and great distances is very deceptive and confusing. It was more than a week after the first reports in 1902 before it was definitely ascertained that there was but one outbreak and that was in Mokuaweewe.

So in the present instance until some party has actually visited the outbreak it will not be definitely known just where it is or whether there is more than one.

Mokuaweewe is upwards of 12,000 feet above sea-level, and is miles from any habitation, and is only reached with difficulty over regions of lava and volcanic formation where there is no semblance of a trail.

Distillery Opening Postponed

KONA PEOPLE FAILED TO SEND PROPER DRAWINGS SO COLLECTOR HAS TO DELAY PLANT.

The okolehao distillery can not be installed for some time. It had been planned that Collector of Internal Revenue Chamberlain and possibly one of his deputies would go to Napooopo today to install the distillery but instead, it was necessary to dispatch M. H. Webb as a draughtsman to draw the plans of the distillery.

Under the law the collector of internal revenue must be provided with plans of a proposed distillery showing every detail of pipe and every connection and faucet on the pipes. The sketch of plans that were forwarded by the distillery people to Chamberlain failed to comply with these and many other important details required by law. In fact the drawings looked as if they were the work of some school boy.

Chamberlain accordingly sent Webb to Hawaii by the Mauna Loa today with instructions to prepare the plans according to law. After the plans are approved then the distillery will be installed by the Federal officials. Fully ten days or more are now likely to elapse before okolehao is turned out by the Kona concern.

Sheriff Appoints Ladies

MISS ROSE DAVISON HUMANE OFFICER AND MISS JULIA BUSH STENOGRAPHER.

Sheriff Iaukea has said that he will have no politics in the police department and he is carrying out this promise in at least two appointments to positions in the department for he has named ladies for two offices.

Today the sheriff issued a commission to Miss Rose Davison as humane officer, to look after the interests of all beasts of burden and all dumb brutes which make the lot of man lighter by their toil and friendship. Miss Davison was presented with the badge of a special police officer and was also armed with her commission. The humane officer will within a day or two be established in the police station with a little office of her own where she may be seen at certain times by those who wish to lodge complaints against folks who do not appreciate animals and are careless in their treatment of them. Miss Davison now poses.

SEVERAL APPEALS ENTERED. Appeals from the Honolulu District Court have been entered in the Circuit Court in three cases of Parke v. Cartwright, Assessor Holt v. John F. Colburn and Assessor Holt v. John F. Colburn and Assessor Holt v. Wm. M. Mahuka.

HOW DIPHTHERIA IS CONTRACTED. One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ.

TURN DOWN A CONTRACT. HILO, January 10.—The supervisors have repudiated a contract made by the former board on November 9, with the Honolulu Iron Works for \$1245 worth of road machinery, because the old board did not leave the money to foot the bill. The supervisors claim that the contract is illegal under section 64 of the County Act.

MORE ABOUT WALKER'S APPEAL. A writ was filed yesterday by A. S. Humphreys in behalf of H. T. Mills in the latter's case against J. S. Walker. It is claimed in the affidavit that the defendant's bill of exceptions deals with matters that occurred in the District Court and not the Circuit Court, whereas the appeal that has been taken is from the Circuit and not the District Court.

**DRUNKS FOR
LAST YEAR**

DISTRICT MAGISTRATE TELLS
THE CHIEF JUSTICE ALL ABOUT
INTOXICATION.

Judge Whitney of the police court
has made the following report on
drunkenness for 1906 to Chief Justice
Frear:

**SPECIAL REPORT ON DRUNKEN-
NESS, YEAR OF 1906.**
To the Honorable Walter F. Frear,
Chief Justice of the Territory of
Hawaii.

The year 1906 being the first full year
under the liquor law passed by the Leg-
islature of 1905, and that law having
undertaken new and, to this Territory,
unique methods of decreasing the li-
quor evil in the community, it is perhaps
proper that a special report of that
branch of the work of the District Mag-
istrate of Honolulu be given.

The figures hereafter appended cover
the period from the first day of Janu-
ary to the thirty-first day of Decem-
ber, 1906, both inclusive, or the com-
plete year of 1906.

During this period there have been re-
corded 895 arrests for drunkenness, in
the Honolulu police station. Of this
number 296 have been released without
trial by the Sheriff or his deputies
under a claimed right and a certain
custom of use of this prerogative.

There have been reported by the
Sheriff to this court for trial 599.

Of the 599 reported for trial, there
have been certified to the Treasurer 538
the balance, 61, being cases not-prossed,
stricken from the calendar, or who have
forfeited their bail.

The number of those reported to the
Treasurer represents convictions in the
court, less 9 cases of bail forfeit re-
ported.

Of the 538 thus reported, the number
of times convicted of each defendant
has been reported as follows:

First conviction.....	466
Second conviction.....	64
Third conviction.....	21
Fourth conviction.....	12
Fifth conviction.....	10
Sixth conviction.....	6
Seventh conviction.....	4
Eighth conviction.....	3
Ninth conviction.....	3
Bail forfeited (as above reported).....	9
Total.....	538

It will be remembered that Subdivi-
sion 5 of Section 12 of Act 87, of the
Session Laws of 1905 makes it a condi-
tion of the license of any saloonkeeper
that he shall not sell liquor of any kind
to any person twice convicted of
drunkenness, and Section 49 of the
same act makes it a criminal offense
to do, with a penalty therefor in
any sum not exceeding \$1000.

It will be seen from the above figures
that there have been brought before
this court cases involving 62 violations
of the above sections. In each case
(save one where the defendant was too
shattered in body and mind to testify)
the magistrate has examined the de-
fendants as to where the liquor was
obtained and as to who, if anyone, wit-
nessed the violation of the act. These
examinations are all recorded in the
court's minutes, and the cases reported
to the Treasurer.

In September and October the Treas-
urer, through the County Attorney's
office, instituted four suits for viola-
tion of the act in this regard. Two of
these cases have come to trial and have
resulted in convictions, the remaining
two being still on the court's calendar.

The prosecution in the above-entitled
cases has deemed it necessary to prove
that notice of the second conviction of
the party had been both sent to and
received by the defendant, and has ex-
perienced large difficulty in so proving.
Likewise the prosecution has found it
extremely difficult to prove by whom
the liquor was furnished, having shown
at what saloon the same was obtain-
ed. Both these difficulties could be
easily removed by legislation, and
would, I believe, result in a better en-
forcement of this salutary act.

As to the efficacy of this particular
act in limiting to any degree the evils
of the liquor traffic, it is not within
this report to argue, but the records
show no improvement along these
lines. Respectfully submitted.

(Sgd) W. L. WHITNEY,
District Magistrate of Honolulu,
Dated at Honolulu, January 7, 1907.

**PURE FOOD LAW
AND RICE GROWERS**

SOME OF THE THINGS USED IN
POLISHING RICE—ALL DISAP-
PEAR BEFORE USE.

Representative rice growers, brokers
and millmen held a meeting November
25 to determine what course should be
pursued by the rice interests in con-
forming to the regulations of the pure
food law which applied to that food
product.

The meeting was attended by many
Texas rice men, as well as by many
Louisiana and New Orleans millmen.
After a full discussion of the applica-
tion of the pure food law to the rice in-
dustry, it was decided to appoint a
committee of six, who should go to
Washington within the next few days
and confer with Dr. Wiley regarding
the matter at issue.

It was stated at the meeting that the
only branch of the industry affected by
the pure food law is the milling indus-
try. In polishing rice talcum, glucose,
paraffin and oil are used, but it is said
by the millmen that before rice is pre-
pared for the table all these substances
disappear. Between the time of the

**WORK OF LAND
REGISTRATION**

JUDGE WEAVER REPORTS TO
CHIEF JUSTICE FREAR ABOUT
THE NEW COURT.

Some interesting data is given by
Judge P. L. Weaver of the Court of
Land Registration, in his report made
recently to Chief Justice Frear. The
report covers the period of 18 months
ending December 31, 1906.

During that time the Land Registra-
tion Court has acquired jurisdiction of
12,124 acres of land, valued for pur-
poses of taxation at \$1,695,160. More
than 100 petitions have been filed. The
decrees issued in 1906 numbered 34.
These covered house lots of about 905-
322 square feet, or 21 acres, and coun-
try property of about 3178 acres—frac-
tions here omitted—a total of 3199 acres.
The total area of titles adjudicated to
Dec. 31 last was 3645 acres.

The assessed value of property regis-
tered in the 34 decrees of 1906, for pur-
poses of the assurance fund, was \$422,-
685; from the beginning of the court in
1904 to the end of 1906, \$710,540, and of
property pending registration, \$254,626,
the last two sums making the total of
\$1,695,160 above mentioned. About
15 acres of house lots and 8424 acres of
country property, a total of 8439
acres, are pending in court, which with
the registered area make the 12,124
acres over which the court has acqui-
red jurisdiction.

Referring to the fact that 41 new
petitions were filed in 1906 as against
72 for the preceding period of two
years, Judge Weaver says:

"The failure of the Legislature to ap-
propriate sufficient money to pay the
expenses of the court has caused peti-
tioners to postpone action until a new
appropriation shall be had, notwith-
standing the fact that funds are de-
posited by the petitioners to meet ex-
penses, for the greater part. Thus the
number of petitions is less than it
would have been had an adequate ap-
propriation been made.

"The experience of the past year,"
Judge Weaver proceeds, "shows clearly
the value of the system in many of
the particulars mentioned in my last
report.

"Street lines are established, govern-
ment claims of easements are there-
fore defined and settled; government
remnants of land inside of private
grounds are discovered and title ac-
quired and settled; unreleased mort-
gages, forgotten, are discovered and
released, pedigrees, not of record, are
established and title proved; govern-
ment commutations in lands are set-
tled rather than let the defect appear
on the certificate of title.

"It is important to note again that
there ought to be legislation to remedy
the evil resulting from the ownership
of a small subdivision of land which
has never paid commutation to the
government. Under present law, there
is no proceeding by which an owner
of a subdivision may get his lot re-
leased from the encumbrance. This is
a real need in case an energetic govern-
ment should attempt to enforce the
claims of one-third interest in country
land and one-fourth in city land.

"I would recommend that the Act be
amended in certain particulars.

"First: The Territory or County
should be allowed to register its own
title and at a nominal cost.

"Second: The section governing ap-
peal should be amended so that the
issues of fact in the case must be sub-
mitted to a jury for special findings
of fact on which the judgment of the
court may be based.

"Third: Persons acquiring title di-
rectly from the government should be
allowed to register title for a purely
nominal fee, if applied for promptly."

will disappear. The first bottle will
cost you nothing if it fails to help you.

It will be the purpose of the commit-
tee, which goes to Washington to make
this feature plain to Dr. Wiley, and it
is believed that the Department of Ag-
riculture will rule that the present
method of milling may be continued
without fear of violating the pure food
law.

The Outbreak On Mauna Loa

It is not surprising that the reports of the outbreak on the summit of Mauna Loa should be somewhat indeterminate as to the exact locality, and somewhat conflicting as to which side it is, and whether there may not be more than one outbreak. In 1903 when the last outbreak occurred, it was not until after parties had actually ascended to the point of activity by different routes, that it was made certain that there had not been an outbreak of more than one place.

That this uncertainty should exist is not surprising. The crater of Mokuaweoweo is 13,000 feet above sea level or a little more, while Mauna Loa itself towers a few hundred feet higher. The mountain has a base seventy miles in diameter. There are no habitations within many miles of the summit—twenty-five miles at least on all sides except possibly the South Kona side, the abruptest side of the mountain. Clouds rest on some portion of the mountain most of the time.

When it is remembered how difficult it is to determine the approximate distance of a burning house or a burning trash pile seen at any distance beyond a mile, and particularly at night, it can be readily understood how difficult it is to determine the exact locality of this outbreak, which manifests itself, at a distance, only by light and smoke. It is miles away, and up thousands of feet. The light is reflected by clouds and refracted by variations in the density of air strata. There are few or no familiar and definite land marks. It presents a different appearance from every point of view, and there are as many different points of view as it is possible to have in a complete circle whose diameter cannot be much less than fifty miles.

Conflicting reports, therefore, both as to the appearance and exact locality of the outbreak are to be expected, and as to whether there are more than one point of outbreak.

Of this, however, everyone may be assured, that any outbreak of the summit of Mauna Loa is a magnificent spectacle well worth going to see, and well worth many difficulties to reach. Everyone may be assured also that though the ascent is not easy, there is nothing in it from which a well and able-bodied man, or woman either, who has a decent amount of resolution and fortitude need quail. Parties attempting the ascent should go well prepared—not because of the danger—but to minimize the inconvenience and the effects of altitude and low temperature. Water is the great essential to be taken along. Alcoholic liquors of any sort should be strictly tabooed.

The trip is one that once taken will never be regretted. It will be an experience to be recalled with pleasure and satisfaction ever afterwards.

Canada And Mail Rates

An interesting situation has been brought about by the announcement by the Canadian Government of the abrogation of the postal convention between Canada and United States on May 7 next. The Canadian Government contends that the United States transports as second-class matter a number of publications which are not properly classed under that head, and that it cannot transport such publications except at a loss. The matter has been under consideration by a joint committee of the Senate and the House for a couple of months, and it is possible that an effort may be made to settle the difficulty by legislative action. In case this should not be found practicable the two governments will fall back on the International Postal Union rates, unless the Canadian Government should come forward with a new proposition. The only difficulty about rates has reference to those for second-class matter, in reference to which, it is suggested, another convention might be framed.

Dr. Scudder And The Japanese

The current number of "The Friend," contains an extended and evidently carefully written article on the Japanese question by Dr. Doremus Scudder. Dr. Scudder does not touch on the question of whether or not the action of the San Francisco Board of Education is in violation of the treaty rights of the Japanese. Nor does he adopt the assumption that it is. He treats the whole matter on what appeals to him as principles more basic than any such questions.

He sees no probability—almost no possibility—of war between Japan and the United States. But he does see an ultimate possibility of what is far worse if equity and ethics, as he views them, do not prevail.

His conclusions on the whole subject are as follows:

"Unless insensate folly should lead California people to commit some great outrage upon Japanese, war between the two nations is unthinkable. The statesmen of the Emperor are as wise as our own. It may please the press of both countries to make larger sales by war scare talk, but there is too much conscience in the world today to suffer any such outcome as a reference of the question to arms.

"The danger is something far graver and of much greater menace to human progress. A ruptured friendship between individuals is an experience whose pain may blight a lifetime, but a sundered international relation of mutual trust, respect and admiration just at this moment when the world stands on the threshold of the New Era of Peace will be unspeakably tragic. It is in Asia's power to deal American commercial expansion a blow that for decades will be irreparable. If we persist in our cruel treatment of the Asiatic—for nothing in the material realm can compare in cruelty with the denial of essential brotherhood to a fellow human race—this blow must fall. Asia may not always be able to live unto itself alone but it can do this more successfully than we can. Much better for us to go hand in hand each reacting helpfully upon the other than to force Asia into a bitterness of competition wherein her ideal resources in labor and in land give her such vast advantage.

"Is it not time for labor in the United States to become truly international in spirit? Much labor literature delights in the expression, human solidarity. It is more than a term, it embodies a mighty truth. But to restrict it to whites is to stultify it. It is perfectly clear that acting under this general principle of equality it may be both just and wise for nations to regulate and restrict immigration so as to protect workingmen from a disturbance of economic conditions likely to prove disastrous to large numbers of men. This is a question of policy to be determined by experiment. But all such regulations must never interfere with the basic principle of brotherhood, of human solidarity.

Comes Back At M' Candless

The reply brief on behalf of respondent James W. Pratt in the Lunalu Injunction proceedings was filed this afternoon with Judge De Bolt by Second Deputy Attorney General F. W. McVernon. This is the case where L. L. McCandless has secured a temporary injunction against Pratt disposing of the government's Lunalu lands. The brief by McCandless was submitted several days ago.

The reply brief calls attention to the failure of the complainant to answer the two portions of the first brief for Pratt wherein it is claimed that the bill in equity is insufficiently verified to entitle the plaintiff to relief by injunction and secondly that an injunction cannot be granted upon a bill stating conclusions of law. Counsel for complainant argued that McCandless was entitled to bring the proceeding from the mere fact that the Lunalu lands which were producing rentals were to be exchanged for other lands for public purposes and was sufficient of itself to justify the court in the absence of any allegation in the bill that loss or damage would result to the Territory and incidentally to L. L. McCandless as a taxpayer, granting such injunction.

It is contended in the answering brief that it is not the duty of the respondent at this stage of the proceedings to allege whether the lands which were to be received in exchange for the Lunalu lands are income producing property and will indemnify the territory from possible loss through such exchange. The bill in equity should have shown affirmatively that the loss of rentals was not to be made good by the exchange. The court should assume, in the absence of affirmative allegations to the contrary that the acts of the respondent will be lawful and that in making the exchange nothing will be done in violation of the local laws or the Constitution of the United States.

The brief then takes up the argument as to whether there will be any loss to the Territory through the proposed exchange. The contention is made that there will not be for it is proposed to exchange the Lunalu lands for lands of equal value and greater immediate service to the Territory. It is in effect argued that through the exchange the government would secure lands in fee simple for school purposes that would be rental saving or revenue saving.

It is contended that McCandless will in no way personally suffer a personal loss. Attention is called to the fact that the annual rate of taxation is set by law and that McCandless could not be compelled to pay any more than that rate. Nor could he be called upon to pay any part of any loss should any ensue to the territory through the Lunalu transfer.

The brief cites a number of injunction cases and enters into quite an extended discussion of the legal technicalities of the case. Replying to the contention that the proposed exchange is against public policy because the Organic Act provides that no corporation shall acquire and hold real estate in Hawaii, in excess of 1,000 acres, the brief continues:

On page 21 of his brief, complainant thinks that the proposed exchange of Lunalu lands is against public policy because the Organic Act provides that no corporation, domestic or foreign, shall acquire and hold real estate in Hawaii, in excess of 1,000 acres and that all real estate acquired or held by such corporation or association, shall be forfeited and escheat to the United States. This is rather a far fetched argument. The view sought to be reached by acts similar to the provisions of the Organic Act relating to the holdings of corporations are well known. They have no analogy to the facts in the case at bar. Not only that, but the proposed exchange of the Lunalu lands comes neither within the letter nor even the spirit of the Organic Act. That portion of complainant's brief relating to the provisions of the Organic Act, as to wharves and landings (pages 21, 22) has more strength when considered in view of the provisions of the Organic Act as

HONOLULU HARBOR NOT A LABOR UNION

THIS WELL KNOWN ORGANIZATION OBJECTS TO CERTAIN STATEMENTS.

EDITOR HAWAIIAN STAR.—Dear Sir: Through the columns of your valuable paper, if you would kindly grant us the space, we desire to contradict a statement which appeared in the Evening Bulletin, of January 8th, 1907.

The statement referred to, appears under the heading, Iaukaia Given Free Hand by Democrats.

The portion of the article to which we strongly object, is that which states that Mr. L. B. Reeves had applied for membership in the local Harbor of Masters and Pilots and that he was refused admittance and that possibly his strike-breaking record was what stopped him.

Mr. Reeves has never applied for membership in our Harbor, nor would his strike-breaking record, if he has one, stop him.

We realize that this article has created a wrong impression of our Association, placing it on a par with labor organizations.

We are licensed Masters, Mates and Pilots of vessels of the United States and are organized for the better regulation of matters pertaining to our craft, the promotion of the social welfare of the members of our profession, the elevation of our standing as such, and we aim to be a respectable body of men, studying the interests of our sim-

quoted in the brief than when considered in the light of the provisions of the Organic Act when correctly quoted. Complainant says on page 21 of his brief:

"Again it is provided that wharves and landings on any sea coast, or harbor shall remain under the control of the Territory which shall enjoy the revenue therefrom on condition that said property shall be kept in good condition for the use and convenience of commerce etc. (Sec. 89.)"

Section 89 of the Organic Act as it actually reads is as follows:

"That until further provision is made by Congress, the wharves and landings constructed or controlled by the Republic of Hawaii on any sea coast, bay, roadstead, or harbor shall remain under the control of the government of the Territory of Hawaii, which shall receive and enjoy all revenues derived therefrom, on condition that said property shall be kept in good condition for the use and convenience of commerce, but no tolls or charges shall be made by the government of the Territory of Hawaii for the use of any such property by the United States, or by any vessel of war, tug, revenue cutter, or other boat or transport in the service of the United States."

It is clear from a reading of the whole Section that the wharves and landings referred to by Congress are structures to facilitate transportation and commerce, structures either erected by the Republic of Hawaii or erected by private persons and controlled by the Republic. The wharves and structures referred to mean something more than harbors or stretches of beach where landings are capable of being made. Lunalu may have one or two fair harbors of landings, but unless there were on such harbors or landings some structures erected for the use and convenience of commerce, Section 89 of the Organic Act would not in any manner be applicable. Complainant's query (brief page 24) as to what becomes of that portion of the Organic Act requiring the landings to be kept in good condition for the use and convenience of commerce when the government of the Territory seeks to sell all its public land which includes the landings and wharves of Lunalu can be answered by the question, "What wharf or structure in the nature of a landing does the bill allege will be disposed of by the government under the proposed exchange?"

Between pages 22 and 23 of his brief, counsel for the complainant has slipped in a page unnumbered, upon which is pasted a couple of printed slips evidently culled from some newspaper or newspapers. The matter contained in the clippings, while interesting perhaps as expressing ideas upon matters which at the present time are merely discretionary as far as the executive officers of the Territory are concerned, throw absolutely no light upon the legal question involved in this controversy and are not of the slightest interest or value to "a student of the law." Upon what counsel for the complainant bases his statement that the land Commissioner desires the Organic Act changed to suit his monarchical tendencies, the record does not disclose. This statement as well as the clippings were probably incorporated into the brief to give to the claim of the complainant a semblance of stability such as a personal of the complainant's bill would fail to disclose.

It is submitted that not only has the complainant, L. L. McCandless not shown that he has any interest sufficient to entitle him to bring this proceeding, or that either he or the Territory will be damaged by the proposed transfer, but that from the allegations of the bill, it cannot be gathered that the proposed exchange of Lunalu lands will be made in violation of any law. The demurrer to the bill should be sustained.

Respectfully submitted, JAMES W. PRATT, Commissioner of Public Lands.

players as well as those of our own. We earnestly hope you may be able to allow us space, in which to correct wrong impressions which may have been formed of our Association, through the appearance of those erroneous statements.

Thanking you in advance for what we will consider a valuable favor, we remain, yours truly, HONOLULU HARBOR NO. 54, Frank C. Poor, Secretary.

SUPREME COURT DENIED WALKER'S MOTION—CRIMINAL CASE BEFORE JUDGE ROBINSON.

There was only one case before the Supreme Court this morning. This was the matter of Mills vs. Walker, defendant, and W. G. Irwin & Co., Ltd., garnishee. Argument on a motion by defendant to establish his bill of exceptions and for allowance of same was heard. George A. Davis argued for Walker and A. S. Humphreys for Mills. The motion was denied. The court adjourned until Monday at 10 a. m.

The taking of testimony in the case against Kalkana, charged with unlawful sexual intercourse with a girl under the age of 14 years, was begun before Judge Robinson and a jury this morning. The following compose the jury:

Eugene Vessie Todd, W. L. Warren, Richard Cheatham, B. H. Clarke, E. K. Fernandez, J. K. Clarke, James Steiner, W. G. Walker, C. A. Yarrick, H. N. Crabbe, John J. Greene, C. A. Bon.

W. T. Rawlins appears for defendant and W. S. Fleming is conducting the prosecution.

Acting for A. M. Brown, George A. Davis yesterday filed a motion and notice of motion to set aside the verdict rendered and for a new trial in the recent case of William Henry against Brown. Henry secured a verdict of \$1000 with interest at 10 per cent from July, 1900.

Judge De Bolt today overruled the demurrer of defendant W. C. Peacock in the case of Henry May & Co., Ltd., vs. W. C. Peacock, defendant, and W. C. Peacock & Co., garnishee, and gave defendant ten days in which to answer. This is a case where W. C. Peacock & Co. guaranteed the payment within 60 days of the bill of plaintiff for goods sold the Moana Hotel.

Exceptions to the decision in the Kay vs. Orpheum Co., Ltd., et al., where the plaintiff secured judgment for nearly \$7,000 on a promissory note, have been filed by the Orpheum Company. John F. Colbun, Mark P. Robinson, J. H. Fisher and Jonah Kalaniana'ole, by their attorney C. W. Ashford and by J. J. Dunne, attorney for W. H. McInerney.

The two cases against M. J. Colon, charged with assault and battery with a weapon obviously and imminently dangerous to life on two Japanese, were continued until Tuesday by Judge Robinson this morning. Another case occupied the attention of the criminal court today.

IMPLIES SHE WAS A TERROR.

Answer has been made by Ho Yun, represented by Wade Warren Thayer, to the libel for divorce brought by his wife. According to the answer of Ho, the wife's long suit was nagging. He says that when he married her, Kan As Soong he was working for S. M. Damon for \$3.25 a week. She knew he was poor but she married him, and for a time, she was a very faithful and true wife. But suddenly a change came over her and she began to taunt him with inability to earn much money. She threatened to seek another husband who would be a better provider. Finally Ho got tired of her foolishness so he brought the matter to the attention of the Chinese consul. There was conference of the parents of the couple and the husband and wife at the consulate and as a result Kam behaved better. Finally she left him last March, he alleges, and went to live with her father. She has ever since refused to come back home. He says he is making \$4 a week now as a stable and yard boy in Honolulu.

FLORAL PARADE AND WAIKIKI REGATTA

REGULAR WEEKLY MEETING OF THE PROMOTION COMMITTEE—CHANGE IN AGENCY.

The floral parade for February 22, and the Waikiki regatta scheme, were discussed at the meeting of the Promotion Committee yesterday afternoon. F. L. Waldron advanced some reasons why, in his opinion, for this year at least, the floral parade should be postponed to a later date. This did not meet with the approval of the other members of the committee and there will be no postponement.

The Waikiki regatta, however will form no part of the parade, and will be held later than February 23, at which time the excursionists from Los Angeles are expected to be here.

J. A. McCandless announced that he had called a meeting of the Auto Club for this afternoon to consider entering the floral parade, and he was of the opinion that the owner of practically every machine in town would be willing to enter.

Secretary Wood reported having completed arrangements for the Los Angeles agency of the committee being taken over by Lloyd Childs, who will establish the agency in the Chamber of Commerce building, where arrangements are under way for the placing of a very attractive exhibit. One special feature of the promotion work planned for Los Angeles will be the giving of illustrated lectures daily in the big auditorium in the Chamber of Commerce building, which will be commenced as soon as the films for the moving pictures can be obtained from the Edison company. The attendance at the building during the winter season is estimated at between twelve and fifteen hundred daily and the attention of visitors will be called to the Hawaiian lectures through advertisements in the local papers.

Secretary Wood has also written to the manufacturers for information regarding stereoscopic cases, in which from fifty to a hundred views of Hawaiian scenery can be shown. It is the intention to have two or three of these in the promotion rooms here and also some at Los Angeles. Correspondence is also being carried on with Lord & Thomas, of Chicago, the largest firm of poster advertising experts on the mainland. The idea is to prepare some Hawaiian posters for mainland advertising, beginning with a bathing scene at Waikiki.

The bills for the month amounted to \$748, of which \$363 was for mainland work. J. F. Morgan, the treasurer said he had experienced some difficulty in securing some of the merchants to renew their subscriptions for promotion work, and as it would be July 1 before any appropriation by the legislature would be available, it would be necessary for the committee to be careful in its finances.

Secretary H. P. Wood presented his report which was published in the Star yesterday.

HAWAII'S NEW BOARD OF SUPERVISORS

W. A. TODD IS CHOSEN CHAIRMAN—PLENTY OF PEOPLE LOOKING FOR THE PARCELLING OF JOBS.

HILO, January 8.—W. A. Todd is chairman of the Board of Supervisors which will have the direction of the affairs of this County of Hawaii for the next two years.

This was decided by the Democratic-Home Rule caucus held last Friday, a caucus in which T. J. Ryan was of course the controlling spirit. Of course the deal went through.

The new T. J. Ryan Board of Supervisors met on Monday at noon when there were present Supervisors O. T. Shipman of Kau, W. A. Todd of Hilo, W. M. Kalatwas of Kona, W. Purdy of Hamakua, J. F. Woods of Kohala, Gus Supe of Puna and Keaki of Hilo.

There were present in the meeting chamber just as many people who are looking for jobs in the county service as could possibly squeeze in.

And it was very hot. On motion of Shipman, Todd was appointed temporary chairman, this being followed by the appointment of W. A. Swan as temporary interpreter.—Hilo Tribune.

THE WINTER SUICIDE.

William Winter, the young Scotchman who committed suicide by blowing out his brains with a shotgun at Puako over a week ago at the wireless telegraph station had been in Hawaii for six years, instead of six months as had been stated. He came over at the same time that R. Lindsay, of Waiakae, came. From what was learned from Mr. Lindsay it seems that some two years ago Winter developed a case of consumption which proved hopeless and he was gradually growing more despondent when last he wrote.—Hilo Tribune.

Swallowed kerosene oil.
Lorrin H. Beers, the eighteen months old son of W. H. Beers, formerly clerk of the district court, had a narrow escape from death yesterday. Mrs. Beers and her boy are staying at the R. A. Lyman residence, Mr. Beers at present being at the Ann Arbor law school.

The little fellow somehow obtained possession of a bottle of kerosene from which he drank a portion of the contents. He was seized with convulsions but fortunately was found. Dr. Grace was summoned and the child was soon brought round. No serious results are anticipated.—Hilo Tribune.

COMPANY D ELECTS OFFICERS.
The election of officers for Company D, National Guard of Hawaii, were held at the Armory on Friday night, Captain Fetter presiding. Capt. Fetter was unanimously re-elected to the command of the company. First Sergeant J. D. Easton was elected First Lieutenant and O. K. Akau was chosen for Second Lieutenant. Captain Fetter will continue as company treasurer and private Enoch Brown as secretary.—Hilo Tribune.

DECK LOAD FOR HONOLULU.
The schooner H. C. Wright, 275 tons, which arrived Wednesday afternoon, 27 days from San Francisco, after a most stormy passage, will discharge her deck load of lumber here and proceed to Mahukona to discharge general cargo. On Christmas eve her cargo shifted and the schooner was for a while in a dangerous condition, but the cargo fortunately righted itself.

YACHT CLUB ANNUAL

The second meeting of the Hawaii Yacht Club for the election of officers will be held Wednesday evening, January 23. Chris Johnson is building a thirty-foot yacht for Sam Barker and H. Jaeger is expecting a 30-foot launch from the Coast. George Crocker may build a 24-foot yacht. D. L. Cookling has had his sleep brought from Kona.

CONCERNING THE INFALLIBILITY OF THE POPE

By Rev. Father James Heise.

New Dogmas of the Church—Misapprehension, Bewildered about the Infallibility of the Pope—Some Most Questionable Answers.

THE INFALLIBILITY OF THE CHURCH.
The Church is infallible in the discharge of its office as teacher of Christ's doctrine.
That the church has the power to teach with authority, so that all are bound to accept the divine truths which it proposes, we have shown in our first article (Star January 5). The supernatural assistance on which rests its infallibility, does not imply a manifestation of truths never before revealed, but such a guidance as to enable it to teach without error the truths once revealed by Christ and the Holy Ghost to the apostles. Divine assistance does not in any way exclude the natural activity of the mind in those invested with the teaching office; it only accompanies and supplements the intellect, preserving it from error and directing it to the certain knowledge of the revealed truth.

The infallibility of the church in the discharge of its teaching office follows from the promises of Christ. Christ promised His apostles and their successors His perpetual assistance in the preaching of His doctrine "Behold I am with you all days, even to the consummation of the world." (Math. XXVIII 20.) But Christ would not be with the teaching body in His church unless He enabled it to discharge that office efficiently, i. e., to preach without error that doctrine, which is the foundation of Christian life and the ground of all our hope (Hebr. XI 1). Christ promised the Holy Ghost to the apostles and their successors: "I will ask the Father, and He shall give you another Paraclete (advocate, helper, intercessor) that He may abide with you forever, the Spirit of truth (John XIV 16, 17). When the Spirit of truth is come He will teach you (He will lead you into all truth." (John XVI 12.) By these words is clearly indicated that the object of the Holy Ghost's assistance is simply to preserve the faith pure; and that not in the apostles only but also in their successors, who have the same mission, viz., to teach the truth. For the Holy Ghost is to remain with the apostles forever, not for a time. Again, Christ promised that the church He was to found upon St. Peter would be imperishable: "Upon this rock I will build my church, and the gates of hell shall not prevail against it." (Math. XVI 18.) By the gates of hell are understood in general the assaults of the church's enemies, the most dangerous of which are those that threaten to destroy the faith, the very foundation of Christian life. Christ therefore, promised infallibility to His church by the fact that He gave it a foundation against which error should not prevail.

The church is represented by the apostles as infallible in its teaching. According to St. Paul, the church is the pillar and ground of truth (1 Tim. III 15.) The terms pillar and ground imply firmness, stability. Now, the church cannot hold firmly the truth it has received unless it is infallible in its teachings or the teaching of the church determines its faith. The apostles were convinced that it was with the assistance of the Holy Ghost that they issued decrees which were binding on the whole church: "It hath pleased the Holy Ghost and us." (Acts XV 12.) What is true of the apostles, is likewise true of their successors, since the same mission and the same promise were given to both.

Without the infallibility of the teaching church, the design of Christ in regard to His doctrine and His church could not be realized. The religion of Christ is to continue unchanged through out the universe to the end of time. Now, this is possible only in case that the teaching church, amid the numerous questions and doubts, and the various misrepresentations of its doctrine which necessarily arise, always possess

MOANA DELAYED BY BAD WEATHER

CARRIES BIG THROUGH PASSENGER LIST AND SAILS NORTH AT 3 O'CLOCK THIS AFTERNOON.

The Canadian-Australian S. S. Moana Captain Gibb, arrived from the Colonies at 9 o'clock this morning. She was detained half an hour at the Bishop wharf before her passengers were allowed ashore to permit the quarantine officers to examine her large list of passengers.

Twenty-four hours late in getting away from Suva and therefore due to arrive here yesterday morning, the Moana was delayed another day by the rough weather encountered.

The Moana brought for Honolulu 100 packages of tea, 300 cases of onions, 15 cases of preserves, a case of toys, 3 cases of cotton goods, one box of shells and one case of books and sundries. She sails for Vancouver and Victoria at 3 o'clock this afternoon.
