The Falling Leaves Give Warning of Winter

So the falling of the hair tells of the approach of age and declining power. No matter how barren the tree nor how leafless it may seem, you confidently expect leaves again. And why?
Because there is Life at the roots.

Ayer's Hair Vigor

will arouse it into healthy activity. The hair ceases to come out: it begins to grow: and the glory of youth is restored to you.

ANNEXATION BY BIG MAJORITY.

U. S. House of Representatives Passed the Newlands Resolution.

Speaker Reed Said to Be in the Dumps--Hilborn and Other
Californians Argue in Its Favor--News
From the Seat of War.

These are the latest dispatches from Washington, special to the San Francisco Bulletin, an evening paper, the day the steamer Moana sailed:

Washington, June 15.—Voting on the Hawaiian annexation proposition began in the House on a motion to substitute the minority for the majority resolution.

It was defeated by 205 to 94. The vote now comes on the question of adopting the annexation resolution.

Later—The annexation resolution has been adopted by a vote of 205 to 94.

Washington, June 15.—The House passed the Hawaiian annexation resolution by a vote of 209 to 93 this afternoon. It was an unexpectedly glorious ending to the long campaign that began at the opening of this session of Congress. The most sanguine friends of Hawaii hardly expected such an overwhelmingly decisive vote. The Republican opposition, which had been expected to carry the day, vanished into thin air when the roll-call came, and even Speaker Reed, who was the main and massive prop of the anti-annexationists, fled, leaving the chair to Dalzell of Pennsylvania, a thing Reed never did before when a big question was up.

Moana Brought the News.

The Moana has made herself more popular than ever by bringing the news of annexation as she did this morning. She was covered with bunting when she rounded Diamond Head and those in the pilot boat thought it meant peace or annexation news.

The placard "House Passed Annexation 209-91" was hung over her side and was greeted with a cheer. Coming up the harbor the steamer blew five blasts. The crowds on the wharf knew what it meant and cheered loudly time and time again. There were a great number of passengers aboard, there being over one hundred people for this port.

THE FLEET IS THERE.

Lieutenant Blue Performs a Daring and Useful Service.

Washington, June 14.—The Navy Department today posted the following bulletin:

miles of observation of the harbor of Santiago de Cuba. He reports the Spanish fleet is all there. The Spanish attacked vigorously the camp at Guantanamo. An outpost of our marines were killed and their bodies mutilated. Surgeon Gibbs was killed. The last lingering doubt that may have existed as to the presence of Cervera's fleet in Santiago harbor was removed when Admiral Sampson's dispatch reached the Navy Department last night. Up to that time information as to the number and character of the vessels lying in the harbor, shielded from observation by the hills, had been obtained through Cuban sources, supplemented by such glimpses as could be obtained by the naval officers from the outside entrance. Now, however, according to Lieutenant Blue, the ships have been actually seen by an American officer. The officials here are full of praise for Lieutenant Blue's achievement.

Latest War News.

Madrid, June 15.—Blanco has been authorized to exchange Merrimac prisoners, Lieut. Hobson and seven others.

It is said General Shafter's force has sailed from Tampa for Santiago.

The cruiser St. Louis has captured the British steamer Twickenham off Jamaica, which was carrying a cargo of coal under charter for the Spaniards.

Over thirty ships with 18,000 men under General Shafter sailed from Tampa on the 14th for Santiago de Cuba.

Secretary Long has instructed Admiral Sampson to promote all the members of the Merrimac's crew. Lieut. Hobson's reward will come later in Congress.

A. J. Cabrejo is a Spaniard making inquiries at Victoria about the shipment of coal to American ports and Honolulu for the American navy. He makes friends of no one, and it is believed he is paving the way for a protest from his government against the shipment of coal for the American fleet, which is now being done through middle men.

Washington News.

Washington, June 15.—The treasury shows available cash balance \$185,645,195. Gold reserve \$184,776,215.

To Take Cuba Also.

Washington, June 15.—Senator Elkins, who enjoys the full confidence of the administration, in a published interview this morning says that he believes this country will annex the Philippines, Cuba, Porto Rico and Hawaii. He says he does not believe the administration has outlined any general policy, but does believe it will keep all these territories, "as a sound business proposition."

Victory on Land.

Guantanamo, June 14.—The American Marines and the Cubans today completely routed a force of 400 Spaniards. One American was slightly wounded. The Spaniards lost about forty killed.

New York, June 15.—The following dispatch is a Journal special from Camp McCalla, Guantanamo harbor, June 15:

The scouting parties of marines which were sent out yesterday re-

turned here at 10 o'clock last night with eighteen Spanish prisoners, one of them an officer. The party also captured a hundred Mauser rifles and 10,000 rounds of ammunition. They report having had a series of engagements with Spaniards, in which 100 Spanish soldiers were killed and 200 wounded.

They also destroyed a Spanish blockhouse and the telegraph station, through which the Spaniards had been keeping Guantanamo and Santiago informed of the movements of American troops.

Manila Reported Fallen.

Washington, June 12.—The Administration does not know who is in possession of Manila, whether Dewey or Aguinaldo, but the capital of the Philippines has surrendered. Ambassador Hay cabled this fact to the State Department, saying his information comes from an authentic source in Hongkong.

Frightful Massacre in Africa.

Liverpool, June 12.—Steamers which have arrived here from Sierra Leone report that 1000 persons were killed in the recent uprising in that district. One hundred and twenty inhabitants of Freetown, most of them traders, are known to have been massacred, and other colonists were carried into the bush by the "war boys" and undoubtedly met a worse fate. Three hundred friendly natives were killed. Besides the white missionaries, six colored missionaries of the United Brethren of Christ were murdered at Manobargru. The English missionaries are at the mercy of the "war boys," but have not been molested.

NEW FLYING SQUADRON.

To Cross the Atlantic and Fight the Spanish Fleet at Home.

The New York Tribune correspondent at Newport News claims to have official confirmation of a report that a new flying squadron would be assembled, or the old one reorganized.

The Navy Department is believed to be considering two plans for the proposed dash across the ocean, one being to send a squadron of fast ships with large coal carrying capacity only for scouting, and the other being to dispatch one squadron ahead, composed of the fleetest ships and best fighters among the cruiser class, and to follow this with a second squadron, probably composed of two battleships, a number of colliers and several cruisers with lighter coal capacity.

It can be stated on good authority that this squadron, if the department decides to send it across the ocean, will be made up in part of the following cruisers: Brooklyn or New York, probably both, in which event the Brooklyn would be the flagship; Minneapolis and Columbia, St. Paul, St. Louis, Yale and Harvard. Any delay on Spain's part in moving its reserve fleet is likely to cause the formation of another squadron, to be composed of two such battleships as the Oregon and Texas, a number of colliers and probably several more cruisers.

FROM THE BULLETIN EXTRA

Spain is Appalled by the News from Manila.

Madrid Newspapers Advocate Securing German Aid—Astor's Battery for Manila—The Philadelphia for Honolulu.

Washington, June 13.—The Sun says the Philadelphia is going to Honolulu as soon as she is ready to sail, and that she will stay there until the American flag is hoisted.

Continual Fighting at Manila.

Berlin, June 14.—Advices from Shanghai by the Frankfort Zeitung says news has been received there from Manila to the effect that there is fight every night around the town. The insurgents, it seems are trying to capture Manila and to establish an independent government before the Americans land.

The German Consul at Manila, it is further reported, has 300 Germans and Swiss on board a refugee steamer in the harbor.

Spain's Bid For German Aid.

Madrid, June 14.—The Spanish press has increased its optimism, which is based on the belief that Germany intends to prevent a bombardment of Manila by making a naval demonstration. The newspapers urge sacrifices, with the view of securing Germany's assistance, and political leaders express themselves in favor of offering Germany the following concessions in return for her "taking the initiative in forcing America."

"Firstly—Naval stations and coaling depots in Spanish Oceania.
"Secondly—Spanish concurrence in the development of Germany's commercial relations with Morocco."

Astor's Men Coming.

Washington, June 12.—It is definitely settled that John Jacob Astor's battery will go to the Philippines, final orders to this effect being sent to Captain March last night. The battery will start immediately and it is expected that it will embark from San Francisco with the rest of General Merritt's troops, comprising the third expedition, about June 23d.

The horses and mules purchased by Colonel Astor will not be sent to San Francisco. General Merritt will take only a few horses with him as an experiment. He believes that the native horses will be more serviceable and less expensive. The animals purchased by Colonel Astor will be bought by the Government and sent to Cuba.

Spain Wants America to Occupy Manila.

Vienna, June 14.—The Neue Freie Presse says that Spain has requested the powers to urge the United States to occupy Manila, should the town surrender, and not to allow the insurgents to do so.

News Appalls Spain.

Madrid, June 9.—The correspondent of the New York World cables: Queen Regent Christina is profoundly alarmed and agitated at the news of the war, particularly the reports from the Philippines. Moreover, popular irritation against the Government and all existing institutions is assuming a dangerous phase. Everybody believes that the Sagasta Cabinet and the Liberal party will soon have to make way for Campos, Silvela and the Conservatives, who will take the last stand for the defense of the dynasty against the bitter rage of the nation, making a pathetic appeal to the Pope and Continental powers of Europe.

The startling telegram from Governor General Augusti caused

the impression that Manila either had surrendered already or was on the eve of surrendering. The latest rumor is that General Augusti, in a fit of despair, tried to commit suicide, but was prevented by Admiral Montijo and the Generals who wish to hold out. The only answer given by the Government to Augusti directed him to continue doing his duty to the last extremity.

The bombardment of Santiago, as the details become known, creates a painful sensation of disenchantment and disappointment among the masses.

War Cloud Dispelled.

Paris, June 12.—The Niger boundary dispute, in which English papers and politicians have seen a war cloud, is practically settled. A convention covering all disputes is ready for signature. France gets two commercial depots on the lower Niger for outlets for French trade, with Upper Dahomey, while Great Britain's gain consists of territory on the gold coast.

SECOND FLOTILLA SAILS

Four Large Transports for Manila are Now Near Honolulu.

The Ocean Greyhound China the Flagship—More Than Four Thousand Troops Coming.

These two following paragraphs are displayed in bold type in the sixth edition of the San Francisco Bulletin of June 15:

The second Manila expedition sailed at 1:30 o'clock for Manila. Four vessels, the China, Colon, Zealandia and Senator, carried 4200 troops to aid Admiral Dewey. The fleet was accompanied down the bay by a large number of tug-boats and bay steamers.

The transports passed Meiggs wharf in the following order: China, leading as flagship, at 1:40 p. m.; Zealandia, 1:50 p. m., and Colon at 2 p. m.

The Forces on Board.

The following information regarding the troops carried by each ship is from the Chronicle:

Assigned to the China, Major-General Greene's flagship, and the largest, fastest and finest vessel of the fleet, are the First Regiment Colorado Volunteer Infantry, 1022 men; half a battalion of the Eighteenth United States Infantry, 150 men, and a detachment of United States Engineers, twenty men.

The accommodations of these men are admirable, compared with those supplied in the transports of the first expedition. This is especially so of the sleeping apartments, where every bunk is accessible without crawling over anybody, while aboard the City of Peking many of the berths were five deep, in close-piled tiers and along dark alleys two decks down. Another regulation for the comfort of the men in their sleeping apartments requires that there shall be no smoking there.

A military hospital, with a corps of four surgeons, three stewards, an acting steward and twenty-five privates has been established on the China in connection with about 4000 pounds of medical supplies and dressings calculated to last six months. In addition to these, there were sent aboard by the Red Cross Society twenty cases containing medicines, brandy, claret, canned peaches and other things for patients.

The Colon has four companies of the Twenty-third Infantry and two companies of the Eighteenth Infantry, both of the regular Army, and Battery A of the Utah Artillery. In the battery were 121 men and in each of the infantry companies seventy-five men besides the officers, making less than 600 military passengers. The control of the ship was given to Lieutenant-Colonel Clarence M. Bailey of the Eighteenth Infantry. Lieutenant-Colonel John W. French was in command of the battalion from the Twenty-third and Captain R. W. Young commanded the Utah artillerymen. Nebraska Regiment of Volunteers, numbering 1023 men and officers, are aboard the steamer Senator.

On the Zealandia are the Tenth Pennsylvania Volunteers and part of Battery B of the Utah Volunteer Artillery. With the gunners went two Maxim fighting machines, which, as a precautionary measure, were placed, ready for action, in the bow of the vessel. In all there are 640 privates and sixty officers on board.

Chamberlain's Pain Balm has no equal as a household liniment. It is the best remedy known for rheumatism, lame back neuralgia; while for sprains, cuts, bruises, burns, scalds and sore throat, it is invaluable. Wertz & Pike, merchants, Fernandina, Fla., write: "Everyone who buys a bottle of Chamberlain's Remedies, comes back and say it is the best medicine he has ever used." 50 cents per bottle by all dealers. Benson, Smith Co., General Agents.

Seattle Beer.

This ever popular Ranier beer is becoming a household word and "will you have a glass of Seattle" is more often heard than anything else. The Criterion Saloon have the beer on tap or in bottles.

THE THIRD EXPEDITION.

It Will Be Larger Than Either of the Previous Ones.

No definite date can be named at present of the sailing of the third expedition to the Philippines, says the San Francisco Bulletin of the 15th. Preparations will be pushed forward rapidly. Officials can say no more because they know no more. Thus far the steamers chartered for the next expedition are the Indiana, Ohio, Morgan City, City of Pueblo and three Northern Pacific steamers now at Seattle or en route hither from Puget Sound. There is talk of securing the City of Para and the San Blas.

The Indiana is now being outfitting at Pacific street dock. The Morgan City is ready to receive troops. The Ohio is not yet docked and the Pueblo is on her way to this port from Puget Sound.

Although June 25 has been mentioned, provisionally as the date of sailing, it is not probable that the expedition will weigh anchor until after July 4. It required twenty-two days to prepare for sailing the four vessels which went out today. At least that amount of time will be required to make ready the next expedition. No troops except the Idaho men are certain to go. As many troops will be sent as can be accommodated on the ships. About 8000 men will go with General King. The expedition will be larger if more vessels can be secured in time. It is just possible that the first two or three ships ready may be sent without waiting for others.

SITUATION AT SANTIAGO.

Famine is Impending—Position of Spanish Vessels Revealed by Spies.

Off Santiago De Cuba, Saturday, June 11, 4 p. m., per the Associated Press dispatch boat Wanda, via Kingston, Jamaica, Sunday, June 12, 7 p. m.—Rear Admiral Sampson and Commodore Schley, with their combined forces, are slowly but surely placing a network about Santiago de Cuba, and are cutting off so effectually every source of outside aid that within a short time starvation's tapping will give way to death's solid knock for admittance at the doors of the ill-fated place.

Within three days, three separate sources of supply and reinforcement have been cut off, and Santiago de Cuba is now isolated from the world and is down to famine rations.

When Admiral Cervera arrived at Santiago de Cuba with his fleet, the people there welcomed him for the relief they thought he would bring, but instead of food he brought 700 more men to feed. The only aid he had to offer was the tons of ammunition in his ships' magazines.

A map of the harbor furnished today by spies shows that after the bombardment of the harbor forts by Commodore Schley on May 31, the Spanish cruiser Reina Mercedes, which was disabled, was towed into the bay behind the So capa battery where she lies with two torpedo boats. Half a mile further up, under the lee of Cayo Smith and the mortar batteries, is the Vizeya, commanding with her broadside the two narrow entrances to the east and west of Cayo Smith.

Half a mile north, and at the gate of the third narrow entrance, lies the Almirante Oquendo, and half a mile to the northeast are the Cristobal Colon and the Maria Teresa.

The ships are about a mile and a half from the city proper, shall low water forbidding them to go much closer. The sunken collier Merrimac is directly in the narrow part of the channel.

Must Leave Canada.

Madrid, June 14.—It was officially announced today that Senor Dubosc, the former charge d'affaires at Washington, and Lieutenant Carranza, the former Spanish naval attaché at Washington, have been "invited" to leave Canada, owing to the "Canadian authorities having intercepted a letter which Lieutenant Carranza addressed to the Minister of Marine, giving an account of the condition of the American fortifications."

SIX STUDENTS GRADUATED

Oahu College Commencement at Pauahi Hall Last Night.

Theses Spoken by All the Graduates—Choice Music at Intervals—Very Large Assemblage.

Oahu College commencement exercises last night was a noteworthy event. Pauahi hall was tastefully decorated with the college colors of buff and blue.

Principal Hosmer presided. The graduating class sat with him on the platform, and was constituted by four boys and two girls, viz.: Martha Muriel Afong, William Benjamin Godfrey, Ferdinand Frederick Hedemann, Harry Alardt Kluegel, William Thomas Rawlins, Mary Cornwell Widdifield.

The audience was simply immense. All the seats in the main hall, including many extra chairs, were occupied and the class rooms opening from the hall were crowded, while a number coming a little late had only standing room in the lobbies.

An overture was played by the Hawaiian orchestra conducted by Prof. Berger. Dr. Bingham delivered an invocation. Then the delivery of theses, extemporaneously, began.

Organ: Grand Chorus... Dubois Mr. Ingalls. Solo: Arioso, "O Thou Cruel Sea!" Miss Hyde. Song: "Good Night!" Abt Glee Club. Finale: "Silver Crown" Kappay Hawaiian Orchestra.

The essays were very creditable as compositions and their delivery excellent. Miss Afong spoke on "Pandora;" Mr. Hedemann, "The Case of Captain Dreyfus;" Mr. Rawlins, "The Anglo-American Alliance;" Miss Widdifield, "Shakespeare the Master;" Mr. Kluegel, "The Will and the Way;" Mr. Godfrey, "The Decadence of Spain," also delivered the valedictory in good phrases.

Principal Hosmer, in presenting the diplomas, made an earnest address, in preliminary remarks on the work of the past term, he made special mention of Masters Seymour Hall and Edwin Hall, between whom the competition for merits had been very close.

MONTEREY MET HEAVY SEAS

Coal Swept Overboard So She Ran to San Diego.

Starts Out Once More With Hope of Better Weather In Lower Latitudes—Lots of Seasick Ones.

San Diego, June 10.—The United States steamship Monterey and her coal consort, the Brutus, supposed to be speeding on their way toward Manila, were sighted at noon today by the steamship Pomona.

The ensign accompanying the Paymaster stated that the vessels met heavy weather on the second day out and that the Monterey lost overboard eighty three tons of the coal which was secured in nettings on deck.

Captain Leutze of the Monterey stated this evening that the coal was lost about thirty miles outside of the Farallones, the netting giving away from repeated battering of the waves in heavy weather. It was then decided to come south and, after reloading at San Diego, start afresh for Honolulu.

San Diego, June 11.—The Monterey commenced taking on coal at 4 a. m. today. No men were allowed ashore, except one or two officers and the paymaster who came off for supplies.

Commander Coltman of the Brutus, lying outside, joined her and with the black smoke flying from their funnels both ships rapidly disappeared to the westward.

of the earth. He hoped that would go forward, but not impelled by selfish motives. On behalf of the trustees and himself it gave him pleasure to present the diplomas to the graduates. Mr. Birnie pronounced the benediction.

Good Words for Pastor Birnie.

The Ecclesiastical Council passed the following resolution in connection with the resignation of Rev. D. P. Birnie:

"Resolved: That while endorsing the action of the church and Pastor, we desire to say for our selves that it is with sincere regret that we part with one whom we have learned to esteem very highly. Rev. D. P. Birnie's pastorate in Honolulu, though brief, has been fruitful. Through the leadership by the blessing of God, large additions have been made to the Church roll, while as pastor and preacher he has endeared himself to the hearts of this people. He as proved himself well adapted to work for the young, especially young men. In organizing and carrying out plans for the moral and intellectual improvement of the youth of this city, we believe he has had no superior. We feel assured that this historic field of religious effort has been greatly blessed by his ministry, and that the best wishes and earnest prayers of God's people will follow him into other parts of the Master's vineyard, where he may be called to labor. We affectionately commend him to the churches, as a man of lofty Christian character, a wise pastor, and an effective preacher of the vital truths of the Gospel. We congratulate the members of this church on the service which has been rendered them, and pray that upon them the divine blessing may still rest; that the Great Head of the Church may send them another leader of like wisdom and devotion."

During the summer of 1891, Mr. Chas. P. Johnson, a well known attorney of Louisville, Ky., had a very severe attack of summer complaint. Quite a number of different remedies were tried, but failed to afford any relief. A friend who knew what was needed procured him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which quickly cured him and he thinks, saved his life. He says that there has not been a day since that time that he has not had this remedy in his household. He speaks of it in the highest praise and takes much pleasure in recommending it whenever an opportunity is offered. For sale by all dealers. Benson, Smith Co., General Agents.

It is Cool on Tantalus.

A friend of THE HAWAIIAN, who made a visit to Senator Schmidt's place on Monday, June 6th, reports that at 11:30 that forenoon the thermometer there registered 71°, while in Honolulu at the same time it was 81°. This difference of ten degrees means that if Honolulu is found to be too warm, that there is a much cooler place within an hour's ride of the city. The cry should oftener be, "Ho! for the mountains."

For more than fifty years has PERRY DAVIS' PAIN KILLER stood the test against all remedies prepared to eradicate pain, and today stands at the head of the list among the medicines that are so essential to keep at hand in the home.

It is not a new fangle remedy nor do the proprietors lay claim to any wonderful revelation of the ingredients that enter into the manufacture of this ever popular remedy.

It is perfectly harmless, you need have no fear of becoming habitually inclined to its use.

For Colic, Cramps, Dysentery, Colds, and all painful affections, a few doses will certainly give relief. You cannot afford to be without a bottle in the house.

Your forefathers used it and found it beneficial.

Why experiment with some remedy that is new and its effect on the system unknown?

It has many rivals but no equal.

The new 35c. size contains over double the quantity of the 25c. size.

A New Departure.

We are very anxious to show the public what a co operative store can do in the way of supplying the table with fresh imported groceries. So please don't forget that the Palama Co-operative Grocery Co.'s store is now open for business. First shipment of goods arrived per Mariposa from the coast. Among the many good things she brought are fresh frozen oysters, delicious smoked halibut, plate corn beef, 6 lb kits salt mackerel, smoked beef hams, 1 lb blocks creamy butter, and many other choice articles. This store has always enjoyed the reputation for low prices, but now under the co operative plan we are better able than ever to compete with even our celestial competitors. No harm in giving us a trial. Telephone 755 till new issue of book. Goods delivered to all parts of city and suburbs.

Kaena Point Rich in History and Natural Curiosities.

Excerpt from account of recent railroad excursion in The Hawaiian of last Saturday.

At Kaena Point the excursion train was stopped for nearly half an hour, to enable those who wished to tramp over the sand dunes to the point proper, where it was promised they would see a sight that would repay them for the exertion in the hot sun. Only four venturesome ones took the tramp, but they considered themselves more fortunate than those who remained in the train. In a little valley among the sand hills was found what one of the party described as "sand bushes." There were numberless trunks, branches and branchlets that indeed looked not unlike bushes. The "bushes" were clearly made of sand, which in some way had become hard as stone and stood firmly in their bed of loose, drifting sand. But what had caused this freak? Each trunk and branch was found to be cylindrical, and this probably explains how the bushes were formed. At some unknown time in the past, mucus-discharging insects or animals had evidently burrowed down in the sand bank, the tunnel, or rather well, thus made being kept from caving in by the slimy coating given it by the animal. In the course of time this lining became adamantine, and then the wind and the rain shifting and washing away the loose sand from about the animal's deep well-like home, the result has been what the excursionists found--sand bushes. Among the same sand dunes many pretty shells were found. But the sight worth the trouble of the tramp was the cape, or point itself, with its great expense of sharp lava rocks over which the surf was rolling, there being an occasional angry splash as some quarrelsome wave struck against an unyielding lava barrier.

There was a monument at Kaena Point that told of an almost forgotten past--a smooth road built across the rough lava and out into the water. Undoubtedly it served as a boat landing for ancient Hawaiian fishermen. The mention of this surf road brought out the statement from one of the excursionists that the coast from Kaena Point to Waialua was the best fishing "ground" to be found anywhere around the Islands, and that many years ago there was a dense population of native fishermen living close to the shore along this same stretch of coastway--as the occasional trace of what had formerly been stone fences bounding the little homesteads indicated.

"Curious things have happened in some places on these Islands," said the historian of the excursionists. "I can show you places now covered with stones that were formerly stoneless taro patches."

"What happened? was the soil washed away by floods, leaving the rocks exposed?"

"No; the stones rained down! That is no josh. There have been showers of big stones, in a few places, that have covered up and ruined cultivated fields. You don't believe it; but it is so."

These glimpses of an unchronicled past lent interest to the occasion as the excursion train sped backwards through what at one time was perhaps a populous village, now nothing but a stretch of rocky beach country; there was no occasion to question the authenticity of the history too closely. From Kaena Point, until Waialua is reached, the train runs in an exactly opposite direction from that in which it starts at Honolulu, as the map will show.

Impure Blood in Spring.

T. H. Davies' Death.

But meagre intelligence was received per this steamer concerning the death of Hon. T. H. Davies.

It appears that after Mr. Davies arrival at his home at Tunbridge Wells he was confined to the house with a bad cold on his lungs. This, however, improved so much he was able to go to London on the 18th of May to attend a meeting of a philanthropic society of which he was an officer. On the 23rd he had an attack of a dysenteric nature and on the 24th the symptoms took a decided turn for the worse. There was little pain but great exhaustion, and at 12:30 a. m. on the 25 Mr. Davies breathed his last.

ATTITUDE OF JAPAN.

Regrets War Duty on Tea—Does Not Banker After Philippines.

Washington, June 15.—The Japanese Minister, Mr. Tora Hoshi, talked in an informal way today on some of the recent phases of the war as they relate to the interests of the United States and Japan.

Mr. Hoshi expressed regret at the recent action of Congress in placing a duty of 10 cents per pound on tea. The effect of the law, he says, was comparatively small on other countries, as against Japan, where trade in cheap teas would be hurt by a uniform tax.

Mr. Hoshi does not question the right of the United States to make its own scheme of internal taxation, although he thinks a large tea tax will not be expedient at this time, when the United States is embarked in large enterprises in the Far East. The United States and Japan are on very intimate terms, and Mr. Hoshi feels that it would have been expedient for the Government to cultivate the friendly relations, both of sentiment and of commerce, with Japan at the expense of the revenue to be derived from taxing Japanese teas. While it is not so intended, the people of Japan will regard the duty as a discrimination on the part of the United States against Japan, as it will bear most heavily on it.

Mr. Hoshi says that Japan has no longings toward the Philippines. On the contrary, he says the acquisition of the big island of Formosa, which China ceded to Japan after the late war, has given Japan quite enough colonial territory to develop. Already it has cost the Japanese Government enormous sums to lay cables connecting Japan with Formosa, to build roads and to provide adequate military and naval defenses for this new colony. The returns from this island have gone to private merchants and owners of land, and none of this return has flowed into the government treasury. As a result the government is spending far more than it has received or ever will receive from Formosa. This fact, he added, shows that there is no ground for the reports that Japan may be anxious to acquire the Philippines in case the United States sees fit to part with them.

Success of War Loan.

Washington, June 15.—If there was ever any question about the success of the new 3 per cent war loans it has been set at rest by the way in which subscriptions are already coming in at the Treasury Department. The assurance of the success of the loan has, however, been made absolutely certain by two propositions, each covering the entire present issue of \$200,000,000. The subscription of the National City Bank, the Central Trust Company and Vermyea & Co., made the day the loan was opened, was for any part of the total issue that should not be taken by the public. Another proposal was formulated the same day covering the entire amount. It came from J. Pierpont Morgan and a number of associates.

General News.

President McKinley urges a liberal appropriation for the Paris Exposition.

Senator Aldrich has been re-elected in Rhode Island.

Officers implicated in the Jameson raid, excepting Major Sir John Willoughby and Colonel Francis Rhodes, will be reinstated on half pay in the British army and navy.

Lieutenant General Lord Frederick Ernest Seymour has been gazetted commander of the British troops in Canada, to succeed Lieutenant General A. G. Montgomery Moore.

Sir Arthur Laurence Haliburton, who was permanent Under Secretary for War from 1895 to 1897, has been gazetted Baron Windsor of Nova Scotia.

A sharp earthquake shock has been felt in Illinois, Indiana, Kentucky and Tennessee.
