# EXTENSION DIVISION

## Schedule of Extension Classes

### February-June, 1928

---

#### GENERAL INFORMATION

##### Purpose

With the slogan, "*Making the Territory of Hawaii our Campus*," the University of Hawaii Extension Division is organized for the purpose of serving the community in an educational way.

##### Courses

Afternoon and evening classes for adults are a part of this service, the courses being planned to suit a variety of interests and needs. In addition to the evening extension courses, there are a number of regular university courses scheduled in the late afternoon which are open to properly qualified adults. An announcement of these courses is found on page six of this circular.

New extension courses may be offered whenever a sufficient number of inquiries are received to warrant the formation of a class. To facilitate the introduction of new courses, it is suggested that several persons interested in the same subject form a group and then appeal to the Extension Division for instruction. Private classes within business or social organizations will be formed upon request if a sufficient registration is guaranteed.

##### Enrollment

Students who register for university credit must conform to the regular university requirements and must enroll before the first meeting of the class at the office of the University Registrar between the hours of 8 A. M. and 4 P. M., Mondays to Fridays. Students who register as "auditors" in credit courses and those who register for non-credit courses, register at the Extension Division during the same hours. For those who cannot register during these hours, special arrangements will be made if application is made to the Extension Division.

In courses where textbooks are required, it is desirable that students register at least ten days before the beginning of the course, so that books may be ordered from the Coast and be ready for distribution by the first or second meeting of the class.

##### General Regulations

Registration fee and deposit for textbooks must be paid at time of registration.

The first meeting of all classes is open to anyone. After the first meeting, an enrollment card or a visitor's card will be necessary to gain entrance to any class.

No transfer from one class to another may be made after the second meeting of the class. In the case of transfer, permission must be obtained from the Dean (in the case of credit courses), or from the Director of the Extension Division (in the case of non-credit courses).

No refund of fees will be made after the second meeting of any class.

No student will receive university credit who does not enroll by the fourth meeting of the class, except by the consent of the Director.

## SCHEDULE OF EXTENSION COURSES

Note: For more detailed information with regard to any of the courses listed, apply to the University Extension Division.

### CHEMISTRY

**E1. General Chemistry.** An introductory course setting forth the fundamental principles and laws of the science of chemistry; the role of chemistry in the life of man. Wednesday, February 8, 7:30-9; room 108, Gartley Hall. 15 lectures with demonstrations; \$10.00. (Will be given if 20 or more students apply for course.)

*Professor Neuffer.*

### COMMERCE

As part of its program of extension work, the University introduced a series of extension courses last semester designed to prepare a student for taking the territorial examination for Certified Public Accountants. Eight courses in accountancy are offered in this program, each course lasting 12 weeks. Two courses in the series, Accounting E1 and E3, were offered last semester. Accounting E1 will again be offered this semester and two new courses in the series, E2 and E4 will be added. This arrangement will enable a student interested in accounting to start the series at once instead of having to wait until next fall for the beginning of the series.

**E1. Elementary Accounting.** A study of the elementary principles and practices of bookkeeping and accounting. No previous knowledge of bookkeeping or accounting necessary. Monday, February 6, 7:30-9; room 3. 12 meetings; no credit; \$10.00. Text: Scovill's Elementary Accounting.

*Mr. Jeppson.*

**E2. Partnership and Corporation Accounting.** This course deals with a study of the principles and practices involved in accounting for partnerships and corporations. Prerequisite: Accounting E1 or equivalent. Tuesday, February 7, 7:30-9; room 3. 12 meetings; no credit; \$10.00.

*Mr. Jeppson.*

**E4. Cost Accounting.** This course deals with a study of the principles and practices involved in cost accounting. Prerequisite: Accounting E1, E2, E3, or practical cost experience. Wednesday, February 8, 7:30-9; room 3. 12 meetings; no credit; \$10.00. Text: Lawrence's Cost Accounting.

*Mr. Jeppson.*

**E10. Business Law.** Legal analysis of business transactions, financial procedure, contracts, property rights, negotiable instruments, etc. Thursday, February 9, 7:30-9; room 213. 15 meetings; no credit; \$10.00. (Will be given providing 20 persons register for course.)

*Mr. Kay.*

## EDUCATION

**E252b. Principles of Teaching in Secondary Education.** A continuation of course E252a offered during the first semester. New students may enter the course at this time if permission is gained from instructor. Monday, February 6, 3-4:30; Washington Junior High School. 18 meetings; 2 credits; \$10.00.

*Mr. Spencer.*

**E254b. Educational Tests and Measurements.** This course will survey the field of standard tests and make applications for the improvements of both school administration and classroom teaching. Registration presupposes a course in educational statistics equivalent to E254a given during the first semester. Tuesday, February 7, 7:15-8:45; room 107. 18 meetings; 2 credits; \$10.00.

*Mr. Spencer.*

**E280b. Mental Training and Moral Education.** A study of the principles underlying the development of efficient mental habits and desirable moral dispositions. A continuation of E280a offered during the first semester. Tuesday and Thursday, 2:30-4:15; Fort Street School; 4 credits; no fee.

*Mr. Axtelle.*

## HAWAIIAN

**E1. Conversational Hawaiian.** This course will endeavor to teach the student to understand Hawaiian by means of careful ear training and to speak it by affording a great deal of practice during the class period. The conversational method will be used. Some attention will also be given to grammar and reading. Wednesday, February 8, 7:15-8:45; room 205. 16 meetings; no credit; \$10.00.

*Mr. Woolley.*

## HOUSEHOLD ART AND SCIENCE

**E1. Practical Costume Design.** This course has been planned for those who aim for individuality in dress—they may learn to plan their own clothes, and if desired, to make them. Saturday, February 4, 9-11; room 120. 10 meetings; no credit; \$10.00.

*Mrs. Dahl, Mrs. Larson.*

**E2. Millinery.** This is a course in the creation of original designs for hats, and in the actual making of the hat from the fashioning of the frame to the finished model. It is intended for the woman who wishes to acquire the ability to design hats for herself or others. Friday, March 23, 9-11; room 120. 10 meetings; no credit; \$10.00.

*Mrs. Dahl, Mrs. Larson.*

## PHYSICS

**E1. Present Day Physics.** A series of twelve lectures which will consider the fundamental position of physics among the sciences, its relation to other sciences, and its historical growth leading to the great advances of the twentieth century. Though principles will be freely illustrated by material drawn from daily experience and general knowledge, this is not so much a practical course as a cultural one, attempting to orient the educated person of scientific inclination with respect to this dominant science. Tuesday, February 7, 7:30-9; lecture room, Gartley Hall. 12 meetings; no credit; \$10.00. (Will be given if 12 or more persons register for course.)

*Dr. Kirkpatrick.*

## METEOROLOGY

**E1. Outline of Meteorology.** A popular treatment of the subject. No previous technical knowledge requisite. A study of the atmosphere, its composition and evolution; the meteorological elements, how observed and measured; the influence of weather and climate upon man and his activities. Some principles and methods of forecasting weather. Monday, February 6, 7:30-9; room 106. 16 meetings; no credit; \$10.00.

*Mr. Voorhees.*

## SPANISH

**E1. Elementary Course.** Conversation and dictation. Both Castilian and Latin-American pronunciation taught. Text: Coester's Spanish Grammar. Thursday, February 2, 7:15-8:45. 18 meetings; 2 credits; \$10.00. (Will be given if 10 or more students apply for course.)

*Miss M. McGee.*
